“(a) IN GENERAL.—A group health plan and a health insurance issuer offering group or individual health insur-
ance coverage may not establish rules for eligibility (in-

the individual or a dependent of the individual:

“(1) Health status.

“(2) Medical condition (including both physical
and mental illnesses).

“(3) Claims experience.

“(4) Receipt of health care.

“(5) Medical history.

“(6) Genetic information.

“(7) Evidence of insurability (including condi-
tions arising out of acts of domestic violence).

“(8) Disability.

“(9) Any other health status-related factor de-
termined appropriate by the Secretary.

“(b) Programs of Health Promotion or Disease Pre-
vention.—

“(1) General provisions.—

“(A) General rule.—For purposes of
paragraph (2)(B), a program of health pro-
motion or disease prevention (referred to in this
subsection as a ‘wellness program’) shall be a
program offered by an employer that is de-
signed to promote health or prevent disease that meets the applicable requirements of this subsection.

“(B) No conditions based on health status factor.—If none of the conditions for obtaining a premium discount or rebate or other reward for participation in a wellness program is based on an individual satisfying a standard that is related to a health status factor, such wellness program shall not violate this section if participation in the program is made available to all similarly situated individuals and the requirements of paragraph (2) are complied with.

“(C) Conditions based on health status factor.—If any of the conditions for obtaining a premium discount or rebate or other reward for participation in a wellness program is based on an individual satisfying a standard that is related to a health status factor, such wellness program shall not violate this section if the requirements of paragraph (3) are complied with.

“(2) Wellness programs not subject to requirements.—If none of the conditions for ob-
taining a premium discount or rebate or other re-
ward under a wellness program as described in para-
graph (1)(B) are based on an individual satisfying
a standard that is related to a health status factor
(or if such a wellness program does not provide such
a reward), the wellness program shall not violate
this section if participation in the program is made
available to all similarly situated individuals. The
following programs shall not have to comply with the
requirements of paragraph (3) if participation in the
program is made available to all similarly situated
individuals:

“(A) A program that reimburses all or
part of the cost for memberships in a fitness
center.

“(B) A diagnostic testing program that
provides a reward for participation and does
not base any part of the reward on outcomes.

“(C) A program that encourages preven-
tive care related to a health condition through
the waiver of the copayment or deductible re-
quirement under an individual or group health
plan for the costs of certain items or services
related to a health condition (such as prenatal
care or well-baby visits).
“(D) A program that reimburses individuals for the costs of smoking cessation programs without regard to whether the individual quits smoking.

“(E) A program that provides a reward to individuals for attending a periodic health education seminar.

“(3) WELLNESS PROGRAMS SUBJECT TO REQUIREMENTS.—If any of the conditions for obtaining a premium discount, rebate, or reward under a wellness program as described in paragraph (1)(C) is based on an individual satisfying a standard that is related to a health status factor, the wellness program shall not violate this section if the following requirements are complied with:

“(A) The reward for the wellness program, together with the reward for other wellness programs with respect to the plan that requires satisfaction of a standard related to a health status factor, shall not exceed 30 percent of the cost of employee-only coverage under the plan. If, in addition to employees or individuals, any class of dependents (such as spouses or spouses and dependent children) may participate fully in the wellness program, such reward shall not
exceed 30 percent of the cost of the coverage in which an employee or individual and any dependents are enrolled. For purposes of this paragraph, the cost of coverage shall be determined based on the total amount of employer and employee contributions for the benefit package under which the employee is (or the employee and any dependents are) receiving coverage. A reward may be in the form of a discount or rebate of a premium or contribution, a waiver of all or part of a cost-sharing mechanism (such as deductibles, copayments, or coinsurance), the absence of a surcharge, or the value of a benefit that would otherwise not be provided under the plan. The Secretaries of Labor, Health and Human Services, and the Treasury may increase the reward available under this subparagraph to up to 50 percent of the cost of coverage if the Secretaries determine that such an increase is appropriate.

“(B) The wellness program shall be reasonably designed to promote health or prevent disease. A program complies with the preceding sentence if the program has a reasonable chance of improving the health of, or preventing
disease in, participating individuals and it is not overly burdensome, is not a subterfuge for discriminating based on a health status factor, and is not highly suspect in the method chosen to promote health or prevent disease. The plan or issuer shall evaluate the program’s reasonableness at least once per year.

“(C) The plan shall give individuals eligible for the program the opportunity to qualify for the reward under the program at least once each year.

“(D) The full reward under the wellness program shall be made available to all similarly situated individuals. For such purpose, among other things:

“(i) The reward is not available to all similarly situated individuals for a period unless the wellness program allows—

“(I) for a reasonable alternative standard (or waiver of the otherwise applicable standard) for obtaining the reward for any individual for whom, for that period, it is unreasonably diff-
satisfy the otherwise applicable stand-
ard; and

“(II) for a reasonable alternative
standard (or waiver of the otherwise
applicable standard) for obtaining the
reward for any individual for whom,
for that period, it is medically inadvis-
able to attempt to satisfy the other-
wise applicable standard.

“(ii) If reasonable under the cir-
cumstances, the plan or issuer may seek
verification, such as a statement from an
individual’s physician, that a health status
factor makes it unreasonably difficult or
medically inadvisable for the individual to
satisfy or attempt to satisfy the otherwise
applicable standard.

“(E) The plan or issuer involved shall dis-
close in all plan materials describing the terms
of the wellness program the availability of a
reasonable alternative standard (or the possi-
bility of waiver of the otherwise applicable
standard) required under subparagraph (D). If
plan materials disclose that such a program is
available, without describing its terms, the dis-
closure under this subparagraph shall not be re-
quired.

“(c) EXISTING PROGRAMS.—Nothing in this section
shall prohibit a program of health promotion or disease
prevention that was established prior to the date of enact-
ment of this section and applied with all applicable regul-
tions, and that is operating on such date, from continuing
to be carried out for as long as such regulations remain
in effect.

“(d) REGULATIONS.—Nothing in this section shall be
construed as prohibiting the Secretaries of Labor, Health
and Human Services, or the Treasury from promulgating
regulations in connection with this section.

“SEC. 2707. ENSURING THE QUALITY OF CARE.

“(a) IN GENERAL.—Except as provided in subsection

except that in order that no plan or issuer be forced
to deny patients medical care needed to prevent
their deaths or preserve or restore their health, no
plan or issuer shall be prohibited from providing
payment for a treatment or diagnostic procedure it
chooses to cover, unless such treatment or procedure
has been determined to be unsafe or dangerous or

Subtitle B—Available Coverage for All Americans

(a) FINDINGS.—The Senate finds that—

“(2) Content.—

“(A) In general.—

“(i) Required information.—An application submitted under this subsection shall include information demonstrating that—

“(I) the biological product is biosimilar to a reference product based upon data derived from—

“(aa) analytical studies that demonstrate that the biological product is highly similar to the
reference product notwithstanding minor differences in clinically inactive components;

“(bb) animal studies (including the assessment of toxicity); and

“(cc) a clinical study or studies (including the assessment of immunogenicity and pharmacokinetics or pharmacodynamics) that are sufficient to demonstrate safety, purity, and potency in 1 or more appropriate conditions of use for which the reference product is licensed and intended to be used and for which licensure is sought for the biological product;

“(II) the biological product and reference product utilize the same mechanism or mechanisms of action for the condition or conditions of use prescribed, recommended, or suggested in the proposed labeling, but only to the extent the mechanism or
mechanisms of action are known for
the reference product;

“(III) the condition or conditions
of use prescribed, recommended, or
suggested in the labeling proposed for
the biological product have been pre-
viously approved for the reference
product;

“(IV) the route of administra-
tion, the dosage form, and the
strength of the biological product are
the same as those of the reference
product; and

“(V) the facility in which the bio-
logical product is manufactured, proc-
essed, packed, or held meets stand-
ards designed to assure that the bio-
logical product continues to be safe,
pure, and potent.

“(ii) meets the standards described in paragraph (4), and therefore is interchangeable with the reference product; and

“(B) the applicant (or other appropriate person) consents to the inspection of the facility that is the subject of the application, in accordance with subsection (c).

“(4) SAFETY STANDARDS FOR DETERMINING INTERCHANGEABILITY.—Upon review of an application submitted under this subsection or any supplement to such application, the Secretary shall determine the biological product to be interchangeable with the reference product if the Secretary determines that the information submitted in the application (or a supplement to such application) is sufficient to show that—

“(A) the biological product—

“(i) is biosimilar to the reference product; and
“(ii) can be expected to produce the same clinical result as the reference product in any given patient; and

“(B) for a biological product that is administered more than once to an individual, the risk in terms of safety or diminished efficacy of alternating or switching between use of the biological product and the reference product is not greater than the risk of using the reference product without such alternation or switch.

strategies under the Federal Food, Drug, and Cosmetic Act shall apply to biological products licensed under this subsection in the same manner as such authority applies to biological products licensed under subsection (a).

“(6) EXCLUSIVITY FOR FIRST INTERCHANGEABLE BIOLOGICAL PRODUCT.—Upon review of an application submitted under this subsection relying on the same reference product for which a prior biological product has received a determination of interchangeability for any condition of use, the Secretary shall not make a determination under paragraph (4) that the second or subsequent biological product is interchangeable for any condition of use until the earlier of—

“(A) 1 year after the first commercial marketing of the first interchangeable biosimilar biological product to be approved as interchangeable for that reference product;

“(B) 18 months after—

“(i) a final court decision on all patents in suit in an action instituted under subsection (l)(6) against the applicant that submitted the application for the first ap-
proved interchangeable biosimilar biological product; or

“(ii) the dismissal with or without prejudice of an action instituted under subsection (l)(6) against the applicant that submitted the application for the first approved interchangeable biosimilar biological product; or

“(I) a change (not including a modification to the structure of the biological product) that results in a new indication, route of administration,
dosing schedule, dosage form, delivery
system, delivery device, or strength; or
“(II) a modification to the structure of the biological product that
does not result in a change in safety,
purity, or potency.
“(8) GUIDANCE DOCUMENTS.—

after opportunity for public comment, issue
guidance in accordance, except as provided in
subparagraph (B)(i), with section 701(h) of the

“(E) Certain Product Classes.—

“(i) Guidance.—The Secretary may indicate in a guidance document that the science and experience, as of the date of such guidance, with respect to a product or
product class (not including any recombinant protein) does not allow approval of an application for a license as provided under this subsection for such product or product class.

“(ii) Modification or reversal.—The Secretary may issue a subsequent guidance document under subparagraph (A) to modify or reverse a guidance document under clause (i).

“(iii) No effect on ability to deny license.—Clause (i) shall not be construed to require the Secretary to approve a product with respect to which the Secretary has not indicated in a guidance document that the science and experience, as described in clause (i), does not allow approval of such an application.

(a) Report.—Not later than 18 months after the
date of enactment of this Act, the Comptroller General
of the United States shall submit to Congress a report
that examines whether those individuals served by the cov-

(b) Recommendations.—The report under sub-
section (a) shall include recommendations on the fol-

(2) Whether mandatory sales of certain products by the 340B program could hinder patients access to those therapies through any provider.

(3) Whether income from the 340B program is being used by the covered entities under the program to further the program objectives.
