

111TH CONGRESS  
1ST SESSION

# H. CON. RES. 186

Supporting the goals and ideals of Sickle Cell Disease Awareness Month.

---

## IN THE HOUSE OF REPRESENTATIVES

SEPTEMBER 16, 2009

Mr. DAVIS of Illinois (for himself, Mr. SHIMKUS, and Mrs. CHRISTENSEN)  
submitted the following concurrent resolution; which was referred to the  
Committee on Oversight and Government Reform

---

## CONCURRENT RESOLUTION

Supporting the goals and ideals of Sickle Cell Disease  
Awareness Month.

Whereas Sickle Cell Disease is an inherited blood disorder  
that is a major health problem in the United States and  
worldwide;

Whereas Sickle Cell Disease causes the rapid destruction of  
sickle cells, which results in multiple medical complica-  
tions, including anemia, jaundice, gallstones, strokes, and  
restricted blood flow, damaging tissue in the liver, spleen,  
and kidneys, and death;

Whereas Sickle Cell Disease causes episodes of considerable  
pain in one's arms, legs, chest, and abdomen;

Whereas Sickle Cell Disease affects an estimated 70,000 to  
100,000 Americans;

Whereas approximately 1,000 babies are born with Sickle Cell Disease each year in the United States, with the disease occurring in approximately 1 in 500 newborn African-American infants, 1 in 1,000 newborn Hispanic-Americans, and is found in persons of Greek, Italian, East Indian, Saudi Arabian, Asian, Syrian, Turkish, Cypriot, Sicilian, and Caucasian origin;

Whereas more than 2,000,000 Americans have the sickle cell trait, and 1 in 12 African-Americans carry the trait;

Whereas there is a 1 in 4 chance that a child born to parents who both have the sickle cell trait will have the disease;

Whereas the life expectancy of a person with Sickle Cell Disease is severely limited, with an average life span for an adult being 45 years;

Whereas, though researchers have yet to identify a cure for this painful disease, advances in treating the associated complications have occurred;

Whereas researchers are hopeful that in less than two decades, Sickle Cell Disease may join the ranks of chronic illnesses that, when properly treated, do not interfere with the activity, growth, or mental development of affected children;

Whereas Congress recognizes the importance of researching, preventing, and treating Sickle Cell Disease by authorizing treatment centers to provide medical intervention, education, and other services and by permitting the Medicaid program to cover some primary and secondary preventative medical strategies for children and adults with Sickle Cell Disease;

Whereas the Sickle Cell Disease Association of America, Inc. remains the preeminent advocacy organization that serves

the sickle cell community by focusing its efforts on public policy, research funding, patient services, public awareness, and education related to developing effective treatments and a cure for Sickle Cell Disease; and

Whereas the Sickle Cell Disease Association of America, Inc. has requested that the Congress designate September as Sickle Cell Disease Awareness Month in order to educate communities across the Nation about sickle cell and the need for research funding, early detection methods, effective treatments, and prevention programs: Now, therefore, be it

- 1       *Resolved by the House of Representatives (the Senate*
- 2 *concurring)*, That the Congress supports the goals and
- 3 ideals of Sickle Cell Disease Awareness Month.
