CONGRATULATING X PRIZE FOUNDATION

Mr. REID. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of S. Res. 486.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 486) congratulating the X PRIZE Foundation for their efforts to inspire a new generation of viable, super-efficient vehicles that could help break the addiction of the United States to oil and stem the effects of climate change through the Automotive X PRIZE competition.

There being no objection, the Senate proceeded to consider the resolution.

Mr. BINGAMAN. Mr. President, I am pleased to submit today, on behalf of Senator LUGAR, Senator STABENOW, Senator DOMENICI and others, a resolution recognizing an exciting private-sector effort to encourage breakthrough technology in fuel economy. This effort, patterned on the Ansari X-prize competition that led to the development of spacecraft that is likely to make commercial space travel a reality, seeks to apply the same competitive spirit among the best minds in the United States to the pernicious problem of our outsized dependence on foreign oil.

The competition will launch at the upcoming New York Auto Show and sets an ambitious goal for claiming the prize; the winning entrant must produce a commercially viable vehicle that gets at least 100 miles per gallon fuel efficiency over a series of road trials meant to simulate real world driving conditions. It should be an exciting competition, and it is certainly a worthy goal. I wish them the best of luck and look forward to seeing the innovations they inspire.

Mr. REID. I ask unanimous consent that the resolution and preamble be agreed to, en bloc, and the motions to reconsider be laid on the table, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 486) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 486

Whereas the United States is heavily dependent on foreign sources of oil that are concentrated in tumultuous countries and regions;

Whereas the national security and economic prosperity of the United States demand that the United States moves toward a sustainable energy future;

Whereas the ability of foreign governments to assert great control over oil production allows unfriendly regimes to use energy exports as leverage against the United States and allies of the United States;

Whereas continued reliance on the use of greenhouse gas intensive-fuel may have significant economic and political impacts as the effects of global climate change take hold;

Whereas the transportation sector is heavily dependent on oil, which makes the people of the United States vulnerable to oil price fluctuation and is a major source of greenhouse gas emissions;

Whereas many promising technologies exist that could lead to a breakthrough vehicle that will meet the need for sustainable transportation;

Whereas breakthroughs are often achieved by the free market fueling the entrepreneurial spirit of inventors and investors;

Whereas the Automotive X PRIZE is a private, independent, technology-neutral competition being developed by the X PRIZE Foundation to inspire a new generation of viable, super-efficient vehicles that could help break the addiction of the United States to oil and stem the effects of climate change; and

Whereas the Automotive X PRIZE will award a multi-million dollar purse to teams that can design, build, and demonstrate production-capable vehicles that achieve 100 miles per gallon of fuel or an equivalent: Now, therefore, be it

Resolved, That it is the sense of the Senate that the Senate—

(1) commends the leadership of the X PRIZE Foundation for their efforts to inspire a new generation of viable, super-efficient vehicles that could help break the addiction of the United States to oil and stem the effects of climate change through the Automotive X PRIZE competition;

(2) congratulates the X PRIZE Foundation on the innovation and vision of the Foundation to bring together some of the finest minds in government, nongovernment, institutions of higher education, and industry to advise and participate in the Automotive X PRIZE competition; and

(3) applauds the ongoing commitment of the X PRIZE Foundation for encouraging solutions to some of greatest challenges facing humanity, as exemplified in the Automotive X PRIZE.
