    - "(3) EXCLUDED SYSTEMS.—The Director of the National Institute of Standards and Technology may exclude from the requirements of paragraph (1) any computer hardware or software system for which the Director determines that the development of a checklist is inappropriate because of the infrequency of use of the system, the obsolescence of the system, or the inutility or impracticability of developing a checklist for the system.

1	"(4) Automation specifications.—The Di-
2	rector of the National Institute of Standards and
3	Technology shall develop automated security speci-

10	informed of the availability of any product developed
11	or identified under the National Checklist Program
12	for any information system, including the Security
13	Content Automation Protocol and other automated
14	security specifications.
15	"(6) Agency use requirements.—The devel-
16	opment of a checklist under paragraph (1) for a
17	computer hardware or software system does not—
18	"(A) require any Federal agency to select
19	the specific settings or options recommended by
20	the checklist for the system;
21	"(B) establish conditions or prerequisites
22	for Federal agency procurement or deployment
23	of any such system:

1	"(C) imply an endorsement of any such
2	system by the Director of the National Institute
3	of Standards and Technology; or
4	"(D) preclude any Federal agency from
5	procuring or deploying other computer hard-
6	ware or software systems for which no such
7	checklist has been developed or identified under
8	paragraph (1).".
