Requesting Member: Congressman ANDER CRENSHAW

Bill Number: H.R. 3293—Labor, Health and Human Services, and Education and Related Agencies Appropriations Act, 2010

Account: Health Resources and Services Administration (HRSA)—Health Facilities and Services

Legal Name of Receiving Entity: Florida Community College at Jacksonville, FL

Address of Receiving Entity: 501 W. State Street, Jacksonville, FL 32202

Description of Request: I have secured \$250,000 in funding in H.R. 3293 in the Health Resources and Services Administration (HRSA)—Health Facilities and Services Account for facilities and equipment at Florida Community College in Jacksonville, FL.

The purpose of this funding is to purchase a clinical simulation laboratory to train nurses.

This is a valuable use of taxpayer funding because while there is an 8% position vacancy rate in nurses in the state of Florida, 52% of qualified applicants were turned away because nursing schools do not have the resources to train new nurses.

Legal Name of Receiving Entity: Jacksonville University

Address of Receiving Entity: 2800 University Boulevard North, Jacksonville, FL 32211

Description of Request: I have secured \$250,000 in funding in H.R. 3293 in the Health Resources and Services Administration (HRSA)—Health Facilities and Services Account for facilities and equipment at Jacksonville University in Jacksonville, FL.

The purpose of this funding is to purchase clinical simulators and software to train medical students and hospital staff how to use electronic medical records.

This is a valuable use of taxpayer funding because the widespread adoption of health information technology has the potential to save millions of dollars and improve the quality of health care, but nurses and other hospital staff still lack the training to become competent in health information technologies.

Legal Name of Receiving Entity: Lake City Community College

Address of Receiving Entity: 149 SE College Place, Lake City, FL 32025

Description of Request: I have secured \$250,000 in funding in H.R. 3293 in the Health Resources and Services Administration

(HRSA)—Health Facilities and Services Account for purchase of mobile clinical training laboratories at Lake City Community College in Lake City, FL.

The purpose of this funding is to create 2 mobile labs with patient simulators to provide clinical training to 130 nursing students.

This is a valuable use of taxpayer funding because despite rising unemployment, there are numerous high wage nursing jobs in north central Florida that remain vacant due to insufficient training resources. Associate degree jobs that start at more than \$20/hour provide one of the few reliable high wage occupations in the region. Jobs like these are critical to recovery from the economic crisis for residents of north central Florida.
