

112TH CONGRESS
1ST SESSION

H. R. 889

To provide for fulfilling the potential of women in academic science and engineering, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

MARCH 2, 2011

Ms. EDDIE BERNICE JOHNSON of Texas (for herself, Mr. STARK, Mr. REYES, Mr. MARKEY, Ms. EDWARDS, Ms. FUDGE, Mr. HONDA, Mr. HINOJOSA, Mr. TONKO, Mr. HOLT, Mr. WU, Mr. DAVIS of Illinois, Ms. WASSERMAN SCHULTZ, Ms. WOOLSEY, Ms. WILSON of Florida, Mr. GRIJALVA, and Ms. NORTON) introduced the following bill; which was referred to the Committee on Science, Space, and Technology

A BILL

To provide for fulfilling the potential of women in academic science and engineering, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Fulfilling the Potential
5 of Women in Academic Science and Engineering Act of
6 2011”.

7 **SEC. 2. FINDINGS.**

8 The Congress finds the following:

1 (1) Many reports over the past decade have
2 found that it is critical to our Nation’s economic
3 leadership and global competitiveness that we edu-
4 cate and train more scientists and engineers.

5 (2) In its 2007 report entitled “Beyond Bias
6 and Barriers”, the National Academies stated that,
7 in order to maintain its scientific and engineering
8 leadership amid increasing economic and educational
9 globalization, the United States must aggressively
10 pursue the innovative capacity of all of its people—
11 women and men.

12 (3) Research shows that the number of women
13 who are interested in science, technology, engineer-
14 ing, and mathematics (STEM) careers is reduced at
15 every educational transition, from high school on
16 through full professorships.

17 (4) According to data compiled by National
18 Science Foundation in 2006, women now earn about
19 half of all science and engineering bachelor’s de-
20 grees, but major variations persist among fields. For
21 example, women still receive only 20 percent of all
22 bachelor’s degrees awarded in engineering and phys-
23 ics.

24 (5) Even in science and engineering fields with
25 a higher representation of women, such as the social

1 and behavioral sciences, women remain underrep-
2 resented among university faculty. According to data
3 compiled by the National Science Foundation, for
4 over 30 years women have made up over 30 percent
5 of the doctorates in social sciences and behavioral
6 sciences and over 20 percent in the life sciences. Yet,
7 at the top research institutions, only 15.4 percent of
8 the full professors in the social and behavioral
9 sciences and 14.8 percent in the life sciences are
10 women.

11 (6) Across fields, women remain a small portion
12 of the science and engineering faculty members at
13 major research universities, and they typically re-
14 ceive fewer institutional resources for their research
15 activities than their male colleagues.

16 (7) Studies have not found any significant bio-
17 logical differences between men and women in per-
18 forming science and mathematics that can account
19 for the lower representation of women in academic
20 faculty and scientific leadership positions in these
21 fields.

22 (8) A substantial body of evidence establishes
23 that most people hold implicit biases. Decades of
24 cognitive psychology research reveals that most peo-
25 ple carry prejudices of which they are unaware but

1 that nonetheless play a large role in evaluations of
2 people and their work. Unintentional biases and out-
3 moded institutional structures are hindering the ac-
4 cess for women to, and advancement of women in,
5 science and engineering.

6 (9) Workshops held to educate faculty about
7 unintentional biases have demonstrated success in
8 raising awareness of such biases.

9 (10) The Federal Government provides over 60
10 percent of research funding at institutions of higher
11 education, and through its grant making policies has
12 had significant influence on institution of higher
13 education policies, including policies related to insti-
14 tutional culture and structure.

15 **SEC. 3. FULFILLING THE POTENTIAL OF WOMEN IN ACA-**
16 **DEMIC SCIENCE AND ENGINEERING.**

17 (a) DEFINITIONS.—In this section—

18 (1) the term “Federal science agency” means
19 any Federal agency that is responsible for at least
20 2 percent of total Federal research and development
21 funding to institutions of higher education, accord-
22 ing to the most recent data available from the Na-
23 tional Science Foundation;

24 (2) the term “institution of higher education”
25 has the meaning given such term in section 101(a)

1 of the Higher Education Act of 1965 (20 U.S.C.
2 1001(a));

3 (3) the term “STEM” means science, tech-
4 nology, engineering, and mathematics; and

5 (4) the term “United States” means the several
6 States, the District of Columbia, the Commonwealth
7 of Puerto Rico, the Virgin Islands, Guam, American
8 Samoa, the Commonwealth of the Northern Mariana
9 Islands, and any other territory or possession of the
10 United States.

11 (b) WORKSHOPS TO ENHANCE GENDER EQUITY IN
12 ACADEMIC SCIENCE AND ENGINEERING.—

13 (1) IN GENERAL.—Not later than 6 months
14 after the date of enactment of this Act, the Director
15 of the Office of Science and Technology Policy shall
16 develop a uniform policy for all Federal science
17 agencies to carry out a program of workshops that
18 educate program officers, members of grant review
19 panels, institution of higher education STEM de-
20 partment chairs, and other federally funded re-
21 searchers about methods that minimize the effects of
22 gender bias in evaluation of Federal research grants
23 and in the related academic advancement of actual
24 and potential recipients of these grants, including
25 hiring, tenure, promotion, and selection for any

1 honor based in part on the recipient's research
2 record.

3 (2) INTERAGENCY COORDINATION.—The Direc-
4 tor of the Office of Science and Technology Policy
5 shall ensure that programs of workshops across the
6 Federal science agencies are coordinated and sup-
7 ported jointly as appropriate. As part of this proc-
8 ess, the Director of the Office of Science and Tech-
9 nology Policy shall ensure that at least 1 workshop
10 is supported every 2 years among the Federal
11 science agencies in each of the major science and en-
12 gineering disciplines supported by those agencies.

13 (3) ORGANIZATIONS ELIGIBLE TO CARRY OUT
14 WORKSHOPS.—Federal science agencies may carry
15 out the program of workshops under this subsection
16 by making grants to eligible organizations. In addi-
17 tion to any other organizations made eligible by the
18 Federal science agencies, the following organizations
19 are eligible for grants under this subsection:

20 (A) Nonprofit scientific and professional
21 societies and organizations that represent one
22 or more STEM disciplines.

23 (B) Nonprofit organizations that have the
24 primary mission of advancing the participation
25 of women in STEM.

1 (4) CHARACTERISTICS OF WORKSHOPS.—The
2 workshops shall have the following characteristics:

3 (A) Invitees to workshops shall include at
4 least—

5 (i) the chairs of departments in the
6 relevant discipline from at least the top 50
7 institutions of higher education, as deter-
8 mined by the amount of Federal research
9 and development funds obligated to each
10 institution of higher education in the prior
11 year based on data available from the Na-
12 tional Science Foundation;

13 (ii) members of any standing research
14 grant review panel appointed by the Fed-
15 eral science agencies in the relevant dis-
16 cipline;

17 (iii) in the case of science and engi-
18 neering disciplines supported by the De-
19 partment of Energy, the individuals from
20 each of the Department of Energy Na-
21 tional Laboratories with personnel manage-
22 ment responsibilities comparable to those
23 of an institution of higher education de-
24 partment chair; and

1 (iv) Federal science agency program
2 officers in the relevant discipline, other
3 than program officers that participate in
4 comparable workshops organized and run
5 specifically for that agency's program offi-
6 cers.

7 (B) Activities at the workshops shall in-
8 clude research presentations and interactive dis-
9 cussions or other activities that increase the
10 awareness of the existence of gender bias in the
11 grant-making process and the development of
12 the academic record necessary to qualify as a
13 grant recipient, including recruitment, hiring,
14 tenure review, promotion, and other forms of
15 formal recognition of individual achievement,
16 and provide strategies to overcome such bias.

17 (C) Research presentations and other
18 workshop programs, as appropriate, shall in-
19 clude a discussion of the unique challenges
20 faced by women who are members of histori-
21 cally underrepresented groups.

22 (D) Workshop programs shall include in-
23 formation on best practices and the value of
24 mentoring undergraduate and graduate women

1 students as well as outreach to girls earlier in
2 their STEM education.

3 (5) REPORT.—

4 (A) IN GENERAL.—Not later than 5 years
5 after the date of enactment of this Act, the Di-
6 rector of the Office of Science and Technology
7 Policy shall transmit to the Committee on
8 Science, Space, and Technology of the House of
9 Representatives and the Committee on Com-
10 merce, Science, and Transportation of the Sen-
11 ate a report evaluating the effectiveness of the
12 program carried out under this subsection to
13 reduce gender bias towards women engaged in
14 research funded by the Federal Government.
15 The Director of the Office of Science and Tech-
16 nology Policy shall include in this report any
17 recommendations for improving the evaluation
18 process described in subparagraph (B).

19 (B) MINIMUM CRITERIA FOR EVALUA-
20 TION.—In determining the effectiveness of the
21 program, the Director of the Office of Science
22 and Technology Policy shall consider, at a min-
23 imum—

1 (i) the rates of participation by
2 invitees in the workshops authorized under
3 this subsection;

4 (ii) the results of attitudinal surveys
5 conducted on workshop participants before
6 and after the workshops;

7 (iii) any relevant institutional policy
8 or practice changes reported by partici-
9 pants; and

10 (iv) for individuals described in para-
11 graph (4)(A) (i) or (iii) who participated in
12 at least 1 workshop 3 or more years prior
13 to the due date for the report, trends in
14 the data for the department represented by
15 the chair or employee including faculty
16 data related to gender as described in sec-
17 tion 4.

18 (C) INSTITUTIONAL ATTENDANCE AT
19 WORKSHOPS.—As part of the report under sub-
20 paragraph (A), the Director of the Office of
21 Science and Technology Policy shall include a
22 list of institutions of higher education science
23 and engineering departments whose representa-
24 tives attended the workshops required under
25 this subsection.

1 (6) MINIMIZING COSTS.—To the extent prac-
2 ticable, workshops shall be held in conjunction with
3 national or regional disciplinary meetings to mini-
4 mize costs associated with participant travel.

5 (c) EXTENDED RESEARCH GRANT SUPPORT AND IN-
6 TERIM TECHNICAL SUPPORT FOR CAREGIVERS.—

7 (1) POLICIES FOR CAREGIVERS.—Not later
8 than 6 months after the date of enactment of this
9 Act, the Director of the Office of Science and Tech-
10 nology Policy shall develop a uniform policy to—

11 (A) extend the period of grant support for
12 federally funded researchers who have
13 caregiving responsibilities; and

14 (B) provide funding for interim technical
15 staff support for federally funded researchers
16 who take a leave of absence for caregiving re-
17 sponsibilities.

18 (2) REPORT.—Upon developing the policy re-
19 quired under paragraph (1), the Director of the Of-
20 fice of Science and Technology Policy shall transmit
21 a copy of the policy to the Committee on Science,
22 Space, and Technology of the House of Representa-
23 tives and to the Committee on Commerce, Science,
24 and Transportation of the Senate.

1 (d) COLLECTION OF DATA ON FEDERAL RESEARCH
2 GRANTS.—

3 (1) IN GENERAL.—Each Federal science agency
4 shall collect standardized annual composite informa-
5 tion on demographics, field, award type and budget
6 request, review score, and funding outcome for all
7 applications for research and development grants to
8 institutions of higher education supported by that
9 agency.

10 (2) REPORTING OF DATA.—

11 (A) The Director of the Office of Science
12 and Technology Policy shall establish a policy
13 to ensure uniformity and standardization of
14 data collection required under paragraph (1).

15 (B) Not later than 2 years after the date
16 of enactment of this Act, and annually there-
17 after, each Federal science agency shall submit
18 data collected under paragraph (1) to the Na-
19 tional Science Foundation.

20 (C) The National Science Foundation shall
21 be responsible for storing and publishing all of
22 the grant data submitted under subparagraph
23 (B), disaggregated and cross-tabulated by race,
24 ethnicity, and gender, in conjunction with the
25 biennial report required under section 37 of the

1 Science and Engineering Equal Opportunities
2 Act (42 U.S.C. 1885d).

3 (e) PUBLICATION OF LIST OF INSTITUTIONAL PAR-
4 TICIPATION IN WORKSHOPS TO ENHANCE GENDER EQ-
5 UITY IN ACADEMIC SCIENCE AND ENGINEERING.—The
6 Director of the Office of Science and Technology Policy,
7 on the basis of data reported by the Federal science agen-
8 cies, shall publish annually a list of institutions of higher
9 education science and engineering departments rep-
10 resented by individuals who attend the workshops de-
11 scribed in this section. The list shall be publicly available
12 through the Web site of the Office of Science and Tech-
13 nology Policy. Any institution of higher education science
14 and engineering department that is publicized on the list
15 may publicize its receipt of such recognition on its Web
16 site, in printed materials, or through other means.

17 **SEC. 4. COLLECTION OF DATA ON DEMOGRAPHICS OF FAC-**
18 **ULTY.**

19 (a) COLLECTION OF DATA.—The Director of the Na-
20 tional Science Foundation shall report, in conjunction with
21 the biennial report required under section 37 of the
22 Science and Engineering Equal Opportunities Act (42
23 U.S.C. 1885d), statistical summary data on the demo-
24 graphics of STEM discipline faculty at institutions of
25 higher education in the United States, disaggregated and

1 cross-tabulated by race, ethnicity, and gender. At a min-
2 imum, the Director shall consider—

3 (1) the number and percent of faculty by gen-
4 der, race, and age;

5 (2) the number and percent of faculty at each
6 rank, by gender, race, and age;

7 (3) the number and percent of faculty who are
8 in nontenure-track positions, including teaching and
9 research, by gender, race, and age;

10 (4) the number of faculty who are reviewed for
11 promotion, including tenure, and the percentage of
12 that number who are promoted, by gender, race, and
13 age;

14 (5) faculty years in rank by gender, race, and
15 age;

16 (6) faculty attrition by gender, race, and age;

17 (7) the number and percent of faculty hired by
18 rank, gender, race, and age; and

19 (8) the number and percent of faculty in leader-
20 ship positions, including endowed or named chairs,
21 serving on promotion and tenure committees, by
22 gender, race, and age.

23 (b) RECOMMENDATIONS.—The Director of the Na-
24 tional Science Foundation shall solicit input and rec-
25 ommendations from relevant stakeholders, including rep-

1 representatives from institutions of higher education and non-
2 profit organizations, on the collection of data required
3 under subsection (a), including the development of stand-
4 ard definitions on the terms and categories to be used in
5 the collection of such data.

6 (c) REPORT TO CONGRESS.—Not later than 2 years
7 after the date of enactment of this Act, the Director of
8 the National Science Foundation shall submit a report to
9 Congress on how the National Science Foundation will
10 gather the demographic data on STEM faculty, includ-
11 ing—

12 (1) a description of the data to be reported and
13 the sources of those data;

14 (2) justification for the exclusion of any data
15 described in paragraph (1); and

16 (3) a list of the definitions for the terms and
17 categories, such as “faculty” and “leadership posi-
18 tions”, to be applied in the reporting of all data de-
19 scribed in paragraph (1).

○
