Congressional Record

PROCEEDINGS AND DEBATES OF THE *110th* CONGRESS, SECOND SESSION

Vol. 154 WASHINGTON, TUESDAY, JULY 8, 2008 *No. 111*

House of Representatives

The House met at 2 p.m. and was called to order by the Speaker pro tempore (Mr. JACKSON of Illinois).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
July 8, 2008.

I hereby appoint the Honorable JESSE L. JACKSON, Jr., to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

We praise and bless You, Father, Lord of heaven and earth, for You have revealed to those of humble heart Your glorious presence. To all who gaze at the beauty of Your creation and are filled with wonder, You speak volumes and fill them with joy.

Children need no argument to know Your existence, they simply take delight in the world You give them and revel in love. The more mature notice You in the crossroads of their lives and praise You for opening the way before them. Encouraged by Your understanding of their goodness, they are willing to take greater risks because of their belief.

Be with all the seekers of truth and workers for justice; that their dreams for America and their hopes for a better world be realized. Together all believers in this Nation and in Your Providence give You glory now and forever. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentlewoman from Guam (Ms. BORDALLO) come forward and lead the House in the Pledge of Allegiance.

Ms. BORDALLO led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

JUNE 27, 2008.

Hon. NANCY PELOSI,
Speaker, The Capitol, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on June 27, 2008, at 10:19 a.m.:

That the Senate concurs in the House amendment to the Senate amendment to the House amendment to the Senate amendment H.R. 2642.

That the Senate passed with an amendment H.R. 802.

That the Senate passed with an amendment H.R. 3986.

That the Senate passed S. 2565.

That the Senate passed S. 3218.

That the Senate agreed to H. Con. Res. 379.

With best wishes, I am,

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.
DEBORAH M. SPRIGGS,
Deputy Clerk.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

JUNE 27, 2008.

Hon. NANCY PELOSI,
Speaker, The Capitol, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on June 27, 2008, at 3:51 p.m.:

That the Senate passed without amendment H.R. 3721.

That the Senate passed without amendment H.R. 4185.

That the Senate passed without amendment H.R. 5168.

That the Senate passed without amendment H.R. 5395.

That the Senate passed without amendment H.R. 5479.

That the Senate passed without amendment H.R. 5517.

That the Senate passed without amendment H.R. 528.

That the Senate passed without amendment H.R. 3564.

That the Senate passed S. 3015.

That the Senate passed S. 3082.

That the Senate agreed to H. Con. Res. 377.

With best wishes, I am,

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.
DEBORAH M. SPRIGGS,
Deputy Clerk.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

JULY 8, 2008.

Hon. NANCY PELOSI,
Speaker, The Capitol, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II

Printed on recycled paper.

of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on July 8, 2008, at 9:35 a.m.:

That the Senate passed without amendment H.R. 3891.

That the Senate passed S. Res. 608.

With best wishes, I am,

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 4 of rule I, the following enrolled bills were signed:

by Speaker pro tempore HOYER on Friday, June 27, 2008:

H.R. 2642, making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2008, and for other purposes

H.R. 5690, to remove the African National Congress from treatment as a terrorist organization for certain acts or events, provide relief for certain members of the African National Congress regarding admissibility, and for other purposes.

NONPROLIFERATION PROGRESS

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, last week was an extraordinary week of success for America in promoting nuclear nonproliferation.

On Friday, the North Koreans destroyed the cooling tower at their Yongbyon nuclear complex. This, plus other recent concessions by that regime, will lead to additional aid for the people of that impoverished nation.

In India, the U.S.-India civilian nuclear agreement appears to be closer to approval. This is an important step to bring clean nuclear energy to the citizens of fast-growing India.

In Iraq, there was the removal of the last remnants of Saddam Hussein's nuclear program when 550 metric tons of yellowcake, the seed material for higher-grade nuclear enrichment, was shipped to Canada.

However, the threat of Iran continues to grow. The Iranian Government has confirmed it will not comply with the U.N. Security Council resolutions requiring it to stop enriching uranium.

It is encouraging to see the people of North Korea, India and Iraq benefit from moral cooperation, but it is sad to see the misguided government of Iran further isolate its civilian population and put them at risk.

In conclusion, God bless our troops, and we will never forget September the 11th.

REPUBLICANS WORK ON MEANINGFUL SOLUTIONS

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker, while the Democrat Congress sits on its hands, House Republicans are answering the challenge of $4 gas, taking our meaningful solutions to produce American-made energy, lower gas prices and promote energy independence directly to the American people.

When the French people were starving, the Queen said, ''Let them eat cake.'' Speaker PELOSI's office says, ''Right now our strategy on gas prices is drive small cars and wait for the wind.''

The American people can't wait for the Democrats to decide what to do. They want answers now, and Republicans stand ready with solutions. The Republican plan will increase production of American-made energy in an environmentally safe way. It will promote new, clean, and reliable sources of energy while cutting red tape and increasing the supply of American-made fuel and energy. The House Republican plan also encourages greater energy efficiency by offering conservative tax credits to Americans who make their home, car and business more energy efficient.

So while Democrats continue to sit on the sidelines, House Republicans will continue to fight for meaningful solutions to lower gas prices and promote energy independence.

CONSERVATION TAX INCENTIVES

(Mr. WITTMAN of Virginia asked and was given permission to address the House for 1 minute.)

Mr. WITTMAN of Virginia. Mr. Speaker, I rise today to discuss one of the most pressing issues facing our country today, and that is high gas prices. Soaring energy and gas prices are burdening American families and American businesses. We can encourage greater energy efficiency and offer some relief to families and businesses by offering conservation tax incentives. And we should make home energy efficiency upgrades tax deductible.

At a time when families are choosing between buying gas and buying food, we should make it easier for American families. Congress should provide incentives for home builders and homeowners to make their homes more energy efficient. Having more energy efficient homes will help families by leaving them with more money in their wallet to pay their bills. This is also good for the environment, and also reduces our dependence on foreign oil.

In addition to helping families, we should also offer investment expensing for industrial and commercial building efficiency upgrades. Helping businesses afford to be more energy efficient will help businesses afford to keep their workers employed.

Families cannot afford to wait any longer for relief at the pump. We need to start today to encourage greater energy efficiency by offering these tax incentives by helping families and businesses to save money and reduce their dependence on foreign oil.

START THE DRILL

(Mr. BROUN of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BROUN of Georgia. Mr. Speaker, right now America is drilling for ice on Mars; yet we cannot drill for oil in America. It's insane.

Coach Mark Richt of Georgia Bulldog football fame has three words, a phrase he uses to energize his football team: Finish the drill.

I have three words as a Congressman from Georgia and Representative of this body to energize America: Start the drill. Now.

DEMOCRAT MAJORITY COSTING AMERICAN PEOPLE

(Mr. WESTMORELAND asked and was given permission to address the House for 1 minute.)

Mr. WESTMORELAND. Mr. Speaker, I come to you today to help with some statistics that I thought you might be interested in. The fact is that we have a new majority. We have had a new majority now for about 18 months or so in this body. I wanted to give you some statistics about what has happened since the new majority has taken over.

A gallon of gas has gone from $2.35 to $4.11, an increase of $1.76. A loaf of bread has gone from $1.14 to $1.37, a 23-cent increase. A gallon of milk has gone from $3 to $3.76 a gallon. Dow Jones has gone from 12,463 to 11,812, losing 651 points.

Mr. Speaker, the American people I think were misled with the new majority. But I think business and Wall Street and the price to consumers is now telling the tale of exactly what high taxes and the threat of high taxes and the willingness to be energy dependent is costing the American people.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Record votes on postponed questions will be taken after 6:30 p.m. today.

SHARK CONSERVATION ACT OF 2008

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5741) to amend the High Seas Driftnet Fishing Moratorium Protection Act and the Magnuson-Stevens Fishery Conservation and Management

Act to improve the conservation of sharks, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 5741

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Shark Conservation Act of 2008''.

SEC. 2. AMENDMENT OF HIGH SEAS DRIFTNET FISHING MORATORIUM PROTECTION ACT.

Section 610(a) of the High Seas Driftnet Fishing Moratorium Protection Act (16 U.S.C. 1826k(a)) is amended—

(1) by striking so much as precedes paragraph (1) and inserting the following:

''(a) IDENTIFICATION.—The Secretary shall identify, and list in the report under section 607—

''(1) a nation if—'';

(2) in paragraph (1) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively;

(3) by redesignating paragraphs (1) through (3) as subparagraphs (A) through (C), respectively;

(4) by moving subparagraphs (A) through (C) (as so redesignated) 2 ems to the right;

(5) in subparagraph (C) (as so redesignated) by striking the period at the end and inserting ''; and''; and

(6) by adding at the end the following:

''(2) a nation if—

''(A) fishing vessels of that nation are engaged, or have been engaged during the preceding calendar year, in fishing activities or practices that target or incidentally catch sharks; and

''(B) the nation has not adopted a regulatory program to provide for the conservation of sharks, including measures to prohibit removal of any of the fins of a shark (including the tail) and discarding the carcass of the shark at sea, that is comparable to that of the United States, taking into account different conditions.''.

SEC. 3. AMENDMENT OF MAGNUSON-STEVENS FISHERY CONSERVATION AND MANAGEMENT ACT.

Section 307(1) of Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1857(1)) is amended—

(1) by amending subparagraph (P) to read as follows:

''(P)(i) to remove any of the fins of a shark (including the tail) at sea;

''(ii) to have custody, control, or possession of any such fin aboard a fishing vessel unless it is naturally attached to the corresponding carcass;

''(iii) to transfer any such fin from one vessel to another vessel at sea, or to receive any such fin in such transfer, without the fin naturally attached to the corresponding carcass; or

''(iv) to land any such fin that is not naturally attached to the corresponding carcass, or to land any shark carcass without such fins naturally attached;''; and

(2) by striking the matter following subparagraph (R) and inserting the following:

''For purposes of subparagraph (P), there shall be a rebuttable presumption that if any shark fin (including the tail) is found aboard a vessel, other than a fishing vessel, without being naturally attached to the corresponding carcass, such fin was transferred in violation of subparagraph (P)(iii) and that if, after landing, the total weight of shark fins (including the tail) landed from any vessel exceeds five percent of the total weight of shark carcasses landed, such fins were taken, held, or landed in violation of subparagraph (P).''.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

□ 1415

Ms. BORDALLO. Mr. Speaker, I rise in support of my bill, H.R. 5741, the Shark Conservation Act of 2008.

Sharks are vital to the health of marine ecosystems, but the practice of shark finning is driving their decline worldwide. Eight years ago, Congress passed the Shark Finning Prohibition Act to protect these critical species. H.R. 5741 reconfirms the original intent of Congress to prevent both shark finning and the transshipment and landing of shark fins without carcasses. It also provides an important new enforcement mechanism requiring that sharks be landed with their fins naturally attached.

Reducing shark finning is imperative to conserving sharks and the marine ecosystems of which they are a part. I am grateful that the bill has the strong support of my colleagues from the Western Pacific, namely Congressman ABERCROMBIE from the State of Hawaii and Congressman FALEOMAVAEGA from American Samoa, as well as the ranking member of the Fisheries, Wildlife and Oceans Subcommittee, Mr. BROWN from South Carolina.

I would note that last week, the National Oceanic and Atmospheric Administration raised some concerns with the narrow aspect of the bill as it might relate to shark fishing on the west coast. We are waiting for additional information from the agency and will work with them as the bill proceeds to determine how this concern can be addressed without creating any unintended loopholes in the shark finning ban.

Mr. Speaker, H.R. 5741 is a timely bill, and it's an important bill, and I ask my colleagues to support its passage.

I reserve the balance of my time.

Mr. WITTMAN of Virginia. Mr. Speaker, I rise in support of H.R. 5741, the Shark Conservation Act of 2008.

The United States is a leader in international efforts to manage and conserve shark species, and the United States currently has a shark finning ban in place and guidelines under the Magnuson-Stevens Fishery Conservation and Management Act to rebuild overfished shark populations.

I would like to take a moment to recognize the Virginia Institute of Marine Science in my district for their leading shark research. As a member of the National Shark Research Consortium, researchers at Virginia Institute of Marine Science have been monitoring shark populations in the mid-Atlantic since 1973. This long-term data set represents the longest running shark monitoring program in the world. This important research has contributed to the body of knowledge about sharks while providing important data for policymakers to better manage and conserve shark species.

H.R. 5741 is necessary because of a mistake in a court ruling opening a loophole in the Shark Finning Prohibition Act of 2000. The ruling allowed fishermen to transfer shark fins at sea to transshipment vessels. This is clearly a violation of that Act, and this bill closes that loophole.

While supporting the bill, some Members do remain concerned that this broad legislation may be viewed as short-circuiting the ability of interested parties to comment on the proposal through the normal Regional Fishery Management Council rulemaking process. In addition, this bill may have unintended consequences for at least one State's shark fishery landing law.

While I urge a ''yes'' vote on H.R. 5741, these concerns require continued attention as this legislation moves forward in the Senate.

Ms. BORDALLO. Mr. Speaker, first I want to thank the gentleman from Virginia for his support of this particular piece of legislation.

I have no additional requests for time and would reserve the balance of my time.

Mr. WITTMAN of Virginia. Mr. Speaker, I yield as much time as he may consume to the gentleman from the State of Georgia (Mr. WESTMORELAND).

Mr. WESTMORELAND. Thank you.

And while I stand to ask the Members to also support this legislation that the gentlelady from Guam has introduced, I think it's interesting, though, that we're here today talking about the carcasses of sharks, Mr. Speaker. We debated the other day on the floor monkey bites, and we have had some quite interesting conversations on the floor about legislation that's important and important to the American people.

But I find that the one subject that we're not talking about on the floor of the House, or at least not being able to debate on the floor of the House and have had any legislation come forward on the floor of the House that we could really debate and get into a debate and talk about statistics and reality is the fact of drilling and becoming more energy independent. That is something, I think, that is concerning most houses and most families right now.

And the fact that, Mr. Speaker, the price of a gallon of gas is $4.11, $4.11, that's a sticker shock that we can't seem to get our head around and get

our hands on is that a gallon of gas today is costing $4.11. And the reason it's costing $4.11 is because we are still completely dependent on foreign oil.

Now, while I know that there are a lot of people at home sitting around considering what their chances of getting bitten by a monkey might be or their care and real concern about a shark carcass, I think they're more concerned about a gallon of gas, the price of that.

So Mr. Speaker, I would encourage you to encourage the rest of the members of the majority party, those that are in control, to have a good discussion, a good debate on a piece of legislation that would allow drilling on our Outer Continental Shelf in the areas of the West that have shale oil, off the coast of Alaska, and ANWR where we know that there are billions of gallons of gas. And not only that, but we're fixing to be in a natural gas crisis.

Natural gas is about twice what it was, I believe, last year, and if that's the case, people are not going be able to heat their homes. And so while we think that driving is expensive now with gas at $4.11 a gallon, imagine having home heating oil or natural gas to heat your house for your family and your bill is going to be twice as high as it was. Well, Mr. Speaker, you won't even be able to drive to a warm place.

And so these are some concerns that we need to be talking about now. Not only are we into the immediate crisis of high prices of gas, but we're in the crisis to come of our home heating oil and natural gas.

So I hope that while we take these things serious about the carcasses of these sharks, chances of getting bit by a monkey, that we would consider our dependence on foreign oil and what we can do to become self-dependent. It's all of the above. It's going to take some conservation, but we cannot conserve our way out of this. It's going to take looking at new technologies for wind and for solar. But we cannot build enough solar panels nor enough windmills to supply this country with its energy needs.

We don't need to be doing away with our coal-fired plants because 85 percent of the power of this country, Mr. Speaker, comes from those coal-fired plants. We need to be looking at new exploration, new ways to increase the oil production of this country so that we might be more energy independent and not so dependent on the people around this world who are mainly and most of the time not our friends, Mr. Speaker.

So I hope you will take that message back—and I know you will—to the majority and hopefully we can bring forth some legislation that we can discuss and see if we can't get gas prices down for the American people.

Ms. BORDALLO. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, I would just simply say to the gentleman that it is not only the sharks in the sea who fear being definned, it is also the American people who are being fleeced at the pump by Big Oil. And further, Mr. Speaker, I would say to the gentleman that during this summer as many Americans flock to the beach, they have a greater chance of being bitten by Big Oil than by a shark.

Also, Mr. Speaker, our colleague from American Samoa (Mr. FALEOMAVAEGA) is attending to official business in his district today and is therefore unable to be here on the floor for this debate. I note, however, for the record his involvement in drafting and advancing this legislation in committee.

Mr. Speaker, I reserve the balance of my time.

Mr. WITTMAN of Virginia. Mr. Speaker, I have no additional speakers and yield back the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I rise today in strong support of H.R. 5741, recognizing the urgency for the U.S. to maintain its leadership role in conserving sharks and the marine ecosystems of which they are apart.

First and foremost, I want to commend the chief sponsor and good friend, Ms. BORDALLO of Guam, for her initiative in introducing this important legislation. I also want to commend Chairman RAHALL and other members of the Committee on Natural Resources for their strong support of this bipartisan legislation.

As a member of the Subcommittee on Fisheries, Wildlife, and Oceans, I want to personally commend my good friend, Chairwoman BORDALLO, for her tireless work on the many issues affecting our oceans. This legislation in particular is an example of the efforts by the subcommittee and the Congress in promoting and preserving our natural resources.

Mr. Speaker, the increased amount of shark finning in the recent decades has taken a devastating toll on our efforts in conserving sharks and the marine ecosystems in which they are apart. The removal of shark fins and dumping of the carcasses at sea is being fueled by the shark-fin trade, which in turn is being driven by the rapid economic growth in Asia. It is our responsibility to further the prohibition of shark finning in order to preserve the conservation of sharks and their corresponding ecosystems. We have already taken steps in alleviating this problem when Congress enacted the Shark Finning Prohibition of 2000, prohibiting U.S. fishermen from removing the fins of sharks and discarding the carcasses at sea, and from landing or transporting shark fins without the corresponding carcasses.

In April, Chairwoman BORDALLO introduced this legislation which includes specific measures that will strengthen the implementation and enforcement of the shark finning prohibition. The bill clarifies that all vessels, not just fishing vessels, are prohibited from having custody, control, or possession of shark fins without the corresponding carcass, thereby eliminating the unexpected loophole related to the transport of shark fins. This legislation removes the 5 percent ''fin to carcass'' ratio, by requiring that fishermen land all sharks with fins naturally attached which can later be easily removed after such inspection, making it easier for authorities to determine whether a given set of fins belonged to a particular dressed carcass.

Finally, this bill amends the High Seas Driftnet Moratorium Protection Act to allow the Secretary of Commerce to identify and list nations that have not adopted a regulatory program for the conservation of sharks similar to the U.S.

Mr. Speaker, it is necessary that we pass this legislation immediately given the damage that is constantly affecting our national marine ecosystems by the removal of sharks who have an integral part in sustaining life in these ecosystems.

I urge my colleagues tom pass H.R. 5741. Again, I thank my colleagues for their support of this important bill.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support the bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 5741, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

PRESERVE AMERICA AND SAVE AMERICA'S TREASURES ACT

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3981) to authorize the Preserve America Program and Save America's Treasures Program, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3981

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Preserve America and Save America's Treasures Act''.

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—PRESERVE AMERICA PROGRAM

Sec. 101. Purpose.
Sec. 102. Definitions.
Sec. 103. Establishment.
Sec. 104. Designation of Preserve America Communities.
Sec. 105. Regulations.
Sec. 106. Authorization of appropriations.

TITLE II—SAVE AMERICA'S TREASURES PROGRAM

Sec. 201. Purpose.
Sec. 202. Definitions.
Sec. 203. Establishment.
Sec. 204. Regulations.
Sec. 205. Authorization of appropriations.

TITLE III—GENERAL PROVISIONS

Sec. 301. Prohibition on funding certain activities.

TITLE I—PRESERVE AMERICA PROGRAM

SEC. 101. PURPOSE.

The purpose of this title is to authorize the Preserve America Program, including—

(1) the Preserve America grant program within the Department of the Interior;

(2) the recognition programs administered by the Advisory Council on Historic Preservation; and

(3) the related efforts of Federal agencies, working in partnership with State, tribal, and local governments and the private sector, to support and promote the preservation of historic resources.

SEC. 102. DEFINITIONS.

In this title:

(1) COUNCIL.—The term ''Council'' means the Advisory Council on Historic Preservation.

(2) HERITAGE TOURISM.—The term ''heritage tourism'' means the conduct of activities to attract and accommodate visitors to a site or area based on the unique or special aspects of the history, landscape (including trail systems), and culture of the site or area.

(3) PROGRAM.—The term ''program'' means the Preserve America Program established under section 103(a).

(4) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

SEC. 103. ESTABLISHMENT.

(a) IN GENERAL.—There is established in the Department of the Interior the Preserve America Program, under which the Secretary, in partnership with the Council, may provide competitive grants to States, local governments (including local governments in the process of applying for designation as Preserve America Communities under section 104), Indian tribes, communities designated as Preserve America Communities under section 104, State historic preservation offices, and tribal historic preservation offices to support preservation efforts through heritage tourism, education, and historic preservation planning activities.

(b) ELIGIBLE PROJECTS.—

(1) IN GENERAL.—The following projects shall be eligible for a grant under this title:

(A) A project for the conduct of—

(i) research on, and documentation of, the history of a community; and

(ii) surveys of the historic resources of a community.

(B) An education and interpretation project that conveys the history of a community or site.

(C) A planning project (other than building rehabilitation) that advances economic development using heritage tourism and historic preservation.

(D) A training project that provides opportunities for professional development in areas that would aid a community in using and promoting its historic resources.

(E) A project to support heritage tourism in a Preserve America Community designated under section 104.

(F) Other nonconstruction projects that identify or promote historic properties or provide for the education of the public about historic properties that are consistent with the purposes of this Act.

(2) LIMITATION.—In providing grants under this title, the Secretary shall only provide 1 grant to each eligible project selected for a grant.

(c) PREFERENCE.—In providing grants under this title, the Secretary may give preference to projects that carry out the purposes of both the program and the Save America's Treasures Program.

(d) CONSULTATION AND NOTIFICATION.—

(1) CONSULTATION.—The Secretary shall consult with the Council in preparing the list of projects to be provided grants for a fiscal year under the program.

(2) NOTIFICATION.—Not later than 30 days before the date on which the Secretary provides grants for a fiscal year under the program, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate, the Committee on Appropriations of the Senate, the Committee on Natural Resources of the House of Representatives, and the Committee on Appropriations of the House of Representatives a list of any eligible projects that are to be provided grants under the program for the fiscal year.

(e) COST-SHARING REQUIREMENT.—

(1) IN GENERAL.—The non-Federal share of the cost of carrying out a project provided a grant under this title shall be not less than 50 percent of the total cost of the project.

(2) FORM OF NON-FEDERAL SHARE.—The non-Federal share required under paragraph (1) shall be in the form of—

(A) cash; or

(B) donated supplies and related services, the value of which shall be determined by the Secretary.

(3) REQUIREMENT.—The Secretary shall ensure that each applicant for a grant has the capacity to secure, and a feasible plan for securing, the non-Federal share for an eligible project required under paragraph (1) before a grant is provided to the eligible project under the program.

SEC. 104. DESIGNATION OF PRESERVE AMERICA COMMUNITIES.

(a) APPLICATION.—To be considered for designation as a Preserve America Community, a community, tribal area, or neighborhood shall submit to the Council an application containing such information as the Council may require.

(b) CRITERIA.—To be designated as a Preserve America Community under the program, a community, tribal area, or neighborhood that submits an application under subsection (a) shall, as determined by the Council, in consultation with the Secretary, meet criteria required by the Council and, in addition, consider—

(1) protection and celebration of the heritage of the community, tribal area, or neighborhood;

(2) use of the historic assets of the community, tribal area, or neighborhood for economic development and community revitalization; and

(3) encouragement of people to experience and appreciate local historic resources through education and heritage tourism programs.

(c) LOCAL GOVERNMENTS PREVIOUSLY CERTIFIED FOR HISTORIC PRESERVATION ACTIVITIES.—The Council shall establish an expedited process for Preserve America Community designation for local governments previously certified for historic preservation activities under section 101(c)(1) of the National Historic Preservation Act (16 U.S.C. 470a(c)(1)).

(d) GUIDELINES.—The Council, in consultation with the Secretary, shall establish any guidelines that are necessary to carry out this section.

SEC. 105. REGULATIONS.

The Secretary shall develop any guidelines and issue any regulations that the Secretary determines to be necessary to carry out this title.

SEC. 106. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out this title $25,000,000 for each of fiscal years 2009, 2010, 2011, 2012 and 2013, to remain available until expended.

TITLE II—SAVE AMERICA'S TREASURES PROGRAM

SEC. 201. PURPOSE.

The purpose of this title is to authorize within the Department of the Interior the Save America's Treasures Program, to be carried out by the Director of the National Park Service, in partnership with—

(1) the National Endowment for the Arts;

(2) the National Endowment for the Humanities;

(3) the Institute of Museum and Library Services;

(4) the National Trust for Historic Preservation;

(5) the National Conference of State Historic Preservation Officers;

(6) the National Association of Tribal Historic Preservation Officers; and

(7) the President's Committee on the Arts and the Humanities.

SEC. 202. DEFINITIONS.

In this title:

(1) COLLECTION.—The term ''collection'' means a collection of intellectual and cultural artifacts, including documents, sculpture, and works of art.

(2) ELIGIBLE ENTITY.—The term ''eligible entity'' means a Federal entity, State, local, or tribal government, educational institution, or nonprofit organization.

(3) HISTORIC PROPERTY.—The term ''historic property'' has the meaning given the term in section 301 of the National Historic Preservation Act (16 U.S.C. 470w).

(4) NATIONALLY SIGNIFICANT.—The term ''nationally significant'' means a collection or historic property that meets the applicable criteria for national significance, in accordance with regulations promulgated by the Secretary pursuant to section 101(a)(2) of the National Historic Preservation Act (16 U.S.C. 470a(a)(2)).

(5) PROGRAM.—The term ''program'' means the Save America's Treasures Program established under section 203(a).

(6) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior, acting through the Director of the National Park Service.

SEC. 203. ESTABLISHMENT.

(a) IN GENERAL.—There is established in the Department of the Interior the Save America's Treasures program, under which the amounts made available to the Secretary under section 205 shall be used by the Secretary, in consultation with the organizations described in section 201, subject to subsection (f)(1)(B), to provide grants to eligible entities for projects to preserve nationally significant collections and historic properties.

(b) DETERMINATION OF GRANTS.—Of the amounts made available for grants under section 205, not less than 50 percent shall be made available for grants for projects to preserve collections and historic properties, to be distributed through a competitive grant process administered by the Secretary, subject to the eligibility criteria established under subsection (e).

(c) APPLICATIONS FOR GRANTS.—To be considered for a competitive grant under the program an eligible entity shall submit to the Secretary an application containing such information as the Secretary may require.

(d) COLLECTIONS AND HISTORIC PROPERTIES ELIGIBLE FOR COMPETITIVE GRANTS.—

(1) IN GENERAL.—A collection or historic property shall be provided a competitive grant under the program only if the Secretary determines that the collection or historic property is—

(A) nationally significant; and

(B) threatened or endangered.

(2) ELIGIBLE COLLECTIONS.—A determination by the Secretary regarding the national significance of collections under paragraph (1)(A) shall be made in consultation with the organizations described in section 201, as appropriate.

(3) ELIGIBLE HISTORIC PROPERTIES.—To be eligible for a competitive grant under the program, a historic property shall, as of the date of the grant application—

(A) be listed in the National Register of Historic Places at the national level of significance; or

(B) be designated as a National Historic Landmark.

(e) SELECTION CRITERIA FOR GRANTS.—

(1) IN GENERAL.—The Secretary shall not provide a grant under this title to a project for an eligible collection or historic property unless the project—

(A) eliminates or substantially mitigates the threat of destruction or deterioration of the eligible collection or historic property;

(B) has a clear public benefit; and

(C) is able to be completed on schedule and within the budget described in the grant application.

(2) PREFERENCE.—In providing grants under this title, the Secretary may give preference to projects that carry out the purposes of both the program and the Preserve America Program.

(3) LIMITATION.—In providing grants under this title, the Secretary shall only provide 1

grant to each eligible project selected for a grant.

(f) CONSULTATION AND NOTIFICATION BY SECRETARY.—

(1) CONSULTATION.—

(A) IN GENERAL.—Subject to subparagraph (B), the Secretary shall consult with the organizations described in section 201 in preparing the list of projects to be provided grants for a fiscal year by the Secretary under the program.

(B) LIMITATION.—If an entity described in subparagraph (A) has submitted an application for a grant under the program, the entity shall be recused by the Secretary from the consultation requirements under that subparagraph and subsection (a).

(2) NOTIFICATION.—Not later than 30 days before the date on which the Secretary provides grants for a fiscal year under the program, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate, the Committee on Appropriations of the Senate, the Committee on Natural Resources of the House of Representatives, and the Committee on Appropriations of the House of Representatives a list of any eligible projects that are to be provided grants under the program for the fiscal year.

(g) COST-SHARING REQUIREMENT.—

(1) IN GENERAL.—The non-Federal share of the cost of carrying out a project provided a grant under this title shall be not less than 50 percent of the total cost of the project.

(2) FORM OF NON-FEDERAL SHARE.—The non-Federal share required under paragraph (1) shall be in the form of—

(A) cash; or

(B) donated supplies or related services, the value of which shall be determined by the Secretary.

(3) REQUIREMENT.—The Secretary shall ensure that each applicant for a grant has the capacity and a feasible plan for securing the non-Federal share for an eligible project required under paragraph (1) before a grant is provided to the eligible project under the program.

SEC. 204. REGULATIONS.

The Secretary shall develop any guidelines and issue any regulations that the Secretary determines to be necessary to carry out this title.

SEC. 205. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out this title $50,000,000 for each fiscal year, to remain available until expended.

TITLE III—GENERAL PROVISIONS

SEC. 301. PROHIBITION ON FUNDING CERTAIN ACTIVITIES.

None of the funds provided pursuant to this Act may be used to study or establish a National Heritage Area or fund a National Heritage Area management entity.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, both the Preserve America and the Save America's Treasures Programs provide Federal matching grants for important historic preservation projects. Preserve America provides grants for interpretation and education regarding historic resources, while the Save America's Treasures Program provides grants for rehabilitation in restoration work.

Both programs, Mr. Speaker, are enormously successful because they leverage limited Federal dollars for much larger State, local, and private investment in preserving and interpreting our history and our heritage. These programs were created by executive order, and this legislation simply provides statutory authorization for both of these programs. H.R. 3981 is a top priority for the Bush administration.

I ask my colleagues to support passage of this measure.

I reserve the balance of my time.

Mr. WITTMAN of Virginia. Mr. Speaker, Preserve America has been an administration initiative that encourages and supports community efforts to preserve cultural and natural heritage. Preserve America communities in Virginia's First Congressional District include Prince William County, Spotsylvania County, and Williamsburg, Virginia.

The Save America's Treasures Program provides grants preserving certain historic sites and collections including Kenmore Mansion in Fredericksburg and the restoration of the original military campaign tents used by George Washington that are now currently on display at the Colonial National Historic Park in Yorktown, Virginia.

I would like to acknowledge the positive contributions that have been made to responsible preservation, particularly by Mr. TURNER of Ohio who has long promoted property rights as a key component of these programs. Mr. TURNER's contribution to this legislation has brought us to where we are today by ensuring the constitutional rights of private property owners while promoting historic and cultural preservation.

Mr. Speaker, I reserve the balance of my time.

Ms. BORDALLO. Mr. Speaker, I yield such time as he may consume to the gentleman from North Carolina (Mr. MILLER), the bill's sponsor.

□ 1430

Mr. MILLER of North Carolina. Mr. Speaker, I rise in strong support of the Preserve America and Save America's Treasures Act, which will, as the two speakers already have said, authorize two programs that are critical to the future of America's historic preservation efforts.

I want to thank Chairman RAHALL and Ranking Member YOUNG of the Natural Resources Committee, as well as Chairman GRIJALVA and Ranking Member BISHOP of the National Parks, Forests and Public Lands Subcommittee, for their work in shepherding this legislation, as well as the historic preservation community for their support for this bill.

The Save America's Treasures Program was started as part of the White House Millennium Council chaired by then-First Lady Hillary Clinton. The program has provided much-needed bricks and mortar support and has succeeded beyond anyone's expectations, funding America's most threatened cultural treasures for almost 10 years.

The current administration, under the leadership of First Lady Laura Bush, created the Preserve America Program to support community preservation efforts by providing funding for heritage tourism and preservation planning.

The two programs serve different purposes, and together, they provide a comprehensive approach to preservation and community revitalization.

Mr. MIKE TURNER and I announced the Preserve America and Save America's Treasures Act in the Sewall-Belmont House, just a couple of blocks from here. The Sewall-Belmont House was designated a national historic landmark for its significance in American history. It was the headquarters for the National Woman's Party, led by Alice Paul, and their movement to secure women the right to vote.

Despite that obvious historical significance, it was not long ago that the Sewall-Belmont House was threatened by a leaking roof and by significant other structural damage. The Sewall-Belmont House was the first building to receive funding as a Save America's Treasures project.

In my own district, Save America's Treasures funding has helped preserve the F.W. Woolworth Building in downtown Greensboro. Mr. Speaker, as you know well, on February 1, 1960, four African American students from North Carolina A&T University sat down at the ''white only'' lunch counter and refused to move until they were treated the same as the white customers.

Within 2 months, the sit-ins at Woolworth's inspired similar demonstrations throughout the South involving thousands of protesters. The sit-in at the Woolworth's lunch counter was the moment when the civil rights struggle in this country became a mass movement.

The Woolworth Building and its lunch counter are sacred grounds of the civil rights movement and must be preserved for future generations.

The Preserve America Program has designated more than 500 neighborhoods, cities, and towns throughout the United States as Preserve America Communities and has awarded grants since 2006. Earlier this year, the Department of the Interior made its first round of 2008 grants of $2.9 million to 43 projects in 25 States. This September they will award an additional $4.3 million in grants. The projects support heritage tourism, the commercial revitalization of neglected downtowns, and the reuse of historic properties.

Mr. Speaker, America's historic places remind us of who we are. They remind us of our history. We cannot cheat our children of that connection with their past, that understanding of who they are.

The Preserve America Program, through its grant opportunities and community designations, ensures that important communities and neighborhoods will survive for future generations.

Historic preservation helps revitalize cities, towns, and rural areas nationwide where dramatic population shifts, outdated planning, and the loss of manufacturing jobs have made market-driven reinvestment impossible without some assistance.

Rehabilitation of vacant and underused historic structures can attract new investment in growing communities. Whether it is preserving main streets of downtowns, or reusing historic properties as affordable housing, preservation makes history come alive in communities throughout the country.

Mr. Speaker, I am pleased that the House is now considering these two successful programs. Through passing this bill and authorizing these programs, Congress can affirm our commitment to saving our natural heritage, our historic heritage, and revitalizing our communities.

Once again, I ask my colleagues for their support for the Preserve America and Save America's Treasures Act.

Mr. WITTMAN of Virginia. Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio (Mr. TURNER).

Mr. TURNER. Mr. Speaker, today I speak in favor of H.R. 3981, the Save America's Treasures/Preserve America Authorization Act of 2008.

I want to thank Representative MILLER, the co-chair of the Historic Preservation Caucus, for his collaboration on this bill, as well as Senator DOMENICI and Senator CLINTON for their work in moving this bill forward in the Senate.

I also want to thank Chairman RAHALL and Ranking Member YOUNG of the House Natural Resources Committee, as well as Chairman GRIJALVA and Ranking Member BISHOP of the House Natural Resources Subcommittee on National Parks, Forests and Public Lands for their work on this bill.

Finally, I want to commend the work of the national historic preservation advocacy groups, many of which have collaborated with our offices in crafting this bill.

To this date, the Save America's Treasures and Preserve America Programs have been authorized through executive order, and I want to point out that through both First Lady Laura Bush's and former First Lady Hillary Clinton's efforts and commitment to historic preservation, these programs have been a success for many local communities.

H.R. 3981 would ensure that these two important programs continue by codifying them into law.

Both the Save America's Treasures and Preserve America Programs have had an enormous impact on historic preservation nationally, as well as in Ohio. Ohio is home to nine Preserve America communities, Dayton, my hometown, being one. In fact, Dayton recently received a Preserve America Grant that will help analyze heritage tourism in the area.

Additionally, since 1999, Ohio has been the home of 45 Save America's Treasures Projects. These projects total nearly $11 million in funding toward bricks and mortar restoration of important Ohio historic assets such as the Paul Lawrence Dunbar House in Dayton; Cincinnati's Union Terminal; the Wright Flyer III in Dayton, Ohio; the Palace Theatre in Columbus; and last, but not least, The National First Ladies Library in Canton, Ohio.

It's certainly interesting to note that the First Ladies Library was a recipient of the two programs started by these two First Ladies.

H.R. 3981 will ensure a stable and continuous funding source is authorized to assist in funding these important projects.

Additionally, the bill ensures that public-private partnerships remain a key aspect to the preservation of important historic assets by requiring non-Federal funds be used in collaboration with these Federal grants.

The authorization of these programs will help highlight the importance of historic preservation as an economic development tool, as well as a core national value.

It is clear that saving our heritage in these buildings and neighborhoods is not just a way to pay homage to our past. It is also an important way to boost our economy in the present, in addition to the future.

This bill enjoys a broad range of support, including many historic preservation organizations and over 55 cosponsors in the House.

Again, I want to thank Congressman MILLER for being the lead sponsor of this legislation, as well as the leadership of the Resources Committee for ushering this bill through the committee process.

This bill is also important because many of the recipients are organizations that are staffed by volunteers. These programs recognize their efforts to preserve the fabric of their community and help tell the story of our Nation's heritage. These programs work.

I urge my colleagues to vote in favor of this legislation.

JULY 7, 2008.

Hon. NICK RAHALL,
Chairman, Committee on Natural Resources, House of Representatives, Washington, DC.
Hon. DON YOUNG,
Ranking Member, Committee on Natural Resources, House of Representatives, Washington, DC.

DEAR CHAIRMAN RAHALL AND RANKING MEMBER YOUNG: We are writing as representatives of the national preservation community in support of H.R. 3981, a bill that would authorize both the Preserve America (PA) and Save America's Treasures (SAT) programs. Our organizations support this measure and we are grateful to Reps. Miller and Turner for their initiative in authoring this legislation, as well as their leadership as co-chairs of the House Historic Preservation Caucus. We hope that Congress will pass H.R. 3981, legislation which is critical to the historic preservation community.

Despite all of their success and support, the PA and SAT programs are unauthorized and funded from year-to-year through the annual appropriations process. We would like to see Congress authorize SAT and PA with a long-term programmatic and funding vision that would enable both programs to work in harmony with the other components of the national historic preservation program. Authorization would codify the successful implementation and practices of the ten-year old SAT program along with its newer partner, Preserve America, led by First Ladies Clinton and Bush respectively. While each of these historic preservation initiatives apply to projects of a different nature—SAT for ''bricks and mortar'' preservation and PA for heritage education and outreach, it is important that they should be authorized and mutually supportive of each other to maximize federal resources and goals in saving the nation's historic assets. We already know that PA and SAT are working together at specific locations throughout the country.

While much has been achieved since SAT was established, the need remains great and we must look to future needs. In just the first eight years of the program, 2,702 grant applications were received, representing requests for more than $1.17 billion in critical preservation assistance. SAT has provided more than $264 million in federal challenge grants to 1,024 historic preservation projects through 2007. These funds have helped bring new life to irreplaceable historic treasures—including buildings, documents and works of art—in every state. SAT funds have made a huge difference, but without Congress' ongoing commitment to the program, it would be virtually impossible to stimulate the required dollar-for-dollar non-federal matching contributions and hard to imagine where else the money would come from to preserve our national heritage.

That same ongoing need applies to PA projects as well with grants to support community efforts that demonstrate sustainable uses of historic and cultural sites, and the economic and educational opportunities related to heritage tourism. The first round of Preserve America Grants in 2007 provided 43 applicants with a total of $2.6 million distributed across the nation. The second round provided $2.26 million to 29 recipients in 20 states. The importance of resources to support this effort has not diminished since then—in fact, it has grown.

SAT and PA reflect the bipartisan and bicameral commitment that has characterized historic preservation policy in Congress and the White House over the years. SAT was created during a Democratic administration and embraced by the Bush Administration and Congressional Republicans. Likewise, PA was created during a Republican administration and is now supported by Members on both sides of the aisle. This is the strongest signal that authorizing both programs makes sense when bipartisanship is sometimes an elusive quality. We urge you to pass this timely authorization.

Sincerely,

RICHARD MOE,
President,
National Trust for Historic Preservation.
HEATHER MACINTOSH,
President,
Preservation Action.
MIKE POLK,
President,
American Cultural Resources Association.

LU ANN DE CUNZO,
President,
Society for Historical Archeology.

Ms. BORDALLO. Mr. Speaker, I have no additional requests for time, and I would reserve the balance of my time.

Mr. WITTMAN of Virginia. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia (Mr. BROUN).

Mr. BROUN of Georgia. Mr. Speaker, we're talking about preserving America, but we need to preserve the economic viability of America, and as long as we're paying $4.10 a gallon, we're not going to be an economically viable Nation. It's going higher and higher.

In the last bill's debate, we talked about monkey bites, shark bites, and there was an accusation of the energy production companies are biting people. But what's biting people in their pocketbooks and their wallets is this high cost of gasoline, high cost of energy.

Until we start dealing with this issue, we're going to continue to have problems in this country. We're going to continue to have economic problems, and it's absolutely critical that we deal with what's on America's mind, and that is energy costs.

As we head into the fall and winter, not too far off, people are going to have a hard time heating their homes. Poor people and retirees are going to have a hard time buying the heating oil.

The problem is the shortage of energy supplies here in America, and until we start making energy supplies more available to the American public, we're going to continue to have higher and higher costs.

We can't just talk about conservation. We can't just talk about solar and wind. We've got to talk about those things certainly, but that's only a minute part of the answer. We've got to develop nuclear energy.

Just below my district, Plant Vogel in Georgia is having a hard time getting permitting for two nuclear reactors. They're being blocked by the radical environmentalists and through the inane permitting process that's going on today. We need to get those reactors online. We need to get oil, coal, gas, propane, all more available so that people can have an economic future that makes sense.

So, as we talk about preserving things, let's preserve our families. Let's preserve our pocketbooks. Let's have money to spend to create a stronger economy. Not focus on these other things, as important as some feel that they may be. But the most important thing to America today is energy and the high cost of energy.

We need to do something about that. We shouldn't go home until we solve the energy problem of America, and we're not doing the American public justice when we continue talking about all these other things except energy. We need to focus on energy. Let's drill for oil. Let's drill now.

Ms. BORDALLO. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, the Democrats have been on this floor for weeks watching our colleagues from across the aisle defend multinational oil conglomerates. The fact of the matter is that the energy challenges that our Nation faces demand more than rhetoric and battles on the floor of the House. Certainly, our constituents who are feeling the energy pinch deserve more.

We need to put our energies into finding common ground to achieve real, workable solutions to our energy problems, and toward that end, we need to be working on our energy challenge from two ends at the same time, furthermore, the supply end and the conservation end. By doing so, we can work without partisanship to bring relief to the American people. And that, just like the underlying bill, would preserve America's true treasures and the treasures are our people.

I reserve the balance of my time.

Mr. WITTMAN of Virginia. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia (Mr. WESTMORELAND).

Mr. WESTMORELAND. Mr. Speaker, I appreciate my friend from Guam and her comments about bipartisan and working together and coming up with a common solution.

Mr. Speaker, I am all for that, but what we've come up with in the past is very limited debate. We've had bills come to the floor with no amendments. We've had bills come to this floor that had no committee hearings. Now, that, to me, is not working together or with bipartisan support.

So, if we want to have this bipartisan discussion, let's have it on the floor. Let's have an open rule on an energy bill, an open rule energy bill. What a great way to preserve what this body was meant to be, a place where representatives of the people came to debate and discuss and to talk about things that were affecting their constituents.

But half the people in America who are represented by Republicans in this body have not had an opportunity to even offer an amendment to some of these energy bills. We've not even had an opportunity to come down and speak on this floor because of the limited debate.

If we want to work out a solution, if we want to hear all the ideas from all 435 Members of this, so all the people in this country can have some input into this process, let's have an open energy bill that went through regular order and went through the subcommittee and the committee process, had a rule that was written where we could all have some input.

□ 1445

I'm for that kind of bipartisan support, and I know you are too because you are a very sweet lady.

Now, let me go on to say one thing: There was a poll that came out today I thought was very interesting. The percentage of voters who give Congress good or excellent ratings has fallen to single digits for the first time in Rasmussen reporting tracking history.

This month, just 9 percent say Congress is doing a good or excellent job. Mr. Speaker, I think we need to form a committee to go find that 9 percent of the people to find out where they've been because we are not doing a good job, we are not doing an excellent job. We are doing a very poor job of addressing the needs of the American people and what's affecting their pocketbook and the ability for their family to survive today.

We've got gasoline that is up $1.76 a gallon since the end of 2006. A loaf of bread is up 23 cents, or about 23 percent, than what it was at the end of 2006. A gallon of milk is up almost 30 percent, Mr. Speaker, since the new majority came in. The Dow Jones has lost about 20 percent. The stock market is down $53 billion in the wealth of the stock market. Real net worth is down $2.51 trillion. The real per capita gross domestic product is down. Inflation rate is up. Unemployment rate is up. The real average wage is down, Mr. Speaker. We are not doing a good job.

Part of the reason that bread is high, that milk is high, that the stock market is going down, that inflation is up is because of the oil crisis that we're in right now because we are totally dependent on foreign oil. And I would like to close with this, as a quote from the Department of Minerals Management Service that's in the Interior Department. The director says, ''The agency estimates that offshore drilling could produce 1.8 billion barrels of oil and 76 trillion cubic feet of natural gas.'' And we're going to need that natural gas, Mr. Speaker, when these home heating oil and natural gas bills come due for people trying to stay warm this winter. The director would not say how much more oil and gas he thinks the lands could produce, but he said that experience has shown that once companies begin drilling on land, they often find more than expected.

Mr. Speaker, we have about 2.5 billion acres of Federal land and offshore that we could be drilling on; 68 million of that has leases that oil companies have leased. And we certainly—and I say we, I'm talking about the minority—do not think that Big Oil does not play some part in this. But the reality of it is we cannot expect Big Oil to go out and drill on leased land that has no oil or no gas. You do not go grocery shopping at a hardware store.

We need to open up this land that is available, that the Department of Interior, that the Minerals and Management Service says that there is gas and oil there. We need to open up this land to let people drill on, to let people get our natural resources out of the ground rather than us being dependent on going to foreign countries on bended knee with hat in hand asking them to sell us their natural resources when we refuse to use our own.

So Mr. Speaker, I will close with this, that we do want to work. We want a bipartisan solution. Because we think the answer is all of the above, it's more conservation, it's more use of wind and solar, but it's also drilling. It's also using our own natural resources. It's using clean coal. It's using an environmentally sensitive way to get this natural resource out of the ground. And we welcome an open rule bill that comes to the floor that all 435 people and the seven delegates that represent people in our territories and our States in this great country that we live in, to come have an open, honest debate about what we can do to solve our energy policy, to come together, to work together. That's the kind of change that the American people want, not the radical kind of change that has been offered so far in this Congress.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the gentleman keeps talking about opening up more land. Well, the fact is 80 percent of the oil available on the Outer Continental Shelf today is already open for leasing, but the oil companies haven't decided it's worth their money to drill there.

Mr. Speaker, I reserve the balance of my time.

Mr. WITTMAN of Virginia. Mr. Speaker, I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support this worthwhile bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 3981, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. WESTMORELAND. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

DOROTHY BUELL MEMORIAL VISITOR CENTER LEASE ACT

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1423) to authorize the Secretary of the Interior to lease a portion of a visitor center to be constructed outside the boundary of the Indiana Dunes National Lakeshore in Porter County, Indiana, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1423

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DOROTHY BUELL MEMORIAL VISITOR CENTER.

(a) SHORT TITLE.—This section may be cited as the ''Dorothy Buell Memorial Visitor Center Partnership Act''.

(b) MEMORANDUM OF UNDERSTANDING.—The Secretary of the Interior may enter into a memorandum of understanding to establish a joint partnership with the Porter County Convention, Recreation and Visitor Commission. The memorandum of understanding shall—

(1) identify the overall goals and purpose of the Dorothy Buell Memorial Visitor Center;

(2) establish how management and operational duties will be shared;

(3) determine how exhibits, Signs, and other information are developed;

(4) indicate how various activities will be funded;

(5) identify who is responsible for providing site amenities;

(6) establish procedures for changing or dissolving the joint partnership; and

(7) address any other issues deemed necessary by the Secretary or the Porter County Convention, Recreation and Visitor Commission.

(c) DEVELOPMENT OF EXHIBITS.—The Secretary may plan, design, construct, and install exhibits in the Dorothy Buell Memorial Visitor Center related to the use and management of the resources at Indiana Dunes National Lakeshore, at a cost not to exceed $1,500,000.

(d) NATIONAL LAKESHORE PRESENCE.—The Secretary may use park staff from Indiana Dunes National Lakeshore in the Dorothy Buell Memorial Visitor Center to provide visitor information and education.

SEC. 2. INDIANA DUNES NATIONAL LAKESHORE.

Section 19 of the Act entitled ''An Act to provide for the establishment of the Indiana Dunes National Lakeshore, and for other purposes'' (16 U.S.C. 460u–19) is amended—

(1) by striking ''After notifying'' and inserting ''(a) After notifying''; and

(2) by adding at the end the following:

''(b) CONTIGUOUS CLARIFIED.—For purposes of subsection (a), lands may be considered contiguous to other lands if the lands touch the other lands, or are separated from the other lands by only a public or private right-of-way, such as a road, railroad, or utility corridor.''.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, H.R. 1423 would allow the National Park Service to share visitor center facilities for the Indiana Dunes National Lakeshore with the Porter County Indiana Convention, Recreation and Visitor Commission.

The bill also allows the National Park Service to construct exhibits at the visitor center and authorizes National Park Service employees to work there. Congress must approve the spending and the use of personnel because the visitor center lies outside the established boundaries of the park.

Finally, Mr. Speaker, H.R. 1423 would clarify the definition of ''contiguous lands'' in the park's original legislation so that the National Park Service could accept donations of contiguous land even if that land is separated by a right-of-way such as a road, a railway line or utility corridor.

I commend the sponsor, the gentleman from Indiana (Mr. VISCLOSKY), for his work on the legislation, and I ask my colleagues to support passage of this measure.

Mr. Speaker, I reserve the balance of my time.

Mr. WITTMAN of Virginia. Mr. Speaker, Indiana Dunes National Lakeshore, on the southern tip of Lake Michigan, is comprised of 15,000 acres along 15 miles of shoreline. This bill authorizes the Secretary of Interior to enter into a Memorandum of Understanding with Porter County Commission to lease space for the use of a visitor center. It also permits the Secretary to accept donations of lands that are located along the borders of the lakeshore but are separated by a right-of-way.

And today, as we are dealing with this particular unit of the National Park Service, I think it's fitting to remember that our constituents are dealing with high gasoline prices that are cutting into family vacations this summer, making it increasingly costly to visit our national parks.

Over the Independence Day work period back in my district, I spoke with a number of constituents who are still frustrated about high gasoline prices and also are frustrated with what they perceive as Congress' failure to do anything to adopt a comprehensive energy policy. This Congress needs to take action to put all of our available resources and technologies on the table, including increase American-made energy, conservation and efficiency to bring relief at the pumps.

I thought the best story that I heard was a lady that came to me and I asked her, I said, what do you think we ought to be doing about this energy issue that we're dealing with? And she said, Mr. WITTMAN, do you remember the movie Apollo 13? And I said, yes, I did. And she said, do you remember the scene there where the oxygen tank on the outside of the service capsule blew up and the engineers there had to figure out how they were going to get those astronauts back to Earth? So they moved the astronauts into the command module, but the problem with the command module is it didn't have enough capacity to take CO_2 out of the air, so eventually the astronauts would be asphyxiated if they didn't come up with a solution to that problem and still have enough oxygen to propel the spaceship back to Earth.

So what did they do? They sent the engineers to the duplicate capsule they

had there at Mission Control in Houston. And they sent them in there and they said take everything out of there that's available to these astronauts and put it in a box. So those engineers put those materials in a box and they brought it downstairs to Mission Control and they laid those pieces out on the table. And they told those engineers, solve the problem, make sure we get those astronauts back here. Come up with a CO_2 scrubber that gets that CO_2 out of the air so those astronauts can survive and get back to Earth. And lo and behold, those engineers did just that. But they weren't crippled by saying, well, you can only use this in the box and that in the box. They were there to use everything.

Folks, if we're going to be successful in this effort for our comprehensive energy policy, we need to make sure that we use everything. And that includes looking at the energy that we have available here in the United States, being aggressive with conservation, being aggressive in developing alternative and renewable sources here. And this country has shown to have the engineering and ability and the willingness to get to work on these tough issues and to solve them. Our history has been wrought with just those efforts to make sure that we solve these problems.

The American people are looking at us now to make sure that we solve this problem. And they don't want us to take anything out of that Apollo 13 box to solve this problem. They expect us to put everything there and to make sure that we come up with a solution to this, and I believe that this country can do that.

Mr. Speaker, I reserve the balance of my time.

Ms. BORDALLO. Mr. Speaker, I yield such time as he may consume to the gentleman from Indiana, the bill's sponsor, Mr. VISCLOSKY.

Mr. VISCLOSKY. I want to thank the gentlelady.

Mr. Speaker, I rise today in strong support of H.R. 1423, the Dorothy Buell Memorial Visitor Center Lease Act, as amended. I am proud to sponsor this legislation, and I thank Mr. DONNELLY for joining me as a cosponsor.

I also do want to thank Chairman RAHALL and Ranking Member DON YOUNG, the chairman of the subcommittee, as well as the ranking member, and especially the exceptional staff of the subcommittee and the full committee of Natural Resources for their consideration and good work on this measure.

This measure will grant the Secretary of the Interior the authority to enter into a Memorandum of Understanding to establish a joint partnership with Porter County. This partnership will allow the National Park Service and the Porter County Convention, Recreation and Visitor Commission to develop a plan to maximize the efficiency of the Visitor Center at the Indiana Dunes National Lakeshore and enhance the visitor experience. The measure also will provide funding to develop exhibits for the center.

Additionally, the bill will help us enhance the Indiana Dunes National Lakeshore in the most affordable fashion possible. It will permit, but not require, the Secretary of the Interior to accept donations of lands located outside the present boundaries of the Lakeshore if they are contiguous with the park or separated by only a right-of-way. At present, the Secretary of the Interior cannot accept such donations. This provision makes a minor technical correction that has no financial impact, and will allow this natural treasure to expand by the generosity of those wishing to enhance the Lakeshore. It is my sincere hope that this legislation will continue our efforts to protect and enhance the Lakeshore, and to ensure that all Americans can benefit from the park.

The Indiana Dunes National Lakeshore is an incredible natural treasure, as was mentioned, comprised of about 15,000 pristine acres along the southern shore of Lake Michigan in the midst of an urban environment. With its vast array of flora and fauna in northwest Indiana, a short distance from downtown Chicago, the Lakeshore receives over 3 million visitors from that urban area each year.

The Indiana Dunes National Lakeshore owes a great deal of gratitude to Dorothy Buell, who was instrumental in its establishment and development. Buell devoted much of her life to saving the dunes. In 1952, she founded the Save the Dunes Council to obtain dunes land and to give it to the National State Park so that the unique habitat could be preserved and enjoyed by the general public.

In 1992, Buell's extraordinary contributions to the dunes were recognized when the Indiana Dunes National Lakeshore Access and Enhancement Act was signed into law, thereby naming the park's visitor center for her and commemorating her vision, dedication and work.

□ 1500

The Dorothy Buell Memorial Visitor Center is an excellent facility for providing environmental education programs and recreational activities. Visitors can enjoy displays and exhibits.

I am very proud of the continued investment in the Indiana Dunes National Lakeshore by the National Park Service staff, our local communities, and Lakeshore volunteers in Indiana's First Congressional District. They seek to preserve, protect, and restore the Lakeshore and surrounding resources for an enhanced quality of life.

Mr. Speaker, I want to again thank the members and the leaders of the committee and subcommittee as well as the staff, and I ask my colleagues to support the measure.

Mr. WITTMAN of Virginia. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia (Mr. WESTMORELAND).

Mr. WESTMORELAND. I thank my friend for yielding again.

Mr. Speaker, I got the whip report today and was looking over some of the bills that we're going to be going over today and this week. And I felt like, Mr. Speaker, it might be good just to remind our colleagues maybe of what all we're going to be doing this week so they can get their staffs down and start looking at this real hard.

I was hoping that we might be talking about some ways to improve our energy management because what has happened so far on this House floor by the majority has simply not worked. We voted, I guess, almost 6 weeks ago now, to stop sending oil into the Strategic Petroleum Reserve, and so thus far I believe, today is July 8; so at 70,000 barrels of oil a day, that's over half a million barrels of oil that we have kept from our Strategic Petroleum Reserve, and yet gas is at a new record of $4.11 a gallon. So that's not working.

The energy bill that the majority passed in January of 2007, which we called the ''No Energy Policy,'' has actually turned out to be a no energy policy because gas has gone from $2.35 a gallon to $4.11 a gallon. And light bulbs, or the CFLs, was mentioned over 350 times in that bill, and we have now learned that you can't dispose of those things because of the mercury in them, and they are only produced in China.

So we have got a long way to go on correcting our energy situation in this Congress, and for some reason the majority just keeps turning its head.

But I just felt like for some of our colleagues that are listening today they might know that we have already heard today that we amended High Seas Driftnet Fishing Moratorium Protection Act. We're going to get a chance to vote today to authorize the Preserve America Program and Save America's Treasures. We are now authorizing the Secretary of Interior to lease a portion of the visitor center to be constructed outside the boundary of the Indiana Dunes National Lakeshore in Porter County, Indiana. I know that's a big one. You all need to be looking at that, Mr. Speaker.

Number four, to amend the Dayton Aviation Heritage Preservation Act of 1992 to add sites to the Dayton Aviation Heritage National Park, and I know that's an important piece of legislation. We're also going to do the Maritime Pollution Prevention Act. And we're going to name three post offices today.

Now, tomorrow we are going to get into the real meat of some of this stuff. We've got 12 more suspensions, which are bills that really just come to the floor with about 20 minutes of debate, I believe, on either side, no amendments, not structured to any rule. We are going to look at the Pension Protection Technical Corrections Act, and I know, Mr. Speaker, these people at home will be glad to know that we're doing that. And then we have got to

honor the goal of the International Year of Astronomy; celebrating the 25th anniversary of the first American woman in space, Dr. Sally Ride; the Federal Ocean Acidification Research and Monitoring Act; commemorating the 25th anniversary of the Space Foundation; commemorating the 50th anniversary of the National Aeronautics and Space Administration; Homes For Heroes Act; America's Beautiful National Parks Quarter Dollar Coin Act; Community Building Code Amendment Grant Act; Lead-Safe Housing for Kids; and Money Services Business Act.

And then we have got one real bill that's going to be subject to a rule, Mr. Speaker: the Washington-Rochambeau Revolutionary Route National Historic Trail Designation Act. So any Members listening to this might want to get their amendments ready for that, and I don't know if we can amend that to talk about energy.

But, Mr. Speaker, I just thought it was important that we discuss here among ourselves what we are doing in this Congress this week. People are paying $4.11 a gallon for gas at the pump. People are having to make decisions about whether they can go to work or go visit a loved one in a hospital. We need to be discussing our energy crisis because this is not something that just happened.

And, look, we are not innocent in this. We had 12 years. We could have led the charge. But I remember back in April of 2006, then minority leader, now Speaker NANCY PELOSI, said, ''Elect us. The Democrats have a commonsense plan for lowering the skyrocketing price of gasoline.''

Please bring out that plan, Mr. Speaker. Bring out that commonsense plan so that we can see what can lower the skyrocketing prices because since that plan has not been revealed, gas has gone from $2.35 to $4.11.

So while we are talking about all these important things today, and I know the American people are sitting on the edge of their seat to see if these things pass or not because of the effect it's going to have on their lives, I think if they could honestly have a good, bipartisan debate with an open rule, a good energy bill that all the people could come that represent the people all over this country to come in and discuss what we can do to give them relief at the pump.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I may consume.

First and foremost, I would like to remind my colleagues across the aisle that I feel that all legislation that is heard in the U.S. Congress is important legislation. I want to go on record saying that.

And I would remind my colleagues on the other side of the aisle that in 2005, just 3 years ago, 2005, when you were in the majority, you passed an energy bill that you claimed would produce America's energy independence. It did not work, did it? What were gas prices then in 2005, and what are they today?

So I would again say the blame game is not working and we should truly sit down and get serious, dispense with the rhetoric, and address the issues facing the American people.

Mr. Speaker, I reserve the balance of my time.

Mr. WITTMAN of Virginia. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia (Mr. WESTMORELAND).

Mr. WESTMORELAND. I want to thank my colleague for yielding to me.

Just to my good friend from Guam, I don't have a problem with what you said because it sounds like we have had a bite of the apple, the new majority has had a bite of the apple. People have seen their gas prices continue to go up. So why not come up with a bill that we could put on the floor, to have an open rule, because there is nothing more important in this country right now, not just because the price of gasoline is $4.11 a gallon. This is a national security issue. We are writing Hugo Chavez a check to the Venezuelans for $170 million a day. This is a national security issue. This is an economic issue that we are talking about. This is affecting our stock market. This is affecting our gross national product. This is affecting a loaf of bread. This is affecting a gallon of milk. This is something we need to be talking about.

So I'm glad to hear that you've taken notice that our plan of 2005 has not been totally successful because it has not been totally implemented yet. But I am more than willing to have a discussion on this floor, open rule, energy package. Let's write one. Let's let it go through regular order. Let's let it have amendments. Let's let it have discussion. And I think if we could do that, then we maybe could come up with something that could succeed.

Mr. WITTMAN of Virginia. Mr. Speaker, I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge my colleagues, all of the Members of Congress, to support this very important piece of legislation.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1423, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BROUN of Georgia. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

DAYTON AVIATION HERITAGE NATIONAL HISTORICAL PARK EXPANSION

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4199) to amend the Dayton Aviation Heritage Preservation Act of 1992 to add sites to the Dayton Aviation Heritage National Historical Park, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 4199

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—ADDITIONAL AREAS INCLUDED IN DAYTON AVIATION HERITAGE NATIONAL HISTORICAL PARK

SEC. 101. ADDITIONAL AREAS INCLUDED IN PARK.

Section 101 of the Dayton Aviation Heritage Preservation Act of 1992 (16 U.S.C. 410ww, et seq.) is amended by adding at the end the following:

''(c) ADDITIONAL SITES.—In addition to the sites described in subsection (b), the park shall consist of the following sites, as generally depicted on a map titled 'Dayton Aviation Heritage National Historical Park', numbered 362/80,013 and dated May 2008:

''(1) Hawthorn Hill, Oakwood, Ohio.

''(2) The Wright Company factory and associated land and buildings, Dayton, Ohio.''.

SEC. 102. PROTECTION OF HISTORIC PROPERTIES.

Section 102 of the Dayton Aviation Heritage Preservation Act of 1992 (16 U.S.C. 410ww-1) is amended—

(1) in subsection (a), by inserting ''Hawthorn Hill, the Wright Company factory,'' after '', acquire'';

(2) in subsection (b), by striking ''Such agreements'' and inserting:

''(d) CONDITIONS.—Cooperative agreements under this section'';

(3) by inserting before subsection (d) (as added by paragraph 2) the following:

''(c) COOPERATIVE AGREEMENTS.—The Secretary is authorized to enter into a cooperative agreement with a partner or partners, including the Wright Family Foundation, to operate and provide programming for Hawthorn Hill and charge reasonable fees notwithstanding any other provision of law, which may be used to defray the costs of park operation and programming.''; and

(4) by striking ''Commission'' and inserting ''Aviation Heritage Foundation''.

TITLE II—WRIGHT BROTHERS-DUNBAR NATIONAL HISTORICAL PARK DESIGNATION

SEC. 201. REDESIGNATION OF DAYTON AVIATION HERITAGE NATIONAL HISTORICAL PARK.

(a) REDESIGNATION.—The Dayton Aviation Heritage Preservation Act of 1992, is amended—

(1) by striking ''Dayton Aviation Heritage National Historical Park'' each place it appears and inserting ''Wright Brothers-Dunbar National Historical Park'';

(2) by redesignating subsection (b) of section 108 as subsection (c); and

(3) by inserting after subsection (a) of section 108 the following new subsection:

''(b) GRANT ASSISTANCE.—The Secretary is authorized to make grants to the parks' partners, including the Aviation Trail, Inc., the Ohio Historical Society, and Dayton History, for projects not requiring Federal involvement other than providing financial assistance, subject to the availability of appropriations in advance identifying the specific partner grantee and the specific project. Projects funded through these grants shall be limited to construction and development on non-Federal property within the

boundaries of the park. Any project funded by such a grant shall support the purposes of the park, shall be consistent with the park's general management plan, and shall enhance public use and enjoyment of the park.''.

(b) REFERENCES.—Any reference in any law (other than this title), map, regulation, document, record, or other official paper of the United States to the ''Dayton Aviation Heritage National Historical Park'' shall be considered to be a reference to the ''Wright Brothers-Dunbar National Historical Park''.

SEC. 202. NATIONAL AVIATION HERITAGE AREA.

Title V of division J of the Consolidated Appropriations Act, 2005 (16 U.S.C. 461 note; Public Law 108–447), is amended—

(1) in section 503(3), by striking ''104'' and inserting ''504'';

(2) in section 503(4), by striking ''106'' and inserting ''506'';

(3) in section 504, by striking subsection (b)(2) and by redesignating subsection (b)(3) as subsection (b)(2); and

(4) in section 505(b)(1), by striking ''106'' and inserting ''506''.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I may consume.

H.R. 4199 adds two sites to the Dayton Aviation Heritage National Historical Park. The bill also renames the park as the Wright Brothers-Dunbar National Historical Park.

Mr. Speaker, the Dayton Aviation Heritage National Historical Park was established to preserve sites associated with Wilbur and Orville Wright and the early history of aviation. The park also honors the life and work of African American poet Paul Laurence Dunbar, a business associate and a friend of Orville Wright.

H.R. 4199 would add Hawthorn Hill, the mansion designed by the Wright Brothers, and the Wright Company factory to the park. The factory, completed in 1910, is the site of the first American facilities specifically designed and built for the manufacture of airplanes.

Mr. Speaker, I ask my colleagues to support passage of this measure.

Mr. Speaker, I reserve the balance of my time.

Mr. WITTMAN of Virginia. Mr. Speaker, H.R. 4199 has been adequately explained by the majority, and I would like to thank Congressman TURNER from Ohio for his diligent work to advance this legislation on behalf of his constituents and for the benefit of park visitors around the country.

At this time, Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio (Mr. TURNER), author of the bill.

□ 1515

Mr. TURNER. I speak today in favor of H.R. 4199, which will add two important historic sites into the Dayton Aviation Heritage National Park. I want to thank Natural Resources Chairman RAHALL and Ranking Member YOUNG, as well as Subcommittee Chairman GRIJALVA and Ranking Member BISHOP for ushering this bill through the Resources Committee process, as well as bringing it to the floor today. I also want to thank the members of the Ohio delegation, many of whom have cosponsored this legislation.

Mr. Chairman, Ohio is the birthplace of aviation, and Dayton is the home of Orville and Wilbur Wright, the two men that invented the airplane. Some consider their invention to be the most important innovation in modern history. When the Wright brothers took flight in Kitty Hawk, North Carolina, our world became connected in a dramatic way, transforming travel, commerce, and communication.

Dayton is also the home of Paul Laurence Dunbar. Dunbar was a classmate of Orville Wright, and was a contemporary of the Wrights. Throughout his life, he was known as the poet laureate of African Americans, and achieved national success after his second collection of poems was reviewed in Harper's Weekly in 1896.

The Dayton Aviation Heritage National Historic Park is a celebration of the legacies of the Wright brothers, as well as Paul Laurence Dunbar. Currently, many people enjoy our National Historic Park. The park includes the Wright's Cycle Shop, the Wright Flyer Airplane, and the Huffman Prairie, where the Wrights perfected fixed-wing flight, among other sites.

However, the Wright's history within the park remains incomplete. Currently, the Wright Company factory buildings and their home, Hawthorn Hill, are not included among the sites at the park. That is why I have introduced H.R. 4199, which will complete the Wright's story told at the park, by adding these two critical sites.

The Wright Company factory buildings in west Dayton are the first American facilities specifically designed and built for the manufacture of airplanes. These buildings had a production capability that was greater than any other airplane manufacturing facility at the time.

The Wright Company operated at the site from 1910 to 1916, and produced 13 different models of airplanes. This site is currently owned and controlled by the Delphi Corporation, who will operate at this site until later this year.

Hawthorn Hill was designed by Wilbur and Orville Wright and was the home of the Wright family until 1948. This historic architectural landmark tells the story of the Wright brothers as inventors. Amanda Wright-Lane, the great-grandniece of the Wright brothers, testified before the Resources Subcommittee on National Parks earlier this year, discussing the Wright's incredible history and the importance of Hawthorn Hill to the Wright's story.

Mr. Speaker, the addition of these sites to the existing park is critical to the park's purpose, which was outlined in the Dayton Aviation Heritage Preservation Act of 1992. The purpose is ''to create partnerships among Federal, State and local governments and the private sector to preserve, enhance, and interpret for the present and future generations the historic and cultural structures, districts, and artifacts in Dayton and the Miami Valley in the State of Ohio associated with the Wright brothers, the invention and the development of aviation, or the life and works of Paul Laurence Dunbar.'' Put plainly, the addition of these sites completes the Wright's story at the park.

Mr. Speaker, adding these sites to the national park enjoys a wide range of support from both local and national organizations, including the City of Dayton; Montgomery County; the State of Ohio; the Wright family; the Dayton Area Chamber of Commerce; the Dayton Development Coalition; the Ohio Historical Society; the Dayton Historical Society; Sinclair Community College; The University of Dayton; the Dayton Foundation, the National Cash Register Corporation; the Delphi Corporation; the National Conference of State Historic Preservation Officers; and the National Trust for Historic Preservation.

H.R. 4199 also includes the exact language from H.R. 4191, which passed the House by a voice vote earlier this year. This language would change the name of the Dayton Aviation National Historic Park to the Wright Brothers-Dunbar National Historic Park.

Changing the name of the park has been the result of a community-wide process, led by Federal Judge Walter Rice and the Dayton Aviation Heritage Commission. I want to thank Judge Walter Rice and the other commissioners for their time and dedication to making the name of our park a fitting salute to those for whom it is a tribute.

It is clear that this bill is an important priority to the Dayton region. It is also important to the Paul Laurence Dunbar and the Wright brothers' legacy.

Mr. Speaker, I want to thank you again for this opportunity, and I urge my colleagues to support H.R. 4199.

Ms. BORDALLO. I yield such time as he may consume to my colleague from North Carolina (Mr. MILLER).

Mr. MILLER of North Carolina. I want to applaud Mr. TURNER for bucking his party in introducing a bill on something other than gas prices. I have frequently worked with Mr. TURNER on historic preservation issues. It has never been difficult to work across partisan lines. But rising to support this bill is somewhat more difficult for me.

Mr. TURNER described Dayton, Ohio, as the birthplace of aviation in his remarks a minute ago. Mr. Speaker, that is stretching the truth a bit. But after sitting on the floor for about an hour and hearing our energy problems blamed on environmentalists, not the fact that ExxonMobil made $40 billion in profits in the fourth quarter of 2007, it seems like a fairly minor stretching of the truth.

As every school child in America knows, with the exception of school children in Dayton, Ohio, the first powered flight was in Kitty Hawk, North Carolina, in December, 1903, or at least it was the first photographed, the first documented powered flight. There is still some dispute about where the actual first powered flight was. But the photograph of the Wright brothers plane above the dunes, just a few feet above the dunes at Kitty Hawk, was probably the most important photograph in history to that point, and remains one of the most famous photographs in all of history. That photograph, Mr. Speaker, was taken by a North Carolinian.

After that first flight, which lasted just 12 seconds, and even with the soft sands of Kitty Hawk to land in, the landing almost destroyed or badly damaged the balsa wood plane. Progress was very rapid. Within just a decade, the airplane proved to be a very effective weapon of war in the First World War, and in another decade, just another decade after that, Charles Lindbergh flew the Atlantic alone.

Mr. TURNER is correct, flight has been an important transformational invention in human history. We are now a connected world, largely because of flight. The Wright brothers and Dayton, Ohio, did have a role in that, Mr. Speaker. So I do rise to support adding Hawthorn Hill, the Wright family home, and the Wright Airplane Factory to the national park in Dayton, Ohio highly.

I do this, taking the lead of my party's nominee for President, who has urged that we put aside all the old animosities, that we reach across all divisions of society. In that spirit, Mr. Speaker, I rise in support of this bill.

Mr. HOBSON. Mr. Speaker, I rise today in support of H.R. 4199, which would expand the Dayton Aviation Heritage National Historical Park to include additional sites associated with the lives and work of Wilbur and Orville Wright.

Few technological advances have transformed the world or our nation's economy, society, culture, and national character as the development of powered flight. Therefore, it is important to preserve the historical sites associated the Wright brothers' achievements in the field of aviation. That is what this bill will do.

Over the years, the Ohio congregational delegation has worked together to preserve and promote Ohio's rich aviation history. A few years ago, I, along with Congressman Tony Hall, had the privilege of introducing the bill that later became law to designate eight Miami Valley counties and the Dayton Aviation Heritage National Historical Park as part of a National Aviation Heritage Area. Today, I commend my colleague, Congressman MIKE TURNER, for his leadership in sponsoring this bill to add two additional sites to the aviation park.

Specifically, H.R. 4199 will add Hawthorne Hill, which was Orville Wright's home in Oakwood, and several Wright Factory buildings in Dayton, where the brothers conducted research and testing. These sites would be part of the Dayton Aviation Heritage National Historical Park, which already includes such historic sites as: Huffman Prairie Flying Field, the Wright Cycle Company Complex, and the Paul Laurence Dunbar House. Together, these sites are an important part to nation's history, and Ohio's cultural heritage.

Again, I commend Congressman TURNER for his leadership to preserve and promote Ohio's aviation heritage with this legislation, and I urge my colleagues to join me in supporting H.R. 4419.

Mr. WITTMAN of Virginia. Mr. Speaker, I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support this important piece of legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 4199, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. BORDALLO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

MARITIME POLLUTION PREVENTION ACT OF 2008

Mr. OBERSTAR. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 802) to amend the Act to Prevent Pollution from ships to implement MARPOL Annex VI.

The Clerk read the title of the bill.

The text of the Senate amendment is as follows:

Senate amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Maritime Pollution Prevention Act of 2008''.

SEC. 2. REFERENCES.

Wherever in this Act an amendment or repeal is expressed in terms of an amendment to or a repeal of a section or other provision, the reference shall be considered to be made to a section or other provision of the Act to Prevent Pollution from Ships (33 U.S.C. 1901 et seq.).

SEC. 3. DEFINITIONS.

Section 2(a) (33 U.S.C. 1901(a)) is amended—

(1) by redesignating the paragraphs (1) through (12) as paragraphs (2) through (13), respectively;

(2) by inserting before paragraph (2) (as so redesignated) the following:

''(1) 'Administrator' means the Administrator of the Environmental Protection Agency;'';

(3) in paragraph (5) (as so redesignated) by striking ''and V'' and inserting ''V, and VI'';

(4) in paragraph (6) (as so redesignated) by striking '' 'discharge' and 'garbage' and 'harmful substance' and 'incident' '' and inserting '' 'discharge', 'emission', 'garbage', 'harmful substance', and 'incident' ''; and

(5) by redesignating paragraphs (7) through (13) (as redesignated) as paragraphs (8) through (14), respectively, and inserting after paragraph (6) (as redesignated) the following:

''(7) 'navigable waters' includes the territorial sea of the United States (as defined in Presidential Proclamation 5928 of December 27, 1988) and the internal waters of the United States;''.

SEC. 4. APPLICABILITY.

Section 3 (33 U.S.C. 1902) is amended—

(1) in subsection (a)—

(A) by striking ''and'' at the end of paragraph (3);

(B) by striking the period at the end of paragraph (4) and inserting ''; and''; and

(C) by adding at the end the following:

''(5) with respect to Annex VI to the Convention, and other than with respect to a ship referred to in paragraph (1)—

''(A) to a ship that is in a port, shipyard, offshore terminal, or the internal waters of the United States;

''(B) to a ship that is bound for, or departing from, a port, shipyard, offshore terminal, or the internal waters of the United States, and is in—

''(i) the navigable waters or the exclusive economic zone of the United States;

''(ii) an emission control area designated pursuant to section 4; or

''(iii) any other area that the Administrator, in consultation with the Secretary and each State in which any part of the area is located, has designated by order as being an area from which emissions from ships are of concern with respect to protection of public health, welfare, or the environment;

''(C) to a ship that is entitled to fly the flag of, or operating under the authority of, a party to Annex VI, and is in—

''(i) the navigable waters or the exclusive economic zone of the United States;

''(ii) an emission control area designated under section 4; or

''(iii) any other area that the Administrator, in consultation with the Secretary and each State in which any part of the area is located, has designated by order as being an area from which emissions from ships are of concern with respect to protection of public health, welfare, or the environment; and

''(D) to any other ship, to the extent that, and in the same manner as, such ship may be boarded by the Secretary to implement or enforce any other law of the United States or Annex I, II, or V of the Convention, and is in—

''(i) the exclusive economic zone of the United States;

''(ii) the navigable waters of the United States;

''(iii) an emission control area designated under section 4; or

''(iv) any other area that the Administrator, in consultation with the Secretary and each State in which any part of the area is located, has designated by order as being an area from which emissions from ships are of concern with respect to protection of public health, welfare, or the environment.'';

(2) in subsection (b)—

(A) in paragraph (1) by striking ''paragraph (2),'' and inserting ''paragraphs (2) and (3),''; and

(B) by adding at the end the following:

''(3) With respect to Annex VI the Administrator, or the Secretary, as relevant to their authorities pursuant to this Act, may determine

that some or all of the requirements under this Act shall apply to one or more classes of public vessels, except that such a determination by the Administrator shall have no effect unless the head of the Department or agency under which the vessels operate concurs in the determination. This paragraph does not apply during time of war or during a declared national emergency.'';

(3) by redesignating subsections (c) through (g) as subsections (d) through (h), respectively, and inserting after subsection (b) the following:

''(c) APPLICATION TO OTHER PERSONS.—This Act shall apply to all persons to the extent necessary to ensure compliance with Annex VI to the Convention.'';

(4) in subsection (e), as redesignated—

(A) by inserting ''or the Administrator, consistent with section 4 of this Act,'' after ''Secretary'';

(B) by striking ''of section (3),'' and inserting ''of this section,''; and

(C) by striking ''Protocol, including regulations conforming to and giving effect to the requirements of Annex V'' and inserting ''Protocol (or the applicable Annex), including regulations conforming to and giving effect to the requirements of Annex V and Annex VI''; and

(5) by adding at the end thereof the following:

''(i) SAVINGS CLAUSE.—Nothing in this section shall be construed to restrict in a manner inconsistent with international law navigational rights and freedoms as defined by United States law, treaty, convention, or customary international law.''.

SEC. 5. ADMINISTRATION AND ENFORCEMENT.

Section 4 (33 U.S.C. 1903) is amended—

(1) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively, and inserting after subsection (a) the following:

''(b) DUTY OF THE ADMINISTRATOR.—In addition to other duties specified in this Act, the Administrator and the Secretary, respectively, shall have the following duties and authorities:

''(1) The Administrator shall, and no other person may, issue Engine International Air Pollution Prevention certificates in accordance with Annex VI and the International Maritime Organization's Technical Code on Control of Emissions of Nitrogen Oxides from Marine Diesel Engines, on behalf of the United States for a vessel of the United States as that term is defined in section 116 of title 46, United States Code. The issuance of Engine International Air Pollution Prevention certificates shall be consistent with any applicable requirements of the Clean Air Act or regulations prescribed under that Act.

''(2) The Administrator shall have authority to administer regulations 12, 13, 14, 15, 16, 17, 18, and 19 of Annex VI to the Convention.

''(3) The Administrator shall, only as specified in section 8(f), have authority to enforce Annex VI of the Convention.'';

(2) in subsection (c), as redesignated, by redesignating paragraph (2) as paragraph (4), and inserting after paragraph (1) the following:

''(2) In addition to the authority the Secretary has to prescribe regulations under this Act, the Administrator shall also prescribe any necessary or desired regulations to carry out the provisions of regulations 12, 13, 14, 15, 16, 17, 18, and 19 of Annex VI to the Convention.

''(3) In prescribing any regulations under this section, the Secretary and the Administrator shall consult with each other, and with respect to regulation 19, with the Secretary of the Interior.''; and

(3) by adding at the end of subsection (c), as redesignated, the following:

''(5) No standard issued by any person or Federal authority, with respect to emissions from tank vessels subject to regulation 15 of Annex VI to the Convention, shall be effective until 6 months after the required notification to the International Maritime Organization by the Secretary.''.

SEC. 6. CERTIFICATES.

Section 5 (33 U.S.C. 1904) is amended—

(1) in subsection (a) by striking ''The Secretary'' and inserting ''Except as provided in section 4(b)(1), the Secretary'';

(2) in subsection (b) by striking ''Secretary under the authority of the MARPOL protocol.'' and inserting ''Secretary or the Administrator under the authority of this Act.''; and

(3) in subsection (e) by striking ''environment.'' and inserting ''environment or the public health and welfare.''.

SEC. 7. RECEPTION FACILITIES.

Section 6 (33 U.S.C. 1905) is amended—

(1) in subsection (a) by adding at the end the following:

''(3) The Secretary and the Administrator, after consulting with appropriate Federal agencies, shall jointly prescribe regulations setting criteria for determining the adequacy of reception facilities for receiving ozone depleting substances, equipment containing such substances, and exhaust gas cleaning residues at a port or terminal, and stating any additional measures and requirements as are appropriate to ensure such adequacy. Persons in charge of ports and terminals shall provide reception facilities, or ensure that reception facilities are available, in accordance with those regulations. The Secretary and the Administrator may jointly prescribe regulations to certify, and may issue certificates to the effect, that a port's or terminal's facilities for receiving ozone depleting substances, equipment containing such substances, and exhaust gas cleaning residues from ships are adequate.'';

(2) in subsection (b) by inserting ''or the Administrator'' after ''Secretary'';

(3) in subsection (e) by striking paragraph (2) and inserting the following:

''(2) The Secretary may deny the entry of a ship to a port or terminal required by the MARPOL Protocol, this Act, or regulations prescribed under this section relating to the provision of adequate reception facilities for garbage, ozone depleting substances, equipment containing those substances, or exhaust gas cleaning residues, if the port or terminal is not in compliance with the MARPOL Protocol, this Act, or those regulations.'';

(4) in subsection (f)(1) by striking ''Secretary is'' and inserting ''Secretary and the Administrator are''; and

(5) in subsection (f)(2) by striking ''(A)''.

SEC. 8. INSPECTIONS.

Section 8(f) (33 U.S.C. 1907(f)) is amended to read as follows:

''(f)(1) The Secretary may inspect a ship to which this Act applies as provided under section 3(a)(5), to verify whether the ship is in compliance with Annex VI to the Convention and this Act.

''(2) If an inspection under this subsection or any other information indicates that a violation has occurred, the Secretary, or the Administrator in a matter referred by the Secretary, may undertake enforcement action under this section.

''(3) Notwithstanding subsection (b) and paragraph (2) of this subsection, the Administrator shall have all of the authorities of the Secretary, as specified in subsection (b) of this section, for the purposes of enforcing regulations 17 and 18 of Annex VI to the Convention to the extent that shoreside violations are the subject of the action and in any other matter referred to the Administrator by the Secretary.''.

SEC. 9. AMENDMENTS TO THE PROTOCOL.

Section 10(b) (33 U.S.C. 1909(b)) is amended—

(1) by striking ''Annex I, II, or V'' and inserting ''Annex I, II, V, or VI''; and

(2) by inserting ''or the Administrator as provided for in this Act,'' after ''Secretary,''.

SEC. 10. PENALTIES.

Section 9 (33 U.S.C. 1908) is amended—

(1) by striking ''Protocol,,'' each place it appears and inserting ''Protocol,'';

(2) in subsection (b)—

(A) by inserting ''or the Administrator as provided for in this Act,'' after ''Secretary,'' the first place it appears;

(B) in paragraph (2), by inserting '', or the Administrator as provided for in this Act,'' after ''Secretary''; and

(C) in the matter after paragraph (2)—

(i) by inserting ''or the Administrator as provided for in this Act'' after ''Secretary,'' the first place it appears; and

(ii) by inserting '', or the Administrator as provided for in this Act,'' after ''Secretary'' the second and third places it appears;

(3) in subsection (c), by inserting '', or the Administrator as provided for in this Act,'' after ''Secretary'' each place it appears; and

(4) in subsection (f), by inserting ''or the Administrator as provided for in this Act'' after ''Secretary,'' the first place appears.

SEC. 11. EFFECT ON OTHER LAWS.

Section 15 (33 U.S.C. 1911) is amended to read as follows:

''SEC. 15. EFFECT ON OTHER LAWS.

''Authorities, requirements, and remedies of this Act supplement and neither amend nor repeal any other authorities, requirements, or remedies conferred by any other provision of law. Nothing in this Act shall limit, deny, amend, modify, or repeal any other authority, requirement, or remedy available to the United States or any other person, except as expressly provided in this Act.''.

SEC. 12. LEGAL ACTIONS.

Section 11 (33 U.S.C. 1910) is amended—

(1) by redesignating paragraph (3) of subsection (a) as paragraph (4), and inserting after paragraph (2) the following:

''(3) against the Administrator where there is alleged a failure of the Administrator to perform any act or duty under this Act which is not discretionary; or'';

(2) by striking ''concerned,'' in subsection (b)(1) and inserting ''concerned or the Administrator,''; and

(3) by inserting ''or the Administrator'' after ''Secretary'' in subsection (b)(2).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. OBERSTAR) and the gentleman from Ohio (Mr. LATOURETTE) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota.

GENERAL LEAVE

Mr. OBERSTAR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill, H.R. 802.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. OBERSTAR. Mr. Speaker, I yield myself such time as I may consume.

I smile because it's a delight to call the gentleman Mr. Speaker.

I rise in strong support of H.R. 802, as amended, the Maritime Pollution Prevention Act of 2008. The gentleman from Maryland (Mr. CUMMINGS) and I introduced this legislation at the outset of the 110th Congress to provide the Coast Guard and the Environmental Protection Agency with the legal authority they need to implement Annex VI of the International Convention for the Prevention of Pollution from Ships.

The House passed H.R. 802 on March 26, 2007, by a vote of 359–48. Notwithstanding that overwhelming vote of approval, the bill languished in the place we affectionately call the other body

for more than a year. But recently they have passed, with minor changes, that legislation. With House passage today, the bill can go to the President for consideration and for his signature.

Global warming is a critical issue, not just for the United States, but for every Nation, for every person on the planet. The international maritime community has recognized their contribution to global warming and to ocean pollution and have developed an international convention to address air pollutants from diesel ships.

For many years, the International Maritime Organization of the United Nations has been developing international standards to prevent pollution from ships that traverse the oceans. Those standards are now embodied in the International Convention for the Prevention of Pollution from Ships of 1973. The U.S. has implemented these environmental laws by enacting and amending the legislation known as the Act to Prevent Pollution from Ships, and when I served on the Merchant Marine and Fisheries Committee, much of whose jurisdiction has now been absorbed by the Committee on Transportation and Infrastructure, we worked on early versions of those amendments and environmental laws to implement and amend the APPS.

Annex VI of the Convention for Prevention of Pollution from Ships limits the discharge of nitrogen oxides from large marine diesel engines; it governs the sulfur content of marine diesel fuel; prohibits the emission of ozone-depleting substances; it regulates the emission of volatile organic compounds in the transfer of cargoes between tankers and terminals. It sets standards for shipboard incinerators and fuel oil quality; and it establishes requirements for platforms and drill rigs at sea.

The Senate ratified this treaty by unanimous consent in April, 2006. But it doesn't go into effect until we enact implementing legislation. The bill we consider today will implement Annex VI of the convention. It will provide the Coast Guard and the Environmental Protection Agency the authority necessary to develop U.S. standards and to enforce those standards on the thousands of U.S. and foreign-flagged vessels that enter U.S. waters.

Recognizing the challenge that the world faces in combating worldwide climate change and global warming, we have to take every measure possible to contain and then reduce rising temperatures on this planet, and particularly the oceans that are deep reservoirs of oxygen but also reservoirs of carbon and of the acid that we are pouring into the atmosphere. And that combination of absorbing heat, acid, and carbon is having deleterious effects on the Nation's world coral reefs. There was a very enlightening program on this devastation of the coral reefs on the Science Channel just the other evening.

□ 1530

It is something that I witnessed myself when I lived in Haiti and did snorkeling and exploring of the coral reefs. This was in the 1950s. You could see the dead reefs on the one side, and the vibrant, growing coral reefs and the abundance of life on those coral reefs, filtering out deleterious elements in the ocean water. But on the other side, the dead reef and a testament to the effects of pollution in our waters. And that was 50 years ago.

So the Senate amendments do not affect the application of MARPOL VI to the thousands of vessels that enter our ports. Their amendment clarifies that the United States can enforce MARPOL VI on vessels that are registered in countries which are not party to the convention when those vessels are in our 200 mile economic zone if the Coast Guard is on board of the vessel to enforce other annexes to the convention and to the extent that this enforcement does not violate international law.

In addition, the Senate amendment clarifies that an individual, a person, may bring a civil action if the Administrator of EPA has failed to perform any act or duty not discretionary under the act, and that is similar to civil action that may be brought under other provisions of law on application of other annexes to the convention.

The delay by the Senate, I regret, may have near term unfortunate consequences for the United States in the IMO negotiations that will take place this coming October to reduce emissions from ships. Under the terms of the convention, only parties to the convention may vote on those reduction measures, and a nation is not party to the convention until 90 days after its instruments of ratification have been deposited with the IMO. The Senate delay means we may not meet that deadline and the U.S. may not be able to vote to improve increased standards, even though delegates representing the United States chaired the working group that met over many sessions to negotiate these new, more rigorous standards.

So, given the importance of completing action on this legislation, I asked our majority leader, Mr. HOYER, to schedule this bill as quickly as possible immediately upon the House's return to session today. I thank the majority leader for his consideration, and I am hopeful we get the bill to the President's desk without delay.

I would also like to take the opportunity to thank our chairman of the Subcommittee on Coast Guard and Maritime Transportation, Mr. CUMMINGS, who has devoted a great deal of energy to the work of the subcommittee and to this particular issue in developing this legislation, and to the gentleman from Florida (Mr. MICA), the ranking member of our committee, for his cooperation and support in moving the bill last year and expediting today's action considering the bill, and to the gentleman from Ohio (Mr. LATOURETTE), ever the thoughtful, considerate, legal expert of the committee. I am grateful for his contribution.

Mr. Speaker, I reserve the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to rise in support today of the Senate amendment to H.R. 802, the Maritime Prevention Pollution Act of 2008. I want to give credit and pay tribute to the chairman of the full committee, Mr. OBERSTAR, and the chairman of the subcommittee, Mr. CUMMINGS of Maryland, for their diligence in working this bill and working the will of the committee and today the will of the House. I join Mr. OBERSTAR in expressing my regret that the other body has not acted in as prompt a fashion, and therefore we may be too late with this legislation. Hopefully that isn't the case.

This type of legislation is exactly what our committee should be about. Those of us, as the current occupant of the chair who hails from the Great Lakes region, as does the chairman of the full committee, know the great work that has gone into the restoration of the Great Lakes over many, many years. I am reminded as I listened to the chairman talk about the action or inaction of the other body that Johnny Carson, before the restoration of Lake Erie in particular was in full swing, used to joke that Lake Erie was a place where fish went to die. I think it is appropriate to say that at this moment in time, the Senate, regardless of who is in charge, is a place where bills go to die.

This bill will implement international requirements to reduce air emissions from ships for purposes of U.S. law and will establish more stringent standards for the emissions of airborne pollutants from ships as well as the sulfur content of fuel oil used in United States waters.

As Members may remember, the House first passed this bill in March of 2007, again thanks to the splendid leadership of Chairman OBERSTAR and Chairman CUMMINGS, with a broad bipartisan majority. Since that time, the bill has languished in the other body, to the point where we may well be prevented from voting on proposed amendments to the underlying convention at the next meeting of the International Maritime Organization. As a result, our abilities to push for strengthened measures have been significantly weakened.

Nonetheless, this is important legislation. I am pleased we will be sending it to the President as a first step to improve environmental conditions in our ports and along our coasts. I urge all Members to join me in supporting this legislation.

I reserve the balance of my time.

Mr. OBERSTAR. Mr. Speaker, I yield such time as he may consume to the Chair of the Coast Guard and Maritime

Affairs Subcommittee, my good friend, the very distinguished gentleman from Maryland (Mr. CUMMINGS).

Mr. CUMMINGS. I want to thank Chairman OBERSTAR for yielding and for his tremendous leadership of our Transportation Committee and getting this bill to the floor and his cosponsorship. I also want to thank Mr. LATOURETTE for his leadership, and certainly our ranking member of our overall committee, Mr. MICA.

At the beginning of the 110th Congress, Mr. Speaker, Chairman OBERSTAR laid out an agenda for the Transportation and Infrastructure Committee focusing on three critical objectives: Ensuring the safety and security of transportation and infrastructure; supporting expanded investment; and combating global warming.

The measure before us today, the Maritime Pollution Prevention Act of 2008, H.R. 802, represents yet another step towards the achievement of this agenda, and I applaud Chairman OBERSTAR for his focused leadership on one of the most urgent transportation issues confronting our Nation.

As the chairman of the Subcommittee on Coast Guard and Maritime Transportation, I rise in strong support of H.R. 802, which would institute the legal changes needed to bring the United States into compliance with Annex VI of the International Convention for the Prevention of Pollution From Ships, known as MARPOL.

This legislation passed the House of Representatives on March 26, 2007, by a vote of 359–48. The bill finally passed the Senate with a minor amendment at the end of last month, and that amended bill now returns to the House for our consideration.

MARPOL is a treaty negotiated by the members of the International Maritime Organization, the United Nations body responsible for developing the treaties that are essentially the sole international regulations for ocean shipping.

The MARPOL convention currently has six annexes limiting various forms of pollution from ships. Annex VI was negotiated to control air pollution and has been in force internationally since 2005. With the enactment of H.R. 802, the United States would finally align our Nation's laws to comply with this annex. Among other measures, Annex VI imposes limits on the sulfur content of the fuel utilized by ships, limits the emission of nitrogen oxides from ships' engines, and prohibits the deliberate release of substances that deplete atmospheric ozone.

In the United States, ships are essentially the last major non-regulated source of ozone depleting emissions and they are a growing threat to the world's air quality. In fact, some estimates suggest that the emissions of sulfur oxide from ships may now exceed the combined output from all the cars, trucks and buses in the world.

Unfortunately, the missions standards imposed by Annex VI are still very moderate. As a result, the United States has been actively working with our international partners to strengthen the annex's emissions controls through the development of new amendments. Among other changes, these proposed amendments which are now under consideration by the IMO would reduce allowable sulfur content in fuel from the current 4.5 percent to 3.5 percent in 2012, and require subsequent reductions through 2020.

A vote is scheduled on these new amendments by the current parties to Annex VI in October of this year. Critically, if the United States has not deposited with IMO its instrument of ratification of Annex VI at least 3 months prior to that vote, the United States will not be allowed to vote for the strengthened emission controls that we have worked to craft.

Mr. Speaker, implementation of the United States MARPOL Annex VI offers us the first opportunity to limit emissions from ships. Further, by joining this treaty now, we ensure that the United States can continue to lead the effort to achieve additional reductions in polluting emissions from oceangoing vessels.

I urge my colleagues to adopt H.R. 802 today, and I urge the President to sign this measure as quickly as possible.

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I know that it will come as a surprise to the Speaker that I spend just a couple of minutes talking about energy today, and I want to talk about it in the context of our committee.

I think the chairman of the full committee, Mr. OBERSTAR, can probably cite the statistic, but every year I have been here, and this is my 14th year in the United States Congress, the Transportation and Infrastructure Committee, I think under both Republican and Democratic leadership, has distinguished itself in the bipartisan and efficient way in which we craft our legislation and actually get something done, when the other body is willing and when the chief executive is willing to sign it.

I thought I heard before our July 4th recess Mr. OBERSTAR talk about the many numbers of bills that we have actually moved through the House, through the Senate, that have been signed into law, and it far exceeds a lot of the work that some of the other more contentious committees in this body, by their nature, no criticism intended, can compile, and I think it is in direct correlation to and as a direct result of the respect that we have for each other on both sides of the aisle on that committee, and now the stern but fair leadership of the gentleman from Minnesota (Mr. OBERSTAR).

That brings me to a frustration that I found and encountered over the Fourth of July recess. I was talking to Mr. OBERSTAR. I didn't quite have the adulation poured upon me at parades that he had in his district in Minnesota. There were some people that thought that $4.10 was a little bit much to be paying at the pump.

But the message that I got pretty loud and clear is that they want us to resolve it. When you pull into the gas station, there isn't a Republican pump and there isn't a Democratic pump and there isn't an independent pump, there is just gas that costs a lot of money today, and someone making $8 an hour in Ohio for a $320 per week gross paycheck is struggling, with $60, $70 filling up the tank to go to and from work.

There are a lot of opinions, and I will get into those in just a second, but I was reminded for the 12 years we were in the majority I happened to be supportive of something known as Davis-Bacon, which is the Federal prevailing wage law, and our committee is responsible for producing the Water Resources Development Act.

We were stymied for years in getting necessary water infrastructure projects out to our communities because of the sort of Davis-Bacon problem, and that is the then majority leader believed that if it came to a vote on an amendment, at that time by one of our colleagues who is not with us anymore, Mrs. Kelly of New York, that that issue would prevail, and much to the dismay of Members in the then majority party, who happened to be a majority of the majority but were a minority of the House, if that vote were permitted to have taken place. That was a frustrating thing, and, sadly, I think we find ourselves there again on this energy question.

There are Members in this House who advocate additional exploration and drilling in the United States, both on and offshore, in the West, in Alaska, off the east coast and the west coast. There are some who say no. There are some who advocate a replenishment and an increased investment in renewable, wind and solar. The gentleman from Minnesota is an expert on photovoltaic electricity, and certainly he has passed legislation that would be supportive of increased research and development of that type of energy generation.

There are those who believe like the French we should add nuclear power back into our portfolio. France, I believe, generates about 80 percent of its power through nuclear power. We haven't had a nuclear power program in this country for a number of years. There are those in this House that object to that and don't think that that is a good idea as well.

But the point is that I think that at $4, $4.10, $4.11, we have reached the price point where the American public, who has to get up and buy food, send their kids to school, pay their bills, pay their taxes and fill up their gas tanks, don't really want to hear why we disagree and what we can't agree on.

□ 1545

I think that they are looking for a solution. And there are a lot of people in both parties who are bellicose on this issue, and I don't intend to do that. But I think I would say that the time to have this national debate is now. We need to determine what direction the country is going to go in. And like most issues, the Democrats aren't 100 percent correct, the Republicans aren't 100 percent correct. But we are expected to be the leaders of the Nation and we are expected to come up with solutions.

So I would hope, not in the spirit of the old Water Resources Development Act where we were not permitted to have the House work its will, that the current leadership of the House would let the Members of the House work their will on what the energy policy of this country should be to give some relief to our citizens.

And since I am in a commending mood, Mr. Speaker, I would nominate the gentleman from Minnesota (Mr. OBERSTAR), the chairman of the Transportation and Infrastructure Committee, to be the designee of Speaker PELOSI to head up this effort and use the same bipartisan manner he uses on all other issues to get us out of this mess.

I reserve the balance of my time.

Mr. OBERSTAR. I yield myself 2 minutes.

I thank the gentleman for that promotion, I think. But I most sincerely thank him for his comments on the work of our committee and for his partnership in shaping that success story that we have enjoyed and in partnership with Mr. MICA as well. It is representative of the historical tradition of the committee to work in a bipartisan spirit. Perhaps it is so because of the nature of our committee jurisdiction, as the gentleman has suggested in his comments.

Indeed, as of the recess for Fourth of July, we had passed the 110th bill on that Thursday of the 110th Congress, the 110th bill from our committee, 64 of which have become public law or concurrent resolutions or House resolutions that were self-implementing; and that last measure, the 110th, was indeed to address the energy issue, to provide funding for transit and flexibility for transit authorities. And another bill that we passed by 311–104 was for the future of Amtrak, a bill that is now in House-Senate conference, and which I am confident we will bring to the House floor before the August recess to give Amtrak a new breath of life, incorporating some very significant Republican concepts and contributions that I think are important for the future of Amtrak. We did not operate in the committee on the principle of a majority of the majority, but rather on the principle of the best ideas that we could marshal and muster together and shape legislation that is beneficial for the future.

I now yield 3 minutes to the gentlewoman from California (Mrs. CAPPS).

Mrs. CAPPS. Mr. Speaker, I rise in strong support of H.R. 802, the Marine Pollution Prevention Act of 2008. I also echo the comments of the ranking member in praise of the bipartisan nature of this legislation. I want to thank Chairman OBERSTAR and Mr. CUMMINGS for their leadership in bringing this very important bill to the floor of the House.

H.R. 802 authorizes the EPA and the Coast Guard to issue enforcement regulations for the MARPOL Treaty Annex VI, which was approved by the Senate 2 years ago, with the goal to reduce harmful emissions from large oceangoing ships.

Implementation of this treaty amendment is an important first step for the protection of the health of our citizens in coastal areas of the United States. We know, for example, that large oceangoing ships are a major source of soot, sulfur dioxide, and smog-forming pollution, strongly associated with premature deaths, hospital visits, and asthma attacks. The emission from these ships can cause serious heart and lung problems, and can contribute to an increased risk of lung cancer.

This is clearly important in my congressional district along California's South Central Coast. In 2005, more than 7,000 oceangoing transits were made along our coastline. As these ships come through the Santa Barbara channel, heading to the ports of Hueneme, Los Angeles, and Long Beach, it is the case that the prevailing wind conditions blow most of the air pollution onshore.

Currently, these vessels emit over 45 percent of all the emissions of nitrogen oxides in Santa Barbara County, more than all the road vehicles combined. If left unregulated, these ships will contribute almost 75 percent of the county's nitrogen oxide pollution by 2020. This forecasted increase in air pollution from large ships could wipe out the hard won air quality improvements achieved in the last 30 years on California's central coast.

It is very clear that action must be taken to reduce these emissions which are impacting the lives of thousands of people living in my district every single day. And as I address this situation so harmful to this particular part of the coastline, I am aware that every coastal district in this Nation, the Pacific Coast, Atlantic, Gulf, and the Great Lakes would be affected perhaps in similar ways. So would the people who wish to visit these beautiful coastal areas.

The IMO, Mr. Speaker, is considering adopting new, more effective emission standards for large ships, but the U.S. will only have influence on these new standards if our country completes ratification of the MARPOL Annex VI Treaty via this implementing legislation. So I certainly hope we can seize this unique opportunity where industry, ports, environmental organizations, and regulatory agencies are aligned in moving forward to reduce emissions from this very large source of air pollution.

Again, I want to thank the chairman for bringing this legislation to the floor of the House today which means so much to my constituents. I urge its immediate passage.

The SPEAKER pro tempore. The gentleman from Minnesota (Mr. OBERSTAR) has 3 minutes remaining. The gentleman from Ohio (Mr. LATOURETTE) has 13 minutes remaining.

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, the reason that I nominated the gentleman from Minnesota (Mr. OBERSTAR) as sort of the energy czar of the United States Congress is exactly the reasons that he indicated. If you look at the legislation that has effectively dealt in part with the difficulties we find ourselves in, the gentleman's transit legislation certainly gets people into mass transit and out of their automobiles and saves fuel.

The gentleman's Amtrak legislation is historic, and in the short run a robust Amtrak means good things for America in terms of jobs and moving people to and from work. I think I saw something on the news where they were tracking what has happened to people's behaviors since the price of gas has gone up, and I believe Amtrak has seen a 13 percent ridership increase since gas has increased, a testament to Amtrak, and also a testament to the gentleman's bill that made sure that Amtrak isn't operating hand to mouth as we move through this process.

Similarly, the gentleman's vision for intercity rail in this country is again something where we lag far behind our friends in Asia and Europe, and he has for the first time, at least since I have been here, put real money, $350 million a year for 5 years, into the notion of high-speed intercity rail connections principally in the Midwest of the United States. But all of us recognize that that piece at least is some years away in terms of it being a viable alternative and impacting the cost of gasoline.

So, again, I would make the suggestion that there are good ideas on both sides of this aisle. There are many gifted Members of Congress, both Republicans and Democrats. We should have a national debate. And, for the sake of the people that I represent and others represent, we should get something done and we should get them some relief today.

But, Mr. Speaker, I was talking to Mr. Rayfield and we were trying to remember whether it was General William Tecumseh Sherman who said: If asked, I will not run. If nominated, I will not serve. If elected, I will not serve.

I think that is what the gentleman from Minnesota said to my suggestion and I hope he in fact reconsiders that, because of all of the people in this body, he commands tremendous respect

on both sides of the aisle. He has demonstrated again and again not only as the ranking member in previous Congresses of our committee but now as the chairman that he can put together the best ideas of both sides, and not only move forward ideas that he firmly believes in but find consensus and actually get bills done and signed into law. So I hope the gentleman, unlike my fellow Ohioan, General Sherman, reconsiders.

I yield back the balance of my time.

Mr. OBERSTAR. Mr. Speaker, I yield myself such time as I may consume.

The SPEAKER pro tempore. The gentleman is recognized for 3 minutes.

Mr. OBERSTAR. And I thank the gentleman again for his ever thoughtful remarks, Mr. Speaker. If handed such a challenge, I would undertake it with vigor and with resolute purpose. But it hasn't been handed to me, although I appreciate the gentleman's offer.

I think our committee has been able very successfully to attack these issues of short-term as well as long-term importance to the Nation, and we intend to continue pursuing the best interests of the country in the legislation we move from this committee, and to incorporate the good ideas from all members of the committee regardless of their political stature or standing.

I recall so well during T–21, the shaping of the surface transportation legislation, Mr. SHUSTER, then the chairman, and I traveled the country to major points of congestion throughout America to advocate for more robust investment in surface transportation. And at one point, I believe it was in Atlanta at a news conference, the last question was, well, Mr. OBERSTAR, why are you traveling and participating in this news conference, you a Democrat, with Mr. SHUSTER, a Republican? And I said: Because I have never seen a Democratic bridge or a Republican road; but if we work together, we can build all-American roads and all-American bridges.

The reporter then turned to Chairman Shuster and said: Why are you travelling with Mr. Oberstar? And he said, Because JIM OBERSTAR and I are joined at the hip.

And I think if we could carry that spirit with vigor and honesty and with resoluteness of purpose, we can accomplish great things for this country and for this Congress. And I for that reason enjoy the participation of the gentleman from Ohio (Mr. LATOURETTE), the gentleman from Florida (Mr. MICA), and in the current context Mr. CUMMINGS of Maryland, because there is a real sense of doing what is good for America and putting the country first and not our own personal agendas.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. OBERSTAR) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 802.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

CPL. JOHN P. SIGSBEE POST OFFICE

Mr. DAVIS of Illinois. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5975) to designate the facility of the United States Postal Service located at 101 West Main Street in Waterville, New York, as the ''Cpl. John P. Sigsbee Post Office''.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 5975

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CPL. JOHN P. SIGSBEE POST OFFICE.

(a) DESIGNATION.—The facility of the United States Postal Service located at 101 West Main Street in Waterville, New York, shall be known and designated as the ''Cpl. John P. Sigsbee Post Office''.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the ''Cpl. John P. Sigsbee Post Office''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. DAVIS) and the gentleman from Ohio (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois.

GENERAL LEAVE

Mr. DAVIS of Illinois. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. DAVIS of Illinois. Mr. Speaker, it is my pleasure to yield such time as he might consume to the author of this legislation, Representative ARCURI of New York.

Mr. ARCURI. I thank the gentleman.

Mr. Speaker, I rise today in strong support of H.R. 5975, to rename the post office in Waterville, New York in memory of Corporal John P. Sigsbee.

Mr. Speaker, it is with both incredible pride and sadness that I address the House today to speak on this bill that pays tribute to the life and sacrifice of one of this Nation's fallen soldiers, U.S. Army Corporal John Sigsbee.

On January 16, 2008, Corporal Sigsbee of Waterville, New York was killed in action 50 miles north of Baghdad during his second tour of duty in Iraq.

□ 1600

The family he left behind while in the line of duty will soon receive his second Military Purple Heart on his behalf. Corporal Sigsbee was only 21 years old when his life was taken in service of our country.

John Sigsbee graduated from Waterville Central School in 2004 and attended Mohawk Valley Community College. Upon completing his first year of college, John decided to join the U.S. Army to further finance his higher education and became wounded one month to the day during his first tour of duty in Iraq.

John was sent home to recover at the Brooke Army Medical Center, where he was visited by Army personnel who awarded him for his bravery. These officers told John that he needed time to heal properly from the burns he suffered when his tank drove over two IEDs, and that he needed time to consider his decision to return to service. However, John replied, with his mother at his side, ''Give me one year and I'll be back.'' John did just that, and it was then that his mother started to know what ''sacrifice'' truly means.

John went back and gave all that he had to give. In his mind, there was no question that his place was back with his fellow troops in Iraq to fulfill his responsibilities as a young American soldier.

Corporal Sigsbee valiantly served as a member of the 32nd Cavalry Unit in the 101st Airborne Division, a dedicated young man who every day honored his responsibility to his country and his mission. Corporal Sigsbee's purpose and sacrifices will be remembered by the entire village of Waterville, county of Oneida and now, with passage of this bill, by the whole Nation.

During calling hours and funeral arrangements for Corporal Sigsbee, his family and loved ones received an outpouring of gratitude and support by the village of Waterville. Over 2,000 citizens attended calling hours to pay their respects for this young American, and 300 members from local veterans' organizations came to the local high school as a show of strength and unity for their fellow soldier. Additionally, a 50-car procession escorted his body from the Griffiss Airfield to Saratoga National Cemetery where he was laid to rest.

On that day, January 25, 2008, Corporal Sigsbee received a true hero's welcome from not only his family and friends, but from people who did not know him yet wanted to give their thanks, thanks to a man who paid the ultimate price for their safety and their freedom. The renaming of this post office may be considered by some as a simple act by Congress. But it will forever symbolize to the village of Waterville and the citizens of Oneida County, and to future generations, the deep appreciation that this legislative body has for this man's life and contributions, and for the actions of each and every member of our Armed Services.

Mr. Speaker, I urge my colleagues today to support this legislation renaming the Waterville, New York, Post Office after and in honor of Corporal

John P. Sigsbee and to forever honor the life of this soldier, son, brother and American hero.

Mr. TURNER. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 5975, designating the post office in Waterville, New York, as the Corporal John P. Sigsbee Post Office.

In October 2005, Corporal Sigsbee joined the 101st Airborne Division 32nd Cavalry Unit, based in Fort Campbell, Kentucky, famously known as the home of the Screaming Eagles. After being deployed to Iraq, he was injured by a roadside bomb in July 2006. For his action, he was honored with the Purple Heart. After recovering at Brooke Army Medical Center, he insisted on returning to Iraq. Steve English, one of Corporal Sigsbee's high school teachers, said, ''John was doing something he knew was important. After being injured, he could have chosen to be assigned anywhere. He chose Iraq.'' English noted that it was indeed Corporal Sigsbee's commitment to his fellow soldiers that drove him to return to Iraq.

Sadly, during his second deployment, Corporal Sigsbee was killed in action on January 16, 2008, along with two other American soldiers when they came under small arms fire and grenade attack in Balad. He was posthumously honored with a bronze star for his service and a promotion to the rank of corporal.

Corporal John Patrick Sigsbee's life and tragic death have served as a rallying point for his community of Waterville, New York. By naming the new post office in his hometown after this brave young American, we will establish not only a permanent monument for this fallen soldier, but a permanent reminder of his example.

Mr. Speaker, I reserve the balance of my time.

Mr. DAVIS of Illinois. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as a member of the House Committee on Oversight and Government Reform, I rise to join my colleagues in the consideration and support of H.R. 5975, which renames a postal facility in Waterville, New York, after Corporal John P. Sigsbee.

The measure being considered was first introduced by Congressman MICHAEL ARCURI of New York on May 6, 2008, and is cosponsored by all members of the Empire State, the New York delegation. Upon introduction the measure was referred to the Committee on Oversight and Government Reform, and on June 12, 2008, our committee approved the bill by voice vote.

H.R. 5975 allows us to pay homage to the service of Corporal John P. Sigsbee who was tragically killed on January 16 while serving in Balad, Iraq. Corporal Sigsbee died as a result of wounds sustained from grenade and small-arms fire during combat operations.

Assigned to the 1st Squadron, 32nd Cavalry Regiment, 1st Brigade Combat Team, 101st Airborne Division out of Fort Campbell, Kentucky, Corporal Sigsbee joined the Army in October, 2005, and served his country valiantly up until the time of his death. For making the ultimate sacrifice of life, Corporal Sigsbee was awarded the Purple Heart which now rests with his parents, James and Susan Sigsbee, of Waterville, New York.

Mr. Speaker, as we pay tribute to this heroic American citizen, let us also take a moment and recollect on the thousands of men and women in uniform currently serving abroad in order to protect us here in the homeland. I ask that we all proudly commemorate both the life and the unfortunate death of Corporal John P. Sigsbee by passing H.R. 5975.

I reserve the balance of my time.

Mr. TURNER. Mr. Speaker, I yield back the balance of my time.

Mr. DAVIS of Illinois. Mr. Speaker, I urge passage of this legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and pass the bill, H.R. 5975.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

SERGEANT PAUL SAYLOR POST OFFICE BUILDING

Mr. DAVIS of Illinois. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 6092) to designate the facility of the United States Postal Service located at 101 Tallapoosa Street in Bremen, Georgia, as the ''Sergeant Paul Saylor Post Office Building''.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 6092

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SERGEANT PAUL SAYLOR POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 101 Tallapoosa Street in Bremen, Georgia, shall be known and designated as the ''Sergeant Paul Saylor Post Office Building''.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the ''Sergeant Paul Saylor Post Office Building''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. DAVIS) and the gentleman from Ohio (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois.

GENERAL LEAVE

Mr. DAVIS of Illinois. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. DAVIS of Illinois. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as a member of the House Committee on Oversight and Government Reform, I am pleased to join my colleagues, particularly the gentleman from Georgia (Mr. GINGREY), in the consideration of H.R. 6092 which names the postal facility in Bremen, Georgia, after a fallen hero, Sergeant Paul Saylor.

Introduced on May 20, 2008, H.R. 6092 is sponsored by Congressman PHIL GINGREY, representative of Georgia's 11th Congressional District and cosponsored by the entire Georgia delegation and a total of 43 Members of Congress. H.R. 6092 was reported from the Oversight Committee on June 12, 2008, by voice vote.

Mr. Speaker, a native of Norcross, Georgia, Sergeant Paul Saylor lost his life while serving in Iraq. According to military records, Sergeant Saylor was assigned to the 1st Battalion, 108th Armor Regiment from the Georgia Army National Guard out of Calhoun, Georgia, when he was killed on August 15 as a result of his Humvee accidentally rolling over into a canal in Mahmudiyah, Iraq.

Described as a good-hearted, very dedicated and hardworking gentleman, Sergeant Saylor served his country proudly and with distinction. In honor of sacrifice, Mr. Speaker, let us also pay tribute to the life of Sergeant Saylor and pass H.R. 6092 and designate the Tallapoosa Street post office building in Bremen, Georgia, after this fine American soldier.

I reserve the balance of my time.

Mr. TURNER. Mr. Speaker, I yield as much time as he may consume to the gentleman from Georgia (Mr. GINGREY), the author of H.R. 6092.

Mr. GINGREY. Mr. Speaker, I thank my colleague from Ohio (Mr. TURNER), the ranking member of the subcommittee, for yielding. I also, Mr. Speaker, want to thank my good friend from Illinois, Representative DAVIS, for the kind words that he just expressed toward Sergeant Paul Saylor and for allowing this bill to come forward today.

Mr. Speaker, I rise in strong support of H.R. 6092, a bill that I introduced to honor the life of Paul Anthony Saylor by designating the post office in Bremen, Georgia, in Haralson County, as the Sergeant Paul Saylor Post Office.

Mr. Speaker, thankfully we are at a point today where the Iraqi Government is proving to be more and more capable of securing its country and where al Qaeda terrorists are on the verge of being completely routed. But we can all agree that the road on which we have traveled has been anything but smooth. Indeed, we have lost 4,166 of our Nation's greatest treasures in Iraq, the lives of the patriotic, heroic men and women who have served there.

They are not just statistics, Mr. Speaker. There is a story behind each and every one of the brave men and women who have died serving our country in this global war on terror. I have come to know Paul's story very well over the last 3 years. You have heard the stories of other fallen heroes today who are being honored in the same way.

Paul Saylor's story is indeed one of courage, kindness, generosity, and devotion to his family and to his great country. Paul was a beloved son to his parents, Jamie and Patti; a beloved brother to Little Jamie, his big brother; and a beloved nephew to Linda Kirkland. He enjoyed playing high school football with his older brother, and was known for his smile and his caring heart. My colleagues, I want you to look at Paul Saylor in this poster. He is, indeed, a kind young man.

Since Paul's death, many have spoken of his penchant for standing up for others who were being bullied, for picking people up when they were down. It is a testament to the affection that others had for Paul that of the 5,000 citizens of Bremen, Georgia, his hometown, over 1,500 attended his funeral.

Mr. Speaker, it was Paul's sense of duty that led him to join the Georgia National Guard following his attendance at North Georgia College and State University. Upon joining, Paul probably had no idea he would be called upon to defend his country and our freedom in Iraq, but when he was, he bravely answered that call.

He served our Nation in Iraq as a member of the Georgia National Guard's 48th Infantry Brigade Combat Team. Paul lost his life on August 15, 2005, almost 3 years ago, while on patrol in Al Mahmudiyah, Iraq, when the vehicle in which he was traveling rolled down an embankment into a canal. He and two of his fellow scout team members died that day. Paul was 21 years old.

Sadly, Mr. Speaker, upon being returned to his family, Paul's remains were in a state of advanced decomposition and they were not able to see him that one last time for the final goodbye.

□ 1615

His family has worked tirelessly since then to assure that the improved treatment of the remains of all fallen soldiers would ensure that no family, no family would ever have to experience a similar fate of not being able to view their son or daughter one last time.

As I worked with Paul's family to address any potential shortfalls in our mortuary process, I have visited the mortuary facility at Dover Air Force Base in Delaware, as well as Mortuary Affairs Collection Point in Iraq, exactly where Paul fell, to try to evaluate the current processes and the procedures and identify any areas where improvements could be made. And those efforts led eventually to the inclusion of a provision last year in the National Defense Authorization Act for fiscal year 2007 requiring that all medical personnel be thoroughly trained not only in saving lives but also in remains preservation before they are deployed into the theater.

This training is currently being carried out in the medical training facilities at Fort Sam Houston and the Brook Army Medical Center in San Antonio, Texas. On a recent visit last month, I was able to determine that the Army is solemnly carrying out this duty, and I am proud to report that to my colleagues.

While we could never do enough to support and honor Paul's sacrifice, it is the least we can do to ensure that we honor the remains of our fallen heroes with the dignity and respect that they deserve. Our Nation will be forever indebted to Sergeant Paul Saylor. I know he is here with us today, and I would like to say to him, Thank you, Paul. Thank you for your service. And I want to thank his family. Paul, your spirit lives on, and you will never be forgotten.

Mr. Speaker, I ask all my colleagues to join me today in honoring Sergeant Paul Saylor. Vote ''yes'' on H.R. 6092.

Mr. DAVIS of Illinois. Mr. Speaker, I continue to reserve.

Mr. TURNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of this bill designating the facility of the United States Postal Service located at 101 Tallapoosa Street in Bremen, Georgia, as the ''Sergeant Paul Saylor Post Office Building.''

Friendly. Dedicated. Hardworking. These are but a few of the magnificent words of praise that arise when friends and family speak of the memory of Sergeant Paul Saylor.

A native of Bremen, Georgia, Paul was a shining star in his community. A starter on the football team and committed thespian, Paul was voted ''best personality'' by his graduating class of 2002. After graduation, Paul attended North Georgia College and State University, a military college.

Tragically, on August 15, 2005, Sergeant Saylor lost his life while serving as part of the National Guard's 48th Infantry in Al Mahmudiyah, Iraq.

Described by his brother, Jamie, as the ''. . . type who would help you, but he wouldn't let you know it,'' Sergeant Saylor served his family, community, and country with selfless devotion.

I rise today in honor of not only a tremendous patriot, but an outstanding citizen. I urge my colleagues to support this resolution in honor of a valiant life that should not, and will not, soon be forgotten by a grateful Nation.

I yield back the balance of our time.

Mr. DAVIS of Illinois. Mr. Speaker, I would yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and pass the bill, H.R. 6092.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 6:30 p.m. today.

Accordingly (at 4 o'clock and 18 minutes p.m.), the House stood in recess until approximately 6:30 p.m.

□ 1830

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Ms. BERKLEY) at 6 o'clock and 30 minutes p.m.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 1286, WASHINGTON-ROCHAMBEAU REVOLUTIONARY ROUTE NATIONAL HISTORIC TRAIL DESIGNATION ACT

Mr. HASTINGS of Florida, from the Committee on Rules, submitted a privileged report (Rept. No. 110–744) on the resolution (H. Res. 1317) providing for consideration of the bill (H.R. 1286) to amend the National Trails System Act to designate the Washington-Rochambeau Revolutionary Route National Historic Trail, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 5811, ELECTRONIC MESSAGE PRESERVATION ACT

Mr. HASTINGS of Florida, from the Committee on Rules, submitted a privileged report (Rept. No. 110–745) on the resolution (H. Res. 1318) providing for consideration of the bill (H.R. 5811) to amend title 44, United States Code, to require preservation of certain electronic records by Federal agencies, to require a certification and reports relating to Presidential records, and for other purposes, which was referred to the House Calendar and ordered to be printed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H.R. 3981, by the yeas and nays;

H.R. 1423, by the yeas and nays;

H.R. 4199, by the yeas and nays.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

PRESERVE AMERICA AND SAVE AMERICA'S TREASURES ACT

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 3981, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 3981, as amended.

The vote was taken by electronic device, and there were—yeas 360, nays 23, not voting 51, as follows:

□ 1856

Messrs. LAMBORN, BURGESS and HOEKSTRA changed their vote from ''yea'' to ''nay.''

Mr. HOBSON changed his vote from ''nay'' to ''yea.''

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

HONORING THE LIFE OF CLEM MCSPADDEN

(Mr. BOREN asked and was given permission to address the House for 1 minute.)

Mr. BOREN. Madam Speaker, I rise today to honor the life of a true Oklahoma statesman.

Clem Rogers McSpadden passed away on Monday, July 7, 2008, after a lengthy battle with cancer. Clem was the great nephew of Will Rogers and served as a Member of the U.S. House from 1973 until 1975.

If you ask Oklahomans about Clem, they will tell you about how he helped them during his time in elected office, how they remember him announcing rodeo championships, or how he gave them some great advice about life.

Clem was also a highly respected Member of this Chamber. He was honored with being the first freshman Member ever to be appointed to the Rules Committee. He also helped create the Rural Caucus, which I am honored to be a member of today.

Clem will not just be remembered as a former Congressman or President pro tem of the State Senate. As those of us from Oklahoma know, Clem had a positive impact on his community, his State, and the Nation in many ways, ranging from family, to military service, to rodeo, to business, and to ranching.

In keeping with a proud family legacy, Clem represented Oklahoma values on a daily basis: Hard work and personal responsibility. This is truly what helped make him one of Oklahoma's favorite sons, just like his great uncle, Will Rogers. There are very few people who have been such a great role model to us all.

Our thoughts and prayers are with Donna and the entire McSpadden family. Thousands of Oklahomans and rodeo fans across the Nation share the sadness of their loss.

I would like to yield at this time to the dean of our Oklahoma House delegation, FRANK LUCAS.

Mr. LUCAS. Thank you, Congressman BOREN.

Clem McSpadden was a child of the Great Depression. He was a veteran of the Second World War, a 1948 graduate of Oklahoma State University, an 18-year veteran of the State Senate of Oklahoma, and 2 years in this body. The tales, the stories, the insight, the history of all those institutions that he was a part of, he was a walking, living legacy.

Maybe I should put it this way: This Chamber was graced that Clem was a Member of this body for 2 years. We in Oklahoma are graced that Clem was a member of our State for 82 years. He will be missed. He will be missed.

With that I yield back to his successor in the Second District of Oklahoma, Congressman BOREN.

Mr. BOREN. Madam Speaker, I respectfully request Members to join me in a moment of silence to remember Clem's legacy.

The SPEAKER pro tempore. Members will please stand and observe a moment of silence.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Without objection, 5-minute voting will continue.

There was no objection.

DOROTHY BUELL MEMORIAL VISITOR CENTER LEASE ACT

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 1423, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1423, as amended.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 376, nays 11, not voting 47, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1908

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

The title was amended so as to read: ''A bill to authorize the Secretary of the Interior to enter into a partnership with the Porter County Convention, Recreation and Visitor Commission regarding the use of the Dorothy Buell Memorial Visitor Center as a visitor center for the Indiana Dunes National Lakeshore, and for other purposes.''.

A motion to reconsider was laid on the table.

DAYTON AVIATION HERITAGE NATIONAL HISTORICAL PARK EXPANSION

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 4199, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 4199, as amended.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 368, nays 18, not voting 48, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1916

Mr. KINGSTON changed his vote from ''yea'' to ''nay.''

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mrs. JONES of Ohio. Madam Speaker, I missed three recorded votes. Had I been present, I would have voted the following way:

H.R. 3981—To authorize the Preserve America Program and Save America's Treasures Program, and for other purposes, "yea."

H.R. 1423—To authorize the Secretary of the Interior to lease a portion of a visitor center to be constructed outside the boundary of the Indiana Dunes National Lakeshore in Porter County, Indiana, and for other purposes, "yea."

H.R. 4199—To amend the Dayton Aviation Heritage Preservation Act of 1992 to add sites to the Dayton Aviation Heritage National Historical Park, and for other purposes, "yea."

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 18, 2007, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Missouri (Mr. SKELTON) is recognized for 5 minutes.

(Mr. SKELTON addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

HONORING THE SECTION 60 MOTHERS

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California (Ms. WOOLSEY) is recognized for 5 minutes.

Ms. WOOLSEY. Madam Speaker, Section 60 at Arlington National Cemetery is a very special place. It holds the graves of soldiers killed in Iraq and Afghanistan. Section 60 also is the place where a group of remarkable women come together on a regular basis. They are the Section 60 mothers, the mothers of the soldiers buried in that hallowed ground.

The Section 60 mothers come to mourn their heroic children, and to honor their sacrifice. They also come to give each other support in their time of grief. They look to each other for comfort because the only person who can really understand a mother who has lost a child in war is another mother who has suffered the same loss.

Recently, National Public Radio broadcast two stories about the Section 60 mothers. In those stories, the Section 60 mothers talked about their children. They also described how they found each other and created a circle of support to help each other, to help each other make it through another day.

Their words are heartbreaking, yet also inspiring, because these mothers are American heroes, just like their children. I'd like to share some of their words with you today.

One mother placed flowers, balloons, and cards on her son's tombstone because it was his birthday. She said, ''These are our babies. When they have a birthday, this is what you do for them, and this is what we still do for them.''

Another Section 60 mother, whose son died 2 years ago, said, ''This is my son, and I just cannot believe that he's gone. I don't want him to ever be forgotten. It's just in the last couple of months in fact that I have been able to say, 'My son's death,' and even that sends a chill through me.''

Another mother described the impact of her son's death on her family. She said, ''I look at my surviving children, and it's such heartache for me because they're in so much pain, and I can't do anything about it except just love them. I can't take their pain away. It's excruciating.'' This mother's son was killed on May 8, 2005. It was Mother's Day.

Another grieving mother said, ''Our job is to protect our kids, and we would do anything to do that. I feel like I should have just jumped across the ocean and known that he was in trouble. It's irrational, but it's a mom.''

A mother whose marine son was killed in Iraq in 2005 talked about how the mothers are supporting each other. She said, ''We talk and we cry about the heartache. Our friendship has just been so incredible and different than any other friendship that I have ever known because our sons are side by side in that same soil.''

Another mother whose son was killed in Iraq in 2005 said, ''When we go to Arlington, sometimes we are holding the crying mother. And sometimes we are the crying mother. You never cry alone at Arlington. It's a refuge for me. You cannot be strong all the time.''

Another mother described the first time she saw another mother in Section 60. She said, ''She was just crying and saying, 'Our beautiful boys.' We just started walking toward each other and we were crying so hard.''

A cousin of one of the soldiers told this story about her fallen hero. ''He

always wore a St. Christopher's medal around his neck. When he died, they couldn't find it. But on the day of the funeral, the colonel came up to my aunt and said that they had found the St. Christopher's medal. When his body was thrown back by the blast, the St. Christopher's and his dog tags were in the hole that the bomb was in.''

Finally, one of the new mothers asked another mother if the pain of losing a child in war ever goes away. This mother had to say, ''No.''

Madam Speaker, we owe the Section 60 mothers our deepest respect and gratitude. They remind us that the war isn't something that takes place thousands of miles away. The wars in Iraq and Afghanistan are happening to our mothers and families right here in our own communities in America every single day.

So let us resolve to go to war only as a very last resort. Every possible alternative to war should always be completely exhausted before we send our great men and women into battle. That is the least we can do for them and the mothers they leave behind.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

(Mr. POE addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

MOMENT OF SILENCE IN THE U.S. HOUSE OF REPRESENTATIVES TO HONOR FALLEN HEROES

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Mr. JONES) is recognized for 5 minutes.

Mr. JONES of North Carolina. Madam Speaker, in May of this year I introduced H. Res. 1183, a resolution calling for the House to observe a moment of silence on the first legislative day of each month for those killed or wounded in the United States engagements in Iraq and Afghanistan. I am very grateful that last month the Speaker of the House initiated this moment of silence to honor America's fallen heroes. It is my understanding that the Speaker will continue this monthly observance during votes tomorrow.

I again thank Speaker PELOSI for making this tribute a part of the regular order of the House. This moment of silence will serve as a solemn reminder of the more than 4,000 killed and more than 30,000 wounded in Iraq and Afghanistan, and a thank-you from a grateful Nation. During the month of June, 56 United States servicemembers were killed; 27 in Afghanistan and 29 in Iraq.

Madam Speaker, I am sure every American shares my heart, which is heavy for the sacrifice of these fallen heroes. We are grateful to all of our men and women in uniform for their courage and for their selfless commitment to duty.

Again, I want to thank Speaker PELOSI and her staff for continuing to make this remembrance a reality for those who have sacrificed for our Nation and for their families. We, the House of Representatives, the People's House, should never forget those who have given their life for this great Nation.

May God continue to bless our men and women in uniform, and may God continue to bless the families of our men and women in uniform. And I ask God to continue to bless America.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Arkansas (Mr. SNYDER) is recognized for 5 minutes.

(Mr. SNYDER addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

□ 1930

LEGISLATION TO REPEAL SECTION 14(b) OF THE TAFT-HARTLEY ACT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. SHERMAN) is recognized for 5 minutes.

Mr. SHERMAN. Madam Speaker, in about a week, I will introduce legislation to repeal the infamous section 14(b) of the Taft-Hartley Act and to rid this country once and for all of the so-called Right To Work statutes in 21 or 22 of our States.

Now, section 14(b) of the 1947 Taft-Hartley Act allows States to pass the so-called Right To Work laws, which strip unions of the right to charge fees even when they negotiate the contract that the employee works under.

Section 14(b) has been controversial from its inception. It was vetoed by President Truman. It became law only overriding that veto. What we have now is a network of different labor laws in different States that pits the workers in one State against another, that pits businesses in one State against another, that creates an unlevel playing field for businesses in one State as opposed to businesses in another State.

So-called Right to Work is union busting. It is that simple. Right to Work strips unions of their ability to require payment for the contract negotiation that they do. It is designed to encourage free riders and to weaken and destroy unions.

Every worker benefits from the union contract, but under so-called Right to Work laws, some pay absolutely nothing to the union that negotiates that contract. That encourages others to choose to pay nothing, and eventually the union unravels. That is exactly what has happened in the 22 so-called right-to-work States.

Now, Right to Work States have significantly lower unionization rates than do other States. The unionization rate in my State of California is 18 percent; in New York, 26 percent; in Washington State, 21 percent; in Wisconsin, 16 percent; in New Jersey and Michigan, 21 percent. None of those States have so-called Right to Work statutes. In contrast, such right-to-work States such as Texas, Arkansas, Utah and Georgia, have only 6 percent unionization rates, and North Carolina, with its Right to Work laws, has an only 4 percent unionization rate.

Now, it can be alleged that those who are in right-to-work States don't need unions. They enjoy great pay and great working conditions. Well, let's look at the facts. The average worker in a so-called Right to Work State makes $5,333 less per year than a worker in a free bargaining State. That is a comparison of $35,500 on the one hand, with $30,167 on the other. Some 21 percent more people lack health insurance in Right to Work States as compared with free bargaining States. And as for workplace and safety, workplace deaths are 51 percent higher in States with so-called Right to Work laws.

It is time that we repeal section 14(b). It is time that we let unions organize and time that we allow workers who want to have a union, to enjoy that right.

I serve as the Chair of the subcommittee of Foreign Affairs Committee with jurisdiction over trade issues, including the International Labor Organization. The ILO is the official international organization affiliated with the United Nations that sets labor standards. It is clear that our Right to Work laws violate international labor standards. The National Organization of Manufacturers acknowledged this just a few days ago when they pointed out that while Right to Work laws probably violate the ILO core conventions, we as a country have not ratified those core conventions. So a country that should be in the forefront of the world, in the forefront of human rights, civil rights and labor rights, has in 22 of its States laws that violate the ILO core convention.

It is time for America to stand in the forefront of human rights, civil rights and labor rights. It is time to end so-called Right to Work.

I urge my colleagues to contact me if they are interested in being original cosponsors of this legislation.

SAVE OUR HEALTH CARE SYSTEM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Kansas (Mr. MORAN) is recognized for 5 minutes.

Mr. MORAN of Kansas. Madam Speaker, it is easy to be in Washington, DC, making bold predictions and promises and then ignore the realities right in front of our noses. Congress' failure to meet the July 1 deadline to prevent the scheduled fee reductions for Medicare providers is shameful and our failure to act has real consequences.

Seventeen percent of the people I represent are on Medicare, roughly 114,000 people. Many of these citizens live in communities where there are few doctors and few health care options. If the available doctors stop seeing Medicare patients, the health care access for all Kansans will be severely damaged. We must prevent the scheduled physician fee reductions from going into effect, and I encourage the Senate to take up necessary legislation now.

Just this week, I received a letter from a family physician back home. He, of course, expressed his frustration with our current Medicare system. Here are his words:

''It is with mixed emotion that I am writing to inform you of my intent to leave my family medicine practice. I have reached the point where I am no longer willing to expose myself or my family to the risk of having to rely upon an increasingly unreliable and poor source of income, Medicare. As a small business with 12 employees, I don't have the margin to absorb others' incompetence or our government's capricious reimbursement. I am not willing to be a pawn in an ideological chess match in Washington, and therefore as of today I will no longer accept Medicare patients.

''I am considering a position in an economically booming region in another State that is nearly 95 percent private pay. What physician worth their salt will continue in a system that undervalues the work they do for a patient population that is the most complex and the most time demanding?

''Congress and the Medicare system are taking advantage of good-intentioned physicians who are more interested in caring for patients and upholding and honoring the Hippocratic Oath than lining their pockets. Even now, writing this letter to you, I feel a sense of guilt as though I am betraying my Medicare patients. I have realized, however, that it is not I that have betrayed the elderly, rather Congress.''

When doctors close their practices, it creates a gap that is almost impossible for us in rural communities to fill. Congress must understand that we have a responsibility in making physicians want to continue to practice medicine, to not give them the reason to walk out their clinic or hospital doors and never look back. Congress needs to look closely at our role in these trends and make sure we are not encouraging this situation by playing politics with people's health care and their lives.

I hope that the Senate will pass legislation this week that can keep our vital health care system in place and protect our most vulnerable citizens.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oregon (Mr. DEFAZIO) is recognized for 5 minutes.

(Mr. DEFAZIO addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

REMEMBERING THE LIFE OF SENATOR JESSE HELMS

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from North Carolina (Ms. FOXX) is recognized for 5 minutes.

Ms. FOXX. Madam Speaker, I rise today to honor the life of Senator Jesse Helms. Senator Helms, who passed away this past 4th of July at the age of 86, was renowned for his considerable personal warmth and his commitment to the good of his constituents. So it is no surprise that in the days after his passing, tales from his constituents across the State of North Carolina paid tribute to his decades-long track record of thoughtful constituent service.

But Senator Helms was so much more than a good public servant. He was a man of integrity, and over the course of his 30 years of service in the United States Senate, you could always count on one thing: You knew where Jesse Helms stood on the issue. An outspoken conservative who was never bashful about defending the conservative principles of small government and individual freedom, he was a man who refused to compromise on his principles.

Senator Helms knew a conservative when he saw one. This is why he helped propel Ronald Reagan to the national stage by orchestrating Reagan's North Carolina primary victory in 1976. In so doing, he helped prepare the groundwork for the eventual Reagan Revolution of the 1980s.

As we remember the life of Senator Helms, we know we have lost one of the finest conservative statesmen of a generation. Senator Helms believed that America was the greatest nation in the world, and that belief informed his principles and the policies that he ultimately pursued. For instance, he knew that a strong America would be a signpost of hope for millions during the uncertain times of global communist influence in the seventies and eighties. As a strident anti-communist, he fought to ensure America would be a bulwark against the forces of oppression and tyranny in the communist corners of the globe.

Senator Helms was also an indomitable champion of life. He believed in the dignity of the lives of the unborn and fought with heroic energy to see to it that they might receive the protection they deserve. His pro-life legacy is still with us today. In fact, Senator Helms successfully amended legislation 35 years ago to include what is today known as the ''Helms amendment.'' This amendment, which is still in effect, mandates that no U.S. foreign aid money may be used to pay for or promote abortions.

Yes, Senator Helms fought for the innocent unborn, he condemned widespread corruption in the United Nations before it was popular to do so, and he staked out clear conservative positions without having to consult a pollster. He was a one-of-a-kind leader who passed on conservative principles to many, including me. But his crusades were never just about him. Rather, he fought for his country and the ideas that he knew made America great.

He said it best in his farewell address to the Senate: ''Being remembered isn't important. What is important is standing up for what you believe to be right, hoping that you have done everything you can to preserve the moral and spiritual principles that made America great in the first place.''

Senator Helms' death last Friday was a profound loss for America and for the State of North Carolina. He served his country well, dispatching his duty to stand up for what is right with unrivaled moral clarity. He will be missed, and today my thoughts and my prayers are with his family and loved ones as they grieve this loss and remember a life well-lived.

DECLARING ENERGY INDEPENDENCE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. BURTON) is recognized for 5 minutes.

Mr. BURTON of Indiana. Madam Speaker, I would like to say to the gentlewoman who just spoke that I sure share her admiration for Jesse Helms. I had the honor to work with him on legislation known as the Helms-Burton law, and I want you to know he was a wonderful man, a titan and a real conservative, and the kind of man that everybody in America could be proud to say that he was a Senator in the august body on the other side of the building.

Let me just say briefly today that we just celebrated the 4th of July, known as Independence Day, and we celebrate that because we became an independent Nation after the Revolutionary War by winning that war and becoming not a colony of Great Britain, but a United States of America, an independent country. Our Declaration of Independence.

Now we are faced with another problem. It is called energy dependence. We are dependent on Saudi Arabia, we are dependent on other countries in the Middle East, we are dependent on countries in South America like Venezuela that are not friends of ours, and we ought to be moving toward energy independence.

Any of my colleagues who were out marching in parades during the 4th of July recess ought to know that the people they were talking to on those parade routes were saying, hey, we don't want gasoline at $4 or $5 a gallon. We don't need to have gasoline at $4 or $5 a gallon, because we can drill right here in the United States and get

enough oil or gas or other energy products so we can be energy independent. All we have to do is start.

The problem is in this body and the other body on the other side of the building, they will not move, the majority will not move on drilling here in the United States. We could drill in the ANWR in Alaska and get 1 to 2 million barrels of oil a day. We could drill off the continental shelf and get 1 or 2 million barrels of oil a day. We have about a 400 or 500 year supply of natural gas. And we are not doing anything. We are not drilling.

We are sending $400 or $500 million a day over to Saudi Arabia and to Venezuela and South America for oil that we could produce right mere in America. It is costing us jobs, it is costing us energy, it is causing food price hikes, the price of anything else that you buy that is transported by truck in this country, and the people going to and from work or paying $4 or $5 a gallon or $70 or $80 or $90 for one tankful.

□ 1945

They can't survive. The economy will continue to go down if we don't do something about these energy prices. And we are not going to do it until we allow this country to drill, this government to drill in places like the ANWR and off the Continental Shelf, and use the coal shale that we have here in abundance to produce our own energy. We can do it. The people of America by about an 80 percent margin say drill now, drill in America, lower those gas prices. And we are not doing it.

We just celebrated our declaration of independence from Great Britain. It is high time we had a declaration of independence regarding our energy. We need to drill here in America, we need to drill in the ANWR, we need to drill offshore and become energy independent. It is time. And I hope all of my colleagues will sign my good friend, Mr. WESTMORELAND from Georgia's petition over here that will let everybody know in this country, all of their constituents know that they are committed to drilling in America to get energy prices down.

He is going to take a one-hour special order here pretty quick telling everybody why we should be drilling here in America. So if I were talking to people across this country, Madam Speaker, I would say call your Congressman, call your Senator, and tell them to sign Mr. WESTMORELAND's petition so we can move toward energy independence. It is high time. We should do it now.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Alabama (Mr. BONNER) is recognized for 5 minutes.

(Mr. BONNER addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

IRAQ

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Tennessee (Mr. DUNCAN) is recognized for 5 minutes.

Mr. DUNCAN. Madam Speaker, in the last 2 days there have been two major stories about comments made by the prime minister of Iraq. In the first, he said that terrorism in Iraq has been defeated. In the second, the Iraqi prime minister said he wants to negotiate a departure date for U.S. troops.

Yet, because the Defense Department has requested more money for Iraq this year than any year of the war so far, you can rest assured that we will not be leaving any time soon. This war has always been more about money and power than about any real threat to the U.S. Saddam Hussein's total military budget was only a little over 2/10 of 1 percent of ours.

As the conservative columnist Charley Reese wrote a few years ago: We attacked a country that had not attacked us, that had not even threatened to attack us, and was not even capable of attacking us.''

Now some are gloating about the success of the surge as if this somehow justifies all the deaths, all the injuries, and all the waste, fraud, and abuse of previous years. Well, surely with the expenditure of hundreds of billions of dollars, there would be a few successes along the way.

It is not criticism of the troops to say that this was a very unnecessary war that we should never have been in, in the first place. This war has meant massive foreign aid, huge deficit spending, and has put almost the entire burden of enforcing U.N. resolutions on our taxpayers and on our military. It has gone against every traditional conservative position I have ever known.

The Democrats recently passed a budget raising our national debt limit to $10.5 trillion. We are still borrowing staggering amounts of money, and this war has been our largest single expense. The Defense Department, like any giant bureaucracy, always wants more money, yet we simply cannot afford to keep spending at the rate our military leaders want.

Georgie Anne Geyer, the conservative foreign policy columnist, wrote a few months after the Iraqi war started that, ''Americans will inevitably come to a point where they have to choose between a government that provides services at home or one that seeks empire across the globe.''

This war has already become the most expensive and wasteful war in American history. There has not been anything fiscally conservative about the war in Iraq. In fact, there has been so much waste of money, so much fraud, so much excessive and lavish spending that fiscal conservatives should be the ones most upset about all this.

According to the Government Accountability Office, we already have $53 trillion to $54 trillion in unfunded future pension liabilities on top of our national debt, and this figure is going up every day. We are now spending at the rate of $500 million a day, every day, for our military ventures in Iraq and Afghanistan. In just a few short years we will not be able to pay our Social Security and veterans pensions and all the other things we have promised our own people with money that will buy very much.

Evan Thomas in the June 23 issue of Newsweek wrote, ''American politicians have gone to extraordinary lengths to be seen as Churchill, not Chamberlain, with results that have not always been in America's best interest.''

He wrote that Saddam Hussein and Slobodan Milosevic were frequently compared to Hitler. ''But,'' Thomas wrote, ''the only real Hitler was Hitler. Saddam and Milosevic were murderers, but at most local menaces.''

Both parties are falling all over themselves trying to prove their patriotism, and thus are afraid to question any Pentagon expenditure. And the Defense Department seems to know that no matter how wasteful or inefficient it becomes, that Congress will keep on giving it huge increases.

Where are the fiscal conservatives? Where are those who will say that, since the surge has been successful, we need to spend less money in Iraq, not more? Where are those who supported this war who will not back up the Iraqi prime minister and say it is time to start bringing our troops home?

Surely conservatives, who have always been the biggest opponents of world government, are not going to say we should keep on running Iraq and simply stay there forever regardless of how the Iraqis themselves feel.

At some point we need to start putting our own people first once again. At some point, Madam Speaker, we need to stop borrowing hundreds of billions to spend in other countries, and take care of our own people.

BLUE DOG COALITION

The SPEAKER pro tempore. Under the Speaker's announced policy of January 18, 2007, the gentleman from Utah (Mr. MATHESON) is recognized for 60 minutes as the designee of the majority leader.

Mr. MATHESON. Madam Speaker, I am very pleased to be able to organize a special order this hour on the part of the Blue Dog Coalition. The Blue Dogs wanted to take advantage of this opportunity tonight to speak about energy policy issues.

I think that there is no doubt that when it comes to domestic policy issues that this country faces, that energy policy is right at the top of the list. I think it is clear that this country should be looking for a comprehensive balanced energy policy, and I think that represents the type of politics the Blue Dogs in the House of Representatives have often supported.

We have a number of issues that we really want to work through tonight, and I have a number of my fellow Blue

Dog colleagues who are going to join me during this hour to talk about various energy policy issues. And I would like to start right now by recognizing my colleague from the State of Louisiana, one of the newest Members of the House, and someone who is prepared to really contribute on this issue, Representative CAZAYOUX from Louisiana.

Mr. CAZAYOUX. Madam Speaker, I gladly join Congressman MATHESON in our discussion regarding a balanced comprehensive energy policy that the Blue Dogs such as Congressman MATHESON and others support.

I believe that the high price of gasoline is an immediate problem that requires both swift action and long-term planning. It is the number one issue facing America today. It is one that hits home every time that we fill up our vehicles to go to work, when we attempt to go on summer vacation, and even when we go to the store to buy food.

I support expanding domestic drilling in the Outer Continental Shelf and in ANWR. This will not only reduce our dependence on foreign oil and lower gas prices, it will help our economy and create jobs. In fact, in Louisiana it was recently announced that a new oil lease in the Gulf of Mexico would generate $78 million for Louisiana to restore its coast.

I believe that one of the root problems of the high price of gasoline is our outdated refining capacity. That is why I support building new and improved refineries and updating old ones. We haven't had a new refinery built since 1972. We have to do a better job at allowing companies to build these refineries and incentivizing companies to build refineries so that we can expand our refinery capacity and stop importing refined gas and refined oil.

In addition to the issue of supplying gas prices, a strengthening economy and subsequently a strengthened dollar will also go a long way to improving fuel prices. I believe, and the experts support this, deficit spending is one of the root causes of our reduced dollar, and that is playing a huge role, I believe, in the price of oil and the subsequent price of gas in our economy. If we can start spending within our means in Congress, we believe that the dollar will become a stronger dollar, we can buy more foreign oil, because we are now importing 60 percent of our oil, we can do that in a more effective way and, therefore, the price of gas should go down.

But the talk of drilling, we should not stop there. That approach is a narrow approach. It is an approach I support, but it is not the end all. We have to have a multi-pronged approach to reach energy independence and security in the long term as well as the short term. That is why we voted to increase the oil supply by temporarily diverting oil shipments from the Strategic Petroleum Reserve. Experts estimate this will lower gas prices anywhere from 5 cents to 24 cents, and this just went into effect this past week and hopefully we will see some real lowered costs at the pump very shortly.

Also, I personally voted for an amendment to the Congressional Budget Resolution that would open up drilling in ANWR and the Outer Continental Shelf.

We as a body passed the Gas Price Relief for Consumers Act, and that allows the Justice Department to investigate foreign oil companies who conspire to drive up prices for American consumers.

We passed the Renewable Energy and Job Creation Act of 2008, which will help reduce our dependence on foreign oil by providing tax credits for renewable energy, including solar, biomass, geothermal, hydropower, and wind. We need to be aggressive in making sure that we harness the technological energy of our Nation, and this bill goes a long way in doing that.

We passed the Energy Markets Emergency Act, which directs the Commodity Futures Trading Commission to use all its powers, including emergency powers, to determine whether excessive speculation in energy futures markets is driving the price of oil up.

We passed the farm bill, which included a strong provision for biofuel production. And we know, the experts suggest that, without the use of biofuels, we would see gas prices 15 percent higher than they are now.

The bottom line is we need to work hard to create energy independence. That work must start today. In the words of one of my constituents: These cars just won't run on hope.

So we need to act to continue to increase domestic drilling, to increase our ability to harness our technological energy that America has succeeded in solving most of our problems and all of our problems in the past. And so we need to bring relief to hard-working Americans by reducing gas prices now.

Mr. MATHESON. I thank my colleague. And I appreciate the fact that my colleague from Louisiana highlighted the notion that there is not a single action that we need to take; that in fact we need a comprehensive effort, we need to look at a series of different opportunities to try to address both the supply and the demand side. And I appreciate his leadership on the issue and want to thank him for joining us in the Blue Dog hour.

Right now I recognize my colleague from Kansas, a long-time Blue Dog, Congressman MOORE.

(Mr. MOORE of Kansas asked and was given permission to revise and extend his remarks.)

Mr. MOORE of Kansas. Madam Speaker, I thank the gentleman from Utah, thank you for presiding here. I want to talk for just a few moments about this energy crisis that our country faces.

Madam Speaker, I am the policy co-chair for a group called the Blue Dog Coalition, which is using some of the time tonight, and I appreciate my colleagues being here to discuss the energy situation in our country.

Shortly after the last election when in fact there was a change in the majority in the House and the Democrats took control, the cochairs of the Blue Dog group and a group called the New Democratic Coalition, which I also belong to; I am not in the leadership there, but I have belonged to that since I have been in Congress for my tenth year now, we were invited over to speak to the President about policy. And this was the first time that we had been invited over to speak about policy. We had been invited for several other ceremonial things, but not about policy. So I really appreciated the opportunity to talk with the President.

In fact, the four leaders of the Blue Dog group met up in my office to talk about some ground rules since we only had a 45-minute meeting with the President. So we talked about how long we would take each if we had a chance to talk at all, and we decided we would each take about 2 minutes. And we talked and went through our items there.

But when we were leaving after this 45-minute meeting, the President was walking beside me. We were walking out the front door of the White House, and I said, ''Mr. President, you have an opportunity to be a hero to people in this country and maybe a few people around the world.'' And he said, ''Well, how is that?''

I said, ''Mr. President, do you remember, a little more than 30 years ago there was a man on television one night talking to the American people about the long lines at the gas pumps. He had a cardigan sweater on sitting in front of the fireplace. His name was Jimmy Carter.'' And the President said, ''I remember that.'' I said, ''Mr. President, President Carter said what we need is a comprehensive energy policy.''

And, you know, President Carter was right then, and I have faulted every Democratic and Republican President since President Carter for not doing what he said we needed to do back then, because that was the right thing. And what happened was President Carter made a few recommendations to Congress, and Congress passed a couple little things like the solar panels tax credit and a few other things. But a few months after President Carter talked to the American people, the long lines at the gas pumps went down, and I have said that every American adult in this country got attention deficit disorder and forgot about what he said.

□ 2000

And I wish we had done that back then, and I wish we had done that and had concentrated on that every year since then because we'd be in a whole different position as a Nation on the energy issue right now in this world.

I said, Mr. President, if you would do what President Carter said and appoint, I suggested to him, a commission, a bipartisan group of House Members, a bipartisan group of Senators and some experts on energy production and challenge them, Mr. President, to submit to you within 6 to 8 months a written recommendation of a comprehensive policy for developing energy to make us maybe not totally energy independent but to reduce by 60 percent, say, within 8 to 10 years our dependence on foreign oil, Mr. President, that would improve our national security. Right now, we are so dependent on nations in the Middle East to provide our security, our energy interests to us, that that is a security issue.

I said, Mr. President, I think drilling is an important part of this, but we cannot drill our way out of this problem. We have got to come at this from 40 different directions. I said, Mr. President, Kansas is in the top five States in the Nation in terms of potential for wind energy. We're not going to solve our energy problem by wind energy alone, but it can be a small part of a big solution to this problem. If we come at this from 40 different directions, including conservation, including just all kinds of different productions of energy, we could address this for the American people, and you would be a hero to people in this country.

He said that's a good idea. I'll think about that.

Well, unfortunately, he has got about 4, 5, 6 months left in his administration. I doubt seriously that anything is going to happen there now. He and the Vice President have been good friends, frankly, to oil companies, so I doubt anything is going to happen there now, but after this next Presidential election, whoever is elected, whether it's OBAMA or MCCAIN, we need to ask him to do what President Carter talked about 34, 35 years ago. That is to appoint a commission. Come back with a national plan for reducing our dependence on foreign oil.

We can drill, but that's not going to solve the problem in itself. If we do what I'm talking about here, what President Carter talked about, I think that would be the right thing for our Nation and the right thing for our world.

Mr. MATHESON. Well, I thank the gentleman from Kansas for his thoughts, and I appreciate again the introduction of the notion that we need a comprehensive approach.

There is just not one silver bullet that's going to solve this circumstance. It really is consistent with what the Blue Dog energy principles that were adopted at the start of the 110th Congress say about fuel diversity, the recognition that long-term U.S. energy independence is going to come from putting everything on the table, everything from conventional oil and gas and from alternative sources such as oil shale and tar sands, nuclear, hydroelectric, geothermal, coal, and biofuels. If we're really going to take this issue on, we've got to look at it in that comprehensive manner.

Again, the Blue Dogs have adopted a set of principles that recognize the value of a diverse fuel mix within this country as a long-term solution of creating energy security for this country.

With that, I now would like to welcome another fellow Blue Dog to speak, who is a fellow member of the Energy and Commerce Committee and who is cochair for communications for the Blue Dogs in this Congress—Congressman ROSS from Arkansas—who has in his years in Congress been a real leader on trying to address energy issues in this country. I welcome him to participate in this discussion.

With that, I will yield to him as much time as he would like to consume.

Mr. ROSS. I'd like to thank the gentleman from Utah for leading this discussion this evening on energy.

As the gentleman mentioned, I'm fortunate to serve on the House Energy and Commerce Committee and on the Energy and Air Quality Subcommittee. Through my work there, I've been working on ways to reduce our dependence on foreign oil and to address this energy crisis facing America and, quite frankly, facing the world, and I think there are several ways to do it.

There is no silver bullet. It's going to take a multifaceted approach. As Congress, we can't control the demand for oil in the world, but as a Congress, we can make an impact on the supply, and that's what I believe that this Congress needs to do.

Here is what we do know: In the next 8 years, there will be 100 million new cars on the road, 100 million new cars on the road in the next 8 years, not here but in China and in India.

Here is the other thing we know: If we do not change our current energy policy in this country, sometime in the next 12 to 20 years, depending on whose numbers you want to believe, we will go from being 60 percent dependent on foreign oil to being 100 percent dependent on foreign oil.

I've got a plan that, I believe, can go a long way toward fixing that. While we have a gasoline crisis today, in the next 35 years, it will be an electricity crisis. I've got a bill, H.R. 5437. It's called the American-Made Energy Act. It's 155 pages long. It's a multifaceted bill that takes a multifaceted approach to this energy crisis. Again, there is no silver bullet. Quite simply, my bill does this:

I propose that we drill in ANWR. There are 19 million acres in ANWR. My bill proposes to drill on 2,000 of them—one-sixth the size of the Dulles Airport. We've already got a pipeline going to Alaska, to ANWR, that can handle 2 million barrels a day; we're only putting 1 million in it. Let's fill it up and put the other 1 million barrels in it.

Additionally, we can drill off the coast. In fact, it was by executive order that Bush One chose to shut down drilling near the coast of Florida. That was a mistake. They're drilling much closer to the coast in Alabama than they are in Florida today because of an executive order issued by former President Bush, often referred to as Bush 41, I believe.

So this is not a Democrat or a Republican problem. I think both parties, quite frankly, have some blame to share here, but we don't have a Democratic energy problem or a Republican energy problem; we've got an American energy problem, and we need to fix it as a Congress. I think it would be most helpful if we did it, quite frankly, in a bipartisan way.

I'm not talking about drilling off the coast or in ANWR and utilizing 1940 or 1950 technology, not even utilizing 1990 technology. I'm talking about doing it while utilizing 21st century technology that can allow us to do it, to reduce our dependence on foreign oil and yet remain good stewards of this environment, of this land that God has given us to care after.

Then there are the lease and royalty payments from drilling in those areas. By drilling in those areas, we meet our short-term oil needs. We've got some great ideas. I've actually test-driven a hydrogen fuel cell car. You can drive it. It sounds like an electric golf cart, and it runs like a regular car, and when you stop, if you jump out and run to the tailpipe with a clean glass, in time, it'll pour you a half a cup of water. They tell me you can drink it. I didn't try, Madam Speaker, but they say you can.

I mean these are not Star Wars-ish ideas. These are not ideas of the next century or of the next generation. They're here, but we need an energy policy that embraces them and that moves them from the science lab to every street corner in America where you see a gas pump today.

So my bill does this: It says drill in ANWR, utilizing new environmental technology. Drill off the coast, utilizing new environmental technology. Then the revenue from the lease and royalty payments, it's estimated, will total $80 billion. I want to take that $80 billion and put every dime of it into alternative and renewable fuels to move these ideas from the science lab to the marketplace.

This year, this administration will spend less than $4 billion on alternative and renewable fuels. Now, for a country boy from Hope, Arkansas, $4 billion sounds like a lot of money, but to put it in perspective, we will spend that amount in Iraq in the next 10 days. Bill Gates will spend twice that amount on research and development for Microsoft Corporation alone this year. When President Kennedy said he was going to put a man on the Moon, he didn't just say it; we invested in it. In today's dollars, it was $90 billion, and we did so much more than put a man on the Moon. We grew a new generation of innovators in this country

who have created and who have invented a lot of the technologies that we're now beginning to take for granted.

It's time for another President Kennedy ''let's go to the Moon''-sized investment and, this time, with alternative and renewable fuels so we can reduce our dependence on foreign oil. That's exactly what I try to accomplish with the American-Made Energy Act, H.R. 5437.

I'd like to thank the gentleman from Utah for allowing me to come and to speak on my bill for a few minutes this evening, and I appreciate his leadership on these energy issues.

With that, I yield back to him.

Mr. MATHESON. Well, I thank my colleague from Arkansas for spending time with us this evening but also for trying to take a thoughtful and comprehensive approach. That's really what Blue Dogs are about. I think we really try to discuss items in the context of policy.

I'd just like to introduce one other factor into this discussion about the high gas prices that we face today and what we can do in terms of the price of oil, and it's consistent with what Blue Dogs talk about a lot. People probably didn't think I'd raise the issue of fiscal responsibility relative to oil prices, but it turns out that there is a significant relationship here. It has to do with the fact that, during the current administration, so much more money has been borrowed.

When our current President took office, the national debt was around $6 trillion. We're approaching $10 trillion now. $4 trillion just in the last 7½ years. Do you know what that has done among many other things? It has created a weaker dollar. Now, oil is a global commodity. It's traded all over the world, and it's traded under one currency, and that's the U.S. dollar. That weaker dollar means that oil costs even more for us in this country than it does for other countries with stronger currencies.

I've brought with me tonight this chart to graphically demonstrate the relationship, according to the Energy Information Administration, between the lower dollar—the weaker dollar—and how much the price has gone up in terms of dollars per barrel. It's pretty self-evident that we had a strong dollar for a number of years. Then in the early part of this decade, as the debt started to increase, the value of the dollar dropped precipitously, and the price of oil went up at the same time.

It's not the only factor associated with how expensive oil is in the world today, but clearly, in all of the discussion that we've been having about why the oil price is so high in the world, in my opinion, this particular issue has not received much attention.

The Blue Dog Coalition has this fundamental principle about balancing budgets and about living within our means. We tell people that you may not see the impact of this debt right away, but here is an impact because, with all of that increased debt, we've had to borrow so much money as a country that we've weakened our currency relative to the rest of the world. Therefore, because that's how it's traded all over the world, the price of oil on a dollar-per-barrel basis has gone up a lot.

So I wanted to introduce this concept, which is very appropriate within a Blue Dog Special Order hour here on the floor of the House of Representatives, to talk about the linkage between the need for fiscal responsibility and how it affects energy prices, which is something that, I think, ought to be part of this debate as well.

With that, I'd like to yield time to another one of my fellow Blue Dogs, another individual who is very thoughtful and measured in his approach, and that's the type of approach we need for a comprehensive energy policy. He is my colleague Mr. SCOTT from the State of Georgia.

Mr. SCOTT of Georgia. Thank you very much, Mr. MATHESON. I certainly want to thank the gentleman from Utah for allowing me to share a few thoughts on what, I think, is the most urgent issue facing, really, the survival of the world, not just that of our country. I'd like to talk about this from an additional perspective.

This issue is rolling along on about four or five major legs. One is supply. Another is the weakened dollar, of which you spoke. Another is do we do more drilling. Then this other of which we have not dealt as we should, of which I believe is that leg of which we have to deal if we are going to really address the issue facing the American people, is the high price of gasoline. That leg is called demand. We've got speculators who certainly need to be reined in, and we're doing that.

I serve on the Agriculture Committee. We've had the Commodity Futures Trading Commission under Chairman Lukken to come before our committee. We want to make sure that we give him the resources and all that he needs to bring title regulation and transparency. We need to look at issues like swapping where these traders use others' pension funds to trade among themselves with little oversight. We need to close the Enron loophole. We need to make sure that everything trading with oil is done in the light and not in foreign exchanges that have very little regulation. All of that needs to be done.

□ 2015

Speculation and speculators play a vital role as well. So that we have to make sure that whatever approach we take there, that's a part of the infrastructure. And still we're not addressing the issue facing the American people until we address the issue of demand.

The only way we're going to bring down the price of oil, and subsequently the price of gasoline, is to reduce our demand and our dependency on oil. Oil's not in our future if we're going to have one. If we continue with oil, this earth is going to eventually burn up. We're getting to that point now. It is the oil and other matters that are causing global warming at such an epidemic rate that even if you drill for more, that creates more demand. And drilling is where we are now. That is not where we need to go for the future.

We have got to erase the high demand or else we're going to be in a footrace with China and India. If we continue at our pace on our current demand for oil, it will go up 22 percent in the next 10 years, China's will go up 160 percent, India 110, and developing countries in the Middle East will go up 125. Increase. The more oil you drill for, the more the demand, the higher the price.

Let me tell you something that happened. Just before we left, in Jidda in Saudi Arabia they had a conference. And at that conference, Saudi Arabia said, Okay. I tell you what. We're going to increase during the month of May by 300,000 barrels per day. Then in July and June, last month, they added another 200,000 barrels a day, increase, because we felt the more the supply, then we'd lower the price. No, no, no. Less than 24 hours. That happened on a Sunday. That very Monday, when the first market opened in Singapore, the price went up from $134 a barrel to $137, and now it's rolling along at $145. Does more oil, does more production, does it drive it up? It creates the demand.

So what do we do? We've got to move forthrightly on getting off of oil, getting off of dependency on it. We've got a great chance to do that. We have the means to do it. There is no country that has the technology, that has the smarts to be able to get alternative sources of energy to survival.

If Brazil can do it, why can't we? I went down to Brazil last year, spent a week down there going into the factories, into the production plants, and 85 percent of their automobiles are running on what is called flex fuel. In other words, ethanol made from sugarcane. Why can't we do that? No. We blindly want to go with ethanol, but we want to go make it on corn.

For every unit of energy that it takes to produce a unit of ethanol from sugarcane, they can only yield less—they yield 8 units of energy. That's a great yield. With corn, for every energy it takes to produce it they can only produce less than 2 units of energy. It's not efficient. Plus, it drives up the price on food because corn is the basic for livestock. So corn ethanol is not the future. Nor should it be on any basic food.

But now our technologies say we can make ethanol from kudzu, from pine straw, from pinecones, and yes, sugarcane.

Now I ask you, here is a question that we need to ask and the American people need to ask Congress. Why can't

we begin to offset our demand for gasoline to run our automobiles, offset, removing our demand bit by bit from importing oil from the Middle East and on oil to making up for that by pouring in ethanol? And why is it that we have a 54 cents-per-gallon tariff on every gallon of ethanol we would import from Brazil? It doesn't make sense. Why would we not want to import ethanol made from sugarcane, the most energetic, the most productive kind of ethanol, into this country from Brazil to offset the loss from importing oil from there as we build up our own capacity for ethanol?

And let me just share with you what we're doing in my great State of Georgia. Georgia is at the leadership—and I would like to say, Mr. MATHESON, in my own district in Clayton County, for example, we have in Clayton County in Ellenwood, a plant that makes biodiesel fuel. And you know what they make it from? Not oil, not petroleum. They're making it from the fatty parts that you throw away from the chickens and from pork. And they're taking it. And this year, this plant, it's called the BullDog BioDiesel—you can tell we're from Georgia because it's the ''Bull Dog''—but it's the BullDog BioDiesel plant in Ellenwood. They will produce 18 million gallons of biodiesel fuel.

And it is not going to have to go on the world market like oil would. That's another thing we need to clarify because people think if we were to drill and get oil, that that oil will come straight on back here and it stays in this country. No. That goes to the world oil market and comes out at $145 a barrel if it was today. The price is there.

So my point is this: We need to understand that we are at a critical point in our history, quite honestly, as a civilization, and America must lead in this direction, and that leadership means cutting this demand and dependency on oil and moving to renewable areas. We're already moving with the battery cell automobile. Why can't we put greater emphasis on those things and those items?

And as I said, we certainly have to look at ethanol as a future because it would make up for the shortfall we would get once we are able to cut our dependency on oil, especially from the Middle East.

So I think that among all of the other things that we've got to do, and there are many things we've got to do, but essentially it comes down to the bottom line: You want the price of gasoline to go down? You want the future of the world to go up? Then what you do is you've got to cut the demand on that petroleum as a base of energy and move to another base of energy that does not threaten our economy or our environment.

Mr. MATHESON. Well, I thank the gentleman from Georgia for his thoughtful comments tonight. And it is no surprise. He's always been someone who tries to understand issues well. His comments really reflect a couple of the basic principles. You know, as I mentioned earlier in my remarks, the Blue Dog Coalition published a set of energy principles at the start of this Congress, and I think my colleague, Mr. SCOTT, really touched on two of the important components of those principles.

The first is that the Blue Dogs believe in the value of technology development, and energy policy should build on American strengths. One of the great things about this country is its ability to innovate. Research and development capability of this country surpasses any place in the world. Whenever this country has applied itself to solve a problem, it succeeds so well. And that type of innovation is what is going to allow technology to take us to a different place than we are today.

And I think Mr. SCOTT discussed some of those potential technologies in which he's familiar, and there is no question in the long run, if we are going to get to a position where this country is not as dependent on foreign oil, we need technology to take us to a new place in terms of particularly how our transportation and infrastructure are going to operate.

And the second Blue Dog energy principle I think Mr. SCOTT touched on very well is this notion of efficiency. You know, if you can do more with less, we all win. We use less energy, we save money, it's good for the environment. Energy-efficient technologies and energy conservation are other pieces to this puzzle.

I think an overriding thing we've said throughout this discussion tonight is that there is no single option here. There is no silver bullet. We, as Blue Dogs, support the furtherance of energy-efficient technologies. We think that we can continue to make progress and push the envelope and that, again, as a country that leads the world in innovation, we can also lead in terms of continuing to be more efficient in how we use energy.

Again, I thank Mr. SCOTT for his comments. As usual, very consistent with Blue Dog principles, and again, it helps further this debate about how we ought to move ahead in our national energy policy.

With that, I would like to recognize another of my fellow Blue Dogs, someone who has invested a lot of time and effort to develop an understanding of the energy issues and is a real substantive contributor to the policy debate, and that is my colleague from South Dakota, Representative HERSETH SANDLIN.

I will yield her as much time as she may consume.

Ms. HERSETH SANDLIN. I thank the gentleman for yielding, and I thank him for his leadership on the Energy and Commerce Committee and in other capacities and with the Blue Dog Coalition on energy issues.

And in citing our energy principles that the Blue Dogs stand by, we have a number of those that have been addressed already this evening, but fuel diversity is certainly one that I think deserves emphasis.

The representative from the State of South Dakota, an at-large district, a very rural district, as many of the Blue Dogs represent rural districts, the impact of these high gas and oil prices are having a disproportionate effect in many respects on my constituents who have to drive great distances to work, who have to drive great distances to get children to school, who have to put nitrogen fertilizer on crops, and who have to use great amounts of diesel and gasoline to plant and harvest those crops to maintain a safe, abundant cheap food supply.

So much has been made in recent weeks of high commodity prices. We just recently passed the farm bill. Overrode the President's veto twice to pass a farm bill that preserves the safety net. And as people point to those high commodity prices and think that farmers and ranchers have never had it better, one thing that I would hope that my colleagues, Madam Speaker, would keep in mind is that nitrogen fertilizer, which depends on natural gas, is an essential ingredient, and the high cost of gas and diesel are the input costs that are dramatically higher than they've ever been, that cuts into any profits, dramatically, that farmers and ranchers may be experiencing now that they're finally getting decent commodity prices that are saving taxpayers dollars because those are higher than the target prices and loan rates that we've set into law. And therefore we aren't making countercyclical payments and loan deficiency payments to farmers across the country because they have another buyer for that grain rather than just one buyer putting it on the export market at a lot less than the cost of production.

That other buyer is the local ethanol plant. And as my colleague from Georgia pointed out, we know that we're just maybe less than 2, 3 years away from the technology available to make commercially available not just corn ethanol and the dramatic increases we've seen in the improvements and the production process to make the efficiencies in the production process even better, but cellulosic ethanol. Cellulosic ethanol that can be developed in every region of the country given biomass sources, given other nonfood and feed crops that can be grown in every region of the country. And it's the importance of those technologies that can only be facilitated by the financing and some of the loan guarantees that we've recently passed, but the financing and the private market that are essential.

Which is why I strongly argue that, Madam Speaker, that it's not corn ethanol that should be blamed for high

food prices; it is the high cost of energy, which is the focus of our discussion here tonight, and the transportation and the production and the marketing of the food to Americans across the country. We need corn ethanol as a bridge to cellulosic ethanol. And that is where the financing will follow, that's where the capital will follow to get us to second-generation ethanol production.

And we also have to look at other sources that currently aren't available. For example, woody biomass off the national forests which, in my opinion, should be able to be used for cellulosic ethanol production. It not only reduces the wildfire hazard based on the hazardous fuels that are lining the bottoms of our forests, but it is a proven technology for a use for cellulosic ethanol. If we don't use it, it sits there and rots and releases methane into the atmosphere, which is worse than carbon, or it burns and releases carbon into the atmosphere.

□ 2030

So the bottom line—and I think this is back to the Blue Dog principle of diversity of fuels—we shouldn't be so quick to take energy sources available domestically off the table. We shouldn't be reluctant to reevaluate long-held positions on a particular energy source in light of new technologies that can help us extract resources in an environmentally sound way; new technologies that can facilitate wind energy development, biofuels development, a whole host of other technologies on the electricity side, whether it's clean burning coal, hydroelectric power, solar power; and of course, in the transportation side, with vehicle technology and engine technology for flex-fuel vehicles and hybrid vehicles.

Already this Congress we've taken a number of important steps, not the least of which is the renewable fuel standard that we passed in December that, by many analyses, shows that is moderating the price of gasoline at 15 percent less than it would be otherwise without that increased biofuels production. So biofuels production is saving consumers money at the pump.

But obviously, we know that consumers are suffering with $4 gasoline, higher in some areas. We know that there are ways that we need to get at speculation that may exist in the marketplace for oil and other commodities, that we have the weak dollar that my colleague from Utah pointed out at the top of the hour that is affecting the increased costs per barrel of oil.

We, in addition to the renewable fuel standard, passed CAFE standards that go to the heart of conservation energy efficiency and the additional technologies that we know exist to help maximize those efforts.

We have passed legislation to ensure that the President no longer adds oil to the Strategic Petroleum Reserve, and we know that that Strategic Petroleum Reserve is yet another tool that we need to consider using as we move forward to give some relief to consumers at the pump.

We passed a bill that looks at the issue of how many leases are currently outstanding and how many millions of acres perhaps where there is natural gas and oil where we can facilitate production of those sources on public lands.

But we also know, as I stated, that we can't be taking energy sources off the table, and we have to be looking at where else, whether it's in the deepwater gulf or other parts of the Outer Continental Shelf, elsewhere on public lands, where it can make sense both economically and from an environmental perspective to be able to extract those resources, particularly natural gas, which does not pose the same types of environmental problems in drilling on the OCS. Although I think that technology, again, has brought us to a point that can minimize those types of spills. The oil shales that we know exist in a number of States, whether it's in Utah, Wyoming, Colorado, and of course, the other States, working with our trading partners and allies to our north in Canada as it relates to a natural gas pipeline, as it relates to oil pipelines that are being sited and under construction across South Dakota, to be able to get more oil into the Midwest where we oftentimes are at a disadvantage in being at the end of the line.

So I think that it's important tonight that we focus on not only what we've already done but what more we are prepared to do to enhance the diversity of fuels, to enhance the diversity of options both in the transportation sector and the electricity sector to make us less dependent on foreign oil, to create jobs, to enhance technologies that create the jobs for the future, for the young men and women that are looking into careers in science and environmental engineering and mechanical engineering and a whole host of opportunities it affords to every region of the country, if we take the steps that we need to take, reevaluate those long-held positions, look at information with a fresh look and glance, and be willing to take some risks because that's what it's going to require to do right by our constituents.

And I thank the gentleman for yielding.

Mr. MATHESON. Well, I want to thank my colleague from South Dakota who is always a very substantive participant in any public policy discussion we have here in Congress, and I know she's invested a lot of time and effort when it comes to the energy issue. I really appreciate her participating in this Blue Dog discussion.

There are a couple of points that were raised by my colleague from South Dakota that I think merit one more mention. The discussion of what we've done in this Congress, there have been some actions that have been taken, and one of them is going to bear fruit in the long run. We're not going to see a result right now. It's a process that came out of the Science Committee, of which I'm a member.

The chairman of that committee, Mr. GORDON, another Blue Dog, pursued a really aggressive effort to invest in basic research, in R&D, tried to put Federal funding out there to really get things going in a more aggressive way than it has in the past. He created a program called ARPA–E. It's designed after a previously created program within the Defense Department that's called DARPA, which created a lot of research that's helped us with technology advancements in the defense arena. And this legislation created a comparable effort in the energy policy arena, and our Blue Dog colleague, Mr. GORDON, has been a real leader on that. And that is another action this Congress has taken that is an important step to take. And I know we're frustrated by $4 gas today, and that program, the ARPA–E program, is not going to reduce the price of gas next month. I understand that.

But the point is there are a series of steps we need to take. There's some short-term, some mid-term, some long-term strategies, but we need to put them all on the table now. We need to do what we can do to make progress on this issue.

The second point that my colleague from South Dakota said—and I just want to emphasize—is she talked about opportunities and activities that we can work with our partners, including in Canada. When she mentioned Canada, it reminded me of the fact that as a country Canada has placed a tremendous emphasis on developing their tar sands resources.

Now, I represent the State of Utah and a significant amount of the oil that is refined in refineries located right in the Salt Lake City area comes from Canada. It comes from the tar sand resource in Canada, and it is piped to the United States.

Now, we can do that here, too. We can maybe take a page out of the Canadian book on how they, as a country, made efforts to develop that resource. It's an unconventional resource, and they took the steps and they made a significant commitment. It has not been without costs. It has not been without setbacks. There are lessons to be learned there, too, which we as a country should do.

And I understand that the tar sand resource we have in the United States—and we have it in my own State of Utah—is a little bit different composition than the Canadian tar sands. I understand that there are differences, but there's so much that we can learn from that, and it's a viable source of production today in Canada.

And so I appreciate the mention of how we can learn from others and learn from our partners, and I don't know if you had something you wanted to add to that point.

Ms. HERSETH SANDLIN. Well, not specifically to that point, but I did want to mention—and I know you have the gentleman from Georgia who wants to make another point, too, so I will be quick.

The gentleman from Georgia (Mr. SCOTT) and I are both on the Agriculture Committee, and you may have mentioned this. One of the bills that we'll be taking up tomorrow is a bill that you have introduced, and so I think it's important for our constituents who, understandably, don't feel like they're getting a fair shake every time they go up and fill up their vehicle, that they understand that we are doing something here in Washington.

We are having a set of three different hearings in the Agriculture Committee this week. There are other committees having hearings. This is a complicated issue, and we are determined to get it right and to do what we can to get the speculation out of the market and to give the Commodities Futures Trading Commission the authority it needs and to understand this problem, whether it's over-the-counter, whether it's swaps, whether it's what's going on with the foreign exchanges, the issue of transparency, and your bill is one of those that we'll be taking a look at which we think makes an important step in addressing that issue.

Mr. MATHESON. I appreciate that. I'd like to hear from Mr. SCOTT.

Mr. SCOTT of Georgia. Absolutely. And I just wanted to complement what my colleague from South Dakota, Ms. HERSETH, has said because I serve on the Agriculture Committee with Ms. HERSETH.

And this agricultural farm bill, in my estimation, in my 6 years here I've dealt with many bills, but as far as our future and our domestic and international needs, this farm bill is by far one of the absolute, most impactful bills we've had that touches on this. And I think we would do well to share with the American people—and you have alluded to so much of that already, very eloquently I might add—but let me just also point out that what's in this bill because this is so important.

We've mentioned ethanol, but it's so important that the people of America know that we have $4.2 billion in loan guarantees in this bill for the construction of ethanol plants, and we are putting the emphasis, as you said, on cellulosic. This is why it's particularly, in my part of the Nation, in Georgia, we are so excited about this bill. We not only have the biodiesel plant in Ellenwood in Clayton County, but over in south Georgia, in Soperton we have a cellulosic ethanol plant that is producing energy off of wood chips, just what you talked about.

We have scientists and engineers and chemists working right now at the University of Georgia and Georgia Tech fine-tuning how we extract cellulosic ethanol from pine straw and pine trees. I mean, these are renewable areas, and we're putting the incentives in.

Also in the farm bill what we've done, we recognize, as she spoke so eloquent, too, about the corn pressure, that we wanted to also give some emphasis to the cellulosic ethanol. So we have increased the tax credits for ethanol made from cellulosic means, while we slightly decreased it from corn to take some of that pressure off.

So I did want to talk for a moment about the leadership of the Agriculture Committee in the future of our energy needs, particularly when it comes down to our renewable fuels, but I also wanted to talk for a moment about this is a world issue, and it's a complex issue.

The question that I'm pondering with and I think we all should is this one. Fifteen years ago, just 15 years ago, the price of oil was less than $15 a barrel. Now here we are, 15 years later, and it's busting at about $150 a barrel. Somewhere, somehow we need to ask the question, how and why, because clearly if we're going to find our way out of this mess we have got to examine how we got into this mess.

Well, I did a little bit of examining, and it comes down to this. Right now, the world uses 85.4 million barrels of oil per day. Now, I ask Mr. MATHESON, you might want to know, that's good, well, how much does the world produce? They produce 85.6 million barrels per day. And as I mentioned earlier, Saudi Arabia just like that said we can increase production just like that, 500 barrels a day.

Now, what I'm talking about here is that a lot has happened, but one of the most significant things that has happened has been China and India and the underdeveloped world that is putting tremendous pressure here and an OPEC cartel that tends to want to play like Russian roulette with us.

So this is why I am saying and I am concerned that if we move towards drilling, wherever it may be, I am just one voice here. There are all areas of leadership, and my leadership is going to be in trying to get alternative energies on the market, trying to bring down the 54-cent tariff that we have for keeping ethanol out so that we can have some competition.

Even as we're speaking, I believe the world is listening, and they're listening to what America is saying. And if America is saying we're making moves to get you out of the back pockets of the American people and we're going to move into a situation where we don't need you, we're going to bring that price down. You watch what we say. If it takes drilling, if it takes a threat of drilling, if it takes moving it and getting the oil companies finally to move on the 68 million acres that we've already leased to drill on—and that is the other question, Mr. MATHESON. Not only the other question about what happened in the 15 years, but why is it that we've given the oil companies 68 million acres to drill on and everybody is saying drill, drill, and not one drill has hit the ground in those 68 million acres?

□ 2045

The American people ought to get an answer to that. If they want more drilling, why haven't the oil companies drilled on the 68 million acres that's there to drill? Those are some very serious questions that I think we need to ask and examine thoroughly.

But I will say this, this Congress is speaking with a loud, precise voice. And I believe the more energetic we speak with this voice, the more precise we speak with it, the more action-oriented we speak with it, both Democrats and Republicans, all of us speak in a loud voice together, saying enough of this, we're not going to take it anymore and move forward with some alternatives, that will get these oil folks out of our back pockets. That's what the American people want. And that's what is going to bring down these oil prices, shaking the demand.

Mr. MATHESON. I again thank my colleague for his comments. I think that he has helped describe the global picture. We haven't discussed that enough about we're part of a global market. And it's important for us to take the lead and develop fuel diversity and try to develop some level of greater independence, because outside of that, in some respects our actions are the tail wagging the dog. And we need to get beyond that as a country. That's not a comfortable position for this country to be in.

The first sentence of the Energy Principles Document that the Blue Dogs created at the start of this Congress is that energy independence is a matter of national security and economic security. This country faces so many great opportunities if technology does take us to a new place. We will be in such a better position in terms of our economy, in terms of our foreign policy, in terms of our position in the world. And we can make the world a better place with that technology development, too. That's the exciting opportunity for beyond our borders as well.

Blue Dogs supports promotion of a forward-looking, market-based comprehensive national energy strategy. As we've discussed many times tonight, there are short-term, mid-term and long-term issues. It's a complicated issue. In fact, each of the subissues on their own are complicated in their nature. And sometimes in the world of politics the rhetoric gets really simple. But on this one, it's time for us to roll up our sleeves and act in a way this body is supposed to act, in a deliberative, thoughtful way to generate comprehensive legislation that truly tries to solve problems and achieve progress. That's what we're elected to do. I think the Blue Dog Coalition approaches most issues in that way. I think we really don't care about if it's a Democratic idea or a Republican idea, we're trying to make progress.

And so as I close this hour and this discussion of energy issues, I suspect

that we will be back talking about this again. This issue is not going away. It's something that we all need to learn more about and we all need to work together. None of us have all the answers, but we need to work together as a Congress to try to find solutions as best we can.

With that, I thank all of my Blue Dog colleagues for joining me tonight.

ENERGY CRISIS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 18, 2007, the gentleman from Georgia (Mr. WESTMORELAND) is recognized for 60 minutes as the designee of the minority leader.

Mr. WESTMORELAND. Madam Speaker, Lord, I don't even know where to start. I've sat here for the last 45 minutes and listened to the Blue Dogs. And I appreciate them very much because there's about 40 or so of them, I think, and they could do a lot to help us, Madam Speaker, with the energy problem. I just hope that they will stand fast.

I listened to my colleague from Arkansas (Mr. ROSS). And I'm on his bill because it brings about more energy independence for this country, Madam Speaker. And it's interesting that the Blue Dogs talked a lot about all the things that we have done thus far, at least that the Democrats have done thus far, the majority, Madam Speaker. And I don't even know how to start to unravel some of the facts that have been laid out here tonight. There were some facts that I agree with, but there are some facts that are very, very misunderstood, and hopefully during this hour sometime, Madam Speaker, we can put some truth into it.

It's interesting that I heard some of the Blue Dogs talking about increasing oil production. And I know that in May of 2007 there was an amendment that we passed that prohibits us from drilling shale oil, where there's two trillion barrels of oil. Two of the speakers here tonight voted for that amendment to keep us locked out of that acreage out west where the shale oil is.

And Madam Speaker, if people could see this chart, May of 2007 is when the biggest spike in the oil prices happened. And I think that's a time when the speculators saw that this Congress was not going to do anything about our own oil production. We refused to do it. And I think the speculators took great advantage of this and said this is a country that's not going to look to their own resources, they're going to be totally dependent on foreign oil, so we'll do with them as we wish.

What has happened over the past, I guess, 3 or 4 weeks is people have been calling our office and calling me, Madam Speaker, and asking me if I had signed a petition; there have been several of them on the web page about ''drill here, drill now, lower prices.'' There's petitions on there from the Sierra Club and other environmental groups about not allowing people to drill. And as I got these petitions, and especially when I was at home, Madam Speaker, one day and I saw a petition on the counter of a gas station, and I guess the owner of the station had it there to give people something to do rather than talk bad to him about the price of gas, but it was a petition that said, ''Sign here if you want to lower gas prices.'' And so I came up with an idea that what I would do is start a petition, Madam Speaker, in this House where the American people could know how their Congress person felt about increasing the oil production in this country to lower their price that they were paying for gas at the pump. And so we came up with this very simple thing. In fact, there is no legislation attached to this, there is no discharge petition, there is just a simple statement where Members of Congress can make a statement to their constituents, Madam Speaker, much like our constituents have been making their thoughts known to us by signing these petitions online and at local convenience stores. This simply says, ''American energy solutions for lower gas prices. Bring onshore oil online. Bring deep water oil online. And bring new refineries online.''

And I put everybody's district, all 435 and the seven delegates that we have that represent territories of the United States. It gave people the opportunity to sign. And it simply says, ''I will vote to increase U.S. oil production to lower gas prices for Americans.'' And I don't care if it's the production of biodiesel fuel, biomass, oil, whatever it is, to make us less dependent on foreign oil.

And we've listened to a lot of the Blue Dogs tonight, but none of those Blue Dogs have signed this petition. And Madam Speaker, I have often learned in life that your walk has to match your talk. And some people say, well, this is just a political statement. It's not a political statement at all. We've had some Republicans sign it, we've had some not sign it. We've had some Democrats sign it, we've had some Democrats not sign it.

If you want to know if your Member has signed it, you can go to House.gov/westmoreland. And on that page we have those that have signed it and those that have refused to sign it. If you don't see their name in either spot, then we're going to take it that they did want to sign it, we've just not had a chance to talk to them personally, Madam Speaker.

But we believe that your walk should match your talk. And so we do have some Democrats on there, some people—NEIL ABERCROMBIE from Hawaii, a great leader, we have Mr. CAZAYOUX from Louisiana, Mr. MELANCON from Louisiana, some from Texas—that are on here because they believe that we need to increase our oil production to lower the gas prices, and we do. That's just a fact. We heard about all these biodiesel plants, and those are great. But you know what? Until we start using our own natural resources—we see what the speculators did when we voted not to.

Now, oil came down $4 a barrel. It came down, and I understand one of the reasons it came down is because Ms. PELOSI, the Speaker of the House, Madam Speaker, sent a letter to the President saying we need to get into the Strategic Petroleum Reserve. The Strategic Petroleum Reserve is a reserve of our petroleum that we have, millions of barrels of oil that we would have in an emergency, in a crisis, in a disaster. She wants to release that, which means to me, Madam Speaker, that she realizes that we need more oil, we need more production. But because of the radical environmentalists that have controlled the majority, or at least influenced the majority greatly, they cannot afford to do what we need to do politically; it's not politically correct for them.

I think that the American people, Madam Speaker, are tired of us in this body being politically correct. They just simply want us to do what's right, the things that we swore, took an oath that we would do, and that is to protect the American people.

And as the Blue Dogs said tonight, this is not just an economic policy, this is a national security interest that we have. And we've got to own up to our responsibility and make sure that we live up to the challenges that our constituents have given us by electing us to this body. We have got to act. We've got to get out of the fetal position, and we've got to act and do some things that will bring about some relief at the pump.

A lot of them in the past 45 minutes or the last hour or so have talked about all the great things we've done. Well, with all the bills that have been passed, I haven't noticed the price of gas coming down one dime. It's almost like putting lipstick on a pig. You can make it look good, but it's only going to be a pig. So we can make things look good, we can make things look like we're doing something, but all we're doing is just making a nice window for people to view at. It's time that we got down to some hard decisions. And there are some hard decisions that have got to be made.

And there are things that we are doing. We have put up discharge petitions—and I say ''we,'' I'm talking about the minority party—but they're there for everybody to sign. The week of June 9, we put a discharge petition, ''No More Excuse Energy Act of 2007.'' What that would do is it would reduce the price of gasoline by opening new American oil refineries, investing in clean energy sources such as wind, nuclear, capturing carbon dioxide, and making available more home-grown energy through environmentally sensitive exploration of the Arctic Energy Slope and America's deep-sea energy reserves. Now, what that takes is 218 Members to sign that discharge petition. We hear a lot of talk, but we don't see a walk.

The week of June 16, H.R. 2279, Madam Speaker, Expand American Refining Capability of Closed Military Installations. It would reduce the price of gasoline by streamlining the refinery application process—which in 2005 was passed by a Republican Congress and later stripped out by the new majority—and by requiring the President to open at least three closed military installations for the purpose of siting new and reliable American refineries. A lot of people, Madam Speaker, might not realize that we import refined gasoline of almost seven billion gallons a year, almost the same amount of diesel fuel, Madam Speaker, that we bring into this country because we do not have the refining capabilities. Not a refinery has been built since 1978.

The week of June 23 it was H.R. 5656, the Repeal of the Ban on Acquiring Alternative Fuels; reduce the price of gasoline by allowing the Federal Government to procure advanced alternative fuels derived from diverse sources like shale oil, tar sands, and coal-to-liquid technology.

Do you realize in the energy bill, Madam Speaker, that was passed by this majority, that Federal agencies cannot use these alternative fuels? We heard a lot tonight from the Blue Dogs about using alternative fuels, increasing alternative fuels, but yet we will not let our agencies use it.

The week of July 7, this week, H.R. 2208, Coal-to-Liquid Fuel Act, which, Madam Speaker, happens to be authored by a Democrat, reduces the price of gasoline by encouraging the use of clean coal-to-liquid technology, authorizing the Secretary of Energy to enter into loan agreements with coal-to-liquid projects that produce innovative transportation fuel.

□ 2100

There shouldn't be one Member of this body not on that discharge petition to say let our oil go.

The week of July 14, we are going to have H.R. 2493, Fuel Mandate Reduction Act of 2007. It will reduce the price of gasoline by removing fuel blend requirements and onerous government mandates if they contribute to unfavorable gas prices. Right now part of the problem that we have with the high gas prices in areas in California and other cities that don't meet the attainment is the boutique fuels that we have.

The week of July 21 brings H.R. 6107, the American Energy Independence and Price Reduction Act. It will reduce the price of gasoline by opening the Arctic energy slope to environmentally sensitive American energy exploration. The development footprint will be limited to 1/100 of 1 percent of the refuge, and revenue received from the new leases would be invested in a long-term alternative energy trust fund.

The week of July 28, right before we go on the August recess, H.R. 6108, Deep Ocean Energy Resources Act of 2008, reduces the price of gasoline by enabling the United States to responsibly explore its own deep ocean to produce American energy. The bill would grant coastal States the authority to keep exploration 100 miles from their coastlines, and it would also allow States to share in the revenues received. As Mr. CAZAYOUX said today, it helps Louisiana protect their vital coastline and all the great natural resources that they have there.

Mr. Speaker, I would like to now yield to my friend Mr. ROSKAM to hear his comments.

Mr. ROSKAM. I thank the gentleman for yielding. Thank you for the time.

I am absolutely convinced, Mr. Speaker, that this is a pivotal time in our public life and it's a pivotal time that doesn't come along very often, the sense of clarity that has emerged across the country when gasoline is now knocking on the door of $4.50 a gallon all across the country. Today as I left Wheaton, Illinois, $4.17 a gallon. As I'm out in town hall meetings, as I'm literally walking in the parades over the 4th of July, everybody is coming together and saying, look, let's do something about this. And rather than having this whole opportunity just be squandered away, we have got an opportunity to move forward. And, unfortunately, the orthodoxy that is developed on the other side of the aisle is what my predecessor, Henry Hyde, used to call ''government by bumper sticker.'' ''Government by bumper sticker'' says put cute little phrases on the backs of cars and that's the policy that is going to drive our country. Well, that's great. Bumper stickers are nice and cute when it's at $2.50 a gallon. But in my district you know what people are saying? Rip the bumper stickers off and let's get serious about bringing a national policy as it relates to energy independence for the United States of America so that we're not creating the same elements of great risk where right now, as you know, we are funding both sides of the war on terror. When we go to the gas pump and the money that we are putting in and the taxes that we are paying, yes, we're protecting ourselves from terrorism. We are protecting ourselves with homeland security and domestic security efforts and our whole military infrastructure. But we are also putting money in the hands of regimes that are hostile, that are exporting terrorism and are being very provocative on the world stage.

So, Mr. Speaker, we have got a chance today in this Congress to bring together a wide-ranging coalition that has an interest and a desire to move forward on energy independence, and I think that the time is now. Part of it has to be exploring and continuing to unlock American resources. Part of it has to be that. You can't do the math. You can't ultimately come up with the types of solutions that are going to satisfy our energy needs and simply ignore the resources that are available in the Arctic, the resources that are available in the Outer Continental Shelf. So that has got to be part of it.

Part of it is we have got to put nuclear power back into this mix. We have had great obstacles in the past as it relates to nuclear energy. Look at France. They have done a tremendous job harnessing that energy, moving it in ways that don't have the same types of emissions problems that other elements do. Nuclear energy has to be a part of it.

The types of funding resources that would be available if we were to unlock those American resources that I talked about a minute ago could fund many of the R and D types of projects. Let me tell you about one in my district. I represent an institution called the Gas Technology Institute, GTI, in Des Plaines, Illinois. It's a wonderful program, a public/private partnership. They are the types of folks that are doing the R and D that looks into emerging technologies, and then they help hand that off to industry and applied science. They have got a technology that they are on the verge of that is an anti-idling technology. So here's what happens: If you're a commercial truck, if you're a commercial bus, they waste tremendous energy as they are idling, as they are at stoplights and moving and not moving in traffic. Well, the technology that GTI is developing moves this so that in a nutshell it's a solid-fuel oxide that literally saves us in terms of the amount of energy that's used, the emissions that are emitted. It's that type of R and D that can undergird the types of things that the gentleman from Georgia has been talking about, Mr. Speaker.

There is a whole host of opportunities here, and it's dynamic. The public knows it. The public is crying out for what? The public is crying out for this body to act, for this body to get over the nonsense of ''government by bumper sticker,'' and to say, look, we can all come together. And we can get 218 Members, a majority of this House, to come together around commonsense ideas that strive for American energy independence. The gentleman from Illinois my colleague Mr. SHIMKUS has been a table pounder for clean coal technology. That can transform not only our region of the country in being an exporter, but it can literally transform how the United States begins to look in the future. So the opportunities are there.

I thank the gentleman for yielding. I'm very hopeful about what can come out of this. But it only comes out if there is a political will that develops that says we are going to put 218 votes up on that board and we're going to move the ball for the American public.

Mr. WESTMORELAND. I thank you for your comments. And just a couple of points that you made about the amount of money that we give to some of the people who are not friendly to us, even in our own hemisphere, we give Hugo Chavez $170 million a day.

I hear the other side complain about what Big Oil makes, and I don't know.

Big Oil, according to the records and stuff I read, make about a 10 percent profit, and I am not saying if that's good or bad for their business. But what do they think Mr. Chavez is making off of $170 million of U.S. dollars every day? And, listen, he is not our friend.

And the other thing that the gentleman has brought up is a great point, and we heard it today and I heard it on the floor earlier today that we need to all work together. Well, I agree we do need to all work together. But when the majority party brings the energy bills to the floor, some under suspension, when there's only 20 percent of debate on each side, no amendments, no committee hearings, no subcommittee hearing, no regular process, how are we all working together, Mr. Speaker?

Mr. Speaker, you know if we are going to all work together, if we're going to all be part of the process, if all the people in this country—this is a republic. It is a representative form of government. And if I don't have an opportunity to amend or give input into the process, my people are shut out of the process. If there are no amendments, nobody on this side of the aisle and many people on this side of the aisle, the people they represent are shut out of the process.

So let's do all come together. Let's have an energy bill on the floor that can work, this open rule. We can have 435 plus the 7 delegates offer changes, offer solutions, as Mr. ROSKAM just did, about the people that have come up with solutions in his district; as Mr. SCOTT did previously about the biofuel in his district. We all have good ideas, but when we are shut out of the system, you can't work together. And I don't know what part of that the majority doesn't understand.

I would like to now yield to my colleague from Georgia, Dr. GINGREY.

Mr. GINGREY. Mr. Speaker, I appreciate very much my good friend and colleague from Georgia yielding, and I appreciate his taking the time and leading the time tonight to continue to talk about what I consider and what my constituents in the 11th district of Georgia, Northwest Georgia, feel is the most important, the single most important issue facing our Nation and, for that matter, political issue as well as we move toward these November elections.

People in my district told me on Monday, just yesterday, at a town hall meeting in Bartow County, Cartersville, Georgia, a great part of my district—a town hall meeting, Mr. Speaker, as you know, they are not partisan. You don't just invite Democrats or Republicans. You invite your constituents. And we probably had 50 people there. And I don't know if it was an equal mix. I guess since I won my election last time with 71 percent of the vote, it probably wasn't an equal mix, but there were some very bright young Democratic folks there who probably in November won't vote for me. But we had a great discussion about this issue and just what Congressman WESTMORELAND is talking about in regard to the need to come up with a solution and not continue to play politics over this.

I have a couple of posters, if my colleagues will bear with me. I want you to take a test, one of these tests that I always loved taking in high school and college and even medical school, a multiple choice question. Sometimes you can guess. But I'm going to hold up this slide for my colleagues and ask them this question. And I appreciate my good friend from Illinois for helping me do this.

Question: How do we bring down the price of oil? A pretty simple, straightforward question. Well, it's multiple choice.

A, open up oil exploration in ANWR and the Outer Continental Shelf. ANWR, of course, the Arctic National Wildlife Reserve. That would be one of the choices.

B, build new oil refineries. That might be a pretty good choice. We haven't made it in the last 25 years, unfortunately. All the oil refineries in the United States, unfortunately, are down along the gulf coast, and we know all too well how dangerous a situation that is, especially as we are coming into what could be a rather horrific hurricane season.

Maybe choice C, commercially develop renewable energy. Now, we are talking about wind and solar, two perfect examples of renewable energy. In this country our electricity grid, we generate about 1 to 2 percent of our power from those renewable sources. We can do better. I absolutely think we can do better when countries like Germany probably are producing 30 percent of their energy from renewables.

Well, maybe you would pick, let's see, D, if my colleagues could again refer to this slide, commission new nuclear power plants. I think since the mid 1970s, we have not commissioned a new nuclear power plant. I used to work in one as a co-op student in Barnwell, South Carolina, when I was attending Georgia Tech. Clean, efficient, safe, a great source of energy. Maybe when the price of gasoline was $1.50 a gallon, you might say, well, it's too expensive to start a nuclear power plant; but when it's $4.10 a gallon, I think it's time to consider strongly nuclear power. That could be a good choice as the perfect answer to this question, How do we bring down the price of oil? France, I believe, if I am not mistaken, and my colleagues can correct me if I'm wrong, I think, produces about 80 percent of their energy from nuclear power, as do some of the Scandinavian countries, and I have been there and I have visited.

□ 2115

Let's see. How about choice number E, promote conservation? I think a lot of our colleagues on both sides of the aisle and the American people would agree we ought to conserve. We are 300 million people, and a world population of 6 billion. If my math is correct, and I took six quarters of calculus at Georgia Tech, that is not 25 percent of the world population, but we are using 25 percent of the world production of fossil fuel. That is too much. And we need to bring it down, and we can do that. I think maybe that would be a good choice.

Finally, Mr. Speaker, choice number F. That says: All of the above. I won't keep you in suspense too much longer as we move to my second and last slide. The answer clearly is F, all of the above. We have got a few pictures here kind of pointing that out. Oil and natural gas off of the Outer Continental Shelf, including the Gulf of Mexico, the eastern part of the Gulf of Mexico, where we are prohibited from drilling, where there are literally trillions of barrels, trillions of cubic feet of natural gas and billions of barrels of oil when you add that eastern Gulf of Mexico and the Pacific and Atlantic coasts of our country.

But the picture shows it all; nuclear power, wind and solar, drilling, of course, in the Arctic National Wildlife Reserve, which is a tiny portion, 2,000 acres out of 19 million, as depicted here in this corner of Alaska.

So this is basically, Mr. Speaker, and I appreciate very much Mr. WESTMORELAND letting me develop this point of argument that people in my district clearly yesterday let me know that this is what they want. They want a balanced approach, and all of the above is what we need to do. That is exactly what Mr. WESTMORELAND has been saying, and my colleagues, repeatedly.

We are ready, Mr. Speaker, and I turn to my colleagues on the Democratic side of the aisle, the majority, who has the ability, the power. They can control everything that comes to this floor. And it's time to worry less about monkey bites and more about the people of this country suffering.

I think Mr. WESTMORELAND earlier used the expression: Let my oil and gas flow. It made me think a little bit biblical. I don't want to get too biblical because I will get out of my lane in a hurry, Mr. Speaker. But it's like Moses said to Pharaoh: Let my people go. Moses wouldn't do it, he wouldn't do it. He promised time after time. He kept reneging, even though his own people were suffering tremendously. I don't know what he was betting on back there many thousands of years ago, but he was wrong. He finally did let the people go.

I don't know what game, Mr. Speaker, the Democratic majority is playing. I don't understand it. If they look at the polls, if that is the way they are making their decisions on legislation, people, Democrats, Republicans, independents by a wide majority want a solution. They want a comprehensive approach. We are ready. We are reaching out. We are literally begging. That is

why we are here tonight, saying to our colleagues on both sides of the aisles, Let's get this done. Let's get it done ASAP, and that means as soon as possible, before we leave this town at the end of July and walk away from here for a month's break. Shame on us if we don't get this done.

I yield back to my colleague.

Mr. WESTMORELAND. I want to thank my colleague from Georgia. That was a great test. I think anybody, anybody in the United States should be able to pass that test, Dr. GINGREY. I am glad you put it up, because that simplified it.

This is something, this little simple petition, I will vote to increase U.S. oil production to lower gas prices for Americans; 435 lines. So far, we have 191 signatures. This is just telling the American people we are ready to do all of the above. If you want to find out if your Member has signed this simple petition, much like the petitions that many of these people have signed, Mr. Speaker, that are listening to us, have gone on the Internet and signed petitions saying, Hey, drill here, drill now, lower our prices, and bring the U.S. back to being dependent—back from being dependent on foreign oil, go to House.gov/westmoreland and you will find out if your Member has signed, refused to sign, or is in the category of not making a decision because, Mr. Speaker, I feel like the American people are going to have to make the majority party understand that they want some change.

See, in April of 2006, then minority leader, now Speaker PELOSI made a statement that the Democrats had a plan. They had a commonsense solution to the skyrocketing price of gas. Of course, gas was about $2.05 then. So we are still waiting on that solution. We are still waiting on that commonsense plan. It hasn't been unveiled yet.

Although, in January of 2007, H.R. 6, the Energy Independence and Security Act, Dr. GINGREY, was passed in this House. The Republicans called it the ''no energy'' policy. I will read you some of the key words. This was a 300-something page bill. Crude oil was mentioned five times in that bill. Mr. Speaker, gasoline was mentioned 12 times. Exploratory drilling was mentioned twice in a 316-page bill about energy independence.

Offshore drilling was mentioned zero; domestic drilling, zero; domestic oil, zero; domestic gas, zero; domestic fuel, zero; domestic petroleum, zero. Gas price or gas prices, zero. Common sense, zero.

Now what was mentioned was greenhouse, 103 times. Green building was mentioned 101 times; ecosystem, 24 times; climate change, 18 times; regulation, 98 times; environmental, 160 times; geothermal, 94 times; renewable, 333 times; swimming pool, 47 times, because there was a swimming pool safety bill in the Energy Independence and Security Act.

Lamp, CFL, the new fluorescent lamps, 350 times. Three-hundred fifty times. Contains mercury. Only produced in China. We can't even dispose of it. If you drop one, you need to put on a mask, evacuate the house, let it air out until you can clean up a broken light bulb.

This was the commonsense plan, I hope not, that then Speaker PELOSI, then Minority Leader PELOSI was talking about bringing up, because gas has almost doubled, or more; maybe doubled when this commonsense plan came out.

But I want to read you one thing before I yield to my friend from Illinois. This was a statement made on January 18, 2007, the day, Mr. Speaker, this bill was passed. It says, ''It is sad to see the Republicans come to this. Now, they laughably say that this will lead to higher prices.'' That was Mr. PETER DEFAZIO from Oregon on how the Democrat's 2007 energy bill would affect gas prices. ''It is sad to see the Republicans come to this. Now, they laughably say this will lead to higher prices.''

Well, Mr. Speaker, I'd hate to say this, and I hate to say this, but we were right. It has led to higher prices. It has led to oil going out the roof because now the speculators in this world know that we, as a country, are not going to become energy independent as long as the leadership continues the course that they are on right now.

I'd like to yield to my friend from Illinois, a great leader in the energy battle and somebody that I think has made some real movement in the policy here, and that's Mr. SHIMKUS.

Mr. SHIMKUS. I thank my colleague.

Mr. Speaker, it's great to be on the floor tonight, coming back from a week's break, and I'm sure everybody is coming back with the number one issue on their mind, which is high energy prices. If they are not, they were traveling overseas and they were looking at the gas prices overseas. I mean if they were home, I don't think you could find anyone who wasn't talked to about high energy prices.

I learned a couple of things. I did a couple of radio shows. One, I just think because many of us have been talking about this issue for so long, we have to be careful that we don't become a little energy arrogant and continue to help educate the public on the basic economic principles of the law of supply and demand. That is what we are basically addressing tonight, and it's really difficult to understand how what students are taught in a basic economics course at the college level is not understood here on the floor of the House of Representatives.

The other thing I learned on a radio show yesterday, a person called in and said, When are you guys going to talk about drilling in the Outer Continental Shelf? I wanted to reach through the wires and grab that caller and say, What do you think we have been doing for 10 weeks straight on the floor of the House?

I want to encourage my colleagues to not give up, not lose hope. We have got to continue to talk about this. So I appreciate you grabbing the time, allowing us to come down on the floor.

I was going to ask how many folks have signed. You said 191 have signed the petition. I know we have some Democrats who have signed it. I saw one before the break. We know that we would like more. We know the challenges that they are under not to do that. But I think come election time, as we get closer, we have a production majority here on the floor of the House. I know it. I know who they are. If we can get a bill to the floor.

I wish my colleague, Mr. ROSKAM was here. I was up in Chicago with him today. He talked about the gas price in Wheaton, which is his hometown, his home area. But we had to drive to the airport. We drove past gas stations, $4.47 in the Chicago area. That is not including climate change, which would add another 50 cents. So you're already over $5 a gallon. That is what we are looking at. Because here's the basic problem. I have tried to be a little less rancorous in my debate.

When the Democrats took over, $58. Today, it's $140. When President Bush came in, it was $23 a barrel. All I am saying when I hold this chart up is the trend line is bad. It doesn't matter where you go, whether you go when Bush got sworn in or whether you go here when the Democrats took control or whether you look at the price today, that trend line is not positive, and it disproportionately hurts middle class, the lower middle class, rural, small town citizens of our country, which I represent.

I represent 30 counties in southern Illinois. We have to drive long distances to get to health care, we have to drive long distances to get to our schools. We have to drive long distances to get to our work. You know what? The poor can't afford the Priuses of the world right now. The poor are purchasing used cars off the lots because that is the only thing they can afford. So if that is the problem, the question is: What is the solution?

My colleague from Georgia did a great job. All of the above. Let's open up the Outer Continental Shelf, let's use fuel from coal, let's go wind and solar, let's do the renewal fuels. The great thing about our position is, and I got asked numerous times, Well, what about solar? I said, Great. What about wind? I am going to have a big wind generation field in my district. I'm happy about it, excited about it, and pledged to do all I can to help.

So I say, Bring it on. Any idea we have to help decrease our lives of imported crude oil by bringing on more supply, decreasing—we talked about conservation. Our citizens are conserving now. They are forced to conserve because of the high cost. So we are driving less miles this year than we were last year. Driving less miles and we are paying more. That is kind of the Democrat energy policy, drive less, pay more. I don't like that.

Mr. WESTMORELAND. If you would yield for just a minute.

Mr. SHIMKUS. I'd be happy to.

Mr. WESTMORELAND. When these energy bills have come to the floor, have you been able to offer an amendment for some of your ideas that you have had here to present it to see if your constituency and your ideas could possibly be heard on this floor?

□ 2130

Mr. SHIMKUS. Well, you know the best way for a bill to get passed and signed into law, especially with a Republican President, is to work through the committee process. A lot of this would start in my subcommittee, the Energy and Air Quality Subcommittee, chaired by a good friend of mine. In fact he is a cosponsor of the Boucher-Shimkus bill.

If allowed, we could move an energy security bill that would really address what Americans want, which is to decrease our reliance on imported crude oil from those countries that are enemies of our state or unstable; focus on North American energy, that means the deployment of all our energy resources; continues our great relationship with Canada and Mexico; do the renewables, do the efficiency standards, and move.

So the answer is no. All the bills have come to the floor without any committee hearings. The only thing we have been able to do is offer motions to recommit. We have done that numerous times on alternative fuel standards, which would bring in coal-to-liquid. We have done that on other generation issues. Of course, they are more of a party-line vote, and they all fail.

But historically, in votes that have been cast on this floor since 1994, the facts just speak for themselves: 90 percent of all Republicans support more supply; 90 percent of all Democrats do not support more supply. They vote against more supply, they vote against refineries. But there is 10 percent. The Speaker pro tempore is a friend of the fossil fuel area, I understand. They are there. We just need to help them help us help the country.

Mr. WESTMORELAND. So what I hear you saying is we need to take the politics out of this, and we need to put people in front of power, and we need to put process in front of politics and do something that will move this country toward energy independence, rather than just staying in the fetal position, so-to-speak, that we have been in, and being held hostage by radical environmentalists who the majority may feel is a big part of their base. I don't want to put words in your mouth.

Mr. SHIMKUS. One of the reasons why we are not in the Outer Continental Shelf is an oil spill I think that happened in 1969. I was 11 years old. I have changed a lot, maybe some good, maybe some bad. I was 11 years old. That is 39 years ago. Technology has improved greatly. Katrina is a perfect example. When Katrina came up the Western Gulf, tell me the major environmental disaster that occurred on the deep drilling, 5 miles deep, because of that massive hurricane? The answer is none.

Mr. GINGREY. If the gentleman will yield on that point, I think the gentleman was referring to the Exxon Valdez tanker.

Mr. SHIMKUS. No. No.

Mr. GINGREY. Well, that situation I think needs to be answered. A lot of people say, well, we don't want to drill on the Outer Continental Shelf, the coast of California, because we may contaminate the San Francisco Bay. As the gentleman from Illinois pointed out, and I will yield back quickly, even during the hurricanes, when these oil rigs were blown over, not one drop of oil was spilled. But this tanker that was coming from the Middle East with hundreds of thousands of gallons of petroleum, it cracks up and that is where you get the spills.

That is why I would say to the environmentalists, help us solve that problem, so we don't have to import all this raw petroleum from other countries.

Mr. SHIMKUS. Just let me address one thing. Of course, Speaker PELOSI made an announcement that she wants to now empty the Strategic Petroleum Reserve, a very foolish proposal. One is because that is there for our national security in case the sea lanes get closed. Since we don't have enough production on our own, like the farmers would say, it is like eating the seed corn. If you eat the seed corn, you have no seed to plant for the next year. Foolish. Foolhardy. A scary proposal. Versus moving in the discharge petition we will talk about coal-to-liquid technologies.

Better than to pump out the Strategic Petroleum Reserve, let's develop gas from our own coalfields. There is 250 years worth of supply in Southern Illinois. There are American jobs mining it, American jobs building the refinery, American jobs operating the refinery, American jobs building the pipeline to American jobs, wherever that goes. Whether it is diesel fuel, gasoline, or whether it is aviation fuel, we can do it.

Don't do something silly, which is take the Strategic Petroleum Reserve, pump all that oil out of there, and then you are done. You have no reserves.

Mr. WESTMORELAND. Right now, one of the reasons we are not being held hostage by our enemies, the people that supply us with our oil, is because we have the Strategic Petroleum Reserve. If it was zero, trust me, we would have a bad time getting any oil.

Mr. SHIMKUS. I want to thank you for the time. I know I have another colleague that would like some. I just think it is very telling. I know my good fossil fuel Democrats are starting to fight I think the good fight. But here is what a Democrat staffer said today: ''Right now, our strategy on gas prices is drive small cars and wait for the wind.''

My constituents will not put up with that. First of all, we drive big trucks to haul feed, to haul livestock, to move farm equipment around, and we can can't operate with a four cylinder electric engine on a major pickup truck.

Mr. WESTMORELAND. With a sail on the top of it.

Mr. SHIMKUS. I thank you for the time. I appreciate it.

Mr. WESTMORELAND. I am going to yield now to my classmate that we came in together, my colleague from Texas, where there are thousands of jobs every day where people go to work working in oil fields, and that is my friend MIKE CONAWAY from the great State of Texas.

Mr. CONAWAY. I want to thank my friend.

There was an interesting headline and a couple of sentences in today's Hill newspaper, one of the leading newspapers in all of Washington, DC, by the way. It says, ''The Energy Bill is Out of Gas.'' The lead sentence is, ''House Democrats are in a bind on the focal point of their energy plan. Worried that a floor vote on any energy related measure will trigger a Republican-forced vote on domestic drilling, the leadership has scrubbed the floor schedule of the energy legislation that it vowed to tackle after the 4th of July recess.'' Politics, Mr. Speaker.

I spent all week in West Texas and Central Texas, an area that is blessed with a lot of crude oil and natural gas production. There are an awful lot of folks that make a living in drilling and producing crude oil and owning the minerals and owning the land that it is produced from. And I heard every day, why are these prices so high? Why can't we do the logical, rational things to lower these prices.

So if I am hearing that from a district that is very pro oil and gas, very pro drilling, I can't imagine what my Democrat colleagues heard on the other side. I was able to look them in the eye and say, Mr. Speaker, I am for it. Let's drill ANWR. Let's drill Outer Continental Shelf. Let's do all those things, all five things that my colleague from Georgia talked about. Let's do all those things.

I can't imagine any of my colleagues going back and facing their constituents, their voters, and looking them in the eye and say no, it is really best that we keep these prices high. It is really in your best interests that we don't drill Outer Continental Shelf, we don't drill ANWR. It is really in the best interests of the United States to continue to buy crude oil from folks who hate our guts, from a clown in Venezuela. That is really the best public policy.

I am surprised we had 300 people voting here tonight, because had I gone home and done that, I'd have got lynched, and it wouldn't have been a new rope.

I am going to make two points. We have some natural allies in this fight, and they come down here almost every

single night and rail about NAFTA and CAFTA, the anti-trade crowd. Where are they in this particular issue?

You know, they gripe about us exporting jobs to the other parts of the world. They gripe about the impact that NAFTA and CAFTA have, all the bilateral agreements. They vote against them. They just rail about them. Why aren't they down here screaming about this issue? Because every well that is drilled in the Outer Continental Shelf and ANWR, every plant that is an oil shale plant, the coal-to-liquid, those are American jobs. And that is what the anti-trade folks are all about, is American jobs. Every new refinery that is built, those are American jobs.

The other natural ally is most all of those refinery jobs are union jobs. Now, the domestic drilling, et cetera, isn't much unionized. But in the refinery world, those are union jobs. Where are those guys?

Mr. WESTMORELAND. If you will yield for just a second, every bill that has been passed through here has had Davis-Bacon, which is the union pay scale, attached to everything we have passed through here. So I am sure if they pass something, if they ever did about building a refinery, I am sure Davis-Bacon would be added to it.

Mr. CONAWAY. It would make it a little unpalatable for some of us who don't like Davis-Bacon.

Mr. WESTMORELAND. I understand, but I am sure it would be part of what they do.

Mr. CONAWAY. I am sure you are right. If the unions, for goodness sakes, could force a vote on card check, an absolute walk-the-plank vote across America, a 90 percent issue, if they could force our colleagues across the aisle to vote for a card check bill, why can't they force our colleagues to vote for an American refinery bill?

The other point I want to make is we hear this glib little smart aleck remark that, well, we can't just drill our way out of this problem. You know, that is shallow and insincere. I mean, it is just insulting, quite frankly.

The raw mechanics are that every well that is drilled, not only in the United States, but in the world, has a finite amount of crude oil and natural gas that will be produced out of that well. That is a finite resource. And so if we have got 86 million barrels of production today and we produce 86 million barrels, we have got to find 86 million new barrels to tack on to maintain just flat, where we are, because demand is continuing to grow.

Night after night, we come down and talk about demand growth in India, demand growth in China, demand growth in the United States. So in order to just stay flat, we have to continue drilling if we are going to use crude oil and natural gas as a source to drive automobiles and trucks and airplanes, which we are.

The real issue is not the ultimate end game of weaning ourselves off of crude oil, as an example. That is not going to happen in my lifetime, but it will happen one of these days. But we all agree where we are trying to get to.

The difference in our conversation between us and the guys on the other side of the aisle is, what do we do between now and then? We all want to get there, but how do we get between now and then?

Crude oil is a finite resource. It will always get more expensive. There will be ups and downs, but it is going to get more expensive. How we manage that growth, those increases in costs of crude oil, how we buffer against those increases is really in our best interests. And, quite frankly, the commonsense plan that the Speaker has either kept to herself or not, I can understand why she didn't roll it out in 2006, because we were in charge and we might try to steal the good idea and implement it and take credit for it. But we have been out here better than 18 months now and we still haven't seen that commonsense plan to address gasoline prices. Not the overall energy thing, but to address gasoline prices, which she spoke about.

So I heard it loud and clear all week long, on every stop, every town hall meeting, every coffee shop, every conversation that I had. ''You know, what is the deal with drilling offshore? What is the deal with drilling in ANWR? What is the deal with oil shale, coal-to-liquid, all these kinds of things? Why is there a political issue going on?'' Because these solutions don't wear party jerseys, you wouldn't think.

It is really what is in the best interests of America. This is not about Republicans. It shouldn't be about Democrats. This ought to be about a rational, thoughtful, straightforward energy policy for America that takes advantage all our natural resources and exploits those natural resources until we can move to whatever is next for the internal combustion engine that revolutionized America and the world coming out of the 19th century into the 20th century.

So I appreciate my colleague letting me get up here tonight and rant and rave a little bit and spit all over the folks sitting down here in front of us. But this is important stuff. And our cutesy little sayings, we use them, the guys on the other side of the aisle use them, we can't drill our way out of it, use it or lose it, all that little nonsense, is disrespectful for the seriousness of this particular policy. Emptying the Strategic Petroleum Reserve, I had not heard her say that.

□ 2145

As long as we can buy crude oil, let's buy it. Let's keep our savings or the Strategic Petroleum Reserve for that weird eventuality when we can't get it from anywhere else and we have got to try to figure out a way to survive in that environment. How we deal with the cost of crude oil, you, you don't take the savings out of the ground for that; you drill or do whatever you have to. But that is a really bad idea and one that is not a particularly thoughtful idea that seems to be rampant in this environment.

Mr. WESTMORELAND. I think it is interesting, you mentioned the Strategic Petroleum Reserve and the letter that Speaker PELOSI wrote to the President. It is interesting that oil came down $4 a barrel. Now, if it will come down $4 a barrel on just a letter going to the President asking him to take the crude out of the Strategic Petroleum Reserve, think of what it would do if we voted in this body to drill without even sticking a drill in the ground. These speculators would run for the hills. And so I think you make a great point. And trust me, if we didn't have the Strategic Petroleum Reserve, we would not be getting oil from our enemies because they would know that they had us down.

Mr. Speaker, in closing, we have got just a few more minutes here, let me just say this. I think what you have heard tonight is that this is an all-of-the-above solution. It is all of the above. But a very important part of this is this country producing oil, to increase our oil production.

RAHM EMANUEL on TV said, yes, increasing oil production is part of the solution. The Speaker has acknowledged that increasing oil production or at least having more oil is part of the solution. But as my colleague from Texas said, we don't need to take that out of our savings account. We need to bring it out of our natural resources, out of the ground.

Senator SCHUMER in the Senate about 3 weeks ago said that if we could just get Saudi Arabia to increase oil production 1 million barrels a day, it would drop the price of gas 50 cents a gallon. I don't know if that is true or not, but at least on the other side of this building some of the Democratic leadership understands that increasing oil production would bring down the price of gas.

I don't know why it is so hard to get a bill like that to this floor. I think the reason is strictly politics. It is strictly the radical environmental groups that has a grip or their claws into this majority.

And so I think what is happening is we are putting power above people, we are putting politics above process. Because as these gentlemen have talked tonight, with these ideas that they have shared they have not had one opportunity to offer one amendment on the energy bills because they have been brought either under suspension, under a closed rule, no committee hearings, no subcommittee hearings. The process has been broken. And so when the process is broken, the product is flawed.

Let me just close with this: www.house.gov/westmoreland. Mr. Speaker, go there, see if your Member has signed this simple petition that says I will vote to increase U.S. oil production to lower the gas prices for Americans.

ENERGY PRICES AND PRODUCTION

The SPEAKER pro tempore (Mr. LINCOLN DAVIS of Tennessee). Under the Speaker's announced policy of January 18, 2007, the gentleman from Texas (Mr. BURGESS) is recognized for 60 minutes.

Mr. BURGESS. Mr. Speaker, I wanted to come to the floor tonight and I guess continue what has been a theme this evening on both sides of the aisle. The theme is energy. We are hearing a lot about energy as we go home to our districts, and I am no exception. I heard a lot about energy from my constituents, I heard a lot about energy from talk radio, I heard a lot about energy from newspapers back home.

I wanted to come to the floor tonight and talk a little bit about an event that I held in my district that dealt with energy more from the consumer angle, just from the basis of the average everyday constituent back in the district.

I have people talk to me and ask me, well, what is the real villain here? Where is the real problem here? Is it the oil companies? Is it the speculators? Is it the global demand? Where is the problem?

One of the real frustrations from people back home is that it is just very difficult for the average person to go out and increase production on their own. They can't do that. It is very difficult for the average person to do much about energy speculation. It is very difficult for the average person to do much about the global impact on supply and demand.

What they can do, what they can modify is their own behavior and reduce their own demand profile, perhaps only a small amount, but you multiply that over the 300 million people in the United States and suddenly you begin to talk about numbers that are in fact meaningful.

So the purpose of the event we did last week in the district was to provide constituents with some insights as to how to take some personal proactive steps to reduce energy consumption and, in the process, to save some money off their energy bills. And I was impressed, Mr. Speaker. This was a week ago last Saturday. It was a nice Saturday down in Texas. It hadn't gotten too hot just yet. And that morning, nearly 200 Texans, 200 of my constituents delayed their Saturday morning activities, whether it be mowing the lawn or just spending time with their families, because they were interested in hearing about what was available as far as energy savings.

Now, I have done this event for several years and it has grown in popularity year after year. It started out as a relatively small event in one of the hardware stores with some of the off-the-shelf energy efficiency products that were available. We had someone down from the Department of Energy to speak about those things. It was a very, very well attended event for as small as it was. And then the following year we did it on the campus of the university there. It was much more widely attended. And this year, we did it at one of the local high schools. And I am pleased to say that the attendance was larger this year than it was the year before. And each year at this event it becomes more and more important, and attendance increases, because more people feel the need to be smarter about their energy consumption. They want to take some control of this energy aspect, the stranglehold that it has on their lives and they want to start taking control of their energy costs.

Higher energy prices. Higher energy prices have a way of exerting a behavioral change. High prices at the pump, high prices with home energy, they have caused a slowdown in the economy. They have caused times to become much more stark, even for areas that are relatively blessed like North Texas with economic times that are not as bad as some other areas of the country. But still, in many homes across my district and indeed many homes across America tonight, these high energy prices really have a stranglehold on our American families.

Now, we have heard over and over again tonight. We have heard it from the Democratic side and we have heard it from the Republican side. The lack of congressional action has been underscored many times before, I am going to underscore it again. In the absence of congressional action to increase domestic sources of energy, I want people in my district to know about the tools that they have at their disposal right at their fingertips to help them conserve energy and save money today. This is not something that will happen years in the future. This is money that can be saved today.

So that is what we call the energy expo. That is what the energy expo is all about, learning how to save energy, learning how to reduce energy waste, and learning how to save money along the way.

First of all, we did have someone come down from the Department of Energy. We invited Leslie Drogin who is from the Office of Efficiency and Renewable Energy within the Department of Energy. She spoke about some of the alternative energy advancements that are occurring throughout the country, and particularly in some of my communities in North Texas.

Now, in Texas we are thought of as an oil State, an oil and gas State. Many people are surprised to find out that Texas is the number one State in electrical power generation from wind energy, and we are second in the number of alternative fueling stations. So Texas has been proactive about alternative sources of energy and alternative fuels.

Now, Leslie also stressed that setting goals for energy efficiency and working toward them is not always going to be easy, and it does take to some degree a personal commitment.

Now, in addition to some of the local and national speakers, I did have a moderated discussion focusing on ways that individuals can squeeze a few more miles out of a gallon and squeeze a few more cooling hours out of that kilowatt hour of electricity in their homes. So the first panel consisted of representatives from AAA Texas and the Alliance of Automobile Manufacturers and the Denton County Transportation Authority.

We first heard from a gentleman named Patrick O'Reilly of AAA Texas. He discussed many of the different maintenance tips and tricks consumers can use to ensure that their vehicles aren't only efficient but perhaps they are a little more safe as well.

Now, the one that everyone talks about and you hear it all the time and I will mention it again is tire pressure. Ensuring that tires are properly inflated can result in a 3 percent fuel economy benefit and equivalent gas savings of up to 12 cents a gallon. Properly inflated tires are safer and they last longer, so you will spend less money on your tires. So, in the long run, it is a real bargain.

Regular oil changes. Now, raise your hand if your dad ever told you to change the oil every 3,000 miles and how many of you let that slip a little bit. Well, keeping that oil changed every 3 months or 3,000 miles is the right thing to do. But we also learned that using the right grade of motor oil for the environment is important as well. For example, using a 10W–30 oil in an engine designed to use 5W–30 can lower gas mileage by 1 percent or 2 percent. And this again translates to 4 cents to 8 cents per gallon of gas savings. You add that 8 cents to the 12 cents of tire pressure, and now we are up to 20 cents savings on that gallon of gas.

Perhaps the most valuable tip that was reported that morning and one of which I was not completely aware, but changing the air filters regularly, which can increase energy efficiency up to 10 percent and save 41 cents per gallon. So now we have saved 20 cents by a combination of tire pressure and using the right grade of motor oil. Adding another 41 cents a gallon, and we are up to saving 60 cents a gallon of gasoline just with these three simple measures that anyone can do as far as automobile maintenance.

We also heard from a gentleman named Clinton Blair who spoke on behalf of the Automobile Alliance, and discussed some of the different concept vehicles and the innovations and technology that we might expect to see now, sooner rather than later. With gas prices being as they are, clearly there is a consumer demand and an impetus for the development of those types of vehicles. And most Americans already know about the hybrid electric vehicles, but that is just one of the many technologies that is going to be available to address both the environmental concerns and the rising fuel prices.

Now, several years ago I had to get on a waiting list, but I got on a waiting

list and I purchased a hybrid vehicle. This was back in 2003. It was actually 2004 by the time I took delivery of the vehicle. And my main concern at the time was air quality issues in my area of North Texas. With hot summer sunshine and particulate matter in the air, we have a big problem with ozone, and I wanted to be part of the solution and not part of the problem. So I got in line and paid the extra money for a hybrid vehicle.

Well, now that gas prices are up to $4 a gallon, it looks like absolute genius to have done that several years ago. But the reality was, it was the right thing to do from the standpoint of air quality several years ago, and it is the right thing to do today from the standpoint of lowering the Nation's fuel consumption and lowering the amount of oil that has to be imported sometimes from areas of the world that don't particularly like us. And we heard about that extensively during the last hour.

But in addition to the hybrid technology, there are some other new technologies on the road today, and many, many more available just over the horizon. An innovation on the road today is the variable cylinder vehicle. Now, those of us who were around in the Arab embargo of the 1970s remember this type of technology was actually available back in the 1970s. I think it was the Cadillac car that came available with a button you could push for either running on all 8 cylinders, running on 6, or running on 4. And the theory was that when you got up to highway speeds and the engine did not need to develop the same amount of power just to simply maintain the speed, you could drop the cylinder usage to 4 from 6.

It wasn't particularly efficient and didn't really deliver on the promise. The technology at that time was largely mechanical rather than electronic, so it wasn't a big seller. But that concept is coming back, and now there are variable cylinder vehicles that sometimes run as a 6 cylinder vehicle, sometimes run as a 4 cylinder vehicle. And, again, it presents another option for consumers to save gas.

We did hear a lot about new car technology that is just over the horizon, and we hear about it frequently here on the floor of the House, we hear it frequently in the Energy and Commerce Committee, the concept of plug-in hybrids and plug-in cars.

That is an interesting development. In fact, just the other day someone was telling me about the fact that some of the hybrid cars that are now in production, the next generation of hybrid cars may very well have a solar panel on the roof. It is a wonderful, insightful idea, the way to charge that battery while the car is sitting in the parking lot, particularly in a State like Texas where you have got a lot of sunshine beating down on that car. And rather than just heating the interior of the car and making it unpleasant when you sit down, maybe you could use that energy to recharge the battery and drive farther on the battery then when you start that car up for the commute home, use less fuel in the process, and obviously have a positive impact on air quality as well.

□ 2200

So I was very grateful to hear about that innovation because I've often wondered why it is someone hasn't done that yet when I drive my own hybrid vehicle.

As to other concepts, like the hydrogen fuel cells and the new engineering techniques like regenerative braking systems, some of the hybrids already do that. When you step on the brakes, some of the power then goes to the generator, which recharges the battery, but again, these are technologies that just a few years ago were in their infancy but that are now hitting their stride and are coming into their own, the concept of recovering energy that would be otherwise wasted during stop-and-go driving.

Now, Mr. Blair also discussed the impact of the Corporate Average Fuel Economy standards, which were passed as part of this Congress last year. It will be a few years before we see the impact of those. We can argue whether it's better to have those set by Congress or set by consumers in the market. I think the reality is $4-a-gallon gasoline is going to do a lot more as far as lowering the Corporate Average Fuel Economy than any act of Congress could have ever done, but we'll wait and see.

That raises an interesting point when people tell us that, if you start tomorrow with increased drilling, you're not going to have that product available to the American consumer for a number of years, maybe as much as 7- to 10-years' time. Yet, last fall, we enacted the increases in the Corporate Average Fuel Economy standards, recognizing that it was going to be—what?—5 years, 7 years, 10 years before those were fully implemented and were fully functional as far as reducing the number of gallons of gasoline consumed, and oh, by the way, you've also got to age out the older fleet, which is now still consuming gas at the older standard. So, if you want to talk about a process that consumes time when you're anxious to get things done quickly, again, the act of Congress to increase the Corporate Average Fuel Economy standards certainly, in my estimation, falls into that category.

That really was not the point that Mr. Blair made at the meeting, but it certainly has been my observation over time.

So hybrid vehicles and Alternative Fuel Vehicles are available. They are currently more expensive than traditional fuel models, and a consumer has to make that estimation and has to make that choice. It is a little bit difficult not knowing what the future is going to bring. Two years ago, if you looked at the price of gasoline and looked at the cost of a hybrid car or of an Alternative Fuel Vehicle, you might do the math and say, you know, it'll take me 7 to 9 years to recover the investment of the extra cost of this vehicle, and I just don't think it's worth it. Now that the price of a gallon of gasoline has doubled since January of 2007, maybe those mathematics work out more in favor of going ahead and of making the investment in an Alternative Fuel Vehicle or in a hybrid vehicle.

Also, as to the economies of scale as newer technologies are coming on line and as more and more of these vehicles are being produced, this does have the tendency of pushing down the overall cost of the production of those vehicles, and subsequently, the cost on the retail end drops as well.

All of the auto dealerships that attended the Energy Expo event were local, around in the area—James Wood Chevrolet from Denton, Bill Utter Ford from Denton, and Freeman Toyota from Hurst, Texas, which is just down the road.

To an individual, they reported that they could fill all of the orders for hybrid-type vehicles and for ultra-efficient vehicles. They could fill all of the orders and then some. If they had more of these vehicles in stock, they felt comfortable that they could, in fact, sell those vehicles. They have a significant backlog for fuel-efficient vehicle types. In fact, it is almost independent of the sticker price.

Another option for Americans, while they're waiting on Congress to act and while they're waiting on auto manufacturers to produce more fuel-efficient cars, trucks and SUVs, is another alternative altogether, one that I like to call rapid transit—the transit system that we have certainly here in Washington, DC. We don't have quite the same demographics. We don't have quite the same population densities back home as we do here in Washington. The fact remains that, with fuel prices as high as they are, more people now are looking towards transit as an option for cutting down a portion of their fuel bills during their commute.

Now, in Washington, the Metro's ridership is increasing. In fact, the Washington Times this morning was talking about the Metro's being somewhat constrained in adding more cars because they just simply cannot buy any more electricity during peak times. Well, there's an argument to be made for additional nuclear plants or for additional clean coal plants that are producing more electricity. We don't have the electrical generation capacity to actually run the rapid transit that we want to run even with today's numbers. What are we going to do as we add to that?

Still, transit is going to become increasingly important and not nearly as popular in my district, where we like to drive our big pickup trucks and our Dually pickup trucks. It's not nearly

going to be as popular back home as it is here in Washington. The infrastructure, certainly, is not nearly as extensive and is not nearly to the maturational point that it is here in the Washington Metropolitan Area, but I did think it was important for people to hear about what options are going to be available in the future as far as transit is concerned.

We did hear along that line from Charles Emery, who is with the Denton County Transportation Authority, and he discussed some of the resources available to constituents living in the Denton County area, who might consider transit as an option as they go about their daily commute or, in some areas of the metroplex, even just traveling around to shops and to shopping venues much closer to home.

This was useful information. Again, the culture is a little bit different in North Texas than it is in the metropolitan areas. It's different in the suburban areas than it is in the urban areas. It's different in the rural areas than it is in the suburban areas where it's not really the norm to use transit, but at the same time, this is increasing in importance.

The Denton County Transportation Authority, interestingly enough, was formed as a result of authorizing a vote that was taken in the general election in 2002, the same year that I ran for Congress the first time. It was these individuals who had the vision to recognize that at some point, and at that time, it was purely based on congestion and not based on the price of fuel. It was simply to mitigate the problems that they saw down the road with congestion. These individuals had the foresight to go to the voters and to ask for the will of the voter, if you will, on whether or not rapid transit was going to be part of the future of mobility in Denton County. The question was answered with a resounding ''yes,'' and over 70 percent of the electorate that night did vote in favor of starting that transit option in North Texas.

Texans love their independence. They love to have the independence provided by having their own vehicles, but with gas up to $4 a gallon, some of the worst congestion in the Nation exists in the Dallas-Fort Worth area. A lot of people are beginning to evaluate that tradeoff and are coming down on the side that maybe transit is an option that they need to investigate a little further.

In addition, the increase in food prices and other services has, unfortunately, driven some families to the point where they literally have to find an alternative method of transportation because they just simply cannot afford the cost of filling up the family vehicle for that commute to work. They're having to make the choice between filling up the automobile or feeding or sheltering their families. Clearly, transit does provide another option for that.

Now, this panel, the first panel that was convened, was educational. I have to compliment them on the fact that they were so thorough. These individuals presented a very professional discourse on energy and money savers. Certainly, I want to thank them for coming. Some of them did have to travel to the area. I want to thank them for coming and for participating in that symposium because I think it was, ultimately, very helpful to the end user—the consumer—and was helpful to, perhaps, devise ways to lower consumption, which will help in the supply-demand equation.

We did have a second panel, and the second panel focused on energy conservation in the home. We brought in individuals representing the Texas State Energy Conservation Office, the Home Builders Association, the Home Appliance Manufacturers, and the Home Energy Raters organization.

The first on that panel was Mr. Mike Myers, who currently serves as a project manager for the Texas Energy Partnership, a project of the State of Texas. Now, Mr. Myers previously served in the U.S. Department of Energy, in their program for affordable housing, and he has worked for both New York City and for the city of San Antonio. So he talked about some of the personal behaviors that individuals can adopt around the home that translate into savings when paying the utility bills.

Now, I was kind of surprised to learn about the cell phone charger. Even if your cell phone is not plugged into the charger, the charger still draws power as long as it's plugged in. Most of that power is going to be converted to heat. We're familiar with the fact that, even if a phone is not plugged into a charger and we unplug the charger from the wall, the charger is a little bit warm, but it's obviously drawing electrical energy to generate that heat, not a particularly useful exercise, especially in Texas in the summer. So, as long as the device is plugged in, it's going to draw energy. If you're not using it to charge the phone, perhaps it ought to be unplugged unless it's actually needed for charging.

We heard from several individuals about the importance of air-conditioning duct maintenance. Now, no one in Texas wants to climb in their attics in the summertime, where the heat is probably in excess of 140 degrees, to inspect their air-conditioning equipment and their air-conditioning ducts for leaks, but if there are leaks in the return system, in the system that brings air back to the cooling unit from the household, it pulls that super heated air in from the attic. Again, in a hot Texas summer, an attic's environmental temperature can easily be significantly in excess of 100 degrees. Not only that, you're pulling in dust and mold and, really, things that do not belong within the air-conditioning system. So, in addition to driving energy bills much, much higher, it also poses some health risks, so it is important to have those inspections done, and there are individuals who are capable and who will provide that service.

For all air-conditioning systems and for all air infiltration systems, this individual recommended a few simple steps: First off, when building a home, get the right sized unit for the house. Obviously, choose a high-efficiency model. There are many more models of higher efficiency that are available today than there were even just a few years ago. Indeed, some cities have ordinances as to the efficiency rating that can be installed in a house. I know my home city of Lewisville has such a requirement, but do get the right efficiency, the right sized unit for the area that's going to be cooled and the highest efficiency model that is available that will fit the budget, and then make certain that the duct right-of-way and the duct sealing is all done properly for the proper amount of energy conservation.

We then heard from another individual who had actually been at one of my previous summits, Mr. Dan Fette of the Home Builders Association. This individual has won numerous awards for not only building homes but for the design of homes, affordable homes, in an energy-efficient fashion. He talked about the ways that a home could be built to be friendlier to the environment and friendlier to the energy consumer's wallet.

In Texas, we've got a lot of big homes and a lot of big homes with a lot of big, open spaces that sometimes aren't protected from the elements. Now, Dan specializes in maximizing comfort and in minimizing environmental disruption and energy waste. He utilizes features in the design of the home that include relocating windows that are exposed to direct sunlight.

Now, in Texas, when I was a kid, we used to have things that were called cisterns. They collected rainwater off the roof of the house, and it ran through the gutters and into a holding tank into the ground. Now they're called rainwater catchment systems, and they're capable of meeting landscape and irrigation needs. Obviously, they're dependent upon rainfall to fill the reservoir up, but it is a way of holding water that is otherwise going to just simply go into the storm water drainage system, holding onto water to meet the water needs of landscaping, and of course, he recommended using native landscapes that are lower in their water usage.

He emphasized the importance of selecting proper plumbing fixtures and appliances that are appropriate for the household. Building energy efficiency into a home can reduce the need for expensive repairs in the future, and it can reduce the need for undergoing the expense of an energy audit in the future, but we'll kind of leave the discussion of energy audits to just a little bit later on.

Now, also participating in this panel was Mrs. Casey Hege. She was a representative from General Electric's Appliance Division. She discussed selecting the appliance options that would reward the homeowner with better performance and with lower bills.

One of the biggest energy users in anyone's home is of no great surprise—the refrigerator. Older model refrigerators use more energy. In fact, they are one of the largest consumers of energy within the household. So one way to reduce energy consumption, if it fits the family budget, is to replace the old refrigerator with a higher energy-efficient model.

Now, one thing that she found was that people who were buying the higher efficiency refrigerators were then coming back and were saying, ''You know what? I'm, in fact, using more energy today than I was before I purchased this high-energy model.'' It took her a while to figure out what was happening.

In Texas, a lot of times what we'll do is we'll take that old refrigerator out to the garage, and we'll plug it in, and we'll use it for our excess capacity. Well, if you do that, obviously, you're not getting any energy savings from buying that more efficient, new refrigerator.

□ 2215

So always dispose of the old refrigerator, dispose of it properly, dispose of it carefully. Many of these older models contain Freon, and there are going to be municipal requirements that are going to have to be met for their disposal, but obviously you're not going to save money in your home if you buy a new, highly efficient refrigerator and take the old one out to the garage and store whatever beverage you want to store in your garage. Having two refrigerators does ultimately cost more money and cost more energy.

Finally, that morning we heard from Mr. Steve Gleaves—he's a home energy auditor and a founding member of the Texas Home Energy Raters Organization—who talked about what to expect with a home energy audit. Now, when to seek an audit and what you can expect to find in your house were the topics of discussion for the home energy audit. He talked about how common it is—and again, this was a recurrent theme that we heard several times that morning—he talked about how common it is for home air-conditioning systems to have leaks in the intake system and around the ventilation grills.

Again, he emphasizes the point that one thing you can do from a heating and air-conditioning standpoint to improve energy efficiency in the home is to have those ducts inspected.

The other aspect that he talked about, and it was mentioned by one of our previous presenters, select the right size unit for house. A unit that is too big for the area that it is cooling will never come up to maximum efficiency. It's always turning on and off, and the unit will use its maximum of draw, its maximum amount of power when it switches on. So a unit that's switching on and off frequently will never achieve that high energy efficiency rating that was the reason you bought the larger unit in the first place. So it is important to have the architect or builder right size the equipment for the home that's being built.

And again, having the ability or having someone investigate the integrity of the air-conditioning ducts so that those leaks which draw in that superheated attic air into the return vents, so that that doesn't happen under the best of circumstances on a hot day; the best an air conditioner is going be able to achieve is a 20-degree difference between the outside air and the air inside. Well, if you're drawing in to the air-conditioning unit air that's heated to 140 degrees, it's going to be hard to get much measurable cooling off of that.

Now, in addition to the panelists, we had a number of local businesses and organizations who had set up displays around the area, and we did have good participation of the constituency that showed up that morning in looking at the displays, Home Depot, Lowe's Hardware, Peterbilt, which has a manufacturing plant in my district in Denton, NewCon Steel, which is located in Denton, the Agrilife Extension Office of Denton County, the Texas State Energy Conservation Office, obviously several automobile dealerships which I previously mentioned, and the Denton County Transportation Authority all had either booths or displays to help consumers understand about energy consumption and provide some information about energy-efficient products and services.

Peterbilt, for example, bought two trucks: one was an over-the-road model that we're all familiar with, a type of 18-wheeler that we see on our highways, but it was a diesel hybrid electric and, as a consequence, achieved about a 10 percent savings on the open road. The other model was, again, a diesel-electric hybrid, but this was more of a delivery truck, the type of truck you might see around town, the type of truck that might be in stop-and-go traffic, the type of truck that might be periodically caught in a traffic slowdown caused by congestion. And these vehicles actually achieved about a 25 percent overall savings.

So a significant savings in fuel for the company that was operating those vehicles, and I was very grateful to Peterbilt for having those units there.

Overall, I think the event was important. I think it was successful. I think each of us making a personal commitment to use energy wisely, to use energy efficiently is—it's not the entire solution to our energy problems, but it certainly can be a part of the solution. And most importantly in my mind, it puts the consumer back in control of some of these parts of the energy equation in which they feel entirely powerless to impact: the supply/demand curve, they feel entirely powerless to impact the globalization that has occurred; if speculators are causing a problem, the end consumer has very little they can do as far as modifying the behavior of the speculator, the futures trader. But they can modify their behavior, and they can become more savvy consumers, and they can become more efficient consumers.

So all of these were benefits that I witnessed at the local level, and I think I would classify this event as a successful event. Again, this was the third year that it has happened. It has grown in popularity each year that it has occurred. I have actually had other areas in my district, other than cities in my district, who have inquired about the possibility of having a second event in their locations. And the acceptance by the public and the enthusiasm with which the public approached this was, I found, particularly gratifying, and I don't think there is any question that we will repeat this next year.

I wish it wouldn't be necessary, that prices would be down so low that energy was no longer a consideration, but the reality is that's a world to which we probably will not return, at least during my natural lifetime.

Now, we ask our constituents to be more savvy consumers, and they will step up and do the job that is asked of them, but while we're asking them to make some of the personal changes in their energy demands, we've heard it again and again on the floor of this House tonight, we heard it a week ago before we went home for the break, the July 4th holiday, we in Congress have to take some action as well. And we, like any other hard problem, like any other complex problem, you need a short-term, mid-term, and long-term approach to how you're going to deal with this.

In the short term, we've got to make sure that our energy is traded in markets that are fair and transparent, that the proper oversight exists from the proper regulatory authorities and the proper Federal agencies, to the extent that that hasn't been happening, it has to happen. And I don't think there is anyone in this body that would want to go home and try to justify to their constituents why that is not important. To the extent that there is manipulation in the market, it has to be ferreted out, stopped, corrected.

Now, last month, on June 23 in our Committee on Energy and Commerce, our Subcommittee of Oversight and Investigations, we had an investigative hearing. The hearing was titled ''Energy Speculation. Is Greater Regulation Necessary to Stop Price Manipulation?''

Now, it was really an interesting hearing, and there was a lot of information, some information that I was not aware of prior to the hearing. Some

information that, yeah, we've all heard a lot for a long time. But I think one of the things that became very apparent during that hearing is that the scope and the magnitude of the number of dollars that are being invested in the energy futures markets is greater today than at any time in country's history. And that even if the motives are pure, it is just the sheer volume of dollars that are being invested that is driving the price of these futures contracts higher and higher, and that obviously impacts the cost of a barrel of crude oil. And it is driving the market much higher than you would see just based on the cost of—the marginal cost of production and certainly more than would be based on simply factors mediated by supply and demand.

Now, the shift into the futures market and the shift into oil speculation by institutional investors has been called the financialization of oil prices. Today, over 70 percent of the participants willing to buy and sell contracts for the West Texas intermediate crude on the New York Mercantile Exchange are speculators, and they're not participants looking to hedge changes in the price of oil before they take the physical delivery of the product. And often times these purchases on these contracts are made with what is called a margin, sometimes it's only pennies on the dollar, 5 percent down, and you own the futures contract until the time of delivery, but oh, by the way, you never intended to take delivery because you're going to sell the contract to someone else who will pay more money for it. Take your cash and run before you get to the end of that.

Now, there was a lot of discussion about some of the noncommercial traders who hold contracts only for a very short period of time. They don't have a place to store the product if they were to have to exercise the contract. And instead, they're simply riding that increase wave as it goes up to derive profit from the financial instrument itself, not from the actual product that was pumped out of the ground and put into a barrel and to be sold on the open market.

So we did hear from the Commissioner of the Commodities Future Trading Commission, Mr. Walter Lukken. That body is responsible for the oversight over the New York Mercantile Exchange, the NYMEX, and we heard from many of the participants how we could—well, the question that was asked of Mr. Lukken by myself is we see what some of the problems are here. What tools do you need that you don't have today, what tools do you need from Congress, what legislative activity do you need from Congress to stop this practice, to get your arms around this and to be more along the lines of a supply-demand market, not a frenzied financial futures trading market.

Certainly some of the advice we got was perhaps the margin investment needs to be increased. Five percent may be too low. Maybe it needs to be 30 percent, 35 percent. Some people even suggested 50 percent. I'm not an expert in petroleum financial futures, but clearly 5 percent as a margin does seem low to me, and I would certainly be willing to hear the discussion of should these margins be higher.

What about the person who buys the futures contract and never intends to take delivery? And we're not talking about an airline who's hedging against higher prices by speculating and buying on the market and could take delivery of that product if they were required to do so. We're talking about people who have no way. There is no storage tank anywhere near them that would allow them to put this oil in a tank and take delivery of the product.

So clearly, they are only dealing in the financial instrument. Again, they have no interest in the actual commodity that's being traded.

So could the Commodities Futures Trading Commission, could it increase margin requirements? Could it put in place a requirement that at least in a certain percentage of that futures contract there must be a place to store it if it were actually delivered to the person who had purchased that contract?

Now, Commissioner Lukken answered the question that the Commodities Futures Trading Commission does currently have the authority to increase margin requirements and add position limits. So they have them, but they're only to be used under emergency conditions. As I pointed out to Commissioner Lukken, just in the month of May we had three airlines go bankrupt in a weekend. We had a day where the price of crude rose $11 a barrel in one trading day. We had the Speaker of the House talking about pulling oil out of the Strategic Petroleum Reserve. Are we not in an emergency situation already? What other evidence do you need of an emergency to invoke these emergency powers that would allow you to rein in some of the—if there is cost that's being driven by speculation in the financial market, what other evidence do you need?

If you have the power to do it in an emergency situation, I submit you don't need another study. I submit you don't need another law. Go ahead and take the activity which you are empowered to do by virtue of the fact that the Federal agency has the ability under emergency conditions to exercise those powers, go ahead and do it and we will deal with the studies, we will deal with the cumulative effects afterwards. But the situation is so dire at this point, it's so important at this point that I think you ought to do it.

Now, Congress was poised to take some action on that to perhaps make it a little more authoritative that the Commodity Futures Trading Commission would in fact be required to do that, but we kind of fell short of that. And Thursday right before we all left for the week of the July 4th break, we passed a bill that was a sense of Congress, a sense of Congress telling the Commodities Futures Trading Commission that maybe you ought to look at exercising your emergency powers. I liken this to sending a ''get well'' card to the American energy consumer. We really didn't do anything. It made us feel better because, by golly, we passed a bill and we told the Commodities Futures Trading Commission what they need to do their job.

Well, the reality is they knew they need to do their job. They were told that in the committee hearing. I can't imagine why they haven't taken those steps already, but I certainly don't think that a sense of Congress resolution passed by this Congress 2 weeks ago was really going to impact them much one way or the other.

□ 2230

Now, that's the short term. That's the short term to deal with some of the aspects of financial trading or futures trading.

What about the intermediate steps? We heard during that panel that some people believe there's a supply-demand problem today. Others say it's being overblown and it's really the futures market that is the problem; the supply-demand problem does not exist to the level at which it should drive the prices as high as we have seen them.

I don't know who's correct on that, but to a person throughout several panels that day, we heard over and over again, by the year 2015, demand is going to so vastly outstrip supply that we will be in serious trouble, serious trouble, not that we're not in serious trouble, but we'll be in real serious trouble by 2015 if we do not take the steps necessary to increase production to meet those increased demand requirements.

Now, we have heard it again tonight from both sides of the aisle. There are different approaches and different thoughts about it, and we're not talking about drawing oil from the Strategic Petroleum Reserve. That's a very short-term solution, if indeed it's a solution at all, and we've heard some discussion as to the wisdom of that particular exercise, but things like drilling in the Alaska National Wildlife Refuge, things like drilling on the Outer Continental Shelf, off the east coast, off the west coast, development of the oil shale in the inner mountain west.

Last December, on our so-called energy bill that really didn't have any energy in it, in our so-called energy bill last December, we prohibited recovering oil from Canada in the Alberta tar sands because we're worried about the effect of something down the road. Well, for goodness sake, Canada is probably our largest supplier of foreign oil. Here is a readily available source where they could increase their production, but we don't want any part of that because we don't know what that's going to do to our carbon footprint down the road.

Well, forget about down the road. The time is here and now that we need to get that increased production. So this so-called energy bill that we passed last December, in addition to banning the incandescent bulb, we also banned a type of petroleum from our neighbor to the north, Canada, which could result in an immediate increase in the amount of crude oil available to our markets here. So we really did ourselves double harm during that exercise, but nevertheless, what's past is past. Let's get beyond that point.

We have to look at where we're going to get the increased supply that demand is going to require by the year 2015, 7 years away. We hear it talked about on the presidential trail. Well, you're talking about drilling in ANWR; you're talking about drilling in the Outer Continental Shelf; you're talking about deepwater drilling in the Gulf of Mexico. That product is 7 years away. Well, yeah, that's right, it's 7 years away, and if we don't start today, guess where we're going to be in 7 years. We're going to be in tall grass because we haven't done what is necessary to affect that increased supply.

And we all know the demand is coming. We all hear it every day, China and India and all of the other components of the global economy that are drawing energy into their economies while we literally fiddle as Rome burns here in the United States.

It is time for us to get past that point, get on with the development of new supply. If it takes 7 years, that's about the timeline we've got, and if we don't start this year, we're going to be a year later than we should be, or we're going to be 2 years later than we should be.

It really begs the question: When is this Congress going to wake up and understand the importance, the dire importance of that day when demand vastly outstrips supply in 2015?

Now, that issue is pretty clear-cut to me, and I think it's pretty clear-cut to most Americans. I think any polling you do on that subject would show that most Americans are in tune with the fact that they understand that allowing the production of American energy within America's borders is important for our national security, it's important for the future and the sustainability of our economy.

What about the long term? What about some of things you have heard tonight on the development of the techniques for cellulosic ethanol? It will be a wonderful day when we get there, but we're not there yet, and we cannot let our enthusiasm for the technology get ahead of our ability to deliver that technology. For the foreseeable future, for the 7- to 15-year time frame, our energy needs are going to be met by petroleum-based products: natural gas, oil, coal. There's literally no other way around it without simply cratering the American economy.

And reality is, do we do anyone any good here in this country or around the world if we allow our economy to languish, if we allow our economy to falter, because we do not have the institutional courage to accept the fact that we're not quite ready to go on to all alternative types of energy? I wish we'd been building nuclear power plants for the last 10 years but we weren't. We should now because nuclear can provide that base load of electricity that you need.

Remember, Texas is the number one wind producing State in the Nation. That's a great thing for Texas. We're going to get to sell a lot of power, and it's power that comes from the wind. How cheap is that? But the reality is that even in West Texas, where the wind seems to blow incessantly, there are days when the wind doesn't blow. There are hours in the day when the wind blows less ferociously than other hours. And typically, those days that the wind doesn't blow or those hours when the wind production is diminished is summertime, late in the afternoon. But when is the number one electricity demand time in Texas because of air conditioning? It's summertime; it's late in the afternoon. So you can't depend on wind energy to deliver that constant load of electricity that's needed to keep the grid alive. You need something to deliver the base load.

Now, natural gas fills the bill for a lot of Texas right now. Natural gas electrical generation plants, so-called peaking plants, are present in my district. I've visited them. I think they provide a wonderful backstop to some of our energy requirements during the summertime in Texas, and I'm grateful that we have them. But many of these plants are older. They need to be refurbished. They're not nearly as efficient. We're not allowed to build anymore coal plants. That's off the table.

So where are the nuclear plants? And I ask my friends on the other side, when are we going to be serious about what we do with the development of nuclear in this country to allow that production, that base production of electricity? And yeah, we might be able to get over and above that from wind, we might be able to get over and above that from solar, but those sources of energy are not dependable enough. And we don't right now have the technology for the proper storage of electricity from those technologies that we're going to depend on something to provide that base load of electricity that we need to fire up the grid, certainly in the State of Texas and I suspect in other parts of the country as well.

You know, this is a situation where I think we've heard it eloquently from both sides of the aisle tonight. We need all hands on deck. We need all possible technologies that are available, we need them to be developed. We need them to be in the process of being developed. We need them to come online quickly. All hands on deck. And yet a lot of times, this Congress behaves like it's every man for himself. And the American people don't get that. And believe me, I heard that over and over and over again when I was home in the district this last week.

Now, growing and strong economies are better prepared to mitigate some of the effects of disease, hunger, natural disasters, but if we hurt our economy, if we devastate our economy by some of the policies that this Congress has pursued in the last 18 months, our ability to deal with those problems has become woefully constricted. And who's going to suffer? Who's going to suffer? It's going to be the American middle class, the lower middle class, America working poor are going to suffer disproportionately because of the lack of preparedness for dealing with those effects on our economy. This Congress has the responsibility to create the right type of environment to facilitate the right type of growth in the energy sector.

Now, I'm going to borrow a poster from some of the previous speakers. I had a copy of today's Politico that I was going to read a paragraph or two from. We've all heard this over and over again, how the cost of energy has risen since January of 2001, but if you really look at that line, if you look at that line on what's happened with energy prices, what you see is, yeah, there's some bumps and some ups and downs and a general upward tendency of that trend line. You see a big peak for Katrina, see a drop-off after the recovery from Katrina when the refineries came back online much more quickly than anyone anticipated. You see some peaks and valleys for the summer driving season.

But what really stands out when you look at those graphs is how the cost of energy has significantly risen since December of 2006, January of 2007. If you look at the number of futures contracts that have been sold, and yes, there are more dollars going into those future contracts today than in almost anytime in the Nation's past, when you look at how the numbers of futures contracts and when you look at the dollars invested in futures contracts, yeah, there's been a general trend line that goes upward from 2000 until about December of 2006, and then it goes straight up.

Well, quoting from Politico, one of the magazines that we all get in our offices up here in Washington, D.C., there's an article on the front page that's entitled: ''New Boogeymen: Oil Speculators,'' and it has a picture of the Speaker of the House giving a talk and a quote here from the Speaker of the House. '' 'Oil speculators are making money by betting against the American consumers at the pump,' House Speaker NANCY PELOSI said before the Independence Day recess.''

Well, wait a minute, let's go back to this. The price of crude, the price of gasoline, gradually drifting upward, but it really takes a spike upward December of 2006, January of 2007. The number of futures contracts really

takes a spike up December of 2006, January of 2007. The number of dollars invested in the futures market really takes a spike up December of 2006, January of 2007.

Well, what happened between December of 2006 and January of 2007? Well, the 109th Congress ended and the 110th Congress started. So here we had a quote from our Speaker today: ''Oil speculators are making money by betting against the American consumers at the pump.''

Well, is that really the case? Maybe it is the speculators betting on Congress to continue to make dumb decisions about the energy policy in this country. And it looks like they started that about December of 2006 and January of 2007, and guess what. They bet right and they were rewarded.

So, until we do something that sends a signal to those speculators that Congress is through making the dumb decisions, the dumb decisions that it has been making in the past 18 months and is now going to make smart decisions for the American public and the American economy, we're likely not going to see that growth curve go anywhere but up.

So it is time. And I call on my friends on my side of the aisle and the other side of the aisle, we've got to approach this problem sensibly. We just cannot simply be blaming the current bogeyman du jour. We've got to face the fact that it's our policies, starting in about January of 2007, that have driven this market through the roof and, as a consequence, has damaged the purchasing power of the American consuming public.

And just going a little further into the article, a point I made a few minutes ago, ''Before legislators left town, the House overwhelmingly approved legislation that would require a Federal regulatory agency to employ its rarely used emergency powers to crack down on any ''excessive'' speculation in domestic commodity markets.'' Again, that power already existed. I don't know why Commissioner Lukken did not equate that with the emergency with all of the signs and symptoms he had around him of an emergency in the American energy market.

Congress passed—not meaningful legislation last week. We sent a ''get well'' card to the American consuming public and hoped that someone wasn't paying attention and would perhaps mistake our activities a week ago Thursday for something meaningful. I somehow doubt that that occurred.

Let me finish up, Mr. Speaker. And I want to read a letter that was printed in the Dallas Morning News on July 4, 2008, ''Oil Independence Day''—and again, this did run on Independence Day in the Dallas Morning News. ''Tired of unfair laws and unreasonable taxes, American colonists proclaimed freedom. As we celebrate liberty today, it seems ironic that our country has evolved from declaring independence from foreign oppression to now dependence on oppression from foreign oil. In fact, a slow rebellion against reliance on foreign oil began when OPEC left Americans sitting in lines to buy gasoline from stations with dry tanks in the 1970s. Today the price stands at $4 a gallon for gasoline, and it shows up in everything from the food we eat and clothes we wear to the vacations we can no longer afford to take.

''We've proposed 15 ways to cut the cost of energy for working American families by giving them access to American energy, the American energy that they want and need. The problem is that the House Democratic leadership keeps blocking that legislation. There is no better time than America's Independence Day for Congress to stop arguing about the problem and to start fixing it.''

Respectfully submitted, JOE BARTON, R–Arlington, MICHAEL BURGESS, R–Lewisville.

It is time that we can get past what was previously described as a bumper-sticker mentality and that we get to work about solving the serious problems that face the American consumers.

Mr. Speaker, you've been very generous with the time tonight.

HOUSE BILLS APPROVED BY THE PRESIDENT

The President notified the Clerk of the House that on the following dates he had approved and signed bills (of the House) of the following titles:

April 9, 2008:

H.R. 1593. An act to reauthorize the grant program for reentry of offenders into the community in the Omnibus Crime Control and Safe Streets Act of 1968, to improve reentry planning and implementation, and for other purposes.

April 18, 2008:

H.R. 5813. An act to amend Public Law 110–196 to provide for a temporary extension of programs authorized by the Farm Security and Rural Investment Act of 2002 beyond April 18, 2008.

April 23, 2008:

H.J. Res. 70. A joint resolution congratulating the Army Reserve on its centennial, which will be formally celebrated on April 23, 2008, and commemorating the historic contributions of its veterans and continuing contributions of its soldiers to the vital national security interests and homeland defense missions of the United States.

April 30, 2008:

H.R. 1119. An act to amend title 36, United States Code, to revise the congressional charter of the Military Order of the Purple Heart of the United States of America, Incorporated, to authorize associate membership in the corporation for the spouse and siblings of a recipient of the Purple Heart medal.

May 6, 2008:

H.R. 4286. An act to award a congressional gold medal to Daw Aung San Suu Kyi in recognition of her courageous and unwavering commitment to peace, nonviolence, human rights, and democracy in Burma.

May 7, 2008:

H.R. 3468. An act to designate the facility of the United States Postal Service located at 1704 Weeksville Road in Elizabeth City, North Carolina, as the ''Dr. Clifford Bell Jones, Sr. Post Office''.

H.R. 3532. An act to designate the facility of the United States Postal Service located at 5815 McLeod Street in Lula, Georgia, as the ''Private Johnathon Millican Lula Post Office''.

H.R. 3720. An act to designate the facility of the United States Postal Service located at 424 Clay Avenue in Waco, Texas, as the ''Army PFC Juan Alonso Covarrubias Post Office Building''.

H.R. 3803. An act to designate the facility of the United States Postal Service located at 3100 Cashwell Drive in Goldsboro, North Carolina, as the ''John Henry Wooten, Sr. Post Office Building''.

H.R. 3936. An act to designate the facility of the United States Postal Service located at 116 Helen Highway in Cleveland, Georgia, as the ''Sgt. Jason Harkins Post Office Building''.

H.R. 3988. An act to designate the facility of the United States Postal Service located at 3701 Altamesa Boulevard in Fort Worth, Texas, as the ''Master Sergeant Kenneth N. Mack Post Office Building''.

H.R. 4166. An act to designate the facility of the United States Postal Service located at 701 East Copeland Drive in Lebanon, Missouri, as the ''Steve W. Allee Carrier Annex''.

H.R. 4203. An act to designate the facility of the United States Postal Service located at 3035 Stone Mountain Street in Lithonia, Georgia, as the ''Specialist Jamaal RaShard Addison Post Office Building''.

H.R. 4211. An act to designate the facility of the United States Postal Service located at 725 Roanoke Avenue in Roanoke Rapids, North Carolina, as the ''Judge Richard B. Allsbrook Post Office''.

H.R. 4240. An act to designate the facility of the United States Postal Service located at 10799 West Alameda Avenue in Lakewood, Colorado, as the ''Felix Sparks Post Office Building''.

H.R. 4454. An act to designate the facility of the United States Postal Service located at 3050 Hunsinger Lane in Louisville, Kentucky, as the ''Iraq and Afghanistan Fallen Military Heroes of Louisville Memorial Post Office Building'', in honor of the servicemen and women from Louisville, Kentucky, who died in service during Operation Enduring Freedom and Operation Iraqi Freedom.

H.R. 5135. An act to designate the facility of the United States Postal Service located at 201 West Greenway Street in Derby, Kansas, as the ''Sergeant Jamie O. Maugans Post Office Building''.

H.R. 5220. An act to designate the facility of the United States Postal Service located at 3800 SW. 185th Avenue in Beaverton, Oregon, as the ''Major Arthur Chin Post Office Building''.

H.R. 5400. An act to designate the facility of the United States Postal Service located at 160 East Washington Street in Chagrin Falls, Ohio, as the ''Sgt. Michael M. Kashkoush Post Office Building''.

H.R. 5472. An act to designate the facility of the United States Postal Service located at 2650 Dr. Martin Luther King Jr. Street, Indianapolis, Indiana, as the ''Julia M. Carson Post Office Building''.

H.R. 5489. An act to designate the facility of the United States Postal Service located at 6892 Main Street in Gloucester, Virginia, as the ''Congresswoman Jo Ann S. Davis Post Office''.

H.R. 5715. An act to ensure continued availability of access to the Federal student loan program for students and families.

CONGRESSIONAL EARMARKS, LIMITED TAX BENEFITS, OR LIMITED TARIFF BENEFITS

Under clause 9 of rule XXI, lists or statements on congressional earmarks, limited tax benefits, or limited tariff benefits were submitted as follows:

The amendment to be offered by Representative BISHOP of Utah, or a designee, to H.R. 1286, the Washington Rochambeau Revolutionary Route National Historic Trail Designation Act, does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9(d), 9(e), or 9(f) of rule XXI.

United States of America

Congressional Record

PROCEEDINGS AND DEBATES OF THE 110th CONGRESS, SECOND SESSION

Vol. 154 WASHINGTON, TUESDAY, JULY 8, 2008 *No. 111*

Senate

The Senate met at 10 a.m. and was called to order by the Honorable JON TESTER, a Senator from the State of Montana.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

O maker of the seas and the Earth, speak to our hearts today that we may cling to things that cannot fail. Speak to our lawmakers that they may embrace Your purposes and do Your will. Give them rest—not from labor but strength for the work before them. And, God, we also ask You to bless this land. Defend it from the forces that seek to destroy our freedoms. May its citizens never forget that ''righteousness exalts a nation, but sin is a reproach to any people.''

Today, be with the family members of former Senator Jesse Helms as they mourn his death. Give traveling mercies to our Senators who will attend the funeral.

We pray in Your compassionate Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JON TESTER led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, July 8, 2008.

To the Senate:

Under the provisions of rule 1, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JON TESTER, a Senator from the State of Montana, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. TESTER thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, following the leader remarks, the Senate will be in a period of morning business for an hour, with Senators permitted to speak for up to 10 minutes each during that morning hour. Following morning business, the Senate will resume consideration of the FISA legislation. We will offer and debate amendments to the bill today and begin voting sometime tomorrow morning. When we come in tomorrow morning, there will be 105 minutes left of debate time.

As previously announced, to accommodate Senators wanting to attend the funeral of Jesse Helms, there will be no votes today. We do that to honor our departed friend Jesse Helms. So there will be no votes today. That will work out just fine. It is appropriate that we do that and have no votes today.

We will be in recess from 12:30 to 2:15 today to allow our weekly Democratic caucus luncheon. Republicans, who normally have theirs the same time we do, will have theirs tomorrow. I have indicated to the Republican leader that we will protect his caucus. There will be no votes tomorrow during that period of time. Having said that, we are going to do everything we can to complete all the votes before the Republican caucus tomorrow. If we do not finish, we may have a vote after lunch. We will do that.

Around 4 o'clock tomorrow afternoon, we are going to have another vote on the Medicare doctors fix, which is so important to our country. We hope by 4 o'clock tomorrow afternoon we will pick up another vote, that we will have the 60 votes. That certainly would be good news for senior citizens, all those people on Medicare, and the doctors who want to take care of those patients.

MEASURE PLACED ON THE CALENDAR—H.R. 6377

Mr. REID. Mr. President, I understand that H.R. 6377 is at the desk, and it is due for a second reading.

The ACTING PRESIDENT pro tempore. The clerk will read the bill by title for the second time.

The assistant legislative clerk read as follows:

A bill (H.R. 6377) to direct the Commodity Futures Trading Commission to utilize all its authority, including its emergency powers, to curb immediately the role of excessive speculation in any contract market within the jurisdiction and control of the Commodity Futures Trading Commission, on or through which energy futures or swaps are traded, and to eliminate excessive speculation, price distortion, sudden or unreasonable fluctuations or unwarranted changes in prices, or other unlawful activity that is causing major market disturbances that prevent the market from accurately reflecting the forces of supply and demand for energy commodities.

Mr. REID. Mr. President, I object to any further proceedings on this legislation at this time.

The ACTING PRESIDENT pro tempore. Objection has been heard. The bill will be placed on the calendar under rule XIV.

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Printed on recycled paper.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to a period of morning business for up to 1 hour, with Senators permitted to speak therein for up to 10 minutes each.

The Senator from Oklahoma is recognized.

Mr. COBURN. Mr. President, 232 years ago the Declaration of Independence established that humans have the right to self-government because of their unalienable rights to life, liberty and the pursuit of happiness. Preserving these principles requires the same wisdom, courage and spirit of sacrifice that characterized many 18th century Americans.

''What will our children say,'' wrote Boston attorney Josiah Quincy II in 1768, ''When they read the history of these times, should they find we tamely gave away, without one noble struggle, the most invaluable of earthly blessings? . . . let us . . . swear we will die, if we cannot live freemen!''

Indeed, the Americans chose to fight nobly and courageously. After the British surrender at the Battle of Saratoga, Lord Chatham, a member of the British House of Lords, concluded, ''I know that the conquest of English America is an impossibility. You cannot, I venture to say it, you cannot conquer America . . .''

These principles to which the representatives of the 13 colonies pledged their lives, their resources, and their honor still apply to our Nation today.

It was on this day, July 8, 1776, that the Declaration of Independence was first read publicly, having been unanimously adopted by the Congress only 4 days before.

So, today, I am pleased to join with my colleague Senator LIEBERMAN in starting a new, bipartisan tradition in the U.S. Senate. We will read the Declaration of Independence again.

During the next hour, we will also hear from important leaders in our Nation's history who saw these principles of liberty, equality, and justice as timeless.

Patrick Henry urges us to consider the consequences of weakly submitting to a tyrannical authority in the hopes of obtaining peace, rather than persisting in the fight to secure our freedom. In his famous speech at the Touro Synagogue, George Washington establishes the importance of religious freedom for the Nation.

A few days before his inauguration, Abraham Lincoln makes an impromptu speech at Independence Hall in Philadelphia, where he argues that the principles of the Declaration are incompatible with slavery. Finally, in his last letter, Thomas Jefferson reflects on the significance of the Declaration and its timeless value.

I ask unanimous consent that Senator LIEBERMAN and myself may enter into a colloquy on the reading of the Declaration of Independence and that following our colloquy, Senators WHITEHOUSE, MURKOWSKI, WEBB, MARTINEZ, and LIEBERMAN be, in that order, speakers for the remainer of morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. COBURN. ''When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.''

Mr. LIEBERMAN. ''We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed.—That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it; and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object, evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.''

Mr. COBURN. ''He has refused his Assent to Laws, the most wholesome and necessary for the public good.

''He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

''He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.''

Mr. LIEBERMAN. ''He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.

''He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

''He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.''

Mr. COBURN. ''He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new Appropriations of Lands.

''He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary powers.

''He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.''

Mr. LIEBERMAN. ''He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

''He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.

''He has affected to render the Military independent of and superior to the Civil power.

''He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their acts of pretended legislation:''

Mr. COBURN. ''For Quartering large bodies of armed troops among us:

''For protecting them, by a mock Trial, from punishment for any murders which they should commit on the Inhabitants of these States:

''For cutting off our Trade with all parts of the world:''

Mr. LIEBERMAN. ''For imposing Taxes on us without our Consent:

''For depriving us in many cases, of the benefits of Trial by Jury:

''For transporting us beyond Seas to be tried for pretended offences:

''For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:''

Mr. COBURN. ''For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:

''For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.''

Mr. LIEBERMAN. ''He has abdicated Government here, by declaring us out of his Protection and waging War against us.

''He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the Lives of our people.

''He is at this time transporting large Armies of foreign Mercenaries to complete the works of death, desolation and tyranny, already begun with circumstances of Cruelty and perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

''He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

''He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.''

Mr. COBURN. ''In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free People.''

Mr. LIEBERMAN. ''Nor have We been wanting in attention to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.——''

Mr. COBURN. ''We, therefore, the representatives of the United States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be free and independent States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do.—And for the support of this Declaration, with a firm reliance on the protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.''

The ACTING PRESIDENT pro tempore. The Senator from Rhode Island is recognized.

TOURO SYNAGOGUE

Mr. WHITEHOUSE. Mr. President, my home State of Rhode Island has the distinction of being home to the oldest Jewish house of worship in the United States, the Touro Synagogue in historic Newport. This synagogue was founded in 1763. Today, the synagogue stands as a handsome landmark, designed by the famous colonial architect Peter Harris, a reminder of historic days past for a community that this year, 2008, will celebrate the 350th anniversary of the first Jewish settlement in Rhode Island and a living expression today of our Jewish community's faith.

But during the infancy of our young Nation, Touro Synagogue played a major political role in defining what religious freedom would come to mean to Americans.

In 1790, the congregation at Touro Synagogue wrote to President George Washington, then in only his second year in office, when he visited Newport on a political tour to rally support for an American bill of rights. The warden of the synagogue, Moses Seixas, sought Washington's assurance that religious freedom would be guaranteed to Jews throughout the country.

In those first tumultuous years of our Republic, there was much uncertainty as to the guaranteed rights of individuals. Our Declaration of Independence had declared certain unalienable rights to be self-evident, but our Constitution did not yet include our Bill of Rights. There was no guarantee of an American's right to freely exercise his or her religion as we have today in the first amendment.

President Washington's public letter to the Touro congregation, coming from a political leader whose word was gold, left no doubt that the United States Government would defend the religious freedoms of all people, including those whose beliefs were different from the common ones, and it assured that this Government would have no part in stifling the beliefs of any who chose to worship as their conscience and traditions directed.

It was, at the time, a revolutionary promise from a revolutionary man, and I am pleased to read the full text of this historic correspondence.

To the President of the United States of America.

Sir: Permit the children of the Stock of Abraham to approach you with the most cordial affection and esteem for your person and merits, and to join with our fellow citizens in welcoming you to NewPort.

With pleasure we reflect on those days, those days of difficulty and danger, when the God of Israel, who delivered David from the peril of the sword, shielded your head in the day of battle: and we rejoice to think, that the same Spirit, who rested in the Bosom of the greatly beloved Daniel, enabling him to preside over the Provinces of the Babylonish Empire, rests and ever will rest, upon you, enabling you to discharge the arduous duties of Chief Magistrate in these States.

This was before the Civil War, so it was ''these States'' and not the ''United States.''

Deprived as we heretofore have been of the invaluable rights of free Citizens, we now with a deep sense of gratitude to the Almighty disposer of all events behold a Government, erected by the Majesty of the People, a Government, which to bigotry gives no sanction, to persecution no assistance—

You will see in Washington's reply that the wily fox knew a good phrase when he saw one.

—but generously affording to all Liberty of conscience, and immunities of Citizenship: deeming every one, of whatever Nation, tongue, or language equal parts of the great governmental Machine: This so ample and extensive Federal Union whose basics is Philanthropy, Mutual confidence and Public Virtue, we cannot but acknowledge to be the work of the Great God, who ruleth in the Armies of Heaven, and among the Inhabitants of the Earth, doing whatever seemeth him good.

For all these Blessings of civil and religious liberty which we enjoy under an equal benign administration, we desire to send up our thanks to the Ancient of Days, the great preserver of Men, beseeching him, that the Angel who conducted our forefathers through the wilderness into the promised Land, may graciously conduct you through all the difficulties and dangers of this mortal life: And, when, like Joshua full of days and full of honour; you are gathered to your Fathers, may you be admitted into the Heavenly Paradise to partake of the water of life, and the tree of immortality.

Done and Signed by order of the Hebrew Congregation in NewPort, Rhode Island August 17th 1790. Moses Seixas, Warden.

And then came the President's reply.

To the Hebrew Congregation in Newport Rhode Island.

Gentlemen,

While I receive, with much satisfaction, your Address replete with expressions of affection and esteem; I rejoice in the opportunity of assuring you, that I shall always retain a grateful remembrance of the cordial welcome I experienced in my visit to Newport, from all classes of Citizens.

The reflection on the days of difficulty and danger which are past is rendered the more sweet, from a consciousness that they are succeeded by days of uncommon prosperity and security. If we have wisdom to make the best use of the advantages with which we are now favored, we cannot fail, under the just administration of a good Government, to become a great and happy people.

The Citizens of the United States have a right to applaud themselves for having given to mankind examples of an enlarged and liberal policy: a policy worthy of imitation. All possess alike liberty of conscience and immunities of citizenship. It is now no more

that toleration is spoken of, as if it was by the indulgence of one class of people, that another enjoyed the exercise of their inherent natural rights. For happily the Government of the United States, which gives to bigotry no sanction, to persecution no assistance requires only that they who live under its protection should demean themselves as good citizens, in giving it on all occasions their effectual support.

It would be inconsistent with the frankness of my character not to avow that I am pleased with your favorable opinion of my Administration, and fervent wishes for my felicity. May the children of the Stock of Abraham, who dwell in this land, continue to merit and enjoy the good will of the other Inhabitants: while every one shall sit in safety understood his own vine and figtree, and there shall be none to make him afraid. May the father of all mercies scatter light and not darkness in our paths, and make us all in our several vocations useful here, and in his own due time and way everlastingly happy.

G. Washington.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Connecticut.

Mr. LIEBERMAN. Mr. President, I thank my friend from Rhode Island, Senator WHITEHOUSE, for that magnificent exchange of correspondence between the Hebrew congregation of Newport, RI, and President Washington.

May I say that Senator WHITEHOUSE, in his own bearing and substance, lives out the promise of religious freedom that our first President gave to all Americans.

Perhaps I should say I say that as one of the descendants of the Stock of Abraham who is privileged to be a Member of the Senate today. I thank Senator WHITEHOUSE. I thank Senator COBURN.

I am going to take the liberty, if I may, to speak for a few minutes while we are waiting for either Senator MURKOWSKI, Senators WEBB or MARTINEZ, who are going to read documents before I conclude.

But I particularly want to give a statement of appreciation to our colleague, Senator CORNYN of Texas, whose idea this was. He came to me and said: Why do we not try to establish a new Senate tradition, where every year, either on July 8, which, as Senator COBURN indicated, was the first public reading of the Declaration, or the day closest to July 4 when the Senate is in session, we read the Declaration, this magnificent statement of America's founding principles, purpose, destiny, and other patriotic documents of the moment to remind us what we are about as a Nation, and in some sense, to refresh our sense of national purpose and to build on the celebrations that are part of July 4.

We all love the fireworks, we all love the time to be with our family, we love the parades and, of course, we are struck now, as we are at war, in the expressions of gratitude toward those who have put on the uniform of the United States of America to defend our freedom and our security.

But this all goes back to the beginning, to the extraordinary founding of this country by an extraordinary group of human beings. The truth is we do not celebrate enough that America, unique among Nations, was not defined from the beginning by its borders, by its geography, if you will, but by its ideology, by its values, as the founding generation of Americans expressed magnificently in the first official documents.

Those words of the Declaration about the self-evident truth that all of us are created equal and endowed not by Jefferson, the great American who wrote the Declaration, not by the philosophers of the enlightenment but by our Creator, with these unalienable rights to life, liberty, and the pursuit of happiness, that paragraph, and then it says, in order to secure those rights, the Government is formed; in other words, to secure the rights to life, liberty, and the pursuit of happiness, I always like to say America is a faith-based initiative founded on those endowments from our Creator. Building this magnificent architecture of freedom stated in the poetry of the founding generation of Americans has probably had more effect, has definitely had more effect on more people and more political activity in the 200-plus years since 1776 than any other single document. Of course, other documents stating other ''isms'' have come along, Nazism, Communism, Islamism, but the Declaration of Independence, Americanism, has prevailed.

The other thing that struck me as I read the Declaration was the anger and the passion we sometimes forget our founding generation had toward Great Britain and the King for all the tyrannical usurpations of their freedom that were the cause of the Declaration.

Finally, the document is a magnificently aspirational document. It states noble goals. But let us all be honest, at this moment on this floor, particularly at the moment in 1776, where the Declaration of Independence was signed and issued, America was nowhere near realizing the glorious values stated, of equality, of life and the pursuit of life and happiness. People of color had no rights. They were not even counted equal with White people. Women had effectively no rights. I was forced, by the validity of the document, to read a terribly bigoted and offensive reference to Native Americans. But that is the story of America. The Declaration gave us our purpose. It gave us our destiny. It put us on a journey. Succeeding generations of Americans have come closer to realizing the aspirations stated in that document. Of course, the work goes on in our time as it has for every previous generation of Americans.

I appreciate very much that Senator WEBB has come to the Chamber. I am pleased to yield to him for a reading of Thomas Jefferson's last letter.

The ACTING PRESIDENT pro tempore. The Senator from Virginia.

Mr. WEBB. Mr. President, it is my pleasure to participate in this remembrance today.

For more than 200 years, the American experiment in self-government has been a witness to all nations about the power of ''the people.'' The Declaration of Independence establishes a fundamental principle that a government exists, not because some humans have a hereditary right to dominate others, but because the people themselves have consented to be governed by others.

In 1826, the Mayor of Washington, Roger Weightman, invited Thomas Jefferson to attend the 50th anniversary of the Declaration. In his letter of reply, dated June 26, Jefferson reiterates one last time, his belief in the principles of the Declaration. Thomas Jefferson died a week later, on the Fourth of July.

In that letter, Thomas Jefferson stated:

I should, indeed, with peculiar delight, have met and exchanged there congratulations personally with the small band, the remnant of that host of worthies, who joined with us on that day, in the bold and doubtful election we were to make for our country, between submission or the sword; and to have enjoyed with them the consolatory fact, that our fellow citizens, after half a century of experience and prosperity, continue to approve the choice we made.

May it be to the world, what I believe it will be (to some parts sooner, to others later, but finally to all), the signal of arousing men to burst the chains under which monkish ignorance and superstition had persuaded them to bind themselves, and to assume the blessings and security of self-government.

That form which we have substituted, restores the free right to the unbounded exercise of reason and freedom of opinion. All eyes are opened, or opening, to the rights of man.

The general spread of the light of science has already laid open to every view the palpable truth, that the mass of mankind has not been born with saddles on their backs, nor a favored few booted and spurred, ready to ride them legitimately, by the grace of God.

These are grounds of hope for others. For ourselves, let the annual return of this day forever refresh our recollections of these rights, and an undiminished devotion to them.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Connecticut.

Mr. LIEBERMAN. Mr. President, I thank my friend and colleague from Virginia for a characteristically purposive and eloquent reading of a great document. I thank him for carrying the torch of Jefferson, along with that other great Virginian, Senator JOHN WARNER, in our time in the Senate.

While we await, hopefully soon, Senators MURKOWSKI and MARTINEZ, I thought I would go on and perhaps read the final document that I was going to read at the end. Before I do so, I thank Senator CORNYN of Texas whose idea this was, hoping this might form the basis of not only the Senate celebrating the documents but, of course, more than that, the values, the principles, the destiny, the American destiny captured in them and in the glorious words of our founding generation, but that we might, in doing so, perhaps carry out or begin a national civics lesson in all that we have to be

grateful for as Americans, as each succeeding generation of Americans has not only taken on the responsibility to try to move the country closer to the aspirations that are expressed in these founding documents but, of course, each succeeding generation has benefited from the promise of equality stated in these documents. I thank Senator CORNYN.

I wish to now thank the people working for him. Senators have good ideas occasionally, but it is the staff who makes sure we implement them. I wish to particularly thank Nicole Gustafson, of his staff, and Michelle Chin and also Clarine Nardi Riddle, who is my chief of staff, who has worked on this on behalf of my office.

I have always been struck by the extent to which the founding generation of Americans was powerfully religious. In fact, they came to this country, most of them, to escape religious persecution. So it is no surprise that the original documents, as you can hear, of our country, as we read this morning, are full of references to God, the Almighty, nature's God, a whole series of descriptions. That is why, I said earlier and I say with pride and gratitude, America is a faith-based institution. That is why it always seems to me that anyone who tries to separate America and religion is doing something unnatural. The remarkable balance the Founders established was of a nation premised on faith in God, whose purpose was, as a government, to secure the rights each of us have as an endowment from our Creator and yet to do that in a way that, as the Declaration, as the Constitution, as the magnificent letter from our first President, George Washington, to the Hebrew congregation of Newport, RI, makes clear, respects everybody's right to believe in whatever they wish to believe in.

It struck me once, reading the Declaration, when we say that the right to life, liberty, and the pursuit of happiness is an endowment of our Creator, that one of the rights our Founders recognized is the right not just to believe in the Creator as one who chooses but, in fact, not to believe in our Creator and to equally enjoy the protections and rights that come to all Americans. It is perhaps because the Declaration of Independence is a faith-based document that it has had such universal application and effect across the world, inspiring generation after generation of people throughout the world, in every continent of the world, to essentially pick up the torch, to accept the destiny, to revolt against tyranny and despotism, to fight in the same revolutionary spirit that comes through the Declaration of Independence that we read a few moments ago for the freedom of their own people.

Of course, if you say, as our Founders did and as we believe, that the rights to life, liberty, and the pursuit of happiness that are the premise of the Declaration of Independence were the endowment of our Creator, surely our Creator, who created heaven and the Earth and all who live on it, did not intend for those rights to life, liberty, and the pursuit of happiness to be the exclusive possession of Americans. This is the most universal declaration of human rights. It still guides our foreign policy because it is what we are all about—freedom and the extension of freedom.

I do wish to say it has inspired enormous numbers of people throughout the world to fight, as our founding generation fought, for freedom.

The document I wish to read now, chosen by staff but a fascinating one, I must say—I had never seen it before—speaks to the profound faith of the founding generation, their knowledge of the Bible. In fact, I suppose it was at the Constitutional Congress, there was a debate about the symbol of the United States of America. And before the symbol that we have now was chosen, a few of the Founders suggested—argued, in fact—that it be a portrayal of the children of Israel crossing the sea divided by God's will because they felt they were, as some of them said, establishing here a new Jerusalem.

The letter I wish to read was written by John Quincy Adams, one of the great members of the founding generation, eloquent, a fighter for freedom. He delivered an address to the New York Historical Society, celebrating the 50th anniversary of George Washington's inauguration.

In that address, he urges the people to embrace the fundamental principles that motivated the founding generation, of which he was a part, and to make them a part of daily living. He premised it all on his own belief in the Bible. So let me read it to you now:

When the children of Israel, after forty years of wanderings in the wilderness, were about to enter the promised land, their leader Moses, who was not permitted to cross the Jordan with them, just before his removal from among them, commanded that when the Lord their God should have brought them into the land, they should put the curse upon Mount Ebal, and the blessing upon Mount Gerizim.

The injunction was faithfully fulfilled by his successor Joshua. Immediately after they had taken possession of the land, Joshua built an altar to the Lord, of whole stones, upon Mount Ebal. And there he wrote, upon the stones, a copy of the law of Moses, which he had written in the presence of the children of Israel: and all Israel and their elders and officers, and their judges, stood on the two sides of the ark of the covenant, borne by the priests and Levites, six tribes over against Mount Gerizim, and six over against Mount Ebal. And he read all the words of the law, the blessings and cursings, according to all that was written in the book of the law.

Now John Quincy Adams brings it home from the Bible to America when he says:

Fellow-citizens, the ark of your covenant is the Declaration of Independence. Your Mount Ebal, is the confederacy of separate state sovereignties, and your Mount Gerizim is the Constitution of the United States.

He continues:

In that scene of tremendous and awful solemnity, narrated in the Holy Scriptures, there is not a curse pronounced against the people, upon Mount Ebal, not a blessing promised them upon Mount Gerizim, which your posterity may not suffer or enjoy, from your and their adherence to, or departure from, the principles of the Declaration of Independence, practically interwoven in the Constitution of the United States.

So Adams brings it right from the Bible to America, to the Declaration and the Constitution. Then he says, in conclusion:

Lay up these principles, then in your hearts, and in your souls—

And then quoting from the Bible, or picking the metaphor up, he says—

bind them for signs upon your hands, that they may be as frontlets between your eyes—teach them to your children—

He is speaking now of the Declaration of Independence and the Constitution—

speaking of them when sitting in your houses, when walking by the way, when lying down and when rising up—write them upon the doorplates of your houses, and upon your gates—cling to them as to the issues of life—adhere to them as to the cords of your eternal salvation.

So may your children's children at the next return of this day of jubilee—

Remember, it was 50 years after Washington's inaugural—

after a full century of experience under your national Constitution—

Today, we are now into our third century of experience—

celebrate it again in the full enjoyment of all the blessings recognized by you in the commemoration of this day, and of all the blessings promised to the children of Israel upon Mount Gerizim, as the reward of obedience to the law of God.

A remarkable statement of the enduring bases of our great national documents that guide us to this very day.

I am very grateful to see our friend and colleague from Alaska, Senator MURKOWSKI, in the Chamber, and I will yield now to her for the Abraham Lincoln Independence Hall speech regarding slavery.

The ACTING PRESIDENT pro tempore. The Senator from Alaska.

Ms. MURKOWSKI. Thank you, Mr. President.

I am honored this morning to join with my colleagues to observe the anniversary of the Declaration of Independence and to participate by reading some of the documents that had underscored the principles of that great declaration.

Near the end of President-elect Abraham Lincoln's inaugural journey from Springfield, IL, to Washington, DC, he stopped in the city of Philadelphia. It was the occasion of George Washington's birthday.

Lincoln gave an impromptu speech at Independence Hall on February 22, 1861, and it was a speech that demonstrated his deep commitment to the principles of the Declaration of Independence. It was a commitment that would be tested in the years to come and for which he, too, gave his life.

So with that little introduction, I wish to read this impromptu address

delivered by Abraham Lincoln. He stated:

I am filled with deep emotion at finding myself standing here, in this place, where were collected together the wisdom, the patriotism, the devotion to principle, from which sprang the institutions under which we live. You have kindly suggested to me that in my hands is the task of restoring peace to the present distracted condition of the country. I can say in return, sir, that all the political sentiments I entertain have been drawn, so far as I have been able to draw them, from the sentiments which originated and were given to the world from this hall.

I have never had a feeling politically that did not spring from the sentiments embodied in the Declaration of Independence. I have often pondered over the dangers which were incurred by the men who assembled here, and framed and adopted that Declaration of Independence. I have pondered over the toils that were endured by the officers and soldiers of the army who achieved that Independence.

I have often inquired of myself what great principle or idea it was that kept this Confederacy so long together. It was not the mere matter of the separation of the Colonies from the motherland; but that sentiment in the Declaration of Independence which gave liberty, not alone to the people of this country, but, I hope, to the world, for all future time. It was that which gave promise that in due time the weight would be lifted from the shoulders of all men. This is the sentiment embodied in that Declaration of Independence.

Now, my friends, can this country be saved upon that basis? If it can, I will consider myself one of the happiest men in the world if I can help to save it. If it can't be saved upon that principle, it will be truly awful. But, if this country cannot be saved without giving up that principle—I was about to say I would rather be assassinated on this spot than to surrender it.

Now, in my view of the present aspect of affairs, there is no need of bloodshed and war. There is no necessity for it. I am not in favor of such a course, and I may say in advance, there will be no bloodshed unless it be forced upon the Government. The Government will not use force unless force is used against it.

My friends, this is a wholly unprepared speech. I did not expect to be called upon to say a word when I came here—I supposed I was merely to do something towards raising a flag. I may, therefore, have said something indiscreet, but I have said nothing but what I am willing to live by, and, in the pleasure of Almighty God, die by.

Mr. President, those were the words—the very eloquent words—given by President-elect Abraham Lincoln at Independence Hall on February 22, 1861—again, words that were impromptu, words that were inspired by his deep commitment, truly, to the principles embodied in our Declaration of Independence.

It is most fitting that as a Senate, as a body, we recognize those principles; that we again read those speeches from those great leaders from so many years ago, those leaders who have shaped our Nation to be the great Nation it is.

With that, I again thank the Senators who have given us the opportunity to read these profound words again and to share them with citizens across this great Nation.

With that, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Connecticut.

Mr. LIEBERMAN. Mr. President, I thank Senator MURKOWSKI for that moving reading of the statement by President Lincoln and for all she does in our time to carry on those principles.

It struck me—I said earlier the Declaration was an aspirational document and positing the self-evident truth that all of us are created equal, having this endowment from our Creator to the rights of life, liberty, and the pursuit of happiness—the great promise of equality of opportunity—that it was not realized at the time, July 4, 1776, when it was written.

One of the groups I mentioned—women—had essentially no equal rights at that time. The story of America is the story of trying to, over time, reach the aspirations of the founding generation.

It was only into the last century, as you well know, I say to my friend from Alaska, that women got the right to vote, and only more recently that women began to be elected to the Senate in some numbers. So the work goes on. Obviously, you were elected because of your qualities as a person, not because of your gender.

But I note both the progress that has been made and the progress that yet has to be made to realize the fullest range of the goals of the Founders.

Senator MARTINEZ, the final Member to speak, is on his way. I will fill in a little bit.

I say to the Senator, your reading of Lincoln inspires me to recall that I recently read a book—I forget the name of the book, but I remember the author, William Lee Miller. I remember it well because he was a teacher of mine at Yale, who has now been teaching for many years at the University of Virginia. He wrote a book recently on Lincoln, and in it he analyzes Lincoln's first inaugural address.

I thought he made a powerful point that reminded me of the extent to which Lincoln in that first inaugural address talked about the oath of office he was taking and how it transformed him. In other words, he said when he raised his hand—the right hand—and put the other hand on the Bible and said he was now pledging to protect, preserve, and defend the Constitution, it transformed him as a person. Yes, he was still Abraham Lincoln, American citizen, but he was now the President, with a solemn and sacred obligation to protect, preserve, and defend the Constitution of the United States.

That was a powerful insight, and one I think all of us—as thrilled as I remember I was, and I am sure every Member of the Senate was when we walked to the well of the Senate the first time, and every time since, on the day we were sworn in as Senators, to feel transformed by the oath we take, which puts the interests of the Constitution and our Nation first above personal interests, above party interests.

In this particularly partisan chapter of American political history, it is worth remembering that the oath we took, as Lincoln's first inaugural instructs us, was not to protect and defend and preserve ourselves or our parties but to protect, preserve, and defend the Constitution of the United States, and, of course, the United States itself most of all.

I am grateful to see my friend from Florida in the Chamber and now yield to Senator MARTINEZ for the reading of Patrick Henry's speech.

The ACTING PRESIDENT pro tempore. The Senator from Florida.

Mr. MARTINEZ. Mr. President, I thank the Senator from Connecticut and very much appreciate his contribution this morning.

I am incredibly honored to have the opportunity to talk about Patrick Henry and the words he expressed at such a vital time for our Nation. As the Senator from Connecticut knows, I am an immigrant to this land. I am one who has been the beneficiary of the fruits of liberty that were obtained by others, and I am incredibly grateful for those opportunities to live in freedom that I have been afforded by this great Nation. So the Fourth of July always ranks as a very special day on my calendar.

The words of Patrick Henry have to do with a people who felt oppression, as I did in my youth. It is, at that time in someone's life, a little difficult to determine whether it is better to resist or reconcile, whether we move in the direction of conflict or in the direction of peace.

It was in that kind of a moment that Americans in the years preceding 1776 found themselves. So on March 23, 1775, at a meeting of delegates at St. John's Church in Richmond, Patrick Henry made the case for action.

There is a picture of the inside of the church which was taken from Patrick Henry's pew. Here are some excerpts from that famous speech.

It reads:

Mr. President, it is natural to man to indulge in the illusions of hope. We are apt to shut our eyes against a painful truth, and listen to the song of that siren 'til she transforms us into beasts. Is this the part of wise men, engaged in a great and arduous struggle for liberty? . . .

. . . We have done everything that could be done to avert the storm which is now coming on. We have petitioned; we have remonstrated; we have supplicated; we have prostrated ourselves before the throne, and have implored its interposition to arrest the tyrannical hands of the ministry and Parliament.

Our petitions have been slighted; our remonstrations have produced additional violence and insult; our supplications have been disregarded; and we have been spurned, with contempt, from the foot of the throne!

In vain, after these things, may we indulge the fond hope of peace and reconciliation. There is no longer any room for hope.

If we wish to be free—if we mean to preserve inviolate those inestimable privileges for which we have been so long contending—

if we mean not basely to abandon the noble struggle in which we have been so long engaged, and which we have pledged ourselves never to abandon until the glorious object of our contest shall be obtained—we must fight! I repeat, sir, we must fight! An appeal to arms and to the God of hosts is all that is left us!

They tell us, sir, that we are weak; unable to cope with so formidable an adversary. But when shall we be stronger?

Will it be next week, or the next year? Will it be when we are totally disarmed, and when a British guard shall be stationed in every house?

Shall we gather strength by irresolution and inaction? Shall we acquire the means of effectual resistance by lying supinely on our backs and hugging the delusive phantom of hope, until our enemies shall have bound us hand and foot? . . .

. . . The millions of people, armed in the holy cause of liberty, and in such a country as that which we possess, are invincible by any force which our enemy can send against us.

Besides, sir, we shall not fight our battles alone. There is a just God who presides over the destinies of nations, and who will raise up friends to fight our battles for us. The battle, sir, is not to the strong alone; it is to the vigilant, the active, the brave . . .

. . . It is in vain, sir, to extenuate the matter. Gentlemen may cry, Peace, Peace—but there is no peace.

The war is actually begun! The next gale that sweeps from the north will bring to our ears the clash of resounding arms! Our brethren are already in the field! Why stand we here idle?

What is it that gentlemen wish? What would they have? Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take; but as for me, give me liberty or give me death!

Those are the words of Patrick Henry, which I feel terribly inadequate delivering myself, but I am so honored to have this incredible opportunity, and the words ring so true today.

As we know how history unfolded, he was so correct about the fact that it was a time for action and that there would be an almighty who would stand on the side of freedom and on the side of liberty, which is still true today. I know the Senator from Connecticut would share that view with me.

I so much appreciate this wonderful opportunity, and I yield back to the Senator from Connecticut.

Mr. LIEBERMAN. Mr. President, I thank Senator MARTINEZ for that wonderful reading and for all that his person speaks to. He said he was an immigrant to this country, born in Cuba. The truth is, we are all immigrants, the founding generation. We are all immigrants. The original Americans were Native Americans. I think some of us whose families have been here a while may forget all of that.

The country in its founding documents posited these magnificent ideas based on faith, the endowment of our Creator, but then this openness and equality. The Senator from Florida, in his lifetime, his fresh memory, reminds us all how we have to be grateful for each succeeding generation as an obligation to accept the responsibility and, if you will, the destiny that is included in these documents—the Declaration and the Constitution—but we are also beneficiaries of those. Certainly, I have been in my life, and the Senator from Florida has been in his life.

It is great to have somebody such as the Senator from Florida, by virtue of his own ability and hard work being a Senator, to be here and to read Patrick Henry's inspiring words. That is really what America is about.

Mr. MARTINEZ. It is very special.

Mr. LIEBERMAN. Mr. President, I am honored that Senator WARNER has come to the floor. He is a great Virginian in the tradition of Jefferson, and I wish to call on him because I believe he would like to add just a few words here at the end of this hour of celebration of our independence.

Mr. WARNER. Mr. President, I see our distinguished colleague from Missouri on the floor.

Mr. BOND. Mr. President, I apologize to my friend from Virginia, but we were going to start the FISA debate at 11. I understand there is a request to extend. I would like to lock in a time when we can accommodate those Senators wishing to speak but establish a firm time when Senator ROCKEFELLER and I may begin the discussion of FISA.

Mr. WARNER. Mr. President, I am going to speak for maybe 4 minutes. My distinguished colleague from Connecticut, who is too humble to say so, perhaps, deserves credit for what is going on this morning, together with Senator CORNYN. We are about to wind up in less than 15 minutes. I would think that at 11:15 we would be ready to go on the bill, and I wish to join the Senator from Missouri on this bill.

Mr. LIEBERMAN. Mr. President, if I may, I am going to finish up in a moment with just a minute because I have had plenty of time to speak, so we will be there before 11:15.

Mr. BOND. Mr. President, are there other requests of people wishing to speak?

Mr. WARNER. No.

Mr. LIEBERMAN. No.

Mr. WARNER. So I would put it in the form of a unanimous consent request that we be allowed to continue at this point.

EXTENSION OF MORNING BUSINESS

Mr. BOND. Mr. President, I think Senators CORNYN and DURBIN wish to speak. So after the Senator from Virginia and the Senator from Connecticut finish speaking, if we could—I would suggest that we give them the remaining time on morning business until 11:30. I ask unanimous consent to establish morning business until 11:30.

The ACTING PRESIDENT pro tempore. Is there objection? Without objection, it is so ordered.

The Senator from Virginia is recognized.

Mr. WARNER. Mr. President, I am very heart warmed that this concept is giving us the opportunity to talk about these magnificent documents. I was fortunate at one time to be designated by the President and actually confirmed by the Senate in a position for the Nation's bicentennial to lead discussions all across America in all 50 States—and indeed I traveled to 22 foreign countries—working on the concept of America's bicentennial and of the magnificence of the Constitution, the Declaration of Independence, and the Bill of Rights. I remember so well when talking to audiences the rapt attention that was given at that period in our history about the importance of these documents. Not one, not two—I don't know how many people would say to me that they felt the hand of divine providence came down and rested upon the shoulders of the Founding Fathers to put together such a magnificent framework of government.

That framework of government today stands as the longest and oldest surviving form of a democratic republic on Earth. It is something to think about. All the other forms of government—monarchies and so forth—have either been changed or have gone into the dust bin of history but not ours. It is because of the genius of these individuals that enables us to carry forward.

I remember I was challenged one time that Switzerland's Government was continuous. I reminded them that Napoleon crossed the Alps, I think it was in—and I will check it and correct it for the record—in about 1827 and annexed Switzerland to France. That persisted for some 18 months, and then Napoleon decided it was too cold over there, didn't want it, and cut it loose and let it go. I will polish that history later on.

I believe we should focus on the magnificence of this document, its endurance, and that we are proudly the trustees of this framework of government, to make it work as envisioned by the Founding Fathers. We recognize that with the passage of time, there are things that have overtaken some of the original—not their basic concepts, but just the electronic world in which we live now, the instantaneous information world and all of those things have contributed. Nevertheless, we are the oldest surviving democratic republic on Earth today because of the magnificent work of the Founding Fathers.

I yield the floor.

Mr. LIEBERMAN. Mr. President, I wish to thank Senator WARNER for those very eloquent words. I can't think of a better way to end this celebration of the Declaration of Independence written by Thomas Jefferson of Virginia than with the words of the great Senator from Virginia today, JOHN WARNER. I appreciate all of the Members of the Senate having participated in this celebration of our founding documents and of the principles that have given America its purpose and destiny over these many decades. Of course, we hope this will serve in its way as a teaching instrument, a civics

lesson for those around the country who may be listening.

For our own part here in the Senate, let's pledge today to uphold these principles and their values and the eloquence with which they were expressed, with the same dedication and persistence in courage as the great first generation of Americans who wrote them.

I thank the Chair, and I yield the floor.

The ACTING PRESIDENT pro tempore. The assistant majority leader is recognized.

Mr. DURBIN. Mr. President, it is my understanding that the time between now and 11:30 is equally divided between myself and a Senator on the Republican side?

The ACTING PRESIDENT pro tempore. That is not part of the unanimous consent agreement.

Mr. DURBIN. Is there any pending unanimous consent or any pending consent relative to the time?

The ACTING PRESIDENT pro tempore. Only that morning business continue until 11:30.

Mr. DURBIN. I ask unanimous consent to speak for 10 minutes—well, let me just make that request, that the remaining time between now and 11:30 be equally divided between the Democratic side and the Republican side and that I be allocated the Democratic time.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DURBIN. I thank the Chair.

MEDICARE

Mr. DURBIN. Mr. President, after this debate on the history of our country and this institution, it is worth reflecting on the fact that were it not for this Chamber, this Senate, we may not be a United States of America. They couldn't reach an agreement on what to do with small Colonies when they became States. Would they be overwhelmed by some House of Representatives where the big Colonies with the big populations would dominate? So the small Colonies held back, and they reached a compromise. They said: We will create a Senate of small Colonies and large Colonies, soon to become States; they will each have two Senators. So even if you are small in population, you will have an equal voice as a large Colony and a large State. That is why today in the Senate, every State has two Senators regardless of its size, and that is why the Senate is of equal import in the legislative process as the House. That was the great compromise.

Then the Senate wrote its rules consistent with that compromise and said: And then within the Senate, each of these States will be recognized and respected as a minority. So it takes more votes to do things in the Senate than it does in the House. It isn't strictly a majority rules.

They created something called a filibuster. A filibuster, which some of you recall from Jimmy Stewart in ''Mr. Smith Goes to Washington,'' is when a Senator would stand and start to speak, hold the floor, stop the debate, and this Senator, by himself or herself, really controlled the Chamber. For the longest time, that is the way it worked or, in fact, didn't work. Any Senator could stop the train. Any Senator could stop the Senate.

Then, in the early 1900s, they said: Well, there ought to be a way to stop one Senator from bringing the Senate to a halt. Maybe if we came up with 67 votes or a two-thirds vote of the Senate, then we could make that Senator stop filibustering and go on with our business. That was the rule for a long time. Then in the 1960s it was changed again to 60 votes. Today that is the rule. If any Senator starts a filibuster to amend or stop any nomination, any bill, any treaty, it takes 60 votes to stop the filibuster and move forward on the bill.

How often are filibusters used? In the history of the Senate, rarely. But now there is a new game in town. The history of the Senate tells us that the largest number of filibusters in any 2-year period in the history of the Senate has been 57 filibusters.

Look at the record for this session of Congress. We have had 79 Republican filibusters, and we are still counting. In other words, 79 different times the Republican minority Senators have tried to stop the business of the Senate, stop the debate, stop the amendment, and force this vote, the 60 votes to resume business in the Senate.

Of course, every time we have to come up with 60 votes, we have to burn 30 hours off the clock. So we waste a day and a few hours. And every time we need 60 votes to move something forward, we need at least nine Republican Senators joining the 51 Democrats. That is the math of the Senate today, 51 to 49.

On many occasions, when 79 Republican filibusters were initiated, the matter before the Senate came to a halt. We could not come up with 60 votes. The filibuster prevailed. We had to move on to another item of business.

You say to yourself: How do you ever get anything done? If any Senator can stand up and stop the Senate, and 79 times in the last year and a few months this has happened, how do you ever get anything done? The answer is, there are some Senators who do not want anything to get done. They are determined that the Senate not take up controversial issues, that the Senate not pass legislation, and they are the dominant voice in the minority today.

The most recent issue that brought this before the Senate is one that affects 40 million Americans directly. I am talking about senior citizens under Medicare and another 8 or 9 million Americans under TRICARE, which is the health insurance plan for those members of the military and their families and some veterans. Here is the issue.

On July 1, there went into effect a provision that reduced the reimbursement for doctors who treated Medicare patients by 10.6 percent. We knew this was coming. We have tried to address it. Many doctors have said: This would be a disaster. If you reduce our reimbursement for Medicare, many of us cannot afford to take Medicare patients. We will reduce our caseloads, which means senior citizens will not have the choice and doctors they want.

Some of the doctors they trusted will say: I am sorry, we have to reduce the number of Medicare patients because we are not getting paid adequately by the Federal Government.

We had a provision before the Senate, and we said let's stop the 10-percent reimbursement cut from going into effect. That is what it said. The House considered that same provision, and the House passed it by a margin of 6 to 1. A majority of the Republicans joined the overwhelming number of Democrats and said: We don't want the pay cut for physicians treating Medicare patients to go into effect. It passed 6 to 1.

Then it came over here, and we thought it was fairly routine. Guess what. Filibuster No. 79. The Republicans stood up and said: We don't want you to consider this issue. You will need 60 votes to move forward on this Medicare issue. So we called it for a vote before the Fourth of July recess, and we lost. How many votes did we put on the board? We needed 60. We put 59 on the board. Of course, Senator KENNEDY is recovering. He was not here. But all the other Democrats—including Senator CLINTON who was back from the Presidential campaign, and Senator OBAMA came back—voted in favor of suspending this cut in Medicare reimbursement for physicians. But only nine of the Republicans crossed the aisle. We needed the 10th Republican, and we could not get it. We could not get 60 votes. As a result, we went home.

We are back because the issue is back because across America we are hearing from doctors, we are hearing from seniors, the American Medical Association, the American Association of Retired Persons, and scores of other health and senior groups that are saying to us: This is irresponsible. The Senate has a responsibility to stop this cut from going into effect and jeopardizing the medical care for 40 million seniors and 8 or 9 million members of military families.

So when the vote comes up tomorrow to strengthen Medicare, we need one more Republican vote. We need one more Republican Senator to join us. We are hoping that out of those who voted against this provision the last time, some have gone home and heard from seniors, heard from the doctors, and believe Medicare is important.

What I have just described to you is the centerpiece of this debate. But there is another part to it which I have to mention. The way we pay for this reimbursement to Medicare physicians is

to slightly—slightly—reduce the compensation given to private health insurance companies which are offering Medicare coverage. They are called Medicare Advantage companies. These companies were given this right to compete with Medicare a number of years back. Some of them have never been fans of Medicare. Some of them believe the private insurance companies can do a better job than the Government's Medicare Program, so they said: Let these private health insurance companies compete. Let them offer Medicare coverage.

They started offering it, and guess what happened. They started charging dramatically more for the same service that the Government Medicare Program was already providing. How much more? It was 13 to 17 percent more in cost.

Secondly, we found out they were not providing the basic health care they said they were going to provide to the Medicare people. And, third, they were using marketing practices that were unacceptable.

We reduced slightly the reimbursement to these companies so we can pay doctors under Medicare, and many of the Republicans objected saying they were more devoted to standing by these private health insurance companies than providing reimbursement for Medicare physicians.

The ACTING PRESIDENT pro tempore. The Senator's time has expired.

Mr. DURBIN. Mr. President, I ask for an additional 30 seconds.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DURBIN. That is the vote tomorrow. On the vote tomorrow, we need one more Republican Senator to join in this effort. We hope Senator MCCAIN will be back. I don't know Senator MCCAIN's position on this issue. I hope he is for Medicare. I hope he is against this physician Medicare cut. It is time for Senator MCCAIN to make his position clear and return to the Senate for this critically important vote, this historic vote. We want to make sure tomorrow that Medicare's future is bright. We have confidence that the doctors will be reimbursed and that seniors across America can receive their Medicare services without fear of having them cut off. We need JOHN MCCAIN on the Senate floor tomorrow. We need to make sure we have enough Republican votes tomorrow to make this bipartisan measure the same success in the Senate as it was in the House.

Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Maryland.

Mr. CARDIN. Mr. President, I understand there is no Republican who will claim the time remaining in morning business. I ask unanimous consent that I may have the time until 11:30 a.m.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

FOREIGN INTELLIGENCE SURVEILLANCE AMENDMENTS ACT OF 2008

Mr. CARDIN. Mr. President, I rise today in opposition to final page of this legislation, H.R. 6304, the Foreign Intelligence Surveillance Act of 1978, FISA, Amendments Act of 2008, if it is not amended to change the retroactive immunity provisions.

The President must have the necessary authority to track terrorists, intercept their communications, and disrupt their plots. Our Nation still faces individuals and groups that are determined to do harm to Americans, as well as our interests throughout the world.

I have spent many hours at the National Security Agency, which is located in Fort Meade, MD. The men and women of our intelligence agencies are dedicated public servants who are doing a great job on behalf of their country. They are trying to do their jobs correctly, and comply with all applicable laws and regulations.

As a member of the Judiciary Committee, I have received classified briefings about the advice and requests that were given to the telecommunications companies by the U.S. Government. I have seen the opinions of counsel on this issue. I have attended numerous hearings on this issue.

Congress must indeed make needed changes to FISA to account for changes in technology and rulings from the FISA Court involving purely international communications that pass through telecommunications routes in the United States. While we have a solemn obligation to protect the American people, we must simultaneously uphold the Constitution and protect our civil liberties.

After learning about executive branch abuses in the 1960s and 1970s, Congress passed very specific laws which authorize electronic surveillance. Congress has regularly updated these measures over the years to provide the executive branch the tools it needs to investigate terrorists, while preserving essential oversight mechanisms for the courts and the Congress. FISA requires the Government to seek an order or warrant from the FISA Court before conducting electronic surveillance that may involve U.S. persons. The act also provides for postsurveillance notice to the FISA Court by the Attorney General in an emergency.

I am very concerned that the FISA law was disregarded by the administration, and want to ensure that we put an end to this type of abuse. We are a nation of laws and no one is above the law, including the President and Attorney General. The President deliberately bypassed the FISA Court for years with his warrantless wiretapping program—long after any emergency period directly following the 9/11 terrorist attacks—and did not ask Congress to change the FISA statute. In fact, President Bush refused to fully brief Congress on the Terrorist Surveillance Program, TSP, the existence of which was only exposed through a New York Times story. After the story broke, the administration reluctantly agreed to place this program under the supervision of the FISA Court.

I do believe that many of the telecommunications companies cooperated with the Government in good faith, and may be entitled to relief. But the FISA statute of 1978 already lays out procedures for the Government to seek a court order and present this order to the telecommunications companies and require their assistance. The 1978 FISA statute also provides certain immunities to telecommunications companies that provide this type of assistance to the Government.

The President chose to ignore the FISA statute. If the President did not want to use the FISA statute or wanted to change it, he had the responsibility to come to Congress and ask for that change. He cannot change the law by fiat, or by issuing a Presidential signing statement. Congress must change the law, and the courts must interpret the law. Congress and the courts have the power, and often the responsibility, to disagree with the President, and these co-equal branches have the constitutional checks to override his veto, disapprove of a request for a warrant, or strike down an action as unconstitutional.

I will vote against retroactive immunity for the telecommunications companies. The current bill only authorizes the district court to review whether the companies received written requests from the U.S. Government stating that the activity was authorized by the President and determined to be lawful by the executive branch. The Court would have to simply accept the executive branch's conclusion that the warrantless wiretapping outside of the FISA statute and without FISA Court approval was legal, which means the executive branch—not the judiciary—gets to decide whether the law was broken. I want the courts to be able to look at what the executive branch is doing. I want the court to protect individual rights. Granting this type of immunity would violate the basic separation of powers. It would also create a dangerous precedent for future administrations and private actors to violate the law, and then seek relief in Congress or from the President through an after-the-fact amnesty or pardon.

There was a way to provide the telecommunications companies with appropriate relief. Senator FEINSTEIN's amendment would have allowed the courts to grant relief to the telecommunications companies if they acted reasonably under the reasonable assumption that the Government's requests were lawful. This amendment would have preserved the independent judgment of the judiciary, and preserved the necessary check and balance in our system of government. Unfortunately, the negotiators for this legislation rejected this compromise.

I also want to note the improvements made to title I of this legislation, compared to current law and the Senate-passed Intelligence Committee version. I thank the Members of the House and Senate who worked hard on improvements to this legislation, particularly House majority leader STENY HOYER.

Title I is not perfect, but it is does bring the President's program under the FISA statute and FISA Court, and provides for oversight by Congress and the courts.

Title I contains a sunset of December 2012 for this legislation. I feel strongly that the next administration should be required to come back and justify these new authorities to Congress. As a member of the Judiciary Committee, I believe the only meaningful cooperation we received from the executive branch on this issue occurred when they were facing a sunset and a potential lapsing of their authorities and powers under the statute. Congress will then have time to evaluate how the new law has been implemented, and debate whether further changes are needed.

This legislation also requires the inspector general to review compliance with: (1) Targeting and minimization procedures; (2) reverse targeting guidelines; (3) guidelines for dissemination of U.S. person identities; and (4) guidelines for acquisition of targets who turned out to be in the United States. The inspector general review will be provided to the Attorney General, Director of National Intelligence, and the Judiciary and Intelligence Committees of the Senate and House. The public would also be given an unclassified version of these reviews, reports, and recommendations. These reviews will help Congress evaluate the new authorities under the FISA statute, and how the executive branch and the FISA Court are using these new authorities, before the legislation sunsets. Congress can then decide how best to reauthorize this program.

The bill strengthens the exclusivity language of FISA and the criminal wiretap laws. Congress is making very clear that these statutes are the exclusive means by which electronic surveillance can be legally conducted by the U.S. Government. The bill also removes a troubling attempt to unduly broaden the definition of ''electronic surveillance.''

Supreme Court Justice Anthony Kennedy, in his opinion in the recent Boumediene case on the Guantanamo detainees, stated: ''The laws and Constitution are designed to survive, and remain in force, in extraordinary times. Liberty and security can be reconciled; and in our system they are reconciled within the framework of the law.''

I believe title I should have been strengthened by more effective court review. However, absent the retroactive immunity provisions in title II, I would support the compromise legislation, because it is important for the intelligence community to have the tools it needs. However, I regret that if the retroactive immunity provision remains unchanged in the final legislation, I will vote against the legislation, because of the fundamental problem with that provision.

In conclusion Mr. President, shortly we will be considering the amendments to the Foreign Intelligence Surveillance Act, the FISA act. I must tell you, I think it is important that our intelligence community have the tools they need to obtain information from foreign sources. That is what this legislation is about. We need to modernize the FISA law. Communication methods have changed, and we need to give the tools to the intelligence community to meet their modern needs of communication.

I serve on the Judiciary Committee. I was privy to many hearings we had, some of which were classified, to find out the information as to what we could do. We brought forward legislation that I think was the right legislation that would have given the necessary tools to the intelligence agencies to get information from foreign sources without being burdened by unnecessary court approval and protect the civil liberties of the people of this Nation. Unfortunately, that compromise was rejected.

We are in this situation today where we have had major disagreements on how to amend the FISA statutes because of the action of the Bush administration. It is absolutely clear to me that the President went beyond the legal or constitutional authority that he has in doing wiretaps without court approval. I want to make it clear, the men and women who work at our intelligence agencies, many of whom are in Maryland at NSA, are doing a great job. They are trying to do everything that is correct to protect our Nation and do it in the correct manner. It was the Bush administration that went beyond the law. It was the Bush administration that went beyond the Constitution.

It is important for us to balance the needs of our community to get information to protect us but also protect the civil liberties with the proper checks and balances in our system.

That brings me to H.R. 6304, the legislation that will shortly be before us.

Title I is a much better bill than the bill that left the Senate earlier this year. I think this bill has been worked on in a very constructive environment. I compliment not only Senator ROCKEFELLER, who is on the Senate floor, for his hard work on this legislation, I also compliment my colleague from Maryland, Congressman HOYER, the majority leader of the House of Representatives, for the work he did in bringing us together on a bill that I think is a better bill than the bill that left the Senate.

This bill provides for a sunset in 2012. That is important because I find we do not get the attention from the administration on this issue unless they are faced with a deadline from Congress. This will force the next administration to take a look at this legislation and come back to the Congress with modifications or justifications for the continuation of the legislation. I think that is an important improvement.

The legislation provides for the inspector general to review the targeting and minimization provisions. The targeting is when a U.S. citizen, perhaps indirectly, is targeted. And the minimization procedures deal with when the intelligence community gets information about an American without court approval, to minimize the use of that information or to seek court approval. Both of those provisions will be reviewed by the inspector general and reports issued back to the Congress with unclassified versions available for public inspection.

The FISA Court is strengthened through the compromise that has been reached. Let me make it clear, I would have liked to have seen the Judiciary Committee's bill passed and enacted into law. I think we can still improve title I. But I believe in the legislative process, and I think there has been a fair compromise reached on title I.

If title I were before us as an individual action, I would support the compromise because I think it is time to move forward. But there is title II, and title II is the retroactive immunity. It gives retroactive immunity to our telecommunications companies, our telephone companies. They are entitled to some relief. They acted under the urgency of the attacks on our country on September 11 and with the request of the President of the United States. They are entitled for some relief. But this provision goes way too far.

It authorizes the executive branch to determine the legality of their actions. In other words, the agency, the President who asked for the information, will determine whether the telephone companies acted properly. It should be the courts. This takes too much away from the judicial branch. It, in my view, compromises the checks and balances that are so important in our constitutional system.

We didn't have to be here. I thought Senator FEINSTEIN offered a fair compromise, and I am surprised it was not taken by the negotiators. Senator FEINSTEIN said: Why don't we let the FISA Court make a decision as to whether the telephone companies acted legally? That is a compromise I could have supported. I think it would have been a fair compromise. Unfortunately, that was rejected. Title II is a fundamental flaw in the separation of powers, in the proper protection of civil liberties of the people of this Nation, and a dangerous precedent for future action by this Congress.

I will vote to remove or modify title II by the amendments that will be presented later today. I prefer to modify it. As I suggested, I think we have compromises that can work, but I will vote

to remove it if there are no other options presented. If we do not modify title II, reluctantly I will not be able to support the compromise legislation that has been presented.

I urge my colleagues to try to get this done right. This is an important bill. Unfortunately, it is fatally flawed with the legislation that is before us.

I yield the floor.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Without objection, morning business is closed.

FISA AMENDMENTS ACT OF 2008

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of H.R. 6304, which the clerk will report.

The legislative clerk read as follows:

A bill (H.R. 6304) to amend the Foreign Intelligence Surveillance Act of 1978 to establish a procedure for authorizing certain acquisitions of foreign intelligence, and for other purposes.

The ACTING PRESIDENT pro tempore. Under the previous order, the motion to proceed is agreed to and the motion to reconsider is made and laid on the table.

The Senator from Wisconsin.

Mr. FEINGOLD. Mr. President, I ask unanimous consent that the time I consume be allocated to the Dodd amendment.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. FEINGOLD. Mr. President, I strongly support Senator DODD's amendment to strike the immunity provision from this bill, and I especially thank the Senator from Connecticut for his leadership on this issue. Both earlier this year, when the Senate first considered FISA legislation, and again this time around, he has demonstrated tremendous resolve on this issue, and I have been proud to work with him.

Some have tried to suggest that the bill before us will leave it up to the courts to decide whether to give retroactive immunity to companies that allegedly participated in the President's illegal wiretapping program. But make no mistake, this bill will result in immunity being granted—it will—because it sets up a rigged process with only one possible outcome. Under the terms of this bill, a Federal district court would evaluate whether there is substantial evidence that a company received . . .

a written request or directive from the Attorney General or the head of an element of the intelligence community indicating that the activity was authorized by the President and determined to be lawful.

We already know, from the report of the Senate Intelligence Committee that was issued last fall, that the companies received exactly such a request or directive. This is already public information. So under the terms of this proposal, the court's decision would actually be predetermined.

As a practical matter, that means that regardless of how much information the court is permitted to review, what standard of review is employed, how open the proceedings are, and what role the plaintiffs are permitted to play, it won't matter. The court will essentially be required to grant immunity under this bill.

Now, our proponents will argue that the plaintiffs in the lawsuits against the companies can participate in briefing to the court, and this is true. But they are not allowed any access to any classified information. Talk about fighting with both hands tied behind your back. The administration has restricted information about this illegal wiretapping program so much that roughly 70 Members of this Chamber don't even have access to the basic facts about what happened. Do you believe that? So let's not pretend that the plaintiffs will be able to participate in any meaningful way in these proceedings in which Congress has made sure their claims will be dismissed.

This result is extremely disappointing. It is entirely unnecessary and unjustified, and it will profoundly undermine the rule of law in this country. I cannot comprehend why Congress would take this action in the waning months of an administration that has consistently shown contempt for the rule of law—perhaps most notably in the illegal warrantless wiretapping program it set up in secret.

We hear people argue that the telecom companies should not be penalized for allegedly taking part in this illegal program. What you don't hear, though, is that current law already provides immunity from lawsuits for companies that cooperate with the Government's request for assistance, as long as they receive either a court order or a certification from the Attorney General that no court order is needed and the request meets all statutory requirements. But if requests are not properly documented, the Foreign Intelligence Surveillance Act instructs the telephone company to refuse the Government's request, and it subjects them to liability if they instead decide to cooperate.

When Congress passed FISA three decades ago, in the wake of the extensive, well-documented wiretapping abuses of the 1960s and 1970s, it decided that in the future, telephone companies should not simply assume that any Government request for assistance to conduct electronic surveillance was appropriate. It was clear some checks needed to be in place to prevent future abuses of this incredibly intrusive power; that is, the power to listen in on people's personal conversations.

At the same time, however, Congress did not want to saddle telephone companies with the responsibility of determining whether the Government's request for assistance was legitimate. So Congress devised a good system. It devised a system that would take the guesswork out of it completely. Under that system, which is still in place today, the company's legal obligations and liability depend entirely on whether the Government has presented the company with a court order or a certification stating that certain basic requirements have been met. If the proper documentation is submitted, the company must cooperate with the request and it is, in fact, immune from liability. If the proper documentation, however, has not been submitted, the company must refuse the Government's request or be subject to possible liability in the courts.

This framework, which has been in place for 30 years, protects companies that comply with legitimate Government requests while also protecting the privacy of Americans' communications from illegitimate snooping. Granting companies that allegedly cooperated with an illegal program this new form of retroactive immunity in this bill undermines the law that has been on the books for decades—a law that was designed to prevent exactly the type of abuse that allegedly occurred here.

Even worse, granting retroactive immunity under these circumstances will undermine any new laws we pass regarding Government surveillance. If we want companies to obey the law in the future, doesn't it send a terrible message, doesn't it set a terrible precedent, to give them a ''get out of jail free'' card for allegedly ignoring the law in the past?

Last week, a key court decision on FISA undercut one of the most popular arguments in support of immunity; that is, that we need to let the companies off the hook because the State secrets privilege prevents them from defending themselves in court. A Federal Court has now held that the State secrets privilege does not apply to claims brought under FISA. Rather, more specific evidentiary rules in FISA govern in situations such as that. Shouldn't we at least let these cases proceed to see how they play out, rather than trying to solve a problem that may not even exist?

That is not all. This immunity provision doesn't just allow telephone companies off the hook; it will also make it that much harder to get at the core issue I have been raising since December 2005, which is that the President broke the law and should be held accountable. When these lawsuits are dismissed, we will be that much further away from an independent judicial review of this illegal program.

On top of all this, we are considering granting immunity when roughly 70 Members of the Senate still have not been briefed on the President's wiretapping program. The vast majority of this body still does not even know what we are being asked to grant immunity for. Frankly, I have a hard

time understanding how any Senator can vote against this amendment without this information.

I urge my colleagues to support the amendment to strike the immunity provision from the bill.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Pennsylvania.

Mr. SPECTER. Mr. President, would the distinguished Senator from Wisconsin yield for a question?

Mr. FEINGOLD. I will.

Mr. SPECTER. As the Senator from Wisconsin doubtless knows, there was a very extensive analysis of these issues by Chief Judge Walker of the San Francisco District Court handed down last Wednesday, and I think it was no coincidence that the decision preceded just a few days—after everybody knew, including Chief Judge Walker—of the Senate taking up this question.

In that opinion, Chief Judge Walker finds the Terrorist Surveillance Program unconstitutional. He says, flatly, that the language of the Foreign Intelligence Surveillance Act of 1978 means what it says on the exclusive remedy for warrants, and that the President exceeded his article II powers as Commander in Chief.

As we all know, the Detroit District Court came to the same conclusion, was reversed by the Sixth Circuit in a 2-to-1 opinion on standing, and then the Supreme Court of the United States handily ducked the question by the noncert. That is the principal constitutional confrontation of our era, on article I powers by Congress and article II powers of the President as Commander in Chief. They denied cert. And on the standing issue, as disclosed by the Senate opinion in the Sixth Circuit, the Supreme Court could easily have taken the case to resolve this big issue.

But now Judge Walker has decided, and it is very significant, because Judge Walker has these more than 40 cases pending on the effort to grant retroactive immunity. The case he decided it on is the Oregon case where State secrets are involved, with the inadvertent disclosure by the Federal agents.

It is hard for me to see how you have a State secret which is no longer secret. And you have a document, just electronic surveillance, which was disclosed, so it is no longer a secret. That remains to be decided under the opinion of Chief Judge Walker, but he says there is a ''rich lode'' of material on the standing issue.

These questions involve extraordinarily complex matters. The Senator from Wisconsin knows that. He has been deeply involved in it. And the distinguished chairman knows that, because he has been deeply involved in these matters. My question to the Senator from Wisconsin is twofold:

One, what do you see as the immediate ramifications of Chief Judge Walker's opinion handed down a few days before we are to decide it?

And a related question: What do you think of the likelihood that Members of the Senate have had or could have an adequate opportunity to review that 59-page opinion with all of its detailed ramifications?

Mr. FEINGOLD. Mr. President, I thank the Senator for asking the question. Yes, I referred to this decision in my brief comments about this amendment. I think it is obviously a significant decision. As I indicated, it deals with the State secrets issue. It says that FISA is in fact the exclusive means and that the evidentiary rules regarding FISA should control, rather than State secrets. That is an important finding. But even more important is what the Senator from Pennsylvania is alluding to, which is the broader issue that the judge didn't decide, but clearly he indicated where he would head on the question of whether the President's TSP program was illegal—and I have long believed that it was illegal. In fact, the Senator and I were the first Members to comment on the revelation of this program in December of 2005 on the floor of the Senate.

I have examined it closely myself, as a member of the Intelligence Committee and the Judiciary Committee, and I feel even more strongly today than I did then that this program was illegal and there needs to be accountability for that illegality. That accountability can come in part from litigation of the kind that involved this district court decision, and it can come from other cases that are pending. But my concern, of course, is that if we jam this bill through, it may have an impact on the ability to pursue that underlying legal issue because of the effective granting of immunity to telephone companies. So this decision has significance, but I can't tell you that I know all the ramifications.

Obviously, Members of the Senate, to answer your question, should review the opinion and have a chance to find out more about the opinion. But there are 70 Members of the Senate who haven't even had the benefit of what you and I have had, which is the briefing on the actual TSP and what happened from 2001 to 2007 with regard to wiretapping.

I thank the Senator for making this important point about Senators being ready to grant this immunity without reviewing the litigation.

Mr. SPECTER. Mr. President, if the Senator from Wisconsin will yield for just one more question? And that is, in the context, is the Senator—I asked him to yield for one more question, and I will use a microphone so perhaps he can hear me, perhaps some people on C–SPAN2 will hear me, perhaps some Senators will hear me, because we need to be heard on this subject because of its complexity.

The question relates to what the Senator from Wisconsin has said. He puts it at some 70 Members of the Senate have not been briefed on the program. I have heard from House leadership that most of the Members of the House have not been briefed on the program. There has been no official determination. The language is picked up from the allegations of the complaint as to what is alleged.

The question is, How can the Congress intelligently decide—maybe that is too high a standard. But how can the Congress, especially the world's greatest deliberative body, the U.S. Senate—how can the decision be made on electronic surveillance, granting retroactive immunity, when we don't know what we are granting retroactive immunity to?

The second part is, How can we fly in the face of the decision by the judge who is ruling on these cases—we are sending them all to him—when he, speaking for the court: The law of the case is that the terrorist surveillance program is unconstitutional, that it exceeds the authority.

The Foreign Intelligence Surveillance Act also covers the pen register and related items, so—not specifying what is involved here—whatever is involved, sending it to the judge who has already said it is unconstitutional. How can we deal in an intelligent manner given those two critical factors?

Mr. FEINGOLD. Mr. President, I again thank the Senator from Pennsylvania for his comments and question. Really, the only appropriate answer is to say ''amen'' to everything he just said. Think about this: To vote on anything when 70 Members of the Senate haven't been briefed on it seems unbelievable, and then you add to it that it has to do with the most critical issue of our time: How can we best protect our country from those who attacked us while also observing the rule of law? That would be bad enough. But then you add to it, as the Senator from Pennsylvania has indicated, that this goes to the very core issue of the structure of the Constitution. Is it really true, as the administration puts forward in defense of the TSP program, that article II of the Constitution somehow allows the executive and Commander in Chief power to override an absolutely clear, exclusive authority adopted by Congress pursuant to Justice Jackson's third tier of the test set out in his Youngstown opinion?

All of these levels are implicated by this. The Senator could not be more correct. This is an amazingly inappropriate use of legislative interference, pushed by this administration, and Senators should take a very hard look at whether they want to be associated with such an attack on the rule of law in this country.

I yield the floor.

The ACTING PRESIDENT pro tempore. Who yields time? The Senator from West Virginia.

Mr. ROCKEFELLER. Mr. President, I am opposing the amendment. So I would be taking time from Senator BOND. I ask for approximately 20 minutes.

The ACTING PRESIDENT pro tempore. Duly noted.

Mr. ROCKEFELLER. Mr. President, my colleagues have submitted two amendments seeking to accomplish somewhat the same goal before, and in a sense now down to one. Senators DODD and FEINGOLD have an amendment to strike title II of the FISA bill. It is very plain and simple, and they are very clear about that. The amendments have the same effect—eliminating the title that provides a mechanism for a U.S. district court to decide whether pending suits against telecommunications companies should be dismissed.

Two other amendments with respect to title II, to be offered by Senator SPECTER and Senator BINGAMAN, will follow. While I address those amendments in separate statements, I would like to say now with respect to the amendments that I oppose each of them and I urge that the Senate pass H.R. 6304 without amendment so that the delicate compromise which serves as best it can to protect both national security and privacy and civil liberties can, in fact, become law.

Six and a half years ago, instead of consulting with Congress about changes that might be needed to FISA, the President made the very misguided decision to create a secret surveillance program that circumvented the judicial review process and authorization required by FISA and was kept from the full congressional oversight committees. That is calling it running around the end altogether. We are right to be angry about the President's actions, but our responsibility today is to look forward. That is what this bill is about, to make sure we have adequately dealt with the numerous issues that have arisen from the President's very poor decision, bad decision.

The bill in front of us today accomplishes three important goals with respect to the President's warrantless program.

First, the bill establishes a sure and realistic method of learning the truth about the President's program—I repeat, learning the truth about the President's program. It requires the relevant inspectors general—that is a term of art. What I mean by that is the inspectors general of the CIA, DOD, NSA, et cetera, people who oversee and know what is in this program altogether—to submit an unclassified report about the program to the Congress. This report will ensure that both Congress and, by the way, therefore, obviously, the public will have as complete a picture of the President's warrantless surveillance program as possible or as messy as it may be for them to ingest.

Second, the bill tightens the exclusivity of the FISA law, making it improbable for any future President to argue that acting outside of FISA is lawful. That is huge. That means the President can never again, ever use what he has used—his all-purpose powers—and say he can just walk right around the end of FISA. He has to have a statutory authority, it has to come from us, and he cannot bypass FISA as he did altogether.

Third, the bill addresses the problems the President's decision has caused for the telecommunications companies that were told their cooperation was both legal and necessary to prevent another terrorist attack. They were not told a lot, but they were certainly told that. The bill does not provide those companies with a free pass. It requires meaningful district court review of whether statutory standards for protection from liability have been met for the companies having relied on the Government's written representations of legality.

You remember there was a period when we were using the FISA Court to make these kinds of judgments, and we bent to the better wisdom of the House with respect to the district court, which is a more public court. So they have that responsibility.

All of these pieces fit together, and not just because they are part of a larger compromise on this bill. Private companies that cooperated with the Government in good faith, as the facts before the congressional intelligence committees demonstrate they did, should not be held accountable for the President's bad policy decisions. But if the court ultimately dismisses the litigation against those companies, it is important that there be a mechanism for public disclosure about the President's program, and it is precisely, therefore, in this bill that the inspectors general report, which has to be provided to us within a year, provide that public accountability.

Likewise, we can only put past actions behind us if we can be reassured that this will not happen again, and therefore the strength in the exclusivity language in the FISA bill addresses that concern. That it does.

Together, the three components of the bill provide accountability for the mistakes of the past as well as a way to move forward.

Although title II in the bill before us today differs in important ways from the title II we passed out of the Senate this past February, the two bills address the same underlying problems faced by the telecommunications companies.

Because the majority of the information in the cases is classified, there has been no substantial progress in the cases against the telecommunications companies—several of them have been going on for years. Classified information, they can't have it; state secrets, can't have it. The Government has not even allowed the telecommunications companies in the many pending lawsuits to disclose publicly whether they assisted the Government. These companies, therefore, have not been permitted to invoke the defense to which they are entitled. But sued they are. The companies cannot reveal, for example, whether they did not participate in the program. That would be a false accusation against some company, but they cannot say that they didn't participate or that they only participated pursuant to a court order—they can't talk about that—or participated in reliance on written Government representation of legality—cannot talk about that. The bill before us today allows these defenses to be presented to the district court, the public court—not the FISA Court, which is kind of a secret court, but to the district court, which is not a secret court. It is a public court.

The Attorney General is authorized to certify to the court that particular statutory requirements have been met without requiring public acknowledgment of whether particular providers assisted the Government.

The bill then requires the district court to determine whether the Attorney General's certification is supported by ''substantial evidence.'' That is a higher, tougher standard than the ''abuse of discretion'' test we had in the Senate bill. In making this assessment, the district court is specifically authorized to review the underlying documents on which the Attorney General's certification is based. The court can, therefore, ''review any court orders, statutory directives or certifications authorizing providers' cooperation.''

Importantly, the court may also review the highly classified documents provided to the companies indicating that the President had authorized the program and that it had been determined to be lawful. Explicitly allowing the court to base its decision on whether companies are entitled to liability protection on relevant underlying documents is an important improvement to the bill, and I am happy it is in it.

Because such documents would be classified, any review of those documents in the litigation prior to this bill would have been limited to a court assessment of whether the documents were privileged. The court could not have relied on what the Government's communications to the providers actually said in making its assessment about whether the cases should be dismissed. The court could not have relied on what those Government communications said—it is different.

This bill before the Senate, therefore, gives the district court both an important role in determining whether statutory requirements for liability protection have been met and the tools to make that assessment.

The FISA bill also provides a more explicit role for the parties to the litigation—this is new and better—to ensure that they will have their day in court open—sort of, and so to speak—but they will have their day in court.

But they will have their day in court. They are provided the opportunity to brief the legal and constitutional issues before the court and may submit documents to the court for review. Whatever it is they want to submit, they can submit.

A few of my colleagues have argued that including any sort of mechanism that would allow the district court to resolve these cases will prevent the public from hearing the details about the President's program. But even if the litigation were to continue indefinitely, it would never tell the full story.

Lawsuits have now been pending for, as I indicated, over 2 years. The fight during all that time, and the likely fight in the future, has been about whether the plaintiffs will have access to any classified information about the program. The plaintiffs in the litigation, they have never been and will never be provided with wide-ranging information about the President's classified program that would enable them to put together a comprehensive picture of what happened.

This capability is reserved for those who have complete access to information about the program. And that again is why I come back to the importance of the inspectors general aspect of this oversight. You can say: inspectors general, them and their reports. Well, inspectors general can take apart their agencies, and they are sort of in there to do that.

That is why we have asked the inspectors general of these relevant intelligence agencies, including the DOD, who do, in fact, have complete access to information about the program, to conduct a comprehensive review of that same program, the whole thing.

The FISA bill requires a report of the review be submitted to the Congress in a year and requires that the report, apart from any classified annex, be submitted in an unclassified form that can be made available to the public.

That is not a dodge, that is simply a fact. You cannot release classified information to the public. So this is an appropriate way to obtain answers to questions about the President's program and ensure the public's accountability.

Critics have also claimed that granting immunity will suggest to the telecommunications companies that that compliance with the law is optional or that Congress believes that the President's program was legal. An examination of the bill that is before us in the Senate would make it impossible for anyone to come to either conclusion.

The administration made very strained arguments to circumvent existing laws in carrying out the President's warrantless surveillance program: a claim, for example, that the 2001 authorization for use of military force was a statutory authorization for electronic surveillance outside FISA, even though that authorization did not mention electronic surveillance.

What role did we expect telecommunications companies to play in those assessments of legality? To answer that question, we must consider the legal regime under which these companies were operating. Numerous statutes over the years have stressed the importance of cooperation between the telephone companies and the Federal Government, particularly in times of emergency. This has a fairly long history.

FISA itself allows the Attorney General to authorize electronic surveillance for short periods of time in emergencies prior to the submission of an application for an order. The law, as it existed in 2001 and as it exists today, grants immunity to telecommunications companies, based solely on a certification from the Attorney General that no warrant or court order is required by law, that the statutory requirements have been met, and that the specified assistance is required.

Given the need for speedy cooperation in times of emergency, Congress has never asked companies to question the Government's legal analysis that their cooperation is legal and necessary. Thus, although the telecommunications companies have always been and will always be expected to comply with the law, Congress has told them, prior to 2001, that they were entitled to rely on representations from the highest levels of Government as to what conduct was legal.

That is the way it worked. In the case of the President's surveillance program, representations of legality were made to providers from the very highest levels of Government. The FISA bill before the Senate, therefore, eliminates any possible loopholes in existing law, ensuring that neither the telecommunications companies nor any future Presidents have any doubt about what is required to comply with the law.

It strengthens the exclusivity language of FISA—I have mentioned that, I do again—making it absolutely clear that the Congress does not intend general statutes to be an exception to FISA's exclusivity requirements. In other words, no future President can therefore claim that an authorization for use of military force allows the Government to circumvent FISA.

Even more importantly for the telecommunications companies, the bill before us makes it a criminal offense to conduct electronic surveillance outside of specifically listed statutes. Unlike existing criminal and civil penalties which exempt electronic surveillance that is authorized by statute, the bill puts telecommunications companies on notice that any electronic surveillance outside FISA or specifically listed criminal intercept provisions, in the future, is a criminal offense that is subject to civil penalties for claims brought by individuals who are free to do so.

This clear language provides no room for any future President or Attorney General to argue that criminal and civil penalties should not attach for any circumvention of FISA.

Now, the improvements to this bill address many of the concerns raised with the possibility that the court might dismiss the lawsuits against the telecommunications companies. The bill before us makes clear that Congress expects compliance with the laws, and it assures that public accountability is on the Government, where it belongs, and not on the companies that acted in good faith in cooperating with the Government.

It is important to say that whatever the inspectors general come up with in their analysis of this, and believe me, they will be under the gun to do it right, that they have to report that, both unclassified and classified, to the Intelligence Committees and the Judiciary Committees in both Houses. So the oversight factor again comes in.

I think it is time to pass this bill and move forward. I urge my colleagues to oppose the Dodd-Feingold amendment.

Mr. SPECTER. Mr. President, would the Senator yield for a question; two questions, very briefly?

Mr. ROCKEFELLER. Of course.

Mr. SPECTER. The first question relates to the fact, as represented, that some 70 Members of the Senate will not have been briefed on the program.

I have been advised by the leadership in the House that most of the Members of the House have not been briefed on the program. The chairman, in detail, went over what the telephone companies cannot do because they cannot make any public disclosures.

And my question is: How can we intelligently grant retroactive immunity on a program that most Members of Congress do not know what we are granting retroactive immunity on?

Mr. ROCKEFELLER. First of all, I should point out to the distinguished Senator from Pennsylvania that there was a period when members of the Intelligence Committee, members of the Judiciary Committee, were not even able to go to the Executive Office Building to look at any of the orders that came down, President to Attorney General to National Security Advisor, then a letter to the companies. We were not allowed to do that.

The chairman and the vice chairman were allowed to do that. Nobody else was. That changed. And it changed because this Senator and a number of others put tremendous pressure, because it was such a ridiculous situation that I could not even talk to my committee members about it. And so they expanded that to include not only committee members but also some staff from both the Intelligence and Judiciary Committees.

So I would say to the good Senator that intelligence is difficult, and it is difficult to legislate it on the floor of the Senate. Let me phrase it this way. There is a common view held by many that members of the Intelligence Committee and then, to some extent, the Judiciary Committee, in fact, have the intelligence, they control the intelligence, it is all theirs.

I wish to debunk that right now. We control no intelligence. It is entirely controlled, meted out or not, by the executive branch. This executive branch

has been extremely cautious, stingy, I would say undemocratic, in doing this.

The good Senator from Missouri who is coming in now, the vice chairman of the Intelligence Committee and I have fought like bears to expand the number of people who can have access to these programs. But I cannot argue that the Senator—his point is worthy of thought.

I think then one has to consider, are the people on the Judiciary Committee and the people on the Intelligence Committee representative of good faith, people of reasonable intellect, people who know their business, and people who exercise fair judgment? I have been handed a note to say something I have already said, that the public reporting accompanying the Senate Intelligence Committee bill, detailed, with a great deal of specificity, what the companies received from the Federal Government.

That still does not allow me to argue the Senator's point. It is a peculiar and difficult nature of legislating intelligence legislation on the floor of the Senate. But it is not weakened by so doing because of what I have indicated, because of what the inspectors general, granted, not in time for this, will come up with, and, secondly, what I would call the very high standard of people who serve on both the Republican and the Democratic side of the Senate and House Judiciary Committee and Intelligence Committee.

Mr. SPECTER. Mr. President, my second question is, very briefly——

Mr. BOND. Mr. President, I would like to reclaim my time.

The ACTING PRESIDENT pro tempore. There are 34 minutes remaining in opposition. The Senator from West Virginia has the floor.

Mr. SPECTER. Mr. President, very briefly on the second question, and I will be very brief—the chairman has gone over the ineffectiveness of Congress in dealing with the statutory requirement for notice to the Intelligence Committees which wasn't followed. We have gone over the ineffectiveness of the courts in dealing with enforcing the Foreign Intelligence Surveillance Act, where the Supreme Court, as I detailed earlier, had ducked the question. So given the ineffectiveness of Congress—and I know, I chaired the Intelligence Committee in the 104th Congress and could find out hardly anything; I found the Director of the CIA knew so little about what was going on—and then the signing statements, the only recourse we have now is to the courts and to Chief Judge Walker.

So my question to you is, if we are to maintain separation of powers and determination of constitutionality, article I versus article II powers, how in the world can we act to divest Chief Judge Walker of his jurisdiction in the case, especially in light of the opinion he handed down last Wednesday?

Mr. ROCKEFELLER. I respond to the Senator from Pennsylvania by saying he indicated that Judge Walker said this was not a constitutional effort between 2001 and 2007, and it was not constitutional. But when the Senator offers his own amendment this afternoon, I will make the point I make now, that even if it is determined that the program is unconstitutional—and that, for reasons I will explain after lunch when we do the amendment, will not be possible—the immunity fact is not compromised. It is not changed. You are talking about the constitutionality of the White House's action. This bill talks about title I and then title II and a couple of other titles which referred to protecting basic rights, reverse targeting, all kinds of things such as that, which, in fact, came from Senator FEINGOLD, and it is not involved in the constitutionality. It is not involved in that. Even if the judge ruled it unconstitutional, it would make no difference whatsoever on title II.

Mr. SPECTER. I respect Senator BOND's time, and I will pursue this with the chairman when my amendment is called up later today.

I thank my colleagues.

Mrs. BOXER. I have a parliamentary inquiry.

The ACTING PRESIDENT pro tempore. The Senator will state it.

Mrs. BOXER. Senator DODD has yielded me 10 minutes of his time to speak in favor of his amendment to strike the immunity clause. I am wondering how I may get recognition here and how much time does Senator DODD have left in this debate?

The ACTING PRESIDENT pro tempore. There is 43 minutes remaining for the Senator from Connecticut.

Mrs. BOXER. I wonder if Senator BOND would allow me to take 10 minutes of the 43 minutes Senator DODD has remaining?

Mr. BOND. Mr. President, I am happy to accommodate the Senator from California. With respect to the comments by the Senator from Pennsylvania, I had asked that those be reserved for the arguments in favor of the amendment. How much time remains on the chairman and my side of the aisle?

The ACTING PRESIDENT pro tempore. There is 30 minutes.

Mr. BOND. We will reserve that and accommodate the Senator from California. I thank the Chair and my colleagues.

The ACTING PRESIDENT pro tempore. Without objection, the Senator from California is recognized for 10 minutes.

Mrs. BOXER. Mr. President, I rise today to speak in strong support of the amendment offered by Senator DODD to strike the provision from the bill providing immunity to the telecom companies who assisted President Bush with his warrantless surveillance program; in essence, breaking the law they were supposed to live by. I also note that not every telecom company went along with this. There was at least one, Qwest, that refused to go along because they said it would break the law if they did so. I thank Senators DODD, FEINGOLD, LEAHY, and others for their leadership. I know these are difficult debates to have because people could say: My goodness, they are offering an amendment to the intelligence bill and, ipso facto, that must be a bad thing because they are slowing things down.

I have to say, when you are standing up to fight for liberty and justice and the truth, you should never be afraid to slow something down. As a matter of fact, it is our job to do so. I do thank my colleagues for their leadership.

I am proud to be a cosponsor of this amendment. In my support of this amendment to strike the immunity to the telecom companies who went along with the President's secret and, I believe, illegal program, I wish to say I am not seeking punishment for them. As a matter of fact, I have stated a long time ago that I support indemnification for the telecom companies. I believe Senator WHITEHOUSE took the lead on that. Senator SPECTER, at one point, I think, was involved in that and others. I thank them for their leadership on that issue.

I understand the predicament of a company that is facing the White House and the White House is saying: You need to spy on your customers because we are asking you to do it for the safety of the people. I understand their predicament. But I do believe, at this point in time, to give retroactive immunity kind of makes a mockery of the fact that we are supposed to be a government of laws, not people. We are a government of laws. Do we then come back and say: By the way, there are three laws over here we don't like so we are going to say to the people who broke them, it is OK, because we have looked at it and we think it is OK? This is America. We are a country of laws. So this issue is so important. I can't overstate how deeply I feel about it.

We cannot place the interests of the companies and, frankly, of this administration, that doesn't want the truth to come out, ahead of the constitutional rights of our citizens who seek justice in our courts. This administration is so desperate to have this immunity because they have no interest in the American people finding out the truth.

In another subject area, I had a press conference today with a wonderful man who stood up and quit the Environmental Protection Agency because they were thwarting him every step of the way as he tried to tell the truth about the real dangers, as a matter of fact, the endangerment posed by global warming. He sent the White House an e-mail, and it was entitled ''Endangerment Finding.'' The White House called and said: Take it back. We don't want to open it. And he said: It is too late. So that e-mail is floating around in cyberspace because the

White House knows, if they open it, it becomes public domain. So secrecy is what this administration lives by.

This is a blatant example of where they want to keep secret an illegal program. I don't think we should be complicit. I don't think we should enable them to avoid the constitutional scrutiny of our Federal courts. We can't sacrifice—we can't—the truth for convenient expediency. It is not American. We have a system of government that is built not only on our Constitution but on the notion of checks and balances. The Federal courts are doing their job by checking this administration's broad exercise of Executive power. That is why I will be supporting other amendments that will be coming up that deal with this matter.

Last week, Chief Judge Walker, of the Northern District of California, issued an opinion rejecting this administration's claim to have ''inherent authority'' to eavesdrop on Americans outside of statutory law. What does this Senate want to do? A lot of the leaders you hear speaking on this want to make it possible to give retroactively to this administration the inherent authority to eavesdrop on Americans outside the law. In the future, we are fixing it. Good, I am glad. I am happy. But you can't then say, but we are going to look back and change the law. It is not right.

Listen to what Judge Walker wrote:

> Congress appears clearly to have intended to establish the exclusive means for foreign intelligence activities to be conducted. Whatever power the executive might otherwise have had in this regard, FISA limits the power of the executive branch to conduct such activities and it limits the executive branch's authority to assert the State secrets privilege in response to challenges to the legality of its foreign intelligence surveillance activities.

So we, Congress, limited the power of the executive. We said: You can't assert the state secrets privilege in response to challenges to the legality of its foreign intelligence activities. And here we are rolling over with bravado to say to this administration—and by the way, I would feel the same way whoever was the President, this administration or any administration—oh, you are the absolute ruler, the King. You can do whatever you want. You can roll over. You can do all of that.

We need to protect this country from terrorists. We must. I voted to go to war against bin Laden, and I will not rest until he is gone and we break the back of al-Qaida. Unfortunately, that has gone awry. I will be very willing to have our Government listen in on conversations of the bad actors out there, but I don't want good people being spied on. That was the whole reason FISA came into being in the first place. People seem to forget the original FISA was to protect the people from being spied on, ordinary people. Suddenly, it has been turned on its head. I believe the current process works. Our system of government works. The Federal courts are exercising their constitutional duty to review Executive power.

So why in this bill are we seeking to stop that process? Why are we attempting to tie the capable hands of the Federal courts and deny our citizens their day in court? Covering up the truth is not the way to gain or regain the trust of the American people. The truth is the basis of the American ideal.

I always marveled, as a little girl and as a young woman, growing up, watching as the truth came out about America. I remember my dad, who loved this country so much, saying to me: Honey, you just watch this country. We are not afraid to admit a mistake. We are not fearful of giving people rights. We will stand up and tell the truth, even when we make the biggest mistakes.

Covering up the truth is not the way to gain the trust of the American people. Since learning, in late 2005, that the President violated the trust of our people by spying on our citizens, Congress and the American people have struggled to find out what happened. Last week, we celebrated the day we adopted the Declaration of Independence, Independence Day, July 4. In that historic document is the following phrase:

> To secure these rights, governments are instituted among men deriving their just powers from the consent of the governed.

''The consent of the governed,'' that means the law has to be behind you when you undertake to do something such as this administration did. They didn't care about the consent of the governed. They didn't care about the law that was in place. Truth is the centerpiece of justice. I don't see how we ever get to the truth if we grant this immunity. I don't. It is not, to me, about the punishment.

As I said, I will be happy to have substitution, to have the Government step in. That is not the issue. We need to get to the truth, and we all know how that happens in our country. The immunity provision in this bill sweeps the warrantless program under the carpet. It hides the truth. The people deserve better from us.

I will close with a quote by former Supreme Court Justice Sandra Day O'Connor:

> It is during our most challenging and uncertain moments that our nation's commitment to due process is severely tested. It is in those times we must preserve our commitment at home to the principles for which we fight abroad.

I hope we will support the Dodd amendment to strike the immunity provision.

I thank the Chair.

The ACTING PRESIDENT pro tempore. The Senator from Missouri.

Mr. BOND. Mr. President, I understand we are coming up on a hard break, as they say in television, for the party lunches.

The ACTING PRESIDENT pro tempore. That is correct.

Mr. BOND. Mr. President, I note only before we go into that break that the Senator from Pennsylvania has made a number of comments on time for the supporters of the bill that actually deserve a response.

One clear point that needs to be made in response to the Senator from Pennsylvania and the Senator from California is that Judge Walker's actions will not be dismissed if retroactive liability protection is accorded carriers. It is a case against the United States, not a case against the telephone companies.

Furthermore, I would say that the dictum in Judge Walker's opinion is contrary to higher, more authoritative courts. So Judge Walker was not correct, and I believe should his case go up on appeal, he will be found not to be accurate. But that does not go, as my colleague from West Virginia has said, to the issue of whether carriers deserve retroactive liability protection. So I will reserve my comments, and I will ask to be recognized when—when will the Senate return to session?

The ACTING PRESIDENT pro tempore. At 2:15 p.m.

Mr. BOND. Mr. President, I ask unanimous consent that I be recognized for what remains of time on this side.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

RECESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate stands in recess until 2:15 p.m.

Thereupon, the Senate, at 12:31 p.m., recessed until 2:15 p.m. and reassembled when called to order by the Presiding Officer (Mr. CARPER).

FOREIGN INTELLIGENCE SURVEILLANCE AMENDMENTS ACT OF 2008—Continued

The PRESIDING OFFICER. Under the previous order, the Senator from Missouri is recognized for 29 minutes.

Mr. BOND. Thank you, Mr. President. I appreciate the recognition.

To begin, to clarify for the floor and our colleagues the arrangement the chairman and I have on this bill, I ask unanimous consent that Senator ROCKEFELLER manage the time in opposition to the Specter amendment and that I manage the time in opposition to the Dodd and Bingaman amendments.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. BOND. Mr. President, as I mentioned earlier today, the Senate is poised to wrap up consideration of the Foreign Intelligence Surveillance Amendments Act of 2008 in the form of H.R. 6304. Now, most of my colleagues know this legislation has had a way of hanging around for quite awhile, being caught up in the congressional process. Many, including myself, believe we should have passed it well before now, but it appears that we are on about the

5 yard line and ready to move it across into the end zone. As one who believes this badly needed update to FISA will enhance our Nation's security and advance and protect America's civil liberties and privacy rights, I certainly hope a strong majority of the Senate will pass this legislation unamended tomorrow.

Some of my colleagues have been intent on using Senate procedures to slow this legislation to a snail's pace. They have succeeded in doing so, first by choosing to ignore the Director of National Intelligence—and I will call him the DNI from now on—the DNI's pleas for modernization of the Foreign Intelligence Surveillance Act, or FISA, as we will call it, in April 2007, for over 3 months, until August of 2007, and back in December of 2007 when a Democratic Member filibustered us past the end of the year and into the recess, into 2008. It came to the floor in February when it took us several weeks to work out a way to move forward; then, once again, over the past few weeks, with another Democratic Member filibuster of sorts that pushed us past last week's recess. Up until now, we have been delayed, but one thing is sure in the Senate. Just as they say in military and basic training: No matter what you do, you can't stop the clock. Now that some of my colleagues are out of time in delaying any further, the Senate will move ahead this week, despite all of these delays.

I am very proud of the comprehensive compromise legislation before us today which passed out of the House with a strong bipartisan vote of 293 to 129. That was almost 3 weeks ago. As with the Senate's original FISA bill that passed several months ago, the compromise that is before us required a little give from all sides but, in essence, what we have before us today is basically the Senate bill all over again. Everyone who studied the language recognizes that. I have here a detailed legislative history that I will ask unanimous consent to be printed in the RECORD that explains the provisions of the bill. Chairman ROCKEFELLER submitted his own legislative history before the recess, and while we largely agree on the description of the legislation, we do have a few key differences. So as Vice Chairman of the Intelligence Committee, I believe it is important to make my views and those of several other Senators a part of the legislative history of this bill by including it in the RECORD. I therefore ask unanimous consent to have this legislative description printed in the RECORD as part of my remarks.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

H.R. 6304, FISA AMENDMENTS ACT OF 2008

SECTION-BY-SECTION ANALYSIS AND EXPLANATION

This section-by-section analysis is based almost entirely upon the good work of Senator John D. Rockefeller IV, Chairman of the Select Committee on Intelligence. Time did not permit us to reach an agreement on text that may have been mutually agreeable to both of us, so I have modified his section-by-section analysis to reflect my own perspective as a co-manager on this important legislation. A careful comparison of these two versions will reveal that there are fewer areas in which our analyses diverge than in which they agree.

The consideration of legislation to amend the Foreign Intelligence Surveillance Act of 1978 (''FISA'') in the 110th Congress began with the submission by the Director of National Intelligence (''DNI'') on April 12, 2007 of a proposed Foreign Intelligence Surveillance Modernization Act of 2007, as Title IV of the Administration's proposed Intelligence Authorization Act for Fiscal Year 2008. The DNI's proposal was the subject of an open hearing on May 1, 2007 and subsequent closed hearings by the Senate Select Committee on Intelligence, but was not formally introduced. It is available on the Committee's website: http://intelligence.senate.gov/070501/bill.pdf.

In May 2007, a decision by the Foreign Intelligence Surveillance Court (FISA Court) led to the creation of significant gaps in our foreign intelligence collection. As a result of this decision, throughout the summer of 2007, the DNI asked Congress to consider his FISA modernization legislation. In response to the DNI's concerns, Congress passed the Protect America Act of 2007, Pub. L. 110–55 (August 5, 2007) (''Protect America Act''). As a result of the Protect America Act, the Intelligence Community was able to close immediately the intelligence gaps that had been created by the court's decision. While the Protect America Act provided important authorities for the collection of foreign intelligence, it did not contain any retroactive civil liability protections for those electronic communication service providers who had assisted with the President's Terrorist Surveillance Program following the September 11th terrorist attacks on our nation.

The Protect America Act included a sunset of February 1, 2008. After the passage of the Protect America Act, the Chairman and Vice Chairman began to draft permanent FISA legislation. S. 2248 was reported by the Select Committee on Intelligence on October 26, 2007 (S. Rep. No. 110–209 (2007)), and then sequentially reported by the Committee on the Judiciary on November 16, 2007 (S. Rep. No. 110–258 (2008)). In the House, the original legislative vehicle was H.R. 3773. It was reported by the Committee on the Judiciary and the Permanent Select Committee on Intelligence on October 12, 2007 (H. Rep. No. 110–373 (Parts 1 and 2) (2007)). H.R. 3773 passed the House on November 15, 2007. S. 2248 passed the Senate on February 12, 2008, and was sent to the House as an amendment to H.R. 3773. On March 14, 2008, the House returned H.R. 3773 to the Senate with an amendment.

No formal conference was convened to resolve the differences between the two Houses on H.R. 3773. Instead, following an agreement reached without a formal conference, the House passed a new bill, H.R. 6304, which contains a complete compromise of the differences on H.R. 3773.

H.R. 6304 is a direct descendant of the Protect America Act and S. 2248, which became the basis for the Senate amendment to H.R. 3373 (February 12, 2008) and influenced the House amendment to H.R. 3373 (March 18, 2008). The Protect America Act, H.R. 3773, as well as the original Senate bill, S. 2248, and the legislative history of those measures constitutes the legislative history of H.R. 6304.

The section-by-section analysis and explanation set forth below is based on the analysis and explanation in the report of the Select Committee on Intelligence on S. 2248, at S. Rep. No. 110–209, pp. 12–25, as expanded and edited to reflect the floor amendments to S. 2248 and the negotiations that produced H.R. 6304.

OVERALL ORGANIZATION OF ACT

The FISA Amendments Act of 2008 (''FISA Amendments Act'') contains four titles.

Title I includes, in Section 101, a new Title VII of FISA entitled ''Additional Procedures Regarding Certain Persons Outside the United States.'' This new title of FISA (which will sunset in four and a half years) is a successor to the Protect America Act, with amendments. Sections 102 through 110 of the Act contain a number of amendments to FISA apart from the collection issues addressed in the new Title VII of FISA. These include a provision that FISA is the exclusive statutory means for electronic surveillance, important streamlining provisions, and a change in the definitions section of FISA (in Section 110 of the bill) to facilitate foreign intelligence collection against proliferators of weapons of mass destruction.

Title II establishes a new Title VIII of FISA, entitled ''Protection of Persons Assisting the Government.'' This new title establishes a long-term procedure, in new FISA Section 802, for the Government to implement statutory defenses and obtain the dismissal of civil cases against persons, principally electronic communication service providers, who assist elements of the intelligence community in accordance with defined legal documents, namely, orders of the FISA Court or certifications or directives provided for and defined by statute. Section 802 also incorporates a procedure with precise boundaries for civil liability relief for electronic communication service providers who are or may be defendants in civil cases involving an intelligence activity authorized by the President between September 11, 2001, and January 17, 2007. In addition, Title II provides for the protection, by way of preemption, of the federal government's ability to conduct intelligence activities without interference by state investigations.

Title III directs the Inspectors General of the Department of Justice, the Department of Defense, the Office of National Intelligence, the National Security Agency, and any other element of the intelligence community that participated in the President's Surveillance Program authorized by the President between September 11, 2001, and January 17, 2007, to conduct a comprehensive review of the program. The Inspectors General are required to submit a report to the appropriate committees of Congress, within one year, that addresses, among other things, all of the facts necessary to describe the establishment, implementation, product, and use of the product of the President's Surveillance Program, including the participation of individuals and entities in the private sector related to the program.

Title IV contains important procedures for the transition from the Protect America Act to the new Title VII of FISA. Section 404(a)(7) directs the Attorney General and the DNI, if they seek to replace an authorization under the Protect America Act, to submit the certification and procedures required in accordance with the new Section 702 to the FISA Court at least 30 days before the expiration of such authorizations, to the extent practicable. Title IV explicitly provides for the continued effect of orders, authorizations, and directives issued under the Protect America Act, and of the provisions pertaining to protection from liability, FISA Court jurisdiction, the use of information acquired, and Executive branch reporting requirements, past the statutory sunset of that act. Title IV also contains provisions on the

continuation of authorizations, directives, and orders under Title VII that are in effect at the time of the December 31, 2012, sunset, until their expiration within the year following the sunset.

TITLE I. FOREIGN INTELLIGENCE SURVEILLANCE

Section 101. Targeting the Communications of Persons Outside the United States

Section 101(a) of the FISA Amendments Act establishes a new Title VII of FISA. Entitled ''Additional Procedures Regarding Certain Persons Outside the United States,'' the new title includes, with important modifications, an authority similar to that granted by the Protect America Act as temporary sections 105A, 105B, and 105C of FISA. Those Protect America Act provisions had been placed within FISA's Title I on electronic surveillance. Moving the amended authority to a title of its own is appropriate because the authority involves not only the acquisition of communications as they are being carried but also while they are stored by electronic communication service providers.

Section 701. Definitions

Section 701 incorporates into Title VII the definition of nine terms that are defined in Title I of FISA and used in Title VII: ''agent of a foreign power,'' ''Attorney General,'' ''contents,'' ''electronic surveillance,'' ''foreign intelligence information,'' ''foreign power,'' ''person,'' ''United States,'' and ''United States person.'' It defines the congressional intelligence committees for the purposes of Title VII. Section 701 defines the two courts established in Title I that are assigned responsibilities under Title VII: the FISA Court and the Foreign Intelligence Surveillance Court of Review. Section 701 also defines ''intelligence community'' as found in the National Security Act of 1947. Finally, Section 701 defines a term, not previously defined in FISA, which has an important role in setting the parameters of Title VII: ''electronic communication service provider.'' This definition is connected to the objective that the acquisition of foreign intelligence pursuant to this title is meant to encompass the acquisition of stored electronic communications and related data.

Section 702. Procedures for Targeting Certain Persons Outside the United States Other than United States Persons

Section 702(a) sets forth the basic authorization in Title VII, replacing Section 105B of FISA, as added by the Protect America Act. Unlike the Protect America Act, the collection authority in Section 702(a) cannot be exercised until the FISA Court has conducted its review in accordance with subsection (i)(3), or the Attorney General and the DNI, acting jointly, have made a determination that exigent circumstances exist, as defined in Section 702(c)(2). Following such determination and subsequent submission of a certification and related procedures, the Court is required to conduct its review expeditiously. Authorizations must contain an effective date and may be valid for a period of up to one year from that date.

Subsequent provisions of the Act implement the prior order and effective date provisions of Section 702(a): in addition to Section 702(c)(2) which defines exigent circumstances, Section 702(i)(1)(B) provides that the court shall complete its review of certifications and procedures within 30 days (unless extended under Section 702(j)(2)); Section 702(i)(5)(A) provides for the submission of certifications and procedures to the FISA Court at least 30 days before the expiration of authorizations that are being replaced, to the extent practicable; and Section 702(i)(5)(B) provides for the continued effectiveness of expiring certifications and procedures until the court issues an order concerning their replacements.

Section 105B and Section 702(a) differ in other important respects. Section 105B authorized the acquisition of foreign intelligence information ''concerning'' persons reasonably believed to be outside the United States. To make clear that all collection under Title VII must be targeted at persons who are reasonably believed to be outside the United States, Section 702(a) eliminates the word ''concerning'' and instead authorizes ''the targeting of persons reasonably believed to be located outside the United States to collect foreign intelligence information.''

Section 702(b) establishes five related limitations on the authorization in Section 702(a). Overall, the limitations ensure that the new authority is not used for surveillance directed at persons within the United States or at United States persons. The first is a specific prohibition on using the new authority to target intentionally any person within the United States. The second provides that the authority may not be used to conduct ''reverse targeting,'' the intentional targeting of a person reasonably believed to be outside the United States if the purpose of the acquisition is to target a person reasonably believed to be in the United States. If the purpose is to target a person reasonably believed to be in the United States, then the electronic surveillance should be conducted in accordance with FISA or the criminal wiretap statutes. The third bars the intentional targeting of a United States person reasonably believed to be outside the United States. In order to target such United States person, acquisition must be conducted under three subsequent sections of Title VII, which require individual FISA court orders for United States persons: Sections 703, 704, and 705. The fourth limitation goes beyond targeting (the object of the first three limitations) and prohibits the intentional acquisition of any communication as to which the sender and all intended recipients are known at the time of the acquisition to be located in the United States. The fifth is an overarching mandate that an acquisition authorized in Section 702(a) shall be conducted in a manner consistent with the Fourth Amendment to the U.S. Constitution, which provides for ''the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.''

Section 702(c) governs the conduct of acquisitions. Pursuant to Section 702(c)(1), acquisitions authorized under Section 702(a) may be conducted only in accordance with targeting and minimization procedures approved at least annually by the FISA Court and a certification of the Attorney General and the DNI, upon its submission in accordance with Section 702(g). Section 702(c)(2) describes the ''exigent circumstances'' in which the Attorney General and Director of National Intelligence may authorize targeting for a limited time without a prior court order for purposes of subsection (a). Section 702(c)(2) provides that the Attorney General and the DNI may make a determination that exigent circumstances exist because, without immediate implementation of an authorization under Section 702(a), intelligence important to the national security of the United States may be lost or not timely acquired and time does not permit the issuance of an order pursuant to Section 702(i)(3) prior to the implementation of such authorization. Section 702(c)(3) provides that the Attorney General and the DNI may make such a determination before the submission of a certification or by amending a certification at any time during which judicial review of such certification is pending before the FISA Court.

Section 702(c)(4) addresses the concern, reflected in Section 105A of FISA as added by the Protect America Act, that the definition of electronic surveillance in Title I might prevent use of the new procedures. To address this concern, Section 105A redefined the term ''electronic surveillance'' to exclude ''surveillance directed at a person reasonably believed to be located outside of the United States.'' In contrast, Section 702(c)(4) does not change the definition of electronic surveillance, but clarifies the intent of Congress to allow the targeting of foreign targets outside the United States in accordance with Section 702 without an application for a court order under Title I of FISA. The addition of this construction paragraph, as well as the language in Section 702(a) that an authorization may occur ''notwithstanding any other law,'' makes clear that nothing in Title I of FISA shall be construed to require a court order under that title for an acquisition that is targeted in accordance with Section 702 at a foreign person outside the United States.

Section 702(d) provides, in a manner essentially identical to the Protect America Act, for the adoption by the Attorney General, in consultation with the DNI, of targeting procedures that are reasonably designed to ensure that collection is limited to targeting persons reasonably believed to be outside the United States. As provided in the Protect America Act, the targeting procedures are subject to judicial review and approval. In addition to the requirements of the Protect America Act, however, Section 702(d) provides that the targeting procedures also must be reasonably designed to prevent the intentional acquisition of any communication as to which the sender and all intended recipients are known at the time of the acquisition to be located in the United States. Section 702(d)(2) subjects these targeting procedures to judicial review and approval.

Section 702(e) provides that the Attorney General, in consultation with the DNI, shall adopt, for acquisitions authorized by Section 702(a), minimization procedures that are consistent with Section 101(h) or 301(4) of FISA, which establish FISA's minimization requirements for electronic surveillance and physical searches. Unlike the Protect America Act, Section 702(e)(2) provides that the minimization procedures, which are essential to the protection of United States persons, shall be subject to judicial review and approval.

Section 702(f) provides that the Attorney General, in consultation with the DNI, shall adopt guidelines to ensure compliance with the limitations in Section 702(b), including prohibitions on the acquisition of purely domestic communications, targeting persons within the United States, targeting United States persons located outside the United States, and reverse targeting. Such guidelines shall also ensure that an application for a court order is filed as required by FISA. It is intended that these guidelines will provide clear requirements and procedures governing the appropriate implementation of the authority under this title of FISA. The Attorney General is to provide these guidelines to the congressional intelligence committees, the judiciary committees of the House of Representatives and the Senate, and the FISA Court. Subsequent provisions implement the guidelines requirement. See Section 702(g)(2)(A)(iii) (certification requirements); Section 702(l)(1) and 702(l)(2) (Attorney General and DNI assessment of compliance with guidelines); and Section 707(b)(1)(G)(ii) (reporting on noncompliance with guidelines).

Section 702(g) requires that the Attorney General and the DNI provide to the FISA Court, prior to implementation of an authorization under subsection (a), a written certification, with any supporting affidavits. In

exigent circumstances, the Attorney General and DNI may make a determination that, without immediate implementation, intelligence important to the national security may be lost or not timely acquired prior to the implementation of an authorization. It is expected that the Attorney General and the DNI will utilize this ''exigent circumstances'' exception as often as necessary to ensure the protection of our national security. For this reason, the standard to use this authority is much lower than in traditional emergency situations under FISA. In exigent circumstances, if time does not permit the submission of a certification prior to the implementation of an authorization, the certification must be submitted to the FISA Court no later than seven days after the determination is made. The seven-day time period for submission of a certification in the case of exigent circumstances is identical to the time period by which the Attorney General must apply for a court order after authorizing an emergency surveillance under other provisions of FISA, as amended by this Act.

Section 702(g)(2) sets forth the requirements that must be contained in the written certification. The required elements are: (1) the targeting and minimization procedures have been approved by the FISA Court or will be submitted to the court with the certification; (2) guidelines have been adopted to ensure compliance with the limitations of subsection (b); (3) those procedures and guidelines are consistent with the Fourth Amendment; (4) the acquisition is targeted at persons reasonably believed to be outside the United States; (5) a significant purpose of the acquisition is to obtain foreign intelligence information; and (6) an effective date for the authorization that in most cases is at least 30 days after the submission of the written certification. Additionally, as an overall limitation on the method of acquisition permitted under Section 702, the certification must attest that the acquisition involves obtaining foreign intelligence information from or with the assistance of an electronic communication service provider.

Requiring an effective date in the certification serves to identify the beginning of the period of authorization (which is likely to be a year) for collection and to alert the FISA Court of when the Attorney General and DNI are seeking to begin collection. Section 702(g)(3) permits the Attorney General and DNI to change the effective date in the certification by amending the certification.

As with the Protect America Act, the certification under Section 702(g)(4) is not required to identify the specific facilities, places, premises, or property at which the acquisition under Section 702(a) will be directed or conducted. The certification shall be subject to review by the FISA Court.

Section 702(h) authorizes the Attorney General and the DNI to direct, in writing, an electronic communication service provider to furnish the Government with all information, facilities, or assistance necessary to accomplish the acquisition authorized under Section 702(a). It is important to note that such directives may be issued only in exigent circumstances pursuant to Section 702(c)(2) or after the FISA Court has conducted its review of the certification and the targeting and minimization procedures and issued an order pursuant to Section 702(i)(3). Section 702(h) requires compensation for this assistance and provides that no cause of action shall lie in any court against an electronic communication service provider for its assistance in accordance with a directive. It also establishes expedited procedures in the FISA Court for a provider to challenge the legality of a directive or the Government to enforce it. In either case, the question for the court is whether the directive meets the requirements of Section 702 and is otherwise lawful. Whether the proceeding begins as a provider challenge or a Government enforcement petition, if the court upholds the directive as issued or modified, the court shall order the provider to comply. Failure to comply may be punished as a contempt of court. The proceedings shall be expedited and decided within 30 days, unless that time is extended under Section 702(j)(2).

Section 702(i) provides for judicial review of any certification required by Section 702(g) and the targeting and minimization procedures adopted pursuant to Sections 702(d) and 702(e). In accordance with Section 702(i)(5), if the Attorney General and the DNI seek to reauthorize or replace an authorization in effect under the Act, they shall submit, to the extent practicable, the certification and procedures at least 30 days prior to the expiration of such authorization.

The court shall review certifications to determine whether they contain all the required elements. It shall review targeting procedures to assess whether they are reasonably designed to ensure that the acquisition activity is limited to the targeting of persons reasonably believed to be located outside the United States and prevent the intentional acquisition of any communication whose sender and intended recipients are known at the time of acquisition to be located in the United States. The Protect America Act had limited the review of targeting procedures to a ''clearly erroneous'' standard; Section 702(i) omits that limitation. For minimization procedures, Section 702(i) provides that the court shall review them to assess whether they meet the statutory requirements. The court is to review the certifications and procedures and issue its order within 30 days after they were submitted unless that time is extended under Section 702(j)(2). The Attorney General and the DNI may also amend the certification or procedures at any time under Section 702(i)(1)(C), but those amended certifications or procedures must be submitted to the court in no more than 7 days after amendment. The amended procedures may be used pending the court's review.

If the FISA Court finds that the certification contains all the required elements and that the targeting and minimization procedures are consistent with the requirements of subsections (d) and (e) and with the Fourth Amendment, the court shall enter an order approving their use or continued use for the acquisition authorized by Section 702(a). If it does not so find, the court shall order the Government, at its election, to correct any deficiencies or cease, or not begin, the acquisition. If acquisitions have begun, they may continue during any rehearing en banc of an order requiring the correction of deficiencies. If the Government appeals to the Foreign Intelligence Surveillance Court of Review, any collection that has begun may continue at least until that court enters an order, not later than 60 days after filing of the petition for review, which determines whether all or any part of the correction order shall be implemented during the appeal.

Section 702(j)(1) provides that judicial proceedings are to be conducted as expeditiously as possible. Section 702(j)(2) provides that the time limits for judicial review in Section 702 (for judicial review of certifications and procedures or in challenges or enforcement proceedings concerning directives) shall apply unless extended, by written order, as necessary for good cause in a manner consistent with national security.

Section 702(k) requires that records of proceedings under Section 702 shall be maintained by the FISA Court under security measures adopted by the Chief Justice in consultation with the Attorney General and the DNI. In addition, all petitions are to be filed under seal and the FISA Court, upon the request of the Government, shall consider ex parte and in camera any Government submission or portions of a submission that may include classified information. The Attorney General and the DNI are to retain directives made or orders granted for not less than 10 years.

Section 702(l) provides for oversight of the implementation of Title VII. It has three parts. First, the Attorney General and the DNI shall assess semiannually under subsection (l)(1) compliance with the targeting and minimization procedures, and the Attorney General guidelines for compliance with limitations under Section 702(b), and submit the assessment to the FISA Court and to the congressional intelligence and judiciary committees, consistent with congressional rules.

Second, under subsection (l)(2)(A), the Inspector General of the Department of Justice and the Inspector General (''IG'') of any intelligence community element authorized to acquire foreign intelligence under Section 702(a) are authorized to review compliance of their agency or element with the targeting and minimization procedures adopted in accordance with subsections (d) and (e) and the guidelines adopted in accordance with subsection (f). Subsections (l)(2)(B) and (l)(2)(C) mandate several statistics that the IGs shall review with respect to United States persons, including the number of disseminated intelligence reports that contain references to particular known U.S. persons, the number of U.S. persons whose identities were disseminated in response to particular requests, and the number of targets later determined to be located in the United States. Their reports shall be submitted to the Attorney General, the DNI, and the appropriate congressional committees. Section 702(l)(2) provides no statutory schedule for the completion of these IG reviews; the IGs should coordinate with the heads of their agencies about the timing for completion of the IG reviews so that they are done at a time that would be useful for the agency heads to complete their semiannual reviews.

Third, under subsection (l)(3), the head of an intelligence community element that conducts an acquisition under Section 702 shall review annually whether there is reason to believe that foreign intelligence information has been or will be obtained from the acquisition and provide an accounting of information pertaining to United States persons similar to that included in the IG report. Subsection (l)(3) also encourages the head of the element to develop procedures to assess the extent to which the new authority acquires the communications of U.S. persons, and to report the results of such assessment. The review is to be used by the head of the element to evaluate the adequacy of minimization procedures. The annual review is to be submitted to the FISA Court, the Attorney General and the DNI, and to the appropriate congressional committees.

Section 703. Certain Acquisition Inside the United States Targeting United States Persons Outside the United States

Section 703 governs the targeting of United States persons who are reasonably believed to be outside the United States when the acquisition of foreign intelligence is conducted inside the United States. The authority and procedures of Section 703 apply when the acquisition either constitutes electronic surveillance, as defined in Title I of FISA, or is of stored electronic communications or stored electronic data. If the United States person returns to the United States, acquisition under Section 703 must cease. The Government may always, however, obtain an

order or authorization under another title of FISA.

The application procedures and provisions for a FISA Court order in Sections 703(b) and 703(c) are drawn from Titles I and III of FISA. Key among them is the requirement that the FISA Court determine that there is probable cause to believe that, for the United States person who is the target of the surveillance, the person is reasonably believed to be located outside the United States and is a foreign power or an agent, officer, or employee of a foreign power. The inclusion of United States persons who are officers or employees of a foreign power, as well as those who are agents of a foreign power as that term is used in FISA, is intended to permit the type of collection against United States persons outside the United States that has been allowed under Executive Order 12333 and existing Executive branch guidelines. The FISA Court shall also review and approve minimization procedures that will be applicable to the acquisition, and shall order compliance with such procedures.

As with FISA orders against persons in the United States, FISA orders against United States persons outside of the United States under Section 703 may not exceed 90 days and may be renewed for additional 90–day periods upon the submission of renewal applications. Emergency authorizations under Section 703 are consistent with the requirements for emergency authorizations in FISA against persons in the United States, as amended by this Act; the Attorney General may authorize an emergency acquisition if an application is submitted to the FISA Court in not more than seven days.

Section 703(g) is a construction provision that clarifies that, if the Government obtains an order and targets a particular United States person in accordance with Section 703, FISA does not require the Government to seek a court order under any other provision of FISA to target that United States person while that person is reasonably believed to be located outside the United States.

Section 704. Other Acquisitions Targeting United States Persons Outside the United States

Section 704 governs other acquisitions that target United States persons who are outside the United States. Sections 702 and 703 address acquisitions that constitute electronic surveillance or the acquisition of stored electronic communications. In contrast, Section 704 addresses any targeting of a United States person outside of the United States under circumstances in which that person has a reasonable expectation of privacy and a warrant would be required if the acquisition occurred within the United States. It thus covers not only communications intelligence, but, if it were to occur, the physical search for foreign intelligence purposes of a home, office, or business of a United States person by an element of the United States intelligence community, outside of the United States.

Pursuant to Section 704(a)(3), if the targeted United States person is reasonably believed to be in the United States while an order under Section 704 is in effect, the acquisition against that person shall cease unless authority is obtained under another applicable provision of FISA. The Government may not use Section 704 to authorize an acquisition of foreign intelligence inside the United States.

Section 704(b) describes the application to the FISA Court that is required. For an order under Section 704(c), the FISA Court must determine that there is probable cause to believe that the United States person who is the target of the acquisition is reasonably believed to be located outside the United States and is a foreign power, or an agent, officer, or employee of a foreign power. An order is valid for a period not to exceed 90 days, and may be renewed for additional 90–day periods upon submission of renewal applications meeting application requirements.

Because an acquisition under Section 704 is conducted outside the United States, or is otherwise not covered by FISA, the FISA Court is expressly not given jurisdiction to review the means by which an acquisition under this section may be conducted. Although the FISA Court's review is limited to determinations of probable cause, Section 704 anticipates that any acquisition conducted pursuant to a Section 704 order will in all other respects be conducted in compliance with relevant regulations and Executive Orders governing the acquisition of foreign intelligence outside the United States, including Executive Order 12333 or any successor order.

Section 705. Joint Applications and Concurrent Authorizations

Section 705 provides that if an acquisition targeting a United States person under Section 703 or 704 is proposed to be conducted both inside and outside the United States, a judge of the FISA Court may issue simultaneously, upon the request of the Government in a joint application meeting the requirements of Sections 703 and 704, orders under both sections as appropriate. If an order authorizing electronic surveillance or physical search has been obtained under Section 105 or 304, and that order is still in effect, the Attorney General may authorize, without an order under Section 703 or 704, the targeting of that United States person for the purpose of acquiring foreign intelligence information while such person is reasonably believed to be located outside the United States.

Section 706. Use of Information Acquired Under Title VII

Section 706 fills a void that has existed under the Protect America Act which had contained no provision governing the use of acquired intelligence. Section 706(a) provides that information acquired from an acquisition conducted under Section 702 shall be deemed to be information acquired from an electronic surveillance pursuant to Title I of FISA for the purposes of Section 106 of FISA, which is the provision of Title I of FISA that governs public disclosure or use in criminal proceedings. The one exception is for subsection (j) of Section 106, as the notice provision in that subsection, while manageable in individual Title I proceedings, would present a difficult national security question when applied to a Title VII acquisition. Section 706(b) also provides that information acquired from an acquisition conducted under Section 703 shall be deemed to be information acquired from an electronic surveillance pursuant to Title I of FISA for the purposes of Section 106 of FISA; however, the notice provision of subsection (j) applies. Section 706 ensures a uniform standard for the types of information acquired under the new title.

Section 707. Congressional Oversight

Section 707 provides for additional congressional oversight of the implementation of Title VII. The Attorney General is to fully inform ''in a manner consistent with national security'' the congressional intelligence and judiciary committees about implementation of the Act at least semiannually. Each report is to include any certifications made under Section 702, the reasons for any determinations made under Section 702(c)(2), any directives issued during the reporting period, a description of the judicial review during the reporting period to include a copy of any order or pleading that contains a significant legal interpretation of Section 702, incidents of noncompliance and procedures to implement the section. With respect to Sections 703 and 704, the report must contain the number of applications made for orders under each section and the number of such orders granted, modified and denied, as well as the number of emergency authorizations made pursuant to each section and the subsequent orders approving or denying the relevant application.

Section 708. Savings Provision

Section 708 provides that nothing in Title VII shall be construed to limit the authority of the Government to seek an order or authorization under, or otherwise engage in any activity that is authorized under, any other title of FISA. This language is designed to ensure that Title VII cannot be interpreted to prevent the Government from submitting applications and seeking orders under other titles of FISA.

Section 101(b). Table of Contents

Section 101(b) of the bill amends the table of contents in the first section of FISA.

Subsection 101(c). Technical and Conforming Amendments

Section 101(c) of the bill provides for technical and conforming amendments in Title 18 of the United States Code and in FISA.

Section 102. Statement of Exclusive Means by which Electronic Surveillance and Interception of Certain Communications May Be Conducted

Section 102(a) amends Title I of FISA by adding a new Section 112 of FISA. Under the heading of ''Statement of Exclusive Means by which Electronic Surveillance and Interception of Certain Communications May Be Conducted,'' the new Section 112(a) states: ''Except as provided in subsection (b), the procedures of chapters 119, 121 and 126 of Title 18, United States Code, and this Act shall be the exclusive means by which electronic surveillance and the interception of domestic wire, oral, or electronic communication may be conducted.'' New Section 112(b) of FISA provides that only an express statutory authorization for electronic surveillance or the interception of domestic wire, oral, or electronic communications, other than as an amendment to FISA or chapters 119, 121, or 206 of Title 18 shall constitute an additional exclusive means for the purpose of subsection (a). The new Section 112 is based on a provision which Congress enacted in 1978 as part of the original FISA that is codified in Section 2511(2)(f) of Title 18, United States Code, and which will remain in the U.S. Code.

Section 102(a) strengthens the statutory provisions pertaining to electronic surveillance and interception of certain communications to clarify the express intent of Congress that these statutory provisions are the exclusive means for conducting electronic surveillance and interception of certain communications. This section makes it clear that any existing statute cannot be used in the future as the statutory basis for circumventing FISA. Section 102(a) is intended to ensure that additional exclusive means for surveillance or interceptions shall be express statutory authorizations.

In accord with Section 102(b) of the bill, Section 109 of FISA that provides for criminal penalties for violations of FISA, is amended to implement the exclusivity requirement added in Section 112 by making clear that the safe harbor to FISA's criminal offense provision is limited to statutory authorizations for electronic surveillance or the interception of domestic wire, oral, or electronic communications which are pursuant to a provision of FISA, one of the enumerated chapters of the criminal code, or a

statutory authorization that expressly provides an additional exclusive means for conducting the electronic surveillance. By virtue of the cross-reference in Section 110 of FISA to Section 109, that limitation on the safe harbor in Section 109 applies equally to Section 110 on civil liability for conducting unlawful electronic surveillance.

Section 102(c) requires that, if a certification for assistance to obtain foreign intelligence is based on statutory authority, the certification provided to an electronic communication service provider is to include the specific statutory authorization for the request for assistance and certify that the statutory requirements have been met. This provision is designed to assist electronic communication service providers in understanding the legal basis for any government request for assistance.

In the section-by-section analysis of S. 2248, the report of the Select Committee on Intelligence (S. Rep. No. 110–209, at 18) described and incorporated the discussion of exclusivity in the 1978 conference report on the original Foreign Intelligence Surveillance Act, in particular the conferees' description of the analysis in *Youngstown Sheet and Tube Co*. v. *Sawyer*, 343 U.S. 579, 637 (1952) and the application of the principles described there to the current legislation. That full discussion should be deemed incorporated in this section-by-section analysis.

Section 102 of the bill will not—and cannot—preclude the President from exercising his Article II constitutional authority to conduct warrantless foreign intelligence surveillance. At most, this exclusive means provision only places the President at his ''lowest ebb'' under the third prong of the Youngstown case analysis. That is exactly where the President was when FISA was passed back in 1978 and the ''revised'' exclusive means provision in this bill does not change this fact. Even at his lowest ebb, the President's authority with respect to intercepting enemy communications is still quite strong, especially when compared to the nonexistent capability of Congress to engage in similar interception activities.

Further, Section 102(c) actually reinforces the President's Article II authority, stating that ''if a certification . . . for assistance to obtain foreign intelligence information is based on statutory authority, the certification shall identify the specific statutory provision and shall certify that the statutory requirements have been met.'' The implication from such language is that if a certification is not based on statutory authority, then citing statutory authority would be unnecessary. This language thus acknowledges that certifications may be based on something other than statutory authority, namely the President's inherent constitutional authority.

Section 103. Submittal to Congress of Certain Court Orders under the Foreign Intelligence Surveillance Act of 1978

Section 6002 of the Intelligence Reform Act and Terrorism Prevention Act of 2004 (Pub. L. 108–458), added a Title VI to FISA that augments the semiannual reporting obligations of the Attorney General to the intelligence and judiciary committees of the Senate and House of Representatives. Under Section 6002, the Attorney General shall report a summary of significant legal interpretations of FISA in matters before the FISA Court or Foreign Intelligence Surveillance Court of Review. The requirement extends to interpretations presented in applications or pleadings filed with either court by the Department of Justice. In addition to the semiannual summary, the Department of Justice is required to provide copies of court decisions, but not orders, which include significant interpretations of FISA. The importance of the reporting requirement is that, because the two courts conduct their business in secret, Congress needs the reports to know how the law it has enacted is being interpreted.

Section 103 adds to the Title VI reporting requirements in three ways. First, as significant legal interpretations may be included in orders as well as opinions, Section 103 requires that orders also be provided to the committees. Second, as the semiannual report often takes many months after the end of the semiannual period to prepare, Section 103 accelerates provision of information about significant legal interpretations by requiring the submission of such decisions, orders, or opinions within 45 days. Finally, Section 103 requires that the Attorney General shall submit a copy of any such decision, order, or opinion, and any pleadings, applications, or memoranda of law associated with such decision, order, or opinion, from the period five years preceding enactment of the bill that has not previously been submitted to the congressional intelligence and judiciary committees. The Attorney General, in consultation with the Director of National Intelligence, may authorize redactions of documents submitted in accordance with subsection 103(c) as necessary to protect national security.

OVERVIEW OF SECTIONS 104 THROUGH SECTION 109; FISA STREAMLINING

Sections 104 through 109 amend various sections of FISA for such purposes as reducing a paperwork requirement, modifying time requirements, or providing additional flexibility in terms of the range of Government officials who may authorize FISA actions. Collectively, these amendments are described as streamlining amendments. In general, they are intended to increase the efficiency of the FISA process without depriving the FISA Court of the information it needs to make findings required under FISA.

Section 104. Applications for Court Orders

Section 104 of the bill strikes two of the eleven paragraphs on standard information in an application for a surveillance order under Section 104 of FISA, either because the information is provided elsewhere in the application process or is not needed.

In various places, FISA has required the submission of ''detailed'' information, as in Section 104 of FISA, ''a detailed description of the nature of the information sought and the type of communications or activities to be subjected to the surveillance.'' The DNI requested legislation that asked that ''summary'' be substituted for ''detailed'' for this and other application requirements, in order to reduce the length of FISA applications. In general, the bill approaches this by eliminating the mandate for ''detailed'' descriptions, leaving it to the FISA Court and the Government to work out the level of specificity needed by the FISA Court to perform its statutory responsibilities. With respect to one item of information, ''a statement of the means by which the surveillance will be effected,'' the bill modifies the requirement by allowing for ''a summary statement.''

In aid of flexibility, Section 104 increases the number of individuals who may make FISA applications by allowing the President to designate the Deputy Director of the Federal Bureau of Investigation (''FBI'') as one of those individuals. This should enable the Government to move more expeditiously to obtain certifications when the Director of the FBI is away from Washington or otherwise unavailable.

Subsection (b) of Section 104 of FISA is eliminated as obsolete in light of current applications. The Director of the Central Intelligence Agency is added to the list of officials who may make a written request to the Attorney General to personally review a FISA application as the head of the CIA had this authority prior to the establishment of the Office of the Director of National Intelligence.

Section 105. Issuance of an Order

Section 105 strikes from Section 105 of FISA several unnecessary or obsolete provisions. Section 105 strikes subsection (c)(1)(F) of Section 105 of FISA which requires minimization procedures applicable to each surveillance device employed because Section 105(c)(2)(A) requires each order approving electronic surveillance to direct the minimization procedures to be followed.

Subsection (a)(6) reorganizes, in more readable form, the emergency surveillance provision of Section 105(f), now redesignated Section 105(e), with a substantive change of extending from 3 to 7 days the time by which the Attorney General must apply for and obtain a court order after authorizing an emergency surveillance. The purpose of the change is to ease the administrative burdens upon the Department of Justice, the Intelligence Community, and the FISA Court currently imposed by the three-day requirement.

Subsection (a)(7) adds a new paragraph to Section 105 of FISA to require the FISA Court, on the Government's request, when granting an application for electronic surveillance, to authorize at the same time the installation and use of pen registers and trap and trace devices. This change recognizes that when the Intelligence Community seeks to use electronic surveillance, pen register and trap and trace information is often essential to conducting complete surveillance, and the Government should not need to file two separate applications.

Section 106. Use of Information

Section 106 amends Section 106(i) of FISA with regard to the limitations on the use of unintentionally acquired information. Currently, Section 106(i) of FISA provides that unintentionally acquired radio communication between persons located in the United States must be destroyed unless the Attorney General determines that the contents of the communications indicates a threat of death or serious bodily harm to any person. Section 106 of the bill amends subsection 106(i) of FISA by making it technology neutral on the principle that the same rule for the use of information indicating threats of death or serious harm should apply no matter how the communication is transmitted.

Section 107. Amendments for Physical Searches

Section 107 makes changes to Title III of FISA: changing applications and orders for physical searches to correspond to changes in Sections 104 and 105 on reduction of some application paperwork; providing the FBI with administrative flexibility in enabling its Deputy Director to be a certifying officer; and extending the time, from 3 days to 7 days, for applying for and obtaining a court order after authorization of an emergency search.

Section 303(a)(4)(C), which will be redesignated Section 303(a)(3)(C), requires that each application for physical search authority state the applicant's belief that the property is ''owned, used, possessed by, or is in transmit to or from'' a foreign power or an agent of a foreign power. In order to provide needed flexibility and to make the provision consistent with electronic surveillance provisions, Section 107(a)(1)(D) of the bill allows the FBI to apply for authority to search property that also is ''about to be'' owned, used, or possessed by a foreign power or agent of a foreign power, or in transit to or from one.

Section 108. Amendments for Emergency Pen Registers and Trap and Trace Devices

Section 108 amends Section 403 of FISA to extend from 2 days to 7 days the time for applying for and obtaining a court order after an emergency installation of a pen register or trap and trace device. This change harmonizes among FISA's provisions for electronic surveillance, search, and pen register/trap and trace authority the time requirements that follow the Attorney General's decision to take emergency action.

Section 109. Foreign Intelligence Surveillance Court

Section 109 contains four amendments to Section 103 of FISA, which establishes the FISA Court and the Foreign Intelligence Surveillance Court of Review.

Section 109(a) amends Section 103 to provide that judges on the FISA Court shall be drawn from ''at least seven'' of the United States judicial circuits. The current requirement—that the eleven judges be drawn from seven judicial circuits (with the number appearing to be a ceiling rather than a floor) has proven unnecessarily restrictive or complicated for the designation of the judges to the FISA Court.

Section 109(b) amends Section 103 to allow the FISA Court to hold a hearing or rehearing of a matter en banc, which is by all the judges who constitute the FISA Court sitting together. The Court may determine to do this on its own initiative, at the request of the Government in any proceeding under FISA, or at the request of a party in the few proceedings in which a private entity or person may be a party, i.e., challenges to document production orders under Title V, or proceedings on the legality or enforcement of directives to electronic communication service providers under Title VII.

Under Section 109(b), en banc review may be ordered by a majority of the judges who constitute the FISA Court upon a determination that it is necessary to secure or maintain uniformity of the court's decisions or that a particular proceeding involves a question of exceptional importance. En banc proceedings should be rare and in the interest of the general objective of fostering expeditious consideration of matters before the FISA Court.

Section 109(c) provides authority for the entry of stays, or the entry of orders modifying orders entered by the FISA Court or the Foreign Intelligence Surveillance Court of Review, pending appeal or review in the Supreme Court. This authority is supplemental to, and does not supersede, the specific provision in Section 702(i)(4)(B) that acquisitions under Title VII may continue during the pendency of any rehearing en banc and appeal to the Court of Review subject to the requirement for a determination within 60 days under Section 702(i)(4)(C).

Section 109(d) provides that nothing in FISA shall be construed to reduce or contravene the inherent authority of the FISA Court to determine or enforce compliance with an order or a rule of that court or with a procedure approved by it. The recognition in subsection (d) of the FISA Court's inherent authority to determine or enforce compliance with a court order, rule, or procedure does not authorize the Court to assess compliance with the minimization procedures used in the foreign targeting context. This conclusion is based upon three observations.

First, Section 702 contains no explicit statutory provision that authorizes the FISA Court to assess compliance with the minimization procedures in the foreign targeting context. If it had so desired, Congress could have included a specific statutory authorization like those included in Sections 105(d)(3), 304(d)(3), and 703(c)(7). In fact, there were several unsuccessful efforts during the legislative process to include a specific statutory authorization in this bill.

Second, the Court's inherent authority to review and approve minimization procedures in the context of domestic electronic surveillance or physical searches is different from its inherent authority to review and approve minimization procedures in the foreign targeting context. In the domestic context, the Court must direct that the minimization procedures be followed. See Sections 105(c)(2)(A), 304(c)(2)(A), and 703(c)(5)(A). There is no such requirement in the foreign targeting context. Instead, the Court's judicial review is limited to assessing whether the procedures meet the definition of minimization procedures under FISA. See Section 702(i)(2)(C). When the Court issues an order under Section 702, it merely enters an order approving the use of the minimization procedures for the acquisition. See 702(i)(3)(A). This limitation on the scope of the Court's order in the foreign targeting context should be interpreted as not providing the Court with any inherent authority to assess compliance with the approved minimization procedures in the foreign targeting context.

Finally, assessing compliance with minimization procedures in the foreign targeting context has historically been a responsibility performed by the Executive branch. This bill preserves that responsibility by requiring the Attorney General and the Director of National Intelligence to assess compliance with the minimization procedures on a semi-annual basis. See Section 702(l)(1). Inspectors General of each element of the Intelligence Community are authorized to review compliance with the adopted minimization procedures. See Section 702(l)(2). Also, the heads of each element of the Intelligence Community are required to conduct an annual review to evaluate the adequacy of the minimization procedures used by their element in conducting a particular acquisition. See Section 702(l)(3). Conversely, the FISA Court has little, if any, historical experience with assessing compliance with minimization in the context of foreign targeting. There are significant differences between the scope, purpose, and means by which the acquisition of foreign intelligence is conducted in the domestic and foreign targeting contexts. While the FISA Court is well-suited to assess compliance with minimization procedures in the domestic context, such assessment is better left to the Executive branch in the foreign targeting context.

Section 110. Weapons of Mass Destruction

Section 110 amends the definitions in FISA of foreign power and agent of a foreign power to include individuals who are not United States persons and entities not substantially composed of United States persons that are engaged in the international proliferation of weapons of mass destruction. Section 110 also adds a definition of weapon of mass destruction to the Act that defines weapons of mass destruction to cover explosive, incendiary, or poison gas devices that are designed, intended to, or have the capability to cause a mass casualty incident or death, and biological, chemical and nuclear weapons that are designed, intended to, or have the capability to cause illness or serious bodily injury to a significant number of persons. Section 110 also makes corresponding technical and conforming changes to FISA.

TITLE II. PROTECTIONS FOR ELECTRONIC COMMUNICATION SERVICE PROVIDERS

This title establishes a new Title VIII of FISA. The title addresses liability relief for electronic communication service providers who have been alleged in various civil actions to have assisted the U.S. Government between September 11, 2001, and January 17, 2007, when the Attorney General announced the termination of the Terrorist Surveillance Program. In addition, Title VIII contains provisions of law intended to implement statutory defenses for electronic communication service providers and others who assist the Government in accordance with precise, existing legal requirements, and provides for federal preemption of state investigations. The liability protection provisions of Title VIII are not subject to sunset.

Section 801. Definitions

Section 801 establishes definitions for Title VIII. Several are of particular importance.

The term ''assistance'' is defined to mean the provision of, or the provision of access to, information, facilities, or another form of assistance. The word ''information'' is itself described in a parenthetical to include communication contents, communication records, or other information relating to a customer or communications. ''Contents'' is defined by reference to its meaning in Title I of FISA. By that reference, it includes any information concerning the identity of the parties to a communication or the existence, substance, purport, or meaning of it.

The term ''civil action'' is defined to include a ''covered civil action.'' Thus, ''covered civil actions'' are a subset of civil actions, and everything in new Title VIII that is applicable generally to civil actions is also applicable to ''covered civil actions.'' A ''covered civil action'' has two key elements. It is defined as a civil action filed in a federal or state court which (1) alleges that an electronic communication service provider (a defined term) furnished assistance to an element of the intelligence community and (2) seeks monetary or other relief from the electronic communication service provider related to the provision of the assistance. Both elements must be present for the lawsuit to be a covered civil action.

The term ''person'' (the full universe of those protected by Section 802) is necessarily broader than the definition of electronic communication service provider. The aspects of Title VIII that apply to those who assist the Government in accordance with precise, existing legal requirements apply to all who may be ordered to provide assistance under FISA, such as custodians of records who may be directed to produce records by the FISA Court under Title V of FISA or landlords who may be required to provide access under Title I or III of FISA, not just to electronic communication service providers.

Section 802. Procedures for Implementing Statutory Defenses

Section 802 establishes procedures for implementing statutory defenses. Notwithstanding any other provision of law, no civil action may lie or be maintained in a federal or state court against any person for providing assistance to an element of the intelligence community, and shall be promptly dismissed, if the Attorney General makes a certification to the district court in which the action is pending. (If an action had been commenced in state court, it would have to be removed, pursuant to Section 802(g) to a district court, where a certification under Section 802 could be filed.) The certification must state either that the assistance was not provided (Section 802(a)(5)) or, if furnished, that it was provided pursuant to specific statutory requirements (Sections 802(a)(1–4)). Three of these underlying requirements, which are specifically described in Section 802 (Sections 802(a)(1–3)), come from existing law. They include: an order of the FISA Court directing assistance, a certification in writing under Sections 2511(2)(a)(ii)(B) or 2709(b) of Title 18, or directives to electronic

communication service providers under particular sections of FISA or the Protect America Act.

The Attorney General may only make a certification under the fourth statutory requirement, Section 802(a)(4), if the civil action is a covered civil action (as defined in Section 801(5)). To satisfy the requirements of Section 802(a)(4), the Attorney General must certify first that the assistance alleged to have been provided by the electronic communication service provider was in connection with an intelligence activity involving communications that was (1) authorized by the President between September 11, 2001 and January 17, 2007 and (2) designed to detect or prevent a terrorist attack or preparations for one against the United States. In addition, the Attorney General must also certify that the assistance was the subject of a written request or directive, or a series of written requests or directives, from the Attorney General or the head (or deputy to the head) of an element of the intelligence community to the electronic communication service provider indicating that the activity was (1) authorized by the President and (2) determined to be lawful. The report of the Select Committee on Intelligence contained a description of the relevant correspondence provided to electronic communication service providers (S. Rep. No. 110–209, at 9).

The district court must give effect to the Attorney General's certification unless the court finds it is not supported by substantial evidence provided to the court pursuant to this section. In its review, the court may examine any relevant court order, certification, written request or directive submitted by the Attorney General pursuant to subsection (b)(2) or by the parties pursuant to subsection (d).

If the Attorney General files a declaration that disclosure of a certification or supplemental materials would harm national security, the court shall review the certification and supplemental materials in camera and ex parte, which means with only the Government present. A public order following that review shall be limited to a statement as to whether the case is dismissed and a description of the legal standards that govern the order, without disclosing the basis for the certification of the Attorney General. The purpose of this requirement is to protect the classified national security information involved in the identification of providers who assist the Government. A public order shall not disclose whether the certification was based on an order, certification, or directive, or on the ground that the electronic communication service provider furnished no assistance. Because the district court must find that the certification—including a certification that states that a party did not provide the alleged assistance—is supported by substantial evidence in order to dismiss a case, an order failing to dismiss a case is only a conclusion that the substantial evidence test has not been met. It does not indicate whether a particular provider assisted the government.

Subsection (d) makes clear that any plaintiff or defendant in a civil action may submit any relevant court order, certification, written request, or directive to the district court for review and be permitted to participate in the briefing or argument of any legal issue in a judicial proceeding conducted pursuant to this section, to the extent that such participation does not require the disclosure of classified information to such party. The authorities of the Attorney General under Section 802 are to be performed only by the Attorney General, the Acting Attorney General, or the Deputy Attorney General.

In adopting the portions of Section 802 that allow for liability protection for those electronic communication service providers who may have participated in the program of intelligence activity involving communications authorized by the President between September 11, 2001, and January 17, 2007, the Congress makes no statement on the legality of the program. The extension of immunity in Section 802 also reflects the Congress's determination that the electronic communication service providers acted on a good faith belief that the President's program, and their assistance, was lawful. Both of these assertions are in accord with the statements in the report of the Senate Intelligence Committee. S. Rep. No. 110–209, at 9.

Section 803. Preemption of State Investigations

Section 803 addresses actions taken by a number of state regulatory commissions to force disclosure of information concerning cooperation by state regulated electronic communication service providers with U.S. intelligence agencies. Section 803 preempts these state actions and authorizes the United States to bring suit to enforce the prohibition.

Section 804. Reporting

Section 804 provides for oversight of the implementation of Title VIII. On a semi-annual basis, the Attorney General is to provide to the appropriate congressional committees a report on any certifications made under Section 802, a description of the judicial review of the certifications made under Section 802, and any actions taken to enforce the provisions of Section 803.

Section 202. Technical Amendments

Section 202 amends the table of contents of the first section of FISA.

TITLE III. REVIEW OF PREVIOUS ACTIONS

Title III directs the Inspectors General of the Department of Justice, the Office of the Director of National Intelligence, the Department of Defense, the National Security Agency, and any other element of the intelligence community that participated in the President's surveillance program, defined in the title to mean the intelligence activity involving communications that was authorized by the President during the period beginning on September 11, 2001, and ending on January 17, 2007, to complete a comprehensive review of the program with respect to the oversight authority and responsibility of each Inspector General.

The review is to include: (1) all of the facts necessary to describe the establishment, implementation, product, and use of the product of the program; (2) access to legal reviews of the program and information about the program; (3) communications with, and participation of, individuals and entities in the private sector related to the program; (4) interaction with the FISA Court and transition to court orders related to the program; and (5) any other matters identified by any such Inspector General that would enable that inspector general to complete a review of the program with respect to the Inspector General's department or element. While other versions of this Inspector General audit provision may have included the requirement that the Inspectors General review the ''substance'' of the legal reviews or opinions regarding the President's Terrorist Surveillance Program, this bill expressly excludes that language. Thus, it is not intended for the Inspectors General to determine or consider the legality of the Terrorist Surveillance Program.

The Inspectors General are directed to work in conjunction, to the extent practicable, with other Inspectors General required to conduct a review, and not unnecessarily duplicate or delay any reviews or audits that have already been completed or are being undertaken with respect to the program. In addition, the Counsel of the Office of Professional Responsibility of the Department of Justice is directed to provide the report of any investigation of that office relating to the program, including any investigation of the process through which the legal reviews of the program were conducted and the substance of such reviews, to the Inspector General of the Department of Justice, who shall integrate the factual findings and conclusions of such investigation into its review.

The Inspectors General shall designate one of the Senate confirmed Inspectors General required to conduct a review to coordinate the conduct of the reviews and the preparation of the reports. The Inspectors General are to submit an interim report within sixty days to the appropriate congressional committees on their planned scope of review. The final report is to be completed no later than one year after enactment and shall be submitted in unclassified form, but may include a classified annex.

TITLE IV. OTHER PROVISIONS

Section 401. Severability

Section 401 provides that if any provision of this bill or its application is held invalid, the validity of the remainder of the Act and its application to other persons or circumstances is unaffected.

Section 402. Effective Date

Section 402 provides that except as provided in the transition procedures (Section 404 of the title), the amendments made by the bill shall take effect immediately.

Section 403. Repeals

Section 403(a) provides for the repeal of those sections of FISA enacted as amendments to FISA by the Protect America Act, except as provided otherwise in the transition procedures of Section 404, and makes technical and conforming amendments.

Section 403(b) provides for the sunset of the FISA Amendments Act on December 31, 2012, except as provided in Section 404 of the bill. This date ensures that the amendments by the Act will be reviewed during the next presidential administration. The subsection also makes technical and conforming amendments.

Section 404. Transition Procedures

Section 404 establishes transition procedures for the Protect America Act and the Foreign Intelligence Surveillance Act Amendments of 2008.

Subsection (a)(1) continues in effect orders, authorizations, and directives issued under FISA, as amended by Section 2 of the Protect America Act, until the expiration of such order, authorization or directive.

Subsection (a)(2) sets forth the provisions of FISA and the Protect America Act that continue to apply to any acquisition conducted under such Protect America Act order, authorization or directive. In addition, subsection (a) clarifies the following provisions of the Protect America Act: the protection from liability provision of subsection (l) of Section 105B of FISA as added by Section 2 of the Protect America Act; jurisdiction of the FISA Court with respect to a directive issued pursuant to the Protect America Act, and the Protect America Act reporting requirements of the Attorney General and the DNI. Subsection (a) is made effective as of the date of enactment of the Protect America Act (August 5, 2007). The purpose of these clarifications and the effective date for them is to ensure that there are no gaps in the legal protections contained in that act, including for authorized collection following the sunset of the Protect America Act, notwithstanding that its sunset provision was only extended once until February

16, 2008. Additionally, subsection (a)(3) fills a void in the Protect America Act and applies the use provisions of Section 106 of FISA to collection under the Protect America Act, in the same manner that Section 706 does for collection under Title VII.

In addition, subsection (a)(7) makes clear that if the Attorney General and the DNI seek to replace an authorization made pursuant to the Protect America Act with an authorization made under Section 702, as added by this bill, they are, to the extent practicable, to submit a certification to the FISA Court at least 30 days in advance of the expiration of such authorization. The authorizations, and any directives issued pursuant to the authorization, are to remain in effect until the FISA Court issues an order with respect to that certification.

Subsection (b) provides similar treatment for any order of the FISA Court issued under Title VII of this bill in effect on December 31, 2012.

Subsection (c) provides transition procedures for the authorizations in effect under Section 2.5 of Executive Order 12333. Those authorizations shall continue in effect until the earlier of the date that authorization expires or the date that is 90 days after the enactment of this Act. This transition provision is particularly applicable to the transition to FISA Court orders that will occur as a result of Sections 703 and 704 of FISA, as added by this bill.

Mr. BOND. Mr. President, before the recess I mentioned how the press picked up on the similarities between this bill and the Senate bill and how they kept asking me to help find out the big changes in the bill that no one could find. Well, they stopped asking me that question because they realized there is not much that is significantly different, save some cosmetic fixes that satisfied the House Democratic leadership. Since we started with a bipartisan product here in the Senate, that means we still have a very strong bipartisan bill before us.

I am very pleased that the strong liability protections the Senate bill offered are still in place and our vital intelligence sources and intelligence methods will be safeguarded. I am pleased this compromise preserves the ability of the intelligence community to collect foreign intelligence quickly and in exigent circumstances without any prior court review. I am also pleased that the 2012 sunset—3 years longer than any sunset previously offered in any House bill—will give our intelligence collectors the certainty they need and the tools they use to keep us safe. I am confident that the few changes we made to the Senate bill in H.R. 6304 will not diminish the intelligence community's ability to target terrorists overseas, and the Director of National Intelligence—the DNI—and the Attorney General agree.

I will highlight for my colleagues five of the six main tweaks to the Senate bill that we find in the bill before us, as nuanced as they may be. I say ''five'' because one of these tweaks I explained in detail before the recess. I trust all of my colleagues remember that discussion very clearly. It was that the civil liability protection provision was slightly modified but still ensures that the companies who may, in good faith, have assisted the Government in the terrorist surveillance program, or TSP, will receive relief. Another way to describe it is that we have essentially provided the district court with an appellate standard review just as we did in the Senate bill. Congress affirms in this legislation that the lawsuits will be dismissed unless the district court judge determines that the Attorney General's certification was not supported by substantial evidence based on the information the Attorney General provides to the court. The intent of Congress is clear. The Intelligence Committee found that the companies deserve liability protection. They were asked by legitimate Government authorities to assist them in a program to keep our country safe. They did it, and now they are being thanked by lawsuits designed not only to destroy their reputation but to destroy the program.

There are several misconceptions that were brought up in the discussions today. Several have said that we don't know what we are granting immunity for; we shouldn't grant it without reviewing the litigation; and there were 70 Members of the Senate who haven't even been briefed on the program. Well, the reason the Senate Select Committee on Intelligence was set up was to review some of the most important and highly classified intelligence-gathering activities of the intelligence community. It was agreed, as we all believe very strongly, that these are very important tools. No. 1, they must be overseen carefully to make sure that the constitutional rights, the privacy rights of American citizens, are protected, and at the same time, within the constitutional framework, the ability of the limited authority of the intelligence community to collect the intelligence is not inhibited. That is what the Senate Intelligence Committee has done in reporting out this bill on a 13-to-2 vote. I am very pleased that our colleagues showed confidence in us by passing this, essentially the same measure, 68 to 29 in February.

There are some who say we don't even know whom we are granting immunity to or what we are granting it to. Very simply, the people—the carriers, the good citizens—who responded to the request to protect our country from terrorist acts are now being sued, and some of them who didn't even participate may be sued. They can't say whether they participated. We are only saying if the Attorney General provides information to be judged on an appellate standard that is not without substantial supporting evidence, then these companies should be dismissed, either because they didn't participate or they participated in good faith.

It does not, as I pointed out, say the Government cannot be sued. There are some who believe—and I think they are wrong—that the President's TSP was unlawful. That can be litigated in the court system. It is being litigated. I will discuss further Judge Walker's opinion and why I think it is wrong and it will not stand up, but that doesn't change the fact that at the time the Attorney General told these American companies, these good citizens, that it was lawful for them to participate and they needed that help, they provided that help, and helped to keep our country safe. We should not thank them by slapping them with lawsuits that would not only destroy their reputation, endanger their personnel here and abroad, but potentially disclose even more of the operations of our very sensitive electronic surveillance program. The more the terrorists who wish to do us harm learn about it, the better able they are to defend against it.

These three amendments all seek to destroy that protection provided by good corporate citizens, patriotic Americans who are responding to a directive of the President, approved by the Attorney General.

Moving on to the first of the five items I haven't discussed, the first item is the concept of prior court review that was included in this language. It is important for all of us to understand that prior court review is not prior court approval. Prior court approval occurs when the court approves the actual acquisition of electronic surveillance as it does in the domestic FISA context. Prior court review, on the other hand, is limited to the court's review of the Government's certification and the targeting and minimization procedures. The prior court review contained in this bill is essentially the same as it was under the bipartisan Senate bill. However, the timing has been changed to allow the court to conduct its review before the Attorney General and the DNI authorize actual acquisition.

The bottom line here is that what many of us feared in prior court approval scenarios has been avoided. To ensure that will always remain the case, we have included a generous ''exigent circumstances'' provision offered by House Majority Leader HOYER that allows the Attorney General and the DNI to act immediately if intelligence may be lost or not timely acquired. I thank Leader HOYER for that suggestion. Thus, a finding of exigent circumstances requires a much lower threshold than an emergency under traditional FISA.

One of our nonnegotiables in reaching this agreement is that the continued intelligence collection would be assured and uninterrupted by court procedures and delays. It is only because this broad ''exigent circumstances'' exemption allows for continuous collection that I can wholeheartedly support this nuanced version of prior court review of the DNI and the AG authorizations.

Second, we agreed to language insisted upon by House Speaker PELOSI regarding an ''exclusive means'' provision. I am confident that the exclusive means provision we have agreed to will not—and indeed cannot—preclude the

President from exercising his constitutional authority to conduct warrantless foreign intelligence surveillance. That is the President's article II constitutional power that no statute can remove, and case law, including recent statements in opinions by the FISA Court itself, reaffirmed this.

I am aware, as several people have discussed, of the district court's ruling last week in California where, in a suit against the Government, the judge stated in dicta that:

> Congress appears clearly to have intended to—and did—establish the exclusive means for foreign intelligence surveillance activities to be conducted.

Interestingly, Judge Walker ignored legislative history which acknowledged the President's inherent constitutional authority. Even though it may have been placed at the lowest ebb, if you agree with that interpretation of the constitutional limitations cited in the Senate Intelligence Committee report on the Senate FISA bill, he still has that authority.

For a variety of reasons, I strongly believe Judge Walker's decision will not stand on appeal. As to the court's comments on exclusive means, there is a fair amount of dictum standing in opposition to his opinion. I happen to think it is right.

For example, the FISA Court in 2002 ruled In re: Sealed Case—a very important decision which I urge everybody to read, if they have time—noted with approval the U.S. Fourth Circuit's holding in the Truong case that the President does have ''inherent authority to conduct warrantless searches to obtain foreign intelligence information.''

The Truong case involved a U.S. person in the United States, and the surveillance was ordered by the Carter administration without getting a warrant. The Fourth Circuit upheld that action in the criminal prosecution of Truong.

These decisions, along with others like them, were ignored by the analysis of the district court judge last week. At most, this exclusive means provision only places the President at his lowest ebb under the third prong of the steel seizure case analysis, which I do not accept as being valid. But if you use that test, it still exists.

That is exactly where the President was when FISA was passed in 1978, and the revised exclusive means provision in this bill does not change that fact.

We should remember, however, even at its lowest ebb, the President's authority with respect to intercepting enemy communications is still quite strong, especially when compared to the nonexistent capability of Congress to engage in similar interception activities.

It has been said that the President initiated this without any congressional notice. I was not among them at the time, but I understand the Gang of 8 was thoroughly briefed before they started this program. The Gang of 8, for those who may be listening and may not be aware, consists of the Republican and Democratic leaders and second leaders in this body and the other body and the Democratic and Republican leaders of the House and the Senate Intelligence Committees. I believe these people were briefed on this program, and I understand that advice was given in that meeting that we could not change the FISA statute to enable the collection of vital information in any timely fashion; that we could not wait to start listening in on foreign terrorists abroad, possibly plotting against this country, until we passed it.

I think they were right. It has been 15 months since we were told that we needed to revise FISA. Outside of one 6-month, 15-day patch that we elected to adopt last August, we have not been able to change it. I hope a mere 15 months will allow us to change it. But the fact is, had we not had the concurrence of the Gang of 8 in the TSP, it is likely we would not be talking with shock and horror about 9/11, but we would be talking about other similar incidents occurring in the United States.

I believe with respect to the Speaker's own language, conditional language that she offered to us, it actually reinforces the President's article II authority. That bill language we accepted states:

> If a certification . . . for assistance to obtain foreign intelligence information is based on statutory authority, the certification shall identify the specific statutory provision and shall certify that the statutory requirements have been met.

The obvious implication from this language is if a certification is not based on statutory authority, then citing statutory authority would be unnecessary. This language acknowledges that certifications may be based on something other than statutory authority; namely, the President's inherent constitutional authority. Furthermore, the DNI and Attorney General have assured me there will not be any operational impediments due to this provision. From a constitutional perspective, this language actually improved upon what we were looking at before in the Senate.

What Congress is clearly saying in this language is FISA is the exclusive statutory means for conducting electronic surveillance for intelligence purposes.

I am well aware that some will argue that there is no nonstatutory or constitutional means, but I can remember a long time ago when I was in a basic constitutional law course in law school that the Constitution trumps statutes. What the Constitution gives in rights or powers or authority cannot be exterminated, eliminated, or taken out by statute.

The courts have clearly said the President has that constitutional authority. I mentioned the Carter administration and the Truong case, but on a historical note, it is interesting to note that when President Clinton ordered a warrantless physical search, not electronic eavesdropping but a more intrusive, actual physical search of Aldrich Ames' residence in 1993, Congress responded by seeking to bolster the President's authority by updating FISA to include physical searches.

Aldrich Ames is a U.S. citizen, probably still in prison. Let's pause and think about that: President Clinton ordered a warrantless physical search of an American citizen inside the United States, and what did Congress do? Congress sought to assist the President instead of accuse him of illegal activity. It sought to help him. I would hope some of my colleagues would take a similar approach as we did with President Clinton before.

Third, as a part of our compromise with the House Democrats, we agreed to replace our version of what we call a carve-out from the definition of electronic surveillance with their definition of a carve-out which they call construction. Operationally, there is no difference between the two approaches, but we think our approach is more forthright with the American people because we put our carve-out right up front instead of burying it several chapters later in title VII of FISA as they wanted to do.

Why did they do this? I am sure this is not of great moment to anybody here, but let me say that it was clear from negotiations the other side wanted to be able to come out of the negotiations and say: We wrestled the Republicans back to the original definition of ''electronic surveillance'' in the 1978 FISA Act, but they failed to mention they buried their carve-out deep in this legislation, and it has the same effect.

They also failed to remind folks it was the original language of the 1978 FISA Act that, due to technology changes, got us into this mess in the first place.

Last year, when the DNI first asked us to modernize FISA, he requested we create a technology-neutral definition of ''electronic surveillance.'' I believed then and I still believe we should redefine ''electronic surveillance.'' FISA is complicated enough, and we should be forthright with the American people.

But some other leaders prefer for political reasons to bury construction provisions deep within the bill instead of presenting an upfront, crystal-clear carve-out. One consequence of their approach is that the same acquisition activities the Government uses to target non-U.S. persons overseas will trigger both the definition of electronic surveillance in title I of FISA and the construction provision in section 7.

Essentially, we have agreed to build an unnecessary internal inconsistency in statute as a political compromise. I reluctantly agreed to do this because the DNI and the Attorney General assured us that going for the carve-out

now would not create any operational problems for the intelligence community, but we should fix this in the future during less politically charged times.

For historical note, it should be remembered that the American Government was able to intercept radio communications long before we got into this stage of the intercepts without getting court orders. They were intercepting overseas communications which might have been coming into the United States, and they followed the same procedure that we do now. That was called the procedure of minimization for innocent conversations. Just like the case back when the radio interceptions were going forward, there is not, as I have said before, any evidence that we have seen that innocent Americans were being listened in on.

The bugaboo that this gives the intelligence community the right to listen in on ordinary citizens' conversations willy-nilly, without any limitations, is absolutely false. That is why we built in the protections in the law. That is why we have the layers of supervision to make sure it does not happen.

Fourth, we included a provision for coordinated inspector general audits of the TSP. However, the IGs will not review the substance of the legal reviews related to the President's TSP. In other words, they will not review whether the program was lawful.

I know some colleagues are saying the opposite in the media, but I encourage them to read the language because it is accurate. It is accurate that the IGs will not review whether the program was lawful.

The Senate Intelligence Committee already conducted an exhaustive review of the TSP and found no legal or unlawful conduct. There is no need for an IG audit to second-guess the bipartisan determination. Numerous IGs have already conducted reviews, and several reviews are ongoing. I cannot imagine the IG finding out anything different than they already have or that the Intelligence Committee has found for that matter. But it does make for good politics in an election year to say Congress mandated these reviews even if, in some cases, they will simply be doing reviews that have already been done. To reach agreement, we reluctantly agreed to a more redundant review on the overly taxed intelligence community.

I offer to those who want to challenge the lawfulness of the President's Terrorist Surveillance Program that this bill does not block plaintiff suits against the Government or Government officials. We only offer civil liability protection for providers in the bill. The court case I mentioned earlier against the Government will be able to proceed unaffected by this legislation.

Fifth, and finally, we agreed to a 5-year sunset instead of 6 years. I don't like sunsets. As intelligence community leaders have told us, there are no sunsets in fatwahs against the United States issued by al-Qaida leaders. I only agreed to a 6-year sunset in the Senate bill as a bipartisan compromise. But even with a 5-year sunset, Congress is unlikely to take up FISA reform again in the fall of a Presidential election year, and I trust they will have the good wisdom to push the sunset out longer so they don't find themselves in an election year going through the same drill. Regardless, there is little operational impact.

Remember, it is the job of the House and Senate Intelligence Committees to conduct ongoing, continuing oversight of electronic surveillance, as well as the rest of the intelligence community's programs. If we see the need to make changes before sunset, we will. A sunset does not change that.

In the end, I am proud to say we accomplished our collective goals of making sure we have a bill with clear authorities for foreign targeting, with strong protections for U.S. persons, and with civil liability protection for those providers who allegedly assisted with the President's TSP. We are in a better position today than we were a few months ago legislatively because we not only have the Senate bill before us in essence all over again—and one that received 68 votes the last time—but we have it before us already having passed the House. We know we have a bill we can send straight to the President that the Attorney General and DNI would support and the President can sign into law.

Should we fail to do so, there is a real danger we could fall back into the trap we were in last summer when because of the existing underlying outmoded FISA bill, we put the intelligence community out of business of collecting much vital intelligence during a brief period, far too long, but brief nevertheless.

Why is having essentially the Senate bill with minor tweaks before us all over again a major bipartisan victory? I answer: Because the Senate bill we passed a few months ago was the delicate bipartisan compromise that took months to produce. We had the bipartisan product that increased civil liability protections more than ever before and gave our intelligence operators the tools they needed to keep us safe. I am proud of that bipartisan bill, proud to have negotiated with the House to bring it back to the Senate with essentially the same position in a major bipartisan victory for all sides.

Mr. President, I will reserve the rest of my comments in appreciation of my colleagues. I thank the Chair, and I yield the floor.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. SPECTER. Mr. President, I ask if the Senator from Missouri will yield for two questions?

The PRESIDING OFFICER. The Senator from Missouri has used his time.

Mr. SPECTER. Will the Chair repeat that?

The PRESIDING OFFICER. The Senator from Missouri has used his entire 29 minutes allocated under the previous order.

Mr. SPECTER. Mr. President, I will yield myself 5 minutes from my time on the amendment which is scheduled later this afternoon.

The PRESIDING OFFICER. Does the Senator from Missouri consent to being questioned by the Senator from Pennsylvania?

Mr. BOND. Of course. I would be honored.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. SPECTER. The first question I have relates to the Senator's contention that the action by the Intelligence Committee is sufficient.

We know from the representations made earlier today that some 70 Members of the Senate have not been briefed on this subject, and the House leadership has said that the majority of the House Members have not been briefed on this subject. There is no question that a Member's constitutional authority cannot be delegated to another Member. Under the procedures of the Senate and the House but focusing on the Senate, which is where we are, the committees hear the matters, they file reports, they make disclosure to the full body, and the full body then acts.

The question I have for the Senator from Missouri is: How can some 70 Members of the Senate be expected to cast an intelligent vote granting retroactive immunity to a program that the Senators have not been briefed on and don't know about, in light of the clear-cut rule that we cannot delegate our constitutional responsibilities?

Mr. BOND. Well, to reply to my friend—who served in the past on the Intelligence Committee, I believe—that committee was set up to handle matters that involved the most critical classified information. The committee was set up, long before I came to the Senate, to provide a forum, a bipartisan group of Senators with a very able staff, to go over everything that was done in the intelligence community, to oversee it, to make sure it was proper, to make sure it stayed within the guidelines and to provide support and change it where necessary.

Now, I have fought very strongly, alongside my colleague, the chairman, to get the full committee briefed on all these programs. As I have said before, the terrorist surveillance program was not briefed to the full committee, it was briefed and then oversight held with eight people. This, to me, was a mistake. I believe it should have been briefed to the entire committee, but the members of that group of eight did know about it and were briefed about it.

Now, I might say to my good friend, the Senator from Pennsylvania, that we have many important committees putting out legislation on the floor. No person can participate in all the committee work. No person can be involved

in every committee. So we have to take the reports, and usually on a bipartisan agreement or disagreement, based on what our colleagues in those committees have studied, have reviewed, and have found to be the case. In this case, an overwhelmingly bipartisan majority of 13 to 2, after studying the bill and the question for 6 months and engaging in about 2 solid months of hard work, found out it was appropriate to give retroactive liability protection to these companies that had acted in good faith.

We were shown the certifications and the authorizations that went to them, and I believe, based on my legal background, that those were adequate and sufficient for these companies to participate. Let us remember, these were critical times. We had just experienced an attack. We were being threatened with more attacks. The Government went to some of these—not all of them but some—companies and said: Please help us. You must help us. We believe in the committee that their actions should not be punished but should be rewarded by preventing them from being harassed by lawsuits.

The legality of the program, if it is to be judged, was not one for a judgment for those companies to make, but it will be played out in Judge Walker's and other courtrooms.

Mr. SPECTER. Mr. President, on my time, which we are on, may I say, before moving to the second brief question, that I admire what the Senator from Missouri has done as vice chairman. I see his diligent work, and I know what the Intelligence Committee is involved with because I served on it for 8 years and chaired it in the 104th Congress. But when the Senator from Missouri delineates even the fewer members within the Intelligence Committee who were briefed, it underscores my point, and that is that most Senators haven't been briefed.

While it is true every Senator does not know what is in every committee report, at least every Senator has access to it, and it is not a matter where there are secret facts and there has been no briefing of them, or where there has been no disclosure and they are called upon to vote. Significantly, the Senator does not deny that no Senator can delegate his constitutional authority, and that is exactly what 70 Senators will be doing.

Let me move within my 5-minute time limit because time is fleeting and there is a great deal to argue.

The PRESIDING OFFICER. The Senator has used 6 minutes. There is 4 minutes remaining.

Mr. SPECTER. We have here litigation which has been ongoing in the Federal court in San Francisco for several years, and a very extended opinion was filed on July 20 of 2006 by Chief Judge Walker on the telephone case on the state secrets doctrine, and that case is now on appeal to the Court of Appeals for the Ninth Circuit.

Here we have a context where the Congress has been totally ineffective in limiting executive authority, where the Executive has violated the specific mandate of the National Security Act of 1947 to brief all members of the Intelligence Committee. It hasn't been done. The Congress has been ineffective on the Foreign Intelligence Surveillance Act, where the Supreme Court denied cert, as I said earlier today, and ducked the decision. Although from the dissenting opinion in the Sixth Circuit, they could have found the requisite standing. Now we have Chief Judge Walker coming down with a 56-page opinion last Wednesday, which does bear on the telephone case. I concede, as the Senator from Missouri has said, that the telephone companies have been good citizens. But there is a way to save them harmless with the amendment I offered in February to substitute the Government in the shoes of the telephone companies.

Have they had problems with their reputation? Well, perhaps so, but they can withstand that. Have they had legal expenses? Well, those can be compensated by indemnity from the Government. We are all called upon to make sacrifices. My father, who served in World War I, was wounded in action. My brother served in World War II. I served 2 years in the Korean war, stateside. I don't think the telephone companies, given their positions, as regulated companies, have been asked for too much. I think it is highly unlikely they would ever have to pay a dime, but that could all be handled by substitution, so we look at a situation where we can both have this electronic surveillance program continue and not give up court jurisdiction through court stripping.

So that brings me to my question: Does the Senator from Missouri now know of any case—there have been jurisdictional issues of a variety of sorts—but any case involving constitutional rights, which has been pending for more than 3 years and is in midstream on appeal to the Court of Appeals for the Ninth Circuit—from a very learned opinion handed down by Chief Judge Walker in 2006—when the Congress has stepped in and taken the case away from the courts, in a context where there is no other way to get a judicial determination on the constitutionality of this conduct?

Mr. BOND. Mr. President, I am happy to answer my colleague. He has stated that the Executive has violated the laws. Not under the constitutional authority that I have outlined. The FISA Court itself recognized what he fails to understand; that it is not a question of the carriers being held liable for any amount of money. Because I agree with him, they are not going to find anybody liable. But what they would do, by continuing having this out in open hearing, is to disclose the most secretive methods and procedures used by our intelligence community, giving the terrorists and those who seek to do us harm a roadmap for getting around it and avoiding those intercepts.

Now, what it would also do is expose those companies to tremendous public scorn and possibly even to injury to their property or to their personnel. Where they operate overseas, they might be attacked. When we started this debate, my colleague, the senior Senator from Illinois, was talking about how an unwarranted disclosure of a question about one of the vitally important exchanges operating in Chicago had cost billions of dollars to that exchange.

When you leak out something that is classified, when you leak out something that is secret, you can have a tremendous impact, and every shareholder of that exchange and every shareholder, whether it be in your pension fund or anyone else, of one of the carriers that might be drawn out and drawn into court in one of these actions, would lose significantly.

Now, to answer the question put specifically by the Senator from Pennsylvania, the cases against the Government are not blocked. The cases against the Government are not blocked. If we are looking for a means of determining the constitutionality, which I believe exists—he obviously doesn't believe exists. OK, we have a disagreement. He is a learned lawyer, and I studied constitutional law a long time ago. We have different views. I can line up a bunch of constitutional law professors on my side. I am sure he can do the same. But that court can go forward because a suit really is a suit against the government.

I think he is right when he is saying he doesn't want to hurt the companies. I don't believe any significant number of Members of this body want to hurt the employees or their shareholders of the companies that may have participated because they were true American heroes. But if he wants to solve the problem that he has—getting court review—then there is no bar in this legislation to a suit against the Government, a Government officer, or a Government agent.

Mr. SPECTER. Mr. President, on my time.

The PRESIDING OFFICER. The Senator from Pennsylvania is advised he has used all his time—13 minutes.

Mr. SPECTER. I yield myself 3 more minutes.

The PRESIDING OFFICER. The Senator has 3 minutes.

Mr. SPECTER. On my time, Mr. President.

When the Senator from Missouri talks about being exposed to risks or physical harm, that is happening to American soldiers every day around the world, as we know. It happened to my father serving in World War I. There are certain risks, physical or otherwise, which have to be sustained in a democracy doing our duty. We talk about money, about costs. Dollars and cents don't amount to a hill of beans when you are talking about constitutional rights.

When the Senator from Missouri talks about the case can continue

against the Government, that is a fallacious argument. The Government has the defense of governmental immunity. The telephone companies do not have that.

I offered the amendment in February to have the Government step into the shoes of the telephone companies with no different defenses. They would have state secrets but no governmental immunity. That was turned down. It is a very different matter to drop suits as to the telephone companies. They do not have governmental immunity. It is very different. Significantly, when challenged for any case which has been going on for years, with these kinds of opinions by the Chief Judge in San Francisco and on appeal to the Court of Appeals for the Ninth Circuit, for the Congress to step in and take away jurisdiction is an anathema. In the context of congressional ineffectiveness on oversight on separation of powers and in the context of the Supreme Court of the United States, which, as I elaborated earlier today, has ducked it, the only way to get this decision is to let the courts proceed. Congress is ineffective on curtailing executive authority. That is why I think it is so important that we can both keep this surveillance program and at the same time protect constitutional rights.

Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator has consumed 15 minutes, so he has 45 minutes remaining on his amendment.

Mr. SPECTER. I yield the floor.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. BINGAMAN. Mr. President, could the Presiding Officer please indicate what the order of sequence of events is at this point?

The PRESIDING OFFICER. The Senator from New Mexico is authorized to offer his amendment with 1 hour of debate equally divided.

Mr. BINGAMAN. Let me defer to my friend from Michigan. Let me indicate I will plan to use the first 15 minutes of the 30 minutes allocated to me to make a statement now, and then Senator CASEY from Pennsylvania will take 5 minutes, and then Senator LEVIN from Michigan will have the remaining 10 minutes. That is my plan.

I believe the Senator from Michigan wanted to state a question.

Mr. LEVIN. Mr. President, parliamentary inquiry. I thank my friend from New Mexico.

The PRESIDING OFFICER. The Senator from Michigan is recognized.

Mr. LEVIN. Under the plan that was just stated, if 10 minutes is yielded to this Senator, can the 10 minutes be used at any time this afternoon or must it follow immediately in sequence to either Senator CASEY or Senator BINGAMAN?

The PRESIDING OFFICER. The 10 minutes would have to be used sometime this afternoon.

Mr. LEVIN. At any time this afternoon. I thank the Presiding Officer.

AMENDMENT NO. 5066

Mr. BINGAMAN. Mr. President, I ask to call up amendment No. 5066.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from New Mexico [Mr. BINGAMAN], for himself, Mr. CASEY, and Mr. SPECTER, proposes an amendment numbered 5066.

Mr. BINGAMAN. I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To stay pending cases against certain telecommunications companies and provide that such companies may not seek retroactive immunity until 90 days after the date the final report of the Inspectors General on the President's Surveillance Program is submitted to Congress)

Beginning on page 88, strike line 23 and all that follows through page 90, line 15, and insert the following:

''(a) REQUIREMENT FOR CERTIFICATION.—

''(1) IN GENERAL.—Notwithstanding any other provision of law other than paragraph (2), a civil action may not lie or be maintained in a Federal or State court against any person for providing assistance to an element of the intelligence community, and shall be promptly dismissed, if the Attorney General certifies to the district court of the United States in which such action is pending that—

''(A) any assistance by that person was provided pursuant to an order of the court established under section 103(a) directing such assistance;

''(B) any assistance by that person was provided pursuant to a certification in writing under section 2511(2)(a)(ii)(B) or 2709(b) of title 18, United States Code;

''(C) any assistance by that person was provided pursuant to a directive under section 102(a)(4), 105B(e), as added by section 2 of the Protect America Act of 2007 (Public Law 110–55; 121 Stat. 553), or 702(h) directing such assistance;

''(D) in the case of a covered civil action, the assistance alleged to have been provided by the electronic communication service provider was—

''(i) in connection with an intelligence activity involving communications that was—

''(I) authorized by the President during the period beginning on September 11, 2001, and ending on January 17, 2007; and

''(II) designed to detect or prevent a terrorist attack, or activities in preparation for a terrorist attack, against the United States; and

''(ii) the subject of a written request or directive, or a series of written requests or directives, from the Attorney General or the head of an element of the intelligence community (or the deputy of such person) to the electronic communication service provider indicating that the activity was—

''(I) authorized by the President; and

''(II) determined to be lawful; or

''(E) the person did not provide the alleged assistance.

''(2) LIMITATION ON IMPLEMENTATION.—

''(A) IN GENERAL.—The Attorney General may not make a certification for any civil action described in paragraph (1)(D) until after the date described in subparagraph (C).

''(B) STAY OF CIVIL ACTIONS.—During the period beginning on the date of the enactment of the FISA Amendments Act of 2008 and ending on the date described in subparagraph (C), a civil action described in paragraph (1)(D) shall be stayed by the court in which the civil action is pending.

''(C) DATE DESCRIBED.—The date described in this subparagraph is the date that is 90 days after the final report described in section 301(c)(2) of the FISA Amendments Act of 2008 is submitted to the appropriate committees of Congress, as required by such section.''.

Mr. BINGAMAN. Mr. President, this is an amendment cosponsored by Senators CASEY and SPECTER. The main thrust of this amendment is to make a point that this legislation which is currently before us puts the cart before the horse. As soon as we enact the legislation, it essentially grants telecommunications companies retroactive immunity for their past actions, but then after the fact, after they have been granted that retroactive immunity, it requires that an in-depth investigation occur regarding what those activities actually were.

The purpose of the amendment I am offering is simply to put the horse and the cart in the right order. I believe this chart makes the case very well. Let me just allude to this chart.

First, let's look at the process for dismissing lawsuits under the current bill, the way the bill now pends. That is the top line here. You can see the first step would be to enact provisions that would set up a procedure for the telecom companies to seek the retroactive immunity.

Second, in the middle here, in accordance with the underlying provisions, the pending civil cases would almost certainly be promptly dismissed as soon as the Attorney General makes the necessary certifications.

Then the last step, over here at the right—it is very difficult to read from any distance, but the last step says, ''IG's investigation and report to Congress.'' The last step would be investigation about whether the companies' participation in the President's warrantless wiretapping program was lawful and whether the relevant inspectors general can report back to Congress with their findings within a year. That is a requirement in the bill, that they do that report within 1 year.

Basically, the current bill's approach is to grant the immunity first and investigate later, after the companies have already been provided with legal liability protection for whatever it is later determined they have been engaged in. The amendment I am offering would change this by modifying the timing of the process that enables these telecom companies to seek immunity, and it changes it so that the investigation of what has occurred would occur first. Only after that investigation has been completed would we allow the immunity to be granted.

Under the amendment—this is the bottom part of this chart—the first step would still be to enact the legislation establishing the procedures for companies to seek immunity. At the same time, the amendment would stay all of the pending court cases against the telecom companies, thereby putting all those cases on hold. The second

step would be to allow the inspectors general—that is, from each of these Federal agencies that are designated in the statute—allow the inspectors general to conduct their investigation and to inform Congress about what they found. The amendment would then give Congress 90 days to review those findings, after which time the companies could go ahead and seek dismissal of their lawsuits. So the dismissal of the lawsuits would be the last step and not the first step and could only occur after the investigation was complete and after Congress had an opportunity to review their report that has been done.

The bill does recognize that it is important to understand all the facts surrounding the President's warrantless program. I am glad the legislation requires that the relevant inspectors general come to Congress with a report on the subject. This review will cover the establishment and implementation and use of the surveillance program, as well as the participation of private telecom companies.

However, as I have discussed, the bill also allows the same telecom companies to immediately seek and to obtain retroactive immunity for their participation in the program as soon as the bill becomes law. And that is a mistake, in my view. I find it troubling that Congress would confer immunity before the full extent of the companies' participation in the program is known. Maybe these companies acted in good faith, as some of my colleagues have argued. Maybe they did not. I don't know, myself, what the facts are, but, like most Members of Congress who do not sit on the Intelligence Committee or the Judiciary Committee, I received very little information regarding what actually did occur. I do know, however, that their participation in an unlawful, warrantless surveillance program is a serious issue. It deserves the in-depth review we call for in this legislation, but it deserves that review before we grant those companies blanket protection for their past actions. If we go down this path without first conducting the thorough review, we may very well look back with great regret.

To me, a much more sensible approach would be to have the comprehensive IG report submitted to Congress before companies are allowed to seek dismissal of their suits. The amendment would stay all of the civil cases against the telecom companies. It would allow time for the inspectors general to investigate the circumstances surrounding the President's warrantless surveillance program. It would give Congress the 90 days to review what is found in the IG's report.

While retaining the overall substance and structure of the bill, this would give Congress an opportunity, even though it is a brief opportunity, to at least review the inspectors general report before the companies would be permitted to apply for immunity. If Congress does not affirmatively pass legislation within 90 days of getting the report from the inspectors general, then the companies would be free to seek relief from the court.

I would also like to take just a minute to discuss what the amendment would not do. The amendment is not a deal breaker. The amendment would not remove or alter the substantive provisions in the immunity title of the bill. With passage of this amendment, those provisions would remain intact. Personally, I am opposed to retroactive immunity, but the amendment I am offering does not change the substance of those provisions.

Additionally, by staying the pending lawsuits, the companies would not be subject to the costs of litigation during the development of the IG report or while Congress reviews the report's findings. Proceedings in these cases would be suspended until the called-for report is delivered to Congress and the 90 days have passed.

Some of my colleagues have expressed concerns that unless we immediately grant the telecom companies retroactive immunity, they will refuse to provide assistance in the future. I think that is unfounded. Clearly they are under an obligation to do so under the language of this bill.

Regardless of whether Senators generally favor the legislation or are adamantly opposed to it; that is, the underlying legislation, I hope my colleagues will agree that this amendment is a reasonable modification which would, in fact, improve the bill.

Let me point out one other red herring that has come up. In a letter to Senate leadership dated yesterday, July 7, the administration urged that my amendment:

> . . . fails to address the risk that on-going litigation will result in the release of sensitive national security information, a risk that, if realized, could cause grave harm to the national security.

I suggest the Attorney General and the Director of National Intelligence need to read the amendment I am offering. As I stated, the amendment puts all of the cases on hold. There would be no ongoing activity during the time that proceedings in these cases were stayed, so there is no activity that could create a risk of releasing sensitive information.

This is a good amendment. It would improve this bill. It would make it more logical and certainly improve our ability to understand what it is we are being asked to grant immunity for. I urge my colleagues to support it.

I yield the floor.

The PRESIDING OFFICER (Mr. SANDERS). The Senator from Missouri is recognized.

Mr. BOND. Mr. President, I yield myself 10 minutes in opposition.

When the inspector general audit provisions were first discussed in the House and Senate, there was a great concern that these audits would be used to delay or deny essential civil liability protections. Unfortunately, this amendment shows that these concerns were justified.

When negotiating this compromise legislation with House Majority Leader HOYER, I agreed in good faith to a limited inspector general review of the President's terrorist surveillance program even though this program has been reviewed up and down on a bipartisan basis by the Senate Intelligence Committee and no abuse or wrongdoing had been found.

Now, in what I could only assume is a political move to undermine the critical civil liability protections in this bill, this amendment delays any liability protection until 90 days after the inspector general review of the bill is completed. What is supposed to happen after that is anything but clear, but I can only assume that will be followed by yet another effort to delay liability relief. That is extraordinarily and unacceptably unfair to those providers that assisted the Government in the aftermath of the September 11 terrorist attacks. We owe them our thanks, not our continued partisan maneuvering.

Earlier, we heard a justification for exposing these providers to public light, having participated in a classified program. The assertion was made: It is like our troops who go abroad and go under fire. Mr. President, as the father of a son who spent 20 months in the last 3 years as a marine sniper in Iraq, I can tell you that they go under tremendous threat and tremendous danger. But they are extremely well trained, they are extremely well supported, and they are extremely well armed.

To say with a straight face that we can subject private companies to that, private companies with American citizens working for them, and that we don't care if they are attacked when they don't have any protection, they don't have any weapons, they don't have any training, I think goes way too far.

That is not reasonable. Let's not hear any more of that stuff, that they should be put in the same position as our trained military men and women who go into battle accepting the risks of battle. These people, these good American citizens, did not expect to be under physical attack.

How often are we going to tell those patriotic Americans we have to delay further any halt to the lawsuits so we can ''review'' the terrorist surveillance program? Enough is enough. Inspectors general have very clear roles in our Government. They determine if there is waste, fraud, or abuse. Their review under title IV of this bill is essentially for these purposes. They will not determine whether the TSP was lawful. They will not determine whether the providers acted in good faith. That is for the court to do.

So exactly what purpose does it serve to delay liability relief to these companies? The only purpose I can think of is to appease these liberal activists who

have tried repeatedly throughout this FISA debate to tie the hands of the intelligence community and punish these companies with frivolous lawsuits.

What message are we sending to all of those private partners who help our intelligence community, our military, our law enforcement community on a daily basis far beyond the FISA context: Help us now, but we cannot guarantee that years later you will not be taken to the cleaners because you did. Is that an incentive? Is that the way we want to deal with fellow Americans whose help we need?

I appreciate there is serious debate about whether the President has article II authority to conduct surveillance. But this is a debate that should not impact whether these providers, who trusted their Government, who in good faith, on the word of the Attorney General, helped to ensure our homeland did not suffer another terrorist attack. And we think they should be treated fairly and protected.

We need to remember the Senate Intelligence Committee conducted an exhaustive review of the TSP. It found no evidence of illegal or unlawful conduct either by the providers or the Government. We agreed on a bipartisan basis, ratified by the Senate, that the providers acted in good faith. So I do not see how waiting to give them the fair and just relief they deserve advances any goals. It is more likely, the longer these lawsuits, these frivolous lawsuits go on, that our most sensitive sources and methods will be revealed. It becomes much more likely that the providers who helped us will refuse to do so unless we go through a lengthy process to compel them.

We went without cooperation for some time when the act expired, and it was only on the assurance of prompt action that they were able to withstand shareholder pressure and the advice of lawyers not to worry.

The Attorney General and the DNI sent a letter on July 7. It says:

Any FISA modernization bill must contain effective legal protection for those companies sued because they're believed to have helped the Government prevent terrorist attacks. Liability protection, a fair and just result, is necessary to ensure the continued assistance of the private sector.

H.R. 6304 contains such protection, but the amendment addressed in this letter

Essentially the Bingaman amendment—

would unnecessarily delay implementation of the protections with the purpose of deferring any decision on this issue for more than a year.

Accordingly, we as well as the President's other senior advisors will recommend that the President veto any bill that includes such an amendment. The Intelligence Committee has recognized the intelligence community cannot obtain intelligence it needs without assistance from these companies. We recognize that the companies in the future may be less willing to assist the Government if they face the threat of lawsuits, and we know that a delay could result in the very degradation and the cooperation that this bill was designed to provide. Continued delay in protecting those who provided assistance will be invariably noted by those who may some day be called upon to help us again.

Finally, by raising the prospect that the litigation at issue could eventually proceed, this amendment fails to address the risks that ongoing litigation will result in release of national security sensitive information, a risk that if realized could cause grave harm to national security.

I reserve the remainder of my time on this side. I ask unanimous consent that after the Senator from Pennsylvania is recognized, the chairman of the committee be recognized for 10 minutes.

I ask unanimous consent that this letter addressed to Leader REID from the DNI and the Attorney General be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

JULY 7, 2008.

Hon. HARRY REID,

Majority Leader, U.S. Senate, Hart Senate Office Building, Washington, DC.

DEAR MR. LEADER: This letter presents the views of the Administration on an amendment to the Foreign Intelligence Surveillance Act of 1978 (''FISA'') Amendments Act of 2008 (H.R. 6304) that was not covered in our letter of June 26, 2008. As we stated in that letter, we strongly support enactment of H.R. 6304, which would represent an historic modernization of FISA to reflect dramatic changes in communications technology over the last 30 years. This bill, which passed the House of Representatives by a wide margin of 293–129, is the result of a bipartisan effort that will place the Nation's foreign intelligence effort in this area on a firm, long-term foundation. The bill provides our intelligence professionals the tools they need to protect the country and protects companies whose assistance is vital to this effort from lawsuits for past and future cooperation with the Government.

As we have previously noted, any FISA modernization bill must contain effective legal protections for those companies sued because they are believed to have helped the government prevent terrorist attacks in the aftermath of September 11, 2001. Liability protection is the fair and just result and is necessary to ensure the continued assistance of the private sector. H.R. 6304 contains such protection, but the amendment addressed in this letter would unnecessarily delay implementation of the protections with the purpose of deferring any decision on this issue for more than a year. This amendment would reportedly foreclose an electronic communication service provider from receiving retroactive liability protection until 90 days after the Inspectors General of various departments, as required by section 301 of H.R. 6304, complete a comprehensive review of, and submit a final report on, communications intelligence activities authorized by the President between September 11, 2001, and January 17, 2007. The final report is not due for a year after the enactment of the bill. Any amendment that would delay implementation of the liability protections in this manner is unacceptable. Providing prompt liability protection is critical to the national security. Accordingly, we, as well as the President's other senior advisors, will recommend that the President veto any bill that includes such an amendment.

Continuing to deny appropriate protection to private parties that cooperated in good faith with the Government in the aftermath of the attacks of September 11 has negative consequences for our national security. The Senate Intelligence Committee recognized that ''the intelligence community cannot obtain the intelligence it needs without assistance from these companies.'' That committee also recognized that companies in the future may be less willing to assist the Government if they face the threat of private lawsuits each time they are alleged to have provided assistance, and that the ''possible reduction intelligence that might result from this delay is simply unacceptable for the safety of our Nation.'' These cases have already been pending for years, and delaying implementation of appropriate liability protection as proposed by the amendment would mean that the companies would still face the prospect of defending against multi-billion-dollar claims and would continue to suffer from the uncertainty of pending litigation. Indeed, the apparent purpose of the amendment is to postpone a decision on whether to provide liability protection at all. Such a result would defeat the point of the carefully considered and bipartisan retroactive liability protections in H.R. 6304—to provide for the expeditious dismissal of the relevant cases in those circumstances in which the Attorney General makes, and the district court reviews, the necessary certifications—and could result in the very degradation in private cooperation that the bill was designed to prevent. The intelligence community, as well as law enforcement and homeland security agencies, continue to rely ont he voluntary cooperation and assistance of private parties in other areas. Continued delay in protecting those who provided assistance after September 11 will invariably be noted by those who may someday be called upon again to help the Nation. Finally, by raising the prospect that the litigation at issue could eventually proceed, this amendment fails to address the risk that ongoing litigation will result in the release of sensitive national security information, a risk that, if realized, could cause grave harm to the national security.

Deferring a final decision on retroactive liability protection for 15 months while the Inspectors General complete the review required by H.R. 6304 is also unnecessary. The Senate Intelligence Committee conducted an extensive study of the issue, which included the review of the relevant classified documents, numerous hearings, and testimony. after completing this comprehensive review, the Committee determined that providers had acted in response to written requests or directives stating that the activities had been authorized by the President and had been determined to be lawful, and that the providers ''had a good faith basis'' for responding to the requests for assistance they received. Accordingly, the Committee agreed to the necessary legal protections on a 13–2 vote. Similarly, the Intelligence Committee of the House of Representatives has been extensively briefed and has exercised thorough oversight in regard to these intelligence matters. We also have made extraordinarily sensitive information available to the Judiciary Committees of both the Senate and House.

The Senate passed a prior version (S. 2248) of the current pending bill, which included retroactive liability protection, by a vote of 68–29. Both Houses of Congress, by wide bipartisan margins, have now made the judgment that retroactive liability protection is the appropriate and fair result. The Congress has been considering this issue for over two years and conducted extensive oversight in this area. During this period, we have emphasized the critical nature of private sector cooperation in protecting our national security and the difficulties of obtaining such cooperation while issues of liability protection remained unresolved. Further delay will damage our intelligence capabilities.

Thank you for the opportunity to present our views on this crucial bill. We reiterate our sincere appreciation to the Congress for working with us on H.R. 6304, a long-term FISA modernization bill that will strengthen the Nation's intelligence capabilities while protecting the liberties of Americans. We strongly support its prompt passage.

Sincerely,

MICHAEL B. MUKASEY,
Attorney General.
J.M. MCCONNELL,
Director of National Intelligence.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, is there any time remaining on the 15 minutes that I had set aside?

The PRESIDING OFFICER. The Senator has 6 minutes remaining.

Mr. BINGAMAN. I ask the Senator from Pennsylvania that I use two of those to respond to this latest statement. Then I will defer to him for his statement.

Mr. President, I want to respond to the statement by the Senator from Missouri about what all of the reports from the inspectors general would essentially deal with. I believe he said waste, fraud, and abuse, which is sort of the general purview of inspectors general.

That is not my understanding. I understand the inspectors general have been asked to essentially do a review of this.

The Inspectors General of the Department of Justice, the Office of the Director of National Intelligence, the National Security Agency, the Department of Defense, and any other elements of the intelligence community that participated in the President's surveillance program—

Shall all work together to do a report which will look into—

all of the facts necessary to describe the establishment, implementation, product, and use of the product of the Program;

access to legal reviews of the Program and access to information about the Program;

communications with, and participation of, individuals and entities in the private sector related to the Program;

interaction with the Foreign Intelligence Surveillance Court and transition to court orders related to the Program; and

any other matters identified by any such Inspector General that would enable that Inspector General to complete a review of the Program with respect to such Department of element.

I believe the review we are talking about here, and that we are legislating or proposing to legislate, is intended to tell the Congress and tell anybody who reads the report what this program consisted of. That is information we do not have today. And it is entirely appropriate that we get that report before we grant immunity.

That is the thrust of my amendment, I hope all of my colleagues will support it. I appreciate my colleague from Pennsylvania yielding me additional time to speak in response.

I yield the floor.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. CASEY. Mr. President, I have limited time, and I know my colleague from New Mexico, Senator BINGAMAN, did an excellent job of outlining his amendment. I will skip much of what I was going to read in my statement.

Basically, what we are talking about is a time out. We are giving the Congress the opportunity to review the inspectors general report before the Congress chooses to authorize limited immunity for the telecom firms.

It is actually very simple. Basically, what we are saying is, the amendment simply allows the Congress to say: Wait a minute. Hold on. We should take a deep breath before we decide to authorize a Federal district court to grant telecom firms legal immunity for their actions related to the administration's warrantless surveillance program.

Let's figure out what this program entailed. Let's figure out what happened. Let's figure out what the telecom firms actually did, what they actually did when it came to wiretapping and surveillance.

So under this amendment, the pending lawsuits would remain stayed while the inspectors general complete their report. If the firms did nothing wrong, as they have proclaimed, they will be vindicated by the final inspectors general report. Then the Congress will have the confidence to grant these firms the immunity for which they ask.

So I think many Members of this body would have buyer's remorse if they voted for limited immunity without the understanding of what the President's surveillance program did and did not do. This amendment would prevent that buyer's remorse by allowing the Congress to better understand the conduct of the telecommunications firms before we decide to grant sweeping legal immunity for such conduct.

I encourage my colleagues, all Members of the Senate, to vote for this amendment. It strikes the right balance. It is about accountability. It is also about the rule of law. It is a reasonable balance to strike on very important issues, the issues of security and how we are going to implement any kind of program which involves wiretapping and surveillance.

The PRESIDING OFFICER. The Senator from West Virginia is recognized.

Mr. ROCKEFELLER. Mr. President, I ask Senator BOND, the vice chairman of the committee, to yield me 10 or 11, potentially even 12 minutes.

Mr. BOND. I make a very generous allotment of 12 minutes. If he needs more, I am anxious to hear what he has to say.

Mr. ROCKEFELLER. I appreciate my colleague yielding me time.

Mr. President, Senator BINGAMAN, who I greatly respect in all ways, has offered an amendment altering the liability protections of title II. That is it. His amendment would postpone the implementation of the liability provisions of the bill until 90 days after the submission of the final report of the inspectors general required under title II.

Now, I appreciate the Senator's desire to have more information out there. But I want the Senator to contemplate, and the Senate as a whole to contemplate, what we are asking. We are talking about a year for the inspectors general to complete their reports.

Does it really work that way? Is it really a flat year? Are we going to send out Federal marshals to have them all do their reports on the exact day? Probably it will stretch a little bit. Maybe it will not; maybe it will.

But you cannot assume it will not. Then you have to add on 90 days. Then you can get to the question of the immunity. I am really baffled by that because what it, in effect, says is, we are almost certainly going to be going through a period of something, which I have not heard discussed today during this entire debate, and that is the actual collection of intelligence that involves highly classified material of a foreboding nature for a long period of time until the Senator from New Mexico and/or the Senate can be convinced that it is worthwhile to give immunity or to understand this program.

Now, I want to make an even more basic point: By inserting this amendment, requesting this amendment be passed, I hope the good Senator does understand that he is undoing a very carefully calibrated compromise between the Senate-passed bill and the House-passed bill that is on title II, taking months and months of negotiations to get to the point where Speaker PELOSI, for example, who was violently against the bill, and title II in particular, and STENEY HOYER, who was very much against title II, the immunity portion of the bill, where they could say, on the floor of the House: We think sufficient progress has been made in the negotiations that we will vote for this bill, which the House did by about 70 percent.

Now, that is going from the House not even considering title II. I mean, they considered and rejected it. It was a sea change.

It was a sea change, and one has to have been there to see how the change took place, the good faith bargaining on the part of Vice Chairman BOND, myself, our mutual staffs, working with the DNI and others, long hours and long days with which we have arrived at something which, if we pass this today, will go to the President to be signed. If we accept this amendment or, for that matter, accept the Specter amendment that follows, it will have to go back to the House, which will not take it up, which will not consider it, which will undo everything, and there will be no bill.

Is that important? Yes, it is. Why is it important? Because the chance of not being able to collect on extremely foreboding matters around this world will come to a halt, either because the PATRIOT Act terms have expired or because the companies will withdraw in disgust. In any event, the bill would be vetoed, as the vice chairman said.

So it would be the end of the bill. Therefore, I oppose this amendment.

As I will say about each of these amendments—well, I just did—it undoes everything that has been done for the purpose of making a perfecting amendment to satisfy a particular need of a particular Senator. I also must oppose this amendment because there is no reason for delaying the liability protection provisions. There is not a sufficient reason. It is true the Select Committee struggled to get access to details about the President's surveillance program for many months, but in the end we succeeded. We went from maybe eight, more likely four, sometimes six, to all four committees in the House and the Senate, Judiciary and Intelligence. We heard the necessary testimony. We went to the EOP. We read all the documents, and our chiefs of staff were allowed to do the same thing. We read the legal reasoning used to justify within the executive branch and the role of the private sector. We did all of that, not only our committee but also the House Intelligence Committee, and both Judiciary Committees spent considerable time looking at this issue. I am satisfied we have a basis for taking action now.

On national security grounds, we have to, in my judgment. We haven't talked about that today. We have talked about refined points of constitutional niceties and all the rest of it. I don't denigrate that, but there is something called the protection of the Nation. I take that very seriously. I take that very, very seriously. So a form of liability protection has passed the Senate and the House of Representatives a total of three times, once in the Senate and twice in the House. We should not now reverse these actions by passing the provisions of suspension.

Let me be clear. I strongly support the requirement in this bill for a comprehensive review of the President's surveillance program by the inspectors general. They will be very tough and very thorough and embarrass a lot of people. A report on their general review is one of the best ways to inform the American people about the facts. Litigation is an imperfect mechanism to bring facts to the public, rather a terrible mechanism, because of something called the State secrets privilege which is involved, which means the people can't know anything, that a lot of people dealing with the court can't know anything, that the companies can't know anything. It is a closedown. People have to understand that. It is not an open court. You are not getting a traffic ticket. It is a highly complex, nuanced matter which is rigidly guarded by rules. You could argue the rules, but there they are. Unfortunately, if this amendment passes, the fact that litigation is still pending may have the effect of limiting the amount of information that will be released to the public in the report of the inspectors general, the opposite of what the distinguished Senator wants. Certain facts that might be releasable if the litigation were resolved might be held back, if the Government anticipated a continuing need to assert the State secrets privilege in litigation, which it would.

It is also important to note that this amendment, if it were to pass, the liability protection provisions that the Senator is trying to get at would not go away. In other words, if his amendment passed and we took this long delay, nothing would affect the progress of the liability legislation and that possibility. So it is an amendment which doesn't accomplish anything. The provisions would still go into effect after 90 days, unless new legislation is passed. Let's hope that doesn't happen. The new Congress, thus, might be launched into a contentious debate next summer, instead of working with the new President on a new agenda. That is the point of the Cardin amendment, that the date was changed to December 2012, so that the next President, whoever it might be—it is very close—will have a chance to review and perhaps act upon what we have done here in the next term, which is good. I urge defeat of the amendment.

I have one more thing to say, with the indulgence of my colleague. The senior Senator from Pennsylvania and I were engaged in earlier debate over the access Senators have had, both with myself and with the vice chairman, to the Government letter sent to the telecommunications companies requesting their cooperation during the period of 9/11 to January of 2007. The Senator from Pennsylvania lamented the fact that these documents were kept to only the members of the Intelligence and Judiciary Committees and not shared with the full Senate.

I share the view of the Senator that these documents should be viewed by all Senators, and I have advocated this very position to senior officials of the Bush administration for many months. But recognizing the administration's unwillingness to extend this access, the Senate Intelligence Committee did the next best thing. We were able to get declassified the relevant facts upon which the committee and, ultimately, the full Senate reached the judgment that a narrowly drawn immunity bill remedy might be appropriate.

For the record, our committee report, 110–209, accompanying S. 2248, the FISA amendments——

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. ROCKEFELLER. I ask unanimous consent for 1 additional minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ROCKEFELLER. And dated October 26, 2007, includes a lengthy declassified explanation of the committee's review and conclusions as well as a description of the representations made by the Government in the letters sent to the companies during the period of time covered by the bill. So for the past 8 months, this public report has been available not only to all Senators—here it is, I have labeled it, pages 8 through 12, right here—but to the general public as well.

I ask unanimous consent that that portion be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

TITLE II OF THE FISA AMENDMENTS ACT OF 2007

Title II of this bill reflects the Committee's belief that there is a strong national interest in addressing the extent to which the burden of litigation over the legality of surveillance should fall on private parties. Based on a review of both current immunity provisions and historical information on the President's program, the Committee identified three issues relating to the exposure of electronic communication service providers to liability that needed to be addressed in this bill.

First, the Committee considered the exposure to liability of providers who allegedly participated in the President's surveillance program. Second, the Committee considered the absence, in current law, of a procedural mechanism that would give courts an appropriate role in assessing statutory immunity provisions that would otherwise be subject to the state secrets privilege. Third, the Committee sought to clarify the role of state public utility commissions in regulating electronic communication service providers' relationships with the intelligence community. The Committee addressed these three issues, respectively, in sections 202, 203, and 204 of the bill.

RETROACTIVE IMMUNITY

Sections 201 and 202 of the bill provide focused retroactive immunity for electronic communication service providers that were alleged to have cooperated with the intelligence community in implementing the President's surveillance program. Only civil lawsuits against electronic communication service providers alleged to have assisted the Government are covered under the provision. The Committee does not intend for this section to apply to, or in any way affect, pending or future suits against the Government as to the legality of the President's program.

Section 202 was narrowly drafted to apply only to a specific intelligence program. Section 202 therefore provides immunity for an intelligence activity involving communications that was designed to detect or prevent a terrorist attack, or activities in preparation for a terrorist attack, that was authorized in the period between September 11, 2001 and January 17, 2007, and that was described in written requests to the electronic communication service provider as authorized by the President and determined to be lawful.

The extension of immunity in section 202 reflects the Committee's determination that electronic communication service providers acted on a good faith belief that the President's program, and their assistance, was lawful. The Committee's decision to include liability relief for providers was based in significant part on its examination of the written communications from U.S. Government officials to certain providers. The Committee also considered the testimony of relevant participants in the program.

The details of the President's program are highly classified. As with other intelligence matters, the identities of persons or entities who provide assistance to the U.S. Government are protected as vital sources and methods of intelligence. But it reveals no secrets to say—as the Foreign Intelligence Surveillance Act, this bill, and Title 18 of the U.S. Code all make clear—that electronic

surveillance for law enforcement and intelligence purposes depends in great part on the cooperation of the private companies that operate the Nation's telecommunication system.

It would be inappropriate to disclose the names of the electronic communication service providers from which assistance was sought, the activities in which the Government was engaged or in which providers assisted, or the details regarding any such assistance. The Committee can say, however, that beginning soon after September 11, 2001, the Executive branch provided written requests or directives to U.S. electronic communication service providers to obtain their assistance with communications intelligence activities that had been authorized by the President.

The Committee has reviewed all of the relevant correspondence. The letters were provided to electronic communication service providers at regular intervals. All of the letters stated that the activities had been authorized by the President. All of the letters also stated that the activities had been determined to be lawful by the Attorney General, except for one letter that covered a period of less than sixty days. That letter, which like all the others stated that the activities had been authorized by the President, stated that the activities had been determined to be lawful by the Counsel to the President.

The historical context of requests or directives for assistance was also relevant to the Committee's determination that electronic communication service providers acted in good faith. The Committee considered both the extraordinary nature of the time period following the terrorist attacks of September 11, 2001, and the fact that the expressed purpose of the program was to ''detect and prevent the next terrorist attack'' in making its assessment.

On the basis of the representations in the communications to providers, the Committee concluded that the providers, in the unique historical circumstances of the aftermath of September 11, 2001, had a good faith basis for responding to the requests for assistance they received. Section 202 makes no assessment about the legality of the President's program. It simply recognizes that, in the specific historical circumstances here, if the private sector relied on written representations that high-level Government officials had assessed the program to be legal, they acted in good faith and should be entitled to protection from civil suit.

The requirements of section 202 reflect the Committee's determination that cases should only be dismissed when providers acted in good faith. Section 202 applies only to assistance provided by electronics communication service providers pursuant to a ''written request or directive from the Attorney General or the head of an element of the intelligence community. . . that the program was authorized by the President and determined to be lawful.''

Section 202 also preserves an important role for the courts. Although the bill reflects the Committee's determination that, if the requirements of section 202 are met, the provider acted in good faith, the section allows judicial review of whether the Attorney General has abused the discretion provided by statute in certifying that a provider either furnished no assistance or cooperated with the Government under the terms referenced in the section.

In determining whether to provide retroactive immunity, the Committee weighed the incentives such immunity would provide. As described above, electronic communication service providers play an important role in assisting intelligence officials in national security activities. Indeed, the intelligence community cannot obtain the intelligence it needs without assistance from these companies. Given the scope of the civil damages suits, and the current spotlight associated with providing any assistance to the intelligence community, the Committee was concerned that, without retroactive immunity, the private sector might be unwilling to cooperate with lawful Government requests in the future without unnecessary court involvement and protracted litigation. The possible reduction in intelligence that might result from this delay is simply unacceptable for the safety of out Nation.

At the same time, the Committee recognized that providers play an essential role in ensuring that the Government complies with statutory requirements before collecting information that may impact the privacy interests of U.S. citizens. Because the Government necessarily seeks access to communications through the private sector, providers have the unparalleled ability to insist on receiving appropriate statutory documentation before agreeing to provide any assistance to the Government.

The Committee sought to maintain the balance between these factors by providing retroactive immunity that is limited in scope. The provision of retroactive immunity was intended to encourage electronic communication service providers who acted in good faith in the particular set of circumstances at issue to cooperate with the Government when provided with lawful requests in the future. Restricting that immunity to discrete past activities avoids disrupting the balance of incentives for electronic communication service providers to require compliance with statutory requirements in the future. Under this bill and existing statutory provisions, providers will only be entitled to protection from suit for their future activities if they ensure that their assistance is conducted in accordance with statutory requirements.

The Committee believes that adherence to precise, existing statutory forms is greatly preferred. This preference is reflected in section 203 of the bill, which establishes procedures by which civil actions against those who assist the Government shall be dismissed upon a certification by the Attorney General that any assistance had been provided pursuant to a court order or a statutorily-prescribed certification or directive. The action the Committee proposes for claims arising out of the President's program should be understood by the Executive branch and providers as a one-time response to an unparalleled national experience in the midst of which representations were made that assistance to the Government was authorized and lawful.

PROCEDURES FOR IMPLEMENTING STATUTORY DEFENSES

Section 203 of this bill provides a procedure that can be used in the future to seek dismissal of a suit when a defendant either provided assistance pursuant to a lawful statutory requirement, or did not provide assistance. This section, a new section 802 of FISA, reflects the Committee's recognition that the identities of persons or entities who provide assistance to the intelligence community are properly protected as sources and methods of intelligence.

Under the existing statutory scheme, wire or electronic communication providers are authorized to provide information and assistance to persons with authority to conduct electronic surveillance if the providers have been provided with (1) a court order directing the assistance, or (2) a certification in writing signed by the Attorney General or certain other officers that ''no warrant or court order is required by law, that all statutory requirements have been met, and that the specific assistance is required.'' See 18 U.S.C. 2511(2)(a)(ii). Current law therefore envisions that wire and electronic communication service providers will play a lawful role in the Government's conduct of electronic surveillance.

Section 2511(2)(a)(ii) protects these providers from suit as long as their actions are consistent with statutory authorizations. Once electronic communication service providers have a court order or certification, ''no cause of action shall lie in any court against any provider of wire or electronic communication service . . . for providing information, facilities, or assistance in accordance with the terms of a court order, statutory authorization, or certification under this chapter.'' Id. The Protect America Act and Title I of this bill provide similar protections from suit for providing information or assistance in accordance with statutory directives. All of these immunity provisions are designed to ensure that wire and electronic communication service providers assist the Government with electronic surveillance activities when necessary, and recognize the good faith of those providers who assist the Government in accordance with the statutory scheme.

To the extent that any existing immunity provisions are applicable, however, providers have not been able to benefit from the provisions in the civil cases that are currently pending. Because the Government has claimed the state secrets privilege over the question of whether any particular provider furnished assistance to the Government, an electronic communication service provider who cooperated with the Government pursuant to a valid court order or certification cannot prove it is entitled to immunity under section 2511(2)(a)(ii) without disclosing the information deemed privileged by the Executive branch. Thus, electronic communication providers are prohibited from seeking immunity under section 2511(2)(a)(ii) for any assistance they may have provided to the intelligence community, with the approval of the FISA Court, after January 17, 2007. Providers who did not assist the Government are similarly unable to extract themselves from ongoing litigation, because the assertion of the state secrets privilege makes it impossible for them to demonstrate their lack of involvement.

By addressing the situation in which an entity is prohibited from taking advantage of existing immunity provisions because of Government restrictions on disclosure of the information, Section 203 seeks to ensure that existing immunity provisions have their intended effect. The Committee also intends to reassure providers that as long as their assistance to the Government is conducted in accordance with statutory requirements, they will be protected from civil liability and the burden of further litigation.

The procedure in section 203 allows a court to review a certification as to whether an individual either assisted the Government pursuant to a lawful statutory requirement or did not assist the Government, even when public disclosure of such facts would harm the national security. Because an assertion of state secrets over the same facts would likely prevent all judicial review over whether, and under what authorities, an individual assisted the Government, this provision serves to expand judicial review to an area that may have been previously non-justiciable. In addition, the statute explicitly allows the court to review for abuse of discretion the Attorney General's certification that a person either did not assist the Government or cooperated with the Government pursuant, to statutory requirements.

PREEMPTION

Section 204 of the bill preempts state investigations or required disclosure of information about the relationship between individual electronic communication service providers and the intelligence community. The provision reflects the Committee's view that, although states play an important role in regulating electronic communication service providers, they should not be involved in regulating the relationship between electronic communication service providers and the intelligence community.

Mr. ROCKEFELLER. I hope very much that the Senator's amendment will be defeated. I thank the Chair.

Mr. BOND. I suggest the absence of a quorum and ask unanimous consent that the time be charged equally to both sides.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. ROCKEFELLER. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ROCKEFELLER. Mr. President, with the goodwill of the vice chairman, he has granted me a couple of moments to enter a couple documents in the RECORD. We have had several good days of debate or good hours of debate on the FISA bill going back to before the recess. I guess that would be several months. In the course of a discussion of a bill as lengthy and complex as this, several arguments have been made that warrant response, but there isn't always time to give the response. In the interest of establishing an accurate legislative history to accompany the bill, as manager of the bill, I ask unanimous consent to print in the RECORD a statement providing such clarifications and corrections.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

H.R. 6304, FISA AMENDMENTS ACT OF 2008, RESPONSE TO VARIOUS POINTS IN PRE-RECESS DEBATE, JULY 8, 2008

Mr. President, prior to the recess, we had several good days of debate on the FISA bill. Inevitably, in the course of discussion of a bill as lengthy and detailed as this, several arguments have been made that warrant a response in the interest of an accurate legislative history. As a manager of the bill, I would like to take a few moments to clear up several matters.

EXCLUSIVITY

Sections 102(a) and (b) are the bill's main exclusivity provisions. Section 102(a) strengthens present exclusivity law by providing, in a new section 112 of FISA, that only an express statutory authorization for electronic surveillance or the interception of domestic communications shall constitute an exclusive means in addition to specifically listed statutes. Section 102(b) amends section 109 of FISA, the Act's key criminal offense provision, so that the criminal offense and the exclusivity provision dovetail exactly.

These main parts of section 102 are well understood. There has been some confusion, however, about a conforming amendment in section 102(c), which performs a useful but distinctly minor role in the overall exclusivity section.

Section 102(c) adds a detail to the section of the U.S. criminal code (18 USC 2511), which gives immunity from suit to companies who have received a certification from the Attorney General. It requires the Government to identify in the certification the specific statutory provision that authorizes the company's assistance ''if a certification . . . for assistance to obtain foreign intelligence information is based on statutory authority.''

Several colleagues have suggested, or at least strongly intimated, that this language acknowledges the President's constitutional authority to conduct warrantless surveillance of the kind involved in the President's Terrorism Surveillance Program. Any such argument is inconsistent with both the language of the provision and the intent of its drafters.

To understand the purpose of section 102(c), we need to look at the course of negotiations about it. In its proposed amendment to our Intelligence Committee bill, the Senate Judiciary Committee recommended the following language: ''A certification . . . for assistance to obtain foreign intelligence information shall identify the specific provision of the Foreign Intelligence Surveillance Act of 1978 . . . that provides an exception from providing a court order, and shall certify that the statutory requirements of such provision have been met.''

As the Judiciary Committee pointed out in its report, this language responded to the need of providers to have clarity regarding the legality of their actions and entitlement to immunity.

After the Judiciary Committee sequentially reported our bill, there were extensive discussions with the administration about this language. In the course of those discussions, the Department of Justice noted that FISA, as drafted in 1978, was only intended to regulate particular activities, those that constitute ''electronic surveillance,'' a term that is carefully defined in FISA. Indeed, the nuance in FISA's definition of electronic surveillance, as well as its very detailed parameters, led us to decide not to alter the definition of electronic surveillance in FISA in this compromise bill. Activities that do not constitute electronic surveillance within the meaning of FISA, or the interception of domestic wire, oral or electronic communications, were not restricted by FISA's original exclusivity provision and the same will be true under this bill. Thus, theoretically there may be activities that fall outside of the statute's restrictions but are not subject to an explicit statutory ''exception from providing a court order,'' as that term was used in the Judiciary Committee amendment.

These discussions led to the language in the current bill, which was included as part of Senator Feinstein's exclusive means amendment in the original Senate debate in February. The amendment was intended to ensure that the provider has as much information as possible, while still recognizing that, going back to the birth of FISA, activities may be conducted side-by-side with FISA, although not under the authority of FISA, if they do not fall within FISA's definition of electronic surveillance.

Section 102(c) was not intended to permit, and its language would not permit, any activities that would violate the main parts of the exclusive means provision, whatever the legal justification. Any suggestion that Congress would take away in a conforming amendment the central achievement of the overall exclusivity section makes no sense.

Indeed, the bill makes it painstakingly clear: any person who engages in electronic surveillance outside of FISA or the U.S. criminal code is committing a criminal offense. Given this statutory requirement, the Attorney General cannot lawfully certify that electronic surveillance outside of FISA satisfies ''all statutory requirements,'' as is required and will continue to be required for a certification in section 2511 of title 18.

Whether or not the President has constitutional authority to conduct surveillance—and there is widespread disagreement here on that point—the language of section 102(c) simply cannot be read to recognize any authority to conduct electronic surveillance that is inconsistent with FISA.

ASSESSMENT OF COMPLIANCE

In debate on the bill, the question has been raised whether the decision not to include in the final compromise a provision specifically addressing the authority of the FISA court to assess compliance with minimization procedures in section 702 represents a determination that the court should not have that authority.

Minimization procedures are specific procedures that are reasonably designed to minimize acquisition and retention, and prohibit dissemination, of nonpublic information concerning United States persons consistent with the need to obtain, produce, and disseminate foreign intelligence information. Compliance with them is central to the protection of the privacy of Americans. The Protect America Act failed to provide for court review and approval of minimization procedures. This bill corrects that omission. The PAA also failed to provide for rules on the use of information acquired under it. This bill corrects that omission by making section 106 of FISA applicable to collection under its foreign targeting provisions. That section explicitly mandates that federal employees may only use or disclose information concerning U.S. persons in accordance with required minimization procedures.

Although section 702 does not have a provision that mandates compliance reviews, as the original House bill contained, the bill before us today recognizes the authority of the FISA court to assess compliance with the procedures that it has approved. The courts of the United States are not advisory bodies. All of them, including the FISA court, have the inherent authority of any other court that exercises the judicial power of the United States to ensure that the parties before them are complying with their orders and the procedures they approve.

An amendment to the original bill that was offered by Senator Whitehouse, who had strongly advocated on the Senate floor in support of judicial review of compliance with minimization procedures, makes the Congress's recognition of this inherent court authority clear. That language, which the Senate adopted by unanimous consent and which is section 109(d) in the final bill, specifically states that no provision of FISA will be construed to reduce or contravene the inherent authority of the FISA court ''to determine or enforce compliance with an order or rule of such court, or with a procedure approved by such court.''

The decision in negotiating the compromise of this bill not to include in section 702 a separate provision for minimization compliance reviews by the court, should be understood, as we understood in the Senate when considering Senator Whitehouse's amendment, to represent satisfaction that the amendment adequately recognizes the authority of the FISA court to assess compliance.

EXIGENT CIRCUMSTANCES

The next issue that deserves clarification is the exigent circumstances exception to prior court approval. The bill requires the

Government to obtain prior court approval of targeting and minimization procedures before beginning collection under the new procedures. There is one exception to this requirement: in exigent circumstances, the Attorney General and Director of National Intelligence may authorize collection to begin immediately.

In section 702(c)(2), the bill describes an exigent circumstances determination to be ''a determination by the Attorney General and the Director of National Intelligence that exigent circumstances exist because, without immediate implementation of an authorization under subsection (a) [of section 702], intelligence important to the national security may be lost or not timely acquired and time does not permit the issuance of an order pursuant to subsection (i)(3) prior to the implementation of such authorization.''

In both Houses, there has been some discussion about the meaning of the phrase ''exigent circumstances'' and the expectations of Members about the use of this authority. While the bill does not define the phrase ''exigent circumstances'' standing alone, it does describe the limits of the appropriate use of the authority: a determination by the Nation's highest law enforcement official, the Attorney General, and highest intelligence official, the DNI, that (a) without immediate implementation ''intelligence important to the national security may be lost or not timely acquired'' and (b) time does not permit the issuance of a FISA court approval order prior to implementation.

To the extent that auxiliary aids are needed to assist in defining ''exigent circumstances,'' at least three are available.

First, section 702 as a whole demonstrates the clear intent of Congress that prior judicial approval is strongly preferred. To the extent practicable, the Government's submissions of certifications and procedures to the FISA court with regard to annual authorizations shall precede the effective date of those authorizations by at least 30 days. On receiving Government submissions, the FISA court is to complete action on them within 30 days unless the court exercises its limited extension authority.

Those provisions, working together, implement the design of the Congress to ensure that judicial review will ordinarily precede implementation. The benefit of doing so is obvious. The intelligence community, telecommunication providers who are asked to implement Government directives, and the American public will be assured that the procedures and certifications that ensure the lawfulness of collection have been approved before collection begins. In light of the centrality of prior review in section 702, and the significant benefits flowing from it, exceptions should be rare.

Second, if more is needed to define ''exigent circumstances,'' the dictionary definition of ''exigent'' is a tool of first resort outside the text and structure of the Act. For example, the Random House College Dictionary defines ''exigent'' as ''requiring immediate action or aid; urgent, pressing.'' ''Urgent'' in turn is defined as ''pressing, compelling or requiring immediate action or attention; imperative.''

Third, the interpretation of the bill by agencies charged with its administration is an acknowledged guide, particularly, as here, where that interpretation has been offered to the Congress in the course of the legislative process. In writing to the Speaker on June 19, the Attorney General and the DNI explained: ''The exigent circumstances exception is critical to allowing the Intelligence Community to respond swiftly to changing circumstances when the Attorney General and the Director of National Intelligence determine that intelligence may be lost or not timely acquired. Such exigent circumstances could arise in certain circumstances where an unexpected gap has opened in our intelligence collection efforts.''

The recognition that the ''exigent circumstances'' provision is an ''exception'' to prior court approval that it is applicable to ''changing circumstances'' and ''unexpected gaps,'' when considered in the light of the text and structure of section 702 and the ordinary meaning of ''exigent,'' all convey, as I believe, that this authority should be used only rarely, when urgent and unexpected action is truly required.

We intend to monitor the use of this authority carefully, so that we can address any abuses at the time of the sunset, if necessary.

TITLE II—DOCUMENTARY SUPPORT FOR ATTORNEY GENERAL CERTIFICATION

During the pre-recess debate, a suggestion was made that the bill establishes clear limits on what documents the district court may review in determining whether substantial evidence supports a certification by the Attorney General on a provider's entitlement to immunity.

The burden is on the Attorney General to provide to the court the equivalent of an administrative record that satisfies the substantial evidence test. While I agree that the parties cannot seek discovery to provide the court with information as to whether the substantial evidence test is met, the bill does not limit what the Attorney General may submit, in his or her discretion, to provide substantial evidence to support the certification.

A certification under section 802 shall be given effect unless the court, in accordance with subsection (b), finds that it is not supported by substantial evidence ''provided to the court pursuant to this section.'' The phrase ''this section'' covers the entire section. Thus, the scope of the evidence that the Attorney General may submit to sustain the substantial evidence burden is not dependent on any particular subsection of section 802 but is drawn from the entirety of the section including, importantly, all of the substantive requirements for the implementation of liability protection.

Section 802(b)(2) provides that in reviewing a certification under section 802 the court may examine the court order, certification, written request, or directive described in the substantive provisions of section 802. This authority ensures that the court will be able to examine those documents. But it does not limit the Attorney General to those documents in supporting a certification under section 802. For example, the Attorney General may determine that providing substantial evidence to support a certification that a person did not provide assistance requires evidence that is not included in communications with that person. Section 802 therefore should not be read as a limit on what may be submitted to the court by the Attorney General. As for the method by which additional information may be provided, section 802 imposes no limit on what the Attorney General may include within a certification or annexed to it.

Mr. ROCKEFELLER. I also point out, there was an op-ed piece in support of the FISA bill in today's New York Times which I call to the attention of my colleagues. It was written by Mr. Morton Halperin and entitled ''Listening to Compromise.'' Mr. Halperin, in addition to being executive director of the Open Society Policy Center, has a lengthy career of public service in both Democratic and Republican administrations.

Mr. President, I ask unanimous consent to have printed in the RECORD Mr. Halperin's op-ed in support of the bill as it appeared in today's New York Times.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the New York Times, July 8, 2008]

LISTENING TO COMPROMISE

(By Morton H. Halperin)

Two years ago, I stated my belief that the Bush administration's warrantless wiretapping program and disregard for domestic and international law poses a direct challenge to our constitutional order, and ''constitutes a far greater threat than the lawlessness of Richard Nixon.''

That was not a casual comparison. When I was on the staff of the National Security Council, my home phone was tapped by the Nixon administration—without a warrant—beginning in 1969. The wiretap stayed on for 21 months. The reason? My boss, Henry Kissinger, and the director of the F.B.I., J. Edgar Hoover, believed that I might have leaked information to this newspaper. Even after I left government, and went to work on Edmund Muskie's presidential campaign, the F.B.I. continued to listen in and made periodic reports to the president.

I was No. 8 on Richard Nixon's ''enemies list''—a strange assemblage of 20 people who had incurred the White House's wrath because they had disagreed with administration policy. As the presidential counsel John Dean explained it in 1971, the list was part of a plan to ''use the available federal machinery to screw our political enemies.'' My guess is that I earned this dubious distinction because of my opposition to the Vietnam War, though no one ever said for sure.

Because I rejected the Nixon administration's use of national security as a pretext for broad assertions of unchecked executive power, I became engaged with the Foreign Intelligence Surveillance Act when it was proposed in the early 1970s. And because I reject the Bush administration's equally extreme assertions of executive power at the expense of civil liberties, I have been engaged in trying to improve the current legislation.

The compromise legislation that will come to the Senate floor this week is not the legislation that I would have liked to see, but I disagree with those who suggest that senators are giving in by backing this bill.

The fact is that the alternative to Congress passing this bill is Congress enacting far worse legislation that the Senate had already passed by a filibuster-proof margin, and which a majority of House members were on record as supporting.

What's more, this bill provides important safeguards for civil liberties. It includes effective mechanisms for oversight of the new surveillance authorities by the FISA court, the House and Senate Intelligence Committees and now the Judiciary Committees. It mandates reports by inspectors general of the Justice Department, the Pentagon and intelligence agencies that will provide the committees with the information they need to conduct this oversight. (The reports by the inspectors general will also provide accountability for the potential unlawful misconduct that occurred during the Bush administration.) Finally, the bill for the first time requires FISA court warrants for surveillance of Americans overseas.

As someone whose civil liberties were violated by the government, I understand this legislation isn't perfect. But I also believe—and here I am speaking only for myself—that it represents our best chance to protect I

both our national security and our civil liberties. For that reason, it has my personal support.

Mr. ROCKEFELLER. Mr. President, I thank the Presiding Officer and yield the floor.

The PRESIDING OFFICER. The Senator from Vermont.

Mr. LEAHY. Mr. President, I would like to speak for a little while about one part of the bill, and I will have more to say tomorrow. I strongly oppose the blanket grant of immunity that is contained in this bill. I would hope Senators would reject what is an ill-advised legislative effort to engineer specific outcomes in ongoing Federal judicial proceedings. Basically, we are telling another branch of Government: Here is the way you have to come out in your decisions.

There is a way to cure that problem. Instead of the Congress telling the courts how they have to rule, we could adopt the Dodd-Feingold-Leahy amendment to strike title II from the bill. This would strike the retroactive immunity provisions, and it would allow for accountability for those who violated Americans' rights and violated the law. It would send a strong message that no one stands above the law in the United States.

I am not out to get the telephone companies. I just want us to know who it was in the administration who said: You may break the law. The American people ought to know who in the White House said, ''You may break the law,'' who it was who made the decision that somehow this President stands above the law.

The administration circumvented the law by conducting warrantless surveillance of Americans for more than 5 years. They were breaking the law, and then they got caught. The press reported this illegal conduct in late 2005. The Republican-controlled Congress did not ask the questions to find it out. The press found it out. Had they not done so, I have to assume this unlawful surveillance would still be going on today.

When the public found out that the Government had been spying on the American people outside of FISA for years, the Government and the providers were sued by citizens who believed their privacy rights were violated. They said: You are violating our privacy. We want you to be held accountable. But, of course, that is why the Founders created a system of Federal courts through the Constitution—so people can assert their rights before a fair and neutral tribunal without interference from the other branches of Government, so they have some way to say: I am not a Democrat. I am not a Republican. I am not rich. I am not poor. I am an American. I am seeking to have my rights upheld.

Title II of this bill would effectively terminate these lawsuits and those rights. It seeks to reduce the role of the court to a rubber stamp. So long as the Attorney General certifies that the Government requested the surveillance and indicated that it had been ''determined to be lawful,'' the cases will be dismissed and everybody is off the hook. It is not the court that says whether you followed the law. No, this bill allows the government to say: Oh, you are looking at us? Ah, we certify we followed the law. So, therefore, you courts have to let us off the hook because, after all, we said, whether we broke the law or not, we are following the law, so we are home free.

That is not a meaningful judicial inquiry. Thinking back to my days as a prosecutor in Vermont, that would be as if the police caught someone in a burglary, I charged them, and the defendant then told the judge: But I have determined that for me, your Honor, the burglary laws do not apply, so you have to let me go. I can't be prosecuted. I can't be held accountable. Nobody would take that seriously. We should not take this seriously. We should not do something that does not give the plaintiffs their day in court. It is not just a heavy thumb on the scales of justice; it is a whole hand and an arm on the scales of justice, and I cannot support it.

If we look at the publicly available information about the President's program, it becomes clear that title II is designed to tank these lawsuits, pure and simple, but then to allow the administration to avoid any accountability for their actions. The Senate Intelligence Committee said in a report last fall that the providers received letters from the Attorney General stating that the activities had been ''authorized by the President'' and ''determined to be lawful.''

Guess what. These are precisely the ''magic'' words that will retroactively immunize the providers under title II of this bill. Mr. President, the fix is in. The bill is rigged, based on what we already know, to ensure that the providers get immunity and the cases get dismissed.

What it says is, if you are in charge, you can just go out and break the law, and then when they look at you, send a letter to the court saying: I have determined that when I broke the law, I did not really break the law, so you have to let me off the hook.

Lewis Carroll once wrote a book about that. I think it was called ''Alice in Wonderland.'' So what if Americans' rights were violated. So what if statutes were violated. So what if those privacy-protecting statutes provide for damages. This bill makes our courts the handmaidens to a coverup, and it is wrong. It tells the courts—the U.S. Federal courts—it tells them: Take part in a coverup. I cannot support something that does that. It is wrong.

Make no mistake, if title II becomes law, there will be no accountability for this administration's actions in a court of law. We would take away the only viable avenue for Americans to seek redress for harms to their privacy and liberties.

Those who claim that American citizens can still pursue their privacy claims against the Government know that sovereign immunity is a roadblock. They know that cases against the Government have already been dismissed for lack of standing. They know about the Government's ability to assert the state secrets doctrine and various other legal defenses and protections for Government officials. They know these suits will go nowhere. They know, and it is wrong for them to suggest otherwise. This is a red herring if there ever was one.

The report of the Select Committee on Intelligence in connection with its earlier version of the bill that also included retroactive immunity is telling. The Select Committee on Intelligence wrote:

> The Committee does not intend for this section to apply to, or in any way affect, pending or future suits against the Government as to the legality of the President's program.

And later wrote:

> Section 202 makes no assessment about the legality of the President's program.

But neither that bill nor this one makes any allowance for such suits against the Government to proceed to a decision on its merits. That is precisely what is lacking in this measure: an avenue to obtain judicial review and accountability.

Now, those who support retroactive immunity for the telecommunications carriers and dismissal of the suits against them without providing an effective avenue to challenge the program or obtain judicial review of its legality—well, what they are doing is supporting unaccountability, pure and simple. They are saying: Everybody is off the hook. I am not out to get the telephone companies. All I want to know is, who in our Government said: You may break the law. And this bill is going to make sure we never find out.

In fact, the case that did proceed to decision in the Federal court in Michigan was appealed by the Government, was vacated and dismissed for lack of ''standing.'' So the judicial decision on the merits that the President's program of warrantless wiretapping of Americans was a violation of law and the Constitution was effectively wiped from the books.

I note again that the proponents of this retroactive immunity have not and cannot say that the administration acted lawfully. They do not say the administration acted lawfully because they know the administration did not act lawfully.

Even if one believes the telephone companies merit protection, there is simply no good reason why Congress must act now to deal with the issue of the ongoing lawsuits against providers. The claim that these lawsuits will somehow ''bankrupt'' the providers is belied by the record demonstrating the financial health of these companies today despite the ongoing litigation.

Even the most alarmist critics of the lawsuits acknowledge it would be years

and probably at least two trips to the U.S. Supreme Court before we have any enforceable final judgments.

If there is such a risk, well, what does that say? It says there were violations and that people's rights were violated. Now, I have said before that I would support the Government stepping into the shoes of these defendants, of these telephone companies, if we want to protect them. It is simple. If you are that concerned about the telephone companies, exclude them. Substitute the U.S. Government. But we should not protect them if the cost of protecting them is all accountability and the cost of never getting a judicial determination on the merits of the cases whether the Government violated the law.

Americans have a right to know.

The PRESIDING OFFICER. The Senator's 10 minutes have expired.

Mr. LEAHY. Mr. President, I ask unanimous consent for an additional 30 seconds.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. I believe the rule of law is important. I trust our courts to handle even the most difficult and sensitive disputes. That is the courts' role in our constitutional scheme, not ours. Title II of this bill would have Congress decide these cases by legislative fiat.

We do not want to diminish our Federal judiciary and risk selling out large numbers of Americans whose fundamental rights may have been violated. We should not pass this bill unamended. I urge my colleagues to cast a vote for accountability and support the Dodd-Feingold-Leahy amendment.

I strongly oppose the immunity provisions contained in this bill, and I have supported every effort to strike them. But if we cannot eliminate these ill-advised provisions, then I agree that Senator BINGAMAN's amendment to delay a decision on immunity until after the inspectors general have conducted their review of the warrantless surveillance program makes good sense.

I worked hard to include the inspectors general amendment as a part of this FISA bill. For that provision to have its full effect, we should delay any grant of retroactive immunity until we know what the final report says.

Senator BINGAMAN's amendment would stay all pending cases against the telecom companies related to the warrantless surveillance program and delay the effective date of the immunity provisions in title II of the bill until 90 days after Congress receives the inspectors general reports.

I have maintained throughout this debate that it makes little sense for Senators—many who have never been given the opportunity to view key documents relevant to the warrantless surveillance program—to cast an uninformed vote on retroactive immunity. That is buying a pig in a poke. To mix farm metaphors, the Bingaman amendment puts the horse back in front of the cart.

First, let's get the facts. And then, only after reviewing the relevant facts that the administration claims support granting retroactive immunity, determine whether Congress should attempt to legislatively determine the result of the 40 or so Federal cases alleging violations of fundamental rights of Americans.

Again, I believe the retroactive immunity provisions in this bill should be stripped entirely. But if that cannot be accomplished, then I support Senator BINGAMAN's amendment as a commonsense way to ensure that the Senate makes a fully informed decision on retroactive immunity.

I yield the floor.

Mr. BOND. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SPECTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 5059

Mr. SPECTER. Mr. President, I now call up my amendment No. 5059.

The PRESIDING OFFICER. Without objection, the pending amendment is set aside.

The clerk will report.

The legislative clerk read as follows:

The Senator from Pennsylvania [Mr. SPECTER] proposes an amendment numbered 5059.

Mr. SPECTER. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To limit retroactive immunity for providing assistance to the United States to instances in which a Federal court determines the assistance was provided in connection with an intelligence activity that was constitutional)

On page 90, strike lines 17 through 21 and insert the following:

''(1) REVIEW OF CERTIFICATIONS.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), a certification under subsection (a) shall be given effect unless the court finds that such certification is not supported by substantial evidence provided to the court pursuant to this section.

''(B) COVERED CIVIL ACTIONS.—In a covered civil action relating to assistance alleged to have been provided in connection with an intelligence activity involving communications that was authorized by the President during the period beginning on September 11, 2001, and ending on January 17, 2007, a certification under subsection (a) shall be given effect unless the court—

''(i) finds that such certification is not supported by substantial evidence provided to the court pursuant to this section; or

''(ii) determines that the assistance provided by the applicable electronic communication service provider was provided in connection with an intelligence activity that violated the Constitution of the United States.

Mr. SPECTER. Mr. President, I believe that history will look back at the period of time between 9/11 and the present as the greatest expansion of the executive authority in the history of this country. We have seen the unauthorized military commissions. We have seen the extraordinary rendition to the frequent invocation of state secrets, privilege, and the misuse of so-called signing statements.

The signing statements represent a fundamental failure of the Congress to utilize its constitutional authority. When the Constitution provides that there is a presentment by both Houses, the President either signs it or vetoes it, and the widespread practice has now come into play where the President signs and issues a signing statement undercutting key provisions of the legislation. I introduced a bill to give Congress standing to challenge that in court. It has gone nowhere because of the impossibility of overriding a veto and because of the considerations of case in controversy.

We have seen, in the context of the evolving issues, the total ill-effectiveness of Congress to provide the oversight of the Intelligence Committees. The National Security Act of 1947 expressly provides that matters such as the terrorist surveillance program should be submitted to the Intelligence Committees, but that has not been done. Only a portion of the Intelligence Committees have been briefed. Most of the limited briefing was done only when the administration needed some support for the confirmation of General Hayden as CIA Director. We have seen the provisions of the Foreign Intelligence Surveillance Act of 1978 bypassed by the executive branch on a claim of constitutional authority under article II, power as Commander in Chief, contrasted with the congressional authority under article I.

A Detroit Federal court declared the terrorist surveillance program unconstitutional. The Court of Appeals for the Sixth Circuit reversed, in a 2-to-1 decision on the ground of the lack of standing, with the dissenter filing an opinion showing ample basis for standing. The Supreme Court of the United States refused to review the case. They called it a denial of certiorari. That is the major constitutional confrontation of our era, between the President asserting article II powers as Commander in Chief and the explicit statutory provision enacted by Congress in 1978 providing for the exclusive means of having wiretapping. Instead, we have warrantless wiretapping.

The legislation pending now would provide retroactive immunity. I suggest retroactive immunity in a context that we could both preserve the electronic surveillance and leave the court with jurisdiction in one of two ways. One, by substituting the Federal Government as the party defendant of the telephone companies, in the shoes of the telephone companies with no more, no less rights; or secondly, requiring, as my amendment does, that the Federal district court would decide constitutionality. No one is denying the

telephone companies have been good citizens.

The argument has been made that, well, there may be money damages or there is a matter of public image which is involved. Well, monetary damages and public image, in my judgment, don't measure up to the right of privacy. Just as Oliver Wendell Holmes, in a 1928 case almost a century ago, said that wiretapping was ''dirty business''—and it remains dirty business—it may be necessary on national security grounds, but it has to be done within the confines of the law. That can be decided only by the courts, especially in the atmosphere that we have where the Congress has been so ineffective and where the Supreme Court of the United States ducked the issue on the case coming out of the Sixth Circuit, where there was ample grounds for finding standing to proceed with that case.

Within the past 6 days, there has been a major development on this issue as a result of a judgment handed down by Chief Judge Vaughn Walker of the U.S. district court in San Francisco. Judge Walker is the same judge who has the telephone company cases which were consolidated and sent to him under Federal rules on a multidistrict panel. Judge Walker found flatly that the President exceeded his constitutional authority when he ignored the Foreign Intelligence Surveillance Act. This is the exact language in the 56-page opinion:

Congress appears clearly to have intended to—and did—establish the exclusive means for foreign intelligence surveillance activities to be conducted. Whatever power the executive may otherwise have had in this regard, FISA—

The Foreign Intelligence Surveillance Act—

limits the power of the executive branch to conduct such activities.

So now we have the judge who is hearing these telephone cases having said that such surveillance is unconstitutional. FISA covers not only the traditional wiretaps but explicitly covers pen registers and trap-and-trace devices which could include whatever it is the telephone companies were allegedly doing. On that subject, we do not know the full extent of what the telephone companies are doing. All we have are the allegations and the legal papers. Here, Congress is being asked to pass upon a program on which most Members have not been briefed. As stated earlier on the floor today, 70 Members of the Senate would be called upon to vote on a program when they don't even know what it is. The House leadership has pointed out that most of the Members of the House of Representatives have not been briefed.

In an exchange with the Senator from Missouri today, I raised the fundamental constitutional point that Members' constitutional responsibilities cannot be delegated. You can't delegate them to a minority of the Senate, but that is what we are being asked to do. It is a pig in a poke. The old expression describes it very well. We don't even know what the program is, and we are being asked to ratify it.

The issue was put to the Senator from Missouri, the chief defender of this bill, of any precedent where you have a case pending before Judge Walker, an extended opinion in July of 2006 on appeal to the Court of Appeals for the Ninth Circuit. If this act is passed, it will be unceremoniously jerked out from under the court. I asked him if there is any case in history, and I would repeat that challenge to the distinguished chairman of the committee.

What we have left is judicial review. Without judicial review, there is no way to effectuate the constitutional doctrine of separation of powers, which is so fundamental in our society. Even when the proponents of the bill talk about money and business reputation—no one is challenging the good citizenship of the telephone companies, and the likelihood of monetary damages is extremely remote. But if the Government were to be substituted as the party defendant, that is a matter of dollars and cents which hardly comports to the fundamental issues which are involved in civil liberties.

It is understandable that Congress continues to support law enforcement powers because of the continuing terrorist threat. No one wants to be blamed for another 9/11. My own briefings on the telephone companies' cooperation with the Government have convinced me of the program's value so that I voted for it, even though my amendment to substitute the Government for the telephone companies was defeated in the Senate's February vote. Similarly, I am prepared to support it again as a last resort, even if it cannot be improved by providing for judicial review, the pending amendment. However, since Congress has been so ineffective in providing a check and balance, I will fight hard—and I am fighting hard—to secure passage of this amendment to keep the courts open. It is our last refuge, our last big stand when the stakes are high, and they invariably are. When Congress addresses civil liberties and national security, Members frequently must choose between the issues of two imperfect options. Unfortunately, we too often back ourselves into these corners by deferring legislation until there is a looming deadline. Perhaps that is why so many of my colleagues have resigned themselves to accepting the current bill without seeking to improve it further.

Although I am prepared to stomach this bill if I must, I am not yet ready to concede that the debate is over. Contrary to the conventional wisdom, I do not believe it is too late to make this bill better. Perhaps the Fourth of July holiday will inspire the Senate to exercise its independence from the executive branch, now that we are back in Washington.

How much time do I have remaining, Madam President?

The PRESIDING OFFICER (Mrs. MCCASKILL). There are 32 minutes remaining.

Mr. SPECTER. I reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Rhode Island.

Who yields time to the Senator from Rhode Island?

Mr. ROCKEFELLER. I yield as much time as the Senator requires.

Mr. WHITEHOUSE. Madam President, I appreciate very much the courtesy of my chairman in allowing me some time. I should not take more than 10 minutes.

Once more we find ourselves debating President Bush's warrantless wiretapping program, a self-inflicted wound that this administration has visited upon our Government.

The way this Senator sees it at least, the Bush administration broke faith with the American people with its warrantless surveillance program, and now we in Congress are meant to clean up the administration's mess. Unfortunately, we are doing so with a legislative fix that in one critical area—immunity for the phone companies—misapplies the substantial evidence standard, trespasses constitutional boundaries, and breaks dangerous new ground in American law.

We would not be in this position if the Bush administration had sought and received a court order in the first place, as it easily could have. There would be no debate over granting immunity since a company following a court order is protected. Or the Bush administration could have used FISA procedures to seek and receive lawful assistance from telecommunications companies. But the administration chose to go outside the law. I suspect the administration wanted to prove a point about the President's article II authority, so it deliberately avoided these well-established mechanisms. If so, the Bush administration deliberately walked these telecommunications companies into this problem and this litigation to vindicate ideological ambitions. But the problem is now before us.

I have worked diligently and across the aisle to try to develop thoughtful solutions to the problem. In February, with the distinguished Senator from Pennsylvania, Senator ARLEN SPECTER, the learned ranking member of the Judiciary Committee, I offered a bipartisan amendment that would have substituted the U.S. Government for the telecommunications companies if it was determined they acted in good faith and with the reasonable belief that compliance was lawful.

Similarly, I supported an amendment offered by Senators DIANNE FEINSTEIN and BILL NELSON, drawn from the Specter-Whitehouse amendment, that offered immunity to those companies that acted, again, in good faith and with the reasonable belief that compliance was lawful.

Good faith is the proper standard here. It is the standard repeatedly referenced by respected Members in this

Chamber who have asserted that any telecommunications company that assisted the Government acted in good faith.

My friend, Senator MARTINEZ, said:

The fact is that these companies acted in good faith, and they acted in good faith when they were called upon to assist our intelligence professionals.

My friend on the Judiciary Committee, Senator KYL, noted:

[t]he general rule that private citizens acting in good faith to assist law enforcement are immune from suit.

Senator CHAMBLISS, my colleague on the Intelligence Committee, argued that America's telecommunications carriers ''should not be subjected to costly legal battles and potentially frivolous cases . . . merely for their good faith-assistance to the Government.''

Senator ALLARD said that ''the U.S. Government owes these patriotic companies and their executives protections based on the good-faith effort they made in working with our intelligence community.''

Senator BOND, vice chairman of the Intelligence Committee, noted that ''the intelligence community advised us . . . that these companies acted in good faith, and we in the committee agreed with them.''

We seem to have agreement amongst Members in this body that good faith is the proper standard. So we should let a court, which has available to it the procedural mechanisms necessary to get to the bottom of this in a confidential manner, make the determination, the fundamental determination: Did these companies, if they received Government requests, act in good faith? We may in this body assume it to be true, but it is not our role as Members of Congress to decide on the good faith of an individual litigant in a matter that is before a court.

Many Senators have not even been read into the classified materials that would allow us to reach an informed conclusion about good faith. We as a body are incapable of making an informed conclusion because as a body, we have not had access to the necessary materials. So we should provide a fair mechanism for a finding of good faith by a proper judicial body with the proper provisions for confidentiality.

This simple determination can be made with limited proceedings based largely on the record of any documents provided to the companies. We ask so little—a proper hearing, applying a proper standard. Unfortunately, the Bush administration opposed this option, and I have not had the chance to offer this amendment. For all its talk, the Bush administration was evidently and tellingly not confident that a good-faith threshold could be met.

So instead of requiring a finding of good faith, the bill states that immunity will be granted if the Attorney General's certification is ''supported by substantial evidence.'' It is worth drilling down to some lawyering for a moment to reflect on what ''substantial evidence'' means in this context.

The first point is that ''substantial evidence'' standard is essentially a meaningless standard, given the minimal showing necessary to be granted immunity. The elements as to which substantial evidence must exist are these: The intelligence activity was ''authorized by the President''; ''designed to detect or prevent a terrorist attack''; and ''the subject of a written request or directive . . . indicating that the activity was (I) authorized by the President; and (ii) determined to be lawful.''

That is it. That is achieved by simply putting into evidence the piece of paper containing the Attorney General's certification.

But the substantial evidence standard implies more than that, and it is out of place here. This standard is typically applied in what is called a ''sufficiency challenge''—a judicial inquiry into whether there is substantial evidence to support a jury verdict. I cannot tell you how many sufficiency challenges I have withstood as an attorney general and U.S. attorney. It is standard fare in criminal cases.

The substantial evidence standard is also frequently used for judicial review of an administrative agency's adjudication or rulemaking.

So the substantial evidence standard is used to review the results of adversarial proceedings where the parties had a chance to make their case and build their record, and the court then reviews to determine whether there is substantial evidence to support the agency's or jury's determination.

The substantial evidence standard is a standard used to weigh the result of an adversarial process. Not so here. Here the court will apply the substantial evidence standard to an Attorney General's unilateral certification. That is bad lawyering. That is discouraging, when it would have been so easy to get this right.

Let me close with a few words about the constitutionality of title II. It is a core principle of our system of separated powers that no branch of Government may exercise powers allocated to another branch. The United States Supreme Court has said that the Framers of the Federal Constitution felt in drafting our Constitution ''the sense of a sharp necessity to separate the legislative from the judicial power.'' This sense of sharp necessity, the Court said, was ''prompted by the crescendo''—the words the Court used—''the crescendo of legislative interference with private judgment of the courts.''

If you wish to see a case of legislative interference with private judgment of the courts, look no further than what we are doing today.

Plaintiffs in the telecom litigation have brought causes of action alleging that their core constitutional rights were violated. By providing immunity, Congress is telling the judicial branch: You cannot hear an entire category of constitutional claims. Congress is intruding upon a core function of the judicial power—the resolution of constitutional disputes.

The U.S. Supreme Court has warned on more than one occasion, most recently in the 1988 case of Webster v. Doe, that ''a serious constitutional question would arise if a federal statute were construed to deny any judicial forum for a colorable constitutional claim.''

This statute has as its very purpose to deny a judicial forum to these colorable constitutional claims.

I further note that Congress stepping in to pick winners and losers in ongoing litigation on constitutional rights not only raises separation of powers concerns but it veers near running afoul of the due process and takings clauses. Article II of this bill is the most extreme measure Congress, as best as I can find, has ever taken to interfere in ongoing litigation. Congress usually provides at least a figleaf of an alternative remedy when it takes away the judicial one. For example, in the National Childhood Vaccine Injury Act, Congress put a stop to Federal court actions but provided an alternative path for claims to be heard. The Public Readiness and Emergency Preparedness Act eliminated liability for people who take certain countermeasures during or after a pandemic outbreak. But a special fund for victims was established by Congress.

Today's effort is a naked intrusion into ongoing litigation. Where will that stop? Will Congress be able to rove at will through litigation anywhere in the judicial branch, picking winners and losers as we like? We don't just trespass on the separation of powers; we trespass onto dangerous ground.

If I were a litigant, I would challenge the constitutionality of the immunity provisions of this statute, and I would expect a good chance of winning.

I spoke before the Independence Day recess about article I of this bill, how proud I am of the work that went into it and the exemplary results we have achieved. Chairman ROCKEFELLER, in particular, but many others as well, deserves commendation, first for resisting the Bush administration's unseemly efforts to create a legislative stampede and, second, for thoughtfully crafting an improved and modernized FISA Act that contains many new important protections for Americans. I will incorporate my reference of my previous remarks on that subject, but suffice it to say as an attorney general and a U.S. attorney who has run wiretap vehicles, article I is a fine piece of legislation which makes it all the more disappointing that the Bush administration will not tolerate an amendment to article II that allows for a proper hearing before the proper court set to the proper standard. It would be so easy to get article II right. So close and yet so far.

I close by reiterating my deep anger that the Bush administration unnecessarily created this mess in the first place, my frustration with the solution that Congress has established to the immunity question, and my hope that our great judicial branch will vindicate the error we in the legislative branch make today.

Mr. SPECTER. Madam President, I had hoped to ask a couple questions of the distinguished Senator from Rhode Island. I consulted with the chairman, who wants to be recognized next. It would be my request, if I may have Senator WHITEHOUSE's attention, that he stay on the floor to engage in a discussion, a colloquy with me when the chairman has concluded.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. ROCKEFELLER. Madam President, Senator SPECTER has offered an amendment altering the liability protections of title II. His amendment would require the district court to assess the constitutionality of the President's warrantless wiretapping program before it could dismiss cases against telecommunications companies that met statutory requirements for liability protection.

Although I appreciate the Senator's desire to ask the court to address the constitutionality of the President's program once and for all, he has picked the wrong mechanism to ask the court to answer his question.

First, Senator SPECTER's amendment would completely undermine, as I said before, the delicate compromise in front of us today. People say: Well, we are freshly back in town, newly minted, widely open. I am sorry, this was a bill which just got through on a thread, and it will probably get close to 70 votes, a compromise already accepted by the House with 70 percent of their votes, and I think that balances the protection of liberties and also does something I have stated I think is rather important; that is, it allows the collection of intelligence to continue in order to protect the United States of America.

Senator SPECTER's amendment also would require the court to consider a difficult constitutional question that otherwise would not be at issue in the cases.

Title II does not cover cases against Government actors. This exclusion was intentional. Cases against the Government for any unlawful or unconstitutional actions Government actors may have undertaken should be allowed to proceed. Arguments over the constitutionality of the President's actions can and should be litigated in those proceedings.

The amendment, however, injects this complicated constitutional question about the interplay of the fourth amendment and separation of powers into cases requesting civil damages from private companies. The amendment does not require that there be a relationship between the companies and this constitutional question. It does not ask whether the companies were aware of the scope of the President's program, nor does it ask whether the companies' actions were done in good faith or even whether they were legal. Indeed, if the court finds that the President's program violated the Constitution, the cases against the company will not be dismissed even if that company had no involvement in the unconstitutional components of the President's program.

Madam President, this is simply unfair. A company should not be subjected to liability solely because the Government acted unconstitutionally. A company should not be subjected to liability solely because the Government acted unconstitutionally. Any accountability and liability should be based on actions of the company, which is what title II is about.

Imposing this barrier to liability protection is also inconsistent with our expectation about the role companies are expected to play when they receive Government requests for information. Our existing statutory approach is based on the idea that the Government requires prompt cooperation from the telecommunications companies. Although we expect those companies to seek documentation from the highest levels of Government, they are not expected to assess the constitutionality of particular requests on which they lack, to say the least, complete information.

The ongoing litigation is complicated by classified information issues that make it virtually impossible for the cases to move forward. But if the cases could proceed without regard to the classified information at issue, the court would not consider the question of whether the President's program was constitutional. Instead, it would ask whether the companies were entitled to immunity based on existing law.

In addition, a case against any particular company is necessarily limited to the facts relevant to that company. The court would, therefore, not be provided a comprehensive look at the President's program in any of those cases.

We should not ask the district court to assess whether the President's program is constitutional when the answer to that question is unnecessary to resolve the underlying litigation between the plaintiffs and the carriers, and the court does not have sufficient facts to address that far-reaching question of constitutionality. We are talking about apples and oranges, but it is apples here that we are concerned with.

I urge my colleagues to oppose this amendment.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. SPECTER. Madam President, I do wish to engage in a colloquy with the Senator from Rhode Island, but first, with the chairman having just completed, I would like to respond to some of his contentions and engage in a question or two with the chairman.

When the Senator from West Virginia argues that my amendment would undermine the delicate compromise which the Intelligence Committees have reached, that is what the full Senate is supposed to do. The committees deliberate, the House and the Senate come to a conference report, they bring the matter to the Senate, and then it is up to the full body to make a determination. So there is nothing unusual about disagreeing with the compromise, however delicate.

The chairman argues that it would require the courts to consider difficult constitutional issues. That is exactly what the courts are supposed to do. The full impact of Chief Judge Vaughn Walker's decision and how far-reaching it goes has not been felt, understood, or analyzed in the course of only 6 days—an opinion which runs more than 50 pages. We are dealing with court-stripping in the middle of litigation that has been going on for years. Judge Walker's opinion concerning the telecom companies was in July 2006, with the telephone companies now on appeal.

It really goes back to the fundamental principle of Marbury v. Madison, when Chief Justice Marshall made the determination that it is up to the courts to decide what the Constitution means, and we would be undercutting that judicial process in midstream.

Earlier, I posed a question to the Senator from Missouri, which if the chairman wishes to answer would be fine. I know and I admire what Senator ROCKEFELLER has done. I have worked with him since he was elected in 1984, and we worked together on the Veterans' Committee and on intelligence matters and on many major matters. When the history is written, there will be a famous handwritten letter disclosed by Senator ROCKEFELLER to the administration about how deeply he feels and how deeply he cares about these matters. But I questioned the Senator from Missouri, who is a member of the bar and quite a scholar on constitutional law, if there had been any case known to him picked up in midstream after years of work in the district court and pending on appeal. It really goes right to the heart of Marbury vs. Madison.

You have Chief Judge Walker having flatly decided that the terrorist surveillance program is unconstitutional, and you have Chief Judge Walker leaving aside the issues of standing but saying:

> Plaintiff amici hint at the proper showing when they refer to ''independent evidence disclosing that plaintiffs have been surveilled'' and a ''rich lode of disclosure to support their claims.''

Going to the standing issue. Although not decided, why not let the courts finish it? You have these decisions. Why not keep the current program in effect and not interrupt the courts and have the judicial decision?

So when the chairman raises the point that it would require the courts to consider difficult constitutional questions, I agree with him, but that is what the Federal courts are supposed to do, and it really is untoward for the Congress to step into the middle of it. I know of no case like it. And here we are being asked to strip the court of jurisdiction when they are in midstream, where they may well find some important facts to some important matters in the course of the judicial decisions which would influence Congress.

We have the amendment offered by the distinguished Senator from New Mexico, Mr. BINGAMAN, which would call upon the inspector general to find out what the facts are on immunity since, as I say, we are being asked to pass on this when we don't know the full import. And I support the Bingaman amendment. I am an original cosponsor of it. Well, similarly, what Chief Judge Walker may find here may be very important.

But let me raise the first of two questions with the chairman.

Mr. ROCKEFELLER. May I respond to the Senator's observation?

Mr. SPECTER. Certainly. I will yield.

Mr. ROCKEFELLER. I would say to my distinguished friend from Pennsylvania that Judge Walker's case is not, under any circumstance, going to be stopped by whatever happens here. It will not happen, and it will, therefore, continue. The bill only addresses cases against carriers, is the point I was trying to make. Judge Walker—his case is a case against the Government. This bill is not against the Government. It is against what happens to the carriers, or in this particular case whether they get liability. The Government is not the point. The carriers are the point. The case continues, and we have not intervened in a malicious or malevolent way.

Mr. SPECTER. Well, Madam President, by way of reply, I understand that this provision only concerns the telephone companies, and I understand the chairman's argument about good faith. But good faith is not determinative in and of itself. If the conduct violates the Constitution, there is a constitutional violation no matter how good the faith may be. It would be a good reason to indemnify, to substitute, to hold them harmless, but not to exonerate them for a constitutional violation.

The chairman says companies should not be held liable if the Government acted unconstitutionally. That is not correct as a matter of law. Where the telephone companies are aiders and abetters and accessories before and after the fact and really act jointly with the Government, they can be liable.

Mr. ROCKEFELLER. That is quite an assumption to make, I say to the Senator.

Mr. SPECTER. Let me finish the reply, and I will be glad to yield again.

When the argument is made that only the case against the telephone companies is involved, that is not quite accurate. It is being dismissed. It is no coincidence that Chief Judge Walker handed this opinion down a few days—6 days—before it was publicly known that the Senate would be taking up this issue. And he went out of his way to raise the issue about standing and the rich lode of disclosure. So if this act is passed and retroactive immunity is granted, it will remove the telephone companies, true, and there will be another case standing, but there will be no judicial determination of the constitutionality of what the telephone companies did.

Chief Judge Walker has those cases against the telephone companies too, and he has pretty well given a roadmap as to what he is going to do because he said the terrorist surveillance program is unconstitutional and the Foreign Intelligence Surveillance Act covers pen registers and trap-and-trace devices, covering whatever it is the telephone companies did here; although, again, we do not know for sure. So where he said the terrorist surveillance program is unconstitutional and the statute covers pen registers and trap-and-trace devices, to remove the case from him at this stage will eliminate a determination of the constitutionality of whatever it is the telephone companies did and really flies in the face of the historic role of the courts since 1803 in Marbury vs. Madison.

Now I am glad to yield to the chairman.

Mr. ROCKEFELLER. I will just reply very briefly with three points, and when you are finished, I would like to yield to—or hopefully the vice chairman will yield to the senior Senator from Virginia.

The one point is that this is not a bill we are addressing here about the Government. We are doing it about carriers, and particularly in title II.

Secondly, I am interested in what the ranking member of the Judiciary Committee feels might be the result if we went the Judge Walker route regardless of its inapplicability, in my view, to this situation when it went through the appeal process.

I am not a lawyer. Right now I wish I were, but I am not. Usually, I am glad I am not. But it seems to me that you would be looking at a period of appeals going right on up to the Supreme Court that might last 3 or 4 years. I am not experienced in how long these things take. But this is a matter that might take that kind of time and that causes me to raise again the question I have raised several times with the vice chairman this afternoon: The only thing that we appear to be discussing in the Senate is rights and liberties. I think I have yet to hear almost any word about the security of the Nation and what the purpose of the Intelligence Committee is, what the purpose of intelligence is, what the purpose of collection is, how the collection is done, who does it, how important is it to how we gauge our situation in the world, where we need to deploy, where we need to be watching.

This is extraordinarily serious stuff but not a word does it get in the Senate, which is two-thirds made up of lawyers—and I honor every one of them. But we are picking at ''would the Constitution allow'' this or that. I am looking at something which to me is very clear. This is all about carriers, this particular bill. My name isn't Judge Walker. I haven't issued the opinion. If my name were Judge Walker, and it was an opinion, it would be about constitutionality. We are not addressing that in this bill.

The Senator earlier said: Look, we are here. Why not duke it out and get all the substitutes and arrangements and compromises back on the table again. I know that does work in some fashion. But I think the vice chairman and I and our staffs could say that what was achieved over the last month or so could probably never be achieved again, which is to get the House to agree. JOHN CONYERS is chairman of the Judiciary Committee, who was gracious and polite but unfriendly to this bill. There is the question of the Blue Dogs. You can say always these are questions—on farm bills, on steel bills, on automobile bills, on whatever bills.

This is a particular type of emergency based upon the fact that we are still, under my definition, under attack. Not that we have not been attacked, but we have been able to interdict, because of intelligence, some of those attacks—or all of those attacks. This is a very different matter than running an ordinary piece of legislation through the Senate.

If 20 or whatever Judiciary plus Intelligence is in the Senate—35, whatever that is. No, because there are some cross-memberships. Let's say 20. Understand, the others have not been read in. I have said they could have found out the information that has been available for a full year. Any Senator has the ability to go and read intelligence, if they wish to do that. It sort of implies that the Senate, as a matter of habit, comes to full agreement and full understanding that 80 out of 100, as opposed to 20 or 25 out of a 100, fully understand what is at stake in the amendments to a bill and then to the final passage of a bill.

I think the Senator knows that is not the way it works. I think the Senator, although he says we should not delegate, knows we delegate all the time.

Mr. SPECTER. Will the Senator yield?

Mr. ROCKEFELLER. I will. That takes various forms. Sometimes it will be that I am very much on the edge of how I am going to vote on something, and I go to a particular Senator—it might be the Senator from Pennsylvania—and say: I have this feeling and I have that feeling, I am right on the cusp of which way I should vote.

Mr. SPECTER. Will the Senator yield?

Mr. ROCKEFELLER. I will.

Mr. SPECTER. For the first time, I take sharp distinction with the chairman when he says there has been no recognition about the importance of intelligence or the workings of the Intelligence Committee or of special expertise.

Mr. ROCKEFELLER. I wasn't talking about special expertise—I was talking about: We have not talked about the threat.

Mr. SPECTER. If I may continue?

Mr. ROCKEFELLER. Yes.

Mr. SPECTER. If I may continue, no recognition of the work of the Intelligence Committee—let me limit it to that—which was certainly said.

I take sharp exception because I served 8 years on the committee and served as chairman for 2 years. I think I know what the Intelligence Committee does and what its work is.

I take sharp exception to the suggestion that there is not a full awareness on the part of this Senator as to the terrorism threat. I made that explicit. When I said that if I have to take this bill, I will, because of the threat of terrorism, just as I voted for the bill earlier when my substitution amendment was not adopted.

But when the chairman says that this has gone through a laborious process with the House and is a delicate compromise—that happens all the time. It happens all the time. You are right in the middle of it, you have seen it, and I know, too, because I have been there. I have been here 28 years, and I know exactly what goes on.

When you say this ought to be accepted, I disagree. This bill can be made better.

When you say you deal with the intelligence function and not the constitutional function—again, I sharply disagree. We have to legislate on what is constitutional. We may have a different opinion than Chief Judge Walker, but we cannot ignore the question of constitutionality. If it takes 3 or 4 more years, we are talking about civil rights and constitutional rights.

Mr. ROCKEFELLER. My point.

Mr. SPECTER. This program has been continued on a temporary basis. It has been extended. The intelligence chiefs have been satisfied with that.

I don't like to extend it. I would like to resolve it now. But if it takes the courts longer—the Supreme Court ducked the Detroit case. If it takes them years to decide this, that is the price of constitutional rights.

If you take a look at the history of this country, if you take just one case, Plessy v. Ferguson, in 1896, I believe, to Brown v. Board in 1954, to eliminate separate but equal, you come to a constitutional doctrine.

I am prepared to take my time, if I can find the requisite number of votes in this body.

Madam President, how much time remains on each side?

The PRESIDING OFFICER. The Senator from Pennsylvania has 20 minutes remaining. The Senator from West Virginia has 34 minutes remaining.

Mr. SPECTER. Madam President, this is as good a time as any to move forward with a question or two, which I would like to have in a colloquy with Senator WHITEHOUSE. This issue has been raised before, but I would like your views on it, Senator WHITEHOUSE. You have a distinguished record as an attorney, U.S. attorney, attorney general, serving with distinction on the Judiciary Committee for the past year and a half.

I raised the issue earlier about the constitutional authority of a Member to delegate his authority, recognizing that there are many matters where we accept committee reports, but at least Senators have access to material. When I was chairman of the Judiciary Committee—the tradition is to tell the chairman and the ranking member about a program such as the terrorist surveillance program. I was blindsided by it, in mid-December of 2005. We were on a Friday, the final day of the argument on the PATRIOT Act. We were about to go to final passage, when the New York Times published its paper. That morning Senators said they had been prepared to vote for it but no longer were. As chairman of the committee, I could not be briefed on the program.

Since that time, there has been a change of heart to an extent but, as stated on the floor of the Senate earlier, some 70 Members of this body will be voting on retroactive immunity for a program they do not know or understand. The majority of the House, according to House leadership, has not been briefed on the program.

Do you have any doubt that we may not constitutionally delegate our authorities to vote?

Mr. WHITEHOUSE. Does the distinguished Senator yield me time to reply?

Mr. SPECTER. I would like a reply as to whether it is your view, as a constitutional matter, Members of Congress can delegate their authority to vote.

Mr. ROCKEFELLER. If the Senator from Rhode Island would give me 30 seconds, I would be grateful.

Mr. WHITEHOUSE. I have no objection, of course.

Mr. ROCKEFELLER. The fact of the matter, I say to the senior Senator from Pennsylvania, is that there are 37 Members of the Senate who have been briefed on this matter—not 20 but 37. We decided to do a little bit of homework: Fifteen on the Senate Intelligence Committee, 19 on the Senate Judiciary Committee, that is 34—minus 4 crossover members; 2 leadership on each side, Senator ROBERTS and the Appropriations Committee chairman and, I suspect, vice chairman, plus Senator LEVIN and Senator MCCAIN, who are ex officio.

That is not bad.

Mr. SPECTER. Madam President, the statistics I have are, out of the House there have been 21 House Intelligence Committee members briefed and as many as 40 Judiciary Committee members; in the Senate, 15 on the Intelligence Committee and 19 on the Judiciary Committee for a bicameral total of 95, which is 17.75 percent of the entire Congress. But if you take the chairman's figures, you still have a majority of Members of Congress who have not been briefed, who are, in effect, delegating their authority to vote on a matter where they don't know what they are granting immunity for.

But I refer, again, to the Senator from Rhode Island, if he cares to answer the question.

Mr. WHITEHOUSE. Of course, I did say in my remarks that I believed that this body is incapable of making a determination as to the good faith of the telecommunications companies for the reason the distinguished Senator from Pennsylvania has indicated, to wit, very few of us, less than a majority and certainly not all of us, have been briefed as to what the actual facts are, what was provided, if anything, to the telecommunications companies that would support our finding of good faith.

As I said in my remarks, I think essentially every Senator who has spoken to this question has implicitly referred to good faith, directly referred to good faith as the implicit standard.

I view it, although I defer to the far greater experience and learning of my colleague from Pennsylvania—I see it less as a constitutional issue of deference than one of legislative prudence. I think it is not prudent for us as a Senate to take it upon ourselves to make the good-faith determination. I think that is a determination that should be made by a judicial tribunal, it should be made with appropriate provision for confidentiality, and it should be made by the judicial agency that customarily makes good-faith determinations.

It isn't our legislative role to do that. So I agree with the concern of the distinguished Senator about this. I see it less as a constitutional limitation on my ability as a Senator to cast my vote, which I think is untrammeled. I can cast my vote about things I know nothing about, have not studied on, am totally uninformed, if I wish. It would be bad and imprudent for me to do it, but I do not believe the Constitution prevents me from doing it, so I see it more as a matter of legislative prudence.

Mr. SPECTER. Madam President, one final question. Does the Senator from Rhode Island know of any case which has been pending in the Federal courts for at least 3 years, as the telephone company case has, with the opinion by Chief Justice Walker in July of 2006 and now pending on appeal in the Ninth Circuit, where the Congress stepped in to take away the jurisdiction by a grant of immunity as proposed in this legislation?

Mr. WHITEHOUSE. I am aware of none. I cannot guarantee that our research has been complete and exhaustive. But, certainly, the recent efforts that Congress has done where an immunity from liability has been an issue, either responding to pandemics or responding to vaccines, what Congress has done there is to create an alternative remedy.

I am aware of no precedent for the Congress of the United States stepping into ongoing litigation, choosing a winner and a loser, allowing no alternative remedy. And I believe the constitutional problem with doing that as a separation of powers matter is particularly acute where the cause of action that is being litigated in the judicial branch is a constitutional claim. And Judge Vaughan is listening to constitutional claims. That is the subject matter of the litigation.

So I believe it will be determined by a court that ultimately this section of the legislation is unconstitutional, in violation of the separation of powers, because we may not, as a Congress, take away the access of the people of this country to constitutional determinations heard by the courts of this country.

Mr. SPECTER. Judge Walker is certainly listening to constitutional claims. He may even be listening to the Senate. Somebody may be listening on C–SPAN 2.

I thank the distinguished Senator from Rhode Island for his candid answers.

How much time is remaining?

The PRESIDING OFFICER (Mr. LAUTENBERG.) The Senator has 13 and a half minutes remaining.

Mr. SPECTER. Mr. President, I reserve the remainder of my time.

Mr. LEAHY. Mr. President, I strongly oppose a blanket grant of immunity. I also urge Senators to reject this ill-advised legislative effort to engineer a specific outcome in ongoing Federal judicial proceedings. No one should stand above the law in the United States.

The administration circumvented the law by conducting warrantless surveillance of Americans for more than 5 years. They got caught. The press reported this illegal conduct in late 2005. Had the media not done so, this unlawful surveillance may still be going on today.

When the public found out that the Government had been spying on the American people outside of FISA for years, the Government and the providers were sued by citizens who believed that their privacy rights were violated. That is why we have Federal courts—so people can vindicate their rights before a fair and neutral tribunal, without interference from the other branches of government.

Title II of this bill is apparently designed to terminate these lawsuits. It seems to reduce the role of the court to a rubber stamp. So long as the Attorney General will certify that the Government requested the surveillance and indicated that it had been ''determined to be lawful,'' the cases are to be dismissed and everybody is off the hook. That is not a meaningful judicial inquiry. That doesn't give the plaintiffs their day in court. It is not just a heavy thumb but a whole hand and arm on the scales of justice, and I cannot support it.

Here is what the report of the Select Committee on Intelligence said in connection with reporting its earlier version of retroactive immunity:

> The Committee has reviewed all of the relevant correspondence. The letters were provided to electronic communications service providers at regular intervals. All of the letters stated that the activities had been authorized by the President. All of the letters also stated that the activities had been determined to be lawful by the Attorney General, except for one letter that covered a period of less than sixty days. That letter, which like all the others stated that the activities had been authorized by the President, stated that the activities had been determined to be lawful by the Counsel to the President.

So if anyone had any doubt where the criteria in the bill come from, there it is. Do those words seem familiar? Do the criteria carefully worded for inclusion in the bill now make sense?

I expect that the American people remember the testimony before the Judiciary Committee of James Comey and FBI Director Mueller about the period of time when Attorney General Ashcroft was in the hospital, senior advisers at the Justice Department had advised against extending approval for the warrantless wiretapping program and the Counsel to the President, Alberto Gonzales, went to John Ashcroft's hospital room seeking to get Attorney General Ashcroft to override the acting Attorney General's concerns. Some time thereafter, the program was apparently adjusted in some way, but only after FBI Director Mueller spoke to the President and several high-ranking officers threatened to quit the administration. That period could account for the Select Committee on Intelligence's reference to a letter and period of less than 60 days when it was the Counsel to the President who had ''determined'' the activities ''to be lawful.''

Senator SPECTER has long said that he supported judicial review of the legality of the President's warrantless wiretapping program. During the last Congress, when he chaired the Judiciary Committee, he introduced a bill that would have allowed the courts to review the legality of the administration's warrantless surveillance program. Unfortunately, he later modified the bill in his discussions with the White House that made it unacceptable and ineffective in my view and it was never passed. I have always supported allowing the courts the opportunity to review the legality of those activities.

I believe that independent judicial review will reject the administration's claims to authority from the Authorization for the Use of Military Force that overrides FISA. I believe that the President's claim to an inherent power, a Commander-in-Chief override, derived somewhere from the interstices or penumbra of the Constitution's article II will not prevail over the express provisions of FISA.

Indeed, Chairman ROCKEFELLER seemed to concede as much this morning when he asserted that nothing in his bill should be taken to mean ''that Congress believes that the President's program was legal.'' He characterized the administration as having made ''very strained arguments to circumvent existing law in carrying out the President's warrantless surveillance program.'' At various points Senator ROCKEFELLER alluded to the administration's argument that the Authorization for the Use of Military Force was some sort of statutory override authority and the administration's claim that the President has what Senator ROCKEFELLER called ''his all-purpose powers,'' which I understand to be the administration's argument that inherent authority from article II of the Constitution creates a Commander-in-Chief override, and said that these are not justifications for having circumvented FISA.

Consistent with Justice Jackson's now well-accepted analysis in the Youngstown Sheet & Tube case, when the President seeks to act in an area in which Congress has acted and exercised its authority, the President's power is at its ''lowest ebb.'' So I believe that the President's program of warrantless wiretapping contrary to and in circumvention of FISA will not be upheld based on his claim of some overriding article II power. I do not believe the President is above the law.

What is most revealing is that the administration has worked so feverishly to subvert any such independent judicial review. That sends a strong signal that the administration has no confidence in its supposed legal analysis or its purported claims to legal authority. If it were confident, the administration would not be raising all manner of technical legal defenses but would work with Congress and the courts to allow a legal test of its contentions and the legality or illegality of its actions.

This amendment now offered by Senator SPECTER is more limited than I would have liked. It says its purpose is to allow the courts to review the constitutionality of the assistance provided by the electronic communication services in connection with the program. Exactly how the courts get to such a review is not clear. Although I do not believe that this expressly allows the court to conduct the kind of comprehensive judicial review required to make a real determination about the legality of this program, and a fair decision about the merit of these lawsuits, it nevertheless seeks in spirit to provide judicial review. In the hope that it might provide an avenue to accountability for the illegal actions of this administration, I will support it.

In so doing I should note that I do not believe that Congress can take away the authority of the Federal courts to consider unconstitutionality or illegality in the course of meaningful judicial review. Senator ROCKEFELLER emphasized this morning that the parties to the ongoing cases are to be ensured ''their day in court'' and that they are ''provided the opportunity to brief the legal and constitutional issues before the court.'' These statements do not have meaning unless the legal issues and constitutional issues presented by these cases can be considered. The value of the Specter amendment lies in making the issue of constitutionality explicit.

The PRESIDING OFFICER. The Senator from South Dakota.

Mr. THUNE. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

ENERGY

Mr. THUNE. Mr. President, like so many of my colleagues, I spent the week of the Fourth of July traveling my State of South Dakota. I met with members of the general public at an energy forum, met with small businesses, folks in the tourism industry. Everywhere I went it was the same story: High gas prices are crippling the American economy.

I remember stopping in the small town of Parkston and visiting with someone who manages a small café there, and visiting with them about the impact that high gas prices are having on their business.

She said: Well, it is not really the weekend travelers, the RV owners, the people who camp, but it is those people who are commuting to work every single day who now do not have the money to eat out nearly as often.

Of course, Parkston is a small town. It is about 20 miles, give or take, from Mitchell, SD. There are a number of people who commute back and forth. It is those commuters who are feeling the most economic hardship as a result of high energy prices.

I attended my parents' 65th wedding anniversary in my hometown of Murdo. In my hometown, tourism, the visitor industry, is the very lifeblood of that community. I grew up in that business, worked in restaurants, motels, that sort of thing. And I even had a forum, as well, with members of the tourism industry in South Dakota in Rapid City when I was home just to gauge the impact of high fuel prices on their individual businesses.

The Rapid City mayor, who owns a campground, said: I think we are going to reach a tipping point where the very foundations of the travel industry could be shaken.

Bill Honerkamp, president of the Black Hills, Badlands and Lakes Association said tourism fell about 7 percent in the region in May, and numbers for the rest of the summer are barely holding steady.

Teddy Hustead, president of the popular South Dakota tourist stop Wall Drug, said tourist stops were down 1 percent in June. But he went on to say that Wall Drug needs to be up 4 to 5 percent to be a healthy, growing, viable concern, and it is hard to grow a business when gas is increasing by 10, 20, and 25 percent every single year.

Sean Casey, the vice president of another popular South Dakota tourist destination, Bear Country USA, noted that visitation is down 7 percent for the year 2008. And he went on to say: Energy is pinching us. I always joke that we are going to a model like the space shuttle—two visitors at $10 million each.

Jo Casky of the Spearfish Convention and Visitors Bureau noted that convention is dropping because of high gas prices. One particular convention was booked with a prediction of 1,200 to 1,400 attendees. That is unlikely now because of the rising pump prices.

Casky said: We are now at about 800. As soon as gas started getting to the $4 mark, we started to see reservations back off.

High gas prices are having a dramatic impact on families, small businesses, the tourism industry, the airline industry, the agricultural industry, and virtually every sector of the American economy.

I toured a UPS facility in Sioux Falls, SD. Many of my colleagues may have heard what they are doing in terms of dealing with the price of fuel. They actually now, as they diagram routes for their drivers, diagram routes that only allow them to make right turns so they do not sit in a left-turn lane and idle thereby using more energy.

My point is that people are taking extraordinary steps to deal with the high cost of energy. Higher costs for companies such as UPS, transportation companies, get passed on to consumers in the form of higher prices for everything they buy. They are looking for leadership in Washington, DC. But instead of leadership, they have seen a decade of inaction, as arguably the most important issue of impacting the American economy has been left unattended.

We have done nothing to affect the basic law of supply and demand. Some argue, and perhaps rightly so, that high energy costs are partly a function of the weak dollar. They would be, as I said, accurate to say that because oil is denominated in dollars. When it takes $1.57 to purchase a Euro, it is going to make anything denominated in dollars more expensive.

There are those who think speculators are driving up the cost of energy in this country, and it is true that trading in energy commodities has increased dramatically over the past 30 years since the exchanges were created. I, for one, happen to believe we need to look for ways to define the degree to which speculation is impacting energy prices in this country and also look at what we can do to address that issue in a way that makes matters better and not worse.

Trading since 2004 on the NYMEX Exchange has nearly tripled. So we need to make sure our farmers, our ranchers, our airlines, our trucking companies, have the opportunity and ability that they need to manage risk. That is what those markets were created for. We also need transparent markets where all traders are subjected to the same sets of rules.

I believe we need more cops on the beat. We need to make sure the CFTC has the funding it needs to do its job and to enforce our laws. I think we can do some things, such as codifying CFTC position limits and transparency for foreign boards of trade. I guess my point is that there are a number of things we can do to address the impact that speculators may be having on the price of energy in this country. And, frankly, I think that is a role and responsibility that Congress should fill.

But if you take the weak dollar, and you take speculators out of the equation, we still have a major problem and a major crisis in this country. That problem is that we have greater demand for energy than we have supply. We use about 86, 85 to 86 million barrels of oil every single day worldwide. Of that amount, the United States uses about 20 million barrels or about 24 percent of the total. Of that amount of 20 million barrels that the United States uses every single day, about 12 million barrels are imported.

In other words, 60 percent of the oil that we use every single day in America comes from outside the United States. We are transporting and shipping and transferring about a half trillion dollars every single year of American wealth outside of the United States to petro dictators who are being enriched by that American wealth and using it in ways that I think most of us would disagree with; in fact, in many ways to support terrorist organizations in places around the world.

Now, we cannot solve our dangerous dependance upon foreign sources of energy absent affecting that basic law and rule of supply and demand. We have to find more energy in this country. We should be taking steps now to add supply and to reduce our demand.

One of the things we need to continue to support and intensify, in my view, is our commitment toward renewable energy. I want to read something that Tom Friedman said in an op-ed on June 29. The op-ed was titled ''Anxious in America.''

But he said:

> My fellow Americans. We are a country in debt and in decline, not terminal, not irreversible, but in decline. Our political system seems incapable of producing long-range answers to big problems or big opportunities. We are the ones who need a better functioning democracy. More than the Iraqis and Afghans, we are the ones in need of nationbuilding as it is our political system that is not working.

He goes on to say:

I continue to be appalled at the gap between what is clearly going to be the next great global industry, renewable energy and clean power, and the inability of Congress and the administration to put in place the bold policies we need to ensure that America leads that industry.

Well, one of the things that we did, and it was a moonshot in terms of renewable energy and making an investment in our future, is the renewable fuels standard. Last December there were 80 Senators who voted to increase the renewable fuels standard to 36 billion gallons by the year 2022. That was a policy that was put in place less than a year ago, and yet already we have people, Members of the Senate, politicians in Washington, who are talking about rolling that back. That could be the absolute worst thing that we do.

We do not need less energy in this country, we need more energy in this country. We need more renewable fuels. The 8 or 9 billion gallons of renewable energy that we produce in this country every single year today is taking pressure off gasoline and oil prices by, according to a study conducted by Merrill-Lynch, up to about 15 percent.

In the current market economy that is about 50 to 60 cents per gallon of gasoline. Someone has said it is ethanol and corn prices that are driving up the cost of everything we buy in this country, and particularly with regard to this whole food-versus-fuel debate. But the American Truckers Association recently did a study which found that in late 2004 it cost about 16 cents per box of cereal to transport that box of cereal to the marketplace. Today it costs about 36 cents per box of cereal. So we have seen a 20-cent increase in the transportation cost for a box of cereal. Couple that with the fact that the amount of corn in a box of Corn Flakes is about 10 cents per box, and you can see what is driving up the cost of everything in our economy. It is the increasing price per barrel of oil, increasing price of energy in this country.

We need to speed cellulosic ethanol to the marketplace. We need to increase the blends of ethanol. We need not fewer gallons of renewable energy in this country, we need more gallons of renewable energy. I hope those in Washington, in the administration and Congress, who are talking about considering rolling back the renewable fuels standard would reconsider that and think about the importance of renewable energy and what it can do for America's future and our dangerous dependence on foreign sources of energy.

The second thing, of course, we have to do is we have to increase our domestic supply. That means the Outer Continental Shelf. That means the oil shale in places in the Western States. It means ANWR. It means coal to liquid. It means nuclear. It means wind. We have all of these domestic energy supplies in this country, and we have heard people say it would take 5 to 100 years to develop some of these energy supplies. Well, that is what they were saying 5 or 10 years ago about many of these same things.

We did not do it then, and now we are paying a price for it. Is it not our job as policymakers to be looking down the road to future generations to make decisions that are in the best interests of America's future. There is not any issue, I would argue, that is more important to America's future than energy security because it ties directly into and correlates directly into our national security.

We have to have more domestic supply, and the last thing we have to do is we have to use less. We have to find more sources of energy, more domestic sources of energy, so we do not continue to get 60 percent of that energy from outside the United States. And we have to figure out ways in this country to use less energy.

I have a bill that I have introduced. I am on a bill that Senator MCCONNELL, the Republican leader, has introduced which has 43 cosponsors. I have introduced a bill of my own to deal with this energy situation. I am working with a group of both Republicans and Democrats. We need to put the politics aside, the partisanship aside, and work on getting a solution for the American people.

In the bill that I introduced, one of the things I include is a provision that requires that of additional Government lands that are leased for energy production—whether they be offshore, whether they be oil shale in the Western States, whether it be ANWR, the lease revenue, half of the lease revenue that comes into the Federal Government be plowed back into research and development and new technologies, in renewables, alternative sources of energy, things like plug-in hybrid cars, cellulosic advanced biofuels, hydrogen fuel cells.

Those are the types of things we also need to be investing in to make sure that not only are we increasing the supply of energy in this country, the amount that we have, but also that we are using less.

We can do this. We can put aside the finger-pointing and the blame game and do something for our energy future. I believe when people come together, and when they decide that this is an important priority for America's future, we can get this done.

But we can't do it by saying no to every proposal put on the table. My colleagues on the other side—many of them; not all, but many—have said no to offshore production, no to oil shale, no to nuclear, no to coal to liquid, no to additional refinery capacity. We can't solve this problem by saying no. We have to start saying yes to more domestic production and to more measures that would allow us to conserve and reduce the amount of energy we use. We have to get serious about this issue. It starts with addressing that fundamental law and rule of supply and demand. We can do all these other things, the dollar can start firming up, we can address the role of speculation in the marketplace. But at the end of the day, we don't solve the problem unless we get serious about increasing our domestic supply of energy and reducing and using less energy. When we do that, we will see the price per barrel start to come down, the price per gallon of gasoline start to come down, and we will see the American economy, in places such as South Dakota, where tourism and agriculture are so critically important, start to rebound and start to draw more visitors to the tourism industry and to make sure our farmers continue to produce food and fiber in a way that allows them to maximize their return on investment and not get choked with high input costs coming from higher energy costs.

I hope before we adjourn for the August recess, we will come together behind an energy proposal and plan that is good for America's future, that emphasizes renewables, more domestic supply and production, and addresses the important issue of conservation. But we can't do that by continuing to say no. I ask my colleagues on both sides to quit saying no and to start saying yes to America's energy independence. Say no to our dangerous dependence upon foreign energy but yes to making America energy independent and making this country more prosperous for America's future.

I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. Mr. President, on behalf of the leadership and the floor managers, I have been asked to propound a unanimous-consent request that the following Senators be recognized, assuming they are here on the floor in time to be recognized: I will speak now for about 15 minutes, to be followed by Senator CARPER for 10 minutes. I see my distinguished friend, the Senator from Mississippi; if he could indicate how much time he would like.

Mr. COCHRAN. About 8 minutes.

Mr. WARNER. He is to be joined by Senator WICKER.

Mr. COCHRAN. Yes, he is in the Chamber as well.

Mr. WARNER. All right.

Mr. WICKER. About 8 minutes also.

Mr. WARNER. All right. And Senator STABENOW, I do not see her, but let's put her down for 10, and Senator CORNYN.

Mr. CORNYN. I would need 15 minutes. If I can yield back some time, that would be great.

Mr. WARNER. With that in mind—I do not see any other Senators seeking recognition—I ask it in the form of a unanimous consent.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Virginia.

Mr. WARNER. Mr. President, I rise, along with the distinguished chairman and ranking member of the Intelligence Committee on which I am privileged to serve. I commend my chairman and ranking member for the extraordinary capability with which they have handled this controversial issue of

the FISA legislation and the bipartisanship they have shown. Our committee voted 13 to 2 on this measure which is now before the Senate. Currently, we have the Bingaman and Specter amendments. I join my chairman and ranking member in opposing these two amendments. They seek in one way or another to remove or render useless one of the most important sections of the FISA Amendments Act which is liability protection for the telecommunication carriers that assisted our Government with the President's terrorist surveillance program or TSP. Without the title II liability protection, the other sections of the FISA Amendments Act would become irrelevant because the carriers would not cooperate in the authorized programs.

This would be unfortunate, because the FISA Amendments Act is a critical piece of legislation for America's present and future security that achieves an important balance between protecting civil liberties and ensuring that our dedicated intelligence professionals have the capabilities they need to protect the Nation. The bill ensures that the intelligence capabilities provided by the Protect America Act, enacted in August 2007, remain sealed in statute.

Reforming FISA has not been an easy process. I would like to thank Chairman ROCKEFELLER and Vice Chairman BOND for the work they have done to garner bipartisan support for the FISA Amendments Act. It would be unfortunate if that work were undone by one of these amendments.

If passed, the Specter amendment would prohibit the dismissal of the lawsuits against the telecommunications carriers if the President's Terrorist Surveillance Program were found to be unconstitutional by the courts. With all due respect to my colleague from Pennsylvania, I believe that whether the President acted within his constitutional authorities should be treated separately from the issue of whether the carriers acted in good faith.

The extensive evidence made available to the Intelligence Committee shows that carriers who participated in this program relied upon our Government's assurances that their actions were legal and in the best interest of the security of America.

Mr. President, I would like to call the Senate's attention to the report which accompanied the version of the FISA Amendments Act passed by the Senate Intelligence Committee by a vote of 13–2. Based on the committee's extensive examination of the President's TSP, the report noted that the executive branch provided written directives to the carriers to obtain their assistance with the program. After its review of all of the relevant correspondence, the committee concluded that the letters ''stated that the activities had been authorized by the President [and] had been determined to be lawful'' The committee report added the following:

On the basis of the representations in the communications to providers, the Committee concluded that the providers, in the unique historical circumstances of the aftermath of September 11, 2001, had a good faith basis for responding to the requests for assistance they received. Section 202 makes no assessment about the legality of the President's program. It simply recognizes that, in the specific historical circumstances here, if the private sector relied on written representations that high-level Government officials had assessed the program to be legal, they acted in good faith and should be entitled to protection from civil suit.

The Senate Intelligence Committee believed, by a vote of 13–2, that the companies acted in good faith and that they deserve to be protected. I agree and I believe that the TSP was legal, essential, and contributed to preventing further terrorist attacks against our homeland.

But, even if one were to disagree that the President acted within his article II powers, I cannot see the wisdom in seeking to punish the carriers and their shareholders for something the Government called on the carriers to do with the assurance that the action was legal.

The Specter amendment would put the companies, and their millions of shareholders, in legal limbo, waiting while the Government litigates unrelated constitutional claims. Historically, the Supreme Court has been reluctant to adjudicate constitutional disputes between the political branches of our Government, suggesting that a constitutional question could take years to resolve, if it can be resolved. Lawsuits against the companies would likely continue in the interim which would: Have negative ramifications on our intelligence sources and methods; likely harm the business reputations of these companies; and cause the companies to reconsider their participation—or worse—cause them to terminate their cooperation in the future.

I believe it would be unfair to use private companies as a substitute to adjudicate constitutional claims properly directed against the Government. My colleagues should keep in mind that individuals who believe that the Government violated their civil liberties can pursue legal action against the Government, and the FISA Amendments Act does nothing to limit that legal recourse. As noted by my colleague from West Virginia, the case that was before Judge Walker—which addresses a constitutional challenge against the government—can proceed.

Bottom line, companies who participate in this program do so voluntarily to help America preserve its freedom and the safety—individually and collectively—of its citizens. I have long supported the idea of a ''volunteer force'' for our military and I believe a ''volunteer force'' of citizens and businesses who do their part to protect our great Nation from harm is equally important. I fear that if we are forced to draft companies into compliance when our Nation calls them to duty, ultimately our security will suffer. Without this retroactive liability provision, I believe companies will no longer voluntarily participate. This will result in a degradation of America's ability to protect its citizens.

It is for these reasons that I urge my colleagues to oppose the Specter amendment and any other amendment that would change the FISA Amendments Act.

I yield the floor.

I wish to conclude by saying that as I view this situation, I liken the private sector that has responded to the request of the Federal Government, which has been given assurances by the Federal Government, to the all-volunteer military force we have today. It is imperative that within the private sector there be elements, primarily these corporations and companies which have come forward to provide the technical assistance and also the facilities by which to implement the FISA program. They have done it by and large voluntarily. The program could not succeed without their participation. Therefore, they ask no more than what is justly owed to them, and that is protection from the lawsuits. I hope we can turn back these two amendments and proceed to final passage and that the Senate will go on record as supporting the essential nature of the FISA program.

ENERGY CRISIS

Mr. WARNER. Mr. President, I rise to turn to the question that confronts America today; namely, the energy crisis. I use the word ''crisis'' advisedly, because today no less than a third of Americans are absolutely struggling night and day to find the funds necessary to meet ever increasing food prices and ever increasing energy prices. It is for that reason I have taken a step. I wish to repeat that. I have simply taken a step to write the Secretary of Energy and to write the Comptroller General, the head of the GAO, to determine what are the facts relating to the 1973–1974 energy crisis, how America addressed that crisis, and the actions taken by the President and the Congress in 1973–1974. Again, Congress acted unanimously to back the President in imposing a national speed limit, that speed limit for the purpose of lessening the demand for gasoline and hopefully to have consequent savings at the gas pump.

That is a chapter in American history. I remember it quite well. I was privileged at that time to be Secretary of the Navy. Indeed, the Department of Defense, although at war in Vietnam, came forward and participated to try and help America work its way through that energy crisis. The national speed limit was the centerpiece of that program.

I ask unanimous consent now to print in the RECORD the letters I sent to the Secretary of Energy and the Comptroller General at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. WARNER. I thank the Presiding Officer.

Again, I am not taking a position that at this time we should invoke a new initiative in the Congress to pass legislation calling for a national speed limit because I simply do not have the facts. I am on a fact-finding mission. But if those facts come forward, as I believe they will, and show that this will help alleviate and lessen the demand at the pump and the cost to the American citizen, then I am quite likely to try—more than that, I am quite probably going to try—and garner support on both sides of the aisle to push forward with this legislation. I say so because I come back again to about a third of America at this point in time is frantically trying to make ends meet. We have to come up with a solution. We have to lead in the Congress, and hopefully the President will join. We have that duty.

Therefore, these two letters going to, certainly, the GAO, an impartial arbiter of the facts and finder of the facts, will provide this Chamber with the information necessary to make an informed judgment as to whether to go forth with legislation. I deem that the Secretary of Energy will reflect, quite understandably, the policy of an administration toward such a measure to bring about alleviation of the pressures at the gas pump today and on families.

Again, this step is in the category of conservation of energy. My colleagues—and I have participated with them—are looking at, in my opinion, three areas of addressing this problem: short-term, which is conservation, that is the only way to bring about some immediate measure of relief; secondly, intermediate steps, which I outlined in my speech here; and lastly, the long term. Much has been said about long-term steps. I take pride and push aside any sense of humility because for several years I have stood on this floor and urged offshore drilling, even put forth a measure here in this body which was defeated which called for the right of my State, Virginia, and such other States that might wish to join, through the Governor and the State legislature's participation, agreeing to drilling offshore of Virginia for gas. I am not suggesting I brought about a change of thinking in the administration, but the President now supports that concept. Indeed, a number of my colleagues now support that concept. I opine that I believe in due course the Congress will provide the President with legislation to take those important steps. But that offshore drilling will not lessen the price today at the pump.

It will not help a case which was the final straw to decide that I would embark on this course, when I read an article about the meals on wheels program where the shut-ins at home, who for economic reasons and physical reasons and other reasons can't go out and get their meals. They rely upon a system of volunteers to bring the meals to their homes. But that program is beginning to founder because the volunteers simply cannot afford the additional cost of gasoline. I don't know about my colleagues, but this causes me severe heart palpitations and concern. The reporter said to me, when he interviewed me on this an hour or so ago, a national reporter: All right, Senator, are you willing to drive at a slower rate? What sort of car are you driving?

I told him what type of car I drive. I said: There are occasions when I drive over 55 miles an hour, 60 miles an hour, sometimes 65. But I am willing to give up whatever advantage to me to drive at those speeds with the fervent hope that that modest sacrifice on my part will help those people across this land tonight and tomorrow and in the indefinite future dealing with this financial crisis.

I point out also that in 1973–1974, these were automobiles, how well I remember, without growth of the quick production lines that started after World War II. America was flourishing. Then all of a sudden, the Arabs put an oil embargo on this country and took away our ability to get fuel. The President reacted quickly. The Congress reacted quickly. We put in that limit. In due course, the pressure on the pump declined and gas fell to about $2 a gallon. In 1995, 20 years after the enactment of this legislation by the Congress and the President, the 55 miles was lifted. Mind you, it wasn't one President; it was a series of Presidents who endorsed this program of conservation in terms of the reduction of speed. I don't know. At one time I used to be a pretty good mechanic on automobiles, but they have now gotten a degree of complexity that is beyond my grasp. I rely on my son, who has devoted much of his life to auto racing.

He is a wonderful mechanic and an engineer on cars. He said the carburetion system—he argued with me about this when I spent the past weekend with him—shook his fist at me: I don't want this 55-mile-per-hour limit. And that is good advice. But he said the carburetion systems in cars today are better than they were in 1973 and 1974, and I judge that to be the case.

So I asked in my letters: Analyze the technical capabilities of the cars today, and could we anticipate bringing about a savings at the gas pump by virtue of a national speed limit? So we have to get the facts and put them together.

But I ask my colleagues, as they proceed to work on this issue—and I am all for the renewables, but that is long term. Offshore drilling: long term. We have to focus now on what measures we can take to help people now, if not long term.

I know colleagues are getting the same calls and the same letters I am receiving from those people who, frankly, feel very oppressed by this rapid development. Although it has increased basically a dollar a gallon in the last year, so much of it has come on in the last 120 days, unanticipated in speed and causing great hardship here at home.

I yield the floor.

EXHIBIT 1

U.S. SENATE,
Washington, DC, July 3, 2008.

Hon. SAMUEL W. BODMAN,
Secretary of Energy,
Washington, DC.

DEAR SECRETARY BODMAN: I write today with respect to the high cost of gasoline. Today, the average cost of a gallon of regular gasoline is more than $4.10. This is an increase of well over a dollar a gallon from a year ago.

As you know, each and every day, Americans struggle to cope with this rapid, record increase in fuel costs. Across the United States, individual Americans are taking their own initiatives to find ways to reduce gas consumption through driving less, altering daily routines, and even changing or cancelling family vacation plans.

To date, as far as I can determine, the federal government has taken few, if any, initiatives to join in this national effort to help address this ever increasing crisis.

I believe it is essential that we continue to modernize our energy infrastructure and develop a reliable, commonsense American energy strategy—one that includes new supplies from domestic exploration and extraction, encourages conservation, and promotes the use and advancement of clean, renewable energies.

I am among a group of many senators today who are working in a bipartisan fashion to find a solution. For the past several years, I have supported permitting the Commonwealth of Virginia to explore and extract energy offshore if its Governor and General Assembly so desire. This concept has just recently gained the support of the administration and a growing number of colleagues in Congress.

However, the truth is that new technologies and new sources of energy will not provide meaningful relief for years to come as new technologies are developed and as new sources of energy are discovered and extracted. We must be straight with the American public and not raise hopes that these efforts will provide immediate solutions and possible relief.

There are ways to give some immediate relief. In my view: new conservation efforts are the quickest way to see an immediate reduction in the price of gas at the pump. The American public is already doing its part through individual means of cutting back.

On a federal level, on May 22, 2008, Senator Bingaman and I introduced, and the Senate unanimously passed by voice vote, a sense-of-the-Senate resolution (S. Res. 577) that urged the President to initiate, among all federal departments and agencies of the executive branch, a reduction of their daily consumption of gasoline—if only by a small percentage.

To my knowledge, the administration has not responded to the Senate's action. In the absence of pending administration action, Congress should join with the public and make the concepts in the sense-of-the-Senate resolution a mandatory law.

Turning to another concept, I call to your attention action taken by the Congress and the executive branch during a similar petroleum shortage that occurred in 1973 and 1974. In January 1974, the President signed into

law ''The Emergency Highway Energy Conservation Act'' (public Law 93–239), which passed both the House and Senate unanimously. This law was enacted in an effort to conserve fuel.

Specifically, the law put forth inducements for states to reduce speed limits to 55 miles per hour (mph) on all major highways. Failure to do so would jeopardize the ability of states to secure federal highway funds. The law was originally intended to be temporary, ceasing to be in effect if the President declared that there was no longer a fuel shortage or on or after June 30, 1975, whichever occurred first.

According to a Congressional Research Service report, the law resulted in reduced consumption of 167,000 barrels of petroleum a day, a roughly 2 percent reduction in the nation's highway fuel consumption. In addition, the National Academy of Sciences found that the law saved up to 4,000 lives per year from highway accidents. Given the significant increase in the number of vehicles on America's highway system from 1974 to 2008, one could assume that the amount of fuel that could be conserved today is far greater.

Given the fuel savings of the act, and the resulting significant decrease in highway fatalities attributable to the national speed limit, Congress made the national speed limit permanent in December 1974. In 1995, the law was repealed.

The purpose of this letter is to ask you to study this era of conservation, as I have, to determine whether the administration, with the support of Congress; should take similar action today.

According to the U.S. Department of Energy Web site, engineering data shows that fuel efficiency decreases rapidly above 60 mph. Specifically, for every 5 mph an individual drives over 60 mph, that individual essentially is paying an extra 30 cents per gallon in fuel costs.

As Congress continues to look for ways to ease this national problem, I put to you the following questions. I will share your responses with my colleagues.

(1) Given the significant technological improvements since 1974, at what speed is the typical vehicle traveling on America's highways today most fuel efficient?

(2) If a national speed limit was enacted similar to the 1974 law, but the speed limit under that law was consistent with most fuel efficient speed for the typical vehicle traveling on America's highways, what would be a reasonable projection for total fuel savings? And, what would be the savings for the average citizen who owns and operates a vehicle?

(3) If a new national speed limit was enacted consistent with the two questions listed above, how many fewer barrels of petroleum a day would Americans consume? Is it reasonable to believe that there would be a reduction in price at the pump? And, if so, what are the ranges you could project for cost reductions?

(4) If the federal government took the initiative to reduce its oil consumption, consistent the concepts of the sense-of-the-Senate resolution (S. Res. 577) how many fewer barrels of petroleum a day would be saved by the federal government?

Given that Congress, upon its return next week, will be vigorously considering all options, your response to this request could be of great help to my colleagues and me. Again, years ago, the Emergency Highway Energy Conservation Act worked. The administration's advice, after examining this era and these concepts, would be helpful.

With kind regards, I am

Sincerely,

JOHN WARNER.

U.S. SENATE,
Washington, DC, July 8, 2008.

Hon. GENE DODARO,
Acting Comptroller General of the United States, Government Accountability Office, Washington, DC.

DEAR MR. DODARO: I write today with respect to the high cost of gasoline. Today, the average cost of a gallon of regular gasoline is more than $4.10. This is an increase of well over a dollar a gallon from a year ago.

As you know, each and every day, Americans struggle to cope with this rapid, record increase in fuel costs. Across the United States, individual Americans are taking their own initiatives to find ways to reduce gas consumption through driving less, altering daily routines, and even changing or cancelling family vacation plans.

To date, as far as I can determine, the federal government has taken few, if any, initiatives to join in this national effort to help address this ever increasing crisis.

I believe it is essential that we continue to modernize our energy infrastructure and develop a reliable, commonsense American energy strategy—one that includes new supplies from domestic exploration and extraction, encourages conservation, and promotes the use and advancement of clean, renewable energies.

However, the truth is that new technologies and new sources of energy will not provide meaningful relief for years to come as new technologies are developed and as new sources of energy are discovered and extracted. We must be straight with the American public and not raise hopes that these efforts will provide immediate solutions and possible relief.

There are ways to give some immediate relief. In my view, new conservation efforts are the quickest way to see an immediate reduction in the price of gas at the pump. The American public is already doing its part through individual means of cutting back.

On a federal level, on May 2, 2008, Senator Bingaman and I introduced, and the Senate unanimously passed by voice vote, a sense-of-the-Senate resolution (S. Res. 577) that urged the President to initiate, among all federal departments and agencies of the executive branch, a reduction of their daily consumption of gasoline—if only by a small percentage.

To my knowledge, the administration has not responded to the Senate's action. In the absence of pending administration action, Congress should join with the public and make the concepts in the sense-of-the-Senate resolution a mandatory law.

Turning to another concept, I call to your attention action taken by the Congress and the executive branch during a similar petroleum shortage that occurred in 1973 and 1974. In January 1974, the President signed into law ''The Emergency Highway Energy Conservation Act'' (Public Law 93–239), which passed both the House and Senate unanimously. This law was enacted in an effort to conserve fuel.

Specifically, the law put forth inducements for states to reduce speed limits to 55 miles per hour (mph) on all major highways. Failure to do so would jeopardize the ability of states to secure federal highway funds. The law was originally intended to be temporary, ceasing to be in effect if the President declared that there was no longer a fuel shortage or on or after June 30, 1975, whichever occurred first.

According to a Congressional Research Service report, the law resulted in reduced consumption of 167,000 barrels of petroleum a day, a roughly 2 percent reduction in the nation's highway fuel consumption. In addition, the National Academy of Sciences found that the law saved up to 4,000 lives per year from highway accidents. Given the significant increase in the number of vehicles on America's Highway system from 1974 to 2008, one could assume that the amount of fuel that could be conserved today is far greater.

Given the fuel savings of the act, and the resulting significant decrease in highway fatalities attributable to the national speed limit, Congress made the national speed limit permanent in December 1974. In 1995, the law was repealed.

The purpose of this letter is to ask you to study this era of conservation, as I have, to determine whether the administration, with the support of Congress, should take similar action today.

According to the U.S. Department of Energy, engineering data shows that fuel efficiency decreases rapidly above 60 mph. Specifically, for every 5 mph an individual drives over 60 mph, that individual essentially is paying an extra 30 cents per gallon in fuel costs.

As Congress continues to look for ways to ease this national problem, I ask you to examine the following questions:

(1) Given the significant technological improvements in automobile design and function since 1974, at what speed is the typical vehicle traveling on America's highways today most fuel efficient?

(2) If a national speed limit was enacted similar to the 1974 law, but the speed limit under that law was consistent with most fuel efficient speed for the typical vehicle traveling on America's highways, what would be a reasonable projection for total fuel savings? And, what would be the savings for the average citizen who owns and operates a vehicle?

(3) If a new national speed limit was enacted consistent with the two questions listed above, how many fewer barrels of petroleum a day would Americans consume? Is it reasonable to believe that there would be a reduction in price at the pump? And, if so, what are the ranges you could project for cost reductions?

(4) If the federal government took the initiative to reduce its oil consumption, consistent the concepts of the sense-of-the-Senate resolution (S. Res. 577) how many fewer barrels of petroleum a day would be saved by the federal government?

Given that Congress is vigorously considering all options, your response to this request could be of great help to my colleagues and me.

With kind regards, I am

Sincerely,

JOHN WARNER.

Mr. SPECTER addressed the Chair.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. SPECTER. Mr. President, the pending business on the Foreign Intelligence Surveillance Act is an amendment which I have pending, No. 5059. We started at 4 o'clock, and we are due for 2 hours. I stepped off the floor for just a few minutes for necessaries and have come back to find a unanimous consent proposal for some six speakers. I have talked to a number of Senators on the floor, and they are in morning business.

It seems to me the orderly procedure would be to allow us to finish our bill. I understand any Senator can come out and ask for unanimous consent. But, candidly, my good friend from Virginia, I wish you had given me notice.

Mr. WARNER. Mr. President, I felt I was acting at the personal request of

Chairman ROCKEFELLER and the ranking member when I did this. I inquired on the floor as to the desires of other Senators. I regret, my dear friend, I would not have done this in any way to deter your ability to do what you feel you have to do on this bill.

So at this point in time, certainly the floor is open to additional unanimous consent. But I do bring to your attention the Senators who are currently in the Chamber are here as a consequence of the UC that I proposed at the request of the two managers.

Mr. SPECTER. Well, with all due respect to my good friend from Virginia, I was on the floor all afternoon, you sitting there and me sitting here. But that is water over the dam.

My request, Mr. President, is that—the only Senator on this list who I have ascertained is going to speak to the bill is Senator CARPER; he is on the list now for 10 minutes—we conclude the bill, or the alternative: to move ahead with the balance of the times reserved until tomorrow morning.

Mr. WARNER. Mr. President, again, Senators on the floor can certainly speak for themselves, but I point out I think the Chair advised the managers as to the time remaining on both sides of the bill.

Am I not correct, I ask the Presiding Officer? Could you inform the Senate as to the times remaining under the UC to which my good friend from Pennsylvania refers?

The PRESIDING OFFICER. The Senator from Pennsylvania has 10 minutes remaining. The Senator from West Virginia has 33 minutes remaining. The Senator from New Mexico has 14 minutes. The Senator from Missouri has 5 minutes. The Senator from Connecticut has 21 minutes.

Mr. WARNER. Mr. President, I leave it to the Chair to address that. I think the Senator from Pennsylvania should be recognized for the purpose of his 10 minutes, but I am not sure we are in a position to foreclose other Senators who have been waiting here patiently to address the Senate on other matters.

It seems to me the Senator from Pennsylvania should revise the request to enable him to have his 10 minutes and Senator CARPER his 10 minutes and then allow the Chamber to proceed with other matters. It seems to me that is a fair resolution to this problem.

Again, I apologize if I was acting—as I was so asked to do—contrary to the Senator's wishes.

Mr. SPECTER. Mr. President, with respect to waiting, I have been here since 11 o'clock this morning on this bill.

Mr. President, I ask unanimous consent that Senator CARPER be recognized, as he is, for 10 minutes, and that the other Senators subject to the unanimous consent request be accorded the time given to them, and that the remainder of the time reserved be scheduled for tomorrow at the discretion of the majority leader.

Mr. WARNER. Mr. President, I will not object. I wish to thank my colleague for what I think is a very fair resolution to this situation.

Mr. CARPER. Mr. President, may I be recognized?

The PRESIDING OFFICER. Is there objection?

Mr. CARPER. Mr. President, reserving the right to object, I am told we cannot shift the time until tomorrow. I am told we need to use the time that has been allocated today. That is my understanding.

Mr. SPECTER. Mr. President, will the Senator repeat his reservation, please.

Mr. CARPER. Mr. President, I understand—and I look to the Parliamentarian and to the Presiding Officer—I am told the Senate is required to use the time that has been allocated for the discussion of these amendments today, and there is additional time for it tomorrow in tomorrow's debate before we begin voting. But we need to use up the time that is allocated for this afternoon and this evening.

I would inquire of the Presiding Officer, is that your understanding as well?

Mr. SPECTER. Mr. President, parliamentary inquiry: I heard the Chair say there is 10 minutes remaining of my time.

The PRESIDING OFFICER. The Senator is correct.

Mr. SPECTER. Well, that time is yielded to Senator CARPER, so that would take all the time allotted to this Senator.

The PRESIDING OFFICER. Does the Senator withdraw his unanimous consent request?

Mr. SPECTER. Well, there has been an objection to it, as I understand.

The PRESIDING OFFICER. Is there objection?

Mr. CARPER. Reluctantly, I must object.

The PRESIDING OFFICER. Objection is heard.

The Senator from Delaware.

Mr. CARPER. Mr. President, I believe under the unanimous consent agreement entered earlier, I am recognized for 10 minutes, and I ask unanimous consent that my time be counted against time controlled by Senator ROCKEFELLER.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CARPER. Mr. President, I rise today to speak in support of the FISA compromise legislation that is before us this week. I believe reasonable people can disagree about this measure, and I certainly respect the views of those who oppose it. But I wish to take a moment this afternoon to explain, first, why I am supporting this bipartisan compromise and, second, to encourage my colleagues and others to do so as well.

All of us know we live in a dangerous world today. We face serious threats to our safety and to our security. At the same time, we face a difficult balancing act between, on the one hand, the need to protect our country and the safety of our citizens and, on the other hand, the need to preserve our civil liberties.

All too often, the Bush administration's approach has been, at least in my judgment, misguided. Many opponents of the FISA legislation before us are rightly concerned that civil liberties have been ignored and in some cases violated.

I believe that is why, to some extent, many critics of this bill have focused so heavily—almost exclusively, in fact—on the legislation's retroactive immunity provisions. I regret the majority of my colleagues in the House and the Senate do not see eye to eye with those critics regarding immunity. However, I wish to take a few minutes to explain why most of us who support this bill in its amended form believe that granting immunity is fair.

During the extraordinary national emergency that followed the September 11 attacks upon our Nation, the Federal Government reached out—

Mr. SPECTER. Mr. President, will the Senator from Delaware yield for a moment?

Mr. CARPER. Mr. President, I am happy to yield to the Senator from Pennsylvania.

Mr. SPECTER. Mr. President, I understand the Senator from Delaware is using time from Senator ROCKEFELLER.

Mr. CARPER. That is correct.

Mr. SPECTER. So my time would remain. I had thought there was 13 minutes remaining. Is there only 10?

The PRESIDING OFFICER. Ten minutes is all that remains.

Mr. SPECTER. I thank the Chair, and I reserve the remainder of my time, however the scheduling may work out.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CARPER. Reclaiming my time, if I may, Mr. President, during the extraordinary national emergency that followed the September 11 attacks upon our Nation, the Federal Government reached out to some of America's major telephone carriers. We asked them to help intercept communications between sources in our country and terrorists located overseas.

A number of our phone companies responded in good faith and agreed to help. They did so, however, only after receiving written directives from our Government's senior national security and law enforcement officials that their cooperation—the cooperation of the telecommunications companies—was both lawful and constitutionally sound.

It does not seem fair, at least to me, that these companies now should be made victims of their own good-faith cooperation and assistance in the ongoing fight against terrorism. That is why I support immunity for phone companies that can demonstrate in Federal court that their participation in the program was found to be lawful by the Bush administration.

With that said, however, I believe the issue of immunity has taken on a significance that goes beyond its actual importance. This is not to suggest that immunity is unimportant, but the more critical aspects of this FISA bill seem to have been overlooked. In my view, those portions of the bill matter more—much more.

Rather than looking backward, at immunity, our real focus should be on what this FISA bill does going forward. I believe this legislation strikes the right balance in providing our intelligence networks with the tools they need to protect our country without diminishing our civil liberties. The administration has overreached on this front before. The FISA legislation before us, though, is a significant improvement over current law and will help to ensure that neither this administration nor the next administration will overreach again.

Now, how does it do that? First of all, this compromise bill makes it crystal clear that FISA is the exclusive means to conduct surveillance, ensuring that neither this President nor our next President can go around the law.

Second, the bill mandates reports by the inspectors general of the Justice Department, the Department of Defense, and our intelligence agencies that will provide the relevant congressional committees here and in the House with the information we need to conduct needed oversight.

Third, the compromise bill—this compromise bill—establishes a shorter sunset period of 4½ years instead of what had been proposed earlier, 6 years. In addition, this compromise bill—for the first time—requires FISA Court warrants for surveillance of Americans overseas.

I applaud both Senator ROCKEFELLER and Senator BOND, as well as my friend, Congressman STENY HOYER of Maryland, for their collective work in negotiating this compromise. They know, as I do, that this compromise is not ideal. It is not perfect. But, in my view, it is the best bill we can agree on at this time. It represents the best chance we have today to protect both our national security and our civil liberties.

For all these reasons, I am supporting this legislation. I hope my colleagues—Democratic and Republican—will join me in supporting the efforts of those who have crafted it.

Mr. President, if I could, I wish to end today with a pledge: Should this bill pass and be signed into law—and I hope it will—I will work with my colleagues in the next Congress and with the next President and his administration to make additional improvements that our country and our citizens may need and deserve.

I yield the floor.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, I think under the order there is time for me to speak at this point.

The PRESIDING OFFICER. The Senator has 10 minutes remaining.

MEDICARE

Mr. COCHRAN. Mr. President, I think the Senate should support an 18-month extension of current Medicare law with the inclusion of a 1.1-percent increase in physician reimbursements. We should also make an effort to identify long-term improvements that will strengthen a system that is badly in need of repair.

New legislation is important and urgent because of the expiration on June 30, 2008, of the Medicare, Medicaid, and SCHIP Extension Act. This extension, which was signed on December 29, 2007, delayed cuts to payments under the physician fee schedule from taking effect until July 1, 2008.

Unfortunately, despite the knowledge that bipartisan negotiations were ongoing and could have achieved passage in time to prevent these cuts, the majority leadership chose to force a vote on H.R. 6331, a bill which the administration had promised to veto. My vote against the immediate passage of H.R. 6331 was a vote to protect the beneficiaries of Medicare and ensure their access to affordable and high-quality health care in the future. The fact is that providing health care to the constituents we represent must remain one of our top priorities. It is a priority that should transcend party politics.

In its current form, H.R. 6331 includes over $17 billion in new spending that comes at the expense of some of Medicare's more vulnerable participants, and it restricts seniors' private coverage through cuts to Medicare Advantage plans. Medicare Advantage is an important and widely used program that offers seniors quality health care at a low cost. This bill would result in a $13.6 billion cut from Medicare Advantage over the next 5 years and a $50 billion cut within 10 years. Specifically, over 2 million seniors would lose access to their private fee-for-service plans, reducing benefits to a one-size-fits-all plan and reversing what the program was intended to do in the first place.

This issue is particularly relevant in my State. Seventy-nine percent of the people in my State who are enrolled in Medicare Advantage plans are also enrolled in private fee-for-service plans. I cannot in good conscience vote for a bill that would put their access to health care in jeopardy.

The Senate should work to develop a bill that will accurately reflect the cost of providing quality care. If we don't, we risk a disruption in physician services to those who need care the most and we risk increasing the cost of health care. We must mitigate the negative impact of expiring provisions on providers and benefits.

The first step is to extend the current Medicare law until a compromise can be reached. We all understand that temporary fixes can only carry us so far. We need a long-term solution that fixes the sustainable growth rate to control costs, a long-term solution that recognizes the importance of increasing Medicare reimbursements, and a long-term solution based on bipartisan compromise. Anything less is not sustainable.

UNANIMOUS CONSENT REQUEST—S. 3118

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 776, S. 3118, a bill to preserve Medicare beneficiary access to care. I further ask unanimous consent that the bill be read a third time and passed and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Is there objection?

Ms. STABENOW. Reserving the right to object.

The PRESIDING OFFICER. The Senator from Michigan is recognized.

Ms. STABENOW. Mr. President, reserving the right to object, I would first indicate to my friend, the Senator from Mississippi, that, in fact, we have a bill in front of us that had 355 votes—a huge bipartisan majority—that addresses strengthening Medicare for our seniors. We are only 1 vote—1 Republican vote—shy of passing it here in the Senate.

My colleague also raises the concern about cutting Medicare Advantage. There are no Medicare Advantage cuts in the rates in this bill at all. There is a small change that doesn't even start until 2011.

So as a result of the fact that we have in front of us a bill to immediately address the concerns about access that my colleague has raised, I would object to his unanimous consent request.

The PRESIDING OFFICER. Objection is heard.

The Senator from Mississippi is recognized.

Mr. WICKER. Mr. President, I am disappointed that the Senator from Michigan has objected to the unanimous consent request. I certainly hope, though, that we can have a conversation about this issue and move eventually to the consideration of S. 3118 as Senator COCHRAN suggested.

The American Medical Association has requested an 18-month fix—an 18-month extension—to give the medical community and Congress time to enact a permanent fix to the sustainable growth rate formula. This legislation—the Grassley bill—would provide for this 18-month extension. It would also provide an 18-month extension with a one-half percent increase in 2008 and a 1.1-percent increase in 2009 in physician reimbursement. This, I might add, is identical to the provision in the Stabenow bill, S. 2785, the Save Medicare Act, which was, in fact, a bipartisan bill and a bill I was happy to cosponsor.

The bill Senator COCHRAN just asked for unanimous consent to consider also increases Medicare payments for ground ambulance services, it extends the authorization for the Medicare

Rural Hospital Flexibility Program grants, and it provides important provisions for community hospitals and for rural home health care.

The bill does make certain noncontroversial changes to the Medicare Advantage Program. It also extends critical programs involving Medicare, and it eliminates the double IME windfall to Medicare Advantage Programs. But it doesn't contain the controversial provider offsets that the legislation which was offered by the majority leader would have done and which the President promised to veto.

The legislation Senator COCHRAN just asked unanimous consent to consider could be passed tonight, sent to the President for his signature tomorrow, and the Members of the majority party in this Congress could claim a victory, and a bipartisan victory at that.

I believe it is important for people to understand the history of this legislation.

The Senate and House have been legislating to prevent these provider cuts from going into effect since the year 2002. For the past 6 years, as a Member of the House of Representatives, I have voted numerous times to prevent these physician cuts from going into effect, and each time, these cuts have been prevented. That has been done on a nonpartisan, bipartisan basis without political wrangling.

Indeed, this year, just a few days ago, before the Fourth of July recess, Chairman BAUCUS and Ranking Member GRASSLEY were on the verge of presenting a bipartisan package which would have prevented these cuts from going into effect and prevented this entire controversy. They were moments away before the rug was pulled out from under them by the leadership in this body.

Why is it different this year? Why have we been able to do this on a nonpartisan basis, prevent these cuts from going into effect to the providers, to the physicians, and the harm that would ensue to the Medicare recipients in the past? Why is it different this year? It is clear to me that members of the Democratic leadership in this body and in the other body have decided to turn this so-called ''doc fix'' into a political issue.

I was struck by the exchange between the minority and the majority leader on the night of June 26 when Senator MCCONNELL requested of the majority leader, after the cloture had not been invoked, that we have a simple 30-day extension in order to continue to work on this issue. In objecting to that unanimous consent request for a simple 30-day extension so we could continue to work on this, it became obvious to me what a political issue this is becoming. The majority leader, in objecting, mentioned elections this year for three House seats in which the Democrats won. He went on to say that this time next year, there would be 59 Democrats in the Senate at least. He mentioned the President's approval rating—and this is all in the CONGRESSIONAL RECORD, page S6233 of the CONGRESSIONAL RECORD, if Members would like to follow along—he mentioned the President's approval rating. He mentioned numbers of people in the Senate who are up for reelection this year, and he even mentioned polling before suggesting that his Republican friends did not truly want to prevent these cuts from taking effect.

There is not a single Member of the Senate who wants these cuts to take effect. There is not a single Member of the House of Representatives who wants these cuts to take effect. But the majority leader said that night: The only way out of this is to accept this legislation; it is this legislation or nothing, in effect. I will say this much for the distinguished Democratic leader of the Senate: He was open and frank about what is really at issue here. This is very much about this year's elections and less about preventing the cuts to doctors.

Now, what are we wrangling about here? We are wrangling about the offsets to prevent the cuts from going into effect, particularly what it would have done to Medicare Advantage, a program that some 22,000 Mississippians depend upon and a program I would like to protect for them.

Now, we have a disagreement. The Senator from Michigan sees this differently than I do. There are people who would tell you that the bill offered to us that night would have gutted the Medicare Advantage Program. Medicare Advantage offers seniors a choice between regular Medicare and traditional insurance in the form of Medicare Advantage. These insurers offer the same services as traditional Medicare, but in addition, they offer options Medicare does not. In Mississippi, this means seniors may choose to have increased coverage of things such as diabetes management, increased cancer screening, or lower cost-sharing in the form of lower premiums and copays.

Admittedly, Medicare Advantage is not a perfect program. I believe there is a certain bipartisan consensus that we should take a look at the plan's enrollment and billing practices. Physicians back home in my State of Mississippi tell me this, and I want to work with them. The amount of payments to these plans is also an issue that needs to be looked at. But the Medicare bill that the majority leader would have forced upon us on that Thursday night of June 26, 2008, would have included provisions that did not enjoy bipartisan support. If that bill had passed, American seniors and Mississippi seniors would have lost their choices. They would have been told: Take it or leave it.

Fewer choices and less competition are not good for America's seniors and certainly not good for our health care system. If Medicare Advantage needs adjusting, we should consider standalone Medicare Advantage legislation.

The PRESIDING OFFICER. The junior Senator from Mississippi must know that his time has expired.

Mr. WICKER. I wonder if I may have an additional 2 minutes, Mr. President. I don't see anyone here at this moment. I wonder if I may have an additional 2 minutes to wrap up.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WICKER. I thank the Chair.

There is overwhelming support for fixing the sustainable growth rate. Doctors deserve better than to be involuntarily paired with a poison pill provision that cannot pass this Congress on its own merits. I repeat, there is not a single Member of this Senate who wants these cuts to go into effect.

The issue of Medicare Advantage is so important because of the competition. If we are ever going to solve the future of funding on the issue of Medicare as a whole, if we are going to have that goal that the AMA wants of 18 months to look at a permanent fix to this issue, if we are going to prevent the train wreck that looms a few short years from now on the funding of Medicare as a whole, then we are going to have to inject competition. But let's not use it as a political football. Let's not adopt offsets on which there have been no hearings. Let's not change basic Medicare policy in the form of a pay-for for a temporary fix.

What we are looking at is two vastly different approaches to health care reform: the traditional Medicare, one size fits all, take it or leave it, that would lead us to a Canadian-style, single-payer type plan for the entire United States of America, or injecting this little bit of competition to see if we can help control the cost of the Medicare Program. That is what we are making this stand about, and that is why I hope eventually we will adopt the unanimous consent request Senator COCHRAN has made and move to a bipartisan plan we can all support and prevent these doctor cuts from going into effect.

I yield the floor. I thank the Chair for indulging me on the time.

The PRESIDING OFFICER (Mr. MENENDEZ). The Senator from Michigan.

Ms. STABENOW. Mr. President, I ask unanimous consent that following the remarks of Senator CORNYN, who I understand will be speaking after myself, Senator LEVIN be recognized as under the previous order, and Senator CHAMBLISS be recognized to speak for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Michigan is recognized.

Ms. STABENOW. Mr. President, it is important to understand what the choices in front of us are. Always we have a choice in terms of priorities, of how to proceed. As the person who has coauthored the bill in the last several sessions that would change completely the way we provide physician payments, I certainly support long-term

solutions, something called the SGR, sustainable growth rate. I believe the way it is set up, it is wrong, and we need to fundamentally change and stop this process of trying to make sure we don't see cuts happen in Medicare every single year. I certainly agree with that position.

What we have in front of us is a choice—a choice between a bill that has 355 votes in the House on a bipartisan basis—there are not a whole lot of times we see 355 people coming together on an issue such as this in the House, and 59 Members of the Senate. We had a majority. We had 59 votes. We have seen an effort to continue to filibuster the process from moving forward, and we are tomorrow going to see whether we will have one more additional Republican who stands with us, stands with the AARP, the American Medical Association, who stands with, most importantly, our seniors, who stands with the disability community, who stands with those who are concerned about access to Medicare in this country. We only need one vote. That is where we are right now.

I find it interesting, when we look at the motion that was made before about the bill my Republican colleagues wish to bring to the floor, in that bill, we see cuts in oxygen services, in speciality wheelchairs, large cuts in graduate medical education in order to pay for the bill. That is one choice. Or we have the choice in front of us that passed with 355 votes in the House and has 59 votes right now in the Senate which would take some smaller cuts out of graduate medical education and would do something very small and in the future to Medicare Advantage.

What is Medicare Advantage? In my mind, Medicare Advantage is part of the effort to privatize Medicare. We all remember former Speaker Newt Gingrich saying we cannot directly stop Medicare, so we are going to make sure it withers on the vine. Part of that withering has been to divert more and more dollars away from physicians and away from community care into private for-profit companies, private fee-for-service companies.

The argument was in the beginning that competition from the private sector, more choice will bring down costs and that they would be able to take 97 percent of the normal Medicare rate because it would cost less to bring down prices because of competition.

What has happened? What have we heard from the Congressional Budget Office? What have we heard from those who only analyze this issue? In fact, the exact opposite is happening. More and more rate increases have occurred. We now have a group that was getting 97 percent of the full rates, supposedly lowering costs, now on average getting 113 percent, and the Congressional Budget Office told us if we cap the rate to these private businesses at 150 percent of regular Medicare, we would still save money.

Because of the strong feeling of the Republicans and the President indicating he wants to protect them at all costs, in this particular bill we are not addressing the rates. There is no inability for people to get a choice through private care. There is none of that. There is no rate reduction, even though, in my mind, we ought to be doing that.

All that is done in this bill is a process that does not even take effect until 2011—not next year, not the year after, but the year after that—which is a process called deeming. I will not go into all of it now except to say it addresses how the private companies interact with those that are not part of their group or part of their network. That is all this addresses in Medicare Advantage. One would think the sky is falling based on what we have heard.

The reality is, AARP—a pretty good barometer of what seniors are thinking in this country—and a wide variety of organizations have come together very strongly in support of the bill in front of us that only needs one vote. Why? Because that is the bill that will strengthen Medicare for the future.

We need to act now. We are past time to act on this issue because, in fact, there are consequences already, even though the physician cut has not taken effect.

I received a letter this week and I wish to read it. I received a letter recently from a constituent named Kay about her father. Her father needs his physical therapy as part of his treatment for Parkinson's. I know what that is like. My grandmother died of Parkinson's. It is a very tough disease. He lives at home confined to a wheelchair most of the time due to Parkinson's. Despite rising gas prices, Kay and her sister drive her father three times a week—about 80 miles round trip—for his therapy. But last week, they were informed that Medicare would not pay for his therapy because the Medicare exemption process for physical therapy had expired.

We only need one more vote. If we had one more vote, Kay would not be worried about whether her father with Parkinson's can get the physical therapy he needs.

Kay wrote me:

> I will go down swinging to help my dad. Can you go back in and fight for us? We need these services extended. Please fight for us . . . go back onto the floor and reopen this.

And vote again.

Our leader, I am proud to say, understands all of the stories, not only of Kay but of all the seniors across the country who are so desperately worried about what is going to happen with Medicare. Our leader has come to the floor and said we are going to vote ''yes'' again. We are only one vote short, only one vote.

The practical reality is, in my home State alone, it affects 1.4 million seniors and people with disabilities and over 90,000 veterans who are TRICARE beneficiaries, people who have served in our military. Military health care, TRICARE, is tied to Medicare. So if the Medicare cuts take effect, our veterans also will be affected and there will be a cut.

This is serious. We are past time, at this point, to be debating this issue. We need to vote, we need to pass it, and we need to send it to the President.

There are so many positive provisions in this bill for the future. It addresses assets for low-income seniors; preventive services; rural services which are so important to so many parts of Michigan; also the effort to move ahead and modernize the system with e-prescribing, so we can actually read the physician's handwriting, so we can actually have an electronic system that speaks to the future; and also telehealth which in so many parts of our country—again, Michigan is a real example of focusing on telehealth and the way to expand services to rural communities; expanding mental health services. There are so many important pieces to this bill.

Fundamentally, the difference between what was suggested by my Republican friend from Mississippi and from what is in front of us is whether we are going to have any kind of accountability at all for this effort that has begun to privatize Medicare.

We know from the testimony we received from the Congressional Budget Office that for 85 percent of the seniors in traditional Medicare, they actually pay more in premiums because of the overpayments on Medicare Advantage. Again, that is not even in this bill. That is not even in this bill. We still need to address that point. There is a small change that does not take effect until 2011, but because of that, colleagues on the other side of the aisle are willing to let this whole bill go down and a dramatic cut in physicians' services take effect. They are willing to let us lose the help for rural America, the effort to modernize Medicare with electronic e-prescribing, with telehealth, to focus on seniors who need mental health services. They are willing to let the whole thing go down and, in fact, have proposed, as I said earlier, an alternative plan, that rather than touch the for-profit folks in the health care system right now that are, in my mind, too many times undermining what is happening in traditional Medicare—not always; there are some positive aspects, but too many times. Instead of that, they bring forward an alternative that focuses on oxygen services and specialty wheelchairs and other areas in which to receive their cuts.

Mr. President, I ask unanimous consent for 2 additional minutes, as my colleague from Mississippi did prior to me.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. STABENOW. I thank the Chair.

I feel so strongly about this, Mr. President. We spent a lot of time and effort and a lot of goodwill. A lot of people have worked together on both sides of the aisle, with good decisions

and good ideas that have come together on how to strengthen Medicare through this bill. It is obviously something that has wide bipartisan support because, again, we are talking about a huge overwhelming vote in the House of Representatives—355 people. Now we have the opportunity in front of us tomorrow, with all of our physician community, health care providers, senior organizations, AARP, disability groups, those who serve the Parkinson's patients and other patients who are suffering from particular diseases, consumer groups all across America coming together and saying this makes sense.

We need to make sure Medicare is available for our seniors. These are Draconian cuts and we want to stop them and we are willing to do it in a very balanced way. I thank our chairman of the Finance Committee for his leadership on something that is reasonable and balanced. We know him to be a reasonable person who does things in a balanced way. This doesn't gut Medicare or Medicare Advantage. It doesn't even touch the rates. It doesn't touch the companies, other than to address one part of the way they deal with those who are out of State or out of service through the process called ''deeming,'' that doesn't take effect until 2011.

Frankly, if that is the only part people disagree with, these cuts are now. These physical therapy cuts started last week. I would urge my colleagues, step up and be the one vote. We have until 2011 to change that part of the bill they do not like. But the therapy cuts started last week, and the physician cuts are going to start in a couple of weeks. That is the sense of urgency we should feel if we are concerned about the seniors in this country—about Medicare beneficiaries. Now is the time. It is real simple. It is real simple.

Tomorrow afternoon we will have the opportunity to vote yes on something overwhelmingly supported by the people of this country, and I urge my colleagues to step up. We only need, Mr. President, one more vote.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CORNYN. Mr. President, Medicare provides important health care benefits for our Nation's seniors. Since 1965, the Federal Government has promised that those over the age of 65 years, or those afflicted with certain disabilities, will have access to health care. Unfortunately, Congress has had a checkered history of keeping that promise.

The vote we had 2 weeks ago, to which the distinguished Senator from Michigan just alluded, and one we will apparently have tomorrow afternoon, should be an embarrassment to Congress but not for the reasons that she and others have suggested. We should be looking to solve the looming problems with Medicare permanently, not just with temporary patches or fixes. We need a permanent solution. We should keep our promise to seniors that they can rely on Medicare and provide fair compensation for the physicians to make sure our seniors will actually have access to that coverage.

I have repeatedly heard from seniors in Texas who depend on Medicare that they find it hard to even find a physician who will accept below-market Medicare reimbursement rates. Even if we pass an 18-month extension now, I am not optimistic Congress will seriously consider permanent reform before the next round of scheduled cuts. And I shudder to think whether we can prevent the 20-percent cut that will occur 18 months from now.

This, of course, should not be about partisan politics, which it has become, because this is about people's lives. The Medicare Program, simply put, is in a nosedive headed for bankruptcy. As this chart demonstrates, without a long-term solution, the future is bleak indeed for Medicare providers.

This chart depicts how the practice costs of physicians continue to go up year after year. Yet because of a law Congress passed in 1997, Medicare reimbursement rates continue to be projecting downward. You can see the gap here. No wonder many physicians are no longer able to accept Medicare patients.

In Texas recently, a survey of physicians indicated that only 58.1 percent of physicians currently accept new Medicare patients because reimbursement rates are so low that they are below market and physicians cannot afford to accept those patients and those low Medicare reimbursement rates.

Congress needs to step up with a permanent solution, not the kind of shameful temporary patches and fixes that require physicians and other health care providers to come hat in hand to Congress every 6 months or 12 months or 18 months and that leave Medicare beneficiaries in doubt—our seniors—about whether, in fact, Congress will do its duty.

No one gets to conduct their business this way, other than the Congress. If you were in the private sector, a small or large business, you would be out of business or behind bars if you tried to operate your business the same way Congress has dealt with Medicare reimbursement rates.

The Medicare trustees expect future costs to increase at a faster pace than both workers' earnings and the economy overall. As a matter of fact, the Medicare Hospital Insurance Fund will be exhausted by 2019, and Part B premiums will have to increase rapidly to match expected expenditure growth. The Medicare trustees have warned Congress more than once to act, cautioning that the sooner the solutions are enacted, the more flexible and gradual they can be.

Mr. President, Medicare is a ticking time bomb. Today, Congress should be all about debating and preserving Medicare. Instead, we have been presented a bill that turns a blind eye to this smoldering powder keg of long-term Medicare problems and the terribly flawed physician payment system. Rather than real reform, the majority party—the Democratically controlled Senate—has presented us with a bill that prolongs damaging and rigid price controls, sets up increased premiums and increased taxes, abandons some private sector options, and keeps Medicare on the path toward more health care rationing.

Why would anyone be proud of this? The distinguished Senator from Michigan was saying that all they needed is one more vote to pass this partisan bill. Why would anyone be proud of this temporary fix, these price controls, along with submarket reimbursement rates, so that while we make the promise of Medicare coverage, the actuality of access is diminishing with each day?

This partisan bill bypassed not only the minority in the Senate, it bypassed the Senate Finance Committee as well. Now we are told by the majority leader that he will refuse the opportunity to offer any amendments when the bill comes to the floor. The Democratic-controlled majority has not held one hearing or introduced one piece of legislation in the last 6 months that begins to address the long-term problems.

Mr. President, I intend to offer a bill that will begin the process of reform and permanently eliminate the periodic cuts that are almost never allowed to go into effect. I think seniors and physicians and the American people deserve explanations and answers, and ultimately solutions, rather than more posturing and just kicking the can down the road.

It is worth taking a few minutes to recall how we got here in the first place.

In 1997, Congress was struggling with rising costs under Medicare and passed the Balanced Budget Act, which established something called the sustainable growth rate, or a formula which was intended to serve as a restraint on Medicare spending. Thus, the Federal Government instituted arbitrary price controls in an effort to reduce Medicare spending. What was the result? Well, the SGR—the sustainable growth rate—formula and arbitrary price controls have reduced access to quality care for beneficiaries.

While the first 2 years after implementation the SGR resulted in positive updates for physician payments, decreases in payments have been required every year since 2002. But what has been the experience of Congress? This chart indicates that except for the first year, in 2002, Congress has acted to reverse the cuts that have come with a temporary patch, and temporary fix after temporary fix. In fact, I think one could be forgiven for wondering whether Congress ever intended these cuts to take effect in the first place.

Thank goodness we haven't because continuing to cut into the muscle and

then into the bone of the Medicare system means that the promise of Medicare coverage is a hollow one indeed for patients, for seniors, who are increasingly having a very difficult time finding physicians who can accept Medicare rates because they are so low.

As you can see from this chart, not only has Congress, except for 2002, not allowed these cuts to go into effect based on temporary patches, it has actually provided a very modest update in most years, except for 2007, when it just got back to zero. But the fact is, Congress never really intended or was never prepared to allow these cuts to go into effect. Most of the time, if you look for how Congress has attempted to ''pay for'' or find revenue to offset this reversal of these cuts, all it amounts to is budgetary gimmicks and games.

As the American Medical Association has noted, ''every temporary intervention has increased the cost of a permanent solution.'' Thus, seniors and physicians find themselves coming back to Congress every 6 months or every 18 months hat in hand seeking to prevent these cuts with the kind of histrionics that we see on the Senate floor today and that we saw by the majority leader just 2 weeks ago after the failed cloture vote—not a serious discussion of public policy but, rather, a political action designed to gain partisan advantage.

At this point, to repeal the SGR formula created by Congress will cost an estimated $250 billion or more. That is a big number, and a major reason Congress has been unable to pass, or more likely unwilling to even debate, a long-term solution. While many of my colleagues have spoken at great length about their grandiose plans to reform the entirety of America's health care system, they seem to whistle past the Medicare graveyard.

We can and we must do better. What good is Medicare if there is no access to coverage? Even with reversing the Draconian cuts in reimbursement, as I said, many doctors refuse to even see patients with Medicare because the payments are so low. Yet Congress is seen patting itself on the back saying: Didn't we do a good job? Only to have more and more seniors unable to find doctors willing to accept Medicare payments.

Physician reimbursement cuts have been looming over the heads of seniors and physicians for years. Yet Congress repeatedly puts off until tomorrow what desperately needs to be done today.

What does the bill before use to pay for reversing these cuts for 18 months? Well, it undermines the one private sector alternative to traditional Medicare—Medicare Advantage—currently subscribed to by about 450,000 Texas seniors, leading to less choices, fewer services, and, yes, more government control.

We have a choice. Do we pass the hot potato once again, praying that we are not the ones who get burned, or do we stand up, do the responsible thing, and actually take decisive action by reforming the broken SGR formula for Medicare reimbursement?

While some in Congress seem determined to have the Government control all health care decisions, competition in the private sector holds real promise for the future of health care, and we do not have to look very far to find the proof. All we have to do is look at Medicare Part D, the prescription drug program that we passed a few short years ago.

The Congressional Budget Office recently released a report showing how effective Part D has been in lowering drug prices for seniors. This year, Part D expenses will be almost half that of the original projections 2 years ago. Competition by private companies that provide benefits for seniors under Medicare Part D has actually created about $40 billion in savings this year. What's more, Part D will be returning roughly $4 billion this year in unused funds due to cheaper than expected drug purchases.

Still, with the resounding success of Medicare Part D and the competition we should look to as a model, not one to be discarded or gutted or cannibalized in an effort to pay for this temporary patch, many of my colleagues want to give up on the private sector alternatives to traditional Medicare. Competition created by programs such as Medicare Advantage has the potential to save more money in the long run and to provide more choices and better quality services to Medicare beneficiaries.

I would be the first one to say that Medicare Advantage is far from perfect. As a matter of fact, I have heard from many of my constituent physicians who have complaints about the way Medicare Advantage is run. But it would be a terrible mistake to gut it. We ought to fix it, not gut it.

Rather than abandoning the principles of the benefits of competition in health care, we should work to make it better. With the results of Medicare Part D as an example, we should work to increase the role of nongovernment entities in lowering costs and increasing access and affordability of health care.

These are only a few of the reasons why, over 3 months ago, in anticipation of the looming physician payment cuts set for July 1, I introduced legislation that solves this problem permanently. This legislation I called Ensuring the Future Physician Workforce Act of 2008. It provides positive reimbursement updates for providers, it eliminates the ineffectual expenditure cap, and increases incentives for physician data reporting. At the same time, this bill facilitates adoption of health information technology by addressing costs and legislative barriers; it educates and empowers physicians and beneficiaries of Medicare spending and benefits usage, and studies ways to realign the way that Medicare pays for health care.

My bill does not mandate whether physician payments should be based on utilization, performance, care coordination or any other methodology, but it does start to lay down a new path toward reform, innovation, and restoration of the eroded physician-patient relationship. It does say the providers and beneficiaries should not be the ones to be punished by Congress's failure to act. We have to decide now.

Mr. President, I ask unanimous consent for 3 additional minutes to speak.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CORNYN. Mr. President, we have to decide now whether Medicare is worth protecting or whether political gamesmanship and partisan politics are going to take over. While it is costly to fix Medicare and the SGR, stalling will be far more expensive. So while some of my colleagues on the other side of the aisle may be content with another shortsighted, short-term fix, I suggest we debate and pass a bipartisan solution that will keep the promise of Medicare for seniors but also make sure there will be access to that coverage by providing fair compensation for physicians. Why should we, and why should they, settle for less?

I yield the remainder of my time.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. Mr. President, title II of the bill before us, which amends the Foreign Surveillance Intelligence Act, would authorize retroactive immunity for telecommunications companies that collected intelligence information inside the United States in defiance of the clear requirements of the Foreign Surveillance Intelligence Act as it was then on the books.

The argument has been made that we must provide such immunity because these telecommunications companies responded to requests from the Government in a time of great uncertainty, after the events of September 11, 2001. I have some sympathy for their situation, but I also have sympathy for innocent Americans who may have had their privacy rights violated as a result of illegal actions taken by telecommunications companies at the behest of an administration that has all too frequently tried to place itself above the law.

The bill before us makes no effort to reconcile these competing interests. Instead, it requires the dismissal of all civil suits against telecommunications companies that may have illegally disclosed confidential communications of their customers at the behest of U.S. Government officials. Dismissal would also be required even if the disclosure violated the constitutional rights of innocent U.S. citizens whose confidential communications were illegally disclosed.

The so-called judicial review authorized in this bill is totally unsatisfactory. Under title II of the bill, the FISA Court would be permitted to review these cases only to determine

whether the Attorney General or the head of an element of the intelligence community told telecommunications companies that the Government request had been authorized by the President and ''determined to be lawful,''—presumably determined by anybody—even if nobody could reasonably have believed that the request actually was lawful. A judicial review that is limited to determining whether the administration claimed that its actions were legal is a sham review that provides no justice at all. Of course the administration claimed its actions were legal. Indeed, the Intelligence Committee report on this bill specifically states that the administration's letters requesting assistance from telecommunications companies made the claims that they were legal.

I do not believe this congressional grant of retroactive immunity is fair. I do not believe it is wise. And I do not believe it is necessary.

Retroactive immunity is not fair because it leaves innocent American citizens who may have been harmed by the unlawful or unconstitutional conduct of telecommunications companies at the behest of the administration without any legal remedy. It is hard to understand how the Attorney General can claim, as he does in a letter dated July 7, 2008, that this is a ''fair and just result.''

Those who have been harmed are not likely to have any recourse against the Government officials who asked telecommunications companies to disclose the private information of their customers because the Government officials enjoy qualified immunity for actions taken in their official capacity. These officials do not even have the burden of demonstrating that their actions were legal and constitutional to be immune from suit.

Nor is retroactive immunity wise, because it sets a dangerous precedent of retroactively eliminating rights of U.S. citizens and precludes any judicial review of their claim. If we act here to immunize private parties who cooperated with executive branch officials in a program that appears to have been illegal on its face, our laws and their prohibitions will be less of a deterrent to illegal activities in the future. This would be a terrible precedent if a future administration is as inclined as the current one to place itself above the law.

Finally, retroactive immunity is not necessary for the intelligence community to collect intelligence against terrorists using newly available technology. They have the right to use newly available technology—''they'' being the intelligence community—under title I of this bill. Title I provides that the Attorney General and the Director of National Intelligence direct telecommunications companies to assist in collection programs, and these directives are enforceable by court order as has been the case since the Protect America Act was adopted last August.

We are collecting needed intelligence information today pursuant to that act, without any retroactive immunity for telecommunications companies, and there is no reason why we cannot continue to do so in the future under title I of the bill without the retroactive immunity provided in title II.

The administration argues that if we do not provide retroactive immunity to telecommunications providers, ''companies in the future may be less willing to assist the Government.''

But let's be clear what we are talking about here. Telecommunications companies have prospective immunity if they assist the Government in a manner that is authorized by this bill. Moreover, they can be compelled to do so under the bill, as has also been the case since the enactment of the Protect America Act. What companies might be less willing to do is to assist the Government in intelligence gathering efforts that are illegal. And what is wrong with that? Do we want to encourage companies to assist a future administration in unlawful intelligence-gathering efforts?

Nor is retroactive immunity necessary to protect telecommunications companies that acted in good-faith reliance on representations from administration officials. There are other ways in which we can recognize their equity without insulating misconduct from judicial review and without denying any relief to innocent U.S. citizens who may have been harmed.

For example, we can safeguard these interests by substituting the United States as the defendant in cases against telecommunications companies, or by requiring that the United States indemnify telecommunications companies for any damages in such cases. In either case, we could cap damages to make sure that the taxpayers are not required to pay an unreasonable burden as a result of unlawful decisions by the administration. We could also provide a measure of protection to American citizens whose rights have been violated by limiting the immunity provided to those cases where the telecommunications companies demonstrate that they had a reasonable basis for a good-faith belief that the assistance they were providing was lawful, a requirement that is notably absent from the bill before us.

The Bingaman amendment is a very modest proposal which does not decide the retroactive immunity question or remove the retroactive immunity provision from the bill. It leaves the retroactive immunity provision in the bill but postpones the effective date of that immunity until 90 days after Congress receives the comprehensive inspector general report required by the bill.

This amendment, the Bingaman amendment, does not have any effect at all on title I of the bill, which allows the intelligence community to collect information using newly available technology. The Bingaman amendment allows title I to go into law without change and without delay. The inspector general report may give us important information that helps us understand the extent to which the administration's actions were illegal or unconstitutional, and the extent to which innocent U.S. citizens may have been damaged by these actions. The delayed effective date in the Bingaman amendment would give us the opportunity to consider this information, not just assurances of administration officials, before retroactive immunity goes into effect and cases are dismissed. That information required to be provided to us by the inspector general is surely relevant to this issue.

If we adopt the Bingaman amendment, we will have highly relevant information about the extent to which illegal or unconstitutional actions were taken against innocent American citizens and the extent to which those citizens were harmed by those actions. The Bingaman amendment gives us the opportunity to take this additional information into account before retroactive immunity takes effect, while at the same time preventing any harm to telecommunications companies by staying any litigation against them until the information becomes available.

We can pass this bill and we can ensure that the intelligence community continues to have the authority to collect information on suspected terrorists without surrendering the rights of Americans whose privacy may have been violated.

I support the Bingaman amendment as a way to introduce a bit of balance into the process of protecting the privacy of innocent Americans while recognizing some equity in the position of the telecommunications companies.

I yield the floor and yield back my time.

The PRESIDING OFFICER. The Senator from Georgia is recognized.

Mr. CHAMBLISS. Mr. President, I rise today to discuss H.R. 6304, the FISA Amendments Act. I am disappointed that after so many months of negotiations, after the Senate passed similar legislation in February, and after the House passed this bill by 293–129, the Senate is stalling enactment of necessary changes to FISA by debating amendments which would gut this bill of a valuable provision liability relief for our telecommunications carriers.

The three amendments we debate today would singularly undermine months of hard work by the Senate Intelligence Committee and the House to reach an agreement on this bill. In particular, Senators DODD and FEINGOLD have offered an amendment striking title II of the bill which provides liability relief to those telecommunication carriers who currently face lawsuits for their alleged assistance to the Government after September 11. Senator SPECTER has offered an amendment that would require the courts to determine the constitutional merits of the

President's terrorist surveillance program, TSP in cases against private parties. And, Senator BINGAMAN has offered an amendment which would needlessly delay liability relief for a review of the President's TSP to be completed, which Members of this body have already done. I do not support any of these amendments.

Over 40 lawsuits have been filed against our communications providers alleging statutory and constitutional violations, seeking billions of dollars in damages. These suits are not intended to bring justice to any individual; rather, they are a fishing expedition. The lawyers who brought these cases hope to use our court system to discover some claim or discover some standing for their clients; yet none of the plaintiffs in any of these lawsuits have any evidence to illustrate that they were subjects of the President's TSP or that they suffered any harm. As a result, I wonder how a court could uphold that any of these individuals even have a claim to raise. The President has stated repeatedly that in the wake of 9/11, the TSP intercepted communications of suspected terrorists, including those communicating with individuals inside the U.S. or whose communications pass through the U.S. To date, this program has been reviewed by numerous Inspectors General, the Department of Justice, our intelligence community and Congress. Do we need to add the courts to the list? The Foreign Intelligence Surveillance Court is already on that list.

As a member of the Select Committee on Intelligence, I had access to the classified documents, intelligence, and legal memorandum, and heard testimony, related to the President's TSP program. After careful review, as stated in the committee report accompanying the Senate's FISA legislation, the committee determined ''that electronic communication service providers acted on a good faith belief that the President's program, and their assistance, was lawful.'' The committee reviewed correspondence sent to the electronic communication service providers stating that the activities requested were authorized by the President and determined by the Attorney General to be lawful. The committee concluded that granting civil liability relief to the telecommunications providers was not only warranted, but required to maintain the regular assistance our intelligence and law enforcement professionals seek from them and others in the private sector. It was clear in discussions within the committee that most of us were concerned about the harm the Government could face if it cannot rely on the private sector. Without this provision, the harm faced by the Government will become a reality.

I cannot understate the importance of this assistance, not only for intelligence purposes but for law enforcement too. The Director of National Intelligence and the Attorney General stated, ''Extending liability protection to such companies is imperative; failure to do so could limit future cooperation by such companies and put critical intelligence operations at risk. Moreover, litigation against companies believed to have assisted the Government risks the disclosure of highly classified information regarding extremely sensitive intelligence sources and methods.'' There is too much at stake for us to deny those who assist the Government the liability relief they need, and deserve, or to delay its implementation.

Senator SPECTER'S amendment asks the courts to review and determine the constitutionality of the President's TSP before dismissing any lawsuit against the telecommunication carriers. This amendment not only severely undermines the findings of this body, but also calls into question the activities of the other political branch in our Government, the executive. The courts would be granted access to highly sensitive, executive branch intelligence activities, which they are not experienced in, and be required to make a legal determination on the constitutional authorities of the President. The courts usually avoid these types of decisions, and rightfully so. Moreover, the courts should not issue mere advisory opinions, yet this amendment requires the court to determine the constitutionality of a Presidential program when the government is not a party to these actions. Even with the passage of this bill the government or a Government official can still be sued for a TSP violation. If a plaintiff brought an action against the Government, the courts could then determine the constitutionality of the program; however, Congress should not hold America's private companies hostage until the courts review what Congress and others already have found. Further, regardless of the Government's program, our companies should not be held liable for assistance that they were assured was lawful. Let the Government carry the burden for its own actions.

Similarly, Senator BINGAMAN'S amendment would stay all of the lawsuits brought against the communications carriers until the inspectors general conducted a review of the TSP. Various inspectors general have reviewed already the President's program. The review called for by the FISA Amendments Act is nothing new. I see no reason to delay liability relief like this. The scope of the IGs' review included by this legislation is not intended to be a legal determination of the TSP. Instead, the FISA Amendments Act calls for the IGs to review each respective agency's access to the legal reviews of the program and grants the IGs access to communications with the private sector related to the program. Any review conducted pursuant to this legislation will have no impact on the lawsuits brought against private corporations. The only thing this amendment does is hold the cases up in court for over a year while the reviews are completed. This is purely political and Congress should not play games with our national security, or even when U.S. companies and their customers' money are involved.

Finally, Senators DODD and FEINGOLD offer the same amendment that they did in February, to completely strike Title II of the bill which provides this liability relief. This same amendment failed to pass the Senate in February by 31–67. As I have stated, I support Title II, and believe the Senate has already shown its lack of support for this amendment.

Mr. President, I oppose all three amendments offered to the FISA Amendments Act and urge my colleagues to do the same. It is time for the Senate to stop delaying enactment of a FISA bill and to reject these amendments which would gut the bill of much needed relief for our telecommunications providers.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Mr. President, I will use leader time for my presentation.

The PRESIDING OFFICER. The leader is recognized.

Mr. REID. Mr. President, the Senate will soon vote on the FISA bill, which represents a final result of negotiations among the White House and Democrats and Republicans in Congress.

I opposed the version originally passed by the Senate. Although improvements have been made in the version now before this body, the legislation continues to contain provisions that will lead to immunity to the telecommunications companies that cooperated with the Bush administration's warrantless wiretapping program. For that reason, I have no choice but to vote no.

Having said that, I am pleased that President Bush and the congressional Republicans finally agreed to negotiate a better bill. For months, the President insisted it was his way or the highway. The White House refused to come to the negotiating table, repeatedly demanding that the House simply pass the Senate's bill. I commend our Democratic colleagues in the House for standing up to insist on more protections for the privacy of innocent Americans.

This debate has shown once again that protecting the American people is not a Democratic or Republican issue. Democrats want to provide our intelligence professionals all the tools they need to fight terrorism. We must also protect the privacy of law-abiding Americans and protect against abuses of our Constitution.

We all know that in the darkest corners of the Earth lie evil people who seek to harm our country and our people. We all agree on the need to monitor the communications of terrorists in order to protect the American people. But despite what the President insists, America is strengthened by our

reverence for our law and our Constitution.

I am grateful for the efforts of congressional leaders who have worked tirelessly, and at times it may have seemed endlessly, to craft this compromise bill. Senators FEINGOLD and DODD deserve special recognition for reminding us that our Constitution must always come first. I have to compliment Senator ROCKEFELLER—a very difficult assignment he has, being the chairman of this most important committee, but he does it with great dignity.

This version of this legislation is better than the bill the Senate passed in February and better than the flawed Protect America Act signed by the President last summer.

This legislation now includes Senator FEINSTEIN's amendment to reaffirm FISA as the exclusive means by which the executive branch may collect surveillance. This provision is Congress's direct response to the strained argument of President Bush's lawyers that Congress meant to repeal the very clear and specific requirements of FISA when Congress passed the authorization for the use of military force in Afghanistan. Congress flatly rejects that argument as having no basis in fact or in law.

This bill includes Senator LEAHY's important amendment requiring a comprehensive IG review of the President's program as well as greater judicial supervision.

This bill requires the U.S. Attorney General to develop guidelines to ensure compliance with the fourth amendment and prevent reverse targeting; that is, targeting someone abroad when the real purpose is to acquire the communications of a person here in the United States.

This bill provides for increased congressional oversight, requiring extensive reporting to the Judiciary Committee and Intelligence Committees about the implementation of the new provisions and their impact on U.S. persons.

This bill rejects changes to the definition of electronic surveillance, a change sought by the administration that could have had unforeseen and far-reaching consequences for FISA's protections for the privacy of law-abiding Americans.

This bill ensures that the law expires in 4 years, requiring the next President and Congress to evaluate its effectiveness.

Let me in passing say that Senator LEAHY, the chairman of the Judiciary Committee, worked hard on this. As you know, there was a joint referral. Again, Senator LEAHY worked, as he does on all pieces of legislation, tirelessly and for the good of this country.

These changes I have mentioned add checks on the expansive executive powers contained in the original bill. But, as I said, despite these improvements, this legislation certainly needs more work. That is why I oppose it and why I am committed to working with the new President to improve it.

Congress should not wait until the 2012 expiration to improve this legislation. I will work to ensure that Congress revisits FISA well before 2012, informed by the oversight that will be conducted in the coming months by the Judiciary Committee and the Intelligence Committees and by the reports of the inspectors general. Next year, for example, Congress will be required to revisit a number of provisions of the PATRIOT Act. That may provide a suitable occasion to review the related issues in this FISA legislation.

While the bill before us does include some improvements to title I's intelligence collection procedures, I oppose totally title II. I think it is just way out of line.

Title II establishes a process where the likely outcome is immunity to the telecommunications carriers that participated in the President's illegal warrantless wiretapping program. That is what it was. The bill does not provide any protection for the Government officials who designed and authorized the program. That is good. It also, of course, does not preclude a challenge to the constitutionality of the legislation in Federal district court.

Nobody should read title II of this bill as a judgment on the legality of the President's warrantless wiretapping program because it is not. Nobody should expect that a grant of immunity is anything other than a one-time action. This was made clear in the Senate Intelligence Committee report that accompanied an earlier version of this legislation. Service providers should clearly understand that no grant of immunity will be forthcoming if they cooperate with future Government requests that do not comply with the procedures outlined in this legislation.

The current lawsuits against the telecom companies seek accountability.

These lawsuits could have been a vehicle to achieve a public accounting of the President's illegal warrantless wiretapping program. That is why it is important that the Democratic negotiators forced the President to submit his program to a comprehensive inspectors general review. That review should finally provide a full airing of this entire sorry episode. The bill requires the inspectors general of the relevant agencies to complete a comprehensive review of the President's surveillance program within a year. By the time that report is issued, President Bush will have left office. Although his term will have come to an end, the work of uncovering this administration's abuses of power is just beginning. Future Presidents, future Congresses, and the American people will learn from President Bush's abuses of power in a positive fashion.

The debate on this FISA legislation may be nearing an end, but the history books are yet to be written. Throughout this fight, a small number of lonely voices insisted that there is no contradiction between liberty and security. As new facts have become known, their numbers have swelled, and the voices have grown louder. I am confident that when it is all known, the condemnation of President Bush's blatant disregard for the Constitution will be deafening. I hope that because those voices refused to be silenced, the next President and all future Presidents will not waiver from a path that protects the American people without compromising our core American values based upon our Constitution.

The PRESIDING OFFICER. The Senator from Connecticut.

AMENDMENT NO. 5064

(Purpose: To strike title II)

Mr. DODD. Mr. President, before the Majority Leader leaves the floor, I thank him personally but also collectively for his leadership on this issue. This is an act of courage on his behalf, given the arguments made by the other side, and his leadership on this created the possibility for us to offer this amendment to strike title II. I share his thoughts. He expressed them very well. I wish to identify myself with them. This is not at all about questioning the need for security. We all understand that. This is a simple question. Should the telecom industry be granted immunity, without us being able to determine whether their actions are legal? It may come out that the courts determine they were legal. If so, we move forward. All we are asking is that the opportunity be given to determine the legality of their actions.

The majority leader has made it clear why it is important. This is about the Constitution and the rule of law. It seems to me a very simple request and, as such, I ask unanimous consent to lay the pending amendment aside and call up amendment No. 5064.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Connecticut [Mr. DODD], for himself, Mr. FEINGOLD, Mr. LEAHY, Mr. REID, Mr. HARKIN, Mrs. BOXER, Mr. SANDERS, Mr. WYDEN, Mr. KENNEDY, and Mr. DURBIN, proposes an amendment numbered 5064.

Strike title II.

Mr. DODD. Mr. President, it is very simple. Strike that section of the bill that grants immunity to a number of telecommunications companies that, for a period of roughly 5 or 6 years, literally vacuumed up phone conversations, faxes, e-mails, photographs, on a wholesale basis, of virtually every American citizen. The only reason it has come to a halt is because there was a whistleblower who identified the program. Otherwise the program would be ongoing. Again, none of us argue, at least I don't argue at all, about the importance of having the ability to get the cooperation of an industry that could help us identify those who would do us harm. That is not the debate.

The debate is whether there is an appropriate means by which those warrants are sought before these telecom companies would begin to turn over the private conversations, e-mails, and communications of American citizens. That is what this debate is about. It is a simple debate on whether we keep this section of the bill or strike it out and allow the judicial branch, a coequal branch of Government, to determine whether the acts by the executive branch were constitutional and if they were they legal.

If this amendment is not adopted, it will be a vote by the legislative body that determines whether they were legal. We are not competent or the appropriate constitutionally delegated body to perform that function. That is why we have three coequal branches of Government. The executive branch made this decision. We in the legislative branch have an obligation to insist that the judicial branch determine the legality of the actions taken.

I wish to thank as well my colleague, Senator FEINGOLD of Wisconsin, my lead cosponsor, but also to mention, if I may, Senator LEAHY, who has been a stalwart on this effort and always a great crusader against those who would do harm to the rule of law. I also want to thank Senator REID, the Majority Leader, and Senators HARKIN, BOXER, SANDERS, WYDEN, KENNEDY, DURBIN, KERRY, and CLINTON for their support for this amendment. I also thank, if I may, JAY ROCKEFELLER, who chairs this committee. While I am highly critical of title II of the bill, I have great respect for him and the work he has tried to do in leading the Intelligence Committee on this difficult issue. While I still have major reservations about title I of this bill, the fact that title II still exists in this bill makes it impossible to be supportive of this legislation, if that is retained in the bill that we vote on tomorrow.

For many Americans, the issue may seem a very difficult one to follow. It may seem like another squabble over a corporate lawsuit. But in reality, it is so much more than that. This is about choosing between the rule of law and the rule of men. You heard our colleague, Senator LEVIN, and the Majority Leader eloquently describe the situation as it presently exists.

For more than 7 years, President Bush has demonstrated time and time again, unfortunately, that he neither respects the role of Congress nor does he apparently respect the rule of law on these matters. Today, we are considering legislation which will grant retroactive immunity to the telecommunications companies that are alleged to have handed over to this administration the personal information of virtually every American, every phone call, every e-mail, every fax, and every text message, and all without warrant.

Some may argue that, in fact, the companies received documentation from the administration stating that the President authorized the wiretapping program and that, therefore, it is automatically legal. These advocates will argue that the mere existence of documentation justifies retroactive immunity; that because a document was received, companies should be retroactively exonerated from any wrongdoing. But as the Intelligence Committee has already made clear, we already know that the companies received some form of documentation with some sort of legal determination.

But that logic is deeply flawed. Because the question is not whether the companies received a document from the White House. The question is, were those actions legal?

It is a rather straightforward and surprisingly uncomplicated question. Did the companies break the law? Why did the administration not go to the FISA Court as they were required to do under the Foreign Intelligence Surveillance Act?

Since 1978, that court has handled 18,748 warrants, and they have rejected 5 since 1978, in almost 30 years, according to a recent published report in the Washington Post. So the issue raised for me is, why didn't these companies go before that court to determine whether a warrant was justified? Why did they decide merely to rely on some letter or some documentation, none of which has ever been established as a legal justification for their actions?

Either the companies complied with the law as it was at the time or they didn't. Either the companies and the President acted outside the rule of law or they followed it. Either the underlying program was legal or it was not. If we pass retroactive immunity, not a single one of these questions will ever be answered—ever. Because of this so-called compromise, Federal judges' hands will be tied and the outcome of these cases will be predetermined. Retroactive immunity will be granted.

So this is about finding out what exactly happened between these companies and the administration. It is about holding this administration to account for violating the rule of law and our Constitution. It is about reminding this administration that where law ends, tyranny begins. Those aren't my words, where the law ends, tyranny begins. Those words were spoken by the former British Prime Minister, Margaret Thatcher.

It is time we say no more, no more trampling on our Constitution, no more excusing those who violate the rule of law. These are our principles. They have been around since the Magna Carta, even predating the Constitution. They are enduring. What they are not is temporary. And what we should not do at a time when our country is at risk is abandon them. That is what is at stake this evening and tomorrow when the vote occurs.

Allowing retroactive immunity to go forward is, by its very nature, an abandonment of those principles. Similar to generations of American leaders before us, we too are confronted with a choice. Does America stand for all that is right with our world or do we retreat in fear? Do we stand for justice that secures America or do we act out of vengeance that weakens us?

Whatever our political party, Republican or Democratic, we are all elected to ensure that this Nation adheres to the rule of law. That is our most fundamental obligation as Members of this great body, to uphold the rule of law—not as partisans but as patriots serving our Nation. The rule of law is not the province of any one political party or any particular Member of the Senate but is, rather, the province of every American who has been safer because of it.

President Bush is right about one thing. The debate is about security. But not in the way he imagines. He believes we have to give up certain rights in order to be safer. This false dichotomy, this false choice that to be more secure, you must give up rights is a fundamentally flawed idea. In fact, the opposite is true. To be more secure, you must defend your rights.

I believe the choice between moral authority and security is a false choice. I believe it is precisely when you stand up and protect your rights that you become stronger, not weaker. The damage done to our country on 9/11 was both tragic and stunning, but when you start diminishing the rights of your people, you compound that tragedy. You cannot protect America in the long run if you fail to protect the Constitution of the United States. It is that simple.

As Dwight Eisenhower, who served our country as both President and as the leader of our Allied forces in Europe during World War II, said:

> The clearest way to show what the rule of law means to us in everyday life is to recall what has happened when there is no rule of law.

That is why I believe history will judge this administration harshly for their disregard for our most cherished principles. If we do not change course and stand for our Constitution at this hour, for what is best for our country, for what we know is just and right, then history, I am confident, will most certainly decide that it was those of us in this body who bear equal responsibility for the President's decisions—for it was we who looked the other way, time and time again.

This is the moment. At long last, let us rise to it. Support the amendment I am offering on behalf of myself and the other Members I mentioned earlier. We must put a stop to this idea of retroactive immunity. It is time we stood for the rule of law. That is what is at stake. The FISA Courts were created specifically to strike the balance between a secure nation and a nation defending its rights. That is why the law has done so well for these past 30 years, amended many times, to keep pace with the changes of those who would do us great harm.

At this very hour, in the wake of 9/11, to say we no longer care about that, that we will decide by a simple majority vote to grant retroactive immunity to companies who decided that a letter alone was enough legal authority for them to do what they did is wrong.

I have pointed out before in lengthy debate, not every phone company participated in the President's warrantless wiretapping program. Not everyone did. There were those who stood up to the administration and said, without a warrant, without proper legal authority, we will not engage in the vacuuming up of the private information of American citizens. They should be recognized and celebrated for standing for the rule of law.

For those who decided they were going to go the other way, let the courts decide whether that letter, that so-called documentation, was the legal authority that allowed them to do what they did for more than 5 long years.

Tomorrow we will vote around 11 o'clock on this amendment. I commend Senator BINGAMAN and Senator SPECTER. They have offered amendments as well dealing with other parts of this legislation for which I commend them. But I hope my colleagues, both Democrats and Republicans, would think long and hard about this moment. Senator CARL LEVIN of Michigan said something very important toward the conclusion of his remarks: That this in itself becomes a precedent, that some future administration, fearing they would not get permission from a FISA Court to engage in an activity that violated the privacy of our fellow citizens will no doubt use the vote tomorrow, if, in fact, those who are for retroactive immunity prevail. They will cite that act by this body as a legal justification for some future administration circumventing the FISA Courts in order to do exactly what was done in this case. It becomes a legal precedent.

So there is a great deal at risk and at stake with this vote tomorrow. It is about the rule of law. It is not about whether you care about the security of our Nation. Every one of us cares deeply about that, and we want to do everything we can to thwart those who would do us great harm. This is about the simple issue of whether a court of law ought to determine whether these companies violated the Constitution. Did they or didn't they? If they did not, so be it. If they did, then those to whom they did harm ought to be compensated at what marginal or minimal level one would decide. But let the court decide this. Let's not decide it by a simple vote here and set the precedent that I think we would regret for years and years to come.

With that, Mr. President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BROWN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MOTORCOACH SAFETY

Mr. BROWN. Mr. President, today the National Transportation Safety Board presented its final report on the Atlanta motorcoach accident involving the Bluffton University baseball team last March.

The crash resulted in the deaths of five players on that team: Tyler Williams, Cody Holp, Scott Harmon, Zack Arend, and David Joseph Betts. The driver, Jerome Niemeyer, and his wife Jean were also killed in the crash. Many of the other passengers—33 in all—were treated for injuries.

For the families of those who lost loved ones and the families whose sons survived but now struggle with the aftermath, today has been highly anticipated.

Only hours after news of the accident hit home, these families pledged to improve safety measures on motorcoaches so that preventable—preventable—fatalities would not occur in the future.

For John Betts, who lost his son David in the crash, it was important to take the accident and make it into something positive in honor of his son and the other bright, talented young men who died that morning. Motorcoach safety became his crusade.

I spoke to Mr. and Mrs. Betts today and their son and daughter and talked to other parents of survivors and one who had died, and I think about their courage and their commitment and their passion to do this in the names of their sons, to fight for motorcoach safety so this tragedy does not befall other families. The Betts family sees upgrading the safety laws for motorcoaches as an opportunity to save the lives of future riders. Mr. Betts sees it also as a way to memorialize David and his teammates and, as he puts it, to make the world they lived in better than it was when they left it.

The Motorcoach Safety Enhancement Act, which I introduced last November along with Senator HUTCHISON from Texas, would address the shortfall in safety regulations for motorcoaches.

Today's final report echoes the recommendations the NTSB has been publishing for years and aligns itself with the safety improvements incorporated into our legislation. Specifically, the National Transportation Safety Board underscored major safety shortfalls that the Motorcoach Safety Enhancement Act addresses, such as development of a motorcoach occupant protection system, improved passenger safety standards, enhanced safety equipment and devices, and required onboard recorders with the capability to collect crash data.

Many of the injuries sustained in motorcoaches could be prevented by incorporating high-quality safety technologies that exist today but are not widely used, such as crush-proof roofing and glazed windows to prevent ejection. More basic safety features, such as readily accessible fire extinguishers and seatbelts—simple seatbelts—for all passengers, are still not required on motorcoaches. As a father of four, I find it particularly disturbing to know students are still riding in vehicles without even the option of buckling up. Seatbelts, window glazing, fire extinguishers—these are not new technologies. These are commonsense safety features that are widely used. Yet mandating them, as recommended by the NTSB, has been languishing for years.

The Motorcoach Safety Enhancement Act would instruct the Secretary of Transportation to enact these and other safety features and to establish a timeframe so these safety requirements do not spend any more time in limbo.

Sadly, the Bluffton University baseball team's fatal accident was not unique. We have witnessed story after story about motorcoach accidents. One happened in Texas, which precipitated Senator HUTCHISON's involvement in this effort. This bill takes the lessons learned from the tragic events of the Bluffton University baseball team's motorcoach accident and aims to correct them for future riders.

It is my hope that in the future parents will not have to endure the anguish and the grief that the Betts family members experienced and the family members of Tyler Williams and Cody Holp and Scott Harmon and Zack Arend and, as I said, the Betts family. I applaud the Betts family and the other Bluffton University parents for their courageous fight, for their persistence, and for their dedication to improving motorcoach safety in the midst of so much personal pain. Those families are truly remarkable.

I urge this body to swiftly pass the Motorcoach Enhanced Safety Act.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BROWN). Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to a period for the transaction of morning business, with Senators allowed to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

IDENTIFYING BENEFICIARIES

Mr. DURBIN. Mr. President, the inspector general of the Social Security Administration recently issued a report taking the Centers for Medicare and Medicaid Services to task for its failure to take steps to implement the inspector general's recommendation that the agency stop using Social Security numbers as a beneficiary identifier. I support the inspector general's efforts and would like to bring this issue to the attention of my colleagues.

Social Security numbers were originally created to administer the Social Security Program. Over time, the public and private sectors began to use Social Security numbers for a variety of other purposes.

Use of Social Security numbers is a convenient method to identify individuals. But wide-spread use of Social Security numbers also increases the risk of identity theft and fraud. In 2006, the Federal Trade Commission reported that more than 8 million Americans were victims of identity theft in the prior year.

Identity thieves can obtain an individual's personal information by stealing mail or a wallet or rummaging through your trash. That personal information can be used to obtain a credit card in your name, write bad checks from a bank account created in your name, or authorize the electronic transfer of funds from your bank account to a different account.

A Social Security number is a key piece of information used in identity thefts. Recognizing this threat, many public and private entities have taken steps to limit the use and display of Social Security numbers.

Last year, the Office of Management and Budget called on Federal agencies to safeguard personally identifiable information. It required agencies to establish plans to eliminate unnecessary collection and use of Social Security numbers and to explore alternatives to Social Security numbers.

A number of Federal agencies are reducing the use of Social Security numbers. The Department of Veterans Affairs no longer displays Social Security numbers on new veteran identification cards. The Department of Defense is issuing health cards that no longer display Social Security numbers. And the Office of Personnel Management has directed health insurers participating in the Federal Employees Health Benefit Program to eliminate Social Security numbers from insurance cards.

Unfortunately, the Centers for Medicare and Medicaid Services continues to display Social Security numbers on Medicare identification cards. Consumers Union and others have noted this practice needlessly places Medicare beneficiaries at risk for identity theft.

The Social Security Administration urges people not to carry their Social Security cards with them in order to protect against theft. But Medicare beneficiaries are instructed to carry their Medicare identification cards with them—cards with the very same Social Security number on them. Why would CMS increase senior citizens' vulnerability to identity theft?

I first raised this concern in 2005 and successfully offered an amendment to the Senate version of the fiscal year 2006 Labor-HHS-Education appropriations bill to require CMS to provide a report to Congress outlining a plan to move away from using Social Security numbers on Medicare identification cards.

CMS prepared a report and provided estimates of the cost and time it would take to switch to an identification system other than Social Security numbers. But it has failed to implement that plan.

Last month, the inspector general of the Social Security Administration issued a report that examined how CMS is responding to an IG recommendation in 2006 to remove Social Security numbers from Medicare cards. The inspector general found that CMS has not done anything beyond preparing the report to Congress.

The inspector general made his position clear. The report states:

> Given the millions of individuals at risk for identity theft and OMB's directive to eliminate unnecessary uses of [Social Security numbers], we believe immediate action is needed to address this significant vulnerability.

The report also declares:

> We do not believe a Federal agency should place more value on convenience than the security of its beneficiaries' personal information.

It is very disappointing that CMS is not taking recommended steps to protect Medicare beneficiaries from identity theft.

Private health insurers have moved away from using Social Security numbers. Other Federal agencies have too. It is time for CMS to do the same.

TRIBUTE TO DR. BOBBY R. HIMES

Mr. MCCONNELL. Mr. President, I rise to note with sadness the passing of Dr. Bobby R. Himes, a retired Campbellsville University professor and star Kentuckian who will be greatly missed. After over four decades of service to his students, his community and the Commonwealth of Kentucky, he leaves behind many loved ones and a great legacy of accomplishment. He was 76 years old.

Known to students and colleagues as ''Mr. Campbellsville University,'' Dr. Himes taught 7,940 students over his long career, according to grade books he kept in his possession. He first came to Campbellsville University in 1961 at the age of 29 and retired in 2001 as a history and political science professor. More than 4,000 Campbellsville students took his popular class ''United States History Since 1877,'' which began in 1961.

Dr. Himes grew up in Hartford, KY, and always remained proud of his hometown. In his recent book ''Life in the Shadows of Hartford College and Campbellsville University,'' he wrote, ''I could not have grown up in a better place or time. Nowhere could there have been better people to nurture a young boy, a young man and now an old man.''

Dr. Himes graduated from Hartford High School in 1950 and earned his bachelor's degree in history and political science from Kentucky Wesleyan College in 1959. He earned a master's degree in social science from Appalachian State University in 1961, did other graduate work at Western Kentucky University, and did his doctoral studies at Vanderbilt University. He also wore our country's uniform for 4 years in the U.S. Air Force, serving in the Korean War.

Dr. Himes's renown as a teacher was legendary. Several years ago I was on a plane from Kentucky to Washington, DC, when a young woman introduced herself to me as one of his former students. She had only the highest praise for him. I made sure to tell Dr. Himes about that afterwards. The impact he had on this young woman's life, and thousands of young people's lives, cannot be understated.

Let me point out that my wife, Secretary of Labor Elaine Chao, was a big fan of Dr. Himes as well. When she first met him she was new to Kentucky and just getting to know people. Dr. Himes was so friendly and helpful, they soon became fast friends. He was a great guide to the people and places in Kentucky.

Dr. Himes was always actively engaged with the world around him, and so it is no surprise he was involved in political campaigning and public service as well. His first campaign experience came when he was in the third grade at Wayland Alexander Elementary School he supported Wendell L. Willkie in the 1940 Presidential election.

Luckily, that first loss did not deter him from politics completely. Moving to Taylor County, KY, in 1961, Dr. Himes went on to serve in leadership posts for local campaigns. He then became chairman of the Taylor County Republican Party in 1982, a position he held for 10 years.

Dr. Himes was twice named the Campbellsville/Taylor County Chamber of Commerce Educator of the Year. He was also named the 2001 Business and Professional Women's Club Man of the Year and the 2004 Central Kentucky News-Journal Man of the Year. He received the Outstanding Social Studies Teacher Award from the Kentucky Council for the Social Studies in 1982.

Dr. Himes was a member of Campbellsville Baptist Church, and he belonged to the Honorable Order of Kentucky Colonels. He was perhaps the biggest fan of Lady Tiger Basketball at Campbellsville University, and the team recognized his support by creating the Bobby Himes Award, which honors dedication, determination and loyalty.

Dr. Himes served under five Presidents during his tenure at Campbellsville University. Dr. Michael V. Carter, the current president, said upon hearing the news, ''We thank God for the life and career of Dr. Bobby Himes and his service to Campbellsville University and humanity.''

My prayers and those of the people of Kentucky are with his wife Erlene and the Himes family after this sad loss. I hope the wonderful memories of Dr. Himes's long and fruitful life can give them some strength during this difficult time.

In his book, Dr. Himes looked back at his own success and wrote, ''What a career, what a life for a rural Kentucky boy! My granddad Himes would be pleased.''

What a life, indeed. Kentucky and our Nation have lost a great American with the passing of Dr. Bobby R. Himes. And I have lost a dear beloved friend.

VOTE EXPLANATIONS

Mr. TESTER. Mr. President, last night my flight to Washington was diverted to Columbus, OH, due to bad weather. As a result, I missed rollcall vote No. 163, to invoke cloture on the motion to concur with House amendment No. 2 to the Senate amendments to the housing bill. Had I been present, I would have voted ''yea.''

Mr. THUNE. Mr. President, last night, due to weather delays and an unexpected flight diversion to Columbus, OH, I missed the rollcall vote concerning cloture on the motion to concur with House amendment No. 2 to the Senate amendments to the housing bill, H.R. 3221. Had I been present for this vote, I would have voted ''aye.''

REMEMBERING SENATOR JESSE HELMS

Mr. COCHRAN. Mr. President, I was saddened by the news of the death of our former colleague, Jesse Helms of North Carolina. It was a privilege to work with him when he served as chairman of the Agriculture Committee. He was always courteous and respectful of the interests of all of the members of the committee. His conscientious efforts to be fair and resourceful in achieving a consensus on the provisions of legislation providing Federal Government support for the producers of food and fiber were deeply appreciated by me as a Senator from the State of Mississippi, which is so heavily dependent on farming and agribusiness.

I also admired his warmhearted and friendly manner. He was the epitome of the Southern gentleman. He was forceful and combative in his arguments in support of the issues he believed in, and he was never afraid to say what he thought, even though he knew he might not be supporting the prevailing view.

His wife Dot was one of the most precious Senate Wives Club members. My heartfelt sympathies go out to her and all the members of the family of our departed colleague.

Mr. BROWNBACK. Mr. President, I rise to pay tribute to a great patriot—and a good friend—who passed away on our Nation's Independence Day.

It seems somehow so fitting that Senator Jesse Helms should have left us on July 4, the anniversary of America's foundational document. Senator Helms was, above all else, a patriot who loved his country and the ideals we embody as a nation. And he spent his entire adult life defending those ideals, beginning with his service in the U.S. Navy in World War II.

Jesse always fought for what he believed in, even at great personal—or political—cost. Two things friends and foes alike acknowledged, and admired, about Senator Helms were that you always knew where he stood and that his word was as good as gold. He was a man of enormous integrity, as all who dealt with him on a personal and professional level can testify.

While he was a formidable politician, there were some things that, for Jesse, were more important than political success or winning elections.

He spent much of his three decades in the Senate standing up for the principles he believed so deeply in, even if that meant taking on powerful opposition, sometimes in his own party. But as Jesse famously said, ''I didn't come to Washington to be a 'yes man' for any president, Democrat or Republican . . . I didn't come to Washington to get along and win any popularity contests.''

What he did win in Washington was the enduring affection of people on both sides of the political aisle who found that this tough-as-nails politician was also a gracious, generous, compassionate human being. As Linda Chavez so aptly said in tribute to Senator Helms, ''he took his politics seriously, but he didn't use political differences as an excuse for bad manners.'' He embodied southern charm, good manners, and courtliness. He seemed to recognize that there is never a contradiction between standing up strongly for your political and philosophical principles and always treating people, including those who disagree with you, in a way that always respects their human dignity.

Nor was this just a public display of good manners—Jesse Helms' Christian charity extended to his private life as well. Having been active in the pro-life movement for a long time I can't tell you how many times I have heard the accusation that pro-lifers only care about life from conception to birth—after that, they have no interest in caring for their fellow human beings.

Well, suffice it to say that Senator Helms disproved this caricature. Jesse and his wife Dot were always what I like to call ''pro-life and whole-life.'' In 1963, after 21 years of marriage, they adopted a disabled child, their son Charles, after they read a newspaper article in which the child, who was 9 at the time, wished for a mother and a father for Christmas. Senator Helms never used adopting a child with cerebral palsy to soften his image as a hard, uncaring right-wing ideologues—in fact, he refused to talk about it in interviews. But Charles was, he said, a great blessing and was the center of his family. He served for years on the boards of private charities to help others with cerebral palsy.

For those young people who had the opportunity to work with him, he was a wonderful mentor. More than anything else, he loved to talk to young people, give them guidance and encouragement, and show them the ropes of public service. Those who knew the dynamics of his office testified that he was always more accessible to young people than he was to high-powered lobbyists. One of his great legacies is the Jesse Helms Center near his hometown of Monroe, NC, an organization centered on young people and dedicated to assuring that future generations fully understand and appreciate the blessing and opportunities of this great country.

What is perhaps most obvious about Senator Helms was that he was, simply put, a political giant. He was among the first to take up the pro-life cause in Congress, and his dedication to that cause never wavered. He was a lifelong opponent of communist tyranny, and his leadership in key Cold War battles was indispensible. Ronald Reagan could never have achieved all that he did achieve without Senator Helms strong and steady leadership as chairman of the Foreign Relations Committee.

And that was not all the Reagan revolution owed to Jesse Helms. Like Ronald Reagan, he left the Democratic Party after many years as a Democrat because he believed it no longer embodied the principles he believed in. He was on the cutting edge of transforming the solid south from the Roosevelt coalition to the Reagan coalition. His support for Ronald Reagan in his State's primary in 1976 was the key to Reagan's victory, and the beginning of the revival of his fortunes that led to the Reagan landslides of 1980 and 1984.

Senator Helms' political leadership will be missed, but his impact on our Nation will remain as his lasting legacy. We mourn the passing of this great American, and we offer our heartfelt condolences to his family, his friends, and to the people of his beloved North Carolina and across the Nation who loved him.

HEALTHY AMERICANS ACT

Ms. CANTWELL. Mr. President, I stand today for the 47 million Americans who are uninsured and looking to Congress to address an issue that has reached critical proportions.

I stand for the millions of Americans who are underinsured and cannot afford to pay the difference between their

health costs and their meager coverage.

I stand for the millions of Americans who have lost their health coverage along with their jobs.

And, I stand for the small businesses that cannot afford to cover the costs of their employees.

That is why I am joining Senators RON WYDEN, BOB BENNETT, and many of my other colleagues in taking the first steps towards a bicameral, bipartisan, comprehensive solution for all called the Healthy Americans Act.

The Healthy Americans Act recognizes that our health care system is fundamentally broken and requires Congress, the President, and the Federal Government as a whole to engage in a serious dialogue about our country's health care priorities and the solutions that can make those priorities attainable.

The Healthy Americans Act guarantees affordable, high quality, permanent health coverage for all Americans. It provides benefits equal to those available to Members of Congress, and gives incentives for individuals to make a commitment to prevention, wellness, and disease management.

It changes the crumbling foundation on which we have built our system, challenges the status quo, and makes a commitment to the right of all Americans to live their lives without fear of losing, or not being able to afford health coverage.

This solution is affordable for us. In fact, according to independent studies, this piece of legislation is fully paid for using the $2.2 trillion currently spent on health care in America and saves $1.48 trillion over 10 years.

The benefit to Americans will be profound.

The Healthy Americans Act changes the way we think of health care in America through the modernization of fundamental relationships in our current system. By redefining the relationship between employers, employees, and health insurance, we give the American people a choice when it comes to the coverage, the cost, and the benefits they need for their families and their health.

The Healthy Americans Act marks the beginning of a comprehensive, bipartisan effort to health care reform. There will be many challenging issues to consider as my colleagues and I work to provide every American with quality coverage. These include concerns over the potential disruption that such a profound change to the system would have on those with existing coverage, as well as the lack of a publicly sponsored health plan option.

I hope to work with Senators WYDEN, BENNETT, and my Senate colleagues in ensuring that this legislation addresses those concerns, as well as others that may be raised in the future.

Although complex, the health care crisis is one that we cannot afford to ignore any longer. Together, we can turn the health care system in American into a transparent, affordable, efficient and healthy system that can help those that need it most.

NEW MARKETS TAX CREDIT

Mr. SMITH. Mr. President, I wish today to talk about the impact the new markets tax credit has had in revitalizing distressed neighborhoods in my home State of Oregon.

The new markets tax credit has become a vital financing tool to organizations throughout Oregon, like United Fund Advisors and Portland Family of Fund, to invest in and nurture business opportunities in our low income communities that are in need of investment capital.

The New Markets Tax Credit was signed into law in 2000 with the goal of using a modest Federal tax credit as an incentive to attract private investment capital to viable urban and rural markets that private investors often overlook and I am happy to report that the credit has done just that.

The Treasury Department reported that as of July 1, 2008, the credit is responsible for $11 billion of new investment going into economically distressed communities across the country. More than $600 million in NMTC-supported projects have been launched in Portland alone with the promise to create more than 9,000 construction and permanent jobs for city residents.

United Fund Advisors and its sister organization Portland Family of Funds are but two organizations using the credit in my home State, but I hold up their works as an example of how the NMTC can work.

United Fund Advisors and Portland Family of Funds recognized the potential of downtown Portland. Since 2002, through their CDEs, they have been awarded $165 million in credits, which they have used to attract investors to finance vital community services, as well as businesses in neighborhoods that have suffered from chronic poverty and disinvestment.

In downtown Portland, the credit has financed several community facility projects, including the Community Transitional School, which is an elementary school that serves homeless children throughout the city. The school serves over 200 homeless children a year and has been in operation since 1990. However, it was unable to secure the financing it needed to support the $3.5 million rehabilitation of its facility to create a safe, stable and permanent home for the school. The credit was used to attract financing from U.S. Bancorp to make the project possible and the school now expects to open the doors to its new 9,500-square-foot facility this fall.

The credit also provided the gap financing necessary to develop a drug rehabilitation facility within the Union Gospel Mission and to rehabilitate a theater and community space in the Portland Armory, which had been lying vacant for about 35 years.

The credit has been used to reclaim abandoned commercial space and encourage business development and economic activity in downtown Portland. Portland Family of Funds used the credit to assist a minority developer finance the development of two business condominiums designed to bring minority- and women-owned businesses into the downtown Portland market. In addition, the credit financed the Portland Small Business Loan Fund which provides financing to new and emerging small businesses operating in low-income neighborhoods in the city.

None of the projects that I just described would have been completed without the new markets tax credit. Last year the GAO published a report on the NMTC and found that 88 percent of the NMTC investors would not have invested in the low-income community or business without the subsidy provided by the credit.

I am a strong supporter of the NMTC because of its potential to bring communities and businesses that have traditionally been left out of the mainstream financial market into the mainstream market.

I hope my colleagues will join me to support the extension of the new markets tax credit, which is currently set to expire at the end of this year. Our cities and rural communities need this program, and I will do all I can to see that it is extended and expanded.

IDAHOANS SPEAK OUT ON HIGH ENERGY PRICES

Mr. CRAPO. Mr. President, in mid-June, I asked Idahoans to share with me how high energy prices are affecting their lives, and they responded by the hundreds. The stories, numbering over 1,000, are heartbreaking and touching. To respect their efforts, I am submitting every e-mail sent to me through energ_prices@crapo.senate.gov to the CONGRESSIONAL RECORD. This is not an issue that will be easily resolved, but it is one that deserves immediate and serious attention, and Idahoans deserve to be heard. Their stories not only detail their struggles to meet everyday expenses, but also have suggestions and recommendations as to what Congress can do now to tackle this problem and find solutions that last beyond today. I ask unanimous consent to have today's letters printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Senator—I am getting sick and tired of hearing from Easterners who live in New York or Washington, DC, and can walk to the corner store and who have mass transit options readily available constantly harping about raising gas prices even higher in order to get people to use less gas. The logic is absolutely heinous.

We live seven miles east of Mountain Home; we have no other options but to drive to get anywhere, and, if it is snowing real hard, our only option is our supposedly-evil

SUV; our other cars won't make it out of our steep driveway. Buying gasoline is not a choice, it is not a luxury—it is a necessity. We've already cut our consumption, we've limited our trips into Boise to the absolute minimum and we even try to consolidate our trips into town as much as possible.

Any further cuts will require some major changes—the biggest one would be my seriously considering quitting school. I'm currently pursuing my Master's degree in History at BSU, I hope to graduate in May—but if gas prices go up to the eight or ten dollars a gallon that I've heard many of the so-called environmentalists advocate, I won't be able to continue driving up to Boise three to four times a week. We also have to limit our driving to one trip to Mountain Home each day to my husband's office in our most gas-efficient vehicle, and none on the weekends. If that means that one of us has to sit around for hours waiting for the other one so be it. Our trips to the base to the Commissary and BX will have to be made in conjunction with a workday trip in to town, and we may stop making them altogether unless they were in conjunction with a trip to the hospital—the savings would probably be outweighed by the gas costs.

Moving is not an option—my husband and I are both Air Force retirees who invested our savings, an immense amount of sweat equity, and a lot of love in our ultimate dream house on a beautiful lot on forty acres. This is our home. We love living in the country the same way many people love living in the city. They have their rapid transit that is highly subsidized by the government; why are we paying for their lifestyle so that they can play holier than thou and harp about mine being evil?

My husband and I are actually quite lucky—we're retirees who can make choices about when and where we want to be places—they're hard choices, but at least they're our choices. Most people do not have that luxury. I keep thinking about the many people who were out here working on our house, most of whom drove from Boise. They didn't have a choice, they had to make the drive. They did, however, have an alternative funding source—they could pass their costs on to us, which is what is now happening with all businesses and commodities—and everything is just going to keep getting more and more expensive as this goes around in a lovely little circle. Remember the 70s and inflation? If we do not find a way to stop this pretty soon, we're going to see inflation like we've never seen it before. . .

I'm all for ''alternative energy;'' I'd be thrilled to use a vehicle that runs on ''alternative energy''—if there was one available and I could afford it. Additionally, the government has been funding research into ''alternative energy'' for years now—do not make me raise even more funds for it every time I fill up my gas tank. On top of that—do not you think that whoever it is who finally makes a vehicle that does run on ''alternative energy'' will be able to make an awful lot of money on it? Why should I be paying for the R&D for their huge profits? Stop wasting your time and my money conducting show trial hearings of oil executives and do something useful like maybe suspending the stupid rules about mandatory floors on ethanol usage—with the floods in the midwest and the even higher corn prices that is going to raise gas prices even higher. Drill everywhere we can get oil. Use the shale oil. Build nuclear plants. Do it now so that ten years from now your successor won't be saying ''oh, well, we would have had to do that ten years ago for it to have done any good so we might as well not do it now that gas prices have risen to fifteen dollars a gallon. . .''

Oh, and by the way—why haven't the Republicans been all over the Democrats about the fact that they were going to fix everything that was wrong in the world once they had control of Congress? Could you guys please make some noise about the fact that some things aren't George Bush's fault but should be laid at the feet of the Democratically-controlled Congress?

TAMARA, *Mountain Home.*

Honorable Senator, I am absolutely astonished and even sickened at the shameful interrogation of the oil company executives that was conducted by Senator Durbin, Maxine Waters and others. Also, Senator McCain for insinuating that the 'Speculators' are to blame for the high price of oil. Why is so much time being spent pointing the finger of blame at people who did not cause this problem in the first place?

These committees should be spending their time removing the restrictions that have minimized access to the resources of our own country as quickly as possible. I urge you to meet with the Senators who somehow do not understand that it is their own actions that have brought us to this place.

They have stifled production, placed their own taxes on our fuel supply and even threaten to penalize and take away profits from the very companies who can invest those profits back into increasing the available supplies, finding new resources in an environmentally friendly way and developing cleaner fuels. With sufficient resources, the private sector will be able to solve this problem.

You must convince other congressmen that the only solution is to get out of the way and remove the restrictions that prohibit qualified companies from increasing domestic production of energy.

Thank you for the work you do on our behalf.

RAMONA.

Dear Senator Crapo, I would first like to thank you for the way you voted in the recent issues. I would also like to have my voice heard on the energy crisis. I feel that you should take the restrictions off the oil company and allow them to drill for oil. I feel that the U.S. is getting into a situation such as Germany and Japan during World War II. They did not have the resources so that they were in a position of weakness. I feel that the energy crisis is brought about because of special interest at the expense of our national security. I also feel that they should allow nuclear energy. It would certainly solve many problems and other countries have been using it.

Sincerely,

JACKIE, *Pocatello.*

Senator Mike: I am not severely damaged by the gas prices because I can still afford to drive. But I am more cautious, and am much more conservative in my driving. The cost between $2 gas and $4 gas is about what many families pay for the cell phone service per month. Most people haven't put things into perspective properly.

There are lots of explanations of the reason for the high prices and they seem to point at two reasons: foreign demand (China and India) and the commodity speculators. Neither of these can be fixed. However, the exchange value of the dollar can be fixed, and we can announce that we are going to start new oil exploration and drilling in the Gulf of Mexico (Not ANWR).

Those two solutions sound reasonable and obtainable. Thanks for listening.

BOB, *Gooding.*

Fuel prices are seriously affecting my family's income. My wife and I are new parents, and my wife is staying at home with the baby most of the time. I am a struggling mortgage loan originator, fighting to try and keep my family afloat in a suffering housing market. I live in Emmett, and my office is in Boise, so like many, many other folks from Emmett, I commute to work. The increase in fuel prices has caused me to cut down the amount of time I spend at the office. What used to cost about $27 to get back and forth to work 4 times now costs over $50. And that is with driving my 32 mpg Hyundai.

Gas prices didn't used to be a deciding factor in the work and recreational activities that we did. But, at $4 a gallon for fuel, we cannot afford to get out as much as we used to, which limits the amount of money we spend on other activities. I'm sure I'm not alone and, with hundreds of thousands of Idahoans not spending as much money on recreational activities, it is further hurting our local and national economies.

I firmly believe that we as a nation are able to and need to develop alternative fuels AND drill for fossil fuels in an environmentally-responsible way. With advances in technology, I am sure that it is possible. No one needs to drill through the head of a caribou in order to get oil. With the oil available in ANWR and the newly-discovered North Dakota oil reserves, we have the potential for enough fuel to sustain our nation and stimulate the economy until further advances in alternative energy sources can be achieved.

Please do everything you can to minimize the hurt we Idahoans are feeling due to the sky-high energy costs. Struggling young families like mine are fighting just to keep our heads above water and gas prices are threatening to push us under.

Sincerely,

HOUSTON, *Emmett.*

My wife and I live in a small rural community in Idaho. We try to make one big trip each summer, and we visit my wife's family in Utah once a month. We both drive mid-sized American-made cars that are fairly economical, but [the cost] to fill our gas tank has gone from $30 to $60.

This is $30 less that we can spend on groceries. Our grocery bill has also increased by $20–$40 a month. We have one small child and hope to have another next year, and I know my salary is not going to keep up with 7% inflation. It is not just fuel we are worried about. Our house is entirely electric because natural gas is not available in our neighborhood and, before we switched our utility bill to level pay, we were paying outrageous charges to heat and cool our house. Idaho has some of the cheapest electric power in the nation, and our electric bill in January was nearly $400.00. Idaho seems to be anti-coal fired plants, but I am not. I lived next to a coal-fired plant in West Virginia and didn't notice any ill effects. However, I would rather see increased hydro, nuclear, and geothermal energy production. Nuclear is clean, and I think it is the way to go.

Geothermal and hydro are both regular and efficient methods of producing power. I am not in favor of wind farms; their source of energy is inconsistent at best, and I do not think the technology is quite good enough to place solar power above nuclear or coal. I support drilling in ANWR and other offshore sites in the U.S. ANWR is some of the most desolate and unattractive tundra wasteland you will ever see. Drilling could be accomplished there with virtually no ill effects to humans and very minimal effects to the few species who can survive the harsh tundra climate. Anything we can do to research and drill for that shale-oil found throughout the mountainous West would be beneficial. I would hope that American auto makers can

use technology to make more fuel-efficient vehicles that are less reliant on petroleum. I think ethanol is a piece of the puzzle, but it can never replace petroleum and is not the ultimate solution. I'm sure you do not want a novel, so I'll end on that note.

CHRIS, *Burley*.

Dear Mr. Crapo, You're so right about the gas prices affecting those of us in Idaho. So many of us are in rural areas that do not offer the services of a bigger city, i.e. specialized physicians, food and clothes shopping, automotive and farming equipment and supplies, etc. While you say the average Idaho household is spending $50 more/month, I can attest to the fact that it is more like $100 more/month, especially where we must travel approximately ten miles to the nearest town. Those people who are on repeat chemo or dialysis treatments are really taking it in the pocket book!

We need to tap into the alternative energy resources in our country and stop relying on other Third World countries who commit atrocities against humanity. Meanwhile, since it is an emergency in terms of the USA economic status, let us try, just try, to depend on the oil reserves and resources in the U.S. and Canada and see where that takes us. I do not see (in my limited experience) how it would make us any less of a super power. Frankly, we'd be setting a good example.

Thank you for considering my request to be heard as a lifetime citizen of Idaho and the USA.

MELANIE, *Silverton*.

I am a recently (February) divorced woman; mid-50's living in Blackfoot. I have been doing okay, being able to make ends meet. Recently I had to change my taxes. At the present time, I have no real estate, which should change by December. Being single again my taxes have changed to take out another $284.00 per month.

Meanwhile, I have a mother, widowed, in her late 80s that I have to travel to Idaho Falls from Blackfoot to help with bills, doctor appointments, grocery shopping, keeping the yard mowed and all the things that go with helping to assist in the care of an elderly parent. She is fairly competent, and I am really lucky, but she is getting weaker and shakier. I worry.

Just last month alone, my gas bill went from $100.00 per month to $180.00. This is huge for me. Considering I work for a salary and receive no overtime, I guess you could say I have a 'fixed' income. I really cannot get a second job because I really need to be able to leave at a moment's notice if I need to take care of her needs. The gas is actually dipping into my savings I pay myself each month.

This has caused a lot of emotional feelings for me. I am torn between where I should be and how much it is going to cost me to get there. These choices should not be weighed between gas prices and a mother in need.

I hope something can be done about this. When I purchase gas, I get physically sick in my stomach and I feel angry. My car gets 28 mpg on the freeway, thank goodness. Imagine if I had a truck or something less conservative.

Sincerely,

CATHY, *Blackfoot*.

The Honorable Senator Crapo: I appreciate the opportunity to share the personal feelings on high fuel costs, and the impact these high energy costs are having on us. I believe that legislative bodies need to get together and ''act'' in a way that will ensure that my children, and theirs, will have a way of life free from most of the stress and concerns concomitant we are struggling with today, in the way of high energy costs. We must execute a well-thought-out plan that does not band-aid the current situation, at the expense of the future. Quite frankly, I would rather pay my share now, if it means my children will have the opportunity to live in a world where they can focus on being all they can be, without fear of making tradeoffs between the fuel it takes to get them to work, and the food or health care that they need to survive. Finally, we need to act now (not next session, or the one after that). Election year, or not . . . I will be more prone to vote out candidates that procrastinate on this urgent topic, at the expense of being popular with their constituents in an election year (and I believe that candidates would actually be more popular, if they acted, rather than delayed).

These are my positions. I am no authority. I believe a plan like this could be achieved, if we could all learn to work together (particularly the Legislature) and assemble a 20-year plan that alleviates much of our dependence on foreign oil, to wit:

Our oil companies are doing just fine, thank you. While I would not be in favor of a windfall tax on oil profits, that would merely be passed along to consumers, in the form of further fuel price increases, I would be in favor of a large tax deduction for increasing refinery capacity so long as an equal investment was made in alternative forms of energy development (wind, solar, seas, geothermal, etc).

Establishing legislation that requires all automakers selling cars in the U.S. to develop, by 2018, models of reliable, economical, and efficient electric-based commuter vehicles, enabling local transportation, thus decreasing pollution and allowing consumer cost avoidance for fossil-fuel unless traveling longer distances. This would include fuel-cell, rechargeable, etc. vehicles.

Speed up the approval of nuclear power generating permits to ensure we have the generating capacity to begin the shift to electric vehicles.

Mandate approval of local option taxes as the Federal level, allowing citizens to tax themselves for transportation plans that reduce CO_2 emissions (it is clear our own State Legislature is asleep at the wheel on this subject). Like No Child Left Behind, we have proven it is possible to require state governments to ''act'' in positive ways.

Open up ANWR to exploration, drilling, and oil production, along with environment preservation regulations that require ''logical'' and ''thoughtful,'' yet inexpensive ways of minimizing our footprint in this, and all areas (including offshore) that may produce the fuels we need to get to an electric-based commuter mentality. Require environmentalists to ''prove'' the impact, not speculate, and enact the needful, but minimum.

Require all oil companies to invest in infrastructure that allows for the delivery of alternative fuels (e.g., hydrogen) in a stepwise, U.S.-wide plan that allows for a complete mapping of these services in the next fifteen years.

Provide tax-incentives, or perhaps Federal Grants to companies that can develop technologies that allow for the generation of clean power right in our homes (advanced solar cells, fuel cells, etc.).

We need to act now, as the answers are sure to be long in the making. But we also need to take some chances (ANWR) that allow us to make it to the next stage of technological maturity. We need this balance: Current energy exploration and local production along with equal investments in the deployment of new energy source technologies. We also need to enable investments in all the underpinning services and infrastructure that make this future vision come to fruition (alternative fuel delivery infrastructure, home power transfer technology, etc.).

PAT, *Boise*.

HONORING TROOPER DAVID SHAWN BLANTON, JR.

Mr. BURR. Mr. President, I wish to honor the life of North Carolina State trooper David Shawn Blanton, Jr., who was tragically killed on June 17 during a routine traffic stop near Canton, NC. David is the 59th North Carolina State trooper to have been killed in the line of duty.

David was only 24 years old and was a 2-year veteran of the North Carolina Highway Patrol. He was a native of Sylva, NC, and a 2002 graduate of Smoky Mountain High School, where he was a football and wrestling star.

We are all grateful for David's dedication to protecting the citizens of North Carolina. He lived in Cherokee with his wife Michaela, who had just given birth to their son Tye 2 weeks prior to his untimely passing.

David was a member of the Eastern Band of the Cherokee Indian Tribe and the first member of that tribe to serve with the highway patrol. In addition to being a State trooper, David volunteered as the junior varsity softball coach at Smoky Mountain High School.

Along with his wife Michaela and son Tye, David is survived by his father David S. Blanton Sr., stepmother Jennifer Blanton, mother Jeanell Youngbird, younger brothers, Jerry R. Blankenship, Jim Kye Blankenship, Jesse J. Blanton, and sister Natalie E. Blanton.

David's friends, family, fellow troopers, and the people of North Carolina are mourning this very tragic loss.

I know that there are no words that I can offer to help comfort Michaela and other members of the Blanton family, but I hope my colleagues in the Senate will join me in keeping them in our thoughts and prayers.

David gave his life in service to our State, and this ultimate sacrifice should never be forgotten.

I send my deepest condolences to all who had the privilege of knowing this young man who gave his life in service to our State.

ADDITIONAL STATEMENTS

TRIBUTE TO BARBARA MORGAN

• Mr. CRAPO. Mr. President, I am proud to announce the return of NASA mission specialist, teacher in space Barbara Morgan, not to Earth—that was 10 months ago—but to Idaho and Boise State University where she has been hired in a newly created position that will develop education initiatives in science, math, engineering, and technology. Barbara flew on the Shuttle *Endeavor*, Mission STS–118, from August 8–21, 2007. She served as a mission specialist onboard *Endeavor*, working as a robotic arm operator in the

International Space Station assembly mission and conducting a teaching lesson from space, of which I was fortunate enough to be a part on the ground in Boise.

Barbara is a teacher by training. In 1985, she was selected to be the backup candidate for the NASA Teacher in Space Program, and trained with the late Christa McAuliffe for 4 months. After the shuttle tragedy in 1986, she returned to Idaho and taught second and third grades at McCall-Donnelly Elementary School. She continued to work with NASA's Education Division as the space designee, speaking publicly, designing curriculum, serving on the National Science Foundation's Federal Task Force for Women and Minorities in Science and Engineering, and as an education consultant. In 1998, NASA began the Astronaut Educator Program which replaced its Teacher in Space Program and Barbara was selected to train as a mission specialist. She began her 2-year training period that year and, upon completion in 2000, was given technical duties with NASA. She continued her duties and ongoing training in preparation for Mission STS–118 last summer.

In a preflight interview before STS–118, Barbara's extraordinary commitment to learning was revealed as she recounted of the beginning of her pilot training. She came to flight training with no flying background, and her initial pilot training experience was in a Cessna. Being unfamiliar with the communication language between pilots and air traffic controllers, she went to Radio Shack and bought a radio that gave her access to air traffic control so she could listen and become familiar with the language. In the course of that interview, one of Barbara's insights about the basics of learning, be it in a career or in school, revealed itself in a fine point about the importance of ''learning the language.'' She observed that once you master the ''language,'' be it an actual language or a set of terms used in a particular vocation or field of study, things become much easier. She understands very well that learning the ''language'' is the pathway to success.

Barbara has learned many languages, from that of an elementary school teacher to that of a pilot and NASA astronaut. Boise State University is very fortunate that she will be bringing her science, math, and engineering language skills to its students. It has been an honor for me to pay tribute to Barbara's remarkable achievements today and in the past, and I am certain that there will be many more to come. I offer her, Clay, and their children my heartfelt congratulations and an enthusiastic ''Welcome home to Idaho!''●

TRIBUTE TO MAJOR GENERAL GALEN JACKMAN

● Mr. LEVIN. Mr. President, I wish to publicly commend and congratulate MG Galen B. Jackman, U.S. Army, upon his retirement after more than 35 years of military service. During the last 3 years, from July 2005 through July 2008, Major General Jackman served as the Army Chief of Legislative Liaison. He was instrumental in improving the understanding of Members of Congress and staff concerning a wide range of Army issues, in particular an understanding of the Army's role in the wars in Iraq and Afghanistan, the resource requirements for an army at war, and the effect of those wars on the Army and its soldiers and their families. Major General Jackman worked tirelessly to ensure that soldiers and Army civilians had the resources necessary to maintain the Army as the world's preeminent land service. He forged effective relationships with congressional Members and staff, always responding quickly and effectively to congressional requests for information and assistance, and has been an invaluable advisor to the Secretary and Chief of Staff of the Army.

General Jackman's assignment as Army Chief Legislative Liaison was the capstone to an outstanding career of service to our Nation. Prior to assuming this position, Major General Jackman served as the Commanding General, U.S. Army Military District of Washington and Commander, Joint Force Headquarters-National Capital Region, Fort Lesley J. McNair, Washington, DC. His other joint assignments include service as the Deputy for Training and Readiness, United States Pacific Command, and Director of Operations, United States Southern Command.

Major General Jackman served as the Chief of Staff and Assistant Division Commander, Support, for the 10th Mountain Division, Light, Fort Drum, NY, deploying with the Division in support of OPERATION JOINT FORGE, Bosnia-Herzegovina June 2000 to July 2001.

He began his service to our Nation in 1973 as a rifle platoon leader, Company A, 1st Battalion, Airborne, 508th Infantry, 82d Airborne Division, Fort Bragg, NC. His leadership positions include serving as a support squadron commander in 1st Special Forces Group, Airborne, Fort Bragg, NC; Commander, 2d Brigade, 7th Infantry Division, Light, Fort Ord, CA, and director, Combined Arms and Tactics Directorate, U.S. Army Infantry Center and School, Fort Benning. In his numerous leadership and command positions throughout his distinguished career, Major General Jackman demonstrated an unwavering commitment to the welfare of his soldiers and their families. Throughout his career, he played an important role in the development of the future officers and leaders of the Army.

Major General Jackman holds a master of science degree in procurement and contract management from the Florida Institute of Technology and a bachelor of arts degree from the University of Nebraska. He is a graduate of the Industrial College of the Armed Forces.

His outstanding Service has been recognized with numerous military awards including the Distinguished Service Medal, the Defense Superior Service Medal, with Oak Leaf Cluster; the Legion of Merit, with Oak Leaf Cluster; the Defense Meritorious Service Medal; and the Meritorious Service Medal, with 2 Oak Leaf Clusters. He proudly wears the Expert Infantryman Badge, the Master Parachutist Badge, the Air Assault Badge and the Ranger Tab.

Major General Jackman is married to the former Ms. Cathy Dowd. They have two children David, 20, and Patrick, 18. David will be a senior at Gilford College this fall, while Patrick will attend Virginia Military Institute. I also congratulate them on their husband's and father's retirement from the Army. The demands of military life are such that military families also sacrifice and serve the Nation along with their soldier.

Mr. President, the Army, the Congress, and the Nation have benefited greatly from the service of such a great leader and soldier. He will be sorely missed.●

MESSAGE FROM THE HOUSE

At 4:23 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House agrees to the amendment of the Senate to the bill (H.R. 802) to amend the Act to Prevent Pollution from Ships to implement MARPOL Annex VI.

MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

H.R. 6377. An act to direct the Commodity Futures Trading Commission to utilize all its authority, including its emergency powers, to curb immediately the role of excessive speculation in any contract market within the jurisdiction and control of the Commodity Futures Trading Commission, on or through which energy futures or swaps are traded, and to eliminate excessive speculation, price distortion, sudden or unreasonable fluctuations or unwarranted changes in prices, or other unlawful activity that is causing major market disturbances that prevent the market from accurately reflecting the forces of supply and demand for energy commodities.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–6881. A communication from the Acting General Counsel, Department of Defense, transmitting a legislative proposal that would increase the authorized strength for Army general officers; to the Committee on Armed Services.

EC–6882. A communication from the Director, Office of Surface Mining, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Pennsylvania Regulatory Program'' (Docket No. PA–151–FOR) received on July 7, 2008; to the Committee on Energy and Natural Resources.

EC–6883. A communication from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Approval and Promulgation of Air Quality Implementation Plans; Illinois; Revisions to Emission Reduction Market System'' (FRL No. 8575–3) received on July 7, 2008; to the Committee on Environment and Public Works.

EC–6884. A communication from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Atrazine; Pesticide Tolerances'' (FRL No. 8364–1) received on July 7, 2008; to the Committee on Environment and Public Works.

EC–6885. A communication from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Direct Final Approval of Revised Municipal Waste Combustor State Plan for Designated Facilities and Pollutants: Indiana'' (FRL No. 8688–1) received on July 7, 2008; to the Committee on Environment and Public Works.

EC–6886. A communication from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Flumioxazin; Pesticide Tolerance'' (FRL No. 8370–2) received on July 7, 2008; to the Committee on Environment and Public Works.

EC–6887. A communication from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''US Filter Recovery Services, Inc., Under Project XL'' ((RIN2090–AA15)(FRL No. 8687–6)) received on July 7, 2008; to the Committee on Environment and Public Works.

EC–6888. A communication from the Acting Chair, Federal Subsistence Board, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Subsistence Management Regulations for Public Lands in Alaska, Subpart C and Subpart D—2008–2009 Subsistence Taking of Fish and Shellfish Regulations'' (RIN1018–AU71) received on July 7, 2008; to the Committee on Environment and Public Works.

EC–6889. A communication from the Director, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Endangered and Threatened Wildlife and Plants; Final Rule to Amend the Listing for the Preble's Meadow Jumping Mouse to Specify Over What Portion of Its Range the Subspecies is Threatened'' (RIN1018–AV64) received on July 7, 2008; to the Committee on Environment and Public Works.

EC–6890. A communication from the Chief of the Branch of Listing, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for the Kootenai River Population of the White Sturgeon'' (RIN1018-AU47) received on July 7, 2008; to the Committee on Environment and Public Works.

EC–6891. A communication from the Acting Chair, Federal Subsistence Board, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ''Subsistence Management Regulations for Public Lands in Alaska—2008-09 and 2009-10 Subsistence Taking of Wildlife Regulations'' (RIN1018-AV69) received on July 7, 2008; to the Committee on Environment and Public Works.

EC–6892. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Capital Costs Incurred to Comply with EPA Sulfur Regulations'' ((RIN1545-BE97)(TD 9404)) received on July 7, 2008; to the Committee on Finance.

EC–6893. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Employment Tax Adjustments'' ((RIN1545-BG50)(TD 9405)) received on July 7, 2008; to the Committee on Finance.

EC–6894. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Extension of Time for Filing Returns'' ((RIN1545-BE62)(TD 9407)) received on July 7, 2008; to the Committee on Finance.

EC–6895. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''QAB Closing Agreement Procedure'' (Rev. Proc. 2008-38) received on July 7, 2008; to the Committee on Finance.

EC–6896. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Section 7702A Closing Agreement Procedures'' (Rev. Proc. 2008-39) received on July 7, 2008; to the Committee on Finance.

EC–6897. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Section 7702 Closing Agreement Procedures'' (Rev. Proc. 2008-40) received on July 7, 2008; to the Committee on Finance.

EC–6898. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Section 817(h) Closing Agreement Procedures'' (Rev. Proc. 2008-41) received on July 7, 2008; to the Committee on Finance.

EC–6899. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Section 7702(f)(8) and Section 101(f)(3) Automatic Waiver'' (Rev. Proc. 2008-42) received on July 7, 2008; to the Committee on Finance.

EC–6900. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Meaning of Statutory Reserves in Multi-State Taxpayers'' (Rev. Rul. 2008-37) received on July 7, 2008; to the Committee on Finance.

EC–6901. A communication from the Director, Import Administration, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled ''Antidumping and Countervailing Duty Proceedings: Documents Submission Procedures; APO Procedures'' (RIN0625-AA73) received on July 7, 2008; to the Committee on Finance.

EC–6902. A communication from the President of the United States, transmitting, pursuant to law, notification of his intent to designate the Republic of Serbia and the Republic of Montenegro as separate beneficiary developing countries under the Generalized System of Preferences; to the Committee on Finance.

EC–6903. A communication from the Assistant General Counsel for Regulatory Services, Office of Postsecondary Education, Department of Education, transmitting, pursuant to law, the report of a rule entitled ''The Teacher Education Assistance for College and Higher Education Grant Program and Other Federal Student Aid Programs'' (RIN 1840-AC93) received on July 7, 2008; to the Committee on Health, Education, Labor, and Pensions.

EC–6904. A communication from the Director, Office of Congressional Affairs, Federal Election Commission, transmitting, pursuant to law, the Semiannual Report of the Inspector General for the period of October 1, 2007, through March 31, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–6905. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17-417, ''Street Sweeping Improvement Enforcement Amendment Act of 2008'' received on July 7, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–6906. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17-416, ''Nuisance Properties Abatement Reform and Real Property Classification Amendment Act of 2008'' received on July 7, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–6907. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17-415, ''Affordable Housing Clearinghouse Directory Act of 2008'' received on July 7, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–6908. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17-411, ''Fiscal Year 2008 Other-Type and Local Appropriations Adjustment Temporary Act of 2008'' received on July 7, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–6909. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17-408, ''Golden Triangle BID Amendment Act of 2008'' received on July 7, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–6910. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17-410, ''AED Installation for Safe Recreation and Exercise Temporary Act of 2008'' received on July 7, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–6911. A communication from the Attorney, Office of the Secretary, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''OST Technical Corrections'' (RIN2105-AD74) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6912. A communication from the Acting Director of Regulations, Pipeline and Hazardous Materials Safety Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Pipeline Safety: Protecting Unusually Sensitive Areas from Rural Onshore Hazardous Liquid Gathering Lines and Low-Stress Lines'' (RIN2137-AD98) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6913. A communication from the Attorney, Bureau of Transportation Statistics, Department of Transportation, transmitting,

pursuant to law, the report of a rule entitled ''Revision of Airline Service Quality Performance Reports and Disclosure Requirements'' (RIN2139-AA12) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6914. A communication from the Senior Trial Attorney, Office of Chief Counsel, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Railroad Operating Rules: Program of Operational Tests and Inspections; Railroad Operating Practices: Handling Equipment, Switches and Fixed Derails'' (RIN2130-AB76) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6915. A communication from the Deputy Assistant Administrator for Regulatory Programs, Office of Protected Resources, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled ''Notice of OMB Approval of Collection-of-Information Requirements for the Atlantic Large Whale Take Reduction Plan'' (RIN0648-AS01) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6916. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Lycoming Engines IO, (L)IO, TIO, (L)TIO, AEIO, AIO, IGO, IVO, and HIO Series Reciprocating Engines, Teledyne Continental Motors TSIO-360-RB Reciprocating Engines, and Superior Air Parts, Inc. IO-360 Series Reciprocating Engines with Certain Precision Airmotive LLC RSA-5 and RSA-10 Series Fuel Injection Servos'' ((RIN2120-AA64)(Docket No. FAA-2008-0420)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6917. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Avidyne Corporation Primary Flight Displays'' ((RIN2120-AA64)(Docket No. FAA-2008-0340)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6918. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 757 Airplanes'' ((RIN2120-AA64)(Docket No. FAA-2008-0011)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6919. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; McCauley Propeller Systems Propeller Models'' ((RIN2120-AA64)(Docket No. FAA-2006-25173)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6920. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Airbus Model A310-304, -322, -324, and -325 Airplanes; and A300 Model B4-601, B4-603, B4-605R, B4-620, B4-622, B4-622R, F4-605R, F4-622R, and C4-605R Variant F Airplanes'' ((RIN2120-AA64)(Docket No. FAA-2007-0345)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6921. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 757 Airplanes'' ((RIN2120-AA64)(Docket No. FAA-2007-0339)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6922. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 737-100, -200, -200C, -300, -400, and -500 Series Airplanes'' ((RIN2120-AA64)(Docket No. FAA-2007-29062)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6923. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Bombardier Model CL–600–2B19 Airplanes'' ((RIN2120–AA64)(Docket No. FAA–2008–0047)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6924. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Fokker Model F.27 Mark 050 and F.28 Mark 0100 Airplanes'' ((RIN2120–AA64)(Docket No. FAA–2007–0394)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6925. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 727 Airplanes'' ((RIN2120–AA64)(Docket No. FAA–2007–0227)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6926. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Pacific Aerospace Limited Model 750XL Airplanes'' ((RIN2120–AA64)(Docket No. FAA–2008–0175)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6927. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Hawker Beechcraft Corporation Models B200, B200GT, B300, and B300C Airplanes'' ((RIN2120–AA64)(Docket No. FAA–2008–0392)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6928. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; PILATUS AIRCRAFT LTD. Model PC–12, PC–12/45, and PC–12/47 Airplanes'' ((RIN2120–AA64)(Docket No. FAA–2008–0070)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6929. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Various Transport Category Airplanes Equipped with Auxiliary Fuel Tanks Installed in Accordance with Certain Supplemental Type Certificates'' ((RIN2120–AA64)(Docket No. FAA–2007–0389)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6930. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Saab Model SAAB–Fairchild SF340A and SAAB 340B Airplanes'' ((RIN2120–AA64)(Docket No. FAA–2008–0017)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6931. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; MORAVAN a.s. Model Z–143L Airplanes'' ((RIN2120–AA64)(Docket No. FAA–2008–0345)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6932. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Turbomeca Arriel 1B, 1D, 1D1, and 1S1 Turboshaft Engines'' ((RIN2120–AA64)(Docket No. FAA–2005–21242)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6933. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; APEX Aircraft Model CAP 10B Airplanes'' ((RIN2120–AA64)(Docket No. FAA–2008–0056)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6934. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Eurocopter France Model EC130 B4 Helicopters'' ((RIN2120–AA64)(Docket No. FAA–2007–28228)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6935. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Avidyne Corporation Primary Flight Displays (Part Numbers 700–00006–000, –001, –002, –003, and –100)'' ((RIN2120–AA64)(Docket No. FAA–2008–0340)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6936. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Saab Model SAAB–Fairchild SF340A and SAAB 340B Airplanes'' ((RIN2120–AA64)(Docket No. FAA–2007–29331)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6937. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments'' ((RIN2120–AA65)(Amdt. No. 2171)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6938. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments'' ((RIN2120–AA65)(Amdt. No. 3273)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6939. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule

entitled ''Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments'' ((RIN2120–AA65)(Amdt. No. 3272)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6940. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments'' ((RIN2120–AA65)(Amdt. No. 3270)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6941. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments'' ((RIN2120–AA65)(Amdt. No. 3262)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6942. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments'' ((RIN2120–AA65)(Amdt. No. 3265)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6943. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Standard Instrument Approach Procedures; Miscellaneous Amendments'' ((RIN2120–AA65)(Amdt. No. 3264)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6944. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Bombardier Model CL–600–2C10, –2D15, and –2D24 Airplanes'' ((RIN2120–AA4)(Docket No. 2007–NM–340)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6945. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Bombardier Model CL–600–2B19 Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–341)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6946. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Bombardier Model CL–600–2B19 Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–144)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6947. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; British Aerospace Regional Aircraft Model HP.137 Jetstream Mk.1, Jetstream Series 200, Jetstream Series 3101, and Jetstream Model 3201 Airplanes'' ((RIN2120–AA64)(Docket No. 2007–CE–103)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6948. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Saab Model SAAB SF340A and SAAB 340B Series Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–044)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6949. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Airbus Model A330–200, A330–300, A340–200, and A340–300 Series Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–043)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6950. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 737–200 Series Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–107)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6951. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 767 Airplanes'' ((RIN2120–AA64)(Docket No. 2004–NM–80)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6952. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Dassault Model Mystere-Falcon 50 Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–258)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6953. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Bombardier Model CL–600–2B19 Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–216)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6954. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Lindstrand Balloons Ltd. Models 42A, 56A, 77A, 105A, 21A, 260A, 60A, 69A, 90A, 120A, 180A, 240A, and 310A Balloons'' ((RIN2120–AA64)(Docket No. 2008–CE–013)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6955. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 737–100, –200, –300, –400, and –500 Series Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–188)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6956. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Cessna Aircraft Company 172, 182, and 206 Series Airplanes'' ((RIN2120–AA64)(Docket No. 2007–CE–052)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6957. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 737–600, 737–700, 737–700C, 737–800, and 737–900 Series Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–185)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6958. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Airbus Model A330 Airplanes and A340–200 and –300 Series Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–268)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6959. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 747–100, –100B, –100 SUD, –200B, –200C, –200F, –300, 747SP, and 747SR Series Airplanes Powered by General Electric CF6–45/50 and Pratt & Whitney JT9D–70, JT9D–3 or JT9D–3 or JT9D–7 Series Engines'' ((RIN2120–AA64)(Docket No. 2007–NM–083)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6960. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Empresa Brasileira de Aeronautica S.A. Model EMB–135BJ, –135ER, –135KE, –135KL, –135LR, –145, –145ER, –145MR, –45LR, –145XR, –145MP, and –145EP Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–139)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6961. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Bombardier Model CL–600–2B19 Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–216)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6962. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Alexandria Aircraft, LLC Models 17–30, 17–31, 17–30A, 17–31A, and 17–31ATC Airplanes'' ((RIN2120–AA64)(Docket No. 2007–CE–050)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6963. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Revisions to Cockpit Voice Recorder and Digital Flight Data Recorder Regulations'' ((RIN2120–AA64)(Docket No. 2005–20245)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6964. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Dassult Model Fan Jet Falcon, Fan Jet Falcon Series C, D, E, F, and G Airplanes; Model Mystere-Falcon 200 Airplanes; and Model Mystere-Falcon 20–C5, 20–D5, 20–E5, and 20–F5 Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–138)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6965. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule

entitled ''Airworthiness Directives; Pilatus Aircraft Ltd. Models PC–12, PC–12/45, and PC 12/47 Airplanes'' ((RIN2120–AA64)(Docket No. 2008–CE–019)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6966. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 757–200, –200PF, and –200CB Series Airplanes'' ((RIN2120–AA64)(Docket No. 2002–NM–211)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6967. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Construcciones Aeronauticas, S.A. Model C–212 Airplanes'' ((RIN2120–AA64)(Docket No. 2007–NM–164)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6968. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 727–200 Series Airplanes Equipped with an Auxiliary Fuel Tank System Installed in Accordance with Supplemental Type Certificate SA1350NM'' ((RIN2120–AA64)(Docket No. 2007–NM–230)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6969. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Pacific Aerospace Limited Model 750XL Airplanes'' ((RIN2120–AA64)(Docket No. 2007–CE–104)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6970. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Pacific Aerospace Corporation Model FU24–954 and FU24A 954 Airplanes'' ((RIN2120–AA64)(Docket No. 2007–CE–099)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6971. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Modification of Class E Airspace; Wilkes-Barre, PA'' ((RIN2120–AA66)(Docket No. 2007–AEA–11)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6972. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Vinalhaven, ME'' ((RIN2120–AA64)(Docket No. 08–ANE–92)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6973. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Swans Island, ME'' ((RIN2120–AA66)(Docket No. 08–ANE–91)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6974. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Lewistown, PA'' ((RIN2120–AA66)(Docket No. 07–AEA–14)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6975. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; New Albany, MS'' ((RIN2120–AA66)(Docket No. 07–ASO–25)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6976. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Amendment of Class E Airspace; Indianapolis, IN'' ((RIN2120–AA66)(Docket No. 08–AGL–2)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6977. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Amendment of Class E Airspace; Black River Falls, WI'' ((RIN2120–AA66)(Docket No. 08–AGL–4)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6978. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Walden, CO'' ((RIN2120–AA66)(Docket No. 2007–ANM–17)) received on July 7 , 2008; to the Committee on Commerce, Science, and Transportation.

EC–6979. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Susquehanna, PA'' ((RIN2120–AA66)(Docket No. 08–AEA–14)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6980. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Subury, PA'' ((RIN2120–AA66)(Docket No. 08–AEA–15)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6981. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Sherman, TX'' ((RIN2120–AA66)(Docket No. 2007–ASW–11)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6982. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Stonington, ME'' ((RIN2120–AA66)(Docket No. 08–ANE–93)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6983. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Winona, MS'' ((RIN2120–AA66)(Docket No. 07–ASO–24)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6984. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Carrabassett, ME'' ((RIN2120-AA66)(Docket No. 08-ANE-96)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6985. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Rumford, ME'' ((RIN2120-AA66)(Docket No. 08-ANE-94)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

EC–6986. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment of Class E Airspace; Bridgton, ME'' ((RIN2120-AA66)(Docket No. 08-ANE-95)) received on July 7 , 2008; to the Committee on Commerce, Science, and Transportation.

EC–6987. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Establishment and Removal of Class E Airspace; Centre, AL'' ((RIN2120-AA66)(Docket No. 07-ASO-23)) received on July 7, 2008; to the Committee on Commerce, Science, and Transportation.

At the request of Mr. BINGAMAN, the names of the Senator from New York (Mrs. CLINTON) and the Senator from Florida (Mr. NELSON) were added as cosponsors of amendment No. 5066 proposed to H.R. 6304, a bill to amend the Foreign Intelligence Surveillance Act of 1978 to establish a procedure for authorizing certain acquisitions of foreign intelligence, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. SMITH (for himself and Ms. CANTWELL):

S. 3228. A bill to amend the Internal Revenue Code of 1986 to allow a credit for green roofs; to the Committee on Finance.

Mr. SMITH. Mr. President, I rise today to introduce a bill to provide a residential and commercial tax credit for the installation of green roofs. I am pleased to have my colleague Senator CANTWELL join me in this effort by serving as original cosponsor of this bill.

The bill creates a tax credit for the installation of green roofs on residential and commercial property. On the residential side, the credit is 30 percent of the cost of installing a green roof, with a cap of $2,000. On the commercial side, the credit is 10 percent of the cost installing a green roof, without a cap. In my home state of Oregon, the city of Portland utilizes green roofs extensively. To date, the city has installed or plans to install over 100 green roofs.

Green roofs provide many environmental and cost benefits. One of the more significant benefits provided by green roofs is stormwater management and energy savings. When it rains, water washes over roofs, streets, driveways, sidewalks, parking lots, and other surfaces. Rain water picks up pollutants, such as oil, pesticides, metals, chemicals, and soil. The polluted stormwater then drains into the storm system that eventually makes it way into our rivers and streams. The pollutants can endanger water quality of lakes, rivers, streams and waterways, making them unhealthy for people, fish, and wildlife. During rainstorms, green roofs act as a sponge, absorbing much of the water that would otherwise run off. The roofs serve as a natural rainwater filter by utilizing the vegetation root system's natural filtering processes. The benefit of this process increases as the vegetation on the rooftop matures.

In addition to the storm water benefits, green roofs also absorb air pollution, collect airborne particulates, store carbon, provide living environments that provide habitats for birds, insects and other small animals, reduce outside noise transfer and insulate buildings from high temperatures.

I believe that we have a responsibility to encourage efforts to conserve our natural resources. Oregon continues to build on a long history of innovation in environmental policy and practice. We urge our colleagues to support this important piece of legislation.

By Ms. CANTWELL:

S. 3229. A bill to increase the safety of the crew and passengers in air ambulances; to the Committee on Commerce, Science, and Transportation.

Ms. CANTWELL. Mr. President, I come to the floor today to ask for my colleagues' support for the Air Medical Service Safety Improvement Act of 2008, a measure that redefines our commitment to improving the safety for the flight crews, flight nurses, and passengers aboard emergency air medical service helicopters and fixed wing aircraft.

These EMS aviation operations provide an important service to the public by transporting seriously ill patients or donor organs to emergency care facilities. Each year, on average, air medical companies transport about 350,000 patients by helicopter and 100,000 by fixed wing aircraft.

Providing emergency air medical service is dangerous work. Unfortunately, we have been reminded of this fact all too many times this year, most recently by the tragic crash in Arizona.

I first became involved in the issue of emergency air medical service safety when an EMS helicopter crashed near my hometown in Washington state. On September 29, 2005, an Airlift Northwest EMS transport helicopter crashed into the waters of Puget Sound at Browns Bay, just north of Edmonds, Washington. On board were pilot Steve Smith, and nurses Erin Reed and Lois Suzuki. There were no survivors. Over time, I have communicated with both Erin's mother and sister about their loss.

The cause of the crash remains unknown as EMS transport helicopters are not required to have a ''black box'' or flight data recorder on board, and only part of the helicopter could be recovered from Puget Sound. Some in the area think the wind, rain, and heavy fog were to blame. Others claim that the helicopter sounded like it was having engine trouble.

All we do know is that three people dedicated to saving lives were lost in the ocean that night. And sadly, their story is not uncommon.

According to a study by Johns Hopkins University, one in four medical helicopters will crash during its 15 years of service. In just the last six months, there have been nine medical helicopter crashes and 16 deaths.

This alarming epidemic of accidents has opened the eyes of the Federal Aviation Administration, National Transportation Safety Board and policymakers in recent days. But the recent spike in accidents is not a new trend. In fact, between January 2002 and January 2005, there were 55 crashes of medical helicopters. On January 25, 2006, the NTSB released a report identifying recurring gaps in safety that must be addressed, including: Less stringent requirements for emergency medical operations conducted without patients on board; a lack of aviation flight risk-evaluation programs; a lack of consistent, comprehensive flight dispatch procedures; and no requirements to use technologies such as terrain awareness and warning systems that have the power to enhance flight safety.

At my request, Section 508 of S. 1300, a bill to reauthorize the FAA incorporated the NTSB recommendations for addressing these gaps. Subsequent to that bill's introduction in the spring of 2007, I had the opportunity to discuss with stakeholders how to improve upon the language. The bill I am introducing today is essentially the amendment I filed this May when the FAA reauthorization bill was on the floor. Given the uncertain status of that legislation, and in light of the recent events, I felt the urgency to transform the amendment into stand-alone legislation.

This bill will implement new procedures and improve standards already in place through strengthened safety requirements, comprehensive flight dispatch and flight following procedures, improved situation awareness of helicopter air crews, and better data available to NTSB investigators at crash sites.

It is time to put black boxes in these helicopters.

It is time to require the same safety standards regardless of whether or not a patient is on board.

It is time to evaluate potential risks before take-off.

It is time to improve the situational awareness of air medical flight crews.

If not, we are bound to witness more tragedies.

I am committed to these changes and I ask my colleagues to lend their support in making the skies safer for the men and women who dedicate their lives to getting critically injured patients the medical attention they need.

By Mr. BINGAMAN:

S. 3233. A bill to promote development of a 21st century energy system to increase United States competitiveness in the world energy technology marketplace, and for other purposes; to

the Committee on Energy and Natural Resources.

Mr. BINGAMAN. Mr. President, I am pleased today to introduce the 21st Century Energy Technology Deployment Act to begin to address our need to accelerate the deployment of advanced, clean energy technologies and help establish the United States as a leader in these technologies that will be in great demand in the coming years.

The Energy Committee has had numerous hearings on the challenges we face in the coming decades regarding new energy. Meeting our energy security needs while diverting from our current pathway towards catastrophic climate change will require significant investment. I'm convinced that making this investment is not only the right thing to do for future generations, but that it will pay real dividends to the U.S. economy if we can position ourselves to lead the rest of the world in this necessary transition.

There have been many good proposals advanced to begin our journey down the path towards a more sustainable energy policy. Some of these proposals have even been enacted into law through energy bills in 2005 and 2007, but I think there is general agreement in this body that much remains to be done.

The missing ingredient that this bill seeks to supply concerns traversing the so-called ''valley of death.'' This is the part of the development cycle of a new technology when the technology has been demonstrated at a lab or pilot scale and is ready to be demonstrated at a commercial scale. It is here, we are told, where new technologies, and particularly capital-intensive energy technologies, often languish for want of funding. Banks traditionally aim for moderate risk and predictable returns and simply have very little incentive to bet on unfamiliar technologies with speculative returns. Venture capitalists, who are more comfortable with technology risk, simply can't supply the billions of dollars necessary to push these technologies forward at the pace we need.

This bill can help fill this financing gap between the venture capital community and the banking community and I hope it will act as a catalyst for continuing conversation on this vital topic.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3233

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''21st Century Energy Technology Deployment Act''.

SEC. 2. PURPOSE.

The purpose of this Act is to promote the domestic development and deployment of the advanced, clean energy technologies required for the 21st century through the establishment of a 21st Century Energy Deployment Corporation that will provide for an attractive investment environment through—

(1) the development of a stable secondary market for clean energy technology deployment loans; and

(2) the cooperation and support of the private capital market in order to promote access to affordable debt financing for accelerated deployment of advanced clean energy technologies and first-of-a-kind commercial deployments.

SEC. 3. DEFINITIONS.

In this Act:

(1) ADVISORY COUNCIL.—The term ''Advisory Council'' means the Energy Technology Advisory Council of the Corporation.

(2) BOARD OF DIRECTORS.—The term ''Board of Directors'' means the Board of Directors of the Corporation.

(3) BREAKTHROUGH TECHNOLOGY.—The term ''breakthrough technology'' means a clean energy technology that—

(A) receives a high rating according to the criteria established by the Advisory Council for meeting the objectives of this Act; but

(B) has been impeded in the development of the technology due to perceived high technical risk by the commercial financial sector.

(4) CLEAN ENERGY TECHNOLOGY.—The term ''clean energy technology'' means a technology related to the production, use, transmission, control, or conservation of energy that will contribute to meeting objectives of the United States—

(A) to reduce the need for additional energy supplies by using existing energy supplies with greater efficiency or by transmitting energy with greater effectiveness through United States energy infrastructure;

(B) to diversify the sources of energy supply of the United States to include supplies that are environmentally sustainable; or

(C) to stabilize atmospheric greenhouse gas levels thorough reduction, avoidance, and sequestration of energy-related emissions.

(5) CORPORATION.—The term ''Corporation'' means the 21st Century Energy Deployment Corporation established by section 5.

(6) NATIONAL LABORATORY.—The term ''National Laboratory'' has the meaning given the term in section 2 of the Energy Policy Act of 2005 (42 U.S.C. 15801).

(7) NOVEL TECHNOLOGY.—The term ''novel technology'' means a clean energy technology that, as determined by the Advisory Council or the Secretary—

(A) has been sufficiently demonstrated; and

(B) has not been widely deployed on a commercial scale.

(8) SECRETARY.—The term ''Secretary'' means the Secretary of Energy.

(9) SECURITY.—The term ''security'' has the meaning given the term in section 2 of the Securities Act of 1933 (15 U.S.C. 77b).

(10) STATE.—The term ''State'' means—

(A) a State;

(B) the District of Columbia;

(C) the Commonwealth of Puerto Rico; and

(D) any other territory or possession of the United States.

(11) TECHNOLOGY RISK.—The term ''technology risk'' means risk of project failure generally considered by lenders due to the lack of operating applications of the technology.

SEC. 4. ENERGY TECHNOLOGY DEPLOYMENT GOALS.

(a) GOALS.—Not later than 1 year after the date of enactment of this Act, the Secretary, after consultation with the Advisory Council, shall develop and publish near-, medium-, and long-term goals for the deployment of clean energy technologies through the Corporation to establish or promote—

(1) sufficient electric generating capacity using clean energy technologies to meet the energy needs of the United States;

(2) clean energy technologies in vehicles and fuels that will end the reliance of the United States on foreign sources of energy and insulate consumers from the price shocks of world energy markets;

(3) a domestic commercialization and manufacturing capacity that will establish the United States as a world leader in clean energy technologies across multiple sectors;

(4) installation of sufficient infrastructure to allow for the cost-effective deployment of clean energy technologies in each region of the United States;

(5) the transformation of the building stock of the United States to zero net energy consumption;

(6) the recovery, use, and prevention of waste energy in the industrial sector;

(7) domestic manufacturing of clean energy technologies on a scale that is sufficient to make the cost to the consumer less than current technologies;

(8) domestic production of raw materials (such as steel, cement, and iron) using clean energy technologies so that the United States will become a world leader in sustainable production of the materials;

(9) a robust, efficient, and interactive electricity transmission grid that will allow for the implementation of clean energy technologies, distributed generation, and demand-response in each State; and

(10) such other goals as the Secretary and Advisory Council determine to be consistent with the purposes of this Act.

(b) PERFORMANCE TARGETS.—Taking into account the goals established under subsection (a), the Advisory Council shall publish 5- and 10-year numerical targets, and annual interim targets, to guide and measure the performance of the Corporation toward supporting the deployment of clean energy technologies and achieving other goals developed under that subsection.

(c) INITIAL TARGETS.—Until the first publication by the Advisory Council of targets under subsection (b), in establishing the deployment priorities of the Corporation, the Corporation shall consider deploying—

(1) commercial-scale carbon capture and storage from electricity generation capturing at least 10,000,000 short tons per year by 2015;

(2) solar photovoltaic systems with a power production cost of 14 cents per kilowatt-hour;

(3) concentrated solar power systems with a power production cost of 6 cents per kilowatt-hour;

(4) wind power systems greater than 100 kilowatts with a power production cost of—

(A) 3.6 cents per kilowatt-hour by 2012 for land-based sites with average wind speeds of 13 miles per hour; and

(B) 5 cents per kilowatt-hour by 2015 for offshore wind systems with average wind speeds of 15 miles per hour;

(5) new enhanced geothermal systems generation capacity with a power production cost of 5 cents per kilowatt-hour by 2023;

(6) technologies to realize a 20 percent improvement in energy intensity by energy-intensive industries by 2020; and

(7) advanced energy systems to achieve net-zero energy use in new residential and commercial buildings by 2025 through a 60 percent-reduction in building energy use.

(d) PORTFOLIO REQUIREMENT.—To the extent practicable and consistent with the purpose of this Act, not less than 75 percent of the support provided by the Corporation under this section shall be for breakthrough technologies.

(e) REVISIONS.—

(1) GOALS.—The Secretary shall revise the goals established under subsection (a), from time to time as appropriate, to account for advances in technology and changes in energy policy.

(2) PERFORMANCE TARGETS.—The Advisory Council shall revise the performance targets under subsection (b), from time to time as appropriate, to account for advances in technology and changes in energy policy.

SEC. 5. 21ST CENTURY ENERGY DEPLOYMENT CORPORATION.

(a) ESTABLISHMENT.—

(1) IN GENERAL.—There is established the 21st Century Energy Deployment Corporation, which shall be a body corporate under the direction of a Board of Directors.

(2) BOARD OF DIRECTORS.—Subject to other provisions of law (including regulations), the Board of Directors shall determine the general policies that govern the operations of the Corporation.

(3) OFFICES.—

(A) PRINCIPAL OFFICE.—The Corporation shall—

(i) maintain the principal office of the Corporation in the District of Columbia; and

(ii) for purposes of venue in civil actions, be considered to be a resident of the District of Columbia.

(B) OTHER AGENCIES AND OFFICES.—The Corporation may establish other agencies or offices in such other places as the Corporation considers necessary or appropriate for the conduct of the business of the Corporation.

(b) BOARD OF DIRECTORS.—

(1) IN GENERAL.—The Board of Directors shall consist of—

(A) the Secretary, who shall serve an ex-officio member of the Board; and

(B) 9 members who shall—

(i) be appointed by the President for staggered 4-year terms, as determined by the President; and

(ii) have experience in banking or financial services relevant to the operations of the Corporation, including—

(I) at least 1 individual with substantial experience in the development of energy projects;

(II) at least 1 individual with experience in the electric utility industry; and

(III) at least 1 individual with experience in the banking industry.

(2) REMOVAL.—Any appointed member of the Board of Directors may be removed from office by the President for good cause.

(3) VACANCIES.—Any appointive seat on the Board of Directors that becomes vacant shall be filled by appointment by the President, but only for the unexpired portion of the term.

(4) COMPENSATION; TRAVEL EXPENSES.—A member of the Board of Directors shall not be compensated for service on the Board of Directors but shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the Board of Directors.

(c) ENERGY TECHNOLOGY ADVISORY COUNCIL.—

(1) IN GENERAL.—The Corporation shall have an Energy Technology Advisory Council consisting of—

(A) 5 members selected by the Secretary; and

(B) 3 members selected by the Board of Directors.

(2) QUALIFICATIONS.—The members of the Advisory Council shall—

(A) have relevant scientific expertise; and

(B) include representatives of—

(i) the academic community;

(ii) the private research community; and

(iii) National Laboratories.

(3) DUTIES.—The Advisory Council shall—

(A) develop a rating system for projects and clean energy technologies to determine how well the projects and clean energy technologies address the purpose of this Act and establish a priority for the projects and clean energy technologies for financial assistance under this Act, taking into account—

(i) the extent to which a project or clean energy technology will enhance the energy security of the United States;

(ii) the potential the project or clean energy technology has to enhance the competitiveness of the United States in providing energy technologies likely to be in demand throughout the world;

(iii) the potential benefits of the project or clean energy technology in averting climate change; and

(iv) the potential of the technology, once deployed, to become financially self-sustaining;

(B) advise on the technological approaches that should be supported by the Corporation to meet the technology deployment goals established by the Secretary; and

(C) set risk and default rate targets for individual technologies, such that the maximum practicable ratio of breakthrough technologies to novel technologies is developed.

(4) TERM.—

(A) IN GENERAL.—Members of the Advisory Council shall have 3-year staggered terms, as determined by the Secretary and the Board of Directors.

(B) REAPPOINTMENT.—A member of the Advisory Council may be reappointed.

(5) COMPENSATION.—A member of the Advisory Council shall serve without compensation but shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the Advisory Council.

SEC. 6. CLEAN ENERGY TECHNOLOGY DEPLOYMENT SECURITIZATION.

(a) IN GENERAL.—The Corporation may purchase, and make commitments to purchase, any debt instrument associated with the deployment of clean energy technologies.

(b) DISPOSITION OF DEBT OR INTEREST.—The Corporation may hold and deal with, and sell or otherwise dispose of, pursuant to commitments or otherwise, any debt described in subsection (a) or interest in the debt.

(c) PRICING.—

(1) IN GENERAL.—The Corporation may establish requirements, and impose charges or fees, which may be regarded as elements of pricing, for different classes of sellers or services.

(2) CLASSIFICATION OF SELLERS.—For the purpose of paragraph (1), the Corporation may classify sellers as necessary to promote transparency and liquidity and properly characterize the risk of default.

(d) ELIGIBILITY.—The Corporation shall establish criteria and mechanisms such that, to the maximum extent practicable, sellers will be able to determine the eligibility of loans for resale at the time of initial lending.

(e) AGGREGATION OF SMALL SCALE PROJECTS.—The Corporation shall work with Federal, State, local, and private sector entities to develop debt instruments that aggregate projects for clean energy technology deployments on a residential or small commercial scale.

(f) SECURITIZATION.—

(1) IN GENERAL.—The Corporation may lend on the security of, and make commitments to lend on the security of, any debt that the Corporation is authorized to purchase under this section.

(2) AUTHORIZED ACTIONS.—On such terms and conditions as the Corporation may prescribe, the Corporation may—

(A) borrow;

(B) give security;

(C) pay interest or other return; and

(D) issue notes, debentures, bonds, or other obligations or securities.

(g) LENDING ACTIVITIES.—

(1) IN GENERAL.—The Corporation shall determine—

(A) the volume of the lending activities of the Corporation; and

(B) the type of loan ratios, risk profiles, interest rates, maturities, and charges or fees in the secondary market operations of the Corporation.

(2) OBJECTIVES.—Determinations under paragraph (1) shall be consistent with the objectives of—

(A) providing an attractive investment environment for clean energy technologies;

(B) making the operations of the Corporation self-supporting over the long term; and

(C) meeting the targets established by the Advisory Council.

(h) NO FEDERAL GUARANTEE.—The Corporation shall insert appropriate language in all of the obligations and securities of the Corporation issued under this section that clearly indicates that the obligations and securities (together with the interest)—

(1) are not guaranteed by the United States; and

(2) do not constitute a debt or obligation of the United States or any agency or instrumentality other than the Corporation.

(i) EXEMPT SECURITIES.—All securities issued or guaranteed by the Corporation shall, to the same extent as securities that are direct obligations of or obligations guaranteed as to principal or interest by the United States, be considered to be exempt securities within the meaning of the laws administered by the Securities and Exchange Commission.

(j) OTHER AUTHORIZED PROGRAMS.—

(1) IN GENERAL.—The Secretary may contract with the Corporation to provide financial services and program management for grant, loan, and other credit enhancement programs authorized under any other provision of law.

(2) ADMINISTRATION.—In administering any other program under contract with the Secretary, the Corporation shall, to the maximum extent practicable (as determined by the Corporation)—

(A) administer the program in a manner that is consistent with the terms and conditions of this Act; and

(B) minimize the administrative costs to the Federal Government.

SEC. 7. FEDERAL OWNERSHIP OF OBLIGATIONS.

(a) IN GENERAL.—In order to maintain sufficient liquidity, the Corporation may issue notes, debentures, bonds, or other obligations for purchase by the Secretary of the Treasury.

(b) PUBLIC DEBT TRANSACTIONS.—For the purpose of subsection (a)—

(1) the Secretary of the Treasury may use as a public debt transaction the proceeds of the sale of any securities issued under chapter 31 of title 31, United States Code; and

(2) the purposes for which securities may be issued under that chapter are extended to include any purchase under this subsection.

(c) MAXIMUM OUTSTANDING HOLDING.—The Secretary of the Treasury shall not purchase any obligations under this section if the purchase would increase the aggregate principal amount of the outstanding holdings of obligations under this section by the Secretary

to an amount that is greater than $1,500,000,000.

(d) RATE OF RETURN.—Each purchase of obligations by the Secretary of the Treasury under this section shall be on terms and conditions established to yield a rate of return determined by the Secretary to be appropriate, taking into account the current average rate on outstanding marketable obligations of the United States as of the last day of the month preceding the purchase.

(e) SALE OF OBLIGATIONS.—The Secretary of the Treasury may at any time sell, on terms and conditions and at prices determined by the Secretary, any of the obligations acquired by the Secretary under this section.

(f) PUBLIC DEBT TRANSACTIONS.—All redemptions, purchases, and sales by the Secretary of the Treasury of obligations under this section shall be treated as public debt transactions of the United States.

SEC. 8. GENERAL PROVISIONS.

(a) IMMUNITY FROM IMPAIRMENT, LIMITATION, OR RESTRICTION.—

(1) IN GENERAL.—All rights and remedies of the Corporation (including any rights and remedies of the Corporation on, under, or with respect to any mortgage or any obligation secured by a mortgage) shall be immune from impairment, limitation, or restriction by or under—

(A) any law (other than a law enacted by Congress expressly in limitation of this paragraph) that becomes effective after the acquisition by the Corporation of the subject or property on, under, or with respect to which the right or remedy arises or exists or would so arise or exist in the absence of the law; or

(B) any administrative or other action that becomes effective after the acquisition.

(2) STATE LAW.—The Corporation may conduct the business of the Corporation without regard to any qualification or law of any State relating to incorporation.

(b) POWERS.—Subject to subsection (c), the Corporation shall have all the powers of a private corporation incorporated under the District of Columbia Business Corporation Act (D.C. Code, sec. 29 et seq.).

(c) ADMINISTRATION.—

(1) PERFORMANCE-BASED COMPENSATION.—A significant portion of potential compensation of all executive officers of the Corporation shall be based on the performance of the Corporation, all without regard to any other law except as may be provided by the Corporation or by a law enacted after the date of enactment of this Act that expressly limits this paragraph.

(2) USE OF OTHER AGENCIES.—With the consent of a department, establishment, or instrumentality (including any field office), the Corporation may—

(A) use and act through any department, establishment, or instrumentality;

(B) use, and pay compensation for, information, services, facilities, and personnel of the department, establishment, or instrumentality.

(d) FINANCIAL MATTERS.—

(1) INVESTMENTS.—Funds of the Corporation may be invested in such investments as the Board of Directors may prescribe.

(2) FISCAL AGENTS.—

(A) IN GENERAL.—Any Federal Reserve bank or any bank as to which at the time of the designation of the bank by the Corporation there is outstanding a designation by the Secretary of the Treasury as a general or other depository of public money, may be designated by the Corporation as a depositary or custodian or as a fiscal or other agent of the Corporation.

(B) DEPOSITARY OF PUBLIC MONEY.—If designated for that purpose by the Secretary of the Treasury, the Corporation—

(i) shall be a depositary of public money, under such regulations as may be promulgated by the Secretary of the Treasury;

(ii) may also be employed as a fiscal or other agent of the United States; and

(iii) shall perform all such reasonable duties of such depositary or agent as may be required.

(e) TAXATION.—

(1) IN GENERAL.—Subject to paragraph (2), the Corporation (including the franchise, activities, capital, reserves, surplus, and income of the Corporation) shall be exempt from all taxation imposed by any State or local political subdivision of a State.

(2) REAL PROPERTY.—Any real property of the Corporation shall be subject to taxation by a State or political subdivision of a State to the same extent according to the value of the real property as other real property is taxed.

(f) JURISDICTION.—Notwithstanding section 1349 of title 28, United States Code, or any other provision of law—

(1) the Corporation shall be considered an agency covered by sections 1345 and 1442 of title 28, United States Code;

(2) all civil actions to which the Corporation is a party shall be considered to arise under the laws of the United States, and the district courts of the United States shall have original jurisdiction of all such actions, without regard to amount or value; and

(3) any civil or other action, case or controversy in a court of a State, or in any court other than a district court of the United States, to which the Corporation is a party may at any time before trial be removed by the Corporation, without the giving of any bond or security and by following any procedure for removal of causes in effect at the time of the removal—

(A) to the district court of the United States for the district and division embracing the place in which the same is pending; or

(B) if there is no such district court, to the district court of the United States for the district in which the principal office of the Corporation is located.

(g) ANNUAL REPORTS.—Not later than 1 year after incorporation of the Corporation and annually thereafter, the Corporation shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce in the House a report that includes—

(1) a description of—

(A) the technologies supported by activities of the Corporation and how the activities advance the purposes of this Act;

(B) the performance of the Corporation on meeting the goals established by the Secretary;

(C) the comparability of the compensation policies of the Corporation with the compensation policies of other similar businesses;

(D) in the aggregate, the percentage of total cash compensation and payments under employee benefit plans (which shall be defined in a manner consistent with the proxy statement of the Corporation for the annual meeting of shareholders for the preceding year) earned by executive officers of the Corporation during the preceding year that was based on the performance of the Corporation; and

(E) the comparability of the financial performance of the Corporation with the performance of other similar businesses; and

(2) the proxy statement of the Corporation for the annual meeting of shareholders for the preceding year.

(h) AUDITS BY THE COMPTROLLER GENERAL.—

(1) IN GENERAL.—The programs, activities, receipts, expenditures, and financial transactions of the Corporation shall be subject to audit by the Comptroller General of the United States under such rules and regulations as may be prescribed by the Comptroller General.

(2) ACCESS.—The representatives of the Government Accountability Office shall—

(A) have access to the personnel and to all books, accounts, documents, records (including electronic records), reports, files, and all other papers, automated data, things, or property belonging to, under the control of, or in use by the Corporation and necessary to facilitate the audit;

(B) be afforded full facilities for verifying transactions with the balances or securities held by depositories, fiscal agents, and custodians;

(C) be authorized to obtain and duplicate any such books, accounts, documents, records, working papers, automated data and files, or other information relevant to the audit without cost to the Comptroller General; and

(D) have the right of access of the Comptroller General to such information be enforceable pursuant to section 716(c) of title 31, United States Code.

(3) REPORT.—

(A) IN GENERAL.—The Comptroller General shall submit to Congress a report on each audit conducted under this subsection.

(B) CONTENTS.—The report shall include a description of—

(i) the scope of the audit;

(ii) any surplus or deficit;

(iii) income and expenses;

(iv) sources and application of funds;

(v) such comments and information as is necessary to inform Congress of the financial operations and condition of the Corporation; and

(vi) any recommendations as the Comptroller General considers appropriate.

(4) ASSISTANCE AND COST.—

(A) IN GENERAL.—For the purpose of conducting an audit under this subsection, the Comptroller General may, in the discretion of the Comptroller General, employ by contract, without regard to section 3709 of the Revised Statutes (41 U.S.C. 5), professional services of firms and organizations of certified public accountants for temporary periods or for special purposes.

(B) REIMBURSEMENT.—On the request of the Comptroller General, the Corporation shall reimburse the General Accountability Office for the full cost of any audit conducted by the Comptroller General under this subsection.

(i) ANNUAL INDEPENDENT AUDIT.—

(1) IN GENERAL.—The Corporation shall have an annual independent audit made of the financial statements of the Corporation by an independent public accountant in accordance with generally accepted auditing standards.

(2) CONTENT.—In conducting an audit under this subsection, the independent public accountant shall determine and report on whether the financial statements of the Corporation—

(A) are presented fairly in accordance with generally accepted accounting principles; and

(B) to the extent determined necessary by the Director, comply with any disclosure requirements imposed under this Act.

SEC. 9. OVERSIGHT BY THE SECRETARY.

(a) DUTIES.—The Secretary shall—

(1) oversee the operations of the Corporation; and

(2) ensure that—

(A) the Corporation operates in a safe and sound manner, including maintenance of adequate capital and internal controls;

(B) the operations and activities of the Corporation foster liquid, efficient, competitive, and resilient energy finance markets;

(C) the Corporation carries out the statutory mission of the Corporation only through activities that are authorized under and consistent with this Act; and

(D) the activities of the Corporation and the manner in which the Corporation is operated is consistent with the public interest.

(b) FINANCIAL REPORTS.—

(1) IN GENERAL.—The Corporation shall submit to the Secretary annual and quarterly reports of the financial condition and operations of the Corporation which shall be in such form, contain such information, and be submitted on such dates as the Secretary shall require.

(2) CONTENTS OF ANNUAL REPORTS.—Each annual report shall include—

(A) financial statements prepared in accordance with generally accepted accounting principles;

(B) any supplemental information or alternative presentation that the Secretary may require; and

(C) an assessment (as of the end of the most recent fiscal year of the Corporation), signed by the chief executive officer and chief accounting or financial officer of the Corporation, of—

(i) the effectiveness of the internal control structure and procedures of the Corporation; and

(ii) the compliance of the Corporation with designated safety and soundness laws.

(3) SPECIAL REPORTS.—The Secretary may require the Corporation to submit other reports on the condition (including financial condition), management, activities, or operations of the Corporation, as the Secretary considers appropriate.

(4) ACCURACY.—Each report of financial condition shall contain a declaration by the president, vice president, treasurer, or any other officer designated by the Board of Directors of the Corporation to make the declaration, that the report is true and correct to the best of the knowledge and belief of the officer.

(c) MANAGEMENT AND OPERATION STANDARDS.—The Secretary shall establish standards, by regulation or guideline, for the Corporation relating to—

(1) the adequacy of internal controls and information systems;

(2) the independence and adequacy of internal audit systems;

(3) the management of market risk, including standards to provide for systems that measure, monitor, and control market risks and, as warranted, to establish limitations on market risk;

(4) risk management processes, including the adequacy of oversight by senior management and the Board of Directors and of processes and policies to measure, monitor, and control material risks, including reputational risks, and for adequate, well-tested business resumption plans in the case of disruptive events;

(5) the management of credit and counterparty risk, including systems to identify concentrations of credit risk and prudential limits to restrict the exposure of the Corporation to a single counterparty or groups of related counterparties;

(6) the maintenance of adequate records, in accordance with consistent accounting policies and practices to enable the Secretary to evaluate the financial condition of the Corporation; and

(7) such other operational and management standards as the Secretary determines to be appropriate.

(d) FAILURE TO MEET STANDARDS.—

(1) IN GENERAL.—If the Secretary determines that the Corporation fails to meet any standard established under subsection (c), the Secretary may require the Corporation to submit an acceptable plan to the Secretary within a reasonable time that specifies the actions that the Corporation will take to correct the deficiency.

(2) REQUIRED ORDER ON FAILURE TO SUBMIT OR IMPLEMENT PLAN.—If the Corporation fails to submit an acceptable plan within the time specified by the Secretary or fails in any material respect to implement a plan accepted by the Secretary, the Secretary shall, by order, require the Corporation to correct the deficiency.

(e) PROHIBITION AND WITHHOLDING OF EXECUTIVE COMPENSATION.—

(1) IN GENERAL.—The Secretary shall prohibit the Corporation from providing compensation to any executive officer that is not reasonable and comparable with compensation for employment in other similar businesses (including other publicly held financial institutions or major financial services companies) involving similar duties and responsibilities.

(2) FACTORS.—In making any determination under paragraph (1), the Secretary may take into consideration any factors the Secretary considers relevant, including any wrongdoing on the part of the executive officer.

(3) WITHHOLDING OF COMPENSATION.—In carrying out paragraph (1), the Secretary may require the Corporation to withhold any payment, transfer, or disbursement of compensation to an executive officer, or to place such compensation in an escrow account, during the review of reasonableness and comparability of compensation.

(4) PROHIBITION OF SETTING COMPENSATION.—In carrying out paragraph (1), the Secretary may not prescribe or set a specific level or range of compensation.

SEC. 10. ISSUANCE OF COMMON STOCK TO EXPAND OPERATIONS.

(a) IN GENERAL.—Not later than 5 years after the date of enactment of this Act, the Corporation may prepare a strategic plan for issuing common stock to raise the capital needed to expand the operations of the Corporation in carrying out this Act.

(b) CONSIDERATION OF ALTERNATIVES FOR GOVERNANCE.—The strategic plan shall include consideration of alternatives for restructuring the Board of Directors to allow for a majority of the Members to be selected by voting common stockholders.

(c) EVALUATION AND RECOMMENDATION.—The strategic plan shall—

(1) evaluate the relative merits of the alternatives considered; and

(2) include the recommendation of the Corporation on a proposed alternative.

(d) TRANSMITTAL.—On completion of the strategic plan, the Corporation shall submit copies of the strategic plan to the President and Congress, along with any recommendations for legislative changes required to implement the plan.

(e) IMPLEMENTATION.—Subject to subsections (f) and (g), subsequent to submitting a strategic plan pursuant to this section, the Corporation may implement the strategic plan.

(f) REQUIREMENT FOR PRESIDENTIAL APPROVAL.—The Corporation may not implement the strategic plan without the approval of the President.

(g) NOTIFICATION OF CONGRESS.—

(1) IN GENERAL.—The Corporation shall notify Congress of any intent to implement the strategic plan if the Corporation determines, in consultation with the Secretary and other appropriate agencies of the United States, that no further legislation is required for the implementation.

(2) IMPLEMENTATION.—The Corporation may not implement the strategic plan under this subsection earlier than 60 days after notification of Congress.

AMENDMENTS SUBMITTED AND PROPOSED

SA 5067. Mr. REID proposed an amendment to the bill H.R. 3221, moving the United States toward greater energy independence and security, developing innovative new technologies, reducing carbon emissions, creating green jobs, protecting consumers, increasing clean renewable energy production, and modernizing our energy infrastructure, and to amend the Internal Revenue Code of 1986 to provide tax incentives for the production of renewable energy and energy conservation.

SA 5068. Mr. REID proposed an amendment to amendment SA 5067 proposed by Mr. REID to the bill H.R. 3221, supra.

TEXT OF AMENDMENTS

SA 5067. Mr. REID proposed an amendment to the bill H.R. 3221, moving the United States toward greater energy independence and security, developing innovative new technologies, reducing carbon emissions, creating green jobs, protecting consumers, increasing clean renewable energy production, and modernizing our energy infrastructure, and to amend the Internal Revenue Code of 1986 to provide tax incentives for the production of renewable energy and energy conservation; as follows:

At the end add the following:

This title shall become effective in 3 days.

SA 5068. Mr. REID proposed an amendment to amendment SA 5067 proposed by Mr. REID to the bill H.R. 3221, moving the United States toward greater energy independence and security, developing innovative new technologies, reducing carbon emissions, creating green jobs, protecting consumers, increasing clean renewable energy production, and modernizing our energy infrastructure, and to amend the Internal Revenue Code of 1986 to provide tax incentives for the production of renewable energy and energy conservation; as follows:

In the amendment, strike ''3'' and insert ''2''.

NOTICES OF HEARINGS

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a legislative hearing has been scheduled before the Senate Committee on Energy and Natural Resources. The hearing will be held on Tuesday, July 15, 2008, at 10 a.m., in room SD–366 of the Dirksen Senate Office Building.

The purpose of the hearing is to receive testimony regarding legislation to improve the availability of financing for deployment of clean energy and energy efficiency technologies and to enhance United States' competitiveness in this market. Specific bills to be considered are S. 3233, introduced by

Senator BINGAMAN and S. 2730, introduced by Senator DOMENICI.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510–6150, or by e-mail to rachel_pasternack@energy.senate.gov.

For further information, please contact Rachel Pasternack at (202) 224–0883 or Michael Carr at 202–224–8164.

PERMANENT SUBCOMMITTEE ON INVESTIGATIONS

Mr. LEVIN. Mr. President, I would like to announce for the information of the Senate and the public that the Permanent Subcommittee on Investigations of the Committee on Homeland Security and Governmental Affairs will hold a hearing entitled, ''Tax Haven Banks and U.S. Tax Compliance.'' The Permanent Subcommittee on Investigations hearing will examine how financial institutions located in offshore tax havens, including Liechtenstein and Switzerland, may be engaged in banking practices that could facilitate, and in some instances have resulted in, tax evasion and other misconduct by U.S. clients. The hearing will also examine how U.S. domestic and international tax enforcement efforts could be strengthened. The Subcommittee expects to issue a Subcommittee staff report in conjunction with the hearing summarizing its investigative findings. A witness list will be available Monday, July 14, 2008.

The Subcommittee hearing is scheduled for Thursday, July 17, 2008, at 9:30 a.m., in room 106 of the Dirksen Senate Office Building. For further information, please contact Elise Bean of the Permanent Subcommittee on Investigations at 224–9505.

AUTHORITY FOR COMMITTEES TO MEET

SUBCOMMITTEE ON WATER AND POWER

Mr. ROCKEFELLER. Mr. President, I ask unanimous consent that the Subcommittee on Water and Power, be authorized to meet during the session of the Senate to conduct a hearing on Tuesday, July 8, 2008, at 2:30 p.m., in room SD–366 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR—H.R. 6304

Mr. FEINGOLD. Mr. President, I ask unanimous consent that during the Senate's consideration of the FISA Amendments Act, Beckett Jackson, Ross Schulman, and Alex Tausanovitch, interns in my Judiciary Committee office, be granted the privilege of the floor.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BINGAMAN. I ask unanimous consent that Matthew Pedilla, who is an intern in my office, be granted the privilege of the floor during the pendency of this discussion.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COCHRAN. Mr. President, I ask unanimous consent that Sara Love Swaney, who is a member of my staff, be given floor privileges for the remainder of the day.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMERICAN HOUSING RESCUE AND FORECLOSURE PREVENTION ACT OF 2008

Mr. REID. Mr. President, I ask the Chair to lay before the Senate a message from the House with respect to H.R. 3221.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A message from the House of Representatives to accompany H.R. 3221, an act to provide needed housing reform, and for other purposes.

Mr. REID. I now ask unanimous consent that all postcloture time be considered yielded back, and that the motion to concur be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLOTURE MOTION

Mr. REID. Mr. President, I move to disagree to the amendments of the House, adding a new title and inserting a new section to the amendment of the Senate to H.R. 3221, and I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the motion to disagree to the amendments of the House, adding a new title and inserting a new section, to the amendment of the Senate to H.R. 3221, the Foreclosure Prevention Act.

Harry Reid, Christopher J. Dodd, Debbie Stabenow, John D. Rockefeller, IV, Jeff Bingaman, Ken Salazar, Joseph R. Biden, Jr., Max Baucus, Patty Murray, Barbara A. Mikulski, Charles E. Schumer, Sheldon Whitehouse, Sherrod Brown, Bill Nelson, John F. Kerry, Robert P. Casey, Jr., Benjamin L. Cardin, Frank R. Lautenberg.

Mr. REID. I ask unanimous consent that the mandatory quorum be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 5067

Mr. REID. Mr. President, I now move to concur in the amendment of the House adding a new title to the amendment of the Senate to H.R. 3221 with the amendment which is at the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 5067.

Mr. REID. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end add the following:

This title shall become effective in 3 days.

Mr. REID. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The yeas and nays were ordered.

AMENDMENT NO. 5068 TO AMENDMENT NO. 5067

Mr. REID. I have a second-degree amendment at the desk. I ask for its consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 5068 to amendment No. 5067.

The amendment is as follows:

In the amendment, strike ''3'' and insert ''2''.

TRIBUTES TO SENATOR JESSE HELMS

Mr. DODD. Mr. President, I ask unanimous consent that the tributes to Senator Helms in the CONGRESSIONAL RECORD be printed as a Senate document and that Senators be permitted to submit statements for inclusion until August 1.

ORDERS FOR WEDNESDAY, JULY 9, 2008

Mr. DODD. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand adjourned until 9:30 a.m. tomorrow, July 9; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed to have expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of H.R. 6304, the FISA legislation, as under the previous order. I further ask that there be an additional 10 minutes for debate under the control of Senator SPECTER.

Finally, I ask that following the votes in relation to FISA, the Senate stand in recess until 2:15 to allow for the Republican caucus luncheon.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. DODD. Mr. President, Senators should be prepared to begin voting at approximately 11:15 a.m. tomorrow. There will be up to five rollcall votes in relation to the FISA legislation.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. DODD. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it stand adjourned under the previous order.

There being no objection, the Senate, at 7:54 p.m., adjourned until Wednesday, July 9, 2008, at 9:30 a.m.

DISCHARGED NOMINATION

The Senate Committee on Homeland Security and Governmental Affairs was discharged, pursuant to an order of the Senate on January 9, 2007, from further consideration of the following nomination and the nomination was placed on the Executive Calendar:

*ERIC M. THORSON, OF VIRGINIA, TO BE INSPECTOR GENERAL, DEPARTMENT OF THE TREASURY.

*NOMINEE HAS COMMITTED TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

EXTENSIONS OF REMARKS

HONORING THE WESTERN WAYNE COUNTY CONSERVATION CLUB

HON. THADDEUS G. McCOTTER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. McCOTTER. Madam Speaker, today I rise to honor and acknowledge the Western Wayne County Conservation Club, a group dedicated to the preservation and continuation of outdoor sporting for all generations, upon reaching their 70th anniversary of the club's establishment.

The Western Wayne County Conservation Club provides many services to the Michigan community. The Club has created more opportunities for outdoor sporting with their sponsorship of a launching trap and skeet fields, a 3–D walk-thru archery range, and a black powder group with a walk-thru range. Additionally, The Wayne County Conservation Club has fundraisers for the Pinkerton School for the Blind, the Rouge River Clean-up, hunter education classes, Girl Scout and Boy Scout camping activities, and for the University of Michigan Burn Center.

The Western Wayne County Conservation Club has been recognized for their dedication to outdoor sports. The Club has received prominent awards including the President's Award from the National Wildlife Federations, North American Hunter's Safety Award, and the National Rifle Association President's Award. To the Michigan community, the Wayne County Conservation Club is an organization dedicated to their goals, committed to serving their community and defending Americans' Second Amendment Rights.

Madam Speaker, the Western Wayne County Conservation Club is a group which has mastered outdoor sporting and has excelled in using their mission to help other community organizations. I ask my colleagues to join me in congratulating the Western Wayne County Conservation Club for reaching 70 years as an organization and honoring the group's devoted service to the community and our country.

CONGRATULATING BRIAR BUSH NATURE CENTER ON ITS 100TH ANNIVERSARY

HON. ALLYSON Y. SCHWARTZ

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Ms. SCHWARTZ. Madam Speaker, I rise before you today to congratulate Briar Bush Nature Center on the occasion of its 100th anniversary. Briar Bush Nature Center is a true testament to community outreach and wildlife preservation, both in its work over the past century and in its very roots.

In 1908, a Quaker couple, Everett and Florence Griscom, fell in love with a twelve acre plot in the heart of Abington, Pennsylvania. They found the area so beautiful that they began inviting friends and family to spend days with them in the tranquil area and soon, local children and adults began flocking to the refuge that the Griscoms had fondly named "Briar Bush."

After the Griscoms passed away, area residents led by T. Russell Frank established the "Friends of Briar Bush" organization, which was instrumental in encouraging the Township to acquire the land in 1962. The Friends of Briar Bush carried on the Griscoms' mission by offering the woodland retreat as a Natural Education Center for local children and adults.

Over the years, Briar Bush has become an important facet of the Abington Community. In 2000, the Center implemented a renovation project to make the Center even more visitor-friendly and expanded their education programs, which has enabled the Center to serve over 47,000 visitors annually.

Briar Bush programs have received numerous awards, including "Best of Philly." The Briar Bush day camp is currently in the running for a Nickelodeon "Parents Pick Award" for the best day camp for small children.

The Briar Bush Nature Center is a true Abington community treasure. It is my pleasure to stand before you to honor this special organization for achieving its' 100th anniversary milestone. It is my most sincere hope that Briar Bush will continue to educate our community about the joy of nature for many years to come.

RECOGNIZING EMERGENCY MANAGEMENT, DISASTER RECOVERY AND RELIEF EFFORTS IN DEARBORN COUNTY

HON. MIKE PENCE

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PENCE. Madam Speaker, I rise today to commend and recognize the extraordinary contributions of emergency management, disaster response, and recovery personnel as well as elected officials and community leaders in my district which was devastated by the recent severe weather in Indiana.

I wish particularly to honor the Board of Commissioners, County Council, and all the other outstanding individuals in Dearborn County who rose to the occasion during these difficult times. This area suffered greatly from severe storms and weather, creating a catastrophe of nature that inflicted injuries, destroyed property, and displaced many of our citizens. In response, these officials went above and beyond the call of duty, showing great poise while saving many lives and serving the people of their communities.

Madam Speaker, I commend these fine men and women for their tremendous dedication to the Hoosier families, businesses, farmers and communities that they serve. As Hoosiers continue to recover from Mother Nature's fury, I feel confident that the people of Dearborn County will be well served by these officials.

RECOGNITION OF ENERGY, CITIZENS, AND ECONOMIC TRANSFORMATION FOR INDIANA AND AMERICA EVENT AT THE UNIVERSITY OF NOTRE DAME

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. VISCLOSKY. Madam Speaker, I rise today to recognize the Energy, Citizens, and Economic Transformation for Indiana and America event held on July 7, 2008, sponsored by the University of Notre Dame Energy Center. This conference brought together leaders in energy research from the University of Notre Dame, the U.S. Department of Energy, Oak Ridge National Laboratory, Purdue University, the state of Indiana, and academic think tanks.

The University of Notre Dame Energy Center was established in 2005 to develop new technologies for energy efficiency, safe nuclear waste storage, clean coal utilization, CO_2 separation and sequestration, and alternative renewable energy sources. The Center also plays a key role in energy education and literacy, affecting energy policy and exploring the ethical implications associated with energy sources, availability and policy. It involves approximately 25 faculty members in the Colleges of Engineering, Science, Arts & Letters and Business. The Notre Dame Energy Center and its faculty members have funding support from the U.S. Department of Energy and extensive collaborations with researchers at Sandia, Argonne National Labs and the National Energy Technology Laboratory.

Meeting U.S. energy needs in an environmentally sustainable manner without jeopardizing economic growth or national security interests through undue reliance on foreign energy sources is arguably our most demanding challenge. Achieving this goal will require multiple solutions and strategies. To meet this challenge, the University of Notre Dame, through their Energy Center and conferences such as this, combines existing research expertise and new research infrastructure with visionary thinkers from both Indiana and the federal government.

A collaboration also is currently being undertaken by the Notre Dame Energy Center that addresses the Indiana Dunes National Lakeshore, which is a resource that is very important to the Northwest Indiana community. This project seeks to provide energy-related consulting services to the park during the coming summer months that will promote the responsible use of an irreplaceable national treasure. As part of the project, students will track and quantify the cost savings related to energy use reduction and lower greenhouse gas emissions. This collaboration will help preserve the unique ecosystem of the Indiana

Dunes National Lakeshore and will allow future generations to enjoy this tremendous natural, educational, and recreational asset of Northwest Indiana.

I would like to thank Dr. Joan Brennecke and Dr. Paul Bohn for organizing the July 7th event and for their tireless work in addressing our nation's energy problems. The conference will offer Hoosiers the opportunity to hear from state and national leaders in energy research. While prices at the gas pumps may be getting most of the attention now, the energy crisis is about more than just oil. As a nation, with the help of our research universities, we need to continue efforts in examining our entire mix of energy sources and how to go about changing that mix over the long term in order to increase our economic and national security.

The state of Indiana and its industries can benefit from this type of research and discussion, and I believe that Indiana will be at the forefront of this nation's energy revolution. The sluggish economy and increasing energy costs have left families struggling to make ends meet. The work being done by those involved at this event seek to ease their burden and create the next generation of energy-related jobs in Indiana.

COMMEMORATING THE 100TH ANNIVERSARY OF THE CITY OF RIVERDALE, GEORGIA

HON. DAVID SCOTT

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. SCOTT of Georgia. Madam Speaker, I rise today to offer my congratulations to the City of Riverdale, Georgia for reaching its 100th anniversary this July. Home to over 15,000 people, this great city, on the outskirts of the bustling city of Atlanta, is known for its close knit communities, beautiful landscapes and abundant resources. With a rich history of vibrant festivals and community building activities, Riverdale prides itself on promoting the well-being of its residents. This city was formally founded in 1908 as a railroad depot. However, its history traces back to before the Civil War and owes much of its early success to a generous donation of land by Mr. and Mrs. W.S. Rivers, who wanted to see the area and its businesses thrive and prosper.

The City of Riverdale will mark the occasion by holding a Centennial Celebration. This celebration will include a full commemoration of the centennial year as well as a tribute to Riverdale's rich history. Additionally, the Centennial Celebration will strive to educate the public on the history of Riverdale, encourage community involvement and recognize organizations, businesses, and institutions that have been a part of this city for 100 years. Among the events planned for this celebration are a Centennial Parade, concerts and picnics, a Centennial Gala and a Tree Planting, as well as other activities designed to further foster a greater sense of involvement among the city's residents.

I would like to recognize Dr. Evelyn Wynn-Dixon, Mayor of Riverdale, along with City Council members Rick Scoggins, Wayne Franklin Hall, Wanda Wallace, and Kenneth Ruffin for their hard work and dedication to this community. And congratulations are certainly due to the great residents of this city who are the true heart of this community. Their hard work, family values, and commitment contribute to the daily growth of Riverdale. I look forward to seeing the continual development and prosperity of this city and it is an honor to represent them in the United States Congress.

In closing, I would like to extend my congratulations to the city of Riverdale for marking its 100th Anniversary and I wish them a healthy and prosperous one hundred more.

TRIBUTE TO LISA KOLL

HON. TOM LATHAM

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. LATHAM. Madam Speaker, I rise today to honor a great achievement by the Fort Dodge, Iowa native and current member of the Iowa State University women's track team, Lisa Koll. Lisa earned a national championship in the NCAA women's 10,000 meter race.

Although Lisa never won a state championship in her career at Fort Dodge High School, as a collegiate sophomore, she won a national title on the same blue track at Drake University where the Iowa High School State Championships are held. She is the first Iowa State track athlete to win a national championship since 1984 after completing the over six mile race in 32:44.95—short of her own American collegiate record of 32:11.13 set earlier this spring, but good enough for a Drake Stadium Record and national championship.

Lisa's impressive feat demonstrates the reward for hard work, dedication and determination. I am honored to represent Lisa Koll in the United States Congress, and I know that all of my colleagues join me in congratulating her on her national championship and wish her success in her future running career.

IN COMMEMORATION OF THE 75TH ANNIVERSARY OF THE UKRAINIAN GENOCIDE ON THE OCCASION OF THE WALK AGAINST GENOCIDE IN NEW YORK CITY

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mrs. MALONEY of New York. Madam Speaker, I rise to commemorate the 75th anniversary of the genocide perpetrated on the Ukrainian people by Joseph Stalin's murderous Soviet regime. This month, countless Ukrainian-Americans and persons of goodwill, including members of the Ukrainian Congress Committee of America and the United Ukrainian American Organizations of New York, join together in a Walk Against Genocide in New York City in remembrance of the terrible events in the Ukraine in 1932–33 that took the lives of millions. Participants in the Walk are honoring the Ukrainians who perished in the famine by observing a moment of remembrance.

Three quarters of a century ago, the Ukrainian genocide, also referred to as the Holodomor, or "Death by Starvation," was consciously inflicted upon the Ukrainian people by the totalitarian tyranny of dictator Joseph Stalin. With its radical agricultural collectivization policies, Stalin's brutal Soviet regime caused widespread famine and mass starvation, systematically murdering millions of innocent men, women and children.

The Holodomor was an intentional act perpetrated against the Ukrainians as punishment for their resistance to Soviet control. Evidence in the form of recently released KGB archival documents reveal the Soviet government's ruthless plans. The Commission on the Ukraine Famine created by the United States Congress in 1985 issued a report 3 years later confirming the existence of a deliberate policy to starve the Ukrainian people and concluded in 1988 that "Joseph Stalin and those around him committed genocide against Ukrainians in 1932–1933."

In sheer numbers, this genocidal tragedy ranks among the worst examples of man's inhumanity towards man, and offers one of history's starkest examples of the devastation that is wrought by oppressive governments when they use food as a weapon. The Holodomor was perhaps the greatest national catastrophe in the history of the Ukraine, and its emotional repercussions still affect the Ukrainian people to this day.

By remembering that horrific period, we work towards a day when such atrocities will never again occur in the world. This year, the 75th anniversary of the famine was commemorated in Kiev and indeed throughout the world. All Americans should join in remembering this historical atrocity and resolve to act against future crimes against humanity. The Walk Against Genocide not only serves to commemorate the innocent men, women and children of the Ukraine who lost their lives, but also to take a stand against acts of genocide that still occur in the world today. The Walk Against Genocide is thus an uplifting manifestation of the enduring resilience of the human spirit.

Madam Speaker, I ask that my distinguished colleagues join me in saluting the participants in the Walk Against Genocide and in recognizing the Ukrainian Congress Committee of America and the United Ukrainian American Organizations of New York on the occasion of the 75th anniversary commemorating the Ukrainian genocide.

BIRTHDAY WISHES FOR LOUIS E. TESSIER, THE SUPERVISOR OF THE TOWN OF LAKE GEORGE, NY

HON. KIRSTEN E. GILLIBRAND

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mrs. GILLIBRAND. Madam Speaker, it is my honor to rise today on behalf of Louis E. Tessier, the Supervisor of the Town of Lake George, in recognition of his 80th birthday on July 19, 2008. I extend my congratulations on this special occasion to Lou, his wife Mary, his daughter, Rene, and to his entire family.

Mr. Tessier has a distinguished career in public service. He was elected into and has held his office since 1984. He served as the Warren County Budget Officer from 1992 through 1995 and as the Warren County Chairman of the Board of Supervisors from

1996 through 2000. He has served on a long list of many of the county's committees—everything from Airport to Youth Programs. During his career, he has also been appointed to the following:

Board of Directors of the Warren-Hamilton Counties Action Committee for Economic Opportunity, Inc.; Warren County Sewer Commission; County Jury Board Member; Advisory Council for Warren-Hamilton Counties Office for the Aging; Warren County Traffic Safety Board; Warren County Deferred Compensation Program; Warren County Representative of the Adirondack Park Centennial Committee; Industrial Development Agency; Warren County Labor/Management Committee; Inter-County Committee of the Legislative Bodies of the Adirondack Representatives; Adirondack/Glens Falls Transportation Council; Warren County Local Development Corporation (LDC); Warren County LDC—Executive Committee of the Board of Directors; Inter-County Solid Waste Coordinating Committee; Bi-County Ad Hoc Committee for Burn Plant Negotiations; Negotiating Committee for Burn Plant Acquisition; Warren County Criminal Justice Advisory Board, Alternatives to Incarceration Service Plans; Sub-committee on Revenue Enhancement; Airport Consultant Selection Board; Lake Champlain—Lake George Regional Planning Board; Bi-County Ad Hoc Committee for Hartford Landfill Negotiations.

Please join me, the Town of Lake George, the people of Warren County and New York's 20th Congressional District in wishing Supervisor Lou Tessier a very happy 80th Birthday.

PAYING TRIBUTE TO NEVADA AIPAC DELEGATION

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PORTER. Madam Speaker, it is my distinct pleasure to rise today to honor the Nevada delegation from the American Israel Public Affairs Committee. I am delighted to have my colleagues in the Nevada Congressional Delegations, Representatives SHELLY BERKLEY and DEAN HELLER, join me in recognizing the advocacy efforts of the AIPAC delegation.

The Nevada delegation from the American Israel Public Affairs Committee (AIPAC) recently visited Washington, DC to advocate on behalf of Israel and ensure that American support for Israel remains strong. AIPAC is working to promote strategic cooperation between the two nations, to develop sound U.S. anti-terrorist policies, to share homeland security techniques and technologies, and to stop rogue nations such as Iran from acquiring weapons of mass destruction.

Following several days of meetings and speakers, the Nevada delegation visited with their Congressional Representatives to advocate on behalf of these ideals and share their views with the Nevada Congressional delegation. It is truly an honor to meet with such dedicated advocates. AIPAC has a strong record of creating citizen advocates who are passionate about pro-Israel issues and are dedicated to learning how they can affect Israel's future and security by promoting strong ties with the United States.

This years Nevada AIPAC delegation included: Ms. Ariel Shalin, Miss Heather Brown, Ms. Adriel Espinoza, Mr. Michael Roitman, Mr. Andrew Spivak, Mr. Michael Thomas, Ms. Sara Kantor, Mr. Max Berkley, Dr. Stanley Ames, Mrs. Georgia Ames, Mr. Allen Anes, Mrs. Eileen Anes, Mr. Eli Applebaum, Ms. Vanessa Aragonez, Mr. Jerome Blut, Mrs. Arlene Blut, Rabbi Hershel Brooks, Ms. Diane Brounstein, Mr. Jonathan Craft, Mr. David Dahan, Mr. Bob Dubin, Mrs. Shelley Dubin, Mr. Peter Dubowsky, Mr. Leslie Dunn, Mrs. Joan Dunn, Mrs. Liz Goodman, Mr. David Jacobson, Mrs. Jewell Jacobson, Ms. Eva Kallick, Ms. Stephanie Lehrner, Dr. Larry M. Lehrner, Dr. Marc Leitner, Ms. Terri Greer, Ms. Vivian Perlmutter, Mr. Brett Primack, Mrs. Christina Primack, Mr. Joshua J. Primack, Mr. Jordan Primack, Mrs. Deborah Primack, Mrs. Laurie Robinson, Dr. Joseph Shalev, Mrs. Batsheva Shalev, Ms. Lisa Skurow, Ms. Nicole Steiner, Mr. David Stone, Mr. Steven Strasser, Mrs. Sharon Strasser, Mr. Stuart Blake Tener, Mr. Sam Ventura, Mrs. Rachael Ventura, Mr. Michael Werner, Mrs. Dana Werner, Mrs. Lynn Wexler, Rabbi Yitzack Wyne, Mr. Benny Yerushalmi, Mr. Elad Yerushalmi, Mr. Jeff Zucker, Mr. David-Jacques Farahi, Ms. Parinaz Farahi, Mr. Hy Kashenberg, Ms. Brenda L. Nelson, Ms. Tali Farahi, and Mr. Faramarz Yousefzadeh.

Madam Speaker, I am honored to recognizes the Nevada AIPAC delegation. These individuals have dedicated themselves to a very worthy cause, and I applaud their efforts and wish them the best in their future endeavors.

HONORING HANK THOMPSON'S SERVICE TO SUMNER COUNTY

HON. BART GORDON

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. GORDON of Tennessee. Madam Speaker, I rise today to honor my friend, Hank Thompson, who passed away July 6.

As a County Commissioner, Mayor of Hendersonville and Sumner County Executive, Hank served the people of Sumner County for more than 25 years.

Hank always sought what was best for the people he represented. He was a very forward-thinking public servant and a good friend and adviser to me. I worked with him for many years and always admired his passion and love for his community.

Following the devastating Gallatin tornado in 2006, Hank was the first person to contact me to get federal assistance for storm victims. He also led the local assistance effort, helping people put their lives back together and rebuild their communities.

He was a tireless advocate for the people of Sumner County and his contributions to the families there are countless. Whether it was building bridges, expanding highways, creating greenways or building new baseball and soccer fields, Hank was always Sumner County's number one advocate. I spent many hours in his car, driving from community to community while he showed me projects he envisioned for the area.

He served on the boards of numerous organizations, including Children Are People, Inc.; the Jason Foundation and Youth Inc. Hank was a member of the Homeland Security Region Executive Board, Regional Transit Authority Board, Tennessee Municipal League Board, Sumner County Resource Agency, U.S. Conference of Mayors, Hendersonville and Gallatin Chambers of Commerce, Civitan Club and Rotary Club.

Hank served his state and nation as a first lieutenant in the Tennessee National Guard.

Hank will be missed by his wife, Nancy, his children Nick, Lance and Amanda and his many friends in Sumner County and across Tennessee.

TRIBUTE TO GENERAL ROBERT MAGNUS, USMC

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. SKELTON. Madam Speaker, it has come to my attention that a distinguished military career is coming to an end. General Robert Magnus, U.S. Marine Corps, is retiring from active duty after serving our nation for 40 years.

General Magnus enlisted in the Navy in February 1968. He graduated from the University of Virginia in 1969 with a bachelor of arts degree in history and received a masters of science in business administration from Strayer College in 1993. He received a commission in June 1969 and completed the following military training schools: Naval Aviation flight training, nuclear safety officers course, survival evasion resistance and escape course, weapons and tactics instructors course, aviation safety command course, Marine Corps Command and Staff College, National War College, CAPSTONE Course, Joint Force Air Component Commanders Course, Executive Business Course.

During his 40 years of service, General Magnus has served during several operation tours and held many squadron assignments. These include intelligence officer, HMM–264; operations officer, H&MS–15 SAR Detachment, Task Force Delta, Nam Phong, Thailand; training officer, Station Operations and Engineering Squadron, MCAS Quantico; aviation safety officer, MAG–26 and HMM–263; weapons and tactics instructor, MAG–26 and HMM–261; operations officer, MAG–29; executive officer, HMM–365, MAG–29; commanding officer HMM–365, MAG–29; commander, Marine Corps Air Bases Western Area; and deputy commander, Marine Forces Pacific.

General Magnus also has served in several staff assignments, including aviation assault medium lift requirements officer; chief, Logistics Readiness Center, joint staff; executive assistant to the director of the Joint Staff; head, Aviation Plans and Programs Branch; Assistant Deputy Chief of Staff for Aviation; Assistant Deputy Commandant for Plans, Policies, and Operations; and Deputy Commandant for Programs and Resources.

General Magnus's decorations and awards include: Distinguished Service Medal, Defense Superior Service Medal, Legion of Merit Medal, and the Navy Achievement Medal.

General Magnus is concluding his career having served as the Assistant Commandant of the Marine Corps. In this capacity, he has been the principal adviser to the Commandant of the Marine Corps on all decisions affecting

the readiness and future health of the Marine Corps. I am certain that the Members of the House will join me in honoring General Magnus and his family for their outstanding service to our country.

HONORING ANNE RAGSDALE

HON. MARSHA BLACKBURN

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mrs. BLACKBURN. Madam Speaker, as I come to the floor today to speak, friends and colleagues of Anne Ragsdale are gathering in Nashville to celebrate her life and her many contributions to her city and to her country. Anne Ragsdale was an extraordinary woman who chose to spend her life encouraging others and inspiring those of us who knew her to give selflessly of our time and talents. Anne Ragsdale believed in this great nation and its goodness and felt that every child who called America home should be able to dream big dreams and have those dreams come true. She embodied the spirit of philanthropy, never giving for any reason other than knowing that her gifts would make a positive difference in the lives of others. She did not focus on herself. She focused on the people around her: her family, her friends, her charitable causes, and her church. As a matter of fact, if she were standing here on this floor with me today, she would probably tell me to use the time focusing on a cause for human good and not to use the time talking about her. Those of us who called her our friend loved this trait in Anne.

Anne held a deep and abiding faith and was an active member of First Southern Methodist Church of Nashville and was a member of St. Paul Southern Methodist Church for 25 years. In the community, her true passion involved helping children in need and providing them with education in a safe and loving environment. She and her husband, Dick, have been wonderful supporters of scholarships and educational opportunities for children at schools throughout Tennessee.

She was a small businesswoman, homemaker, and activist for many charitable causes. She was also co-founder and board member of Birthright of Nashville, YMCA Community Action Programs and East Academy. She served on the board of directors of the Salvation Army, Nashville for 15 years and also on the board of Alive Hospice. She was a founding member of the Nashville Symphony's Schermerhorn Symphony Center. She especially enjoyed serving as the costume designer for the Nashville Children's Theatre.

Anne Ragsdale will be missed. Her participation and support will be missed by the schools, churches and organizations to which she provided leadership and support. She will be missed by her friends who leaned on her for support and comfort. She will be missed by the family she adored and cherished.

Madam Speaker, I ask my colleagues to join me in appreciation of a life well lived.

EARMARK DECLARATION

HON. JAMES T. WALSH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. WALSH of New York. Madam Speaker consistent with Republican transparency standards, the following is a disclosure for each of my requested projects in the Duncan Hunter National Defense Authorization Act of Fiscal Year 2009, H.R. 5658:

Requesting Member: Rep. JAMES T. WALSH.

Bill Number: H.R. 5658.

Account: Research, Development, Test and Evaluation, Army Account.

Legal Name of Requesting Entity: Syracuse Research Corporation.

Address of Requesting Entity: 6225 Running Ridge Rd., Syracuse, NY 13212.

Description of Request: Include $4 million in H.R. 5658—Army Account RDT&E—Advanced Tactical Computer Science and Sensor Technology—to assist transition of the Foliage Penetrating, Reconnaissance, Surveillance, Tracking, and Engagement Radar (FORESTER) prototype to an operational configuration adding User specific capabilities.

The FORESTER Program is on-going with radar integration and testing continuing through the remainder of FY08 on the A160 Hummingbird. The Program objectives are being met, namely to detect and track moving dismounted soldiers and vehicles under foliage to a range of at least 30 km, and to detect and track people and vehicles in the open or through foliage to a range of at least 50 km. FORESTER can also detect and track moving low-altitude air vehicles such as helicopters, small Unmanned Aerial Vehicles, and aircraft to a range of 75 km. Additionally, FORESTER has a real-time radar mode to image targets concealed in the foliage. The FY09 request will provide funding necessary to transition FORESTER to the User community and apply the technology to additional platforms.

Currently, U.S. Forces have no radar capability to detect and track activity under foliage. FORESTER is an airborne sensor system that provides standoff and persistent wide-area surveillance of dismounted troops and vehicles moving through foliage. Designed and developed to fly on the A160 Hummingbird unmanned helicopter, FORESTER is one-of-a-kind technology providing the warfighter with all-weather, day-night target detection and tracking capability in real-time. This request would leverage the existing technology to accommodate other platforms and border surveillance applications. Specifically, transition the FORESTER prototype to an operational configuration adding User specific capabilities, including: performance improvements, platform integration, flight test execution, and demonstration of the system on new platforms.

RECOGNIZING EMERGENCY MANAGEMENT, DISASTER RECOVERY AND RELIEF EFFORTS IN ADAMS COUNTY

HON. MIKE PENCE

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PENCE. Madam Speaker, I rise today to commend and recognize the extraordinary contributions of emergency management, disaster response, and recovery personnel as well as elected officials and community leaders in my district which was devastated by the recent severe weather in Indiana.

I wish particularly to honor the Board of Commissioners, County Council, and all the other outstanding individuals in Adams County who rose to the occasion during these difficult times. This area suffered greatly from severe storms and weather, creating a catastrophe of nature that inflicted injuries, destroyed property, and displaced many of our citizens. In response, these officials went above and beyond the call of duty, showing great poise while saving many lives and serving the people of their communities.

Madam Speaker, I commend these fine men and women for their tremendous dedication to the Hoosier families, businesses, farmers and communities that they serve. As Hoosiers continue to recover from Mother Nature's fury, I feel confident that the people of Adams County will be well served by these officials.

TRIBUTE TO SFC GREG HUBBY

HON. TOM LATHAM

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. LATHAM. Madam Speaker, I rise today to recognize SFC Greg Hubby, a native of Boone, Iowa, as a recipient of a Bronze Star Medal for heroic achievement during combat operations in support of Operation Iraqi Freedom. The Bronze Star is the fourth highest award that the Department of Defense gives for bravery, heroism, and meritorious service.

SFC Hubby earned the Bronze Star while he was a retention NCO with the 3rd Infantry Battalion, stationed in Mosul. During one of his helicopter trips to another outpost, their helicopter came under fire.

SFC Hubby's bravery goes above and beyond what we are asked of as citizens of this country. Although recruiters are typically nondeployable, SPC Hubby reached out to share in the sacrifices of our other brave men and women who have served in Iraq and Afghanistan by volunteering his service at a time of need. His heroism illustrates the compassion of Iowans; willing to risk their own lives for their country. For this I offer him my utmost congratulations and thanks for his service and sacrifice for this great nation.

I commend SFC Greg Hubby's courageousness and service, and I am honored to represent him in the United States Congress. I know my colleagues join me in recognizing his service and wishing him and his family the very best in their future endeavors.

IN RECOGNITION OF THE FORT TICONDEROGA ASSOCIATION ON THE OCCASION OF THE GRAND OPENING OF THE DEBORAH CLARKE MARS EDUCATION CENTER

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mrs. MALONEY of New York. Madam Speaker, I rise today along with my colleague, the Honorable KIRSTEN GILLIBRAND to pay tribute to the Fort Ticonderoga Association, the non-profit organization chartered by the State University of New York Regents to administer the great National Historic Landmark at Fort Ticonderoga. This July, the Association will open the Deborah Clarke Mars Education Center, which will house an authentic re-creation of the magasin du Roi, or ''King's Warehouse'', that stood on the Fort's parade ground from 1756 to 1759, as well as facilities for educational programs, lectures, and symposia. This month, the Fort Ticonderoga Association also observed the 250th anniversary of one of the bloodiest conflicts of the French and Indian War, the Battle of Carillon, by staging a two-day re-enactment of the conflict.

The Fort Ticonderoga Association was organized in 1931. It has carried on the stewardship of the historic site by the Pell family, whose members have maintained the Fort since the early 19th century. William Ferris Pell, a noted businessman and preservationist, originally purchased Fort Ticonderoga and the surrounding lands to prevent the stripping of precious materials from the legendary stone forts that rest on the site. He established his summer home-turned-hotel, the Pavillion, on the beautiful grounds, offering affordable accommodations to travelers visiting the historic ruins for nearly six decades. Stephen Pell, his great-grandson, began restoration of the Fort and the Pavillion in 1908; subsequently, the site became a popular tourist destination and was added to the National Register of Historic Places.

Fort Ticonderoga and the surrounding grounds have a rich history. Its site was originally chosen for its strategic location on the Ticonderoga peninsula on the shore of Lake Champlain that protected the portage to nearby Lake George. At the time, it was the French Empire's southernmost fort in the New World and a sensitive and strategic military installation coveted by the world's two largest empires, the British and the French. This July will mark the 250th anniversary of the Battle of Carillon, a major battle in the French and Indian War in which outnumbered French troops led by Louis-Joseph le Marquis de Montcalm successfully and valiantly defeated a British attacking force. On July 8, 1758, British General James Abercromby led a British and colonial army of 16,000 men against a small French force of 3,200 entrenched at Fort Carillon (the original name of Fort Ticonderoga). Despite being outnumbered by more than 4 to 1, the French forces prevailed and forced the British to retreat. In honor of their victory, the French erected a cross on the battle site, of which a reproduction still stands at the ''French Lines'' even today. A year later, British forces under Lord Jefferey Amherst successfully conquered the Fort.

Fort Ticonderoga retained its strategic significance during the American Revolution. On May 10, 1775, American soldiers won their first victory in the Revolution when they captured Fort Ticonderoga in a surprise attack at dawn. The cannons from Ticonderoga were then hauled all the way across the Commonwealth of Massachusetts by troops led by Henry Knox, and used to successfully prosecute the Siege of Boston, driving the Redcoats away from the Massachusetts Bay.

Today, the Fort Ticonderoga Association strives to engage, educate, and entertain visitors by sharing the authentic stories of diverse cultures that met at the Ticonderoga peninsula in war and peace over the last 250 years. Its members achieve this goal through accurate historical interpretations, high standards of preservation, and able management of the Fort's world-class collections of scholarly works, through innovative educational offerings, and with operational excellence.

Under the diligent care of the Association, Fort Ticonderoga has earned numerous awards, including the Upstate History Alliance Award of Excellence, the Adirondack Architectural Heritage Award of Excellence for the Kings' Garden Restoration, and the Preservation League of New York State Award of Excellence. Fort Ticonderoga also received a State and Local History Certificate of Commendation from the American Association for ''America's First Victory.'' Clearly, its role in American history left an important legacy for Fort Ticonderoga that resonates even today.

Madam Speaker, I ask that my distinguished colleagues join me in recognizing the enormous contributions to the preservation and stewardship of American history performed by the Fort Ticonderoga Association.

PAYING TRIBUTE TO FATHER JOSEPH P. ANNESE

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PORTER. Madam Speaker, it is my distinct pleasure to rise today to honor my friend Father Joseph P. Annese by entering his name in the CONGRESSIONAL RECORD, the official record of the proceedings and debates of the United States Congress since 1873. Today I pay tribute to Father Joseph P. Annese for his years of dedicated service to the Boulder City community.

Father Joe has dedicated himself to the St. Andrew Catholic Community for thirty years. His passion for helping the community and his dedication to his calling has made Father Joe an essential part of the community.

Father Joe started his seminary years in the Divine World Seminary and was ordained in 1962. He then taught high school seminary in Erie, Pa., then in Bordertown, New Jersey, and finally in Verbum Dei High School in Watts, California. Before coming to Boulder City, Father Joe joined the Diocese of Reno/Las Vegas in 1971. He then became an associate pastor at St. James Parish in Las Vegas in 1971, where he served for one year, and was named an associate pastor at St. Christopher's Parish in North Las Vegas for five years. In 1978, Bishop McFarland assigned Father Joe as Pastor of the St. Andrew Catholic Community in Boulder City, Nevada to build an entirely new complex of church offices, parish halls, multi-purpose classrooms, and a pastor's residence. The entire parish center was built and dedicated in 1981.

Madam Speaker, I am proud to honor Father Joe for his thirty years of service. Words cannot express how much Father Joe has done for the people and the city of Boulder City. His quest to touch the lives of and help as many people as possible, his devotion to his work, and his zeal to better the community are truly commendable and I applaud all his efforts.

FAIRFAX COUNTY PLANNING COMMISSION MARKS ITS 70TH ANNIVERSARY

HON. TOM DAVIS

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. DAVIS of Virginia. Madam Speaker, I rise today to commemorate the 70th anniversary of the Fairfax County Planning Commission.

The Fairfax County Planning Commission's goal has been to advise the Board of Supervisors on all matters related to the orderly growth and development of Fairfax County. This includes the preparation of a comprehensive plan for the physical development of the county in addition to amending zoning and subdivision ordinances. The Commission provides citizens with an opportunity to voice their support for or opinion on developments in and around their community.

The Fairfax County Planning Commission was founded on Wednesday, July 6, 1938. Throughout the past 70 years, the Fairfax County Board of Supervisors has appointed a total of 121 citizens to serve as commissioners. The Planning Commission consists of two standing committees, the Personnel and Budget Committee and Policy and Procedure Committee. Additionally, there are seven subcommittees honing their focus towards capital improvement, the environment, parks, redevelopment and housing, land use process review, school facilities, transportation, and Fort Belvoir. The Planning Commission and staff have held thousands of public hearings, hundreds of committee meetings, and have forwarded thousands of recommendations to promote orderly, balanced and equitable growth.

Fairfax County is a thriving, urban county with a population that exceeds that of seven States. The median household income is one of the highest in the Nation. Over half of the adult population has at least a bachelor's degree. His also home to George Mason University. With an enrollment of over 30,000 students, GMU is a leader in science, technology and a variety of other fields. These are all signs of the county's strength. This strength has been nurtured and spurred along by the Planning Commission's foresight and vision.

Their work is not done, however; they have set an ambitious 2009 agenda. This year they will address green building, recycling and issues related to Fort Belvoir in addition to their regular duties. The actions this group takes today will continue to shape and direct this county in the years to come.

Madam Speaker, in closing, I would like to thank and send appreciation to the Fairfax

County Planning Commission and their staff for their hard work and dedication to Fairfax County. Their untiring, dynamic efforts have made Fairfax County a wonderful place to live and raise a family. I call upon my colleagues to join me in commending and congratulating the Fairfax County Planning Commission on 70 years of excellence.

PERSONAL EXPLANATION

HON. TIM MURPHY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. TIM MURPHY of Pennsylvania. Madam Speaker, on rollcall no. 470, H. Res. 1098, Supporting the goals and ideals of the Year of the American Veteran, had I been present, I would have voted ''yes.''

HONORING THE FRATERNAL ORDER OF EAGLES AERIE #1801

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. SHUSTER. Madam Speaker, it is with great pleasure that I offer my congratulations to the members and leadership of the Fraternal Order of Eagles Aerie #1801 in Somerset, Pennsylvania, who will celebrate their 100th anniversary on July 30, 2008.

Originally founded in 1898 by a group of theatre owners, the Fraternal Order of Eagles was created to act as a social haven for the like-minded. As the Fraternal Order of Eagles spread throughout the United States, they sought, as they continue to do so today, to establish a fraternal system to encourage and provide assistance to members and their families through a system of mutual insurance which provided death benefits. In 1908, the citizens of Somerset organized the Fraternal Order of Eagles Aerie #1801. Over the past one hundred years Aerie #1801 has focused on achieving their original objective, to ''make human life more desirable by lessening its ills and promoting peace, prosperity, gladness, and hope.'' They have truly succeeded in their quest.

Throughout its history, the Fraternal Order of Eagles has sought to leave a truly memorable past on the pages of history. Not only does the Eagles' historical participation consist of seven U.S. presidents, including Theodore Roosevelt, Franklin Roosevelt, Jimmy Carter and Ronald Reagan, but they have also been incredibly charitable. Across the United States the Eagles donate more than $100 million every year to charities. Members of Aerie #1801 lift up their community as well as surrounding communities by raising funds for a multitude of local and national charities. These charities include the Golden Eagles Fund, Robert Hansen Diabetes Fund, and the Jimmy Durante Children's Fund. Through actively pursuing lifting up those around them, the Eagles Aerie #1801 has truly been an integral part of Somerset, Pennsylvania. The leadership and members of Aerie #1801 have continuously provided Somerset with examples of civic leadership, charitable giving, and improving the borough in ways great and small. The Eagles have made Somerset an immeasurably enhanced place to live, work, and raise families.

The Somerset Fraternal Order of Eagles has provided a trustworthy atmosphere which has worked to help a multitude of men, women, and children throughout its history. I would like to congratulate the members and leadership of Aerie #1801 and Eagles who have assembled from across the country to be in Somerset on this occasion. I look forward to celebrating the one hundredth anniversary of such a wonderful organization, as it has brought a greater appreciation to our area and has surely been an asset to the community.

COMMENDING LIEUTENANT ANDREW PATE FOR HIS SERVICE TO THE U.S. HOUSE OF REPRESENTATIVES AND THE UNITED STATES COAST GUARD

HON. HAROLD ROGERS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. ROGERS of Kentucky. Madam Speaker, I rise today to honor Lieutenant Andrew Pate for his service to the U.S. House of Representatives and the United States Coast Guard.

As some of you may know, Lieutenant Pate was detailed to the Coast Guard's House Liaison office in July of 2006, and I am proud to have had the opportunity to work closely with him over the past two years. My colleagues, staff, and I have valued his knowledge and understanding of the Coast Guard's operational missions, day-to-day challenges, and roles and responsibilities.

Lieutenant Andrew Leigh Pate is a native of Wesley Chapel, Florida. In the summer of 1998 he enrolled at the United States Coast Guard Academy, with summer duty assignments onboard Coast Guard cutters *Northland, Eagle* and *Drummond*. First elected as Treasurer of his Academy Class in 1998, Lieutenant Pate has served continuously as President of his Academy Class since the spring of 2000.

In May of 2002, Lieutenant Pate graduated from the Academy with a Bachelor's degree in Government. His first assignment was onboard the High Endurance Cutter USCGC *Gallatin* (WHEC 721) home ported in Charleston, South Carolina. While onboard *Gallatin,* Lieutenant Pate served in a variety of positions including Assistant Operations Officer, Combat Information Center Officer, and Maritime Law Enforcement Boarding Officer. His tour highlights include the interdiction and repatriation of over 570 Haitian migrants during Operations Able Manner and Able Sentry.

In June of 2004, Lieutenant Pate transferred to Fort Myers Beach, Florida as the fourth Commanding Officer of the 87-foot Coastal Patrol Boat USCGC *Marlin* (WPB 87304). From June 2004 to July 2006, *Marlin* successfully conducted over 250 law enforcement boardings in an operational area covering more than 108,000 square miles. These efforts resulted in the apprehension of 10 wanted fugitives, the voyage termination of 18 commercial fishing vessels for hazardous safety conditions and the interdiction and repatriation of over 150 Cuban migrants attempting to illegally enter the United States. Under Lieutenant Pate's command, *Marlin* safely evaded six major Hurricanes and conducted a total of 21 Search and Rescue cases saving the lives of 50 people.

Two years ago, Lieutenant Pate reported to the Hill as an Assistant House Liaison Officer for the Coast Guard. Since arriving in 2006, Lieutenant Pate has worked tirelessly to provide Members of Congress and their staff with timely, accurate, and detailed information needed to fulfill their duties. Through his careful planning and execution of dozens of Congressional Delegation trips and hundreds of briefings, Lieutenant Pate clearly articulated Coast Guard views in support of needed authorities and appropriations, working constructively with the Congress to ensure careful stewardship of resources.

On July 14, 2008, Lieutenant Pate will leave his post in the House Liaison Office and report to the Office of Senator ROGER WICKER (MS) for a one-year assignment as a Military Fellow.

I am proud to know and pay tribute to him in the United States Congress. On behalf of the Representatives and staff who have been fortunate enough to know and work with Andrew, I wish him, his wife Kristen, and their son Aidan, clear skies and following seas.

NISEI BASEBALL

HON. DORIS O. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Ms. MATSUI. Madam Speaker, I rise today in tribute of Nisei Pioneer Day and the past generations of Japanese American baseball players, coaches, and teams. For over a century, Japanese American baseball has been a strong bond that brought communities and cultures together while also teaching good sportsmanship. As the Japanese American community and baseball fans gather to celebrate the Nisei Pioneer Day Program in Sacramento, I ask that all my colleagues join me in honoring Nisei baseball.

Baseball has been an important sport in the Japanese community since it was first introduced in Japan in 1872 by American school teacher Horace Wilson. By the turn of the century baseball had become the Nation's most popular sport and in 1905 Japan's national champion Waseda University team toured the United States competing against various American colleges. Unfortunately, during this same time, anti-Japanese movements were on the rise in the United States. During this difficult time, Nisei baseball was able to bring Japanese Americans into the Nation's mainstream.

The 1920s and 1930s are often referred to as the ''Golden Age'' of Japanese American baseball. During this time many Japanese American communities across the West Coast were organizing teams and leagues. This brought the Japanese American community together in the wake of increasing anti-Japanese legislation. While laws such as the Immigration Act of 1924 were effectively ending Japanese immigration into the United States, baseball was providing a valuable bridge between the East and West Coast cultures for Issei and

Nisei here in the United States. It continued to play an important role in defining and developing a cultural identity throughout the 1930s.

After the bombing of Pearl Harbor and President Roosevelt's Executive Order initiating the removal and incarceration of Japanese Americans, the tradition of baseball resonated within these communities. Daily baseball games not only served as a distraction from the monotony of the internment camps, but it also provided them with a sense of normalcy and community. Today we celebrate the historical impact Nisei baseball has had not only on the Japanese American community in the United States, but across our Nation as a whole. It provided a sense of community during one of the darkest periods of our Nation's history.

In recent years Japanese ballplayers have helped transform the game of baseball at the highest levels. Japanese players competing at the major league level, such as Ichiro Suzuki, Hideki Matsui and Hideo Nomo, have been instrumental in attracting new fans to the sport. The success of these major leaguers and the strides made by past Nisei and Issei ballplayers have led to a rich and rooted history that can be celebrated for generations to come.

I am honored to pay tribute to a century of Japanese American baseball and the enduring effect it has had on the Japanese American community. On behalf of the people of Sacramento and the Fifth Congressional District of California, I ask all my colleagues to join me in commemorating the past and present Japanese American baseball pioneers and their lasting legacy on our country.

HONORING SANDRA M. BODIN

HON. LOIS CAPPS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mrs. CAPPS. Madam Speaker, today I rise to honor Sandra M. Bodin, who just completed her services as President of the American Nephrology Nurses' Association, ANNA, for her dedication and contributions to nephrology nursing and kidney patients across the country.

ANNA is one of the largest and most prestigious nursing associations in America. The organization is the recognized leader in nephrology nursing practice, education, research, and advocacy. ANNA's members are registered nurses and health care professionals at all levels of practice. They care for patients of all ages who are experiencing, or are at risk for, kidney disease. The organization's mission is to advance nephrology nursing practice and positively influence outcomes for patients with kidney or other disease processes requiring replacement therapies through advocacy, scholarship, and excellence.

As an active member of ANNA, Sandra has served as President, Vice President, and as a member of the Board of Directors. Also, she received the Ron Brady Memorial Award for Excellence in Volunteer Leadership from ANNA in 2002.

As ANNA's president Sandra has inspired nephrology nurses to reach the highest levels of practice and patient care. She is a visionary leader who has implemented a broad range of initiatives that will continue to improve care for patients whose lives depend on dialysis and other kidney replacement treatments.

Professionally, Sandra graduated with a Bachelor of Arts and a Master of Arts in Nursing from the College of Scholastica in Duluth, Minnesota. She became a Registered Nurse in 1977 and a Certified Nephrology Nurse in 1992. Sandra currently is the lead Clinical Informatics Analyst and Application Coordinator at the SMDC Health System in Duluth Minnesota. Sandra has also worked at the Miller-Dawn Medical Center and St. Mary's Hospital, both in Duluth.

I honor her efforts to promote the care of those suffering from kidney disease. I recognize her achievements as a nurse, patient advocate, and healthcare leader. I commend Sandra on her service to the American Nephrology Nurses' Association and our country.

Please join me in commending Sandra M. Bodin for her years of vision, leadership, and commitment.

TRIBUTE TO THE MISSOURI NATIONAL GUARD

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. SKELTON. Madam Speaker, let me take this means to recognize the brave men and women of the Missouri National Guard, for their commitment to providing flood relief.

The Missouri National Guard Citizen-Soldiers and Airmen have been mobilized by Missouri government leaders to assist in the Missouri emergency flood response. The members have been mobilized in the communities of Clarksville, Hannibal, Canton, West Quincy, LaGrange, Winfield, Alexandria, St. Charles City, and St. Charles County. Those supporting the flood response are assisting in missions that include sandbagging operations, levee monitoring, and manning traffic control points. Since the mobilization of forces, more than 1,000 Guard members have responded to the call to duty. With force rotations, there are currently around 700 members on active duty.

Personnel have come from across the state to aid Missouri towns during this emergency. These units include the 7th Civil Support Team from Fort Leonard Wood; the 135th Military History Detachment from Jefferson City; the 835th Combat Support Sustainment Battalion from Jefferson City; 735th Quartermaster Company with detachments in DeSoto, Jefferson City, Rolla, Cape Girardeau and Jefferson Barracks; the 1138th Transportation Company from Jefferson Barracks; the 1035th Maintenance Company from Jefferson Barracks; 3175th Chemical Company from St. Peters; the 1438th Engineer Company from Macon and Kirksville; the 220th Engineer Company from Festus; the 880th Haul Team from Perryville; the 1137th Military Police Company from Kennett, Jackson and Doniphan; the 1138th Military Police Company from West Plains and Springfield; the 1175th Military Police Company from St. Clair and St. Louis; 1140th Engineer Battalion from Cape Girardeau; the 205th Military Police Battalion from Poplar Bluff; the 203rd Engineer Battalion from Joplin; the 131st Fighter Wing from St. Louis; the 1138th Engineer Company (Sapper) in Farmington; and the 70th Troop Command from Jefferson Barracks.

I know the Members of the House will join me in recognizing the outstanding dedication of the Missouri National Guard, and in wishing them luck throughout this emergency operation.

INTRODUCTION OF THE NATIONAL GUARD TECHNICIAN RECRUITMENT AND RETENTION ACT

HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. COURTNEY. Madam Speaker, I am proud to introduce legislation today that will restore fairness for our military technicians, who work every day in Connecticut and across the Nation to support our National Guard.

If the National Guard serves as the backbone of our military, then our military technicians serve as the backbone of our National Guard. They play a critical role in ensuring that our National Guard is ready to respond and deploy in support of military operations abroad by supporting the training, equipment repair and restoration, logistics and other critical functions.

Military technicians are known as ''dual-status'' employees, through which they must retain membership in the Air or Army National Guard in their State in order to maintain full-time employment as a technician. Dual-status military technicians are subject to the restrictions of the Technician Act of 1969, 32 USC 709, and other provisions of the law under which they are specifically prohibited from receiving certain benefits and rights available to them as members of the National Guard, such as reenlistment bonuses and student loan repayment assistance. In addition, if a member of the National Guard becomes a technician within 6 months of receiving an enlistment or reenlistment bonus, the Department of Defense can, and often does, require them to pay back those bonuses.

The law also fails to fairly compensate technicians for the increased overtime hours that technicians must work to fulfill their mission by providing technicians compensatory time, rather than monetary compensation, in return for overtime work. Many technicians cannot use the compensatory time without impacting time-sensitive military work schedules and, with the military's current ''use it or lose it'' policy under which such time is lost if unused within 21 pay cycles, many technicians face the prospect of losing the time off they have earned.

Last summer, I had the chance to visit the 1109th Aviation Classification and Repair Depot, AVCRAD, in Groton and see first hand the work they were doing to support of our National Guard. There, nearly 300 military technicians provide maintenance and logistics for aircraft and equipment for 14 States across the northeast and supports Connecticut's fleet of Black Hawk helicopters. During my visit, the leadership of the unit described how busy the facility has been over the past several years. They've literally been burning the midnight oil in trying to keep up with the demand of keeping equipment repaired and ready to deploy. It's an incredible operation, and one that is

just so important to our military serving in harm's way.

Just recently, about 150 members of the AVCRAD—many of them military technicians—deployed just last week in support of Operation Iraqi Freedom. Yet, as these technicians deploy abroad side by side with their fellow guardsmen, they are not treated equally because of their full time employment as a military technician. At a time when we rely on military technicians more than ever to ensure that our Armed Forces are ready to serve, I strongly believe that we must do more to support, recruit and retain both our skilled military technicians and dedicated members of the National Guard. We must update outdated 30-year-old laws to ensure that they adequately reflect the challenges and needs of today's military technician.

The bill I am introducing today, the National Guard Technician Recruitment and Retention Act, would restore fairness for our National Guard technicians. The bill ensures that no military technician is denied the opportunity to receive an enlistment or reenlistment bonus for their service in the National Guard, that they are given the opportunity to participate in a student loan repayment program and are not required to repay bonuses they receive for their service in the National Guard if they accept a position as a military technician. And, the bill will repeal the overtime prohibition against overtime pay for National Guard technicians and instead provide for flexibility in overtime compensation by allowing military technicians to chose between compensatory time or overtime pay at one and a half times their basic rate of pay—whatever suits their individual situation and needs.

Madam Speaker, if a military technician can train, serve and deploy as a member of the National Guard, I do not think it is too much for them to ask to keep the benefits they deserve for their service in the National Guard. With all we ask of them today, I simply disagree with the notion that a member of the National Guard has to give up the benefits they are entitled to because they chose to serve their Nation as a military technician. Military technicians are the ones that keep the National Guard ready to serve—and it is time that we serve them.

I urge my colleagues to join me in supporting this important legislation.

TRIBUTE TO COURTNEY RAYLE

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. HOYER. Madam Speaker, today I rise to offer my congratulations to Courtney Rayle, the winner of the Masters Division of the 67th Greater Washington Soap Box Derby held in our Nation's Capital on June 22.

I am very pleased that Miss Rayle, who is a resident of Mechanicsville, Maryland and my constituent, has now earned the right to compete in the 71st Annual All-American Soap Box Derby national championship on July 26 in Akron, Ohio. Courtney has worked tirelessly to earn such a noteworthy win; due to her hard work, the victory marks the seventh time someone from the Rayle family has won the Greater Washington Soap Box race. This year will be the 19th time a member of the Rayle family will race in Akron. Courtney joins Jimmy Rayle Sr., Billy Rayle, Jimmy Rayle Jr., and Jeff Rayle in a long tradition of excellence in this sport. As Courtney now looks to compete for the national soap box title, I, along with the people of Maryland, wish her the best of luck.

The origin of soap box derby racing dates back to 1934 when a photographer for the Dayton Daily News in Ohio, Myron E. Scott, saw boys racing engineless cars down a hill, inspiring him to organize a race and award the winner with a ''loving cup.'' The venue was later moved to Akron—the site of today's national derby championship—on account of the numerous hills. With the hard work of countless civic organizations, a permanent track site for the youth racing classic was created in Akron with the assistance of the Works Progress Administration (WPA).

The All-American Soap Box Derby is the second-oldest racing event in the Nation—second only to the Indianapolis 500. This event has been called the greatest amateur racing competition in the world, and it is an excellent opportunity for contestants from all around the country to learn building skills while gaining a real sense of accomplishment. Congratulations to all of this year's competitors, and congratulations once again to Miss Courtney Rayle.

HONORS THE SOCIETY OF ST. TROFIMENA AS THEY CELEBRATE THEIR 100TH ANNIVERSARY

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Ms. DELAURO. Madam Speaker, it is my great pleasure to rise today to join my neighborhood, Wooster Square in New Haven, Connecticut, and the Italian-American community in celebrating the 100th anniversary of the Society of St. Trofimena. Founded in a home on Wooster Street in December of 1908, 100 years later, the Society of St. Trofimena continues to play an integral role in the lives of many of the families of Wooster Square.

Immigrating to the United States in 2004, a group of Minoresi, families from the town of Minori, Italy, came to America in search of work and made New Haven their home. In an effort to provide mutual aid and comfort to each other they decided to form a fraternal group—the Society of St. Trofimena, Virgine & Martine. According to its original by-laws, its primary purpose was to unite all descendents of the town of Minori and to increase and spread the devotion of St. Torfimena. As a tribute, Antonio Esposito commissioned and donated to the society a statue of St. Trofimena that was made in Italy and shipped to New Haven. This statue has been used in all of the festivals honoring her and has been paraded through the streets of Wooster Square.

The society flourished for more than 50 years before membership began to wane, however, in 1980 a group of descendents, spearheaded by Frances D'Amato Crisci and her brother Anthony D'Amato met to reorganize. In the years since its inception, members of the Society of St. Trofimena assumed a critical responsibility—maintaining the Italian heritage that thousands of Greater New Haven residents share. Each year, the Society of St. Trofimena keeps our community spirit alive honoring St. Trofimena on her feast day of July 13 and at a mass in memory of her deceased members in November. It is through efforts such as these that we renew our history and help pass it along.

Forged through the bonds of family, the members of the Society of St. Trofimena continue to be active in the community—enriching our neighborhood and ensuring that our rich history is not forgotten by new generations. The original mission of the society is still apparent today as we gather to celebrate their centennial anniversary. It is with great pride that I stand today to extend my deepest thanks and warmest congratulations to the members of the Society of St. Trofimena on their 100th anniversary.

PAYING TRIBUTE TO ROBERT JAMES GARLOW

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PORTER. Madam Speaker, it is my distinct pleasure to rise today to honor Mr. Robert James Garlow by entering his name in the Congressional Record, the official record of the proceedings and debates of the United States Congress since 1873. Today, I honor Mr. Garlow for his extensive service to both our country and community.

Mr. Garlow joined the U.S. Air Force on October 19, 1966. He graduated Officer's Training School in 1967 and earned his Master's in Engineering Facilities in 1974. Mr. Garlow's service as an engineer in the Air Force took him and his wife Susan around the globe, with assignments in Texas, New Mexico, Japan, North Dakota, Ohio, Germany, Panama City, and Spain before his arrival at Nellis Air Force Base in Las Vegas, Nevada in July of 1983. Since that time, Robert and Susan have called Boulder City, Nevada home. During this time, Mr. Garlow received his Nevada registration as a Professional Civil Engineer.

In 1986, Robert retired from the Air Force as a Civil Engineer Officer with the rank of Major after 20 years of service. Since his retirement from the military, Robert has worked in the Las Vegas Valley as a Director of Facilities for numerous companies and most recently retired from the City of North Las Vegas where he worked as a Senior Project Manager.

Mr. Garlow is a member of the Veterans of Foreign Wars (VFW), Military Order of the Cootie (MOC), Vietnam Veterans of America, and Scottish American Military Society (SAMS). He has served as Chairman of the Nevada Veterans Assistance League and the Veterans Cemetery Volunteer Group. Mr. Garlow volunteers a great deal of his time to these two organizations and has been an advocate and supporter to our veterans in Southern Nevada.

Madam Speaker, I am proud to honor Mr. Robert James Garlow for his most recent retirement, his continued volunteerism in the community, and wish him the best in his future endeavors.

MEDICARE IMPROVEMENTS FOR PATIENTS AND PROVIDERS ACT OF 2008

SPEECH OF

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 24, 2008

Ms. WOOLSEY. Mr. Speaker, H.R. 6331, the Medicare Improvements for Patients and Providers Act will delay cuts in physician payments under Medicare until next year. I hope that this is the last temporary delay and next year we will implement a permanent fix to this problem. It's important to Medicare patients and physicians that there is a continuity of payments so physicians can continue to treat Medicare patients and Medicare patients do not lose access to the physician most familiar with their medical needs.

When we implement a permanent fix to the Medicare physician payment cuts, I hope to address the issue of the Medicare physician geographic payment discrepancy that is faced by many areas in California and across the country. One of these areas is Sonoma County, in my District. This inconsistency has led to doctor's reimbursements being based upon geographic location and not the true cost of providing services. Because of this discrepancy, doctors in Sonoma County receive a lower payment for the same services than doctors in next door Marin County and this discrepancy is causing doctors to leave Sonoma County. Congress must act to fix this discrepancy and ensure that physicians with Medicare patients can continue to afford to see Medicare patients regardless of where a practice is located.

I urge my colleagues to support H.R. 6331, Medicare Improvements for Patients and Providers Act and look forward to working together to provide a permanent solution to the Medicare physician payment issues so that our Nation's seniors receive the best possible care from the physician who knows the patient the best.

IN HONOR OF DR. J. FREDERICK GRASSLE

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PALLONE. Madam Speaker, I rise today to honor Dr. J. Frederick Grassle on his retirement from the Institute of Marine and Coastal Sciences at Rutgers, the State University of New Jersey. Dr. Grassle served as director of the Institute for 19 years.

Under Dr. Grassle's direction, the Institute gained a national and international reputation for excellence in marine and coastal research, education and service.

Dr. Grassle's creativity and vision led to establishment of the world's first undersea observatory, commonly known as LEO–15. This achievement enabled development of the Nation's Integrated Ocean Observing System that now supports critical national missions associated with saving lives at sea, enhancing homeland security, and forecasting effects of natural disasters.

Dr. Grassle is known for his innovative thinking and many scientific achievements, which are highlighted by his pioneering work on the biology of hydrothermal vents, biodiversity, and effects of waste disposal in deep sea systems. He devoted his time and effort to ensure that the results of science were transferred in a timely manner to environmental managers and policymakers. His work on waste disposal culminated into a national policy change based on his scientific findings and testimony before Congress.

Serving the state of New Jersey, Dr. Grassle advanced novel approaches for disposal and management of contaminated sediments that helped to preserve the region's port industry and coastal-based economy. He also fostered new approaches to science education that have enriched the critical thinking skills of youth in New Jersey and throughout the Nation.

Madam Speaker, I sincerely hope that my colleagues will join me in celebrating the service of Dr. J. Frederick Grassle, a man whose deep commitment to excellence in marine and coastal research, education for all ages, and services to resource managers have enabled New Jersey to be a national and international leader in these fields.

MEDICARE IMPROVEMENTS FOR PATIENTS AND PROVIDERS ACT OF 2008

SPEECH OF

HON. PATRICK J. KENNEDY

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 24, 2008

Mr. KENNEDY. Mr. Speaker, I rise in support of H.R. 6331, the Medicare Improvement for Patients and Providers Act. This important bill includes mental health parity for Medicare beneficiaries. Currently, there is a discriminatory 50-percent copayment requirement for mental health services, while a 20-percent copayment exists for physical health care services under Medicare.

As the lead sponsor of H.R. 1424, the Paul Wellstone Mental Health and Addiction Equity Act, I am fighting to enact mental health parity for individuals who receive their insurance in the private sector. Federal employees, including Members of Congress, have had equal access to mental health and addiction services since 2001 with little or no cost increase. It's time for the private sector and Medicare to join in this effort to protect the health of all Americans, regardless of age or diagnosis.

In my home State of Rhode Island, I spend countless hours in senior centers and high-rises talking to my constituents, and it's clear that there is an epidemic of undiagnosed and untreated mental illness among older Americans. In fact, as many as one-quarter of seniors have significant clinical depression. But the one thing we must remember is that depression does not have to be a byproduct of aging—it isn't "normal" to get depressed as you get older. Allowing mental illness to go untreated in our seniors is not only unethical, but it increases health care costs, especially for those seniors with depression who are unable to manage their chronic illnesses.

Tragically, only 3 percent of older adults with mental illness ever seek mental health treatment. Often, this is due to stigma. Stigma that is reinforced by our reimbursement structure that favors the treatment of our physical health over our mental health. H.R. 6331 ends this stigma by phasing in a 20-percent copayment for Medicare mental health services over 6 years. By ending arbitrary and discriminatory financial limits and making treatment more affordable, we can ensure that all seniors have access to mental health services. I urge my colleagues to support H.R. 6331.

HONORING FORMER VICE MAYOR MICKEY NOVACK OF SURFSIDE ON HER 90TH BIRTHDAY

HON. ILEANA ROS-LEHTINEN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Ms. ROS-LEHTINEN. Madam Speaker, I rise to honor one of South Florida's most outstanding citizens, the Honorable Mickey Novack, who recently turned 90. In the aftermath of the Second World War, former Surfside vice mayor Novack left London, where she was born, and came to this country. Having arrived in New York, she later moved to Surfside, Florida, where she established herself as an exemplary citizen both in her public and family life.

Former vice mayor Novack has contributed to many different types of organizations in her community, in several different capacities. She has consistently played a proactive role in Surfside and was both the vice mayor and the commissioner of the city's government. She has also utilized her financial expertise in her positions of president of the Surfside Taxpayers Association and as the treasurer of numerous other organizations. These range from the PTA to Women in Government Service. Professional life aside, she has been the cornerstone of a family dedicated to public service, education and the improvement of their community.

The fervor and ardor with which former vice mayor Novack devoted herself to the community and her family in conjunction with her life achievements are truly inspirational. I am proud to represent her as her Congresswoman and delighted to share with you her achievements.

HONORING MR. DICK DEITZ

HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. SHIMKUS. Madam Speaker, I rise today to congratulate and honor Mr. Dick Deitz of McLeansboro, Illinois.

Mr. Deitz is to be inducted into the 2008 National High School Hall of Fame, the highest honor that an individual associated with high school sports can receive. This Hall of Fame honors athletes, coaches, officials, and administrators for their extraordinary achievements in high school sports.

Mr. Deitz has been working as a football, basketball, and baseball official in Illinois since 1958 and has been the state's rules interpreter in basketball and baseball since 1976.

He is the head official for the Illinois High School Association (IHSA) football playoffs, and he is an IHSA clinician in both football and basketball.

Mr. Deitz officiated state tournaments in boys basketball and state finals in football; making him one of a select few in the State to work finals in both major sports. He was inducted into the Illinois Basketball Coaches Association Hall of Fame in 1998, and since 1993, he has been mayor of McLeansboro, Illinois.

I extend my congratulations to Dick Deitz and his family for his impressive accomplishments and his induction into the National High School Hall of Fame.

ALTERNATIVE MINIMUM TAX

HON. TIM MAHONEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. MAHONEY of Florida. Madam Speaker, as I stated for the record on June 26, 2008, I missed votes on June 25, 2008, due to the funeral of my friend, Mason Smoak.

One of the votes I missed was a vote on the Alternative Minimum Tax (AMT). I applaud our leadership for its work to ensure that the AMT does not hit middle- and working-class families in a way that would not increase our national debt. I have voted against the AMT in the past—and, had I been able to vote on June 25, 2008, I would have voted ''no''—because changing the taxation on carried interest sends the wrong message that Congress values money more than ingenuity, with the unintended consequences potentially being a constriction of private capital to America's small businesses. It is my hope that Congress will continue to address this vital issue responsibly and in a bipartisan manner.

VETERANS HEALTH SCHOLARSHIP ACT OF 2008

HON. STEVE BUYER

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. BUYER. Madam Speaker, today I am introducing the Veterans Health Scholarship Act of 2008. This legislation would extend the authority of the Department of Veterans Affairs, VA, to reinstate the Health Professional Scholarship Program and give priority to veterans in awarding these scholarships.

VA is known for its high quality health care. However, the supply of highly trained medical personnel is not growing as fast as the demand, and VA struggles to recruit highly trained health care professionals critical to providing veterans the care and services they need.

The Health Professional Scholarship Program was originally established to improve recruitment and retention and help reduce the national nursing shortage. VA lost an important tool to meet their current and anticipated staffing needs when the program expired in 1998 and was not reinstated. As concerns over recruitment and retention of health care professionals increase, it is especially important that we enhance opportunities to educate a new generation of VA health care providers. Reinstating the authorization for this program will provide VA another tool to attract qualified health professionals to care for our nation's veterans.

Even as VA is experiencing recruiting difficulties, many servicemembers from Operation Iraqi Freedom and Operation Enduring Freedom are trained combat medics responsible for providing frontline trauma care on the battlefield. When they come home, we can provide the opportunity for these new veterans to continue their medical education, and use their knowledge and experience to provide needed services to their fellow veterans.

Madam Speaker, the quality of health care available to our veterans is dependent on the ability of VA to recruit and retain qualified health care personnel. I hope my colleagues on both sides of the aisle will join me in this effort to build a new generation of health care professionals and cosponsor the Veterans Health Scholarship Act of 2008.

RECOGNIZING EMERGENCY MANAGEMENT, DISASTER RECOVERY AND RELIEF EFFORTS IN WAYNE COUNTY

HON. MIKE PENCE

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PENCE. Madam Speaker, I rise today to commend and recognize the extraordinary contributions of emergency management, disaster response, and recovery personnel as well as elected officials and community leaders in my district which was devastated by the recent severe weather in Indiana.

I wish particularly to honor the Board of Commissioners, County Council, and all the other outstanding individuals in Wayne County who rose to the occasion during these difficult times. This area suffered greatly from severe storms and weather, creating a catastrophe of nature that inflicted injuries, destroyed property, and displaced many of our citizens. In response, these officials went above and beyond the call of duty, showing great poise while saving many lives and serving the people of their communities.

Madam Speaker, I commend these fine men and women for their tremendous dedication to the Hoosier families, businesses, farmers and communities that they serve. As Hoosiers continue to recover from Mother Nature's fury, I feel confident that the people of Wayne County will be well served by these officials.

PAYING TRIBUTE TO MARY EATON

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PORTER. Madam Speaker, it is my distinct pleasure to rise today to honor my friend Mary Eaton by entering her name in the CONGRESSIONAL RECORD, the official record of the proceedings and debates of the United States Congress since 1873. Today, I pay tribute to Mary Eaton of Boulder City, who celebrated her 100th birthday on April 14, 2008.

Mary moved to Boulder City with her husband, Bruce Eaton, on July 4, 1932, where Bruce worked on the Hoover Dam project. Mary cared for their children and stayed home until Bruce enlisted in the Army in 1942. Mary stayed in Boulder City and began working as a home economics teacher, and continued to teach middle school and high school for 13 years. She eventually became the first president of the classroom teachers, the union at the time, and also participated in many groups, such as Volunteers of America, Eastern Star, Rainbow Girls. She was a charter member of Grace Community Church.

Madam Speaker, I am proud to honor Mary Eaton for her achievements and dedication to the Boulder City community. I applaud her efforts. I wish her a happy centennial and all the best in her future endeavors.

REGARDING H.R. 6381, THE MEDICAL DEVICE SAFETY ACT OF 2008

HON. BRUCE L. BRALEY

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. BRALEY of Iowa. Madam Speaker, I rise in support of H.R. 6381, the Medical Device Safety Act of 2008. I am proud to be an original cosponsor of this legislation, which will address the Supreme Court's flawed decision in Riegel v. Medtronic that completely ignored Congressional intent regarding the ability of injured patients to hold medical device manufacturers accountable for their injuries. This bill will restore Congress's original intent to allow injured patients to seek recourse for their injuries suffered at the hands of negligent device manufacturers.

American patients need the Medical Device Safety Act of 2008 to ensure that they have the ability to hold negligent device manufacturers accountable for injuries caused by unsafe products. It also would prevent these manufacturers from receiving total immunity from any claims simply by virtue of receiving a Food and Drug Administration device approval.

It is important for Congress to quickly make its intent clear, as the Supreme Court will likely take up a parallel issue this fall regarding accountability for pharmaceutical manufacturers. Earlier this year, I was proud to participate in a hearing in the Committee on Oversight and Government Reform which looked deeper into this issue. Witness testimony made it clear that when we allow the FDA to have the final say on device safety, patient safety is compromised. Strong State laws are critical to maintaining accountability for device manufacturers, and allowing the FDA to preempt these State laws is a surefire way to lead to negligence and the production of unsafe products.

The civil justice system and the Federal regulatory system were always meant to complement each other. Both are necessary to adequately protect Americans. The FDA simply cannot do it alone. The agency is understaffed and underfunded, and I support additional funding to help this critical agency. However, allowing the buck to stop solely with the FDA on issues of life and death is simply contradictory to our system of checks and balances. This is just one more reason that it is

vital that Congress pass the Medical Device Safety Act of 2008 to restore the balance between the civil justice system and the Federal regulatory system that Congress intended when it passed the Medical Device Amendments of 1976.

HONORING GENERAL T. MICHAEL ''BUZZ'' MOSELEY'S CAREER OF PUBLIC SERVICE

HON. SAM JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. SAM JOHNSON of Texas. Madam Speaker, I rise today to pay special tribute to General T. Michael ''Buzz'' Moseley, 18th Chief of Staff of the U.S. Air Force, an exemplary patriot and extraordinary leader, who, on July 9, 2008, completed 37 years of distinguished service to our Nation.

General Moseley began his accomplished career at Texas A&M and Webb AFB, where he earned his wings in 1973. He proceeded to a series of demanding assignments as flight instructor, test pilot and mission commander. His peerless operational skills were honed by the most prestigious positions, to include command at every level—most notably the Air Force Fighter Weapons School, the 9th Air Force, and the U.S. Central Command Air Forces. General Moseley led airmen in peace, crisis, and war—from Operation Southern Watch, through the harrowing days in the wake of September the 11, 2001, to engaging the Taliban in Operation Enduring Freedom and the destruction of Saddam Hussein's war machine in Operation Iraqi Freedom.

The breadth of General Moseley's assignments and the professionalism with which he has carried them out, reflect a keen intellect and unrivaled grasp of national security policies and air power's role in implementing them. Equally impressive, has been General Moseley's staunch, consistent advocacy of inter-Service and international cooperation as the most effective way of assuring allies, dissuading and deterring adversaries, and defeating implacable foes.

A brilliant speaker with a sharp wit and endearing style, General Moseley has frequently testified before the Congress on a wide variety of issues critical to the Air Force's—and the Nation's—readiness to face an uncertain future. However controversial the topic or pointed the questioning, he has always been a most poised, eloquent proponent of balancing current exigencies with future requirements. His focus has remained unwavering: assure that USAF remains America's asymmetric advantage—our Nation's multidimensional, global maneuver force—the force of first and last resort.

As the 18th Chief of Staff and a member of the Joint Chiefs of Staff from September 2005 to August 2008, General Moseley has been a trusted advisor on all aspects of airpower and its key role in promoting and defending America's interests at home and abroad. His 37 years of distinguished service epitomize bold leadership, strategic vision, intellectual flexibility, innovation, honor, integrity, dignity and selfless devotion.

His exceptional grasp of war-fighters' needs, born of his own combatant experience, has enabled the Air Force to provide unprecedented Global Reach, Global Vigilance and Global Power for both traditional and non-traditional missions. Under his leadership, the Air Force spread its wings over America's cities, delivered relief to victims of tsunamis and hurricanes, expanded international ties to reassure allies and deter enemies—all while flying and fighting as an indispensable part of the Joint force in Iraq, Afghanistan and other theaters of the Global War on Terror.

His commitment to his Airmen has been peerless. In a constrained fiscal environment—and with lives in the balance—General Moseley's uncommon courage, expertise and foresight have forged a set of transformational initiatives designed to spark an intellectual renaissance while recapitalizing an aging air fleet, worn down by 18 years of continuous combat. He has sought to provide his Airmen with the quality of life they deserve, while seeing to their training, education and leadership. He has refocused the Service on a single core mission: bolstering warrior ethos and fostering joint and combined synergies.

He has worked tirelessly to reinvigorate the innovation, flexibility, and creative, strategic thinking that have been Airmen's hallmarks since the dawn of aviation. In the context of this conceptual, organizational and technological transformation, General Moseley has redefined the Air Force for the 21st Century, ensuring that America's guardians will continue to fly, fight and win in both today's battles and in tomorrow's crucibles.

While many distinguished awards and decorations adorn his uniform—from his own grateful Nation as well as from such staunch allies as Britain, France, Korea, Brazil, Singapore, and the UAE—what stands out most and what we honor him for today is his unflinching commitment to the cause of freedom and justice. General T. Michael ''Buzz'' Moseley has earned the deepest respect from all whom he has served during his illustrious career—most notably this Congress and a grateful Nation.

PROMINENT CARIBBEAN AMERICANS RECOGNIZED DURING CARIBBEAN AMERICAN HERITAGE MONTH

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. RANGEL. Madam Speaker, I rise today to recognize the profiles of four prominent members of the Caribbean Diaspora during Caribbean-American Heritage Month that were featured in a special section of CaribNews, a New York based publication that serves as the voice of the Caribbean Diaspora community.

Jamaican American, Beryl Levi, is the President of a successful frozen food company. Mrs. Levi and her husband started the company with high hopes and countless well-wishers. Today, Tower Isle Frozen Foods is considered ''the pioneer Jamaican food processing company in the U.S.''

Rosemonde Pierre-Louis is a Haitian American and the Deputy Borough President of Manhattan. Ms. Pierre-Louis completed her undergraduate studies at Tufts University in Massachusetts and obtained her law degree from Case Western University School of Law. Justice Sylvia Hinds-Radix sits on the Supreme Court of New York and is the first Barbados national to serve in that capacity. Justice Hinds-Radix has been an advocate for the poor since the beginning of her career. She credits her family for her success and for her motivation to be a voice to the voiceless in her community.

Michael Flanigan is the Community Relations Director for Citi Bank in the Brooklyn and Staten Island region and serves on several boards of directors. Mr. Flanigan started his education at Jamaica College and went on to earn a masters in finance and marketing from New York University. Mr. Flanigan believes that ''hard times shouldn't dissuade us from our goals'' and wants to help others achieve their goals by becoming more involved in philanthropy.

Many more Caribbean Americans have contributed to the American fabric than those that were mentioned today. I would like us as a nation to recognize the struggles and victories of the Caribbean community and how important their work is to the history and continued triumph of America. I would like to take this opportunity during Caribbean-American Heritage Month to celebrate the contributions of all Caribbean Americans to our Nation.

IN RECOGNITION OF SYRACUSE BROADCASTER MIKE PRICE

HON. JAMES T. WALSH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. WALSH of New York. Madam Speaker, I rise today to honor Mike Price, a Syracuse broadcasting legend, as he retires after 46 years at NewsChannel 9 WSYR.

Mike began his career with Channel 9, then WIXT–TV, on September 2, 1962 just before the station went on air for the very first time. He quickly grew to earn a reputation for being an honest and good natured broadcaster who treated all people with deep respect. Mike rose to fame through his portrayal of the character ''Baron Daemon,'' a vampire that hosted late night horror shows. His character became so popular that the station added a late afternoon show titled ''Barron and his Buddies.'' Additionally, Mike recorded a popular single called ''The Transylvania Twist,'' which is played every Halloween. For 25 years, Mike was the anchor of ''Good News'' on NewsChannel 9, which recognized community happenings and school groups across the Syracuse area. Mike's hard work and dedication to NewsChannel 9 helped the station to reach the number one spot in local ratings.

Mike Price valiantly served his country for 30 years as a Chief Petty Officer in the U.S. Coast Guard Reserve, serving in the Persian Gulf War in 1991. He went on to produce a documentary about his experiences during this time that received several awards. Mike is a Syracuse native, attending Onondaga Valley Academy and Syracuse University. Additionally, he is the recipient of the Syracuse Press Club's Career Achievement Award. After undergoing open-heart surgery in 2001 and sharing his recovery with viewers, Mike has been an inspiration and a valuable resource to many who undergo the same treatment.

On behalf of the people of the 25th District of New York, I congratulate Mike on a wonderful career and wish him the best as he retires.

I thank him for his many decades of serving the Syracuse community.

HONORING WASHINGTON POST EXECUTIVE EDITOR LEONARD DOWNIE JR.

HON. TOM DAVIS

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. DAVIS of Virginia. Madam Speaker, I rise today to honor Leonard Downie Jr. for 17 years of service and dedication as the executive editor for The Washington Post. Leonard is widely recognized as one of the great editors of our time.

Mr. Downie began his career for The Washington Post as a summer intern in 1964. He soon established himself as a well-known local investigative reporter in Washington, specializing in crime, courts, housing and urban affairs. To honor his superior reporting, Mr. Downie received two Washington-Baltimore Newspaper Guild Front Page awards, The American Bar Association Gavel Award for legal reporting, and the John Hancock Award for excellent business and financial writing.

Mr. Downie then worked on the Metropolitan staff for 15 years, where he earned the title of deputy metropolitan editor. In 1979, he was named London correspondent. 3 years later, he returned to Washington as national editor, and, in 1984, became the managing editor and director of The Los Angeles Times-Washington Post News Service.

On September 1, 1991, after 7 years as managing editor, Mr. Downie was named executive editor of the Washington Post. Under his guidance, the Post developed into a major online force. His immense talent for investigative journalism was also apparent as the Post won numerous prizes for high-profile expositions, including the secret CIA prisons in Eastern European and the Watergate Scandal. His excellent leadership was rewarded; the post won 25 Pulitzer Prizes under his tenure. Mr. Downie announced his last day at The Washington Post will be on September 9, 2008. Leonard, always modest, summed up his management philosophy in one sentence: ''You hire people smarter and more talented than you and enable them to do their best work.''

Madam Speaker, in closing, I would like to thank Mr. Downie for molding The Washington Post into a dominant news outlet, for his contributions to journalism, and for doing his part to keep our world honest. I ask my colleagues to join me in congratulating him on his many successes and in wishing him the best of luck in all future endeavors.

TRIBUTE TO THE HISTORIC PRESERVATION GROUP OF ARROW ROCK, MISSOURI

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. SKELTON. Madam Speaker, let me take this opportunity to congratulate the historic preservation group of Arrow Rock, Missouri. In April 2008, Arrow Rock was designated as a Preserve America Community.

Arrow Rock is one of 600 nationwide sites that have earned the designation of being a Preserve America Community. This Federal designation helps in the historic preservation work for communities throughout the United States. Preserve America is focused on providing financial support systems for the nonphysical work done in historic preservation communities. The Arrow Rock community will now be able to apply for Federal grants, awards, and other help in research, planning, and training efforts to help in the preservation of their village. First Lady Laura Bush said, in a written statement, ''Preserve America Communities demonstrate that they are committed to preserving America's heritage while ensuring a future filled with opportunities for learning and enjoyment.''

I am certain that the Members of the House will join me in congratulating the historic preservation group of Arrow Rock for their accomplishments and in wishing them luck in all there future endeavors.

INTRODUCTION OF H.R. 6431, DEPARTMENT OF VETERANS AFFAIRS ELECTRONIC REPORTING ACT

HON. STEVE BUYER

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. BUYER. Madam Speaker, today I am introducing the Department of Veterans Affairs, VA, Electronic Reporting Act. This legislation would require VA to submit to Congress reports required by law in an electronic form.

VA is required to submit numerous reports to Congress on issues ranging from assistance provided to homeless veterans to the establishment of new cemeteries. This fiscal year we will receive over forty reports mandated in title 38, United States Code.

Requiring VA to submit these reports electronically would be more efficient and reduce paper waste. It would also maximize the utility of the information created, collected, and provided to Congress in these reports.

Madam Speaker, VA submits thousands of pages of reports to Congress each year and I hope my colleagues on both sides of the aisle will join me in this effort to improve the efficiency and effectiveness of government information management.

HONORING THE GARDEN CITY COUGARS

HON. THADDEUS G. McCOTTER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. MCCOTTER. Madam Speaker, today I rise to acknowledge the Garden City Cougars, champion women's high school softball team, upon reaching Garden City High School's first team State title.

The Cougars, a MHSAA Division 1 team, were determined to achieve victory this season. Led by Head Coach, Barry Patterson and Assistant Coaches, Al Russell, Mark Minch, and Chuck Drewicz, the Cougars were on the prowl; knocking teams out of the tournament bracket left and right. The final game was a nail-biter. With two outs and a 2–2 count, senior Hallie Minch slammed the game winning hit, driving in teammate Katie Torok to make the final score 2 to 1.

The Cougars season rounded out to 32 wins and 6 losses after the championship game on June 14, 2008. To seniors, Hallie Minch, Christina Seward, Katie Torok, Stacey Brickan, Kristina Susalla, Tricia York, Breannea King, and Karen Greficz; juniors, Shannon Pietruska, Katelyn Shattleroe, Jenniger Leone, Melissa Dimitrijevich, Amanda Quartz; sophomore Allison Chiti, and Freshmen, Carley Shattleroe and Naomi Oxendine, the thrill of softball will have given them an unforgettable day on Bailey Field.

Madam Speaker, the Garden City Cougars deserve to be recognized for their determination, achievement, and spirit. I ask my colleagues to join me in congratulating the Garden City Cougars for obtaining this spectacular title and honoring their devotion to our community and country.

RECOGNIZING EMERGENCY MANAGEMENT, DISASTER RECOVERY AND RELIEF EFFORTS IN MADISON COUNTY

HON. MIKE PENCE

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PENCE. Madam Speaker, I rise today to commend and recognize the extraordinary contributions of emergency management, disaster response, and recovery personnel as well as elected officials and community leaders in my district which was devastated by the recent severe weather in Indiana.

I wish particularly to honor the Board of Commissioners, County Council, and all the other outstanding individuals in Madison County who rose to the occasion during these difficult times. This area suffered greatly from severe storms and weather, creating a catastrophe of nature that inflicted injuries, destroyed property, and displaced many of our citizens. In response, these officials went above and beyond the call of duty, showing great poise while saving many lives and serving the people of their communities.

Madam Speaker, I commend these fine men and women for their tremendous dedication to the Hoosier families, businesses, farmers and communities that they serve. As Hoosiers continue to recover from Mother Nature's fury, I feel confident that the people of Madison County will be well served by these officials.

TRIBUTE TO BARBARA TRIEFF

HON. TOM LATHAM

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. LATHAM. Madam Speaker, I rise to recognize Mrs. Barbara Trieff, an English and journalism teacher at Interstate 35 High School in Truro, Iowa, on the occasion of her retirement. I also wish to express my appreciation for Barbara's dedication and commitment to the youth of Iowa.

For the past 34 years, Mrs. Trieff has contributed her time and talents to improving youths' lives through education and mentoring. She grew up on a farm and graduated from Orient Macksburg High School in 1970 before attending Simpson College in Indianola, Iowa. In 1975 she started her career in education by teaching junior high English at Westwood in Sloan, Iowa. After her first year of teaching, she applied for, and obtained a high school English teaching position at Interstate 35 High School where she remained for the next 32 years. Mrs. Trieff certainly left a positive mark at I-35 High School, playing a crucial role in many school programs including the development of the Life Skills course, Career Planning, Career Day, the job shadowing program, and instating a reading program as well as the Advanced Placement English literature class.

Mrs. Trieff has truly made a lasting impact on students, family and faculty throughout her illustrious career, and her leadership at I-35 will certainly be missed by everyone. I consider it an honor to represent Mrs. Barbara Trieff in the United States Congress, and I wish her and her husband Richard a happy and healthy retirement.

IN RECOGNITION OF WPIX–TV ON THE OCCASION OF ITS 60TH ANNIVERSARY

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mrs. MALONEY of New York. Madam Speaker, I rise to pay tribute to WPIX–TV, the award-winning and groundbreaking New York City television station historically known to millions of New Yorkers as Channel 11. This month, the first independent television station in our nation's greatest city is celebrating its 60th anniversary. All Americans should pay tribute to its remarkable success in bringing thoughtful, newsworthy and entertaining programming into our homes over the course of the past six decades.

Since its founding, WPIX–TV has been a leader in the field of television broadcasting. A pioneer, it established a standard of innovative, visionary programming that other TV stations have sought to emulate. It never lost sight of its mission to deliver the most accurate, timely, and pertinent issues of the day. Even as the television industry has undergone huge changes, WPIX–TV's originality, creativity, and understanding remain its hallmarks today.

The flagship station of the CW Television Network, WPIX–TV is seen in more than 10 million homes. It has come a long way from the humble origins of its launch. The station's top-rated CW network programming, the award-winning CW11 News at Ten, the CW11 Morning News, its extensive library of hit movies, first-run programs, off-network sitcom favorites, quality children's programming and public affairs shows, and outstanding event coverage have contributed immensely to the station's success. Under the leadership of News Director Karen Scott and with outstanding reporting by veteran broadcast journalists like the Emmy Award-winning Marvin Scott, WPIX–TV's news programming remains widely respected, not just in the nation's largest media market, but around the country, and at the able direction of Vice President and General Manager Betty Ellen Berlamino, WPIX–TV continues to maintain its distinctive flair and brand identity.

WPIX–TV has earned more than 150 Emmy Awards, including for Outstanding Morning News Program and for its News at 10. In addition, the CW11 has been honored with numerous Edward R. Murrow Awards, New York State Broadcasters Awards, New York State Associated Press Broadcasters Awards, New York Press Club Awards, and Deadline Club Awards for excellence in reporting, news coverage, public affairs, news specials, and features.

Over the course of six decades, WPIX has marked numerous milestones in TV history, including the first use of instant replay, which took place on July 17, 1959 during its broadcast of a ballgame between the New York Yankees and the Chicago White Sox. WPIX also aired the first appearance on New York television of the Rolling Stones on ''The Clay Cole Show'' in 1964. From the Giants to the Yankees to the Mets, from Cap'n Jack McCarthy to Officer Joe Bolton, WPIX has enjoyed a rich and illustrious history. The little station that could, WPIX and its talented and hard-working employees have richly earned the right to celebrate the station's 60th anniversary. Its success derives from the resilience and drive required to realize the American dream.

In addition to its broadcasting excellence, WPIX has dedicated itself to community service. In 1981, it partnered with the McCormick Tribute Foundation to create the CW11 Care for Kids fund. Since its creation, the fund has provided more than $7 million in grants to outstanding nonprofit organizations in the Tri-State area that address the unmet needs of kids and their families, including AIDS support services, drop-out prevention, drug abuse prevention/treatment, and child abuse prevention/treatment programs. These interests address a wide range of children's needs and the goal of this fund is not only to provide grants, but also significant programming that is important to families with children and teenagers.

Madam Speaker, I ask that my colleagues join me in recognizing the enormous contributions to our lives made by WPIX–TV Channel 11 New York.

PAYING TRIBUTE TO BOB STOLDAL

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PORTER. Madam Speaker, it is my distinct pleasure to rise today to honor Bob Stoldal by entering his name in the CONGRESSIONAL RECORD, the official record of the proceedings and debates of the United States Congress since 1873. Today, I honor Bob Stoldal for his devoted service to the Las Vegas community and congratulate him on his retirement.

Bob has been an institution in journalism circles in Las Vegas for five decades, most recently as the top news executive for KLAS–TV Channel 8. Bob began his career in journalism as a typesetter for the Las Vegas Review Journal in 1960, and later moved from print media to radio working as a reporter for KLAS radio in the early 1960s. In 1966, Bob moved to what is now KNTV Channel 13 as a part time sports reporter and weatherman and later moved to KLAS–TV as a reporter and anchor. Over the course of his career, Bob has been dedicated to providing accurate reporting on important events and correcting historical inaccuracies about the Las Vegas area. Bob's knowledge of history and events in Las Vegas are irreplaceable, and the passion and ethics he brought to the field has shaped hundreds of journalists.

Bob also serves as the Chairman of the Nevada State Museum and Historical Society as well as the Las Vegas Historical Preservation Commission. Additionally, Bob served as a historian for Las Vegas' centennial celebration in 2005.

Madam Speaker, I am proud to honor Bob Stoldal. His journalistic practices serve as an example for the next generation, and I applaud him on his success. I also commend Bob for his dedication to history and his efforts to ensure its accuracy for posterity. I wish him the best in his retirement and with his future endeavors.

THE DAILY 45: WILLIS GRAHAM

HON. BOBBY L. RUSH

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. RUSH. Madam Speaker, everyday, 45 people, on average, are fatally shot in the United States. Too many lives are cut short unnecessarily.

Just yesterday, in Chicago, 29-year-old Willis Graham was found suffering gunshot wounds. He was dead upon arrival at the hospital from multiple gunshot wounds, according to police. This shooting occurred on Chicago's south side in the Englewood community. Another family grieves. Another gun became the tool used to take the life of a human being. I could stop speaking on this issue, but am I not my brother's keeper? Are you not your brother's keeper?

Americans of conscience must come together to stop the senseless death of ''The Daily 45.'' When will Americans say ''enough is enough, stop the killing!''

IN RECOGNITION OF JUDY NEWBILL BURNS AS SANTA ROSA COUNTY, FLORIDA'S POINT OF LIGHT RECIPIENT

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. MILLER of Florida. Madam Speaker, on behalf of the United States Congress, it is an honor for me to rise today in recognition of Judy Newbill Burns as Santa Rosa County, Florida's Point of Light Recipient.

For the past 6 years, Ms. Burns has volunteered her time to help autistic children. Through the Autism Society of the Panhandle, Ms. Burns has vigorously worked to expand educational opportunities for children with autism. The Kids for Camp Program, spearheaded by Ms. Burns and the Autism Society

of the Panhandle, provides 6 weeks of education for over 50 children with autism and provide instructional workshops for local special education teachers. Daily activities at the camp include arts and crafts, swimming, canoeing, and other therapeutic activities. The camp is intended to provide a normal summer vacation for those afflicted with autism.

The Point of Light Award recognizes a Florida resident who demonstrates exceptional service to the community. Recipients are announced each week and prior to their selection are reviewed by a panel of judges that are considered leaders in the areas of volunteerism and service. Volunteers play a vital role in the extension of education. Ms. Burns has exceeded the expected duties of a volunteer and her recognition as Santa Rosa County, Florida's Point of Light is evidence of her immense philanthropy. Ms. Burns' dedication and devotion to autistic children benefits the entire community and her outstanding accomplishments have distinguished her as one of the great people in Northwest Florida. Santa Rosa County is greatly indebted to her service and is honored to have her as one of their own.

Madam Speaker, on behalf of the United States Congress, I am proud to recognize Judy Newbill Burns on this outstanding achievement.

HONORING THE KOSHARE INDIAN DANCERS

HON. MARILYN N. MUSGRAVE

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mrs. MUSGRAVE. Madam Speaker, I rise today to honor the Koshare Indian Dancers, who are celebrating 75 years of history and culture.

The Koshare Indian Dancers offered refuge, hope, and a spirit of camraderie to boys during Depression-era America. In 1933, a group of young boys from southeastern Colorado decided to study the heritage of their area. They formed an archaeology and Indian club where they could study the history, culture and artifacts of the lower Arkansas Valley. Soon, with the help of their young Scout master, J.F. ''Buck'' Burshears, they were meeting with elders representing both the Plains Indians and many different Pueblos across New Mexico and Arizona. The elders embraced the youthful enthusiasm of these boys, teaching them dances, songs, and many different aspects of the ways of their ancestors. Buck dubbed the new club Koshares, the Hopi word for ''clown'' or ''fun maker,'' and the Koshare Indian Dancers have been going strong ever since.

''The club grew beyond anything we ever thought it would be,'' said Dr. William Sisson. He and his friend Robert Inman held the first meeting of the Koshare Club. Soon it was an organization of hundreds of boys, who continued to pass on their knowledge from generation to generation. An important part of what they passed on was love for, and protection of, the land, living honestly and with integrity, and learning how to be a leader who embraces community service. That sense of service grew from a community focus to a nationwide focus, as hundreds of Koshares served in every war in which the United States has fought since World War II.

''Doing those dances was demanding and required hard work,'' said one of the original organizers, Jimmy Taylor. ''The dances were important to learn, but it was more important what you took with you throughout your life from the experience. It gave young boys an outlet for their energy, gave them a sense of accomplishment, and it trained their minds to analyze and complete a project.'' Mr. Taylor went on to West Point and served his country during World War II with honors.

The loss of Koshares during World War II spurred their vast collection of art and artifacts. In memory of their fallen comrades, they originally bought three paintings. By continuing to gather pieces over the years, the Koshares amassed one of the most extensive collections of southwestern art and artifacts in the West.

Service remains a large part of the meaning of the organization. The Koshares continue to foster leadership skills and to provide an environment for young people to learn about the heritage of Southeastern Colorado. They also persist in sharing that heritage with others through their museum and performances. Boys, and now girls, benefit from the program, and the Arkansas Valley is richer because of the history and culture provided by the Koshare Indian Dancers. It is my distinct honor to recognize the Koshares and to wish them continued success.

COMPTROLLER RECOGNIZES THE SIGNIFICANCE OF RELATIONSHIP WITH THE CARIBBEAN DURING CARICOM CONFERENCE IN NEW YORK

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. RANGEL. Madam Speaker, I rise today to bring your attention to remarks made by New York City Comptroller William C. Thompson, Jr. during the CARICOM Conference luncheon at the Brooklyn Marriott Hotel on Thursday the 19th of June.

Bill spoke first and foremost to the uniqueness of the New York Caribbean relationship. He mentioned, ''While Caribbean Americans made up only 5 percent of the United States'' foreign-born population in the 2000 Census, over one in five foreign-born residents of New York City came from the Caribbean. He also recognized the tremendous economic potential that the New York Caribbean population has; ''Caribbean Americans are creating jobs and stimulating the economy with businesses across the city . . . [and] helping to insulate us from the cyclical highs and lows in our finance and real estate sectors.''

Most importantly, Mr. Thompson spoke of the increasingly influential role that emerging markets are having on the world economy. ''Since 2002, emerging markets have outperformed many developed markets'' and ''It is estimated that forty-five percent of the aggregate Gross Domestic Product in the world comes from emerging markets today.'' He made it clear that he will be considering the Caribbean as, a place to invest funds under his control as New York City Comptroller.

The CARICOM Conference was crucial to address key issues of enterprise in the Caribbean but also to recognize the substantial economic influence of Caribbean nations as well as their enormous potential for growth.

TRIBUTE TO CASSIE KEITT WEEKS

HON. JAMES E. CLYBURN

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. CLYBURN. Madam Speaker, I rise today to pay tribute to a wonderful constituent on the occasion of her 100th birthday. Mrs. Cassie Keitt Weeks of Fort Motte, South Carolina will become a centenarian on August 5, 2008. This is a remarkable milestone that few of us are ever able to achieve.

Cassie Keitt is the daughter of the late Hattie Young and Elijah ''Bub'' Keitt of Fort Motte. She was married to the late Jesse Weeks, Sr.

Mrs. Weeks can trace her ancestry to slaves on the Lang Syne Plantation and the Goshen Plantations in Fort Motte. Both Mrs. Weeks and her husband were employed by the Peterkin family at the Lang Syne Plantation until their retirement.

The church is a central part of Mrs. Weeks' life. Her great-grandfather is on the original deed as an organizer of Mt. Pleasant Baptist Church in Fort Motte. It was the first church organized by former slaves in the community, and Mrs. Weeks attends that church today. She is among the church's staunchest supporters and serves in a number of capacities. She is a Church Mother, a member of the Senior Choir and Sunday school class, and serves as a pastor's aide. She is an avid fundraiser, a homecoming and friends and family day captain, and a member of the building and kitchen committees. She also serves as the church historian. When asked about the secret to her longevity, Mrs. Weeks replies, ''trusting in the Lord.'' She also adds, ''I like it on this side. This is all I know, so I will stay as long as I can.''

Among her other pleasures when she was able were making Lye soap and quilting bees. The Weeks home was always the gathering place for friends and family. Today she still enjoys sitting on the porch and entertaining visitors. She is also a very avid voter, and never misses the opportunity to cast her ballot.

Mrs. Weeks family provides her tremendous strength and joy. She is the mother of four children: daughters Rebecca Weeks Brown and Hattie Belle Weeks Scott and sons Jesse Weeks, Jr. (deceased) and Julius Weeks.

She is the grandmother of eight; great grandmother of eighteen; and the great, great grandmother of three. In addition she has a host of nieces, nephews, cousins and many, many friends.

Madam Speaker, I invite you and my colleagues to join me today in wishing a happy 100th birthday to Cassie Keitt Weeks. This strong matriarch remains independent and active, and serves as an example to us all. I wish her health, happiness and Godspeed on this momentous occasion!

COMMENDING NAHRO

HON. JIM McDERMOTT

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. McDERMOTT. Madam Speaker, I rise today to commend the National Association of Housing and Redevelopment Officials (NAHRO) and their partners in the non-profit, governmental, and private sectors for embarking on their 2008 Housing America Campaign.

The affordable housing issues that the Housing America Campaign raises affect every Congressional district in this country. The statistics are grim: 750,000 Americans are homeless on any given night and 3½ million experience homelessness at some point in each year. I'm worried that these numbers will only increase as the foreclosure crisis continues.

More than 15 million American families now pay more than half of their income for housing. Too many of these families also make less than 50 percent of their area's median income and yet still are stuck on waiting lists for government assistance. Where I live in Seattle there are thousands of families on waiting lists for Section 8.

In Seattle the ''fair market rent'' established by HUD is over $900 a month for a 2-bedroom apartment. In order to be able to afford this, without paying more than 30 percent of their income on rent, someone in Seattle would have to be making $37,000 a year or about $18/hour, which is more than double the minimum wage in Washington State and about triple the current Federal minimum wage.

I am relieved that the House has taken meaningful action to address the affordable housing shortage by passing legislation to create an Affordable Housing Fund. This critical fund will provide about $500 million per year to finance construction, maintenance, and preservation of affordable housing throughout the country.

In addition, the House has passed legislation that increases the loan limits for government-backed loans, helps homeowners in trouble refinance their home loans and to provide funding to revitalize neighborhoods where foreclosures have been rampant, and to modernize and expand the Low-Income Housing Tax Credit.

We have more work to do in Congress and it will probably require an administration with a greater commitment to addressing the affordable housing crisis in the U.S. But we should all be grateful to NAHRO and their partners for sounding the alarm and raising awareness both in the Congress and around the country. They make our jobs much easier.

I look forward to continuing to work with the Housing America Campaign as we fight for affordable housing opportunities for every family in this country.

RECOGNIZING MR. JACK HOPKINS

HON. FRED UPTON

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. UPTON. Madam Speaker, I rise today in recognition of Mr. Jack Hopkins of Kalamazoo, Michigan, for his 25 years of distinguished service to the Kalamazoo Community Foundation and the greater Kalamazoo area.

Jack began working with the Kalamazoo Community Foundation in 1983 and was named its president/CEO in 1994. Under his esteemed leadership, the foundation's assets have grown exponentially, allowing millions to be invested in the local community. At the same time, Jack has volunteered with more than 30 local nonprofit organizations dedicated to enhancing the economic vitality and cultural richness of the Kalamazoo region. Further accomplishments include his work to help create the Arts Fund of Kalamazoo County, establish an active Youth United Way program, and initiate the Community Foundation's BetterTogether/Kalamazoo social capital initiative.

Apart from his work in Kalamazoo, Jack has also been a leader at the regional and national levels. He was the first chair of the Council on Foundations' Community Foundation Leadership Team and board vice chair of the Council of Michigan Foundations. He has also served on the board of the Community Foundations of America and was former chair of Michigan Community Foundations Ventures.

The Kalamazoo Community Foundation was established for the betterment of the greater Kalamazoo community. Jack's personal and professional legacy is one that exemplifies this mission. Jack Hopkins has been a truly exceptional asset to the Kalamazoo community.

Once again, I would like to personally congratulate and thank Jack for his many years of service. Southwest Michigan is and will forever be a better place to live and work because of his contributions.

IN HONOR OF JASON DALE LEWIS

HON. CHRISTOPHER S. MURPHY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. MURPHY of Connecticut. Madam speaker, I rise today to celebrate the life of Jason Dale Lewis, who was killed in combat just over a year ago on July 6, 2007, in Baghdad. Petty Officer 1st Class Lewis called Brookfield, Connecticut, his home, along with his wife Donna and their three children.

Just 30 years old, Petty Officer 1st Class Lewis was a uniquely skilled member of an elite Navy SEAL unit. Highly decorated, he earned the Navy and Marine Corps Commendation Medal, the Navy and Marine Corps Achievement Medal, the Navy ''E'' ribbon, two Good Conduct Medals, the Navy and Marine Corps Overseas Service ribbon, the Expert Rifleman Medal, and the Expert Pistol Shot Medal. Petty Officer 1st Class Lewis was truly an elite among elites.

A year has passed since Jason left us. But the example he set, for his family, for his community, and for his Nation, will last forever. Our society is beset by those who live lives defined by unmet, wasted potential. That wasn't a problem for Jason. He knew how great he could be, as a man, as a father, and as a SEAL. And in 30 short years, he achieved that greatness.

As Americans, we hold dear the values of honor, courage and commitment. Petty Officer 1st Class Lewis embodied those characteristics on and off the battlefield. His valor in defense of his country and his unceasing love for his community and family lend credence to the notion that the fullest lives are those lived for the greater good.

INTRODUCING THE ENERGY EFFICIENT AND ENVIRONMENTALLY FRIENDLY AUTOMOBILE TAX CREDIT ACT

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. PAUL. Madam Speaker, I rise today to introduce the Energy Efficient and Environmentally Friendly Automobile Tax Credit Act, legislation that will help Americans reduce pollution and the amount they pay for gas. My legislation accomplishes these important goals by providing Americans a tax credit of up to $2,000 when they sell or trade in a car and obtain a vehicle that has at least a 20 percent higher average fuel economy than the sold or traded-in car. The bill also creates a Federal tax deduction for any State or local taxes paid on the purchase of the more fuel-efficient automobile and makes interest on loans to purchase the more fuel-efficient automobile tax deductible.

This legislation will help Americans cope with high gas prices by making it easier for them to obtain more fuel-efficient cars. I hope my colleagues would agree that Congress should provide free market incentives to make it easier for Americans to exchange their current cars for cars that create less pollution.

Providing tax deductions and tax credits to make it easier for Americans to purchase fuel-efficient automobiles is a win for American consumers, a win for the environment, and a win for those of us who favor free market solutions to pollution and high gas prices. I urge my colleagues to support this legislation.

A TRIBUTE TO MATTIE STEPANEK

HON. CHRIS VAN HOLLEN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. VAN HOLLEN. Madam Speaker, I am honored to pay tribute today to Mattie Stepanek, an extraordinary young man who touched thousands of people with his messages of hope and peace.

Mattie was afflicted with dysautonomic mitochondrial myopathy, a form of muscular dystrophy, which took his life at age 13 in 2004. Despite his illness, Mattie dedicated his life to promoting hope, peace and tolerance through his role as a national goodwill ambassador for the Muscular Dystrophy Association and through his advocacy for people with disabilities through his inspiring words of poetry.

Mattie is remembered for his kindness, grace and vitality. He saw his disease not as a hindrance but as a vehicle to reach out to the hearts of many. He shared his message of peace and tolerance with school children, business leaders, medical personnel, religious groups and so many others throughout the world. Indeed, his message touched people of

all ages, races, nationalities, faiths, abilities and aspirations. He lived by the words of his timeless philosophy, ''Remember to play after every storm.''

Mattie is being remembered in my congressional district this week, which has been proclaimed ''Mattie Stepanek Week'' by the city of Rockville, Maryland. The week's primary event is the second annual Heartsongs Swim, hosted by the Rockville Municipal Swim Center, which will raise money to expand the handicapped accessibility of the Mattie J.T. Stepanek Park in Rockville and for the completion of statues of Mattie and his service dog Micah, which will be installed and dedicated this fall in the park.

Madam Speaker, I am honored to remember with fondness and humility Mattie Stepanek, an ambassador of peace for all humanity, and to join my constituents in commemorating Mattie Stepanek Week in Rockville, Maryland.

IN RECOGNITION OF REVEREND CLANSTON SEYMORE UPON HIS 40TH ANNIVERSARY AS PASTOR OF GREATER PEACE MISSIONARY BAPTIST CHURCH

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. MILLER of Florida. Madam Speaker, on behalf of the United States Congress, it is an honor for me to rise today in recognition of Reverend Clanston Seymore upon his 40th anniversary as pastor of Greater Peace Missionary Baptist Church.

For the past 40 years, Reverend Seymore has been passionately committed to his community. Prior to serving as the fourth pastor of Greater Peace Missionary Baptist Church, Reverend Seymore had already ministered five other churches. He was ordained in 1965 and immediately began what he knew was his calling.

His dedication to the area has resonated in leadership positions in civic activities as well as community service projects. From 1975 to 1977, Reverend Seymore served as president of the Okaloosa County branch of the National Association for the Advancement of Colored People, NAACP. Additionally, multiple community outreach organizations have taken root through the efforts of Reverend Seymore, including Community Love Center of Fort Walton Beach, Florida, and Positive Encouragement and Character Enhancement, PEACE. Reverend Seymore also serves as an advisor to the Martin Luther King Holiday Celebration Committee.

The civic duties Reverend Seymore has performed, as well as his outstanding tenure as pastor of Greater Peace Missionary Baptist Church, is a reflection of his dedication to the First District of Florida.

Madam Speaker, on behalf of the United States Congress, I am proud to honor Reverend Seymore for his enduring allegiance to our great Nation and the State of Florida.

HONORING ALBERT CAREY CASWELL

HON. MARILYN N. MUSGRAVE

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mrs. MUSGRAVE. Madam Speaker, I rise today to honor Albert ''Burt'' Carey Caswell, who for 22 years has been giving tours of our Capitol building.

Burt Caswell was born in Baltimore, MD, in 1953. He graduated from the University of Maryland and obtained a master's degree in education from Bowie State. Mr. Caswell went on to teach physical education, health, and science to K–6th graders in a private school in Washington, DC. He also served as the assistant lacrosse coach at the University of Maryland for 5 years.

In 1986, Mr. Caswell joined the Capitol Guide Service. Burt is well known by members and staff for the enthusiasm he brings to his work, and for his love for members of the United States military. For approximately 14 years, he has given personal Capitol tours to injured soldiers from Walter Reed Army Hospital. Several times each week, Burt picks up soldiers in the evenings to give them tours in his free time.

Another demonstration of Mr. Caswell's love for his country is his poetry. He has written numerous works on various patriotic themes. His poems pay homage to soldiers, Members of Congress, and the Capitol building. His eloquent tribute to Martin Luther King, titled ''A King Among Men,'' was printed in the CONGRESSIONAL RECORD in 2002.

Mr. Caswell's enthusiasm for the Capitol is an extension of his passion for life. He is the proud father of Jennifer Maxine Caswell, and according to him, ''The greatest thing in my life is my daughter.''

I want to thank Burt for 22 tears of service to our Capitol, and for his sacrificial love for the men and women of our armed services.

SUPPORTING THE GOALS AND IDEALS OF BLACK MUSIC MONTH

SPEECH OF

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, June 23, 2008

Mr. RANGEL. Madam Speaker, I rise today to acknowledge the tremendous contributions of black music to American culture. From times of slavery to the Civil Rights Movement, Black music has served the Black community as a source of inspiration and strength and continues to serve as a narrative of Black History and culture.

Spirituals that grew from the cries of slaves have evolved over hundreds of years to the Gospel, Soul, R&B, Jazz, Blues, and Rock & Roll we know today. Black music is enjoyed by the larger community in the U.S. and by an ever larger global community.

Black music was and continues to be a tool to reveal the very soul of the black man to the rest of America. In times of division and hate, black music was one of the few cultural artifacts that was shared with all Americans. ''Freedom Songs'' used during the civil rights movement like ''We Shall Not be Moved,'' ''Lift Every Voice and Sing,'' and ''We Shall Overcome,'' were sung by all and served as uniters rather than dividers.

Many of the most celebrated musicians in the history of Jazz, Soul and Blues were African Americans; Lena Horn, Billie Holiday, Charlie Parker, Miles Davis, Duke Ellington and John Coltrane are all legends in their own right and have brought innovation and freshness to music that continues to inspire musicians today.

Black music is much more than words and rhythm: it is an encapsulation and reaffirmation of a cultural identity that was formed out of years of struggle and triumph. It is distinctive in the way that it uplifts the spirit and enthralls the intellect. We must recognize that black music has served for generations as more than a pastime; it has been a source of strength and inspiration for a brighter future.

HONORING MERCY SISTERS ON 10TH ANNIVERSARY OF CASA

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. CUELLAR. Madam Speaker, I rise today to honor the Sisters of Mercy on the 10th anniversary of their establishment of Casa de Misericordia (CASA), a shelter that provides safety, planning, education, and support for victims of domestic violence and their children.

In 1997, Sister Rosemary Welsh and her staff of health care providers from Mercy Primary Health Care Programs recognized the lack of existing community support for victims of domestic violence and their children in Laredo, Texas. A starting grant and local community support enabled them to open the doors of Casa de Misericordia. The shelter provides court accompaniment, assistance with VAWA (Violence Against Women Act) applications, and takes in victims of domestic violence and their children, not just from Webb County, but from other counties and states as well.

CASA obtained independent non-profit status by becoming a 501(c)3 in 1999, and became an annual contracting agency with the State (TDHS) in 2001. CASA received funds from the United Way and from the Office of the Attorney General. It is due to the efforts of Sisters of Mercy and to the hardworking staff that CASA has been able to help thousands of victims of domestic violence and their children. CASA is committed to involving the community in changing the perception of domestic violence, and has dozens of volunteers from Laredo Community College, Texas A&M International University, and local high schools in raising awareness about the mission behind CASA through the new Lamar Bruni Vergara Education Center, which was opened in 2004. The Education Center provide counseling, support groups, educational classes, and summer activities to members of the community who suffer from domestic violence but do not need shelter services.

Madam Speaker, I am honored to have had this time to recognize the dedication of Sister Rosemary Welsh and the Sisters of Mercy, and their staff, on the 10th anniversary of the establishment of Laredo's only domestic violence shelter, Casa de Misericordia.

A TRIBUTE TO THE LIFE OF YOSHITO TAKAHASHI

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. COSTA. Madam Speaker, I rise today to pay tribute to the life of a special man, Yoshito Takahashi of Fresno, California. Yoshito recently passed away at the age of 88 years old. He leaves behind his loving wife of 61 years Yoshiye, three children and three grandchildren.

Mr. Takahashi was born on June 16, 1920 at his family farm in Clovis, California where he lived all his life. He was the eldest son of eight children of Yoshibei and Shizuyo Takahashi, Issei immigrants from Japan. He attended Clovis Grammar School and graduated from Clovis High School.

During the outbreak of World War II, Yoshito and his family were sent to a U.S. Internment camp in Poston, Arizona, where they remained until 1945. Upon returning home to Clovis, Yoshito and his brother Ted went into farming together. Takahashi Farms was born, becoming a recognized brand in the Fresno-Clovis metropolitan area. In addition to raising stone fruit, melons, vegetables, and berries, the brothers were also engaged in a custom grape harvesting business. Yoshito continued to farm with his brother until 1992 when he retired. Yoshito was a member of the Fresno County Farm Bureau, the Central California Freestone Peach Association and Treasurer of the Nisei Farmers' League. He was also a supporter of the Central California Nikei Service Center for seniors.

Yoshito was an active member of his church, the community, and many professional and civic organizations. He served as president of the Fresno Buddhist Church, Secretary-Treasurer of the Clovis District Coordinating Council, the Clovis High School Agriculture Advisory Committee, Director of the Clovis Chamber of Commerce, and he served on the Board of Directors with the Fresno County Cancer Society, Fresno Community Hospital, Community Medical Foundation and the Clovis Rotary Club. He was the Founding Director of the Community Hospitals of Central California and Co-Chairperson of the Clovis Unified School District Foundation.

Yoshito's community involvement was felt throughout the valley and was recognized by many. In 1977, he was named Clovis ''Citizen of the Year'' and, in 1979 he was inducted in the Clovis Hall of Fame for his longstanding support and service to the community at large. Yosihto's strong community ties and service-centered activities led him to receive regular recognitions by numerous local leaders as well as state and federal representatives.

It goes without saying that Mr. Yoshito Takahashi was a humble man and as well as a forever farmer at heart. His love for the outdoors led him to places such as the nearby Sierras and many destinations abroad. I am honored and humbled to join his family in celebrating the life of this amazing man. His presence will be missed in our community and by many others whose lives he so graciously touched.

HONORING THE LIFE AND SERVICE OF KATHLEEN CEPEDA SARMIENTO

HON. MADELEINE Z. BORDALLO

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Ms. BORDALLO. Madam Speaker, I rise today to honor Kathleen Cepeda Sarmiento for her lifelong service to Guam's community. Kathleen, daughter of Jose Babauta Sarmiento and Maria Cepeda Sarmiento, was an educator who influenced many young people in Guam since 1981. We honor her for her dedication to her religious community and service to our community.

In 1976, Kathleen graduated from the Academy of Our Lady of Guam, and subsequently attended the College of San Mateo in California. She returned to Guam to begin her career as an educator. At this time, she also made the decision to become a member of the Catholic religious order of the Sisters of Mercy as Sister Mary Kathleen Cepeda Sarmiento.

Kathleen pursued a Bachelor of Arts degree in Education from the University of Guam, and graduated Magna Cum Laude in 1986. In 1995, she graduated from the University of San Francisco with a Master of Arts degree in School Administration.

Kathleen served in several positions within Guam's private Catholic school system, all culminating into her role as a leader to both teachers and students. She taught Theology and Art at the Academy of our Lady of Guam, Bishop Baumgartner Junior High School, and finally at Saint Anthony School. During the latter part of her life, Kathleen served as Vice Principal and Principal of St. Augustine School in Laredo, Texas.

Kathleen was an innovator. At Saint Anthony School on Guam, she initiated the After School Extended Care Program allowing students greater opportunities for enhancing their educational interests. She implemented the Rainbows Program to help students with social and emotional difficulties. She also promoted the Student Cultural Exchange Program with students of Ako City, Japan and the Chamorro language and culture program.

Kathleen helped to develop the academic strengths of students by encouraging their participation in extracurricular activities. Under her guidance, her students excelled in the Academic Challenge Bowl, Spelling Bee, Geography Bee, Math Olympiads, Best of Carols Program, and several competitions in art, essay, and speech. Her leadership and emphasis on academic performance contributed to the accreditation of Saint Anthony School by the Western Association of Schools and Colleges. At St. Augustine High School, Kathleen was credited for enhancing the fine arts program. She helped to advance information technology at the school by implementing a laptop ''lease-to-own'' program for high school students and by encouraging teachers to integrate more technology into their lessons.

Kathleen was blessed with many talents. Her artistic and musical abilities were appreciated throughout the community. As a visual artist, her work was featured in numerous displays such as the American Cancer Society Art Auction, Guam Micronesia Island Fair, and displays by the Guam Council on the Arts and Humanities. She was also talented in playing the guitar. Her music was an important part of her ministry and a means for reaching out to young people and senior citizens.

Kathleen has been recognized for her many achievements. She has been honored through the Marquis Who's Who Publications Board; Who's Who in American Education; 1991 Outstanding Young Women of America; 1990 Governor's Art Awards Program; Service Award from the Department of Parks and Recreation; and the Special Olympics.

Kathleen Cepeda Sarmiento will be remembered for her dedication and commitment to young people and her service to our community. The people of Guam join her religious community, her family and friends in honoring her and remembering her contributions as an educator and community leader.

INTRODUCTION OF RESOLUTION HONORING THE OREGON NATIONAL GUARD YOUTH CHALLENGE PROGRAM

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. BLUMENAUER. Madam Speaker, I am introducing this resolution to honor an organization committed to the Oregon ideals of leadership, self-reliance, and fortitude. For nearly 15 years the Oregon National Guard Youth Leadership Challenge Program has served the State by promoting self-confidence and fellowship among at-risk youth. More than 3,500 Oregonians likely to drop out of high school or engage in destructive behavior have entered this free and voluntary program. I'm pleased to say that the majority of these cadets have gone on to graduate the program and earn a high school degree or its equivalent.

This program has made a positive difference in countless lives and communities. This tremendous success has garnered the Oregon Program high praise, including the United Service Organizations' (USO) award for ''Best Overall Program'' in 2007, 2003, and 2001.

Oregonians have a great deal to be proud of. We are proud of these cadets, who are determined to succeed despite adversity, and of our National Guard, which draws strength from our communities and gives back so much. It is my hope that our Nation will learn from the example provided by the Youth Challenge Program and will be inspired by Oregon's success.

HONORING COLONEL PAUL J. KENNEDY

HON. DAVID DREIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. DREIER. Madam Speaker, today I would like to honor Colonel Paul J. Kennedy. Colonel Kennedy is taking command of the Second Marine Regiment, Second Marine Division, Camp Lejeune North Carolina on July 17, 2008 after serving two years as the Director of the Marine Corps House Liaison Office.

Since June 2006, he has very ably served as a direct link between the Marine Corps and the House of Representatives, providing Members of this body the information necessary to effectively equip, maintain and support the United States Marine Corps, and ultimately provide and ensure the nation's security. I know that everyone of my colleagues who had the pleasure of working with him shares the deep respect I have come to hold for Colonel Kennedy, and has trusted his straightforward and dependable assistance. His candor and knowledge have been key in maintaining superb relationships on both sides of the Potomac. He has demonstrated a unique ability to translate the language of the House of Representatives to the language of the Marine Corps and vice versa, enabling him to provide Members of Congress with a keen understanding of the issues that affect the men and women who wear a Marine uniform.

Over the course of two very busy years, Colonel Kennedy successfully planned, coordinated and escorted over 30 international and domestic Congressional and Staff Delegations. I had the opportunity to work closely with the Colonel on many of these Congressional Delegations as part of the House Democracy Assistance Commission, as we have worked to strengthen legislatures in emerging and re-emerging democracies around the world. HDAC works directly with the Members and staff of these institutions, and our Members must travel to places as diverse as Afghanistan, Mongolia and East Timor to conduct these programs. The technical and logistical support he provided in traveling often to remote or dangerous regions ensured that our delegations were always conducted safely; professionally and effectively, and afforded us the ability to focus entirely on the quality of our programs with these legislatures in burgeoning democracies. But just as important were his insights into conflict and post-conflict regions, based on his first-hand observations from the field. They were an invaluable asset to our delegations.

Colonel Kennedy also took a number of delegations to Iraq and Afghanistan, helping to educate Members of Congress on the successes and challenges facing our service men and women who are currently in harm's way. Due to his professionalism, dedication, experience and knowledge, Colonel Kennedy became the most sought-after military escort for delegations traveling into Central Command. He has made lasting contributions to the House of Representatives. I wish the Colonel the very best as he pursues other duties within the Marine Corps. He will be missed tremendously.

Colonel Kennedy's 23 years of service have included: Executive Officer of a Weapons Company; Instructor at The Basic School and the Infantry Officer Course in Quantico, Virginia; a Weapons Company Commander and Battalion Operations Officer in Camp Pendleton; Recruiting Station Commander in San Francisco, California; Plans Officer for Pre-Operation Iraqi Freedom and Plans/Future Operations Officer for the First Marine Division during Operation Iraqi Freedom; Battalion Commander for Operation Iraqi Freedom II; and Director of the House of Representatives, Marine Corps Liaison Office. Colonel Kennedy has received the Legion of Merit with combat ''V'', Bronze Star, two Meritorious Service Medals, two Navy and Marine Corps Commendation Medals and the Combat Action Ribbon.

HONORING CAPTAIN SILVESTER R. DEL ROSARIO, THE HIGHEST RANKING DOMINICAN AMERICAN IN THE UNITED STATES NAVY

HON. ROBERT E. ANDREWS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. ANDREWS. Madam Speaker, I rise today to honor Silvester R. Del Rosario for becoming the first Hispanic Aviation Limited Duty Officer in the United States Navy to achieve the rank of Captain. This promotion makes Mr. Del Rosario the highest ranking Dominican American in the United States Navy.

Captain Del Rosario was born and raised in Santo Domingo, Dominican Republic. He moved to Queens, New York at the age of 17 and enlisted in the U.S. Navy in 1976. After basic training, he was rapidly promoted from ''striker'' to Aviation Structural Mechanic Chief Petty Officer. His first assignment was to Naval Air Station Keflavik, Iceland where he trained in structures, hydraulic, and flight control systems. Mr. Del Rosario was subsequently moved to the prestigious Navy Flight Demonstration Squadron ''Blue Angels'' Naval Air Station in Pensacola, Florida.

In 1990, Captain Del Rosario was selected to serve as Officer-in-Charge for the VP–45 Detachment at Cecil Field, Florida where he earned distinction when he was honored as ''1990 Maintenance Officer of the Year'' by the Association of Naval Aviation. Over the course of two tours to the Mediterranean and North Arabian Gulf, he was awarded the ''LTJG Clint Neidecken'' award for leadership, selected by Strike Fighter Wing, U.S. Atlantic Fleet as the ''1993 Maintenance Officer of the Year'' and honored as the 1994 COMNAVAIRLANT ''Capt. Charles J. Nechvatal Aviation Maintenance Officer of the Year''. Under Captain Del Rosario's management, the Naval Air Maintenance Training Unit Norfolk won the 2002 Bronze Hammer Award, the 2002 NETC Training Excellence Award, and the 2002 NETC Retention Award. In 2003, his command was recognized by the U.S. Secretary of Education as a nationally accredited institution.

Over his long career Captain Del Rosario has won many awards, including four Meritorious Service Medals, five Navy Commendation Medals, four Navy Achievement Medals, three Navy Good Conduct Medals, Navy Rifle and Pistol Expert Medals, and various service campaign and unit decorations. In light of his considerable achievement, it is fitting that Mr. Del Rosario was promoted to the rank of Captain on Thursday, July 3rd, 2008. Captain Del Rosario is an exceptional role-model for young Americans considering a career in the United States Armed Forces. I congratulate him on this achievement and wish him the best of luck in his future endeavors.

IN RECOGNITION OF NATIONAL HIV TESTING DAY

HON. STEPHANIE TUBBS JONES

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mrs. JONES of Ohio. Madam Speaker, I rise today in recognition of National HIV Testing Day, celebrated on Sunday, June 27th, 2008. Every year, the National Association of People with AIDS (NAPWA) and the Center for Disease Control (CDC) work in conjunction to sponsor National HIV Testing Day. This year, National HIV Testing Day used the slogan: ''Take the test, take control''. National HIV Testing Day is used to provide vital information about the HIV/AIDS epidemic, educate people on the affect it has on an individual and on the community, help decrease the number of newly infected Americans with HIV/AIDS by increasing the availability of HIV tests and encourage individuals to seek voluntary counseling.

Worldwide, there are 14,000 new HIV/AIDS cases daily and a total of 22 million people who have died from the epidemic. As the number of people living with HIV/AIDS in the U.S. today increases, it is crucial to acknowledge the significance of knowing your HIV/AIDS status. Every year, 40,000 Americans are newly infected with the disease and approximately 1,200,000 people in the U.S. are living with HIV/AIDS. Twenty-five percent of them are unaware of their positive status.

Over time, as scientific developments around HIV/AIDS have progressed, HIV/AIDS is no longer a death sentence, but can be treated with proper medical care. Although the positive diagnosis of HIV/AIDS is life altering, everyone deserves to know their status—for themselves, their partner, and their family. Worldwide, the HIV/AIDS epidemic carries a negative stigma that results in societal disapproval and rejection. As a country and community, we need to stand together and fight this disease to provide a healthier America for generations to follow.

On behalf of the people of the 11th Congressional District in Ohio and the United States Congress, I extend my condolences to the friends and family of people who have lost a loved one to the disease. As we stand together as Americans, we can make a difference, we can save a life.

A TRIBUTE TO TIMOTHY RUSSERT BY WILLIAM O'SHAUGHNESSY

HON. NITA M. LOWEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mrs. LOWEY. Madam Speaker, I rise today to honor Timothy Russert by submitting for the record a tribute to him by the Buffalo, New York native, William O'Shaughnessy on June 16, 2008. ''A Death in the Family'' was broadcast on WVOX and WVIP in New York.

A DEATH IN THE FAMILY

And although we were in the care and keeping of the German Jesuits some ten years apart, Russert and I both got whacked upside the head by the same worn old leather prayer book belonging to the Reverend John

Sturm, SJ., who took most seriously his title and high estate: Prefect of Discipline.

Father John was built like a fireplug. And although an equal opportunity disciplinarian, he made Timmy Russert his favorite charge almost from the minute he first encountered the personable Irish youngster from South Buffalo with the bright eyes and easy smile. That was back in the 60's and they have been friends ever since. Canisius has turned out federal judges named Crotty and Arcara, political power brokers like Joe Crangle, big car dealers, stellar athletes including a few Holy Cross and Notre Dame quarterbacks, and doctors and lawyers of great renown. The Jesuits spotted Russert's beguiling potential early on. Even then they knew.

He would go back to Buffalo over the years to see his father and during summers better than this one Tim Russert would sit at Cole's bar in the Elmwood section to talk sports over a beer and a ''beef on a weck,'' Buffalo's legendary version of roast beef, a steamship round of which was personally carved by the bartender and then piled on a Kimmelweck roll covered with salt to be dipped in Heinz Ketchup. The music in the air on those nights was provided by ancient tapes of Fred Klestine's old radio programs from the 50's and 60's which survive to this day at Cole's.

They would order another Simon Pure beer or a Carling's ale and talk about the rich girls who went to ''The Mount,'' a boarding school, and about Johnny Barnes, the old Canisius High football coach and sometimes about Cornelius MacGillicudy, a favorite teacher who owned a bar in the Parkside section over near Delaware Park.

He never lost touch with the Jesuits. And just a few weeks ago, Father Sturm, now in his 90's, sent out invitations to a scholarship luncheon in his own honor with the obligatory picture of his protégé Tim Russert on the cover.

Before his dazzling work on television which made him famous, Tim labored in the service of the two brightest minds in public life during our time: Daniel Patrick Moynihan and the estimable Mario M. Cuomo.

Someone said yesterday on television: ''He wasn't exactly a pretty boy.'' With his cheeks and jowls, Russert was the complete antithesis of all the hyper, vacuous ''talking heads'' and all the bimbos—male as well as female—who sit each day in those anchor chairs praying the teleprompter doesn't fail lest they be forced to utter something more profound than ''absolutely!''

Only Chris Matthews was his equal in terms of depth and intelligence. And maybe Jon Meacham or Lawrence O'Donnell or Peggy Noonan. George Stephanopoulos can hold his own in front of a camera (and in front of George Will). And classy Deborah Norville has a brain. While among the youngsters coming up—William ''Billy'' Bush and Chris Cuomo are bursting with intelligence and promise. Ditto Bill Geist's kid Willy. And David Gregory and Tucker Carlson are easy to take. Barbara Walters and Diane Sawyer are class acts in any season.

We've always liked Bob Scheiffer and Judy Woodruff. And how can you not like Mike Barnicle and Joe Scarborough (but not the girl with him, the one with the famous father, who talks over everybody). And I hope Larry King, like Paul Harvey on the radio, goes on forever. Plus I still take pleasure in our infrequent sightings of Rather and Brokaw.

Russert, however, operated on a level far beyond most of them. And he didn't need high tech production values or fancy overhead lighting in an ultra-modern studio to enhance and amplify his unique genius. He was to network news what Mario Cuomo is to public discourse. And as the great Cuomo himself reminded us, ''Tim never forgot where he came from and he never let us forget it either . . . and we loved him for it.''

He would summer on Nantucket and go to parties at Sally Quinn's in Washington. But Russert never denied his roots in Buffalo. There was a realness about him, a genuineness, on and off the air.

A few summers ago, Russert was the main speaker at an important conference of the New York State Broadcasters Association up at Bolton Landing on Lake George. After his talk he was persuaded by our mutual friend Joe Reilly, the head of the broadcasters in the Empire State, to linger and give out the Association's Awards for Excellence . . . even as an NBC plane waited on the tarmac at the nearby Glens Falls airport to rush him back to Washington.

There were many awards and citations in every category. But Russert was his usual generous self and so he stayed late into the night as the awards presentations wore on. And when it was announced that your own WVOX had won the designation for ''Best Editorials in New York State'' (which we clearly did not deserve), Russert arched his eyebrows and the Irish eyes twinkled as my son David and I advanced to the front of the ballroom to receive our award.

As we posed for the cameras and the flashbulbs popped, Tim asked, sotto voce, ''How's Mario? . . . how's Nancy? . . . how are the kids? . . . how's the station?'' And now as my mind drifts back on this weekend after he died, I wonder if I remembered to inquire about his own welfare? I hope so, but I doubt it, given that heady moment in the spotlights. But he remembered.

Russert then thoughtfully pulled away my son David for a shot with just the two of them . . . and said, again on the QT, while still smiling for the cameras, ''How the hell did your old man win this damn thing . . . it must have been by shear guile! Or did Cuomo write it for him?'' As the two of them cracked up with laughter, no one in the audience of more than 500 had a clue what they were chuckling about.

James O'Shea, who owns The West Street Grill, a high class saloon in Litchfield, Connecticut (he much prefers the designation ''fine dining establishment'') called while I was thinking about all this. According to O'Shea, ''Russert possessed the genius of the Irish. Just say he was Irish. People will know what that means. He was Irish!'' As O'Shea provides libation and sustenance for the likes of Philip Roth, Rex Reed, Jim Hoge, Bill vandenHeuvel, Rose Styron, George Clooney, Peter Duchin and Brooke Hayward . . . I will bow to his wisdom. Russert did indeed have the genius of the Irish.

Nancy and I would see him around town of an evening, when he would come up from Washington to do some business at the NBC Universal mother ship at Rockefeller Center or if one of us had to emcee a dinner. And no matter how late the hour or how tired and rumpled he appeared, it was always the same: ''How are the kids? . . . how are the stations doing? . . . how's the gov?''

NBC delayed the news of his passing and actually got scooped by the New York Post and the Times until someone from their shop was retrieved to go and inform his wife Maureen Orth, their son Luke, and his beloved father Big Russ. But who, I wonder, had to knock on the door of the old priest in the Jesuit retirement house on Washington Street up in Buffalo to tell Father John Sturm, S.J. Timmy Russert was gone?

I always thought Russert would have made a wonderful politician himself or a great teacher. Or even a priest. And with his sudden, untimely departure at 58, he probably taught us one more lesson learned from the old Jesuits: ''You know not the hour . . . or the moment.''

The newsman-journalist known as Tim Russert has been mourned by millions and eulogized in all the journals and periodicals in the land. But the most exquisite tribute, and probably the one he would have liked the most came from Michelle Spuck, a waitress at Bantam Pizza in the Litchfield hills, who told a customer over the weekend, ''I'm so sad about this . . . I never met him . . . but I knew him.''

He died in front of a microphone.

This is Bill O'Shaughnessy.

RECOGNIZING ACCOMPLISHMENTS OF TOMMIE ANN GIBNEY

HON. PHIL ENGLISH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. ENGLISH of Pennsylvania. Madam Speaker, I want to bring to the attention of my colleagues the important accomplishments of Tommie Ann Gibney. Ms. Gibney is a shining example of a woman who tries hard and succeeds brilliantly. She does it all. She is a professional, a distinguished attorney, friend of many, wife, mother, and in June of this year Ms. Gibney will add president. She will be one of only three women to ever hold the prestigious position as president of the Association of Trial Lawyers of America/New Jersey, an organization of over 2100 attorneys, paralegals, law clerks and law school graduates who protect New Jersey families by advocating for safer products and workplaces, a cleaner environment, and quality health care.

Ms. Gibney attended Seton Hall University for her undergraduate, graduate, and law school degrees. As an associate at Andres and Berger in Haddonfield, New Jersey, Ms. Gibney fights tirelessly for victims of nursing home abuse and neglect. She volunteers her services and vast legal knowledge to Trial Lawyers Care, 9–11 Legal Assistance, and to the Hyacinth Aids Foundation. She is a role model for all law professionals both in and outside of the courtroom. My congratulations to Tommie Ann Gibney and her family.

SUNSET MEMORIAL

HON. TRENT FRANKS

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 8, 2008

Mr. FRANKS of Arizona. Madam Speaker, I stand once again before this House with yet another Sunset Memorial.

It is July 8, 2008 in the land of the free and the home of the brave, and before the sun set today in America, almost 4,000 more defenseless unborn children were killed by abortion on demand. That's just today, Madam Speaker. That's more than the number of innocent lives lost on September 11 in this country, only it happens every day.

It has now been exactly 12,951 days since the tragedy called Roe v. Wade was first handed down. Since then, the very foundation of this Nation has been stained by the blood of almost 50 million of its own children. Some of them, Madam Speaker, cried and screamed as they died, but because it was amniotic fluid passing over the vocal cords instead of air, we couldn't hear them.

All of them had at least four things in common. First, they were each just little babies who had done nothing wrong to anyone, and each one of them died a nameless and lonely death. And each one of their mothers, whether she realizes it or not, will never be quite the same. And all the gifts that these children might have brought to humanity are now lost forever. Yet even in the glare of such tragedy, this generation still clings to a blind, invincible ignorance while history repeats itself and our own silent genocide mercilessly annihilates the most helpless of all victims, those yet unborn.

Madam Speaker, perhaps it's time for those of us in this Chamber to remind ourselves of why we are really all here. Thomas Jefferson said, ''The care of human life and its happiness and not its destruction is the chief and only object of good government.'' The phrase in the 14th Amendment capsulizes our entire Constitution. It says, ''No State shall deprive any person of life, liberty or property without due process of law.'' Madam Speaker, protecting the lives of our innocent citizens and their constitutional rights is why we are all here.

The bedrock foundation of this Republic is the clarion declaration of the self-evident truth that all human beings are created equal and endowed by their Creator with the unalienable rights of life, liberty and the pursuit of happiness. Every conflict and battle our Nation has ever faced can be traced to our commitment to this core, self-evident truth.

It has made us the beacon of hope for the entire world. Madam Speaker, it is who we are.

And yet today another day has passed, and we in this body have failed again to honor that foundational commitment. We have failed our sworn oath and our God-given responsibility as we broke faith with nearly 4,000 more innocent American babies who died today without the protection we should have given them.

So Madam Speaker, let me conclude this Sunset Memorial in the hope that perhaps someone new who heard it tonight will finally embrace the truth that abortion really does kill little babies; that it hurts mothers in ways that we can never express; and that 12,951 days spent killing nearly 50 million unborn children in America is enough; and that it is time that we stood up together again, and remembered that we are the same America that rejected human slavery and marched into Europe to arrest the Nazi Holocaust; and we are still courageous and compassionate enough to find a better way for mothers and their unborn babies than abortion on demand.

Madam Speaker, as we consider the plight of unborn America tonight, may we each remind ourselves that our own days in this sunshine of life are also numbered and that all too soon each one of us will walk from these Chambers for the very last time.

And if it should be that this Congress is allowed to convene on yet another day to come, may that be the day when we finally hear the cries of innocent unborn children. May that be the day when we find the humanity, the courage, and the will to embrace together our human and our constitutional duty to protect these, the least of our tiny, little American brothers and sisters from this murderous scourge upon our Nation called abortion on demand.

It is July 8, 2008, 12,951 days since Roe versus Wade first stained the foundation of this Nation with the blood of its own children; this in the land of the free and the home of the brave.

Daily Digest

Senate

Chamber Action

Routine Proceedings, pages S6371–S6449

Measures Introduced: Six bills were introduced, as follows: S. 3228–3233. **Page S6441**

Measures Reported:

H.R. 65, to provide for the recognition of the Lumbee Tribe of North Carolina. (S. Rept. No. 110–409)

S. 3230, making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 2009. (S. Rept. No. 110–410) **Page S6441**

Measures Considered:

FISA Amendments Act: Senate began consideration of H.R. 6304, to amend the Foreign Intelligence Surveillance Act of 1978 to establish a procedure for authorizing certain acquisitions of foreign intelligence, after agreeing to the motion to proceed, taking action on the following amendments proposed thereto: **Pages S6379–S6429**

Pending:

Bingaman Amendment No. 5066, to stay pending cases against certain telecommunications companies and provide that such companies may not seek retroactive immunity until 90 days after the date the final report of the Inspectors General on the President's Surveillance Program is submitted to Congress. **Pages S6398–S6407**

Specter Amendment No. 5059, to limit retroactive immunity for providing assistance to the United States to instances in which a Federal court determines the assistance was provided in connection with an intelligence activity that was constitutional. **Pages S6407–14, S6418–20**

Dodd Amendment No. 5064, to strike title II. **Pages S6427–29**

A unanimous-consent agreement was reached providing for further consideration of the bill at approximately 9:30 a.m., on Wednesday, July 9, 2008, and that there be an additional 10 minutes for debate under the control of Senator Specter. **Page S6448**

House Messages:

Foreclosure Prevention Act—Agreement: Senate agreed to the motion to concur in the amendments of the House of Representatives, striking Title VI through XI, to the amendment of the Senate to H.R. 3221, to provide needed housing reform. **Page S6448**

Senator Reid entered a motion to disagree to the amendments of the House of Representatives, adding a new title and inserting a new section to the amendment of the Senate to the bill. **Page S6448**

Senator Reid entered a motion to concur in the amendment of the House of Representatives, adding a new title to the amendment of the Senate to the bill with the following amendments proposed thereto:

Pending:

Reid Amendment No. 5067 (to the motion to concur in the amendment of the House adding a new title to the amendment of the Senate), to change the enactment date. **Page S6448**

Reid Amendment No. 5068 (to Amendment No. 5067), of a perfecting nature. **Page S6448**

A motion was entered to close further debate on the motion to disagree to the amendments of the House, adding a new title and inserting a new section, to the amendment of the Senate to the bill, and, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, a vote on cloture will occur on Thursday, July 10, 2008. **Page S6448**

Printing of Senator Helms Tributes—Agreement: A unanimous-consent agreement was reached providing that the tributes to former United States Senator Jesse Alexander Helms, Jr., of North Carolina, in the Congressional Record be printed as a Senate document and that Senators be permitted to submit statements for inclusion until Friday, August 1, 2008. **Page S6448**

Nomination Discharged: The following nomination were discharged from further committee consideration and placed on the Executive Calendar:

Eric M. Thorson, of Virginia, to be Inspector General, Department of the Treasury, which was sent to the Senate on November 15, 2007, from the

Senate Committee on Homeland Security and Governmental Affairs. Page S6449

Messages from the House: Page S6435

Measures Placed on the Calendar: Pages S6371, S6435

Executive Communications Pages S6435–41

Additional Cosponsors: Pages S6441–43

Statements on Introduced Bills/Resolutions: Pages S6443–47

Additional Statements: Pages S6434–35

Amendments Submitted: Page S6447

Notices of Hearings/Meetings: Pages S6447–48

Authorities for Committees to Meet: Page S6448

Privileges of the Floor: Page S6448

Adjournment: Senate convened at 10 a.m. and adjourned at 7:54 p.m., until 9:30 a.m. on Wednesday, July 9, 2008. (For Senate's program, see the remarks of the Acting Majority Leader in today's Record on pages S6448–49.)

Committee Meetings

(Committees not listed did not meet)

APPROPRIATIONS: ENERGY AND WATER DEVELOPMENT

Committee on Appropriations: Subcommittee on Energy and Water Development approved for full Committee consideration an original bill making appropriations for Energy and Water Development for the fiscal year ending September 30, 2009.

WATER BILLS

H. Res. 1318, providing for consideration of the bill (H.R. 5811) to amend title 44, United States Code, to require preservation of certain electronic records by Federal agencies and to require a certification and reports relating to Presidential records (H. Rept. 110–745);

Report on the Suballocation of Budget Allocations for Fiscal Year 2008 (H. Rept. 110–746);

Report on the Revised Suballocations of Budget Allocations for Fiscal Year 2008 (H. Rept. 110–747); and

H.R. 6184, to provide for a program for circulating quarter dollar coins that are emblematic of a national park or other national site in each State, the District of Columbia, and each territory of the United States (H. Rept. 110–748). **Page H6228**

Speaker: Read a letter from the Speaker wherein she appointed Representative Jackson (IL) to act as Speaker Pro Tempore for today. **Page H6179**

Suspensions: The House agreed to suspend the rules and pass the following measures:

Shark Conservation Act of 2008: H.R. 5741, amended, to amend the High Seas Driftnet Fishing Moratorium Protection Act and the Magnuson-Stevens Fishery Conservation and Management Act to improve the conservation of sharks; **Pages H6180–82**

Preserve America and Save America's Treasures Act: H.R. 3981, amended, to authorize the Preserve America Program and Save America's Treasures Program, by a ⅔ yea-and-nay vote of 360 yeas to 23 nays, Roll No. 471; **Pages H6182–87, H6199**

Dorothy Buell Memorial Visitor Center Lease Act: H.R. 1423, amended, to authorize the Secretary of the Interior to lease a portion of a visitor center to be constructed outside the boundary of the Indiana Dunes National Lakeshore in Porter County, Indiana, by a ⅔ yea-and-nay vote of 376 yeas to 11 nays, Roll No. 472; **Pages H6187–89, H6200**

Agreed to amend the title so as to read: "To authorize the Secretary of the Interior to enter into a partnership with the Porter County Convention, Recreation and Visitor Commission regarding the use of the Dorothy Buell Memorial Visitor Center as a visitor center for the Indiana Dunes National Lakeshore, and for other purposes.". **Page H6200**

Amending the Dayton Aviation Heritage Preservation Act of 1992 to add sites to the Dayton Aviation Heritage National Historical Park: H.R. 4199, amended, to amend the Dayton Aviation Heritage Preservation Act of 1992 to add sites to the Dayton Aviation Heritage National Historical Park, by a ⅔ yea-and-nay vote of 368 yeas to 18 nays, Roll No. 473; **Pages H6189–91, H6200–01**

Maritime Pollution Prevention Act of 2008: Agreed to the Senate amendment to H.R. 802, to amend the Act to Prevent Pollution from Ships to implement MARPOL Annex VI—clearing the measure for the President; **Pages H6191–96**

Cpl. John P. Sigsbee Post Office Designation Act: H.R. 5975, to designate the facility of the United States Postal Service located at 101 West Main Street in Waterville, New York, as the "Cpl. John P. Sigsbee Post Office"; and **Pages H6196–97**

Sergeant Paul Saylor Post Office Building Designation Act: H.R. 6092, to designate the facility of the United States Postal Service located at 101 Tallapoosa Street in Bremen, Georgia, as the "Sergeant Paul Saylor Post Office Building". **Pages H6197–98**

Recess: The House recessed at 4:18 p.m. and reconvened at 6:30 p.m. **Page H6198**

Moment of Silence: The House observed a moment of silence in honor of Clem Rogers McSpadden, former Member of Congress. **Pages H6199–H6200**

Senate Messages: Messages received from the Senate by the Clerk and subsequently presented to the House today appear on pages H6179–80.

Senate Referrals: S. 3015 and S. 3082 were referred to the Committee on Oversight and Government Reform; S. 3218 was referred to the Committee on the Judiciary; and S. 2565 and S. Res. 608 were held at the desk. **Pages H6179–80, H6224–25**

Quorum Calls—Votes: Three yea-and-nay votes developed during the proceedings of today and appear on pages H6199, H6200 and H6200–01. There were no quorum calls.

Adjournment: The House met at 2 p.m. and adjourned at 10:45 p.m.

Committee Meetings

CAPITOL VISITOR CENTER

Committee on Appropriations: Subcommittee on Legislative Branch held a hearing on the Capitol Visitor Center. Testimony was heard from the following officials of the Office of the Architect of the Capitol:

Stephen T. Ayers, Acting Architect; Bernard Ungar, CVC Project Executive; and Terrie S. Rouse, CEO, Visitor Services, CVC; Phillip D. Morse, Sr., Chief, U.S. Capitol Police; Terrell Dorn, Director, Physical Infrastructure Issues, GAO; and Peter Eveleth, General Counsel, Office of Compliance.

REDUCE DENTAL MERCURY EMISSIONS

Committee on Oversight and Government Reform: Subcommittee on Domestic Policy held a hearing on Assessing State and Local Regulations to Reduce Dental Mercury Emissions. Testimony was heard from Curt McCormick, former Administrator, Region 8, EPA; Marc Smith, Deputy Director, Department of Environmental Protection, State of Massachusetts; and public witnesses.

ELECTRONIC MESSAGE PRESERVATION ACT

Committee on Rules: Granted, by voice vote, a closed rule. The rule provides for one hour of general debate on H.R. 5811, the Electronic Message Preservation Act, equally divided and controlled by the chairman and ranking minority member of the Committee on Oversight and Government Reform.

The rule waives all points of order against consideration of the bill except those arising under clause 9 or 10 of rule XXI. The rule provides the amendment in the nature of a substitute recommended by the Committee on Oversight and Government Reform shall be considered as adopted and the bill, as amended, shall be considered as read. The rule waives all points of order against provisions of the bill.

The rule provides one motion to recommit with or without instructions. Finally, notwithstanding the operation of the previous question, the Chair may postpone further consideration until a time designated by the Speaker. Testimony was heard by Representative Clay.

WASHINGTON-ROCHAMBEAU REVOLUTIONARY ROUTE NATIONAL HISTORIC TRAIL DESIGNATION ACT

Committee on Rules: Granted, by a record vote of 8 to 3, a structured rule. The rule provides one hour of general debate on H.R. 1286, the Washington-Rochambeau Revolutionary Route National Historic Trail Designation Act, equally divided and controlled by the chairman and ranking minority member of the Committee on Natural Resources.

The rule waives all points of order against consideration of the bill except clauses 9 and 10 of rule XXI. The rule provides that the amendment in the nature of a substitute recommended by the Committee on Natural Resources now printed in the bill, modified by the amendment printed in part A of the report of the Committee on Rules, shall be considered as an original bill or the purpose of amendment and shall be considered as read. The rule waives all points of order against the amendment in the nature of a substitute except clause 10 of rule XXI.

The rule makes in order only those amendments printed in part B of the report of the Committee on Rules. The amendments made in order may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for a division of the question in the House or in the Committee of the Whole. All points of order against the amendments except for clauses 9 and 10 of rule XXI are waived. The rule provides one motion to recommit with or without instructions. The rule provides that the Chair may postpone further consideration of the bill to a time designated by the Speaker. Testimony was heard by Chairman Rahall.

Congressional Record The *Congressional Record* (USPS 087–390). The Periodicals postage is paid at Washington, D.C. The public proceedings of each House of Congress, as reported by the Official Reporters thereof, are printed pursuant to directions of the Joint Committee on Printing as authorized by appropriate provisions of Title 44, United States Code, and published for each day that one or both Houses are in session, excepting very infrequent instances when two or more unusually small consecutive issues are printed one time. ¶Public access to the *Congressional Record* is available online through *GPO Access*, a service of the Government Printing Office, free of charge to the user. The online database is updated each day the *Congressional Record* is published. The database includes both text and graphics from the beginning of the 103d Congress, 2d session (January 1994) forward. It is available through *GPO Access* at www.gpo.gov/gpoaccess. Customers can also access this information with WAIS client software, via telnet at swais.access.gpo.gov, or dial-in using communications software and a modem at 202–512–1661. Questions or comments regarding this database or *GPO Access* can be directed to the *GPO Access* User Support Team at: E-Mail: gpoaccess@gpo.gov; Phone 1–888–293–6498 (toll-free), 202–512–1530 (D.C. area); Fax: 202–512–1262. The Team's hours of availability are Monday through Friday, 7:00 a.m. to 5:30 p.m., Eastern Standard Time, except Federal holidays. ¶The *Congressional Record* paper and 24x microfiche edition will be furnished by mail to subscribers, free of postage, at the following prices: paper edition, $252.00 for six months, $503.00 per year, or purchased as follows: less than 200 pages, $10.50; between 200 and 400 pages, $21.00; greater than 400 pages, $31.50, payable in advance; microfiche edition, $146.00 per year, or purchased for $3.00 per issue payable in advance. The semimonthly *Congressional Record Index* may be purchased for the same per issue prices. To place an order for any of these products, visit the U.S. Government Online Bookstore at: bookstore.gpo.gov. Mail orders to: Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954, or phone orders to 866–512–1800 (toll free), 202–512–1800 (D.C. area), or fax to 202–512–2250. Remit check or money order, made payable to the Superintendent of Documents, or use VISA, MasterCard, Discover, American Express, or GPO Deposit Account. ¶Following each session of Congress, the daily *Congressional Record* is revised, printed, permanently bound and sold by the Superintendent of Documents in individual parts or by sets. ¶With the exception of copyrighted articles, there are no restrictions on the republication of material from the *Congressional Record*.

POSTMASTER: Send address changes to the Superintendent of Documents, *Congressional Record*, U.S. Government Printing Office, Washington, D.C. 20402, along with the entire mailing label from the last issue received.
