

change there. However, now is the time for us to stand against President Chavez and for the United States government to firmly protect our nation and our economy against an oil war with Venezuela and its allies. That is why I have called for having proactive policies in place, such as increasing our Strategic Petroleum Reserve. I believe that it is in our national security interest to begin increasing our Strategic Petroleum Reserve in order to replace Venezuela's supply to the United States. By doing this, we will let the markets know that the United States government will protect the American people from those who sponsor terrorism and would use oil as an economic and political weapon against our nation.

The FARC is despised across Latin America and many Venezuelans are openly denouncing President Chavez for his alliance and open support of a terrorist organization. In President Chavez's effort to take the focus off of his failed domestic policies and his recent loss in the December referendum, Mr. Chavez is increasingly trying to create an international crisis with neighboring Colombia and he is seeking to destabilize all of Latin America. We must recognize this gathering storm and must stop Mr. Chavez in his tracks by designating Venezuela as a state sponsor of terrorism. By taking this prudent step, we will be standing against President Chavez and his menacing alliances and we will be defending the people of the region against a dangerous thug and dictator in Latin America.

Thank you for your consideration.

Sincerely,

CONNIE MACK,
Member of Congress.

RECOGNIZING CAL STATE FULLERTON ON ITS 50TH ANNIVERSARY

The SPEAKER pro tempore. Pursuant to the order of the House of January 4, 2007, the gentleman from California (Mr. ROYCE) is recognized during morning-hour debate for 3 minutes.

Mr. ROYCE. Thank you, Madam Speaker.

I would like to take this opportunity to recognize my alma mater, California State University, Fullerton as it celebrates its 50th anniversary. In 1957, California State University, Fullerton was founded by an act of the California legislature. The enrollment at that time consisted of 452 students when those first classes were offered in leased quarters at Sunny Hills High School prior to the college moving to the temporary buildings that became a permanent site in 1960 in Fullerton. Half a century after its founding, more than 185,000 graduates have successfully developed careers in hundreds of industries.

Each year, more than 36,000 students attend classes at Cal State Fullerton, choosing from 105 different degree programs including 55 undergraduate, 49 graduate and a doctorate in education at eight distinct colleges: Arts, Business and Economics, Communications, Education, Engineering and Computer Science, Health and Human Development, Humanities and Social Sciences, and Natural Sciences and Mathematics, all of which provide an outstanding education to the students.

Its studies have led students to careers in teaching, nursing, business, the arts, communications, health care, engineering, sports, the sciences and more. Cal State Fullerton graduates have gone on to successful careers and their impact is felt not only in the State of California and the Nation but throughout the world. Among these graduates are Academy Award-winning actors and screenwriters, television news reporters, Pulitzer Prize-winning journalists, successful novelists, doctors, lawyers, judges, teachers, professional athletes, entrepreneurs, scientists and business leaders and even a NASA astronaut who served on the crew of the Space Shuttle Endeavor that launched into space in August of 2007.

Cal State Fullerton's student body also reflects the diversity of the State of California. As one of the most diverse campuses in the State and in this Nation, the university welcomes students of different ethnic groups, cultures and religions. In fact, many of these students are the first in their families to earn a university diploma.

The university received full accreditation from the Western College Association in 1961 and Cal State Fullerton now holds 14 national accreditations and associations. In addition, "Titan Pride" has been the rallying cry for 12 national team championships in seven different sports.

Finally, Cal State Fullerton is known for its distinguished faculty, many of whom have garnered international and national reputations in their respective fields.

It is with great pride that I recognize Cal State Fullerton for 50 wonderful years.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord God of the universe and eternal Creator, this morning, long before dawn, the space shuttle *Endeavor* lifted from the surface of the Earth to find orbit in space. This exploratory journey into the beyond to the international space station is designed to be the longest shuttle mission in history.

Lord, guide and protect the seven astronauts as they work to expand build-

ing in space and prepare for future scientific discoveries. Help the United States to remain a leader in encouraging the development of technology, space medicine, architecture, and understanding that will better human life on Earth and life in this universe.

May this global mission, with its Japanese component of the Kibo laboratory and the Canadian robotic device called Dextre become splendid additions to the international space station and inspire young people to study science and to build global harmony.

In You, O Lord, we build trust, and with You, O Lord, we uncover the mysteries of the universe, now and forever. Amen.

(Mr. WALZ of Minnesota asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WALZ of Minnesota. Madam Speaker, this Congress has finally understood and is realizing what the American people have known for so long, that after 6 years of mismanagement of our economy by the Bush administration that our economy has failed America's working class.

This Congress is working to change that, having already passed a bipartisan economic stimulus package that will help jump-start the economy and create up to half a million new American jobs. Later this spring, recovery rebate checks of hundreds of dollars will be in the hands of 130 million
