

to the Committee on Appropriations and ordered to be printed:

To the Congress of the United States:

I transmit herewith the following volumes, which together complete my Fiscal Year 2010 Budget: Analytical Perspectives, Historical Tables, and Updated Summary Tables.

BARACK OBAMA.
THE WHITE HOUSE, May 11, 2009.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken after 6:30 p.m. today.

SUPPORTING IEEE ENGINEERING THE FUTURE DAY

Mr. GORDON of Tennessee. Madam Speaker, I move to suspend the rules and agree to the resolution (H. Res. 413) supporting the goals and ideals of "IEEE Engineering the Future" Day on May 13, 2009, and for other purposes. The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 413

Whereas IEEE is the world's largest technical professional society, with more than 375,000 members, including more than 210,000 members in the United States;

Whereas IEEE members are engineers, scientists, and other professionals whose technical interests are rooted in electrical and computer sciences, engineering, and related disciplines;

Whereas IEEE's core purpose is to foster technological innovation and excellence for the benefit of humanity;

Whereas IEEE traces its roots to the founding of the American Institute of Electrical Engineers (AIEE) on May 13, 1884;

Whereas renowned inventor and entrepreneur Thomas Alva Edison was a founder of AIEE;

Whereas notable presidents of the IEEE and its founding organizations include Alexander Graham Bell, Charles Proteus Steinmetz, Lee De Forest, William R. Hewlett, and Ivan Getting;

Whereas AIEE merged with the Institute of Radio Engineers in 1963 to form IEEE;

Whereas IEEE maintains a vast library of technical publications;

Whereas more than 100,000 technical professionals attend the more than 300 conferences sponsored or cosponsored by IEEE each year;

Whereas IEEE is a leader in the development of international standards that support many of today's products and services, with an active portfolio of nearly 1,300 standards and projects under development;

Whereas IEEE provides learning opportunities within the engineering sciences with the goal of ensuring the growth of skill and knowledge among the technical profession;

Whereas IEEE provides a forum for professionals to interact, collaborate, and generate new ideas and concepts;

Whereas IEEE seeks to attract the best and brightest to use their skills and experience and apply technology to benefit society and help solve humanitarian issues;

Whereas "IEEE Engineering the Future" Day will be held by IEEE on May 13, 2009, to recognize the contributions and impact that IEEE, its members, and engineering and technology professionals have made and to raise public awareness of the diverse opportunities available in different technology fields;

Whereas revolutionary advances in information technology, biotechnology, nanotechnology, and other fields are reshaping the global economy; and

Whereas the United States must continue its efforts to maintain its leadership in science, technology, and innovation: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes the importance of engineering and technology to meeting our Nation's most pressing challenges;

(2) congratulates IEEE on its 125th anniversary; and

(3) supports the goals and ideals of "IEEE Engineering the Future" Day.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. GORDON) and the gentleman from Florida (Mr. MARIO DIAZ-BALART) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee.

GENERAL LEAVE

Mr. GORDON of Tennessee. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and to include extraneous material on H. Res. 413, the resolution now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. GORDON of Tennessee. Madam Speaker, I yield myself as much time as I may consume.

I rise today in support of H. Res. 413, supporting the goals and ideals of IEEE Engineering the Future Day on May 13, 2009.

I want to thank my good friend from Florida (Mr. STEARNS) for working with me to introduce this resolution. Mr. STEARNS holds a degree in electrical engineering and served in the Air Force as an aerospace engineer. So I think his sponsorship of this resolution is very appropriate.

The IEEE is the world's largest technical professional society, with more than 375,000 members worldwide, including 210,000 in the United States. It is made up primarily of engineers, scientists, engineering professors, computer and technical professionals. The organization's core purpose is to foster technological innovation and excellence for the benefit of humanity.

IEEE supports programs that improve K-12 science, technology, engineering and mathematics education and technical literacy. Its vast library of technical publications, worldwide conferences and global standards make it a powerful force for technological leadership.

To celebrate its 125th anniversary, IEEE will hold the IEEE Engineering the Future Day tomorrow, May 13, 2009, to recognize the contributions and impact that IEEE, its members, and the engineering and technological professions have made, and to raise public awareness of the diverse opportunities available in different technological fields.

I ask my colleagues to help pass H. Res. 413, to recognize the importance of engineering and technology in meeting our Nation's most pressing challenges; congratulate IEEE on its 125th anniversary; and support the goals and ideas of the IEEE Engineering the Future Day on May 13.

I reserve the balance of my time.

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, I would yield myself as much time as I may consume.

I rise today to support House Resolution 413, supporting the goals and ideals of IEEE Engineering the Future Day on May 13, 2009.

IEEE, as the Chairman has said, is a nonprofit organization and the world's leading professional association for the advancement of technology. It's a leading authority on areas ranging from aerospace systems, computers, telecommunications, biomedical engineering, electrical power and consumer electronics, just among many.

Today IEEE has more than 375,000 members, including nearly 80,000 student members in more than 160 countries around the world. These members rely on IEEE as a source of technical and professional information. They rely on them for resources and also for a number of different services.

IEEE Engineering the Future Day will be held by IEEE tomorrow, May 13, 2009, to recognize the contributions and impact that that organization, its members, and engineering and technology professionals have made over the last 125 years, and to raise public awareness, Madam Speaker, of the diverse opportunities available in many, many different technological fields.

Madam Speaker, I would then ask my colleagues to join me in supporting this resolution, honoring this special day and anniversary.

At this time I will reserve the balance of my time.

Mr. GORDON of Tennessee. Madam Speaker, I yield such time as he may consume to my friend from Florida (Mr. STEARNS), a cosponsor of this resolution.

Mr. STEARNS. Madam Speaker, let me thank the gentleman from Tennessee, the Chairman of the Committee on Science and Technology, for his hard work and his kindness and for letting me have this bill on the floor so promptly.

I also thank my colleague from Florida for his introduction and kind words.

This legislation, which I introduced with my good friend Chairman GORDON, obviously congratulates the IEEE on its 125th anniversary and recognizes
