SEC. 137. AIRPORT DISADVANTAGED BUSINESS ENTERPRISE PROGRAM.

(a) PURPOSE.—It is the purpose of the airport disadvantaged business program to ensure that minority- and women-owned businesses have a full and fair opportunity to compete in federally assisted airport contracts and con-
cessions and to ensure that the Federal Government does not subsidize discrimination in private or locally funded airport-related industries.

(b) FINDINGS.—Congress finds the following:

(1) While significant progress has occurred due to the enactment of the airport disadvantaged business enterprise program (49 U.S.C. 47107(e) and 47113), discrimination continues to be a significant barrier for minority- and women-owned businesses seeking to do business in airport-related markets. This continuing discrimination merits the continuation of the airport disadvantaged business enterprise program.

(2) Discrimination poses serious barriers to the full participation in airport-related businesses of women business owners and minority business owners, including African Americans, Hispanic Americans, Asian Americans, and Native Americans.

(3) Discrimination impacts minority and women business owners in every geographic region of the United States and in every airport-related industry.

(4) Discrimination has impacted many aspects of airport-related business, including—

(A) the availability of venture capital and credit;
(B) the availability of bonding and insurance;

(C) the ability to obtain licensing and certification;

(D) public and private bidding and quoting procedures;

(E) the pricing of supplies and services;

(F) business training, education, and apprenticeship programs; and

(G) professional support organizations and informal networks through which business opportunities are often established.

(5) Congress has received voluminous evidence of discrimination against minority and women business owners in airport-related industries, including—

(A) statistical analyses demonstrating significant disparities in the utilization of minority- and women-owned businesses in federally and locally funded airport related contracting;

(B) statistical analyses of private sector disparities in business success by minority- and women-owned businesses in airport related industries;
(C) research compiling anecdotal reports of discrimination by individual minority and women business owners;

(D) individual reports of discrimination by minority and women business owners and the organizations and individuals who represent minority and women business owners;

(E) analyses demonstrating significant reductions in the participation of minority and women businesses in jurisdictions that have reduced or eliminated their minority- and women-owned business programs;

(F) statistical analyses showing significant disparities in the credit available to minority- and women-owned businesses;

(G) research and statistical analyses demonstrating how discrimination negatively impacts firm formation, growth, and success;

(H) experience of airports and other localities demonstrating that race- and gender-neutral efforts alone are insufficient to remedy discrimination; and

(I) other qualitative and quantitative evidence of discrimination against minority- and
women-owned businesses in airport-related industries.

(6) All of this evidence provides a strong basis for the continuation of the airport disadvantaged business enterprise program and the airport concessions disadvantaged business enterprise program.

(7) Congress has received and reviewed recent comprehensive and compelling evidence of discrimination from many different sources, including congressional hearings and roundtables, scientific reports, reports issued by public and private agencies, news stories, reports of discrimination by organizations and individuals, and discrimination lawsuits.

The
regulations shall correct for the impact of inflation since the Small Business Administration established the personal net worth cap at $750,000 in 1989.

“(2) ANNUAL ADJUSTMENT.—Following the initial adjustment under paragraph (1), the Secretary shall adjust, on June 30 of each year thereafter, the personal net worth cap to account for changes, occurring in the preceding 12-month period, in the Consumer Price Index of All Urban Consumers (United States city average, all items) published by the Secretary of Labor.

“(f) EXCLUSION OF RETIREMENT BENEFITS.—

“(1) IN GENERAL.—In calculating a business owner’s personal net worth, any funds held in a qualified retirement account owned by the business owner shall be excluded, subject to regulations to be issued by the Secretary.

“(2) REGULATIONS.—Not later than one year after the date of enactment of this subsection, the Secretary shall issue final regulations to implement paragraph (1), including consideration of appropriate safeguards, such as a limit on the amount of such accounts, to prevent circumvention of personal net worth requirements.
“(g) Prohibition on Excessive or Discriminatory Bonding Requirements.—

“(1) In general.—The Secretary shall establish a program to eliminate barriers to small business participation in airport-related contracts and concessions by prohibiting excessive, unreasonable, or discriminatory bonding requirements for any project funded under this chapter or using passenger facility revenues under section 40117.

“(2) Regulations.—Not later than one year after the date of enactment of this subsection, the Secretary shall issue a final rule to establish the program under paragraph (1).”.

subsection and to support other programs and activities of the Secretary related to the participation of small business concerns owned and controlled by socially and economically disadvantaged individuals in airport related contracts or concessions.”.

TITLE II—NEXT GENERATION AIR TRANSPORTATION SYSTEM AND AIR TRAFFIC CONTROL MODERNIZATION

SEC. 201. MISSION STATEMENT; SENSE OF CONGRESS.

(a) FINDINGS.—Congress finds the following:

(1) The United States faces a great national challenge as the Nation’s aviation infrastructure is at a crossroads.

(2) The demand for aviation services, a critical element of the United States economy, vital in supporting the quality of life of the people of the United States, and critical in support of the Nation’s defense and national security, is growing at an ever increasing rate. At the same time, the ability of the United States air transportation system to expand and change to meet this increasing demand is limited.

(3) The aviation industry accounts for more than 11,000,000 jobs in the United States and con-
tributes approximately $741,000,000,000 annually to the United States gross domestic product.

(4) The United States air transportation system continues to drive economic growth in the United States and will continue to be a major economic driver as air traffic triples over the next 20 years.

(5) The Next Generation Air Transportation System (in this section referred to as the “NextGen System”) is the system for achieving long-term transformation of the United States air transportation system that focuses on developing and implementing new technologies and that will set the stage for the long-term development of a scalable and more flexible air transportation system without compromising the unprecedented safety record of United States aviation.

(6) The benefits of the NextGen System, in terms of promoting economic growth and development, are enormous.

(7) The NextGen System will guide the path of the United States air transportation system in the challenging years ahead.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—
(1) modernizing the air transportation system is a national priority and the United States must make a commitment to revitalizing this essential component of the Nation’s transportation infrastructure;

(2) one fundamental requirement for the success of the NextGen System is strong leadership and sufficient resources;

(3) the Joint Planning and Development Office of the Federal Aviation Administration and the Next Generation Air Transportation System Senior Policy Committee, each established by Congress in 2003, will lead and facilitate this important national mission to ensure that the programs and capabilities of the NextGen System are carefully integrated and aligned;

(4) Government agencies and industry must work together, carefully integrating and aligning their work to meet the needs of the NextGen System in the development of budgets, programs, planning, and research;

(5) the Department of Transportation, the Federal Aviation Administration, the Department of Defense, the Department of Homeland Security, the Department of Commerce, and the National Aero-
nautics and Space Administration must work in co-
operation and make transformational improvements
to the United States air transportation infrastruc-
ture a priority; and

(6) due to the critical importance of the
NextGen System to the economic and national secu-
rity of the United States, partner departments and
agencies must be provided with the resources re-
quired to complete the implementation of the
NextGen System.

SEC. 332. MODIFICATION OF CUSTOMER SERVICE INITIATIVE.

(a) FINDINGS.—Congress finds the following:

(1) Subsections (a) and (d) of section 40101 of title 49, United States Code, directs the Federal Aviation Administration (in this section referred to as the “Agency”) to make safety its highest priority.

(2) In 1996, to ensure that there would be no appearance of a conflict of interest for the Agency...
in carrying out its safety responsibilities, Congress amended section 40101(d) of such title to remove the responsibilities of the Agency to promote airlines.

(3) Despite these directives from Congress regarding the priority of safety, the Agency issued a vision statement in which it stated that it has a “vision” of “being responsive to our customers and accountable to the public” and, in 2003, issued a customer service initiative that required aviation inspectors to treat air carriers and other aviation certificate holders as “customers” rather than regulated entities.

(4) The initiatives described in paragraph (3) appear to have given regulated entities and Agency inspectors the impression that the management of the Agency gives an unduly high priority to the satisfaction of regulated entities regarding its inspection and certification decisions and other lawful actions of its safety inspectors.

(5) As a result of the emphasis on customer satisfaction, some managers of the Agency have discouraged vigorous enforcement and replaced inspectors whose lawful actions adversely affected an air carrier.
(b) Modification of Initiative.—Not later than 90 days after the date of enactment of this Act, the Administrator of the Federal Aviation Administration shall modify the customer service initiative, mission and vision statements, and other statements of policy of the Agency—

(1) to remove any reference to air carriers or other entities regulated by the Agency as “customers”;  
(2) to clarify that in regulating safety the only customers of the Agency are individuals traveling on aircraft; and  
(3) to clarify that air carriers and other entities regulated by the Agency do not have the right to select the employees of the Agency who will inspect their operations.

(c) Safety Priority.—In carrying out the Administrator’s responsibilities, the Administrator shall ensure that safety is given a higher priority than preventing the dissatisfaction of an air carrier or other entity regulated by the Agency with an employee of the Agency.
SEC. 333. POST-EMPLOYMENT RESTRICTIONS FOR FLIGHT STANDARDS INSPECTORS.

(a) In General.—Section 44711 of title 49, United States Code, is amended by adding at the end the following:

“(d) Post-Employment Restrictions for Flight Standards Inspectors.—

“(1) Prohibition.—A person holding an operating certificate issued under title 14, Code of Federal Regulations, may not knowingly employ, or make a contractual arrangement which permits, an individual to act as an agent or representative of the certificate holder in any matter before the Federal Aviation Administration (in this subsection referred to as the ‘Agency’) if the individual, in the preceding 2-year period—

“(A) served as, or was responsible for oversight of, a flight standards inspector of the Agency; and

“(B) had responsibility to inspect, or oversee inspection of, the operations of the certificate holder.

“(2) Written and Oral Communications.—For purposes of paragraph (1), an individual shall be considered to be acting as an agent or representative of a certificate holder in a matter before the
Agency if the individual makes any written or oral
communication on behalf of the certificate holder to
the Agency (or any of its officers or employees) in
connection with a particular matter, whether or not
involving a specific party and without regard to
whether the individual has participated in, or had
responsibility for, the particular matter while serving
as a flight standards inspector of the Agency.”.

(b) APPLICABILITY.—The amendment made by sub-
section (a) shall not apply to an individual employed by
a certificate holder as of the date of enactment of this
Act.

SEC. 334. ASSIGNMENT OF PRINCIPAL SUPERVISORY IN-
SPECTORS.

(a) IN GENERAL.—An individual serving as a prin-
cipal supervisory inspector of the Federal Aviation Admin-
istration (in this section referred to as the “Agency”) may
not be responsible for overseeing the operations of a single
air carrier for a continuous period of more than 5 years.

(b) TRANSITIONAL PROVISION.—An individual serv-
ing as a principal supervisory inspector of the Agency with
respect to an air carrier as of the date of enactment of
this Act may be responsible for overseeing the operations
of the carrier until the last day of the 5-year period speci-
fied in subsection (a) or last day of the 2-year period begin-
ning on such date of enactment, whichever is later.

c Issuance of Order.—Not later than 30 days after the date of enactment of this Act, the Administrator of the Federal Aviation Administration shall issue an order to carry out this section.

d Authorization of Appropriations.—There are authorized to be appropriated to the Administrator such sums as may be necessary to carry out this section.

SEC. 335. HEADQUARTERS REVIEW OF AIR TRANSPORTATION OVERSIGHT SYSTEM DATABASE.

(a) Reviews.—The Administrator of the Federal Aviation Administration shall establish a process by which the air transportation oversight system database of the Federal Aviation Administration (in this section referred to as the “Agency”) is reviewed by a team of employees of the Agency, including at least one employee selected by the exclusive bargaining representative for aviation safety inspectors, on a monthly basis to ensure that—

(1) any trends in regulatory compliance are identified; and

(2) appropriate corrective actions are taken in accordance with Agency regulations, advisory directives, policies, and procedures.

(b) Monthly Team Reports.—
(1) IN GENERAL.—The team of employees conducting a monthly review of the air transportation oversight system database under subsection (a) shall submit to the Administrator, the Associate Administrator for Aviation Safety, and the Director of Flight Standards a report on the results of the review.

(A) any trends in regulatory compliance discovered by the team of employees in conducting the monthly review; and

(B) any corrective actions taken or proposed to be taken in response to the trends.

(c) QUARTERLY REPORTS TO CONGRESS.—The Administrator, on a quarterly basis, shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of reviews of the air transportation oversight system database conducted under this section, including copies of reports received under subsection (b).
SEC. 336. IMPROVED VOLUNTARY DISCLOSURE REPORTING SYSTEM.

(a) Voluntary Disclosure Reporting Program Defined.—In this section, the term “Voluntary Disclosure Reporting Program” means the program established by the Federal Aviation Administration through Advisory Circular 00–58A, dated September 8, 2006, including any subsequent revisions thereto.

(b) Verification.—The Administrator of the Federal Aviation Administration shall modify the Voluntary Disclosure Reporting Program to require inspectors to—

(1) verify that air carriers implement comprehensive solutions to correct the underlying causes of the violations voluntarily disclosed by such air carriers; and

(2) confirm, before approving a final report of a violation, that the violation, or another violation occurring under the same circumstances, has not been previously discovered by an inspector or self-disclosed by the air carrier.

(c) Supervisory Review of Voluntary Self-Disclosures.—The Administrator shall establish a process by which voluntary self-disclosures received from air carriers are reviewed and approved by a supervisor after the initial review by an inspector.

(d) Inspector General Study.—
(1) IN GENERAL.—The Inspector General of
the Department of Transportation shall conduct a
study of the Voluntary Disclosure Reporting Pro-
gram.

(2) REVIEW.—In conducting the study, the In-
spector General shall examine, at a minimum,
whether—

(A) there is evidence that voluntary disclo-
sure is resulting in regulated entities discov-
ering and correcting violations to a greater ex-
tent than would otherwise occur if there was no
program for immunity from enforcement action;

(B) the voluntary disclosure program
makes the Federal Aviation Administration
(FAA) aware of violations that the FAA would
not have discovered if there was not a program,
and if a violation is disclosed voluntarily,
whether the FAA insists on stronger corrective
actions than would have occurred if the regu-
lated entity knew of a violation, but FAA did
not;

(C) the information the FAA gets under
the program leads to fewer violations by other
entities, either because the information leads
other entities to look for similar violations or
because the information leads FAA investigators to look for similar violations at other entities; and

(D) there is any evidence that voluntary disclosure has improved compliance with regulations, either for the entities making disclosures or for the industry generally.

(3) REPORT.—Not later than one year after the date of enactment of this Act, the Inspector General shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study conducted under this section.

and (2) the operations in excess of the maximum departure and arrival rate for such hour at such airport are likely to have a significant adverse effect on the national or regional airspace system, the Administrator shall convene a conference of such carriers to reduce pursuant to section 41722, on a voluntary basis, the number of such operations to less than such maximum departure and arrival rate.

(b) No Agreement.—If the air carriers participating in a conference with respect to an airport under subsection (a) are not able to agree to a reduction in the number of flights to and from the airport to less than the maximum departure and arrival rate, the Administrator shall take such action as is necessary to ensure such reduction is implemented.

(e) Quarterly Reports.—Beginning 3 months after the date of enactment of this Act and every 3 months thereafter, the Administrator shall submit to Congress a report regarding scheduling at the 35 airports that have the greatest number of passenger enplanements, including each occurrence in which hourly scheduled aircraft operations of air carriers at such an airport exceed the hourly maximum departure and arrival rate at any such airport.

“(2) Exceptions.—The prohibition described in paragraph (1) shall not apply to—

“(A) a member of the flight crew or flight attendants on an aircraft; or

“(B) a Federal law enforcement officer acting in an official capacity.

“(b) Foreign Air Transportation.—
“(1) IN GENERAL.—The Secretary of Transportation shall require all air carriers and foreign air carriers to adopt the prohibition described in subsection (a) with respect to the operation of an aircraft in scheduled passenger foreign air transportation.

“(2) ALTERNATE PROHIBITION.—If a foreign government objects to the application of paragraph (1) on the basis that paragraph (1) provides for an extraterritorial application of the laws of the United States, the Secretary may waive the application of paragraph (1) to a foreign air carrier licensed by that foreign government until such time as an alternative prohibition on voice communications using a mobile communications device during flight is negotiated by the Secretary with such foreign government through bilateral negotiations.

“(c) DEFINITIONS.—In this section, the following definitions apply:

“(1) FLIGHT.—The term ‘flight’ means the period beginning when an aircraft takes off and ending when an aircraft lands.

“(2) VOICE COMMUNICATIONS USING A MOBILE COMMUNICATIONS DEVICE.—
“(A) INCLUSIONS.—The term ‘voice communications using a mobile communications device’ includes voice communications using—

“(i) a commercial mobile radio service or other wireless communications device;

“(ii) a broadband wireless device or other wireless device that transmits data packets using the Internet Protocol or comparable technical standard; or

SEC. 426. ANTITRUST EXEMPTIONS.

(a) STUDY.—The Comptroller General shall conduct a study of the legal requirements and policies followed by the Department in deciding whether to approve international alliances under section 41309 of title 49, United States Code, and grant exemptions from the antitrust laws under section 41308 of such title in connection with such international alliances.

(b) ISSUES TO BE CONSIDERED.—In conducting the study under subsection (a), the Comptroller General, at a minimum, shall examine the following:

(1) Whether granting exemptions from the antitrust laws in connection with international alliances has resulted in public benefits, including an analysis of whether such benefits could have been achieved by international alliances not receiving exemptions from the antitrust laws.

(2) Whether granting exemptions from the antitrust laws in connection with international alliances has resulted in reduced competition, increased prices in markets, or other adverse effects.

(3) Whether international alliances that have been granted exemptions from the antitrust laws have implemented pricing or other practices with respect to the hub airports at which the alliances operate that have resulted in increased costs for con-
consumers or foreclosed competition by rival (nonalliance) air carriers at such airports.

(4) Whether increased network size resulting from additional international alliance members will adversely affect competition between international alliances.

(5) The areas in which immunized international alliances compete and whether there is sufficient competition among immunized international alliances to ensure that consumers will receive benefits of at least the same magnitude as those that consumers would receive if there were no immunized international alliances.

(6) The minimum number of international alliances that is necessary to ensure robust competition and benefits to consumers on major international routes.

(7) Whether the different regulatory and antitrust responsibilities of the Secretary and the Attorney General with respect to international alliances have created any significant conflicting agency recommendations, such as the conditions imposed in granting exemptions from the antitrust laws.

(8) Whether, from an antitrust standpoint, requests for exemptions from the antitrust laws in
connection with international alliances should be treated as mergers, and therefore be exclusively subject to a traditional merger analysis by the Attorney General and be subject to advance notification requirements and a confidential review process similar to those required under section 7A of the Clayton Act (15 U.S.C. 18a).

(9) Whether the Secretary should amend, modify, or revoke any exemption from the antitrust laws granted by the Secretary in connection with an international alliance.

(10) The effect of international alliances on the number and quality of jobs for United States air carrier flight crew employees, including the share of alliance flying done by those employees.

(e) REPORT.—Not later than one year after the date of enactment of this Act, the Comptroller General shall submit to the Secretary of Transportation, the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study under subsection (a), including any recommendations of the Comptroller General as to whether there should be changes in the authority of the Secretary under title 49, United States Code, or policy
changes that the Secretary can implement administra-
tively, with respect to approving international alliances
and granting exemptions from the antitrust laws in con-
nection with such international alliances.

(d) Adoption of Recommended Policy
Changes.—Not later than one year after the date of re-
ceipt of the report under subsection (c), and after pro-
viding notice and an opportunity for public comment, the
Secretary shall issue a written determination as to wheth-

It is the sense of Congress that—

(1) the European Union directive extending the European Union’s emissions trading proposal to international civil aviation without working through the International Civil Aviation Organization (in this section referred to as the “ICAO”) in a consensus-based fashion is inconsistent with the Convention on International Civil Aviation, done at Chicago on December 7, 1944 (TIAS 1591; commonly known as “Chicago Convention”), and other relevant air services agreements and antithetical to building international cooperation to address effectively the problem of greenhouse gas emissions by aircraft engaged in international civil aviation; and

(2) the European Union and its member states should instead work with other contracting states of the ICAO to develop a consensual approach to ad-
dressing aircraft greenhouse gas emissions through
the ICAO.
