EARMARK DECLARATION

HON. JERRY MORAN

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 23, 2009

Mr. MORAN of Kansas. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 3288, Transportation, and Housing and Urban Development, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman JERRY MORAN

Bill Number: H.R. 3288

Agency/Account: Department of Transportation, Office of the Secretary, Transportation Planning, Research, and Development

Legal Name of Requesting Entity: University of Kansas

Address of Requesting Entity: 2385 Irving Hill Rd., Lawrence, KS 66403

Description of Project: I have secured \$350,000 for the University of Kansas Engine Test Cell Upgrade project. One of the education components of the University is the School of Engineering. The School of Engineering promotes and teaches interdisciplinary research learning. Engineers and computer scientists from different disciplines work together to provide innovative solutions to challenges around the world. Funding will be used to purchase equipment including an AC dynamometer. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman JERRY MORAN

Bill Number: H.R. 3288

Agency/Account: Federal Aviation Administration, Airport Improvement Program

Legal Name of Requesting Entity: Oberlin Municipal Airport

Address of Requesting Entity: 1832 Highway 83, Oberlin, KS 66749

Description of Project: I have secured \$500,000 for the Oberlin Municipal Airport Runway

Realignment and Lengthening Project. Recently the FAA has required a 500 foot displacement on the south end of north/south runway 17–35 at the Oberlin Municipal Airport. Shortening of the runway and lack of expansion to the north further hinders usage of the current alignment. Decatur County is currently not being served by air ambulance. Eagle Med sets runway requirements the pressure altitude of 2705, Oberlin, Kansas on an 85 degree day with a 10 knot head wind of approxi-

mately 4,200; this requirement increases about 100 feet for every one degree of temperature. The current north/south runway is less than 3,900 feet.

Funding will be used for construction of this proposed new runway which will solve the aforementioned issues. The new runway, while providing utility for the existing users, will offer growth and expansion for several companies that use aviation, all of which are hindered by the poor runway conditions. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman JERRY MORAN

Bill Number: H.R. 3288

Agency/Account: Federal Highway Administration, Surface Transportation Priorities

Legal Name of Requesting Entity: City of Great Bend

Address of Requesting Entity: 1209 Williams, Great Bend, KS 67530

Description of Project: I have secured \$400,000 for the Broadway and Kansas Avenue Repair Project in Great Bend, KS. The Broadway/Kansas Avenue Repair and Rehabilitation Project is designed to repair two roadways of economic importance to the Great Bend Community. Both roadways serve as major traffic arterials for commercial and residential traffic alike. Because of the sheer amount and the kind of traffic both these routes receive, the condition of both roadways is in rapidly increasing disrepair. The high traffic levels along with age of concrete sections on both routes have caused these sections of roadway to deteriorate faster than the typical roadway. The nature of businesses located on both of these routes makes repair action increasingly important. Funding will be used to help repair these roads. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman JERRY MORAN

Bill Number: H.R. 3288

Agency/Account: Federal Highway Administration, Surface Transportation Priorities

Legal Name of Requesting Entity: City of Junction City

Address of Requesting Entity: 700 North Jefferson, P.O. Box 287, Junction City, KS 66441

Description of Project: I have secured \$500,000 for the Rucker Road at US–77 Project in Junction City, Kansas. The development of housing and business operations on the west side of Junction City has created a need for additional traffic signals at Rucker Road and US–77. Funding will be used for the addition of traffic signals and turn lanes on US–77 and Rucker Road, which will ease the congestion and reduce the potential for accidents at this busy intersection. I certify that neither I nor my spouse has any financial interest in this project.
