EARMARK DECLARATION

HON. GLENN THOMPSON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 29, 2009

Mr. THOMPSON of Pennsylvania. Madam Speaker, pursuant to the Republican standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 3326, the Department of Defense Appropriations Act, 2010. The entity to receive funding is Impact Technologies, LLC, 2029 Cato Avenue, State College, PA 16801, in the amount of \$3,000,000. Funding will be used for smart oil sensors.

EARMARK DECLARATION

HON. BRETT GUTHRIE

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 29, 2009

Mr. GUTHRIE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 3326, the Department of Defense Appropriations Act, 2010.

Requesting Member: Congressman BRETT GUTHRIE

Bill Number: H.R. 3326

Account: RDT&E/DW

Recipient: EWA, Inc. 2413 Nashville Road, Suite 126, Bowling Green, KY 42101

Description of Request: Provide \$5,000,000 to develop prototypes for the U.S. Special Operation Command to covertly identify and track individuals who threaten the national security of the U.S. Government.

RECOGNIZING GENERAL AVIATION

SPEECH OF

HON. CANDICE S. MILLER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 28, 2009

Mrs. MILLER of Michigan. Mr. Speaker, I rise today in strong support of H. Res. 508. I'm a proud member of the General Aviation Caucus and have been a long time supporter of general aviation. My husband was a fighter pilot in Vietnam, and now we fly an RV-8 aircraft, which he built in our garage.

More than 75% of all flights in the United States are general aviation. America relies on general aviation for business, medical delivery services, sightseeing and for just plain fun and a love of flying.

General aviation contributes high-skill jobs in aircraft manufacturing, avionics and technology development, and flight training. This is a vital industry in America's economy. Currently there are 19,000 airports nationwide that provide jobs for 1.3 million Americans and bring in more than \$100 billion dollars annually.

According to a 2006 report from the General Aviation Manufacturers Association, general aviation contributes more than \$4.1 billion in value to the state of Michigan alone. And there are more than 200 general aviation airports in Michigan—these airports are a vital link to rural communities.

After the terrorist attacks of 9/11, the General Aviation community responded by partnering with the TSA to develop a nationwide Airport Watch Program that uses pilots as eyes and ears for observing and reporting suspicious activity.

The General Aviation Community has made impressive contributions to our nation's economy and security. So I am proud to support this resolution. I urge my colleagues to support this resolution.

THE ANNIVERSARY OF THE FALL OF ZEPA

HON. RUSS CARNAHAN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 29, 2009

Mr. CARNAHAN. Madam Speaker, I rise today to recognize the anniversary of the fall of Zepa during the war in Bosnia in 1995. Just a few weeks ago, I attended the Srebrenica genocide remembrance ceremony in Bosnia and Herzegovina to commemorate the thousands of innocent lives lost during the war. It is important to remember these innocent people who lost their lives as Bosnians move forward.

This siege on Srebrenica, however, was not an isolated event. On July 25, 1995, Zepa, another U.N.-declared safe haven, also fell to the same forces that took Srebrenica just weeks earlier. The thousands of inhabitants and refugees in Zepa were forced to suffer, and die through a constant downpour of shellfire.

In addition to the vast numbers who perished due to the barrage of fire and starvation, an unknown number were taken away never to be seen again, including the Colonel of the Bosnia and Herzegovina army, Avdo Palic, who negotiated the evacuation of approximately 5,000 civilians.

Today, a little more than 14 years after the fall of Zepa, I urge us all to remember not only the fall of Zepa, but also the destruction of the other towns of Srebrenica, Zepa, Sarajevo, Gorazde, Bihac, Tuzla, Prijedor, Bjeljina, Visegrad, Foca, and Kozarac, and many others, all of which experienced significant loss. We must remind ourselves of the innocent lives that were lost, and honor their memory.

Madam Speaker, while we cannot erase the pain of these losses, let us support the efforts of the families of the missing to learn the fate of their loved ones, and let us support the justice that is necessary for the building of a stable, prosperous, and unified Bosnia and Herzegovina.

EARMARK DECLARATION

HON. PHIL GINGREY

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 29, 2009

Mr. GINGREY of Georgia. Madam Speaker, pursuant to the Republican Leadership stand-

ards on earmarks as well as in accordance with Clause 9 of Rule XXI, I am submitting the following information regarding earmarks I received as part of H.R. 3326, the Department of Defense Appropriations Act, 2010.

Requesting Member: Congressman PHIL GINGREY

Bill Number: H.R. 3326

Account: Research, Development, Test, Evaluation, Army

Legal Name of Requesting Entity: Georgia Institute of Technology

Address of Requesting Entity: Institute of Bioengineering and Bioscience, 315 Ferst Drive, NW, Atlanta, Georgia 30332-0363

Description of Request: The \$3,000,000 included in H.R. 3326 for the Center for Advanced Bioengineering and Solider Survivability (CABSS) will focus on research in advanced tissue and bone regeneration and wound care and treatment issues relevant to military trauma care. Fundamental research advances in these areas can lead to technologies and techniques for better immediate clinical combat care as well as address long term care issues involving limb loss, tissue and organ damage, facial and dental injuries, and reconstruction.

Specifically, the \$3,000,000 in funding will be paid out at pre-negotiated rates in accordance with Department of Defense policy. Specifically, funds will be used to: establish a seed grant program to identify novel technologies for treatment of musculoskeletal defects following trauma, develop oriented nanofiber meshes for treatment of neurologic defects following injury to the extremities, develop biodegradable shape memory polymers for treatment of large bone defects, develop biodegradable shape memory polymers for craniofacial reconstruction, and test the effects of sustained delivery of osteoinductive proteins in tubular nanofiber mesh scaffolds on functional repair of large segmental bone defects.

Georgia Tech will continue to leverage this request to obtain funding from other sources. The Georgia Research Alliance has pledged additional money to the project for infrastructure and equipment, and past Congressional funding has been leveraged to successfully obtain funding from DoD's Orthopaedic Trauma Research Program and its Armed Forces Institute of Regenerative Medicine, as well as funding from the Musculoskeletal Transplant Foundation.

Requesting Member: Congressman PHIL GINGREY

Bill Number: H.R. 3326

Account: Research, Development, Test, Evaluation, Army

Legal Name of Requesting Entity: Printpack, Inc.

Address of Requesting Entity: 2800 Overlook Drive NE, Atlanta, GA 30345-2024

Description of Request: The \$1,000,000 added to H.R. 3326 will be used to develop new and innovative packaging and processing technologies for the Warfighter's combat rations. These funds will result in the ability to provide greater variety and more nutritional rations with longer shelf-life and reduced production costs.

The objective of this effort is to develop advanced thermal processing techniques based on the utilization of non-foil materials for military ration packaging. The importance of developing non-foil packaging materials will
