9 to the regulations issued under this Act to ensure  
10 adequate protection of safety and the environment.

16          “(k) DOCUMENTS INCORPORATED BY REFERENCE.—  
17          Any documents incorporated by reference in regulations  
18          promulgated by the Secretary pursuant to this Act shall  
19          be made available to the public, free of charge, on a  
20          website maintained by the Secretary.

21          “(l) REGULATORY STANDARDS FOR BLOWOUT PRE-  
22          VENTERS, WELL DESIGN, AND CEMENTING.—

23                 “(1) IN GENERAL.—In promulgating regula-  
24                 tions under this Act related to blowout preventers,  
25                 well design, and cementing, the Secretary shall en-

1       sure that such regulations include the minimum  
2       standards included in paragraphs (2), (3), and (4),  
3       unless, after notice and an opportunity for public  
4       comment, the Secretary determines that a standard  
5       required under this subsection would be less effective  
6       in ensuring safe operations than an available alter-  
7       native technology or practice. Such regulations shall  
8       require independent third-party certification, pursu-  
9       ant to paragraph (5), of blowout preventers, well de-  
10      sign, and cementing programs and procedures prior  
11      to the commencement of drilling operations. Such  
12      regulations shall also require re-certification by an  
13      independent third-party certifier, pursuant to para-  
14      graph (5), of a blowout preventer upon any material  
15      modification to the blowout preventer or well design  
16      and of a well design upon any material modification  
17      to the well design.

18               “(2) BLOWOUT PREVENTERS.—Subject to para-  
19      graph (1), regulations issued under this Act for  
20      blowout preventers shall include at a minimum the  
21      following requirements:

22                       “(A) Two sets of blind shear rams appro-  
23                      priately spaced to prevent blowout preventer  
24                      failure if a drill pipe joint or drill tool is across

1           one set of blind shear rams during a situation  
2           that threatens loss of well control.

3           “(B) Redundant emergency backup control  
4           systems capable of activating the relevant com-  
5           ponents of a blowout preventer, including when  
6           the communications link or other critical links  
7           between the drilling rig and the blowout pre-  
8           venter are destroyed or inoperable.

9           “(C) Regular testing of the emergency  
10          backup control systems, including testing dur-  
11          ing deployment of the blowout preventer.

12          “(D) As appropriate, remotely operated ve-  
13          hicle intervention capabilities for secondary con-  
14          trol of all subsea blowout preventer functions,  
15          including adequate hydraulic capacity to acti-  
16          vate blind shear rams, casing shear rams, and  
17          other critical blowout preventer components.

18          “(3) WELL DESIGN.—Subject to paragraph (1),  
19          regulations issued under this Act for well design  
20          standards shall include at a minimum the following  
21          requirements:

22          “(A) In connection with the installation of  
23          the final casing string, the installation of at  
24          least two independent, tested mechanical bar-  
25          riers, in addition to a cement barrier, across

1 each flow path between hydrocarbon bearing  
2 formations and the blowout preventer.

3 “(B) That wells shall be designed so that  
4 a failure of one barrier does not significantly in-  
5 crease the likelihood of another barrier’s failure.

6 “(C) That the casing design is appropriate  
7 for the purpose for which it is intended under  
8 reasonably expected wellbore conditions.

9 “(D) The installation and verification with  
10 a pressure test of a lockdown device at the time  
11 the casing is installed in the wellhead.

12 “(4) CEMENTING.—Subject to paragraph (1),  
13 regulations issued under this Act for cementing  
14 standards shall include at a minimum the following  
15 requirements:

16 “(A) Adequate centralization of the casing  
17 to ensure proper distribution of cement.

18 “(B) A full circulation of drilling fluids  
19 prior to cementing.

20 “(C) The use of an adequate volume of ce-  
21 ment to prevent any unintended flow of hydro-  
22 carbons between any hydrocarbon-bearing for-  
23 mation zone and the wellhead.

1           “(D) Cement bond logs for all cementing  
2 jobs intended to provide a barrier to hydro-  
3 carbon flow.

4           “(E) Cement bond logs or such other in-  
5 tegrity tests as the Secretary may prescribe for  
6 cement jobs other than those identified in sub-  
7 paragraph (D).

8           “(5) INDEPENDENT THIRD-PARTY CER-  
9 TIFIERS.—The Secretary shall establish appropriate  
10 standards for the approval of independent third-  
11 party certifiers capable of exercising certification  
12 functions for blowout preventers, well design, and ce-  
13 menting. For any certification required for regula-  
14 tions related to blowout preventers, well design, or  
15 cementing, the operator shall use a qualified inde-  
16 pendent third-party certifier chosen by the Sec-  
17 retary. The costs of any certification shall be borne  
18 by the operator.

19           “(6) APPLICATION TO INSHORE WATERS; STATE  
20 IMPLEMENTATION.—

21           “(A) IN GENERAL.—Requirements estab-  
22 lished under this subsection shall apply, as pro-  
23 vided in subparagraph (B), to offshore drilling  
24 operations that take place on lands that are  
25 landward of the outer Continental Shelf and

1 seaward of the line of mean high tide, and that  
2 the Secretary determines, based on criteria es-  
3 tablished by rule, could, in the event of a blow-  
4 out, lead to extensive and widespread harm to  
5 safety or the environment.

6 “(B) SUBMISSION OF STATE REGULATORY  
7 REGIME.—Any State may submit to the Sec-  
8 retary a plan demonstrating that the State’s  
9 regulatory regime for wells identified in sub-  
10 paragraph (A) establishes requirements for  
11 such wells that are comparable to, or alter-  
12 native requirements providing an equal or  
13 greater level of safety than, those established  
14 under this section for wells on the outer Conti-  
15 nental Shelf. The Secretary shall promptly de-  
16 termine, after notice and an opportunity for  
17 public comment, whether a State’s regulatory  
18 regime meets the standard set forth in the pre-  
19 ceding sentence. If the Secretary determines  
20 that a State’s regulatory regime does not meet  
21 such standard, the Secretary shall identify the  
22 deficiencies that are the basis for such deter-  
23 mination and provide a reasonable period of  
24 time for the State to remedy the deficiencies. If  
25 the State does not do so within such reasonable

1 period of time, the Secretary shall apply the re-  
2 quirements established under this section to off-  
3 shore drilling operations described in subpara-  
4 graph (A) that are located in such State, until  
5 such time as the Secretary determines that the  
6 deficiencies have been remedied.

7 “(m) RULEMAKING DOCKETS.—

8 “(1) ESTABLISHMENT.—Not later than the  
9 date of proposal of any regulation under this Act,  
10 the Secretary shall establish a publicly available  
11 rulemaking docket for such regulation.

12 “(2) DOCUMENTS TO BE INCLUDED.—The Sec-  
13 retary shall include in the docket—

14 “(A) all written comments and documen-  
15 tary information on the proposed rule received  
16 from any person in the comment period for the  
17 rulemaking, promptly upon receipt by the Sec-  
18 retary;

19 “(B) the transcript of each public hearing,  
20 if any, on the proposed rule, promptly upon re-  
21 ceipt from the person who transcribed such  
22 hearing; and

23 “(C) all documents that become available  
24 after the proposed rule is published and that  
25 the Secretary determines are of central rel-

1 evance to the rulemaking, by as soon as pos-  
2 sible after their availability.

3 “(3) PROPOSED AND DRAFT FINAL RULE AND  
4 ASSOCIATED MATERIAL.—The Secretary shall in-  
5 clude in the docket—

7 the Secretary to the Office of Management and  
8 Budget for any interagency review process prior  
9 to proposal of such rule, all documents accom-  
10 panying such draft, all written comments there-  
11 on by other agencies, and all written responses  
12 to such written comments by the Secretary, by  
13 no later than the date of proposal of the rule;  
14 and

15 “(B) each draft final rule submitted by the  
16 Secretary for such review process before  
17 issuance of the final rule, all such written com-  
18 ments thereon, all documents accompanying  
19 such draft, and all written responses thereto, by  
20 no later than the date of issuance of the final  
21 rule.”.

23 section 25 of the Outer Continental Shelf Lands Act (43  
24 U.S.C. 1351), as redesignated by section 215(4) of this  
25 Act, is further amended by striking “paragraph (8) of sec-

1 tion 5(a) of this Act” each place it appears and inserting  
2 “paragraph (13) of section 5(a) of this Act”.

17 ment to the offshore bonus bids, rents, and  
18 royalties of other resource owners, includ-  
19 ing States and foreign countries; and

19 zens of the affected State. For purposes of this subsection,  
20 a determination of the national interest shall be based on  
21 the desirability of obtaining oil and gas supplies in a bal-  
22 anced manner and on protecting coastal and marine eco-  
23 systems and the economies dependent on those eco-  
24 systems. The Secretary shall provide an explanation to the

2 and the Inspector General expressed before the date  
3 of enactment of this Act;

4 (2) whether the increased hiring authority given  
5 to the Secretary of the Interior under this Act and

7 the Department of the Interior being more effective  
8 in addressing its oversight missions; and

9 (3) whether there has been a sufficient reduc-  
10 tion in the conflict between mission and interest  
11 within the Department of the Interior.

12 **OF COLLECTION OF FEDERAL OIL, CONDEN-**  
13 **SATE, AND NATURAL GAS ROYALTIES.**

14 The Secretary of the Interior shall seek to enter into  
15 an arrangement with the National Academy of Engineer-  
16 ing under which the Academy, by not later than six  
17 months after the date of the enactment of this Act, shall  
18 study and report to the Secretary regarding whether the  
19 accuracy of collection of royalties on production of oil, con-  
20 densate, and natural gas under leases of Federal lands (in-  
21 cluding submerged and deep water lands) and Indian  
22 lands would be improved by any of the following:

- 23 (1) Requiring the installation of digital meters,  
24 calibrated at least monthly to an absolute zero value,

1 for all lands from which natural gas (including con-  
2 densate) is produced under such leases.

3 (2) Requiring that—

4 (A) the size of every orifice plate on each  
5 natural gas well operated under such leases be  
6 inspected at least quarterly by the Secretary;  
7 and

8 (B) chipped orifice plates and wrong-sized  
9 orifice plates be replaced immediately after  
10 those inspections and reported to the Secretary  
11 for retroactive volume measurement corrections  
12 and royalty payments with interest of 8 percent  
13 compounded monthly.

14 (3) Requiring that any plug valves that are in  
15 natural gas gathering lines be removed and replaced  
16 with ball valves.

17 (4) Requiring that—

18 (A) all meter runs should be opened for in-  
19 spection by the Secretary and the producer at  
20 all times; and

21 (B) any welding or closing of the meter  
22 runs leading to the orifice plates should be pro-  
23 hibited unless authorized by the Secretary.

24 (5) Requiring the installation of straightening  
25 vanes approximately 10 feet before natural gas en-

1       ters each orifice meter, including each master meter  
2       and each sales meter.

3           (6) Requiring that all master meters be in-  
4       spected and the results of such inspections be made  
5       available to the Secretary and the producers imme-  
6       diately.

7           (7) Requiring that—

8           (A) all sampling of natural gas for heating  
9       content analysis be performed monthly up-  
10      stream of each natural gas meter, including up-  
11      stream of each master meter;

13      content analysis be maintained by the pur-  
14      chaser and made available to the Secretary and

17      installed upstream within three feet of each  
18      natural gas meter;

23      cated—

24              (i) upstream of the natural gas meter  
25              at all times;

1 (ii) within a few feet of the natural  
2 gas meter; and

3 (iii) after the natural gas goes  
4 through a Welker or Y-Z vanishing cham-

10 inert nitrogen or inert carbon dioxide gas for royalty  
11 determination, sale, or resale at any point.

12 (9) Requiring that both the measurement of the  
13 volume of natural gas and the heating content anal-  
14 yses be reported only on the basis of 14.73 PSI and  
15 60 degrees Fahrenheit, regardless of the elevation  
16 above sea level of such volume measurement and  
17 heating content analysis, for both purchases and  
18 sales of natural gas.

19 (10) Prohibiting the construction of bypass  
20 pipes that go around the natural gas meter, and im-

24 constructed so as to have as few angles and turns

1 as possible, with a maximum of three angles, before  
2 they connect with the natural gas meter.

3 (17) Requiring that for purposes of reporting  
4 the royalty value of natural gas, condensate, oil, and  
5 associated natural gases, such royalty value must be  
6 based upon the natural gas' condensate's, oil's, and  
7 associated natural gases' arm's length, independent  
8 market value, as reported in independent, respected  
9 market reports such as Platts or Bloomborgs, and

13 condensate recovered through purging gathering  
14 lines and pipelines with a cone-shaped device to push  
15 out condensate (popularly referred to as a pig) and  
16 on condensate recovered from separators, dehydra-  
17 tors, and processing plants.

18 (19) Requiring that all royalty deductions for  
19 dehydration, treating, natural gas gathering, com-

8 that prohibit venting or flaring (or both) of natural  
9 gas in cases for which technology exists to reason-  
10 ably prevent it, strict enforcement of such prohibi-  
11 tions, and cancellation of leases for violations.

19 market price to be used for one MCF (1,000 cubic  
20 feet) of carbon dioxide gas.

21 (B) Requiring that—

22 (i) carbon dioxide used for edible purposes  
23 should be subjected to a royalty per thousand

25 at the downstream delivery point without de-

1 ducting for removal of impurities, processing,  
2 transportation, and marketing costs;

3 (ii) such price to apply with respect to gas-  
4 eous forms, liquid forms, and solid (dry ice)  
5 forms of carbon dioxide converted to equivalent  
6 MCF; and

10 son that is either affiliated or not affiliated with  
11 the purchaser.

12 (24) Requiring that—

13 (A) royalties be paid on the fair market

2 of natural gas be conducted to a minimum level of  
3 C<sub>15</sub>.

4           (27) Eliminating artificial conversion from dry  
5 BTU to wet BTU, and requiring that natural gas be  
6 analyzed and royalties paid for at all times on the  
7 basis of dry BTU only.

8           (28) Requiring that natural gas sampling be

13 minimum of 10 microns, and preferably 15 microns,

15 tainers and in the exit from the natural gas sam-  
16 pling containers into the chromatograph.

17           (30) Mandate the use of a Quad Unit for both

5 cific gravity of natural gas produced under such  
6 leases, as measured at the meter run, corresponds to  
7 the heating content analysis data for such natural  
8 gas, in accordance with the Natural Gas Processors

21 Management Service orders be faithfully observed  
22 and applied, and willful misconduct of such stand-  
23 ards and orders be subject to oil and gas lease can-  
24 cellation.

12 **TITLE X—OFFSHORE OIL AND**  
13 **GAS WORKER WHISTLE-**  
14 **BLOWER PROTECTION**

15 **SEC. 1001. SHORT TITLE.**

16 This title may be cited as the “Offshore Oil and Gas  
17 Worker Whistleblower Protection Act of 2010”.

18 **SEC. 1002. WHISTLEBLOWER PROTECTIONS; EMPLOYEE**

20 (a) PROHIBITION AGAINST RETALIATION.—

21 (1) IN GENERAL.—No employer may discharge  
22 or otherwise discriminate against a covered employee  
23 because the covered employee, whether at the cov-  
24 ered employee’s initiative or in the ordinary course  
25 of the covered employee’s duties—

1 (A) provided, caused to be provided, or is  
2 about to provide or cause to be provided to the  
3 employer or to a Federal or State Government  
4 official, information relating to any violation of,  
5 or any act or omission the covered employee  
6 reasonably believes to be a violation of, any pro-  
7 vision of the Outer Continental Shelf Lands Act  
8 (43 U.S.C. 1301 et seq.), or any order, rule,  
9 regulation, standard, or prohibition under that  
10 Act, or exercised any rights provided to employ-  
11 ees under that Act;

12 (B) testified or is about to testify in a pro-  
13 ceeding concerning such violation;

14 (C) assisted or participated or is about to  
15 assist or participate in such a proceeding;

16 (D) testified or is about to testify before  
17 Congress on any matter covered by such Act;

18 (E) objected to, or refused to participate in  
19 any activity, policy, practice, or assigned task  
20 that the covered employee reasonably believed  
21 to be in violation of any provision of such Act,  
22 or any order, rule, regulation, standard, or ban  
23 under such Act;

24 (F) reported to the employer or a State or  
25 Federal Government official any of the fol-

1           lowing related to the employer’s activities de-  
2           scribed in section 1003(1): an illness, injury,  
3           unsafe condition, or information regarding the  
4           adequacy of any oil spill response plan required  
5           by law; or

6                   (G) refused to perform the covered employ-  
7           ee’s duties, or exercised stop work authority, re-  
8           lated to the employer’s activities described in  
9           section 1003(1) if the covered employee had a  
10          good faith belief that performing such duties  
11          could result in injury to or impairment of the  
12          health of the covered employee or other employ-  
13          ees, or cause an oil spill to the environment.

14          (2) GOOD FAITH BELIEF.—For purposes of  
15          paragraph (1)(E), the circumstances causing the  
16          covered employee’s good faith belief that performing  
17          such duties would pose a health and safety hazard  
18          shall be of such a nature that a reasonable person  
19          under circumstances confronting the covered em-  
20          ployee would conclude there is such a hazard.

21          (b) PROCESS.—

22                   (1) IN GENERAL.—A covered employee who be-  
23          lieves that he or she has been discharged or other-  
24          wise discriminated against (hereafter referred to as  
25          the “complainant”) by any employer in violation of

1 subsection (a)(1) may, not later than 180 days after  
2 the date on which such alleged violation occurs or  
3 the date on which the covered employee knows or  
4 should reasonably have known that such alleged vio-  
5 lation occurred, file (or have any person file on his  
6 or her behalf) a complaint with the Secretary of  
7 Labor (referred to in this section as the “Sec-  
8 retary”) alleging such discharge or discrimination  
9 and identifying employer or employers responsible  
10 for such act. Upon receipt of such a complaint, the  
11 Secretary shall notify, in writing, the employer or  
12 employers named in the complaint of the filing of  
13 the complaint, of the allegations contained in the  
14 complaint, of the substance of evidence supporting  
15 the complaint, and of the opportunities that will be  
16 afforded to such person under paragraph (2).

17 (2) INVESTIGATION.—

18 (A) IN GENERAL.—Not later than 90 days  
19 after the date of receipt of a complaint filed  
20 under paragraph (1) the Secretary shall initiate  
21 an investigation and determine whether there is  
22 reasonable cause to believe that the complaint  
23 has merit and notify, in writing, the complain-  
24 ant and the employer or employers alleged to  
25 have committed a violation of subsection (a)(1)

1 of the Secretary's findings. The Secretary shall,  
2 during such investigation afford the complain-  
3 ant and the employer or employers named in  
4 the complaint an opportunity to submit to the  
5 Secretary a written response to the complaint  
6 and an opportunity to meet with a representa-  
7 tive of the Secretary to present statements from  
8 witnesses. The complainant shall be provided  
9 with an opportunity to review the information  
10 and evidence provided by employer or employers  
11 to the Secretary, and to review any response or  
12 rebuttal by such the complaint, as part of such  
13 investigation.

14 (B) REASONABLE CAUSE FOUND; PRELIMI-  
15 NARY ORDER.—If the Secretary concludes that  
16 there is reasonable cause to believe that a viola-  
17 tion of subsection (a)(1) has occurred, the Sec-  
18 retary shall accompany the Secretary's findings  
19 with a preliminary order providing the relief  
20 prescribed by paragraph (3)(B). Not later than  
21 30 days after the date of notification of find-  
22 ings under this paragraph, the employer or em-  
23 ployers alleged to have committed the violation  
24 or the complainant may file objections to the  
25 findings or preliminary order, or both, and re-

1           quest a hearing on the record before an admin-  
2           istrative law judge of the Department of Labor.  
3           The filing of such objections shall not operate  
4           to stay any reinstatement remedy contained in  
5           the preliminary order. Any such hearing shall  
6           be conducted expeditiously. If a hearing is not  
7           requested in such 30-day period, the prelimi-  
8           nary order shall be deemed a final order that is  
9           not subject to judicial review. The Secretary of  
10          Labor is authorized to enforce preliminary rein-  
11          statement orders in the United States district  
12          court for the district in which the violation was  
13          found to occur, or in the United States district  
14          court for the District of Columbia.

15                   (C) DISMISSAL OF COMPLAINT.—

16                           (i) STANDARD FOR COMPLAINANT.—

17           The Secretary shall dismiss a complaint  
18           filed under this subsection and shall not  
19           conduct an investigation otherwise required  
20           under subparagraph (A) unless the com-

1           (ii) STANDARD FOR EMPLOYER.—Not-

11          (iii) VIOLATION STANDARD.—The  
12          Secretary may determine that a violation  
13          of subsection (a)(1) has occurred only if

6 deny the complaint. At any time before issuance  
7 of an order, a proceeding under this subsection  
8 may be terminated on the basis of a settlement  
9 agreement entered into by the Secretary, the  
10 complainant, and the person alleged to have  
11 committed the violation. Such a settlement may  
12 not be agreed by such parties if it contains con-  
13 ditions which conflict with rights protected  
14 under this title, are contrary to public policy, or  
15 include a restriction on a complainant's right to  
16 future employment with employers other than  
17 the specific employers named in the complaint.

6 file, with objections, an administrative appeal  
7 with the Secretary, who may designate such ap-  
8 peal to a review board. In reviewing a decision  
9 and order of the administrative law judge, the  
10 Secretary shall affirm the decision and order if  
11 it is determined that the factual findings set  
12 forth therein are supported by substantial evi-  
13 dence and the decision and order are made in  
14 accordance with applicable law. The Secretary  
15 shall issue a final decision and order affirming,  
16 or reversing, in whole or in part, the decision  
17 under review within 90 days after receipt of the  
18 administrative appeal under this subparagraph.  
19 If it is determined that a violation of subsection  
20 (a)(1) has occurred, the Secretary shall order
