surface vessels beyond the requirement of 88 cruis-
ers and destroyers in the 313-ship fleet plan of the
Navy.

(3) The number of Aegis ships needed by each
combatant commander to fulfill ballistic missile de-

Subtitle B—Program Requirements, Restrictions, and Limita-
tions

SEC. 211. REPORT REQUIREMENTS FOR REPLACEMENT
PROGRAM OF THE OHIO-CLASS BALLISTIC
MISSILE SUBMARINE.

(a) FINDINGS.—Congress makes the following find-
ings:

(1) The sea-based strategic deterrence provided
by the ballistic missile submarine force of the Navy
has been essential to the national security of the
United States since the deployment of the first bal-
listic missile submarine, the USS George Wash-
ington SSBN 598, in 1960.

(2) Since 1960, a total of 59 submarines have
served the United States to provide the sea-based
strategic deterrence.

(3) As of the date of the enactment of this Act,
the sea-based strategic deterrence is provided by the
tremendous capability of the 14 ships of the Ohio-
class submarine force, which have been the primary
sea-based deterrent force for more than two decades.
(4) Ballistic missile submarines are the most survivable asset in the arsenal of the United States in the event of a surprise nuclear attack on the country because, being submerged for months at a time, these submarines are virtually undetectable to any adversary and therefore invulnerable to attack, thus providing the submarines with the ability to respond with significant force against any adversary who attacks the United States or its allies.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) as Ohio-class submarines reach the end of their service life and are retired, the United States must maintain the robust sea-based strategic deterrent force that has the ability to remain undetected by potential adversaries and must have the capability to deliver a retaliatory strike of such magnitude that no rational actor would dare attack the United States;

(2) the Secretary of Defense should conduct a comprehensive analysis of the alternative capabilities to provide the sea-based strategic deterrence that includes consideration of different types and sizes of submarines, different types and sizes of missile systems, the number of submarines necessary to pro-
vide such deterrence, and the cost of each alter-

native; and

(3) prior to requesting more than

$1,000,000,000 in research and development fund-
ing to develop a replacement for the Ohio-class bal-
listic missile submarine force in advance of a Mile-
stone A decision, the Secretary of Defense should
have made available to Congress the guidance issued
by the Director of Cost Assessment and Perform-
ance Evaluation with respect to the analysis of alter-
ative capabilities and the results of such analysis.

(c) LIMITATION.—

(1) REPORT.—Of the funds authorized to be
appropriated by this Act or otherwise made available
for fiscal year 2011 for research and development
for the Navy, not more than 50 percent may be obli-
gated or expended to research or develop a sub-
marine as a replacement for the Ohio-class ballistic
missile submarine force unless—

(A) the Secretary of Defense submits to
the congressional defense committees a report
including—

(i) guidance issued by the Director of
Cost Assessment and Performance Evalua-
tion with respect to the analysis of alter-
native capabilities to provide the sea-based strategic deterrence currently provided by the Ohio-class ballistic missile submarine force and any other guidance relating to requirements for such alternatives intended to affect the analysis;

(ii) an analysis of the alternative capabilities considered by the Secretary to continue the sea-based strategic deterrence currently provided by the Ohio-class ballistic missile submarine force, including—

(I) the cost estimates for each alternative capability;

(II) the operational challenges and benefits associated with each alternative capability; and

(III) the time needed to develop and deploy each alternative capability; and

(iii) detailed reasoning associated with the decision to replace the capability of sea-based deterrence provided by the Ohio-class ballistic missile submarine force with an alternative capability designed to carry the Trident II D5 missile; and
(B) a period of 30 days has elapsed after the date on which the report under subparagraph (A) is submitted.

(2) FORM.—The report required by paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

SEC. 212. LIMITATION ON OBLIGATION OF FUNDS FOR F–35 LIGHTNING II AIRCRAFT PROGRAM.

Of the amounts authorized to be appropriated by this Act or otherwise made available for fiscal year 2011 for research, development, test, and evaluation for the F–35 Lightning II aircraft program, not more than 75 percent may be obligated until the date that is 15 days after the date on which the Under Secretary of Defense for Acquisition, Technology, and Logistics submits to the congressional defense committees certification in writing that all funds made available for fiscal year 2011 for the continued development and procurement of a competitive propulsion system for the F–35 Lightning II aircraft have been obligated.
SEC. 213. INCLUSION IN ANNUAL BUDGET REQUEST AND FUTURE-YEARS DEFENSE PROGRAM OF SUFFICIENT AMOUNTS FOR CONTINUED DEVELOPMENT AND PROCUREMENT OF COMPETITIVE PROPULSION SYSTEM FOR F-35 LIGHTNING II AIRCRAFT.

(a) ANNUAL BUDGET.—Chapter 9 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 236. Budgeting for competitive propulsion system for F-35 Lightning II aircraft

“(a) ANNUAL BUDGET.—Effective for the budget for fiscal year 2012 and each fiscal year thereafter, the Secretary of Defense shall include in the defense budget materials a request for such amounts as are necessary for the full funding of the continued development and procurement of a competitive propulsion system for the F-35 Lightning II aircraft.

“(b) FUTURE-YEARS DEFENSE PROGRAM.—In each future-years defense program submitted to Congress under section 221 of this title, the Secretary of Defense shall ensure that the estimated expenditures and proposed appropriations for the F-35 Lightning II aircraft, for each fiscal year of the period covered by that program, include sufficient amounts for the full funding of the continued...
development and procurement of a competitive propulsion system for the F–35 Lightning II aircraft.

“(c) REQUIREMENT TO OBLIGATE AND EXPEND FUNDS.—Of the amounts authorized to be appropriated for fiscal year 2011 or any fiscal year thereafter, for research, development, test, and evaluation and procurement for the F–35 Lightning II aircraft program, the Secretary of Defense shall ensure the obligation and expenditure in each such fiscal year of sufficient annual amounts for the continued development and procurement of two options for the propulsion system for the F–35 Lightning II aircraft in order to ensure the development and competitive production for the propulsion system for such aircraft.

“(d) DEFINITIONS.—In this section:

“(1) The term ‘budget’, with respect to a fiscal year, means the budget for that fiscal year that is submitted to Congress by the President under section 1105(a) of title 31.

“(2) The term ‘defense budget materials’, with respect to a fiscal year, means the materials submitted to Congress by the Secretary of Defense in support of the budget for that fiscal year.”.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by at the end the following new item:
“236. Budgeting for competitive propulsion system for F–35 Lightning II aircraft.”.

(e) CONFORMING REPEAL.—Section 213 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–181) is repealed.

SEC. 214. SEPARATE PROGRAM ELEMENTS REQUIRED FOR RESEARCH AND DEVELOPMENT OF JOINT LIGHT TACTICAL VEHICLE.

In the budget materials submitted to the President by the Secretary of Defense in connection with the submission to Congress, pursuant to section 1105 of title 31, United States Code, of the budget for fiscal year 2012, and each subsequent fiscal year, the Secretary shall ensure that within each research, development, test, and evaluation account of the Army and the Navy a separate, dedicated program element is assigned to the Joint Light Tactical Vehicle.

Subtitle C—Missile Defense Programs

SEC. 221. LIMITATION ON AVAILABILITY OF FUNDS FOR MISSILE DEFENSES IN EUROPE.

(a) LIMITATION ON CONSTRUCTION AND DEPLOYMENT OF SYSTEMS.—No funds authorized to be appropriated by this Act or otherwise made available for the Department of Defense for fiscal year 2011 or any fiscal year thereafter may be obligated or expended for site acti-
oration, construction, preparation of equipment for, or de-
ployment of a medium-range or long-range missile defense
system in Europe until—

(1) any nation agreeing to host such system has
signed and ratified a missile defense basing agree-
ment and a status of forces agreement; and

(2) a period of 45 days has elapsed following
the date on which the Secretary of Defense submits
to the congressional defense committees the report
on the independent assessment of alternative missile
defense systems in Europe required by section

year thereafter may be obligated or expended for the pro-
curement (other than initial long-lead procurement) or de-
ployment of operational missiles of a medium-range or
long-range missile defense system in Europe until the Sec-
retary of Defense, after receiving the views of the Director
of Operational Test and Evaluation, submits to the con-
gressional defense committees a report certifying that the
proposed interceptor to be deployed as part of such missile defense system has demonstrated, through successful, operationally realistic flight testing, a high probability of working in an operationally effective manner and that such missile defense system has the ability to accomplish the mission.

(e) CONFORMING REPEAL.—Section 234 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–81; 123 Stat. 2234) is repealed.

SEC. 222. REPEAL OF PROHIBITION OF CERTAIN CONTRACTS BY MISSILE DEFENSE AGENCY WITH FOREIGN ENTITIES.

SEC. 223. PHASED, ADAPTIVE APPROACH TO MISSILE DEFENSE IN EUROPE.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the new phased, adaptive approach to missile defense in Europe, announced by the President on September 17, 2009, should be supported by sound analysis, program plans, schedules, and technologies that are credible;
(2) the cost, performance, and risk of such approach to missile defense should be well understood; and

(3) Congress should have access to information regarding the analyses, plans, schedules, technologies, cost, performance, and risk of such approach to missile defense in order to conduct effective oversight.

(b) REPORT REQUIRED.—

(1) REPORT.—The Secretary of Defense shall submit to the congressional defense committees a report on the phased, adaptive approach to missile defense in Europe.

(2) MATTERS INCLUDED.—The report under paragraph (1) shall include the following:

(i) a description of any alternatives considered;

(ii) the criteria used to analyze each such alternative; and
(iii) the result of each analysis, including a description of the criteria used to judge each alternative.

(c) LIMITATION ON FUNDS.—Of the amounts authorized to be appropriated by section 301(5) for operation and maintenance, Defense-wide, for the Office of the Secretary of Defense, not more than 95 percent of such amounts may be obligated or expended until the date on
which the report required under subsection (b)(1) is submitted to the congressional defense committees.

SEC. 224. HOMELAND DEFENSE HEDGING POLICY.

(a) FINDINGS.—Congress finds the following:

(1) As noted by the Director of National Intelligence, testifying before the Senate Select Committee on Intelligence on February 2, 2010, “the Iranian regime continues to flout UN Security Council restrictions on its nuclear program. . .we judge Iran would likely choose missile delivery as its preferred method of delivering a nuclear weapon. Iran already has the largest inventory of ballistic missiles in the Middle East and it continues to expand the scale, reach, and sophistication of its ballistic missile forces—many of which are inherently capable of carrying a nuclear payload.”.

(2) The Unclassified Report on Military Power of Iran, dated April 2010, states that, “with sufficient foreign assistance, Iran could probably develop and test an intercontinental ballistic missile (ICBM) capable of reaching the United States by 2015. Iran could also have an intermediate-range ballistic missile (IRBM) capable of threatening Europe.”.

(3) Under phase 3 of the phased, adaptive approach for missile defense in Europe (scheduled for
2018), the United States plans to deploy the standard missile–3 block IIA interceptor at sea- and land-based sites in addition to existing missile defense systems to provide coverage for all NATO allies in Europe against medium- and intermediate-range ballistic missiles.

(4) Under phase 4 of the phased, adaptive approach for missile defense in Europe (scheduled for 2020), the United States plans to deploy the standard missile–3 block IIB interceptor to provide additional coverage of the United States against a potential intercontinental ballistic missile launched from the Middle East in the 2020 time frame.

(5) According to the February 2010 Ballistic Missile Defense Review, the United States will continue the development and assessment of a two-stage ground-based interceptor as part of a hedging strategy and, as further noted by the Under Secretary of Defense for Policy during testimony before the Committee on Armed Services of the House of Representatives on October 1, 2009, “we keep the development of the two-stage [ground-based interceptor] on the books as a hedge in case things come earlier, in case there’s any kind of technological challenge with the later models of the [standard missile–3].”.
(b) Policy.—It shall be the policy of the United States to—

(1) field missile defense systems in Europe that—

(A) provide protection against medium- and intermediate-range ballistic missile threats consistent with NATO policy and the phased, adapted approach for missile defense announced on September 17, 2009; and

(B) have been confirmed to perform the assigned mission after successful, operationally realistic testing;

(2) field missile defenses to protect the territory of the United States pursuant to the National Missile Defense Act of 1999 (Public Law 106–38; 10 U.S.C. 2431 note) and to test those systems in an operationally realistic manner;

(3) ensure that the standard missile–3 block IIA interceptor planned for phase 3 of the phased, adaptive approach for missile defense is capable of addressing intermediate-range ballistic missiles launched from the Middle East and the standard missile–3 block IIB interceptor planned for phase 4 of such approach is capable of addressing interconti-
nental ballistic missiles launched from the Middle
East; and

(4) continue the development and testing of the
two-stage ground-based interceptor to maintain it—

(A) as a means of protection in the event
that—

(i) the intermediate-range ballistic
missile threat to NATO allies in Europe
materializes before the availability of the
standard missile–3 block IIA interceptor;

(ii) the intercontinental ballistic mis-

sile threat to the United States that can-
not be countered with the existing ground-
based missile defense system materializes
before the availability of the standard mis-
sile–3 block IIB interceptor; or

(iii) technical challenges or schedule
delays affect the standard missile–3 block
IIA interceptor or the standard missile–3
block IIB interceptor; and

(B) as a complement to the missile defense
capabilities deployed in Alaska and California
for the defense of the United States.
SEC. 225. INDEPENDENT ASSESSMENT OF THE PLAN FOR DEFENSE OF THE HOMELAND AGAINST THE THREAT OF BALLISTIC MISSILES.

(a) Finding.—Congress finds that section 2 of the National Missile Defense Act of 1999 (Public Law 106–38; 10 U.S.C. 2431 note) states that it is the policy of the United States to deploy as soon as is technologically possible an effective National Missile Defense system capable of defending the territory of the United States against limited ballistic missile attack (whether accidental, unauthorized, or deliberate) with funding subject to the annual authorization of appropriations and the annual appropriation of funds for National Missile Defense.

(b) Assessment.—The Secretary of Defense shall contract with an independent entity to conduct an assessment of the plans of the Secretary for defending the territory of the United States against the threat of attack by ballistic missiles, including electromagnetic pulse attacks, as such plans are described in the Ballistic Missile Defense Review submitted to Congress on February 1, 2010, and the report submitted to Congress under section 232 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat. 2232).

(c) Elements.—The assessment required by subsection (b) shall include an assessment of the following:
(1) The ballistic missile threat, including electromagnetic pulse attacks, against which the homeland defense elements are intended to defend, including mobile or fixed threats that might arise from non-state actors and accidental or unauthorized launches.

(2) The military requirements for defending the territory of the United States against such missile threats.

(3) The capabilities of the missile defense elements available to defend the territory of the United States as of the date of the assessment.

(4) The planned capabilities of the homeland defense elements, if different from the capabilities under paragraph (3).

(5) The force structure and inventory levels necessary to achieve the planned capabilities of the elements described in paragraphs (3) and (4).

(6) The infrastructure necessary to achieve such capabilities, including the number and location of operational silos.

SEC. 840. DEFENSE INDUSTRIAL BASE PRIORITY FOR RARE EARTH NEODYMIUM IRON BORON MAGNETS.

(a) FINDINGS.—Congress finds the following:

(1) There is an urgent need to restore the United States capability to manufacture sintered neodymium iron boron magnets for use in defense applications and there is an urgent need to eliminate the domestic supply-chain vulnerability related to these key materials in the defense supply-chain.

(2) An April 14, 2010 report by the Government Accountability Office entitled “Rare Earth Materials in the Defense Supply Chain” demonstrates—

(A) the “United States is not currently producing neodymium iron boron magnets,” a key rare earth material;

(B) that future availability of neodymium is largely controlled by Chinese suppliers;

(C) that alternatives to rare earth materials could reduce the demand and dependence on rare earth materials in 10 to 15 years, but these materials might not meet current application requirements;

(D) where rare earth materials are used in defense systems, the materials are responsible for the functionality of the component and
would be difficult to replace without losing performance;

(E) fin actuators used in precision-guided munitions are specifically designed around the capabilities of neodymium iron boron rare earth magnets, which are primarily available from Chinese suppliers;

(F) the DDG–51 Hybrid Electric Drive Ship Program uses permanent-magnet motors using neodymium magnets from China; and

(G) future generations of some defense system components, such as transmit and receive modules for radars, will continue to depend on rare earth materials.

(3) The United States has the technological capability to restore its neodymium iron boron manufacturing capability.

(4) Worldwide supplies or rare earth materials, including neodymium, are expected to tighten significantly within the next 3–5 years.

(5) A domestic effort to restore domestic sintered neodymium iron boron magnet manufacturing capability, including efforts to qualify those magnets for use in defense applications, will take between 3–
5 years and should begin immediately to avoid future weapon system delivery disruption.

(b) REQUIREMENT.—Not later than 90 days after the date of the enactment of this Act, the Secretary shall submit to the Committees on Armed Services of the House of Representatives and the Senate a plan to establish a domestic source of sintered neodymium iron boron magnets for use in the defense supply chain.

(e) SINTERED NEODYMIUM IRON BORON MAGNETS.—For the purposes of subsection (b), the capability to manufacture sintered neodymium iron boron magnets includes the alloying, pressing, and sintering of magnet materials. It does not include manufacturing magnets from standard shapes or imported blocks of neodymium. The Secretary’s plan shall not allow the grinding or reprocessing of neodymium to be considered a “domestic source of sintered neodymium iron boron magnets”.

(2) The Government Accountability Office report dated December 16, 2009, on the status of 3,099 recommendations made to the Department of Defense by the Government Accountability Office between 2001 and 2008, indicates that the Department of Defense has implemented 1,871, or 61 percent, of the recommendations.

(3) The Government Accountability Office estimates that the implementation of these recommendations yielded the Federal Government a savings of $89 billion from 2001 through 2007, averaging $12.7 billion in annual financial benefit.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) there is potential for additional and significant cost savings through further reductions by the Secretary of Defense in waste, fraud, and abuse, particularly with regard to contracting processes; and

(1) Section 205(a)(1)(B) (123 Stat. 1724) is amended in the matter proposed to be inserted by striking “paragraphs (1) and (2)” and inserting “paragraphs (1), (2), and (3)”.

(2) Section 205(c) (124 Stat. 1725) is amended by striking “2433a(c)(3)” and inserting “2433a(c)(1)(C)”.

(f) TECHNICAL CORRECTION REGARDING SBIR EXTENSION.—Section 9(m)(2) of the Small Business Act (15 U.S.C. 638(m)(2)), as added by section 847(a) of the Na-
tional Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat. 2420), is amended by striking “is authorized” and inserting “are authorized”.

(g) TECHNICAL CORRECTION REGARDING PERFORMANCE MANAGEMENT AND WORKFORCE INCENTIVES.—Section 9902(a)(2) of title 5, United States Code, as added by section 1113(d) of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat. 2499), is amended by striking “chapters” both places it appears and inserting “chapter”.

(h) TECHNICAL CORRECTION REGARDING SMALL SHIPYARDS AND MARITIME COMMUNITIES ASSISTANCE PROGRAM.—Section 3506 of the National Defense Authorization Act for Fiscal Year 2006, as reinstated by the amendment made by section 1073(c)(14) of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat. 2475), is repealed.

(i) TECHNICAL CORRECTION REGARDING DOT MARITIME HERITAGE PROPERTY.—Section 6(a)(1)(C) of the National Maritime Heritage Act of 1994 (16 U.S.C. 5405(a)(1)(C)), as amended by section 3509 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat. 2721), is amended by striking “the date of enactment of the Maritime Adminis-
tration Authorization Act of 2010” and inserting “October 28, 2009”.

(j) TECHNICAL CORRECTION REGARDING DOE NATIONAL SECURITY PROGRAMS.—The table of contents at the beginning of the National Nuclear Security Administration Act (title XXXII of Public Law 106–65; 50 U.S.C. 2401 et seq.) is amended by striking the item relating to section 3255 and inserting the following new item:

“Sec. 3255. Biennial plan and budget assessment on the modernization and refurbishment of the nuclear security complex.”.

SEC. 1056. BUDGETING FOR THE SUSTAINMENT AND MODERNIZATION OF NUCLEAR DELIVERY SYSTEMS.

Consistent with the plan contained in the report submitted to Congress under section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat. 2549), in the budget materials submitted to the President by the Secretary of Defense in connection with the submission to Congress, pursuant to section 1105 of title 31, United States Code, of the budget for fiscal year 2012, and each subsequent fiscal year, the Secretary shall ensure that a separate budget (including separate, dedicated line items and program elements) is included with respect to programs and platforms regarding the sustainment and modernization of nuclear delivery systems.
SEC. 1057. LIMITATION ON NUCLEAR FORCE REDUCTIONS.

(a) FINDINGS.—Congress finds the following:

(1) As of September 30, 2009, the stockpile of nuclear weapons of the United States has been reduced by 84 percent from its maximum level in 1967 and by more than 75 percent from its level when the Berlin Wall fell in November, 1989.

(2) The number of non-strategic nuclear weapons of the United States has declined by approximately 90 percent from September 30, 1991, to September 30, 2009.

(3) In 2002, the United States announced plans to reduce its number of operationally deployed strategic nuclear warheads to between 1,700 and 2,200 by December 31, 2012.

(4) The United States plans to further reduce its stockpile of deployed strategic nuclear warheads to 1,550 during the next seven years.

(5) The United States plans to further reduce its deployed ballistic missiles and heavy bombers to 700 and its deployed and non-deployed launchers and heavy bombers to 800 during the next seven years.

(6) Beyond these plans for reductions, the Nuclear Posture Review of April 2010 stated that, “the President has directed a review of potential future
reductions in U.S. nuclear weapons below New START levels. Several factors will influence the magnitude and pace of such reductions.”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) any reductions in the nuclear forces of the United States should be supported by a thorough assessment of the strategic environment, threat, and policy and the technical and operational implications of such reductions; and

(2) specific criteria are necessary to guide future decisions regarding further reductions in the nuclear forces of the United States.

(e) LIMITATION.—No action may be taken to implement the reduction of nuclear forces of the United States below the levels described in paragraphs (4) and (5) of subsection (a), unless—

(1) the Secretary of Defense and the Administrator for Nuclear Security jointly submit to the congressional defense committees a report on such reduction, including—

(A) the justification for such reduction;

(B) an assessment of the strategic environment, threat, and policy and the technical and operational implications of such reduction;
(C) written certification by the Secretary of Defense that—

(i) either—

(I) the strategic environment or the assessment of the threat has changed to allow for such reduction; or

(II) technical measures to provide a commensurate or better level of safety, security, and reliability as before such reduction have been implemented for the remaining nuclear forces of the United States;

(ii) such reduction preserves the nuclear deterrent capabilities of the “nuclear triad” (intercontinental ballistic missiles, ballistic missile submarines, and heavy bombers and dual-capable aircraft);

(iii) such reduction does not require a change in targeting strategy from counterforce targeting to countervalue targeting;

(iv) the remaining nuclear forces of the United States provide a sufficient means of protection against unforeseen
technical challenges and geopolitical events; and

(v) such reduction is compensated by other measures (such as nuclear modernization, conventional forces, and missile defense) that together provide a commensurate or better deterrence capability and level of credibility as before such reduction;

and

(D) written certification by the Administrator for Nuclear Security that—

(i) technical measures to provide a commensurate or better level of safety, security, and reliability as before such reduction have been implemented for the remaining nuclear forces of the United States;

(ii) the remaining nuclear forces of the United States provide a sufficient means of protection against unforeseen technical challenges and geopolitical events; and

(iii) measures to modernize the nuclear weapons complex have been implemented to provide a sufficiently responsive
infrastructure to support the remaining nuclear forces of the United States; and

(2) a period of 180 days has elapsed after the date on which the report under paragraph (1) is submitted.

(d) DEFINITION.—In this section, the term “nuclear forces of the United States” includes—

(1) both active and inactive nuclear warheads in the nuclear weapons stockpile; and

(2) deployed and non-deployed delivery vehicles.

SEC. 1058. SENSE OF CONGRESS ON THE NUCLEAR POSTURE REVIEW.

It is the sense of Congress that the Nuclear Posture Review, released in April 2010 by the Secretary of Defense, weakens the national security of the United States by eliminating options to defend against a catastrophic nuclear, biological, chemical, or conventional attack against the United States.

SEC. 1059. STRATEGIC ASSESSMENT OF STRATEGIC CHALLENGES POSED BY POTENTIAL COMPETITORS.

The Secretary of Defense shall, in consultation with the Joint Chiefs of Staff and the commanders of the regional combatant commands, submit to the congressional defense committees, not later than March 15, 2011, a
comprehensive strategic assessment of the current and future strategic challenges posed to the United States by potential competitors out through 2021, with particular attention paid to those challenges posed by the military modernization of the People’s Republic of China, Iran, North Korea, and Russia.

SEC. 1060. ELECTRONIC ACCESS TO CERTAIN CLASSIFIED INFORMATION.

The Secretary of Defense shall provide to each committee of Congress an electronic communications link to classified information in the possession of the Department of Defense pertaining to a subject matter that is in the jurisdiction of such committee under the Rules of the House of Representatives or the Standing Rules of the Senate. Such electronic communications link shall be capable of supporting appropriate classified communications between the Department of Defense and each committee of Congress authorized to carry out such communications.

SEC. 1061. JUSTICE FOR VICTIMS OF TORTURE AND TERRORISM.

(a) FINDINGS.—Congress makes the following findings:

the Secretary of State “should work with the Government of Iraq on a state-to-state basis to ensure compensation for any meritorious claims based on terrorist acts committed by the Saddam Hussein regime against individuals who were United States nationals or members of the United States Armed Forces at the time of those terrorist acts and whose claims cannot be addressed in courts in the United States due to the exercise of the waiver authority” provided to the President under section 1083(d) of that Act.

(2) The House of Representatives in the 110th Congress unanimously adopted H.R. 5167, the Justice for Victims of Torture and Terrorism Act, which set forth an appropriate compromise of the claims described in paragraph (1).

(3) The National Defense Authorization Act for Fiscal Year 2010 (in section 1079) further expressed the sense of Congress that these claims of American victims of torture and hostage taking by Iraq “should be resolved by a prompt and fair settlement negotiated between the Government of Iraq and the Government of the United States, taking note of the provisions of H.R. 5167 of the 110th
Congress, which was adopted by the United States House of Representatives”.

(4) Pursuant to these congressional actions, the Secretary of State has diligently pursued these negotiations with the Government of Iraq. To date, however, more than three years after the enactment of the National Defense Authorization Act for Fiscal Year 2008, and nearly a year after the enactment of the National Defense Authorization Act for Fiscal Year 2010, there has been no resolution of these claims of injured Americans, despite the resolution by Iraq of claims of foreign corporations against the Saddam Hussein regime.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the claims of American victims of torture and hostage taking by the Government of Iraq during the regime of Saddam Hussein that are subject to Presidential Determination Number 2008–9 of January 28, 2008, which waived application of section 1083 of the National Defense Authorization Act for Fiscal Year 2008, should be resolved by a prompt and fair settlement negotiated between the Government of Iraq and the Government of the United States.
SEC. 1062. POLICY REGARDING APPROPRIATE USE OF DEPARTMENT OF DEFENSE RESOURCES.

(a) POLICY.—

(1) IN GENERAL.—Chapter 2 of Title 10, United States Code, is amended by inserting after section 113a the following new section:

§ 113b. Use of Department of Defense resources

(a) POLICY.—The Secretary of Defense shall ensure that all resources of the Department of Defense are used only for activities that—

“(1) fulfill a legitimate Government purpose;

“(2) comply with all applicable laws, regulations, and policies of the Department of Defense; and

“(3) contribute to the mission of the Department of Defense.

(b) GUIDANCE.—The Secretary shall prescribe such guidance as is necessary to ensure compliance with the policy required under subsection (a) and to address any violations of the policy, including, as appropriate, any applicable legal remedies.”.

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 113a the following new item:

“113b. Use of Department of Defense resources.”.
(b) Prohibition on Use of Funds.—None of the funds authorized to be appropriated in this Act or otherwise available to the Department of Defense may be used—

(1) for any activity that does not comply with the policy established under section 113b of title 10, United States Code, as added by subsection (a), including any improper activity involving—

(A) transportation or travel (including use of Government vehicles); or

(B) Department of Defense information technology resources; or

(2) to pay the salary of any employee who engages in an intentional violation of the policy established under such section.

SEC. 1063. EXECUTIVE AGENT FOR PREVENTING THE INTRODUCTION OF COUNTERFEIT MICROELECTRONICS INTO THE DEFENSE SUPPLY CHAIN.

(a) Executive Agent.—Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall designate a senior official of the Department of Defense to serve as the executive agent for preventing the introduction of counterfeit microelectronics into the defense supply chain.
(b) Roles, Responsibilities, and Authorities.—

(1) Establishment.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall prescribe the roles, responsibilities, and authorities of the executive agent designated under subsection (a).

(2) Specification.—The roles and responsibilities of the executive agent designated under subsection (a) shall include the following:

(A) Development and maintenance of a strategy and implementation plan that ensures that the Department of Defense has the ability to identify, mitigate, prevent, and eliminate counterfeit microelectronics from the defense supply chain.

(B) Development of recommendations for funding strategies necessary to meet the requirements of the strategy and implementation plan developed under subparagraph (A).

(C) Assessments of trends in counterfeit microelectronics, including—

(i) an analysis of recent incidents of discovery of counterfeit microelectronics in the defense supply chain, including inci-
dents involving material and service providers;

(ii) a projection of future trends in counterfeit microelectronics;

(iii) the sufficiency of reporting mechanisms and metrics within the Department of Defense and each component of the Department of Defense;

(iv) the economic impact of identifying and remediating counterfeit microelectronics in the defense supply chain; and

(v) the impact of counterfeit microelectronics in the defense supply chain on defense readiness.

(D) Coordination of planning and activities with interagency and international partners.

(E) Development and participation in public-private partnerships to prevent the introduction of counterfeit microelectronics into the supply chain.

(F) Such other roles and responsibilities as the Secretary of Defense considers appropriate.

(e) SUPPORT WITHIN DEPARTMENT OF DEFENSE.— The Secretary of Defense shall ensure that each component of the Department of Defense provides the executive
agent designated under subsection (a) with the appropriate support and resources needed to perform the roles, responsibilities, and authorities of the executive agent.

(d) REQUIRED ACTIONS.—The Secretary of Defense shall submit to the congressional defense committees—

(1) not later than 180 days after the date of the enactment of this Act, a description of the roles, responsibilities, and authorities of the executive agent prescribed in accordance with subsection (b)(1);

(2) not later than one year after the date of the enactment of this Act, a strategy for how the Department of Defense will identify, mitigate, prevent, and eliminate counterfeit microelectronics within the defense supply chain; and

(3) not later than 18 months after the date of the enactment of this Act, an implementation plan for how the Department of Defense will execute the strategy submitted in accordance with paragraph (2).

(e) DEFINITIONS.—In this section:

(1) COUNTERFEIT MICROELECTRONIC.—The term “counterfeit microelectronic” means any type of integrated circuit or other microelectronic component that consists of—
(A) a substitute or unauthorized copy of a valid product from an original manufacturer;

(B) a product in which the materials used or the performance of the product has been changed without notice by a person other than the original manufacturer of the product; or

(C) a substandard component misrepresented by the supplier of such component.

(2) EXECUTIVE AGENT.—The term “executive agent” has the meaning given the term “DoD Executive Agent” in Department of Defense Directive 5101.1, or any successor directive relating to the responsibilities of an executive agent of the Department of Defense.

SEC. 1064. SHARED INFORMATION REGARDING TRAINING EXERCISES.

The Secretary of Defense, acting through Joint Task Force North, may share with the Department of Homeland Security and the Department of Justice any data gathered during training exercises.

SEC. 1065. SENSE OF CONGRESS REGARDING PRESIDENTIAL LETTERS OF CONDOLENCE TO THE FAMILIES OF MEMBERS OF THE ARMED FORCES WHO HAVE DIED BY SUICIDE.

(a) FINDINGS.—Congress finds that—
(1) suicide is a growing problem in the Armed Forces that cannot be ignored;

(2) a record number of military suicides was reported in 2008, with 128 active-duty Army and 48 Marine deaths reported;

(3) the number of military suicides during 2009 is expected to equal or exceed the 2008 total;

(4) long-standing policy prevents President Obama from sending a condolence letter to the family of a member of the Armed Forces who has died by suicide;

(5) members of the Armed Forces sacrifice their physical, mental, and emotional well-being for the freedoms Americans hold dear;

(6) the military family also bears the cost of defending the United States, with military spouses and children sacrificing much and standing ready to provide unending support to their spouse or parent who is a member of the Armed Forces;

(7) the loss of a member of the Armed Forces to suicide directly and tragically affects military spouses and children, as well as the United States;

(8) much more needs to be done to protect and address the mental health needs of members of the
Armed Forces, just as they serve to protect and defend the freedoms of the United States;

(9) a presidential letter of condolence is not only about the deceased because it also serves as a sign of respect for the grieving family and an acknowledgment of the family for their personal loss; and

(10) a lack of acknowledgment and condolence from the President only leaves these families with an emotional vacuum and a feeling that somehow their sacrifices have been less than the sacrifices of others.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the current policy that prohibits sending a presidential letter of condolence to the family of a member of the Armed Forces who has died by suicide only serves to perpetuate the stigma of mental illness that pervades the Armed Forces; and

(2) the President, as Commander-in-Chief, should overturn the policy and treat all military families equally.
SEC. 1066. FINDINGS AND SENSE OF CONGRESS ON OBESITY AND FEDERAL CHILD NUTRITION PROGRAMS.

(a) FINDINGS.—Congress find the following:

(1) According to the April 2010 report, “Too Fat to Fight”, more than 100 retired generals and admirals wrote that, “[o]besity among children and young adults have increased so dramatically that they threaten not only the overall health of America but the future strength of our military.”.

(2) Twenty-seven percent, over 9,000,000, 17–24-year-olds in the United States are too fat to serve in the military.

(3) Between 1995 and 2008, the military had 140,000 individuals who showed up at the centers for processing but failed their entrance physicals because they were too heavy.

(4) Being overweight is now the leading medical reason for rejection from military service.

(5) Between 1995 and 2008, the proportion of potential recruits who failed their physicals each year because they were overweight rose nearly 70 percent.

(6) The military annually discharges over 1,200 first-term enlistees before their contracts are up because of weight problems.
(7) The military must then recruit and train their replacements at a cost of $50,000 for each man or woman.

(8) Training replacements for those discharged because of weight problems adds up to more than $60,000,000 annually.

(9) Overweight adolescents are more likely to become overweight adults.

(10) Overweight adolescents and overweight adults are at risk of developing obesity-related, life-threatening diseases including cancer, type 2 diabetes, stroke, heart disease, arthritis, and breathing problems.

(11) According to the American Public Health Association, “left unchecked, obesity will add nearly $344 billion to the nations annual health care costs by 2018 and account for more than 21 percent of health care spending”.

(12) Overweight and undernourished adolescents face academic challenges due to poor health behaviors, resulting in even greater risk to their future health and earning and the Nation’s economic growth and worldwide competition.
(13) For decades military leaders have championed efforts to improve the nutrition of young people in America.

(14) During World War II, 40 percent of rejected recruits were turned away because of poor or under nutrition.

(15) The preamble to the Richard B. Russell National School Lunch Act (42 U.S.C. 1751) states “It is hereby declared to be the policy of Congress, as a measure of national security, to safeguard the health and well-being of the Nation’s children and to encourage the domestic consumption of nutritious agricultural commodities and other food, by assisting the States, through grants in aid and other means, in providing an adequate supply of food and other facilities for the establishment, maintenance, operation and expansion of nonprofit school lunch programs”.

(16) Over 17 million children were food insecure, or hungry, in 2008, according to data collected by the Department of Agriculture.

(18) President Obama has called for a historic investment in the Federal Child Nutrition Programs in order to respond to 2 of the greatest child health challenges of our time, hunger and poor nutrition.

(19) Two hundred twenty-one Members of Congress signed a letter to Speaker Pelosi in support of President Obama’s budget request for the Federal Child Nutrition Programs.

(20) This same letter requested identification of possible offsets for the new investments in these important anti-hunger and nutrition programs.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) reducing domestic childhood obesity and hunger is a matter of national security;

(2) obesity and hunger will continue to negatively impact recruitment for Armed Forces without access to physical activity, healthy food, and proper nutrition;

(3) Congress should act to reduce childhood obesity and hunger;

(4) the Federal Child Nutrition Programs under the Richard B. Russell National School Lunch
Act (42 U.S.C. 1751 et seq.) and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) should be funded at the President’s request; and

(5) the increases in funding for such programs should be properly offset.

SEC. 1067. SENSE OF CONGRESS REGARDING RECREATIONAL HUNTING AND FISHING ON MILITARY INSTALLATIONS.

It is the sense of the Congress that—

(1) military installations that permit public access for recreational hunting and fishing should continue to permit such hunting and fishing where appropriate;

(2) permitting the public to access military installations for recreational hunting and fishing benefits local communities by conserving and promoting the outdoors and establishing positive relations between the civilian and defense sectors;

(3) any military installations that make recreational hunting and fishing permits available for purchase should provide a discounted rate for active and retired members of the Armed Forces and veterans with disabilities; and

(4) the Department of Defense, all of the service branches, and military installations that permit
public access for recreational hunting and fishing should promote access to such installations by making the appropriate accommodations for members of the Armed Forces and veterans with disabilities.

SEC. 1068. SENSE OF CONGRESS ENCOURAGING THE PRESIDENT TO ORDER THE UNITED STATES FLAG TO BE FLOWN OVER UNITED STATES MILITARY AND CIVILIAN OUTPOSTS IN HAITI DURING EARTHQUAKE RELIEF EFFORTS.

(a) FINDINGS.—Congress finds the following:

(1) On January 12, 2010, the nation of Haiti was hit by a magnitude 7.0 earthquake, adversely affecting nearly 3,000,000 people.

(2) The United States has provided millions of dollars in humanitarian assistance to meet immediate needs on the ground and plans to give more over the next year.

(3) The Armed Forces have diligently worked to aid the people of Haiti during their time of need, providing humanitarian aid and logistical support.

(4) The Armed Forces, civilians, and charitable groups have led the charge in an effort to maintain civility and bring some small semblance of hope to the devastated nation.
(5) Members of the Armed Forces serve as the premier ambassadors of liberty, freedom, and goodwill when tasked with a humanitarian mission.

(6) The generosity of the people of the United States is known the world over and the United States flag is universally recognized as a symbol of that generosity.

(7) The United States has provided more aid to the nation of Haiti than all other nations combined.

(b) SENSE OF CONGRESS.—The Congress—

(1) commends the Armed Forces for their commitment to completing their humanitarian mission in Haiti; and

(2) encourages the President to order the United States flag to be flown over all military and civilian outposts in Haiti under United States jurisdiction.

SEC. 1069. STUDY ON OPTIMAL BALANCE OF MANNED AND UNMANNED AERIAL VEHICLE CAPABILITY.

(a) Study.—

(1) In general.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall commission a study by an independent, non-profit organization on the optimal bal-
ance between manned and unmanned aerial vehicle
forces of the Armed Forces.

(2) SELECTION.—The independent, non-profit
organization selected for the study under paragraph
(1) shall be qualified on the basis of having per-
formed work in the fields of national security and
combat systems.

(b) MATTERS INCLUDED.—The study under sub-
section (a) shall include the following:

(1) With respect to each military department
(but in particular the Air Force), an assessment of
the feasibility and desirability of a more rapid tran-
sition from manned to unmanned vehicles for a
range of operations, including combat operations.

(2) An evaluation of the current ability of each
military department to resist attacks mounted by
foreign militaries with significant investments in re-
search and development and deployment of un-
manned combat drones, including an assessment of
each military department’s ability to defend
against—

(A) a large enemy force of unmanned aer-
ial vehicles; and

(B) any other relevant unmanned scenario

the Secretary determines appropriate.
(3) An analysis of—

(A) current and future capabilities of for-

eign militaries in developing and deploying un-

manned systems; and

(B) vulnerabilities to drone systems re-

vealed in past war games and other strategy

materials.

(4) Conclusions on the matters described in

paragraphs (1) through (3) and what the inde-

pendent, non-profit organization conducting the

study determines is the optimal balance of invest-

ment in development and deployment of manned

versus unmanned platforms.

(e) REPORT.—Not later than December 1, 2011, the

Secretary of Defense shall submit to the congressional de-

fense committees, the Committee on Oversight and Gov-

ernment Reform of the House of Representatives, and the

Committee on Homeland Security and Governmental Af-

fairs of the Senate a report that includes the study under

subsection (a).

(d) FORM.—

(1) STUDY.—The study under subsection (a)

shall include a classified annex with respect to the

matters described in subsection (b)(3).
(2) REPORT.—The report under subsection (c) may include a classified annex.

TITLE XI—CIVILIAN PERSONNEL MATTERS

SEC. 1101. AUTHORITY FOR THE DEPARTMENT OF DEFENSE TO APPROVE AN ALTERNATE METHOD OF PROCESSING EQUAL EMPLOYMENT OPPORTUNITY COMPLAINTS WITHIN ONE OR MORE COMPONENT ORGANIZATIONS UNDER SPECIFIED CIRCUMSTANCES.

(a) AUTHORITY.—The Secretary of Defense may implement within one or more of the component organizations of the Department of Defense an alternate program for processing equal employment opportunity complaints.

(1) Complaints processed under the alternate program shall be subject to the procedural requirements established for the alternate program and shall not be subject to the procedural requirements of part 1614 of title 29 of the Code of Federal Regulations or other regulations, directives, or regulatory restrictions prescribed by the Equal Employment Opportunity Commission.

(2) The alternate program shall include procedures to reduce processing time and eliminate redundancy with respect to processes for the resolution
of equal employment opportunity complaints, rein-
force local management and chain-of-command ac-
countability, and provide the parties involved with
early opportunity for resolution.

(3) The Secretary may carry out the alternate
program during a 5-year period beginning on the
date of the enactment of this Act. Not later than
180 days before the expiration of such period, the

Senate, a recommendation regarding whether the
program should be extended for an additional pe-
riod.

(4)(A) Participation in the alternate program
shall be voluntary on the part of the complainant.
Complainants who participate in the alternate pro-
gram shall retain the right to appeal a final agency
decision to the Equal Employment Opportunity
Commission and to file suit in district court. The
Equal Employment Opportunity Commission shall
not reverse a final agency decision on the grounds
that the agency did not comply with the regulatory
requirements promulgated by the Commission.

(B) Subparagraph (A) shall apply to all cases
filed with the Commission after the date of the en-
actment of this Act and under the alternate program established under this subsection.

(C) The Secretary shall consult with the Equal Employment Commission in the development of the alternate program.

(2) measures that are directly linked to the program objectives;

(3) criteria for determining the program performance;

(4) a way to isolate the effects of the alternate program;

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall take effect as of October 28, 2009.

SEC. 1103. SPECIAL RULE RELATING TO CERTAIN OVER-TIME PAY.

(a) IN GENERAL.—Section 5542(a) of title 5, United States Code, is amended by adding at the end the following:

“(6)(A) Notwithstanding paragraphs (1) and (2), for an employee who is described in subparagraph (B), and whose rate of basic pay exceeds the minimum rate for GS–10, the overtime hourly rate of pay is an amount equal to one and one-half times the hourly rate of basic pay of the employee, and all that amount is premium pay.

“(B) This paragraph applies in the case of an employee of the Department of the Navy—
“(i) who is performing work aboard or in support of the U.S.S. GEORGE WASHINGTON while that vessel is forward deployed in Japan; and

“(ii) as to whom the application of this paragraph is necessary (as determined under regulations prescribed by the Secretary of the Navy)—

“(I) in order to ensure equal treatment with employees performing similar work in the United States;

(5) Over 2 million United States troops have served in Iraq and Afghanistan since the beginning of the conflicts.

(6) Over 4,400 United States troops and Department of Defense civilian personnel have been killed in Operation Iraqi Freedom and over 1,060 United States troops and Department of Defense civilian personnel have been killed in Operation Enduring Freedom.
