

communication services for the benefit of consumers. Congress inadvertently overlooked some important changes that were required to complete this transformation and, as a result, had to make technical changes to correct these oversights.

One technical correction still needs to be made, however: the International Center Act, ICA, must be amended to ensure that Intelsat's lease of the land on which its headquarters is located comports with the law. The U.S. Government owns this land. The State Department and Intelsat entered into a long-term lease for the land on which Intelsat built its headquarters many years ago. Intelsat constructed and fully owns the building. The lease was originally entered into pursuant to the ICA and has been amended several times over the years, most recently in 2006. The ICA, however, limits leases of this property to foreign governments and international organizations. At the time Intelsat leased the property and built its headquarters building, it was an international organization.

When Congress mandated in the ORBIT Act that Intelsat privatize, it created a problem regarding Intelsat's land lease. Once Intelsat was no longer an international organization, it technically no longer satisfied the requirements of the ICA. In other words, Congress' action requiring Intelsat to privatize has left the company's right to continue to lease the land in question. But it was never the intent of the ORBIT Act to create this uncertainty with respect to the legality of Intelsat's land lease.

The bill I am introducing amends the ICA to eliminate this uncertainty that the ORBIT Act created regarding the lease. It is necessary to ensure that the now privatized Intelsat can continue to lease the land. My bill would in no way alter the rights or obligations of the parties or any of the lease terms or conditions. It in no way expands any of Intelsat's rights under the existing lease. Nor does it change in any way the rights or powers that the State Department currently has under the lease. The Secretary of State will continue to have the same right to prohibit any use, development, occupancy, lease, or sublease as is currently authorized under the existing lease. My bill makes no substantive change in the relationship between the State Department and Intelsat. It merely eliminates the inconsistency between the lease and the ICA that was caused by Intelsat's privatization—which Congress required when it passed the ORBIT Act.

The State Department has approved this legislation to amend the ICA. I hope my colleagues will support the bill, too, and act on it expeditiously.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 2322

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,
