EXTENDING UNEMPLOYMENT INSURANCE

The SPEAKER pro tempore. Under the Speaker's announced policy of January 5, 2011, the gentleman from Michigan (Mr. LEVIN) is recognized for 60 minutes as the designee of the minority leader.

Mr. LEVIN. Mr. Speaker, recently, the Department of Labor reported that the national unemployment rate fell to 8.6 percent in November, its lowest point in nearly 3 years. Coincidentally, in El Paso in the 16th District of Texas, the unemployment rate fell to 7.8 percent. This is very good news and very positive news for not just our respective districts but for our country.

We have been told by economists that once our economy gets going and operating at full strength, it can literally drive the economies of the rest of the world. These positive signs make it evident that, in fact, our economy is moving forward and that we are on the road to recovery. However, as our economy continues to heal, we cannot afford to become complacent. Instead, we need to immediately pass legislation that will help create jobs and put more people back to work.

First, I believe, Mr. Speaker, that we must pass the American Jobs Act. My district, as well as the districts of my colleagues, in listening to them here, would greatly benefit from the President’s Jobs Act. For instance, El Paso would receive over $66 million to upgrade and modernize our schools to meet 21st-century needs. In addition, school districts in the El Paso region would receive funding to keep teachers from being laid off.

For example, our largest school district, the El Paso Independent School District, would receive an estimated $45 million to keep teachers from being laid off and perhaps hopefully continue to hire desperately needed teachers in our classrooms. These are smart investments on our part for the future not act, over 6 million people. As I said, these numbers are staggering. But the people behind these numbers are overwhelming.
