NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2011

The SPEAKER pro tempore. Pursuant to House Resolution 1404 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 5136.

□ 1255

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 5136) to authorize appropriations for fiscal year 2011 for military activities of the Department of Defense, to prescribe military personnel strengths for such fiscal year, and for other purposes, with Mr. PASTOR of Arizona in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Missouri (Mr. SKELTON) and the gentleman from California (Mr. MCKEON) each will control 30 minutes.

The Chair recognizes the gentleman from Missouri.

Mr. SKELTON. Mr. Speaker, I yield myself such time as I may consume.

Today, we as a Congress perform a duty in compliance with the Constitution of the United States. Article I, section 8 states that Congress shall have the power to provide for the common defense and general welfare of the United States. It also provides for and maintaining a Navy and making all rules for the government and regulation of land and naval forces.

So today I rise in support of H.R. 5136, the National Defense Authorization Act for fiscal year 2011. I'm pleased to be joined here today with my friend, my colleague, the ranking member, BUCK MCKEON. BUCK's been a true partner in this effort to bring forward a bipartisan bill that addresses the national security needs of our country.

The committee passed the Defense Authorization Bill by a vote of 59-0.

Our Nation's been at war for nearly a decade. Our troops are worn, and their families are tired, and the Nation recognizes their sacrifices. The bill addresses many of the concerns that they've raised.

I'm proud that this bill is a result of the committee's engagement with the military community and our citizens to determine what issues were important to them as we developed the programs and policies that are included in this bill.

This bill authorizes \$567 billion in budget authority for the Department of Defense and the national security programs of the Department of Energy. The bill also authorizes \$159 billion to support ongoing military operations in Iraq and Afghanistan during fiscal year 2011. These amendments are essentially equal to the President's budget request for items in the jurisdiction of the Armed Services Committee.

H.R. 5136 continues Congress' deep commitment to supporting U.S. servicemembers and their families and to provide the necessary resources to keep America safe. The bill provides our military personnel a 1.9 percent pay raise, which is an increase of a half a percent above the President's request.

The bill also includes a number of initiatives to support military families, including extending health care coverage to adult dependent children up to the age of 26. We also have the single most comprehensive legislative proposal to address sexual assault in the military.

The bill also fully funds the President's budget request for military training, equipment, maintenance and the facilities upkeep, which continues the committee's efforts to address readiness shortfalls that have developed over previous years.

□ 1300

The bill provides an increase of \$12 billion above the fiscal year 2010 budget for operations and maintenance, including \$345 million to fully fund the

first increment of construction necessary to modernize Department of Defense schools. There is 13.6 billion for training of an all active-duty Reserve force to increase readiness; an increase of \$500 million for day-to-day operations of Army bases, which is a direct impact on our soldiers. It also provides an increase of \$700 million above the administration's budget to address the equipment shortfalls on National Guard and Reserve units.

The war in Afghanistan is a critical mission that is essential to our national security. To ensure that our strategies in both Iraq and Afghanistan are effective and achieve the intended goals within well-defined timelines, the bill requires the President to assess U.S. efforts and regularly report on progress, including providing timelines by which he plans to achieve his goals.

It also extends the authorization of the Pakistan Counterinsurgency Fund through fiscal year 2011 to allow commanders to help Pakistan quickly and more effectively go after terrorist safe havens. The bill also provides \$1.6 billion for Coalition Support Funds to reimburse nations that are providing logistical, military, and other support to our troops in Iraq and Afghanistan.

On Iraq, the bill upholds Congress's responsibility to provide oversight to the process of drawing down the mountain of material purchased, transported, and built up in Iraq at tremendous expense to the taxpayer.

In the area of nonproliferation, the bill continues our focus on keeping weapons of mass destruction and related materials out of the hands of terrorists and strengthens our nonproliferation programs and activities. The bill increases funding for the Department of Energy's nonproliferation programs and adds funding to continue the administration's plan to secure and remove all known vulnerable nuclear materials that could be used for weapons.

There are other good things in this bill, which my colleagues will cover.

I want to recognize the members of the Armed Services Committee for their contributions in making this bill one of the best that the committee has put forward in recent years.

I also, Mr. Chair, want to brag about the wonderful staff that we have on the Armed Services Committee. They make it all work well.

Mr. Chair, our committee has been and will continue to be strong proponents of our Nation's security and the people that it defends. We will continue to do what is right and necessary to ensure that our country is safe and secure. We must continue to work with the President to ensure that our citizens are safe and our Nation's security is paramount.

I urge my colleagues to support our troops and their families and vote for the defense authorization bill.

I reserve the balance of my time.

Mr. McKEON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, as legislators, we meet once again to address the wide range of important national security activities undertaken by the Department of Defense and the Department of Energy. We all take our legislative responsibilities very seriously. This is especially true during a time of war. And it's always true of my good friend and colleague, our Armed Services Committee chairman, IKE SKELTON.

As a result of Chairman SKELTON's tireless efforts to put forward this bill, our committee reported out the National Defense Authorization Act for Fiscal Year 2011 last Wednesday. The vote was unanimous, 59-0. Consistent with the longstanding bipartisan practice of the Armed Services Committee, this bill reflects our committee's continued strong support for the brave men and women of the United States Armed Forces.

The defense authorization bill authorizes \$567 billion in budget authority for the fiscal year 2011 base budget of the Department of Defense and national security programs of the Department of Energy, and it authorizes \$139 billion in funding to support operations in Iraq, Afghanistan, and elsewhere in the global war on terrorism.

This bill does an admirable job in dealing with some of our greatest national security challenges. Addressing the wars in Iraq and Afghanistan, H.R. 1536 authorizes the fiscal year 2011 overseas contingency operations. With respect to Afghanistan, this bill updates reporting requirements, including asking for the conditions and criteria that will be used to measure progress, instead of allowing the ticking Washington political clock to determine our end state.

I am very pleased that the chairman and our colleagues on the committee joined us in ensuring that lifesaving combat enablers such as force protection, medical evacuation, and intelligence, surveillance, and reconnaissance capabilities are deployed in time to fully support the 30,000 additional troops scheduled to arrive in Afghanistan by this summer.

Building on the Acquisition Reform Act this body passed in April, this legislation takes a number of important steps on major weapons programs. We strongly believe that a \$110 billion non-competitive, sole source, 25-year contract should not be permitted. Therefore, we strongly support the inclusion of funding to complete development of the F-136 competitive engine for the Joint Strike Fighter.

As a Nation, we owe more than our gratitude to the brave men and women in uniform and their families, past and present, for the sacrifices they make and have made to protect our freedom. We are pleased that this legislation includes a pay raise which is half a percentage point above the President's request.

A major disappointment is that once again the committee and House leadership were unable to find the mandatory

spending offsets needed to eliminate the widow's tax, a tax that occurs because survivors must forfeit most or all of their Survivor Benefit Plan annuity to receive Dependency and Indemnity Compensation. Nor were we able to provide for concurrent receipt of military disability retired pay and VA disability pay, as proposed by the President. I know that Chairman SKELTON has attempted to find the offsets, but so far, despite this House approving trillions in spending that is not offset, this body has been unable or unwilling to find the means to support widows and disabled veterans.

One of the areas where there is disagreement between the aisles is detainee policy. We need to keep terrorists off our soil, not fight to get them here. We are disappointed that the bill does not prohibit the transfer of Guantanamo Bay detainees to U.S. soil.

Finally, for the last 8 years, we have asked our men and women of the Armed Forces and their families to make repeated sacrifices while serving this Nation. They have unhesitatingly and selflessly responded in a magnificent manner, without hesitation putting mission and Nation ahead of self and family. Now the proponents of repealing Don't Ask, Don't Tell want to rush a vote to the floor that disrupts the process that was put in place earlier this year to give the troops the opportunity to make their view known on this most important issue.

After making the continuous sacrifice of fighting two wars over the course of 8 years, the men and women of our military deserve to be heard. Congress acting first is the equivalent to turning to our men and women in uniform and their families and saying your opinion, your views do not count.

Yesterday I spoke to and received letters from all four service chiefs. I will include copies of those letters in the RECORD. Let me read a couple of excerpts, Mr. Chairman.

General Schwartz, the Air Force Chief of Staff, writes, "I believe it is important, a matter of keeping faith with those currently serving in the Armed Forces, that the Secretary of Defense commissioned review be completed before there is any legislation to repeal the Don't Ask, Don't Tell law. Such action sends an important signal to our airmen and families that their opinion matters."

General Casey, the Army Chief of Staff, writes, "I believe that repealing the law before the completion of the review will be seen by the men and women of the Army as a reversal of our commitment to hear their views before moving forward." Similar views are expressed by Admiral Roughead and General Conway.

Mr. Chairman, I planned on addressing this matter in detail when we debate Mr. MURPHY's amendment. Unfortunately, the leadership deemed this debate, this issue so critical to the morale and welfare of our military worthy of only 10 minutes of debate. Ten minutes. The repeal of Don't Ask, Don't

Tell will get as much time for debate today as the manager's amendment. This is an outrage.

I'd like to make one last point. If this body were to adopt Mr. MURPHY's amendment, then this House would breach the trust of 2.5 million men and women in uniform and their families by saying to them that their voices don't count. We owe our military personnel better.

In order to allow this House the time it needs to hear from our military forces through the process that was set up earlier this year, and their families, before we make a decision, I would encourage Members to vote against the Don't Ask, Don't Tell compromise and against final passage if my Democratic colleagues refuse to wait to hear from our troops.

As in years past, I believe that this legislation reflects many of the Armed Services Committee's priorities in supporting our Nation's dedicated and courageous servicemembers. I thank Chairman SKELTON for putting together an excellent bill and helping us to stay focused on delivering a bill that protects, sustains, and builds our forces. I support H.R. 5136 as passed by the House Armed Services Committee.

We never, in the committee, in our markup, we never held a full committee hearing on Don't Ask, Don't Tell. We never included it or discussed it in our debate in the Armed Services Committee.

I look forward to working with my colleagues to improve H.R. 5136.

SECRETARY OF DEFENSE,
Washington, DC, April 30, 2010.

Hon. IKE SKELTON,
Chairman, Committee on Armed Services, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: I am writing in response to your letter of April 28 requesting my views on the advisability of legislative action to repeal the so-called "Don't Ask Don't Tell" statute prior to the completion of the Department of Defense review of this matter.

I believe in the strongest possible terms that the Department must, prior to any legislative action, be allowed the opportunity to conduct a thorough, objective, and systematic assessment of the impact of such a policy change; develop an attentive comprehensive implementation plan, and provide the President and the Congress with the results of this effort in order to ensure that this step is taken in the most informed and effective manner. A critical element of this effort is the need to systematically engage our forces, their families, and the broader military community throughout this process. Our military must be afforded the opportunity to inform us of their concerns, insights, and suggestions if we are to carry out this change successfully.

Therefore, I strongly oppose any legislation that seeks to change this policy prior to the completion of this vital assessment process. Further, I hope Congress will not do so, as it would send a very damaging message to our men and women in uniform that in essence their views, concerns, and perspectives do not matter on an issue with such a direct impact and consequence for them and their families.

Adm. MICHAEL G. MULLEN,
Chairman of the Joint Chiefs of Staff.

ROBERT M. GATES,
Secretary of Defense.

U.S. ARMY,
May 26, 2010.

Hon. JOHN MCCAIN,
Ranking Member, Committee on Armed Services,
U.S. Senate, Washington, DC.

DEAR SENATOR MCCAIN: My views on the repeal of section 654 of Title 10, United States Code, have not changed since my testimony. I continue to support the review and timeline offered by Secretary Gates.

I remain convinced that it is critically important to get a better understanding of where our Soldiers and Families are on this issue, and what the impacts on readiness and unit cohesion might be, so that I can provide informed military advice to the President and the Congress.

I also believe that repealing the law before the completion of the review will be seen by the men and women of the Army as a reversal of our commitment to hear their views before moving forward.

Sincerely,

GEORGE W. CASEY, JR.,
General, United States Army.

DEPARTMENT OF THE AIR FORCE,
OFFICE OF THE CHIEF OF STAFF,
Washington, DC, May 26, 2010.

Hon. BUCK P. MCKEON,
House of Representatives,
Washington, DC.

DEAR REPRESENTATIVE MCKEON: The President has clearly articulated his intent for the "Don't Ask, Don't Tell" (DA/DT) law to be repealed, and should this law change, the Air Force will implement statute and policy faithfully. However, as I testified to you and the HASC at the AF Posture hearing on 23 February 2010, my position remains that DOD should conduct a review that carefully investigates and evaluates the facts and circumstances, the potential implications, the possible complications, and potential mitigations to repealing this law.

I believe it is important, a matter of keeping faith with those currently serving in the Armed Forces, that the Secretary of Defense commissioned review be completed before there is any legislation to repeal the DA/DT law. Such action allows me to provide the best military advice to the President, and sends an important signal to our Airmen and their families that their opinion matters. To do otherwise, in my view, would be presumptive and would reflect an intent to act before all relevant factors are assessed, digested and understood.

Sincerely,

NORTON A. SCHWARTZ,
General, USAF,
Chief of Staff.

MAY 25, 2010.

Hon. JOHN MCCAIN,
Ranking Member, Committee on Armed Services,
U.S. Senate, Washington, DC.

DEAR SENATOR MCCAIN: During testimony, I spoke of the confidence I had as a Service Chief in the DoD Working Group that Secretary Gates laid out in the wake of President Obama's guidance on "Don't Ask—Don't Tell." I felt that an organized and systematic approach on such an important issue was precisely the way to develop "best military advice" for the Service Chiefs to offer the President.

Further, the value of surveying the thoughts of Marines and their families is that it signals to my Marines that their opinions matter.

I encourage the Congress to let the process the Secretary of Defense created to run its course. Collectively, we must make logical and pragmatic decisions about the long-term

policies of our Armed Forces—which so effectively defend this great Nation.

Very Respectfully,

James T. Conway,
General, U.S. Marine Corps,
Commandant of the Marine Corps.

MAY 26, 2010.

Hon. HOWARD P. "BUCK" MCKEON,
House of Representatives,
Washington, DC.

DEAR MR. MCKEON: As a follow-up to our phone call today, the following represents my personal views about the proposed amendment concerning section 654 of title 10, United States Code.

I testified in February about the importance of the comprehensive review that began in March and is now well underway within the Department of Defense. We need this review to fully assess our force and carefully examine potential impacts of a change in the law. I have spoken with Sailors and fellow flag officers alike about the importance of conducting the review in a thoughtful and deliberate manner. Our Sailors and their families need to clearly understand that their voices will be heard as part of the review process, and I need their input to develop and provide my best military advice.

I share the view of Secretary Gates that the best approach would be to complete the DOD review before there is any legislation to change the law. My concern is that legislative changes at this point, regardless of the precise language used, may cause confusion on the status of the law in the Fleet and disrupt the review process itself by leading Sailors to question whether their input matters. Obtaining the views and opinions of the force and assessing them in light of the issues involved will be complicated by a shifting legislative backdrop and its associated debate.

Sincerely,

G. ROUGHEAD,
Admiral, U.S. Navy.

I reserve the balance of my time.

Mr. SKELTON. Mr. Chairman, I yield 3 minutes to my friend, my colleague, the distinguished chairman of the Subcommittee on Air and Land Forces, the gentleman from Washington (Mr. SMITH).

(Mr. SMITH of Washington asked and was given permission to revise and extend his remarks.)

Mr. SMITH of Washington. Mr. Chairman, I rise in strong support of the National Defense Authorization Act for 2011.

I want to first thank the chairman of the committee, Mr. SKELTON, for his outstanding leadership of this committee. He has once again put together a bill that reflects the priorities that should be in place for national defense: first and foremost, support our troops. I know nobody on that committee cares more about that issue than Mr. SKELTON. He has once again made sure that this bill reflects that. It gives them a higher pay raise than was recommended by the Department of Defense and, across the board, makes sure that our troops and our families get the support they need to continue to do the amazing job that they are doing of defending this country. It is a great privilege to serve on this committee with Mr. SKELTON and with Mr. MCKEON and to have the responsibility for supporting our troops who have

served us so well. I thank him for his great leadership and for this bill.

On the Air and Land Subcommittee, I want to thank Mr. BARTLETT, the ranking member on the committee. We have truly worked together in a very bipartisan fashion on this bill. That's one of the great things about being on the Armed Services Committee. We have a lot that we disagree on on a partisan basis in this body, but on the Armed Services Committee we work in a bipartisan way to make sure that we have a defense bill that protects our national security and supports our troops. And Mr. BARTLETT certainly upholds that standard, and it's been a great pleasure working with him.

On our subcommittee, our top priority is to support our soldiers and airmen in the fight they are now fighting in Iraq and Afghanistan. We want to make sure that they have the equipment they need to fulfill the mission that we have asked them to do. Towards that end, we have \$3.9 billion in the bill to upgrade and improve our helicopters, which are so critical to the mission that they are fighting; \$3.4 billion to fully fund the MRAP, the Mine Resistant Ambush Protected vehicles that have done such an amazing job at improving the survivability of our troops when hit by IEDs; \$3.4 billion for the JIEDDO account, which continues to find more and better ways to protect our troops from improvised explosive devices; \$3.7 billion to fund intelligence, surveillance, and reconnaissance, which is critical to make sure that our troops get the information they need when they need it to be in the best position to protect themselves on the battlefield; a billion dollars for new Strykers, a vehicle that has been critical for our combat infantry brigades and their ability to be maneuverable enough to survive in the fight.

We are making sure in this bill that our troops in the field get the equipment they need to fulfill the mission we have asked them to do. We also set aside an additional \$700 million in this bill for the Army and Air Force Guard and Reserve equipment accounts. As we all know, Guard and Reserve members have been asked to do far more than they ever have in the history of this country. They are stressed and strained, and their equipment is being used at a far greater pace than anyone anticipated. We want to make sure that they have the funds available to replenish that equipment and make sure that they get the training they need so that they are able to do the job here in the U.S. we ask them to do, and also the job that we ask them to do in Afghanistan and Iraq.

□ 1315

We are also concerned in this bill and continue to be concerned about our procurement and acquisition process. We passed acquisition reform again under Chairman SKELTON's great leadership, but we have a fair number of programs, certainly the Joint Strike

Fighter, future combat systems that have not delivered on time and on budget. We have to make sure that we get every penny that we spend, and it is spent efficiently and effectively. We need to continue to work to make sure the programs that we procure meet that standard.

That is why I, too, along with Mr. MCKEON, am strongly supportive of the second engine program. And it has been our committee's position for a long time to support that program. We believe that it is an efficient use of taxpayer dollars.

So I thank you, Mr. Chairman, again for your great leadership. I believe this bill gives us a very strong national security.

Mr. MCKEON. Mr. Chairman, I yield 2 minutes to the gentleman from Maryland (Mr. BARTLETT). He's the ranking member on the Air and Land Subcommittee of the committee.

Mr. BARTLETT. I would like to thank our Armed Forces Committee Chairman SKELTON, Ranking Member MCKEON, Committee chair SMITH, and all of our colleagues for their contributions to this Defense Authorization Bill.

This bill was voted out of committee by unanimous vote because it maintains our objectives of balancing the health and capability of the current force with the needs of future capability. And I also want to thank, really thank the staff for their professionalism, dedication, and extraordinary hard work this year.

As an engineer with 20 patents, 20 years of experience with military R&D programs, and 17 years in the Armed Services Committee, I can assure you that the Defense Department's own data provides the proof that Congress must continue to approve the alternative engine for the Joint Strike Fighter which will ultimately lead 95 percent of all of fighting aircraft. The competition is crucial for our national security and that of our allies because the original engine awarded under a noncompetitive contract is 21 months behind schedule, and according to GAO is estimated to be \$2 billion over budget. That's a 52 percent increase and one of the main reasons with redundancy the committee overwhelmingly supports continued funding of the competitive engine.

The Department asked Congress to permit the issue of a sole-source contract for over \$100 billion for thousands of engines over the life of this program. I owe it to the American people and warfighters to object to something this irresponsible.

And, Mr. Chairman, I urge support of H.R. 5136 as approved unanimously by the Armed Service Committee, but a vote for the Don't Ask, Don't Tell amendment abdicates our Constitutional authority over military policy and gives this authority to the President and unelected executive branch leaders. Congress has yielded far too much of its Constitutional authority to

the executive and judiciary. Therefore, if this amendment passes, I cannot support this bill.

Mr. SKELTON. Mr. Chairman, I yield 3 minutes to my colleague, my friend from Texas (Mr. ORTIZ), the distinguished chairman of the Subcommittee on Readiness.

Mr. ORTIZ. Thank you, Mr. Chairman. First, let me thank you for your leadership that you bring to the committee and being able to get the committee to work together. Mr. MCKEON as well.

I rise in support of H.R. 5136, the National Defense Authorization Act for fiscal year 2011. The bill before us today continues efforts begun last year to address readiness shortfalls.

It supports the President's request for increased training funding for all of the active duty forces and provides funding to continue reset of equipment damaged or worn out through 9 years of continuous combat operations. The bill authorizes \$20 billion for military construction and \$168 billion for operation and maintenance, a \$12 billion increase in O&M. This funding is needed over the amount authorized last year in the defense budget.

To reduce budgetary risk to readiness in areas where the services identified shortfalls, the bill includes additional funding for Navy ship depot maintenance; Army Reserve depot maintenance; contract and performance management; Army base operating services and trainee barracks construction; Guard and Reserve construction; energy conservation and renewable energy projects; and day-to-day facilities maintenance and repair.

Our combatant commanders should not have to wait years to have the right infrastructure to support wartime operations. This bill provides the tools that the Department needs to ensure that General Petraeus has the right facilities at the right location at the right time.

The bill also supports the Readiness and Environmental Protection Initiative, which ensures the long-term viability of military testing and training ranges by protecting them from encroachment.

The bill provides provisions related to benefits for DOD civilians who are deployed to combat zones. These provisions are very important because Federal civilian employees are increasingly providing important support in contingency operations.

The bill supports the President's request for a much-needed reinvestment in Army training and readiness. Increases in funding for all Army components, along with a drawdown from Iraq, should begin to put the Army on a path to restoring its readiness posture.

The bill sustains the Navy's course correction of flying-hour funding to meet operational requirements. To ensure the sea services can attain fleet air training goals, the bill includes \$185 million in additional funding for naval

training and aircraft depot maintenance.

The bill contains additional funding for Air Force accounts critical to supporting emergent missions and taking care of an aging aircraft fleet.

Mr. Chairman, this is a good bill, and I ask my colleagues to support it.

Mr. MCKEON. Mr. Chairman, I yield 2 minutes to the gentleman from Missouri (Mr. AKIN), the ranking member of the Seapower Subcommittee.

Mr. AKIN. Mr. Chairman, I rise in support of H.R. 5136—that's the National Defense Authorization Act—which we have before us at this time, and it was approved unanimously by Republicans and Democrats on the House Armed Services Committee. And we believe overall a proper balance has been struck on this bill.

I was personally concerned about some problems with our missile defense system, but I made several amendments looking to get a little more information from the administration on these programs. Those were adopted.

In addition, we were concerned about the department's assessment even in the most rosy scenario that we are short on strike fighters. And I was pleased that we are able to add some additional F-18s to the budget to at least, in a small way, mitigate that particular problem.

I would be remiss, though, if I were to stand here and say that everything is well. As much as I support this bill, it is possible to mess up any good thing. And the idea of repealing Don't Ask, Don't Tell at the last minute with an amendment that doesn't even come out of our committee, that has, at the most, 10 minutes to debate and has more far-reaching implications for defense than almost any single item in this bill is the height of folly.

Approaching Memorial Day weekend, for us to try to slide this little fellow in, this little political gimme to some vocal but very small interest group over the interests of our sons and daughters who serve in the service, in spite of the objections of the military leadership, starting with the Secretary of Defense coming down the chain of commanders saying, Give us time to figure out, what does it mean to repeal Don't Ask, Don't Tell.

The current policy says that if you're gay and you want to serve in the military, that's fine, but don't let it get in the way of the mission. If we take that out, what does it mean? We need time, and we don't need some fast little political fix to mess up an otherwise good bill.

Mr. SKELTON. Mr. Chairman, I yield 3 minutes to my friend and colleague, the gentleman from Mississippi (Mr. TAYLOR), who's the chairman of the Subcommittee on Seapower and Expeditionary Forces.

Mr. TAYLOR. Mr. Chairman, I rise in support of the bill as it passed committee, and in particular of the Sea Power and Expeditionary Forces section of the bill.

Under the leadership of Chairman IKE SKELTON, the fleet has grown by seven ships since he became chairman to a total of 286. I guess it's in the direction, however slowly, of the 313 ships that CNO wishes to have. It also takes some far-reaching steps, one of which is directing the CNO that in the future, that in order to go to the fleet, he may only retire two ships for every three ships we commission. I think this is very important language. This is the third CNO who has said he wanted 313 ships, but ironically, they keep submitting budgets to Congress that actually shrink their fleet rather than grow it.

So I want to thank Chairman SKELTON for working with us on that, my colleagues, on directive language that actually keeps some of those great vessels that would go to someone else's fleet in our fleet a bit longer.

Specifically the bill takes many steps to continue the work of the world's greatest Navy and the world's greatest Marine Corps. It authorizes the construction of nine battle-force vessels and one auxiliary oceanographic research vessel, along with 214 aircraft for the Navy and Marine Corps. It authorizes \$5.1 billion to construct two Virginia-class submarines—the first time Congress has ever authorized two Virginia-class submarines; \$950 million for the first increment of funding of the Marine Corp's amphibious assault vessel LHA-7; \$3 billion to fully fund two DDG 51 Arleigh Burke-class destroyers to work off of the Navy's surface fleet and the centerpiece of our Nation's missile defense; \$1.5 billion to fully fund two littoral combat ships; \$180.7 million to fund one Joint High Speed Vessel for the Navy; \$380 million to fully fund the remaining construction costs for the first of the class maritime landing platform vessel for the Marine Corps; \$3.3 billion for 30 F-18 Superhornet strike fighters, as well as 12 EA-18 Growler expeditionary electronic-warfare aircraft.

That will make a total of 186 of these fine aircraft built on Chairman SKELTON's watch. \$4.1 billion for 20 Navy and Marine Corps F-35 Joint Strike Fighter aircraft; \$4.6 billion for 180 Marine Corps rotary-winged aircraft; \$359 million for the Maritime Administration of the Department of Transportation, including \$100 million for the Merchant Marine Academy.

The bill strongly supports funding for our Overseas Contingency Operations, authorizing \$3.4 billion to build the life saving Mine Resistant Vehicles. This is on top of the \$16.4 billion under Chairman SKELTON's watch that was allocated in 2007 for a total of 16,000 of these vehicles that have been built as we continue to build 1,000 of them a month to protect our soldiers in Iraq and Afghanistan.

For Marine Corps programs, this bill fully authorizes the \$3.1 billion for a request for Marine Corps procurement, with an additional \$126 million for unfunded requirements that will protect our Marines.

Mr. Chairman, I fully support the bill as recommended by the committee.

The CHAIR. The time of the gentleman has expired.

Mr. SKELTON. I yield the gentleman an additional 30 seconds.

Mr. TAYLOR. I also want to thank my colleague Mr. AKIN for all of his help on this and all of the Seapower Subcommittee, and in particular I want to commend our great staff: Ms. Jenness Simler, Captain Will Ebbs, Heath Bope, Jesse Tolleson, and Liz Drummond.

ACTIONS SPEAK LOUDER THAN WORDS

Since 2007, the House Armed Services Committee under Chairman Ike Skelton has continued to grow our nation's air, land and sea forces to address the threats facing the United States from both foreign nations and terrorist organizations. Chairman Skelton's predecessor, Duncan Hunter, deserves credit for leading House Armed Service Committee member's efforts to provide up-armored Humvees, Improvised Explosive Device (IEDs) Jammers, and other initiatives to counter the IED threat in Iraq and Afghanistan. However, the game changing improvement in the IED effort was the rapid development and fielding of the Mine Resistant Ambush Protected Vehicle (MRAP) that occurred under the leadership of Chairman Ike Skelton. The actions of the Democratic majority speak much louder than words when it comes to our national defense.

The Mississippi National Guard's 155th Heavy Brigade Combat Team returned home to Mississippi in March 2010 after completing their second tour of duty in Iraq. During their deployment they encountered more than 80 attacks from IEDs without suffering any fatalities or serious injuries compared to their 2005 deployment where they suffered 28 fatalities from IED attacks. During their most recent deployment, their unit was equipped with MRAPs. Prior to 2007, the demand for MRAP's was ignored for four straight years by Secretary of Defense, Donald Rumsfeld. The Republican majority in Congress did not prod Secretary Rumsfeld to build these vehicles at the rate our forward deployed commanders were requesting.

In 2004 military officials in Iraq began requesting MRAPs from the Pentagon to counter the enemy's most successful means of attack—the IED. At the time, 60% of U.S. fatalities in Iraq were the direct result of IED attacks. Secretary Rumsfeld and top leaders at the Pentagon originally ignored these requests from the forward deployed commanders to make fielding MRAPs a priority. By the end of 2006 the Department of Defense's (DoD) established requirement for MRAPs for the Iraq war effort was an absurdly low amount—4000 vehicles.

Before MRAPs were available in Iraq or Afghanistan, military patrols were conducted in up-armored Humvees. The enemy quickly discovered this vehicles vulnerability to under-bottom explosions. Since Secretary Rumsfeld had refused to provide MRAPs despite the requests coming from the theater of combat, the result of continuing to use up-armored Humvees was unnecessary American injuries and deaths. The MRAP is designed with a "V" shaped bottom that provides an effective defense against bottom exploding IEDs by forcing the impact of the explosion away from the bottom of the vehicle, unlike the Humvees.

When I became Chairman of the Seapower and Expeditionary Forces Subcommittee in January 2007, under the new Democratic majority, the very first hearing I chaired focused on the need to rapidly get MRAPs to

our troops in Iraq. I worked with Chairman Skelton and my colleagues on the Armed Services Committee to provide an additional \$16.4 billion in 2007 for procurement, building and transporting 15,374 MRAPs to Iraq. This effort continues today, and we currently have approximately 16,000 MRAPs in Iraq and Afghanistan. We also continue to work with DOD on providing vehicles that provide the same type of protection as the MRAP but are more suitable for the hazardous terrain and conditions in Afghanistan. There are approximately 2300 of these vehicles in operational units in Afghanistan, with 6,800 working their way through the pipeline to get to the theater of combat. We continue to produce about 1000 of these life saving vehicles a month.

For years the House Armed Services Committee has voiced concerns over the concurrent and high-risk development of the F-35 Joint Strike Fighter, which in turn, has caused a several years delay in its operational fielding. Because of this issue, coupled with the planned F/A-18 production line drawdown, our Naval Air Forces face a significant strike-fighter shortfall peaking at over 250 aircraft in 2017. Realizing this significant issue over the last two years, the committee has added 17 F/A-18s to the Department's request to help mitigate the shortfall. The Committee, under Chairman Skelton's leadership, also included candid language within the FY11 NDAA report stating that "barring a complete reversal" of the F-35 program failures, the Committee expects the Navy to "continue production of F/A-18s to prevent our naval airpower from losing significance in our nation's arsenal."

I have made the commitment to my colleagues on the Committee and to Chairman Skelton to get our shipbuilding back on track. The United States Navy's goal is to maintain a 313 ship fleet capable of transporting troops around the world, providing support for military operations, along with a global U.S. presence. The Navy's fleet is currently at 286 ships. Starting in 2003, the wars in Iraq and Afghanistan, shifted our defense needs primarily to the Army, the National Guard and our Reserves. During this time, the Navy's shipbuilding program went stagnant, lacked direction, and had no plan in place to reach the Navy's stated goal of a 313 ship fleet.

This all changed starting in 2007. The Armed Services Committee began addressing the Navy's acquisition reform process, the cost overruns as a result of Secretary Rumsfeld's outsourcing of shipbuilding to contractors and lead system integrators. We have provided the Navy real goals to meet each year in order to build the Navy back to a 313 ship fleet.

This reformation includes a proposed authorization of 10 ships in this year's National Defense Authorization Act. We have worked to bring the Littoral Combat Ship (LCS) back under control. These ships had been previously authorized, but the program spun wildly out of control. It got to the point where the contractors wanted \$600 million for a ship they originally said could be built for \$220 million in fiscal year 2005. This cost increase prevented the Navy from building the amount of LCS' originally approved by Congress which seriously affected the Navy's ability of reaching its goal of a 313 ship fleet.

Chairman Skelton and the Democratic majority also prevented another costly over run from occurring by capping the DDG 1000 program at three ships at approximately \$3 billion per ship. This program was running billions of dollars over budget. By capping this program at three ships, we allowed the Navy to shift funds into a much more successful shipbuilding program—the DDG 51 program. This maximizes the Navy's budget by pro-

viding them with a ship that has a proven track record for success and providing the funds to a proven shipbuilding program that has already produced 58 ships for the United States Navy.

The Navy has also received authorization for 15 ships not including the additional 10 ships in the proposed FY 2011 NDAA, to be built from fiscal years 2009 through 2011. Since 2007, the Navy's fleet has grown by 7 ships to 286 ships. Prior to this, the Navy's fleet was the smallest it has been since the 19th century at 279 ships. The progress made by the Navy's shipbuilding program is the direct result of a clear and consistent plan and new leadership at the Department of the Navy. It is by no means a coincidence that the fleet has grown and continues to grow under Chairman Skelton's leadership during this Democratically controlled Congress.

While men and women in the United States military continue to be put in harms way in Iraq and Afghanistan we must continue providing them the real support necessary to allow them to successfully carry out their mission. It is clear that the House Armed Services Committee under Chairman Skelton, has provided much more than mere words or rhetoric and has acted loudly to ensure that the Department of Defense and our men and women fighting overseas constantly have what they need to succeed in protecting and defending the United States of America.

GENE TAYLOR,

Member of Congress.

Mr. MCKEON. Mr. Chairman, I yield 2 minutes to the gentleman from Virginia (Mr. FORBES), the ranking member on the Readiness Subcommittee.

Mr. FORBES. Thank you, Mr. Chairman, for the opportunity to stand in strong support of this bill as recommended. I would also like to express my sincere appreciation for Chairman SKELTON, Ranking Member MCKEON, and the chairman of our Readiness Subcommittee and my good friend from Texas, Mr. ORTIZ.

Creating legislation of this magnitude and of critical importance to the defense of this Nation is no easy task, and I appreciate their leadership and their hard work in crafting a solid bipartisan bill.

Mr. Chairman, our Founding Fathers knew that our freedoms were so precious that they were worth protecting and worth defending. They also knew, as we know today, that one of the realities of having these freedoms is that there will always be individuals who want to rob them from us. Throughout the course of our Nation's history, we have seen this to be true. Today is no different. Recent attempts in Times Square, New York City, and on passenger airlines on Christmas Day are stark reminders that there are terrorist organizations that are actively trying to kill American citizens.

Mr. Chairman, we need to keep terrorists off U.S. soil, not provide means for any administration to bring them here. And while the committee did not support an amendment that would have prevented the transfer of any Guantanamo Bay detainee to U.S. soil, I do want to take a moment to highlight one provision that I am very glad is included in the mark. This provision requires an inventory and analysis of the modeling and simulation tools used

by the Department of Defense during the development of the annual budget. This is a terrific first step in making sure the department has the right tools to ensure that the readiness needs of commanders will be reflected in the budget. By starting with funding priorities in support of commanders out in the field, we will make sure we are providing what is required to defend America.

Mr. Chairman, I thank you, and I thank all of the Members of this committee for their hard work in preparing this bill. I strongly encourage my colleagues to support H.R. 5136—provided it's not destroyed with the adoption of political amendments that could negatively impact the readiness of our troops, such as the removal of the Don't Ask, Don't Tell policy before the military has concluded its impact on our readiness.

Mr. SKELTON. Mr. Chairman, I yield 2½ minutes to my friend, my colleague, a former marine, and the distinguished chairman of the Subcommittee on Oversight and Investigations, the gentleman from Arkansas, Dr. SNYDER.

Mr. SNYDER. When the history of U.S. national security is written, Secretary Gates' speech given at the end of 2007 at Kansas State will be remembered. Yet as a new administration pursued these policies with Secretary Gates kept on as Secretary of Defense, criticisms were heard, criticisms with which I disagree.

An America confident in more than just its military strength is a strong America. To remember our moral strength, not just our military strength, is to build a strong America. To build a strengthened diplomatic corps builds a strong America. Selling our products internationally and not fearing competition builds a strong America. Using our power to help other nations develop their economy, public health systems, rule of law builds our national security.

Listening to nations like Bangladesh regarding what climate change means to them strengthens us. Listening to the voices that want America to be a beacon of human rights strengthens us. Yesterday's view that only military strength makes us strong is indeed yesterday's view.

As we consider this very good defense bill, I applaud the administration's incredibly successful efforts at killing and capturing terrorists, but let us not forget our responsibilities to all aspects of national power and strength.

Mr. MCKEON. Mr. Chairman, I yield 2 minutes to the gentleman from Florida (Mr. MILLER), the ranking member of the Terrorism Subcommittee.

Mr. MILLER of Florida. I thank the gentleman for yielding.

I too rise in support of the defense authorization act for 2011 as it was passed out of the full committee. I do think we have taken some important steps on protecting those who work

every day to protect the people and protect those of us in the United States.

The language that we had inserted into this bill, one of the things that it does is require the Department of Defense Inspector General to investigate the alleged misconduct and practices of certain lawyers for terrorist detainees at Guantanamo Bay.

Unanimously, the committee approved this amendment, whereby we have said that these lawyers may very well have engaged in illegal actions by seeking to “out” covert agents to the very terrorists that these particular agents took off the battlefield.

If this indeed is true, I can’t think of a more offensive, unpatriotic and terrible act to be committed by the Americans that did this against fellow Americans.

I also do stand with the ranking member in opposition to the repeal of Don’t Ask, Don’t Tell. I agree, we also need to allow the Department of Defense to complete its study before we jump the gun to a rash, premature decision, one that diverts our military’s attention from its true priorities. Those priorities are succeeding in Iraq and Afghanistan, and also in keeping terrorists from harming Americans and its citizens.

Unfortunately, if the Murphy amendment does pass and we do repeal Don’t Ask, Don’t Tell, I will have to vote against H.R. 5136. But I trust this body will reject the Murphy amendment and allow our forces to remain focused on the task at hand—defending America.

Mr. SKELTON. Mr. Chairman, I yield 2½ minutes to my friend, the chair of the Subcommittee on Terrorism, Unconventional Threats and Capabilities, the gentlewoman from California (Ms. LORETTA SANCHEZ).

Ms. LORETTA SANCHEZ of California. I thank the chairman for yielding.

Mr. Chairman, I rise today as a 14-year member of the House Armed Services Committee and the chairwoman of the Subcommittee on Terrorism, Unconventional Threats and Capabilities to address probably what I believe is one of the most important assets that we have for the Department of Defense, the role of our small businesses in America.

My subcommittee, along with the full committee, has worked hard to develop ways to expand opportunities for small businesses to get defense procurements. For example, we wanted to repeal the Small Business Competitive Demonstration Program. This would reinstitute the use of small business set-asides for Federal procurements in certain industry groups, assuring that these small businesses are awarded a fair proportion of Department of Defense contracts.

The repeal of this program would not only have saved DOD money and personnel but would have improved small business prime and subcontracting opportunities.

Secondly, the Armed Services Committee was hoping to extend the Small Business Innovation Research program by 1 year and to apply funding toward technical assistance for that program in order to strengthen the ability of small businesses to meet the demands of DOD requirements.

It would have made perfect sense to move an extension within this bill because over 50 percent of that program is with the Department of Defense.

Also, there is a program called the Mentor-Protege Program. It pairs up major DOD contractors with small businesses, and it helps to develop a relationship with these small contractors to help them.

As you can see, these are good provisions for small businesses. Unfortunately, none of these amendments were approved by the Rules Committee because of the objections raised by the House Small Business Committee on grounds of jurisdiction. I think everyone in this Chamber will agree that small businesses are the backbone of many of our districts and I know that this is true in the 47th Congressional District of California.

I hope that in the very near future, the Committee on Small Business will work with the Armed Services Committee to rapidly provide these resources to our small businesses.

I rise today as a 14-year Member of the House Armed Services Committee and the Chairwoman of the Subcommittee on Terrorism and Unconventional Threats to address probably what I consider one of the most important assets to the Department of Defense—the role of small businesses.

My subcommittee along with the full committee has worked hard to develop ways to expand opportunities for small businesses in defense procurement.

Let me provide this chamber with a couple of amendments that would have ultimately not only strengthened this bill and the Department but would have also provided our country’s small businesses with the resources in order to thrive in the competitive world of DoD contracting.

For example, we wanted to repeal the Small Business Competitive Demonstration Program. This would reinstitute the use of small business set-asides for Federal procurements in certain industry groups, assuring that these small businesses are awarded a fair proportion of DoD contracts.

The repeal of this program would not only have saved DoD money—but also personnel—while improving small business prime and subcontracting opportunities.

Second, the Armed Services Committee was hoping to extend the Small Business Innovation Research program by 1 year and apply funding toward technical assistance for the program in order to strengthen the ability of small businesses to meet the demands of DoD requirements.

Currently, 11 Federal agencies are involved in the SBIR Program where

DoD takes up 50 percent of the entire SBIR Program.

It would have made perfect sense to move such an extension within the NDAA, because DoD has over 50 percent of the program.

Through this year’s bill the Committee was also working towards extending the DoD Mentor-Protégé program by 5 years.

The Mentor-Protégé program is a program that started with DoD in 1991.

This program pairs up major DoD contractors with small businesses and helps develop a relationship where major contractors can provide developmental assistance to small businesses and guide them to a point where they can sustain themselves.

As you can see, all these provisions would have significantly expanded and strengthened small business growth.

One of my subcommittee’s major responsibilities is to provide and expand resources for small businesses who want to do business with DoD.

Unfortunately, none of these amendments were approved by the Rules Committee because of objections raised by the House Small Business Committee on grounds of jurisdiction.

The FY2011 National Defense Authorization Act is a good piece of legislation that addresses several of the Defense Department’s most important challenges, including:

The fight to interrupt the flow of violent extremists and the ideological underpinnings of radicalization;

The development and deployment of innovative and critical technologies;

Defending our homeland from attacks and managing the consequences of catastrophic incidents including natural disasters;

Enhancing strategies and capabilities to counter irregular warfare challenges;

And enhancing force protection policies governing Department of Defense personnel.

And I believe none of these challenges can be met without the innovation and technology of our small businesses.

I think everyone in this chamber will agree that small businesses are the backbone of many of our districts; I know it is for the 47th District of California.

I hope in the very near future the Committee on Small Businesses will work with the Armed Services Committee to rapidly provide these resources to our small businesses.

Mr. MCKEON. Mr. Chairman, I yield 2 minutes to the gentleman from South Carolina (Mr. WILSON), the ranking member on the Military Personnel Subcommittee.

Mr. WILSON of South Carolina. I thank the gentleman from California for yielding.

As the ranking member of the Military Personnel Subcommittee, there are a few issues I would like to highlight with regard to this year’s National Defense Authorization Act.

I am pleased the act adopted the Military Personnel Subcommittee mark in full and adopted some important amendments. Of note in the mark was a 1.9 percent basic pay raise for the military, as proposed in my bill, H.R. 4427.

Concerning amendments, first is my amendment to ensure that the Secretary of Defense retains sole authority over TRICARE, the Department of Defense's health care system. This ensures that the health care system of our servicemen and women and families will not be overwhelmed in the health care takeover.

I do have concerns about a few other issues that are not in the NDAA. First is the proposal that we would have allowed military personnel retired with disabilities to receive both their full military disability retirement pay and VA disability pay. The concurrent receipt issue has been addressed numerous times by the committee led by Congressman JEFF MILLER of Florida, and while we have been making inroads, there are still many veterans who need our help.

Additionally, it was not allowed to eliminate the widow's tax that results because surviving spouses are required to forfeit their survivor benefit pension annuity. This is a real burden to widows and children of servicemembers.

I am also concerned about the retroactive retirement credit for Guard and Reserve soldiers who served after 9/11. These soldiers have answered the call to duty and deserve no less for their honorable service than their active duty counterparts.

As we bring this act to the floor, it is important to keep the servicemember in the forefront of our mind. It is crucial to consider the repeal of the military's Don't Ask, Don't Tell policy. The service chiefs, as represented by the fighting men and women of our country, have again and again urged us not to change the law until they have sufficient time to conduct their study.

We are a Nation at war, and, as such, we should follow the wishes of our war fighters.

Mr. SKELTON. Mr. Chairman, I yield 2½ minutes to my friend, the distinguished chair of the Subcommittee on Military Personnel, the gentlewoman from California (Mrs. DAVIS).

Mrs. DAVIS of California. Mr. Chairman, I am pleased to summarize the Military Personnel Subcommittee portion of H.R. 5136, and I want to thank Mr. WILSON and Chairman SKELTON for their contributions and certainly to our hardworking staff.

This bill continues to improve the quality of life for our servicemembers, their families, and military survivors who carry such a heavy burden for our country. Some of the highlights include continued support for increased end strengths for the active Army and Navy, a 1.9 percent pay raise, increases to hostile fire pay and family separation allowance, new initiatives to complement our Year of the Military Fam-

ily, the authority for TRICARE beneficiaries to extend health care coverage to dependents up to age 26, adoption of the full range of recommendations by the Defense Task Force on Sexual Assault in the Military Services, and authorization of millions of dollars for Impact Aid.

While we couldn't accommodate all the requests that were brought before the subcommittee, we were able to include many to address the needs of our military. But, Mr. Chairman, there is still a policy, a policy in place which no longer reflects the needs of our military.

We can correct that today through the Murphy amendment to repeal Don't Ask, Don't Tell. The intent of this amendment is not to freeze the DOD implementation review process or discount the findings of the DOD's comprehensive working group on this subject. We support their work and know how important their findings will be to the successful repeal of Don't Ask, Don't Tell.

A fundamental piece of this will be the opinions of our servicemembers. Congress sincerely values their point of view, and we know DOD will work hard to address their concerns. But DOD's review and the congressional action are not mutually exclusive.

We have heard that repealing Don't Ask, Don't Tell will weaken unit cohesion and, by extension, national security. But this policy is forcing those in uniform to lie to their colleagues that weakens unit cohesion. And it is firing personnel during two wars just because they are gay that weakens national security.

As chairwoman of the Military Personnel Subcommittee, I know that our military draws its strength from the integrity of our unified force. Current law challenges this integrity by creating two realities within the ranks. I urge my colleagues to look at this closely. I hope my colleagues will stand on the right side of history and end Don't Ask, Don't Tell.

Mr. MCKEON. Mr. Chairman, I yield 2 minutes to the gentleman from Ohio (Mr. TURNER), the ranking member on the Strategic Forces Subcommittee.

Mr. TURNER. I want to thank Ranking Member MCKEON and also our chair, Mr. SKELTON, and the chair, Mr. LANGEVIN, of our Subcommittee on Strategic Forces.

I support the committee-passed version of H.R. 5136, and particularly by the way that it strengthens our Nation's strategic forces. It endorses an increase in funding for the modernization of our Nation's nuclear deterrence capabilities, although this funding must be sustained in the outyears.

It includes a \$362 million increase in funding for missile defense, which I strongly support, and holds the administration accountable for deploying missile defenses in Europe to protect the United States and our NATO allies. It establishes a sense of Congress that there would be no limitations on U.S.

missile defenses in Europe in the new START treaty, despite Russian statements to the contrary.

There is an area, however, in which I am concerned in that the bill does not go far enough to provide a sufficient hedge to protect the United States from missile attack. The Phased Adaptive Approach for missile defense in Europe is not planned to cover the U.S. homeland until 2020, yet the ICBM threat from Iran to the U.S. could materialize as early as 2015, according to the latest intelligence assessments. Regrettably, an amendment I offered in full committee to address this gap was rejected.

Another area which I support, I want to thank our chairman, Mr. SKELTON, for his support of the custody rights of our military parents. This bill includes protection for the fundamental custody rights of those military parents. Once again it highlights the need for a baseline of child custody protections for our men and women in uniform, and it also includes language that criticizes an unofficial DOD report as an incomplete product that does not ascertain the full scope of this problem.

Equally important in this bill is it strengthens the safety and family rights for military personnel. I want to thank Chairwoman DAVIS and Ranking Member WILSON for incorporating bipartisan language from the Tsongas-Turner Defense STRONG Act that seeks to enhance sexual assault protections as well as improving training requirements to protect our members.

I thank my colleagues in the Armed Services Committee for their work on the 2011 National Defense Authorization Act. It is certainly my hope that we can retain the language passed by the committee so the House can have a bipartisan report.

Mr. SKELTON. Mr. Chairman, pursuant to section 4 of House Resolution 1404, and as the chairman of the Committee on Armed Services, I request that, during further consideration of H.R. 5136 in the Committee of the Whole, and following consideration of amendment No. 4 printed in House Report 111-498, the following amendments be considered: en bloc No. 1; amendment No. 13; en bloc No. 2; en bloc No. 3.

The CHAIR. The gentleman's request is noted.

Mr. SKELTON. Mr. Chairman, I now yield 2½ minutes to my friend, the gentleman from Rhode Island (Mr. LANGEVIN), the chairman of the Subcommittee on Strategic Forces.

□ 1345

(Mr. LANGEVIN asked and was given permission to revise and extend his remarks.)

Mr. LANGEVIN. I thank the gentleman for yielding.

Mr. Chairman, I rise in strong support of H.R. 5136, the National Defense Authorization Act for Fiscal Year 2011.

This is a strong, bipartisan bill; and as chairman of the Strategic Forces

Subcommittee, it has been a pleasure working with Chairman SKELTON and Ranking Member MCKEON, as well as the ranking member of the subcommittee, Mr. TURNER, and members of the committee in crafting this measure which provides our men and women in uniform with the tools to address some of the most pressing strategic threats to our national security.

Members of our subcommittee are acutely aware that we are racing against time to secure vulnerable nuclear materials and prevent nuclear terrorism and that we must deter nations like Iran from developing nuclear weapons. We must also protect ourselves, our deployed forces and our allies against the growing threat of attacks from ballistic missiles, particularly from expanding stockpiles of short- and medium-ranged rockets, as well as being mindful that both Iran and North Korea are pursuing development of ICBM capabilities.

So our bill invests in maintaining a safe, secure, and reliable nuclear deterrent, providing an effective missile defense against the most likely and immediate threats, and protecting our national security space and intelligence assets.

First, reflecting the President's commitment to provide a strong and sustained investment in our nuclear deterrent, the bill provides \$15 billion for the Department of Energy's Atomic Energy Defense Activities, not counting the nonproliferation programs. This includes \$7 billion for nuclear weapons activities, a 10 percent increase over last year's funding, and \$5.6 billion for defense environmental cleanup activities. This increase will sustain our nuclear arsenal without nuclear testing. It ensures we will maintain a credible deterrent as we responsibly reduce our stockpile and provides a robust foundation for implementing the administration's Nuclear Posture Review and President Obama's historic efforts to reduce nuclear dangers.

Second, H.R. 5136 will strengthen our ballistic missile defenses by providing \$10.3 billion to protect the United States, our deployed troops, and our allies and friends against the most immediate threats from nations such as Iran, Syria, and North Korea. Our funding increases ensure that we will purchase key elements of the administration's Phased Adaptive Approach for ballistic missile defense in Europe more efficiently and at lower overall cost.

The bill also provides an additional \$88 million for the longstanding U.S.-Israeli collaboration on missile defense programs. Further, the bill provides a \$50 million increase for directed energy research and the Airborne Laser Test Bed to facilitate the testing and development of technologies that are most likely to yield operational capabilities in the future.

The CHAIR. The time of the gentleman has expired.

Mr. SKELTON. I yield the gentleman an additional 15 seconds.

Mr. LANGEVIN. The bill also requires operationally realistic testing of missile defense systems. It makes deployment of missile defenses in Europe contingent on such testing, as well as host nation ratification of any deployments on European soil.

I am proud of our smart spending decisions to strengthen our defenses against current missile threats. We are embracing good government practices and emphasizing thorough testing that reduces the costs to American taxpayers in the long run.

Finally, this authorization builds on the bipartisan approach of previous years to military space programs, providing \$9.7 billion to sustain and improve these critical assets that are essential to our warfighters.

I want to thank Chairman SKELTON for his leadership one again in crafting such a strong measure, and I urge my colleagues to support it.

Mr. MCKEON. Mr. Chairman, I yield 2 minutes to the gentleman from Virginia (Mr. WITTMAN), the ranking member on the Oversight and Investigations Subcommittee.

Mr. WITTMAN. Mr. Chairman, I would like to begin by congratulating Ranking Member MCKEON and Chairman SKELTON for their fine work on the National Defense Authorization bill for 2011.

Mr. Chairman, the defense authorization bill provides our Department of Defense the resources it needs and addresses the committee's priorities in supporting our men and women in uniform, their spouses and families.

To enable our servicemembers to continue defending our freedoms abroad, we owe it to them to provide the best available support, training and equipment; and this bill reflects our undying commitment to those servicemembers. After traveling to Afghanistan and Pakistan last month on a congressional delegation and visiting the troops in the field, I know it is critical that we move the bill forward quickly to provide them that vital support.

The funding and support in this bill for the wars in Afghanistan and Iraq are critical. That support back home is just as critical. I am concerned, though, today about the attempt to repeal the Don't Ask, Don't Tell policy without listening to our servicemembers first. We are currently fighting two wars and asking our men and women to make tremendous sacrifices. Now this Congress wants to act without their regard and essentially tell our American military members and families that their views do not count.

We have only been given 5 minutes to debate this policy which will affect millions of American servicemembers and their families. Surely the American people and the military deserve more, especially as we head into the Memorial Day weekend intending to honor our servicemembers.

Furthermore, we heard from all the service branch chiefs yesterday asking

Congress not to support this amendment and wait for the study next year. I believe Congress must make a fully informed decision, and the Department of Defense must provide Congress a full and complete report on the ramifications of changing the current law or whether a change is necessary. We owe that much to our military personnel to listen to them and to wait for the completion of a study next year.

Mr. SKELTON. Mr. Chairman, may I inquire of the time remaining, please.

The CHAIR. The gentleman from Missouri has 5¼ minutes remaining; the gentleman from California has 7½ minutes remaining.

Mr. SKELTON. Would the gentleman from California care to proceed?

Mr. MCKEON. Mr. Chairman, I yield 1 minute to the gentleman from Texas (Mr. CONAWAY), a member of the committee.

Mr. CONAWAY. Mr. Chairman, I rise in support of the bill as it passed out of the committee by unanimous vote. This legislation authorizes good policy for directing the defense of our Nation. I also strongly support the addition of the IMPROVE Act of 2010, which has already passed this House with an overwhelming vote.

The IMPROVE Act will make needed improvements to the way the acquisition process is managed; it will also help us move closer to the day that the financial statements of the Department of Defense are auditable and receive an unqualified opinion.

Mr. Chairman, the Murphy amendment will tell the 350,000-plus men and women who are currently participating in the survey that what they think about Don't Ask, Don't Tell Members of Congress, quite frankly, couldn't care less what they say. While those constituents may work for the Department of Defense and the President, as Commander in Chief, they are our constituents. We are criticized roundly in this realm for not listening to our constituents, and a vote for the Murphy amendment will codify that statement in their minds.

I will oppose the Murphy amendment. I will also oppose the overall legislation if the Murphy amendment is adopted.

Mr. SKELTON. Mr. Chairman, I yield 2 minutes to my colleague, my friend, the distinguished chairman of the Budget Committee who is also a member of our Committee on Armed Services, the gentleman from South Carolina (Mr. SPRATT).

Mr. SPRATT. I thank my good friend and colleague for yielding and commend him for the job he has done in bringing together an excellent bill to this floor.

This bill fully funds national security activities in the Departments of Defense and Energy, including top-line funding increases for DOD as well as fully funding Iraq and Afghanistan operations. This is the fourth consecutive year that the Congress has significantly increased funding for the military of this country. Overall, this bill

provides \$548 billion for DOD, \$159 billion for operations in Iraq and Afghanistan, and a total altogether of \$726 billion, if you include the Department of Energy.

Among the unsung heroes in our national military are the families who serve every bit as much as the member, particularly when there is deployment in the family. This bill recognizes the vital role they play and provides a 1.9 percent pay increase, it expands TRICARE health coverage to include adult dependent children up to the age of 26, it increases family separation allowance for troops who are deployed and away from their families, and it increases hostile fire and imminent danger pay for the first time since 2004.

There will be more extensive debate later on the alternate engine, which this bill accommodates and provides for. Let me simply say I think it makes sense and saves money—it will in the long run—because the \$100 billion program for the engine alone is something where competition is vitally needed.

Having followed the course of ballistic missile defense for some time, it's of interest to me that this bill amply provides for military defense for a robust missile defense, providing \$10.3 billion, which is \$361.6 million above the budget request.

Let me say finally that this bill is consistent too with the glide path that has been set for exploring the ramifications of a change on our Don't Ask, Don't Tell policy. I think it would be wise if we left the Secretary of Defense to finish his exploration, along with the military chiefs, before dictating any changes.

Mr. MCKEON. Mr. Chairman, I yield 1 minute to the gentleman from Louisiana, a member of the committee, Dr. FLEMING.

Mr. FLEMING. I thank the gentleman for yielding.

First of all, I want to congratulate the chairman and ranking member for an excellent mark. I voted for it coming out of committee. I have three amendments in en bloc, two I would like to mention quickly.

One is military retiree pay adjustment that ensures our Nation's military retirees are always paid on or before the first of each month. Second, it requires reports to Congress on U.S. modernization, sustainment, and recapitalization of our bomber force. However, I am very disappointed. The lack of an ear to the people of this country by this Congress is unprecedented, and a good example is the Murphy amendment that we see today that repeals Don't Ask, Don't Tell when we have a scheduled report coming out the 1st of December, and we had the entire Joint Chiefs of Staff and Secretary Gates who oppose that. So I will oppose the Don't Ask, Don't Tell repeal.

Mr. SKELTON. Mr. Chairman, may I inquire about the available time.

The CHAIR. The gentleman has 3¼ minutes remaining.

Mr. SKELTON. I yield 1¼ minutes to the gentleman from New Jersey (Mr.

ANDREWS), the chairman of the acquisition reform task force.

(Mr. ANDREWS asked and was given permission to revise and extend his remarks.)

Mr. ANDREWS. Mr. Chairman, the best way to defend this country is to have every person who is willing to serve her have the opportunity to do so and who is able to do so. That's the intention of the Murphy amendment which, frankly, there have been a series of misrepresentations about.

Let's set the record straight. If the Secretary of Defense and the Chairman of the Joint Chiefs of Staff believe, after listening to the input of our service personnel, after reviewing the facts, if they believe that implementation of this policy would in any way undercut the readiness or effectiveness of our Armed Forces, they will not certify the policy, and it will not happen. This policy will happen only when the Secretary of Defense and the Chairman of the Joint Chiefs of Staff say that it's the right thing to do for this country.

The right thing to do for this country is not to ask someone what church they go to, what country they came from, what color they are, or what their sexual orientation is. It's to ask if they're willing and able to serve, and that is what we are going to do.

Mr. MCKEON. Mr. Chairman, I yield 1 minute to the gentleman from Delaware (Mr. CASTLE).

Mr. CASTLE. I thank the gentleman for yielding.

I rise today to express concern with section 346 of the National Defense Authorization Act.

While the bill before us takes the important step of preventing the move of any C-130 aircraft away from air reserve components until Congress receives written agreement on the details of such a temporary transfer, I believe we should consider implementing a time limitation of 18 months on the duration of those loans.

As a former Governor, I understand the important role the Air National Guard provides in meeting our homeland security needs and that any aircraft reductions may significantly impact each State's ability to respond to emergencies. If this body does choose to move forward with a C-130 loan agreement, we should at least set up a regime to ensure this is truly a temporary transfer. Hopefully, we can consider these issues as the bill moves forward.

□ 1400

Mr. SKELTON. Mr. Chair, pursuant to section 4 of House Resolution 1404, I hereby give notice that amendment Nos. 80 and 82 may be offered out of order.

Mr. Chairman, I yield 1 minute to the distinguished gentlewoman from Wisconsin (Ms. BALDWIN).

Ms. BALDWIN. Mr. Chairman, today, we have the opportunity to right a wrong.

I rise in strong support of repealing the military's Don't Ask, Don't Tell policy.

Seventeen years after Congress passed Don't Ask, Don't Tell, we know that it is a misguided, unjust, and discriminatory policy. Not only does Don't Ask, Don't Tell damage the lives and livelihoods of military professionals, it deprives our Nation and our Armed Forces of their honorable service and of their needed skills. Under this law, almost 14,000 servicemembers have been discharged, including almost 1,000 mission-critical troops and at least 60 Arabic speakers and 10 Farsi linguists. It is indefensible.

When the House votes to repeal Don't Ask, Don't Tell, we will have taken one more step on the path to full civil rights and equality for LGBT Americans, but we will also change the course of history for all of the courageous Americans who serve our country and for their families.

Mr. Chairman, in the land of the free and the home of the brave, it is long past time for Congress to end this un-American policy.

Mr. MCKEON. Mr. Chairman, may I inquire as to the time we have remaining.

The Acting CHAIR (Mr. SERRANO). The gentleman from California has 4½ minutes remaining; the gentleman from Missouri has 1 minute remaining.

Mr. MCKEON. Mr. Chairman, I yield 2 minutes to the gentlewoman from Oklahoma (Ms. FALLIN).

Ms. FALLIN. Mr. Chairman, this Memorial Day, we thank our men and women serving our Nation—our veterans, their families, and those who have given their lives to defend and protect Americans. We honor their sacrifices on behalf of our freedom as a Nation.

My colleagues and I have worked very hard in our Armed Services Committee on the National Defense Authorization Act, which I believe to be an effective and comprehensive blueprint for our Nation's defense both at home and abroad. Most importantly, I believe this bill provides our men and women in uniform with the support and protection they need and deserve both on and off the battlefield.

Every day, these brave men and women put their lives on the line for the safety and security of our Nation, and it is our job to make sure that they receive the quality support and services they need, especially when they return home.

I am very grateful for my amendments to improve the detection and the diagnosis of common combat-related afflictions, like that of ringing in the ears, of posttraumatic stress disorder, and of traumatic brain injury, which are all included in this year's authorization. The sooner we catch these prevalent service-related injuries, the sooner we will simultaneously improve the quality of the lives of our troops and will reduce the costs of health care across the board for them.

So, as this Memorial Day approaches, I hope we all remember our troops—those who are currently serving and

those who have served our country to defend our freedoms.

If this bill makes it off the floor as it came out of the committee, which was in one piece, then I will be supporting it. If there are changes that deal with some other issues that this committee has raised in the last few minutes as objectionable, then we will be considering them.

Mr. SKELTON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, picture in your mind an American soldier, a corporal, patrolling in Afghanistan, wearing his American-made uniform, carrying his American-made M4 rifle, having been transported in an MRAP security vehicle to his place of patrolling, with a radio on his back which was made in America—all of these items furnished by the Congress of the United States and under our duty and the duty to train and to allow him to be fully prepared to fight the fight that he is.

That is what is important in what we do today. That is the purpose of an authorization bill. It is required by the Constitution of the United States. It is paramount. It is the most important job that we have to do—to provide for the security of those who fight and who protect us in their line of duty.

I yield back the balance of my time.

Mr. MCKEON. Mr. Chairman, I yield 1½ minutes to the gentleman from Colorado (Mr. COFFMAN), a member of the committee.

Mr. COFFMAN of Colorado. Mr. Chairman, I rise in support of the defense authorization bill, but I rise in opposition to the Murphy amendment to the bill.

Congress must review the results of the Department of Defense study on Don't Ask, Don't Tell before we vote to reverse the existing policy or to keep it. The purpose of this study is to survey those in uniform on this issue. The Murphy amendment essentially says that we are not willing to listen to those who currently serve in uniform before making our decision.

It was during the first gulf war when I served as a ground combat leader with the United States Marine Corps that I found that the interdependent bond that was formed between marines on a ground combat team was essential to our effectiveness on the battlefield. My concern is that the ability for this bond to form might be greatly degraded with the interjection of sexuality, whether it be heterosexuality or homosexuality.

I think that it is absolutely essential for the study to be completed so that the Department of Defense can demonstrate how challenges, such as the one that I just raised, and concerns will be handled before Congress makes a final decision on whether to keep the current policy in regards to sexual orientation or to reject it.

Mr. MCKEON. I yield myself the balance of my time.

Mr. Chairman, as I mentioned earlier, I think this is an outstanding bill.

I think the chairman has worked very hard. I think the members of the committee—the subcommittee chairman and the ranking members—have all worked very hard, and the staff.

It is an excellent product as it stands right now. I think we will have, unfortunately, insufficient time to debate the Murphy amendment about Don't Ask, Don't Tell. I think that it is unfortunate that the Rules Committee did not give us the time that will be necessary to fully debate that, but we will take advantage of the time as we may.

I would like to say, as for many of the Members who have spoken today on our side, they do support the bill as it came out of committee. They hope that it will be improved, but if the Don't Ask, Don't Tell Murphy amendment passes, many of them will not be able to support the final passage, which is, indeed, I believe, a tragedy. None of us have ever before, to my knowledge, voted against the defense authorization bill, and we really don't do that lightly. We want to support all of this product, and we hope that we will be able to work this out as the day goes on.

Mr. MATHESON. Mr. Chair, I rise in support of H.R. 5136, the National Defense Authorization Act for Fiscal Year 2011. This bill makes investments in our nation's military, authorizes funding to further strengthen our national security, and provides resources and aid to service members and their families.

However, I am disappointed with a Sense of Congress that was added to this bill during the House Armed Services Committee Markup. This Sense of Congress states that the administration's recently released Nuclear Posture Review (NPR) weakens our national security. I disagree with that position. The Nuclear Posture Review, led by the Department of Defense, states that America's nuclear arsenal will be maintained safely and securely without the need to develop new nuclear warheads.

The Nuclear Posture Review is particularly important as it shuts the door on new nuclear weapons testing. I have long had concerns that the development of new nuclear weapons could lead us back down a path to new nuclear weapons testing, which I strongly oppose. Utahns and others living downwind of the Nevada Test Site have paid dearly for government deception about the safety of past nuclear weapons testing activities. I will continue to work to ensure that history is not repeated. Evidence has long supported the fact that our current nuclear arsenal is a sufficient and reliable deterrent. In 2006 the National Nuclear Security Administration released the results of a five-year, peer-reviewed study which found that plutonium remains potent as a weapons fuel for at least 90 years and perhaps much longer.

I believe the NPR sets us on a path forward that secures our existing weapons stockpile as a continued, effective deterrent, combined with efforts to reduce nuclear danger in the world. This direction will allow the U.S. to focus on securing the intelligence and the conventional weapons that we need to deal with the real and ongoing terrorist threat that we face and assuring our continued national security. I hope that as the Senate considers this bill, it will reevaluate this misguided Sense of the

Congress and recognize the importance of the Nuclear Posture Review.

Mr. CONYERS. Mr. Chair, I rise in strong opposition to H.R. 5136, the "National Defense Authorization Act for Fiscal Year 2011." As with most omnibus pieces of legislation, there are many provisions I support, as well as those I do not. Unfortunately, the improvements to our military policy do little to blunt the effect of the wasteful billions authorized for military spending, which continue to feed the military-industrial complex and the ever-growing imperial overstretch of our military around the world.

I do want to briefly acknowledge a few of the provisions I supported in this bill. First, I am heartened that an amendment I offered with my colleague, Representative GEOFF DAVIS of Kentucky, was adopted by the House. Our amendment builds on our bipartisan resolution, H. Con. Res. 94, and would instruct the Secretary of Defense, in coordination with the Secretary of State, to submit a report to Congress assessing the strategic benefits of the successful negotiation of a "rules of the road" Incidents At Sea naval agreement including the United States and Iran. I believe such an agreement would reduce tensions in the region and help prevent accidental war. I am heartened that the Defense Department and State Department will officially address this critical issue.

Additionally, I want to acknowledge the good work of Representatives SCHAKOWSKY, MCGOVERN, HINCHEY, and MORAN. Together, we successfully offered an amendment that would empower the Special Inspector General for Afghanistan Reconstruction to improve its oversight and take steps to deny federal funding to private security contractors responsible for the deaths of Afghan civilians. For far too long, mercenaries like Blackwater have acted with impunity in the theaters of war, committing human rights atrocities and soiling the good name of the American people. With the adoption of this amendment, we are hopefully moving closer to finally putting these reckless soldiers of fortune out of business.

Unfortunately, this authorization does not do nearly enough to properly reorient our national security posture to earn my vote. As with past defense budgets, it spends too much on war, outdated Cold War weapons systems, and nuclear weaponry.

The American people cannot afford the \$159.3 billion provided in this bill to fund our "overseas contingency operations"—the Orwellian term for our wars in Afghanistan and Iraq—with our economy struggling to escape recession and with so many families torn apart by long deployments, debilitating battlefield wounds, and heart-wrenching premature deaths. Continuing to fund our wars simply continues to compound the mistakes of the previous administration and I, in good conscience, cannot support a bill that continues us down this path of folly which has, to date, cost us the lives of 1,000 young men and women in Afghanistan and nearly \$1 trillion in war spending since 2001.

I was inspired by a passage in the President's new National Security Strategy, which was released today. It spoke of another path towards securing our homeland and brokering peace around the world. It simply and eloquently stated:

The freedom that America stands for includes freedom from want. Basic human

rights cannot thrive in places where human beings do not have access to enough food, or clean water, or the medicine they need to survive.

Those are powerful words and they speak to a universal truth: When we love and care for one another, we do not need to rely on nuclear weapons, Virginia-class submarines, or other tools of destruction to secure ourselves and our families. We don't need to invest 26.5 million in "counter-ideology initiatives," when our national policy is to export hope and dignity instead of Predator drone missiles. The death of a family member and the humiliation associated with a night raid is what radicalizes someone to the point where they seek to harm the American people. We can and we must stop these destructive practices if we hope to win over our brothers and sisters in the Muslim world.

I have unending faith in the ability of the American people to change our country's course when needed. I believe that they can stand up and say "no" to our nation being perpetually at war. I believe that they can say no to spending more on defense than all the other nations of the world combined, especially when people in Detroit and Hamtramck and Dearborn still need a job that pays a decent wage. I hope my fellow Members will join me in opposing this bill, so that we can inspire the American people to pursue another, better path.

Mr. MCEON. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. All time for general debate has expired.

Pursuant to the rule, the amendment in the nature of a substitute printed in the bill is considered as an original bill for the purpose of amendment under the 5-minute rule and is considered read.

Subtitle B—Program Requirements, Restrictions, and Limitations

SEC. 211. REPORT REQUIREMENTS FOR REPLACEMENT PROGRAM OF THE OHIO-CLASS BALLISTIC MISSILE SUBMARINE.

(a) FINDINGS.—Congress makes the following findings:

(1) The sea-based strategic deterrence provided by the ballistic missile submarine force of the Navy has been essential to the national security of the United States since the deployment of the first ballistic missile submarine, the USS George Washington SSBN 598, in 1960.

(2) Since 1960, a total of 59 submarines have served the United States to provide the sea-based strategic deterrence.

(3) As of the date of the enactment of this Act, the sea-based strategic deterrence is provided by the tremendous capability of the 14 ships of the Ohio-class submarine force, which have been the primary sea-based deterrent force for more than two decades.

(4) Ballistic missile submarines are the most survivable asset in the arsenal of the United States in the event of a surprise nuclear attack on the country because, being submerged for months at a time, these submarines are virtually undetectable to any adversary and therefore invulnerable to attack, thus providing the submarines with the ability to respond with significant force against any adversary who attacks the United States or its allies.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) as Ohio-class submarines reach the end of their service life and are retired, the United States must maintain the robust sea-based strategic deterrent force that has the ability to remain undetected by potential adversaries and must have the capability to deliver a retaliatory strike of such magnitude that no rational actor would dare attack the United States;

(2) the Secretary of Defense should conduct a comprehensive analysis of the alternative capabilities to provide the sea-based strategic deterrence that includes consideration of different types and sizes of submarines, different types and sizes of missile systems, the number of submarines necessary to provide such deterrence, and the cost of each alternative; and

(3) prior to requesting more than \$1,000,000,000 in research and development funding to develop a replacement for the Ohio-class ballistic missile submarine force in advance of a Milestone A decision, the Secretary of Defense should have made available to Congress the guidance issued by the Director of Cost Assessment and Performance Evaluation with respect to the analysis of alternative capabilities and the results of such analysis.

(c) LIMITATION.—

(1) REPORT.—Of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2011 for research and development for the Navy, not more than 50 percent may be obligated or expended to research or develop a submarine as a replacement for the Ohio-class ballistic missile submarine force unless—

(A) the Secretary of Defense submits to the congressional defense committees a report including—

(i) guidance issued by the Director of Cost Assessment and Performance Evaluation with respect to the analysis of alternative capabilities to provide the sea-based strategic deterrence currently provided by the Ohio-class ballistic missile submarine force and any other guidance relating to requirements for such alternatives intended to affect the analysis;

(ii) an analysis of the alternative capabilities considered by the Secretary to continue the sea-

based strategic deterrence currently provided by the Ohio-class ballistic missile submarine force, including—

(I) the cost estimates for each alternative capability;

(II) the operational challenges and benefits associated with each alternative capability; and

(III) the time needed to develop and deploy each alternative capability; and

(iii) detailed reasoning associated with the decision to replace the capability of sea-based deterrence provided by the Ohio-class ballistic missile submarine force with an alternative capability designed to carry the Trident II D5 missile; and

(B) a period of 30 days has elapsed after the date on which the report under subparagraph (A) is submitted.

(2) FORM.—The report required by paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

“(b) FUTURE-YEARS DEFENSE PROGRAM.—In each future-years defense program submitted to Congress under section 221 of this title, the Secretary of Defense shall ensure that the estimated expenditures and proposed appropriations for the F-35 Lightning II aircraft, for each fiscal year of the period covered by that program, include sufficient amounts for the full funding of the continued development and procurement of a competitive propulsion system for the F-35 Lightning II aircraft.

“(c) REQUIREMENT TO OBLIGATE AND EXPEND FUNDS.—Of the amounts authorized to be appropriated for fiscal year 2011 or any fiscal year thereafter, for research, development, test, and evaluation and procurement for the F-35 Lightning II aircraft program, the Secretary of Defense shall ensure the obligation and expenditure in each such fiscal year of sufficient annual amounts for the continued development and procurement of two options for the propulsion system for the F-35 Lightning II aircraft in order to ensure the development and competitive production for the propulsion system for such aircraft.

(a) LIMITATION ON CONSTRUCTION AND DEPLOYMENT OF SYSTEMS.—No funds authorized to be appropriated by this Act or otherwise made available for the Department of Defense for fiscal year 2011 or any fiscal year thereafter may be obligated or expended for site activation, construction, preparation of equipment for, or deployment of a medium-range or long-range missile defense system in Europe until—

(1) any nation agreeing to host such system has signed and ratified a missile defense basing agreement and a status of forces agreement; and

(2) a period of 45 days has elapsed following the date on which the Secretary of Defense submits to the congressional defense committees the report on the independent assessment of alternative missile defense systems in Europe required by section 235(c)(2) of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2235).

(b) LIMITATION ON PROCUREMENT OR DEPLOYMENT OF INTERCEPTORS.—No funds authorized to be appropriated by this Act or otherwise made available for the Department of Defense for fiscal year 2011 or any fiscal year thereafter may be obligated or expended for the procurement (other than initial long-lead procurement) or deployment of operational missiles of a medium-range or long-range missile defense system in Europe until the Secretary of Defense, after receiving the views of the Director of Operational Test and Evaluation, submits to the congressional defense committees a report certifying that the proposed interceptor to be deployed as part of such missile defense system has demonstrated, through successful, operationally realistic flight testing, a high probability of working in an operationally effective manner and that such missile defense system has the ability to accomplish the mission.

(c) CONFORMING REPEAL.—Section 234 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-81; 123 Stat. 2234) is repealed.

SEC. 223. PHASED, ADAPTIVE APPROACH TO MISSILE DEFENSE IN EUROPE.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the new phased, adaptive approach to missile defense in Europe, announced by the President on September 17, 2009, should be supported by sound analysis, program plans, schedules, and technologies that are credible;

(2) the cost, performance, and risk of such approach to missile defense should be well understood; and

(3) Congress should have access to information regarding the analyses, plans, schedules, technologies, cost, performance, and risk of such approach to missile defense in order to conduct effective oversight.

(b) REPORT REQUIRED.—

(1) REPORT.—The Secretary of Defense shall submit to the congressional defense committees a report on the phased, adaptive approach to missile defense in Europe.

(2) MATTERS INCLUDED.—The report under paragraph (1) shall include the following:

(i) a description of any alternatives considered;

(ii) the criteria used to analyze each such alternative; and

(iii) the result of each analysis, including a description of the criteria used to judge each alternative.

(c) LIMITATION ON FUNDS.—Of the amounts authorized to be appropriated by section 301(5) for operation and maintenance, Defense-wide, for the Office of the Secretary of Defense, not more than 95 percent of such amounts may be obligated or expended until the date on which the report required under subsection (b)(1) is submitted to the congressional defense committees.

SEC. 224. HOMELAND DEFENSE HEDGING POLICY.

(a) FINDINGS.—Congress finds the following:

(1) As noted by the Director of National Intelligence, testifying before the Senate Select Committee on Intelligence on February 2, 2010, “the Iranian regime continues to flout UN Security Council restrictions on its nuclear pro-

gram. . . we judge Iran would likely choose missile delivery as its preferred method of delivering a nuclear weapon. Iran already has the largest inventory of ballistic missiles in the Middle East and it continues to expand the scale, reach, and sophistication of its ballistic missile forces—many of which are inherently capable of carrying a nuclear payload.”

(2) The Unclassified Report on Military Power of Iran, dated April 2010, states that, “with sufficient foreign assistance, Iran could probably develop and test an intercontinental ballistic missile (ICBM) capable of reaching the United States by 2015. Iran could also have an intermediate-range ballistic missile (IRBM) capable of threatening Europe.”

(3) Under phase 3 of the phased, adaptive approach for missile defense in Europe (scheduled for 2018), the United States plans to deploy the standard missile-3 block IIA interceptor at sea- and land-based sites in addition to existing missile defense systems to provide coverage for all NATO allies in Europe against medium- and intermediate-range ballistic missiles.

(4) Under phase 4 of the phased, adaptive approach for missile defense in Europe (scheduled for 2020), the United States plans to deploy the standard missile-3 block IIB interceptor to provide additional coverage of the United States against a potential intercontinental ballistic missile launched from the Middle East in the 2020 time frame.

(5) According to the February 2010 Ballistic Missile Defense Review, the United States will continue the development and assessment of a two-stage ground-based interceptor as part of a hedging strategy and, as further noted by the Under Secretary of Defense for Policy during testimony before the Committee on Armed Services of the House of Representatives on October 1, 2009, “we keep the development of the two-stage [ground-based interceptor] on the books as a hedge in case things come earlier, in case there’s any kind of technological challenge with the later models of the [standard missile-3].”

(b) POLICY.—It shall be the policy of the United States to—

(1) field missile defense systems in Europe that—

(A) provide protection against medium- and intermediate-range ballistic missile threats consistent with NATO policy and the phased, adapted approach for missile defense announced on September 17, 2009; and

(B) have been confirmed to perform the assigned mission after successful, operationally realistic testing;

(2) field missile defenses to protect the territory of the United States pursuant to the National Missile Defense Act of 1999 (Public Law 106-38; 10 U.S.C. 2431 note) and to test those systems in an operationally realistic manner;

(3) ensure that the standard missile-3 block IIA interceptor planned for phase 3 of the phased, adaptive approach for missile defense is capable of addressing intermediate-range ballistic missiles launched from the Middle East and the standard missile-3 block IIB interceptor planned for phase 4 of such approach is capable of addressing intercontinental ballistic missiles launched from the Middle East; and

(4) continue the development and testing of the two-stage ground-based interceptor to maintain it—

(A) as a means of protection in the event that—

(i) the intermediate-range ballistic missile threat to NATO allies in Europe materializes before the availability of the standard missile-3 block IIA interceptor;

(ii) the intercontinental ballistic missile threat to the United States that cannot be countered with the existing ground-based missile defense system materializes before the availability of the standard missile-3 block IIB interceptor; or

(iii) technical challenges or schedule delays affect the standard missile-3 block IIA interceptor or the standard missile-3 block IIB interceptor; and

(B) as a complement to the missile defense capabilities deployed in Alaska and California for the defense of the United States.

SEC. 225. INDEPENDENT ASSESSMENT OF THE PLAN FOR DEFENSE OF THE HOMELAND AGAINST THE THREAT OF BALLISTIC MISSILES.

(a) FINDING.—Congress finds that section 2 of the National Missile Defense Act of 1999 (Public Law 106-38; 10 U.S.C. 2431 note) states that it is the policy of the United States to deploy as soon as is technologically possible an effective National Missile Defense system capable of defending the territory of the United States against limited ballistic missile attack (whether accidental, unauthorized, or deliberate) with funding subject to the annual authorization of appropriations and the annual appropriation of funds for National Missile Defense.

Consistent with the plan contained in the report submitted to Congress under section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2549), in the budget materials submitted to the President by the Secretary of Defense in connection with the submission to Congress, pursuant to section 1105 of title 31, United States Code, of the budget for fiscal year 2012, and each subsequent fiscal year, the Secretary shall ensure that a separate budget (including separate, dedicated line items and program elements) is included with respect to programs and platforms regarding the sustainment and modernization of nuclear delivery systems.

SEC. 1058. LIMITATION ON NUCLEAR FORCE REDUCTIONS.

(a) FINDINGS.—Congress finds the following:
(1) As of September 30, 2009, the stockpile of nuclear weapons of the United States has been reduced by 84 percent from its maximum level in 1967 and by more than 75 percent from its level when the Berlin Wall fell in November, 1989.

(2) The number of non-strategic nuclear weapons of the United States has declined by approximately 90 percent from September 30, 1991, to September 30, 2009.

(3) In 2002, the United States announced plans to reduce its number of operationally deployed strategic nuclear warheads to between 1,700 and 2,200 by December 31, 2012.

(4) The United States plans to further reduce its stockpile of deployed strategic nuclear warheads to 1,550 during the next seven years.

(5) The United States plans to further reduce its deployed ballistic missiles and heavy bombers to 700 and its deployed and non-deployed launchers and heavy bombers to 800 during the next seven years.

(6) Beyond these plans for reductions, the Nuclear Posture Review of April 2010 stated that, “the President has directed a review of potential future reductions in U.S. nuclear weapons below New START levels. Several factors will influence the magnitude and pace of such reductions.”

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) any reductions in the nuclear forces of the United States should be supported by a thorough assessment of the strategic environment, threat, and policy and the technical and operational implications of such reductions; and

(2) specific criteria are necessary to guide future decisions regarding further reductions in the nuclear forces of the United States.

(c) LIMITATION.—No action may be taken to implement the reduction of nuclear forces of the United States below the levels described in paragraphs (4) and (5) of subsection (a), unless—

(1) the Secretary of Defense and the Administrator for Nuclear Security jointly submit to the congressional defense committees a report on such reduction, including—

(A) the justification for such reduction;
(B) an assessment of the strategic environment, threat, and policy and the technical and operational implications of such reduction;

(C) written certification by the Secretary of Defense that—

(i) either—
(I) the strategic environment or the assessment of the threat has changed to allow for such reduction; or

(II) technical measures to provide a commensurate or better level of safety, security, and reliability as before such reduction have been implemented for the remaining nuclear forces of the United States;

(ii) such reduction preserves the nuclear deterrent capabilities of the “nuclear triad” (intercontinental ballistic missiles, ballistic missile submarines, and heavy bombers and dual-capable aircraft);

(iii) such reduction does not require a change in targeting strategy from counterforce targeting to countervalue targeting;

(iv) the remaining nuclear forces of the United States provide a sufficient means of protection against unforeseen technical challenges and geopolitical events; and

(v) such reduction is compensated by other measures (such as nuclear modernization, conventional forces, and missile defense) that together provide a commensurate or better deterrence capability and level of credibility as before such reduction; and

(D) written certification by the Administrator for Nuclear Security that—

(i) technical measures to provide a commensurate or better level of safety, security, and reliability as before such reduction have been implemented for the remaining nuclear forces of the United States;

(ii) the remaining nuclear forces of the United States provide a sufficient means of protection against unforeseen technical challenges and geopolitical events; and

(iii) measures to modernize the nuclear weapons complex have been implemented to provide a sufficiently responsive infrastructure to support

the remaining nuclear forces of the United States; and

(2) a period of 180 days has elapsed after the date on which the report under paragraph (1) is submitted.

(d) DEFINITION.—In this section, the term “nuclear forces of the United States” includes—

(1) both active and inactive nuclear warheads in the nuclear weapons stockpile; and

(2) deployed and non-deployed delivery vehicles.

SEC. 1059. SENSE OF CONGRESS ON THE NUCLEAR POSTURE REVIEW.

It is the sense of Congress that the Nuclear Posture Review, released in April 2010 by the Secretary of Defense, weakens the national security of the United States by eliminating options to defend against a catastrophic nuclear, biological, chemical, or conventional attack against the United States.

SEC. 1060. STRATEGIC ASSESSMENT OF STRATEGIC CHALLENGES POSED BY POTENTIAL COMPETITORS.

The Secretary of Defense shall, in consultation with the Joint Chiefs of Staff and the commanders of the regional combatant commands, submit to the congressional defense committees, not later than March 15, 2011, a comprehensive strategic assessment of the current and future strategic challenges posed to the United States by potential competitors out through 2021, with particular attention paid to those challenges posed by the military modernization of the People's Republic of China, Iran, North Korea, and Russia.

SEC. 1061. ELECTRONIC ACCESS TO CERTAIN CLASSIFIED INFORMATION.

The Secretary of Defense shall provide to each committee of Congress an electronic communications link to classified information in the possession of the Department of Defense pertaining to a subject matter that is in the jurisdiction of such committee under the Rules of the House of Representatives or the Standing Rules of the Senate. Such electronic communications link shall be capable of supporting appropriate classified communications between the Department of Defense and each committee of Congress authorized to carry out such communications.

SEC. 1062. JUSTICE FOR VICTIMS OF TORTURE AND TERRORISM.

(a) FINDINGS.—Congress makes the following findings:

(1) The National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181) expressed the sense of Congress (in section 1083(d)(4)) that the Secretary of State “should work with the Government of Iraq on a state-to-state basis to ensure compensation for any meritorious claims based on terrorist acts committed by the Saddam Hussein regime against individuals who were United States nationals or members of the United States Armed Forces at the time of those terrorist acts and whose claims cannot be addressed in courts in the United States due to the exercise of the waiver authority” provided to the President under section 1083(d) of that Act.

(2) The House of Representatives in the 110th Congress unanimously adopted H.R. 5167, the Justice for Victims of Torture and Terrorism Act, which set forth an appropriate compromise of the claims described in paragraph (1).

(3) The National Defense Authorization Act for Fiscal Year 2010 (in section 1079) further expressed the sense of Congress that these claims of American victims of torture and hostage taking by Iraq “should be resolved by a prompt and fair settlement negotiated between the Government of Iraq and the Government of the United States, taking note of the provisions of H.R. 5167 of the 110th Congress, which was adopted by the United States House of Representatives”.

(4) Pursuant to these congressional actions, the Secretary of State has diligently pursued

these negotiations with the Government of Iraq. To date, however, more than three years after the enactment of the National Defense Authorization Act for Fiscal Year 2008, and nearly a year after the enactment of the National Defense Authorization Act for Fiscal Year 2010, there has been no resolution of these claims of injured Americans, despite the resolution by Iraq of claims of foreign corporations against the Saddam Hussein regime.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the claims of American victims of torture and hostage taking by the Government of Iraq during the regime of Saddam Hussein that are subject to Presidential Determination Number 2008-9 of January 28, 2008, which waived application of section 1083 of the National Defense Authorization Act for Fiscal Year 2008, should be resolved by a prompt and fair settlement negotiated between the Government of Iraq and the Government of the United States.

(2) the United States should deploy the phased, adaptive approach for missile defense in Europe to protect the United States, its deployed forces, and NATO allies, after appropriate testing and consistent with NATO policy; and

(4) by inserting after paragraph (14), as so redesignated, the following new paragraph:

“(15) **TRADITIONAL APPLICATION.**—The term ‘traditional application’ means an application for a loan, guarantee, or commitment to guarantee under this chapter that involves a market, technology, and financial structure of a type that has proven successful in previous applications and does not present an unreasonable risk to the United States, as determined by the Administrator.”.

(b) **DEADLINE FOR DECISION ON APPLICATION; EXTENSION.**—Section 53703(a) of title 46, United States Code, is amended—

(1) by amending paragraph (1) to read as follows:

“(1) **IN GENERAL.**—The Secretary or Administrator shall approve or deny an application for a loan guarantee under this chapter—

“(A) in the case of a traditional application, before the end of the 90-day period beginning on the date on which the signed application is received by the Secretary or Administrator; and

“(B) in the case of a nontraditional application, before the end of the 120-day period beginning on such date of receipt.”; and

(2) in paragraph (2), by striking “the 270-day period in paragraph (1) to a date not later than 2 years” and inserting “the applicable period under paragraph (1) to a date that is not later than 1 year after the date on which the signed application was received by the Secretary or Administrator”.

(c) **INDEPENDENT ANALYSIS.**—Section 53708(d) of title 46, United States Code, is amended by striking “an application” and inserting “a nontraditional application”.

(d) **APPLICATION.**—The amendments made by this section shall apply only to applications submitted after the date of enactment of this Act.

Amend the title so as to read: “A bill to authorize appropriations for fiscal year 2011 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes.”.

The Acting CHAIR. No amendment to the amendment in the nature of a substitute is in order except those printed in House Report 111–498 and amendments en bloc described in section 3 of House Resolution 1404.

Except as specified in section 4 of the resolution, each amendment printed in the report shall be offered only in the order printed, may be offered only by a Member designated in the report, shall be considered read, debatable for the time specified in the report, equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for a division of the question.

It shall be in order at any time for the chair of the Committee on Armed Services or his designee to offer amendments en bloc consisting of

amendments printed in the report not earlier disposed of or germane modifications of any such amendments.

Amendments en bloc shall be considered read, except that modifications shall be reported, shall be debatable for 20 minutes, equally divided and controlled by the chair and ranking minority member or their designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

For the purpose of inclusion in such amendments en bloc, an amendment printed in the form of a motion to strike may be modified to the form of a germane perfecting amendment to the text originally proposed to be stricken.

The original proponent of an amendment included in the amendments en bloc may insert a statement in the CONGRESSIONAL RECORD immediately before disposition of the amendments en bloc.

The Chair of the Committee of the Whole may recognize for consideration of any amendment out of the order printed, but not sooner than 30 minutes after the chair of the Committee on Armed Services or his designee announces from the floor a request to that effect.

AMENDMENT NO. 1 OFFERED BY MR. SKELTON

The Acting CHAIR. It is now in order to consider amendment No. 1 printed in House Report 111–498.

Mr. SKELTON. Mr. Chairman, I have an amendment at the desk, amendment No. 1.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 1 offered by Mr. SKELTON: Page 172, line 10, strike “of an enlisted member of the Armed Forces” and insert “of a candidate”.

Page 172, beginning line 12, strike “member,” and insert “candidate”.

Page 172, line 15, insert after “(1)” the following: “is an enlisted member of the Armed Forces and”.

Page 404, line 6, strike “or later”.

Page 437, strike line 19 and all that follows through page 438, line 14 (and redesignate subsequent sections accordingly).

Page 603, in the table above line 1, in the column titled “Installation or Location”, strike “Miami” and insert “North Fort Myers”, strike “West Palm Beach” and insert “Tallahassee”, strike “Kansas City” and insert “Belton”, strike “Dallas” and insert “Denton”, and strike “Virginia Beach” and insert “Fort Story”.

Page 670, lines 1 and 2, strike “**NATIONAL SECURITY AGENCY**” and insert “**DEPARTMENT OF DEFENSE**” (and conform the table of contents in section 2(b)).

Page 670, line 7, strike “National Security Agency” and insert “Department of Defense”.

The Acting CHAIR. Pursuant to House Resolution 1404, the gentleman from Missouri (Mr. SKELTON) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Missouri.

Mr. SKELTON. Mr. Chairman, I yield 1 minute to my colleague, the gentleman from Massachusetts (Ms. TSONGAS).

Ms. TSONGAS. Thank you, Mr. Chairman, for yielding and for your leadership on this important legislation.

I rise in support of the Fiscal Year 2011 National Defense Authorization Act and the accompanying manager’s amendment.

This bipartisan legislation supports the ongoing efforts of our Armed Forces to keep our country safe, to maintain our resolve against extremists, and to sustain nuclear weapons nonproliferation.

It provides our men and women with the crucial tools they need to protect our country and to effectively find and hold accountable those who wish us harm. Equally as important, the NDAA includes protections for our servicemembers, such as lighter weight body armor that will keep our servicemembers safe but will lighten the burden we ask them to carry.

This bill also expands legal rights for servicemembers who have been victims of sexual assault, and it improves training related to the prevention of and to the response to this crime. I also look forward to the long overdue repeal of Don’t Ask, Don’t Tell.

The unanimous support that this bill received in committee is a testament to our continued commitment to provide the technology, equipment, and manpower required to protect our country at all times.

I urge my colleagues to support H.R. 5136.

The Acting CHAIR. Without objection, the gentleman from New Jersey will control the time.

There was no objection.

Mr. ANDREWS. Mr. Chairman, I am pleased to yield 1 minute to my friend and colleague, a gentleman who has made a tremendous contribution to the committee already in the area of nuclear weaponry, the gentleman from New Mexico (Mr. HEINRICH).

Mr. HEINRICH. Mr. Chairman, I strongly support this amendment, which improves and perfects strong underlying legislation to keep the American people safe and to spur economic growth in places like central New Mexico.

The bill, as amended, will expand TRICARE coverage to include dependent children up to the age of 26, something our troops and military families deserve. It also provides our military with the cutting-edge resources that they need to defend our Nation.

Many of these advancements originate in central New Mexico at Kirtland Air Force Base and at Sandia National Laboratories. For example, the Operationally Responsive Space satellite program and the Airborne Laser Test Bed will both receive greater resources to accomplish their important missions, and the bill will authorize a secure microgrid energy pilot program on a military installation to advance our goal of energy security and independence.

This bill is a true reflection of our 21st century military strategy for keeping Americans safe, and I urge my colleagues to support the amendment and the underlying legislation.

Mr. MCKEON. Mr. Chairman, I claim the time in opposition, although I will not oppose the amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. MCKEON. Mr. Chairman, I reserve the balance of my time.

Mr. ANDREWS. Mr. Chairman, for the benefit of the House, we will be calling several speakers.

Mr. Chairman, I yield 1 minute to our friend and colleague who has been a leader on port security issues here in the country, who has worked very hard on them, the gentlewoman from California (Ms. RICHARDSON).

Ms. RICHARDSON. Mr. Chairman, I rise in strong support of H.R. 5136. I want to thank Chairman SKELTON, the committee, and all of the staff that have brought us to this point.

Having visited Afghanistan and Iraq, I strongly agree that this bill will help us to restore and enhance the readiness of our troops. But with the limited time that I have to speak, I would like to focus on one part of the amendment today, and that is my amendment that would allow the Transportation Command to update and expand its Port Look 2008 strategic seaports study. This study remains a crucial tool to ensure that our ports remain ready to respond in the case of an emergency, and, worse, an attack.

My amendment would expand the scope of the report to include the consideration of infrastructure in the vicinity of strategic ports, including bridges, roads, and rail capacity. We must be ready to move our troops immediately and to get them the resources that they need.

I stand to say something that I have said before: "The role of our ports is to connect the forts." If the transportation systems and infrastructure in and around our strategic ports are deficient, the ability of our ports to fulfill their readiness would fail.

I stand in support of this amendment.

Mr. MCKEON. Mr. Chairman, I yield 2 minutes to the gentleman from Hawaii (Mr. DJOU), a new Member that will be serving on our committee that we are really happy to hear from at this time.

Mr. DJOU. Mr. Chairman, I rise in support of H.R. 5136, the fiscal year 2011 Defense Authorization Act, as approved unanimously by the Armed Services Committee. I am pleased today to give my first substantive speech as a Member of the U.S. House of Representatives.

It is a great honor to speak on the Defense Authorization Act, not only as a Member of Congress, but also as the Member who represents Hawaii's First

Congressional District, the home of the U.S. Pacific Command, and speaking also, of course, as an Army Reservist. It is also my honor to be speaking on this measure the week before Memorial Day.

To defend America, we need the best-trained and best-equipped United States Armed Forces. I am pleased this bill attempts to ensure that the Department of Defense is fully equipped and well prepared to fight all of our current and future battles on behalf of our Nation.

I am pleased to support this particular resolution, which contains important measures for the Pacific Command, particularly, of course, for myself, representing Hawaii's First Congressional District, home of the United States Navy's Pacific Fleet, the U.S. Air Force's Pacific Air Force, and the 25th Infantry Division of the United States Army.

These measures and provisions contained in here will help defend the United States and the Asia-Pacific region from the looming threats to our national security, in particular the region right now in the Korean Peninsula, which I believe deserves our Nation's critical attention.

I am happy also to support the Republican efforts to deploy a comprehensive missile defense system. As the Representative from Hawaii, the one region which is in the flight arc of North Korea's ballistic missiles, this is an important development and something that I encourage the United States Congress to continue to develop further.

Mr. ANDREWS. Mr. Chairman, I am pleased to yield 1 minute to my friend, the gentleman from California (Mr. MCNERNEY), who has worked very hard on the issue of special combat pay for those facing the fierce actions we are engaged in.

Mr. MCNERNEY. Mr. Chairman, last year I was in Afghanistan. Some paratroopers were transporting me outside the city of Kandahar, and one of them stopped and turned to me and said, Are you a Congressman? I said yes. He said, Can you help us? We haven't had a pay raise in 10 years. I said, Can I help you? You bet I can.

Upon returning, I introduced the COMBAT Act to increase specialty pay for troops serving overseas and separated from their families. Over the past several months, I have worked to incorporate hostile fire, imminent danger, and family separation allowance pay increases into the 2011 National Defense Authorization Act. This increase will help hundreds of thousands of servicemembers and their families.

Our servicemembers and their families have made enormous sacrifices to keep us safe. They deserve this pay raise, and I am proud to see that the increases are included in the 2011 defense authorization bill.

Thank you, Mr. Chairman, for your efforts, and for working with me on this issue, and for all the work that

you have done for our Armed Forces. I support this important legislation.

Mr. MCKEON. I yield myself the balance of my time.

Mr. Chairman, many of the Members on our side have been talking about the Murphy amendment that will be coming up later today. We were concerned that we were only given 10 minutes to debate that amendment, something that will be very far-reaching, very important to all of the members of the armed services and to the country. I would like to talk just a little bit about the process that we have been going through this year.

Earlier this year, the President, in his State of the Union speech, told the Nation that he wanted to see Don't Ask, Don't Tell repealed by the end of the year. The Secretary, in responding to the President's message, put a process in place, a process that would give to the Congress a report covering many items.

In March, the Secretary selected General Ham and Jeh Johnson, Defense Counsel for the Defense Department, two very good men, men of high integrity, men that have taken this responsibility very seriously. I met with them, and I talked to them about the process, about what they were going to do, how they would work to make it fair.

This month, just a couple of weeks ago, they have let a contract to Westat, a Rockville-based firm that has done survey work for the Defense Manpower Data Center to conduct surveys on military personnel, military spouses, and the comprehensive review working group. They have set their criteria on how they are going to move forward on this survey.

They will sample 350,000 members of the military and their families. They will survey 100,000 active duty military, 70,000 of their spouses, 100,000 of the Reserve component military, and 80,000 of their spouses. The sample size will be dictated by randomized statistically valid responses from various subelements of each component. Servicemembers will be asked to respond by mid-July, spouses by the end of August. They will develop and identify the sample of servicemembers and spouses.

I specifically asked them if they would reach out to make sure that all members were represented, which is what they are going to do. They are going to set up a system whereby members of the military who may be homosexual will be able to have their feelings known and keep their confidence. That report, as they have been set out now to work on, will reach out to the military.

They will then report back to us no later than the first of December, and at that point we are asked to move forward.

I have a letter here from Secretary Gates that says in part, I believe in the strongest possible terms that the department must, prior to any legislative

action, be allowed the opportunity to conduct a thorough, objective, and systematic assessment of the impact of such a policy change; develop an attentive, comprehensive implementation plan, and provide the President and the Congress with the results of this effort in order to ensure that this step is taken in the most informed and effective manner.

Mr. Chairman, I include for the RECORD the entire letter from Admiral Mullen and Secretary Gates.

THE SECRETARY OF DEFENSE,
Washington, DC, April 30, 2010.

Hon. IKE SKELTON,
Chairman, Committee on Armed Services, House
of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: I am writing in response to your letter of April 28 requesting my views on the advisability of legislative action to repeal the so-called "Don't Ask Don't Tell" statute prior to the completion of the Department of Defense review of this matter.

I believe in the strongest possible terms that the Department must, prior to any legislative action, be allowed the opportunity to conduct a thorough, objective, and systematic assessment of the impact of such a policy change; develop an attentive comprehensive implementation plan, and provide the President and the Congress with the results of this effort in order to ensure that this step is taken in the most informed and effective manner. A critical element of this effort is the need to systematically engage our forces, their families, and the broader military community throughout this process. Our military must be afforded the opportunity to inform us of their concerns, insights, and suggestions if we are to carry out this change successfully.

Therefore, I strongly oppose any legislation that seeks to change this policy prior to the completion of this vital assessment process. Further, I hope Congress will not do so, as it would send a very damaging message to our men and women in uniform that in essence their views, concerns, and perspectives do not matter on an issue with such a direct impact and consequence for them and their families.

Adm. MICHAEL G. MULLEN,
Chairman of the Joint Chiefs of Staff.
ROBERT M. GATES,
Secretary of Defense.

Mr. ANDREWS. Mr. Chairman, I yield 1 minute to the gentleman from Oregon (Mr. SCHRADER) to talk about his ideas to help improve health care for those who serve in our National Guard.

Mr. SCHRADER. Mr. Chairman, I am here offering an amendment in the Defense reauthorization bill for 2011 because of some of the treatment that Oregon, Washington, California, Arizona, Nevada, Maryland, and Vermont Guardsmen may have received when they got back from tours in Iraq and Afghanistan this spring.

The National Guard and the Army have been fighting side-by-side through nearly 9 years of war. It is time to make a full assessment of the treatment our National Guard soldiers receive when they get home.

My first amendment directs the Department of Defense Inspector General to report back to Congress by the end of the year on the treatment and medical care our National Guard soldiers receive in comparison to regular Army.

The second amendment requires the Secretary of Defense to provide each member of the National Guard with a clear and comprehensive statement of the medical care and treatment they are entitled to receive. When they are in theater, the Army makes no distinction between the National Guard, Army Reserves, and regular Army soldiers. There should be no distinction in the care when they return home.

I ask the House to continue this work by supporting my amendments.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Missouri (Mr. SKELTON).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. ANDREWS. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Missouri will be postponed.

AMENDMENT NO. 2 OFFERED BY MR. BARTLETT

The Acting CHAIR. It is now in order to consider amendment No. 2 printed in House Report 111-498.

Mr. BARTLETT. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 2 offered by Mr. BARTLETT:

Page 28, after line 3, insert the following:
SEC. 113. LIMITATION ON USE OF FUNDS FOR LINE-HAUL TRACTORS.

(a) LIMITATION.—None of the funds authorized to be appropriated by section 101(5) for other procurement, Army, may be obligated or expended by the Secretary of the Army for line-haul tractors unless the source selection is made based on a full and open competition.

(b) WAIVER.—The Secretary of the Army may waive the limitation under subsection (a) if the Secretary certifies to the congressional defense committees by not later than 90 days after the date of the enactment of this Act that a sole source selection—

(1) is needed to fulfill mission requirements; or
(2) is more cost effective than a full and open competition.

The Acting CHAIR. Pursuant to House Resolution 1404, the gentleman from Maryland (Mr. BARTLETT) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Maryland.

Mr. BARTLETT. Mr. Chairman, we have noted two concerns relative to the Army Reserve line-haul tractors. The first concern is that they are procuring these tractors sole-source, without the benefits and advantages of full and open competition; and, secondly, their procurement is way, way, behind the need. They are in fact about 1,000 tractors short. So I have a very simple amendment which addresses these two concerns:

(A) Congressional encouragement of full and open competition. Congress encourages the Secretary of the Army to

use full and open competition for the M915 tractor-trailer program beginning in fiscal year 2012; and,

(B) Report. Not later than February 15, 2011, the Secretary of the Army shall submit to the congressional defense committees a report on line-haul tractors, including possible courses of action that would accelerate meeting the line-haul tractor requirement of the Army Reserve.

We have vetted this with the Army Reserves, Mr. Chairman, and they are in support of it. I encourage a "yes" vote on this.

I yield back the balance of my time.
Mr. ANDREWS. Mr. Chairman, I rise to claim the time in opposition, although I do not oppose the amendment.

The Acting CHAIR. Without objection, the gentleman from New Jersey is recognized for 5 minutes.

There was no objection.

Mr. ANDREWS. Mr. Chairman, I rise in support of the amendment. It is a very well-thought-out amendment that encourages competition, which will be a service to the servicemembers of our country, as well as to our taxpayers. We thank the gentleman from Maryland for offering it and would urge Members to support it.

I yield back my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Maryland (Mr. BARTLETT).

The amendment was agreed to.

Mr. ANDREWS. Mr. Chairman, pursuant to section 3 of House Resolution 1404, as the designee of the chairman of the Committee on Armed Services, I request that during further consideration of H.R. 5136 in the Committee of the Whole and following consideration of Amendment No. 82 printed in House Report 111-498, the following amendments be considered: en bloc No. 3, followed by en bloc No 4.

"44. Annual Leave for Family of Deployed Members of the Uniformed Services 4401."

The Acting CHAIR. Pursuant to House Resolution 1404, the gentleman from Washington (Mr. SMITH) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Washington.

Mr. SMITH of Washington. Mr. Chairman, I rise to offer an amendment regarding military family leave. This committee and this body has, in the past, taken great steps to make sure that our military families, when they're deployed, they have and do qualify for the Military Family Leave Act. Unfortunately, there are some specifics of the military family—sorry, of the Family Leave Act—that leave out some of our military personnel when they are deployed because of the jobs that they have. They do not qualify for the existing Family Leave Act.

What this amendment does is it makes sure that all military personnel, even if they don't qualify for the Family and Medical Leave Act, will have the ability to take at least—I'm sorry, the spouses, children and parents of our military personnel, will have the ability to take at least 2 weeks of unpaid leave when a servicemember receives a notification or order to active duty in support of a contingency operation or is deployed in connection with such an operation.

One of the things that we've really struggled to deal with is the amount that we have asked of the members of the Guard and Reserve. They have been deployed far more since 9/11 than they ever were before, and that has a tremendous impact on their families.

Now, the Guard and Reserve has performed an unbelievable service to this country. Every time I travel abroad, go to Iraq and Afghanistan and meet members of the Guard and Reserve who are serving over there, I come away enormously impressed with their immense dedication and the job they're doing on our behalf. They continue to do it. They continue to sign up. Recruitment and retention are at all-time highs. They are absolutely committed to serving this country.

But they also need our help and support because members of the Guard and Reserve typically have families and jobs here at home, and that is disrupted every time they're called up and sent overseas. This is one small way that we can help them deal with that disruption, by making sure that their loved ones qualify for the Family Medical Leave Act.

This would be unpaid leave, but it would make sure that they have the time to help support their loved one who is being deployed.

I ask the body to support this amendment.

Mr. Chair, I reserve the balance of my time.

Mr. MCKEON. Mr. Chairman, I rise to claim the time in opposition, although I do not oppose the amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. MCKEON. Mr. Chairman, continuing my earlier comments, I was right in the middle of a letter by Secretary Gates. I will catch everybody up to speed.

The Secretary said, prior to any legislative action, the military should be allowed the opportunity to conduct a thorough, objective, and systematic assessment of the impact of such a policy change, develop an attentive comprehensive implementation plan, and provide the President and the Congress with the results of this effort in order to ensure that this step is taken in the most informed and effective manner.

I'm inserting some of my own language now. I would like to say that we will be asked to vote on an amendment later today without having the value and the important information that would come from this, without being able to act in a most informed and effective manner.

The Secretary goes on to say a critical element of this effort is the need to systematically engage our forces, their families and the broader military community throughout the process. Our military must be afforded the opportunity to inform us of their concerns, insights, and suggestions if we are to carry out this change successfully. Therefore, I strongly oppose any legislation that seeks to change this policy prior to the completion of this vital assessment process.

Further, I hope Congress will not do so, as it would send a very damaging message to our men and women in uniform that, in essence, their views, concerns, and perspectives do not matter on an issue with such a direct impact and consequence for them and their families.

Now, Mr. SKELTON, chairman of the committee, spoke to the Secretary 2 days ago, and the Secretary said, I stand by my letter.

Next I have a letter from Admiral Roughead, Chief of Naval Operations. I spoke to each of the chiefs day before yesterday, I believe it was, on May 26, and he sent a letter, part of which says, I share the view of Secretary Gates that the best approach would be to complete the DOD review before there's any legislation to change the law. My concern is that legislative changes, at this point, regardless of the precise language used, may cause confusion on the status of the law in the fleet and disrupt the review process itself by leading sailors to question whether their input matters.

Obtaining the views and opinions of the force and assessing them in light of the issues involved will be complicated by a shifting legislative backdrop and its associated debate.

The admiral told me he was very concerned about what it would do in the force, the confusion that would be caused, and losing the credibility, actually, of him and his colleagues, because they have gone out. Based on what the President said, based on what the Secretary said earlier this year, they have gone to the force and told them they would be involved in this process; and it breaks faith with them and the things that they have tried to tell the force.

I will read General Schwartz's letter. General Schwartz is the Chief of the Air Force. He said, I believe it's important, a matter of keeping faith with those currently serving in the Armed Forces, that the Secretary of Defense commission review be completed before there is any legislation to repeal the Don't Ask, Don't Tell law, which is the Murphy amendment which we'll be discussing and voting on later today or tomorrow.

Such action allows me to provide the best military advice to the President and sends an important signal to our airmen and their families that their opinion matters. To do otherwise, in my view, would be presumptive, and would reflect an intent to act before all relevant factors are assessed, digested and understood.

I yield back the balance of my time. Mr. SMITH of Washington. Mr. Chairman, I will assume that there is support for my amendment. I just want to quickly address what Mr. MCKEON has said on two levels. First of all, the amendment that we will be voting on later today on Don't Ask, Don't Tell specifically leaves it in the hands of the Secretary of Defense and the Chairman of the Joint Chiefs of Staff to be the one who will chair the policy. The policy will not be changed as a result of the amendment that we are passing. It will meet, absolutely, the requirement that the Secretary of Defense and others have put out to get input from the Armed Forces. And it will not, let me repeat, will not be changed until the Secretary of Defense and the Chairman of the Joint Chiefs of Staff certify that change. They will have to certify it before we go forward.

Second of all, this policy, Don't Ask, Don't Tell, this ridiculous policy that has driven people out of the military who are only too anxious to serve, has been in existence for 16 years.

And I cannot speak for the gentleman from California, but I have spoken to many members of the Armed Forces during the course of that 16-year period about this policy, as I'm sure others have. So the main thing I object to is the characterization that the men and women of our Armed Forces have been left out of this debate. Nothing could be further from the truth. We've had 16 years, and a year and a half since President Obama said that he felt the policy should be changed, to have those conversations, and we're having them. And again, we will continue to have them, even after Congress pulls itself out of this policy. We're the ones who inserted ourselves into the debate by passing it in the first place 16 years ago. This will now go back to the Secretary of Defense to have precisely those conversations that Mr. MCKEON wants them to have. And I'm sure that they will.

I yield the balance of my time to the gentleman from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. I think that the process that my friend from California

lays out is a correct one, that there should be wide solicitation of views from those who wear the uniform, and there will be.

And the amendment that Mr. MURPHY will be offering later today simply says this: If, after that process the Secretary of Defense and the Chairman of the Joint Chiefs Staff believe that the evidence shows that implementation of the repeal would undercut the readiness or effectiveness of our troops, they will not certify that the policy should be put into effect, and it won't be. The Secretary has repeatedly said, Admiral Mullen has repeatedly said the question is not whether repeal should take place, but how.

Mr. MURPHY's amendment will set up a rational process for that to take place. I believe it's the right thing to do, and I support Mr. SMITH's amendment which is before us right now.

Mr. SMITH of Washington. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Washington (Mr. SMITH).

The amendment was agreed to.

AMENDMENT NO. 4 OFFERED BY MR. MARSHALL

The Acting CHAIR. It is now in order to consider amendment No. 4 printed in House Report 111-498.

Mr. MARSHALL. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 4 offered by Mr. MARSHALL:

Page 122, after line 18, insert the following:

SEC. 359. SENSE OF CONGRESS REGARDING FIRE-RESISTANT UTILITY ENSEMBLES FOR NATIONAL GUARD PERSONNEL IN CIVIL AUTHORITY MISSIONS.

It is the sense of Congress that the Chief of the National Guard Bureau should issue fire-resistant utility ensembles to National Guard personnel who are engaged, or likely to become engaged, in defense support to civil authority missions that routinely involve serious fire hazards, such as wildfire recovery efforts.

The Acting CHAIR. Pursuant to House Resolution 1404, the gentleman from Georgia (Mr. MARSHALL) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Georgia.

Mr. MARSHALL. Mr. Chairman, this is a pretty simple amendment. We give fire retardant uniforms to all soldiers deploying to our combat zones. National Guard soldiers here in the United States do not have fire retardant uniforms, for the most part. And yet some National Guard soldiers, as an ordinary part of their duties, are exposed to fire hazards.

The amendment's pretty simple. It simply says we acknowledge that there's a cost issue associated with the issuing of fire retardant uniforms to all of our National Guard soldiers here in the United States. But at least we

should encourage the Guard to consider issuing those uniforms to those soldiers who, as a normal course of their duties, from time to time are exposed to fire hazards. And I hope that everybody would agree that that's a wise thing for us to do.

I reserve the balance of my time.

Mr. McKEON. Mr. Chairman, I rise to claim the time in opposition. I will not oppose the amendment. I will support the amendment as a good member of the committee.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. McKEON. Mr. Chair, we do have other things we can talk about here today, and seeing how the Rules Committee didn't give us time to fully debate the Murphy amendment on Don't Ask, Don't Tell, we will use the time for that.

I yield 2 minutes the gentleman from Colorado (Mr. COFFMAN), a member of the committee.

□ 1445

Mr. COFFMAN of Colorado. Mr. Chairman, I rise in support of the amendment offered and in support of the bill as well, the defense authorization bill as well, but in opposition certainly to the Murphy amendment on the Don't Ask, Don't Tell, reversing Don't Ask, Don't Tell.

One thing that I think hasn't been raised, certainly what the amendment states is that the Congress of the United States will in fact delegate to the Department of Defense, to the Secretary of the Department of Defense and to the Chairman of the Joint Chiefs of Staff, the ability to simply do the assessment based on the survey to make that decision. But I think the reality is, unfortunately, these are not independent positions.

The President, at the end of the day, is the Commander in Chief, and the Secretary of Defense and the Chairman of the Joint Chiefs of Staff report to the Commander in Chief. So I question the ability for them to make an independent decision. This policy was put in place by the Congress of the United States, and it ought to be the Congress of the United States that ultimately repeals it based on the findings of the study for which I believe that we have the responsibility to review.

So I would hope that we would, in fact, vote down the Murphy amendment, do our job in terms of reviewing the findings of the views of the men and women of the Armed Forces of the United States that this study is, in fact, to put forward their concerns about the challenges of reversing the Don't Ask, Don't Tell policy. Then, upon our reading of that information, we will then make an informed decision going forward as to whether or not we will reverse this policy or we will continue this policy or we will, in fact, reform this policy in some other way. But it is wrong for us to delegate this

to somebody else, and I believe, again, we should vote down the Murphy amendment.

Mr. MARSHALL. I agree with Mr. COFFMAN, who cochairs, along with me, the Balanced Budget Caucus. I agree with him on both counts: one, that I have got a good amendment here, and that we ought not to pass the Murphy amendment.

I think everybody understood the course that we were headed on with regard to Don't Ask, Don't Tell was for the military to do a study of the issue, give the study to us, we look at the study and then make a decision. We don't have the results of the military's analysis. What we do have is pretty well expressed concerns by the service Chiefs of each one of our branches that we ought not to move forward, that we are getting the cart before the horse here on this issue.

It seems to me we have been committed for some time to a course where we are going to look at the information and then make the decision. This reverses that course. I think it's a mistake.

As long as we are talking about different issues here, I would like to talk about the F-35 alternate engine as well. We cochair, Mr. COFFMAN, the Balanced Budget Caucus. We are both very concerned about unnecessary expenditures.

I talked to a retired commodore recently. He was an F-16 pilot. They had a squadron where pretty routinely only four to six of their jets would operate, and it was engine problems. At the time they were having those problems, it was sole sourced. When competition was injected, the effect of competition was that all of a sudden the engines that we were getting improved in quality dramatically. So competition is good for the soul.

We actually have a statute that requires competition. If we follow our own law, we will insist upon competition for the engines where the F-35 is concerned. But there is a specific example of competition working where jet engines are concerned, and it's the F-16 and the reliability of the F-16. GAO did a study of the cost savings associated with this and concluded it was 21 percent.

Bottom line, there is not a good argument, except for near-term dollar issues, there is not a single good argument why we wouldn't have competition where the F-35 engine is concerned.

I appreciate the ranking member and the chairman of this committee and both of the relevant subcommittees strongly supporting having competition where the F-35 engine is concerned. I appreciate the support that I have received for my amendment with regard to National Guard uniforms.

I reserve the balance of my time.

Mr. McKEON. Mr. Chairman, I yield myself the balance of my time.

I thank the gentleman for his agreement with us on this issue, where we

had a process set up. The process was set up by the Secretary in conformance with the President's wishes, and the thing that they thought was very important was having the input from those who would be most affected.

In talking to the Chiefs yesterday, one of them made the comment to me, in addition to the letters, he says, Hey, I understand the politics. I understand what's going on here. And he said, The amendment is very cleverly written. It says nothing will be done to implement this until the study is done. However, the headline will be "Don't Ask, Don't Tell Repealed." He says, I understand how that works. But the guy that's out on an FOB in Afghanistan is going to get the headline and he is going to then, when somebody may send him a survey, he is going to say, What is this? I know this is already decided. I mean, we ought to treat this like it really is.

Many of your Members, I have been on the floor the whole day, I have listened to this debate, and I was also in the Rules Committee yesterday and heard it, and many of your Members say this repeals Don't Ask, Don't Tell. This is it. And then some of your Members are saying, Well, it doesn't really do anything. It just kind of moves the ball down the field. Then why are we doing the debate? I think be honest in what this really does. This precludes the study, the study we just hired that we are going to pay good money for and we are going to hear from the troops, but they are going to know that their wishes or their desires or their comments or their participation is folly because the decision's already made.

What it's supposed to be was we found out, we went out and did the study, then it comes back and came to us with the Chief's and the Secretary's recommendations, and then we do have a responsibility here. We do pass the laws. And we are giving up that responsibility today by voting on something without the complete information. And we're dising the troops. That's what we're doing. We're disrespecting them.

And as some of the chairmen said to me yesterday, it's going to cause confusion in the force, and we don't keep faith with those who are putting their lives on the line every day for us. And especially this committee. This committee should stand for the force. This committee should stand for the troops. This should have been discussed in our committee before it came to the full floor.

I yield back the balance of my time.

Mr. MARSHALL. I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Georgia (Mr. MARSHALL).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. MARSHALL. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by

the gentleman from Georgia will be postponed.

Mr. SKELTON. Mr. Chairman, pursuant to section 4 of House Resolution 1404, I hereby give notice that amendments number 21, 42, 47 may be offered out of order.

The Acting CHAIR. Duly noted.

AMENDMENT NO. 63 OFFERED BY MR. MCMAHON OF NEW YORK

The text of the amendment is as follows:

Page 389, after line 7, insert the following:
SEC. 1025. EXPRESSING THE SENSE OF CONGRESS REGARDING THE NAMING OF A NAVAL COMBAT VESSEL AFTER FATHER VINCENT CAPODANNO.

(a) FINDINGS.—Congress makes the following findings:

(1) Father Vincent Capodanno was born on February 13, 1929, in Staten Island, New York.

(2) After attending Fordham University for a year, he entered the Maryknoll Missionary Seminary in upstate New York in 1949, and was ordained a Catholic priest in June 1957.

(3) Father Capodanno's first assignment as a missionary was working with aboriginal Taiwanese people in the mountains of Taiwan where he served in a parish and later in a school. After several years, Father Capodanno returned to the United States for leave and then was assigned to a Maryknoll school in Hong Kong.

(4) Father Vincent Capodanno volunteered as a Navy Chaplain and was commissioned a Lieutenant in the Chaplain Corps of the United States Naval Reserve in December 28, 1965.

(5) Father Vincent Capodanno selflessly extended his combat tour in Vietnam on the condition he was allowed to remain with the infantry.

(6) On September 4, 1967, during a fierce battle in the Thang Binh District of the Que-Son Valley in Vietnam, Father Capodanno went among the wounded and dying, giving last rites and caring for the injured. He was killed that day while taking care of his Marines.

(7) On January 7, 1969, Father Vincent Capodanno was awarded the Medal of Honor posthumously for comforting the wounded and dying during the Vietnam conflict. For his dedicated service, Father Capodanno was also awarded the Bronze Star, the Purple Heart, the Presidential Unit Citation, the National Defense Service Medal, the Vietnam Service Medal, the Vietnam Gallantry Cross with Palm, and the Vietnam Campaign Medal.

(8) In his memory, the U.S.S. Capodanno was commissioned on September 17, 1973. It is the only Naval vessel to date to have received a Papal blessing by Pope John Paul II in Naples, Italy, on September 4, 1981.

(9) The U.S.S. Capodanno was decommissioned on July 30, 1993.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of the Navy should name a combat vessel of the United States Navy the "U.S.S. Father Vincent Capodanno", in honor of Father Vincent Capodanno, a lieutenant in the Navy Chaplain Corps.

AMENDMENT NO. 70 OFFERED BY MR. TONKO OF NEW YORK

The text of the amendment is as follows:

Page 79, after line 6, insert the following:

SEC. 244. SENSE OF CONGRESS AFFIRMING THE IMPORTANCE OF DEPARTMENT OF DEFENSE PARTICIPATION IN DEVELOPMENT OF NEXT GENERATION SEMICONDUCTOR TECHNOLOGIES.

(a) FINDINGS.—Congress makes the following findings:

(1) The next generation of weapons systems, battlefield sensors, and intelligence platforms will need to be lighter, more agile, consume less power, and have greater computational power, which can only be achieved by decreasing the feature size of integrated circuits to the nanometer scale.

(2) There is a growing concern in the Department of Defense and the United States intelligence community over the offshore shift in development and production of high capacity semiconductors. Reliance on pro-

viders of semiconductors in the United States high tech industry will mitigate the security risks of such an offshore shift.

(3) The use of extreme-ultraviolet lithography (EUVL) is recognized in the semiconductor industry as critical to the development of the next generation of integrated circuits.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States should establish research and development facilities to take the lead in producing the next generation of integrated circuits;

(2) the Department of Defense should support the establishment of a public-private partnership of defense laboratory scientists and engineers, university researchers, integrated circuit designers and fabricators, tool manufacturers, material and chemical suppliers, and metrology and inspection tool fabricators to develop extreme-ultraviolet lithography (EUVL) technologies on 300 micrometer and 450 micrometer wafers; and

(3) the targeted feature size of integrated circuits for EUVL development in the United States should be the 15 nanometer node.

The Acting CHAIR. Pursuant to House Resolution 1404, the gentleman from Missouri (Mr. SKELTON) and the gentleman from California (Mr. MCKEON) each will control 10 minutes.

The Chair recognizes the gentleman from Missouri.

Mr. SKELTON. Mr. Chairman, I urge the committee to adopt the amendments en bloc, all of which have been examined by both the majority and the minority.

Mr. Chairman, I yield 2 minutes to my friend and colleague, the gentleman from Texas (Ms. JACKSON LEE).

(Ms. JACKSON LEE of Texas asked and was given permission to revise and extend her remarks.)

Ms. JACKSON LEE of Texas. First I would like to take the opportunity to salute my dear friend, Chairman SKELTON, for being the kind of leader on a committee as challenging as providing for the men and women of the United States military, to ensure the listening ear to those of us who represent soldiers and their families across America. I think our State of Texas can count itself as having the highest population, one of the highest populations of current and active duty military as well as veterans. I thank the ranking member for his leadership.

In saying that, before we honor them on Memorial Day, I believe that this legislation is a tough initiative on providing for the families and the men and women of the United States military. I also think it's important to note that the Defense Department can be a job creator, create opportunities for Americans across this Nation. And my amendment simply asks that a report be provided to the Congressional Black Caucus towards establishing a report on the numbers of small, medium, minority and women-owned businesses that are doing business with the Defense Department. There are 57.4 million Americans employed by small businesses.

This amendment will be beneficial to small businesses by providing cohesive information in this sector and by en-

couraging and strengthening competition between businesses. More importantly, with this report I would like to encourage the Department of Defense to get out beyond the Beltway and to establish outreach centers or outreach programs that would explain to these small businesses, whether in Appalachia or whether in the Delta, whether in Houston, whether in urban centers, how to do business effectively, efficiently, and with integrity with the Department of Defense. This amendment creates jobs.

And as I look for greater opportunities, Mr. Chairman, I would like to add that I believe that we are moving in the right direction to eliminate Don't Ask, Don't Tell. To my dismay, it has been characterized as breaking a trust, a breach of our responsibility to our military. It is not. It is giving everyone a chance to be an American, to swear to the oath of service. I believe it's an important step for liberty in our Nation.

Mr. MCKEON. Mr. Chair, I rise in opposition to the amendment, although I will not oppose the amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 10 minutes.

There was no objection.

Mr. MCKEON. Mr. Chairman, I am happy to yield 3 minutes to the gentleman from Texas (Mr. SESSIONS).

Mr. SESSIONS. Mr. Chairman, I appreciate and respect the debate that's going on today, and I want to thank the Rules Committee for making in order an amendment to this bill.

Mr. Chairman, currently private health care providers are treating brain injury patients with new and innovative treatments with remarkable results. And I am disappointed, however, to report that many of these treatments are currently not available within the military and veterans medical facilities across this country for our heroes who are suffering from traumatic brain injuries.

I have engaged the military now at the senior military leadership for quite some time, and I am not satisfied with the military's response to TBI, traumatic brain injuries. With that said, in an effort to further aid our military members and to fix this delinquency, I introduced the TBI, Traumatic Brain Injury, Treatment Act, H.R. 4568, in February of this year. I am offering it as an amendment today.

The TBI Treatment Act establishes a 5-year pay for performance pilot program. Essentially, what would happen is that any member of the military or who is being treated today by the Veterans' Administration would be able to ask for being able to go outside the military system to a private or free enterprise market system and to be able to have the latest innovative procedures applied to them.

Private health care providers would be authorized and reimbursed to provide proven treatments to active duty soldiers and veterans at no cost to the

patient. I believe, and I believe the Members of this body believe, that it is important to work with the military leadership however they need help in getting to the correct answer.

□ 1500

I am asking for each of us today as Members to look very carefully at this issue and to join me in supporting this amendment. This amendment helps to expedite these groundbreaking treatments to make sure that, effective immediately and quickly, our Nation's veterans, who are suffering from TBI and the myriad of problems that come with that, will receive the most leading-edge answers available in medicine today.

So I ask my colleagues to please join with me in this bipartisan amendment.

Mr. Chairman, I also note as I stand that I am opposed to the provisions known as Don't Ask, Don't Tell changes. Yesterday at the Rules Committee we had a rather vigorous debate, and at the end of that debate when I had an opportunity to talk with members of the committee who were there, I said, Please tell me about the debate that took place in the committee. There was none. It should have been in the committee.

The Acting CHAIR. The time of the gentleman has expired.

Mr. MCKEON. I yield the gentleman 1 additional minute.

Mr. SESSIONS. Mr. Chairman, I believe that this issue really demanded an opportunity for the members of the Armed Services Committee to fully debate and vet and lead the way on this issue rather than it being part of a political issue that is dominated by the Democratic Party.

I believe that the members of the military, honored heroes of this great Nation, should not be a part of a political agenda but rather be a part of good policy for this Nation. I think it's a slap in the face to the members of the military to be driven down a road that is driven by a political agenda from the left in this country rather than wise policy. I am disappointed. I related that to the committee and its leadership yesterday, and I will say it on the floor of the House today, that I believe that when we go forth in dealing with the military, we should go forth altogether and not as a political agenda.

Mr. SKELTON. I yield 1 minute to my colleague, the gentleman from New York (Mr. MCMAHON).

Mr. MCMAHON. Mr. Chairman, I thank you for the minute. I have a longer statement which I will submit to the RECORD.

I rise today to urge my colleagues to adopt the sense of Congress in this amendment which would recognize Father Vincent Robert Capodanno, a decorated hometown hero from my district in Staten Island, in Brooklyn, New York, for his military accomplishments and his commitment to faith. We would like the Department of the Navy to commission a Navy destroyer in his name.

Father Capodanno, to put it in summation, received a Congressional Medal of Honor for his heroism in the line of fire in Vietnam. He was sent there as a chaplain, but he quickly became much more than a chaplain as he became the friend and accompanier of every soldier on the battlefield.

He could have come home after a year's service, but instead he stayed and earned the name of "the grunt padre," because with his fellow Marines, he raced into battle and was at their side all the way.

On the morning of September 4, 1967, during Operation Swift in the Thang Binh district of the Que Son Valley, the 1st Battalion, 5th Marines encountered a large North Vietnamese unit of approximately 2,500 men.

The Acting CHAIR. The time of the gentleman has expired.

Mr. SKELTON. I yield the gentleman an additional 15 seconds.

Mr. MCMAHON. On that day, Father Capodanno lost his life. He could have come home. But as a great priest, as a great man of faith, he stayed by his fellow soldiers and gave his life that day. He won the Congressional Medal of Honor. We are asking the Navy to name a ship after him. I thank the chairman.

Mr. Chair, I urge my colleagues to adopt a sense of Congress recognizing Father Vincent Robert Capodanno, a decorated hometown hero from my district for his military accomplishments and commitment to his faith. We would like the Department of Navy to commission a Navy Destroyer in his name.

On June 7, 1957, Father Capodanno was ordained by the late Cardinal Spellman and shortly after, fervently devoted eight years of Catholic Missionary service to the needy peoples of Taiwan and Hong Kong.

Volunteering his services as Navy Chaplain on December 28, 1965, Father Capodanno received his commission as a Lieutenant in the Chaplain Corps of the United States Naval Reserve.

After completing orientation at the Naval Chaplain's School, Newport, Rhode Island, Lieutenant Capodanno requested duty with the Marines in Vietnam.

His first assignment was the First Marine Division in 1966, where he immediately began making his presence in the combat operation of Chu Lai a regular part of his duties as Battalion Chaplain.

To stay with his men, Chaplain Capodanno relinquished thirty days of Christmas holiday leave and after serving one year, he extended his tour of duty for six months as the condition that he be allowed to remain with the infantry.

Father Capodanno's greatest desire was just that—to remain with his troops and to give them moral support.

Then on the morning of September 4, 1967, the decision was no longer his to make. During Operation Swift in the Thang Binh District of the Que Son Valley the 1st battalion, fifth Marines encountered a large North Vietnamese unit of approximately 2500 men.

Father Capodanno went among the wounded and dying, giving last rites and taking care of his Marines. Wounded once in the face and having his hand almost severed, he went to help a wounded corpsman only yards from an enemy machinegun and was killed.

For his selfless acts and bravery beyond the call of duty, a man fellow marines referred to on the battlefield as the "the 'grunt' padre," Father Vincent R. Capodanno was awarded the Medal of Honor posthumously.

In 1973, Father Capodanno had a ship commissioned in his honor. The USS *Capodanno's* lifespan was just as decorated as her namesake's, being the only naval vessel to be blessed by the Pope and saving approximately 22 lives in her first deployment as a search and rescue vessel in the Mediterranean. Unfortunately, this ship was decommissioned and then sold to Turkey in 2005.

Today, Father Capodanno's legacy in the Navy goes untold. The people of New York's 13th District and I would be incredibly honored if the Department of Navy the recognize these amazing accomplishments by commissioning the next Navy Destroyer in the memory of Father Capodanno, an American Hero.

Mr. MCKEON. Mr. Chairman, I yield 3 minutes to the gentleman from Indiana (Mr. BURTON).

Mr. BURTON of Indiana. I thank Mr. MCKEON and Chairman SKELTON for allowing our amendment to be a part of this en bloc amendment. Congresswoman NAPOLITANO and I introduced this amendment, and we have, I think, 57 or 58 cosponsors. And I'd like to tell the Members why this is such an important amendment.

Last summer, a 25-year-old Hoosier Army specialist on his second tour of duty in Iraq named Chancellor Keesling died by suicide in Baghdad. His mother and father went to Dover Air Force base, and they received their son. He got a full military honor burial and a 21-gun salute. The family received all kinds of letters of condolence from the Secretary of the Department of Veterans Affairs and a three-star general, but they did not receive any kind of a comment or letter of condolence from the President of the United States, the Commander in Chief. And I think it's very important that this policy be changed.

It's been the policy for a long time that if a person dies by suicide in the military, the Commander in Chief does not send a letter of condolence to the family. But the family's the one that's really suffering. And right now with members of the military serving one, two, and maybe even three tours of duty in Afghanistan or Iraq or around the world, there's tremendous pressure on them. Tremendous pressure. And a lot of them succumb to the pressures and commit suicide.

Now this is not an isolated case. In 2008, there were 260 suicides, 140 in the Army; 41 in the Navy, 38 in the Air Force and 41 in the Marines. In 2009, it was 160 in the Army, 47 in the Navy, 34 in the Air Force and 42 in the Marines. And so far this year, 71 young men and women have committed suicide in the military.

And I think it's only fitting and proper that the Commander in Chief, the President of the United States, who sends these young people into combat for extraordinarily long periods of time, ought to understand that the

grieving families, like the Keeslings, deserve a letter from the Commander in Chief saying we understand the pressure that your son or daughter was under. We understand that they served their country well, and we want to express condolence to you for your loss and for the service they gave their country. After all, they voluntarily joined the service. They voluntarily served in combat and in combat areas. And because they couldn't handle the pressure, over months and months and sometimes years, they succumbed to that pressure. They should still receive condolence from the Commander in Chief.

And I want to thank once again the ranking member and the chairman of the committee for supporting this, and I hope that the President, after this resolution is passed en bloc with the other amendments, will see fit to send letters of condolence to every young man and woman's family who died in the service of their country, whether they died in combat or by their own hand.

Mr. SKELTON. I yield 1 minute to my friend, the gentleman from Rhode Island (Mr. KENNEDY).

Mr. KENNEDY. I want to thank the gentleman from Indiana, Mr. BURTON, for his work on this, acknowledging the families of those who have died really in combat, because these suicides are a result of combat.

And the greatest signature wound in this war on terrorism in Iraq and Afghanistan is a wound that involves both the psyche with traumatic brain injury, with the concussions they are serving as a result of these IEDs—improvised explosive devices—and the stress and strain of constantly worrying about your life being in jeopardy, which is posttraumatic stress.

And there's nothing that is abnormal about having the stress of worrying about your life being taken, and these people have to live with it constantly nonstop because this country keeps asking them to go back and back and back and back again.

This is something that's long overdue. I thank the gentleman from Indiana. Let's study, let's serve, let's make the commitment not to forget the families left behind as a result of these terrible tragedies.

Mr. McKEON. May I inquire as to how much time we have left.

The Acting CHAIR. The gentleman has 3 minutes remaining; the gentleman from Missouri has 5¾ minutes remaining.

Mr. McKEON. I reserve the balance of my time.

Mr. SKELTON. I yield 2 minutes to my friend and colleague, the gentleman from New York (Mr. TONKO).

Mr. TONKO. My amendment, to which I would like to speak, encourages the Department of Defense to help develop the next generation of semiconductors. It allows us to embrace the American intellect and put it into an investment towards better outcomes in our military.

These new technologies will focus on scaling. Scaling of processors to the point that the next generation of weapons systems would be lighter, more agile, consume less power, and at the same time be more powerful.

As important as our future weapons systems are, so, too, is it essential for us to maintain our global competitiveness in nanotechnology to achieve both of these goals for the military, and for business creation and innovation. We need to achieve these goals through the Department of Defense and having them critically involved.

This amendment asks the Department of Defense to support the creation of a public-private partnership of defense laboratory scientists and engineers, university researchers, integrated circuit designers and fabricators, tool manufacturers, material and chemical suppliers, and metrology and inspection tool fabricators to develop extreme ultraviolet lithography technologies on 300- and 450-micrometer wafers.

A partnership of such would bring all the stakeholders and financial resources to one location and would be vital to our Nation if we're going to compete in the global race for the next generation of semiconductors.

I ask my colleagues to support this very key amendment.

Mr. McKEON. I continue to reserve the balance of my time.

Mr. SKELTON. Mr. Chairman, I yield 2 minutes to my friend, the gentleman from Rhode Island (Mr. LANGEVIN).

(Mr. LANGEVIN asked and was given permission to revise and extend his remarks.)

Mr. LANGEVIN. I thank the gentleman for yielding.

I rise in strong support of the Watson-Langevin amendment. I am happy to be working with Chairwoman WATSON to join strong cybersecurity authorities with important updates to our federal information security policies, otherwise known as the FISMA Act, which is long outdated and needs this updating provision.

But a portion of our amendment is drawn from my Executive Cyberspace Authorities Act and focuses on coordination of efforts to secure Federal networks, develop smarter cyberpolicies, and lead the world in standards and practices for responsible actions in cyberspace.

Clearly, cybersecurity and our cyber vulnerabilities is one of the biggest threats facing the country today. We're so interconnected by use of the Internet, but it also provides real vulnerabilities because of cyberpenetrations.

The provisions in this act follow recommendations by the CSI's Commission on Cyber Security, which I co-chaired. By establishing a national office for cyberspace and the executive office of the President, this office will include strong authorities over agency information security policies, and responsibility for coordinating the de-

fense of our Federal networks and establishing a national strategy for international engagement.

Again, this will provide the right authorities for the cybercoordinator, who now would become the cyberdirector and do incredible work in making sure that we have the right authorities in place to make sure that all of our departments and agencies are secure as possible in cyberspace.

So I want to thank the committee for including my amendment in the en bloc package, and I urge Members to support this passage. I, again, want to thank Chairman WATSON for her work on this amendment. We joined forces, and it's going to take us in the right direction in securing the Nation's cyberspace.

□ 1515

Mr. McKEON. Mr. Chairman, I yield myself 1 minute.

Again, because we weren't given the opportunity to have more than 5 minutes to debate Don't Ask, Don't Tell, I would like to continue on with my diatribe.

I have a letter from General Casey, Chairman of the Army. He says:

"My views on the repeal of section 654 of title 10"—which is the Murphy amendment—"United States Code, have not changed since my testimony."

He was opposed to that when he testified before our committee.

"I continue to support the review and timeline offered by Secretary Gates.

"I remain convinced that it is critically important to get a better understanding of where our soldiers and families are on this issue and what the impacts on readiness and unit cohesion might be, so that I can provide informed military advice to the President and the Congress.

"I also believe that repealing the law before the completion of the review will be seen by the men and women of the Army as a reversal of our commitment to hear their views before moving forward."

Mr. SKELTON. I yield myself such time as I may consume.

The Acting CHAIR. The gentleman from Missouri has 2 minutes remaining.

Mr. SKELTON. The gentleman from Indiana spoke about the challenge of those returning from the Gulf and facing the depression that often ends in suicide. The gentleman from Rhode Island did the same.

The tragedy of a serviceman or woman and suicide came home to many of us in the State of Missouri not long ago when a young marine from Sedalia, Missouri, suffered that tragedy. It breaks the heart of not just the family but of all who knew him.

I think it's up to us to do our very best to continue to study this issue and make preparation for those who come home so that these tragedies can be put behind us that they can come back to a grateful Nation and warm and loving home and fit in and continue to

perform their duties in uniform and duties at home. So those of us who knew this young marine from Sedalia understand fully the comments of the gentleman from Rhode Island and the comments of the gentleman from Indiana.

I yield back the balance of my time.

Mr. McKEON. Mr. Chairman, how much time remains?

The Acting CHAIR. The gentleman from California has 2 minutes remaining.

Mr. McKEON. I yield 1 minute at this time to the gentleman from Georgia (Mr. KINGSTON).

Mr. KINGSTON. I thank the gentleman for yielding.

I just find it so appalling that the defense committee, which has always had a strong bipartisan relationship and a problem-solving ability, has only been given 10 minutes to uproot a long-standing policy on Don't Ask, Don't Tell, 5 minutes per side, to make a major social change in America, a change that will change the dynamic in the barracks, in the field, the morale, the tension.

What will you do about spousal benefits in the face of DOMA, Don't Ask, Don't Tell? It would certainly be unfair to have somebody in combat and not cover his husband. So you are going to have spousal benefits.

And when you do that, what do you do about the Defense of Marriage Act, DOMA? That's the law of the land. You will have to change the State laws to allow same-sex marriages. That's how profound this change is today that we will be voting on after a 10-minute debate.

What about the issue of religious freedom? We have already seen the military uninvite people like Tony Perkins and Franklin Graham for speaking at prayer breakfasts.

The Acting CHAIR. The time of the gentleman has expired.

Mr. McKEON. I yield the gentleman 15 additional seconds.

Mr. KINGSTON. If you just cut out everything else on the repeal of Don't Ask, Don't Tell and say what do you do about the spouse benefits and what do you do about the religious freedom that's so important to all soldiers, how do you deal with that, you need more than 10 minutes.

I appeal to all Members of Congress, wherever you are on this, to realize we need more than 10 minutes and reject the amendment so we can get it.

The Acting CHAIR. The time of the gentleman has again expired.

Mr. McKEON. Mr. Chairman, I yield the balance of my time to, again, the gentleman from Georgia (Mr. KINGSTON).

Mr. KINGSTON. I thank the gentleman.

I wanted to say, we have an issue with military chaplains who actually work for their denomination. They do not necessarily answer straight to the military. They are supposed to have their loyalty to their denomination.

If their denomination believes a certain thing that is not in alignment

with a potential new policy of the defense, then they are going to be censored. How do you deal with that censorship matter and that freedom of religion issue? Again, Tony Perkins, a marine, a chaplain, the president of Family Research Council, and Franklin Graham, son of Billy Graham, have both been uninvited already because of their views. They are politically incorrect.

So the military invited them to speak at prayer breakfasts and they were uninvited. It would not have happened without this debate. That's why we need more than 10 minutes.

Mr. McMAHON. Mr. Chair, I urge my colleagues to adopt a sense of Congress recognizing Father Vincent Robert Capodanno, a decorated hometown hero from my district, for his military accomplishments and commitment to his faith. We ask that Department of Navy commission the next Navy Destroyer in the memory of Father Capodanno.

On June 7, 1957, Father Capodanno was ordained by the late Cardinal Spellman and shortly after, fervently devoted 8 years of Catholic Missionary service to the needy peoples of Taiwan and Hong Kong.

Volunteering his services as Navy Chaplain on December 28, 1965, Father Capodanno received his commission as a Lieutenant in the Chaplain Corps of the United States Naval Reserve. After completing orientation at the Naval Chaplain's School, Newport, Rhode Island, Lieutenant Capodanno requested duty with the Marines in Vietnam.

His first assignment was the First Marine Division in 1966, where he immediately began making his presence in the combat operation of Chu Lai a regular part of his duties as Battalion Chaplain. To stay with his men, Chaplain Capodanno relinquished 30 days of Christmas holiday leave and after serving one year, he extended his tour of duty for 6 months on the condition that he be allowed to remain with the infantry.

Father Capodanno's greatest desire was just that—to remain with his troops and to give them moral support. Then on the morning of September 4, 1967, the decision was no longer his to make. During Operation Swift in the Thang Binh District of the Que Son Valley the 1st battalion, fifth Marines encountered a large North Vietnamese unit of approximately 2500 men.

Father Capodanno went among the wounded and dying, giving last rites and taking care of his marines. Wounded once in the face and having his hand almost severed, he went to help a wounded corpsman only yards from an enemy machinegun and was killed. For his selfless acts and bravery beyond the call of duty, a man fellow marines referred to on the battlefield as the "the 'grunt' padre," Father Vincent R. Capodanno was awarded the Medal of Honor posthumously.

In 1973, Father Capodanno had a ship commissioned in his honor. The USS *Capodanno's* lifespan was just as decorated as her namesake's, being the only naval vessel to be blessed by the Pope and saving approximately 22 lives in her first deployment as a search and rescue vessel in the Mediterranean. Unfortunately, this ship was decommissioned and then sold to Turkey in 2005.

Today, Father Capodanno's legacy in the Navy goes untold. The people of New York's

13th district and I would be incredibly honored if the Department of Navy would recognize these amazing accomplishments by commissioning the next Navy Destroyer in the memory of Father Capodanno, an American Hero!

Mr. TOWNS. Mr. Chair, I rise in strong support of this amendment to H.R. 5136. This is a good addition to the National Defense Authorization Act for Fiscal Year 2011 and one that will go a long way toward improving our federal information security posture.

This language is nearly identical to H.R. 4900, the Federal Information Security Amendments Act of 2010, which was introduced by Ms. WATSON on March 22, 2010. That bill was just ordered favorably reported by the Committee on Oversight & Government Reform last week by a voice vote.

The Federal Information Security Management Act was enacted in 2002 as part of the E-Government Act. FISMA requires federal agencies to assess the state of their information security management each year by conducting periodic risk assessments, categorizing risk, maintaining a detailed inventory of all information systems, and training employees in security awareness. While FISMA has been an effective tool in improving information security, GAO continues to report persistent weaknesses that this legislation is intended to address.

Cyber threats and attacks against information systems have continued to grow in both volume and intensity in recent years. In 2009 the U.S. electrical grid was reportedly infiltrated by hackers and denial of service attacks brought down the websites of a number of federal agencies including the Department of State, the Secret Service and the Federal Trade Commission. Cyber attacks are escalating quickly and we must do more to defend the Federal government against them.

This amendment represents an important step toward remedying the problem. It codifies multiple policy recommendations made by the Obama administration, public-private sector working groups and GAO for fixing information security deficiencies throughout the federal government.

Among other things, it would permanently elevate the significance of cyber security to the executive level by establishing a National Office for Cyberspace, with a director to be appointed by the President and confirmed by the Senate. This amendment also requires agencies to begin automated and continuous monitoring of their information technology systems, a requirement that the Obama administration issued guidance on in April. It also includes provisions codifying the position of chief technology officer and establishing a national strategy to engage with the international community on information security.

In closing, I want to take the time to acknowledge two of my colleagues from California. First, I want to thank Ms. WATSON, for introducing H.R. 4900 and offering this amendment. Second, I thank Mr. ISSA for working with us in a bipartisan manner to improve this amendment and move it forward in the legislative process. This is a good amendment and I strongly urge the rest of my colleagues to join me in supporting it.

Ms. GIFFORDS. Mr. Chair, since 9/11, we have put an increased focus on tearing down boundaries to intel sharing and building networks that ensure critical information reaches decision makers. Information sharing on the

battlefield saves lives and intelligence sharing along our border promotes national security.

The longstanding barriers that built roadblocks between local law enforcement, Federal agencies and the Department of Defense are slowly crumbling. Critical information is beginning to flow but stovepipes remain.

Each day in places all along the border, illegal immigrants are smuggling guns, drugs and people into the United States. And each day, the Border Patrol apprehends people here illegally from places like North Korea, Iran, and Syria.

All along the border at military outposts charged with training our best and our brightest, ground forces and UAV pilots learn to identify targets, track movements and pass actionable intelligence.

But stovepipes within the system continue to prevent some sharing of potentially crucial data.

My amendment is focused on alleviating some of that urgent need for effective and efficient intelligence sharing. This need is recognized by our military leaders, program managers, intel analysts, and law enforcement officials.

As our military trains for battle and conducts field exercises in preparation for deployments, they collect data points that can be crucial to locating and stopping smuggling lanes into our country.

If only they were permitted to share that information with the people who can target these smuggling trails and shut traffickers down.

That is the goal of this amendment.

Whether it is soldiers from Fort Huachuca who uncover tunnel networks while learning to fly UAVs, or A-10 pilots from Davis-Monthan transiting out to the Goldwater Range, or Navy exercises on the Pacific or Gulf coasts that locate and intercept subsmeribles, this information must be shared and fused with the ground and airborne intelligence already flowing into se ors along the border.

My amendment will permit exactly that by authorizing those who routinely conduct training operations to share with Joint Task Force North any of the critical data they collect.

We know that more information, more intelligence and more resources will help stop smugglers, guns, drugs and human cargo from crossing the border and lead to captures and convictions that make our country more secure.

I urge my colleagues to vote in favor of this amendment.

The Acting CHAIR. The question is on the amendments en bloc offered by the gentleman from Missouri (Mr. SKELTON).

The amendments en bloc were agreed to.

AMENDMENT NO. 13 OFFERED BY MR. MCGOVERN

The Acting CHAIR. It is now in order to consider amendment No. 13 printed in House Report 111-498.

Mr. MCGOVERN. I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 13 offered by Mr. MCGOVERN:

Add at the end of subtitle F of title X, the following:

SEC. 1065. FINDINGS AND SENSE OF CONGRESS ON OBESITY AND FEDERAL CHILD NUTRITION PROGRAMS.

(a) FINDINGS.—Congress find the following:

(1) According to the April 2010 report, “Too Fat to Fight”, more than 100 retired generals and admirals wrote that, “[o]besity among children and young adults have increased so dramatically that they threaten not only the overall health of America but the future strength of our military.”

(2) Twenty-seven percent, over 9,000,000, 17-24-year-olds in the United States are too fat to serve in the military.

(3) Between 1995 and 2008, the military had 140,000 individuals who showed up at the centers for processing but failed their entrance physicals because they were too heavy.

(4) Being overweight is now the leading medical reason for rejection from military service.

(5) Between 1995 and 2008, the proportion of potential recruits who failed their physicals each year because they were overweight rose nearly 70 percent.

(6) The military annually discharges over 1,200 first-term enlistees before their contracts are up because of weight problems.

(7) The military must then recruit and train their replacements at a cost of \$50,000 for each man or woman.

(8) Training replacements for those discharged because of weight problems adds up to more than \$60,000,000 annually.

(10) Overweight adolescents are more likely to become overweight adults.

(11) Overweight adolescents and overweight adults are at risk of developing obesity-related, life-threatening diseases including cancer, type 2 diabetes, stroke, heart disease, arthritis, and breathing problems.

(12) According to the American Public Health Association, “left unchecked, obesity will add nearly \$344 billion to the nations annual health care costs by 2018 and account for more than 21 percent of health care spending”.

(13) Overweight and undernourished adolescents face academic challenges due to poor health behaviors, resulting in even greater risk to their future health and earning and the Nation’s economic growth and worldwide competition.

(14) For decades military leaders have championed efforts to improve the nutrition of young people in America.

(15) During World War II, 40 percent of rejected recruits were turned away because of poor or under nutrition.

(16) The preamble to the Richard B. Russell National School Lunch Act (42 U.S.C. 1751) states “It is hereby declared to be the policy of Congress, as a measure of national security, to safeguard the health and well-being of the Nation’s children and to encourage the domestic consumption of nutritious agricultural commodities and other food, by assisting the States, through grants in aid and other means, in providing an adequate supply of food and other facilities for the establishment, maintenance, operation and expansion of nonprofit school lunch programs”.

(17) Over 17 million children were food insecure, or hungry, in 2008, according to data collected by the Department of Agriculture.

(18) The Federal Child Nutrition Programs under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) are proven to be effective in combating both hunger and obesity.

(19) President Obama has called for a historic investment in the Federal Child Nutrition Programs in order to respond to 2 of the greatest child health challenges of our time, hunger and poor nutrition.

(20) Two hundred twenty-one Members of Congress signed a letter to Speaker Pelosi in

support of President Obama’s budget request for the Federal Child Nutrition Programs.

(21) This same letter requested identification of possible offsets for the new investments in these important anti-hunger and nutrition programs.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) reducing domestic childhood obesity and hunger is a matter of national security;

(2) obesity and hunger will continue to negatively impact recruitment for Armed Forces without access to physical activity, healthy food, and proper nutrition;

(3) Congress should act to reduce childhood obesity and hunger;

(4) the Federal Child Nutrition Programs under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) should be funded at the President’s request; and

(5) the increases in funding for such programs should be properly offset.

The Acting CHAIR. Pursuant to House Resolution 1404, the gentleman from Massachusetts (Mr. MCGOVERN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Massachusetts.

Mr. MCGOVERN. Mr. Chairman, I yield myself 1½ minutes.

Mr. Chairman, hunger and obesity are serious problems in this country. Over 49 million Americans go hungry every year, 17 million of which are children. Now we have a new problem—obesity. Most people think obesity is a simple problem of eating the wrong food, and this is mostly correct. But there are many cases where obese people are also hungry, that they are feeding themselves and their families with empty calories simply because they are inexpensive.

We must address hunger and obesity, and I am pleased that the First Lady is working on these issues. But now obesity is a national security issue. Twenty-seven percent of young adults are too fat to serve in the military and being overweight is now the leading cause for rejection from military service.

Our amendment is simple. It says that hunger and obesity are national security problems and must be addressed, and it says that we should do so in part with the reauthorization of the Child Nutrition Act. The school lunch program was created in World War II because 40 percent of the rejected recruits were underweight. In fact, the preamble to the School Lunch Act states that the school lunch program was created “as a measure of national security.”

Healthy school meals, along with more exercise and better access to food at home, will help combat the national security crisis of obesity.

I reserve the balance of my time.

Mr. MCKEON. Mr. Chairman, I claim the time in opposition, although I will not oppose the amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. McKEON. I yield such time as she may consume to the gentlewoman from Missouri (Mrs. EMERSON).

Mrs. EMERSON. Thank you, Ranking Member McKEON.

My colleague, JIM MCGOVERN, made a couple of remarks with regard to the challenges the military is facing with regard to potential enlistees.

I could go down and continue talking about some of these, but one of the most interesting facts is that every year the military annually discharges over 1,200 first-term enlistees before their contracts are up because of weight problems. Then the military must recruit and train their replacements at a cost of \$50,000 for each man or woman.

This begs the question, and which is why this amendment from my colleague is so very important, and that is because 16 million children or 22.5 percent of all children in the United States live in a home where access to food is an uncertainty. In these homes, child nutrition programs literally serve as a lifeline to proper nutrition and a better future.

We know that hungry children are sick more often. They suffer growth impairment and even developmental impairment. They do poorer in school, they are less prepared to join the workforce, and for purposes of this debate, they are less prepared to serve their country in the Armed Forces.

The facts of life for too many of our children are hard to hear but they are, in fact, true.

The first step in achieving greater success must be to ensure adequate funds are dedicated to this challenge.

I support the sense of Congress language in this amendment calling for a \$1 billion increase in funding for the child nutrition programs, and I share its belief that we need to pay for it.

I would like to thank my colleagues, JIM MCGOVERN of Massachusetts and SANFORD BISHOP of Georgia, for their leadership on this issue.

To support the goals of this important program, I would ask colleagues to support the sense of Congress language and continue working to make this message a reality.

The reauthorization of the Child Nutrition Act must be a tool for reducing the number of hungry and obese children in the United States. GAO recently analyzed domestic food assistance and found: (quote) "participation in 7 of the programs we reviewed—including WIC, the National School Lunch Program, the School Breakfast Program, and SNAP—is associated with positive health and nutrition outcomes consistent with programs' goals, such as raising the level of nutrition among low-income households, safeguarding the health and wellbeing of the nation's children, and strengthening the agricultural economy." These are goals I believe we can all support.

Mr. MCGOVERN. Mr. Chairman, I want to thank the gentlewoman from Missouri for her leadership and her cosponsorship of this amendment.

I yield 2 minutes to the gentleman from Georgia (Mr. BISHOP).

Mr. BISHOP of Georgia. I thank the gentleman for yielding.

Mr. Chairman, I am pleased to join Representatives MCGOVERN and EMERSON as an original cosponsor of this bipartisan amendment, which affirms the intention of Congress to combat domestic childhood obesity and hunger in the interest of our national security.

According to the July 2009 Trust for America's Health Report, the percentage of obese and overweight children ages 10 to 17 is at or above 30 percent in 30 States. Seven of the top 10 States are in the South, with my State of Georgia ranked third, with 37.3 percent of obese and overweight youngsters.

Obesity is especially prevalent in the African American and Latino communities. Overweight and obese teens are at risk of developing diabetes, heart disease, cancer, stroke, arthritis and breathing problems and American children are disproportionately impacted.

In a recent report, Too Fat to Fight, over 100 retired generals and admirals wrote that obesity among children and young adults has increased so dramatically that it threatens not only our Nation's health but the future of our military. Between 1995 and 2008, the military had 140,000 individuals, a 70 percent increase, who showed up at the centers for processing but failed their entrance physicals because they were too heavy, and 1,200 enlistees were discharged before their contracts were up. And now being overweight is the leading medical cause for rejection from military service.

Mr. Chairman, proper nutrition, healthy food, ending hunger and access to physical activity for our youth are vital to ensuring that our Nation's military remains strong into the future.

I urge my colleagues to support this important amendment and the strong effort to support and maintain a strong national defense by assuring strong and healthy servicemembers.

Mr. McKEON. Mr. Chairman, I yield the balance of my time to the gentleman from Virginia (Mr. FORBES), a member of the committee.

The Acting CHAIR. The gentleman is recognized for 3 minutes.

Mr. FORBES. Thank you, Mr. Chairman.

I would like to thank the ranking member for yielding that time.

Mr. Chairman, I was excited, as I was reading some articles in my office before I came over here, the leadership of the House has finally moved us up to where we now have an 18 percent approval rating across the country.

That means that only 82 percent of the Americans feel that this body doesn't have a clue about where we need to go or why. The reason is because, as hard as they try to find it, there is one thing they can't find in any of these walls and under any these chairs, and that is just simple common sense.

□ 1530

Because, Mr. Chairman, when they go to buy something, they know the first

thing they need to do is ask how much does it cost? And yet we pass a health care bill, and we don't even really look at all the facts. We just want to get out of here. And later we find out it costs a whole lot more than what we thought it would, and we just come back up and say, well, that's just too bad. And we're getting ready to do the same thing, because when they take any action in their business, one of the first things they want to do is say, What's the effect going to be on that particular action?

Mr. Chairman, as we look at this provision on trying to remove the Don't Ask, Don't Tell policy that is currently the policy for DOD, we hear our Chiefs of Staff in one voice: Admiral Roughead saying, just wait and get the facts before you make a decision. Just some common sense. We hear General Schwartz, the Chief of Staff of the Department of Air Force saying, just wait and get the facts. Let us do the study before you make a decision. Just some common sense. We have General Conway who says, just wait and get the facts before you make a decision. Just some common sense. And we have General Casey from the Army saying, just get the facts before you make a decision. Let us complete the study. Just some common sense.

But what some individuals want to do on this House floor is—same thing we do with so many other things—bury the common sense: let's just push forward, we'll get the facts later, let's just pass the provision now. And that's why, Mr. Chairman, I hope that this body will protect this authorization bill and not pass the amendment to remove Don't Ask, Don't Tell.

Mr. MCGOVERN. Mr. Chairman, I yield myself the balance of the time.

The Acting CHAIR. The gentleman is recognized for 1½ minutes.

Mr. MCGOVERN. Mr. Chairman, if we want to do something that is common sense, we should pass this amendment before us.

Hunger and obesity are critical issues to our military and to the health and well-being of our Nation. Sixty-nine years ago, military recruits were turned away because they were undernourished. Today they are rejected because they are fat. The school lunch program allows our children to eat during the school day. We must improve it so that more nutritious meals are served at schools and so that every child has access to school meals.

We talk a lot about health care in this Chamber. I should point out to my colleagues that according to the American Public Health Association: "Left unchecked, obesity will add nearly \$344 billion to the Nation's annual health care costs by 2018 and account for more than 21 percent of health care spending."

This is a health issue. This is a commonsense issue. This is a national security issue. This amendment expresses the House's support for this effort to end hunger and to make sure

our young people have nutritious meals. I urge my colleagues to vote "yes" on the McGovern-Emerson-Bishop amendment.

Mr. Chairman, I yield back the balance of my time.

Mr. McKEON. Mr. Chairman, I yield myself the balance of my time.

I support this amendment; I think it's a good thing. I think that our whole country could use a little help in this area.

Now, back to Don't Ask, Don't Tell. Again, I think it's very important that we do as Mr. FORBES said, a little common sense. When we tell the military we're going to get their viewpoint and then we say, never mind, we're going to move ahead, your viewpoint really doesn't matter, I think that that's a big mistake.

I think this amendment is a good one, but I think only giving us 10 minutes to debate Don't Ask, Don't Tell is a mistake.

Mr. BISHOP. Mr. Chair, I am pleased to join Representatives MCGOVERN and EMERSON as an original co-sponsor of this bipartisan amendment, which affirms the intention of Congress to combat domestic childhood obesity and hunger in the interests of our national security.

According to a July 2009 Trust for America's Health Report, the percentage of obese and overweight children (ages 10 to 17) is at or above 30% in 30 states. Seven of the top ten states are in the South, with my state of Georgia ranking third with 37.3% of obese and overweight youngsters. Obesity is especially prevalent in the African-American and Latino communities.

Overweight and obese teens are at risk of developing diabetes, heart disease, cancer, stroke, arthritis, and breathing problems; and American children are disproportionately impacted.

In a recent report, "Too Fat to Fight," over 100 retired generals and admirals wrote that obesity among children and young adults has increased so dramatically that it threatens not only the Nation's health, but the future of our military." Between 1995 and 2008, the military had 140,000 individuals, a 70% increase, who showed up at the centers for processing, but failed their entrance physicals because they were too heavy; 1,200 enlistees were discharged before their contracts were up; and now being overweight is the leading medical cause for rejection from military service.

Proper nutrition, healthy food, ending hunger, and access to physical activity for our youth are vital to ensuring that our nation's military remains strong for the future. I urge my colleagues to support this important amendment, in an effort to support and maintain a strong national defense by assuring strong and healthy service members.

Mr. McKEON. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Massachusetts (Mr. MCGOVERN).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. MCGOVERN. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Massachusetts will be postponed.

AMENDMENTS EN BLOC NO. 2 OFFERED BY MR. SKELTON.

Mr. SKELTON. Mr. Chairman, pursuant to House Resolution 1404, I offer amendments en bloc No. 2.

The Acting CHAIR. The Clerk will designate the amendments en bloc.

Amendments en bloc No. 1 offered by Mr. SKELTON consisting of amendments numbered 20, 22, 23, 26, 27, and 45 printed in House Report 111-498:

AMENDMENT NO. 20 OFFERED BY MR. BURTON OF INDIANA

The text of the amendment is as follows:

Page 452, after line 10, insert the following:

SEC. 1065. SENSE OF CONGRESS REGARDING PRESIDENTIAL LETTERS OF CONDOLENCE TO THE FAMILIES OF MEMBERS OF THE ARMED FORCES WHO HAVE DIED BY SUICIDE.

(a) FINDINGS.—Congress finds that—

(1) suicide is a growing problem in the Armed Forces that cannot be ignored;

(2) a record number of military suicides was reported in 2008, with 128 active-duty Army and 48 Marine deaths reported;

(3) the number of military suicides during 2009 is expected to equal or exceed the 2008 total;

(4) long-standing policy prevents President Obama from sending a condolence letter to the family of a member of the Armed Forces who has died by suicide;

(5) members of the Armed Forces sacrifice their physical, mental, and emotional well-being for the freedoms Americans hold dear;

(6) the military family also bears the cost of defending the United States, with military spouses and children sacrificing much and standing ready to provide unending support to their spouse or parent who is a member of the Armed Forces;

(7) the loss of a member of the Armed Forces to suicide directly and tragically affects military spouses and children, as well as the United States;

(8) much more needs to be done to protect and address the mental health needs of members of the Armed Forces, just as they serve to protect and defend the freedoms of the United States;

(9) a presidential letter of condolence is not only about the deceased because it also serves as a sign of respect for the grieving family and an acknowledgment of the family for their personal loss; and

(10) a lack of acknowledgment and condolence from the President only leaves these families with an emotional vacuum and a feeling that somehow their sacrifices have been less than the sacrifices of others.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the current policy that prohibits sending a presidential letter of condolence to the family of a member of the Armed Forces who has died by suicide only serves to perpetuate the stigma of mental illness that pervades the Armed Forces; and

(2) the President, as Commander-in-Chief, should overturn the policy and treat all military families equally.

(c) REPEAL OF SUPERCEDED PROVISION.—Section 675 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364; 119 Stat. 2273; 10 U.S.C. 1781 note) is repealed.

AMENDMENT NO. 26 OFFERED BY MR. LATHAM OF IOWA

The text of the amendment is as follows:

At the end of subtitle D of title VI, add the following new section:

SEC. 6 . . . SENSE OF CONGRESS CONCERNING AGE AND SERVICE REQUIREMENTS FOR RETIRED PAY FOR NON-REGULAR SERVICE.

It is the sense of Congress that—

(1) the amendments made to section 12731 of title 10, United States Code, by section 647 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 160) were intended to reduce the minimum age at which members of a reserve component of the Armed Forces would begin receiving retired pay according to time spent deployed, by three months for every 90-day period spent on active duty over the course of a career, rather than limiting qualifying time to such periods wholly served within the same fiscal year, as interpreted by the Department of Defense; and

(2) steps should be taken to correct this erroneous interpretation by the Department of Defense in order to ensure reserve component members receive the full retirement benefits intended to be provided by such section 12731.

AMENDMENT NO. 45 OFFERED BY MR. TIM
MURPHY OF PENNSYLVANIA

The text of the amendment is as follows:

At the end of title VI, add the following new section:

SEC. 6 . . . REPORT ON PROVISION OF ADDITIONAL INCENTIVES FOR RECRUITMENT AND RETENTION OF HEALTH CARE PROFESSIONALS FOR RESERVE COMPONENTS.

Not later than 90 days after the date of the enactment of this Act, the Surgeons General of the Army, Navy, and Air Force shall submit to Congress a report on their staffing needs for health care professionals in the active and reserve components of the Armed Forces. The report shall specifically identify the positions in most critical need for additional health care professionals, including the number of physicians needed and whether additional behavioral health professionals, such as psychologists and psychiatrists, are needed to treat members of the Armed Forces for the growing concerns of post traumatic stress disorder and traumatic brain injury. The report shall include recommendations for providing incentives for health care professionals with more than 20 years of clinical experience to join the active or reserve components, including whether changes in age or length of service requirements to qualify for partial retired pay for non-regular service could be used as a recruitment or retention incentives.

The Acting CHAIR. Pursuant to House Resolution 1404, the gentleman from Missouri (Mr. SKELTON) and the gentleman from California (Mr. MCKEON) each will control 10 minutes. The Chair recognizes the gentleman from Missouri.

Mr. SKELTON. Mr. Chairman, I urge the committee to adopt the amendments en bloc, all of which have been examined by both the majority and the minority.

Mr. Chairman, I yield 2 minutes to my friend, the gentlewoman from California (Ms. HARMAN).

(Ms. HARMAN asked and was given permission to revise and extend her remarks.)

Ms. HARMAN. I thank the esteemed Chairman SKELTON, my dear friend, for yielding.

Mr. Chairman, over eight terms in Congress I have served on every security committee, including three terms on the Armed Services Committee whose bill I am once again proud to support.

As a rookie Member of Congress in 1993, I sat in the most junior chair on the HASC, just a few feet away from the witness table. Then-Chairman of the Joint Chiefs, Colin Powell, testified in favor of the Clinton administration’s Don’t Ask, Don’t Tell policy. I drew a deep breath and told the general that I thought Don’t Ask, Don’t Tell was unconstitutional. I opposed it then, and I oppose it now.

No good has ever come of that policy. And I applaud the personal courage of current Joint Chiefs Chairman Admiral Mike Mullen who told Congress, “No matter how I look at the issue, I cannot escape being troubled by the fact that we have in place a policy which forces young men and women to lie about who they are in order to defend their fellow citizens.”

The en bloc amendment which we are now debating includes language I coauthored with Rules Committee Chair SLAUGHTER to give victims of military sexual trauma the ability to seek a base transfer. MST is an epidemic which subjects a growing number of servicemembers to serious assault and rape. It is horrifying that women in our military are more likely to be raped by a fellow soldier than killed by enemy fire in Iraq or Afghanistan. MST must end, and this bill makes a very good start.

Let me make some general comments about our national security. We can’t wish away the threats facing our Nation. We, like generations of Americans before us, must rise to meet them. We must be realistic about our vulnerabilities, about the capabilities of our adversaries, and of our allies to help us. We must be wise enough to recognize that we will not prevail through military might alone.

Our military, diplomatic, and development efforts are tools to an end—security, and eventually peace. These are dangerous times, and they require a tough response. We have the strategy in this bill, we have the strength in men and women who serve courageously in our military and intelligence services, and we have our values. We will not fail.

Support this bill. Support the Murphy amendment. Support the en bloc amendment.

Mr. MCKEON. Mr. Chairman, I claim the time in opposition, although I am not opposed to the amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 10 minutes.

There was no objection.

Mr. MCKEON. At this time, I yield 2 minutes to the gentleman from Pennsylvania (Mr. TIM MURPHY), sponsor of one of the amendments.

Mr. TIM MURPHY of Pennsylvania. I thank the ranking member for yielding.

One of the amendments in there I'd like to talk about here.

According to a RAND study, there are more than several hundred thousand potential cases of post-traumatic stress disorder in our veterans from operations in Iraq and Afghanistan, and suicide rates among them are also higher than that of the general population. The Department of Defense has rightly doubled its budget for treatment and research of PTSD and traumatic brain injury and set higher goals for the number of behavior health providers. And although care has also been supplemented through TRICARE and contract providers, the military remains understaffed to meet the needs.

Combat veterans should not be placed on a waiting list, especially dealing with mental health problems and suicide. And servicemembers who need care can only get care if they are near care. Now, a huge investment has been made into many of the great clinicians in medical services at the dawn of their careers. Stipends, bonuses, educational expenses are paid in hopes we can recruit and retain them for 20 or 30 years, although many do not remain that long. Sometimes we discourage those from signing up later in their careers who, because of their age, they can't remain for 20 years or so. Yet there are those who are at the peak of their career who we could look to not only to fill the immediate needs with highly skilled and ready-trained experiences, but to provide mentorship and training to those starting out in their medical and behavioral medicine careers.

This amendment simply calls upon the Surgeons General of the Army, Navy, and Air Force to report on other incentives that can be offered to recruit and retain those with 20 or more years of nonmilitary clinical experience to serve in active or reserve duty. This might include, but is not limited to, offering a 10-year retirement instead of the traditional 20- or 30-year retirement.

I might add that we are very proud of our servicemen and -women and want to make it very clear that all of us in Congress—and I know all the military—are absolutely dedicated to making sure that we take care of all of their wounds, whether they are visible or invisible wounds of war. We are proud of their service, and we will continue to support them. And along those lines, I hope my colleagues will also support this amendment.

Mr. SKELTON. Mr. Chairman, I yield 2 minutes to my friend, the gentleman from North Dakota (Mr. POMEROY).

Mr. POMEROY. I thank my friend, the chairman, for yielding.

I rise in support of amendment No. 23, which reauthorizes the Joint Family Support Assistance Program. This program has been providing critical support to the unsung heroes of the global war on terror, the families left behind of deploying Guard and Reserve soldiers.

As the Department of Defense stated in its report to Congress on the implementation of this program: "The Guard and Reserve are experiencing significantly increased mobilizations as a result of the global war on terrorism, and families who have previously had limited exposure to the demands resulting from separations due to military deployments must now deal with the likelihood of longer and often multiple deployments to the servicemember."

Issues like single parenting, keeping a house running through all kinds of weather conditions, traumatized children missing a parent, all of these issues have been dealt with through the scopes of these joint family support systems programs. They work by compiling a Military OneSource program, one location coordinating the many resources available within our local community in support of these families, a one-stop shop able to make certain there is coordination for military, Federal, State and local resources.

For families on military bases who are deployed, it's very clear the support systems are there and what they are. For families of Guard and Reserve soldiers, especially spread across rural areas like North Dakota, it's less clear sometimes where the support can come from.

I am so proud of the North Dakota National Guard and Reserve families that have stood in support of their deploying soldiers, and we've had a bunch of them—3,500 soldiers, 1,800 airmen on multiple deployments. We need to support their families, and I urge permanent authorization of this program.

Mr. Chair, I rise today in support of the Pomeroy Amendment to permanently reauthorize the Joint Family Support Assistance Program, JFSAP.

This program has been providing critical support to the unsung heroes of Global War on Terror families of deployed soldiers.

Since its inception three years ago, the JFSAP program has been providing critical support to Guard and Reserve families, especially those families who do not live near military installations. Since the beginning of the wars in Iraq and Afghanistan the Guard and Reserve have seen a significant increase in deployments. Many of these service members and their families do not live near military installations and therefore do not have access to many of the family support functions available on those bases.

As the Department of Defense stated in its initial report to Congress on the implementation of this program, "The Guard and Reserve are experiencing significantly increased mobilization as a result of the Global War on Terrorism, and families who have previously had limited exposure to the demands resulting from separations due to military deployments, must now deal with the likelihood of longer

and often multiple deployments of the service member." These families are now coping with the stress of separation from a loved one for up to a year, which can lead to many difficult issues. A spouse may now be faced with single parenting for the first time, children being separated from one or both of their parents may have a difficult time coping with that separation and when the service member returns home they sometimes have a difficult time re-adjusting to civilian life. Families located on or near a military installation have access to a wide range of programs to deal with these issues, which may not necessarily be the case for Guard and Reserve families spread across the country, especially in rural States like North Dakota.

The Joint Family Support Assistance Program, JFSAP program works by compiling Military One Source programs into one location and coordinating those programs with resources that maybe available in the local community. By having a one stop shop that is able to help coordinate military, Federal, State, and local resources this program is able to provide families with comprehensive support for many of the issues that regularly arise due to the deployment of a loved one. Without a coordinated program families are faced with the requirement to seek this assistance out through a patchwork of entities increasing the possibility that they do not receive aid when they need it most.

Once fully implemented the JFSAP in North Dakota will offer a Military OneSource Specialist to coordinate programs, a Financial Military Life Consultant, MFLC, to help families with financial issues, a Youth MFLC to help coordinate services for children, an Adult MFLC to assist with the needs of service members, spouses and other family members and an Operation Military Kids consultant to help set up programs and activities for the children of service members. The North Dakota National Guard has seen significant deployments since September 11, 2001 deploying more than 3,500 soldiers and over 1,800 Airmen, many of those individuals have been deployed multiple times. This program's continuation is vital to providing the services and support that those families deserve.

The N.D. Nat'l Guard Families know there will be more deployments on the future which means the work of this program has that begun.

This critical program was originally authorized in the 2007 National Defense Authorization Act for three years and it must now be reauthorized. My amendment would make this program permanent so that it can be allowed to continue to provide critical support for Guard and Reserve families. I believe that this amendment will have broad bipartisan support and I urge its passage.

Mr. MCKEON. Mr. Chairman, I yield 3 minutes to the gentleman from California (Mr. HUNTER), a member of the committee.

Mr. HUNTER. I thank the ranking member for yielding.

America right now is locked in combat against a dangerous enemy in Afghanistan, facing the constant threat of ambush and roadside bombs. The last thing our soldiers and marines need is any unnecessary or harmful distractions.

As a marine who has served downrange in both Iraq and Afghanistan, I have personally witnessed that the current policy of Don't Ask, Don't Tell works and the repeal of current law does not work. I have lived with, eaten with, dived for cover with, and fought with my fellow marines overseas three times. Some military lawyers may think that this amendment looks good on paper, but in effect it will destroy the combat readiness of our fighting force. Our focus right now should be on achieving victory and returning our military home safely.

While America possesses the best military equipment in the entire world and the most technologically advanced weaponry on Earth, the true strength of our might is derived from the core set of values and principles that is shared by our frontline combat troops. It is these shared beliefs that lead to the comradery and the instinct of our troops to risk their lives to protect one another every single day.

The commandant of the Marine Corps stands opposed to repealing current law, and each of the other service chiefs have expressed concerns with taking any action on Don't Ask, Don't Tell until the year-long study under way at the Pentagon is completed. With all due respect, Secretary of Defense Gates and the Chairman of the Joint Chiefs of Staff, Admiral Mullen, have and are performing a great service to our Nation, but they work for this administration and as such are required to follow President Obama's lead and not necessarily speak for the men and women who have volunteered to fight for our Nation and put themselves in harm's way.

Evidently, the White House and congressional Democrats think they are doing our military a favor by rewarding them for victory in Iraq and continued hard fighting in Afghanistan by forcing a liberal social agenda on them and furthermore ignoring our military's input on this matter by not having this vote after the Pentagon study is completed so that at least this would be an informed vote. Our time would be better spent on evaluating the real threats facing our military in Afghanistan, starting with the roadside bomb threat and ensuring our troops have the resources that they need.

The debate on Don't Ask, Don't Tell is just another distraction on these and other priorities, and I urge my colleagues here in the House to vote "no" on this amendment. We need to listen to our military leaders, listen to the commandant of the Marine Corps and the actual generals and admirals in charge of our military fighting for us, not people who work for this administration and are going to tow the line for this administration. We've got to do what's right. Support the military. We need victory, not social change, in the military.

The Acting CHAIR. The Chair will note that the gentleman from Missouri

has 6 minutes remaining and the gentleman from California has 5½ minutes remaining.

Mr. SKELTON. Mr. Chairman, I yield back the balance of my time.

Mr. MCKEON. Mr. Chairman, I am happy to yield 2 minutes to the gentleman from Iowa (Mr. LATHAM), the sponsor of one of the amendments en bloc.

Mr. LATHAM. I thank the gentleman from California, my good friend.

Mr. Chairman, the amendment I offered to my colleagues, along with the gentleman from Oklahoma, is included in the block of amendments we are considering.

I thank the Rules Committee, the chairman—Mr. SKELTON—and the ranking member for considering this amendment, which addresses an issue brought to my attention by members of the Iowa National Guard.

The 2008 Defense Authorization Act included a provision narrowing the gap between active duty and reserve retirement benefits by allowing Guard and Reserve members to begin receiving retired pay earlier than the age of 60 if they had spent significant periods of time in deployments. This provision was based on legislation that I introduced, the National Guard and Reserve Retirement Modernization Act.

The intent of the original legislation was to reduce the retirement age for time spent deployed, by 3 months for every 90 days spent on active duty over the course of a career, as an incentive to retain our best and brightest men and women. However, an erroneous legal interpretation has limited the qualifying time to 90-day periods wholly served within the same fiscal year, which causes many members of the Guard and Reserve to lose credit for some of the months that they've served.

My amendment states that it is the sense of Congress that steps should be taken to correct this interpretation in order to ensure Reserve component members receive the full retirement benefits that they have earned. The committee has indicated in its report that it believes the current interpretation of the law to be inaccurate. I look forward to working with the committee and the Department of Defense to address and to correct this issue of fairness to our guardsmen and reservists who are being asked to meet increasing demands.

I urge my colleagues to support this effort.

Mr. MCKEON. Mr. Chairman, I yield the balance of my time to the ranking member on the Veterans' Affairs Committee, the gentleman from Indiana (Mr. BUYER).

Mr. BUYER. I want to congratulate both of you on a job well done on your bill.

To my friend IKE SKELTON, IKE, I support the policy that you came up with years ago when I first came to Congress 18 years ago—the DOD's Don't Ask, Don't Tell—and we should not be repealing it.

In a unified voice, all of the service chiefs have asked us to give them time to properly seek out the right answers on how to move forward regarding a major policy shift that will affect every soldier, sailor, airman, and marine.

Mr. Chairman, our heroes are performing valiantly in a two-front war. Now is not the time for Congress to be voting on an amendment to repeal Don't Ask, Don't Tell. Now is the time to strengthen our resolve to support our servicemen and -women and to help them fight and defeat terrorism around the world.

Now, the Constitution permits Congress to discriminate. We actually are designated with the power to raise and support armies, to provide and maintain a Navy, and to make the rules for government regulation for land and naval forces. There is nothing in the Constitution that guarantees a citizen the right to serve in the Armed Forces. As a matter of fact, pursuant to the powers conferred by section 8 of Article I of the Constitution, it lies within the discretion of Congress to establish qualifications for and conditions for service in the Armed Forces. You can't be too tall. You can't be too short. You can't be overweight. I mean, we make these decisions. Why?

The purpose of the military is to kill and break things. Unit cohesion is pretty important. The conduct of military operations requires the members of the Armed Forces to make extraordinary sacrifices, including the ultimate sacrifice, in order to provide for the common defense of this Nation. Success in combat requires military units that are characterized by high morale, good order and discipline and unit cohesion.

One of the most critical elements in combat capability is unit cohesion defined at the small unit level, which is the bonds of trust among individual servicemembers that make the combat effectiveness of our military unit greater than the sum of the combat effectiveness of the individual unit members, themselves.

Military life is fundamentally different from civilian life in that the extraordinary responsibilities of the Armed Forces, the unique conditions of military service, and the critical role of unit cohesion require that the military community, while subject to civilian control, exist in a specialized society. The military society is characterized by its own laws, rules, customs, and traditions, including numerous restrictions on personal behavior that would not be acceptable in civilian society.

The standards of conduct for members of the Armed Forces regulate a member's life for 24 hours each day, beginning at the moment the member enters military status and not ending until that person is discharged or otherwise separated from the Armed Forces. Those standards of conduct, including the Uniform Code of Military

Justice, apply to a member of the Armed Forces at all times if the member has military status, whether or not the individual is on base or not or in uniform or not.

The pervasive application of the standards of conduct is necessary because members of the Armed Forces must be ready at all times for worldwide deployment to a combat environment. The worldwide deployment of the United States military forces, the international responsibilities of the United States and the potential for involvement of the Armed Forces in actual combat routinely make it necessary for members of the Armed Forces involuntarily to accept living conditions and work conditions that are often spartan, primitive and that are characterized by forced intimacy with little or no privacy.

The prohibition against homosexual conduct is a longstanding element of military law that continues to be necessary in unique circumstances of the military service. Tolerance does not require a moral equivalency.

Do not repeal this.

Mr. SKELTON. Mr. Chairman, I ask unanimous consent to reclaim my time.

The Acting CHAIR. Is there objection to the request of the gentleman from Missouri?

There was no objection.

The Acting CHAIR. The gentleman from Missouri has 6 minutes remaining.

Mr. SKELTON. I yield 1 minute to the gentlewoman from California (Mrs. DAVIS).

Mrs. DAVIS of California. Thank you, Mr. SKELTON, for yielding.

Mr. Chairman, I would just like to correct a couple of issues that Mr. MCKEON and others have brought up.

The committee has held hearings on Don't Ask, Don't Tell. In fact, my subcommittee has held two hearings on this very topic. Every Member of the House and even those not on the committee were welcomed to attend. Unfortunately, most of the Republicans who have criticized this process failed to show up to either hearing.

The Members who did attend the second hearing, held on March 3 of this year, heard one of the cochairs of the DOD working group say, "The issue is not whether but how best" to implement repeal.

All along, the purpose of the study has been "how" to implement repeal, not "if" to end this policy. That is the purpose of the working group's meetings, and that is why it is so important for our servicemembers and their families to participate in whatever activities they choose which are related to this.

I just wanted to make that correction, Mr. Chairman.

Mr. SKELTON. I yield 2 minutes to the gentleman from Rhode Island (Mr. KENNEDY).

Mr. KENNEDY. I want to thank Chairman SKELTON and Mr. MCKEON for

their good work on this legislation, helping to provide for our soldiers, sailors, airmen, coastguardsmen, and for all of those who serve our country in this war on terrorism.

Mr. Chairman, as we approach Memorial Day, I want to thank our servicemen and -women for their service to our great country.

When they come home, the war that they fought on our behalf sometimes just begins. It begins for them personally. That is the war to try to cope, to cope with the many challenges healthwise that they have been encumbered with because of their service to our country, and they shouldn't have to worry one bit that they don't have us to back them up 100 percent. They need to know that we are there for them just as they have been for us.

That is why, in this legislation, we have the best and the latest in medicine for brain research and for neuroscience technology in order to make sure that the signature wounds in this war, traumatic brain injury and posttraumatic stress disorder, are researched properly and that they are researched at the evidence-based level by the Department of Defense.

Our soldiers deserve no less than the best when it comes to making sure that their challenges and their wounds are addressed. The Department of Defense needs to do that.

We make it a priority in this authorization bill. When we do that in this bill, we also do that for this country because, just as they did overseas, they are not only going to kick down the doors over there; they are going to kick down the doors here at home when it comes to advancing mental health and neuroscience for all Americans.

What we are learning is thanks to these great soldiers who are serving this country so proudly. God bless all of our men and women. Let them know that we stand behind them over there and when they get back here at home as well.

The Acting CHAIR. The gentleman from Missouri has 3 minutes remaining.

Mr. SKELTON. I yield 1 minute to a friend, the gentleman from New Jersey (Mr. ANDREWS).

(Mr. ANDREWS asked and was given permission to revise and extend his remarks.)

Mr. ANDREWS. I thank the chairman for yielding.

Certainly, the debate the minority keeps bringing up about Don't Ask, Don't Tell is very important, and we will have that vigorous debate.

Mr. Chairman, I think many Americans don't really place whether gays and lesbians can serve in the military as the number one thing they worry about in national security. I think they're probably more worried about something like a nuclear IED going off in Times Square.

It is important to look at the work that the two parties have done to-

gether that is reflected in this bill to prevent that day from happening. There is a program which identifies, gathers up, secures, and eventually disposes of the material that could make a nuclear bomb which would make that horror story happen.

In 2008, we devoted \$199 million to that program. Frankly, it was lagging behind. We weren't identifying, securing, or disposing of enough of it. This year, we are putting \$559 million into that, which means more nuclear material will be identified, locked down, disposed of, and the risk that we will have a terrible situation like I just described will be diminished.

This is the real work of the defense committee, and it deserves everyone's support.

Mr. SKELTON. I yield 2 minutes to my friend, the gentleman from Ohio (Mr. DRIEHAUS).

Mr. DRIEHAUS. Thank you, Mr. Chairman, for yielding.

Mr. Chairman, we will soon be considering an amendment, the Pingree amendment, which would strip away competition in the F-35, the Joint Strike Fighter, with the competitive engine program.

This Congress, on nine different occasions, has stood up for competition, and as recently as this Congress with the Weapon Systems Acquisition Reform Act of 2009, where the House passed the conference report 411-0. In section 202, we talk about the acquisition strategies to ensure competition throughout the life cycle of major defense acquisition programs.

It is estimated, Mr. Chairman, that 5,000 engines will be ordered for the Joint Strike Fighter—5,000 engines. The proponents of this amendment would have us do away with the competition despite the fact that this Congress has invested almost \$3 billion in this competition today. Now that we are up and ready, now that the competitive engine is ready to move forward, they want to say, Stop. Stop the race before it even starts.

We know better than that, Mr. Chairman. We know better because we learned on the F-15 and on the F-16. We know that this will reduce costs in the long term. As my grandmother would say, this is a penny wise and a pound foolish.

Also, just this year, in March of 2010, the GAO report suggests that this goes beyond financial speculation. We know that this is going to save money. Beyond the finances, there are non-financial benefits—better performance, increased reliability, and improved contractor responsiveness.

This is critically important. If for the next couple of decades we are going to rely upon this knowledge for our men and women in uniform, we need to make sure that it is reliable. We need to make sure that there is competition.

I urge my colleagues to reject the Pingree amendment.

(c) ORIGINAL BASELINE.—For purposes of reporting requirements referred to in section 2430a(b) of title 10, United States Code, for the major subprogram designated under subsection (a), the Secretary shall use the Milestone B decision for the subprogram as the original baseline for the subprogram.

(d) ACTIONS FOLLOWING CRITICAL COST GROWTH.—

(1) IN GENERAL.—Subject to paragraph (2), to the extent that the Secretary elects to restructure the F-35 Lightning II aircraft major defense acquisition program subsequent to a reassessment and actions required by subsections (a) and (c) of section 2433a of title 10, United States Code, during fiscal year 2010, and also conducts such reassessment and actions with respect to the F135 engine development and procurement program (including related reporting based on the original baseline as defined in subsection (c)), the requirements of section 2433a of such title with respect to the major subprogram designated under subsection (a) shall be considered to be met with respect to the major subprogram.

(2) LIMITATION.—Actions taken in accordance with paragraph (1) shall be considered to meet the requirements of section 2433a of title 10, United States Code, with respect to the major subprogram designated under subsection (a) only to the extent that designation as a major subprogram would require the Secretary of Defense to conduct a reassessment and take actions pursuant to such section 2433a for such a subprogram upon enactment of this Act. The requirements of such section 2433a shall not be considered to be met with respect to such a subprogram in

the event that additional programmatic changes, following the date of the enactment of this Act, cause the program acquisition unit cost or procurement unit cost of such a subprogram to increase by a percentage equal to or greater than the critical cost growth threshold (as defined in section 2433(a)(5) of such title) for the subprogram.

The Acting CHAIR. Pursuant to House Resolution 1404, the gentleman from Maine (Ms. PINGREE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Maine.

Ms. PINGREE of Maine. Mr. Chairman, this amendment prohibits any further funding for the alternate F-35 engine.

In 2001, Pratt & Whitney won the award for the primary engine for the Joint Strike Fighter through a competitive bidding process. This process was set up to save millions in taxpayer dollars. Since then, Congress has authorized an astonishing \$1.3 billion of unrequested funds for the development of this extra unnecessary engine. The Bush administration opposed this program. The Obama administration opposes this program. And yet if this amendment fails today, we will continue to fund a defense program that is a complete waste of money.

I could not put it any better than the Secretary of Defense put it himself: Given the many pressing needs facing our military and the fiscal challenges facing our country, we cannot afford a “business as usual” approach to the defense budget. Tough choices must be made by both the Department and Congress to ensure that current and future military capabilities can be sustained over time. This means programs and initiatives of marginal or no benefit, like the F136 engine, are unaffordable luxuries.

I urge my colleagues to vote “yes” and finally end this wasteful, unnecessary program.

Mr. Chairman, I yield the balance of my time to the gentleman from Connecticut (Mr. LARSON) and thank him for his leadership on this incredibly important issue.

The Acting CHAIR. Without objection, the gentleman from Connecticut will control the balance of the time.

There was no objection.

Mr. LARSON of Connecticut. I would inquire of the Chair how much time we have on each side.

The Acting CHAIR. The gentleman from Connecticut has 3½ minutes remaining. There will be 5 minutes for an opponent.

Mr. MCKEON. Mr. Chairman, I rise to claim the time in opposition to the amendment.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. MCKEON. Mr. Chairman, I yield myself 15 seconds.

I strongly believe that a \$110 billion noncompetitive sole source 25-40 year contract should not be permitted.

Therefore, I strongly support the inclusion of funding to complete the development of the F-136 competitive engine for the Joint Strike Fighter.

I reserve the balance of my time.

Mr. LARSON of Connecticut. At this time I yield 45 seconds to the distinguished gentleman from California (Mr. CARDOZA).

Mr. CARDOZA. I thank my friend for yielding.

I rise today in support of the Pingree amendment to the National Defense Authorization Act. I understand and respect the passions expressed by my friends on both sides of this issue, but I believe today we must stand firmly on the side of fiscal responsibility and refuse to fund a redundant engine that our military leaders and our Commander in Chief all said is unnecessary and unwarranted.

When I am back home in my district, I often hear my constituents say that we never cut anything, and we never can say no. Today I am saying no, and I think this House should as well. I don't think we need two engines on this plane.

I believe that we need to save \$3 billion every time we get a chance. Today we can make a difference for this deficit. Our country cannot afford to waste precious tax dollars funding this program the military says they don't need.

Mr. MCKEON. Mr. Chairman, I yield 1 minute to the gentleman from Washington (Mr. SMITH), the chairman of the Air and Land Forces Subcommittee of the committee.

Mr. SMITH of Washington. Mr. Chairman, the second engine is all about fiscal responsibility and saving the taxpayers money. The Pentagon themselves funded this program for 10 years, and they funded it because they knew that competition mattered.

One thing has already been said in this debate that simply isn't true: The first engine was not competitively bid. It was the engine that Lockheed had when they won the bid. There was no competition. They didn't win that. That is why the Pentagon originally created the second engine program, to make sure that over the 30- to 40-year lifecycle of a \$100 billion program, they had options.

A GAO study on the competitive engine program for the F-16 from the early 1980s showed savings of almost 20 percent over the lifetime of that program. Those of us who for years have supported this second engine program, have support it precisely because we want to save the taxpayers money.

The simple argument is competition works, and being penny-wise and pound-foolish doesn't. We have already spent \$3 billion. To save \$2 billion on the front end, we risk a \$100 billion program. Please oppose this amendment.

Mr. MCKEON. Mr. Chairman, I yield 1 minute to the gentleman from Missouri (Mr. SKELTON), the distinguished chairman of the Armed Services Committee.

Mr. SKELTON. Mr. Chairman, I speak in favor of the committee posi-

tion, which is to have an alternate engine for the F-35. If one looks at the graph of the F-16 alternate engine program, one will clearly notice that from the mid-1980s, the cost of the engines went down because of the competition. Competition is important. Single source often causes a steep increase in price.

Last year, this House passed the Weapons System Acquisition Reform Act, which requires more competition in Department of Defense programs, not less. What this position of the Armed Services Committee does is live up to that reform act, requiring more competition. It is as simple as that.

Mr. LARSON of Connecticut. Mr. Chairman, may I inquire as to how much time we have remaining.

The Acting CHAIR (Mr. SERRANO). Both sides have 2¾ minutes remaining.

Mr. LARSON of Connecticut. I yield 45 seconds to the distinguished gentleman from Georgia (Mr. WESTMORELAND).

Mr. WESTMORELAND. Mr. Chairman, let me say that there has been some competition in the engine for the F-35, and that competition is when the bids were due. That bid was perfectly legal and honest and upfront, and the bid was awarded.

Now we have got somebody that actually has a contract for 14 of the 28 military aircraft engines, sole source, complaining about competition. They lost the competition.

Mr. Chairman, if they lost the competition in an open and honest bid, having the sole source of 14 of the 28 military aircraft engines, what can be the argument?

Mr. MCKEON. Mr. Chairman, I yield 30 seconds to the gentleman from Texas (Mr. CONAWAY), a member of committee.

Mr. CONAWAY. Mr. Chairman, I thank the ranking member for yielding.

I want to speak in favor of competition. Competition works. Our work on the IMPROVE Act shows that. I am against this amendment. There was no competition. Under Secretary Ashton Carter, on the record in front of the committee, said there was no competition between these two engines. Competition works. It drives down the costs, and we need those cost savings over the term of a 40-year program.

I rise in opposition to amendment #80 offered by Representative PINGREE and others. The Pingree amendment would result in a sole source contract to a single engine manufacturer for the Joint Strike Fighter. But few can argue with the premise that competition is good for the taxpayer.

In fact, the Department of Defense has training materials for its acquisition workforce to teach them the benefits of competition and how to cultivate it. For example, here are a few highlights from DoD's required training on competition, dated May 5, 2010. These training materials capture the benefits of competition: Drives cost savings; Improves quality of product/service; Enhances solutions and the industrial base; Promotes fairness and open-

ness leading to public trust; Prevents waste, fraud, and abuse, because contractors know they must perform at a high level or else be replaced; Healthy competition is the lifeblood of commerce—it increases the likelihood of efficiencies and innovations.

It also notes what the key drivers of competition are. Principally, it's the law! The Competition in Contracting Act of 1984 requires competition in contracting. Competition isn't an alternative, it's required!

The emphasis on competition comes from the top. On March 4, 2009 in a memorandum for the Heads of Executive Departments and Agencies, President Barak Obama stated, "It is the policy of the Federal Government that executive agencies shall not engage in non-competitive contracts except in those circumstances where their use can be fully justified and where appropriate safeguards have been put in place to protect the taxpayer." Yet, we have yet to see such a justification, nor have we seen any evidence of additional safeguards being put into place.

In fact, in DoD's training materials, they note what circumstances lead to barriers to competition. In this instance, none of these circumstances apply:

Unique/critical mission or technical requirements (We have 2 contractors capable of meeting technical requirements.)

Industry move toward consolidation (We still have 2 viable engine manufacturers.)

Urgent requirements in support of war operations (The JSF is not being procured to support today's operations.)

Congressional adds or earmarks (Unless this amendment passes, Congress will not have directed funding for the engine to go to a particular manufacturer.)

Proprietary data rights developed at private expense (Does not apply. These are new engines.)

Insufficient technical data packages (Does not apply.)

Contracting personnel shortages and increased workload (The competitive engine was funded by DoD until 2006 and continues to be funded by Congress. There is no increase in work load.) Time Restraints (The competitive engine is already under development and there is time. At best, the F-25 will not reach initial operational capability for 2-4 years.)

But the emphasis on competition comes not only from the President. This Congress, just one year ago, unanimously passed the Weapon Systems Acquisition Reform Act of 2009. The bill states that:

Major Defense Acquisition Programs shall adopt acquisition strategies that ensure competition . . . At prime & subcontract level throughout program life-cycle

When a decision is made to award maintenance & sustainment contract for major weapon system, DoD will ensure to maximum extent possible & consistent with law that the sustainment contract be competitively awarded.

Likewise, less than one month ago, this Congress passed the IMPROVE Acquisition Act of 2010, by a vote of 417-3. This bill also focused on the need to expand the industrial base, provide training on competition, and to ensure competition is maintained in services contracts.

What's more, since DoD stopped funding the competitive engine in 2006, Congress has

provided funding for the competitive engine in 2007, 2008, 2009, and 2010. Nothing has changed. A vote to oppose the Pingree amendment is a vote to support the policy Congress has clearly articulated—competition is good, it's the law, and it's required for the F-35 engine.

It's also interesting to note that of the 33 members who co-sponsored this amendment, 24 of them have voted for every single piece of legislation I just cited (when they cast a vote). None voted against the Weapon System Acquisition Reform Act. In fact, Ms. PINGREE, voted for each of these bills while she's been in Congress, and was also co-sponsor of the Weapon System Acquisition Reform Act in the House.

We cannot send a mixed message. Competition is possible here. We should not direct funding to a single source. I urge my colleagues to oppose the amendment.

Mr. LARSON of Connecticut. Mr. Chairman, I yield myself such time as I may consume.

All across America, families are tightening their belts, making do with less. They expect the same from Congress. Imagine their utter frustration when they hear Congress is pushing forward an unwanted and unnecessary \$3 billion program. Only in Washington, D.C., could a company that lost the competition in the private sector and already controls 88 percent of the military engine market come seeking a government-directed subsidy and call that competition. I guess competition in this town means buying two of everything with the taxpayers' money.

The Marines, the Navy, and the Air Force have all said they don't want it. They don't need it. The President has called this program an example of unnecessary defense programs that do nothing to keep us safe.

Why are we moving ahead with it? If we can't cut spending here, where can we cut it? If we don't make the tough choices to rein in wasteful spending now, when will we make them?

This is about whose side you are on. Are you on the side of excessive spending, or are you on the side of saving the taxpayers money and supporting our troops?

I reserve the balance of my time.

Mr. MCKEON. Mr. Chairman, I yield 30 seconds to the gentleman from Indiana (Mr. BUYER).

Mr. BUYER. I have heard it all. To say that competition causes wasteful use of taxpayers' money is a perfidious argument. Are you kidding me?

I defended Connecticut when it came to Electric Boat. You came to the floor and you argued about competition, competition against Newport News. I am glad we did, now that we have got welding problems with those submarines.

Now you think sole source and competition is bad? Are you kidding me, Mr. Chairman? Do not be dishonest. Let's be honest about the debate, all right? Let's defend our industrial base. That is what is extremely important. Let's also protect the Transatlantic Alliance.

Mr. MCKEON. Mr. Chairman, I now yield 30 seconds to the gentleman from Georgia (Mr. SCOTT), the vice chair of the Terrorism, Nonproliferation and Trade Subcommittee of the Committee on Foreign Affairs.

Mr. SCOTT of Georgia. Mr. Chairman, I want to speak on something that we have not touched upon, and that is what we need to touch upon the most, and that is what is in the best interests of our national security.

Here we are debating this issue: Do we want to put the future of an engine production in the hands of one monopoly company for 30 years and put \$100 billion in it?

Ladies and gentlemen, by the year 2035, the F-35 will account for 95 percent of our entire aircraft fleet for our fighter squadrons. It is very important that we have this balanced in the hands of more than one manufacturer. We need to vote down this amendment.

The Acting CHAIR. The gentleman from Connecticut has 30 seconds remaining.

Mr. LARSON of Connecticut. I yield the balance of my time to the distinguished gentleman from Florida (Mr. ROONEY).

Mr. ROONEY. Mr. Chairman, I rise in support of the amendment.

Ladies and gentlemen, we were sent here in a Republic to represent you as trustees with issues like this. I am new to Congress, but this is a wasteful spending earmark.

We have 27 planes that use one engine that had a competitive bid, and now we are talking about adding a second engine to our F-35 for \$2.9 billion. Why? Because we slipped in an earmark in 1996, and nobody in Congress, the Congress with the great approval rating, has ever decided to take it out.

The time to change Washington is now, and this is a perfect example of why. Vote yes on the amendment.

I rise today in strong support of the Pingree/Rooney/Larsen amendment. With a \$1.6 trillion dollar deficit the "extra" engine is a luxury we cannot afford.

I would like to point out a few things very briefly:

(1) This is a \$2.9 billion dollar program the DOD does not want or need.

(2) We can build 53 jets for the cost of the "extra" engine

(3) There are 27 aircraft that operate with a sole source engine.

(4) Sole sourced engines are the norm.

(5) The F-16 is the only other aircraft in the history of U.S. military aviation with two simultaneous engine manufacturers.

(5a) There was fair competition for the bid; the incumbent engine won but here we are also funding the second place engine too. The "everybody gets a trophy philosophy has to end. Everyone doesn't get an "A." We can't afford it.

(6) The Navy, Air Force and Marine Corps service chiefs do not want this extra engine.

(7) There has been support from both Bush and Obama administrations to end this wasteful program.

(8) Independent agencies including the GAO and OMB have found that there is no evi-

dence to support the extra engine will produce any significant cost savings, despite earlier projections.

This extra engine is a luxury we simply cannot afford and I urge my colleagues to vote Yes on the Amendment.

The Acting CHAIR. The gentleman from California has 1¼ minutes remaining.

Mr. MCKEON. Mr. Chairman, I yield 30 seconds to the gentleman from Indiana (Mr. PENCE).

(Mr. PENCE asked and was given permission to revise and extend his remarks.)

Mr. PENCE. Mr. Chairman, I rise in opposition to the efforts to eliminate the engine competition for the F-35 Joint Strike Fighter. In the interest of full disclosure, let me say how proud I am of the more than 4,000 Hoosier employees of Rolls Royce who worked to develop this engine. But that is not why I am here.

I am here because I really do believe, as the Heritage Foundation has cited, that the essential choice between us today is competition or sole-source contracting. Either we can require two companies to engage in head-to-head competition each year for the next 30 years, or we can give one company a sole-source contract worth \$100 billion for the next 30 years. Which do you think is more in the interests of the taxpayers?

Oppose this amendment.

I rise in opposition to efforts to eliminate the engine competition for the F-35 Joint Strike Fighter.

In the interests of full disclosure, let me say first how proud I am of the more than 4,000 Hoosier employees of Rolls Royce, which teamed with General Electric to develop the F136 engine for the F-35.

But let's look at the facts regarding this competitive engine program, which began 15 years ago and today is 70 percent complete.

History tells us that competition serves the taxpayer well and this is no less the case when it comes to fighter engines.

In its study, the non-partisan Government Accountability Office found that the F-16 engine competition yielded savings of 21 percent in overall lifecycle costs. Using that as a model, we might anticipate a 20 percent benefit from the JSF engine competition, but it would only need to generate 1 percent to 2 percent cost benefit to recoup the remaining investment needed to complete the F136 program.

In addition to the outstanding opportunity for cost savings, competition also improves operational readiness and contractor responsiveness.

Building the F-35 using two interchangeable engines from two separate manufacturers provides insurance against fleet-wide engine problems down the road. As the Heritage Foundation noted recently, without the F136, it is estimated that by 2035 nearly 90 percent of our fighters will use a single engine, the F135 baseline engine.

A competing engine program also hedges against the risks posed by testing failures, required redesigns, cost growth and delays in the primary engine program. And because it is a follow-on program, the F136 provides growth

paths for propulsion systems and technological innovation that can address problems that arise such as potential aircraft weight growth.

The essential choice before us is between competition and sole source contracting. Either we can require two companies to engage in head-to-head competition each year for the next 30 years—or give one company a sole source contract worth \$100 billion for the next 30 years. Which do you think is most likely to control costs and deliver the best engine to the American taxpayer?

The answer is clear: competition provides an important cost-control mechanism in defense procurement, it encourages innovation, and mitigates risk.

I urge my colleagues to support competition and military flexibility, and oppose the Pingree Amendment.

□ 1615

Mr. MCKEON. Mr. Chairman, I yield 30 seconds to the gentleman from New Jersey (Mr. ANDREWS).

(Mr. ANDREWS asked and was given permission to revise and extend his remarks.)

Mr. ANDREWS. Mr. Chairman, Members should ask themselves these questions in deciding this issue: When it comes to saving money, would you rather have two people competing or one for your business?

When it comes to protecting the fleet, the ability to fly, would you rather rely upon one company or two to keep the fleet flying?

When it comes to competition, should you presume that competition works or presume that it shouldn't?

To save money, to protect the fleet, to promote competition, we should oppose this amendment.

Mr. MCKEON. Mr. Chairman, I yield the balance of my time to the gentleman from North Carolina (Mr. MCINTYRE), a member of the committee.

(Mr. MCINTYRE asked and was given permission to revise and extend his remarks.)

Mr. MCINTYRE. Mr. Chairman, this amendment would add \$20 billion to the deficit by eliminating the savings that GAO says will occur with competition. Congress is not required to give a rubber stamp to the Department of Defense, which is opposed to other programs like the formation of the U.S. Special Operations Command and funding for the V-22 Osprey.

If this amendment passes, our national security will be put at grave risk as 90 percent of our fighter jet fleets will be dependent on just one engine. That's not wise and it's not fair.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from Maine (Ms. PINGREE).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Ms. PINGREE of Maine. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentlewoman from Maine will be postponed.

AMENDMENT NO. 82 OFFERED BY MR. INSLEE

The Acting CHAIR. (Mr. BLUMENAUER). It is now in order to consider amendment No. 82 printed in House Report 111-498.

Mr. INSLEE. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 82 offered by Mr. INSLEE:

At the end of title VIII, add the following new section:

SEC. 839. CONSIDERATION OF UNFAIR COMPETITIVE ADVANTAGE IN EVALUATION OF OFFERS FOR KC-X AERIAL REFUELING AIRCRAFT PROGRAM.

(a) REQUIREMENT TO CONSIDER UNFAIR COMPETITIVE ADVANTAGE.—In awarding a contract for the KC-X aerial refueling aircraft program (or any successor to that program), the Secretary of Defense shall, in evaluating any offers submitted to the Department of Defense in response to a solicitation for offers for such program, consider any unfair competitive advantage that an offeror may possess.

(b) REPORT.—Not later than 60 days after submission of offers in response to any such solicitation, the Secretary of Defense shall submit to the congressional defense committees a report on any unfair competitive advantage that any offeror may possess.

(c) REQUIREMENT TO TAKE FINDINGS INTO ACCOUNT IN AWARD OF CONTRACT.—In awarding a contract for the KC-X aerial refueling aircraft program (or any successor to that program), the Secretary of Defense shall take into account the findings of the report submitted under subsection (b).

(d) UNFAIR COMPETITIVE ADVANTAGE.—In this section, the term "unfair competitive advantage", with respect to an offer for a contract, means a situation in which the cost of development, production, or manufacturing is not fully borne by the offeror for such contract.

The Acting CHAIR. Pursuant to House Resolution 1404, the gentleman from Washington (Mr. INSLEE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Washington.

Mr. INSLEE. Mr. Chairman, I yield myself 1 minute.

Mr. Chairman, we, all Americans, believe in a strong national defense; and all Americans believe in a fair, level playing field in economic competition.

And in the competition for the procurement contract for the Air Force tanker to preserve national defense infrastructure, to preserve fairness, we need to amend this bill to ensure that unfair competitive advantage, illegal subsidies, in fact, are taken into consideration in this bidding process.

We have prepared an amendment that will do that, that will insist that in this bidding process that it be conducted fairly; that when any bidder, domestic or foreign, has an unfair competitive advantage, that is taken into consideration.

Now, why do we need to do this?

Well, there's 50,000 American jobs at stake, and nothing in international law compels us to provide a stimulus program for France. We are required to do this because we know American aero-

space workers can compete if they have a level playing field with workers in Europe.

Our bill is, number one, fair. It applies to both domestic and foreign bidders. Number two, it's WTO compliant.

Mr. Chairman, I yield 1½ minutes to the gentleman from Kansas (Mr. TIAHRT).

Mr. TIAHRT. Mr. Chairman, every day it becomes more and more difficult to create and keep jobs here in America. We've got the best aerospace workers in the world. But over the last few years, 65,000 aerospace jobs have left America and migrated to France.

The European Government has subsidized building jets, and finally the World Trade Organization ruled that those start-up subsidies are illegal.

And now our own Pentagon is buying a new air refueling tanker a new jet, and they have decided to turn their backs on the American aerospace workers by ignoring these illegal start-up subsidies and putting another 65,000 jobs at risk.

This amendment is about fairness to the American aerospace workers. It simply says, in spite of all the lobbying efforts that have occurred by the French, Mr. Secretary, if you insist on receiving a bid from the French, then you have to take into consideration the dollar impact of the illegal subsidies. Support this amendment, and it's a matter of fairness to the American aerospace workers.

Mr. Chairman, for the purposes of a colloquy, I yield to the gentleman from Washington (Mr. INSLEE).

Mr. INSLEE, is it your intention and your understanding that the language in the amendment regarding the unfair competitive advantage describes illegal subsidies such as illegal launch aid provided by EADS and Airbus by the European governments as ruled by the World Trade Organization?

Mr. INSLEE. Yes. And it is our intent, with this amendment, to ensure that illegal and unfair competitive advantages, such as the launch aid provided to EADS/Airbus by the European governments, are factored into the bid price of recipients of those illegal subsidies.

Mr. TIAHRT. Thank you. That's also my intent and understanding of this language.

Mr. INSLEE. Mr. Chairman, I reserve the balance of my time.

Mr. BONNER. Mr. Chairman, I rise to claim time in opposition to this amendment, although I am not opposed to it.

The Acting CHAIR. Without objection, the gentleman from Alabama is recognized for 5 minutes.

There was no objection.

Mr. BONNER. It's interesting listening to both sides of this debate. We actually, I think, see this amendment in two different ways, and yet we are going to end up being on the same side.

This amendment, as it has been revised, is far superior to the form in which it existed less than 24 hours ago.

The amendment now applies in an evenhanded way to both competitors in the tanker competition and, for that reason, I think we have made the amendment better.

However, allow me to offer a word of caution to my colleagues that merits our consideration. As my colleagues know, this ongoing procurement process that, in fact, was mandated by Congress, is just weeks away, July 9, in fact, from where both companies are going to turn in their final bid. And unless we muddy this process up, we are only a few months away from selecting a winner and finally moving forward to building the replacement for the Air Force's 50-plus-year-old fleet of tankers.

The word of caution to my friends is this: Congress needs to be very careful that we do not inadvertently build obstacles or additional delay into this program. After all, our warfighters have waited long enough.

And we must be extremely careful that we maintain a level playing field that is essential for vigorous competition. We all know that competition will dramatically increase the odds of a better tanker at a better price, and there are only two companies in the world that are qualified to build these tankers.

To that point, on Tuesday of this week, the Department of Defense reiterated that "we would not have welcomed EADS North America's participation into this important competition unless they were a company in good standing with the Department of Defense."

Those of us who support EADS' bid have long argued for a level playing field, one in which both sides can compete fairly. Some on one side, however, appear to fear that fair competition is not possible unless it is a sole-source contract, a blank check signed by the American taxpayer.

Mr. Chairman, I yield such time as he may consume to the gentleman from Alabama (Mr. BRIGHT), my friend and my distinguished colleague who serves on this committee of jurisdiction.

Mr. BRIGHT. Mr. Chairman, I rise today to thank the Armed Services, Rules, and Ways and Means Committees for intervening on this amendment to make it much less harmful than it was originally written.

The committees recognize, as do I, that the Fair Defense Competition Act, on which this amendment is based, is deeply flawed and would have significant international trade implications. Considering the fact that the original bill has been deemed unworkable, I hope we can put this issue to rest and proceed to get our warfighters the best tanker available for the best value to the taxpayer.

For nearly a decade, the Defense Department has sought to replace its aging fleet of aerial refueling tankers. There have been numerous problems with that process, and a source selection effort that should have ended

years ago is only now getting close to final resolution.

If anything, Congress should avoid doing anything that would complicate an already drawn out competition. The Department of Defense should be able to award a contract based on the merits and the best value, without political or parochial considerations.

That said, I do not believe this particular amendment will have a significant impact on the process. The American warfighter and taxpayer deserves the best possible aerial refueling tanker. Let's get out of the way and let the Department of Defense make a decision based on the facts, not distractions.

Mr. INSLEE. Mr. Chairman, I yield 1 minute to the gentleman from Connecticut (Ms. DELAURO).

Ms. DELAURO. Mr. Chairman, we can give a \$35 billion contract for the next generation tanker to an American company, Boeing, creating an estimated 62,000 to 70,000 U.S. jobs over the life of the contract. Or we can give the contract to a European company, Airbus/EADS, thus creating tens of thousands of jobs in Europe.

This should be an easy call, a no-brainer. In fact, the decision is even clearer. We now know that Airbus has been provided almost \$6 billion in illegal subsidies from European governments, subsidies which have cost us an estimated 65,000 U.S. aerospace jobs.

The amendment before us directs the Department of Defense to take any unfair competitive advantage into account in the Air Force tanker competition. The Pentagon should not be rewarding bad behavior. U.S. taxpayers should not be asked to pay for an overseas jobs creation program for the European aerospace industry.

I urge my colleagues, support this amendment, stand up for American workers and basic fairness in tanker competition.

Mr. BONNER. Mr. Chairman, I would just like to respond briefly to the gentlelady from Connecticut, our friend and distinguished colleague, to set the record straight.

When EADS wins the competition this time, as they did the previous time, they intend to create almost 48,000 jobs in the United States, many of which, quite honestly, will be in my district in Alabama. But they will be in all 50 States. So this is not a competition between American jobs and European jobs. This is American jobs throughout the country between two great competitors.

Mr. Chairman, I reserve the balance of my time.

Mr. INSLEE. I yield 30 seconds to the gentleman from Missouri (Mr. CARNAHAN).

Mr. CARNAHAN. Mr. Chairman, during this time of record unemployment, granting a \$35 billion contract to a company that has received over \$5 billion in illegal subsidies, according to the WTO, makes no common sense.

In the end, this is about what is fair for the American taxpayer, fair for

companies. Tens of thousands of Boeing employees and suppliers throughout the U.S. have been affected by these continual subsidies provided by European governments that have put American workers at a disadvantage.

I call on every Member of this House to support full and fair competition in the tanker program to support American workers.

Mr. BONNER. In response to my friend from Missouri, and in agreement that we need to be assured of fair competition, that's why I do not oppose this amendment. I believe this amendment was made better last night.

Mr. Chairman, I reserve the balance of my time.

Mr. INSLEE. I yield 30 seconds to the gentleman from Washington (Mr. DICKS).

Mr. DICKS. Mr. Chairman, I want my friend from Alabama to recognize that nobody would have objected to him getting additional time.

The biggest point here is that Airbus received \$5.7 billion in subsidy from the governments of Europe. This gives it an unfair advantage in the bidding on this airplane, and that's why we want the Secretary of Defense to at least take that into account.

The WTO has already determined that this was an illegal subsidy that harmed the United States of America and has cost us thousands of jobs. We must pass this amendment.

□ 1630

Mr. BONNER. With that, I would like to respond to my distinguished chairman and my friend from Washington State with this point. The WTO has only had an interim ruling, and everyone knows that. And within weeks, the WTO should be able to consider the complaint of the European Union against Boeing.

To that point, \$16.6 billion in R&D subsidies have been recorded for Boeing versus \$3.7 billion for Airbus, \$2 billion in export-related tax subsidies, \$6 billion in local and State government subsidies, and \$2 billion in foreign government subsidies for moving manufacturing jobs out of your State, my friend, into Japan and into Italy.

I yield back the balance of my time.

Mr. INSLEE. I just want my colleagues to realize there is a clear difference between these two bidders. One has been adjudicated as having received over \$5 billion of illegal subsidies. That is the same contractor that will take tens of thousands of jobs to Europe that would otherwise be in the United States of America. It is untenable in today's world for the Pentagon to not take that into consideration.

Here is one message to the people who are doing such a great job for us in the Department of Defense. We realize the hour of this debate, but we will not finish until this is taken into consideration.

The Acting CHAIR. The time of the gentleman has expired.

The question is on the amendment offered by the gentleman from Washington (Mr. INSLEE).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. INSLEE. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Washington will be postponed.

“(4) An officer returned to the standard career path under paragraph (1), (2), or (3) shall retain the grade, date-of-rank, and basic pay level earned while a participant in the program but shall revert to the special and incentive pay authorities established in title 37 upon the expiration of the agreement between the Secretary and the officer providing any special and incentive pays under the program. Subsequent increases in the officer's rate of monthly basic pay shall conform to the annual percentage increases in basic pay rates provided in the basic pay table.

The Acting CHAIR. Pursuant to House Resolution 1404, the gentleman from New Jersey (Mr. ANDREWS) and the gentleman from California (Mr. MCKEON) each will control 10 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. ANDREWS. Mr. Chairman, this en bloc amendment represents a contribution by Members in both parties: very thoughtful, a lot of excellent ideas the committee is pleased to support. So I would urge the committee to adopt the amendments en bloc, each of which has been examined by both the majority and the minority.

Mr. Chairman, I reserve the balance of my time.

Mr. MCKEON. Mr. Chairman, I rise to claim the time in opposition to the amendment, although I am not opposed to the amendment.

The Acting CHAIR. The gentleman from California is recognized.

Mr. MCKEON. Mr. Chairman, I yield 3 minutes to the gentleman from Pennsylvania (Mr. SHUSTER).

Mr. SHUSTER. I thank the gentleman from California for yielding.

I rise in support of the en bloc amendments, but I rise in opposition to the Murphy amendment, which will repeal Don't Ask, Don't Tell, which is the current law for the U.S. military.

Our Nation is at war, and after making the continuous sacrifice of fighting two wars over the course of 8 years, the men and women of our military deserve

to be heard. This December, the Pentagon's Don't Ask, Don't Tell Working Group will return a survey of over 300,000 of our members of our military concerning that policy. We should listen to the men and women in uniform first before we act in the Congress.

This decision should not be based on a campaign promise made to a particular constituent base, but on thoughtful consideration of readiness, morale, and cohesion. We owe that to the men and women who serve us in harm's way.

In the committee, we have heard from all four of our service chiefs expressing their concerns on this amendment, and it is unanimous. The Chiefs and Secretary Gates and Admiral Mullen recently sent a letter to the chairman of the committee, Chairman SKELTON, saying that they believe in the strongest possible terms that the Department must, prior to any legislative action, be allowed the opportunity to conduct a thorough, objective, and systematic assessment of the impact of such a policy change, develop an attentive comprehensive implementation plan, and provide the President and the Congress with the results of this effort in order to ensure that this step is taken in the most informed and effective manner. That is Admiral Mullen and Secretary Gates.

Further, Admiral Roughead has sent a letter. It says he shares the views of Secretary Gates that the best approach would be to complete the Department of Defense review before there is any legislative change made.

Further, General Schwartz has said that as a matter of keeping faith with those currently serving in the Armed Forces, that the Secretary of Defense commissioned review be completed before any legislative act is done to repeal Don't Ask, Don't Tell.

General Casey has the same type of response. He goes further saying, "Repealing the law before the completion of the review will be seen by the men and women of the Army as a reversal of our commitment to hear their views before moving forward."

And, finally, General Conway stated that he believes the current policy works, and at this point his best military advice to the House committee and to the Secretary and to the President would be to keep the law as it stands today.

In addition, Congress is giving up its powers, surrendering, abdicating its constitutional authority to the executive branch in order to appease a political agenda.

□ 1730

This amendment, as drafted, puts a conditional future on an important defense policy and law, which would then only be decided by the administration.

The Acting CHAIR. The time of the gentleman has expired.

Mr. MCKEON. I yield the gentleman 1 additional minute.

Mr. SHUSTER. I believe Congress should maintain its authority to re-

view and debate this policy implication of repealing Don't Ask, Don't Tell before a final decision is made. We owe that to the men and women of the Armed Forces.

To my colleagues, I urge them: Don't shoot before we aim. I urge a "no" vote on the Murphy amendment.

THE SECRETARY OF DEFENSE,
Washington, DC, April 30, 2010.

Hon. IKE SKELTON,
Chairman, Committee on Armed Services, Washington, DC.

DEAR MR. CHAIRMAN: I am writing in response to your letter of April 28 requesting my views on the advisability of legislative action to repeal the so-called "Don't Ask Don't Tell" statute prior to the completion of the Department of Defense review of this matter.

I believe in the strongest possible terms that the Department must, prior to any legislative action, be allowed the opportunity to conduct a thorough, objective, and systematic assessment of the impact of such a policy change; develop an attentive comprehensive implementation plan, and provide the President and the Congress with the results of this effort in order to ensure that this step is taken in the most informed and effective manner. A critical element of this effort is the need to systematically engage our forces, their families, and the broader military community throughout this process. Our military must be afforded the opportunity to inform us of their concerns, insights, and suggestions if we are to carry out this change successfully.

Therefore, I strongly oppose any legislation that seeks to change this policy prior to the completion of this vital assessment process. Further, I hope Congress will not do so, as it would send a very damaging message to our men and women in uniform that in essence their views, concerns, and perspectives do not matter on an issue with such a direct impact and consequence for them and their families.

Adm. MICHAEL G. MULLEN,
Chairman of the Joint
Chiefs of Staff.

ROBERT M. GATES,
Secretary of Defense.

CHIEF OF NAVAL OPERATIONS,
MAY 26, 2010.

Hon. HOWARD P. "BUCK" MCKEON,
House of Representatives,
Washington, DC.

DEAR MR. MCKEON: As a follow-up to our phone call today, the following represents my personal views about the proposed amendment concerning section 654 of title 10, United States Code.

I testified in February about the importance of the comprehensive review that began in March and is now well underway within the Department of Defense. We need this review to fully assess our force and carefully examine potential impacts of a change in the law. I have spoken with Sailors and fellow flag officers alike about the importance of conducting the review in a thoughtful and deliberate manner. Our Sailors and their families need to clearly understand that their voices will be heard as part of the review process, and I need their input to develop and provide my best military advice.

I share the view Secretary Gates that the best approach would be to complete the DOD review before there is any legislation to change the law. My concern is that legislative changes at this point, regardless of the precise language used, may cause confusion on the status of the law in the Fleet and disrupt the review process itself by leading

Sailors to question whether their input matters. Obtaining the views and opinions of the force and assessing them in light of the issues involved will be complicated by a shifting legislative backdrop and its associated debate.

Sincerely,
G. ROUGHEAD,
Admiral, U.S. Navy.

DEPARTMENT OF THE AIR FORCE,
OFFICE OF THE CHIEF OF STAFF,
Washington, DC, May 26, 2010.

Hon. BUCK P. MCKEON,
House of Representatives,
Washington, DC.

DEAR REPRESENTATIVE MCKEON: The President has clearly articulated his intent for the "Don't Ask, Don't Tell" (DA/DT) law to be repealed, and should this law change, the Air Force will implement statute and policy faithfully. However, as I testified to you and the HASC at the AF Posture hearing on 23 February 2010, my position remains that DOD should conduct a review that carefully investigates and evaluates the facts and circumstances, the potential implications, the possible complications, and potential mitigations to repealing this law.

Further I believe it is important, a matter of keeping faith with those currently serving in the Armed Forces, that the Secretary of Defense commissioned review be completed before there is any legislation to repeal the DA/DT law. Such action allows me to provide the best military advice to the President, and sends an important signal to our Airmen and their families that their opinion matters. To do otherwise, in my view, would be presumptive and would reflect an intent to act before all relevant factors are assessed, digested and understood.

Sincerely
NORTON A. SCHWARTZ,
General, USAF Chief of Staff

U.S. ARMY,
THE CHIEF OF STAFF,
MAY 26, 2010.

Hon. JOHN MCCAIN,
Ranking Member, Committee on Armed Services,
U.S. Senate, Washington, DC.

DEAR SENATOR MCCAIN: My views on the repeal of section 654 of Title 10, United States Code, have not changed since my testimony. I continue to support the review and timeline offered by Secretary Gates.

I remain convinced that it is critically important to get a better understanding of where our Soldiers and Families are on this issue, and what the impacts on readiness and unit cohesion might be, so that I can provide informed military advice to the President and the Congress.

I also believe that repealing the law before the completion of the review will be seen by the men and women of the Army as a reversal of our commitment to hear their views before moving forward.

Sincerely,
GEORGE W. CASEY, Jr.,
General, United States Army.

MAY 26, 2010.
Hon. HOWARD P. "BUCK" MCKEON,
Ranking Member, Committee on Armed Services,
House of Representatives, Washington, DC.

DEAR CONGRESSMAN MCKEON: During testimony, I spoke of the confidence I had as a Service Chief in the DoD Working Group that Secretary Gates laid out in the wake of President Obama's guidance on "Don't Ask—Don't Tell." I felt that an organized and systematic approach on such an important issue was precisely the way to develop "best military advice" for the Service Chiefs to offer the President.

Further, the value of surveying the thoughts of Marines and their families is

that it signals to my Marines that their opinions matter.

I encourage the Congress to let the process the Secretary of Defense created to run its course. Collectively, we must make logical and pragmatic decisions about the long-term policies of our Armed Forces—which so effectively defend this great Nation.

Very Respectfully,

JAMES T. CONWAY,
General, U.S. Marine Corps,
Commandant of the Marine Corps.

Mr. ANDREWS. I yield myself 2 minutes before I yield to my friend from New Jersey.

Mr. Chairman, the minority, for understandable reasons, wants to continue talking about the Murphy amendment, which is not on the floor.

Again, to set the record straight, the Murphy amendment has reflected the views of the joint Chiefs of Staff and of the Secretary of Defense for a very long time. The question has been not “if” we are going to repeal Don’t Ask, Don’t Tell but when and how.

The Murphy amendment says that the policy will not be repealed. It will stay in effect until such time as the chairman of the Joint Chiefs of Staff and the Secretary of Defense certify that nothing about that repeal will in any way undermine the security of the country, the efficiency of the Armed Forces or their effectiveness.

Now, the minority wants to keep talking about this. I think the American people, Mr. Chairman, are a lot more interested in some of the terrorism threats this country is actually facing.

By the way, one of the reasons those terrorism threats are more difficult is that we don’t have enough Arabic speakers in the intelligence units of our Armed Forces. At least several dozen, perhaps several hundred, Arabic-speaking persons have been expelled from the Armed Forces because of their sexual orientation. That doesn’t strike me as a particularly good way to protect national security.

Beyond that, though, a good way to protect national security, which is in this bill, is to strengthen our special forces. This legislation spends \$9.8 billion on our Special Operations Command, the highest in the history of the country.

So, when we call upon brave Americans to kick down that door or to do a commando raid in any dark corner of the world, which is going to prevent a terrorist attack in this country, this bill supports them. Both parties support that and both bills fund it. That is the issue that is actually before the American people.

At this time, I yield 2 minutes to someone who has done tremendous work on dealing with brain injuries and other traumas associated with brain injuries, the gentleman from New Jersey (Mr. PASCRELL).

Mr. PASCRELL. I thank my friend from New Jersey for yielding.

Mr. Chairman, 7 years into war, we are still not properly screening and treating our troops for traumatic brain

injury, known as the signature injury of those wars. This is unacceptable.

My amendment today builds on the requirements for the cognitive screening outline in the 2008 defense authorization bill, which most of us voted for, to identify soldiers for possible brain injury.

My amendment ensures the same tool is used for pre-and post-deployment cognitive screenings. It requires the Department of Defense to complete comparative studies in order to find the best cognitive screening tool for our troops. The fiscal year 2008 defense authorization bill required predeployment and postdeployment screenings of soldiers’ cognitive ability.

It is right in the law. Congress passed it. The President at that time, President Bush, signed it. Two years later, the law has not been fulfilled. The Department of Defense has implemented predeployment screening using a computerized tool known as ANAM, the Automated Neuropsychological Assessment Metrics.

The Army released a memo in November 2008, which just came to our attention 2 months ago. It states, “Routine postdeployment ANAM testing is not authorized.” We came upon this totally by accident. This is not what Congress passed in bipartisan support.

As a result, less than 1 percent of the 550,000 members of the Armed Forces have been given postdeployment cognitive screenings. This is in violation of the intent of the 2008 defense authorization.

The Acting CHAIR. The time of the gentleman has expired.

Mr. ANDREWS. I yield 1 additional minute to the gentleman from New Jersey.

Mr. PASCRELL. Instead of using the same test, the military uses a simple questionnaire for postdeployment screenings—a written questionnaire.

These assessments are not comparable. They do not detect changes to a soldier’s brain. Just like in sports, the key to pre- and postinjury assessment is to use the same tool. When you have a baseline, you are better able to compare.

As cochair of the Congressional Brain Injury Task Force, I recognize the need to help both our military and civilian populations in addressing brain injury. My amendment, which is endorsed by the Iraq and Afghanistan Veterans of America, which has bipartisan support, ensures our troops are given the proper cognitive screenings today and in the future.

I ask my colleagues to support my amendment.

Mr. MCKEON. Mr. Chairman, I yield 3 minutes to the gentleman from Indiana (Mr. PENCE).

(Mr. PENCE asked and was given permission to revise and extend his remarks.)

Mr. PENCE. Mr. Chairman, I rise in opposition to the Murphy amendment.

PARLIAMENTARY INQUIRY

Mr. ANDREWS. Parliamentary inquiry, Mr. Chairman.

The Acting CHAIR. The gentleman may state his parliamentary inquiry.

Mr. ANDREWS. Is the Murphy amendment before the committee at this point?

The Acting CHAIR. The Committee is debating en bloc amendments as previously announced.

Mr. ANDREWS. The gentleman said he was rising in opposition to the Murphy amendment. Would those remarks be in order at this time?

The Acting CHAIR. That is a hypothetical question at this stage of the proceedings.

Mr. ANDREWS. I understand. Thank you.

Excuse me for interrupting, sir.

Mr. PENCE. I’m pleased to yield to the gentleman from New Jersey for a parliamentary inquiry at any time.

I rise in opposition to the Murphy amendment.

Let me say I do so because I believe the American people don’t want to see the American military used to advance a liberal political agenda, especially when the men and women who serve in the military haven’t had a say in the matter, and they have been promised to have a say. We’ve received correspondence from leading voices in the American military who have suggested, were the Congress today to enact this legislation, it would break faith with our men and women in uniform.

Now, let me concede to the point. I was raised by a combat veteran. I did not wear the uniform of the United States, but I have strong objections to repealing Don’t Ask, Don’t Tell. I believe that that compromise of 17 years ago has been a successful compromise. It has preserved unit cohesion. It has preserved morale. It has enabled us to go forward with readiness and recruitment without interruption. It, of course, itself, was a compromise that represented an historic change from the policy of the American military.

Yet what is being advanced here today in repealing Don’t Ask, Don’t Tell would represent a fundamental change in the nature and in the culture of our military. It ought to be carefully and thoroughly explored among the men and women who are doing the work in uniform, and it is being explored today.

The Department of Defense has commissioned, as we all know here, a confidential survey of some 350,000 servicemen and their families—100,000 active duty, 70,000 duty spouses, 100,000 reserve component military, 80,000 reserve component spouses—to determine their input on the effects and concerns if Don’t Ask, Don’t Tell is repealed. Yet here we are in Congress, even though this survey will not be completed until August and the report, itself, will not be delivered to Congress until December, and we are hurrying along what is, for all intents and purposes, the legislation that will enable the full repeal of Don’t Ask, Don’t Tell.

I urge my colleagues in Congress to take a breath, to stop, particularly

here, as we stand just a few days before that day in which we, all of us, Republicans and Democrats, will set aside all politics, and we will remember those who did not come home.

Why can't we today also show respect for the men and women who wear the uniform today and listen to what they have to say?

The Acting CHAIR. The time of the gentleman has expired.

Mr. MCKEON. I yield the gentleman 1 additional minute.

Mr. PENCE. I urge my colleagues to oppose the Murphy amendment.

Let me say again: The American people don't want the American military used as a vehicle to advance a liberal political agenda, especially when the men and women who serve in our military haven't had a say in the matter. That is what this Congress is poised to do today. Make no mistake about it.

I urge my colleagues, regardless of what one thinks about social issues and social values, to respect our military. Let's respect men and women in uniform. Let's hear them out before we introduce such an enormous change in the culture and in the practice of the American military, one that would be represented by the repeal of Don't Ask, Don't Tell.

Mr. ANDREWS. Mr. Chairman, before I yield to my friend, I yield myself 90 seconds.

The gentleman from Indiana's point about the servicemembers being listened to is absolutely right, which is why Mr. MURPHY's amendment says—I will comment since he did—if after hearing the comments of the servicemembers the Secretary of Defense and the chairman of the Joint Chiefs of Staff believe that there would be an impairment of their ability to defend the country, they would not certify to the change in the policy.

There is an echo in this debate, which is a quote from prior debate: The

President's move would seriously impair the morale of the Army at a time when our Armed Forces should be at their strongest and most efficient. Such an action is most unfortunate, the Senator declared.

The quote is taken from Senator Lister Hill in 1948. The issue was the racial integration of the Armed Forces in 1948. I think this is the same issue.

Mr. PENCE. Would the gentleman yield?

Mr. ANDREWS. Yes, I would yield.

Mr. PENCE. I thank the gentleman for the courtesy.

Mr. Chairman, I would simply pose a question to the gentleman: Did not the author of this amendment say that it is not whether we will repeal Don't Ask, Don't Tell but how and when, from recent press reports?

Mr. ANDREWS. Reclaiming my time, I don't know precisely what the author said—he will speak—but I do know that Secretary Gates and Admiral Mullen have said that. Admiral Mullen has said he feels repeal is the right policy. The issue is when and how, which is what Mr. MURPHY's amendment addresses.

I would at this time be happy to yield 2 minutes to my friend who is focused on the issue of departing servicemembers, when they separate from service, and their knowing their rights and opportunities, the gentleman from Indiana (Mr. CARSON).

Mr. CARSON of Indiana. Mr. Chairman, thousands of active duty servicemembers are returning home from Afghanistan and Iraq every year, many of these individuals serving continuously, having enlisted right out of high school or college.

For years, they have lived a structured military life on bases and abroad. This structure makes for a well-disciplined and a well-trained military force, but it can also make for a difficult transition back to civilian life.

Many returning servicemembers have no experience with saving or budgeting or with credit, taxes, and/or mortgages. As a result, many military families are falling into unmanageable debt, bankruptcy, and foreclosure.

My amendment, which is part of this en bloc amendment, seeks to alleviate these concerns. It simply expands the military's existing pre-separation counseling program to include a personal finances component. When this takes effect, military families will reenter civilian life with the information they need to build a stable, long-term financial future.

I encourage all of my colleagues to support our military families by supporting this amendment.

Secondly, Mr. Chairman, throughout both of our Democratic and Republican administrations, the White House has maintained a policy against providing letters of condolences to the families of suicide victims. This is a major issue for my constituency, which I have been working on for months.

I have had a number of communications with the White House and with the Department of Defense expressing these concerns. Fortunately, the President was kind enough to send a personal letter of condolence to a local family who was affected by suicide.

I would like to wholeheartedly thank President Obama for this meaningful gesture, and I encourage him to continue on this path and to finally overturn this misguided White House policy.

Our men and women in uniform sacrifice for our country both physically and mentally, but despite the occasional exception, the current policy ignores the sacrifice these men and women make, and it disregards the suffering of their families.
