

110TH CONGRESS
1ST SESSION

S. 972

To provide for the reduction of adolescent pregnancy, HIV rates, and other sexually transmitted diseases, and for other purposes.

IN THE SENATE OF THE UNITED STATES

MARCH 22, 2007

Mr. LAUTENBERG (for himself, Mr. KENNEDY, Mrs. MURRAY, Mr. SCHUMER, Mrs. BOXER, Mr. HARKIN, and Mr. BROWN) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To provide for the reduction of adolescent pregnancy, HIV rates, and other sexually transmitted diseases, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Responsible Education
5 About Life Act”.

6 **SEC. 2. FINDINGS.**

7 The Congress finds as follows:

8 (1) The American Medical Association
9 (“AMA”), the American Nurses Association

1 (“ANA”), the American Academy of Pediatrics
2 (“AAP”), the American College of Obstetricians and
3 Gynecologists (“ACOG”), the American Public
4 Health Association (“APHA”), and the Society of
5 Adolescent Medicine (“SAM”) support responsible
6 sexuality education that includes information about
7 both abstinence and contraception.

8 (2) Recent scientific reports by the Institute of
9 Medicine, the American Medical Association, and the
10 Office on National AIDS Policy stress the need for
11 sexuality education that includes messages about ab-
12 stinence and provides young people with information
13 about contraception for the prevention of teen preg-
14 nancy, HIV/AIDS and other sexually transmitted
15 diseases (“STDs”).

16 (3) Government-funded abstinence-only-until-
17 marriage programs are precluded from discussing
18 contraception except to talk about failure rates. An
19 October 2006 report from the Government Account-
20 ability Office concluded that the current administra-
21 tion of abstinence-only-until-marriage programs by
22 the Department of Health and Human Services
23 (“HHS”) fails to require medical accuracy of the
24 vast majority of funded programs and that no reg-
25 ular monitoring of medical accuracy is being carried

1 out by HHS. The Government Accountability Office
2 also reported on the Department’s total lack of ap-
3 propriate and customary measurements to determine
4 if funded programs are effective. In addition, a sepa-
5 rate letter from the Government Accountability Of-
6 fice in October 2006 to the Secretary of Health and
7 Human Services Michael Leavitt contained a legal
8 finding that the Department was in violation of Fed-
9 eral law, in particular section 317P(c)(2) of the
10 Public Health Services Act (42 U.S.C. 247b-
11 17(c)(2)), for not requiring abstinence-only-until-
12 marriage programs to provide full and medically ac-
13 curate information about the effectiveness of
14 condoms. The Department has argued that the ab-
15 stinence-only-until-marriage programs are exempt
16 from the law; however, the Government Account-
17 ability Office disagrees.

18 (4) A 2006 statement from the American Pub-
19 lic Health Association (“APHA”) “recognizes the
20 importance of abstinence education, but only as part
21 of a comprehensive sexuality education pro-
22 gram. . . . APHA calls for repealing current federal
23 funding for abstinence-only programs and replacing
24 it with funding for a new Federal program to pro-
25 mote comprehensive sexuality education, combining

1 information about abstinence with age-appropriate
2 sexuality education.”.

3 (5) The Society for Adolescent Medicine
4 (“SAM”) in a 2006 position paper found the fol-
5 lowing: “Efforts to promote abstinence should be
6 provided within health education programs that pro-
7 vide adolescents with complete and accurate infor-
8 mation about sexual health, including information
9 about concepts of healthy sexuality, sexual orienta-
10 tion and tolerance, personal responsibility, risks of
11 HIV and other STIs and unwanted pregnancy, ac-
12 cess to reproductive health care, and benefits and
13 risks of condoms and other contraceptive meth-
14 ods. . . . Current funding for abstinence-only pro-
15 grams should be replaced with funding for programs
16 that offer comprehensive, medically accurate sexu-
17 ality education”.

18 (6) Research shows that teenagers who receive
19 sexuality education that includes discussion of con-
20 traception are more likely than those who receive ab-
21 stinence-only messages to delay sexual activity and
22 to use contraceptives when they do become sexually
23 active.

24 (7) Comprehensive sexuality education pro-
25 grams respect the diversity of values and beliefs rep-

1 resented in the community and will complement and
2 augment the sexuality education children receive
3 from their families.

4 (8) The median age of puberty is 13 years and
5 the average age of marriage is over 26 years old.
6 American teens need access to full, complete, and
7 medically and factually accurate information regard-
8 ing sexuality, including contraception, STD/HIV
9 prevention, and abstinence.

10 (9) Although teen pregnancy rates are decreas-
11 ing, the United States has the highest teen preg-
12 nancy rate in the industrialized world with between
13 750,000 and 850,000 teen pregnancies each year.
14 Between 75 and 90 percent of teen pregnancies
15 among 15- to 19-year olds are unintended.

16 (10) A November 2006 study of declining preg-
17 nancy rates among teens concluded that the reduc-
18 tion in teen pregnancy between 1995 and 2002 is
19 primarily the result of increased use of contracep-
20 tives. As such, it is critically important that teens
21 receive accurate, unbiased information about contra-
22 ception.

23 (11) More than eight out of ten Americans be-
24 lieve that young people should have information
25 about abstinence and protecting themselves from un-

1 planned pregnancies and sexually transmitted dis-
2 eases.

3 (12) The United States has the highest rate of
4 infection with sexually transmitted diseases of any
5 industrialized country. In 2005, there were approxi-
6 mately 19,000,000 new cases of sexually transmitted
7 diseases, almost half of them occurring in young
8 people ages 15 to 24. According to the Centers for
9 Disease Control and Prevention, these sexually
10 transmitted diseases impose a tremendous economic
11 burden with direct medical costs as high as
12 \$14,100,000,000 per year.

13 (13) Each year, teens in the United States con-
14 tract an estimated 9.1 million sexually transmitted
15 infections. Each year, one in four sexually active
16 teens contracts a sexually transmitted disease.

17 (14) Nearly half of the 40,000 annual new
18 cases of HIV infections in the United States occur
19 in youth ages 13 through 24. Approximately 50
20 young people a day, an average of two young people
21 every hour of every day, are infected with HIV in
22 the United States.

23 (15) African-American and Latino youth have
24 been disproportionately affected by the HIV/AIDS
25 epidemic. Although African-American adolescents

1 ages 13 through 19 represent only 15 percent of the
 2 adolescent population in the United States, they ac-
 3 counted for 73 percent of new AIDS cases reported
 4 among teens in 2004. Although Latinos ages 20
 5 through 24 represent only 18 percent of the young
 6 adults in the United States, they accounted for 23
 7 percent of the new AIDS cases in 2004.

8 **SEC. 3. ASSISTANCE TO REDUCE TEEN PREGNANCY, HIV/
 9 AIDS, AND OTHER SEXUALLY TRANSMITTED
 10 DISEASES AND TO SUPPORT HEALTHY ADO-
 11 LESCENT DEVELOPMENT.**

12 (a) IN GENERAL.—Each eligible State shall be enti-
 13 tled to receive from the Secretary of Health and Human
 14 Services, for each of the fiscal years 2008 through 2012,
 15 a grant to conduct programs of family life education, in-
 16 cluding education on both abstinence and contraception
 17 for the prevention of teenage pregnancy and sexually
 18 transmitted diseases, including HIV/AIDS.

19 (b) REQUIREMENTS FOR FAMILY LIFE PROGRAMS.—
 20 For purposes of this Act, a program of family life edu-
 21 cation is a program that—

- 22 (1) is age-appropriate and medically accurate;
- 23 (2) does not teach or promote religion;
- 24 (3) teaches that abstinence is the only sure way
- 25 to avoid pregnancy or sexually transmitted diseases;

1 (4) stresses the value of abstinence while not ig-
2 noring those young people who have had or are hav-
3 ing sexual intercourse;

4 (5) provides information about the health bene-
5 fits and side effects of all contraceptives and barrier
6 methods as a means to prevent pregnancy;

7 (6) provides information about the health bene-
8 fits and side effects of all contraceptives and barrier
9 methods as a means to reduce the risk of con-
10 tracting sexually transmitted diseases, including
11 HIV/AIDS;

12 (7) encourages family communication about
13 sexuality between parent and child;

14 (8) teaches young people the skills to make re-
15 sponsible decisions about sexuality, including how to
16 avoid unwanted verbal, physical, and sexual ad-
17 vances and how not to make unwanted verbal, phys-
18 ical, and sexual advances; and

19 (9) teaches young people how alcohol and drug
20 use can effect responsible decisionmaking.

21 (c) ADDITIONAL ACTIVITIES.—In carrying out a pro-
22 gram of family life education, a State may expend a grant
23 under subsection (a) to carry out educational and motiva-
24 tional activities that help young people—

1 (1) gain knowledge about the physical, emo-
2 tional, biological, and hormonal changes of adoles-
3 cence and subsequent stages of human maturation;

4 (2) develop the knowledge and skills necessary
5 to ensure and protect their sexual and reproductive
6 health from unintended pregnancy and sexually
7 transmitted disease, including HIV/AIDS through-
8 out their lifespan;

9 (3) gain knowledge about the specific involve-
10 ment of and male responsibility in sexual decision-
11 making;

12 (4) develop healthy attitudes and values about
13 adolescent growth and development, body image,
14 gender roles, racial and ethnic diversity, sexual ori-
15 entation, and other subjects;

16 (5) develop and practice healthy life skills in-
17 cluding goal-setting, decisionmaking, negotiation,
18 communication, and stress management;

19 (6) promote self-esteem and positive inter-
20 personal skills focusing on relationship dynamics, in-
21 cluding, but not limited to, friendships, dating, ro-
22 mantic involvement, marriage and family inter-
23 actions; and

24 (7) prepare for the adult world by focusing on
25 educational and career success, including developing

1 skills for employment preparation, job seeking, inde-
2 pendent living, financial self-sufficiency, and work-
3 place productivity.

4 **SEC. 4. SENSE OF CONGRESS.**

5 It is the sense of Congress that while States are not
6 required to provide matching funds, they are encouraged
7 to do so.

8 **SEC. 5. EVALUATION OF PROGRAMS.**

9 (a) IN GENERAL.—For the purpose of evaluating the
10 effectiveness of programs of family life education carried
11 out with a grant under section 3, evaluations of such pro-
12 gram shall be carried out in accordance with subsections
13 (b) and (c).

14 (b) NATIONAL EVALUATION.—

15 (1) IN GENERAL.—The Secretary shall provide
16 for a national evaluation of a representative sample
17 of programs of family life education carried out with
18 grants under section 3. A condition for the receipt
19 of such a grant is that the State involved agree to
20 cooperate with the evaluation. The purposes of the
21 national evaluation shall be the determination of—

22 (A) the effectiveness of such programs in
23 helping to delay the initiation of sexual inter-
24 course and other high-risk behaviors;

1 (B) the effectiveness of such programs in
2 preventing adolescent pregnancy;

3 (C) the effectiveness of such programs in
4 preventing sexually transmitted disease, includ-
5 ing HIV/AIDS;

6 (D) the effectiveness of such programs in
7 increasing contraceptive knowledge and contra-
8 ceptive behaviors when sexual intercourse oc-
9 curs; and

10 (E) a list of best practices based upon es-
11 sential programmatic components of evaluated
12 programs that have led to success in subpara-
13 graphs (A) through (D).

14 (2) REPORT.—A report providing the results of
15 the national evaluation under paragraph (1) shall be
16 submitted to the Congress not later than March 31,
17 2011, with an interim report provided on a yearly
18 basis at the end of each fiscal year.

19 (c) INDIVIDUAL STATE EVALUATIONS.—

20 (1) IN GENERAL.—A condition for the receipt
21 of a grant under section 3 is that the State involved
22 agree to provide for the evaluation of the programs
23 of family education carried out with the grant in ac-
24 cordance with the following:

1 (A) The evaluation will be conducted by an
2 external, independent entity.

3 (B) The purposes of the evaluation will be
4 the determination of—

5 (i) the effectiveness of such programs
6 in helping to delay the initiation of sexual
7 intercourse and other high-risk behaviors;

8 (ii) the effectiveness of such programs
9 in preventing adolescent pregnancy;

10 (iii) the effectiveness of such pro-
11 grams in preventing sexually transmitted
12 disease, including HIV/AIDS; and

13 (iv) the effectiveness of such programs
14 in increasing contraceptive knowledge and
15 contraceptive behaviors when sexual inter-
16 course occurs.

17 (2) USE OF GRANT.—A condition for the re-
18 ceipt of a grant under section 3 is that the State in-
19 volved agree that not more than 10 percent of the
20 grant will be expended for the evaluation under
21 paragraph (1).

22 **SEC. 6. DEFINITIONS.**

23 For purposes of this Act:

24 (1) The term “eligible State” means a State
25 that submits to the Secretary an application for a

1 grant under section 3 that is in such form, is made
2 in such manner, and contains such agreements, as-
3 surances, and information as the Secretary deter-
4 mines to be necessary to carry out this Act.

5 (2) The term “HIV/AIDS” means the human
6 immunodeficiency virus, and includes acquired im-
7 mune deficiency syndrome.

8 (3) The term “medically accurate”, with respect
9 to information, means information that is supported
10 by research, recognized as accurate and objective by
11 leading medical, psychological, psychiatric, and pub-
12 lic health organizations and agencies, and where rel-
13 evant, published in peer review journals.

14 (4) The term “Secretary” means the Secretary
15 of Health and Human Services.

16 **SEC. 7. APPROPRIATIONS.**

17 (a) IN GENERAL.—For the purpose of carrying out
18 this Act, there are authorized to be appropriated such
19 sums as may be necessary for each of the fiscal years 2008
20 through 2012.

21 (b) ALLOCATIONS.—Of the amounts appropriated
22 under subsection (a) for a fiscal year—

23 (1) not more than 7 percent may be used for
24 the administrative expenses of the Secretary in car-
25 rying out this Act for that fiscal year; and

- 1 (2) not more than 10 percent may be used for
- 2 the national evaluation under section 5(b).

○
