At the appropriate place insert the following:

Whereas sudden loss in late 2008 of export-market based demand equivalent to about three percent of domestic milk production has thrown the U.S. dairy industry into a critical supply-demand imbalance; and

Whereas an abrupt decline in U.S. exports was fueled by the onset of the global economic crisis combined with resurgence of milk supplies in Oceania; and

Whereas the U.S. average all-milk price reported by the National Agriculture Statistics Service from January through May of 2009, has averaged \$4.80 per hundredweight below the cost of production; and

Whereas approximately \$3.9 billion in dairy producer equity has been lost since January; and

Whereas anecdotal evidence suggests that U.S. dairy producers are losing upwards of \$100 per cow per month; and

Whereas the Food, Conservation, and Energy Act of 2008 extended the counter-cyclical Milk Income Loss Contract (MILC) support program and instituted a “feed cost adjuster” to augment that support; and

Whereas the Secretary of Agriculture in March transferred approximately 200 million pounds of nonfat dry milk to USDA’s food and Nutrition Service in a move designed to remove inventory from the market and support low-income families; and

Whereas the Secretary on March 22nd reactivated USDA’s Dairy Export Incentive Program (DEIP) to help U.S. producers meet prevailing world prices and develop international markets; and

Whereas the Secretary announced on July 31, 2009 a temporary increase in the amount paid for dairy products through the Dairy Product Price Support Program (DPPSP), an adjustment that is projected to increase dairy farmers’ revenue by \$243 million; and

Whereas U.S. dairy producers face unprecedented challenges that threaten the stability of the industry, the nation’s milk production infrastructure, and thousands of rural communities: Now, therefore, be it

Resolved, That it is the sense of the Senate that the Secretary of Agriculture and the President’s Office of Management and Budget should continue to closely monitor the U.S. dairy sector and use all available discretionary authority to ensure its long-term health and sustainability.

SEC. 7 _____. (a) The Senate finds that—

(1) with livestock producers facing losses from harsh weather in 2008 and continuing to face disasters in 2009, Congress wanted to assist livestock producers in recovering losses more quickly and efficiently than previous ad hoc disaster assistance programs;

(2) on June 18, 2008, Congress established the livestock indemnity program under section 531(c) of the Federal Crop Insurance Act (7 U.S.C. 1531(c)) and section 901(c) of the Trade Act of 1974 (19 U.S.C. 2497(c)) as a permanent disaster assistance program to provide livestock producers with payments of 75 percent of the fair market value for livestock losses as a result of adverse weather such as floods, blizzards, and extreme heat;

(3) on July 13, 2009, the Secretary of Agriculture promulgated rules for the livestock indemnity program that separated non adult beef animals into weight ranges of “less than 400 pounds” and “400 pounds and more”; and

(4) the “400 pounds and more” range would fall well short of covering 75 percent market value payment for livestock in these higher ranges that are close to market weight.

(b) It is the sense of the Senate that the Secretary of Agriculture—

(1) should strive to establish a methodology to calculate more specific payments to offset the cost of loss for each animal as was intended by Congress for calendar years 2008 through 2011; and

(2) should work with groups representing affected livestock producers to come up with this more precise methodology.
