PARKINSON'S AWARENESS MONTH

Mr. DURBIN. Mr. President, I ask unanimous consent the Senate proceed to the immediate consideration of S. Res. 134, introduced earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 134) supporting the designation of April as Parkinson's Awareness Month.

There being no objection, the Senate proceeded to consider the resolution.

Mrs. HUTCHISON. Mr. President, Dr. James Parkinson first identified the symptoms of this debilitating disease in 1817, and now an estimated 1.5 million Americans are currently living with Parkinson's. Despite major advances in modern technology and the establishment of the Parkinson's Disease Research Agenda more than 10 years ago, we regrettably still do not know the cause, and we are still looking for a cure.

Parkinson's disease is a degenerative brain disorder with major symptoms such as tremors, trouble walking, and speech difficulties. The number of people being diagnosed with Parkinson's continues to rise. The newest treatments are coming from cutting edge medical innovations, like deep brain stimulation. However, we can and must do more to keep pushing the boundaries to find better therapies and hopefully, very soon, a cure. This requires a continued national commitment to biomedical research.

The National Institutes of Health is the largest contributor to Parkinson's research, along with the Department of Veteran Affairs and the Department of Defense. Texas has committed to leading the way in Parkinson's disease re-

search and has received more than \$2.7 million in Federal funds. These dollars are being put to use at some of our top university and medical research facilities across the State, including: the University of Texas, Baylor College of Medicine, Texas Tech University Health Science Center, and the Audie L. Murphy VA Medical Center in San Antonio.

Today, I am proud to recognize April as Parkinson's Awareness Month, and I hope that this will not only raise awareness of this devastating disease, but will also renew focus and vigor to the fight to treat and ultimately eliminate Parkinson's disease.

Mr. DURBIN. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid on the table with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 134) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 134

Whereas Parkinson's disease is the second most common neurodegenerative disease in the United States, second only to Alzheimer's disease;

Whereas even though there is inadequate comprehensive data on the incidence and prevalence of Parkinson's disease, as of 2011, it is estimated that the disease affects over 1,000,000 people in the United States;

Whereas although research suggests the cause of Parkinson's disease is a combination of genetic and environmental factors, the exact cause and progression of the disease is still unknown;

Whereas there is no objective test for Parkinson's disease, and the rate of misdiagnosis can be high;

Whereas symptoms of Parkinson's disease vary from person to person and include tremors, slowness, difficulty with balance, swallowing, chewing, and speaking, rigidity, cognitive problems, dementia, mood disorders, such as depression and anxiety, constipation, skin problems, and sleep disruptions;

Whereas medications mask some symptoms of Parkinson's disease for a limited amount of time each day, often with dose-limiting side effects;

Whereas ultimately the medications and treatments lose their effectiveness, generally after 4 to 8 years, leaving the person unable to move, speak, or swallow;

Whereas there is no cure, therapy, or drug to slow or halt the progression of Parkinson's disease; and

Whereas increased education and research are needed to help find more effective treatments with fewer side effects and, ultimately, an effective treatment or cure for Parkinson's disease;

Now, therefore, be it

Resolved, That the Senate—

(1) supports the designation of April as Parkinson's Awareness Month;

(2) supports the goals and ideals of Parkinson's Awareness Month;

(3) continues to support research to find better treatments, and eventually, a cure for Parkinson's disease;

(4) recognizes the people living with Parkinson's who participate in vital clinical trials to advance knowledge of this disease; and

(5) commends the dedication of local and regional organizations, volunteers, and millions of Americans across the country working to improve the quality of life of persons living with Parkinson's disease and their families.
