2^D SESSION

H. RES. 805

Expressing the sense of the House of Representatives that in order to create certainty in the United States economy so that small businesses and job creators can invest and hire, Congress should enact long-term, predictable tax policy and, in the event that Congress and the President choose to raise taxes, they should give United States citizens at least one year after the enactment or expiration of the legislation to prepare for and adjust to any impact that such increase in taxes may have.
