(3) by striking subsection (c) and inserting the
following:

“(c) ADJUSTMENTS.—

“(1) INFLATION ADJUSTMENT.—For fiscal year
2014 and subsequent fiscal years, the revenues es-
established in subsection (b) shall be adjusted by the
Secretary by notice, published in the Federal Reg-
ister, for a fiscal year by the amount equal to the
sum of—

“(A) one;

“(B) the average annual percent change in
the cost, per full-time equivalent position of the
Food and Drug Administration, of all personnel compensation and benefits paid with respect to such positions for the first 3 years of the preceding 4 fiscal years, multiplied by the proportion of personnel compensation and benefits costs to total costs of the process for the review of human drug applications (as defined in section 735(6)) for the first 3 years of the preceding 4 fiscal years, and

“(C) the average annual percent change that occurred in the Consumer Price Index for urban consumers (Washington-Baltimore, DC–MD–VA–WV; Not Seasonally Adjusted; All items; Annual Index) for the first 3 years of the preceding 4 years of available data multiplied by the proportion of all costs other than personnel compensation and benefits costs to total costs of the process for the review of human drug applications (as defined in section 735(6)) for the first 3 years of the preceding 4 fiscal years.

The adjustment made each fiscal year under this paragraph shall be added on a compounded basis to the sum of all adjustments made each fiscal year after fiscal year 2013 under this paragraph.
“(2) Workload Adjustment.—For fiscal year 2014 and subsequent fiscal years, after the fee revenues established in subsection (b) are adjusted for a fiscal year for inflation in accordance with paragraph (1), the fee revenues shall be adjusted further for such fiscal year to reflect changes in the workload of the Secretary for the process for the review of human drug applications. With respect to such adjustment:

“(A) The adjustment shall be determined by the Secretary based on a weighted average of the change in the total number of human drug applications (adjusted for changes in review activities, as described in the notice that the Secretary is required to publish in the Federal Register under this subparagraph), efficacy supplements, and manufacturing supplements submitted to the Secretary, and the change in the total number of active commercial investigational new drug applications (adjusted for changes in review activities, as so described) during the most recent 12-month period for which data on such submissions is available. The Secretary shall publish in the Federal Register the fee revenues and fees resulting from
the adjustment and the supporting methodologies.

“(B) Under no circumstances shall the adjustment result in fee revenues for a fiscal year that are less than the sum of the amount under subsection (b)(1)(A) and the amount under subsection (b)(1)(B), as adjusted for inflation under paragraph (1).

“(C) The Secretary shall contract with an independent accounting or consulting firm to periodically review the adequacy of the adjustment and publish the results of those reviews. The first review shall be conducted and published by the end of fiscal year 2013 (to examine the performance of the adjustment since fiscal year 2009), and the second review shall be conducted and published by the end of fiscal year 2015 (to examine the continued performance of the adjustment). The reports shall evaluate whether the adjustment reasonably represents actual changes in workload volume and complexity and present options to discontinue, retain, or modify any elements of the adjustment. The reports shall be published for public comment. After review of the reports and
receipt of public comments, the Secretary shall, if warranted, adopt appropriate changes to the methodology. If the Secretary adopts changes to the methodology based on the first report, the changes shall be effective for the first fiscal year for which fees are set after the Secretary adopts such changes and each subsequent fiscal year.

“(3) Final year adjustment.—For fiscal year 2017, the Secretary may, in addition to adjustments under this paragraph and paragraphs (1) and (2), further increase the fee revenues and fees established in subsection (b) if such an adjustment is necessary to provide for not more than 3 months of operating reserves of carryover user fees for the process for the review of human drug applications for the first 3 months of fiscal year 2018. If such an adjustment is necessary, the rationale for the amount of the increase shall be contained in the annual notice establishing fee revenues and fees for fiscal year 2017. If the Secretary has carryover balances for such process in excess of 3 months of such operating reserves, the adjustment under this subparagraph shall not be made.
“(4) ANNUAL FEE SETTING.—The Secretary shall, not later than 60 days before the start of each fiscal year that begins after September 30, 2012, es- tablish, for the next fiscal year, application, product, and establishment fees under subsection (a), based on the revenue amounts established under subsection (b) and the adjustments provided under this sub- section.

“(5) LIMIT.—The total amount of fees charged, as adjusted under this subsection, for a fiscal year may not exceed the total costs for such fiscal year for the resources allocated for the process for the re- view of human drug applications.”; and

The adjustment made each fiscal year under this subsection shall be added on a compounded basis to the sum of all adjustments made each fiscal year after fiscal year 2013 under this subsection.

“(2) Final Year Adjustment.—For fiscal year 2017, the Secretary may, in addition to adjustments under paragraph (1), further increase the fee revenues and fees established in subsection (b) if such an adjustment is necessary to provide for not more than 3 months of operating reserves of carry-over user fees for human generic drug activities for the first 3 months of fiscal year 2018. Such fees may only be used in fiscal year 2018. If such an adjustment is necessary, the rationale for the amount of the increase shall be contained in the annual no-

“(i) the total number of such active pharmaceutical ingredients in such submission; and

“(ii) for each such ingredient that is manufactured at more than one such facility, the total number of such additional facilities; and
“(B) the amount equal to the drug master file fee established in subsection (a)(2) for such submission.

“(e) Limit.—The total amount of fees charged, as adjusted under subsection (c), for a fiscal year may not exceed the total costs for such fiscal year for the resources allocated for human generic drug activities.

“(f) Identification of Facilities.—

“(1) Publication of notice; deadline for compliance.—Not later than October 1, 2012, the Secretary shall cause to be published in the Federal Register a notice requiring each person that owns a facility described in subsection (a)(4)(A), or a site or organization required to be identified by paragraph (4), to submit to the Secretary information on the identity of each such facility, site, or organization. 704(a)(1) shall extend to all such sites and organizations.

“(g) EFFECT OF FAILURE TO PAY FEES.—

“(1) GENERIC DRUG BACKLOG FEE.—Failure to pay the fee under subsection (a)(1) shall result in the Secretary placing the person that owns the abbreviated new drug application subject to that fee on an arrears list, such that no new abbreviated new drug applications or supplement submitted on or after October 1, 2012, from that person, or any affiliate of that person, will be received within the meaning of section 505(j)(5)(A) until such outstanding fee is paid.

“(2) DRUG MASTER FILE FEE.—

“(A) Failure to pay the fee under subsection (a)(2) within 20 calendar days after the applicable due date under subparagraph (E) of such subsection (as described in subsection (a)(2)(D)(ii)(I)) shall result in the Type II active pharmaceutical ingredient drug master file not being deemed available for reference.

“(B)(i) Any generic drug submission submitted on or after October 1, 2012, that references, by a letter of authorization, a Type II active pharmaceutical ingredient drug master
file that has not been deemed available for reference shall not be received within the meaning of section 505(j)(5)(A) unless the condition specified in clause (ii) is met.

“(ii) The condition specified in this clause is that the fee established under subsection (a)(2) has been paid within 20 calendar days of the Secretary providing the notification to the sponsor of the abbreviated new drug application or supplement of the failure of the owner of the Type II active pharmaceutical ingredient drug master file to pay the drug master file fee as specified in subparagraph (C).

“(C)(i) If an abbreviated new drug application or supplement to an abbreviated new drug application references a Type II active pharmaceutical ingredient drug master file for which a fee under subsection (a)(2)(A) has not been paid by the applicable date under subsection (a)(2)(E), the Secretary shall notify the sponsor of the abbreviated new drug application or supplement of the failure of the owner of the Type II active pharmaceutical ingredient drug master file to pay the applicable fee.

“(3) ABBREVIATED NEW DRUG APPLICATION FEE AND PRIOR APPROVAL SUPPLEMENT FEE.—

Failure to pay a fee under subparagraph (A) or (F) of subsection (a)(3) within 20 calendar days of the applicable due date under subparagraph (C) of such subsection shall result in the abbreviated new drug application or the prior approval supplement to an abbreviated new drug application not being received within the meaning of section 505(j)(5)(A) until such outstanding fee is paid.

“(4) GENERIC DRUG FACILITY FEE AND ACTIVE PHARMACEUTICAL INGREDIENT FACILITY FEE.—

“(A) IN GENERAL.—Failure to pay the fee under subsection (a)(4) within 20 calendar days of the due date as specified in subparagraph (D) of such subsection shall result in the following:

“(i) The Secretary shall place the facility on a publicly available arrears list,
such that no new abbreviated new drug ap-
plication or supplement submitted on or
after October 1, 2012, from the person
that is responsible for paying such fee, or
any affiliate of that person, will be received
within the meaning of section 505(j)(5)(A).

“(C) NONRECEIVAL FOR NONPAYMENT.—

“(i) NOTICE.—If an abbreviated new
drug application or supplement to an ab-
breviated new drug application submitted
on or after October 1, 2012, references a
facility for which a facility fee has not been
paid by the applicable date under sub-
section (a)(4)(C), the Secretary shall notify
the sponsor of the generic drug submission
of the failure of the owner of the facility
to pay the facility fee.

“(ii) NONRECEIVAL.—If the facility
fee is not paid within 20 calendar days of
the Secretary providing the notification
under clause (i), the abbreviated new drug
application or supplement to an abbre-

ceived within the meaning of section
505(j)(5)(A).

“(h) LIMITATIONS.—

“(1) IN GENERAL.—Fees under subsection (a)
shall be refunded for a fiscal year beginning after

“(2) Authority.—If the Secretary does not assess fees under subsection (a) during any portion of a fiscal year and if at a later date in such fiscal year the Secretary may assess such fees, the Secretary may assess and collect such fees, without any modification in the rate, for Type II active pharmaceutical ingredient drug master files, abbreviated new drug applications and prior approval supplements, and generic drug facilities and active pharmaceutical ingredient facilities at any time in such fiscal year notwithstanding the provisions of subsection (a) relating to the date fees are to be paid.

“(i) Crediting and Availability of Fees.—

year limitation. The sums transferred shall be avail-
able solely for human generic drug activities.

“(2) COLLECTIONS AND APPROPRIATION
ACTS.—

“(A) IN GENERAL.—The fees authorized
by this section—

“(i) subject to subparagraphs (C) and
(D), shall be collected and available in each
fiscal year in an amount not to exceed the
amount specified in appropriation Acts, or
otherwise made available for obligation for
such fiscal year; and

beginning after fiscal year 2012 to defray
the costs of human generic drug activities
(including such costs for an additional

“(k) Construction.—This section may not be construed to require that the number of full-time equivalent positions in the Department of Health and Human Services, for officers, employees, and advisory committees not
engaged in human generic drug activities, be reduced to
offset the number of officers, employees, and advisory
committees so engaged.

“(l) POSITRON EMISSION TOMOGRAPHY DRUGS.—

**Subtitle D—Accelerated Approval**

**Sec. 841. Expedited Approval of Drugs for Serious**
**or Life-Threatening Diseases or Conditions.**

(a) **Findings; Sense of Congress.**—

(1) **Findings.**—The Congress finds as follows:

(A) The Food and Drug Administration
(referred to in this subsection as the "FDA")
serves a critical role in helping to assure that
new medicines are safe and effective. Regu-
latory innovation is 1 element of the Nation’s
strategy to address serious and life-threatening
diseases or conditions by promoting investment
in and development of innovative treatments for
unmet medical needs.
(B) During the 2 decades following the establishment of the accelerated approval mechanism, advances in medical sciences, including genomics, molecular biology, and bioinformatics, have provided an unprecedented understanding of the underlying biological mechanism and pathogenesis of disease. A new generation of modern, targeted medicines is under development to treat serious and life-threatening diseases, some applying drug development strategies based on biomarkers or pharmacogenomics, predictive toxicology, clinical trial enrichment techniques, and novel clinical trial designs, such as adaptive clinical trials.

(C) As a result of these remarkable scientific and medical advances, the FDA should be encouraged to implement more broadly effective processes for the expedited development and review of innovative new medicines intended to address unmet medical needs for serious or life-threatening diseases or conditions, including those for rare diseases or conditions, using a broad range of surrogate or clinical endpoints and modern scientific tools earlier in the drug development cycle when appropriate.
This may result in fewer, smaller, or shorter clinical trials for the intended patient population or targeted subpopulation without compromising or altering the high standards of the FDA for the approval of drugs.

(D) Patients benefit from expedited access to safe and effective innovative therapies to treat unmet medical needs for serious or life-threatening diseases or conditions.

(E) For these reasons, the statutory authority in effect on the day before the date of enactment of this Act governing expedited approval of drugs for serious or life-threatening diseases or conditions should be amended in order to enhance the authority of the FDA to consider appropriate scientific data, methods, and tools, and to expedite development and access to novel treatments for patients with a broad range of serious or life-threatening diseases or conditions.

(2) Sense of Congress.—It is the sense of the Congress that the FDA should apply the accelerated approval and fast track provisions set forth in section 506 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 356), as amended by this sec-
tion, to help expedite the development and availability to patients of treatments for serious or life-threatening diseases or conditions while maintaining safety and effectiveness standards for such treatments.

(b) EXPEDITED APPROVAL.—Section 506 (21 U.S.C. 356) is amended to read as follows:

“SEC. 506. EXPEDITED APPROVAL OF DRUGS FOR SERIOUS OR LIFE-THREATENING DISEASES OR CONDITIONS.

“(a) DESIGNATION OF DRUG AS A FAST TRACK PRODUCT.—

“(1) IN GENERAL.—The Secretary shall, at the request of the sponsor of a new drug, facilitate the development and expedite the review of such drug if it is intended, whether alone or in combination with one or more other drugs, for the treatment of a serious or life-threatening disease or condition, and it demonstrates the potential to address unmet medical needs for such a disease or condition. In this section, such a drug is referred to as a ‘fast track product’.

“(2) REQUEST FOR DESIGNATION.—The sponsor of a new drug may request the Secretary to designate the drug as a fast track product. A request for the designation may be made concurrently with,
or at any time after, submission of an application
for the investigation of the drug under section 505(i)
of this Act or section 351(a)(3) of the Public Health
Service Act.

“(3) Designation.—Within 60 calendar days
after the receipt of a request under paragraph (2),
the Secretary shall determine whether the drug that
is the subject of the request meets the criteria de-
scribed in paragraph (1). If the Secretary finds that
the drug meets the criteria, the Secretary shall des-
ignate the drug as a fast track product and shall
take such actions as are appropriate to expedite the
development and review of the application for ap-
proval of such product.

“(b) Accelerated Approval of a Drug for a Serious or Life-Threatening Disease or Condition, Including a Fast Track Product.—

“(1) In General.—The Secretary may approve
an application for approval of a product for a seri-
ous or life-threatening disease or condition, including
a fast track product, under section 505(c) of this
Act or section 351(a) of the Public Health Service
Act upon making a determination that the product
has an effect on—
“(A) a surrogate endpoint that is reasonably likely to predict clinical benefit; or

“(B) a clinical endpoint that can be measured earlier than irreversible morbidity or mortality, that is reasonably likely to predict an effect on irreversible morbidity or mortality or other clinical benefit, taking into account the severity or rarity of the disease or condition and the availability of alternative treatments. The evidence to support that an endpoint is reasonably likely to predict clinical benefit may include epidemiological, pathophysiological, pharmacologic, therapeutic or other evidence developed using, for example, biomarkers, or other scientific methods or tools.

“(2) LIMITATION.—Approval of a product under this subsection may, as determined by the Secretary, be subject to the following requirements—

“(A) that the sponsor conduct appropriate post-approval studies to verify and describe the predicted effect of the product on irreversible morbidity or mortality or other clinical benefit; and
“(B) that the sponsor submit copies of all promotional materials related to the product, at least 30 days prior to dissemination of the materials—

“(i) during the preapproval review period; and

“(ii) following approval, for a period that the Secretary determines to be appropriate.

“(3) Expedited withdrawal of approval.—The Secretary may withdraw approval of a product approved pursuant to this subsection using expedited procedures (as prescribed by the Secretary in regulations, which shall include an opportunity for an informal hearing) if—

“(A) the sponsor fails to conduct any required post-approval study of the product with due diligence;

“(B) a study required to verify and describe the predicted effect on irreversible morbidity or mortality or other clinical benefit of the product fails to verify and describe such effect or benefit;
“(C) other evidence demonstrates that the product is not safe or effective under the conditions of use; or

“(D) the sponsor disseminates false or misleading promotional materials with respect to the product.

“(c) REVIEW OF INCOMPLETE APPLICATIONS FOR APPROVAL OF A FAST TRACK PRODUCT.—

“(1) IN GENERAL.—If the Secretary determines, after preliminary evaluation of clinical data submitted by the sponsor, that a fast track product may be effective, the Secretary shall evaluate for filing, and may commence review of portions of, an application for the approval of the product before the sponsor submits a complete application. The Secretary shall commence such review only if the applicant—

“(A) provides a schedule for submission of information necessary to make the application complete; and

“(B) pays any fee that may be required under section 736.

“(2) EXCEPTION.—Any time period for review of human drug applications that has been agreed to by the Secretary and that has been set forth in goals
identified in letters of the Secretary (relating to the use of fees collected under section 736 to expedite the drug development process and the review of human drug applications) shall not apply to an application submitted under paragraph (1) until the date on which the application is complete.

“(d) AWARENESS EFFORTS.—The Secretary shall—

“(1) develop and disseminate to physicians, patient organizations, pharmaceutical and biotechnology companies, and other appropriate persons a description of the provisions of this section applicable to accelerated approval and fast track products; and

“(2) establish a program to encourage the development of surrogate and clinical endpoints, including biomarkers, and other scientific methods and tools that can assist the Secretary in determining whether the evidence submitted in an application is reasonably likely to predict clinical benefit for serious or life-threatening conditions for which there exist significant unmet medical needs.”.

SEC. 842. GUIDANCE; AMENDED REGULATIONS.

(a) INITIAL GUIDANCE.—Not later than one year after the date of enactment of this Act, the Secretary of Health and Human Services (in this subtitle referred to
as the “Secretary” shall issue draft guidance to implement the amendment made by section 841.

(b) **Final Guidance.**—Not later than one year after the issuance of draft guidance under subsection (a), after an opportunity for public comment, the Secretary shall—

(1) issue final guidance to implement the amendment made by section 841; and

(2) amend the regulations governing accelerated approval in parts 314 and 601 of title 21, Code of Federal Regulations, as necessary to conform such regulations with the amendments made by section 841.

(e) **Considerations.**—In developing the guidance under subsections (a) and (b)(1) and the amendments under subsection (b)(2), the Secretary shall consider—

(1) issues arising under the accelerated approval and fast track processes under section 506 of the Federal Food, Drug, and Cosmetic Act (as amended by section 841) for drugs designated for a rare disease or condition under section 526 of the Federal, Food, Drug, and Cosmetic Act; and

(2) how to incorporate novel approaches to the review of surrogate endpoints based on pathophysiologic and pharmacologic evidence in such guidance, especially in instances where the low preva-
lence of a disease renders the existence or collection
of other types of data unlikely or impractical.

(d) NO DELAY IN REVIEW OR APPROVAL.—The
issuance (or non-issuance) of guidance or conforming reg-
ulations implementing the amendments made by section
841 shall not preclude the review of, or action on, a re-
quest for designation or an application for approval sub-
mitted pursuant to section 506 of the Federal Food, Drug,
and Cosmetic Act, as amended by section 841.

SEC. 843. INDEPENDENT REVIEW.

(a) IN GENERAL.—The Secretary may, in conjunc-
tion with other planned reviews of the new drug review
process, contract with an independent entity with expertise
in assessing the quality and efficiency of biopharma-
ceutical development and regulatory review programs, to
evaluate the Food and Drug Administration’s application
of the processes described in section 506 of the Federal
Food, Drug, and Cosmetic Act, as amended by section
841, and the impact of such processes on the development
and timely availability of innovative treatments for pa-
tients suffering from serious or life-threatening conditions.

SEC. 905. STUDY ON DRUG SHORTAGES.

(a) STUDY.—The Comptroller General of the United States shall conduct a study to examine the cause of drug shortages and formulate recommendations on how to prevent or alleviate such shortages.

(b) CONSIDERATION.—In conducting the study under this section, the Comptroller General shall consider the following questions:

(1) What are the dominant characteristics of drugs that have gone into actual shortage over the preceding three years?

(2) Are there systemic high-risk factors (such as drug pricing structure, including Federal reimbursements, or the number of manufacturers producing a drug product) that have led to the concentration of drug shortages in certain drug products that have made such products vulnerable to drug shortages?

(3) Is there a reason why drug shortages have occurred primarily in the sterile injectable market and in certain therapeutic areas?

(4) How have regulations, guidance documents, regulatory practices, and other actions of Federal departments and agencies (including the effectiveness of interagency and intraagency coordination,
communication, strategic planning, and decision-making) affected drug shortages?

(5) How does hoarding affect drug shortages?

(6) How would incentives alleviate or prevent drug shortages?
