

## **H. Res. 340**

### ***In the House of Representatives, U. S.,***

*September 24, 2007.*

Whereas there are more than 100,000 active missing person cases on any given day;

Whereas every year tens of thousands of people vanish under suspicious circumstances;

Whereas there are more than 40,000 sets of human remains held in the property rooms of medical examiners, coroners, and police departments across the country that cannot be identified by conventional means;

Whereas of such 40,000 sets of human remains, only six thousand sets of human remains have been entered into the National Crime Information Center (NCIC) and fewer have been entered into other Federal databases such as the Violent Criminal Apprehension Program (ViCap) or the Integrated Automated Fingerprint Identification System (IAFIS), or the National Missing Persons DNA Database;

Whereas many cities and counties continue to bury or cremate unidentified human remains without any attempt to collect DNA and many laboratories are unable to perform timely DNA analysis of human remains, especially when they are old or are degraded;

Whereas such victims and their families have been without a voice for far too long: Now, therefore, be it
