SEC. 1083. OIL SAVINGS.

(a) FINDINGS.—Congress finds that—

(1) the United States imports more oil from the Middle East today than before the attacks on the United States on September 11, 2001;

(2) the United States remains the most oil-dependent industrialized nation in the world, consuming approximately 25 percent of the oil supply of the world;

(3) the Department of Defense is the largest Federal Government consumer of oil in the United States;

(4) the ongoing dependence of the United States on foreign oil is one of the greatest threats to the national security and economy of the United States; and

(5) the United States needs to take transformative steps to wean itself from its addiction to oil.

(b) POLICY ON REDUCING OIL DEPENDENCE.—It is the policy of the United States to reduce the dependence of the United States on oil, and thereby—

(1) alleviate the strategic dependence of the United States on oil-producing countries;

(2) reduce the economic vulnerability of the United States; and

“(g) FORMER DISTRICTS.—

“(1) CONSOLIDATION.—[For fiscal year 2006 and all succeeding fiscal years,] if the school district of a local educational agency described in paragraph (2) is formed at any time after 1938 by the consolidation of 2 or more former school districts, the local educational agency may elect to have the Secretary determine its eligibility and any amount for which the local educational agency is eligible under this section for any fiscal year on the basis of 1 or more of those former districts, as designated by the local educational agency.

“(2) ELIGIBLE LOCAL EDUCATIONAL AGENCIES.—A local educational agency referred to in paragraph (1) is—

“(A) any local educational agency that, for fiscal year 1994 or any preceding fiscal year, applied for, and was determined to be eligible under, section 2(c) of the Act of September 30, 1950 (Public Law 874, 81st Congress) as that section was in effect for that fiscal year; or

“(ii) for fiscal year 2010 and any subsequent fiscal year, the local educational agency includes the designation in its application under section 8005 or any timely amendment to such application.

“(3) AVAILABILITY OF FUNDS.—Notwithstanding any other provision of law limiting the period during which the Secretary may obligate funds appropriated for fiscal year

2006, 2007, or 2008, the Secretary may obligate funds from any of such fiscal years as may be necessary to carry out this subsection.”.

SEC. 854. EXPANDING OPPORTUNITIES FOR WOMEN ENTREPRENEURS.

(a) PURPOSE.—The purpose of this section is to ensure that small business concerns owned by women receive a full and fair opportunity to compete for Federal contracts.

(b) FINDINGS.—Congress finds the following:

(1) As a result of discrimination and barriers they have faced, businesses owned and controlled by women are underrepresented in our national economy.

(2) Relevant evidence includes the following:

(A) Numerous disparity studies conducted in every region of the Nation showing disparities in the utilization of women-owned businesses in Federal, State, and local government contracting despite their availability in relevant markets and industries.

(B) A recent RAND study showing that women-owned businesses were underutilized in Federal contracting in as many as 87 percent of the industries in the North American Industry Classification System codes.

(C) Census data showing that despite the fact that women-owned companies represent 30.4 percent of all privately-held firms in the Nation, they only generate approximately 4.2 percent of the gross domestic product of the United States.

(D) According to the Federal Procurement Data System, the portion of Federal contracts awarded to women-owned business has never exceeded 3.41 percent despite the fact that there has been a Federal contracting goal for women of 5 percent since 1994.

(E) Women's access to capital is important for the economy and social welfare, but this access continues to be limited. Of women owning larger businesses, 56 percent use commercial credit. However, these statistics lag behind men's access. For example, 71 percent of large male-owned businesses use credit.

(F) Reports from women owners of businesses that they are subject to stereotypes about their suspected lack of competence and higher performance standards than white men. Those reports also show that women-owned businesses encounter discrimination in obtaining loans and surety bonds, receiving price quotes from suppliers, working with trade unions, obtaining public and private sector prime contracts and subcontracts, and being paid promptly.

(3) Businesses owned and controlled by women make exceedingly important contributions to the economy of the Nation, and promoting women's business opportunities is a valuable and necessary way to maintain a well functioning society and is in the national interest.

(c) AUTHORITY.—Section 8(m) of the Small Business Act (15 U.S.C. 637(m)) is amended—

(1) by striking paragraphs (1) through (4) and inserting the following:

“(A) the term ‘contracting officer’ has the meaning given such term in section 27(f)(5) of the Office of Federal Procurement Policy Act (41 U.S.C. 423(f)(5));

“(B) the term ‘covered industry’ means an industry in North American Industry Classification System code 11 (Forestry), 21 (Mining), 22 (Utilities), 23 (Construction), 31 (Manufacturing), 32 (Manufacturing), 33 (Manufacturing), 42 (Wholesale Trade), 44 (Retail Trade), 45 (Retail Trade), 48 (Transportation), 49 (Transportation), 51 (Information), 52 (Finance and Insurance), 53 (Real Estate and Rental and Leasing), 54 (Professional, Scientific, and Technical Services), 56 (Administrative and Support, Waste Management, and Remediation Services), 61 (Education Services), 62 (Health Care and Social Assistance), 71 (Arts, Entertainment, and Recreation), 72 (Accommodation and Food Services), or 81 (Other Services), or any successor to such codes; and

“(C) the term ‘small business concern owned and controlled by women’ has the meaning given such term in section 3(n), except that ownership shall be determined without regard to any community property law.

“(2) AUTHORITY TO RESTRICT COMPETITION.—

(f) DEFINITIONS.—In this section:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means—

(A) the Committee on Armed Services and the Committee on Foreign Relations of the Senate; and

(B) the Committee on Armed Services and the Committee on Foreign Affairs of the House of Representatives.

(2) GOVERNMENT OF SUDAN.—The term “Government of Sudan”—

(A) means the government in Khartoum, Sudan, which is led by the National Congress Party (formerly known as the National Islamic Front) or any successor government formed on or after October 13, 2006 (including the coalition National Unity Government agreed upon in the Comprehensive Peace Agreement for Sudan); and

SA 5522. Mr. LEVIN (for himself and Mr. REED) submitted an amendment intended to be proposed by him to the bill S. 3001, to authorize appropriations for fiscal year 2009 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle D of title X, add the following:

SEC. 1041. SENSE OF SENATE ON IRAQ AND THE NEED FOR AN EFFECTIVE STRATEGY FOR IRAQ AND AFGHANISTAN TO ADDRESS THE TERRORIST THREAT.

(a) FINDINGS.—The Senate makes the following findings:

(1) The United States Armed Forces have performed brilliantly in Iraq and Afghanistan and have worked tirelessly to carry out the missions they were given. The families of those in the Armed Forces have provided strong support and contributed to the success of the Armed Forces.

(2) The cost of the war in Iraq is enormous, more than \$600,000,000,000 since 2003.

(3) More than 4,000 Americans have died in Iraq, and more than 30,000 have been wounded.

(4) Multiple and extended deployments have overstretched the military and depleted equipment, leading the Army Vice Chief of Staff to say in April 2008 that “Today our Army is out of balance. The current demand for forces in Iraq and Afghanistan exceeds our sustainable supply of soldiers, of units and equipment, and limits our ability to provide ready forces for other contingencies. Our readiness, quite frankly, is being consumed as fast as we can build it”.

(5) In his address to the Nation on January 10, 2007, the President announced the surge of five United States combat brigades consisting of approximately 30,000 additional United States combat troops.

(6) The President stated that the surge would create a situation where “the (Iraqi) government will have the breathing space it needs to make progress in other critical areas” and “reducing the violence in Baghdad will help make reconciliation possible”.

(7) The President described Iraq’s commitment as follows: “To establish its authority, the Iraqi government plans to take responsibility for security in all of Iraq’s provinces by November (2007). To give every Iraqi citizen a stake in the country’s economy, Iraq will pass legislation to share oil revenues among all Iraqis. To show that it is committed to delivering a better life, the Iraqi government will spend \$10 billion of its own money on reconstruction and infrastructure projects that will create new jobs. To empower local leaders, Iraqis plan to hold provincial elections later this year (2007). And to allow more Iraqis to re-enter their nation’s political life, the government will reform de-Baathification laws, and establish a fair process for considering amendments to Iraq’s constitution”.

(8) A number of factors led to the decrease in violence in Iraq. Increased numbers of United States Armed Forces deployed to Iraq, the use of enhanced United States special operations, the emergence of the Anbar Awakening starting in 2006, the 2007 and 2008 ceasefires of the Jaysh al-Mahdi, and the improved capability of the Iraqi Army produced tangible improvements in the security situation in Iraq.

(9) The Government of Iraq has not reached the political accommodation that was the stated purpose of the surge. The Government of Iraq has still not enacted an oil revenue sharing law, enacted a provincial election law necessary for regional elections, considered changes to its constitution, completed steps to disband and integrate militias, or adequately dealt with the enormous number of refugees and internally displaced citizens.

(10) Preserving the hard-fought gains of United States troops in Iraq depends upon compromise and accommodation among the Iraqi political leaders and an increase in governmental capacity by the Government of Iraq.

(11) The open-ended commitment of United States forces to Iraq takes the pressure off the Iraq leaders to take the political steps essential to ending the conflict.

(12) The United States is spending an average of \$10,000,000,000 per month while the Iraqi government is projected to achieve a budget surplus of \$79,000,000,000 by the end of this year.

(13) To date, United States taxpayers have paid approximately \$48,000,000,000 for stabilization and reconstructions activities in Iraq.

(14) Iraq’s overall rate of budget execution has declined in each of the last three years, from 73 percent in 2005 to 65 percent in 2007. The Government of Iraq spent only 28 percent of its \$12,200,000,000 capital investment budget in 2007. Furthermore, the rate of execution for budgeted capital investments by Iraq’s central ministries decreased from 14 percent in 2005 to 11 percent in 2007.

(15) The United States Ambassador to Iraq, Ryan Crocker, who previously served as United States Ambassador to Pakistan, testified before Congress on April 8, 2008, that al Qaeda poses a greater strategic threat in the Afghanistan-Pakistan border area than in Iraq.

(16) Afghanistan and Pakistan are the central front in the fight against terrorism.

(17) Al Qaeda has regrouped in Pakistan. According to the July 2007 National Intelligence Estimate, al Qaeda, “has protected or regenerated key elements of its Homeland attack capability, including: a safehaven in the Pakistan Federally Administered Tribal Areas (FATA), operational lieutenants, and its top leadership... As a result, we judge that the United States currently is in a heightened threat environment”.

(18) The Taliban has surged in Afghanistan and violence is increasing. June was the second deadliest month in Afghanistan since the war began, with 23 American deaths from hostilities, compared with 22 in Iraq. Improvised explosive device attacks have risen sharply, reaching a high of 2,615 in 2007, up from 1,931 in 2006.

(19) Poppy fields in Afghanistan produce 93 percent of the world’s opium, which is used by the Taliban to finance the insurgency.

(20) Admiral Michael Mullen, Chairman of the Joint Chiefs of Staff, said on August 28, 2008, that there is a “very real, urgent requirement” for more troops in Afghanistan.

(21) Admiral Michael Mullen cautioned on September 10, 2008 the United States was “running out of time” in Afghanistan... and “I’m not convinced we are winning it in Afghanistan. I am convinced we can”.

(b) SENSE OF SENATE.—It is the sense of the Senate—

(1) to honor the exemplary service, commend the bravery, and recognize the successes of the men and women of the United States Armed Forces in Iraq and Afghanistan and thank their families for their sacrifices; and

(2) that the President of the United States should promptly promulgate and implement a strategy which—

(A) resets and rebuilds the United States Armed forces to confront national security challenges around the world, including Afghanistan;

(B) will promote success in Iraq by redeploying United States combat troops from Iraq in a deliberate manner on a timeline that is militarily sound within the context of all threats facing the nation and ensures the safety of our forces, and will help pressure the Iraqis to take control and responsibility for their country and make the difficult decisions to resolve the political differences between Iraqi factions; and

(C) will succeed in the central front in the global war on terror, specifically in Afghanistan and Pakistan, and will capture or kill Usama bin Laden and the senior Al Qaeda leadership.

At the end of subtitle G of title X, add the following:

SEC. 1083. DESIGNATION OF USS CONSTITUTION AS AMERICA'S SHIP OF STATE.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The 3rd Congress authorized, in the Act entitled “An Act to Provide a Naval Armament”, approved on March 27, 1794 (1 Stat. 350, Chap. XII), the construction of six frigates as the first ships to be built for the United States Navy.

(2) One of the six frigates was built in Boston between 1794 and 1797, and is the only one of the original six ships to survive.

(3) President George Washington named this frigate “Constitution” to represent the Nation’s founding document.

(4) President Thomas Jefferson, asserting the right of the United States to trade on the high seas, dispatched the frigate CONSTITUTION in 1803 as the flagship of the Mediterranean Squadron to end the depredations of the Barbary States against United States ships and shipping, which led to a treaty being signed with the Bashaw of Tripoli in the Captain’s cabin aboard the frigate CONSTITUTION on June 4, 1805.

(5) The frigate CONSTITUTION, with her defeat of HMS GUERRIERE, secured the first major victory by the young United States Navy against the Royal Navy during the War of 1812, gaining in the process the nickname “Old Ironsides”, which she has proudly carried since.

(6) Congress awarded gold medals to four of the ship’s commanding officers (Preble, Hull, Stewart, and Bainbridge), a record unmatched by any other United States Navy vessel.

(7) The frigate CONSTITUTION emerged from the War of 1812 undefeated, having secured victories over three additional ships of the Royal Navy.

(8) As early as May 1815, the frigate CONSTITUTION had already been adopted as a symbol of the young Republic, as attested by the [Washington] National Intelligencer which proclaimed, “Let us keep ‘Old Ironsides’ at home. She has, literally become the Nation’s Ship ... and should thus be preserved ... in honorable pomp, as a glorious Monument of her own, and our other Naval Victories.”.

(9) Rumors in 1830 that “Old Ironsides,” an aging frigate, was about to be scrapped resulted in a public uproar demanding that the ship be restored and preserved, spurred by Oliver Wendell Holmes’ immortal poem “Old Ironsides”.

(10) “Old Ironsides” circumnavigated the world between 1844 and 1846, showing the American flag as she searched for future coaling stations that would eventually fuel the steam-powered navy of the United States.

(11) The first Pope to set foot on United States sovereign territory was Pius IX onboard the frigate Constitution in 1849.

(12) “Old Ironsides” helped evacuate the United States Naval Academy from Annapolis, Maryland, to Newport, Rhode Island, in 1860 to prevent this esteemed ship from falling into Confederate hands.

(13) Congressman John F. “Honey Fitz” Fitzgerald introduced legislation in 1896 to return “Old Ironsides” from the Portsmouth (New Hampshire) Naval Shipyard, where she was moored pier side and largely forgotten, to Boston for her 100th birthday.

(14) Thousands of school children contributed pennies between 1925 and 1927 to help fund a much needed restoration for “Old Ironsides”.

(15) Between 1931 and 1934, more than 4,500,000 Americans gained inspiration, at the depth of the Great Depression, by going aboard “Old Ironsides” as she was towed to 76 ports on the Atlantic, Gulf, and Pacific coasts.

(16) The 83rd Congress enacted the Act of July 23, 1954 (68 Stat. 527, chapter 565), which directed the Secretary of the Navy to transfer to the States and appropriate commissions four other historic ships then on the Navy inventory, and to repair and equip USS CONSTITUTION, as much as practicable, to her original condition, but not for active service.

(17) Queen Elizabeth II paid a formal visit to USS CONSTITUTION in 1976, at the start of her state visit marking the Bicentennial of the United States.

(18) The USS CONSTITUTION, in celebration of her bicentennial, returned to sea under sail on July 21, 1997 for the first time since 1881, proudly setting sails purchased by the contributions of thousands of pennies given by school children across the United States.

(19) The USS CONSTITUTION is the oldest commissioned warship afloat in the world.

(20) The USS CONSTITUTION is a National Historic Landmark.

(21) The USS CONSTITUTION continues to perform official, ceremonial duties, including in recent years hosting a congressional dinner honoring the late Senator John Chafee of Rhode Island, a special salute to the dedication of the John Moakley Federal Courthouse, a luncheon honoring British Ambassador Sir David Manning, and a special underway demonstration during which 60 Medal of Honor recipients each received a personal Medal of Honor flag.

(22) The USS CONSTITUTION celebrated on October 21, 2007, the 210th anniversary of her launching.

(23) The USS CONSTITUTION will remain a commissioned ship in the United States Navy, with the Navy retaining control of the ship, its material condition, and its employment.

(24) The USS CONSTITUTION’S primary mission will remain education and public outreach, and any Ship of State functions will be an adjunct to the ship’s primary mission.

(b) **DESIGNATION AS AMERICA’S SHIP OF STATE.**—

(1) IN GENERAL.—The USS Constitution is hereby designated as “America’s Ship of State”.

(2) REFERENCES.—The USS Constitution may be known or referred to as “America’s Ship of State”.

(3) SENSE OF CONGRESS.—It is the sense of Congress that the President, Vice President, executive branch officials, and members of Congress should utilize the USS CONSTITUTION for the conducting of pertinent matters of state, such as hosting visiting heads of state, signing legislation relating to the Armed Forces, and signing maritime related treaties.

(4) FEE OR REIMBURSEMENT STRUCTURE FOR NON-DEPARTMENT OF THE NAVY USE.—The Secretary of the Navy shall determine an appropriate fee or reimbursement structure for any non-Department of the Navy entities using the USS CONSTITUTION for Ship of State purposes.

SEC. 152. SUSTAINMENT OF THE MINUTEMAN III INTERCONTINENTAL BALLISTIC MISSILE.

(a) FINDINGS.—Congress makes the following findings:

(1) The Minuteman III Intercontinental Ballistic Missile (ICBM) is our Nation's only land-based strategic missile system.

(2) Beginning in fiscal year 2009, the United States will cease production of the Minuteman III Intercontinental Ballistic Missile. The Department of Defense has no plan to replace the Minuteman III Intercontinental

Ballistic Missile at the end of its service life in 2030.

(3) The ability to address in a timely and cost efficient manner the readiness and reliability problems in the Minuteman III Intercontinental Ballistic Missile motor may be lost after 2010.

(4) To mitigate similar risks, the Navy has established a low production and life extension program for the D-5 missile that manufactures 12 motor stacks per year.

(1) a national security risk may be created if production of the Minuteman III Intercontinental Ballistic Missile ceases without plans to repair or replace motors if needed after 2010.

(2) this situation necessitates the initiation of a production sustainment capability study for the Minuteman III Intercontinental Ballistic Missile to address and correct unforeseen problems affecting strategic readiness;

(3) the Nation's ability to maintain and respond to unanticipated age related problems in the Minuteman III Intercontinental Ballistic Missile during 30 years after production stops;

(4) a low-rate solid rocket motor life extension program for the Minuteman III Intercontinental Ballistic Missile may be needed to sustain and maintain the unique manufacturing and engineering infrastructure necessary to preserve this vital national capability; and

(5) the budget request for the Air Force for fiscal year 2010 (as submitted to Congress pursuant to section 1105 of title 31, United States Code), should include sufficient funds to implement the plan identified in the report required by subsection (d).

(c) REVIEW ON ICBM SUSTAINMENT.—The Secretary of the Air Force shall conduct a review of issues surrounding the long-term sustainment with respect to the Minuteman III Intercontinental Ballistic Missile. The review shall include a determination of the actions necessary—

(1) to assure the readiness and reliability of the Minuteman III Intercontinental Ballistic Missile force; and

(2) to maintain a national manufacturing and engineering infrastructure for intercontinental ballistic missiles.

(d) REPORT ON REVIEW.—The Secretary of the Air Force shall submit to Congress, at the same time the budget for fiscal year 2010 is submitted to Congress pursuant to section 1105 of title 31, United States Code, a report on the review required by subsection (c). The report shall include—

(1) a plan to implement the actions determined necessary as a result of the review; and

(2) an estimate of the costs associated with implementing and carrying out such actions.

(e) SOLID ROCKET MOTOR LIFE EXTENSION PROGRAM.—Using amounts authorized to be appropriated by this Act and available for the Minuteman III Intercontinental Ballistic Missile modernization, the Air Force may initiate a solid rocket motor life extension program for that missile, consistent with the unfunded requirements list of the Air Force for fiscal year 2009.

SEC. 1083. SENSE OF THE SENATE ON SUPPORT OF CZECH REPUBLIC AND POLAND FOR MISSILE DEFENSE EFFORTS.

(a) FINDINGS.—The Senate makes the following findings:

(1) The Heads of State and Government of the North Atlantic Treaty Organization (NATO) agreed at the Bucharest Summit on April 3, 2008, that “[b]allistic missile proliferation poses an increasing threat to Allies’ forces, territory and populations”.

(2) As part of a broad response to counter the ballistic missile threat, the Heads of State and Government of NATO “recognise the substantial contribution to the protection of Allies from long-range ballistic missiles to be provided by the planned deployment of European-based United States missile defence assets”.

(3) At the Bucharest Summit, the NATO Heads of State and Government stated that, with respect to the planned deployment of United States missile defense capability,

“[w]e are exploring ways to link this capability with current NATO missile defence efforts as a way to ensure that it would be an integral part of any future NATO wide missile defence architecture”.

(4) At the Bucharest Summit, the NATO Heads of State and Government stated that, “[b]earing in mind the principle of the indivisibility of Allied security as well as NATO solidarity, we task the Council in Permanent Session to develop options for a comprehensive missile defence architecture to extend coverage to all Allied territory and populations not otherwise covered by the United States system for review at our 2009 Summit, to inform any future political decision”.

(5) On July 8, 2008, the United States Government and the Government of the Czech Republic signed an agreement on the stationing of a United States radar facility in the Czech Republic to track ballistic missiles.

(6) On August 20, 2008, the United States Government and the Government of Poland signed an agreement on the stationing of 10 ground-based missile defense interceptors in Poland.

(7) Supplemental Status of Forces Agreements (SOFA) regarding the missile defense deployment agreements, not yet signed, are required elements of any final agreements to deploy the planned missile defense capabilities in the Czech Republic and Poland.

(8) In order to take legal effect, any final bilateral missile defense agreements must be submitted to and ratified by the parliaments of the Czech Republic and Poland, respectively.

(9) The deployment of the planned United States missile defense system in the Czech Republic and Poland would not provide protection to southeastern portions of NATO territory against missile attack. Additional missile defense capabilities would be required to protect these areas against missile attack, including against existing short- and medium-range missile threats.

(10) According to the Director of Operational Test and Evaluation, the ground-based interceptor planned to be deployed in Poland would require three flight tests to demonstrate whether it could accomplish its mission in an operationally effective manner. Such testing is not expected to begin before the fall of 2009, and is unlikely to be concluded before 2011.

(11) The Government of Iran continues to defy international calls to cease its uranium enrichment program, has deployed hundreds of short- and medium-range ballistic missiles, and continues to develop and test ballistic missiles of increasing range, as well as a space launch vehicle.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) the decisions by the Governments of Poland and the Czech Republic to station elements of a missile defense system on their territory are a clear affirmation of the commitment of those governments to support the defense of NATO, including the United States, against the threat of long-range ballistic missiles;

(2) the Senate—

(A) recognizes the importance of these decisions taken by the Governments of Poland and the Czech Republic, as well as the statements made by NATO Heads of State and Government relative to missile defense at the Bucharest Summit in April 2008; and

(B) notes the care and seriousness with which the Governments of Poland and the Czech Republic have undertaken their evaluation and consideration of these issues; and

(3) these decisions will deepen the strategic relationship between the United States Government and the Governments of Poland and the Czech Republic and make a substantial

contribution to the collective capability of NATO to counter future long-range ballistic missile threats.

(c) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to modify the requirements of section 226 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 41), or [section 232] of this Act.

Subtitle E—Enhanced Partnership With Pakistan

SEC. 1241. SHORT TITLE.

This subtitle may be cited as the “Enhanced Partnership with Pakistan Act of 2008”.

SEC. 1242. FINDINGS.

Congress makes the following findings:

(1) The people of Pakistan and the United States have a long history of friendship and comity, and the vital interests of both nations are well-served by strengthening and deepening this friendship.

(2) In February 2008, the people of Pakistan elected a civilian government, reversing months of political tension and intrigue, as well as mounting popular concern over governance and their own democratic reform and political development.

(3) A democratic, moderate, modernizing Pakistan would represent the wishes of that country’s populace, and serve as a model to other countries around the world.

(4) Pakistan is a major non-NATO ally of the United States, and has been a valuable partner in the battle against al Qaeda and the Taliban.

(5) The struggle against al Qaeda, the Taliban, and affiliated terrorist groups has led to the deaths of several thousand Pakistani civilians and members of the security forces of Pakistan over the past 6 years.

(6) Since the terrorist attacks of September 11, 2001, more al Qaeda terrorist suspects have been apprehended in Pakistan than in any other country, including Khalid Sheikh Muhammad, Ramzi bin al-Shibh, and Abu Faraj al-Libi.

(7) Despite the sacrifices and cooperation of the security forces of Pakistan, the top leadership of al Qaeda, as well as the leadership and rank-and-file of affiliated terrorist groups, are believed to use Pakistan’s Federally Administered Tribal Areas (FATA) as a haven and a base from which to organize terrorist actions in Pakistan and with global reach.

(8) According to a Government Accountability Office Report, (GAO-08-622), “since 2003, the administration’s national security strategies and Congress have recognized that a comprehensive plan that includes all elements of national power—diplomatic, military, intelligence, development assistance, economic, and law enforcement support—was needed to address the terrorist threat emanating from the FATA” and that such a strategy was also mandated by section 7102(b)(3) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108-458; 22 U.S.C. 2656f note) and section 2042(b)(2) of the Implementing the Recommendations of the 9/11 Commission Act of 2007 (Public Law 110-53; 22 U.S.C. 2375 note).

(9) According to United States military sources and unclassified intelligence reports,

including the July 2007 National Intelligence Estimate entitled, “The Terrorist Threat to the U.S. Homeland”, the Taliban, al Qaeda, and their Pakistani affiliates continue to use territory in Pakistan as a haven, recruiting location, and rear base for violent actions in both Afghanistan and Pakistan, as well as attacks globally, and pose a threat to the United States homeland.

(10) The toll of terrorist attacks, including suicide bombs, on the people of Pakistan include thousands of citizens killed and wounded across the country, over 1,400 military and police forces killed (including 700 since July 2007), and dozens of tribal, provincial, and national officials targeted and killed, as well as the brazen assassination of former prime minister Benazir Bhutto while campaigning in Rawalpindi on December 27, 2007, and several attempts on the life of President Pervez Musharraf, and the rate of such attacks have grown considerably over the past 2 years.

(11) The people of Pakistan and the United States share many compatible goals, including—

(A) combating terrorism and violent radicalism, both inside Pakistan and elsewhere;

(B) solidifying democracy and the rule of law in Pakistan;

(C) promoting the economic development of Pakistan, both through the building of infrastructure and the facilitation of increased trade;

(D) promoting the social and material well-being of Pakistani citizens, particularly through development of such basic services as public education, access to potable water, and medical treatment; and

(E) safeguarding the peace and security of South Asia, including by facilitating peaceful relations between Pakistan and its neighbors.

(12) According to consistent opinion research, including that of the Pew Global Attitudes Survey (December 28, 2007) and the International Republican Institute (January 29, 2008), many people in Pakistan have historically viewed the relationship between the United States and Pakistan as a transactional one, characterized by a heavy emphasis on security issues with little attention to other matters of great interest to citizens of Pakistan.

(13) The election of a civilian government in Pakistan in February 2008 provides an opportunity, after nearly a decade of military-dominated rule, to place relations between Pakistan and the United States on a new and more stable foundation.

(14) Both the Government of Pakistan and the United States Government should seek to enhance the bilateral relationship through additional multi-faceted engagement in order to strengthen the foundation for a consistent and reliable long-term partnership between the two countries.

(d) SENSE OF SENATE.—

(1) FINDINGS.—The Senate makes the following findings:

(A) Executive Order 13457, entitled “Protecting American Taxpayers from Government Spending on Wasteful Earmarks”, makes clear that future earmarks would be honored only if included in the text of legislation. This Executive Order was an attempt to assure taxpayers their money would be spent responsibly by providing more transparency and accountability in the budget process.

(B) Any attempt to block the application of this Executive Order would be objectionable under the Constitution in that it would seek to prohibit the President from supervising Executive Branch agencies as to discretionary matters and to have agencies implement informal preferences of committees of Congress that are not enacted into law.

(2) SENSE OF SENATE.—It is the sense of the Senate that legislative language blocking the application of Executive Order 13457 should be rejected.

SA 5570. Mr. CORNYN submitted an amendment intended to be proposed by him to the bill S. 3001, to authorize appropriations for fiscal year 2009 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

“(c) TRACKING MECHANISM.—Under the procedures established under this section, the entity responsible for delivering marked absentee ballots to the appropriate election officials shall implement procedures to enable any individual whose ballot for a regularly scheduled general election for Federal office is collected by the Presidential designee to determine whether the ballot has been delivered to the appropriate election official, using the Internet, an automated telephone system, or such other methods as the entity may provide.

SA 5578. Mr. LAUTENBERG (for himself, Mr. HAGEL, AND MS. SNOWE) submitted an amendment intended to be proposed by him to the bill S. 3001, to authorize appropriations for fiscal year 2009 for military activities of the De-

partment of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle A of title VII, add the following:

SEC. 702. ONE-YEAR EXTENSION OF TEMPORARY PROHIBITIONS ON ADJUSTMENTS TO CERTAIN BENEFICIARY FEES FOR MILITARY HEALTH CARE.

(a) FINDINGS.—Congress makes the following findings:

(1) Career members of the uniformed services and their families endure unique and extraordinary demands, and make extraordinary sacrifices, over the course of 20-year to 30-year careers in protecting freedom for all Americans.

(2) The nature and extent of these demands and sacrifices are never so evident as in wartime, not only during the current Global War on Terrorism, but also during the wars of the last 60 years when current retired members of the Armed Forces were on continuous call to go in harm’s way when and as needed.

(3) The demands and sacrifices are such that few Americans are willing to bear or accept them for a multi-decade career.

(4) A primary benefit of enduring the extraordinary sacrifices inherent in a military career is a range of extraordinary retirement benefits that a grateful Nation provides for those who choose to subordinate much of their personal life to the national interest for so many years.

(5) Many private sector firms are curtailing health benefits and shifting significantly higher costs to their employees, and one effect of such curtailment is that retired members of the uniformed services are turning for health care services to the Department of Defense, and its TRICARE program, for the health care benefits in retirement that they earned by their service in uniform.

(6) While the Department of Defense has made some efforts to contain increases in the cost of the TRICARE program, a large part of those efforts has been devoted to shifting a larger share of the costs of benefits under that program to retired members of the uniformed services.

(7) The cumulative increase in enrollment fees, deductibles, and copayments being proposed by the Department of Defense for health care benefits under the TRICARE program far exceeds the percentage increase in military retired pay since such fees, deductibles, and copayments were first required on the part of retired members of the uniformed services.

(8) Proposals of the Department of Defense for increases in the enrollment fees, deductibles, and copayments of retired members of the uniformed services who are participants in the TRICARE program fail to recognize adequately that such members paid the equivalent of enormous in-kind premiums for health care in retirement through their extended sacrifices by service in uniform.

(9) Some of the Nation’s health care providers refuse to accept participants in the TRICARE program as patients because that program pays them significantly less than commercial insurance programs, and imposes unique administrative requirements, for health care services.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Department of Defense and the Nation have a committed obligation to provide health care benefits to retired members of the uniformed services that exceeds the obli-

gation of corporate employers to provide health care benefits to their employees; and

(2) the Department of Defense has many additional options to constrain the growth of health care spending in ways that do not disadvantage retired members of the uniformed services who participate or seek to participate in the TRICARE program, and should pursue any and all such options rather than seeking large increases for enrollment fees, deductibles, and copayments for such retirees, and their families or survivors, who do participate in that program.

(c) ONE-YEAR EXTENSION OF LIMITATIONS ON CERTAIN INCREASES IN HEALTH CARE COSTS.—

(1) PHARMACY BENEFITS PROGRAM.—Section 702 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 188) is amended by striking “September 30, 2008” and inserting “September 30, 2009”.

(2) PREMIUMS FOR TRICARE STANDARD FOR RESERVE COMPONENT MEMBERS WHO COMMIT TO SERVICE IN THE SELECTED RESERVE.—Section 1076d(d)(3) of title 10, United States Code, is amended by striking “September 30, 2008” and inserting “September 30, 2009”.

(3) COPAYMENTS UNDER CHAMPUS.—Paragraph (3) of section 1086(b) of such title is amended in the first sentence by striking “September 30, 2008” and inserting “September 30, 2009”.

(4) PROHIBITION ON ENROLLMENT FEES FOR CERTAIN PERSONS UNDER CHAMPUS.—Section 1086(b) of such title is further amended by adding at the end the following new paragraph:

“(5) A person covered by subsection (c) may not be charged an enrollment fee for coverage under this section.”.

(5) PREMIUMS AND OTHER CHARGES UNDER TRICARE.—Section 1097(e) of such title is amended by striking “September 30, 2008” and inserting “September 30, 2009”.

SA 5579. Mr. LAUTENBERG submitted an amendment intended to be proposed by him to the bill S. 3001, to authorize appropriations for fiscal year 2009 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title VI, add the following:

SEC. 620. MONTHLY SPECIAL PAY FOR MEMBERS OF THE UNIFORMED SERVICES WHOSE SERVICE ON ACTIVE DUTY IS EXTENDED BY A STOP-LOSS ORDER OR SIMILAR MECHANISM.

(a) PAY REQUIRED.—Subchapter I of chapter 5 of title 37, United States Code, is amended by adding at the end the following new section:

“§330a. Special pay: members of the uniformed services whose service on active duty is extended by a stop-loss order or similar mechanism

“(a) SPECIAL PAY.—A member of the uniformed services entitled to basic pay whose enlistment or period of obligated service is extended, or whose eligibility for retirement is suspended, pursuant to the exercise of an authority referred to in subsection (b) is entitled while on active duty during the period of such extension or suspension to special pay in the monthly amount determined appropriate by the Secretary concerned.

“(b) AUTHORITIES.—An authority referred to in this section is an authority for the extension of an enlistment or period of obligated service, or for suspension of eligibility

for retirement, of a member of the uniformed services under a provision of law as follows:

“(1) Section 123 of title 10.

“(3) Any other provision of law (commonly referred to as a ‘stop-loss authority’) authorizing the President to extend an enlistment or period of obligated service, or suspend an eligibility for retirement, of a member of the uniformed services in time of war or of national emergency declared by Congress or the President.

“(c) CONSTRUCTION WITH OTHER PAYS.—Special pay payable under this section is in addition to any other pay payable to members of the uniformed services by law.”

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 5 of such title is amended by inserting after the item relating to section 330 the following new item:

“330a. Special pay: members of the uniformed services whose service on active duty is extended by a stop-loss order or similar mechanism.”

Mr. LIEBERMAN (for himself, Mr. GRAHAM, and Mr. LUGAR) submitted an amendment intended to be proposed by him to the bill S. 3001, to authorize appropriations for fiscal year 2009 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

(4) detailed recommendations on how the Republic of Georgia, with United States assistance, may improve its capability for self-defense and more effectively control its territorial waters and air space.

(c) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) Congress—

(A) reaffirms its previous expressions of support for continued enlargement of the

North Atlantic Treaty Organization (NATO) to include qualified candidates; and

(B) supports the commitment to further enlargement of NATO to include democratic governments that are able and willing to meet the responsibilities of membership;

(2) the expansion of NATO contributes to the continued effectiveness and relevance of the organization;

(3) Georgia and Ukraine have made important progress in the areas of defense and democratic and human rights reform;

(2) Hurricane Ike, which made landfall on Cuba on September 7, 2008, forced the evacuation of over 2,500,000 Cubans, damaged an additional 100,000 structures, and damaged local infrastructure.

(3) The number of Cubans left homeless is expected to reach 100,000, and the total economic losses of Hurricanes Gustav and Ike are expected to reach upwards of \$10,000,000,000, with serious damage done to the island’s agricultural industry.

(4) In the wake of past natural disasters, the United States eased restrictions to mobi-

lize the generous spirit of many thousands of Americans by allowing humanitarian aid originating from the United States to be transported directly to Cuba to the benefit of the Cuban people.

(5) Allowing the people of the United States to assist the Cuban people in reclaiming their lives and livelihoods following a major natural disaster just 90 miles from the United States is an important aspect of United States national security and defense policy.

Congress makes the following findings:

(1) More than 6 years after the liberation of Afghanistan from the Taliban, who provided Osama Bin Laden and Al-Qaeda with a safe haven for planning the attacks of September 11, 2001, Afghanistan remains highly unstable and the government of President Hamid Karzai remains subject to attacks from remnants of the Taliban who have regrouped in the region with other insurgent groups, including foreign fighters associated with Al-Qaeda.

(2) The Government of Afghanistan supports the continued deployment of international forces to supplement its own nascent national security forces and North Atlantic Treaty Organization (NATO) forces, which took over international stability operations for the entire country through the International Security Assistance Force (ISAF) on October 5, 2006.

(3) An insurgency that began in a relatively weak position at the end of 2005 has expanded to pose a serious threat to the Government of Afghanistan and the international NATO/ISAF and Operation Enduring Freedom forces, whose casualties have mounted significantly during 2008, while civilian casualties have also increased substantially in Afghanistan, resulting in significant popular disenchantment and concern about the prospects of peace and stability in the near future.

(4) Despite the establishment of a constitution and a constitutionally-elected government in Afghanistan, the failure to build the core institutions of the state and the market has resulted in opportunities for massive corruption and the mounting loss of trust of the Afghan people in their government.

(5) A Government Accountability Office report released on June 18, 2008 (GAO-08-883T) indicates that "although the [Afghan National Police] has reportedly grown in number since 2005, after an investment of nearly \$6 billion, no Afghan police unit (0 of 433) is assessed by Defense as fully capable of performing its mission".

(6) The failure of the current counter-narcotics strategy for Afghanistan has diminished Afghan political will to take on the increasingly powerful drug interests in the country. The lack of significant results is due to—

(A) the failure to have in place in Afghanistan the essential institutional elements necessary to arrest and prosecute mid- and high-level drug traffickers and enablers; and

(B) the lack of economic mechanisms, such as finance facilities and services and adequate land rights, to enable Afghan farmers to develop alternatives to opium production.

(7) The violence and instability in Afghanistan is further exacerbated by corruption and the flourishing trade in opium and opium-related products, which—

(A) has reached record levels;

(B) fuels local militias;

(C) corrupts the national and local governments; and

(D) provides funding for insurgent and terrorist groups.

(8) The failure of the Government of Afghanistan to reform the judicial sector has allowed the Taliban to offer its version of dispute settlement and to operate among ordinary citizens.

(9) The Bonn Agreement—

(A) provided legitimacy and initial stability in Afghanistan between late 2001 and 2006;

(B) enabled the drafting of a new constitution, the first directly elected President in the history of Afghanistan, and a sitting National Parliament.

(10) The Bonn Agreement also provided the political platform through which a series of benchmarks were set. These benchmarks were met against a carefully sequenced timeline for a narrow list of institutional priorities upon which the Afghan Government, Afghan citizens, and their international supporters could collaborate. The National Health System, the Afghan National Army, the National Solidarity Program, the National Telecommunications program, and the National Transportation System provided a clear framework for the establishment and coordination of goals, tasks, benchmarks, and allocation of responsibilities.

(11) On February 1, 2006, the Government of Afghanistan and the international community issued the Afghanistan Compact, which sets forth both the international community's commitment to Afghanistan and Afghanistan's commitment to state-building and reform.

(12) The Afghanistan Compact, which is supported by the Afghan National Development Strategy—

(A) provides the core framework for building an effective, accountable state in Afghanistan;

(B) sets goals and standards for improvements in security, governance, and development;

(C) includes measures for reducing the narcotics economy, promoting regional cooperation, and making aid more effective, particularly at the local and provincial levels; and

(D) established a mechanism to monitor Afghanistan and the international community's adherence to the time lines, goals, and objectives set forth in the document.

SEC. 1243. SENSE OF CONGRESS.

It is the Sense of the Congress that—

(1) following the liberation of Afghanistan from the Taliban in 2001, the Federal Government underestimated—

(A) the nature of the challenge in Afghanistan;

(B) the time horizon for restoring political and economic stability in Afghanistan; and

(C) the type of resources required to help ensure a stable Afghanistan with effective and accountable state institutions and developing economic opportunities;

(2) the international community must—

(A) provide appropriate and forthright expectations of the long and challenging commitment necessary for success in Afghanistan; and

(B) accurately estimate the nature of the resources required;

(3) Afghanistan remains a country of paramount importance to our national security and building Afghanistan into an effective state with political and economic stability is a goal that the United States shares with the Government of Afghanistan and its citizens;

(4) the region in which Afghanistan is situated is of paramount importance to the national security of the United States and our diplomatic initiatives and foreign policy in this region must be harmonized and coherent across the region;

(5) the most important partners in the security, stability, and development of Afghanistan are the people of that country, who should remain a prime focus of our efforts to build their sustained capacity to govern;

(6) long-term, consistent, and coordinated international support and assistance is required in Afghanistan to secure, stabilize, and develop the country so that it is capable of sustaining good governance and becoming a responsible and valued partner in the international community;

(7) setting appropriate expectations in Afghanistan and in donor and partner capitals is essential to effective and responsible foreign assistance policy; and understanding the necessity for long-term engagement in such situations will prevent short term, unsustainable outcomes;

(8) Afghanistan and its neighbors have a mutual responsibility to ensure that their territories are not the source, and their policies are not complicit in, the destabilization or deprivation of other countries in the region;

(9) the challenges Afghanistan faces stem more from weak governance than from a strong enemy and can be overcome by the unity and resolve of the Afghan people and the international community;

(10) American academic and policy institutions and several respected outside organizations have conducted significant close and prolonged studies of the Afghanistan situation, generating reports and comprehensive reviews of post-conflict reconstruction, counter-narcotics, economic development, security force training, and counter-insurgency efforts that warrant review and consideration by United States policy makers to develop a more responsive United States strategy to address the crisis in Afghanistan;

(11) despite some delays in its deployment, the Afghan National Army (ANA), which is an essential element in the stability of Afghanistan in a volatile region, must continue to be properly trained and equipped to achieve effective and independent operational capability;

(12) the security of Afghanistan is closely intertwined with those of its regional neighbors;

(13) success in Afghanistan, both economic and political, will be dependent on security and stability in the region; and

(14) it is essential that United States policy be harmonized and complementary across the region.

SEC. 1244. DECLARATION OF POLICY.

It shall be the policy of the United States—

(1) to render appropriate, long-term assistance to Afghanistan in a consistent and coordinated fashion with willing and responsible partners in the international community;

(2) to ensure that our foreign policy in this region is responsive to and in partnership with the people of Afghanistan;

(3) to harmonize its assistance efforts in Afghanistan and neighboring countries across—

(A) all associated Federal agencies; and

(B) to the maximum extent possible, with congruent international partner assistance efforts; and

(4) to regularly, comprehensively, and openly review stabilization, reconstruction and development efforts in Afghanistan to ensure flexibility and the most effective utilization of resources toward specific, tangible outcomes.
