

110TH CONGRESS
2D SESSION

S. 2819

To preserve access to Medicaid and the State Children’s Health Insurance Program during an economic downturn, and for other purposes.

IN THE SENATE OF THE UNITED STATES

APRIL 3, 2008

Mr. ROCKEFELLER (for himself, Ms. SNOWE, and Mr. KENNEDY) introduced the following bill; which was read twice and referred to the Committee on Finance

A BILL

To preserve access to Medicaid and the State Children’s Health Insurance Program during an economic downturn, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Economic Recovery
5 in Health Care Act of 2008”.

6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

8 (1) State and local governments are an integral
9 part of our national economic engine. They provide

1 health care and a wealth of social services to millions
2 of Americans, particularly when the economy is
3 weak.

4 (2) During the last economic downturn, the
5 number of uninsured Americans would have been
6 millions more if Medicaid and the State Children's
7 Health Insurance Program (CHIP) had not re-
8 sponded to the twin challenges of an economic down-
9 turn and a sharp drop-off in private health insur-
10 ance coverage.

11 (3) In the last year, our unemployment rate has
12 increased to 5.0 percent with nearly 900,000 more
13 Americans without jobs. Because the majority of
14 Americans get their health insurance through their
15 jobs, the loss of a job often results in a simultaneous
16 loss of health insurance coverage.

17 (4) Medicaid fills the gap for working families
18 when they lose access to private coverage. For every
19 1 percent increase in the unemployment rate, Med-
20 icaid enrollment increases by 2,000,000 to
21 3,000,000 people.

22 (5) States experience enormous budget pres-
23 sures when the economy slows. By law, 49 States
24 are required to balance their budgets and, in times

1 of economic downturn, this task becomes signifi-
2 cantly more difficult.

3 (6) According to the National Governors Asso-
4 ciation, 18 States already face budget shortfalls to-
5 taling \$14,000,000,000 in 2008, and 21 States
6 project shortfalls totaling more than
7 \$32,000,000,000 in 2009. If the current downturn
8 follows the path of most recessions, between 35 and
9 40 States will face severe budget shortfalls in 2009.

10 (7) A critical factor in helping States sustain
11 Medicaid enrollment during the last economic down-
12 turn was the \$20,000,000,000 in State fiscal relief
13 that Congress enacted in 2003.

14 (8) Not only should Congress enact a similar
15 State fiscal relief provision in 2008, but Congress
16 should also delay the implementation of administra-
17 tive regulations that would reduce Federal Medicaid
18 matching payments at a time when States need
19 greater Federal resources.

20 (9) There is no question that health care is eco-
21 nomic stimulus.

22 (10) Keeping Medicaid and CHIP whole shores
23 up the safety net for vulnerable working families.
24 People who are able to get the health services they

1 need are more likely to be able to continue working
2 and contribute to the economy as it recovers.

3 (11) Leading economists have found that tar-
4 geted State aid would generate increased economic
5 activity of \$1.36 for each dollar of cost. The increase
6 in Federal dollars to States generates business activ-
7 ity, jobs, and wages that States would not otherwise
8 see.

9 **SEC. 3. PRESERVING ACCESS TO MEDICAID AND CHIP DUR-**
10 **ING AN ECONOMIC DOWNTURN.**

11 (a) PROHIBITION.—Effective on the date of enact-
12 ment of this Act, notwithstanding any other provision of
