

That is why they have tried to stifle the debate and the attempt to push climate change legislation has never been more intense. People in Washington, we don't need to be told that there has been an attempt to stifle debate. But I would ask that the American people think about what they have heard about the Man-made Global Warming theory over these 15 years, but especially over these last 4 years. The attempt to ramp up these scare tactics is at an all-time high.

But mark my words, the real calamity will not be an out-of-control climate caused by humans; the real calamity brought on by Man-made Global Warming will be the economy-killing taxes and regulations that are put in place to solve a nonexistent problem. That economic decline that we're talking about is just Round one, however. Round two is easy to predict.

For example, in the future, we are going to face all kinds of mandates and controls from the Federal Government and the international. Some of these would be, for example, mandated increases in parking fees. Do they tell you that now? All your local communities are going to have to raise your parking fees. And there will be major impediments to the private use of automobiles. And then, of course, they've got to end frequent flyer miles and they've got to end discount air travel because, believe it or not, and nobody has ever been telling you this, they believe that airplanes are the biggest CO₂ footprint of all. That's right. Your frequent flyer miles and your discount tickets have got to go. Of course, the elite will be able to fly around in their private planes giving a donation by supposedly planting trees somewhere and thus they can fly in their private planes. But the rest of us cannot go to see our sick relatives on a discounted ticket. No one has heard about this. Nobody has heard about these types of controls that are going to be mandated on our own people by the United Nations perhaps. What has been the purview of local government will be transferred to much higher authorities. Local government will be required to follow international guidelines, climate guidelines, when it comes to building, zoning, even local planning.

This is part of our liberty. Where we live, what we eat, how we run our lives, this is what is at stake. It's called liberty. This is a fight between the globalists, who found a vehicle to try to gain power and grab power, and those people who do believe in liberty and justice. We call them patriots. We call them people around the world who do believe in these Western values of dignity for the individual and freedom and justice.

If you aren't frightened by this, you should be. We have a fanatical movement of steely-eyed zealots who cannot admit they made a mistake, who always attack the other person rather than trying to have honest discussions of issues. Couple that with self-serving interests, and there are many self-serving interests who are involved in this. They now have joined in a political coalition that believes they have the right to run the economy, run business, run local schools, and run our lives. They have been looking for an excuse to assume power.

We must stand up and defeat this power grab. Wake up America! Your freedom and prosperity are at stake.

I yield back the balance of my time.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2647, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2010

Ms. PINGREE of Maine, from the Committee on Rules, submitted a privileged report (Rept. No. 111-182) on the resolution (H.
