Mr. WILSON of South Carolina. Mr. Speaker, today the House will begin consideration of the Regulations from the Executive in Need of Scrutiny Act of 2011, also referred to as the REINS Act. This bill will require Congress to approve any Federal regulation that will impact our economy by $100 million or more.

The Small Business Administration estimates that regulations are costing our Nation’s citizens $1.75 trillion per year. The current administration’s report to Congress lists regulations listed over 4,200 under development since last December and over 200 additional regulations proposed this year, costing consumers billions of dollars, destroying jobs.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

FACTS ARE STUBBORN THINGS

(Mr. COURTNEY asked and was given permission to address the House for 1 minute.)

Mr. COURTNEY. Mr. Speaker, America’s third President, John Adams, once said, “Facts are stubborn things; and we believe our wishes, our inclinations, or the dictates of our passion, they cannot alter the state of facts and evidence.”

Well, Mr. Speaker, the facts now show that the health care reform law is working for America’s seniors. This morning, CMS released figures that show that 27.2 million seniors saved $1.2 billion in 2011 with lower prescription drug costs because the health care reform law is closing the prescription drug doughnut hole; 28,500 in Congress’s third District. The report also shows that 24 million seniors have used the annual checkup that the health care reform law now provides free of charge, a smarter, more intelligent way to pick up disease and illness.

Government controls so much of our lives in the name that government is smarter than we are; but for now, it’s turn out the lights—the party’s over for Thomas Edison’s incandescent light bulbs.

And that’s just the way it is.

VOTER SUPPRESSION

(Mr. HOLT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOLT. Mr. Speaker, the national move to interfere with the voting rights of eligible citizens is deliberate. In 2011 the number of States requiring strict forms of government-issued IDs has nearly quadrupled. Why the sudden increase?

Proponents claim that voter fraud is the driving force; yet there is no evidence of this kind of deception. What do they think? That there are droves of people sneaking across the southern border so they can vote or that there are 15-year-olds trying to sneak into voting booths, and so we’ve got to card them? This is simply discrimination masquerading as orderly government.

The Brennan Center for Justice estimates that one in 10 eligible registered voters does not have the forms of ID that are acceptable under these expanding State laws. We can’t stand by and let big money and special interests manipulate the results of elections by enacting 21st-century poll taxes. Pull taxes were thrown out decades ago as discrimination and contrary to processes.

SAFEGUARD MISSILE DEFENSE TECHNOLOGIES

(Mr. BROOKS asked and was given permission to address the House for 1 minute.)

Mr. BROOKS. Mr. Speaker, during the House Armed Services Committee’s review of the National Defense Authorization Act, or NDAA, I successfully proposed a two-tier amendment to protect America’s missile defense technology. Tier 1 bars the White House from giving America’s missile defense technology unless the White House first certifies to Congress that America’s missile defense will not be undermined and that our technology will not be proliferated.

Senator MARK KIRK of Illinois is blocking the Russian ambassador nomination until the appropriate safeguards exist that protect America’s missile defense technology. I applaud Senator KIRK’s efforts.

The NDAA is now in conference committee. I urge the conferees to support the HASC amendment and to safeguard missile defense technologies that have cost American taxpayers so much and that have helped protect America so well.

HONORING UNIVERSITY OF TENNESSEE LADY VOLS BASKETBALL COACH, PAT SUMMITT

(Mr. FLEISCHMANN asked and was given permission to address the House for 1 minute.)

Mr. FLEISCHMANN. Mr. Speaker, today I rise to recognize not only one of the greatest coaches of all time but also one of the greatest people of all time, the University of Tennessee Lady Vols basketball coach, Pat Summitt.

Yesterday, Coach Summitt was named Sports Illustrated’s Sportswoman of the Year, and there was no one more deserving than she. Not only is she the all-time winningest coach in NCAA basketball history, having well over 1,000 wins, including 16 SEC titles and eight national championships, but she is also an exemplary role model for the students she coaches and is a shining ambassador for the university she represents.

Earlier this year, Coach Summitt was diagnosed with early onset dementia, Alzheimer’s type. While the news would be unbearable for many to take at such a young age, Coach Summitt has stayed on the sidelines and continues to coach the Lady Vols. She is, again, leading by example and is showing her players that, while life is full of obstacles, you can continue to achieve success through hard work and dedication.

Thank you, Coach Summitt. I am glad you represent my alma mater. Go Big Orange.

PROTECT THE MEDICARE PROGRAM

(Mr. BUCSHON asked and was given permission to address the House for 1 minute.)

Mr. BUCSHON. Mr. Speaker, as a cardiothoracic surgeon, I stand here today to voice my concern about the impact of cuts to Medicare. I implore the Congress to craft a multiyear fix to the SGR—ideally, a permanent fix. This is a real threat to seniors across the country. Each year, the Congress continues to play politics with seniors’ access to quality care. This must end.

Seniors, some of our most vulnerable citizens, may not be able to see the
Mr. GINGREY of Georgia. Mr. Speaker, Medicare physicians are facing a 28 percent cut come January 1, 2012, unless this Congress acts to stop it. If left alone, these cuts will force many physicians to stop seeing Medicare beneficiaries, a move that could harm millions of seniors who are in search of care.

It is incomprehensible that congressional Democrats have already cut Medicare provider rates as a way to help pay for ObamaCare and that they again failed to cut provider rates during our debt negotiations this Congress.

Providers in my district and across this country have told me that if Congress continues to cut provider rates they won't be able to see Medicare patients, pure and simple. In fact, CMS actuary Rick Foster has told us that the cuts to hospitals in ObamaCare alone will force 15 percent of these facilities to close. The seniors in my district tell me they can't afford to lose their doctors. Let's get a fix to this problem done, and done permanently.

A PERMANENT FIX TO STOP MEDICARE PROVIDER CUTS

(Mr. GINGREY of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)
