

H. Res. 1460

In the House of Representatives, U. S.,

July 1, 2010.

Whereas bees, birds, butterflies, and other pollinators are vital to sustaining a healthy ecosystem;

Whereas pollinators are responsible for an estimated 1 out of every 3 bites of food that we eat;

Whereas diversity of pollinators is necessary for diversity of plant life and the security of our food supply;

Whereas a decline in pollinators would adversely impact animal species that eat pollinating plants;

Whereas colony collapse disorder has caused an alarming decline in the population of honey bees, one of the most important pollinators;

Whereas the United States Senate designated the last week of June as National Pollinator Week in 2006; and

Whereas the majority of States have recognized June 21–27, 2010, as National Pollinator Week: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes the importance of pollinators in agriculture and in maintaining our diverse ecosystem; and

(2) supports the goals and ideals of National Pollinator Week.

Attest:

Clerk.
