The House met at 9 a.m. and was called to order by the Speaker pro tempore (Mrs. CAPITO).

DESIGNATION OF THE SPEAKER PRO TEMPORE
The SPEAKER pro tempore laid before the House the following communication from the Speaker:
WASHINGTON, DC, February 9, 2012.
I hereby appoint the Honorable SHELEIGH MOORE CAPITO to act as Speaker pro tempore on this day.
JOHN A. BOEHNER, Speaker of the House of Representatives.

PLEDGE OF ALLEGIANCE
The SPEAKER pro tempore. Will the gentlelady from Oklahoma (Mr. LANKFORD) come forward and lead the House in the Pledge of Allegiance.
Mr. LANKFORD led the Pledge of Allegiance as follows:
I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE
The SPEAKER pro tempore. The Chair will entertain up to five requests for 1-minute speeches on each side.

CALLING ON CONFERENCE COMMITTEE TO ACT ON TAX RATE (Mr. LANKFORD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)
Mr. LANKFORD. Madam Speaker, with less than 3 weeks to go before the payroll Social Security tax extension expires, it is time for the conference committee to make up their mind on the way forward and to bring their proposal to the full House and Senate. Long secret negotiations are unjustified.
The House passed a full-year extension of the payroll tax deduction, major reforms to the unemployment insurance, and a 2-year extension to the Medicare doc fix 8 weeks ago. Since that time, nothing has been done in the daylight to resolve this issue. Our delay will cause companies all over the country to work overtime this month to revise their payroll formula. We should help the people who create the jobs around the country, not give them even more consternation.

POYRER
The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer:
Eternal God, we give You thanks for giving us another day.
We thank You once again that we, Your creatures, can come before You and ask guidance for the men and women of this assembly.
Send Your spirit of wisdom as they enter into a long weekend for constituent visits. May their ears and hearts be open to listen to the hopes and needs of those whom they represent.

STOCK ACT
Ms. HOCHUL. Madam Speaker, just a minute ago we heard our chaplain beseech us to be open to the hearts and minds of the people we represent. That is exactly why, today, we need to pass the STOCK Act to stop insider trading on congressional knowledge. This has waited too long, Madam Speaker.
My colleague from upstate New York, Louise Slaughter, has led the charge for this for 6 years. It is now time for us to take action—and not a watered-down version. We need to stop the insidious practice of insider trading, giving Members of this body an unfair advantage over Americans who sent us here to represent them. This practice must stop.
I'm calling on all of my colleagues and calling on the leadership to give us a bill we can support, put an end to this insidious practice, and let us begin the long process of restoring the faith of the American people in this institution.

CONGRATULATING GLENBROOK SOUTH HIGH SCHOOL ON ITS 50TH ANNIVERSARY
(Mr. DOLD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)
Mr. DOLD. Madam Speaker, this school year marks the 50th anniversary for Glenbrook South High School in Glenview, Illinois. I want to congratulate Glenbrook South on this impressive achievement.

Over the past five decades, over 27,000 students have graduated and are now proud alums. Glenbrook South has a rich tradition of preparing students to be future leaders, including two of my team members here in Washington, D.C.

Glenbrook South has received many accolades over the years, and that is due in large part to the dynamic teachers, the families who support the school, and the talented students who work hard to excel in academics, sports, music, debate, and more.

I have had the privilege of visiting with the students at Glenbrook South and talking with them about how their government works. I am deeply impressed with the students’ insights and their desire to get involved and make the world a better place.

Congratulations to Glenbrook South High School on your achievement. I know there will be many more to come.

And that’s just the way it is.

STOCK ACT

(Ms. CASTOR of Florida asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. CASTOR of Florida. Madam Speaker, I rise to urge our colleagues to support the STOCK Act when it comes up later today.

The STOCK Act is the Stop Trading on Congressional Knowledge Act. It essentially bans Members of Congress from using their position and information that is not available to the general public for their own personal gain, such as purchasing stocks based upon information we learn from a briefing here on Capitol Hill.

Public office is a public trust, and rules that apply to our neighbors and Americans all across the country should equally apply to Members of Congress.

I’d like to congratulate my colleagues, Congresswoman LOUISE SLAUGHTER from New York and Congressman TIM WALZ from Minnesota, who have worked on this legislation year in and year out.

Colleagues to get should all vote in favor of the STOCK Act.

BUDGET AND ACCOUNTING TRANSPARENCY ACT

(Mr. CRAWFORD asked and was given permission to address the House for 1 minute.)

Mr. CRAWFORD. Madam Speaker, I rise today to commend the House for passing the Budget and Accounting Transparency Act earlier this week. This much-needed reform will increase transparency and accuracy in budgeting for Federal credit programs like Fannie Mae and Freddie Mac. In addition, this reform will require fair value accounting for Federal programs that make direct loans or loan guarantees.

Earlier this year with the Solyndra debacle, we found out that when Washington makes a bet, the American taxpayer is often left with the bill. The Federal Government should consider fair value and market risk before betting on companies like Solyndra.

Since the financial crisis began, Fannie Mae and Freddie Mac have become the financial responsibility of the Federal Government. However, the Office of Management and Budget has not accounted for the Fannie and Freddie burden. This bill will fix that mistake. If we’re going to get out of this financial mess, we have to be honest about how much we’re really spending. This is a commonsense reform that will help lawmakers be better stewards of our hardworking constituents’ tax dollars.

EXTEND PAYROLL TAX CUT

(Mr. TONKO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TONKO. Madam Speaker, I rise today because I believe this Congress needs to stop playing blame games and start working together to reignite the American Dream by helping our Nation’s small businesses and entrepreneurs and empowering a thriving middle class.

Small businesses are the pulse of the American enterprise and the creators of jobs and economic growth up and down Main Streets across the United States of America. Entrepreneurs are the dreamers, movers, shakers, and visionaries who give us an edge in a global marketplace. They are the American Dream by helping our Nation’s entrepreneurs and empowering a thriving middle class.

And the American middle class, well, that’s the underpinning of support to make reigniting the American Dream even possible. A strong middle class leads to a strong America. The best functioning democracies around the world share one thing in common—a thriving middle class.

So, Madam Speaker, I rise today to ask my colleagues to enact policies and legislation that achieve these ends: to reignite the American Dream by building up our small businesses, encouraging our entrepreneurs, and empowering our middle class. We can start by extending the payroll tax cut for the remainder of the year without delay and without games.

I look forward to continuing to work toward these ends throughout the year.

IT’S TIME TO GET TO WORK

(Mr. GENE GREEN of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GENE GREEN of Texas. Madam Speaker, Members, when the U.S. economy is showing signs of progress, our House majority’s threatening to take 2 percent of the gross national product out of our economy, killing the gains we’ve made, and doing it on the backs of the people who need help the most, the middle class and the unemployed.

Even though we were able to extend the payroll tax cut, unemployment insurance, and also the Medicare physician payments for just 2 months, millions of Americans dodged an average of $1,500 from a GOP tax hike. Now it’s time to get to work and pass a year-long extension of these three important programs.

We cannot afford to take more risks with the incomes of 160 million Americans the way the House majority did at the end of 2011.

SUPPORT THE STOCK ACT

(Mrs. CAPITO asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CAPITO. Madam Speaker, I rise today in support of the STOCK Act, Stop Trading on Congressional Knowledge Act, which strengthens current House rules banning Members of Congress from profiting financially from their position. It is absolutely unacceptable for those in any branch of government—the legislative, the judiciary, or the executive branch—to profit from nonpublic information.

Insider trading is not only unethical; it is illegal no matter who you are. But if it takes a stronger, tougher bill to set the record straight, so be it. The American people elected us in good faith to lead, and we must do everything in our power to protect that trust.

AN ASSAULT ON THE FIRST AMENDMENT

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Madam Speaker, those who say that conservative opposition to the Obama administration’s rules on forcing religious groups to provide birth control coverage in their insurance plans is an assault on women are wrong and shortsighted. That rule is an assault on all Americans and on the First Amendment of our Constitution.

It reminds me of a famous quote attributed to Pastor Martin Niemoller: First they came for the Communists, and I didn’t speak out because I wasn’t a Communist. Then they came for the trade unions, and I didn’t speak out because I wasn’t a trade unionist. Then they came for the Catholics, and I didn’t speak out because I wasn’t a Catholic. Then they came for me, and there was no one left to speak out for me.

Madam Speaker, we have to speak out on this issue. It is an assault on the First Amendment. It’s an assault on the rights of all Americans.

February 9, 2012
The bill enhances transparency, something we’ve continually strived for in this 112th Congress, and I am proud to support the bill. I hope my colleagues will join me in passing this into law.

STOP TRADING ON CONGRESSIONAL KNOWLEDGE ACT OF 2012

Mr. SMITH of Texas. Madam Speaker, I rise to order, and the rules and pass the bill (S. 3038) to prohibit Members of Congress and employees of Congress from using nonpublic information derived from their official positions for personal benefit, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the amendment is as follows:

Strike out all after the enacting clause and insert:

S. 3038

SECTION 1. SHORT TITLE.

This Act may be cited as the “Stop Trading on Congressional Knowledge Act of 2012” or the “STOP Act.”

SEC. 2. DEFINITIONS.

In this Act:

(1) MEMBER OF CONGRESS.—The term “Member of Congress” means—

(A) any individual who is a Member of the Senate or House of Representatives, a Delegate to the House of Representatives, and an officer or employee of the United States Postal Service, or a Member of the Postal Regulatory Commission; or

(B) any other officer or employee of the executive branch (as defined in section 109(11) of the Ethics in Government Act of 1978 (5 U.S.C. App. 109(11))).

(2) EMPLOYEE OF CONGRESS.—The term “employee of Congress” means—

(A) any individual, other than a Member of Congress, whose compensation is disbursed by the Secretary of the Senate or the Chief Administrative Officer of the House of Representatives, and

(B) any other officer or employee of the legislative branch (as defined in section 109(11)) of the Ethics in Government Act of 1978 (5 U.S.C. App. 109(11)).

(3) EXECUTIVE BRANCH EMPLOYEE.—The term “executive branch employee”—

(A) has the meaning given the term “employee” under section 20105 of title 5, United States Code;

(B) includes—

(i) the President; and

(ii) the Vice President; and

(iii) an employee of the United States Postal Service or the Postal Regulatory Commission.

(4) JUDICIAL OFFICIAL.—The term “judicial official” has the meaning given that term under section 109(10) of the Ethics in Government Act of 1978 (5 U.S.C. App. 109(10)).

(5) JUDICIAL EMPLOYEE.—The term “judicial employee” has the meaning given that term in section 109(8) of the Ethics in Government Act of 1978 (5 U.S.C. App. 109(8)).

(6) SUPERVISING ETHICS OFFICE.—The term “supervising ethics office” has the meaning given that term in section 109(18) of the Ethics in Government Act of 1978 (5 U.S.C. App. 109(18)).

SEC. 3. PROHIBITION OF THE USE OF NONPUBLIC INFORMATION FOR PRIVATE PROFIT.

The Select Committee on Ethics of the Senate and the Committee on Ethics of the House of Representatives shall issue interpretive guidance of the relevant rules of each chamber, including rules governing gifts of interest and gifts, clarifying that a Member of Congress and an employee of Congress may not use nonpublic information derived from such person’s position as a Member of Congress or employee of Congress or gained from the performance of such person’s official responsibilities as a means for making a private profit.

SEC. 4. PROHIBITION OF INSIDER TRADING.

(a) AFFIRMATION OF NONEXEMPTION.—Members of Congress and employees of Congress are not exempt from the insider trading prohibitions arising under the securities laws, including section 10(b) of the Securities Exchange Act of 1934 and Rule 10b–5 thereunder.

(b) DUTY OF MEMBERS AND EMPLOYEES OF CONGRESS.

(1) PURPOSE.—The purpose of the amendment made by this subsection is to affirm a duty arising from a relationship of trust and confidence owed by each Member of Congress and each employee of Congress.

(2) AMENDMENT.—Section 21A of the Securities Exchange Act of 1934 (15 U.S.C. 78u–1) is amended by adding at the end the following:

“(g) DUTY OF MEMBERS AND EMPLOYEES OF CONGRESS.—

“(1) IN GENERAL.—Subject to the rule of construction under section 10 of the STOCK Act and solely for purposes of the insider trading prohibitions arising under this Act, including section 10(b) and Rule 10b–5 thereunder, each Member of Congress or employee of Congress owes a duty arising from a relationship of trust and confidence to the Congress, the United States Government, and the citizens of the United States with respect to material, nonpublic information derived from such person’s position as a Member of Congress or employee of Congress or gained from the performance of such person’s official responsibilities.

“(2) DEFINITIONS.—In this subsection—

“(A) the term ‘Member of Congress’ means a member of the House of Representatives, a Delegate to the House of Representatives, and the Resident Commissioner from Puerto Rico;

“(B) the term ‘employee of Congress’ means—

(i) any individual (other than a Member of Congress), whose compensation is disbursed by the Secretary of the Senate or the Chief Administrative Officer of the House of Representatives; and

(ii) any other officer or employee of the legislative branch (as defined in section 109(11)) of the Ethics in Government Act of 1978 (5 U.S.C. App. 109(11)).

“(3) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to impair or limit the construction of the existing antifraud provisions of the securities laws or the authority of the Commission under those provisions.”.

SEC. 5. CONFORMING CHANGES TO THE COMMODITY EXCHANGE ACT.

Section 6(c)(a) of the Commodity Exchange Act (7 U.S.C. 6c(a)) is amended—

(1) in paragraph (4), in the matter preceding subparagraph (A), by inserting “or any Member of Congress or employee of Congress (as such terms are defined in paragraph (4) of section 21A of the Securities Exchange Act of 1934)” after “any judicial official or judicial employee”;

(2) in paragraph (4), by inserting “any waivers and exclusions, shall file a report under section 102(a)(5)(B), but in no case later than 45 days after such transaction, the certification of any transaction required to be reported under such section, or any statement required to be submitted under section 102(a)(5)(B)” after “any waivers and exclusions, shall file a report of the transaction:”;

“(2) The President.

“(2) The Vice President.

“(3) Each officer or employee in the executive branch, including a special Government employee as defined in section 202 of title 18, United States Code, who occupies a position classified above GS-15 of the General Schedule or, in the case of positions not under the General Schedule, for which the rate of basic pay is equal to or greater than 120 percent of the minimum rate of basic pay payable for GS-15 of the General Schedule; each member of a uniformed service whose pay grade is at or in excess of O–7 under section 201 of title 37, United States Code, or each officer or employee in any position determined by the Director of the Office of Government Ethics to be of equal classification.

“(4) Each employee appointed pursuant to section 3105 of title 5, United States Code.

“(5) Any employee not described in paragraph (3) who is in a position in the executive branch who is excepted from the competitive service by reason of being of a confidential or policy-making character, except that the Director of the Office of Government Ethics may, by regulation, exclude from the application of this paragraph any individual, or group of individuals, who are in such positions, but only in cases in which the Director determines such exclusion would not affect adversely the integrity of the Government or the public’s confidence in the integrity of the Government.

“(6) The Postmaster General, the Deputy Postmaster General, and the Governor of the Board of Governors of the United States Postal Service and each officer or employee of the United States Postal Service or Postal Regulatory Commission.

“(7) The term ‘judicial employee’ includes—

(A) any individual, other than a Member of Congress, whose compensation is disbursed by the Secretary of the Senate or the Chief Administrative Officer of the House of Representatives, and

(B) any other officer or employee of the legislative branch (as defined in section 109(11)) of the Ethics in Government Act of 1978 (5 U.S.C. App. 109(11)).

“(2) AMENDMENT.—Section 21A of the Securities Exchange Act of 1934 (15 U.S.C. 78u–1) is amended by inserting “or by Congress or by the judiciary” after “Federal Government,”.

“(l) Not later than 30 days after receiving notification of any transaction required to be reported under section 102(a)(5)(B), but in no case later than 45 days after such transaction, the following persons, if required to file a report under any subsection of section 101, subject to waivers and exclusions, shall file a report of the transaction:

“(a) A Member of Congress, as defined under section 202 of title 18, United States Code.

“(b) An officer or employee of the Congress, and the Resident Commissioner from Puerto Rico.

“(c) The Clerk of the House of Representatives, and the Resident Commissioner from Puerto Rico.

“(6) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to transactions occurring on or after the date that is 90 days after the date of enactment of this Act.

SEC. 7. REPORT ON POLITICAL INTELLIGENCE ACTIVITIES.

(a) REPORT.—(1) IN GENERAL.—Not later than 12 months after the date of enactment of this Act, the Comptroller General of the United States, in consultation with the Congressional Research Service, shall submit to the Committee on Homeland Security and Governmental Affairs of the Senate and the Committee on Oversight and Government Reform and the Committee on the
Judiciary of the House of Representatives a report on the role of political intelligence in the financial markets.

(2) CONTENTS.—The report required by this section shall include a discussion of—

(A) what is known about the prevalence of the sale of political intelligence and the extent to which investors rely on such information;

(B) the effects that the sale of political intelligence has on the financial markets;

(C) the extent to which information which is being traded would be considered nonpublic information;

(D) the legal and ethical issues that may be raised by the imposition of disclosure requirements on those who engage in political intelligence activities;

(E) any benefits from imposing disclosure requirements on those who engage in political intelligence activities; and

(F) any legal and ethical issues that may be raised by the imposition of disclosure requirements on those who engage in political intelligence activities.

(3) DEFINITION.—For purposes of this section, the term “political intelligence” shall mean information that is—

(I) derived by a person from direct communications with an expert who is a current or former Member of Congress, or an employee of Congress; and

(II) provided in exchange for financial compensation to a client who intends, and who is known to intend, to use the information to inform investment decisions.

SEC. 8. PUBLIC FILING AND DISCLOSURE OF FINANCIAL DISCLOSURE FORMS OF MEMBERS OF CONGRESS AND CONGRESSIONAL STAFF.

(a) PUBLIC FILING AND DISCLOSURE OF FINANCIAL DISCLOSURE FORMS OF MEMBERS OF CONGRESS AND CONGRESSIONAL STAFF.—

(1) IN GENERAL.—Not later than August 31, 2012, and each date thereafter, each Member of Congress, and each employee of Congress, shall file financial disclosure statements with the Committee on Ethics of the House of Representatives, or the Committee on Standards of Official Conduct of the Senate. Each financial disclosure statement filed in accordance with this subsection shall be made available electronically under this subsection along with its related disclosure.

(2) EXTENSIONS.—Notices of extension for filing financial disclosure shall be made available electronically under this subsection along with its related disclosure.

(b) NOTICES OF EXTENSION.—Notices of extension for filing financial disclosure statements shall be made available electronically under this subsection along with its related disclosure.

(c) RECORDKEEPING.—Section 105(d) of the Ethics in Government Act of 1978 (5 U.S.C. App. 105(d)) is amended to read as follows:

“(d)(1) Any report filed with or transmitted to an agency or supervising ethics office or to the Clerk of the House of Representatives or the Secretary of the Senate pursuant to this title shall be retained by such agency or office or by the Clerk of the House of Representatives or the Secretary of the Senate, as the case may be.

(2) Such report shall be made available to the public—

(A) in the case of a Member of Congress until a date that is 6 years from the date the individual ceases to be a Member of Congress; and

(B) in the case of all other reports filed pursuant to this title, for a period of 6 years after receipt of the report.

(3) After the relevant time period identified under paragraph (2), the report shall be destroyed unless needed in an ongoing investigation, except that in the case of an individual who filed the report pursuant to section 101(b) and was not subsequently confirmed by the Senate, or who filed the report pursuant to section 101(c) and was not subsequently elected, such reports shall be destroyed 1 year after the individual either is no longer under consideration by the Senate for nomination or election to the Office of President, Vice President, or as a Member of Congress, unless needed in an ongoing investigation or inquiry.”

SEC. 9. OTHER FEDERAL OFFICIALS.

(a) PROHIBITION OF THE USE OF NONPUBLIC INFORMATION FOR PRIVATE PROFIT.—

(1) EXECUTIVE BRANCH EMPLOYEES.—The Office of Government Ethics shall issue interpretative guidance of the relevant Federal ethics statutes and regulations, including the Standards of Ethical Conduct for executive branch employees, related to use of nonpublic information, as necessary to clarify that no executive branch employee may use nonpublic information derived from such person’s position as a judicial officer or gained from the performance of such person’s official responsibilities as a means for making a private profit.

(b) DEFINITIONS.—In this subsection, the term “nonpublic information” means information derived from such person’s position as a judicial officer or gained from the performance of such person’s official responsibilities as a means for making a private profit.

(c) RULE OF CONSTRUCTION.—Nothing in this Act, the amendments made by this Act, or the interpretative guidance to be

H646 CONGRESSIONAL RECORD — HOUSE February 9, 2012
issued pursuant to sections 3 and 9 of this Act, shall be construed to:

(1) impair or limit the construction of the anti-fraud provisions of the securities laws or the Commodity Exchange Act; or the authority of the Securities and Exchange Commission or the Commodity Futures Trading Commission under those provisions;

(2) be in derogation of the obligations, duties, and functions of a Member of Congress, an employee of Congress, an executive branch employee, a judicial officer, or a judicial employee, arising from that person’s official position; or

(3) be in derogation of existing laws, regulations, or ethical obligations governing Members of Congress, employees of Congress, executive branch employees, judicial officers, or judicial employees.

SEC. 11. EXECUTIVE BRANCH REPORTING.

(a) EXECUTIVE BRANCH REPORTING.—

(1) IN GENERAL.—Not later than August 31, 2012, or 90 days after the date of enactment of this Act, whichever is later, the President shall ensure that financial disclosure forms filed pursuant to title I of the Ethics in Government Act of 1978 (5 U.S.C. App. 101 et seq.), in calendar year 2012 and in subsequent years, by executive branch employees as specified in section 101(i) of that Act are made available to the public on the official websites of the respective executive branch agencies not later than 30 days after such forms are filed.

(2) EXTENSIONS.—Notices of extension for financial disclosure shall be made available electronically along with the related disclosure.

(3) REPORTING TRANSACTIONS.—In the case of a transaction disclosure required by section 103(l) of the Ethics in Government Act of 1978, as added by this Act, such disclosure shall be filed not later than the date required by that section. Notices of extension for transaction disclosure shall be made available electronically under this subsection along with its related disclosure.

(4) EXPRIATION.—The requirements of this subsection shall expire upon implementation of the public disclosure system established under subsection (b).

(b) ELECTRONIC FILING AND ONLINE PUBLIC AVAILABILITY OF FINANCIAL DISCLOSURE FORMS OF CERTAIN EXECUTIVE BRANCH EMPLOYEES.—

(1) IN GENERAL.—Subject to paragraph (6), and not later than 18 months after the date of enactment of this Act, the President, acting through the Office of Government Ethics, shall develop systems to enable:

(A) electronic filing of reports required by section 103(i) of the Ethics in Government Act of 1978, as added by this Act, such disclosure shall be filed not later than the date required by that section. Notices of extension for transaction disclosure shall be made available electronically under this subsection along with its related disclosure.

(b) public access to financial disclosure reports filed by executive branch employees required to file under section 101(i) of that Act (5 U.S.C. App. 101), as well as reports of a transaction disclosure required by section 103(l) of that Act, as added by this Act, notices of extensions, and all related disclosure.

(2) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to reports which are required to be filed under section 101 of the Ethics of Government Act of 1978 on or after the date of the enactment of this Act.

SEC. 12. PARTICIPATION IN INITIAL PUBLIC OFFERINGS.

Section 21A of the Securities Exchange Act of 1934 (15 U.S.C. 78u–1), as amended by this Act, is further amended by adding at the end the following:

‘‘(i) Participation in Initial Public Offerings.—An individual described in section 101(f) of the Ethics in Government Act of 1978 may not participate in an initial public offering (within the meaning given such term in section 12(f)(1)(G)(i)) in any manner other than is available to members of the public generally.’’.

SEC. 13. REQUIRING MORTGAGE DISCLOSURE.

Any mortgage that is described under 102(a)(4)(A) of the Ethics in Government Act of 1978 (5 U.S.C. App. 102(a)(4)(A)) is amended by striking ‘‘spouse;’’ and inserting the following:

‘‘spouse, except that this exemption shall not apply to a reporting individual—

(i) who is described in paragraph (1), (2), or (9) of section 101(f);

(ii) described in section 101(b) who has been nominated for appointment as an officer or employee in the executive branch described in subsection (j) of such section, other than—

(1) an individual appointed to a position—

(aa) as a Foreign Service Officer below the rank of ambassador;

(bb) in the uniformed services for which the pay grade prescribed by section 201 of title 37, United States Code is O-6 or below; or

(cc) a special government employee, as defined under section 202 of title 18, United States Code; or

(dd) described in section 101(f) who is in a position in the executive branch the appointment to which is made by the President and requires advice and consent of the Senate, other than—

(1) an individual appointed to a position—

(aa) as a Foreign Service Officer below the rank of ambassador;

(bb) in the uniformed services for which the pay grade prescribed by section 201 of title 37, United States Code is O-6 or below; or

(cc) a special government employee, as defined under section 202 of title 18, United States Code; and

(2) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to reports which are required to be filed under section 101 of the Ethics of Government Act of 1978 on or after the date of the enactment of this Act.

SEC. 14. TRANSACTION REPORTING REQUIREMENTS.

The transaction reporting requirements established by section 103(i) of the Ethics in Government Act of 1978, as added by section 6 of this Act, shall not be construed to apply to a widely held investment fund (whether such fund is a mutual fund, regulated investment company, pension or other investment plan, or other investment fund), if—

(1)(A) the fund is publicly traded; or

(B) the assets of the fund are widely diversified; and

(2) the reporting individual neither exercises control over nor has the ability to exercise control over the financial interests held by the fund.

SEC. 15. APPLICATION TO OTHER ELECTED OFFICIALS AND CRIMINAL OFFENSES.

(a) APPLICATION TO OTHER ELECTED OFFICIALS.—

(1) CIVIL SERVICE RETIREMENT SYSTEM.—Section 8322(c)(2)(A) of title 5, United States Code, is further amended by adding at the end the following provisions:

‘‘(A) in clause (i), by inserting ‘‘, the President, the Vice President, or an elected official of a State or local government’’; and

(B) in clause (ii), by inserting ‘‘, the President, the Vice President, or an elected official of a State or local government’’ after ‘‘Member’’.

(2) CIVIL SERVICE RETIREMENT SYSTEM.—Section 8411(b)(2) of title 5, United States Code, is amended—

(A) in subparagraph (A), by inserting ‘‘, the President, the Vice President, or an elected official of a State or local government’’ after ‘‘Member’’; and

(B) in subparagraph (B), by inserting ‘‘, the President, the Vice President, or an elected official of a State or local government’’ after ‘‘Member’’.

(b) CRIMINAL OFFENSES.—Section 8322(g)(2) of title 5, United States Code, is amended—

(1) in subparagraph (A), by striking clause (iii) and inserting the following:

‘‘(iii) the offense—

(I) is committed after the date of enactment of this Act; and

(II) is committed after the date of enactment of the STOCK Act and—

(a) is described under subparagraph (B)(ii), (iii), (v), (vi), (vii), (viii), (ix), (x), or (xi); or

(bb) is described under subparagraph (B)(xii), (xiii), or (xiv), but only with respect to an offense described under subparagraph (B)(i), (ii), (xii), (xiii), (xv), (xvi), (xvii), (xviii), (xx), and (xxi); or

(cc) is described under subparagraph (B)(xii), (xiii), or (xiv), but only with respect to an offense described under subparagraph (B)(ii), (iii), (v), (vi), (vii), (viii), (ix), (x), or (xi); or

(dd) is described under subparagraph (B)(xii), (xiii), or (xiv), but only with respect to an offense described under subparagraph (B)(ii), (iii), (v), (vi), (vii), (viii), (ix), (x), or (xi); or

(2) by striking subparagraph (B) and inserting the following:

‘‘(B) An offense described in this subparagraph is only the following, and only to the extent that the offense is—

(i) an offense under section 201 of title 18 (relating to bribery of public officials and witnesses); or

(ii) an offense under section 202 of title 18 (relating to compensation to Member of Congress, officers, and others in matters affecting the Government); or

(iii) an offense under section 204 of title 18 (relating to false, fictitious or fraudulent claims); or

(iv) an offense under section 219 of title 18 (relating to solicitation of political contributions); or

(v) an offense under section 286 of title 18 (relating to promise of appointment by candidate); or

(vi) an offense under section 597 of title 18 (relating to expenditures by individuals); or

(vii) an offense under section 602 of title 18 (relating to solicitation of political contributions); or

(viii) an offense under section 608 of title 18 (relating to intimidation to secure political contributions).”
"(xxi) An offense under section 1622 of title 18 (relating to obstruction of proceedings before departments, agencies, and committees).

"(xxii) An offense under section 1595 of title 18 (relating to laundering of monetary instruments).

"(xxiii) An offense under section 1597 of title 18 (relating to engaging in monetary transactions in property derived from specified unlawful activity).

"(xxiv) An offense under chapter 96 of title 18 (relating to fraud, manipulation, or insider trading of securities).

"(xxv) An offense under section 10(b) of the Securities Exchange Act of 1934 (relating to fraud, manipulation, or insider trading of securities).

"(xxvi) An offense under section 4(a) of the Commodity Exchange Act (7 U.S.C. 6a(a)) (relating to fraud, manipulation, or insider trading of commodities).

"(xxvii) An offense under section 371 of title 18 (relating to conspiracy to commit offense or to defraud United States), to the extent of any conspiracy or conspiracy to commit an act which constitutes—

"(I) an offense under clause (i), (ii), (iii), (iv), (v), (vi), (vii), (viii), (ix), (x), (xi), (xii), (xiii), (xiv), (xv), (xvi), (xvii), (xviii), (xix), (xx), (xxi), (xxii), (xxiii), (xxiv), (xxv), (xxvi), (xxvii), or (xxviii); or

"(II) an offense under section 207 of title 18 (relating to restrictions on former officers, employees, and elected officials of the executive and legislative branches).

"(xxviii) Perjury committed under section 1621 of title 18 in falsely denying the commission of an act which constitutes—

"(I) an offense under clause (i), (ii), (iii), (iv), (v), (vi), (vii), (viii), (ix), (x), (xi), (xii), (xiii), (xiv), (xv), (xvi), (xvii), (xviii), (xix), (xx), (xxi), (xxii), (xxiii), (xxiv), (xxv), (xxvi), (xxvii), (xxviii), or (xxix); or

"(II) an offense under clause (xxviii), to the extent provided in such clause.

"(xxx) Subornation of perjury committed under section 1622 of title 18 in connection with the false denial or false testimony of another in connection with section 1622.

SEC. 16. LIMITATION ON BONUSES TO EXECUTIVES OF FANNIE MAE AND FREDDIE MAC.

Notwithstanding any other provision in law, senior executives at the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation are prohibited from receiving bonuses during any period of conservatorship for those entities on or after the date of enactment of this section.

SEC. 17. POST-EMPLOYMENT NEGOTIATION RESTRICTIONS.

(a) RESTRICTION EXTENDED TO EXECUTIVE AND JUDICIAL BRANCH OFFICERS AND EMPLOYEES. In addition to any other provision of law, an individual required to file a financial disclosure report under section 101 of the Ethics in Government Act of 1978 (5 U.S.C. App. 101) shall not negotiate or have any agreement of future employment or compensation unless such individual, within 3 business days after the commencement of such negotiations or agreement, files with the individual's supervising ethics office a statement, signed by such individual, regarding such negotiations or agreement, including the name of the private entity or entities involved in such negotiations or agreement, and the date such negotiations or agreement commenced.

(b) RECUSAL.—An individual filing a statement under subsection (a) shall recuse himself or herself whenever there is a conflict of interest, or appearance of a conflict of interest, for such individual with respect to the subject matter of the statement, and shall notify the individual's supervising ethics office of such recusal. An individual making such recusal shall, upon such recusal, submit to the supervising ethics office a statement, signed by such individual, regarding such negotiations or agreement, and the date such negotiations or agreement commenced.

SEC. 18. WRONGFULLY INFLUENCING PRIVATE ENTITIES EMPLOYMENT DECISIONS BY LEGISLATIVE AND EXECUTIVE BRANCH OFFICERS AND EMPLOYEES.

(a) IN GENERAL.—Section 227 of title 18, United States Code, is amended—

"(I) in the heading of such section, by inserting after "Congress" the following: "or an officer or employee of the legislative or executive branch"; and

"(II) an offense under section 207 of title 18 (relating to interference with commerce by threat or force), to the extent of any part of a scheme to deprive citizens of honest services thereby.

"(b) PERIOD OF RETENTION OF FINANCIAL DISCLOSURE STATEMENTS OF MEMBERS OF THE HOUSE OF REPRESENTATIVES.

"(1) IN GENERAL.—Section 304(c) of the Honest Leadership and Open Government Act of 2007 (2 U.S.C. 104(e)(c)) is amended by striking the period after subsection (b) and inserting the following: "or, in the case of reports filed under section 103(h)(b) of the Ethics in Government Act of 1978, until the expiration of the 6-year period which begins on the date the individual is no longer a Member of Congress.".

"(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply with respect to any report which is filed on or after the date on which the systems developed by the Secretary and Sergeant at Arms of the Senate and the Clerk of the House of Representatives under section 8(b) first take effect.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Mr. SMITH of Texas. Mr. SMITH of Texas. Madam Speaker, I yield myself such time as I may consume.

Mr. SMITH of Texas. Madam Speaker, every Member of this House has sworn a solemn oath to support and defend the Constitution and to faithfully execute the office to which they have been entrusted by their constituents. The Stop Trading on Congressional Knowledge Act, or STOCK Act, goes to the heart of what it means to faithfully execute public office.

The government exists to promote the public good, not to enrich government officials and employees. Those who are entrusted with public office are public servants because their work should always serve the public rather than themselves. No one should violate the sacred trust of government office by turning "public service" into "self-service."

The risk of government self-dealing is heightened by the huge growth in recent years of the Federal Government and its increasing entanglement with the private economy. The risk of self-dealing increases when the government undertakes to spend nearly $1 trillion in stimulus money on private companies like Solyndra, or when the government inserts itself into the one-fifth of our economy represented by health
care and dictates the terms of private insurance policies.

The decisions made by Big Government can have big money consequences. Big Government can move markets. That's why we need strong rules to manage the power the public that decisions take are not enriching themselves by investing based on insider knowledge of government policies.

This is the goal of the STOCK Act, and the House version of the STOCK Act achieves this goal. It strengthens the Senate proposal by expanding the scope of the bill to require more disclosure and prevent all office holders from profiting from insider information.

The House bill expands the legislation so that the ban on insider trading applies to all legislative, executive, and judicial branch officials and their staffs. The American people deserve to know that no one in any branch of government can profit from their office. All three branches should be held to the same standard because all branches must be worthy of the public's trust.

And the bill ensures that Members of Congress who commit a crime do not receive a taxpayer-funded pension. The STOCK Act ensures that Members of Congress and other government insiders have to play by the same rules against insider trading that have applied to the private sector for nearly 80 years.

Under the House bill, no Federal Government official may use nonpublic information which they learn about by virtue of their office for the purpose of making a profit in the commodities or stock markets.

The bill strengthens financial disclosure rules for public officials. Financial disclosure forms will be made publicly available in searchable, downloadable databases on government Web sites.

The bill requires prompt reporting of significant securities transactions by key legislative and executive branch officials. This will bring the financial dealings of public servants into the light of day.

The STOCK Act also strengthens disclosure of officials' mortgages so that public servants do not receive special rates and offers by virtue of their office.

The bill expands the list of crimes that result in a forfeiture of government assets, and it includes Fannie Mae and Freddie Mac from paying lucrative bonuses to the executives who bear so much responsibility for the housing crisis.

The House bill adds a provision to prevent government officials from receiving special early access to the initial public offerings of stock, which can result in major profits for the well-connected.

The bill requires executive branch officials to disclose their negotiations for private sector jobs, just like legislative branch officials do under current law. And the bill makes it a crime for executive branch officials to pressure private businesses to hire employees of a certain political party, a government law that currently only applies to Congress.

The STOCK Act increases disclosure and accountability for every branch of the Federal Government, and it ensures that public servants don't breach the trust of the American people.

Madam Speaker, for all the above reasons, I support this legislation and encourage my colleagues to support it as well.

Madam Speaker, I reserve the balance of my time.

Mr. CONYERS. I yield myself such time as I may consume.

Madam Speaker, Members of the House, we come here this morning as the leaders of the Judiciary Committee, and I have to assume that the chairman of the Judiciary Committee, Mr. SMITH, like myself, is deeply disappointed that we're bringing a bill that we've never had a hearing on before the committee before the Congress for disposition.

Here was a bill referred to six committees: Financial Services, Agricultural, Judiciary, House Administration, Ethics, and the Rules Committee. Only one hearing was held in one of these committees on this measure. It's never been before Judiciary or any other committee, and so I want to begin by complimenting the author of this measure, the ranking member, former chairwoman of the Rules Committee, the gentleman from New York, LOUISE SLAUGHTER, for a serious and important amendment that has never been treated fairly.

Now, I don't know what the explanation is. Maybe we can get to it during this proceeding. But I think that this is not the way that we want to move forward with a bill that was supposed to get to an insider trading ban that everybody wanted, because there's no reporting requirement on this bill.

I will reserve the balance of my time and look forward to the discussion.

Mr. SMITH of Texas. Madam Speaker, I yield 2 minutes to the gentleman from Florida (Mr. Ross) who's an active member of the Judiciary Committee.

Mr. ROSS of Florida. Madam Speaker, I rise in support of the STOCK Act today. And in support of extending its reach to the executive branch. All of us who have been honored by our fellow citizens with the enormous responsibility of protecting the liberties of this Republic have a duty to hold ourselves to the highest of standards.

You know, when it comes to K Street, it appears that Republican leadership couldn't stomach the pressure from the political intelligence community.

And it's hard. The STOCK Act is a statement of how we in Congress view ourselves and our relationship with
those who sent us here. No matter how powerful our position may be or we believe it is, nor how hallowed the Halls that we walk, none of us is above the law.

With the passage of the STOCK Act, we can take a step closer to living up to the faith and trust bestowed upon us by the American people, the citizens whom we serve.

Mr. SMITH of Texas, Madam Speaker, I yield 2 minutes to the gentleman from Illinois (Mr. DOLD) who is also a member of the Financial Services Committee.

Mr. DOLD, Madam Speaker, I certainly want to thank the chairman for yielding, and thank you for your leadership. I also want to thank my colleagues on the other side of the aisle, Ms. SLAUGHTER, Mr. WALZ, for your leadership with regard to the STOCK Act.

Madam Speaker, the American public believes that Congress has the ability to shape our future. This is the future we want to be part of. While we cannot police our actions, we must not allow this illegal today in insider trading laws, I think that we've got an obligation to make it even stronger and even clearer to the American public and to everyone that we are here in the United States Congress hold ourselves up to a higher standard. I think this is expected of us as public servants.

I am pleased to say that in the STOCK Act, in this legislation moving forward, is language from my bill, H.R. 2162, the No Pensions for Felons Act. This language will strengthen and expand the existing law to require that Federal lawmakers convicted of a public corruption felony forfeit their taxpayer-funded congressional pension.

I know this sounds like common sense, but actually today there are those that are collecting taxpayer-funded pensions that have been convicted of a public corruption charge while serving in public office.

The provision adds 21 new public corruption offenses to the current law, including violations for insider trading and others. Additionally, this will prohibit the former Members of Congress from receiving a congressional pension if they are convicted of a covered offense that occurred while they are subsequently serving in any other publicly elected office.

Sadly, we have seen this before, where former Members of this Chamber, my State's Governor Rod Blagojevich, convicted of felony corruption charges and yet at age 62, he'll be eligible for a taxpayer-funded pension. Not only is this wrong, this is an insult to the American taxpayers. This provision will address such violations of the public trust in the future.

I want to thank the chairman for your leadership, and I want to urge my colleagues, not just on my side of the aisle, but across the aisle to support this important legislation. Mr. CONYERS. Madam Speaker, I am pleased to yield as much time as he may consume to the distinguished gentleman from Minnesota, Tim WALZ, who joined with the ranking member of the Rules Committee in introducing the original bill.

Mr. WALZ, I thank the gentleman from Michigan. I'd also like to thank the chairman for his support of this bill and eloquent response on it.

It's been a long 6-year journey to pass this reform. It has taken hard work and a bipartisan effort. The American people expect and deserve that.

When I first came to Congress in 2006 after spending a lifetime of teaching social studies in the public school classroom, I was approached by the gentlemwoman from New York (Ms. SANDERS) and Brian Baird, our former Member from Washington State. He said, You were sent here to make a difference and do things differently. If you really believe in reform, take a look at this bill.

I got involved right after that, and Representative SLAUGHTER, I can say, has been a stalwart supporter of this bill. She understood this is far more than just about clarifying insider trading. This is about restoring faith to the institution.

She was concerned about the ethics of this body before ethics seemed to be in vogue, but it has been in vogue her whole lifetime. She has lived that sermon of ethics and of living by the rules instead of just giving it, and that I appreciate.

The integrity of this institution stands above all else. As the sacred holders of the privilege, the honor and the responsibility given to us by our neighbors to self-govern ourselves, we must make sure that this institution is never tarnished; and this bill goes a long way to do that.

The perception is that Members of Congress are enriching themselves. That's not only an affront to our neighbors that we're not playing by the rules; it is a cancer that can destroy the democracy. Each Member of Congress has a responsibility to hold himself not just equal to his neighbors but to a higher standard. The public wants us to come here and debate how we educate our children, how we serve our veterans, how we build our roads, how we protect this Nation, how we spend, and hold those taxpayer dollars. That's what makes us strong—all these differing ideas coming together for a compromise and moving forward. If there is a perception that someone is enriching himself, it undermines our ability to do those things.

We're not here today to pat ourselves on the back. This might be the only place where doing the right thing gets you kudos when it's expected of everyone else. So we're here to say that this is one of those bills, but it is one of the tiny steps on a journey, which is about restoring the faith of the American people and the institution. They can believe with all their hearts that we are wrong. They cannot believe that we are corrupt. They will have us and we will pass and we will be dust, and this place—this building, this podium right here—will still stand.

So I implore folks, let's come together in a bipartisan manner.

I agree with the gentlelady: I'm disappointed the political intelligence piece isn't in here; but as I said, I believe this is a first step. Let's get it passed, and when that happens, we can come together. Let's get it passed, and let's have the President sign it. Then let's get on to real business.

With that, I would be remiss not to mention a person who was one of the original seven folks on this bill. WALTER JONES has been our Republican colleague, and has been a stalwart supporter of this. This is a truly bipartisan piece. Ethics crosses the aisle. Our folks in here are good people who can come together for the good of their citizens, and for that I am grateful for today.

Mr. SMITH of Texas, Madam Speaker, I yield 2 minutes to my Texas colleague, Mr. CANSECO, who is a member of the Financial Services Committee.

Mr. CANSECO, I thank my colleague, Chairman SMITH, for yielding.

Madam Speaker, too often the American people feel that Members of Congress live by and benefit personally from a different set of rules than those by which ordinary Americans live. To me, this lack of confidence is unacceptable. It is imperative that we rebuild the trust of the American people in their elected Representatives.

The STOCK Act will help us do just that. It explicitly bans Members of Congress and congressional staff from using information obtained on the job and using it to profit from securities trading and gives the Securities and Exchange Commission the ability to investigate and prosecute them just like any other American.

The American people expect that those who serve in government do so with integrity. The STOCK Act will help ensure that those in government meet this expectation.

Mr. CONYERS, Madam Speaker, I am pleased to yield such time as he may consume to the gentleman from Virginia, Bobby SCOTT, the ranking member of the subcommittee to which this measure would have gone had we been able to hold hearings.

Mr. SCOTT of Virginia. I thank the gentleman for yielding.
Madam Speaker, the bill we’re considering today, the STOCK Act, would prohibit Members of Congress and other legislative branch employees, as well as executive and judicial branch employees, from using nonpublic information to benefit, directly or indirectly, from an individual’s position or gained from the performance of an individual’s duties.

Today, we are amending the Senate-passed bill, S. 3289, with a substitute that makes necessary changes to the Senate text, such as the requirement that certain political intelligence activities be disclosed under the Lobbying Disclosure Act. These intelligence firms obtain inside information for their clients and then sell that information to investment firms. The public should be informed of these types of contacts.

With this bill, our goal is to hold Members of Congress, as well as other government officials, to the same standard as those in corporations who have the duty not to trade on information that is not available to the general public.

Most Members of Congress believed that this type of activity was wrong whether explicitly prohibited by criminal law or at least subject to Ethics Committee sanctions. Most of us assumed that a Food and Drug Administration official could not call a stockbroker shortly before a blockbuster drug were to be approved and profit off of that insider knowledge. We just assumed that was wrong. So this bill codifies what most of us thought was already in the law.

This is not a complicated issue. This is the same standard that applies to those in the corporate context. It is wrong to trade on nonpublic information for our benefit and to the detriment of the public. The public has the right to expect that the public interest comes first, and people should not have to worry about what may be motivations of actions as we make decisions that impact them.

I want to acknowledge the work of my colleagues, the gentlelady from New York (Ms. SLAUGHTER) and the gentleman from Minnesota (Mr. WALZ), for their leadership in drafting and introducing the House version of the STOCK Act. This legislation represents an appropriate acknowledgment of what most of us already believed to be the law, that national government officials of all branches should not benefit financially from nonpublic information they learned by virtue of their positions, and so I urge my colleagues to vote in favor of this legislation.

Mr. SMITH of Texas. Madam Speaker, I yield 2 minutes to the gentleman from Virginia (Mr. CANTOR), the majority leader.

Mr. CANTOR. I thank the chairman, the gentleman from Texas.

Madam Speaker, our government was founded on a promise. This promise was built on a trust between the people and their elected officials. We all have a duty to honor the trust of the American people and to work faithfully on their behalf.

Madam Speaker, it is unacceptable for anyone, any elected official or their staff, to profit from information that is not available to the public. People in this country have a right and trust that officials at all levels of government are living under the same rules that they are. If there is even the slightest appearance of impropriety, we ought to go ahead and prevent that from taking place.

It is incumbent upon each of us to start restoring the trust between the people and their elected representatives. That’s what the STOCK Act is all about.

Madam Speaker, Members from both sides of the aisle have worked hard on this issue. I would especially like to express my appreciation to Representatives TIM WALZ and LOUISE SLAUGHTER for their years of work on this effort.

Mr. DUFFY. I appreciate the gentleman for yielding.

I think we are all aware that this issue came out when Peter Schweizer wrote a book called “Throw Them All Out.” After that, “60 Minutes” did a special story about how Members of Congress were benefiting by using insider information or information that the rest of the public wasn’t privy to. In the succeeding several months, I think the deficit of trust between Members of Congress and the American constituents.

I introduced a version that would deal with this issue, I think, very simply. I thought what we should do is mandates to the assets into a blind trust so there will be a bright line between information that they have as Members and their trading portfolios, and if they were to choose not to do that, they would have to aggressively disclose every trade within 3 days.

Now, my bill is not on the floor today, but the version that we have here today, I think, is much improved from the original version that came to the floor in 2010. We’ve upgraded the reporting requirement that goes, not from 3 days, but from 90 days to 30 days, which is much improved from the original legislation. We’ve included the executive branch, which I think is imperative; and we have language that uses the blind trust as a potential opt-out if you’re not actually managing your funds.

As we gather around and debate and vote on this bill, I think it is important to know that this is the first step. This is the first step in the right direction. Then as we come together and reevaluate what we’ve done here, I think there will be many more steps to take to ensure that Members of Congress don’t profit from the information they come across as Members of this institution.

Mr. CONYERS. Madam Speaker, I am pleased now to yield 2 minutes to the gentleman from Tennessee, STEVE COHEN, a member of the Judiciary Committee, one who has worked on this matter, even though we couldn’t hold hearings.

Mr. COHEN. I thank the gentleman from Michigan, Ranking Member CONYERS.

Madam Speaker, this is a very important bill, and I appreciate the efforts put in it by Ms. SLAUGHTER and Mr. WALZ, who have championed this for over many, many, many years, and I appreciate the Republicans for coming in with a bipartisan effort.

The bill has, indeed, been improved by the Senate; and it was improved through the honest services statute that was added to it, which our committee debated and passed, I believe, in good fashion. I don’t know if it was unanimous or not, but that was one of the most important aspects, in my opinion, of this bill.

There are local officials throughout this country who have abused their position of trust, and using their position for personal gain has hurt all of government. The honest services statute
strengthen and expand the Senate’s work on the STOCK Act, as well as removes provisions that would have made the bill unworkable or raised far more questions than they would have answered. We expanded the bill to ensure that executive branch officials and their staffs are subject to the same reporting and disclosure requirements as those in Congress. We must all live under the same rules.

We also included a provision, championed by Representative ROBERT DOLD, to ensure that Members of Congress, executive branch officials, and their staffs from receiving special access to internal public offerings due to their positions.

Madam Speaker, we intend to act quickly to send the President a strengthened, workable bill that delivers on our commitment to uphold the trust of the American people. And I urge all my colleagues to support the STOCK Act.

Mr. CONYERS. I yield myself such time as I may consume.

May I ask the distinguished majority leader one question, why he took political intelligence out of this provision?

I yield to the gentleman from Virginia.

Mr. CANTOR. Sure. I would respond to the gentleman. I think that is a provision that raises an awful lot of questions. I think there is a lot of discussion and debate about who and what would qualify and fall under the suggested language that came from the Senate. And that is why, in the STOCK Act, we are calling for a study of that issue, to ensure that the integrity of this process is maintained.

But I would remind the gentleman, the thrust of this bill is about making sure, in elected offices, in elected officials or those in the executive branch, are able to profit from nonpublic information. The political intelligence piece is outside of this body, and we are talking about us and the perception that has gathered around our conduct.

Mr. CONYERS. Well, I thank the gentleman because there are some Members on the gentleman’s side of the aisle who say, if Congress delays action on the political intelligence industry, we are casting the shadows, just the way Wall Street likes it. So I think we ought to think about that. And I’m hoping that the leader will continue the examination of the political intelligence industry piece.

I am now pleased to yield 1 minute to the gentlewoman from California, NANCY PELOSI, the distinguished leader on our side of the aisle.

Ms. PELOSI. I thank the gentleman for yielding and thank him for giving us this opportunity to discuss an important matter—the integrity of Congress—on the floor of the House.

I, too, want to join the distinguished majority leader, Mr. CANTOR, in praising the leadership of Congresswoman LOUISE SLAUGHTER, our ranking member on the Rules Committee, and Congressman TIM WALZ for their extraordinary leadership over time, their persistence, the approach that they have taken to this关乎 to the public’s mind, if that is possible, that we are here to do the people’s business and not to benefit personally from it.

I listened attentively to the distinguished majority leader, Mr. CANTOR’s remarks about the STOCK Act and its importance. And it just raises a question to me as to, if it is so important, and it certainly is, why we could not have worked in a more bipartisan fashion to develop a bill which was developed in a bipartisan fashion and passed the Senate—what was it?—94–6. It’s hard to get a result like 94–6 in Congress these days, but they were able to get the result because they worked together to develop their legislation.

We had two good options. One was to accept the Senate bill, or to take up the Slaughter-Walz legislation which has nearly 300 cosponsors. Almost 100 Republicans in the original STOCK Act. The discharge petition has been calling upon the leadership to bring that bill to the floor. What’s important about that is that if we pass that bill, we will have a conference and take the best and strongest of both bills to get the job done.

Instead, secretly, the Republicans brought a much-diminished bill to the floor. It has some good features. So I urge colleagues to accept the Senate for it to bring the process along. What’s wrong with it, though, is that it makes serious omissions. And I want to associate myself with the remarks that had been made earlier; but I think they bear repetition, in any event.

Senator GRASSLEY’s remarks are stunning. It is really a stunning indictment of the House Republicans in terms of their action on this bill. And I know my colleague has read this into the RECORD already, but I will, too.

Senator GRASSLEY said: “It’s astonishing and extremely disappointing that the House would fulfill Wall Street’s wishes by killing this provision”—that would be the provision on political intelligence. “The Senate clearly voted to try to shed light on an industry that’s behind the scenes. If the Senate language is too broad, as opponents say, why not propose a solution instead of scrapping the provision altogether? I hope to see a vehicle for meaningful transparency through a House-Senate conference or other means. If Congress delays action, the political intelligence industry will stay in the shadows, just the way Wall Street likes it.”

□ 9960

Well, the Senator’s statement is very widely covered. The Hill today has a big, full page, “Grassley: Republicans caved. Iowa Senator says House doing Wall Street’s bidding.”

I think it is important to note that on the Senate side there was interest in doing this study that is now in the House bill, and it was rejected by the Senate by a 60–39 vote, to include the political intelligence provision in the bill, rejecting the study. Now that that was defeated in the Senate, it’s resurrected on the House side, a weakening of the bill.

So whether it’s the political intelligence piece proposed by Senator GRASSLEY or Senator LEAHY’s piece about corruption, I think it is really, really, really important that those two elements be included in the bill. A good way to do that, to find a path to bipartisanship in the strongest possible bill, is to pass the bill today despite its serious shortcomings. And it is hard to understand why the shortcomings are there, but nonetheless they are. But pass the bill today and go to conference. To pass earlier or to accept the Senate bill, or to take the original STOCK Act, strong provision to the House that was rejected. Pass this bill and go to conference. It is very important that we accept the Senate bill, the STOCK Act. And I hope to see a vehicle for that, but I don’t want anybody to interpret the strong vote for it to be a seal of approval of what it is, but just a way of pushing the process down the line so that we can move expeditiously to go to conference for the strongest possible bill.

I want to close again by saluting Congresswoman LOUISE SLAUGHTER and Congressman TIM WALZ for their relentless persistence and dedication to this issue. Had they not had this discharge petition and this really, really important that those two elements be included in the bill. A good way to do that, to find a path to bipartisanship in the strongest possible bill, is to pass this bill and go to conference. It is very important that we accept the Senate bill, the STOCK Act. And I hope to see a vehicle for that, but I don’t want anybody to interpret the strong vote for it to be a seal of approval of what it is, but just a way of pushing the process down the line so that we can move expeditiously to go to conference for the strongest possible bill.

about Members participating in IPOs would not be before us. That is an addition that we have in the House bill. That is an additional prohibition. That makes that an illegal act. It has not been in the past. The Senate bill did not even talk about that.

Third, with respect to the issue of political intelligence, I respect the Senator from Iowa very much, but I doubt he has ever prosecuted anybody and put them in prison for conflict of interest during their public service, I have. The time of the gentleman has expired.

Mr. SMITH of Texas. I yield the gentleman an additional minute.

Mr. DANIEL E. LUNGREN of California. I understand when you do that, you have to deal with the very careful constitutional questions of people dealing with their right to apply before the government their grievances. That has become known now as lobbying. It is a constitutionally protected activity.

And I would just like to compliment the distinguished gentleman from California who was an Attorney General whereof he speaks.

unconstitutional. I might add that if we're going to deal with the issue of political intelligence, a $100 million industry that is potentially market-moving, is nonpublic, or not easily accessible to the public, is gathered and analyzed. Therefore, we are missing a large gap in legislation, but we can't get to conference quickly to conference because what is missing from this—and we can't say it more often than over and over again, from the Abramoff matter that all of us knew of years ago and by “political intelligence,” I mean that is potentially market-moving, is nonpublic, or not easily accessible to the public, is gathered and analyzed. Therefore, we are missing a large gap in leaving out the provision on political intelligence, a $100 million industry.

Yes, we're going to support this legislation, but we can't get to conference soon enough to make this bill comparable and ready for the American people. We must regulate ourselves because they have trusted us to lead this Nation.

Ms. JACKSON LEE of Texas. I yield to the gentleman.

Mr. CONYERS. Because we've got the 16 from our distinguished Judiciary colleague Mr. LUNGREN. These are merely technical errors that are corrected by the enrolling resolution that perhaps one must have heard about. These aren't errors that would have gone into the bill.

I thank the gentlelady for yielding. Ms. JACKSON LEE of Texas. I thank the gentleman for clarifying it.

I still think that we should rush quickly to conference because what is missing from this—and we can't say it more often than over and over again, from the Abramoff matter that all of us knew of years ago and by “political intelligence,” I mean that is potentially market-moving, is nonpublic, or not easily accessible to the public, is gathered and analyzed. Therefore, we are missing a large gap in leaving out the provision on political intelligence, a $100 million industry.

I'm pleased now to yield 2 minutes to Ms. JACKSON LEE of Texas. Madam Speaker, I will yield to the gentleman.

Mr. CONYERS. Because we've got the 16 from our distinguished Judiciary colleague Mr. LUNGREN. These are merely technical errors that are corrected by the enrolling resolution that perhaps one must have heard about. These aren't errors that would have gone into the bill.

I thank the gentlelady for yielding. Ms. JACKSON LEE of Texas. I thank the gentleman for clarifying it.

I still think that we should rush quickly to conference because what is missing from this—and we can't say it more often than over and over again, from the Abramoff matter that all of us knew of years ago and by “political intelligence,” I mean that is potentially market-moving, is nonpublic, or not easily accessible to the public, is gathered and analyzed. Therefore, we are missing a large gap in leaving out the provision on political intelligence, a $100 million industry.

Yes, we're going to support this legislation, but we can't get to conference soon enough to make this bill comparable and ready for the American people. We must regulate ourselves because they have trusted us to lead this Nation.

Mr. SMITH of Texas. Madam Speaker. I yield the balance of my time to the gentleman from California (Mr. DANIEL E. LUNGREN), chairman of the House Administration Committee.

The SPEAKER pro tempore. The gentleman from California is recognized for 6 1/2 minutes.

Mr. DANIEL E. LUNGREN of California. I thank the gentleman from Texas for yielding.

Madam Speaker, at the very outset, I would like to thank Members on both sides to study the issue so that, pre-
sides of the aisle for attempting to try and deal with a serious issue. I'd like to particularly point to staff who have worked over this last weekend, including four attorneys on my House Administration Committee, who spent a good portion of this last weekend going through the Senate bill and trying to come up with what we believe is a responsible bill, a tough bill that could pass this House, and frankly did not include the errors that we found in the bill on the Senate side.

Several months before the STOCK Act debuted in the Senate, questions were raised publicly about the application of existing laws relating to insider trading. Specifically, there were questions as to whether or not the current laws applied to Members of Congress or their staff. As chairman of the Committee on House Administration, I and my staff carefully reviewed current law, and we concluded that the prohibition on insider trading and the criminal consequences associated with it were very much applicable, and not just to Members of Congress and staff of the legislative branch.

Let me be clear. Let us disabuse anyone of the notion that somehow they could engage in insider trading between now and the time the bill gets on the President's desk and he signs it. It is already illegal. That is the advice I've given Members when I've been asked. That's the advice I've given to the press when they've asked. It's the advice that's been given by the Ethics Committee to Members of Congress and to staff. No one within the House of Representatives or the Senate or the executive branch, regardless of responsibility, title or salary, should be under the false impression that they are somehow exempt under these laws. They are not.

Mr. CONyers. Will the gentleman yield?

Mr. DANIEL E. LUNGREN of California. I yield to the gentleman from Michigan.

Mr. CONyers. Thank you, sir.

Why are we passing this law if the conduct we are prohibiting is already illegal?

Mr. DANIEL E. LUNGREN of California. I would be very happy to respond to that, and I will a little bit later on in my statement. Thank you very much.

In addition to the Congress sometimes dedicated to redundancy, there is a question of clarification. The fact that we've had questions asked of us over the last several months as House Administration chairman, as the Ethics chairman has done, gives rise to the question that some have asked, and we have tried to disabuse them of that notion all along. Although we create and uphold the laws of the land, we are not above them. As their elected representatives, we owe our constituents the assurance that the decisions we make here in the people's House are, in fact, for the people and not ourselves. This assurance, Madam Speaker, must be government-wide. America not only needs to know that all of their government officials are subject to insider trading laws, but also need to know and need proof that they are adhering to them, which is exactly what the amended version of the S. 2038 accomplishes.

In 2010, the Supreme Court issued a decision in Skilling v. United States that set out several specific questions that it said must be answered in criminal statutes on honest services. The Senate bill ignored the Supreme Court's guidance and failed to answer the questions it set out. The amendment does more than eliminate the statute's defective prohibitions and numerous drafting errors.

Our bill before us also strengthens the previous House and Senate proposals by first clarifying the broad application of insider trading laws, making sure no one is left out. As I say, it is already against the law, and no Member ought to rush out now and attempt to use his insider trading information for insider trading thinking that he or she is not covered. They are already covered.

It expands the financial transaction disclosure requirements. We are going to be required now, in terms of actual financial transactions, to report within a 30-day period as opposed to doing it quarterly. We're also going to be required to disclose our mortgages, which are not required right now. So we are expanding the disclosure requirements. We extend the post-employment restrictions. We expand prohibitions on influencing private hiring decisions. This is an additional point.

I would say to my friend from Michigan, the former chairman of the Judiciary Committee, we end the preferential treatment of government officials by prohibiting them from accepting exclusive access to IPOs. That has not been against the law. There's been some suggestion that it might have been carried on by some Members. I have no evidence whether it has or it has not; but that is an additional prohibition placed in this, which I believe was not in the Senate bill, is not under current law, but it does make it explicit. Members of Congress cannot participate in accepting exclusive access to IPOs.

Mr. CONyers. Will the gentleman yield?

Mr. DANIEL E. LUNGREN of California. Certainly.

Mr. CONyers. I want to thank the gentleman for bringing us this information. I will take back to everybody on this side of the aisle not to rush out and try to do last-minute deals by buying on the news, because it is already illegal if you will do the same with the Members on your side.

Mr. DANIEL E. LUNGREN of California. I would be happy to if they don't know that already. But when you read the newspapers, you would think that somehow it is proper and appropriate.

I want to make it clear not only to our colleagues but to the American public, it is against the law now, it has been against the law. If anybody has evidence of this, they should report it to the proper authorities because it is against the law.

Madam Speaker, the amendment before us, when applied to the underlying bill, creates the clarity and accountability necessary to ensure that government officials—elected, appointed, and otherwise—adhere to Federal insider trading laws. It prohibits Members, officials, and employees of every branch of government from using non-public privileged information for personal gain, and it creates a disclosure mechanism for finding out when they do so. Additionally, the bill denies pensions for Members convicted of crimes. That is an addition to current law. It eliminates bonuses for senior executives at Fannie Mae and Freddie Mac. That is an addition to current law. And it directs the GAO to utilize—

Mr. COHEN. Madam Speaker, will the gentleman yield?

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. DANIEL E. LUNGREN of California. With that, I would urge that all vote for this strong, strong STOCK Act.

Mr. COHEN. Madam Speaker, may I have unanimous consent to ask one brief question that's pertinent to this bill?

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. SMITH of Texas. I am afraid I will have to object. The gentleman's time has expired.

The SPEAKER pro tempore. Objecion is heard.

Mr. JOHNSON of Illinois. Madam Speaker, I rise today in support of the Stop Trading on Congressional Knowledge Act, also known as the STOCK Act. As a sponsor of the original bill in 109th Congress, I am a firm believer that Members of Congress should receive no greater privilege than that of our own constituencies. Although I am grateful for the passage of this bill today, it is reprehensible that it has taken six long years for this legislation to finally come to the Floor for consideration.

As President Lincoln stated, our government was intended to be a "government of the people, by the people, for the people." Sadly, we have fallen away from those founding principles. Today, many government officials live in Washington, secluded from their constituencies. They benefit for their own avowed purpose to improve their own stock portfolios, enjoy luxury trips disguised as CODELs, and upon retirement, receive generous pensions despite their own actions while in office. Politicians come to Washington not to represent their constituencies, but for their own gain.

Vainglorious acts such as these, committed by our country's leaders, are simply unacceptable.
I have introduced several pieces of legislation intended to reduce government waste, hold Members accountable for their actions, and increase transparency within our federal government. For example, the STAY PUT Act would require the completion of a study on the costs of Congress’s foreign travel. I am pleased to meet the standard of “official business” by Members, officers, and employees of Congress. Another piece of legislation I have introduced, the Citizen Legislature Act, aims to cut the time spent in Washington, DC in half, cuts Congressional salaries and budgets in half, allows Members to live outside of public life and increases the time Members spend in their districts with the people who elected them.

Madam Speaker, while, many of us may attempt to project the appearance that our motives are truly altruistic, the time has come for real action. I applaud my colleagues for passing the STOCK Act today and encourage them to consider additional legislation bearing similar objectives, to listen to their constituents, and to spend more time in their districts. I remain committed to any of us remembering why we find ourselves here today: to serve the American people.

Mr. DINGELL. Madam Speaker, I rise in support of S. 2038, the STOCK Act. I have always stood for the strictest ethical standards for all American employees, and today is no different. Government employees cannot be allowed to profit privately in the performance of their official duties. Indeed, throughout my career, it has always been my understanding that the House Ethics Rules specifically prohibit the sort of behavior I will vote in favor of S. 2038. I am very pleased that the bill contains a rule of construction to preserve the Securities Exchange Commission’s, SEC, existing anti-fraud enforcement authorities. Nevertheless, I have lingering concerns about the bill’s practicability and other unintended consequences. I believe these matters might have been clarified if the bill had undergone regular order. Absent that, Members of the House should have been given a briefing about the bill prior to taking it up. Indeed, I requested such a briefing in a February 7, 2012, letter to Speaker BOEHNER and Leader CANTOR, but that request appears to have fallen on deaf ears. It is uncertain to me whether House Leadership will insist on convening a conference committee with our friends in the Senate to forge a compromise. If that is to occur, I strongly urge House conferees to consider and solve the rather ticklish problem of how the SEC and House Committee on Ethics will interact under the Act. Furthermore, I have deep, dark fears that influential members of the House, Senate, and associated political organizations might exert pressure on the Commission to open or never begin a congressional insider trading investigation for political gain. Such an incident would fly in the face of the STOCK Act’s otherwise meritorious intent. In closing, I do assert that this matter would have been best addressed in the various committees of jurisdiction and according to regular order. Observance of this institution’s rules and procedures has produced well-written laws which have endured for years. I observed regular order as chairman of the Committee on Energy and Commerce and held numerous hearings on securities fraud in the 1980s. These hearings produced P.L. 98-376, the “Insider Trading Sanctions Act of 1984,” and P.L. 100-704, the “Insider Trading and Securities Fraud Enforcement Act of 1988,” which are the only major insider trading laws on the books.

Madam Speaker, I am ashamed to say I was right in predicting that the bill would become “too big to fail” when I opposed the Gramm-Leach-Bliley Act on the floor in 1999. I hope I am wrong in predicting that the STOCK Act, if not subjected to serious scrutiny and amended, will produce an administrative morass and, worse, an enforcement tool subject to the perils of political manipulation. That in mind, I ask my colleagues to vote in favor of S. 2038.

Mr. MICHAUD. Madam Speaker, I rise today in strong support of the STOCK Act. I regret having to miss a vote on this significant legislation, but I had to return to Maine to attend a family funeral. Had I been present, I would have voted for the House Amendment to S. 2038.

These commonplace rules will help ensure that no member of Congress profits from the insider information they receive in their official capacity. The voters in our districts sent us here to work hard on their behalf. It is simply wrong that anyone would consider using insider information he or she gains while working for his or her constituents to make investment decisions.

Faith in Washington is at an all time low. Unfortunately, the STOCK Act is only a small step towards restoring the public’s trust in their elected officials. However, it is an important step that will help hold every one of us more accountable.

I was proud to join two hundred eighty-four of my colleagues from both sides of the aisle as a cosponsor of the original House version of the STOCK Act. I am hopeful that this strong show of bipartisanship can continue on the other important issues that face our country.

Mr. LANGEVIN. Madam Speaker, I rise in support of S. 2038, the Stop Trading on Congressional Knowledge, STOCK, Act, but I must share my deep disappointment with the House Republican leadership’s move to weaken this legislation.

As a cosponsor of the House version of the STOCK Act that has 285 bipartisan cosponsors, I strongly believe we need to restore trust in our public officials and those who work closely with them by clarifying that the same insider trading rules that everyone else must follow apply to all three branches of our government as well. The STOCK Act will prohibit Members of Congress and employees of Congress from profiting from nonpublic information they may have. It would also require Members of Congress to report on their stock sales.

The Senate version added a provision that would require firms specializing in “political intelligence,” that may use information obtained from Congress to make financial transactions, to register with the House and Senate—just as lobbying firms are now required to do. House Republicans watered down this bill in the middle of the night by dropping this provision, even though it was unanimously approved by the House Judiciary Committee this past December.

The measure before us today is an important first step, but once it is passed, I call on my colleagues to conference with the Senate to strengthen this legislation. If we wish to restore confidence in our government, we must start by using fair and transparent legislative procedures.

Mr. QUIGLEY. Madam Speaker, I rise today as a cosponsor and strong supporter of the STOCK Act.

The STOCK Act includes the Congressional Integrity and Pension Forfeiture Act, which Congressman DOLD and I introduced last year.

The Pension Forfeiture Act ensures that former Members of Congress forfeit their pensions if they are convicted of committing a public corruption crime while serving in elected public office.

Corrupt former legislators who continue to collect pensions on the taxpayer dime are taking advantage of the American people even after they have left office.

This legislation will protect taxpayer dollars and end what could only be viewed as a reward for those who have abused the public’s trust.

In my home state of Illinois, we know all too well about the costs of corruption.

Two former governors of Illinois, George Ryan and Rod Blagojevich, are serving extensive prison time for corruption.

Blagojevich, who previously represented the Illinois 5th District, continues to claim his federal pension because of a loophole in existing law.

Congressman DOLD and I believe that this loophole should be closed.

I urge my colleagues to join me in supporting the STOCK Act and restoring transparency, accountability, and trust in government and public service.

Mr. FITZPATRICK. Madam Speaker, insider trading is and has been against the law no matter who you are. The bill we are debating is not about simply banning Members from insider trading, it is about holding Members of Congress and members of the administration to a higher standard as I think we should be. Confidence in Congress is at an all time low and restoring trust with the American people is paramount. While affirming the ban on insider trading the STOCK Act also significantly broadens prohibited activity and establishes a new reporting system that will allow for unprecedented transparency.

I urge my colleagues to support this bill because even the appearance of operating outside the law needs to be addressed forcefully. By shining the brightest light possible on the financial transactions of Members of Congress and the administration we can help ensure that no one is taking advantage of their positions. Madam Speaker, the American people have elected us to be their representatives and that means conducting ourselves with the highest of ethical standards. Anything less is a disservice to this office and to those who sent us here.

Ms. JACKSON LEE of Texas. Madam Speaker, I rise today to debate the S. 2038—Stop Trading on Congressional Knowledge, STOCK, Act which would amend the Congressional Accountability Act of 1995 and the Ethics in Government Act. The legislation would require the Senate and the House of Representatives to implement an electronic filing
system for financial disclosure forms and provide the public with on-line access to that information in a searchable database. S. 2038 also would make clear that Members of Congress, Congressional employees, and federal employees are prohibited from using nonpublic information for personal financial gain. In addition, the proposal would require more timely reporting of information about financial transactions by Members and staff.

The STOCK Act would prohibit Members of Congress, employees of Congress, and all federal employees from using "any nonpublic information derived from the individual's position as a Member of Congress or employee of Congress, or gained from performance of the individual's duties, for personal benefit."

The bill before us today is not the same measures that had received overwhelming bipartisan support in the Senate or the House. The measure before us today has been brought onto the Floor under the cover of darkness. There was zero transparency in the process and there is no opportunity to offer amendments.

I firmly and unequivocally believe that the American people deserve to know that their elected officials only have one interest in mind, which is doing what is best for the country rather than their own financial interests. This behavior is particularly disturbing at a time when so many Americans are struggling to make ends meet. Members of this body and any public servant should not have a financial edge because of information they have attained while serving the American people.

The issue before us today is not whether a insider trading law should exist for lawmakers. The issue before us today is one of fairness and transparency. As we attempt to shine a spotlight on those who may profit on insider knowledge, the Republican led majority in the House has closed out the possibility of improving this bill.

The night before last, the Rules Committee passed a rule on a straight party-line vote. The rule has allowed the Republican majority to bring up their own version of the STOCK Act under a suspension of the rules. Let me be clear; Republican leadership has brought a bill onto the Floor under a suspension of the rules. They utilized the most restrictive process the House has to offer. In fact, this process is so restrictive that it is often reserved for noncontroversial items such as naming post offices, buildings, or even playgrounds.

For this bill, of all bills, to be brought up under suspension of the rules is unfathomable. The Republican-led majority has given Democrats no opportunity to offer their own version of the bill in order to amend the bill. In addition, there is no chance for the Democrats to offer our own alternative, under a Motion to Recommit.

As a Senior Member of the Judiciary Committee, I find the actions of the Republican-led House to be outrageous. It is a direct contradiction to the bipartisan efforts supported in this House by 286 Members of this body pushed by Ms. Slaughter, a bill which was composed over the course of 6 years.

Further, considering the bipartisan support received by the original Senate version of the STOCK Act and the significant bipartisan support received by the bill introduced by my dear colleague Ms. Slaughter it is curious that the Republicans have chosen to put forward their own version of the STOCK Act which waters down government reform and leaves out a critical piece of the STOCK Act—namely, the registration of the political intelligence industry.

Registration of the political intelligence industry was included in the Senate passed bill, but was stripped out of the Republican version. Instead of requiring registration, my Republican colleagues only require a study of the industry.

It is as though the Majority wishes to ignore the fact that regulation of the political intelligence industry was supported by 286 Members of Congress who were co-sponsors of the original Slaughter-Walz bill. Instead, what we now know is that after emerging from behind closed doors, the bill introduced by Republicans does nothing to regulate the political intelligence community.

Regulating the political intelligence industry is vital to this piece of legislation. A study will not have the same impact as a requirement that these firms register and come out from the shadows.

Political intelligence firms or people who have special relationships with government officials can obtain nonpublic legislative information or learn about pending legislative decisions by attending lobbying sessions, or communicating directly with lobbyists and lawmakers. The term “political intelligence” refers to legislative information that is potentially marketing-moving, is nonpublic or not easily accessible to the public, and is gathered, analyzed, and sold to or shared with interested parties by firms or people with access to such information. Political intelligence is typically sold to independent companies or third parties whose business demands knowledge of upcoming market and industry affecting legislative decisions.

The political intelligence industry must be regulated. These firms have grown drastically over the last few decades, and are now a $100 million a year industry. Every day these firms help hedge funds and Wall Street investors unfairly profit from nonpublic congressional information. These firms have no congressional oversight and can freely pass along information for investment purposes. In 2005, insiders profited from a last-minute government bailout of companies who were embroiled in asbestos litigation. We must prevent such windfalls from happening again.

The U.S. House of Representatives Ethics Manual states that its members should “never use any information coming to him confidentially in the performance of governmental duties as a means for making private profit,” and the Senate Ethics Manual states that its Con- gressional Intelligence Reform Act that would impose a broad prohibition against members, officers or employees deriving financial benefit, directly or indirectly, from the use of their official position.[s] No arrests or prosecutions, however, have ever been made against members of Congress for insider trading.

While Members of Congress are not exempt from federal securities laws, including insider trading prohibitions, it remains unclear whether a member of Congress has a fiduciary duty to the United States—misappropriating information gained through an employment relationship is illegal, but case law conflicts as to whether the political intelligence industry actually constitutes “employees” of the federal government—whether the information on which the Member trades is “material”—is there a substantial likelihood that a reasonable investor “would consider it important” in making an investment decision?—and whether the information on which the Member traded is “non- public.”

The bill before us today has utilized Senate language which clarifies federal ethics rules and establishes a fiduciary duty against insider trading by all three branches of government. This measure does give the Securities Exchange Commission, SEC, Department of Justice, DOJ, and Commodities Futures Trading Commission, CFTC, clear authority to prosecute insider trading cases throughout the federal government, as well as clarifying that 28,000 executive branch employees will be subject to the same online, public financial disclosure rules as will be applied to Congress. In addition it adds more specific disclosure restrictions on executive branch officials, and requires that their disclosures be online within 30 days of submission.

Even so, this measure is still a watered down version of Ms. Slaughter’s bill. We have been denied the opportunity to amend the bill on the Floor today in a manner that would ensure bipartisan support.

Again, Republican-led House has gone too far. They not only not eliminated the political intelligence registration requirement and replaced it with a 12-month GAO study. They have also removed from this measure the anti-corruption provision that restored criminal penalties in some public corruption cases. This provision had been unanimously approved by House Judiciary in December.

House Republican leadership should have allowed this bill to be finalized in an open and transparent manner. Instead, the Majority continued their “my-way-or-the-highway” approach. They shut out their colleagues, and made partisan changes to what was a bipartisan bill.

Mr. BLUMENAUER. Madam Speaker, I support the Stop Trading on Congressional Knowledge, STOCK, Act. This bill clarifies that Members of Congress, congressional staff, executive branch officials, and judicial officers are subject to the same insider trading rules as everyone else. It is common sense to ensure that taxpayers do not pay the salary of people who take advantage of privileged information for personal gain.

For a bill that ends insider trading and is supposed to bring transparency to the influence peddling industry in Washington, it is disappointing that—literally in the dark of night—Republican leaders listened to the complaints of lobbyists and changed the bill. Republicans removed two important provisions that shine light on the shadowy world of political intelligence and that empower federal investigators to bring criminal corruption charges against public officials.

The STOCK Act that I cosponsored, and that passed the Senate with 96 votes, requires that political intelligence consultants register their activities similar to the manner of lobbyists. These consultants gather inside information from Members of Congress and staff and then sell that information to Wall Street, lobbyists...
and hedge funds. This is a $400 million industry and yet we know very little about it; political intelligence consultants work in anonymity. Despite its shortcomings, the STOCK Act offers much to support. In addition to the insider trading rules, this bill expands existing provisions and protects the integrity of government institutions.

These two provisions should be reinstated as a matter of good government. This is an important provision that Members of Congress, their staff and executive branch officials should not be profiting in office. Despite the gentleman from Texas (Mr. SMITH) saying that he was present, I would have voted no. So (two-thirds being in the affirmative) the rules were suspended and the motion to instruct on the bill (H.R. 3630) was agreed to by the House, as amended, was passed.

The SPEAKER pro tempore. The motion to instruct on H.R. 3630. The yeas and nays were ordered.
The Clerk read the title of the concurrent resolution. 

The SPEAKER pro tempore. Is there objection to thegentleman from California?

There was no objection.

The text of the concurrent resolution is as follows:

H. CON. RES. 99

Whereas enslaved African-Americans provided labor essential to the construction of the United States Capitol; and

Whereas in 2005 Congress created the Slave Labor Task Force to study the role that enslaved African-Americans played in the construction of the Capitol and to make recommendations to Congress on how to commemorate their contribution;

Whereas the report of the Architect of the Capitol entitled “History of Slave Laborers in the Construction of the United States Capitol” documents the role of slave labor in the construction of the Capitol;

Whereas enslaved African-Americans performed the backbreaking work of quarrying the stone which comprised many of the floors, walls, and columns of the Capitol; and

Whereas enslaved African-Americans also participated in other facets of construction of the Capitol, including carpentry, masonry, carting, rafting, roofing, plastering, glazing, painting, and sawing; and

Whereas the marble columns in the Old Senate Chamber and the sandstone walls of the East Front corridor remain as the last legacies of the enslaved African-Americans who worked the quarries; and

Whereas slave-quarried stones from the remnants of the original Capitol wall can be found in Rock Creek Park in the District of Columbia; and

Whereas the Statue of Freedom now atop the Capitol dome could not have been cast without the pivotal intervention of Philip Reid, an enslaved African-American foundry worker who deciphered the puzzle of how to separate the 5-piece plaster model for casting when all others failed; and

Whereas the great hall of the Capitol Visitor Center was named Emancipation Hall to help acknowledge the work of the slave laborers who built the Capitol; and

Whereas no narrative on the construction of the Capitol that does not include the contribution of enslaved African-Americans can fully and accurately reflect its history; and

Whereas recognition of the contributions of enslaved African-Americans brings to all Americans an understanding of the continuing evolution of our representative democracy; and

Whereas in 2007 the Slave Labor Task Force recommended to Congress the creation of a marker commemorating the contributions of enslaved African-Americans in the construction of the Capitol; and

Whereas the marker dedicated to the enslaved African-Americans who helped to build the Capitol reflects the charge of the Capitol Visitor Center to teach visitors about Congress and its development. Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring),

That House Concurrent Resolution Number 99, H. CON. RES. 99, be and the same is hereby

SECTION 1. USE OF EMANCIPATION HALL IN THE CAPITOL VISITOR CENTER FOR A CEREMONY TO UNVEIL MARKER WHICH ACKNOWLEDGES THE ROLE THAT SLAVE LABOR PLAYED IN THE CONSTRUCTION OF THE UNITED STATES CAPITOL.

Mr. DANIEL E. LUNGER of California. Madam Speaker, I ask unanimous consent that the Committee on House Administration, discharged from further consideration of House Concurrent Resolution 99, and ask for its immediate consideration in the House.
subsection (a) shall be carried out in accordance with such conditions as may be prescribed by the Architect of the Capitol.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

LEGISLATIVE PROGRAM

(Mr. HOYER asked and was given permission to address the House for 1 minute.)

Mr. HOYER. Mr. Speaker, I yield to the gentleman from Virginia, the majority leader, for the purpose of inquiring of the schedule for the week to come.

Mr. CANTOR. I thank the gentleman, the Democratic whip, for yielding.

Mr. Speaker, on Monday, the House will meet at 1 p.m. in pro forma session. No votes are expected. On Tuesday, the House will meet at noon for morning-hour and 2 p.m. for legislative business. Votes will be postponed until 6:30 p.m. On Wednesday and Thursday, the House will meet at 10 a.m. for morning-hour and noon for legislative business. On Friday, the House will meet at 10 a.m. for legislative business. Last votes of the week are expected no later than 3 p.m.

Mr. Speaker, the House will consider a few bills under suspension of the rules, a complete list of which will be announced by the clerk of business tomorrow. In addition, the House will consider H.R. 7, the American Energy Security Act. The House may also consider legislation relating to H.R. 3630, the Temporary Payroll Tax Cut Continuation Act.

Mr. HOYER. Thank you for that information with respect to the two pieces of legislation and the suspension bills.

If I might inquire, Mr. Leader, of the timing. The conference committee has met, as all of us know, a few times since being appointed on December 23. They were supposed to have a meeting today, but apparently that meeting was cancelled. We adopted a motion to instruct conferees on January 18, with only 16 Republicans opposing and just a few Republicans opposing this time on a similar motion to instruct, urging the conferees to report back by February 17.

You know as well as anybody, we will be off for the President’s week work period, and we will not be back until the night of the 27th, which only gives us the 2 days and that evening to pass this bill if we do not pass it before the 17th.

In December, we almost, as you well know, did not extend the payroll tax holiday or the unemployment or the SGR package. That would have resulted, as the gentleman knows, in 160 million Americans having a tax increase, benefits lost for many unemployed Americans over the next 3 months—and we only have 3 full days left before the February break. Of course, the gentleman, Mr. CAMP, the chairman of the Ways and Means Committee, chairs that conference.

Can the gentleman tell us whether or not there is a reasonable expectation that we will be able to act on this bill and have the conference committee report to the house?

Mr. CANTOR. I will say to the gentleman, as I said before and as reflected by the vote that just occurred on the motion to instruct conferees, we, too, desire a resolution of this issue next week. I think the gentleman knows that we will be in the same discussion where it is imperative for us to send a signal to the hard-working taxpayers of this country that they’re not going to have their taxes go up. So it is my hope that we’re going to see some productivity out of the conference committee.

I think the gentleman knows my position as to why there has been no productivity. Frankly, last week, I urged the gentleman to point his ire to the other side of the Capitol because it is that side of the Capitol and Leader REID who have been unwilling to come forward with a resolution to this issue.

As the gentleman knows, the House has taken its position. We believe we ought to extend the payroll tax holiday for a year and do so in a responsible manner so as not to raid the Social Security trust fund. There’s been no willingness on the part of Leader REID and his conferees to even offer a suggestion as to how to resolve this impasse.

So, again, I say to the gentleman, we are committed to making sure taxes don’t go up on hardworking people in these economic times.

Mr. HOYER. Thank you for his comments. I am pleased to hear that.

As the gentleman knows, Mr. Zandi just a few days ago said that failure to extend the payroll tax and the unemployment insurance benefits “would deliver a significant blow” to our fragile economic recovery and could cost our economy 500,000 jobs and raise the unemployment rate by at least three-tenths of a point and lower economic growth by seven-tenths of a point.

Now I’m pleased to hear what the majority leader has said, but of course we still have some concern. Representative RANDY HULTEN, for one of your Members from Georgia said, this payroll tax holiday is just a gimmick to try to get Obama reelected. This is bad policy. Representative CHAFFETZ from Utah, one of your colleagues, said, Tax holidays just don’t work. But, there’s a bear in here is pretty short. The chairman of your campaign committee, PETE SESSIONS, was quoted in the L.A. Times. Representative PETE SESSIONS of Texas, who heads the House Republican campaign committee, called Obama’s plan—this extension of the payroll tax—“a horrible idea.” He said GOP candidates would have no difficulty explaining to voters why they want to let the tax break expire. And then, of course, the chairman of the conference committee, my good friend, for whom I have a great deal of respect, apparently does not agree with what the majority leader just said in wanting to extend this tax cut, because he said, I’m not in favor of that. I don’t think that’s a good idea.

Now that was, admittedly, back in August, so it was some months ago when he said that. But it gives us some concern that the leadership of the conference committee and other Republicans, are in the position where they don’t really think, as seemed to be reflected in the last year, that this tax cut ought to be extended. They do, however, believe—very strongly, as I understand it—that the tax cut for the wealthiest in America, the Bush tax cuts, ought to be extended, and they ought to be extended without paying for it. And, in fact, you provided in your rule that you adopted in this Congress that they could be extended without paying for them.

I don’t think that’s your position, as I understand it, with respect to tax cuts for middle class Americans. Would the gentleman like to comment on those observations?

Mr. CANTOR. I thank the gentleman. Mr. Speaker, I would just say, really it’s not productive to engage in politics and division. We ought to be about multiplicity here. We ought to be about growing the economy. We ought not be talking in the way that the gentleman suggests, that somehow we Republicans prefer one group of people over another. That’s not true. We’re here fighting for the hardworking taxpayers.

I just said, Mr. Speaker, to the gentleman, that we, as Republicans in this House, do not support going up on anybody. We believe that Washington spends too much money. We don’t believe you ought to tax anybody, especially the job creators, the small businessmen and women who we’re relying on to create jobs and get the economy back to where it needs to be, in a growth mode.

So the gentleman knows very well my position, and it is the position of our conference. We do not want to see taxes going up on hardworking taxpayers. I said it before, and I will say it again: We hope that the conferees can produce something for us to vote on, but we are not in any way, shape, or form advocating for taxes to go up on hardworking people. No. We are for making sure that doesn’t happen. So, Mr. Speaker, I don’t know how many times I can say that to underscore our commitment.

Mr. HOYER. I thank the gentleman for his recommitment to that proposition.

I would ask the gentleman, therefore, given the fact, am I correct that you do not believe the extension of the 2001 and 2003 tax cuts need to be paid for? Is that still your position?
Mr. CANTOR. Mr. Speaker, again, the question has to do with the gentleman and his side's and the President's insistence that somehow the math requires us to raise taxes on small businessmen and women. We don't believe that. We don't believe that we ought to let tax rates go up and create a tax hike on the small business people of this country because, number one, that exacerbates the challenge that we're already dealing with in trying to get this economy growing again, number two, it will put more money into the hands of Washington to begin spending that money without paying down the debt.

The gentleman knows very well our commitment to making sure we get the fiscal house in order. He knows very well that we believe you've got to fix the problem and not go in and ask the small businessmen and women to pay more taxes to dig a hole deeper. We believe you ought to fix the problem, stop taking money away from the men and women who make it, and let them continue to put it back into their enterprises and create jobs. That's what we're trying to do. And I look forward to working with the gentleman to make sure we accomplish that at the end.

Mr. HOYER. I appreciate the gentleman's answer. It doesn't surprise me, but he didn't answer my question. My question was: you amended your rules so that the extension of the 2001 and 2003 tax cuts did not have to be paid for. I'm asking, is that the gentleman's position now? It's a very simple question. Yes or no? Is it, or is it not.

Mr. CANTOR. If I could, Mr. Speaker, I would ask the gentleman, does he think that the payroll tax holiday extension for the year needs to be paid for?

Mr. HOYER. I don't necessarily think it needs to be paid for exactly the reason you pointed out. What you pointed out was, you don't want to depress—either by increasing the taxes on small business, as you point out—we're not for increasing taxes on small business. We are for asking those who have made the best in our society over the last 10 years, make $1 million or more, we do believe, yes, a greater contribution is in order because we are asking that the tax rates the same on investors and entrepreneurs in America? We need to put investment capital back into the economy, the private economy. And so my point was not seven different directions, my point is just that.

Again, I would say to the gentleman that it bothers me to hear that the gentleman just wants to rely on an IOU. The public is tired of saying, yes, we'll owe it. We'll pay it later. What we're saying is let's make sure that we don't dig the hole any deeper. Let's make sure we don't raid the Social Security trust fund. That's why we are saying let's pay for it.

But again, to the gentleman's point about trying to expedite things so we can have a result out of the conference committee, there has been no activity on the part of the Senate. They're not serious. They're not serious on wanting to address the issue—at least, they've not been thus far—and we're running out of time.

And I guess the gentleman's solution is to go ahead and raid the Social Security trust fund and let's extend the payroll tax holiday. And if that's the gentleman's position, then we know the position I would imagine of the minority on this position.

Mr. HOYER. Well, the gentleman has talked a lot but hasn't answered my question. And the question was a simple one: Do you believe the same principles should apply to the middle income working people's tax cut that we're talking about?

And I'll tell you this, my friend, if we were talking about the taxes that we can get them a tax cut—this is the first time we've really talked about real tax cuts for middle-income working Americans. It has got a logjam that...
Mr. HOYER. What I was confusing was your rhetoric now and your rhetoric as it related to a bill that was longer in pages but had 10 times a greater period of time for floor debate and discussion, considered by an extraordinarily large number of committees in both the Senate and the House, town meetings all over this country about that bill. What I'm confusing is your rhetoric as it related to the Affordable Care Act and your rhetoric related to the transportation bill, which has had probably one-twentieth or one-thirtieth of the time of the debate to be considered by the public. I don't know that anybody has that town meeting or had the opportunity for the public to have input on this bill as it is now written. Very frankly, I may be confusing it with the bill that we just adopted on suspension of the calendar without any opportunity to amend it, which was filed less than 24 hours ago.

Mr. CANTOR. Mr. Speaker, the gentleman knows where I'm going on that last comment, because I will just point out the fact that, when the majority leader, then the STOCK Act, had sat dormant, and he refused as the majority leader to pick up the bill and bring it to the floor of the House.

Given the vote that we just saw, I think that there was an opportunity for the House to consider the STOCK Act and your rhetoric related to the STOCK Act. For the gentleman's suggestion that somehow I'm confusing this bill with others and his reference to the Affordable Care Act, the public doesn't like that bill; right? It doesn't. I'm thinking that perhaps the gentleman is confusing this bill with one that came up during his term as majority leader when the cap-and-trade bill was filed at 2 a.m. and then we were asked to vote on it at 10 o'clock the next morning.

Mr. Speaker, the gentleman knows that we have provided for over a week's time for Members to take a look at the full version and to give Members time to prepare their amendments from both sides and now posting yesterday Wednesday, when the vote is next Friday. I think that we are providing and living up to the commitment we've made, that we're going to try to do our very best to prepare that the public is going to be able to enjoy its right to know what we're doing, and Members and their staffs, as well, can do what they need to do to prepare for their amendments and their votes on that amendment.

Mr. HOYER. I thank the gentleman. The gentleman says full time, but very frankly there wasn't participation at approximately noon yesterday, February 8. At noon yesterday, it was on line for everyone to see. The vote is scheduled for next Friday, February 17.

Given the process of all the committees and all of the markups and the various committees that Members from both sides and now posting yesterday Wednesday, when the vote is next Friday. I think that we are providing and living up to the commitment we've made, that we're going to try to do our very best to prepare that the public is going to be able to enjoy its right to know what we're doing, and Members and their staffs, as well, can do what they need to do to prepare for their amendments and their votes on that amendment.
by everybody in this full discussion. In fact, as I said last week and I will reiterate this week, because he hasn’t changed his position, Ray LaHood, Republican, former chief of staff to the Republican leader in this House, formed contrary to an appropriations subcommittee on the Republican side of the aisle, says:

This is the most partisan transportation bill I’ve ever seen, and it is almost the most antiquated bill I’ve seen. It hollows out our number one priority, which is safety; and, frankly, it hollows out the guts of the transportation efforts that we have been about for years. It is the worst transportation bill I’ve ever seen during 35 years of public service.

Ray LaHood, Republican, Secretary of Transportation

Whatever time the gentleman has spent that he thinks exposing this bill, he didn’t expose it on our side and he apparently didn’t expose it in a way that reached bipartisan agreement from the Secretary of Transportation.

I want to mention the fact, Mr. Leader, when I was the majority leader—the gentleman likes to refer to that—the transportation bill passed with an overwhelmingly bipartisan vote. Every transportation bill that I’ve worked on in the 30 years I’ve been in the Congress of the United States has passed on an overwhelmingly bipartisan vote, and it came out of committee almost unanimously. This bill, as the gentleman knows, came out on a purely partisan vote. Actually, it was a bipartisan opposition because Mr. PETRI, long-time member of the Transportation Committee, and, of course, Mr. LAFOURCHE are not too happy with the bill either, as the gentleman knows, who is a senior member on your side, one of your leaders on your side of the aisle. So I will tell my friend that unfortunately we have a situation where you’re going to bring a bill up next week which clearly is a partisan bill, which does not enjoy bipartisan support to every transportation bill that I think we’ve passed in this House in the 30 years I’ve been here.

I yield to my friend.

Mr. CANTOR. Mr. Speaker, I am just marveling at the fact that I don’t understand what the gentleman is seeing. The gentleman knows that the Senate has just done extensive coverage and a story on that transportation bill and the 5,000-plus earmarks that were involved in the bill that he is bragging about.

We’re in a new day here. We’re shining the light of day. We’re saying no more earmarks. We’re not doing things the way we used to do them, and that is exactly what the people want. They want a reformed Congress that belongs to them, that works for them, and not the other way around.

Mr. Speaker, I would say to the gentleman that I look forward to his amendments that he submits for Monday to every member of the Transportation Committee so that we can proceed, as we have on so many bills, in an open debate on the floor of this House, unlike we ever experienced in majorities past. I would say to the gentleman, let’s really try and agree. We have to reform this system. We are standing up for reform, whether it be no more earmarks, whether it be continued positing of positions online so that Members have no advance knowledge of where an amendment will be. With an open amendment deadline, with a continued pattern of allowing for debate on amendments on both sides of the floor. We’re trying to change this institution so it can actually work for the people that we are expecting and for us to be able to abide by their trust.

Mr. HOYER. I thank the gentleman for that comment.

I think the American people apparently don’t think we’re accomplishing that objective that you want to accomplish by virtue of their response to the polls about what they think of the job that we’ve done over the last year.

Let me say in addition to that, the bill I want to refer to, my friend—yes, while I was the majority leader, we had the House and the Senate. I saw 30 years of your party that had the chairmanship of the Transportation Committee, we passed bills on a bipartisan basis and we respected transparency.

As the gentleman knows on earmarks, you quadrupled the number of earmarks under your leadership—not your personal leadership, but under Republican control of the House of Representatives. When we came in, what we did was we saw all this had to be online. Members had to put them on their Web site, and committees had to identify where those came from. Now, personally, we made them very transparent. You’ve eliminated them temporarily. We’ll see whether that holds.

But we will move on to the question of whether or not, when you say we’re going to have open amendments, whether or not amendments that are germane will be made in order so that, in fact, we can impact the bill. The gentleman says he is interested in seeing my amendments. I think most of the amendments will come from our committee members. They are the ones that are struggling to find out exactly what this bill does. And we don’t believe it is paid for, by the way, as I think the gentleman probably has seen in the CBO report.

Let me ask you this: do you believe this bill is a jobs bill?

Mr. CANTOR. Believe that what is needed, Mr. Speaker, is some certainty so that the agencies at the State level can operate with their plans going forward for infrastructure needs. I believe that the private sector that is heavily involved with the infrastructure industry can know how to plan so that we can see the maintenance, repair, and expansion of our infrastructure system in this country.

We’re about trying to say let’s grow. Let’s grow. Let’s try and work together so we can grow this economy. The economy is dependent upon an infrastructure future that is certain.

Mr. HOYER. I thank the gentleman for his comment.

I think the American people are not expecting and for us to be able to abide by their trust.

Mr. CANTOR. Again, the gentleman, if he wants to play gotcha—

Mr. HOYER. I’m not playing gotcha.

I want to figure out whether this is a jobs bill. We haven’t had a jobs bill in over 400 days.

I yield to the gentleman from Virginia.

Mr. CANTOR. Mr. Speaker, the gentleman just heard what I said: we can create jobs if we open up the ability for the private sector to explore and carry out energy projects that can create jobs if we provide some certainty to the industries and the State agencies—that are involved in planning and charting the course for infrastructure maintenance, repair and expansion in this country.

Growth requires infrastructure that is at top notch, and we know we’re a far cry from that in this country. So the gentleman understands my point: growth comes from better infrastructure; growth comes from expanding the ability to explore our natural resources off our coast, something that, unfortunately, most Members on his side of the aisle have not been supportive of in terms of charting a more certain and responsible energy future.

Does the gentleman have any more scheduling questions?

Mr. HOYER. These are all scheduling questions. These are all scheduling questions. Does the gentleman have any more scheduling questions?

Mr. CANTOR. I believe that what is needed, Mr. Speaker, is some certainty so that the agencies at the State level can operate with their plans going forward for infrastructure needs. I believe that the private sector that is heavily involved with the infrastructure industry can know how to plan so they can make investments necessary so that we can see the maintenance, repair, and expansion of our infrastructure system in this country.

We’re about trying to say let’s grow. Let’s grow. Let’s try and work together so we can grow this economy. The economy is dependent upon an infrastructure future that is certain.
reading of that is, as the President's pointed out, investing in infrastructure does, in fact, grow jobs.

To the extent that we can pass a bill, scheduling a bill that has bipartisan support here and bipartisan support there, and the support of the President of the United States, is what we ought to be doing. Doing it in a partisan fashion undercuts our scheduling of moving that forward. That's my point. I think the gentleman understands that point. But I would hope that, as we work on this bill, we could do what the Senate's done, which they don't do very often, and come together in a bipartisan way, as we have historically done in this House on Transportation and Infrastructure bills, so important for the growth of our country and the creation of jobs and the moving forward—as you say, and I believe as well, we ought to come together and accomplish.

Unless the gentleman has anything further, I yield back the balance of my time, Mr. Speaker.

**ADJOURNMENT FROM THURSDAY, FEBRUARY 9, 2012 TO MONDAY, FEBRUARY 13, 2012**

Mr. CANTOR. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 1 p.m. on Monday, February 13, 2012.

The SPEAKER pro tempore (Mr. WOMACK). Is there objection to the request of the gentleman from Virginia? There was no objection.

**REMEMBERING KELSEY LOMISON**

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, Kelsey Lomison, 77, of Orviston, Pennsylvania, from the Pennsylvania Fifth Congressional District, died on Monday, February 6, 2012.

Centre and Clinton Counties lost a great friend. Kelsey Lomison lived his 77 years serving and making a difference in the lives of individuals, families, and communities. He was an extraordinary caring leader in many facets of life, from singing for area churches, organizing benefits for persons and families in need, and serving Curtin Township and his home community of Orviston.

As a community leader, Kelsey demonstrated a deep commitment to serving his neighbors. His leadership within the Howard Area Lions Club and the Clinton County Fair represents just two of the countless efforts he performed.

He touched many lives and provided an excellent example to all who knew him. His determination, bright outlook on life, and phenomenal voice will be remembered.

My thoughts and prayers are with his wife Barb, sons Wes and Dave, and their entire family.

Kelsey Lomison’s kindness, professionalism, talent and selfless service will be missed. Rest with the Lord, my friend.

**STOCK ACT SOLD SHORT**

(Mr. COHEN asked and was given permission to address the House for 1 minute.)

Mr. COHEN. Mr. Speaker, what the public saw today in the House of Representatives was a STOCK Act sold short. Unfortunately, what could have been an outstanding bill was changed by the Republican leadership by taking two important aspects put in by the Senate bill out. One was a public corruption provision that would have allowed prosecutors to prosecute, from the courthouse to the Capitol, public corruption. This was something Senator LEAHY had, and in the House it was Representative SENSENBRENNER, a Republican, passed unanimously by the Judiciary Committee. But for some reason, unbeknownst to me, it was stripped by the leadership of the Republican side out of the bill. Democrats didn’t have an opportunity to participate in the drafting of the bill, and what was the work of LOUISE SLAUGHTER and Tim WALZ was hijacked from them.

Another important provision was the political intelligence provision. It was taken out by K Street lobbyists working with the leadership—late. That should not have been taken out.

The two best parts of the STOCK Act were sold short, and the American public should have had better today. We passed something, but not what we should have done.

**LINE-ITEM VETO**

(Mr. STIVERS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STIVERS. Mr. Speaker, because government has spent money we don’t have and borrowed money we can’t pay back, our debt now stands at $15 trillion. My daughter, Sarah, who is 2 years old, now has $50,000 as her share of the national debt.

Congress and the President have an obligation to make the tough decisions to reduce spending so we can provide a brighter future for our kids. That’s why I was proud to support the Expedited Legislative Line-Item Veto and Recissions Act this week. The bipartisan legislation provides a constitutional line-item veto solution and creates more checks and balances against runaway spending.

Alone it won’t solve our problems; however, combined with a biennial budget and a balanced-budget amendment, it can deliver our children, like Sarah, from a future of debt to one of opportunity.

**VISA WAIVER PROGRAM**

(Ms. BERKLEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BERKLEY. Mr. Speaker, with the highest unemployment rate in the Nation, Nevadans are struggling. That’s why we in Washington should be focusing on creating good-paying, middle-class jobs. Unfortunately, Washington Republicans are focused on a divisive, ideological agenda.

Our jobs crisis cannot be fixed by restricting access to mammograms for women. It’s not going to be fixed by killing Medicare, by turning it over to private insurance companies. And it cannot be fixed by protecting taxpayer giveaways to Big Oil companies.

Our jobs crisis can be fixed by getting real about job creation. We can do that right now by passing legislation expanding our Visa Waiver Program, which allows tourists from certain countries up to 90 days of visa-free travel in the U.S.

In 2010, nearly 18 million people visited our country due to this program. What will happen if we expand it? The answer for tourism-dependent States like Nevada is simple: it will put people back to work.

I urge my Republican colleagues in the House and the Senate to drop their ideological agenda and join me in making job creation our top priority.

**CARDIAC ARREST SURVIVAL ACT AND SAVE A LIFE DAY**

(Mr. OLSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OLSON. Mr. Speaker, February is Heart Month. I rise today to recognize Save a Life Community Heart Training Day. This is an effort by the American Red Cross, the Texas Arrhythmia Institute, and the Methodist DeBakey Heart and Vascular Center in Houston, Texas, to raise awareness about the importance of adult CPR and AED use.

Sudden cardiac arrest, also known as SCA, is the leading cause of death in the United States, with roughly 300,000 Americans dying from SCAs every year. Both of my grandfathers died of SCA before I was born. I always dreamed of what it would be like to go fishing with Grandpa.

The best chance for survival is defibrillation—delivery of an electric pulse shock to the heart. An SCA victim has a 50-75 percent chance of survival if a shock is administered to the heart within 5 minutes of collapse. Awareness and training are critical to saving and enhancing lives.

Mr. Speaker, as sponsor of legislation designed to encourage Good Samaritans to use AEDs to save lives, I’m proud to recognize Save a Life Day. Get trained, so a young boy can go fishing with Grandpa.
SENDING UP A SIGNAL FLARE

(Mr. ROSKAM asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSKAM. Mr. Speaker, I rise today to send up a signal flare about a grievous concern that has foisted itself upon this Nation from the Obama administration, and that is this: the Obama administration is now going up to communities of faith and poking their chest and saying, either you will change the dictates of your conscience, or we will fine you. We will use the long arm of the Federal Government to manipulate you into our view of the world, not the view of the world that you think is bestowed upon you by God.

Mr. Speaker, that is a grievous error. That is a provocation that needs to be answered, and, in a nutshell, we have a foreshadowing of what happens when that isn’t answered. It’s a foreshadowing that comes in the form of a quote from Pastor Martin Niemoller, an anti-Nazi activist, who said:

First they came for the Jews, and I didn’t speak out because I was not a Jew. Then they came for the Communists, and I didn’t speak out because I was not a Communist. Then they came for the trade unionists, and I didn’t speak out because I was not a trade unionist. And then they came for me, and there was no one left to speak out for me.

Mr. Speaker, it’s time for this country to rise up and to speak out and to push back on this outrageous provocation from the Obama administration.

HIGH-LEVEL NUCLEAR WASTE

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 5, 2011, the gentleman from Illinois (Mr. SHIMKUS) is recognized for 60 minutes as the designee of the majority leader.

Mr. SHIMKUS. Before my Pennsylvania friends get all freaked out, I appreciate you letting me come to the floor for 5 minutes to do what is now a weekly constitutional of mine and talk about high level nuclear waste in Yucca Mountain.

What I have been doing, to set the stage, is going around the country highlighting locations where there’s nuclear waste throughout this country, and I’m going to state that it is in the national interest, and actually it’s national Federal law that this waste be consolidated in a centralized storage facility. And so with that, I’ll begin.

Today we’re headed to the great State of Minnesota, and we’re looking at a nuclear power plant called Prairie Island. Now, Prairie Island has 725 million tons of uranium, of spent fuel, on-site. Prairie Island has waste stored above the ground in pools and dry casks.

Prairie Island is in the Mississippi River floodplain, as you can see from the photo here. And Prairie Island is 50 miles from the Twin Cities.

Now, where should this waste be? Well, this waste should be where an 1982 energy policy, the Waste Policy Act, and then the amendments in 1987 said, by Federal law, it should be, which is underneath a mountain in a desert. And what mountain? The mountain’s called Yucca Mountain.

Currently, after $15 billion spent researching and preparing the site, we have zero nuclear waste onsite. If we were storing the nuclear waste there, it would be 1,000 feet underground. It would be 1,000 feet above the water table, and it would be 100 miles from the nearest body of water, which would be the Colorado River.

Now, look at the difference between Yucca Mountain, 100 miles from the Colorado River, versus nuclear waste right next to the Mississippi River actually in the Mississippi River floodplain.

So, why aren’t we doing what the law has dictated? Well, we have the majority leader of the Senate who’s been blocking funding and stopping any movement on nuclear waste. In fact, the will of the House was spoken last year when we voted, I think, 297 votes, bipartisan votes, to complete the funding and the study.

So let’s look at the Senators from the region of where this nuclear power plant is. And it’s very curious. The two Senators from Minnesota, Senator KLOBuchar and Senator Franken, they’re silent. They’re silent on nuclear waste in their own State. It’s very curious. Not only nuclear waste, but nuclear waste on the river.

And then you go to North Dakota. Senator Hoeven was in the region. Senator JOHNSON voted “no.” Senator HOEVEN supports it.

South Dakota, Senator JOHNSON voted “no.” This is all in the region.

Now, Minnesota has two sites, three reactors; two of them are right in this location. So, as I’ve been coming down to the floor, if you add these new Senators to the tally, right now we have 40 Senators who have expressed support for moving high-level nuclear waste. We have 12 who are curiously silent on nuclear waste in their State or in their region, and we have 10 who have stated a position of “no.”

It’s in the best interest of our country, for the safety and security of this country, that we consolidate in a centralized location, underneath a mountain, in a designated spot by law, which is Yucca Mountain.

And again, I want to thank my colleagues and friends from Pennsylvania for allowing me to intrude upon their hour.

I yield back the balance of my time.
legislators, has had a number of women Governors, and that the first woman appointed to the Supreme Court, Sandra Day O’Connor, is a proud Arizonan. He would surely be proud to know of Gabby Giffords, daughter of Arizona and one of this Nation’s enduring symbols of hope, who served this Nation’s House of Representatives so ably.

Over the past 100 years, Arizona has been home to a number of colorful and transformative figures: Carl Hayden, Barry Goldwater, Mo Udall, and John McCain.

With so many unsuccessful Presidential candidates, it’s often joked that Arizona is the only State where mothers don’t tell their children, some day you can grow up to be President. In fact, mothers get to tell their children something better: You have the privilege of being an Arizonan.

One thing is certain. Because of the hard work and sacrifice of those who have gone before, Arizona’s next 100 years promise to be even better than the first because in Arizona, the beauty of the sunset in the evening is only eclipsed by the sunrise in the morning. I yield back the balance of my time.

HONORING JOE PATERNO

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 5, 2011, the gentleman from Pennsylvania (Mr. Thompson) is recognized for 52 minutes as the designee of the majority leader.

Mr. THOMPSON of Pennsylvania. I’m pleased today to be joined by a colleague and a coach rank him among the very best in the history of the country. His accomplishments were both on the field and on the campus.

I’m pleased today to be joined by a number of my colleagues from Pennsylvania and pleased to yield to the gentleman from Pennsylvania. (Mr. Kelly).

Mr. Kelly. I’m glad to be here with my colleagues from Pennsylvania.

My thoughts of Coach Paterno go way back to the time when I was a really young guy in Butler, Pennsylvania, and Coach Paterno at that time was an assistant coach for Rip Engle. Coach Paterno would come into our high school, and he was very close friends with my high school coach, Art Bernardi.

But the thing I remember most about Coach Paterno, he had the ability to inspire you to do things that maybe you didn’t think you could do. He had the ability to get you to go beyond being tired into being better. As a young guy growing up, he would come into our study halls and he would come into our halls, and I had the chance to go to Pennsylvania and see him as an assistant coach, and always enjoyed the moments we had, and then go over to his house with Mrs. Paterno, and he would say to Mrs. Paterno, Hey, these guys are hungry. Can you get them something to eat? They were always so nice to us, and the kids were small then.

So I can understand the sense of loss that not only the Paterno family has but the State of Pennsylvania, and in particular, Penn State University, because Coach Paterno was part of the fabric of that which is Penn State. He was the leader that held Penn State together. He was the man that transcended the meaning of football—football was only a very small part of our life, but it was that game that taught us about life that was to come and the adversity that you would face and the problems that you would have to solve, and the idea that, yeah, well, you may not have done it real well on that last play. The only sin was not getting up off the deck and getting ready for the next play.

So I join my colleagues from Pennsylvania, and there’s a deep sense of loss for all of us in Pennsylvania, and especially all of those folks at Penn State who have lost a true leader and a true icon—not just for college football and not just for athletics, but for the American life.

So I am deeply indebted to Coach Paterno for what he taught us. I also am grieving with the family and with the rest of the State of Pennsylvania for the loss of a truly great American, Joe Paterno.

Mr. THOMPSON of Pennsylvania. I thank the gentleman for his comments, for joining us and honoring and remembering a great individual in Joe Paterno.

It’s now my honor to recognize Mr. Gerlach, another colleague that I’ve had the privilege and honor to serve with since coming to Congress. I yield to Congressman Gerlach.

Mr. Gerlach. I appreciate this opportunity to join you here today. Mr. Speaker, I’m among my colleagues from Pennsylvania in recognizing Coach Joe Paterno and the legacy he forged during more than 60 years at Penn State University.

Most major college football programs measure success solely on what happens on a hundred-yard patch of grass on Saturday afternoons in the fall. If you measured a career only in wins and losses, what Coach Paterno achieved is historic: 409 times he walked off the field victorious, the most wins of any coach in Division I college football.

However, what set Coach Paterno apart was that he demanded excellence from his players every day of the week. Success with honor was what Coach Paterno expected, whether his players were performing in front of a hundred thousand fans in Beaver Stadium or taking an exam in a classroom.

As someone who played football through youth league all the way through college, I fully appreciate the special role that a football coach can play in the lives of his players. A coach is, above all, a teacher, and one who can build his players’ character and instill values of hard work, persistence, and teamwork—lessons that last a lifetime. Coach Paterno did just that.

Football was the means by which he molded players into leaders and forever transformed a university. He prepared his players to be winners in life, not just on Saturday afternoons.

That is why when Joe Paterno passed away on January 22, Pennsylvania lost a legendary football coach who graciously used the spotlight that he was given to help his players, to mold players, and to help the State University, and our great Commonwealth.

May he rest in peace.

Mr. Thompson of Pennsylvania. I thank the gentleman for participating today and this remembering and celebrating.

Mr. Speaker, in the times of my life I have had opportunity to reflect back on and think of as special times, there is one time in particular when I was a senior in high school. I grew up in Centre County. I went to Penn State, I’m a proud Penn State alum. I grew up in the shadow of the Nittany Lion and Joe Paterno. One of my most meaningful memories having played high school football was the day I got word that Coach Joe Paterno had asked for game films to look at me as a prospect for that great team. That was going well until he saw that as an offensive guard I was less than 200 pounds.

But today, I still treasure that, that he looked at my performance and at least saw something there.

Joe Paterno grew up in Brooklyn, the descendant of Albanian and Italian immigrants. He derived a toughness from that heritage, describing his father and Albanian as a land of quiet, hardheaded people. His toughness was seasoned by a deep appreciation of the classics.

Virgil, which he read in the original Latin, was a key source of inspiration for Paterno. He would tell me the story that, in Latin, Virgil referred to the majesty of the opening lines of “The Aeneid”: “Arma virumque cano, Troiae qui primus ab oris,” which he translated as “Of arms and the man I sing.”

That drew inspiration from Virgil’s hero Aeneas, of Aeneas he wrote, “He yearns to be free of his tormenting duty, but he knows that his duty is to others, to his men.”

He attended Brown on a football scholarship, where he and a combination of personal integrity, a family who thought that football players lacked the intellectual firepower of other students, prejudice from those
who thought birth gave status instead of personal excellence and hard work, prejudice based on religion.

As a player and later as coach, Paterno gave everything to his men, his players, and his team. I'm very proud to yield to my good friend from Pennsylvania, also a Penn State alumnus Nittany Lion, Mr. DENT.

Mr. DENT. I thank the gentleman from Pennsylvania (Mr. THOMPSON) for organizing this Special Order hour in order to discuss the life of Joseph Vincent Paterno. As has been said, there have been many eulogies said about Joe Paterno, and he was an extraordinary man by anyone's measure.

As has been mentioned, he came to us via Brooklyn and Brown University. I believe he studied English literature, and he always took great inspiration from the books he read and the classics. In fact, he turned down a life in professional football in order to stay at Penn State and stay in this university, academic environment. He actually liked meeting with the faculty and enjoying discussions of literature and other weighty matters. This man was quite complex. He was more than just football, although certainly that was such an important part of his life, and a big part of his life.

We should also note that some of us would always watch Joe Paterno over the years. My mom is a Penn State alumna and I'm a Penn State alumnus. Our family goes back many, many decades, so we have some acquaintance with Joe Paterno. Many people fondly remember him—the guy with the thick Coke-bottle lenses and the khaki pants—flood pants—with athletic shoes. That's how they'd see him out there, and the khaki pants. That's how they'd see him out there.

There are so many people who spoke about Joe Paterno, and he won a lot. Last fall, he achieved a record, becoming with 409 wins and 136 losses the winningest coach in Division I college football. His wins record surpassed legendary coaches Bobby Bowden in 2008, and Eddie Robinson in 2011. Penn State is one of just seven teams with more than 800 wins in its history, and Joe Paterno was active with the program for 794 of those seasons, over 61 seasons, with an amazing record of 514, 183 losses, seven ties—73 percent.

It is my pleasure and privilege now to yield to another great Pennsylvania Congressman, Congressman LOU BARLETTA.

Mr. BARLETTA. Mr. Speaker, it's easy to judge Joe Paterno's career by the numbers—409 career wins, which is a Division I coaching record; 37 bowl game appearances with 24 wins; five undefeated seasons; 62 years at one university, 46 of them as the head football coach.

Many of those numbers will never be equaled or passed, but those numbers weren't the most important things to Joe Paterno. He was a Division I coaching record; 37 bowl game appearances with 24 wins; five undefeated seasons; 62 years at one university, 46 of them as the head football coach.

Many of those numbers will never be equaled or passed, but those numbers weren't the most important things to Joe Paterno. He was a Division I coaching record; 37 bowl game appearances with 24 wins; five undefeated seasons; 62 years at one university, 46 of them as the head football coach.

Joe Paterno loved coaching at the college level because he loved preparing young men to succeed in life. He turned down several offers of coaching in the NFL. He made far less than any other college football coach. During the memorial service for Joe, nat- tive son of my district, Jimmy Cefalo of Pittsston, captured the essence of his coach.

Cefalo said, “He took the sons of the coal miners, and he took the sons of steel mill workers and of farmers in rural Pennsylvania and taught them what we would come together and do it the right way, the Paterno way. Those thousands, literally thousands, of young men taken from generally small communities, looking for direction at a very young age, this is Joe Paterno’s legacy.”

That sums it up perfectly. Without Joe Paterno, thousands of young men from the smallest towns and townships of Pennsylvania might not have received a quality college education. He saw all of these young men as his sons, and he wanted the best for each and every one of them.

Outside of college football, JoePa lived a life as plain as Penn State’s uniforms. He lived in the same simple ranch house for 45 years. His home phone number could have been found in the White Pages. For years, he drove a Ford Tempo. His trademark rolled-up pants were not a fashion statement but a practicality. He rolled up the cuffs to save on dry cleaning bills.

But when it came to the university he loved, the university that educated his five children and thousands of his players, Joe Paterno was exceedingly generous. Joe Paterno and his wife, Sue, and their five children announced a contribution of $3.5 million to the university in 1996, bringing Paterno’s lifetime giving total to more than $4 million.

Joe Paterno’s personal life was humble, his humanitarian life was remarkable, and his professional life was legendary.

Mr. THOMPSON of Pennsylvania. I thank my good friend for sharing his thoughts on Coach Joe Paterno.

You know, among Joe Paterno’s accolades in 46 years as head coach were two national championships, seven undefeated seasons, 23 finishes in the Top 10 rankings, and three Big Ten Conference championships since joining the conference in 1993. Joe Paterno had 24 bowl wins and 37 bowl game appearances, both of which are the most of any coach in history.

In his many decades as a coach at Penn State, Paterno built a team dedicated to excellence on the field and off the field, as you heard many of my colleagues refer to today. He saw football as important, but he kept even football in perspective. In his view, there are many who have been most important to the success of Penn State teams have just naturally kept their priorities straight—football, a high second, but academics, an undisputed first, in his words.

Paterno said that hehounded his players to get involved. Don’t let the world pass you by. Go after life. Attack it. Ten years from now, I want you to look back and have a wonderful time of expanding yourself, not just 4 years of playing football. The purpose of college football is to serve education, not the other way around.

He understood that education required an effort by both students and teachers. Another of his quotes:

Even the most talented teacher can try what he or she thinks is teaching, but it won’t really take unless the student takes charge of the most important job, learning.

Thus began Joe Paterno’s grand experiment at Penn State, where players would not just be model athletes but model students and model citizens. His players responded, consistently ranking at or near among the top of the leading football programs in graduation rates.

Under his tenure, the Penn State football team had 16 Hall of Fame Scholar Athletes, 49 Academic All-Americans, and 16 NCAA Postgraduate Scholarship recipients. The Penn State football program had more Academic All-Americans than all other Big Ten schools and ranked number three among all 120 football bowl division schools.

In 2009, the graduation rate of Joe Paterno’s players was 89 percent, and the graduation success rate was 85 percent, both of which were the greatest among all football programs in the final 2009 Associated Press Top 25 poll. I am now pleased to yield back to my good friend, Mr. DENT.

Mr. DENT. I thank the gentleman.

And as we wind down this Special Order this hour, talking about Joe Paterno, we should also probably note one other thing, too.

Of course Joe Paterno was about success with honor, he was about making an impact, but he was also about family. And also, I just want to say, too, that many players over the years, their children would come to the school. In some cases, three generations have played with him. It’s a remarkable story.

I think of a guy from my hometown, Mike Guman. Many of my colleagues from Alabama will remember Mike Guman, for the famous goal-line stand, Penn State-Alabama Sugar Bowl, 1979. I wish the end result had been different. But nevertheless, Mike Guman was a running back. I had so many kind, wonderful things to say about him. And his son, too, Andy Guman, played at Penn State. That was the kind of program that I think Joe wanted. It was very family-oriented.

I also wanted to mention, too, that one of the eulogies about Joe that is probably worth sharing—I believe it was Jimmy Cefalo who was talking about his sense of humor and that of his wife. Joe and Sue were utterly devoted to each other, very indepen-dendent-minded people, but very much dependent upon one another. I am going to read an excerpt from that eulogy:

Humor was a large part of my parents’ marriage. My mom and dad, speaking to me in every encounter, I always expected my mom would jump up with a smart comment when he was talking, and you’d get a glimpse of how the two of them interacted. Neither one of them took themselves too seriously.

And he says:

One of my favorite lines that they had was about how they stayed married so long. They had a deal—whoever leaves the marriage first has to take the children. So neither one of them ever left.

And that was sort of the sense of humor they had, but they were so utterly devoted to each other, to their five children, and to their many grandchildren. That’s something we don’t speak much about Joe Paterno. He didn’t have a whole lot of hobbies either. He was devoted to family and his football program and his university. That’s what he was about. So it really speaks volumes about him. He will be deeply missed.

At this time, I yield to the gentleman from Altoona, Pennsylvania (Mr. SHUSTER). I thank the gentleman from Allentown for yielding.

It’s a great privilege for me to be here on the House floor today talking about someone whom I had the highest regard for, and over the years I was able to watch a tremendous thing he did at Penn State University. It’s not just about winning football games. Of course he won 409 games in his 46 seasons, five undefeated teams, and led Penn State to two national championships. But he did more than that. He did more for the university.

And I know my colleagues have already talked about—it’s the only Division I school in the country that has a wing of the library named after the head football coach. That’s because of his and Sue’s dedication and contributions to building not only that library but that institution. And a lot of that building came about because he built those football teams and brought national attention to Penn State.

But for me, on a personal level, probably one of the proudest moments I had was to stand on the House floor when—I believe it was when he surpassed Walter Camp’s winning record of 309 victories to become the all-time winningest coach. That’s because of his and Sue’s dedication and contributions to building not only that library but that institution. And a lot of that building came about because he built those football teams and brought national attention to Penn State.

And so as we wind down, I would just like to talk a little bit about my personal relationship with Joe Paterno. Joe and I were able to see each other when we were young men playing in the NFL. Joe was an incredible player, and I was able to watch him in the NFL as well as赏识 him in college.

And Joe was so successful, and that was something that he passed down to me: that you never take anything for granted. You’ve got to work for everything. And Joe was a Hall of Fame coach and a Hall of Fame person. He was a mentor to me and many other coaches. And I would like to close by saying that Joe Paterno will be deeply missed.
goosebumps remembering that time because it was really an exciting moment that I will always remember.

But again, what Joe Paterno did, which stood him apart from many other coaches, was his dedication to education and academic excellence. Unlike many other schools with Division I programs, Paterno recruited players, speaking first about Penn State’s academic excellence. And during that time in the early 2000s, when I served with Coach Tom Osborne, those were the years for Penn State and for Joe Paterno. And when we would come to town on a Monday or a Tuesday night for votes, Coach Osborne would summon me over on the floor and talk to me about what was going on in central Pennsylvania, how was the media treating Joe; and there was a real concern that Coach Osborne had for Joe Paterno and a real respect came through.

So after several of these meetings, I finalized Coach Osborne, I said, it’s obvious you have this great respect for Joe Paterno. Is that because you thought he was a superior coach to you? And he said, oh, no, absolutely not. I have a higher winning percentage than Paterno. But I do have a great respect for Joe because Joe could do something that nobody ever was able to achieve; and that is, year in and year out, Joe Paterno would graduate roughly 85 percent of his players, but always the highest graduation rate in Division I. And on top of that, he had quality football teams and he recruited quality players and he could compete at a national level. So, he said, that’s something none of us could do.

Then Coach Osborne went on to tell me about how he would talk to Joe in the off-season and try to understand the programs and the discipline and the things he did, because he wanted to be able to get to that level with Joe. And Coach Osborne told me that, I believe, in his words ever got was a 79 percent graduation rate.

So that’s from one of the great all-time coaches, the great respect he held for Joe Paterno. And again, it was not just about his football; it was about what he was, about building young men, about instilling in them the need to educate themselves and to be excellent when it came to their academic efforts.

He often said you have to start with the idea that a kid has to be a student before he can ever be a football player. He also recognized that most of his players were not going to become pros, and he celebrated the accomplishments of his players off the field. In fact, I remember on one occasion when he had money, they married and got a good job and provide for their families and become productive citizens. Again, that’s something that Joe Paterno was able to produce, to be a good citizen, to go back to your community. He lived that life, and he will be sorely missed, not only in Pennsylvania, but I believe throughout the college ranks and throughout the Nation. He’ll be one of those people you can’t help but say, ‘That’s the kind of coach I want to be.’ That’s the kind of program that I want to build, and those are the kind of kids that I want to turn into young, productive citizens of the United States of America.

So again, I’m pleased to be here with my colleagues from Allentown and Bellefonte? Close to Bellefonte.

Mr. THOMPSON of Pennsylvania.

Mr. SHUSTER. That’s even smaller. And I’m actually from Everett, CHARLIE. Altoona is a big city to me. I don’t even know my way around Altoona.

But again, thanks a lot for you guys doing this. It’s greatly appreciated. Mr. DENT. I have to apologize for making that error. I knew you were from Everett, not from Altoona. But Blair County, the whole of Bedford, it’s a wonderful area. We love it.

I wanted to say one other thing my friend, Mr. SHUSTER, just reminded me of: how Coach Paterno, Joe Paterno, recognized that most of his players were not going to become pros, and he celebrated the accomplishments of his players off the field. In fact, I remember one fellow who went to school with me, a guy named Stu McMunn, Stewart McMunn, I think he was captain of special teams. They won the national title the year after I graduated. He talked with pride about that young man. He’s not going to be a pro, but he’s all of this spirit, all this fight in him, he’s a smart kid, and all that. And he became a dentist. He was very proud of the fact that was one of his players. That was kind of the way he was. He wanted to be proud of his players, wasn’t so concerned about the next 5 years after graduation, but the next 15, you know, 20, 30, 50 years, to see what they’re doing with their lives. So I think that’s something they shouldn’t lose sight of.

I did read from a eulogy given at the celebration of Joe’s life by one of his children, and I submit it for the RECORD.

Mr. SHUSTER. I just want to conclude by saying that Joe Vincent Paterno, a great Pennsylvanian, a great American, a strong leader, a mentor to so many, a mentor even to many people who never met him, but he had an impact on their lives. And for Joe Paterno, you did in fact make an impact.

MOM AND DAD. I don’t know much about Greek Mythology, so forgive me if I botch this reference. But in the past few months I’ve been reminded of a Greek myth. Apparently, we were once one body with a male head and a female head and we were all happy. Some angry god, as punishment for some slight—sliced all of the happy two headed beings apart—forever dooming us to run around the world looking for our other half. Anyone who knows my parents knows that they’ve always missed that lucky people who were able to find their other half: their soul mate, their best friend.

We’ve stated over these past days just how blessed and lucky my family knew him. One of the stories you won’t hear from a former Letterman is that the time that Coach Paterno became smitten with his girlfriend and asked her out, she waited until she realized that this player was not for her and went in for the kill. After a courtship that involved reading Albert Camus, walking on the beach, and pretending that he had money, they married and soon started their family.

In those years when Joe would talk about retirement or getting older, he would remind me, “You know, your mother is a young woman.” It almost became a joke. Whenever she was late coming back from a meeting or something, I’d say, “Well you know, your mother is a young woman.” He’d always chuckle. But he did worry about her and always wanted to make sure that she would be OK once he was gone.

They were absolutely devoted to their family: my Dad was comfortable letting my Mom handle the many duties of diaper changing, but he loved to bounce us around on his knee, try to teach us table manners, have discussion-filled family dinners, and take us for walks. And when I was growing up, that would continue into our adulthood and would be one of his primary ways of sharing his wisdom and insights with us. I shared some of those walks in late November and I am forever grateful for having that opportunity.

Their relationship was unique in some ways. Two fiercely independent and strong people, yet two people utterly devoted and dependent on each other. Best friends who challenged each other, and supported each other yet reminded the other when they might be mistaken, who knew each other so well that they knew what the other was thinking before they even said it. This was a relationship that started with respect and friendship and remained strong with faith, love, and commitment to each other. They made each other better.

Humor was a large part of my parents marriage. My Mom and Dad speaking together was always entertaining—my Mom would just walk in with a smart comment, he was talking, and you’d get a glimpse of how the two of them interacted. Neither one of them took themselves too seriously. One of my favorite things they always did together was that they stayed married so long. They had a deal—whoever leaves the marriage first had to
Mr. Speaker, just yesterday I had the opportunity to visit with one of the Special Olympic athletes, an ambassador for that program from Pittsburgh, Pennsylvania, Chris Jagielski. And the first thing Chris did in coming to my office was to express his sorrow for the recent events.

Paterno wrote that he had been strongly influenced by this line from St. Ignatius: "Always work as though everything depended on you. Yet always pray knowing that everything depends on God." Over the years, that dynamic thought has exploded to something larger and larger in my life. It means to me now, never be afraid to accept your own limitations or the limitations of others. Accept that we're all pretty small potatoes. Yet always know how great each of us can be.

So the winningest coach in college football history was, I think, among the most humble of men based on those remarks that he made. The enormous positive impact Joe Paterno has made on thousands of players, hundreds of thousands of students and millions of fans and admirers across central Pennsylvania and around the world cannot be understated. He was a man but his legend continues. For combining humility with a dedication to greatness, Joe Paterno stands as a model for all of us. With the passing of Joe Paterno, we're all Penn State, and we mourn his loss. Thank you. Joe Paterno.

With that, I yield back the balance of my time.

Mr. WOLF. Mr. Speaker, as a Penn State graduate, I would like to add to this evening's special order on the career of Joe Paterno by sharing a column by Bill Bline that ran in newspapers across the country following Paterno's death.

[From the Tribune, Jan. 23, 2012] PATERO BUILT PENN STATE ON, OFF THE FIELD (By Bill Bline)

Every great man has a flaw. Criticism of Joe Paterno died Sunday at 85, will cite at least one flaw of the legendary Penn State football coach—what they will call his poor moral judgment in the Jerry Sandusky sex-abuse scandal involving the Second Mile charity and Penn State.

That assertion might be argued for decades, as JoePa's proponent will say that he did nothing wrong and did what he was supposed to do a decade ago when he received information about his former assistant coach Sandusky—Paterno told his superiors and asked them to look into it.

But whatever side of the argument you support, know this about Joseph Vincent Paterno, he was the finest choice for Penn State University and, in turn, its hundreds of thousands of students—not just for the athletics over the past six decades. And likely no one ever did more for Penn State in the 157-year history of the institution built on former farmland in rural central Pennsylvania.

You see, rightly or wrongly, Penn State had an image—above all—to create for college when Paterno arrived on campus in 1950—and even to some degree when he became head coach in 1966.

Paterno not only raised the profile of the Penn State program, he raised the profile of the university itself. And it was not just wins on the football field that helped Penn State become the national university it is today.

Paterno helped in many other ways, too, making literally billions of dollars in order to promote financial support, knowledge and national pride. And Joe and his wife Sue donated their own money, too, having given more than $5 million to Penn State over the years.

Support of academics and the success of his team combined to make Penn State a desirable place for students—not just athletes. Penn State's enrollment has expanded since Paterno took over in 1966, including those at its satellite campuses. Some years, 70,000 or more high school seniors apply for the 7,500 or so freshman-class openings at Penn State's University Park campus. Nearly doubled in size since 1966, he probably was the most underpaid, relatively speaking, in the history of big-time college football, last fall making less than all but one other coach in the Big Ten Conference.

He won the National Heritage Award of the Anti-Defamation League for his role as humanitarian and philanthropist.

Paterno was named Sportsman of the Year by Sports Illustrated.

He has produced 74 Academic All-Americans, and Penn State football consistently is a national leader in the percentage of its graduating seniors who go on to graduate school. Paterno's view that includes high graduation rates for minorities, too.

He measured the success of his team not in wins and losses, but how those players later influenced society as teachers and surgeons and engineers and leaders.

And through it all, Penn State remained a force on the football field and was doing just fine.

Two of Paterno's last three recruiting classes were ranked in the top 11 nationally, according to the recruiting site scout.com. The Nittany Lion's 2007 opportunity to visit with one of the country's premier football programs.

He captured two Big Ten titles since then and was unbeaten in conference play and in first place in the Big Ten's Leaders Division when he was ousted in November because of the Sandusky scandal.

And Paterno, of course, set yet another record last fall with his 409th career victory. But victories and championships—and football should not be how we remember Joe Paterno. He would not want that.

Joe Paterno should be remembered as an educator who truly placed academics before athletics.

He should be remembered for building 18-year-old boys into men and productive members of society.

And he should be remembered for building a university that benefits all.

Mr. BARLETTA. Mr. Speaker, it is easy to judge Joe Paterno's career by the numbers. 409 career wins—a Division I coaching record.

37 bowl game appearances, with 24 wins.

Five undefeated seasons. 62 years at one program.

Three championships. 12 coaches of the year.

And 50 Academic All-Americans.

And he should be remembered as a head coach.
Many of those numbers will never be equaled or passed. But those numbers weren’t the most important things to Joe Paterno.

But again, those numbers weren’t the most important things to Joe Paterno.

Here’s what mattered to JoePa:

- **Academic All-Americans; 37 of them first-team.**
- **An 87 percent player graduation rate in 2011—20 points higher than the national average.**
- **And, according to the New America Foundation, no achievement gap between its black and white players.**
- **Joe Paterno loved coaching at the college level because he loved preparing young men to succeed in life. He turned down several offers to coach in the NFL. He made far less than other college football coaches.**
- **During the memorial service for JoePa, a native son of my district, Jimmy Cefalo of Pittston, captured the essence of his coach. Cefalo said, quote, “He took the sons of the coal miners, and he took the sons of steel mill workers, and of farmers in rural Pennsylvania with the idea that we would come together and do it the right way. The Paterno way.**

Those thousands, literally thousands, of young men taken from generally small communities looking for direction at a very young age . . . this is Joe Paterno’s legacy.”

End quote.

That sums it up perfectly. Without Joe Paterno, thousands of young men from the smallest towns and townships of Pennsylvania might not have received a quality college education.

He saw all of these young men as his sons, and he wanted the best for each of them.

Outside of college football, JoePa lived a life as plain as Penn State’s uniforms. He lived in the same simple ranch house for 45 years.

For years, he drove a Ford Tempo.

His trademark rolled-up pants were not a fashion statement but a practicality: he rolled up the cuffs to save on dry cleaning bills.

But when it came to the university he loved, the university that educated his five children and thousands of his players, Joe Paterno was exceedingly generous.

Joe Paterno, his wife, Sue, and their five children announced a contribution of $3.5 million to the University in 1998, bringing Paterno’s lifetime giving total to more than $4 million.

Joe Paterno’s personal life was humble. His humanitarian life was remarkable. And his professional life was legendary.

THE PROGRESSIVE MESSAGE

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 5, 2011, the gentleman from Minnesota (Mr. ELLISON) is recognized for 60 minutes as the designee of the minority leader.

Mr. ELLISON. Mr. Speaker, there are a lot of important issues facing the American people, none more important than their economic livelihood and viability. So we’re going to be talking today during this Special Order about economic justice, economic opportunity, and the fight for the American middle class.

Mr. Speaker, I’m cochair of the Congressional Progressive Caucus. The Congressional Progressive Caucus is that caucus that comes to agree to band together to stand up for the American Dream, the idea that all Americans, no matter which color they may be, whether they are disabled or not, whether they are straight or gay, or what their religion is, have a right to full participation and opportunity to grab that American Dream as one of our core beliefs. The Progressive Caucus believes in clean air and a clean environment, believes that all Americans, all people across the world have a right to clean air, clean water, and food free of pesticides and toxins.

The Progressive Caucus is the organization that is four square for civil rights for all people. We believe that it’s a national disgrace that women are paid 80 cents on the dollar. Men make. We think it’s a national disgrace to not be able to love whomever you love and want to be with. We think it’s a national problem that people in our society, which was founded on the idea of religious tolerance, sometimes see themselves as the target of religious hate in this area.

And we are four square dedicated to the idea that peace should be the guiding principle of our Nation and that diplomacy and development are good things, and that war is almost always a bad thing. Although sometimes it’s necessary, diplomacy is always better.

We don’t send our people into harm’s way. That’s who the Progressive Caucus is. That is what we are about, and I’m going to come tonight, Mr. Speaker, for a progressive message.

So let me begin with that progressive message. We are here to talk about the progressive message; and tonight, we’re going to address the issue of economic viability. Working American families are getting crushed, and our middle class is shrinking every day. But here in Washington, our friends on the other side of the aisle, the Republican caucus, is in control of the House. And while millions facing foreclosure and unemployment, sadly, we see Americans continuing to hurt, and their problems are not being addressed.

This week in Congress, if I could just talk about what we did this week, the Republican majority did not bring up a single jobs bill. We didn’t talk about jobs this week. Here we are at the close of the week, and we’re not talking about jobs. They did not bring up a bill to keep Americans in their homes and address foreclosure, nor did we talk about their jobs and our health care; it was water, or building our economy or our Nation’s crumbling infrastructure. No, we weren’t doing that. We were doing something else, and it had to do with scoring points in an election.

One of the things we did today, which I think was important, but it was an idea that came from the Democratic-majority Senate and originated with great Democratic Senator Tom Udall. Louise SLAUGHTER, is that we voted on a bill to stop trading on congressional knowledge, the STOCK Act. Today, we voted on a bill designed to stop Members of Congress from using confidential information they receive while doing their jobs. You would think that this goes without saying. But, sadly, that is exactly what some politicians have been doing. We voted on the STOCK Act today, the Stop Trading on Congressional Knowledge Act, and I was happy to support this bill.

Although my colleagues, Louise SLAUGHTER and Tim WALZ, are pushing judicial officers are subject to the same insider trading rules as everyone else.

Unfortunately, leadership in the majority House caucus took transparency and accountability measures and rewrote them in secret in the dark of night. And the majority Senate, and eventually the Republican caucus, weakened the bill, dropping a provision that will require those who peddle political intelligence for profit to register and report, and eliminating the anti-corrupting provisions added by the Senate and unanimously approved by the House Judiciary Committee in December. Regarding the political-intelligence provisions, Senator GRASSLEY, Republican of Iowa, responded, It’s astonishing and extraordinary dishonesty that the House would fulfill Wall Street’s wishes by killing this provision.

So Republican Senator GRASSLEY even had to admonish the House to say, why would we undermine the bill, dropping a provision that would require those who peddle political intelligence for money to register and report their activities? That’s too bad. If Congress delays action, the political-intelligence industry will stay in the shadows—just the way Wall Street likes it.

It’s time to act on this legislation and take a first step toward restoring
trust in government. We must hold a swift House-Senate conference to strengthen this Republican-majority bill that passed through here that’s a weakened piece of legislation.

Last week, the Senate bill passed a stormy vote as a result of amendments, a stronger bipartisan House bill is co-sponsored by 265 Members, including 99 Republicans. The so-called political-intelligence industry serves no one. All it does is really pad Wall Street profits off on malevolent state. This inside trading is nothing more than Wall Street insiders pumping Washington insiders for information so that they can place bets on stocks. Political-intelligence firms have grown drastically over the last few decades and are now a $100 million industry.

Every day, these firms help hedge funds and Wall Street investors unfairly profit from nonpublic congressional information, and these firms have no oversight and can freely pass along information for investment purposes. A 2005 story on insiders profiting off of a last-minute government bailout of companies embroiled in asbestos litigation was a catalyst to the STOCK Act. A recent Wall Street story on the prevalence of the intelligence industry reinforces the need for this bill. Without the STOCK Act, enforcement officials are left in the dark on who is paying and playing in the political-intelligence industry.

This is why we need the whole STOCK Act. The Stop Trading on Congressional Knowledge Act, the STOCK Act, would shed necessary light on a lucrative industry that has been lurking in the shadows since the 70s. H.R. 1148 establishes regulations for the political-intelligence industry by amending the Lobbying Disclosure Act to apply the registration, reporting, and disclosure requirements to all political-intelligence activities just as they apply to lobbying. This is an important provision, and it’s an essential piece to the STOCK Act’s purpose of banning insider trading based on congressional knowledge.

Regarding support for the STOCK Act, the STOCK Act has a lot of support, Mr. Speaker. The STOCK Act has a broad base of support from organizations dedicated to government reform, including Public Citizen, Citizens for Responsibility and Ethics in Washington, Democracy 21, the League of Women Voters, Project on Government Oversight, the Sunlight Foundation and U.S. PIRG.

Here is a summary of the STOCK Act, and this is a bill authored by Tim Walz and Louise Slaughter, which I’m an original co-sponsor. It’s a stronger version than what came through here today, and it’s what our country needs. The STOCK Act requires firms that specialize in political intelligence to disclose all information they use in their financial transactions to register with the House and Senate, just like lobbying firms are required to do.

It prohibits Members, their staff, executive branch employees, and any other person from buying or selling security swaps or commodity futures based on congressional and executive branch nonpublic information. It requires a timely disclosure of financial transactions above $1,000 for those Members and staff that are already required to file annual financial disclosures.

It amends the House ethics rules to prohibit Members and their employees from disclosing any nonpublic information about legislative action for investment purposes. My constituents don’t have insider traders looking out for their bottom line.

Now, let me just talk a little bit more about the STOCK Act.

While the House voted this morning on the STOCK Act, making clear that rules against insider trading apply to Members of Congress, congressional staff, executive branch officials, and judicial officers and employees, the version brought to the floor by Leader Cantor was weakened by Republicans before it actually came to be voted on.

The GOP rhetoric suggesting otherwise isn’t fooling anybody.

The Associated Press weighed in on this issue, and they said:

The House passes Republican-written insider trading bill that has heavy Wall Street influence. The House has passed a bill to ban insider trading by Members of Congress and executive branch officials from insider trading, but critics from both parties accuse House Republican leaders of caving in to investment firms by eliminating a proposal to regulate people who try to try financial information from Congress.

The New York Times had something to say, too. Here’s what they said in an editorial:

The House’s Less Persuasive Ban on Insider Trading. House Republican leaders appear ready to bow to election-year pressure from financial services lawyers from Wall Street and investors from the tech industry and drop a provision requiring political-intelligence consultants to disclose their activities, like lobbyists already do. It also scraps a proposal that empowers Federal prosecutors going after corruption by public officials to seize stocks—yes, it did—and even some Republicans, who are furious at Cantor and are accusing the Virginia Republican of watering down the popular legislation that easily passed the Senate last week.

‘It’s astonishing’—this is a quote from the Politico article:

It’s astonishing and extremely disappointing that the House would fulfill Wall Street’s wishes by killing the provision. That’s what Senator Chuck Grassley said in a statement. If Congress delays action, the political intelligence industry will stay in the shadows, just the way Wall Street likes it.

Of course, Mr. Speaker, Roll Call had to weigh in on this issue as well. It sounds like there’s a pretty strong consensus that the House version we passed was weakened and watered down and not what the public was expecting.

Roll Call says:

Grassley, others rip House STOCK Act. Senator Chuck Grassley is ripping the House version of a major reform bill passed last Tuesday, calling it “astonishing” that House GOP leaders would drop a provision requiring political-intelligence consultants to register as lobbyists. Senator Grassley joined a chorus of watchdog groups and Democrats criticizing the House version.

Melanie Sloan, President of Citizens for Responsibility and Ethics in Washington, said: "The Cantor provision is a sham and aimed at tricking Americans into thinking he’s dealing with the issue." That was a quote.

So, whether you’re talking about Politico, Washington Times, Washington Post, Associated Press, Roll Call, or whether you’re just talking about members of the House Democratic Caucus or citizens across the Nation, we did pass a version of the STOCK Act. It was a Step Forward. It wasn’t good enough. And, Mr. Speaker, if Americans across this country decided that they were going to demand that there be a conference committee in which the stronger provisions were adopted, I think that would be a very good thing.

Americans across this country, I think they agree with what’s written in this Washington Post article. They write:

A scaled-back ethics bill headed toward likely passage in the House Thursday despite complaints from both sides that Republican leaders are jettisoning—that means getting rid of—several key provisions that won overwhelming support in the Senate last week.

Of course Think Progress probably echoes the sentiments of the American people, too. Mr. Speaker, as they wrote in their blog: ‘House Republicans prepared to vote on watered-down congressional insider trading ban.” Here’s what they say:
Since a “60 Minutes” report showed that Representative Spencer Bachus (R-Ala.) profited from information he obtained in a private economic briefing in 2008, Congress has moved quickly to pass a bill to bar insider trading by its Members. House Majority Leader Eric Cantor has made several changes to the legislation which appear intended to at least weaken the final product, if not kill it outright.

That is what they said at Think Progress.

Of course the New York Times, they’re in this, too. This is an issue of serious public concern, and we would expect their editorial writers to weigh in. And what they said was this, Mr. Speaker:

With the House poised to take up a major ethics bill, Republican leaders have deleted a provision that would, for the first time, regulate the collection of political intelligence from political insiders for the use of hedge funds, mutual funds, and other investors.

Representative Louise Slaughter, Democrat of New York, said lawmakers and the public need to know more about the activities of Congress members, who she said “glean information from Members of Congress and staff and sell it to clients who make a lot of money off it.”

You know, Mr. Speaker, I’m betting that a lot of people across America don’t know and they may not care that this stuff even takes place. I’m betting that a lot of people across America don’t realize that there are people who sort of scurry around in the shadows, looking for tidbits of information which they could use to make an investment decision, and that this is a multimillion-dollar industry.

Let me also move back and just say that, Mr. Speaker, I doubt that the American people really realize that there is important information that can affect stock price that is thrown around here. You would think that it would be just common sense. Mr. Speaker, that as we Members of Congress are hired to pursue the public interest, that there would be a requirement that information to advance their private commercial interests. There’s nothing wrong with Members of Congress owning a business or something like that. I mean, this is America. But to say you’re going to Congress to get information to try to trade stocks and then getting rich off that information seems to me, a real problem.

Now, I don’t know what the facts are. All I know is what I saw on “60 Minutes.” But it was alleged that a Member of Congress was in a meeting, pursuing his responsibility to promote the public interest, left that meeting, and using information from that meeting, purchased stock options and basically made a bet that the economy would go down.

So I ask you, Mr. Speaker, can a person, charged with a public duty to uphold the public interest simultaneously pursue their private interests? And what happens, Mr. Speaker, when those two battles are at odds?

If your job is to keep the economy afloat, but it would make you money if the economy goes down because you have essentially bought stock options where you would financially gain from the loss of value, what is one to do? Well, if they’re a public service employee, if they’re a public official, they should pursue the public interest, and the law should forbid them from trying to pursue their private interests at the public’s expense.

And yet, we do know that these things, that there’s good evidence that these things may well have happened and that there needs to be accountability all around. And it is disappointing that when we finally, after these things finally get to the point where we’re going to pass a bill, that we don’t go all the way. We make carve-outs for the political intelligence industry. We make carve-outs for people like that. And I want to say this is not right. The Senate version, which has accountability, which has prosecution authority, and which bans this political intelligence industry from just operating in the shadows, is that what we should be doing carve-outs for them and sweetheart deals.

So I’m joined now by my good friend from the great State of Ohio, representing the northern Ohio area. There’s really no one, Mr. Speaker, who has been a greater advocate for consumers than Marcy Kaptur.

I yield to the gentlewoman from Ohio.

Ms. KAPTUR. I thank my dear colleague from Minnesota, and thank you for your leadership on so many issues here.

I listened with care to what you’ve been presenting today to give voice to the American people from coast to coast. I want to thank you, in particular, for the work you’ve done on mortgage foreclosures, on holding Wall Street accountable, Congressman Ellli-son. No one has fought harder. Min-nesota’s been affected, your home city of Detroit. We know, Toledo to Sandusky to Lorain to Cleve-land to Parma, all these communities struck so hard by Wall Street’s malfeasance.

And I wanted to join you today as you keep a focus on who the wrong-doers really have been, and how we help the Obama administration for the efforts they’ve made to date on a major settle-ment that’s being announced during the same timeframe as we speak here, where individual States and five of the major Wall Street banks who are res-ponsible, who used widespread fraudu-lent paperwork that precipitated the foreclosure crisis, that this settlement will actually bring some measure of justice.

And we ought to claim a great deal of credit because the Progressive Caucus has been working so hard on this, and housing and the mortgage foreclosure crisis has been at the top of our agen-da.

The settlement, the initial settle-ment will reportedly impose a $26 bil-lion penalty against Wells Fargo, Bank of America, JPMorgan Chase, Allied Financial, and Citigroup that were at the heart of the schemes that led to the securitization and collateralized debt obligation risk-taking. The total amount could grow to $30 billion or $45 billion after additional set-tlement. Given the extent of the dam-age they’ve caused, it’s a start, and frankly, a very important one.

We can’t forget that millions of America’s families lost their homes, and countless more are dealing with foreclosure. And our cities have empty hulls of neighborhoods that are struggling as a result.

If you come to places that I represent, as you’ve mentioned, in northern Ohio you can see the thousands of vacant structures that these banks left to decay. They didn’t even manage them well once they possessed them. In neighborhood after neighborhood, the damage these banks inflicted is incal-culable as they aggressively transfer equity and wealth from Main Street to Wall Street. They’ve made every community more poor.

This agreement is the largest joint Federal/State settlement ever obtained and the result of unprecedented coordi-nation between the various corners of our government and the States. And it needs to be a major settlement.

One in five American families with a mortgage today—this is an astounding number—one more than the house is actually worth by an average of over $50,000. The collective negative equity across the Nation is over $700 billion.

For years I’ve come to this floor urging Congress to do more, and one critical part of this agreement is that it does not provide blanket immunity for the banks for their misdeeds. While the ink is barely dry on this agreement, the press is reporting, and I quote, Offi-cials will also be able to pursue any al-legations of criminal wrongdoing.

And I want to thank you, Mr. Chairman, and I wish to go down that road, and I wish to place in the RECORD an article from The New York Times this week that talks about how African American New Yorkers making more than $68,000 are nearly five times as likely to hold high interest mortgages as Caucasians of similar income.

THAT COMEBACK TRAIL FOR THE ECONOMY? HERE, IT’S LITTERED WITH FORECLOSURES

(By Michael Powell)

To walk 145th Street in South Jamaica, past the brick homes once painted with bright colors and chain-link fences, is to find a storm of immense destructive power still raging.

Three years ago, when I wandered this block south of Linden Boulevard in Queens, banks had foreclosed on eight homes. In the years since, banks have filed notice against a half-dozen more owners. Some of those houses sit abandoned, plastered over and sealed across doors and windows, as if to guard against further spread of this plague.

We are accustomed to hearing politicians talk of a halting recovery from the recess-sion. They detect heartbeats in the job mar-ket and flickers of life in house sales. New
York and New Jersey, our governors pro-
claim, are on the comeback trail.
Not here.
A dozen miles from Midtown Manhattan,
the foreclosure belt stretches across the
heart of black homeownership in this city,
from Canarsie and East New York in Brook-
llyn, to Springfield Gardens and St. Albans,
Queens. The Reverend C.T. Vivian and Ella
Fitzgerald once owned handsome Tudor-
style homes.
Black Americans came late to homeowner-
ship for reasons deeply rooted in our tragic
racial history. Black New Yorkers making
more than $68,000 are nearly five times as
likely to hold subprime mortgages as whites of similar income, and their default
rates are much higher. Now a generation
watches as its housing wealth is vaporized.
Organizers with the Neighborhood Eco-
nomic Development Advocacy Project pored
over 2011 mortgage default data. They found
that 15,000 city mortgages were in default or
delinquent last year. In corners of southeast
Queens, banks filed as many as 15 delin-
quency notes for every 1,000 housing units.
Attorney General Eric T. Schneiderman
tells the New York Times that the number of New York-
erats at risk of losing homes exceeds the popu-
lation of Buffalo, Syracuse and Rochester
combined.
In Jamaica, “for sale” signs sit two, three
and four to a block. Real estate agents re-
semble fishermen who’ve kept lines in the
water too long. Of late, matters have grown
worse. The state government has stopped
paying counselors and lawyers for those at
risk of foreclosure, and Gov. Andrew M.
Cuomo, who takes pride in his reinvention as
a fiscal conservative, has declined to foot the
bill.
I stop Randy Ali, a Guyanese ironworker,
as he tinkers with his SUV on 145th Street.
He’s a husky, cheerful black man, from Rosesdale.
The bank agent nods
at the door frame. Every foreclosure case has been
adjourned 4, 5, 10 times. More homeowners
hold tight to their homes than a few years ago,
but the cost is weeks of missed work and
legal bills piled high.
Freeman N. Hawes Sr. walks into the me-
diation room. He’s a husky, cheerful black
man, from Rosesdale. The bank agent nods
pleasantly. She thinks the bank might grant
him a mortgage modification. But she can’t
get the bank on the phone just now.
Perhaps next time?

Mr. Hawes walked to a bench and, from a brown plastic
bag, pulled dog-eared letters from Nationalstar
Mortgage. He had met with the bank twice, agreed
that he had made his payments and
promised to modify his mortgage in 2010, and
again in July 2011. It broke both promises.

The local bank he had, a black middle-
class neighborhood, for decades. He’s edging
forward and holds two jobs with no plans of
retiring.

“I’m not one to hold grudges,” he says.

“arange that they caused, it’s a start, and

an important one.

We cannot forget that millions of American
families lost their homes, and countless more
are still at risk. When you come to places I represent in Northern Ohio, you
can see the thousands of vacant structures that
these banks left to decay throughout indi-
vidual neighborhoods. The damage these
banks inflicted is incalculable.

This agreement is the largest joint federal-
state settlement ever obtained, and it is the re-
sult of unprecedented coordination between
various corners of the government. And, it
needs to be. One in five American families
with a mortgage owe more than the house is
actually worth today, by an average of
$50,000. The collective negative equity across
the nation is $700 billion.

For years, I have come to this floor urging
Congress to do more. One critical part of this
agreement is that it does not provide blanket
relief to those who committed their misdeeds.

While the ink is barely dry on this agreement,
the press is reporting that “Officials will also
be able to pursue any allegations of criminal
wrong doing.” And, this is very important. Ac-

According to the Justice Department, “the agree-
ment does not prevent any claims by any indi-
vidual borrowers who wish to bring their own
lawsuits.”

Yes this is an important step, but we must
remember the scope of the damage and the
magnitude of fraud that was committed. Much
work still remains.

During the past decade, we as a country
failed to take white collar crime seriously, and
we as a country are still dealing with the dam-
age that was done to our housing market. Al-
ready back during the Bush Administration,
the FBI testified before Congress that they
were seeing an epidemic in white collar crime
and that we did not have anywhere near
enough agents to deal with it. Well, history
has shown that we never provided the FBI
and other investigators and prosecutors with
the full resources they needed. During the
much smaller Savings and Loan Crisis of the
1980s, we set up a series of strike forces
based in 27 cities, staffed with 1,000 FBI
agents and forensic experts and dozens of
Federal prosecutors. We did not do that this
time around.

I have a bill that I have been asking for my colleagues to support, week in and week out. It is H.R. 3050, “The Financial Crisis Criminal
Investigation Act.” This bill would authorize an additional 1,000 FBI agents, a sufficient num-
ber of forensic experts, and additional employ-
ees by the Attorney General to prosecute vi-
lations of the law in the financial markets.

Like today’s announcement, we have seen
some progress in getting more FBI agents, but
we need to do much more. In last year’s appro-
priation, Congress made a bipartisan decision
to include funding for more than two hundred
additional agents. It’s good news, but we can-
not be soft on this kind of crime. Families,
neighborhoods, and whole communities were
victims.

Earlier this week, the New York Times re-
ported on what it described as a foreclosure
belt that runs through the heart of African
American homeownership in New York City. I
want to include this article in the record, be-
cause it details a very important element of
this foreclosure crisis.

The banks are giving more money to black New Yorkers making more than $68,000
are nearly five times as likely to hold high-in-

stake mortgage holders as whites of similar income, and their default rates are much higher. Now

a generation watches as its housing wealth is vaporized.

In Cleveland, we see neighborhoods struggling
to survive as well. In Cuyahoga County
alone, there now are an estimated 30,000 va-
cant structures. We see shocking pictures of
homes stripped of everything from the siding
to the kitchen sink even the window boxes.

We see homes that were once worth $100,000
stripped of their entire value. We see whole
communities that were victimized by the ac-
tions of Wall Street.

Just last month, the President announced
during the State of the Union a new working
group to look into mortgage fraud. It will co-
ordinate efforts between the FBI, the Justice
Department, and various states to go after
those on Wall Street who have perpetrated
fraud in the markets, using mortgage backed
securities. Yet another good step, but we have
a lot more work to do.

It is well past time for Wall Street to accept
liability for its role in the housing crisis.
Big Wall Street banks and the secondary mar-
ket made obscene profits during the 1990s
up to the market crash in 2008. During that
time, banks targeting communities, looking
for individuals to take on mortgages the banks
knew they could not afford. And then Wall
Street went looking to make fast money on in-
dividual American dreams and local mortgage
markets.

Those responsible did not care what
ultimately happened to families, communities,
or whole cities. And when the market col-
lapsed, the American taxpayer actually bailed
them out. Today’s settlement is big news, and
it’s well past time that Wall Street started to
pay up. But, we cannot forget that this story is
far from over, and our work is not over.

I think the civil rights aspect of what has
gone on is extraordinarily impor-
tant. I don’t want to overstep my time
boundaries here, Congressman ELLISON.
Do I have a couple of extra minutes in
this period or not?

Mr. ELLISON. Well, yes you do. But

May I ask a question before you con-
continue on?
Ms. KAPTUR. Please.
Mr. ELLISON. We may see as many as 10 million homes go into foreclosure from the beginning of this crisis to the end. How important to the average home owner is this settlement? Is it going to change anything?
I yield back to the gentlelady.
Ms. KAPTUR. I think what’s going to happen with this is, even though over a million homeowners are likely to be helped and several hundred thousand get some reimbursement, maybe an average of $2,000 per household, what’s going to happen is it’s going to precipitate more foreclosures as the system continues to progress. And that is a deep concern of mine because these banks have not been noted for treating customers well.
According to the Justice Department, however, the agreement does not prevent any claims by individual borrowers who wish to bring their own lawsuits. And I think it’s incumbent upon lawyers across this country, our Progressive Caucus, to look for legal remedies to continue to gain sweet justice for those who have been so harmed.
Mr. ELLISON. Reclaiming my time, now here’s the other thing. So we know that there may be 10 million people who lost their homes in foreclosure. Maybe a million will get help. That’s good, I hope they get it.
But has anybody gone to prison for mortgage schemes? I mean, here’s why. I want you to address this question, but let me lay it out just a tad for you.
So what we have here, we know, is that people were drawn in with high pressure tactics to get in a mortgage that they didn’t understand, and sometimes were even misstating the income. There are people who would say, look, I didn’t borrow that much money. I have no idea where that amount came from.
And then was a bunch of signing stuff that happened that people were not aware of. And that sort of skirted the reality.
Ms. KAPTUR. If the gentleman would yield, the robo-signing.
Mr. ELLISON. The robo-signing. That’s right.
And then another kind of amazing thing that happened was that people would underwrite mortgages, not based on the ability of the borrower to pay, but based on their ability to sell that mortgage into the secondary market. And then it would get repackaged into a mortgage-backed security which, somehow miraculously, you know, these things were stated income, no income, no job loans, falsified in income for these things, made it into a mortgage-backed security which then was rated as triple A in many cases.
There’s got to be some fraud and misrepresentation on these. And some even seem like the system was full of misrepresentation, fraud and all that. Have we investigated this thing to the point where there are people to hold accountable before we’re settling this case?
Ms. KAPTUR. Well, you know what’s important to point out. You asked a critical question because this settlement does not deal with those that originated mortgages. It only deals with those mortgages that were held in the secondary market. And so it doesn’t really black to the perpetrators of the scheme, and that’s why I’m saying this is an important first step.
We also need, in every city, as we had during the bank crisis, strike forces of FBI agents. There were maybe 55 agents working on this. We tried to boost that number to 200. During the S&L crisis we had 1,000. We need accounting and forensic experts to piece together what happened in community after community.
Congressman, in my area there were liars loans that were targeted to senior citizens and the disabled.
Mr. ELLISON. Liars loans?
Ms. KAPTUR. Liars loans. They would go up to a senior citizen, a woman after she’d lost her husband and they would say, ma’am, you know, we feel very sorry for you, but we want you to know we have a deal. You’ll never have to worry about your financial future again. And they got her to cash out her equity, and they put one of these balloon payments on there, so she ended up having to pay more than she could afford 10 years out.
This is what happened to people. There’s so much crime inside of what was done in community after community. And what’s been happening at the FBI is they have not been able to beef up their Financial Fraud Division, and they’ve been held—that’s why you haven’t had the people arrested.
Mr. ELLISON. Reclaiming my time, I want to ask you a question about that.
So over the course of the last several months, our friends on the Republican side of the aisle—I’m just being honest, and I don’t really agree with this—have been trumpeting this idea, the government’s too big. We’ve got to cut. We’ve got to cut. We just have to cut. Cut, cut, cut, cut, just cut. Scale it back, shrink it down, make it smaller. Get rid of government.
One iconic conservative figure said we’ve got to shrink government to the size where you can drown it in a bathtub.
Now, if we were to shrink government to the size where we can drown it in a bathtub, where are we going to get these lawyers and investigators to investigate mortgage fraud?
Ms. KAPTUR. There will be no justice.
The Congress has pointed out something that is extraordinarily important. There are those who seek to harm the American people, whether it’s through financial crimes or those who are true enemies of our Republic; and we have to be strong on all fronts.
In this arena of prosecution, we have been very weak.
Mr. ELLISON. Have we really investigated the extent of the wrongdoing before we settled the case? I mean, I’m glad there has been a settlement. I think it brings justice to some people. I suspect it will bring justice to some people. I hope so. But my question is, Do we know the extent of the harm of the bad actors?
Here’s the thing. The originators might not be part of this, but these secondary-market actors, in my view, are culpable, too, because they had to know if they read the mortgages, if they read the documentation, they had to say, Wait a minute, something’s fishy here. We’ve got a 72-year-old retired widow with a stated income of $160,000 a year or $500,000 a year. It just doesn’t make sense that there would be that many widows earning that kind of income.
Now, those might be someone who have that kind of wealth, but that kind of income when they’re in their retirement years? There’s got to be something fishy here.
Ms. KAPTUR. It reminds me of baseball. You’ve got some players who are out on the field. They’re saying, Well, you’ve got to hold the shortstop accountable for a little bit of what he did when he’s out there on the field. But you’ve got the team coach sitting in the dugout. Right? They haven’t touched the coach. They haven’t even touched all the players yet, and they sure haven’t seen the one who’s calling all the plays.
So what they’re dealing with here are some of the mortgages in the secondary market; they haven’t touched the coaches. They haven’t touched the originators on the mortgages in this particular settlement.
In terms of you said how much does it help, the hole to our economy is several trillion dollars, counting unemployment and lost revenues and so forth. Overall, the TARP was $700 billion. I didn’t support it. This settlement might be $25 billion. It’s had a gap about that large. So when you look at the settlement, it’s important, it’s a victory. But we’ve got to take the next step. We’ve got to get the first baseman, the third baseman, the catcher, the batter, and then we’ve got to go after the coaches in the dugout.
Mr. ELLISON. You mentioned the S&L crisis. In the S&L crisis, we had a thousand Justice Department lawyers going after this through 30,000 Justice Department lawyers going after this recent housing foreclosure crisis. Can we even compete with some of these titans who the Justice Department has to deal with that small number?
Ms. KAPTUR. I’ll tell you, Congress-man, one thing we need to do is look at some of the people that sit over at the Justice Department and where they used to work before they got there, because I think one of the reasons that prosecution isn’t occurring at the level that it should is there is some paralysis in some places because of those
who are able to block a play. They’re able to block prosecution.

We have a bill, H.R. 3050, the Financial Crisis Criminal Investigation Act, that would authorize an additional 1,000 FBI agents. That’s just as many as we had during the S&L crisis, which is much smaller than what we have today.

But across our cities, across our regions, we don’t have the agents in place to go after the crimes we’ve been talking about.

Mr. ELLISON. I would like to ask the gentlelady from Ohio, we’ve talked about who lost. Homeowners lost, even homeowners who never lost their home in foreclosure and never missed a payment, their home value dropped; a lot of people lost. But did some people really make a lot of money off of this crisis?

Ms. KAPTUR. They made the highest salaries in the country, bonuses. We didn’t take a penny away. I had a bill to take 100 percent of the bonuses away. Guess what? They never bring it on the floor. We couldn’t even take the bonuses away, much less their yachts, their seven houses, all the fancy cars. They’re living a great life, and they believe they are immune from prosecution.

Mr. ELLISON. So far they’re right.

Ms. KAPTUR. It’s not a pretty picture.

Mr. ELLISON. Many, many people suffered in this foreclosure crisis. It’s also that cities suffered as cities were required—they used to have a tax-paying citizen in the home. Now, after the foreclosure with all of this stated income and the dishonesty and everything, they have no one living there, they have weeds growing, dead dogs there, they have an attractive nuisance where, you know, sometimes awful things happen in those abandoned houses. So cities have seen their coffers bleeding away from school districts, property tax revenue of cities which they were paying a mortgage loan or a thing the American people can do is if they’s being held harmless, and you know what, they are.

Mr. ELLISON. What happens is they profit from this mortgage fraud. They make money they make the excuses for securitize these bad mortgages. They make exorbitant money as they collected on these credit default swaps as these mortgage-backed securities went bad. Various people made good of money, bonuses. They had to just boggle the mind how big they are.

But then, see, your point is interesting because they don’t see the damage that they caused because they have—some of them even helicopter from their banks offices. Others of them are in limousines just flying down the highway back to their country villa from their downtown Manhattan skyscraper, so they don’t see the damage. They don’t drive Cleveland and Detroit and Minneapolis and other places where whole neighborhoods have been sucked out because of the damaging behavior that they engaged in.

I think there should be important after they served their jail time to come and be with the people who they harmed and have to explain the reason that we have created and exacerbated homelessness is because we just love money that much. Having two or three yachts and a couple of boats wasn’t good enough. We needed more and more and more; and that’s why we wrecked your city, damaged your neighborhood, and put you out of your home.

Ms. KAPTUR. What this group did was they actually have threatened the entire system of capital formation in this country because they have disrupted the measurement of value at the local parcel level. So our normal system of recording deeds and value in Minnesota, in Ohio, in the window as they went to the MERS system, the electric registration system.

Mr. ELLISON. Right.

Ms. KAPTUR. They went over the heads of all of our local property recording offices, our titling offices. That is at the heart of capitalism, itself. You would think there would be a roar over the economic interests in this country, saying, Hey, you fellows, you almost brought down capitalism. You almost brought down the whole market economy.

And they actually did if you see the damage still rippling through this country. Yet they’re not being prosecuted? Think about that.

Mr. ELLISON. I’ll tell you, it’s all sort of an interlocking mess. I mean, we’ve been told since the days that Milton Friedman first hit the scene that regulations were a problem in our economy and that having rules to protect health and safety and fairness simply were disrupting the market and that we needed to get rid of these job-killing regulations—what our Republican friends called them all the time—rather than commonsense protections to protect people.

So we got rid of those things. We didn’t enforce the laws that we already did have. We simply let the point where, because we didn’t want to pay any taxes, government couldn’t even afford itself, so we didn’t have the people to make sure that consumers were being treated fairly, that mortgages were fair and that rules were being abided by. Then, as the technology and everything changed, we weren’t able to change regulation so that it would keep up to date with the necessity of the market.

What I have in mind now is an heroic figure named Benjamin Born, who tried to tell them that this OPEC “insurance” market—I put “insurance” in quotes—this credit default swap market, needed to be regulated. Instead of regulating it, we actually passed a bill in 1999 that it would not be regulated. Then as a result, when the music stopped in 2008, we were at the mercy of—what?—$54 trillion.

Ms. KAPTUR. When that bill was passed, I would venture to say 99 percent of the Members of Congress didn’t know it was buried in an omnibus appropriations bill. Nobody even knew it was in there. So that was sort of the final
straw that broke the camel's back. I wanted to say to the gentleman that I'm sure in Minnesota—and you can verify this for me—just like in Ohio, business after business tells me, MARCY, we can't get a loan.

Mr. ELLISON. Right. That's right.

Ms. KAPTUR. The normal banking system isn't working, and what they're trying to do at the Federal level is to focus attention just on the secondary market activity rather than on the loan originators. So they're saying, Oh, the problem was at Fannie Mae and Freddie Mac.

Fannie Mae and Freddie Mac were the second in line.

Mr. ELLISON. Right.

Ms. KAPTUR. The first in line were the originators, the very institutions we're talking about here: Citicorp; Bank of America; Goldman Sachs is now involved in that; Wells Fargo; HSBC; UBS. It's all these institutions, and they originated through their intermediaries, Countrywide, which was involved. When the bad loan was made, they then sold it to the secondary market. So now most of the prosecution has been of the secondary market activities, which really soured in 2006, but the real perpetrators started well over a decade earlier. That's where we need to go.

Mr. ELLISON. Yes.

Ms. KAPTUR. Which is to the originators who created the schemes that allowed, as you say, the lid to be blown off the regulation of derivatives and of these fancy schemes.

Right now, yes, we're trying to get ahold of the secondary market activity, but they only received the ball from the original passer—I call them the “coach”—the ones who were actually developing the game plan, and you have to go back a decade. That's why we need robust prosecution at the FBI.

Mr. ELLISON. Absolutely.

Does the gentlelady have any more news to report about the settlement?

Ms. KAPTUR. All I know is that it's big news and that we're receiving it well. It's an important first step. I think it's like somebody just hit a solid first base hit, and we've got some other bases to go around until we get to home plate.

I really want to thank the gentleman very much for allowing me time today as we try to repair the Republic. This is a very critical step, I want to thank the Obama administration and wish them on to do even better. Let's get those agents hired. I hope the President's budget, when it comes up here, will allow us to hire 1,000 agents at the FBI in order to get this job done, not just in the secondary market, but to go after the originators.

Mr. ELLISON. If the gentlelady has just a few more minutes, if I may, I would like to pose one more question.

Ms. KAPTUR. Absolutely.

Mr. ELLISON. We've heard that we've had about 23 months of private sector job growth. In January, the job growth numbers were very good, and we're happy to receive those. Unemployment has ticked down to about 8.3 percent, so it looks like the trajectory of the economy is going in the right direction.

But, until we address this housing problem, we still have a drag on the economy?

Ms. KAPTUR. I am so happy the gentleman has asked that question.

I have served on the Housing committee for my entire career in Congress. There has been no modern recovery in our country that has not been led by housing development. If you talk to Realtors, if you talk to homebuilders, you'll see how poor that market is right now. We have to fix the housing sector.

On the part of the majority here, there haven't been any serious hearings on this. Have we gone out to the country? We used to go out to the country. When there is a crisis, you go out to the people. If a company loses a part of its southern edge, we go down there. We try to help. We try to figure out what's going on. On this housing problem, there has been such timid action, almost no action, by this Congress. We've just let it fester and hemorrhage and grow.

History will show this was one of the most irresponsible periods that damaged our housing stock from coast to coast, and we will be paying for it for years to come—in shattered lives, in broken families. If I chaired the committee, we'd be all over the country. We wouldn't be sitting here in Washington doing nothing. We would be going out to these communities.

Mr. ELLISON. Our Republican friends, who are in the majority, they tell us: Let laissez-faire capitalism take over. Let the housing market bottom out. Government shouldn't do anything. Just let all home value go down to nothing, and eventually somebody will buy those houses that are just sitting there, idle, after people have been unemployed and can't afford them and have to be foreclosed on. They tell us we should just let laissez-faire with that. They also tell us that we should not put any regulations in place and that we should cut taxes so that the government doesn't have enough revenue to protect the people.

To me, this crisis seems like the product of a philosophy—that the rich people who created this—and that the poor have too much. This seems like a culmination of a philosophy that for the people, through their democratic institutions to hold business accountable, to play fairly and by the rules, has seen its full manifestation. This is the kind of this Ayn Rand-type philosophy has brought us to financial ruin, and they won't even admit that.

We haven't seen any hearings on how to address this for there crisis because they believe in just letting the market bottom out. I mean, even though there have been 23 months of private sector job growth, you never hear them say anything good about that; and while we're adding private sector jobs, they're trying to cut public sector jobs.

What is really going on here? Why isn't our majority addressing the jobs crisis? Their jobs program seems to be to attack the EPA. They're basically making the case that Americans who want to breathe and drink clean water are the problem of our economy. What is this laissez-faire get the government out? no taxes for the rich? What has this philosophy brought us to?

Ms. KAPTUR. I would say to the gentleman that I think what it has brought us to is of only being for the 1 percent because, if you look at what is going on, they have the big banks confiscating private property. In other words, where people had equity, they took it away; right? People walked away from their homes. They didn't get legal advice. They had a leg to stand on, but they were so afraid that ordinary families just walked away from their homes, and many of them could still be in their homes. So they're confiscating private property.

Then, at the Federal level, they want to take and cash out public property that belongs to the American people: in our parks—right?—and in our lands. Think about what they're talking about.

Mr. ELLISON. Our Republican friends, who are in the majority, they tell us: Let laissez-faire capitalism take over. Let the housing market bottom out. Government shouldn't do anything. Just let all home value go down to nothing, and eventually somebody will buy those houses that are just sitting there, idle, after people have been unemployed and can't afford them and have to be foreclosed on. They tell us we should just let laissez-faire with that. They also tell us that we should not put any regulations in place and that we should cut taxes so that the government doesn't have enough revenue to protect the people.

To me, this crisis seems like the product of a philosophy—that the rich people who created this—and that the poor have too much. This seems like a culmination of a philosophy that for the people, through their democratic institutions to hold business accountable, to play fairly and by the rules, has seen its full manifestation. This is the kind of this Ayn Rand-type philosophy has brought us to financial ruin, and they won't even admit that.

We haven't seen any hearings on how to address this for there crisis because they believe in just letting the market bottom out. I mean, even though there have been 23 months of private sector job growth, you never
We are trying to make progress on the dream, the progress of full inclusion, full employment, respecting our environment, believing in science. This is what the Progressive Caucus is all about. We’re not trying to conserve the old way where only some people had privilege and opportunity. We’re trying to make progress. So this is what the Progressive Caucus is all about.

The Progressive Caucus believes, of course, there should be a free market in America; but there also needs to be a public way to do some things. Let’s embrace the progressive message. Let’s make progress on the American Dream. Let’s make Americans, and stop trying to relegate the gay community for failures in the American way. Stop heaping hate and scorn on new Americans, and stop trying to relegate the American Jobs Act. Pass the infrastructure bank bill. Do something to get this country together. Address the foreclosure crisis...Stop wishing up Americans versus Americans, using loaded terms like “food stamp President,” which is racial code. Stop blaming the gay community for failures in people’s marriages. It’s not their fault. Stop heaping hate and scorn on new Americans, and try to create women to second-class citizenship.

Let’s embrace the fullness of what it means to be an American. Let’s make progress on the American Dream. Let’s embrace the progressive message.

And I just want to say, Madam Speaker, I yield back the balance of my time.

RECESS APPOINTMENTS

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 5, 2011, the gentleman from Georgia (Mr. WOODALL) is recognized for 30 minutes.

Mr. WOODALL. Madam Speaker, I very much appreciate the time, and I appreciate being able to follow my colleagues from the Progressive Caucus.

There is not a lot that the Progressive Caucus works for in terms of their techniques that I agree with. But there is so much that the caucus works for in terms of its overall goals for America that I agree with. And I think that that is a story that does not get told as often as it should here in this House. We can very often have common goals but have very different ways that we seek to achieve those goals, Madam Speaker.

I think the way that we achieve those goals is important. It’s important. As my colleague said when he was speaking on behalf of the Progressive Caucus, America voted in 2008. America voted in 2010. And in 2008, they elected a President. In 2010, they elected a new Congress. And powers divided America. Powers divided America. We have Democrats controlling the White House. We have Democrats controlling the Senate. We have Republicans controlling the U.S. House of Representatives. And we have the American people who should be controlling all three of those things.

As we were coming into this new year, Madam Speaker, I was at home with my family back in Georgia, and I heard the news that the President of the United States had decided to appoint members to boards, to positions, to the Consumer Financial Protection Bureau, to the National Labor Relations Board, to appoint positions that require Senate confirmation, to name people to those positions without getting that Senate confirmation, saying that if I can’t do it with the Senate, I’ll just skip the Senate.

And I don’t mind telling you, Madam Speaker, that really cast a damper on my Christmas season. We were coming into this new year—a new year where, as my friends from the Progressive Caucus have just laid out, we have challenge after challenge after challenge after challenge that we, as Americans, must face together, that we must come together in order to solve.

And we’re coming into this new year, an opportunity to make that happen. And I had high hopes. I had high hopes that despite this being an election year and I have a lot of what’s worst about Washington, DC. Despite this being an election year, despite there being divided government in Washington, DC, I thought, We are going to have an opportunity because the challenges are so great to come together on behalf of all of our constituencies to move this Nation forward.

And I wondered because, even though you are as new, as I am, Madam Speaker, we’ve seen in years past that the closer you get to election, the crazier the things get in Congress. The closer you get to an election, sadly, the more people try to do the things that are not in the best interest of every- body.

Despite this being an election year, despite this being an election year for the American people but if you cannot, we want the President to have the power to make recess appointments. The President shall have the power to fill all vacancies that may happen during the recess of the Senate, by granting commissions which shall expire at the end of their next session.

This is the recess appoint authority. Madam Speaker. You’ve heard in the Senate that the President has the power to make recess appointments. The President shall have the power to fill all vacancies that may happen during the recess of the Senate. Undisputed. Undisputed. Madam Speaker: article II, section 2, clause 3.

Article II, section 2, clause 3: The President shall have power by and with the advice and consent of the Senate to make treaties. And he shall nominate, and by and with the advice and consent of the Senate, shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided.

The President shall have the power to make appointments if the Senate is in recess. If the Senate is not, it has no power—the President only has the power—the President shall, the Constitution says, nominate by and with the advice and consent of the United States Senate. That’s the way our system works, Madam Speaker. That’s the rule book that has guided this country for 225 years. The President has the power to appoint unelected leaders, unelected leaders to lead this Nation. But he can do so only with the advice and consent of the Senate.

Now, back in the day, Madam Speaker—I know you are from the northern part of the east coast. I’m from the southern part of the east coast.

□ 1320

It used to take us a long time to get to Washington, DC. I’m 660 miles away from the Capital down in Georgia. If I had to get on my horse and ride to the United States Capital, it would take quite a few days to do it. And understanding that the business of the American people had to continue, our Founding Fathers said if the Senate cannot be reconvened, if the Senate is too far away to consult, and your first duty is to consult, but if you cannot, we want the country to go on.

Well, that’s been the way it’s been in this country, Madam Speaker, as you know, for hundreds upon hundreds of years. Until now. Until now, when for the very first time, when for the very first time this President of the United States said, I can’t get my nominees through the Democratic Senate, so I’m going to go around the Senate. And he made appointments without the advice and consent of the Senate.
HARRY REID knew, Madam Speaker, that the President could not not under the laws that govern our plan, under the rule book that is the United States Constitution, that he could not make appointments if HARRY REID kept the Senate in session continually through Thanksgiving and Christmas, the same pro forma session that HARRY REID said clearly would prevent constitutionally the President from making any appointments.

And what did this President do? He made four. For the first time in American history, he made four. And he said, you know what, it’s been so hard to work with the Senate. This whole recess appointment business, I’m going to skip all the swearing in, we’re going to stay in a pro forma session not just through Christmas, but through the Christmas holidays to make certain that the President seeks advice and consent of the Senate. You’re trying to go around us; we will not allow it. We’re afraid you’re going to do it when we go home for Thanksgiving. Instead of going on recess, instead of recessing the Senate, we’re going to stay in pro forma session not just through Thanksgiving, but through the Christmas holidays to make certain that the President seeks advice and consent of the Senate.

That sounds like a speech a Republican would have given, Madam Speaker, to make sure the President of the United States followed the Constitution, but it’s not. It’s not. This is actually a page from the CONGRESSIONAL RECORD:

HARRY REID, same pro forma session that HARRY REID said clearly would prevent constitutionally the President from making any appointments.

And what did this President do? He made four. For the first time in American history, he made four. And he said, you know what, it’s been so hard to work with the Senate. This whole recess appointment business, I’m going to skip all the swearing in, we’re going to stay in a pro forma session not just through Christmas, but through the Christmas holidays to make certain that the President seeks advice and consent of the Senate. You’re trying to go around us; we will not allow it. We’re afraid you’re going to do it when we go home for Thanksgiving. Instead of going on recess, instead of recessing the Senate, we’re going to stay in pro forma session not just through Thanksgiving, but through the Christmas holidays to make certain that the President seeks advice and consent of the Senate.

That sounds like a speech a Republican would have given, Madam Speaker, to make sure the President of the United States followed the Constitution, but it’s not. It’s not.

These are the words that then-Senate Majority Leader HARRY REID spoke to President Bush, telling President Bush the law of the land is you can’t do it without us unless we’re in recess. We’re not going to go on recess. We’re staying here in pro forma session. And, in fact, the majority leader and still now majority leader, HARRY REID in the United States Senate, kept the Senate in session, pro forma session every day until the end of President Bush’s term and no recess appointments were ever made. Why, Madam Speaker? Because the Senate never went on recess.

HARRY REID, now Mr. President, the Senate will be coming in for pro forma session during the Thanksgiving holiday to prevent recess appointments. That’s how he opened his speech that day. He closed his speech that day by saying: As a result, I’m keeping the Senate in pro forma session to prevent recess appointments until we get this process back on track.

HARRY REID knew, Madam Speaker, that the President could not not under the laws that govern our plan, under the rule book that is the United States Constitution, that he could not make appointments if HARRY REID kept the Senate in session continually through Thanksgiving and Christmas, the same pro forma session that HARRY REID said clearly would prevent constitutionally the President from making any appointments.

HARRY REID, now Mr. President, the Senate will be coming in for pro forma session during the Thanksgiving holiday to prevent recess appointments. That’s how he opened his speech that day. He closed his speech that day by saying: As a result, I’m keeping the Senate in pro forma session to prevent recess appointments until we get this process back on track.
this town. And when, We the People speak, Washington must listen. All under the rules, the rules of the United States Constitution.

President Obama knew that when he was elected. Here’s what he said—this is from his election night victory speech in 2008 when President Obama said this: Resist the temptation to fall back on the same partisanship and pettiness and immaturity that has poisoned our politics for far too long. He was right when he said it. Resist the temptation to fall back on the same partisanship and pettiness and immaturity that has poisoned our politics for far too long. That was his victory night speech, Madam Speaker.

Before this Christmas season, when he decided he can’t work with the Senate, he’s going to go around the Senate; when he decided if he couldn’t pass it with the people’s representatives, he’d just skip the people’s representatives, he said, I’m going to choose a new path.

But in December of last year, Madam Speaker, after 3 years as our President, when asked about the partisan tone that the rhetoric was taking, he said this: It was going to take more than a year, couldn’t do it in 2 years. It was going to take more than one term, probably takes more than one President.

On victory night, Madam Speaker, he said he knew he was going to come to America from the legislature of partisanship, pettiness, and immaturity. In December of 2011, he said that it was just going to be too hard, couldn’t do it in a year, couldn’t do it in 2 years, couldn’t do it in a whole term, probably can’t even do it in one presidency.

Madam Speaker, his sights are set too low. He can, if he has the courage to do it. August of 2008, right before the election, Madam Speaker, President Obama says this as he announces his vice presidential candidate: After decades of steady work across the aisle, I know that he’ll—talking about Vice President BIDEN—be able to help me turn the page on the ugly partisanship in Washington so we can bring Democrats and Republicans together to pass an agenda that works for the American people.

Madam Speaker, he knows, he knows in his heart what the right thing to do is. He knows. He wants to move past, turn the page, he says he will. Now he is going to say that he can’t agree on that he can’t agree on that he can’t agree. The right thing is to agree on the right thing. The right thing is the right thing.

This year, he’s decided for the first time in American history, if he can’t get along with Democrats and Republicans in the Senate, he’ll just go around them. It doesn’t matter that the constitutional rule book says no. He has somewhere he wants to go. He wants to give up, the burden of responsibility—the pleasure of responsibility—of representing the men and women of Illinois, he knew ends-justify-the-means mentality. He must rise above it, he said. We must answer to the American people, not just the ones wearing our party label.

He was right, Madam Speaker. He was right then. He was right before the election. He was right after the election. He is right today. What has happened in 3 years of his Presidency that he knew where we could go as a Nation, he knew where we should go as a Nation. He knew that the rule book that has been guiding us for over 200 years would get us through to better days tomorrow. He knew it, and he’s forgotten it. And we’re on the brink of a constitutional crisis.

Madam Speaker, I have here a quote from Senator CHUCK SCHUMER: You don’t change the rules in the middle of the game just because you can’t get your way. Our Constitution, our system of laws, is too hallowed, is too important to do that. Democratic Senator from New York, CHUCK SCHUMER.

Madam Speaker, I’ve said it as long as I’ve been here—and you and I have been here just over 1 year—truth does not have a Republican or Democratic label after it. Truth is truth, right is right, and wrong is wrong. The President knows what’s wrong. He knows it as a Senator. He knows it as a President. His colleagues in the Senate know what’s wrong. You don’t change the rules in the middle of the game just because you can’t get your way. Our
Constitution, our system of laws, is too hallowed, is too important to do that.

CHUCK SCHUMER was right, Madam Speaker. There’s no process in this Constitution for reining in that Executive that just throws the Constitution aside whenever he wants. It’s the only one. We will see. We’re just going to go down there. We can have a picket, but that does make any difference.

He knew it. He knew it was wrong. He knew it as a candidate. He knew it once he was elected. He knew it when he realized that the diesel fuels did not do it. Why? Because the ends justified his means.

Madam Speaker, all we are as a Nation comes from the very few words that make up this United States Constitution—Constitution on your bedside, Bible on your bedside, those important works of American history by your bedside, Madam Speaker. We have a national identity, and that national identity is defined by having one set of rules that apply to everybody equally.

Madam Speaker, I’m grateful to you for making this time available to me today. I encourage every American to look at these facts and judge for themselves what the next step is on our constitutional journey.

I yield back the balance of my time.

OIL CRISIS IN AMERICA

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 5, 2011, the gentleman from Maryland (Mr. BARTLETT) is recognized for 30 minutes.

Mr. BARTLETT. Madam Speaker, I want to begin today with a chart that I usually use near the end of this presentation when I’m talking to an audience. I frequently don’t have time to develop the chart as fully as one might, so I thought that today I would begin with this chart.

As I said before, if you had only one chart that you could look at to get some idea as to where we are relative to the liquid fuel situation in the world, this would be the chart.

Let me first make a comment or two about energy in general. There’s a lot of discussion of energy. Sometimes we talk about the various kinds of energy as if they were interchangeable. We will talk about electricity. We will talk about natural gas, and we will talk about oil. When we have a sudden increase supply of one—natural gas today—the assumption is made by some that, gee, we then don’t have a problem with oil, do we, because we’ve had a problem with oil.

Now, for some uses these energy sources are fungible, they’re exchangeable, and you can use one or the other. For instance, if you want to ride in a bus, we used to have buses that had a trolley on top and wires up there, and they were run with electricity. You see them run with natural gas, and most of them are run with a petroleum product that comes from oil. So with proper engineering, you can use any of these energy sources to run a bus. And streetcars, of course, were a bus on rails, and we’ve taken those out of most of our cities now.

But you will never run an airplane on anything but some product from oil. You cannot possibly get enough energy out of electricity or natural gas, those molecules are very small and they don’t like each other at all. They try to get as far apart as possible, so we squeeze on them to put them close together and under some pressure, and the ones that can’t get them to liquify so that we can get any concentrated energy source there. So for our airplanes, for instance, we’re stuck with some product from oil.

For automobiles, we could certainly run them on electricity. We can certainly run them on natural gas. We now run most of them—about 97 percent of our transportation comes from oil. But to do that, we have to make a lot of changes in engineering and manufacturing. It’s an inconvenience, and it takes a long while to do that. The fleet out there runs about 16 to 18 years before you turn the fleet over, so it would be a long while before we could introduce a meaningful number of cars running on something other than some product of oil. Then we have to develop the infrastructure to support that.

We have been, now, 100 years in this country developing our current infrastructure. In this country, in the world, we are finding the oil. We are developing the fields for pumping the oil. We are transporting the oil. We’re refining it. We’re hauling it to the service stations. And there are millions of them around the country, wherever it’s convenient and customers will come there and the owner can make a profit. One might note that government was hardly involved at all in any of these activities. It was the marketplace that drove this. But today we’re going to be talking about oil.

We face a special crisis in oil; and it’s not there in natural gas, and it’s not there in electricity. For those who would have you believe that, because we can put in more nuclear power plants and wind and solar and micro hydropower, we don’t have to worry about oil because we can do it with electricity or natural gas, we can do it with natural gas; but we cannot change that quickly to avoid a crisis with oil if, indeed, we can’t find enough oil to meet our demands.

Well, this is the one chart that I told you that I would lay out the chart this way. This would be the one that would tell you the most about where we’ve come from and where we’re going with oil. This is billions of barrels per year that have been discovered here. These are the years in which they have been discovered. So I lay out the bars here to indicate the volume of that discovery.

You can see that we started discovering it way back in the thirties a little bit, and then a bunch in the forties; and, wow, the fifties, the sixties, the seventies and even into the eighties we were discovering oil.

If you add up all of these bars here, you get the total amount of oil that the world has found, and that amount that we have found is represented by this heavy dark line here. The amount that we’ve used is the same as the amount that we’ve produced because we’re not storing anywhere any meaningful quantities of oil. So the production and consumption rate are essentially the same thing.

There are several interesting things about this chart. Notice that from about the 1970s on, we have found less and less and less oil. And that was while we had a greater and greater interest in finding oil because we had a greater and greater use for oil.

The dark line here shows our use rate, and you notice that it was increasing exponentially up through the last number on your license plate, and there were long lines at the service stations, and some disagreements occurred in those lines. Had this curve continued, and you can extrapolate it, it would have come out through the top of this graph. But a very fortuitous thing happened. We didn’t think it was fortuitous at the time. It was anything but the time, but it was the Arab oil embargo. And I can remember that you went on even, odd days, the last number on your license plate, and there were long lines at the service stations, and some disagreements occurred in those lines. It was a difficult time for America. But that woke us up.

By the way, this was only a temporary disruption of the supply of oil because they just decided because they did not like our friendship for Israel that they weren’t going to ship us the oil. There was plenty of oil to ship us, and we knew it would be there after this temporary crisis.

But it did wake us up. It reminded us that, gee, we had better be somewhat more provident in our use. And so we set about being more efficient in the way we use this energy. A lot of things are more efficient today than they were then, in both the use of oil and electricity. For instance, your air conditioner is probably three times as efficient today as it was then, so you’re using less electricity, relatively, now than you were then.

We became more efficient in our use of oil. You notice there was a little reduction because of the Arab embargo in the eighties there, and now the growth rate is slower. That’s very fortunate because now the reserves that we have will last longer.

Well, this is the one chart that I told you that I would lay out the chart this way. This would be the one that would tell you the most about where we’ve come from and where we’re going with oil. This is billions of barrels per year that have been discovered here. These are the years in which they have been discovered. So I lay out the bars here to indicate the volume of that discovery.

You can see that we started discovering it way back in the thirties a little bit, and then a bunch in the forties; and, wow, the fifties, the sixties, the seventies and even into the eighties we were discovering oil.

If you add up all of these bars here, you get the total amount of oil that the world has found, and that amount that we have found is represented by this heavy dark line here. The amount that we’ve used is the same as the amount that we’ve produced because we’re not storing anywhere any meaningful quantities of oil. So the production and consumption rate are essentially the same thing.

There are several interesting things about this chart. Notice that from about the 1970s on, we have found less and less and less oil. And that was while we had a greater and greater interest in finding oil because we had a greater and greater use for oil.

The dark line here shows our use rate, and you notice that it was increasing exponentially up through the last number on your license plate, and there were long lines at the service stations, and some disagreements occurred in those lines. Had this curve continued, and you can extrapolate it, it would have come out through the top of this graph. But a very fortuitous thing happened. We didn’t think it was fortuitous at the time. It was anything but the time, but it was the Arab oil embargo. And I can remember that you went on even, odd days, the last number on your license plate, and there were long lines at the service stations, and some disagreements occurred in those lines. It was a difficult time for America. But that woke us up.

By the way, this was only a temporary disruption of the supply of oil because they just decided because they did not like our friendship for Israel that they weren’t going to ship us the oil. There was plenty of oil to ship us, and we knew it would be there after this temporary crisis.

But it did wake us up. It reminded us that, gee, we had better be somewhat more provident in our use. And so we set about being more efficient in the way we use this energy. A lot of things are more efficient today than they were then, in both the use of oil and electricity. For instance, your air conditioner is probably three times as efficient today as it was then, so you’re using less electricity, relatively, now than you were then.

We became more efficient in our use of oil. You notice there was a little reduction because of the Arab embargo in the eighties there, and now the growth rate is slower. That’s very fortunate because now the reserves that we have will last longer.

Notice that at about 1980, we, for the first time, started using more oil than we found. But no matter, because we have a lot of reserves. You see, everything above this curve represents reserves. All that we have used is what is under the curve, so above the curve represents reserves that we can use. And so we can run through this chart at the current consumption rate and it will last us for a long time after our current reserves run out.
And so now we have been dipping into these reserves back here to find the oil that is above the oil that we've found to meet our demands for it. And by and by, these reserves, of course, will be exhausted. And so this was a prognostication brought to you on February 10, 2012, 12 years ago, of M. King Hubbert. And as he was going to reach maximum oil production, and then production of oil would fall off after that.

Now, it's anybody's guess as to how much oil we will find, and we're finding some meaningful fields of oil. If you find a 1 billion field of oil, that's a pretty big field of oil. So where is that on this chart? Well, this is 10 billion here, so 1 billion is way down here, just barely gets off the baseline here.

A really, really big find of oil is 10 billion barrels of oil. That's here. We've had big discoveries that we're finding today are dwarfed by the discoveries that we found a number of years ago. One of these discoveries was the great Ghawar oil field, the granddaddy of all oil fields in Saudi Arabia, which has been pumping oil now for 50 years, and we don't know how many years yet before exhaustion in that field.

By the way, that 10 billion barrels of oil that you find will last our world just exactly 120 days because every 12 days we use a billion barrels of oil. This is about sixth grade arithmetic. We're using about 84 million barrels of oil a day, and if you multiply that by 12, it's about 1,000, and 1,000 million is a billion. So about every 12 days we use a billion barrels of oil. That means that a huge oil discovery today will last the world 120 days.

Now, what happens in the future, you can draw that curve anyway you wish by what postulate as to what we are going to find. You can actually have that curve going up, and some do, if you think that we're going to find enough oil to make that happen.

But this is the rate at which we've been finding—and remember that these improved technologies for finding oil. We had been found huge amounts of oil, more than we were using, he was relegated to the lunatic fringe. And when in 1970 it happened, and when you were at 1980 and looked back, you really knew that it happened, didn't you, because you could look back and say, wow, 1970 was the peak, wasn't it? We're falling off the peak now, so M. King Hubbert was right.

Now, he did not include in his predictions oil from Alaska or the Gulf of Mexico because he looked at only the lower 48. You notice that huge find in Alaska, we have a 4-foot pipeline up there where the pipeline begins, and we are producing a fourth of all the oil in our country that flowed through that pipeline.

So it made a little blip here in the downhill slide. Then you remember not all that many years ago those fabled discoveries of oil in the Gulf of Mexico. You see it here. It's the little yellow here that made barely a ripple in the top line.

Well, this is the experience of the United States. Today we have drilled even more oil wells than all the rest of the world put together. We're the most creative, innovative society in the world. We could not reverse this decline that M. King Hubbert said was going to happen.

He also predicted that at just about this time we would reach our maximum oil production. And as he was saying this, the price finally went up to $147 a barrel, and the economy with some help by the housing crisis in our country, came crashing down and oil dropped down to I think a bit below $40 a barrel. This has been a steady climb as the economy picked up from that time on, and oil, as you know now, is about $100 a barrel.

The next chart here, and I want you to remember this one because you're not going to find it on the Internet when you go there. These both appear on the Internet. It's where we got them. These are charts produced by the IEA, the International Energy Association. This was called the World Energy Outlook. This top one here they did in 2008. I want you to note some interesting things about this chart.

The dark blue here is the production of oil, what we call conventional oil. If we went back to the other side of the Chamber here and started 100 years ago, you'd start at zero and then it would come up and up and up, slowly up, always producing just the amount of oil that the world wanted to use because it was the era and we could produce it.

So, we always met the demands for the use of oil in the world. It was 10 cents a barrel when it started, and within fairly recent memory it was $10 a barrel, really pretty cheap compared to $100 a barrel, isn't it?

So, these are saying that now this conventional oil that we've been pumping is going to reach a peak here. We reached that peak in our country in 1970, remember. After we reach that
peak, it’s now going to fall off. It’s now going to go down the other side.

We’re now producing total liquid—we say it’s oil but some of it is natural gas liquids—about 84 million barrels a day. The top orange here is natural gas liquids. The red one here is unconventional oil. That’s oil like the tar sands of Alberta, Canada. That is really sticky stuff. They have a shovel that lifts 100 tons, dunks it in a truck that holds 400 tons, and then they cook it with some what we call stranded natural gas. That’s the orange here where there’s a lot of people so there’s not a big demand for it. We say it’s stranded so it’s quite cheap. They use that for heating and softening this oil. Then they put some solvents in it so that it will remain a liquid so that they can pump it.

The dark little red one up here, now it really should be a part of the blue one down here because it’s simply enhanced oil recovery. It’s squeezing a little bit more out of conventional oil by pushing down there, or seawater, as they do in Saudi Arabia, or CO2 to get some more oil out of it.

They’re prognosticating that by 2030 that we’re going to be producing 106 million barrels of oil a day, and that’s going to be in spite of this oil spill in the production from our conventional sources because there’s going to be huge productions that come from the fields that we have now discovered, the light blue here, but too tough to develop, and the red ones, fields yet to be discovered.

These represent pretty big wedges, and I want you to look at the relative magnitude of these wedges to the amount of oil that they said we would be producing from our conventional wells by 2030.

Now, 2 years later in 2010, they produced the chart on the bottom. There are several interesting things about this. They reversed the two things on top. That’s not exactly the same. They have different colors and they’ve reversed them. This is unconventional oil, and this is natural gas liquids. They’ve now incorporated the enhanced oil recovery up here where it should have been, and the conventional oil. Notice now they’re showing even a more precipitous dropoff, and now they go out to 2035.

Reality is setting in because now 5 years later, 5 years beyond this, they are now producing 106 million barrels a day. The production will only be 96 million barrels a day.

But to get to that 96 million barrels a day, you have to postulate huge wedges in here from developing fields that we’ve discovered, or by having to develop, like one in the Gulf of Mexico under 7,000 feet of water and 30,000 feet of rock, and the darker blue here, fields yet to be discovered.

Now, we were at this tipping point in 1970, and there is nothing we did in our country that would have caused this top curve going up. I have a lot of trouble understanding why people believe that the world will be able to do what we could not do. Notice these huge wedges that are supposed to be produced by just 2035. That’s not very long from now, is it? I think that there is little probability that these wedges will be produced.

I think what’s going to happen is that the world will do what the United States did. That this will tip over and the total production of oil worldwide will decrease.

The next chart is a very recent chart from the Deutsche Bank, and this shows the growth in oil production capacity versus demand. This is not how much we’re producing. This is the growth in how much we’re producing.

They think this tells a grim story. I think it tells an even grimmer story because I don’t think we’re going to have any increase in production. I hope we do. But we have not for 5 years now. I think we’re stuck at where we are. Even if we have this increase in production, this is the increase in demand, and they say that an increase in demand is going to fall 20 percent short of the production.

Notice where most of that demand is. Red. Red China. That’s where most of the increase in demand is going to be. China last year used 6 percent more oil than it did the year before. Worldwide, there was no more oil than there was the year before. So where did China get that oil? Well, we use less. We used to use, what, 21 million barrels a day? Now we’re at 18½ million barrels a day. We are driving less. We’re driving more efficient cars. There are more people in the HOV lane.

Our military really has had a very aggressive and very successful program to be more energy efficient because energy is a huge part of their cost. If it goes up just a dollar a barrel, they have millions of dollars more cost in the military.

So for a lot of reasons, we’ve been more efficient in our country. Good news, because that meant that China could have more oil to use and the price didn’t go above $100 a barrel.

Let me show you this chart here, and this one I think, is a very interesting chart that kind of puts this in a worldwide perspective. The world is going to seem to be turned upside down with this.

This is what the world would look like if the size of the country were related to how much oil it had. We see some very interesting things here.

Wow, Saudi Arabia dominates the planet in oil, doesn’t it?—and it does. About 22 percent of all of the known reserves of oil in the world are in Saudi Arabia.

Look at little Kuwait, a tiny, little thing that looked to Saddam Hussein like a province that ought to belong to Iraq, and he went down there to take it. You remember that war. Look at Iraq and how much oil is there. Then Iran. Iran is pretty big.

In our hemisphere, Venezuela dwarfs everything else. They have more oil than everybody else put together in our hemisphere.

Here we are, the United States. We have only 2 percent of the reserves of oil in the world, and we use 25 percent of the oil in the world. Guess who our next importer is? China.

Look at Canada. Canada has even less oil than we do, but they don’t have very many people, so they can export the oil.

Until fairly recently, Mexico was our No. 2 importer. They also have less oil than we do. They have a lot of people, but they’re too poor to use the oil, so they can export it to us. The second largest oil field in the world, the Cantarell oil field, was in Mexico. It is now in rapid decline by something like 20 percent a year, so now Mexico is our No. 3 importer, and Saudi Arabia is our No. 2 importer of oil.

I want you to look at Europe. Boy, you need a magnifying glass to find it everywhere, don’t you? That’s Europe. It’s bigger than we are in terms of an economy but with very little oil. It’s really dependent on these huge supplies of oil from the Middle East.

Russia, spanning 11 time zones up there, is not all that big. They’re the world’s largest country, but they’re too poor to use the oil, so they’re buying up oil from other parts of the world.

This is what the world would look like if you look at China and India over there. They’re tiny, little countries in this world according to oil—China with 1.3 billion people, India with over 1 billion people and with very little oil. What is China doing about this? China is buying up oil all over the world. We use 25 percent of the world’s oil. It’s a bit less now since we slowed down a little, but it has been 25 percent of the world’s oil, two-thirds or more of which we import, and we’re not buying oil anywhere.

Why wouldn’t the nation that uses the most oil and has, relative to its use, the least buying oil somewhere else? Well, there is no need to buy the oil. It doesn’t matter who owns it, because the person who gets it is the person who comes in the dollars and buys the oil—and let’s hope it stays dollars at the global petroleum auction.

So why isn’t China content to just take their money and they’ve got a lot of it. Why don’t they just take their money and buy the oil? I think that they understand that there will be a shortage of oil in the future—and I
hope I’m wrong in this prediction—and that China may one day say that they can’t share that oil. This is going to create some huge geopolitical tensions in the world.

What does all of this mean?

This means that we have a huge challenge in our country. This is good news to me because I think that we can, once again, become an exporting country and that we can create millions of jobs with the green technology that produces the alternatives that inevitably will occur. One day, we will produce as much energy as we use in this country. Geology will assure that that happens.

I hope that we get there through a really winning economy when we recognize that we have to rise to this challenge. I think America with its creativity and innovation can create the technologies and the products it will sell worldwide to help us in this huge challenge that we face with a limited supply of oil and the ever-increasing need for oil.

Madam Speaker, I yield back the balance of my time.

CONGRESSIONAL RECORD — HOUSE

February 9, 2012

H691

(REP. 112–391). Referred to the Committee of the Whole House on the state of the Union.

Pursuant to clause 2 of rule XIII the Committee on Natural Resources discharged from further consideration. H.R. 2484 referred to the Committee of the Whole House on the state of the Union and ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. KLINE (for himself, Mr. HUNTER, Mr. ROE of Tennessee, Mr. PETRI, Mr. WILSON of South Carolina, Mr. THOMPSON of Pennsylvania, Mr. DESJARLAIS, Mrs. NOEM, Mrs. ROBY, and Mr. HECK):

H.R. 3968 A bill to support State and local accountability for public education, inform parents of their schools’ performance, and for other purposes; referred to the Committee on Education and the Workforce.

By Mr. KLINE (for himself, Mr. HUNTER, Mr. ROE of Tennessee, Mr. PETRI, Mr. WILSON of South Carolina, Mr. DESJARLAIS, Mrs. NOEM, Mrs. ROBY, and Mr. HECK):

H.R. 3990 A bill to encourage effective teachers in the classrooms of the United States and innovative education programs in our Nation’s schools; referred to the Committee on Education and the Workforce, and in addition to the Committees on Armed Services, and Financial Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such portion of the bill as may be involved in the committee of jurisdiction of the committee concerned.

By Mrs. ADAMS (for herself, Mr. ROSS of Florida, Mr. GOMER, Mr. BURKE, Mr. WITTER, Mr. JOHNSTON, Mr. BRION of Georgia, Mr. CHAPPEZ, Mrs. LUMMIS, Mr. GARDNER, Mr. POSEY, Mr. FLEMMING, Mr. HUELSKAMP, Mr. PETRI, Mr. ROE of Tennessee, Mr. WILSON of South Carolina, Mr. MULVANY, Mr. SAM JOHNSON of Texas, Mr. PITTS, Mr. COLE, Mr. ROE of Tennessee, Mr. WALBURG, Mr. WELSH of Illinois, Mr. YODER, Mr. KING of Iowa, Mr. PEARCE, Mr. RIBBLE, Mr. HARRIS, Mr.
H.R. 3991. A bill to prohibit the National Labor Relations Board from requiring that employers provide to the Board or to a labor organization the telephone number or email address of any employee; to the Committee on Education and the Workforce.

By Mr. BERNER (for himself, Mr. SMITH of Texas, Ms. ZOR LOFREN of California, and Ms. ROS-LEHTINEN):

H.R. 3992. A bill to allow otherwise eligible Israeli nationals to receive E-2 non-immigrant visas if similarly situated United States nationals are eligible for similar non-immigrant status in Israel; to the Committee on the Judiciary.

By Mr. KING of New York (for himself, Mr. PAUL, Mr. MIKVEE, Mr. KISSELL, and Mr. FILNER):

H.R. 3993. A bill to clarify the National Credit Union Administration authority to improve credit union safety and soundness; to the Committee on Financial Services.

By Mr. POMPEO (for himself, Mr. WESTMORELAND, Mr. KINZINGER of Illinois, and Mr. MILLER of Florida):

H.R. 3994. A bill to give States and localities the option to return unused Federal grant funds to the general fund of the Treasury for the purpose of deficit reduction; referred to the Committee on Oversight and Government Reform, and in addition to the Committee on Appropriations, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. RUSH (for himself and Mr. WAXMAN):

H.R. 3995. A bill to prohibit brand name drug companies from compensating generic drug companies to delay the entry of a generic drug into the market, and for other purposes; referred to the Committee on Energy and Commerce, and in addition to the Committee on the Judiciary, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. AMODEI (for himself, Mr. HECK, and Ms. BERKEY):

H.R. 3996. A bill to direct the Secretary of the Interior to convey to the Nevada System of Higher Education certain Federal land located in Clark and Nye Counties, Nevada, and for other purposes; to the Committee on Natural Resources.

By Mr. BARROW:

H.R. 3997. A bill to amend the Internal Revenue Code of 1986 to extend the deduction for expensing of environmental remediation costs; to the Committee on Ways and Means.

By Mr. BARROW:

H.R. 3998. A bill to extend the Internal Revenue Code of 1986 to extend the deduction for mortgage insurance; to the Committee on Ways and Means.

By Mr. MACK (for himself, Mr. RENZERG, Mr. BOREN, Mr. GIFFIN of Arkansas, Mr. KISSELL, Ms. ROS-LEHTINEN, Mr. ROKTA, Mrs. MCMORRIS RODGERS, Mr. SIRESS, Mr. SMITH of California, Mrs. NABORN, Mrs. NOEM, Mr. FLAKE, Mr. FOR of Texas, Mr. RIVERA, Mr. BEGG, Mr. DUNCAN of South Carolina, Mrs. LUMMIS, Mr. BISHOP of Utah, Mr. REED of California, Mr. CHAMBOR, Mr. MANZULO, Mr. KING of New York, Mrs. CAPITO, Mr. MCCLINTOCK, Mr. SAM JONES of Texas, Mr. BURTON of Indiana, Mr. BROOKS, Mr. CARTER, Mr. WEST, Mr. COLE, Mr. BILIRIKIS, Mr. CANSECO, Ms. BURD, Ms. FAULIN, Mr. BROUN of Georgia, Mr. DIAZ-BALART, Mr. CHAFFETZ, Mr. MILLER of Florida, Mr. LUCAS, Mr. LANDRY, Mr. ROYCE, Mr. CULBERTSON, Mr. ESKIN, Mr. HUZENGA of Michigan, Mr. DUNCAN of Tennessee, Mr. McCaul, Mr. BOUSTANY, Mrs. MILLER of Michigan, Mr. PARKER, and Mr. RICKELL, and Mr. GRIESS):

H.R. 4000. A bill to approve the Keystone XL pipeline, and for other purposes; referred to the Committee on Transportation and Infrastructure, and in addition to the Committees on Energy and Commerce, Natural Resources, and Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. CAMPBELL:

H.R. 4001. A bill to amend the Internal Revenue Code of 1986 to allow partnerships invested in infrastructure property to be treated as publicly traded partnerships, to reduce the depreciation recovery periods for such property, and for other purposes; to the Committee on Ways and Means.

By Mr. CASSIDY (for himself, Mr. DUTCHT, Mr. HARDER, Mr. DUNCAN of Pennsylvania, Mr. WEST, Mr. BOUSTANY, Mr. CULBERSON, Mr. McCaul, Mr. LANDRY, Mr. SESSIONS, Mr. GRIFFIN of Arkansas, and Mr. HASTINGS of Florida):

H.R. 4002. A bill to amend the Securities Investor Protection Act of 1970 to provide one-time payments to the SIPIC Fund for customers during a pending lawsuit by the Securities and Exchange Commission against the Securities Investor Protection Corporation, and for other purposes; to the Committee on Financial Services.

By Mr. COHEN (for himself, Mr. NORTON, Mr. GELALIA, Ms. KAPTUR, Mr. SHEVEL, Ms. LASS, Mr. GONZALEZ, and Mr. HASTINGS of Florida):

H.R. 4003. A bill to amend title 39, United States Code, to provide that the payment of a bill of lading for goods sold or delivered, if made by mail, shall be considered to have been paid if the goods are shipped and the bill of lading is postmarked; to the Committee on Oversight and Government Reform.

By Mr. DOYLE (for himself, Mr. YODER, and Mr. SCOTT of Virginia):

H.R. 4004. A bill to provide for Federal agencies to develop public access policies relating to research conducted by employees of that agency or from funds administered by that agency; to the Committee on Oversight and Government Reform.

By Ms. HAHN:

H.R. 4005. A bill to direct the Secretary of Homeland Security to conduct a study and report to Congress on gaps in port security and Government Reform.

By Ms. HAHN:

H.R. 4006. A bill to require the submission of a plan to ensure the placement of sufficient U.S. Customs and Border Protection officers at each of the international airports in the United States, and requiring that the plan be determined by the Secretary of Homeland Security.

By Mr. HARRIS (for himself, Mr. HANNA, Ms. EDWARDS, Mr. BARTLETT, Mr. CRUZ of California, Mr. HOLLIN, Mr. RANGEL, Mr. SLAUGHTER, Mr. SERRANO, and Ms. RICHARDSON):

H.R. 4007. A bill to establish the Harriet Tubman National Historical Park in Auburn, New York, and the Harriet Tubman Underground Railroad National Historical Park in Caroline, Dorchester, and Talbot Counties, Maryland, and for other purposes; to the Committee on Natural Resources.

By Mr. HEINRICH (for himself, Mr. LUCAS of Georgia, and Mr. MCCAUL):

H.R. 4008. A bill to establish the Cavernous Angioma CARE Center (Clinical Care, Awareness, Research and Education) of Excellence, and for other purposes; to the Committee on Energy and Commerce.

By Mr. ISSA:

H.R. 4009. A bill to prohibit Members of Congress, senior congressional staffs, and administration executives from making certain purchases or sales of registered securities, futures, swaps, options, or other products, security-based swaps, and options, to prohibit bonus payments to executives at Fannie Mae and Freddie Mac, and for other purposes; referred to the Committee on Financial Services, and in addition to the Committees on House Administration, and Oversight and Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committees concerned.

SANCHEZ of California, Ms. LORETTA SANDRA of California, Mr. SMITH of Washington, Mr. SCOTT of Virginia, Mr. CRAWFORD, Mr. GARAMENDI, Ms. LEE of California, Mr. JACKSON of Illinois, Ms. WATERS, Mr. CUMMINGS, Mr. CLEAVIER, Mr. POLIS, Mr. McNICHES, Mr. FRANK of Massachusetts, Mr. BERNER, Mr. DICKS, Ms. VELAZQUEZ, Mr. RUPPERSBERGER, Ms. EDDIE BERNICE JOHNSON of Texas, Mr. EDWARD, Mr. LOHRSACK, Mr. LYNCH, Mr. RUSH, Mr. SHERMAN, Mr. GONZALEZ, Mr. LARSEN of Washington, Mr. COSTA, Mr. RANGEL, Ms. STEELE, Mr. LINDA W. FILNER, Mr. LEWIS of Georgia, Ms. DEGHTI, Mr. OLIVER, Mr. HONDA, Mrs. NAPOLITANO, Mr. COHEN, Mr. LIPSON, and Mr. NOONAN of California):

H.R. 4010. A bill to amend the Federal Election Campaign Act of 1971 to provide for additional disclosure requirements for corporations, labor organizations, and other entities, and for other purposes; referred to the Committee on House Administration, and in addition to the Committees on the Judiciary, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committees concerned.

By Mr. NADLER (for himself, Mr. SCOTT of Virginia, Mr. BLUMENAUER,
CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule XII of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

Mr. KLINE:
H.R. 3989.
Congress has the power to enact this legislation pursuant to the following:
Article I, section 8 of the Constitution of the United States.

Mrs. ADAMS:
H.R. 3991.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8, clause 3: The Congress shall have Power to regulate Commerce with foreign Nations, and among the several States.

Mr. Berman:
H.R. 3992.
Congress has the power to enact this legislation pursuant to the following:
Clause 4 of section 8 of article I of the Constitution.

Mr. KING of New York:
H.R. 3993.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8, Clause 3: The Congress shall have Power to regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes.

Mr. POMPEO:
H.R. 3994.
Congress has the power to enact this legislation pursuant to the following:
The Constitutional authority for this legislation is Article I, Section 9, Clause 7 of the Constitution of the United States (the appropriation power), which states: "No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law."

Mr. RUSH:
H.R. 3995.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8, Clause 3: The Congress shall have Power "to regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes."

Mr. AMODEI:
H.R. 3996.
Congress has the power to enact this legislation pursuant to the following:
The constitutional authority of Congress to enact this legislation is provided by Article I, Section 8 of the United States Constitution, specifically clause 1 (relating to providing for the general welfare of the United States) and clause 18 (relating to the power to make all laws necessary and proper for carrying out the powers vested in Congress), and Article IV, Section 3, Clause 2 (relating to the power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States).

Mr. BARROW:
H.R. 3997.
Congress has the power to enact this legislation pursuant to the following:
The constitutional authority on which this bill rests is Clause 1 of Section 8 of Article I of the Constitution of the United States.

Mr. MACK:
H.R. 4000.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8, Clause 3: To regulate commerce with foreign Nations, and among the several States, and with the Indian Tribes.

Mr. CAMPBELL:
H.R. 4001.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8 of the Constitution of the United States.

Mr. CASSIDY:
H.R. 4002.
Congress has the power to enact this legislation pursuant to the following:
Congress has the power to enact this legislation pursuant to Article I, Section 8, Clause 3 of the Constitution of the United States, which authorizes Congress to regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes.

Mr. COHEN:
H.R. 4003.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8 under the United States Constitution.

Mr. DOYLE:
H.R. 4004.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8, Clause 2: All Debts contracted and Engagements entered into, before the Adoption of this Constitution, shall be as valid against the United States under this Constitution, as under the Confederation.

This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.

The Senators and Representatives before mentioned, and the Members of the several State Legislatures, and all executive and judicial Officers, both of the United States and of the several States, shall be bound by Oath or Affirmation, to support this Constitution; but no religious Test shall ever be required as a Qualification to any Office or public Trust under the United States.

Ms. HAHN:
H.R. 4005.
Congress has the power to enact this legislation pursuant to the following:
This bill is enacted pursuant to the power granted to Congress under Article I, Section 8, Clauses 1 and 18 of the United States Constitution.

Mr. HARRIS:
H.R. 4007.
Congress has the power to enact this legislation pursuant to the following:
This bill is enacted pursuant to the power granted to Congress under Article I, Section 8, Clauses 1 and 18 of the United States Constitution.

Mr. HEINRICH:
H.R. 4008.
Congress has the power to enact this legislation pursuant to the following:
Article 3, Section 2 of the United States Constitution.

Mr. ISRA:
H.R. 4009.
Congress has the power to enact this legislation pursuant to the following:
This bill is enacted pursuant to the powers granted to Congress under Clause 3 of Section 8 of Article I, and Clause 2 of Section 5 of Article I of the United States Constitution.

Mr. VAN HOLLEN:
H.R. 4010.
Congress has the power to enact this legislation pursuant to the following:
Art. 1, Section 4.

Mr. NADLER:
H.R. 4011.
Congress has the power to enact this legislation pursuant to the following:
This bill has the power to enact this legislation pursuant to the following: Article I, Section 8, Clauses 11 and 18.

Mr. WELCH:
H.R. 4012.
Congress has the power to enact this legislation pursuant to the following:
Clause 18: The Congress shall have Power * * * To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by the Constitution in the Government of the United States, or in any Department or Officer thereof.
ADDITIONAL SPONSORS
Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 104: Ms. CHU.
H.R. 157: Mr. SCHWEIKERT.
H.R. 506: Mr. DURFT and Mr. FILNER.

H. Res. 325: Mr. LANGEVIN, Mr. MICHAUD, and Mr. RANGEL.
H. Res. 532: Mr. GOODLATTE.

CONGRESSIONAL EARMARKS, LIMITED TAX BENEFITS, OR LIMITED TARIFF BENEFITS
Under clause 9 or rule XXI, lists or statements on congressional earmarks, limited tax benefits, or limited tariff benefits were submitted as follows:

The amendment to be offered by Representative RYAN to H.R. 3152, the Expedited Line-Item Veto and Rescissions Act of 2011, does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

DISCHARGE PETITIONS—ADDITIONS OR DELETIONS
The following Members added their names to the following discharge petition:

Petition 3 by Mr. WALZ on H.R. 1148: Nydia M. Velázquez, Suzanne Bonamici, and Bob Filner.
Senate

The Senate met at 9:30 a.m. and was called to order by the Honorable Tom Udall, a Senator from the State of New Mexico.

PLEDGE OF ALLEGIANCE

The Honorable Tom Udall led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MORTGAGE FORECLOSURE SETTLEMENT

Mr. Reid. Mr. President, I received a call from Secretary Donovan, the Secretary of Housing, indicating that Nevada was part of the settlement. It is in all the newspapers today. It appears Nevada will get about $1 1/2 billion to work out our foreclosure problems in Nevada. We have led the Nation for years in foreclosures. We are not proud of that, but it is a fact.

For many years, we were the economic driver of the States. No State did better economically than Nevada for two decades. If you want to start a small business, come to Nevada. If you want to invest in real estate, come to Nevada or if you wanted to start a small business, come to Nevada. The collapse on Wall Street has hurt our housing market. We have not yet recovered. I commend the attorney general of Nevada, Catherine Masto, who was a fine lawyer before she became attorney general and has only become better with the work she has done. She negotiated this. I am very proud of her and confident the work she did will bring dividends to the beleaguered housing industry in Nevada.

RECOGNITION OF THE MINORITY LEADER

The Acting President pro tempore. The Republican leader is recognized.

HONORING OUR ARMED FORCES

First Lieutenant Eric Yates

Mr. McConnell. Mr. President, I have the sad duty today to share with my colleagues the story of one brave
Kentuckian who sacrificed his life for his country. First Lieutenant Eric Yates, of Rineyville, KY, was killed on September 18, 2010, in Kandahar province, Afghanistan, after insurgents attacked his patrol with an improvised explosive device. He was 26 years old.

For his heroic service, Lieutenant Yates received several awards, medals, and decorations, including the Bronze Star Medal, the Purple Heart, the National Defense Service Medal, the Afghanistan Campaign Medal with Bronze Star Service Star, the Global War on Terrorism Service Medal, the Army Service Ribbon, the Overseas Service Ribbon, the NATO Medal, the Combat Action Badge, and the Overseas Service Bar.

On Veterans Day last year, Lieutenant Yates’s alma mater, Western Kentucky University, honored him by inducting him into its ROTC Hall of Fame. A likeness of Lieutenant Yates, etched in granite, was unveiled and placed on the University’s landmark Guthrie Bell Tower.

The history department at Western Kentucky University, working with the Yates family, also established the First Lieutenant Eric Yates Memorial Scholarship. We have made it our mission to make it a scholarship that will be here forever, to keep Eric alive in our hearts,” says Kathy Yates, Eric’s mother. Thanks to fund raisers and generous donations, that scholarship fund now has over $20,000 in it.

Eric was born on July 1, 1984, to Kathy and David Yates, and grew up on a farm in Rineyville. A typical little kid, he liked to play with toy tractors and watch cartoons. Batman and Power Rangers were his favorites. “He loved to play with toy tractors and stripping tobacco all winter. He was a hard worker, and his little brother Nathan was about six, David told his two sons they could help him with hard work stripping tobacco all winter. Nathan picked out the biggest bull he could find. He could not understand why his big brother Eric chose a little heifer calf. ‘I want the gift that’s going to keep on giving,’ Eric said, and he went on to sell a calf from that cow every year for the next 13 years.

In high school Eric got his first job for Butternut Bread, filling the shelves in Wal-Mart, and was elected as treasurer of his school’s chapter of Future Farmers of America.

During the summer of 2001, the Yates family took a vacation to our Nation’s capital here in Washington, D.C. Eric was thrilled to visit the White House, the Smithsonian, Arlington Cemetery, the Korean Memorial, the Vietnam Memorial, Robert E. Lee’s house, and the Tomb of the Unknown Soldier. Kathy remembers, “I had never taught the family a history lesson at every stop along the way. “He was amazed by all of it,” she says.

Soon after that summer trip came the events of 9/11. A junior in high school, Eric read as much about the brutal terrorist attacks on this country as he could. “I had not seen anything that grabbed his attention like that fateful day,” Kathy remembers. It was then that Eric began to think about a career in the U.S. Army.

After graduating from John Hardin High School in 2003, Eric started at Elizabethtown Community College. Then he transferred to Western Kentucky University and joined their ROTC program, with an eye toward a military career. He hoped to return to Hardin County one day after retiring from the Army, to teach and share his stories of military adventure.

Eric graduated from WKU in 2008. “We were so proud of him that weekend as David and I put on his gold bars at his commissioning ceremony,” Kathy says. After graduation, he joined the 101st Airborne Division and was stationed at Fort Campbell, Kentucky. It was a point of pride for Eric and Kathy as they had almost the same division his grandfather, Herbert L. Crabb, had served in.

In May of 2010, Eric was deployed to Afghanistan with B Company, 1st Battalion, 502nd Infantry Regiment, 101st Airborne Division. It would be his first and only deployment.

We are thinking of First Lieutenant Yates’s loved ones today, Mr. President, as I recount his story for my colleagues and the people that fill that life. But I am honored to be able to share them now with my colleagues in the United States Senate.

Mr. President, I yield the floor.

RESERVATION OF LEADER TIME
THE ACTING PRESIDENT pro tempore.

MORNING BUSINESS

THE ACTING PRESIDENT pro tempore.

The assistant legislative clerk proceeded to call the roll.

MR. ALEXANDER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

THE ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

MR. ALEXANDER. I ask unanimous consent to speak for 15 minutes in morning business, and I ask the Chair to please notify me when I have 3 minutes remaining.

THE ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

LOWERING TUITION COSTS

MR. ALEXANDER. Mr. President, since his State of the Union Address, President Obama and Vice President
Biden have been talking about their efforts to help students afford to go to college, which is something we are all in favor of.

The President’s proposals include what he calls a higher education race to the top. It has a familiar sounding formula. Though, in this case, it will impose new rules and mandates and price controls on colleges and universities in States. Unfortunately, this race to the top is headed in the wrong direction.

The President should turn around his higher education race to the top and head it in the direction of Washington, DC, to help the federal government compete for ways to stop adding mandates and costs on States that are soaking up dollars and driving college tuition through the roof.

Let me be specific and offer three examples of how a race to the top headed toward Washington, DC, could actually help students by saving them money on their tuition.

First, Washington could stop overcharging students on their student loans. They are doing that now by borrowing money at 2.8 percent, loaning it to students at 6.8 percent, and using the profit to pay for other new health care law and other government programs.

Second, Washington could help students with lower tuition by repealing the new Medicaid mandates on States that will begin to take effect in 2014. These new Medicaid mandates will further reduce State funding for higher education and raise tuition at public colleges and universities, which is where approximately 75 percent of students go to college.

Third, Washington could stop prohibiting States from reducing spending on Medicaid at a time when State revenues and expenditures are going down. That forces States to spend money on health care and education that otherwise would be available for higher education.

Let me talk about each of those three ideas.

First, this business of overcharging on student loans. I think it would come as a big surprise to most students to know that Washington is borrowing money at 2.8 percent and loaning it to them at 6.8 percent, and using the profit to pay for the health care law and for other government programs. We have taken this $2 billion from 16 million students attending 6,000 colleges and universities in America today, and approximately 16 million of those have Federal loans that allow them to spend that money at the school of their choice. Approximately 70 percent of the Federal funding made available for our higher education last year—about $116 billion—went for those student loans. Under the new health care law, the Department of Education is going to be borrowing money from the Treasury at 2.8 percent and then charging it to the students at 6.8 percent. So, the government is actually overcharging 16 million students and taking that profit and spending it on new government programs, including the new health care law.

According to the Congressional Budget Office, over the next 10 years, here is where the profit goes, approximately: $8.7 billion goes to pay for the new health care law. Most of those students probably do not know that the principal reason their tuition is going up is because of the Federal health care mandates on the State. From 2006 to 2009, spending by State governments on Medicaid increased by 62.6 percent. This has been going on long before President Obama came into office. I balanced it as Governor in the 1980s. Every year I tried to keep education funding at 50 percent of the State budgets. In those days the States paid for 70 percent of the cost of operating the University of Tennessee or the community college and tuition paid for 30 percent of the cost. We had an implicit deal with the students that if we pay for 70 percent of the State funding by about the same amount. Those days are long gone.

Medicaid costs on States are the most insoluble part of the budget dilemmas we have here in Washington. I believe Medicaid either should be run 100 percent by the Federal Government or 100 percent by the States. I came to Washington and suggested that to President Reagan in the 1980s. He agreed, but many others did not. So it is not new. We should not blame President Obama for the fact that this has gone on for 30 years, but we ought to hold him responsible for making it worse.

This is how he has made it worse in a third way—by a so-called maintenance of effort requirement on States as a condition of continuing to receive Federal payments under Medicaid. The 2009 stimulus bill prohibited States from imposing new eligibility standards, methodologies, or procedures as a condition of receiving Federal Medicaid payments. The new health care law extends the maintenance of effort requirements through 2014. So for 5 years throughout this period, while State revenues are going down, the Federal Government in its wisdom has been imposing billions of new dollars in Medicaid mandates on States requiring them to spend more on Medicaid. And what happens? They must spend less on something else.

In 2010, New York Lieutenant Governor Richard Ravitch, a Democrat, eloquently talked about that problem. He said Medicaid is “the largest single driver of New York’s growing expenditures,” making up more than one-third of the State total budget. New York spends twice as much on Medicaid as California. He said this spending is expected to grow at an annual rate of 18 percent over the next 5 years. If the Federal stimulus and health care expansions have made it harder for States such as New York and California to cut expenditures because of the strings attached. He said:

In each of these strings previous to substituting Federal money for State funds, require States to spend minimum amounts of
their own funds, and prevent States from tightening eligibility standards for benefits.

So while the Federal Government is burdening the States with hundreds of billions of dollars in Medicaid liabilities, the President has made it worse by forcing States from tightening their eligibility requirements as their economies shrink.

The administration and Congress have left Governors with little choice but to cut in other areas, and that usually turns out to be public higher education, where 75 percent of students go to school. So why is tuition going up? The biggest reason is us—Congress, Washington DC. Instead of pointing the finger at States and colleges, we ought to look in the mirror.

There is another problem with the President’s proposals. His proposals are not likely to affect many students, and if they do they are more likely to hurt them than help them. Here is why that is true. It is one percent of all the Federal money made available to college students goes directly to the students to spend at one of the 6,000 institutions of their choice.

The President’s proposals would only affect 12 percent of college students. That aid eventually affects about 2 percent of all students and impacts about 2 percent of all the federal money available for higher education. What the President would propose doing includes putting price controls on colleges and universities, requiring that students could not go to the institution if tuition goes up too much. So if a low-income student wants to go to the University of Tennessee or North Carolina or Michigan and tuition goes up more than the Federal Government says it should, mostly because of Federal policies, what happens? The student cannot go to the University of Michigan or the University of Tennessee or the University of North Carolina. Those states have plenty of applicants. They are going to get their students anyway. So the effect will be to make it harder for a low-income student to go to the college of his or her choice.

What should we be doing? I think it is pretty obvious. The taxpayers already are generous with support for students going to college. The average tuition at a 4-year public institution is $8,200. At a 2-year community college, it is $3,400. A private institution, it may be closer to $23,000 or $30,000 a year. To make it easier, there are 16 million student loans—$116 billion in new student loans last year. There are 9 million Pell grants, supported by $41 billion in taxpayers’ dollars. So half of our 25 million college students are getting a Federal grant or loan to help pay for college, and they spend it at one of 6,000 institutions of their choice.

Still, the rising cost of tuition is a real problem for American families. Tuition and fees have soared over the past 10 years above the rate of inflation by 5.6 percent a year at public 4-year institutions. This adds up to about a 113 percent increase in tuition over the decade.

Colleges and universities need to do their part to cut costs. I have suggested that well-prepared students ought to be offered 3-year degrees in the state of Georgia. Washington University has suggested ways that colleges could be more efficient. He said he could run two complete colleges with two complete facilities in the facilities now used half the year for one. That is without cutting the length of student vacations, increasing class size, or requiring faculty to teach more. Requiring one mandatory summer session for every student every 4 years, as Dartmouth College does, would improve institutions’ bottom line. The GW president said his institution’s bottom line would improve by $10 to $15 million a year. Those are just two good ideas.

There is nothing wrong with President Obama’s proposal to encourage ideas like grants and put the spotlight on colleges that are trying those things. The Malcolm Baldrige Award for Quality Control years ago did a lot to improve quality in business and government without spending very much. But putting price controls on 6,000 autonomous colleges and universities is not the right prescription. They are more likely to hurt students than help. They are more likely to drive up tuition than lower it. And they are more likely to diminish the quality of higher education in the world.

The reason we have the best system is, for one reason, because generally the Federal Government keeps its hands off those autonomous colleges, and the second reason is that students can choose among those 6,000 institutions with the money we make available to them in grants and loans.

Rather than creating new price controls, Congress should reexamine regulations of the kind that have already pushed tuition higher. I suggest the President turn his race to the top around. Instead of heading it towards the States and colleges, head it towards Washington, DC. Stop overcharging students for their student loans, stop requiring States to spend more State dollars on health care at the expense of public colleges and universities, repeal the new Medicaid mandates that in 2014 will take already-high tuition and drive it even higher, and let the Federal agencies compete to see how they can stop adding costs that are the main reason college tuition is rising. That would be the real race to the top. That is the real way to help students afford college.

Mr. President, I ask unanimous consent that the quorum be rescinded.

Mr. HELLER. Mr. President, I ask unanimous consent that the quorum be rescinded.

Mr. HELMER. Mr. President, I ask unanimous consent that the qurorum be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The remarks of Mr. HELLER pertaining to the introduction of S. 2080 are printed in today’s RECORD under “Statements on Introduced Bills and Joint Resolutions.”

Mr. HELLER. I yield the floor.

Mr. HATCH. Mr. President, I ask unanimous consent to be permitted to speak and give my remarks in full.

Mr. HELLER. I yield the floor.

Mr. HATCH. Mr. President, I ask unanimous consent that the quorum be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Utah.

PREVENTIVE SERVICES MANDATE

Mr. HELLER. Mr. President, for some time now Americans have suspected that this administration has lost touch with the American people. John Meacham, the former editor of Newsweek and a fan of the President, explained this detachment by explaining that the President does not “particularly like people.” He also described this administration as “more aloof,” with “a detachment from the American people on better display than with the hamfisted decision by Secretary Kathleen Sebelius and the Department of Health and Human Services to require that religious persons and institutions violate their most cherished beliefs or face the consequences.

Late last year, HHS ordered all employers, including religious institutions, to cover in their employer insurance plans such things as sterilization, contraception, and aborting drugs and devices. With very limited exceptions, religious hospitals, universities, and charitable institutions would face the choice of dropping coverage for their employees or violating their consciences.

The Nation’s Catholic bishops and many other religious institutions pleaded with this administration to grant broader waivers to avoid jeopardizing these institutions’ constitutional right to freely exercise religion. But the administration, rather than side with millions of religious Americans who just want to be left alone to practice their own faith, decided to throw in with the most radical of pro-abortion advocates. They decided to subordinate our central constitutional commitment to religious liberty to a radical agenda that is overtly hostile to all of these people of faith.

The response has been overwhelming. At church this weekend millions of American Catholics were read a letter from their bishops. The message was simple, and it was powerful. This action is unjust and one with which they
will not comply. They are right, and they shouldn’t. The first amendment doubly protects religious liberty. It prohibits the government establishment of religion and explicitly protects the free exercise of religion, the first individual right enshrined in the Bill of Rights. That is how important religious liberty is to America.

In our system of government, such fundamental rights and principles are supposed to trump statutes, regulations, and political agendas. The Constitution and the liberties that it protects are supreme not the fleeting politically driven motivations of any particular administration. Yet the Obama administration, as it has always does, has turned these priorities upside down. In this administration, politics trumps absolutely everything else, even the Constitution and religious liberty. Instead of conforming their political agenda to the Constitution, they distort the Constitution and even liberty itself to conform to their political agenda.

The politicians driving this mandate underestimated the American people who have in succession rejected the sorry efforts by the administration to defend its actions. The administration first hid behind the opinion of a purportedly objective medical group that birth control should be included in health insurance plans, but the American people knew who was ultimately responsible for this rule—some board of so-called experts but the President and his officers. They tried to minimize this mandate’s impact by arguing that many States already have similar requirements. But this was incredibly misleading since nearly all of those States have much broader religious protections. In fact, only three States have religious exemptions as narrow and limited as this new Federal mandate.

They tried to assuage the concerns of religious citizens by saying that the rule does not cover churches and houses of worship, but Americans will not accept only the remnant of our constitutional rights that the President chooses to recognize. Were we supposed to thank the Obama administration for letting us retain a few scraps of religious liberty? There are many religious institutions and organizations that do not fit into the Obama administration’s narrow category, but just that as fully exercise their faith and religious missions. Religious liberty belongs to the Catholic hospital or the University of Notre Dame no less than it belongs to the Catholic Church.

Thus, when this simmering controversy broke wide open a few weeks ago, Secretary Sebelius thought she could make it all go away by agreeing not to impose this mandate for another year. Like her boss the President she just plain doesn’t get it. Religious liberty is not a bargaining chip or a deal sweeter like premium floor mats or an upgraded appliance. Did she think Americans would not mind losing this cherished liberty if they were allowed to spend just a little extra time with it?

The Obama administration’s attitude toward religious liberty has become “enjoy it while it lasts.” And to the administration’s surprise, the American people have been less than enthusiastic about this cavalier attitude toward constitutional rights.

The President of the United States takes an oath to support and defend the Constitution, to stand for the fundamental liberty of all Americans. He and the officials responsible for this mandate have fallen far short of this oath.

The fight for religious liberty began before America was born, and it must be fought continually. We can all see that now. It is a part of our constitutional heritage. Our Founding Fathers that same unity today because religious liberty belongs to the Catholic hospital and to the University of Notre Dame no less than it does to the Catholic Church.

President’s administration’s artificial, narrow categories that do not fit into the Obama administration’s interpretation of religious liberty would absolutely everything else, even the Constitution and religious liberty. In this administration, politics trumps absolutely everything else, even the Constitution and religious liberty.

In addition to violating the first amendment right to freely exercise our religious freedom, this appears to violate that landmark law, the Religious Freedom Restoration Act. It burdens the free exercise of religion and is clearly not, as the law requires, a narrow means of achieving a compelling purpose.

Last month the Supreme Court unanimously held that the right of religious organizations to decide who may further their religious mission trumps nondiscrimination statutes. The Obama administration argued that religious organizations are nothing special, that they should have no more freedom from Federal control than, say, a labor union or a social club. In other words, religious liberty is simply no big deal to the Obama administration.

Writing for the entire Supreme Court, Chief Justice Roberts called this a remarkable view of religious liberty, one that is “hard to square with the text of the First Amendment itself, which gives special solicitude to the rights of religious organizations.”

Soon the Supreme Court will have the opportunity to rule on the constitutionality of ObamaCare. What the preventive services mandate confirms beyond all doubt is that the constitutional defects in ObamaCare only begin with the insurance mandate that will be before the Supreme Court. There are some other issues there as well, and I hope the Court examines every one of them and overturns this law.

The very DNA of ObamaCare is unconstitutional. No more, no less, than the law and its expansion of government are a threat to personal liberty. The decision to implement this law in a way that forces religious institutions to violate their deepest principles is a vivid demonstration of what happens to personal liberty when the power of the state expands. As the state controls more and more of our lives to further a political agenda, our freedom is put in greater and greater jeopardy.

After 3 years of this administration, the American people seem to be saying enough is enough. Those responsible for this decision to force religious institutions to subsidize health coverage for abortifacient drugs need to be brought to account. The President and his officers, Sebelius needs to answer for this. The Attorney General needs to answer for this. How could he let this happen?

Let me say, however, that getting answers is not enough. Congress needs to bring to its author representative of the American people, stand for the first amendment, and restore religious liberty by overturning this health care law.

For those who are on the front lines fighting this mandate: I applaud your courage, and please understand that you are not alone; you are Democrats, Independents, Republicans, and others. The Obama administration may not care about religious liberty, but the Constitution does, and with many of my colleagues, we will fight alongside you until we prevail over this unjust law. This new HHS mandate cannot be allowed to stand, and I am confident that if the will of the American people prevails, it will not stand. I belong to a faith that has been persecuted and mischaracterized for many decades. We are the only church in the history of America that had a Governor issue an extermination order against us, and we lived through it. We have had a great deal of all countries where religious liberty is without question our most valued right. We understand what it is like to be persecuted. I don’t care whether one is liberal, conservative, independent, or what, and I don’t care what religious beliefs folks outside there all have. There is no excuse for this type of heavy-handed, ham-handed, overgovernmentalization of our religious freedom. We simply cannot allow this to stand.

Does President Obama have the guts to stand up for religious liberty? If he doesn’t, he should not be President of this United States. If he does, I will be
the first to compliment him for it. It comes right down to the Constitution itself and, in many respects, I believe the most important provision in the Constitution. Religious liberty is something that our early leaders risked their lives to obtain because they were persecuted because of their religious beliefs.

I call on the President of the United States to change this, to acknowledge that this is a mistake, and to understand that we are united—Democrats, Republicans, Independents, and others—in the protection of this great liberty.

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore, The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. BOXER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BROWN of Ohio). Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

MOVING AHEAD FOR PROGRESS IN THE 21ST CENTURY ACT—MOTION TO PROCEED

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the motion to proceed to S. 1813, which the clerk will report.

The legislative clerk read as follows:

Motion to proceed to the consideration of Calendar No. 311, S. 1813, a bill to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes.

The PRESIDING OFFICER. The Senator from California is recognized.

Mrs. BOXER. Well, Mr. President, this is a big day for those of us who believe strongly that we need to focus on job creation, a better business climate, a bill that will, in fact, not only protect jobs but create new jobs. That is the bill we are hoping will get the go-ahead at 2 o’clock, what we call MAP-21, the Moving Ahead for Progress in the 21st Century Act, S. 1813.

This has been—if I could use an analogy that fits—a long road to get to this point so we can, in fact, make sure we have an adequate road system, an adequate highway system, an adequate transit system, and that we make sure, as a world leader, our infrastructure—our bridges, our roads—keep up with the demands put upon them. There are many demands put upon them because we are a great nation with commerce and heavy-duty vehicles on our roadways and railroads that cross over roadways that create potential problems, and, certainly, we have a robust transit system that needs to keep up with the times.

Last night, I received a letter from the U.S. Chamber of Commerce, and I was very pleased to see it because they support the bill Senator INHOFE and I, on a bipartisan basis, were able to get through our committee on a unanimous vote.

It is a rare moment in history, frankly, when the U.S. Chamber of Commerce and labor unions all come together, with everyone on the same page, to say: Let’s move forward with a bill. In these days of controversy and job loss, Lord knows, I am immersed in many of them—this is one where we have been able to carve out a very important consensus, not only in the Environment and Public Works Committee but in the Banking Committee—where Senators JOHNSON and SHEVELY work together—to get a piece of this bill done.

In the Finance Committee—where Senators there are led by Senator BAUCUS—they were able to hammer out a tough agreement to see we can fund this bill because it has some shortfalls due to the fact that the highway trust fund has been going down because cars are getting better fuel economy—and that is a good thing—but the bad, unintended problem is the trust fund now has fewer dollars, so we run short of what we need to keep our bridges and highways and transit systems going.

So what a moment it was to see not only our committee, the Banking Committee, the Finance Committee, and the Commerce Committee, with a couple of exceptions on a couple of provisions—they did their job as well, and we are trying to work with them to resolve whatever matters remain in that portion of the bill.

But I want to quote from the letter from the Chamber of Commerce that I received last night. I want to share a couple lines with everyone. I am quoting:

The Chamber strongly supports this important legislation. Investment in transportation has proven to grow jobs, and the need for Congress to act on transportation infrastructure is clear.

Another quote:

Passing transportation reauthorization legislation is a specific action Congress and the Administration can take right now to support job growth and economic productivity without adding to the deficit.

Those two quotes I think we have done our job well.

This is a bill that is paid for. This is a bill that, because of the way it was written, is a reform bill, which I will go into. But it also protects the jobs we currently have, which is 1.8 million jobs in the transportation area, and also, because of the way we have boosted a program called TIFIA—which I will talk about, which is a highly leveraged program—we have the capacity to add over a million new jobs. Mostly the highway sector.

That is where they are, and that is what we are focused on in this legislation.

I mentioned Senator INHOFE before, my ranking member on the Environment and Public Works Committee. I expect him to be in the Chamber shortly. I cannot tell you of the trusted partnership we were able to develop that went this relationship with me in working on this bill, but the staff-to-staff relationships which have blossomed into friendships and trust. I think what we have shown is that each of us can be a tough but fair partner. Our staffs understand that this is a mistake, and to understand where we are coming from. But we have a bigger goal in front of us than our differences; that is, our agreement that it is our responsibility to fix our aging roads and highways and bridges—our infrastructure—to put people back to work, to boost our economy, and, as Senator INHOFE has talked about very often, with examples that are in many ways heart breaking, we have problems with safety in our Nation. We have bridges that are crumbling. We have some with our own eyes. We cannot turn away from this because we may have disagreements on lots of other things.

It has been a long but a very worthwhile journey to get to this stage because the payoff has been huge. If this bill eventually becomes law, is, as I said, protecting 1.8 million jobs and creating up to another million jobs.

Again, I want to mention the Commerce Committee. I did want to thank Senator MCCURLEY and Senator HUTCHISON for their work on this as well. We have four committees that are involved in writing this bill. Each committee has voted out their bills. If all goes right today, and we get a resounding go-ahead, I hope we begin with amendments on the EPW portion, and then move to add the different other bills to this bill, until we have added all four—all the committees together—and then I hope we will have a resounding vote and get to a conference committee. We have major differences with the other body, but I think we can work them out for the good of the people and the thousand organizations that back us in this bill, in this effort.

I also have to thank Senator HARRY REID, the majority leader. He brought this bill to the floor. He exerted the right kind of pressure on all of our committees. He encouraged us. He understands clearly that, as we try to get out of this recession, and this bill will eventually become law, we can see beneficial results from our actions in a number of areas—this is going to mean a big boost for jobs.

I want to also say that within my committee we have what we call the big four: it is the chairman and the ranking member—myself and Senator INHOFE—and then it is the chairman of the Highway Subcommittee and the ranking member there; and that is Senator BAUCUS and Senator VITTER. So I honestly think if you look at the big four, and you look at where we are from and the differences we bring to the table, we cover the whole Senate in terms of
the range of ideologies but are tied together by a belief that this is something that needs to get done. And Senators BAUCUS and VITTER were with Senator INHOFE and me every step of the way, for which we are very grateful.

I mentioned, I alluded to a thousand organizations that have been involved on the outside pushing us to get this done. My hat is off to them. They make up a broad coalition. I have spoken frequently with them to give them an update. It is thrilling, and I have to tell you they truly represent America. Over the course of this debate, if I have the time—and in many ways I hope I do not have the time because I hope we can get this done and not spend a whole lot of time on it because I think the committees have done such a good job, but if we have excess time on the floor, I intend to read as many of those organizations into the RECORD as I possibly can because that coalition is remarkable in its reach.

They were led by the U.S. Chamber of Commerce. It is an unprecedented coalition. They came together regardless of ideology and differences. Every time I look at this list, I am reminded that essentially it is America. It is America: business, labor groups, State organizations, city organizations, and organizations from all 50 States.

We received a letter from these thousand organizations recently, and I am going to quote some of what they said. They said:

There are few federal efforts that rival the potential of critical transportation infrastructure investments for sustaining and creating jobs and economic activity. . . .

They wrote:

In 2011, political leaders—Republican and Democrat, House, Senate and the Administration—stated a multi-year surface transportation bill is important for job creation and economic recovery. We urge you to follow through.

And this is what they asked us:

Make Transportation Job #1 and move legislation immediately in the House and Senate to invest in the roads, bridges, and transit systems that are the backbone of our economy, its businesses large and small, and communities of all sizes.

Again, it is important to note, our surface transportation bill creates or saves millions of jobs, benefiting millions of American families across the country. It sends a great signal to send, as we struggle to get out of the slowdown and we begin to see the light at the end of the tunnel. This will be a very large light because there are very few other things we can do here that have the reach of a transportation bill.

Let’s talk about the construction industry. According to the most recent unemployment figures, there are 1.5 million construction workers out of work, with the industry facing an unemployment rate of 17.7 percent. Construction workers are out of work, and I have to show you a chart I have in the Chamber. The national unemployment rate is 8.3 percent. We want to see that come down. But look at that construction industry unemployment rate: 17.7 percent. These are real people with pride in what they do. And we know the housing industry has had a horrible time. It has stalled out, and it is in a horrible time.

So if we can take those construction workers and offer them an opportunity to build the roads, the bridges, the highways, the transit systems, it will put them to work and we will get that 17.7 percent rate down.

I do not know if we have a picture of that stadium. This is a picture of the Super Bowl stadium. From what I understand, it seats about 100,000. That is what we see here. If we had 15, 15 of these pictures, 15 Super Bowl stadiums’ worth of people, that is how many people are unemployed in construction.

I use this not only because I watch the Super Bowl, although my Niners did not get in and it was upsetting, but because this is a visual. Imagine every one of those people unemployed times 15. It is a visual. I think it is important that we keep in mind we are talking about real people who have lost real jobs because of this recession and especially the housing downturn.

This is a chance to put them to work. There is an urgent need to get this legislation through the conference committee and onto the President’s desk because the authorization extension expires on March 31. I wish to say to colleagues who may be watching or staff who may be watching: You may have a lot of amendments in your mind, in your heart, and everybody has a right, and I support your right. But please think very hard before you start bringing down amendments that will slow us up.

Those thousand organizations know we need to keep our eye on the ball, and these organizations are in all our States. It is millions and millions of American families. So let’s not add extraneous matters, please. Let’s not have frivolous amendments, killer amendments. We can all offer these. I have several I could offer in a heartbeat. But this is not the place to have our ideological disputes. This is a bill that is a jobs bill. This is a bill that is good for our businesses. This is a bill that will save 1.8 million jobs and create up to 1 million construction millions and millions of American families.

There is another reason. Not only does the highway bill expire in March, but we also know the trust fund is running out of money for projects already in the pipeline. So we have to find a reliable and stable source of funding. Senator BAUCUS and his Finance Committee have come up with a way to responsibly fill this shortfall. I cannot thank them enough, the Democrats and Republicans on that committee.

Thank you, Senator Baucus. What you have done is to have come up with some very good ways to pay for the shortfall, and those ways do no harm.

We must push forward for another reason which I alluded to before. America’s aging infrastructure is crumbling. Let me just tell America this: Some 70,000 of our Nation’s bridges are structurally deficient—70,000 of our Nation’s bridges are structurally deficient. 50 percent of our roads are not up to standard.

If you are in your home and you have little kids and someone who is an expert comes up to you, an engineer, and says your house could easily crumble, you will know what I am talking about. You would get out of there, fix it, and then move the family back in. This is no different. If somebody tells you your house is crumbling, you have to fix it. If somebody says to us, our Nation’s bridges are structurally deficient and over 50 percent of our roads are not up to standard, we have to act.

My dear friend and colleague who is going to manage this bill with me has arrived. I will tell him, I am about 5 minutes away from finishing my opening statement and yielding to him. He is more eloquent than anyone I have ever heard on two issues; one, what is the role of government. He makes the point, which I am not going to take away from him, as to how infrastructure fits into that.

He also is eloquent on the point of safety. Because he has seen with his own eyes what happens if we do not get our infrastructure sound and safe. We have an aging infrastructure, and it needs to be fixed.

We cannot be an economic leader if we cannot move people and goods. We cannot thrive as a nation if our people are trapped in traffic and our businesses are trying to move goods and they are trapped in traffic. We lose 4.8 billion hours from work and we pay the price for that in loss of productive time and in dirty air.

As to our bill that was passed out of the Environment and Public Works Committee, I wish to say to my ranking member who was not here and his staff was not here at the time that I started, I praised him to the sky—and staff—because regardless of our differences on many issues, we have been able to put this country first in this bill.

I am so grateful for the spirit of cooperation we have brought to our work, which was captured in the Banking Committee, where Senators JOINT and SHELBY got together, and in the Finance Committee where many Republicans joined our Democratic friends to figure out a way to fund this responsibly, and in the Commerce Committee, while we have one or two little hiccups, but I do believe we are going to resolve them. I am proud we were out there first showing we could do this.

People said all over the Senate: If BOXER and INHOFE can do this, anything is possible. MAP-21 is a reform bill, and I am proud about that. It consolidates 90 programs into less than 30. It focuses
on key national goals. It gives greater flexibility to the States to invest in their top priorities. It eliminates earmarks. It establishes performance measures to improve accountability. It accelerates project delivery, and it provides resources for a new national freight program.

This bill is responsible. It continues the current level of funding plus inflation which, as I said, protects 1.8 million jobs. The TIFIA Program, which Senator INHOFE and I agreed to increase, which stands for Transportation Infrastructure Finance and Innovation Act, is also embraced by Chairman MICA over on the House side.

So Republicans and Democrats agree that by making more funds available through TIFIA, we can mobilize up to $30 billion more from the $1 billion we have placed in that fund and create up to 1 million jobs.

I wish to thank the mayor of Los Angeles and the Chamber there and the workers there who brought the idea of leveraging to my attention. I wish to say that Tom Donahue, of the U.S. Chamber, president there, Richard Trumka, the president of the AFL and many labor groups throughout our Nation supported this TIFIA Program to stretch taxpayer dollars in a safe way.

Again, they have done that in the House bill as well, which is very good for us.

I am proud of this bill and the reforms in it. I am proud of working relationships we have established across party lines in our committee. I could say, very honestly, there are a lot of things this bill does not have that I am sorry about, that I wanted to see in there. I am not going to detail those. But I know Senator INHOFE feels the same way. But there were certain things that were lines in the sand for each of us. There was a give and take that resulted in this compromise which is a good bill—a good solid bill.

We put those controversial issues aside for the good of the Nation. I will close with this. Ever since Dwight Eisenhower started the Interstate System 35 years ago, this bill also means investment in America’s economic future, for an efficient transportation system is absolutely essential for a productive and competitive American economy.

In 1998, the Transportation Equity Act for the 21st Century, TEA-21, with a Senate Republican majority, passed by a vote of 79 to 8. The House, with a Democratic majority, passed it by a vote of 372 to 47. President George H.W. Bush signed it into law. At the December 18, 1991, signing ceremony, President Bush said:

"ISTEA is the most important transportation bill since President Eisenhower started the Interstate System. This bill also means investment in America’s economic future, for an efficient transportation system is absolutely essential for a productive and competitive American economy."

In 2005, the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users, SAFETEA-LU, passed the Senate, with a Republican majority, by a vote of 91 to 4. The House, with a Republican majority, passed it by a vote of 412 to 8. President George W. Bush signed it into law.

Elected officials are not the only people who recognize the importance of maintaining our transportation system. The American System public also supports rebuilding the Nation through infrastructure investment.

According to a poll released last October by CNN, 72 percent of Americans—and 54 percent of Republicans—support "increasing federal spending to build and repair roads, bridges and schools."

Roads and bridges are neither Democratic nor Republican, and all elected officials need to leave partisanship on this issue at the door. Bipartisanship is the only way to get the job done, and Senator INHOFE’s and my partnership in this effort is proof positive that it can be done.

Senator INHOFE and I do not agree on many issues, but we found common ground on this one. We agree that we must invest in our aging transportation systems, we must boost the economy, we must put people back to work, and we must pay for it in a way that is fiscally responsible or partisan. Neither Senator INHOFE nor I have ever put our wish list over the bill, but we have a bill that both of us can support. At the end of the day, that is what matters.

The American people deserve to have their elected officials work together to solve our pressing problems, and that is what we did. The bill before us is thoroughly bipartisan, and therefore nobody will think it is perfect, but it is a strong commitment to our transportation system, to the health of our businesses, workers, and communities that depend on it.

I say today is a good day. I have tried to thank everyone I can think of who had anything to do with it. It is my responsibility now to vote yes and look forward to the comments of my ranking member.

Mr. INHOFE. Mr. President, I am not sure. I say to my good friend Senator BOXER, she is going to be too excited about some of the things because what I wish to do is establish what is unique about this bill.

Vince there is a committee in the Senate. It is not like any committee in the House. In the House, they have two separate committees. It is called Environment and Public Works. So it is two almost unrelated committees. Our committee has more jurisdiction than any other committee in the Senate, but it handles things that are totally different.

I will sound a little partisan right now, but I am very concerned about President Obama and what he has done to our country in terms of the deficit. A lot of people do not realize that the budgets actually come from the President—not the Democrats, not the Republicans, not the House and the Senate. Those budgets have had deficits of around $1 trillion. I have been very upset about that.

I am upset about what the President is doing with the military right now. If we have to go through the sequestration as is planned, we are going to lose about $1 trillion in defense spending over the next 10 years. The third area is in energy. We have the opportunity to be totally energy self-supporting just by developing our own resources, but the problem is a political problem.

The fourth area is over regulation.

I say this because my good friend, the chairman of the Environment and Public Works Committee, would disagree with me in all those areas because they do not work together. I do not agree with the regulations, and in my opinion, they are driving our manufacturing base overseas. I see the crown jewel of all regulations is cap and trade. They tried their best to do it. They had the McCain-Lieberman bill in 2003 and again in 2005. We had the Boxer bill—several Boxer bills—that Senator Boxer was involved in—certainly Waxman-Markey.

We defeated them all, and now what the President is trying to do is do through regulation what he could not do through legislation. I only say that because I am in agreement with the chairman of the committee, Senator BOXER, on most of what she just said.
because of the significance of this. I am going to repeat what I said yesterday. I guess it was, or the day before. When rankings come out, historically since I have been in the House and the Senate—I came to the Senate in 1994—I am always ranked among the most conservative Members.

My good friend Senator Boxer is ranked among the most liberal Members—progressive, liberal. But what I appreciated about her is that she is a sincere liberal.

She understands that. In her feelings, she believes government should be involved in more things than I do. I have to be flexible, that why I have been historically considered the most conservative Member, I am a big spender in two areas. One area is national defense—I am very concerned about what is happening in national defense—the other area is infrastructure.

Way back when I was in the House and on the Transportation Infrastructure Committee, at that time we worked very hard for a robust bill, for reauthorizing the transportation system. We were successful. That was back in the good-old days, I say to Senator BOXER, when we always had surpluses in the highway trust fund.

That fund probably goes down as the most popular tax in history because people know, since 1938, it has been a trust fund where people pay their 18 or so cents per gallon, and it goes to maintaining those roads they drive on. So it is directly related to the gasoline purchased.

Then some things happened. First of all, I can remember when we had surpluses. So everybody who had their own deal wanted to get in on surpluses, and they started expanding the highway trust fund expenditures beyond just maintaining and building roads. That was one of the problems. Then along came a lot of the changes. When they talked about electric cars, whether one is for them or against them, and mandating gas mileage, that reduces the proceeds dramatically. In the beginning, I think they probably should have had a highway trust fund geared to a percentage instead of cents.

Now fast-forward to recent times and we have a deteriorating system. I was proud of the Environment and Public Works Committee I have been talking about. In 2006, prior to the last election, I was chairman because the Republicans were in the majority. At that time, we did the 2005 highway reauthorization bill, and it was $286.4 billion—a very robust bill. Yet we could pretty much document that we didn’t do anything new in that bill. We just maintained what we had. It expired in 2009. Since then, we have been operating on extensions.

This is significant. Before I get on to operating on an extension, I will mention what we are talking about, Senator BOXER and I. Our Environment and Public Works Committee has the jurisdiction over the administration of the bill. Some things are controversial. Not many. I don’t know of anything controversial in the highway title. The Commerce Committee with Senator Rockefeller as chairman and Senator Hutchison as ranking member, the Finance Committee with Senators Baucus and Hatch, and the Banking Committee—that is Tim Johnson and Richard Shelby from Alabama—have done their work now.

Ours is the highway title. In my State of Oklahoma, because of the condition of the bridges and highways—the last time I checked, Montana and Oklahoma tied at dead last in the condition of our bridges—we had a young lady—and I have told this story many times; this is most compelling. This young lady—a mother of three small children, lived in Oklahoma City—drove under one of our bridges and a chunk of concrete dropped off and killed them. These are serious matters. So bridges have dropped, just as one did in Minnesota and down in Texas.

We have had so many times when crumbling infrastructure has given way, I remember when they considered Oklahoma—since we became a State in 1907, we are one of the newer States—people didn’t think we had infrastructure problems. They thought that was just confined to California, New York, and the older parts of the country. That is not true anymore because in many of those older parts the infrastructure has been rebuilt while some of the newer States have been ignored. That is why in Oklahoma it is critical.

People say they don’t want earmarks. Senator Boxer said: We don’t have earmarks. I would like to discuss that because I am a strong believer as opposed to the people who don’t want us to do what we are supposed to be doing when we were sworn to uphold the Constitution, article I, section 9—we should be the ones, the House and Senate, to do the appropriating and the authorization. By saying we are not going to do it and defining what can and cannot be authorized, I can see why Democrats lined up to do away with earmarks in a recent vote because that turns it over to President Obama, and he was very supportive of that.

Some Republicans are going to talk about that again. This is not something that is a problem with this bill. In this bill, we have things that come from the needs of our States. We have a secretary of transportation in Oklahoma who has been before our committee numerous times because that secretary of transportation has been in that job for many years now. Before that, he was director of transportation for 30 years. There is nobody who is more knowledgeable on that issue.

So we checked—and I do—with the department of transportation in Oklahoma on their prioritizing of projects. We have a system—and I wish all States had this system. We have transportation districts and chairmen of the districts. They can use the same criteria that I used, and they determine what should be fixed and where the money should be spent. So it is not a political decision, a decision where we are doing what most people consider to be earmarks and trying to help our friends. That is not what we do in Oklahoma. This system, frankly, works very well.

So now we go back to the extensions. Here is the problem with extensions. The bill expired in 2009. We have now gone through eight extensions. The problem we have with extensions is that we cannot do anything creative. We cannot change, reform the system. We just have to take the money that is available and try to use it as best we can. But we cannot reform a system that needs to be reformed.

I have said some things that were not all that complimentary about my partner—in this case, Senator BOXER. We have served together for years in trying to overcome these obstacles. On the highway title of the transportation bill that we are going to be voting on, we have done a good job. When I think about the reforms—and I compliment Senator BOXER. She has been in a real tough position with some of the more liberal members of her party and in some of the things to which she has agreed. We sat down and worked out the differences in a lot of these problems.

State flexibility, we have that in this bill, which we have never had before. I have always been a believer that we are the guys who are in the best position to determine the needs of the States.

That fund probably goes down as the most popular tax in history because people know, since 1938, it has been a trust fund where people pay their 18 or so cents per gallon, and it goes to maintaining those roads they drive on. So it is directly related to the gasoline purchased.

Then some things happened. First of all, I can remember when we had surpluses. So everybody who had their own deal wanted to get in on surpluses, and they started expanding the highway trust fund expenditures beyond just maintaining and building roads. That was one of the problems. Then along came a lot of the changes. When they talked about electric cars, whether one is for them or against them, and mandating gas mileage, that reduces the proceeds dramatically. In the beginning, I think they probably should have had a highway trust fund geared to a percentage instead of cents.

Now fast-forward to recent times and we have a deteriorating system. I was proud of the Environment and Public Works Committee I have been talking about. In 2006, prior to the last election, I was chairman because the Republicans were in the majority. At that time, we did the 2005 highway reauthorization bill, and it was $286.4 billion—a very robust bill. Yet we could pretty much document that we didn’t do anything new in that bill. We just maintained what we had. It expired in 2009. Since then, we have been operating on extensions.

This is significant. Before I get on to operating on an extension, I will mention what we are talking about, Senator BOXER and I. Our Environment and Public Works Committee has the jurisdiction over the administration of the bill. Some things are controversial. Not many. I don’t know of anything controversial in the highway title. The Commerce Committee with Senator Rockefeller as chairman and Senator Hutchison as ranking member, the Finance Committee with Senators Baucus and Hatch, and the Banking Committee—that is Tim Johnson and Richard Shelby from Alabama—have done their work now.

Ours is the highway title. In my State of Oklahoma, because of the condition of the bridges and highways—the last time I checked, Montana and Oklahoma tied at dead last in the condition of our bridges—we had a young lady—and I have told this story many times; this is most compelling. We have transportation districts and chairmen of the districts. They can use the same criteria that I used, and they determine what should be fixed and where the money should be spent. So it is not a political decision, a decision
portion? We sat down and worked out something right here on the floor of the Senate and said there has to be an answer. In Oklahoma, we don’t even want enhancements. How can we handle this? We worked out an agreement that the State, at its own decision level, is able to use this 2 percent of the total highway funding that would go to enhancements in any way they want to do it, and primarily in taking care of some of the unfunded mandates, the require...
Mobility (ATM) Coalition is a nationwide group representing business, labor, highway and public transportation interests that advocate for improved and increased investment in planning and overseeing the transportation system. The ATM strongly supports the motion to proceed to S. 1813. “Moving Ahead for Progress in the 21st Century” urges the Senate to provide a multi-year reauthorization of highway, public transportation and safety programs that both includes reforms to the federal programs and, at minimum, lifts FY 2011 investment levels adjusted for inflation before the expiration of the six-month extension of current law on March 31, 2012.

At the time when economic stagnation in the construction sector, slow U.S. economic growth, and increasing competitive pressures, multi-year highway and transit reform and investment legislation is critical for boosting productivity, U.S. economic competitiveness and supporting jobs. A study released last week by the Associated Equipment Distributors found that over two years, one dollar spent on infrastructure construction produces roughly double ($1.92) the initial spending in direct and indirect economic terms. The long-term impact is also significant, with a dollar in aggregate public infrastructure spending generating $3.21 in economic output (GDP) over a 20-year period.

We commend the Senate committees that helped craft S. 1813, a bi partisan bill for stabilizing federal transportation funding mechanisms for the near-term and avoiding draconian cuts amounting to one-third of total federal investment in highway, transit and safety programs. Cuts of this magnitude would accelerate the deteriorating performance of the nation’s surface transportation network, greatly undermine U.S. economic growth and competitiveness, and result in the real loss of hundreds of thousands of jobs across the country. This bill includes important policy reforms that would improve the delivery of transportation improvements by consolidating programs, reducing red tape, and leveraging private sector resources.

The ATM Coalition will strongly oppose any amendments to reduce the funding levels established in this legislation, and remains committed to working with Congress to find reliable revenue streams sufficient to support the growth and the sustainability of the Highway Trust Fund.

Without the certainty of a multi-year bill, current problems become harder to solve as highway and transit conditions worsen and land, labor, and materials get more expensive. Absent passage of a multi-year reauthorization, there would be continued uncertainty and erratic funding for critical infrastructure investments and the public and private sectors would continue to respond by delaying projects, withdrawing investment, and laying off employees.

We encourage you to support the motion to proceed to S. 1813. The ATM Coalition stands ready to bring together business, labor, highways and transit stakeholders to provide Congress the public support to pass an adequately funded multi-year surface transportation bill by March 31, 2012.

Mrs. BOXER. I want to tell you who signed this letter. And my friend may not have seen it. The American Public Transportation Association, the American Road and Transportation Builders Association, Associated Equipment Distributors, the Association of Equipment Manufacturers, the Associated General Contractors, the American Society of Civil Engineers, the International Union of Operating Engineers, the Laborers’ International Union of North America, the National Asphalt Pavement Association, the National Stone, Sand, and Gravel Association, the United Brotherhood of Carpenters and Joiners of America, and the U.S. Chamber of Commerce.

Now, I have to say—Mr. INHOFE. Will the Senator yield for a question.

Mrs. BOXER. Yes, but let me make one statement. This list I have just read represents America—Republicans, Democrats, and Independents.

Yes, I yield.

Mr. INHOFE. Even though we haven’t ironed out how to handle time, we have a Senator who wanted to speak 20 minutes ago, and if we could, I would love to get back into the dialog.

Mrs. BOXER. I am finishing this, and this will yield the floor and am happy to have him speak. I felt this was opening time for the chairman and the ranking member to lay down their case, and I am not about to let an attack on the President of the United States of America go unanswered. I am not going to be the one going to go down that road, we are going to have a give-and-take. If we are going down the road I hope we will go down, it is about getting this bill done.

So let me talk about this letter, and then I will yield the floor. And I say to my ranking member, we will decide how to divide the time, and we should. That is fine with me.

They say in this letter:

We commend the Senate committees that helped craft S. 1813, a bi partisan bill for stabilizing federal transportation funding mechanisms for the near-term and avoiding draconian cuts amounting to one-third of total federal investment in highway, transit and safety programs.

They are talking about the fact that the highway trust fund is a third of where it should be. That is why we are so happy that the Finance Committee, on a bipartisan vote, is replacing these funds.

The letter goes on to talk about what would happen if we didn’t do this bill.

Cuts of this magnitude would accelerate the deteriorating performance of the nation’s surface transportation network, greatly undermine U.S. economic growth and competitiveness, and result in the real loss of hundreds of thousands of jobs across the country. This bill includes important policy reforms that would improve the delivery of transportation improvements by consolidating programs, reducing red tape, and leveraging private sector resources.

Additionally, this great coalition, which is comprised of the chamber of commerce, the unions, and business, says:

The ATM coalition will strongly oppose any amendments to reduce the funding levels established in this legislation, and remains committed to working with Congress to find reliable revenue streams sufficient to support the growth and the fiscal sustainability of the Highway Trust Fund.

This next quote from their letter is so important:

Without the certainty of a multi-year bill, current problems become harder to solve as highway and transit conditions worsen and land, labor, and materials get more expensive. Absent passage of a multi-year reauthorization, there will be continued uncertainty and erratic funding for critical infrastructure investments and the public and the private sectors would continue to respond by delaying projects, withdrawing investment, and laying off employees.

We encourage you to support the motion to proceed to S. 1813.

Of course, Mr. President, that is the motion we will be voting on today at 2 p.m.

They continue:

The ATM Coalition stands ready to bring together business, labor, highways and transit stakeholders to provide Congress the public support to pass an adequately funded multi-year surface transportation bill by March 31, 2012.

On the issue of the enhancements, we already had a vote on enhancements before, and we turned back proposals to do away with enhancements. So what we did in this bill is we said to the States: Guess what, you have much more flexibility.

I want to tell you—and I won’t do it now, but perhaps Senator PAUL is going to speak about these enhancements—we know for sure that these enhancements—and I think that is the wrong name because they are really safety projects—have saved lives because they fund things such as pedestrian paths and safe passageways for kids to get to school. So while my colleague and I may differ, I strongly believe Congress stands behind—I should say Senate stands behind—continuing to fund these safety projects, and we have given the States far more flexibility. So I hope we will defeat any amendment to remove the ability of our States to determine which of those safety projects they want, because we have the facts behind us—33 percent of traffic fatalities involve pedestrians and bicyclists. I feel we give our States the opportunity, and if Oklahoma doesn’t have any of these problems because it is a much more rural State than California, I am happy with that. But we have to understand that these are safety projects, and I hope we will defeat any amendment that tries to reduce the ability of the States to fund these projects.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. Mr. President, I ask unanimous consent that the junior Senator from Kentucky be recognized for up to 7 minutes. He has been trying to get on for quite some time. I think that is agreeable with everyone.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The Senator from Kentucky.

Mr. PAUL. Mr. President, I wish to commend the Senator from Oklahoma on being a leader in trying to repair and restore our infrastructure. I think
American citizens. This must not be allowed to stand.

The American people should be concerned. We are subsidizing behavior, through U.S. taxpayer foreign aid to Egypt, that is leading to and allowing for the unjust detainment of American citizens in Egypt. Egypt is one of the largest recipients of foreign aid, totaling over $70 billion over the last half century. Egypt’s ruling military has itself received $1.3 billion in foreign aid every year since 1987, and they have the gall to hold American citizens hostage. This must not be allowed to stand.

Not everyone in this body agrees on foreign policy or on the role of U.S. foreign assistance. But the reckless actions of Egyptian authorities in this matter should bring us together to form one undeniable conclusion: American foreign assistance dollars should never be provided to any country that bullies our citizens, recklessly seeks to arrest them on imaginary charges or denies them access to their most basic rights.

Egypt must immediately stop the detainment and prosecution of these American citizens. If they fail to do so, then we have the moral obligation to immediately end their foreign aid. The time for action is now.

I will offer an amendment to suspend Egypt’s foreign aid until our American people are allowed to leave the country in safety and secure the release of our people’s representatives to ensure no more American taxpayer dollars will flow to Egypt until they rescind the charges against innocent Americans and allow them to peacefully leave the country. The American people are behind this, and I advise the Senate to consider that we should no longer send foreign aid to a country that is illegally detaining our citizens.

I yield the floor.

The PRESIDING OFFICER (Mrs. HAGAN). The Senator from Vermont.

Mr. LEAHY. Madam President, with the Senator from Kentucky still on the floor, I appreciate what he has said, and I am glad he has shown support for the Leahy amendment which passed in the last foreign aid bill.

There was a lot of pushback from a number of people, the administration on the one side of the aisle, initially, when I wrote into the law that said it would suspend any—$1.3 billion—for the military, unless there was a certification that they were upholding the moves necessary toward democracy.

As a result, all the money the Senator is concerned about is being held back because of the Leahy amendment—which is joined in by Senator GRAHAM, whom I see coming onto the floor—when we did the Foreign Operations bill.

I applaud the words of the Senator from Kentucky. I can assure him, with the Leahy amendment, none of the foreign aid is going to Egypt as they conduct their operations the way they are.

The American people should be concerned. We are subsidizing behavior, through U.S. taxpayer foreign aid to Egypt, that is leading to and allowing for the unjust detainment of American citizens in Egypt. Egypt is one of the largest recipients of foreign aid, totaling over $70 billion over the last half century. S408

CONGRESSIONAL RECORD — SENATE

February 9, 2012

your leadership on this important issue in the 112th Congress.

Sincerely,
Sheriff Paul H. Fitzgerald,
President.

Federal Law Enforcement Officers Association

Hon. Patrick Leahy,
Chairman, Senate Judiciary Committee.
Hon. Charles Grassley,
Ranking Member, Senate Judiciary Committee.

Dear Chairman Leahy and Ranking Member Grassley: On behalf of the 26,000 members of the Federal Law Enforcement Officers Association (FLEOA), I am writing to express our full support for Senator Leahy’s proposed reauthorization of the Violence Against Women Act (VAWA). FLEOA has supported the essential purpose of this legislation since it was first passed in 1994. According to the Centers for Disease Control and Prevention, one in four women will experience domestic violence in their lifetime. In our proud Land of the Free and Home of the Brave, this is unacceptable.

FLEOA fully supports the substitute amendment to S. 1455. The amendment properly calls for the U Visa cap to be raised to allow for the recapture of 5,000 unused U Visas. This cap authorizes an annual issuance of only 10,000 U Visas. Unfortunately, dangerous criminals remain un- daunted by this cap and it only serves to dis- courage non-citizen battered women from co-operating with law enforcement.

The absolute priority for all law enforce- ment officers is the pursuit and capture of violent criminals. By limiting the number of U Visas law enforcement can request, Congress is effectively amputating the long arm of the law. Law enforcement officers and prosecutors have used U Visas like choco- late. U Visas are an essential tool care- fully used by law enforcement and tempered with great scrutiny. Again, our unwavering priority is to do everything within our means to protect women who are victimized by violent criminals.

I respectfully ask that both parties rally behind this important legislation, and that we unite in recognition of the need to pro- tect all battered women from dangerous criminals.

Respectfully submitted.

Jon Adler,
National President.

Mr. Leahy. For almost 18 years, the Violence Against Women Act has been the centerpiece of the Federal Government’s commitment to combat domestic violence, dating violence, sexual assaul- t, and stalking.

Senator Grassley and I introduced this bill, a moderate bill, which has now gone through the Senate Judiciary Committee and should be voted up or vetoed down. It saves money, but it also commits to those programs needed by our States.

At some point, if it is delayed much longer, I am going to come to the floor and recount some of the horrific crime scenes I went to of violence, sexual vio- lence, domestic violence, the things that are being combated now, things that happened when we did not have the Violence Against Women Act.

Last Thursday, the Judiciary Com- mittee again heard the bipartisan Vio- lence Against Women Reauthorization Act. For almost 18 years, the Violence Against Women Act, VAWA, has been the centerpiece of the Federal govern- ment’s commitment to combat domest- ic violence, dating violence, sexual assaul- t, and stalking.

It has been extraordinarily effective, and the annual incidence of domestic violence has fallen by more than 50 per- cent since the landmark law was first passed.

As a prosecutor in Vermont, I saw firsthand the destruction caused by do- mestic and sexual violence. Those were the days before VAWA, when too often people dismissed crimes with a joke, and there were few, if any, services for victims.

We must not go back to those days. This law saves lives, and it must be re- authorized.

Senator Grassley and I introduced a moderate bill that incorporates input from survivors of domestic and sexual violence all around the country and the tireless professionals who serve them every day.

This legislation builds on the progress that has been made in reduc- ing violence against women, and it makes vital improvements to respond to remaining, unmet needs.

Unfortunately, partisan politics threaten to hold up the crucial legis- lation from moving forward. We have seen this same pattern too often.

The Trafficking Victims Protection Reauthorization Act and the Second Chance Act, both laws originally cham- pioned by Republican Senators and supported by Republican Presidents, are now suddenly unacceptable.

This obstruction must stop. These programs are too important. They save lives. They make our communities safer.

Nowhere is that more true than for the Violence Against Women Act. Cer- tainly, helping survivors of domestic and sexual violence should be above politics.

The last two times VAWA was reau- thorized, it was unanimously approved by the Senate. Now, this law, which has done more to stop domestic and sexual violence than any other legisla- tion ever passed, faces Republican op- position. That is not right.

To those who suggest that this legis- lation creates too many new programs, I say that is simply not true. In fact, the bill reduces the scale of VAWA.

It consolidates 13 existing programs and reduces the overall levels by nearly 20 percent while providing for only one small additional program.

The improvements in this bill are im- portant but modest when compared to previous reauthorizations, which cre- ated many new grant programs and raised authorization levels almost across the board.

I have heard some say that our bill protects too many victims. I find that disheartening. One thing I know from my time as a prosecutor, and I would hope it is something that Senator Grassley and I can agree on, is that every victim counts.

All victims deserve protection. That is a message we have heard loud and clear from our States and something I hope is common ground.

More than 200 national organizations and 500 State and local organizations have expressed their support for this bill.

Many of them have written strong letters urging swift passage of this leg- islation including the National Task Force to End Sexual and Domestic Vio- lence, the National Association of At- torneys’ General, the National District Attorneys’ Association, the National Sheriffs’ Association, and the Federal Law Enforcement Officers Association.

This legislation has the support of five Republican Senators.

I thank Senators Grassley, Kirk, Mur- kowski, Brown, and Collins for their willingness to step forward and support the reauthorization of this landmark legislation.

This is the Violence Against Women Act. It should not be a partisan matter.

I hope that all Senators will support this bill and that we can move quickly to reauthorize this critical legislation.

It is a law that protects countless lives, and it is an example of what we can accomplish when we work to- gether.

AIR NATIONAL GUARD AND RESERVES

Madam President, I would like to see the senior Senator from South Caro- lina. For the first 50 or 60 years I was in the Senate—or it felt like that—it was a different senator. But I am delighted to see the senior Senator from South Carolina, who is joining me to address a matter of great importance to the Nation at a crucial moment in our history.

The U.S. Air Force last week offered a preliminary look into its budget for fiscal year 2013. While the President will formally submit his budget pro- posals on Monday, last week’s briefing and information papers offered enough detail for the Senate to begin consid- ering the overall strategic direction of the Air Force Future Years Defense Program. In Pentagon jargon, that is usually called FYDP.

I have to say I am deeply dis- appointed and very worried as I look at the first glance at that proposal.

The PRESIDING OFFICER. The Sen- ator from South Carolina.

Mr. Graham. Madam President, I appreciate the opportunity to engage in this colloquy.

As cochairman of the Guard Caucus, which obviously has the Air National Guard Component, Senator Leahy has been a real pleasure to work with.

The bottom line is, this effort to downsize the Air Force falls incredibly heavy on the Air National Guard. There will be 3,000 Active-Duty mem- bers lost regarding the plan he just mentioned, 5,000 coming from the Air National Guard. The airframes to be eliminated in the plans Senator Leahy just mentioned fall disproportionately on the Air National Guard. In just a moment, we are going to talk about these, or your buck in terms of the Reserve component called the Air Na- tional Guard, and we are going to chal- enge the Congress and the Department
of Defense to reconsider this because, quite frankly, it makes no military or fiscal sense.

Mr. LEAHY. As an example of the approach to the budget cuts, one of the A-10 units slated for cutting, the 127th Wing from Vermont, that is currently fighting bravely in Afghanistan and as a welcome home: Great job. Sorry, we are going to disband you. The approach to budget cuts the Air Force has decided to take is simply wrong. We have to have budget cuts. We know that. But there is a wide variety of reasons why this makes not the sense it should. I draw the Senate’s attention to a study produced by the Pentagon last year that was signed by the Vice Chairman of the Joint Chiefs and the Assistant Secretary of Defense for Reserve Affairs that demonstrated what we already knew: Even when mobilized, Reserve component units are far less expensive than their peer units in the Active component.

It is a foregone conclusion that the Air National Guard costs are far less than Active component costs when they are on base or in garrison. Personnel are not drawing the salaries their peer units are and so on. But I reported something more interesting. It showed the Guard and Reserve save taxpayers dollars even when mobilized. The Reserve component units are estimated to be about one-third as expensive as similar Active component units, and they can deploy nearly half as often. That adds up to a lot of savings in dollars and cents, but it also reflects a very major component of our security, because in the wars we fought in the last decade, we could not have done it without these Guard and Reserve units.

Mr. GRAHAM. The Senator is absolutely right. When we look at the utilization of the Guard and Reserve since 9/11, it has been at World War II levels. When we look at the deployment theater, we can’t tell the difference between Guard, Reserve or Active-Duty member, which is a testament to all three. But when we look at what the Air Force is doing—and I think it is proper to consider the other services—the Marine Corps is making no reduction to their Reserves. The Army is making very small cuts in the Guard and Reserves and substantial cuts to the Active Forces. The Army and Marine Corps support the new strategic concept of reversibility; that is, the part of the Department of Defense strategic guidance. We cannot be sure what contingencies might arise, and we cannot afford to make cuts that will leave us incapable of responding when necessary.

Secretary Flournoy, during her last speech to the Defense for Policy, stated that “the Guard and the Reserves will play an extremely important role” in the reversibility concept because they give the military built-in adaptability and resourcefulness. This reversibility concept is what we are doing to reduce the defense infrastructure. If it were ever reversed or had to be reversed because of some contingency, we want to make sure that is possible. The Guard and Reserve is the most capable force to maintain and, in terms of the concept of reversibility, is our best bang for the buck.

So the Air Force is taking a different approach than the Army, Navy, and Marine Corps to their Reserve component, particularly their Air National Guard. I think Senator LEAHY and I are going to make sure that decision is examined in-depth.

Mr. LEAHY. I agree with my colleague on that, and that is why the bipartisan Guard Caucus will have some very strong statements.

We look at what the former Chief of Staff of the Air Force, GEN Ron Fogelman, said before these plans were announced. He argued for a larger Reserve component and a smaller Active-Duty Force. He did a guest column in DefenseNews. He said, among other things:

“The big question is, how does the department reduce its budget and continue to provide a modern, balanced and ready defense when more than half of the budget is committed to personnel costs?”

The answer to that question is right before us: We should return to our historic roots as a militia nation. So, what does that mean, exactly? Simply put, it means we should return to the constitutional construct for our military and the days when we maintained a smaller standing military and a robust militia.

To do that, leaders must put old parochial norms aside and be willing to actually shift forces and capabilities to the National Guard and Reserve.

He said “put old parochial norms aside.” He goes on to say:

“This would enable significant personnel reductions in the active components. It would also result in a larger reserve component. Most importantly, it would preserve capability and equipment that has cost the American taxpayer trillions of dollars, nest it in our constitutional construct for our militia nation. So, what does that mean, exactly?”

This concept worked well for our country for the better part of two centuries. Unfortunately, several lessons have come and gone, and most of today’s leadership fails to recognize the true potential of the militia model.

We need our collective senior military and civilian leaders to recognize there is a way back to a smaller active military and a larger militia posture. The fiscal environment and emerging threats demand it.

Those aren’t my words. Those are the words of a former Air Force Chief of Staff.

Mr. GRAHAM. Senator LEAHY is right. When we look at our Constitution itself, it talks about a militia. When we look at the history of the country, it is the citizen soldier who got this whole concept called America started.

We do need a standing Army, Navy, Air Force, and Marine Corps. But when we are looking at the budget problems we face today, we have to look at ourselves as a nation and we want to restructure the military. I will be talking in just a minute about why we should be looking for a greater role from the Guard and Reserve just from economics. But when it comes to military capability, I think we have the best of both worlds now: a very efficient, quite frankly, cheaper force to maintain with very high morale. If not like, capable, yes. We don’t want to let that potential be eroded by a plan that I think doesn’t appreciate the role of the militia and doesn’t appreciate the cost-benefit analysis from a robust Reserve component.

Mr. LEAHY. In fact, Senator GRAHAM and I introduced successful amendment in last year’s Defense authorization bill that required the Pentagon and the GAO perform studies that should produce more conclusive analysis of the relative cost of similar units in the Active components and the Reserve components. We are also aware of at least two other third-party studies currently underway to address the questions. I think we are going to have three or four such studies that will provide pretty interesting information. Senator GRAHAM and I—and I think most of our colleagues in the Senate—consider these proposed Air Force cuts to be dangerously premature. Once we cut the Reserve components, once we send an aircraft to the boneyard at Davis-Monthan Air Force Base and these airmen and pilots go out to civilian life, we don’t get them back. In fact, that is precisely why the Army and Marine Corps have taken a different approach to preserving their Reserve component forces. They can mobilize Active component troops they place in the Reserve component. But once we cut that, they are gone forever. They are gone forever.

Mr. GRAHAM. What I am about to provide to the body, I think we need to absorb and be aware of.

This study that Senator LEAHY is talking about, an analysis of the effectiveness and cost, is an ongoing endeavor and would provide, I hope, more about what the study yields before we make what I think are pretty Draconian cuts in the Air National Guard.

But this is what we know before the study. This information is already in: According to an Air Guard briefing, the Air National Guard, operating under today’s deployment constraints, is still 53 percent of the cost of an equivalent Active-Duty major command. The Air National Guard costs $2.23 billion less annually than a similarly sized Active Air Force command. That is $6.2 million a day in savings.

After 20 years of service, our average enlisted airman costs nearly $80,000 a year in total compensation. On the other hand, an identical Air National Guard enlisted airman costs about $10,000 a year, about an 85-percent savings.

Over a 20-year career, an Air National Guard airman will cost about $1 million compared to a similar, if not like, capability. At 22 years, an active-duty pilot will cost about $150,000 in compensation. On the other hand, an Air National Guard pilot at 22
years costs the taxpayers about $30,000 in total compensation. Over a 26-year career, an Air National Guard pilot will save the country nearly $2 million compared to an active-duty pilot.

Active-duty pilots retire on average with 20 years of service, Air National Guard pilots retire with an average of 26 years of experience, giving the country a greater level of experience and ability for those final 4 years, at a much lower cost. These cost figures do not even account for their life cycle infrastructure savings that the Reserve component-first model would yield.

These are stunning numbers without the study to fully be accomplished. We are going to do our best. I say to Senator LEAHY, to tell the story of capability and cost.

Mr. LEAHY. Madam President, clearly this approach, if we keep the Guard and Reserve, saves our country precious resources at a time when we need to tighten our belts. There are a couple of things we agree on. Everybody in the Senate agrees that our military has to be kept strong and vigilant to threats from our enemies. But the source of our military strength has been and always will be our Reserves. We are trying to protect ourselves militarily and while also marshaling our economic power, moving to the kind of constitutional defense model my colleague has discussed would be our first choice.

I think the Air Force pilots in harm’s way are ill-advised and premature at the very least. I think they are flat-out wrong, as has already been said here on the floor. When any of us who have visited the areas, especially in the last few years, where our military guard and our Reserves are deployed, you cannot tell the difference between their duties or the risks they put themselves in—between the active-duty and Guard and Reserve components. The National Guard has been given a much greater role in our overall national defense—more missions, greater responsibility, heavier burdens. They perform these missions superbly, with great skill and effectiveness. They have defended our interests, and many have lost their lives doing it, but they carried out the same missions as everybody else.

The Senate National Guard Caucus worked closely with all concerned to accommodate and facilitate these changes, and we are going to play an active role in informing the Senate as these are being made. We are not going to sit by while any of the military services decimate their Reserve components. We will work together, Senator GRAHAM and I, with the Senate Armed Services Committee on which he serves with distinction, and the Senate Appropriations Committee on which we are both privileged to serve, but also the entire membership of the Senate, to produce a thoughtful, well-conceived strategy for military manpower that makes use of a cost-effective and accessible, fully operational, trained, and ready Reserve component.

Mr. GRAHAM. I look forward to working with Senator LEAHY and others to bring about what he indicated to make it a reality. The bottom line of this whole discussion is that the Cold War is over. We are very proud of our standing military, our Army, Navy, Air Force, Marines, Coast Guard. Do they do a terrific job, the standing military. The militia component has been the heart and soul of this country since its founding and in a post-Cold War war on terrorism environment we put the resources that the Guard and Reserve have that are unique—like civil affairs. When you are going into Afghanistan and Iraq, it is one thing to clear the village; you have to hold the village. You have to hold it. Agricultural specialists come from the Guard and Reserve, people from Vermont and South Carolina who have skills in their day job, who can do more in the war effort than dropping a bomb.

As we look at the threats we face, I think we need to understand the Reserve component is more valuable than ever. We are not defending the Fulda Gap against a massive Soviet Union tank invasion. We have to be nimble. We have to deploy quickly. The Reserve component, particularly the Air National Guard, has a great return on investment and, like any other part of the military, can be reformed. But this proposal doesn’t reform it; it in many ways neuters the Air National Guard at a time that makes no sense. We will continue this endeavor, and I look forward to working with Senator LEAHY and others to create a rational approach to the Reserve and Guard.

Mr. LEAHY. I thank my friend from South Carolina. We will from time to time report to the Senate on this issue. It is extremely important. It comes down to the bottom line: Have the best defense at the least cost to the taxpayer. That is what we are both aiming for.

I yield the floor and I suggest the absence of a quorum. The PRESIDING OFFICER. The clerk will call the roll. The bill clerk proceeded to call the roll.

Mr. GRASSLEY. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT AGREEMENT—EXECUTIVE NOMINATION

Mr. REID. Madam President, I ask unanimous consent that today, February 9, at 1:30 p.m., the Senate proceed to executive session to consider Calendar No. 407; that there be 30 minutes divided in the usual form; that upon the use or yielding back of time the Senate proceed to vote with no intervening action or debate on Calendar No. You are to call on each Senator in order of seniority placed upon the table with no intervening action or debate; that no further motions be in order; and that any statements related to this matter be printed in the RECORD; that President Obama be immediately notified of the Senate’s action; and the Senate proceed then to legislative session and the cloture vote on the motion to proceed to S. 1813, under the Craig Rule.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Madam President, for over a year now I have been investigating Fast and Furious. That is an operation coming out of the Bureau of Alcohol, Tobacco, and Firearms.

This has been a very complicated investigation. It has been made even more difficult because of the Justice Department’s lack of candor and transparency. Basically, the Justice Department is stonewalling, interfering with Congress’s constitutional responsibility of oversight.

For example, the Justice Department’s office of Inspector General recently disclosed that it has received 80,000 pages of documents from the Department and over 100,000 e-mails.

Think of what the Inspector General gets from the Department: 80,000 pages and 100,000 e-mails. And yet none of you think they have given the Congress of the United States, which has the constitutional responsibility of oversight? It is only 6,000 pages that we have received.

Similarly, the inspector general has been allowed to conduct 70 witness interviews. How many has the Justice Department allowed the Congress, in our responsibility of oversight, to interview? Only 9 witnesses. And the General Eric Holder testified before the House Committee on Oversight and Government Reform. The Justice Department did a document dump to Congress the Friday night before the hearing. That has become a very bad habit of the Department of Justice. In fact, without giving us any advance notice that it was coming, they actually put a CD under the door of our office, after business hours. What did they do for the press? They gave the same documents to the press 2 hours before they ever gave them to us. Yes, they managed to find time to leak the documents to the press during regular business hours. This is the kind of cooperation we get from the Justice Department in our constitutional responsibility of oversight.

What I am telling my colleagues here is that we have a terrible lack of cooperation from the Justice Department. The Justice Department is not only blunting its nose at the Senate, they are doing so to the entire Congress of the United States, when we know there are 80,000 pages of documents and they only give us 6,000 pages; when
there are 100,000 e-mails and we get a handful of e-mails. Why would they be so mysterious by putting a disk under our door on a Friday night and giving it to the press 2 hours before? What sort of attitude is that of our Justice Department toward the cooperation you expect to have with our filling our constitutional role of oversight? So I guess I would say there is hardly any cooperation whatsoever from the Justice Department.

Even though we get a dribble here and a dribble there, even though we get a CD under the door, instead of very openly face to face receiving documents, what we got last Friday did reveal further facts about a previously unknown proposal to allow these guns to cross the border.

We have long known that in March of 2011, Deputy Attorney General James Cole had a conference call with all Southwest border U.S. agents. In a follow-up e-mail after the call, Mr. Cole wrote:

As I said on the call, to avoid any potential confusion, I want to reiterate the Department’s policy: We should not design or conduct undercover operations which include guns or violence. If we have knowledge that guns are about to cross the border, we must take immediate action to stop the firearms from crossing the border, even if that means the elements otherwise jeopardizes an investigation.

Attorney General Holder himself told us in a hearing in May that Mr. Cole was simply reiterating an existing Justice policy in his e-mails, not communicating new policy. So imagine my surprise when I discovered in the document slid under my door late last Friday that while in Mexico Assistant Attorney General Lanny Breuer proposed letting guns cross the border. Mr. Breuer’s proposal came exactly the same time the Department was preparing to send its letter to me denying that the ATF ever does the very thing he was proposing.

In a February 4, 2011 e-mail, the Justice Department attache in Mexico City wrote to a number of officials at the Justice Department:

AAG Breuer proposed allowing straw purchasers to cross into Mexico so [the Secretariat of Public Safety] can attest and [the Attorney General of Mexico] can seize the weapons; and the possibility of the Government of Mexico not seizing the weapons; and the weapons being used to commit a crime in Mexico.

Well, the light bulb went on. If you are selling 2,000 guns illegally and they don’t interdict them, well, yes, they end up murdering hundreds of people in Mexico and at least one person in the United States.

If the Justice Department did have a policy against such operations, this is a record of Mr. Breuer proposing to violate it. That is not just my conclusion, that is the Attorney General’s conclusion as well.

At last week’s hearing in the House of Representatives, the Attorney General was asked to explain the contradiction between his deputy’s anti-gunwalking policy and the evidence of Mr. Breuer’s proposed operation to let guns cross the border. He could not answer that question, but the Attorney General answered:

Well, clearly what was proposed in, I guess, February by Lanny Breuer was in contravention of the policy that I that the Deputy Attorney General make clear to everybody at Main Justice and to the field . . .

Perhaps this disconnect between Justice Department policy and Lanny Breuer’s proposal explains Mr. Breuer’s previous inaction to stop gunwalking. When he found out about gunwalking in Operation Wide Receiver in April of 2010, he failed to do anything to stop it or to hold anyone accountable. He simply had his deputy inform ATF leadership.

Regardless, Mr. Breuer’s contravention of Justice Department policy is yet another reason why it is long past time for Mr. Breuer to leave the Department of Justice.

Mr. Breuer misled Congress about whether he was aware of the Department’s false letter to me. To this day he is still the highest ranking official in any administration that we know of who had no knowledge of Fast and Furious. He is the head of the Justice Department’s Criminal Division, he proposed exactly what his Department was denying to me was actually happening.

The Justice Department’s letter to me clearly said:

ATF makes every effort to interdict weapons machines purchased illegally and prevent their transportation to Mexico.

They said that at the very same time Mr. Breuer was advocating that a Justice Department operation allow weapons to be transported into Mexico. Further, what Mr. Breuer advocated directly contradicted what the Justice Department said its policy was.

Is it possible they can have it both ways? No, you cannot have it both ways. If they didn’t have a policy against such operations, and if the left hand doesn’t know what the right hand is doing, perhaps it is not a surprise that an operation like Fast and Furious sprang up. After all, as that same Justice Department attache wrote of a meeting a few days after his first e-mail:

I raised the issue that there is an inherent risk in allowing weapons to pass from the US to Mexico; the possibility of the (Government of Mexico) not seizing the weapons; and the weapons being used to commit a crime in Mexico.

We have people here in Washington saying the program doesn’t exist at the same time we have people talking down in Mexico City of what we are trying to accomplish by the illegal sale of guns.

That e-mail I quoted, the recipient of it included Mr. Breuer’s deputy, Jason Weinstein, who was helping to write the Justice Department letter to me that they would later withdraw for its inaccuracies. In other words, they wrote a letter to me on February 4 of last year that in October they admitted they misled us. Mr. Weinstein was sending updates about the draft letter to Mr. Breuer in Mexico at the very same time so he cannot say he didn’t know about it. Yet, during his testimony to the Senate Judiciary Committee, Mr. Breuer downplayed his involvement in reviewing the draft letter. It is outrageous to me that the head of the Justice Department’s Criminal Division proposed exactly what his Department was denying to me was actually happening.

Finally, it is time for the Justice Department to stop stonewalling and start providing answers. It is time for Holder to share with Congress the other 74,000 pages of documents they have turned over to the inspector general. It is time for Holder to give us answers as to why and when did the Justice Department officials begin to learn the truth of what happened?

Former ATF Director Ken Melson has testified how and when he learned that guns had walked in Fast and Furious. What about Assistant Attorney General Holder? When and how did Attorney General Holder determine that Mr. Breuer was proposing allowing straw purchasers to reach Mexico with traffic weapons? What has he done about it?

Will Mr. Breuer be held accountable for his handling of a plan to directly violate the Attorney General’s anti-gunwalking policy? The Attorney General clearly testified that the proposal was in contravention of that policy. How does the Justice Department know other senior criminal division officials were not proposing operations similar to Fast and Furious? These are just a subset of the major questions remaining in our investigation of Fast and Furious.

It has now been 1 year since the Department sent me its false letter. How did the Justice Department move from its position of dismissing the complaints of whistleblowers to acknowledging that now those whistleblower complaints are true? What officials were internally dismissive of whistleblower complaints and who believes that they could have merit and should be taken seriously? To what extent did Justice Department officials seek to retaliate against whistleblowers? Exactly how and when did the Justice Department officials begin to learn the truth of what happened?

Regardless of how or when Mr. Breuer proposed allowing straw purchasers to reach Mexico with traffic weapons, what has he done about it? Will Mr. Breuer be held accountable for his handling of a plan to directly violate the Attorney General’s anti-gunwalking policy? The Attorney General clearly testified that the proposal was in contravention of that policy. The sooner he does it, and the Department does it, the sooner we can get to the bottom of what happened. I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

A SECOND OPINION

Mr. BARRASSO. Madam President, I come to the floor today, as I do week after week, as a physician who practiced medicine in Casper, WY, taking care of families in the community and across the State for about a quarter of a century. I come as a doctor providing a second opinion about the health care law. Since this health care law was signed by the President almost 2 years ago, the public has been overwhelmingly opposed to it. The Democrats in Congress drafted this health care law. They did so quickly and behind closed doors. In spite of the President’s promise that the discussions would be held on C-SPAN, no one saw what was happening.

Now the bill is law and, as NANCY PELOSI said, first you have to pass it before you get to find out what is in it. We have, as Americans, witnessed week after week the unintended consequences of the rush of the Democrats to so something quickly without public input, now leading to a political victory. So I continue to come to the floor with a second opinion because week after week there is another new finding of this monstrous law, and it is why week after week this health care law is incredibly unpopular. The list of victims of this law continues to grow longer each week. Small business owners, families, people who get their coverage through their employers, and patients all across the country have already been impacted by this health care law.

But on January 20, the third anniversary of the President’s inauguration, the President’s health care law found a very new target, and that target amazingly popular. Now this administration is mandating that religious institutions provide services that undermine the beliefs of religious institutions across the country. In my opinion, and in the opinion of many across this Nation, this ruling tramples one of the amendments of the Constitution. I would say it is an easy amendment to find since it is the first one. It is the one which protects the rights to freedom of religion and freedom of expression. Reading from the Constitution, Amended in 1997, Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof.

If you take a look back at our Nation’s history, the right to freedom of religion is one of the reasons people came to America in the first place, and it is one of the reasons people have fought and have died for our Nation.

So is someone to do? Well, Washington Archbishop Donald Wuerl has expressed the dilemma many institutions face, and he did it in a letter last week. The archbishop in Washington Archbishop Donald Wuerl has expressed the dilemma many institutions face, and he did it in a letter last week. The archbishop in Washington said the mandate will allow a Catholic school only one of three options: No. 1, to violate its beliefs by providing coverage for medications and procedures that Catholics believe are immoral; No. 2, to cease providing insurance coverage for all of its employees and thereby face virtually ruinous fines; or, No. 3, attempt to qualify for the exemptions by hiring and serving only Catholics, exclude everyone else.

Many Americans understand all three of these options are indefensible. Americans from across the political spectrum are speaking out against President Obama’s big government power grab. One of my Democratic colleagues, Senator Joe MANCHIN, called this mandate un-American. Another, Senator Bob CASEY, a Democrat from Pennsylvania, objected to forcing Catholic institutions to violate their religious beliefs. Then we have former Representative Kathy Dahlkemper, a Democrat from Pennsylvania, who voted for the health care law in the House of Representatives, who said she would never have voted for the final version of the health care law “if I expected the Obama administration to force Catholic hospitals and Catholic colleges and universities to pay for contraception.”

Even liberal commentators such as E.J. Dionne and Mark Shields have criticized the administration for being unwilling to offer a broader conscience exemption to religious-affiliated institutions.

Now that the President’s liberal allies are even opposed to this unprecedented power grab, the White House is trying to clean up the mess. It has signaled that it is willing to compromise on its decision. Instead of a mild compromise, the regulation—and the entire health care law—needs to be fully repealed. As the Wall Street Journal editorial board points out, in any case HHS would receive this coercion whenever it is politically convenient: sometime in Mr. Obama’s second term. Religious liberty won’t be protected from the entitlement state unless it is repealed.

I think all Americans should be afraid of the course this White House is on with this regulation. This debate isn’t about women’s health; it is about power. Washington should not have the power to force religious people and religious institutions to make actions that contradict their beliefs.

What are we going to continue to see as the health care law and the mandates and the regulations continue to come out is a government and an administration that continue to expand the government reach in terms of its size, in terms of its scope, and in terms of its grab for power.

The health care law was supposed to be about people and health care—the care they need from the doctor they want at a cost they can afford. Instead we have a lot of IRS agents but no new doctors and nurses. I go to townhall meetings and ask: How many of you under this health care law who are hoping to get the care you need from a doctor you want at a price you can afford—how many of you believe the cost of your health care, because of this health care law, will increase, the costs to you will go up? All the hands went up. We have been never believe when they hear more and more about this health care law.

Then I say: How many of you believe the quality and availability of your care will go down? Again, the hands went up.

These are the American people knowing everything they do about the health care law, which is very complicated and has not given them what they asked for: the care they need, from a doctor they want, at a cost they can afford. What they find and believe is that they are going to be actually paying more and getting less. That is not what the American people have promised. It is not what they thought would happen. But it is what they are finding out they have received now that the law has passed.

So this clearly explains why Republicans in the Senate and in the House continue to be committed to repealing the President’s health care law. I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. BROWN of Ohio. I ask unanimous consent to address the Senate for up to 15 minutes as in morning business.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Reserving the right to object, if I could ask my friend through the Chair, would it be possible for me to have 2 minutes prior to his statement, and then following my remarks the floor will be the Senator’s.

Mr. BROWN of Ohio. Sure.

Mrs. BOXER. Madam President, I would take 2 minutes to respond to Senator BARRASSO, who offered a second opinion. I hope my colleague will also talk about that.

I have to say it is stunning to see the assault on women’s health that is taking place from the Republican Party day after day after day. First, they tried to stop women from getting breast screenings. Then they tried to stop us from getting cervical cancer screenings. Now they are going after our ability to get birth control.

I have to say this: We know that for a full 15 percent of women, birth control is pure medicine. They suffer from debilitating monthly pain, endometriosis. We have stories of women who couldn’t afford birth control pills and a cyst got out of hand resulting in the loss of an ovary. We know that birth control is used for a very serious skin condition. So if they want to stand here and say that women don’t have a right to their medicine, that is their right, but don’t put it into the frame of religious freedom.

We know President Obama said he was going to do what 28 States have
done; that is, to make sure women who work in this country have the ability to get access to birth control pills through their insurance. That is as simple as it gets. Twenty-eight States do it. I never heard a word out of them new. And eight of those States had no exceptions when President Obama made an exception for 335,000 churches.

So let's not stand here and talk about the overreach of the Federal Government, there are more women and men alike, who are going to stand sentry and say: You can't do this to the women of this Nation.

This is the 21st century, and we are arguing about birth control instead of how to get out of this economic malaise when we are finally seeing light at the end of the tunnel? Oh, no. I am hoping we go to a highway bill this year. More than 50 percent of women in this Nation have the ability to get contraception. It is about health. It is the Institute of Medicine that said it is critical. It will cut down on tens of thousands of abortions when families plan their families.

So as long as our colleagues on the other side want to make women a political football in this country, there are more women and men alike, who are going to stand sentry and say: You can't do this to the women of this Nation.

It just breaks my heart when I see the progress we have made for the millions of Americans who now will have health insurance. I know the Senator and my colleagues, everybody in this body has good health insurance. People in this body are generally pretty affluent. They have good government insurance. But the millions of men and women in our country—people who have lost jobs, people who are working without insurance—they don't want them to have insurance, all for political gain of repealing ObamaCare. It is too bad.

Today, because so many in this government think we need to cut spending at all costs on everything, we simply have not kept up with the infrastructure. That is why countries such as China that are investing so much money in infrastructure—we run the
risk of them passing us by in manufacturing and all the things we care about that build a solid middle class.

This legislation is an economic development imperative. This legislation is an imperative for citizens of our country—having clean drinking water, safe drinking water, predictable access to water at a reasonable cost. It is important for our families. It is important for our communities. It is important for business development. It is important for our transportation infrastructure, which we still are.

I ask my colleagues to support this important legislation I am introducing today.

Mr. BROWN of Ohio. I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CARDIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. CARDIN. Mr. President, I take this time to urge my colleagues to let us proceed on the reauthorization of the surface transportation act, S. 1813. This is a critically important bill, and I am proud to be on two committees that have had jurisdiction over this bill. One is the Environment and Public Works Committee, where Senator BOXER and Senator INHOFE have worked so hard to bring out a bill that received the unanimous support of our committee. I also serve on the Senate Finance Committee, where Senator BAUCUS and Senator HATCH have worked together so we have the sufficient revenues in order to be able to finance the reauthorization bill during its 2-year reauthorization.

This bill is so important to our country. First, it gives predictability to our State and local governments for predictable to the highway engineers. It gives predictability to contractors to know the funding will be there in order to advance our transportation programs. When we do these short-term extensions, it really does cause significant problems for planners. If you are trying to plan a transportation project, you need to know the funding is going to be there for more than just a few months. You need to have some degree of predictability. This bill will allow us to give that predictability to those who are involved in the decisionmaking. It has been 2009 since we last reauthorized the surface transportation act. It is time for us to act.

This bill will also help us as far as American competitiveness is concerned. We need to have modern transportation infrastructure, whether it is our highways, our bridges, or our transportation system, we need to make sure we can connect the challenges to today’s society. I could talk about just in this region our needs in the transit area. We have one of the most congested communities in the Nation in Washington, DC. Many of my constituents who live in Maryland go to work every day in Washington, DC, working for the Federal Government, using the mass transit system. That system is aged and needs attention. We need to provide the financing nexus in this area in order to be as competitive as we can with transportation options for the people of this country.

This bill is important for jobs. You hear that over and over. In Maryland, the passage of this bill will preserve or expand 10,000 jobs for its people. I expect the Acting President pro tempore would have similar numbers in New Mexico. It is important in every State in this Nation.

It is also important for safety. I will give you one number in Maryland that really has me concerned. There are 359 bridges in the State of Maryland that have been rated structurally deficient and 4,641 facilities travel over those bridges every day. The State of Maryland is taking steps to make sure the motorists are safe, but we need to fix those bridges in a more permanent way. The longer we wait, the more it costs. I believe we can start one project we are not doing what we should to protect the future needs of our communities. This legislation puts a heavy priority on maintaining our transportation infrastructure so it is safe and we can move into the future.

The legislation is balanced between transit and highway. I know that in certain regions of this country, highways are the principal means of transportation, and their interest in transit is not quite as great as it is if you represent the people of New York or you represent the people in an urban center where public transit becomes a very important part of our transportation systems. The legislation is balanced to take care of the needs of our highways and the needs of our transit systems. I think it is a credit to that balance that in the Environment and Public Works Committee and in the Banking Committee—the two committees that have principal jurisdiction over the highway program and over the transit program—we had unanimous support on bringing this bill forward. That is how we should be proceeding to consider legislation. We have that type of bipartisan cooperation because this bill is properly balanced.

Let me also point out that we have received hundreds of letters from organizations that support the passage of the surface transportation reauthorization act. We have the U.S. Chamber of Commerce, we have the AFL-CIO, we have businesses, we have labor groups, we have local communities, we have national groups.

This bill has been put together in a way where we can get it done this year, and it would be very important for the people of this country and for our economy.

Let me talk a little bit about my State of Maryland and the Maryland Department of Transportation. They have given us a list of projects that will move forward if we can get this bill reauthorized, from the beltway into Baltimore, to the 600 miles in Montgomery and Prince George’s Counties, to our rural areas. I could share some of those specific examples. But this will affect the ability of Maryland to move forward with critical transit needs, and we need to get that done.

I want to talk a little bit about some of the specific issues that are in the bill that I want to highlight.

The Appalachian Development Highway System is one for which we have put a separate provision historically in the code because we recognize that in bringing economic opportunity to that part of our Nation, which includes West Virginia, Maryland, and Pennsylvania—and it also includes some of our Southern States that are in the Appalachian highway region—it is tough to get jobs there. I was just recently in the most western part of Maryland up in Garrett County, and you it is difficult to get companies to move into that region. One of the problems is that you have to go over the mountains. It is not easy to get over the mountains.

We have a real opportunity around Cumberland, MD, to be able to expand dramatically the economic opportunities and jobs by completing the north-south highway that goes through Pennsylvania, Maryland, and West Virginia. Now there is reason to celebrate that in this bill that can become a reality. There is an amendment I had offered that is included in this legislation that provides the toll credits so we can advance this project. It was a major issue for me, particularly the Pennsylvania part of this north-south highway.

So we do have reason to celebrate that in this legislation we have a way of completing the Appalachian Development Highway System in my part of the country.

Senator Rockefeller has been working very closely on this issue, and I really applaud his leadership. We are going to be looking to see whether we might be able to strengthen it more, through amendments to this bill, to make sure these projects get the priority to which they are entitled.

For the sake of flexibility, we have combined many of our programs into more general programs. That is part of the balance in this legislation—to give greater flexibility to local governments. That is important. But we also want to make sure the national priorities get the attention they need, and the Appalachian Development Highway System is a national priority. We want to make sure that is, in fact, done.

I wear another hat as chair of the Water and Wildlife Subcommittee on the Environment and Public Works Committee, and I want to do everything we can to make sure the Federal
Government, as a partner in developing highways and roads and transit systems, does what is important for clear water in our communities. A large part of the pollutants that enter into our waters comes from storm runoff. In the Chesapeake Bay region, the largest growth area for development, I am hopeful that during the discussion of this bill on the floor of the Senate, we will look for ways we can make this bill helpful in the best practices being used in order to deal with storm runoff, as we deal with major transportation programs in this country.

One of the programs I have spent a lot of time on is the Transportation Enhancement Program, the TE Program. That has been used by local governments that is critical to our communities. I could talk about bicycle paths. I could talk about paths that have connected communities, which has allowed us to take cars off the roads. This is a small amount of money, but it becomes very important for getting motorists off the roads. We have the use of the Transportation Enhancement Program so it is safe for motorists who want to pull off to the side of the road to see the vistas. We have used funds for that. That is a safety issue.

So transportation enhancements are important programs. We want to make sure the flexibility and funding opportunities remain. Chairman Boxer has been very careful to work out an arrangement so we can advance that, and I thank her for it. I have been working with Senator Cochran, and we are hoping to offer an amendment that will make it clear we need to work with the local governments as we look at how the transportation enhancement funds are being used.

Let me tell you about another opportunity I think we could have in the consideration of this bill, and that deals with our veterans.

There is a way we could use the training veterans receive while in military service to help when they come back here as far as truckdrivers are concerned. We are looking for an amendment in regard to that area where we can advance that issue.

There are many areas in this bill that we think are extremely important to advance our needs. It is a bipartisan bill. We have to get this done.

I know Senator Boxer is on the floor. Once again, I compliment her for her patience and leadership in working through each of these issues.

We are looking forward to a robust debate on the floor of the Senate. I hope Members who have amendments will proceed. Let's proceed in the spirit in which the Environment and Public Works Committee, the Banking Committee, and the Finance Committee reported the bills to the Senate; that is, listen to each other, do not lose sight of the prize of getting this bill done, and be willing to compromise so that we can maintain the type of bipartisan cooperation we need in order to get this bill. If we do that, we will be doing something so important to our country.

This bill will create jobs. This bill will help our economic recovery. This bill will help our future. I am proud to be part of the group that has brought this bill forward to the floor of the Senate.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CARPER. Mr. President, I ask unanimous consent that the order for the quorum be suspended.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. CARPER. Mr. President, I rise this afternoon to speak in favor of moving ahead in the 21st century, something that most Americans—almost all Americans—have to be in favor of, and if a lot of them knew about this legislation, I think they would be in favor of it too.

It has been 862 days since SAFETEA-LU expired—862 days. That legislation was written in 2003, passed this body and signed into law in 2005. We have extended that legislation, SAFETEA-LU, eight times since it expired in 2009, brought it back from the dead eight times.

John Chambers, who is the CEO of a big technology company called CISCO, likes to say that the key to global economic competitiveness is having the best workforce and the best infrastructure in the world. He has said that is where the jobs will go in the 21st century—best workforce, best infrastructure, you get the jobs. We must continue to modernize—in the spirit of those words—modernize and maintain our infrastructure if it is to remain the best.

I wish to start today by congratulating Senators Boxer and Inhofe for pulling together—and their staffs and subcommittee staffs as well—I wish to start by compliment for pulling together a bipartisan Transportation bill that begins to address America's infrastructure needs. This comes on the heels of our passing earlier this week a conference report, a compromise that the FAA reauthorization will bring the air traffic control system of our country into the 21st century and to also begin rebuilding and improving our airports as well. This is a pretty good one-two punch in the period of 1 week.

This legislation before us today makes key reforms to our Federal transportation policy that will help make the best use of our taxpayers' dollars. The legislation sets clear national goals for transportation investment. We do not just throw money at these problems; we actually strive to achieve a number of specific goals. And this bill asks State transportation departments to do their part to achieve those national goals. It accomplishes this by implementing new performance measures that will help to hold States accountable for the outcomes of the investments we are prepared to make. This means ensuring that funding the most effective multimodal transportation network we can by putting our dollars to the most productive use.

Passing this legislation is critically important to America's economic health at home and our competitiveness abroad. We have heard that here today, and we will hear it for the next several days. This legislation, if adopted and signed into law, will create or save several millions of jobs, in a day when we need every job we can save or create, in States such as New Mexico, States such as Delaware, and 48 other States as well.

In my State of Delaware, for example, we are planning significant new transportation investments. We already have a bunch of them underway, but new ones will contribute to our State's productivity. Some of those will help to relieve the congestion along important corridors such as I-95. We have already done some good work in putting in highway-speed E-ZPass on I-95 through the toll plaza to expedite and move the flow of traffic. We are now working on a big intersection where I-95 intersects with State Route 1, a major north-south highway. That has been a big bottleneck for years. We have some good work going on with that. We want to be able to finish that. Other improvements will allow ships to move freight quickly and reliably down roads such as Route 301, which comes up through Maryland and the Delmarva Peninsula into Delaware on its way to I-95.

Each of my colleagues could no doubt talk about similar efforts in their State. Each of these projects is part of our national transportation system. Taken together, the system is greater than the sum of its parts. Having a world-class transportation system has helped to make America what it is today. This bill will ensure that we have a transportation system that allows America to return to prosperity and to grow that prosperity.

I am looking forward to debating this bill on the Senate floor. I appreciate the time to get started on that here today. As a Senator and as a recovering Governor, I know that everything can't be done and as good as this legislation is I think there is always room for improvement.

I have never introduced a perfect bill. My friend who is presiding over the Senate may have, but I am not sure. As good as this legislation is, there is room for improvement.

I plan to bring forward a couple amendments that I think will improve
the bill. We talked about a few in the markup in the full committee. For example, I believe we need to do more on the issue of traffic congestion. I go back and forth on the train about every day and night, and in the morning I get traffic lined up for miles, trying to get to the south parallel to the Northeast corridor of Amtrak, as we zip along. This city is recognized as maybe the most congested city in America.

In 2010 I told that drivers in the United States in the more urban and suburban areas wasted some 1.9 billion gallons of fuel due to traffic congestion. That is almost 2 billion gallons of fuel. Congestion is a major challenge in larger U.S. cities and increasingly even in smaller cities and towns too.

The burden and the cost of traffic congestion is felt by both travelers and freight shippers, diminishing our quality of life and costing us money. According to the Texas Transportation Institute—they come up with this study that is announced every year—the average commuter across the country spent 34 hours sitting in traffic—mostly at 10, 20, or 10 miles an hour but sitting in traffic. That is up from 28 hours a year ago. This burden of drivers productivity and results in wasted fuel and cost Americans more than $100 billion in 2010, or nearly $750 wasted for every commuter. Traffic congestion is also increasingly hurting the reliability of the national transportation system, which is particularly important to freight shippers, where the value each minute can be as much as $5. It is about $300 an hour. As America’s economy continues to recover, we must make sure that traffic is not a drag on job growth. According to that same Texas Transportation Institute, by 2015–3 years from now—the cost of gridlock will rise from $101 billion to something like $133 billion.

That is the bad news. There is good news too. Fortunately, we have new tools to address congestion. For example, better management of accidents, improved timing of traffic signals, real-time traveler information, and managed toll lanes—and I will talk more about that next week—all provide low-cost congestion benefits. These are just a few of the strategies that have been helping passengers and freight shippers to better anticipate, avoid, and manage periods of heavy traffic. They are smart and are being successfully used on a smaller scale. They are ideas we want to replicate in cities and counties and States across the country.

I will offer an amendment that would, in the States with the worst congestion, target funding for these cost-effective congestion-relief strategies. My amendment will help to give Americans some of their time and money back. It will help shippers grow their businesses too. I hope my colleagues will support it.

Second, I believe that anything worth having is worth paying for. If we will not raise user fees at the Federal level, we should at least stop prohibiting States from doing so if that makes sense. I will offer an amendment to give States more flexibility to use tolls and user fees on their roadways. An increasing number of States are looking at tolls and user fees as a source of funding, and the Federal Government should not stand in their way.

We have used tolls as a source of revenue in Delaware for years, and it has helped us to maintain and improve the critical I-95 corridor and to provide a north-south route that stretches from the northern part of the State past Dover, past Dover Air Force Base and the central part of Dover. Toll revenue is also an critical part of forming public-private partnerships, which I know many of my colleagues support. I hope my colleagues will join me in supporting this amendment.

In closing, Congress needs to act on transportation legislation. The rest of the country uses. The infrastructure of our country gets graded on an annual basis by, among others, the engineers of our Nation. They look at transportation more broadly than just highways and bridges. And it is not moving at 40, 30, 20, or 10 miles an hour, but sitting in traffic. That is not as delightful—that is maybe more in the area of derelict. We can do a whole lot better. We have taken action this week with respect to our air traffic control systems. We have taken a step toward beginning to rebuild and improve our airports. The legislation will let us, in the next 24 months, make our roads, highways, and bridges safer, less congested, and something we can treasure as a real asset.

Lastly—and I have said this before and it bears repeating—the major job of government—is to provide a nurturing environment for job creation and job preservation. It is not the only job of government, but it is a big job of government. A big part of creating that environment for job creation and preservation is a road, highway, and bridge infrastructure that we can all be proud of in the 21st century. This legislation will help us go in that direction. It is important to follow on the heels of this legislation and not just waste 2 years but build on it to do smarter things in the years to come.

That having been said, while the chairman is here, I thank her for her leadership. People say: Why can’t Congress get anything done? I think the way Senator BOXER and Senator INHOFE have worked together on this legislation, with the staffs, is a great model for the rest of us. We thank them for their leadership.

I yield the floor.

The Acting President pro tempore. The Senator from California.

Mrs. BOXER. Mr. President, I thank the Senator from Delaware because he and the occupant of the chair are very important members of this great committee, the Environment and Public Works Committee. As one or our most senior Members, he has taken a tremendous interest in everything we do. I look to his leadership on a number of issues. I think of his leadership in mercury, which is dear to his heart and mine. He is a leader on nuclear plant safety and has been extremely helpful. I thank him for the good role he plays on that committee.

We will have a number of amendments. It is going to be delicate with the amendment process. That is fine. I encourage everybody, if they have an amendment, to go for it. But we have an agreement that the leadership on the committee—we are either all going to go for an amendment or not. We don’t want to stymie this.

I appreciate the Senator alerting us that he is going to offer those two amendments. I urge the Senator to get to them to us so we can share them with Senator ENHOFE.

We have received another letter of support, which I am proud to put in the RECORD. I ask unanimous consent to have it printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEAR SENATOR: The twenty-nine national associations and construction trade unions that comprise the Transportation Construction Coalition (TCC) strongly urge all members of the Senate to vote for the motion to proceed on S. 1813, the “MAP-21” surface transportation reauthorization proposal. This legislation would provide critical investments and policy reforms needed to improve the nation’s highway and bridge network.

The federal highway and public transportation programs have been operating under a series of temporary extensions for more than two years. MAP-21 would end that dysfunctional cycle and restore stability to the federal surface transportation programs. In a very challenging budgetary environment, the legislation would authorize (federal-aid, inflation-adjusted) levels of highway and public transportation investment. Furthermore, the Senate Finance Committee has developed a bipartisan plan to assure these investments do not add to the federal deficit.

The TCC has long supported reforming the federal highway and public transportation programs to focus on national goals and development of the transportation sector and at lower cost. Specifically, we support steps to accelerate the transportation project environmental review process through the use of deadlines, flexibility for state departments of transportation, expedited reviews for projects with no significant impact, and greater authority for the U.S. Department of Transportation with other federal agencies. The TCC also supports efforts to increase the involvement of the private sector resources and meet the nation’s transportation challenges.

We commend all senators involved in developing a comprehensive, bipartisan reauthorization proposal that would continue the tradition of federal investment in the area of transportation policy. We urge all members of the Senate to vote to move the
surface transportation reauthorization process forward by supporting the motion to proceed on S. 1813.

Sincerely,

TRANSPORTATION CONSTRUCTION COALITION.

Mrs. BOXER. It is from the Transportation Construction Coalition. They are urging all of us for an “aye” vote on the motion to proceed to the Transportation bill. They have said wonderful things about our bill—that they like the steps we have taken to accelerate all the reviews and flexibility for the States, greater authority for our States, and the fact that we did this in a comprehensive way and in a bipartisan way and grateful.

What I would like to do is read the names of these organizations because it shows you the depth in America of the support for this bill: The American Road and Transportation Builders; Associated General Contractors; the American Coal Ash Association; the American Concrete Pavement Association; the National Ready Mixed Concrete Association; Laborers’ International Union of North America; National Association of Union Operating Engineers; Laborers-Employers Cooperation and Education Trust; Laborers’ International Union of North America; National Asphalt Pavement Association; National Association of Surety Bond Producers; National Ready Mixed Concrete Association; National Stone, Sand & Gravel Association; National Utility Contractors Association; Portland Cement Association; Precast/Prestressed Concrete Institute; the Road Information Program; and the United Brotherhood of Carpenters and Joiners of America.

The reason I read these 29 organizations—there are 1,000 organizations behind our bill—I want colleagues to understand how people have come together from all sides of the aisle—union workers, nonunion workers, the businesses and union businesses. Everyone has come together—Democrats, Republicans, and Independents—on our committee. The reason is that we are coming out of a very tough and deep recession where housing was hurt deeply, and we are having a very tough time in the housing sector. Construction workers have a 15-percent or more unemployment rate, compared to an 8.3-percent unemployment rate in the rest of the workforce. If you put them into Super Bowl stadium—there are 5 Super Bowl stadiums. Imagine that.

We have an obligation to come together on behalf of jobs and the aging infrastructure that needs to be fixed. We have bridges collapsing and roads that are not up to par. We have problems in this Nation, and we can stop them and solve them only if we come together.

I will end here because my colleague would like the floor, and that is fine. I think we will have an opportunity at around the 2:15 hour or so to come together united and give a great vote of confidence to this bill, to move it ahead with an overwhelming vote. Maybe I am dreaming, but I hope for well over 60 votes to go forward. Then let’s get to the amendment process and let’s not offer extraneous amendments that have to do with everything but transportation. Let’s keep this focused. Then we can get to conference and get a bill to the President.

In closing, if our bill is the law of the land, we would save 1.8 million jobs and be able to create up to another million jobs. There is a lot riding on this bill. I hope we will come together this afternoon.

Thank you for your indulgence. I yield the floor.

EXECUTIVE SESSION

NOMINATION OF CATHY ANN BENCIVENGO TO BE A UNITED STATES DISTRICT JUDGE FOR THE SOUTHERN DISTRICT OF CALIFORNIA

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to executive session to consider the following nomination, which the clerk will report.

The assistant legislative clerk read the nomination of Cathy Ann Bencivengo, of California, to be United States District Judge for the Southern District of California.

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to executive session to consider the following nomination, which the clerk will report.

The assistant legislative clerk read the nomination of Cathy Ann Bencivengo, of California, to be United States District Judge for the Southern District of California.

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to executive session to consider the following nomination, which the clerk will report.

Thank you for your indulgence. I yield the floor.

The district’s former chief judge, Irma Gonzalez, wrote me a letter urging Judge Bencivengo’s confirmation and highlighting the felony caseload crisis in the district. As Chief Judge Gonzalez explained, since 2008 criminal case filings in the district have increased by 42 percent and civil case filings by 25 percent. In the past fiscal year alone, criminal cases rose 17 percent up to the time of her letter. It is, in fact, a judicial emergency.

The ACTING PRESIDENT pro tempore. The Senator is advised the previous allotted time has expired.

Mrs. FEINSTEIN. Let me tell everyone a little about Judge Bencivengo. She is a consensus nominee who was approved by the Judiciary Committee by a voice vote. That does not often happen. There was no objection from any colleague on any side of the aisle. She was recommended to me by a bipartisan judicial selection committee which I have established in California to advise me in recommending judicial nominees to the President. This committee reviews judicial candidates based on their legal skill, reputation, experience, temperament, and overall commitment to excellence.

Judge Bencivengo has been a U.S. magistrate judge in San Diego for the last 6 years, and she has earned an outstanding reputation in that judicial role.

Throughout my advisory committee’s process, Judge Bencivengo has actually set herself apart as a person who would be truly exceptional. She was born in New Jersey. She began her undergraduate career at Rutgers. She earned a bachelor’s in journalism and political science and a master’s from Rutgers as well.

She worked for a leading American corporation—Johnson & Johnson—in New Brunswick. She then attended the University of Michigan Law School, where she excelled, graduating magna cum laude, and was inducted into the Order of the Coif.

After law school, she joined the San Diego firm of Gray Cary, which later became part of a major international law firm. She became a founding member of the firm’s patent litigation group. Her knowledge of patent law, which she honed in school and in private practice, made her a valued resource for her colleagues and clients, so she quickly rose through the ranks at her firm. She was selected as the national cochair of her firm’s patent litigation group, a role in which she managed 70 patent attorneys.

In 2005, she became a magistrate judge, a role in which she has served as a serious and thoughtful jurist. Since her appointment, she has published 180 opinions, over 190 reports and recommendations, over 1,800 orders on nondispositive motions, and roughly 800 of her orders involved felony criminal cases.

In closing, if our bill is the law of the land, we would save 1.8 million jobs and be able to create up to another million jobs. There is a lot riding on this bill. I hope we will come together this afternoon.

Thank you for your indulgence. I yield the floor.

The district’s former chief judge, Irma Gonzalez, wrote me a letter urging Judge Bencivengo’s confirmation and highlighting the felony caseload crisis in the district. As Chief Judge Gonzalez explained, since 2008 criminal case filings in the district have increased by 42 percent and civil case filings by 25 percent. In the past fiscal year alone, criminal cases rose 17 percent up to the time of her letter. It is, in fact, a judicial emergency.

The ACTING PRESIDENT pro tempore. The Senator is advised the previous allotted time has expired.

Mrs. FEINSTEIN. Let me tell everyone a little about Judge Bencivengo. She is a consensus nominee who was approved by the Judiciary Committee by a voice vote. That does not often happen. There was no objection from any colleague on any side of the aisle. She was recommended to me by a bipartisan judicial selection committee which I have established in California to advise me in recommending judicial nominees to the President. This committee reviews judicial candidates based on their legal skill, reputation, experience, temperament, and overall commitment to excellence.

Judge Bencivengo has been a U.S. magistrate judge in San Diego for the last 6 years, and she has earned an outstanding reputation in that judicial role.

Throughout my advisory committee’s process, Judge Bencivengo has actually set herself apart as a person who would be truly exceptional. She was born in New Jersey. She began her undergraduate career at Rutgers. She earned a bachelor’s in journalism and political science and a master’s from Rutgers as well.

She worked for a leading American corporation—Johnson & Johnson—in New Brunswick. She then attended the University of Michigan Law School, where she excelled, graduating magna cum laude, and was inducted into the Order of the Coif.

After law school, she joined the San Diego firm of Gray Cary, which later became part of a major international law firm. She became a founding member of the firm’s patent litigation group. Her knowledge of patent law, which she honed in school and in private practice, made her a valued resource for her colleagues and clients, so she quickly rose through the ranks at her firm. She was selected as the national cochair of her firm’s patent litigation group, a role in which she managed 70 patent attorneys.

In 2005, she became a magistrate judge, a role in which she has served as a serious and thoughtful jurist. Since her appointment, she has published 180 opinions, over 190 reports and recommendations, over 1,800 orders on nondispositive motions, and roughly 800 of her orders involved felony criminal cases.
She has substantial expertise in patent law, which will be welcome in the district, which is part of a new Federal judicial program designed to assign more patent cases to judges who are experts in the field of patent law. So she will be helpful.

Judge Bencivengo has received high praise from any number of people. I know of no opposition to her confirmation. I think this advice and consent process will yield a very good, seasoned San Diego magistrate judge for the district, and I am very proud to recommend her and to have had unanimous consent of the Judiciary Committee for her confirmation.

I see Senator LEE on the floor. Perhaps I could ask unanimous consent that when Senator LEE concludes, and if there is time remaining, I be recognized to speak for a couple minutes as in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Utah.

Mr. LEE. Mr. President, I ask unanimous consent to speak for a period of up to 7 minutes.

The ACTING PRESIDENT pro tempore. The Senator has that time.

Mr. LEE. Mr. President, I rise in opposition to this nomination. I do so not because of the qualifications of this particular nominee, but instead I do so in defense of the Constitution.

In opposing President Obama’s appointments, I have repeatedly made clear this is a constitutional issue. Each time I have spoken—and I have done so on numerous occasions—I have set forth my reason why I believe on a legal basis, on a constitutional basis, why President Obama’s recent purported recess appointments are unprecedented and unconstitutional. I have also made absolutely clear that my opposition to President Obama’s appointments is not personal or partisan and that I will hold a Republican President equally accountable whenever any Republican President makes a similarly unconstitutional claim of power.

This President has enjoyed my cooperation up to this point. I voted for many, if not most, of his nominees. That cooperation cannot continue—not in the same way he has enjoyed it up to this point. In light of the fact he has disrespected our authority within this body, he has disrespected the Constitution.

Unfortunately, many of my colleagues have refused to engage on the real substance of this issue. Instead, they have repeatedly changed the subject to partisan politics, the nomination process, and Richard Cordray’s qualifications to head the CFPB. Even worse, and despite my repeatedly making clear I intend to hold any Republican President to the same standard to which I intend to hold any Republican President to the same standard to which I intend to hold any Republican President to the same standard to which I intend to hold any Republican President to the same standard to which I intend to hold any Republican President to the same standard to which I intend to hold any Republican President.

This is a judicial emergency in the Southern District of California, and we need to get this judge approved. So while I appreciate the Senator’s comments—I think most of us are well aware of the feelings on the other side—I think somehow, some way, we have to come together and prevent what is happening. And what is happening is, if I don’t get my way on something, I am going to hold up appointments, I am going to hold up confirmations, and I am going to do whatever I can to show I have power to disrupt this body.

In essence, the body can be disrupted. We know that. There are very strong constitutional rights in place. This is not an opportunity to do so. But at the same time, we have an obligation to see that qualified people who want to serve in this government—in this case in the judicial arm, in the Federal Court system—have an opportunity to do so, and where there is real danger in terms of overly high caseloads, we can respond and get qualified nominees in place.

I appreciate what the Senator had to say, but I also believe that we need to take a page from the Constitution of the United States, that I believe on a constitutional basis, why President Obama’s recent purported recess appointments are unprecedented and unconstitutional. I am going to hold up appointments to the extent I am going to hold up appointments. I am going to hold up appointments to the extent I am going to hold up appointments. I am going to hold up appointments.

This is a judicial emergency in the Southern District of California. Mr. LEAHY. Mr. President, today, the Senate will finally vote on the nomination of Judge Cathy Bencivengo to fill a vacancy on the U.S. District Court for the Southern District of California, where she has served as a Magistrate Judge since 2005. An experienced judge and lawyer, with 17 years of private practice before becoming a Magistrate Judge, Judge Bencivengo received the highest possible rating from the ABA’s Standing Committee on the Federal Judiciary, unanimously “well qualified.” Her nomination, which has the strong support of her home state Senators, Senators Feinstein and Boxer, was reported unanimously by the Judiciary Committee on October 6. Yet, despite the support of every Member of the Judiciary Committee, Democrats and Republicans, and despite vacancies across the country in nearly one out of every 10 Federal judic peace in defense of the U.S. Constitution.

Mr. LEE. Mr. President, I ask unanimous consent that if there is time remaining, I be recognized to speak for a couple minutes as in morning business.

The ACTING PRESIDENT pro tempore. The Senator from California.

Mrs. FEINSTEIN. Mr. President, I would like to briefly respond to Senator LEE’s comments.

I understand the reasons for which he is opposing this nominee. I would again point out that, in my opinion, based on what I heard the distinguished Senator say, it has nothing to do with the nominee. It has to do with a peripheral issue. I would hope a majority of the Senate would understand this is a totally noncontroversial, totally capable, totally qualified, and totally good nominee. To hold her confirmation hostage is something that doesn’t redound well on this body.

This is a judicial emergency in the Southern District of California, and we need to get this judge approved. So while I appreciate the Senator’s comments—I think most of us are well aware of the feelings on the other side—I think somehow, some way, we have to come together and prevent what is happening. And what is happening is, if I don’t get my way on something, I am going to hold up appointments, I am going to hold up confirmations, and I am going to do whatever I can to show I have power to disrupt this body.

In essence, the body can be disrupted. We know that. There are very strong constitutional rights in place. This is not an opportunity to do so. But at the same time, we have an obligation to see that qualified people who want to serve in this government—in this case in the judicial arm, in the Federal Court system—have an opportunity to do so, and where there is real danger in terms of overly high caseloads, we can respond and get qualified nominees in place.

I appreciate what the Senator had to say, but I also believe that we need to take a page from the Constitution of the United States, that I believe on a constitutional basis, why President Obama’s recent purported recess appointments are unprecedented and unconstitutional. I am going to hold up appointments to the extent I am going to hold up appointments. I am going to hold up appointments to the extent I am going to hold up appointments.
months for Senate Republicans to consent to a vote on Judge Bencivengo’s nomination. I thank the Majority Leader for securing today’s vote. There is no reason or explanation why the Senate Republican leadership will not consent to vote on the other 18 judicial nominations waiting for final Senate action. All but three of them were reported by the Judiciary Committee without opposition, just like Judge Bencivengo’s nomination.

Earlier this week I urged Senate Republicans to join with Democrats and take long overdue steps to remedy the serious vacancies crisis on Federal courts throughout the country. Consenting to vote on a single judicial nomination, only the third such vote we have had this year, is not much in the way of progress.

There is no reason or explanation for why Senate Republicans continue to block the nominations before the nominated party’s consent to a vote on Judge Jordan to fill a vacancy on the Southern District of New York. His nomination was voted out of the Judiciary Committee on September 15, nearly 5 months ago, without opposition from a single member of the Committee. The Senate has not even entertained the nomination being considered today. Mr. Furman, an experienced Federal prosecutor who served as Counselor to Attorney General Michael Mukasey for 2 years during the Bush administration, is a nominee with an impressive background and bipartisan support. We should have voted on his nomination many months ago, and certainly before the end of the last session. Senate Republicans have now skipped over that nomination and stalled it for almost 5 months.

Senate Republicans continue to block even judicial nominations with home State support from Republican Senators. Republican Senator MARCO RUBIO and Democratic Senator BILL NELSON of Florida both introduced Judge Adalberto Jordan of Florida to the Judiciary Committee when we held his confirmation hearing last September for his nomination to fill a judicial emergency vacancy on the Eleventh Circuit, and both strongly support his nomination.

Judge Jordan is an experienced jurist who has served as a judge for the Southern District of Florida since 1999. If confirmed, Judge Jordan will be the first Cuban-born judge to serve on the Eleventh Circuit, which covers Florida, Georgia, and Alabama. Born in Havana, Cuba, Judge Jordan immigrated to the United States at age 6, going on to graduate summa cum laude from the University of Miami law school. After law school, he clerked for Judge Thomas A. Clark on the Eleventh Circuit, the court to which he is now nominated, and for Justice Sandra Day O’Connor, a President Reagan appointed United States Supreme Court. Judge Jordan has been a prosecutor in the Southern District of Florida, serving as Deputy Chief and then Chief of the Appellate Division. Judge Jordan has been a professor, since 1990 teaching at his alma mater, the University of Miami School of Law, as well as the Florida International University College of Law. It is no surprise that the ABA’s Standing Committee on the Federal Judiciary unanimously rated Judge Jordan “well qualified” to serve on the Eleventh Circuit, the highest possible rating from its non-partisan peer review. It is also no surprise that his nomination was reported unanimously by the Judiciary Committee nearly 4 months ago. The surprise is that Senate Republicans continue to stall action on this nomination for no good reason.

Judge Jordan is the kind of consensus judicial nominee that should be welcomed as one of the many examples of President Obama reaching out to work with Republican and Democratic home State senators and the kind of nominee who should all encourage to serve on the distinguished bench of Federal appeals court judges. In the past the Senate would have voted on his nomination within days or weeks of its being reported unanimously by the Judiciary Committee. Yet Republicans refused to consent to a vote on Judge Jordan’s nomination before the end of the last session and it has been stalled on the Senate Calendar for nearly 4 months. When we finally do vote on Judge Jordan, he will likely be confirmed with broad bipartisan support, perhaps unanimously. There is no good reason the Senate is not voting to confirm Judge Jordan today.

If caseloads were really a concern of Senate Republicans, as they contended when they filibustered the nomination last December of Caitlin Halligan to the D.C. Circuit, they would not continue to block us from voting on Judge Jordan’s nomination to fill a judicial emergency vacancy on the Eleventh Circuit, one of the busier circuits in the country. They will not continue to block a vote on the nomination of Judge Jacqueline Nguyen, reported last December to fill a judicial emergency vacancy on the Ninth Circuit, the busiest Federal appeals court in the country. They would consent to vote on the nomination of Paul Watford, a well-qualified nominee to fill another judicial emergency vacancy on the Ninth Circuit, if it were not for blockading us from voting on the nominations of David Nuffer to fill a judicial emergency vacancy on the District of Utah, Michael Fitzgerald to fill a judicial emergency vacancy on the Central District of California, Miranda Du to fill a judicial emergency vacancy on the District of Nevada, Gregg Costa to fill a judicial emergency vacancy on the Southern District of Texas, and David Guaderrama to fill a judicial emergency vacancy on the Western District of Texas.

Of the 19 judicial nominations now awaiting a final vote by the Senate, 16 were reported by the Judiciary Committee with the support of every Senator on the Committee, Democratic and Republican. Month after month and year after year, Senate Republicans find excuses to delay confirmation of consensus judicial nominees for no good reason. These delays are a disservice to the American people. They prevent the Senate from fulfilling its constitutional duty. And they are damaging to the ability of our Federal courts to provide justice to Americans around the country. The cost of this across-the-board Republican obstruction is borne by the American people. More than half of all Americans, nearly 160 million, live in districts or circuits that have a judicial vacancy that could be filled today if Senate Republicans just agreed to vote on the nominations that have been reported favorably by the Judiciary Committee. It is wrong to delay votes on these qualified, consensus judicial nominees. The Senate should fill these numerous, extended judicial vacancies, not delay final action for no good reason.

By nearly any measure we are well behind where we should be. Three years into President Obama’s first term, the Senate has confirmed a lower percentage of President Obama’s judicial nominees than those of any President in the last 35 years. The Senate has confirmed just over 70 percent of President Obama’s circuit and district judicial nominees. Most of the rest were confirmed late in the Senate’s last session. In stark contrast to the nearly 87 percent of President George W. Bush’s nominees who were confirmed, nearly nine out of every 10 nominees he sent to the Senate. We remain well behind the pace set by the Senate during President Bush’s first term. By this date in President Bush’s first term, the Senate had confirmed 170 Federal circuit and district court nominations on the way to 205, eliminating the largest number of judicial vacancies in nearly 85 years. The vacancy rate is double what it was at this point in the Bush administration.

I, again, urge Senate Republicans to abandon their tactics of delay and do as Senate Democrats did when we worked to confirm 100 of President Bush’s judicial nominees in 17 months. I urge them to work to reduce judicial vacancies as we did by considering and confirming President Bush’s judicial nominations late into the Presidential election years of 2004 and 2008, reducing the vacancy rates in those years to their lowest levels in decades. That is the only way we have a chance to make up some of the ground we have lost and to address the serious and extended crisis in judicial vacancies.

I congratulate Judge Bencivengo on her confirmation today and hope that
we can soon take up the rest of the 18 judicial nominations still awaiting a Senate vote.

Mr. GRASSLEY. Mr. President, today the Senate is considering the nomination of Cathy Ann Bencivengo to be a district judge for the Southern District of California. I support this nomination which will fill the vacancy that has been created by Judge Jeffrey Miller taking senior status. I would also note that this vacancy has been designated as a judicial emergency.

After today, the Senate will have confirmed 126 nominees to our article III courts. I would note that even as we continue to reduce judicial vacancies, the majority of vacancies have no nominee. In fact, 46 of 86 vacancies have no nomination. Furthermore, 18 of the 33 seats designated judicial emergencies have no nominee. So when I hear comments about “unprecedented” vacancy rates, I would ask my colleagues other interested parties to look first to the White House. The fact is, the Senate is doing its job in providing advice and consent to the President’s judicial nominees.

Judge Cathy Ann Bencivengo presently serves as a magistrate judge for the Southern District of California. She was appointed to that court in 2005.

She received a bachelor of arts from the Rutgers University in 1980, a masters from Rutgers in 1991, and her doctorate from University of Michigan Law School in 1988.

Upon graduating law school, Judge Bencivengo became an associate at the law firm DLA Piper. There, she worked as a civil litigator, primarily handling intellectual property cases. In 1996, she became a partner at DLA Piper. She also was the national cochair of patent litigation for DLA Piper from 1993 to 2005.

In 1994, Judge Bencivengo was appointed as a judge pro tem for the San Diego Small Claims Court. She served there until 2006, volunteering approximately six times a year and hearing judgments on about 100 cases.

Since becoming a magistrate judge in 2005, Judge Bencivengo has presided over two cases that have gone to final verdict.

The American Bar Association Standing Committee on the Federal Judiciary has rated Judge Bencivengo with a unanimous “well-qualified” rating.

Mrs. BOXER: Mr. President, I am proud to vote for the confirmation of Magistrate Judge Cathy Ann Bencivengo to the U.S. District Court for the Southern District of California. Judge Bencivengo was recommended to the President by my colleague, Senator FEINSTEIN, and will be a great addition to the Federal bench.

Judge Bencivengo will bring to the bench her broad experience as a skilled lawyer and a Federal magistrate. A graduate of Rutgers University and the University of Michigan Law School, Judge Bencivengo served as a partner and the National Co-Chair of Patent Litigation Group for the international law firm of DLA Piper. In 2005, she received an appointment to become a Magistrate Judge for the Southern District of California, where she has authored more than 170 opinions.

I congratulate Judge Bencivengo and her family on this important day, and urge my colleagues in the Senate to join in voting to confirm this highly qualified nominee to the Federal bench.

I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The bill clerk proceeded to call the roll.

The PRESIDENT pro tempore. Without objection, it is so ordered.

The question is, Shall the Senate advise and consent to the nomination of Cathy Ann Bencivengo, of California, to be United States District Judge for the Southern District of California.

The PRESIDENT pro tempore. Is there a sufficient second? There is a sufficient second.

The clerk will call the roll.

The bill clerk called the roll.

Mr. KYL. The following Senators are necessarily absent: the Senator from Illinois (Mr. KIRK), the Senator from Kansas (Mr. MORAN), the Senator from Kansas (Mr. ROBERTS), and the Senator from Mississippi (Mr. WICKER).

The PRESIDING OFFICER (Mr. SANDERS). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 90, nays 6, as follows:

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate resumes legislative session.

MOVING AHEAD FOR PROGRESS IN THE 21ST CENTURY ACT—MOTION TO PROCEED

CLUTCH MOTION

The PRESIDING OFFICER. The clutch motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The assistant bill clerk read as follows:

CLUTCH MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the motion to proceed to Calendar No. 311, S. 1813, a bill to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes:

Barbara Boxer, Max Baucus, Mark L. Pryor, John D. Rockefeller IV, Benjamin L. Cardin, Al Franken, Jack Reed (RI), Sheldon Whitehouse, Amy Klobuchar, Bernard Sanders, Patrick J. Leahy, Tom Udall (NM), Frank R. Launtenberg, Richard Blumenthal, Jeff Merkley, Richard J. Durbin, Harry Reid.

The PRESIDING OFFICER. By unanimous consent the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the motion to proceed to S. 1813, a bill to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The assistant bill clerk called the roll.

NOT VOTING—4

Kirk  Roberts
Moran  Wicker

The PRESIDING OFFICER. On this vote, the yeas are 85, the nays are 11. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

The Senator from California.

Mrs. BOXER. Mr. President, I wish to thank my colleagues. This is a tremendous vote here to move forward with one of the most important jobs bills we could do in this session, because we are talking about protecting 1.8 million jobs and the possibility of another 1 million jobs being created through an expanded TIFIA Program which leverages local funds at very little risk to the Federal Government. So this is a good vote.

I wish to take this opportunity now to thank colleagues on both sides of the aisle, but also to thank the over 1,000 groups out there—everyone ranging from left to right and everything in between; from workers organizations, to businesses, to the Chamber of Commerce, to the AFL-CIO. It is rare we can walk down the aisle together.

But now the true test comes. We have a lot of work to do to complete this legislation, to make it real, to give that certainty out there, get those jobs going. We have a lot of work to do. We have the Banking Committee which, under the able leadership of Senators JOHNSON and SHELBY, has a title we have to add. We have to add a title from the Finance Committee. We want to add the title from the Commerce Committee. Then we would have all four committees represented in this legislation. Then we can move to get a strong vote and get it to conference, and, I have to say, tell the House side that we have a truly bipartisan bill that deserves the consideration. But if we start seeing amendments that go to issues that are unrelated to this—the hot-button issues of the day, the issues where we have the ideological divide—we are going to slow this down.

I guess I wish to say to my colleagues on the Democratic side and the Republican side: Please do not mess up this bill and load this bill with extraneous matters. Senator INHOFE and I are very happy to look at germane amendments. We are ready to look at those. We have made an agreement that if we don’t agree, we are going to oppose it. We are working together. But extraneous matters do not belong in this bill unless they have overwhelming support and they are not controversial. I am very hopeful, but I have seen bills come to the floor and get loaded down and at the end of the day the American people lose. We cannot afford to lose this bill. I want my colleagues to imagine 15 Super Bowl stadiums and imagine in your mind’s eye what it looks like, and in all of those 15 Super Bowl stadiums every seat is filled, every seat is filled with a construction worker. That is how many workers are out of work—more than 1 million. So we cannot fail these workers. We cannot fail these businesses. These are good jobs. The housing crisis is not yet behind us. We have a long way to go. So we have to make sure our construction workers are back on the job. We need to make sure we fix our bridges that are crumbling. We need to make sure we keep goods moving. This is a 21st century economy with an infrastructure that is not keeping up.

I want to take a moment to thank again the members of the Environment and Public Works Committee. Senator SANDERS, who is in the chair, is a very important member who is focused like a laser beam on jobs. He focuses on jobs, jobs, jobs. He knows, as I do, that we didn’t get everything we wanted in this bill, not by a long shot. But we did get something done here is protecting 1.8 million jobs and creating up to 1 million new jobs with our expanded TIFIA.

So I thank the President for his hard work on getting us to this moment. I thank Senator INHOFE for his amazing cooperation; Senators BAUCUS and VITTER and all the members of the committee; Senators JOHNSON and SHELBY of Banking; Senator ROCKEFELLER, who worked so hard with Senator HATCH and we hope will rework the outstanding issues in Commerce; Senator BAUCUS, who worked with Senator HATCH, and we did get a good Finance piece.

We are so ready to go. We are going to wait to see whether our colleagues on the other side will insist upon 30 hours going postcloture or whether they will yield back that time and allow us to get started on the amendment process.

So at this moment, I am going to put in a quorum call, note the absence of a quorum, and hope we can quickly move to amend this bill.

The PRESIDING OFFICER (Mrs. SHAHEEN). The Clerk will call the roll. The legislative clerk proceeded to call the roll.

Mr. BEGICH. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE ECONOMY

Mr. BEGICH. Madam President, I come to the floor today with a simple message about our economy. I know we are in the process of our Transportation bill, and the chairman of the committee may come out momentarily, so I will yield when that moment happens so we keep that process going because that bill is about creating jobs and infrastructure investment. But I just wanted to comment on the fact that we have made incredible progress, and we continue to make incredible progress, when we think about where we were 3 years ago and where we are today.

I know some in Washington like to focus on scare tactics and talk about bad things or how they could be worse if we continue on whatever path they think we are on. But the fact is we have made incredible progress, and we feel very good about where we are today. We are not where we want to be, but by other people who are looking at the economy or investing in the economy or participating in the economy in a pretty direct way. One statistic is reflected on this incredible chart. When we look at it, it speaks for itself.

Just prior to 2009 and a little after, we had about 8 million jobs that were lost. This chart shows we have now had 22 months of consecutive growth, but actually we have had 23 months of consecutive growth. This number, which says we have had 3.2 million new jobs, is actually closer to 3.7 million new jobs in our economy since the great recession started in late 2008, early 2009. I know some people come down and say: Oh, it could be better. I don’t know about you, but the way I see it, this was bad; this is better. Can we do better? We always strive to do better.

That is the American way. We try to do better as we move on. But there is no question there is good news and job losses are diminishing and now gone with job gains. These are private sector job gains, which is important but, more important, the underlying issue of the economy, is small business growth and how many people are hiring. If we continue on whatever path they want, we might have a very negative impact. I do not know about you, but I am not sure about that. But the fact is we are doing pretty well.

If we watched the data this last month—when the unemployment rate was estimated to be a little higher, but it actually came out at 8.3, lower than almost every economist thought—all we had to do was look underneath the data point and it was very clear that small businesses were hiring. They are the backbone of this economy. If they are hiring in December and January, in months when people expect—in January especially—the economy will start slowing down, that simple point is the hiring is because they see the future and they see increasing sales and the potential.
Again, I know we hear people say: Oh, it is not as good as it could be. But 8.3 is better than what everybody figured it would be. Do I want it lower? Does the Presiding Officer want it lower? Of course, we do. But the trend lines are clear.

We also had a 4-year low in U.S. job-loss claims, again boosting spending in our economy. An article in CNN in late December noted “consumer confidence shoots higher again.” Why is that important? The more consumers are confident about the economy, the more they engage in the economy.

It is interesting to note how low refinancing rates are—3.75 percent. 3.875 percent, unbelievably low. Yet people are still hesitant. But when we start looking at the data points from the last few weeks—especially one that came out yesterday—more and more people are refinancing—a 21-percent increase last month in refinancing. Why is that important? Again, consumers feel credit rates are going to stay with them so they can get a better rate on their home. Net result: More money in their pocket for themselves to spend on their families, on whatever they want to buy—vacations, a new remodel job they need. They are no longer holding off fixing up or that fence that is tipping over a little bit. Now they will hire a small contractor to fix it. So consumer confidence is on the rise.

Again, we will hear it is not good enough. Yes, but it doesn’t mean we are done. We have a lot of work ahead of us, but we have done incredible things.

In an AP article on February 3, just last week or so, we saw the headline “Homebuilders See Stable Housing Market Ahead.” Let me repeat that: stable housing market. Some people will say: It is not growing a housing market. No, but before it was diving. It was in free fall. In 2006 we had over 1.25 million homes, it was sinking, it was disappearing. So we would say: It is not a growing housing market. But this is stable. We have been holding off fixing up or that fence that is tipping over a little bit. Now they will hire a small contractor to fix it. So consumer confidence is on the rise.

Again, we will hear it is not good enough. Yes, but it doesn’t mean we are done. We have a lot of work ahead of us, but we have done incredible things.

In an AP article on February 3, just last week or so, we saw the headline “Homebuilders See Stable Housing Market Ahead.” Let me repeat that: stable housing market. Some people will say: It is not growing a housing market. No, but before it was diving. It was in free fall. In 2006 we had over 1.25 million homes, it was sinking, it was disappearing. So we would say: It is not a growing housing market. But this is stable. We have been holding off fixing up or that fence that is tipping over a little bit. Now they will hire a small contractor to fix it. So consumer confidence is on the rise.

The automobile industry—GM. I know I talk about this one a lot. Three years ago, it was flat on its back. People said: It is not going to survive: let it go. Today, GM, according to a January 19 article in Forbes—not a very liberal magazine—“GM is No. 1 in the World Again in Auto Sales.” No. 1. Why is that important? Because they are hiring people. They are hiring people of all ages, in salaries. Their secondary facilitator, the suppliers are hiring more people. People who ship those cars are hiring more people; again, moving forward.

In the Budget Committee a couple days ago, Fed Chairman Bernanke was surprised by this strong growth in manufacturing. Again, a few years ago, people said: Oh, manufacturing, we are never going to get back to the good old days. Again, we see growth. “Industrial Suppliers Power Up Sales,” says a Wall Street Journal article from January 21. Here is another headline—this one from CNBC on December 8: “US State Tax Revenues return to Pre-recession Levels.” Why is this important? That shows subeconomies within States and within communities are growing—again, a stronger economy.

Back in my home State, we are making progress in Alaska and Beaufort Seas, where we will see huge potential oil and gas development. With 26 billion barrels of known recoverable oil today, I think it is a lot higher, but that is what we know about. It could provide, once in production, 30,000 jobs and $28 billion a year. But it will need to be supported throughout Alaska but throughout this country because that is U.S. oil for U.S. consumption and utilization or export, if we are in the business of selling it. But the point is, it is jobs for Alaskans, jobs for Americans.

This month, Shell got a final air permit for its drillship, putting them one step closer to exploration. There is no question in my mind we are going to make that happen. Three years ago, people were saying: We are never going to do anything in Federal waters. We will never develop our resources in Alaska because it is in Federal hands, and the laws, the rules, the regulations don’t allow it. I stand here to say that was wrong. With the Lower 48 Reserve, Chukchi and Beaufort, billions of barrels of oil are in exploration and/or development. That has happened in just 3 years.

People are right when they say in the last 30 years we have had a lot of sluggish opportunity in that field. But today it is moving forward. In 3 years, there is new activity. That is powerful for our country from a national security perspective but also from an economic security perspective.

We know ConocoPhillips—again, I already mentioned National Petroleum Reserve-Alaska—has now received its permit to move forward, and they hope to start developing in 2013.

In 2005, 10.7 million acres of Alaska’s mining exploration totaled more than $264 million, a 47-percent increase, and one-third of the total spent on mining exploration in the United States overall was in Alaska. There is a new gold rush in Alaska with continued increasing in gold prices. Placer mining applications, generally submitted by small family-run operations, rose from 350 in 2005 to over 581 this year. Alaska even has a reality show called “Gold Rush.”

Exxon Mobil to Alaska tepped over $5 billion in 2011, and China is now our No. 1 top trading partner. There are liquefied natural gas opportunities in the Asian market that we are exploring. I can assure you Alaska and Alaska companies have a strong interest in moving forward.

The good news is spreading across this country. But as I say, our work is not done. We must continue to build on this progress and secure a long-term economic stability that will protect our middle-class American families and support our small businesses moving forward. We must address the deficit. Unemployment is still too high. It is better, but it is still too high. Our housing market is still a little weak. Europe’s economic situation remains uncertain, and we continue to depend on unstable sources of foreign oil.

All of that is why we must move forward and address the threat. We will continue to strengthen our economy, protect middle-class families, and support small businesses, including extending the payroll tax cuts and unemployment insurance, developing a true energy plan that includes domestic oil development and the middle class, rebuild this country’s infrastructure and strengthen our housing market.

We can and must improve our economy and address long-term fiscal challenges at the same time. Even with hard work ahead, there is a lot of reason for optimism. We are moving in the right direction. We are creating jobs, and we are turning this economy around.

As we conclude the full read-out on this I will end on this note. I spend time looking at every business publication and reading what is going on not just from a global perspective but from companies themselves, and I have been seeing headlines—again, from the Wall Street Journal such as “Jobs Power Market Rebound: Unemployment Rate Dips to 8.3% on Broad Gains,” “Dow at Highest Since May 2008.”

Some people say: It is hard to gauge that based on the market. But if you look at the way some of those people are doing—like putting a little money aside for your retirement—in maybe a 401(k) or an IRA—or you have a little set-aside for the kids to go to college, then you know 2009 was a sad year. You were thinking you were going to have to work a lot longer just to make up some of that money. Today, the market is double what it was then. I would challenge people to take their 2009 March-April statements, if they have them—an education. You put a little risk for an IRA—and compare that to what it is today. It is better. Can it be even better than it is today? Absolutely. That is what we will continue to strive for.

Again, I am going to continue to come to the floor and talk about this great economic news. I know people want to see the worst in things sometimes, but I think what has made this country great is that, generally, we see the best in things. We see what the opportunities are and we take advantage of them. I think we did with the auto bailout and the cash for clunkers. We took a little risk and walked the road alone.

Today, that is almost all paid off and, guess what. There is a thriving industry providing jobs all across the country. So we have a lot to be proud of and a lot to look forward to. We just have to keep on the path, take a little risk once in a while, push the envelope, and bank on the American people.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. MANCHIN). The clerk will call the roll.
The bill clerk proceeded to call the roll.
Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I now ask unanimous consent that all postcloture time be yielded back and that the motion to proceed be agreed to; that the committee-reported amendments be agreed to and that the bill, as amended, be considered original text for the purposes of further amendment; further, that it be in order for Senator BOXER or designee, on behalf of Senators JOHNSON and SHELEY, the chairman and ranking member of the Banking Committee, to call amendment No. 1515, which is at the desk; finally, that following the reporting of the amendment, the Senate proceed to a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Under the previous order, all postcloture time is yielded back and the motion to proceed is agreed to.

MOVING AHEAD FOR PROGRESS IN THE 21ST CENTURY ACT

The PRESIDING OFFICER. The clerk will report the bill by title.

The bill clerk reads as follows:

A bill to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes.

The Senate proceeded to consider the bill (S. 1813) to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes, which had been reported from the Committee on Environment and Public Works, with amendments; as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets and the parts of the bill intended to be inserted are shown in italics.)

S. 1813

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Moving Ahead for Progress in the 21st Century Act” or the “MAP–21”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

TITLE I—FEDERAL-AID HIGHWAYS

Subtitle A—Authorizations and Programs Sec. 1101. Authorization of appropriations.

Sec. 1102. Obligation ceiling.

Sec. 1103. Definition.

Sec. 1104. National highway system.

Sec. 1105. Apportionment.

Sec. 1106. National highway performance program.

Sec. 1107. Emergency relief.

Sec. 1108. Transportation mobility program.

Sec. 1109. Workforce development.

Sec. 1110. Use tax evasion projects.

Sec. 1111. National bridge and tunnel inventory and inspection standards.

Sec. 1112. Highway safety improvement program.

Sec. 1113. Congestion mitigation and air quality improvement program.

Sec. 1114. Territorial and Puerto Rico highway program.

Sec. 1115. National freight program.

Sec. 1116. Federal lands and tribal transportation programs.

Sec. 1117. Alaska Highway.

Sec. 1118. Projects of national and regional significance.

Subtitle B—Performance Management

Sec. 1201. Metropolitan transportation planning.

Sec. 1202. Statewide and nonmetropolitan transportation planning.

Sec. 1203. National goals.

Subtitle C—Acceleration of Project Delivery

Sec. 1301. Project delivery initiative.

Sec. 1302. Clarified eligibility for early acquisition activities prior to completion of NEPA review.

Sec. 1303. Efficiencies in contracting.

Sec. 1304. Innovative project delivery methods.

Sec. 1305. Assistance to affected State and Federal agencies.

Sec. 1306. Application of categorical exclusions for multimodal projects.

Sec. 1307. State assumption of responsibilities for categorical exclusions.

Sec. 1308. Surface transportation project delivery program.

Sec. 1309. Categorical exclusion for projects within the right-of-way.

Sec. 1310. Programmatic agreements and additional categorical exclusions.

Sec. 1311. Accelerated decisionmaking in environmental reviews.

Sec. 1312. Memoranda of agency agreements for early coordination.

Sec. 1313. Accelerated decisionmaking.

Sec. 1314. Environmental procedures initiative.

Sec. 1315. Alternative relocation payment demonstration program.

Sec. 1316. Review of Federal project and program delivery.

Subtitle D—Highway Safety

Sec. 1401. Jason’s Law.

Sec. 1402. Open container requirements.

Sec. 1403. Minimum penalties for repeat offenders for driving while intoxicated or driving under the influence.

Sec. 1404. Adjustments to penalty provisions.

Sec. 1405. Tread Lighter program.

Subtitle E—Miscellaneous

Sec. 1501. Program efficiencies.

Sec. 1502. Project approval and oversight.

Sec. 1503. Standards.

Sec. 1504. Construction.

Sec. 1506. Federal share payable.

Sec. 1507. Transferability of Federal-aid highways funds.

Sec. 1508. Special permits during periods of national emergency.

Sec. 1509. Electric vehicle charging stations.

Sec. 1510. HOV facilities.

Sec. 1511. Construction equipment and vehicles.

Sec. 1512. Use of debris from demolished bridges and overpasses.

Sec. 1513. Extension of public transit vehicle exemption from axle weight restrictions.

Sec. 1514. Surface transportation reauthorization and safety improvement program.

Sec. 1515. Use of youth service and conservation corps.

Sec. 1516. Conservation of programs; repeal of obsolete provisions.

Sec. 1517. Recissions.

Sec. 1518. State autonomy for culvert pipe selection.

Sec. 1519. Effective and significant performance measures.

Sec. 1520. Requirements for eligible bridge projects.

TITLE II—RESEARCH AND EDUCATION

Subtitle A—Funding

Sec. 2101. Authorization of appropriations.

Subtitle B—Research, Technology, and Education

Sec. 2201. Research and development.

Sec. 2202. Surface transportation research, development, and technology.

Sec. 2203. Research and technology development and deployment.

Sec. 2204. Training and education.

Sec. 2205. State planning and research.

Sec. 2206. International highway transportation program.

Sec. 2207. Surface transportation environmental cooperative research program.

Sec. 2208. National cooperative freight research.

Sec. 2209. University transportation centers program.

Sec. 2210. Bureau of transportation statistics.

Sec. 2211. Administrative authority.

Sec. 2212. Transportation research and development strategy planning.

Sec. 2213. National electronic vehicle corridors and recharging infrastructure network.

Subtitle C—Funding

Intelligent Transportation Systems Research

Sec. 2301. Use of funds for ITS activities.

Sec. 2302. Goals and purposes.

Sec. 2303. General authorities and requirements.

Sec. 2304. Research and development.

Sec. 2305. National architecture and standards.

Sec. 2306. 5.9 GHz vehicle-to-vehicle and vehicle-to-infrastructure communications systems deployment.

TITLE III—AMERICA FAST FORWARD

FINANCING INNOVATION

Sec. 3001. Short title.

Sec. 3002. Transportation Infrastructure Finance and Innovation Act amendments.

Sec. 3003. State infrastructure banks.

TITLE IV—HIGHWAY SPENDING CONTROLS

Sec. 4001. Highway spending controls.

Sec. 4002. Definitions.

In this Act, the following definitions apply:

(1) DEPARTMENT.—The term “Department” means the Department of Transportation.

(2) SECRETARY.—The term “Secretary” means the Secretary of Transportation.

TITLE I—FEDERAL-AID HIGHWAYS

Subtitle A—Authorizations and Programs

Sec. 1101. Authorization of appropriations.

Sec. 1102. Obligation ceiling.

Sec. 1103. Definition.

Sec. 1104. National highway system.

Sec. 1105. Apportionment.

Sec. 1106. National highway performance program.

Sec. 1107. Emergency relief.

Sec. 1108. Transportation mobility program.

Sec. 1109. Workforce development.

Sec. 1110. Use tax evasion projects.

Sec. 1111. National bridge and tunnel inventory and inspection standards.

Sec. 1112. Highway safety improvement program.

Sec. 1113. Congestion mitigation and air quality improvement program.

Sec. 1114. Territorial and Puerto Rico highway program.

Sec. 1115. National freight program.

Sec. 1116. Federal lands and tribal transportation programs.

Sec. 1117. Alaska Highway.

Sec. 1118. Projects of national and regional significance.

Sec. 1119. Rescissions.

Sec. 1120. Highway spending controls.

Sec. 1121. Use tax evasion projects.

Sec. 1122. National bridge and tunnel inventory and inspection standards.

Sec. 1123. Rescissions.
(2) TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM.—For credit assistance under the transportation infrastructure finance and innovation program under section 218 of title 23, United States Code, $1,000,000,000 for each of fiscal years 2012 and 2013.

(3) FEDERAL LANDS AND TRIBAL TRANSPORTATION PROGRAMS.—
   (A) TRIBAL TRANSPORTATION PROGRAM.—For the tribal transportation program under section 202 of title 23, United States Code, $450,000,000 for each of fiscal years 2012 and 2013.

   (B) FEDERAL LANDS TRANSPORTATION PROGRAM.—For the federal lands transportation program under section 203 of title 23, United States Code, $300,000,000 for each of fiscal years 2012 and 2013, of which $260,000,000 of the amount made available for each fiscal year shall be the amount for the National Park Service and the United States Fish and Wildlife Service.

(c) FEDERAL LANDS ACCESS PROGRAM.—For the federal lands access program under section 204 of title 23, United States Code, $250,000,000 for each of fiscal years 2012 and 2013.

(d) TERRITORIAL AND PUERTO RICO HIGHWAY PROGRAM.—For the territorial and Puerto Rico highway program under section 165 of title 23, United States Code, $190,000,000 for each of fiscal years 2012 and 2013.

(e) DISADVANTAGED BUSINESS ENTERPRISES.—
   (1) DEFINITIONS.—In this subsection, the following definitions apply:
      (A) SMALL BUSINESS CONCERN.—For purposes of this subsection, the term "small business concern" means—
         (i) women; and
         (ii) any other socially and economically disadvantaged individuals (as the term is defined in section 8(d)(6) of the Small Business Act (15 U.S.C. 637(d)) and relevant subcontracting regulations promulgated pursuant to that section);
      (B) AMOUNTS FOR SMALL BUSINESS CONCERNS.—Except to the extent that the Secretary determines otherwise, not less than 10 percent of the amount made available for any program under titles I, II, and III of this Act and section 403 of title 23, United States Code, shall be expended through small business concerns owned and controlled by socially and economically disadvantaged individuals.
      (C) ANNUAL LISTING OF DISADVANTAGED BUSINESS ENTERPRISES.—Each State shall annually—
         (i) survey and compile a list of the small business concerns referred to in paragraph (2) in the State, including the location of the small business concerns in the State; and
         (ii) notify the Secretary, in writing, of the percentage of the small business concerns that are controlled by—
            (I) women;
            (II) socially and economically disadvantaged individuals (other than women); and
            (III) veteran-owned small businesses that are otherwise socially and economically disadvantaged individuals;
      (D) UNIFORM CERTIFICATION.—
         (i) IN GENERAL.—The Secretary shall establish minimum uniform criteria for use by State governments in certifying whether a concern qualifies as a small business concern for the purpose of this subsection.
         (ii) INCLUSIONS.—The minimum uniform criteria established under subparagraph (A) shall include—
            (I) on-site visits;
            (II) personal interviews with personnel;
            (III) issuance or inspection of licenses;
            (IV) analyses of stock ownership;
            (V) listings of equipment;
            (VI) analyses of bonding capacity;
            (VII) listing of directors; and
            (VIII) examination of the resumes of principal owners;

(f) DETERMINATION OF OBLIGATION AUTHORITY.—For each of fiscal years 2012 through 2013, the Secretary—
   (1) shall not distribute obligation authority provided by subsection (a) for the fiscal year for—
      (A) amounts authorized for administrative expenses and programs by section 104(a) of title 23, United States Code; and
      (B) amounts authorized for the Bureau of Transportation Statistics;
   (2) shall not distribute an amount of obligation authority provided by subsection (a) that is equal to the unobligated balance of amounts made available from the Highway Trust Fund (other than the Mass Transit Account) for Federal-aid highway and highway safety construction programs for previous fiscal years for which amounts are allocated by the Secretary; and
   (3) shall determine the proportion that—
      (A) the obligation authority provided by subsection (a) for the fiscal year, less the aggregate of amounts not distributed under paragraphs (1) and (2) of this subsection, bears to
      (B) the total of the sums authorized to be appropriated for the Federal-aid highway and highway safety construction programs (other than sums authorized to be appropriated for provisions of law described in paragraphs (1) through (11) of subsection (b) and for which obligations were not subject to a limitation on obligations at the time at which the funds were initially made available for obligation; and
      (C) section 119 of title 23, United States Code (but, for each of fiscal years 2012 through 2013, only in an amount equal to $639,000,000 for each of those fiscal years).

SEC. 1102. OBLIGATION CEILING.
   (a) GENERAL LIMITATION.—Subject to subsection (b), for provisions of law described in subsection (a) of section 1603 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1248), to the extent that funds obligated in accordance with that section were not subject to a limitation on obligations at the time at which the funds were initially made available for obligation; and
   (b) REDISTRIBUTION OF UNUSED OBLIGATION AUTHORITY.—For each of fiscal years 2012 through 2013, the Secretary—
      (1) shall not distribute obligation authority provided by subsection (a) for the fiscal year for—
         (A) amounts authorized for administrative expenses and programs by section 104(a) of title 23, United States Code; and
         (B) amounts authorized for the Bureau of Transportation Statistics;
      (2) shall not distribute an amount of obligation authority provided by subsection (a) that is equal to the unobligated balance of amounts made available from the Highway Trust Fund (other than the Mass Transit Account) for Federal-aid highway and highway safety construction programs for previous fiscal years for which amounts are allocated by the Secretary; and
      (3) shall determine the proportion that—
         (A) the obligation authority provided by subsection (a) for the fiscal year, less the aggregate of amounts not distributed under paragraphs (1) and (2) of this subsection, bears to
         (B) the total of the sums authorized to be appropriated for the Federal-aid highway and highway safety construction programs (other than sums authorized to be appropriated for provisions of law described in paragraphs (1) through (11) of subsection (b) and for which obligations were not subject to a limitation on obligations at the time at which the funds were initially made available for obligation; and
         (C) section 119 of title 23, United States Code (but, for each of fiscal years 2012 through 2013, only in an amount equal to $639,000,000 for each of those fiscal years).
the Secretary shall, after August 1 of each of fiscal years 2012 through 2013—
(1) revise a distribution of the obligation authority made available under subsection (c) of this Act shall be used to fund the construction programs for future fiscal years.
(2) by redesignating paragraphs (2), (3), (4), (5), (6), (7), (9), (12), (13), (14), (15), (16), (17), (18), (21), (22), (23), (27), (29), (30), (31), (32), (33), (34), (35), (36), and (37) as paragraphs (3), (4), (5), (6), (9), (12), (13), (14), (15), (16), (17), (18), (19), (20), (21), (22), (23), (25), (26), (29), (30), (33), and (34), respectively;
(3) by inserting after paragraph (1) the following:
"(2) ASSET MANAGEMENT.—The term ‘asset management’ means a strategic and systematic process of operating, maintaining, and improving physical assets, with a focus on both engineering and economic analysis based upon quality information, to identify a structured sequence of maintenance, preservation, repair, rehabilitation, and replacement actions that will achieve and sustain a desired state of good repair over the lifecycle of the assets at minimum practicable cost;"
(4) in paragraph (4) (as redesignated by paragraph (3))—
(A) in the matter preceding subparagraph (A), by inserting ‘‘or any project eligible for assistance under this title’’ after ‘‘of a highway’’;
(B) by striking subparagraph (A) and inserting the following:
"(A) by striking ‘‘reconstruction,’’ before ‘‘reconstruction, repair, rehabilitation, and preservation’’;
(B) by striking ‘‘and the recipient’’ after ‘‘a Federal land transportation facility’’ means a public highway, road, bridge, trail, or transit system that is located on, adjacent to, or provides access to Federal lands for which title or maintenance responsibility is vested in a State, county, town, township, tribal, municipal, or local government.
(8) STATE STRATEGIC HIGHWAY SAFETY PLAN.—The term ‘State strategic highway safety plan’ means a plan for the comprehensive and coordinated planning of highway safety activities described in sections 133(b)(11), 328(a), and 329; or
(9) in paragraph (4) (as so redesignated) the following:
"(23) SAFETY IMPROVEMENT PROJECT.—The term ‘safety improvement project’ means an undertaking to construct a particular highway improvement project;"
(10) in paragraph (4) (as so redesignated)—
(A) by striking ‘‘the State transportation department and’’; and
(B) by inserting ‘‘and the recipient’’ after ‘‘Secretary’’;
(11) by striking paragraph (23) (as so redesignated) and inserting the following:
"(23) SAFETY IMPROVEMENT PROJECT.—The term ‘safety improvement project’ means an undertaking to construct a particular highway improvement project;"
(12) by inserting after paragraph (26) (as so redesignated) the following:
"(27) STATE STRATEGIC HIGHWAY SAFETY PLAN.—The term ‘State strategic highway safety plan’ has the same meaning given such term in section 133(b)(11), 328(a), and 329; or
(13) by striking paragraph (29) (as so redesignated) and inserting the following:
"(29) TRANSPORTATION ENHANCEMENT ACTIVITY.—The term ‘transportation enhancement activity’ means any of the following activities when carried out as part of any program authorized or funded under this title, or as an independent program or project related to surface transportation:
(A) Provision of facilities for pedestrians and bicyclists;
(B) Provision of safety and educational activities for pedestrians and bicyclists;
(C) Acquisition of scenic easements and scenic or historic sites;
(D) Scenic or historic highways and bridges;
(E) Vegetation management practices in transportation rights-of-way and other activities eligible under section 319.
(F) Historic preservation, rehabilitation, and development of historic transportation buildings, structures, or facilities.
(G) Preservation of abandoned railway corridors, including the conversion and use of the corridors for pedestrian or bicycle trails.
(H) Inventory, control, and removal of outdoor advertising.
(I) Archaeological planning and research.
(J) Any environmental mitigation activity, including pollution prevention and pollution abatement activities and mitigation to.e.
(v) to address stormwater management, control, and water pollution prevention or abatement related to highway construction and maintenance.
(14) by inserting after paragraph (29) (as so redesignated) the following:
"(30) TRANSPORTATION SYSTEMS MANAGEMENT AND OPERATIONS.—
(A) IN GENERAL.—The term ‘transportation systems management and operations’ means integrated strategies to optimize the performance of existing infrastructure through the implementation of multimodal and intermodal, cross-jurisdictional systems, services, and projects designed to preserve capacity and improve security, safety, and reliability of the transportation system, including public transportation and freight and freight movement, traveler information services, congestion pricing, parking management, automated enforcement, traffic control, commercial vehicle operations, freight management, and coordination of highway, rail, transit, bicycle, and pedestrian operations; and
(B) inclusion of regional transportation system management and operations initiatives (such as traffic incident management, traveler information services, emergency management, roadway weather management, intelligent transportation systems, communications networks, and information sharing systems) requiring agreements, integration, and interoperability to achieve targeted system performance, reliability, safety, and customer service levels.
(D) TRIBAL TRANSPORTATION FACILITY.—
The term ‘tribal transportation facility’ means a public highway, road, bridge, trail, or transit system that is located on or provides access to tribal lands and is included on the national tribal transportation facility inventory described in section 202(b)(1)."
Transportation.—The term ‘truck stop electrification system’ means a system that delivers heat, air conditioning, electricity, or communications to a heavy-duty vehicle.

(b) Sense of Congress.—Section 101(c) of title 23, United States Code, is amended by striking “system” and inserting “highway”.

SEC. 1104. NATIONAL HIGHWAY SYSTEM.

(a) General.—Subtitle B of title 23, United States Code, is amended to read as follows:

S 103. National highway system

(a) In General.—For the purposes of this title, the Federal-aid system is the National Highway System, which includes the Interstate System.

(b) NATIONAL HIGHWAY SYSTEM.—

(1) DESCRIPTION.—The National Highway System consists of the highway routes and connections to transportation facilities that shall—

(A) serve major population centers, international border crossings, ports, airports, public transportation facilities, and other intermodal transportation facilities and other major travel destinations;

(B) serve national defense requirements; and

(C) serve interstate and interregional travel and commerce.

(2) COMPREHENSION.—

(a) National Highway System described in paragraph (1) consists of—

(i) major highways that provide motor vehicle access to the Interstate System; and

(ii) highways that provide access to a heavy-duty vehicle.

(b) Term.—The term ‘truck stop electrification system’ means a system that delivers heat, air conditioning, electricity, or communications to a heavy-duty vehicle.

(c) Modification.—The term ‘modifications to the Interstate System’ means a system that delivers heat, air conditioning, electricity, or communications to a heavy-duty vehicle.

(d) Affirmative Recommendation.—The term ‘affirmative recommendation’ means a system that delivers heat, air conditioning, electricity, or communications to a heavy-duty vehicle.

(e) Major Strategic Highway Network.—The term ‘major strategic highway network’ means a system that delivers heat, air conditioning, electricity, or communications to a heavy-duty vehicle.

(f) Designation.—The term ‘designations for major highways’ means a system that delivers heat, air conditioning, electricity, or communications to a heavy-duty vehicle.

(g) Intermodal Terminal.—The term ‘intermodal terminal’ means a system that delivers heat, air conditioning, electricity, or communications to a heavy-duty vehicle.

(h) Designation.—The term ‘designations for major highways’ means a system that delivers heat, air conditioning, electricity, or communications to a heavy-duty vehicle.

(1) DESCRIPTION.—The National Highway System described in paragraph (1) consists of highways designed, located, and selected in accordance with this paragraph.

(B) DESIGN.—

(1) General.—Except as provided in clause (2), highways on the Interstate System shall be designed in accordance with the standards of section 109(b).

(2) Alternative Design.—Highways on the Interstate System in Alaska and Puerto Rico shall be designed in accordance with such geometric and construction standards as are adequate to meet present and probable future traffic demands and the needs of the locality of the highway.

(C) LOCATION.—Highways on the Interstate System shall be located so as—

(i) to connect by routes, as direct as practicable, the principal metropolitan areas, cities, and industrial centers;

(ii) to serve national defense; and

(iii) to the maximum extent practicable, to connect at suitable border points with routes of continental importance in Canada and Mexico.

(D) SELECTION OF ROUTES.—To the maximum extent practicable, each route of the Interstate System shall be selected by joint action of the State and Federal Governments for the principal protected part of the highway in such area.

(E) MAXIMUM MILEAGE.—The mileage of highways on the Interstate System shall not exceed 50,000 miles, exclusive of designations under paragraph (2).

(F) MODIFICATIONS.—The Secretary may approve or require modifications to the Interstate System in a manner consistent with the policies and procedures established under this subsection.

(1) INTERSTATE SYSTEM DESIGNATIONS.—

(A) Additions.—If the Secretary determines that a highway on the National Highway System meets all standards of a highway on the Interstate System and that the highway is a logical addition or connection to the Interstate System, the Secretary may, upon the affirmative recommendation of the State or States in which the highway is located, designate the highway as a route on the Interstate System.

(B) Designations as Future Interstate System Routes.—

(i) In General.—Subject to clauses (1) through (vi), if the Secretary determines that a highway on the National Highway System would be a logical addition or connection to an Interstate System, the Secretary would qualify for designation as a route on the Interstate System under subparagraph (A) if the highway met all standards of a highway on the Interstate System.

(ii) Written Agreement.—A designation under clause (1) shall be made only upon the agreement of the State, which signed in the appropriate document or record that the highway will be constructed to meet all standards of a highway on the Interstate System by not later than the date that is 25 years after the date of the agreement.

(iii) Failure to Complete Construction.—If a State described in clause (i) has not substantially completed the construction of a highway designated under this subparagraph by the date specified in clause (ii), the Secretary shall remove the designation of the highway as a future Interstate System route.

(iv) Effect of Removal.—Removal of the designation of a highway under clause (iii) shall not preclude a designation as the Interstate System under subparagraph (A) or under any other provision of law providing for designation to the Interstate System.

(v) Retroactive Effect.—An agreement described in clause (ii) that is entered into before September 10, 2005, shall be deemed to include the 25-year time limitation described in that clause, regardless of any earlier completion date in the agreement.

(vi) Modifications.—The Secretary may, if the State in such agreement, map, document, or other record of the United States, or of any State or political subdivision of a State, shall refer to any highway designated as a future Interstate System route under this subparagraph, and no such highway shall be signed or marked, as a highway on the Interstate System, until such time as the highway—

(I) is constructed to the geometric and construction standards for the Interstate System; and

(II) has been designated as a route on the Interstate System.

(C) Financial Responsibility.—Except as provided in this title, no additional Federal financial responsibility with respect to the highway shall be incurred under section 106 of the National Historic Preservation Act (16 U.S.C. 470f), those individual elements of the Interstate System that possess national or exceptional historic significance (such as a historic bridge or a highly significant engineering feature); and

(III) those elements shall be considered to be historic sites under section 303 of title 49 or section 138 of this title, as applicable.

(D) Individual Elements.—Subject to subparagraph (C), the Secretary shall determine, through the administrative process established for exempting the Interstate System from section 106 of the National Historic Preservation Act (16 U.S.C. 470f), those individual elements of the Interstate System that possess national or exceptional historic significance (such as a historic bridge or a highly significant engineering feature); and

(1) the Secretary shall determine, through the administrative process established for exempting the Interstate System from section 106 of the National Historic Preservation Act (16 U.S.C. 470f), those individual elements of the Interstate System that possess national or exceptional historic significance (such as a historic bridge or a highly significant engineering feature); and

(ii) those elements shall be considered to be historic sites under section 303 of title 49 or section 138 of this title, as applicable.

(D) Construction, Restoration, and Rehabilitation Activities.—Subparagraph (B) does not prohibit a State...
from carrying out construction, maintenance, preservation, restoration, or rehabilitation activities for a portion of the Interstate System referred to in subparagraph (b) upon approval by the Secretary that—

(i) that were open to traffic on the date of enactment of the MAP–21; and

(ii) on which all nonpassenger commercial motor vehicles are banned on the date of enactment.

(B) RESTRICTIONS.—A State may request temporary or permanent restrictions on the operation of conventional combination vehicles.

(3) OPERATION OF CONVENTIONAL COMBINATION VEHICLES.—

(A) REQUIREMENT.—Conventional combination vehicles shall be permitted to operate in all States on all segments of the National Highway System other than segments—

(i) that were open to traffic on the date of enactment of the MAP–21; and

(ii) on which all nonpassenger commercial motor vehicles are banned on the date of enactment.

(B) RESTRICTIONS.—A State may request temporary or permanent restrictions on the operation of conventional combination vehicles.

(4) METROPOLITAN PLANNING.—To carry out section 134 of title 23, the national freight program under section 119, the transportation mobility program under section 133, the highway safety improvement program under section 148, the congestion mitigation and air quality improvement program under section 149, the national freight program under section 119, and to carry out section 134 shall be determined as follows:

(A) INITIAL AMOUNT.—The initial amount for each State shall be determined by multiplying the amount determined for the State under subsection (b) by the share for each State which shall be equal to the proportion that—

(i) the amount of apportionments and allocations received by all States for fiscal years 2009 through 2011 bears to

(ii) the amount of those apportionments and allocations received by all States for the fiscal year for which data are available.

(2) ADJUSTMENTS TO AMOUNTS.—The initial amounts resulting from the calculation under paragraph (A) shall be adjusted to ensure that, for each fiscal year, the amount of combined apportionments for the programs shall not be less than 95 percent of the estimated tax payments attributable to highway users in the State paid into the Highway Trust Fund (other than the Mass Transit Account) in the most recent fiscal year for which data are available.

(3) USE OF AMOUNTS.—On October 1 of each fiscal year, the Secretary shall apportion the sum authorized to be appropriated for expenditure on the national highway performance program for fiscal year 2009, plus 10 percent of the amount apportioned to the State for the surface transportation program for that fiscal year; bears to

(a) the amount apportioned to the State for that fiscal year for the programs referred to in section 105(a)(2) (except for the high priority projects program referred to in section 105(a)(2)(H)) in effect on the day before the date of enactment of the MAP–21.

(b) the total amount of funds apportioned to the State for that fiscal year for the programs referred to in section 105(a)(2) (except for the high priority projects program referred to in section 105(a)(2)(H)), as in effect on the day before the date of enactment of the MAP–21.

(c) the amount apportioned to the State under section 104 for fiscal year 2009; bears to

(d) the total amount of funds available for the State for fiscal year 2009, plus 10 percent of the amount apportioned to the State for that fiscal year for the programs referred to in section 105(a)(2) (except for the high priority projects program referred to in section 105(a)(2)(H)), as in effect on the day before the date of enactment of the MAP–21.

(4) CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.—For the congestion mitigation and air quality improvement program for fiscal year 2009, plus 10 percent of the amount apportioned to the State for the surface transportation program for that fiscal year; bears to

(a) the amount apportioned to the State for that fiscal year for the programs referred to in section 105(a)(2) (except for the high priority projects program referred to in section 105(a)(2)(H)) in effect on the day before the date of enactment of the MAP–21.

(b) the total amount of funds apportioned to the State for that fiscal year for the programs referred to in section 105(a)(2) (except for the high priority projects program referred to in section 105(a)(2)(H)), as in effect on the day before the date of enactment of the MAP–21.

(c) the amount apportioned to the State under section 104 for fiscal year 2009; bears to

(d) the total amount of funds available for the State for fiscal year 2009, plus 10 percent of the amount apportioned to the State for that fiscal year for the programs referred to in section 105(a)(2) (except for the high priority projects program referred to in section 105(a)(2)(H)), as in effect on the day before the date of enactment of the MAP–21.

(5) NATIONAL FREIGHT PROGRAM.—For the national freight program, 57 percent of the amount remaining after distributing amounts under paragraphs (2) and (6).

(6) METROPOLITAN PLANNING.—To carry out section 134 of title 23, and to

(a) the amount apportioned to the State for that fiscal year for the programs referred to in section 105(a)(2) (except for the high priority projects program referred to in section 105(a)(2)(H)) in effect on the day before the date of enactment of the MAP–21.

(b) the total amount of funds apportioned to the State for that fiscal year for the programs referred to in section 105(a)(2) (except for the high priority projects program referred to in section 105(a)(2)(H)), as in effect on the day before the date of enactment of the MAP–21.

(7) USE OF AMOUNTS.—On October 1 of each fiscal year, the Secretary shall apportion the sum authorized to be appropriated for expenditure on the national highway performance program for fiscal year 2009, plus 10 percent of the amount apportioned to the State for the surface transportation program for that fiscal year; bears to

(a) the amount apportioned to the State for that fiscal year for the programs referred to in section 105(a)(2) (except for the high priority projects program referred to in section 105(a)(2)(H)) in effect on the day before the date of enactment of the MAP–21.

(b) the total amount of funds apportioned to the State for that fiscal year for the programs referred to in section 105(a)(2) (except for the high priority projects program referred to in section 105(a)(2)(H)), as in effect on the day before the date of enactment of the MAP–21.

(8) STATES RECEIVING MINIMUM APPORTIONMENT.—A State that received the minimum

...
apportionment for use in carrying out section 134 for fiscal year 2009 may, subject to the approval of the Secretary, use the funds apportioned under subsection (b)(6) to fund transportation planning outside of urbanized areas.

(B) UNUSED FUNDS.—Any funds that are not used to carry out section 134 may be made available to a metropolitan planning organization to the State to fund activities under section 135.

(2) DISTRIBUTION OF AMOUNTS WITHIN STATES.—

(A) IN GENERAL.—The distribution within any State of the planning funds made available to organizations under paragraph (1) shall be made in accordance with a formula that is developed by each State and approved by the Secretary; and

(B) NON-FEDERAL SHARE.—The provisions of this title relating to the non-Federal share shall apply to amounts transferred under subparagraph (A).

(2) TRANSFER OF TRANSIT FUNDS FOR HIGHWAY PROJECTS.—

(A) IN GENERAL.—Subject to subparagraph (B), amounts made available for transit projects or transportation planning under this title may be transferred to and administered by the Secretary in accordance with chapter 53 of title 49.

(B) NON-FEDERAL SHARE.—The provisions of chapter 53 of title 49 relating to the non-Federal share shall apply to amounts transferred under subparagraph (A).

(3) TRANSFER OF FUNDS AMONG STATES OR TO FEDERAL HIGHWAY ADMINISTRATION.—

(A) IN GENERAL.—Subject to subparagraph (B), the Secretary, at the request of a State, may, after the close of the fiscal year, transfer amounts apportioned or set aside under this section to another State, or to the Federal Highway Administration, for the purpose of funding 1 or more projects that are eligible for assistance with amounts so apportioned or set aside.

(B) APPORTIONMENT.—The transfer shall have no effect on any apportionment of amounts to a State under this section.

(4) TRANSFER OF OBLIGATION AUTHORITY.—

Obligation authority for amounts transferred under this subsection shall be transferred in the same manner and amount as the amounts for the projects (that are transferred under this subsection) that are transferred under this section.

(5) REPORT TO CONGRESS.—For each fiscal year, the Secretary shall make available to the public, in a user-friendly format via the Internet, a report that describes

(1) the amount obligated, by each State, for Federal-aid highways and highway safety construction projects during the preceding fiscal year;

(2) the balance, as of the last day of the preceding fiscal year, of the unobligated apportionment of each State by fiscal year under this section;

(3) the balance of unobligated sums available for expenditure at the discretion of the Secretary for such highways and programs for the fiscal year;

(4) the rates of obligation of funds apportioned or set aside under this section, according to—

(A) program;

(B) funding category of subcategory;

(C) type of improvement;

(D) State; and

(E) sub-State geographical area, including urbanized and rural areas, on the basis of the population of such areas.

(6) CONFORMING AMENDMENT.—Section 116(a) of title 23, United States Code, is amended by striking "sections 101(c) and 104(b)(3)" and inserting "section 104(b)(2)".

SEC. 110E. NATIONAL HIGHWAY PERFORMANCE PROGRAM.

(a) IN GENERAL.—Section 119 of title 23, United States Code, is amended to read as follows:

(1) TRANSFER OF HIGHWAY FUNDS FOR TRANSIT PROJECTS.—

"(A) IN GENERAL.—Subject to subparagraph (B), amounts made available for transit projects or transportation planning under this title may be transferred to and administered by the Secretary in accordance with chapter 53 of title 49.

(B) NON-FEDERAL SHARE.—The provisions of this title relating to the non-Federal share shall apply to amounts transferred under subparagraph (A).

(2) TRANSFER OF TRANSIT FUNDS FOR HIGHWAY PROJECTS.—

(A) IN GENERAL.—Subject to subparagraph (B), amounts made available for highway projects or transportation planning under this title may be transferred to and administered by the Secretary in accordance with chapter 53 of title 49.

(B) NON-FEDERAL SHARE.—The provisions of chapter 53 of title 49 relating to the non-Federal share shall apply to amounts transferred under subparagraph (A).

(3) TRANSFER OF FUNDS AMONG STATES OR TO FEDERAL HIGHWAY ADMINISTRATION.—

(A) IN GENERAL.—Subject to subparagraph (B), the Secretary, at the request of a State, may, after the close of the fiscal year, transfer amounts apportioned or set aside under this section to another State, or to the Federal Highway Administration, for the purpose of funding 1 or more projects that are eligible for assistance with amounts so apportioned or set aside.

(B) APPORTIONMENT.—The transfer shall have no effect on any apportionment of amounts to a State under this section.

(4) TRANSFER OF OBLIGATION AUTHORITY.—

Obligation authority for amounts transferred under this subsection shall be transferred in the same manner and amount as the amounts for the projects (that are transferred under this subsection) that are transferred under this section.

(5) REPORT TO CONGRESS.—For each fiscal year, the Secretary shall make available to the public, in a user-friendly format via the Internet, a report that describes

(1) the amount obligated, by each State, for Federal-aid highways and highway safety construction projects during the preceding fiscal year;

(2) the balance, as of the last day of the preceding fiscal year, of the unobligated apportionment of each State by fiscal year under this section;

(3) the balance of unobligated sums available for expenditure at the discretion of the Secretary for such highways and programs for the fiscal year;

(4) the rates of obligation of funds apportioned or set aside under this section, according to—

(A) program;

(B) funding category of subcategory;

(C) type of improvement;

(D) State; and

(E) sub-State geographical area, including urbanized and rural areas, on the basis of the population of such areas.

(6) CONFORMING AMENDMENT.—Section 116(a) of title 23, United States Code, is amended by striking "sections 101(c) and 104(b)(3)" and inserting "section 104(b)(2)".

SEC. 110F. NATIONAL HIGHWAY PERFORMANCE PROGRAM.

(a) ESTABLISHMENT.—The Secretary shall establish and implement a national highway performance program to

(1) to provide support for the condition and performance of the National Highway System; and

(2) to ensure that investments of Federal-aid funds in highway infrastructure are directed to achievement of established national performance goals for infrastructure condition, safety, mobility, and freight movement on the National Highway System and consistent with sections 134 and 135; and

(2) for 1 or more of the following purposes:

(A) Construction, reconstruction, resurfacing, restoration, rehabilitation, preservation, and operational improvement of segments of the National Highway System.

(B) Construction, replacement (including reconstruction with old fills), rehabilitation, preservation, and protection (including scour countermeasures, seismic retrofits, impact protection measures, security countermeasures, and protection against extreme events) of bridges on the National Highway System.

(C) Construction, replacement (including reconstruction with old fills), rehabilitation, preservation, and protection (including impact protection measures, security countermeasures, and protection against extreme events) of tunnels on the National Highway System.

(D) Inspection and evaluation, as described in section 144, of bridges and tunnels on the National Highway System, and inspection and evaluation of other highway infrastructure assets on the National Highway System, including signs and sign structures, guardrails, retaining walls, and drainage structures.

(E) Training of bridge and tunnel inspectors, as described in section 144.

(F) Construction, rehabilitation, or replacement of existing ferry boats and ferry boat facilities, including approaches, that connect road segments of the National Highway System.

(G) Construction, reconstruction, resurfacing, restoration, rehabilitation, and preservation of, and operational improvements to, Federal-aid highways on the National Highway System, and construction of a transit project eligible for assistance under chapter 53 of title 49.
(I) In general.—A State shall develop a risk-based asset management plan for the National Highway System based on a process defined by the Secretary to guide effective investment decisions to improve or preserve asset condition and system performance.

(2) Performance driven plan.—A State asset management plan shall include strategies leading to a program of projects that would be needed to achieve the State targets for asset condition and performance of the National Highway System in accordance with paragraph (5) and, to the maximum extent practicable, reflect the State’s asset management objectives and measures.

(3) Plan contents.—A State asset management plan shall, at a minimum, be in a form that the Secretary determines to be appropriate and include—

(A) a summary listing of the [highway infrastructure] pavement and bridge assets on the National Highway System in the State, including a description of the condition of those assets;

(B) asset management objectives and measures;

(C) performance gap identification;

(D) lifecycle cost and risk management analysis;

(E) a financial plan; and

(F) investment strategies.

(4) Standards and measures.—Not later than 18 months after the date of enactment of the MAP-21, the Secretary shall, by regulation and in consultation with State departments of transportation and other stakeholders, establish—

(A) minimum standards for States to use in developing and operating pavement management systems and bridge management systems;

(B) measures for States to use to assess—

(i) the condition of pavements on the Interstate System; and

(ii) the condition of bridges on the National Highway System (excluding the Interstate System);

(C) minimum standards for States to use to collect and maintain data, and a standardized process for collection and sharing of data with appropriate governmental entities at the Federal, State, and local levels (including metropolitan planning organizations), to carry out paragraph (8); and

(D) minimum levels for—

(i) the condition of pavement on the Interstate System; and

(ii) the condition of bridges on the National Highway System.

(5) Standards and measures.—

(A) in general.—Subject to subparagraph (B), not later than 18 months after the date of enactment of the MAP-21, the Secretary shall, in consultation with State departments of transportation and other stakeholders, establish—

(i) minimum standards for States to use in developing and operating pavement management systems and bridge management systems;

(ii) performance measures to use to assess—

(I) the condition of pavements on the Interstate System; and

(II) the condition of bridges on the National Highway System (excluding the Interstate System);

(III) the condition of bridges on the National Highway System (excluding the Interstate System); and

(IV) the performance of the Interstate System; and

(V) the performance of the National Highway System (excluding the Interstate System);

and

(iii) the data elements that are necessary to collect and maintain data, and a standardized process for collection and sharing of data with appropriate governmental entities at the Federal, State, and local levels (including metropolitan planning organizations), to carry out paragraph (3); and

(iv) the maximum levels for—

(I) the condition of pavement on the Interstate System; and

(II) the condition of the bridges on the National Highway System.

(B) State participation.—In carrying out subparagraph (A), the Secretary shall—

(1) provide States not less than 90 days to comment on any regulation proposed by the Secretary under that subparagraph; and

(2) take into consideration any comments of the States relating to a proposed regulation received during the time period specified in paragraph (3).

(6) State performance targets.—

(A) Establishment of targets.—Not later than 1 year after the date on which the Secretary finishes regulations under paragraph (4), each State, in consultation with metropolitan planning organizations, shall establish targets that address each of the performance measures identified in paragraph (4)(B).

(B) Periodic updates.—Each State shall periodically update the targets established under subparagraph (A).

(C) Requirement for plan.—To obligate funding apportioned under section 104(b)(1), each State shall in effect—

(1) a risk-based asset management plan for the National Highway System in accordance with this section, developed through a process defined and approved by the Secretary; and

(2) State targets that address the performance measures identified in paragraph (4)(B).

(D) Certification of plan development process.—

(A) in general.—Not later than 90 days after the date on which a State submits a requirement for approval of the process used by the State to develop the State asset management plan for the National Highway System, the Secretary shall—

(i) review the process; and

(ii) certify that the process meets the requirements established by the Secretary; or

(B) deny certification and specify actions necessary for the State to take to correct deficiencies in the process.

(D) Recertification.—Not less often than every 4 years, the Secretary shall review and recertify that the process used by a State to develop and maintain the State asset management plan for the National Highway System meets the requirements for the process, as established by the Secretary.

(E) Opportunity to cure.—If the Secretary denies certification under subparagraph (A), the Secretary shall provide the State with—

(i) notice of the denial; and

(ii) not less than 90 days to cure the deficiencies of the plan, during which time period all penalties and other legal impacts of a denial of certification shall be stayed, and

(iii) a written statement of the specific actions the Secretary determines to be necessary for the State to cure the plan.

(E) Performance reports.—

(A) in general.—Not later than 4 years after the date of enactment of the MAP-21
and biennially thereafter, a State shall submit to the Secretary a report that describes—

(i) the condition and performance of the National Highway System in the State;

(ii) progress in achieving State targets for each of the performance measures for the National Highway System; and

(iii) use of the investment strategy documented in the State asset management plan for the National Highway System.

(b) Failure to achieve targets.—A State that does not achieve or make significant progress toward achieving the targets described in subparagraph (A)(ii) and (iii) and the asset management plan described in subparagraph (A)(i) shall, by regulation and in consultation with State departments of transportation, establish the process to develop the State asset management plan for the National Highway System.

(c) Finding.—In section 119(f)(4) of that title, the Secretary shall authorize to obligate, from the amounts apportioned to the State under section 104(b)(1), any amount for bridges on the National Highway System in the State for fiscal year 2009 under the highway bridge program for the purposes described in section 119 of title 23, United States Code, that will contribute to achieving the targets.

SEC. 1107. EMERGENCY RELIEF.

(a) In general.—Subject to the limitations described in paragraph (2), there are authorized to be appropriated from the Highway Trust Fund, in the Mass Transit Account such sums as are necessary to establish the fund authorized by this section and to replenish that fund on an annual basis.

(b) Limitations.—The limitations referred to in paragraph (1) are that—

(A) not more than $100,000,000 is authorized to be obligated in any 1 fiscal year commencing after September 30, 2010, to carry out this section, except that, if for any fiscal year the total of all obligations under this section is less than the amount authorized to be obligated for the fiscal year, the unobligated balance of that amount shall—

(1) remain available until expended; and

(B) pending such appropriation or replenishment, the Secretary may obligate any funds appropriated at any time for obligation in accordance with this title, including existing Federal-aid appropriations, for obligation in accordance with this section for each year after the date of enactment of this Act.

(c) Fundings.—

(1) In general.—Subject to the limitations described in paragraph (2), there are authorized to be obligated from the Highway Trust Fund, in the Mass Transit Account such sums as are necessary to establish the fund authorized by this section and to replenish that fund on an annual basis.

(d) Eligibility.—

(1) In general.—The Secretary may expend funds from the emergency fund authorized by this section only for the repair or reconstruction of highways on Federal-aid highways in accordance with this chapter, except that—

(A) no funds shall be so expended unless an emergency has been declared by the Governor of the State with concurrence by the Secretary, unless the President has declared the emergency to be a major disaster for the purposes of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) for which concurrence of the Secretary is not required; and

(B) the Secretary has received an application from the State transportation department that includes a comprehensive list of all eligible project sites and repair costs by the State and biennially thereafter, a State shall submit to the Secretary a report that describes—

(i) the condition and performance of the National Highway System in the State;

(ii) progress in achieving State targets for each of the performance measures for the National Highway System; and

(iii) use of the investment strategy documented in the State asset management plan for the National Highway System.

(b) Failure to achieve targets.—A State that does not achieve or make significant progress toward achieving the targets described in subparagraph (A)(ii) and (iii) and the asset management plan described in subparagraph (A)(i) shall, by regulation and in consultation with State departments of transportation, establish the process to develop the State asset management plan for the National Highway System.

(c) Finding.—In section 119(f)(4) of that title, the Secretary shall authorize to obligate, from the amounts apportioned to the State under section 104(b)(1), any amount for bridges on the National Highway System in the State for fiscal year 2009 under the highway bridge program for the purposes described in section 119 of title 23, United States Code, that will contribute to achieving the targets.

SEC. 1107. EMERGENCY RELIEF.

(a) In general.—Subject to the limitations described in paragraph (2), there are authorized to be obligated from the Highway Trust Fund, in the Mass Transit Account such sums as are necessary to establish the fund authorized by this section and to replenish that fund on an annual basis.

(b) Limitations.—The limitations referred to in paragraph (1) are that—

(A) not more than $100,000,000 is authorized to be obligated in any 1 fiscal year commencing after September 30, 2010, to carry out this section, except that, if for any fiscal year the total of all obligations under this section is less than the amount authorized to be obligated for the fiscal year, the unobligated balance of that amount shall—

(1) remain available until expended; and

(B) pending such appropriation or replenishment, the Secretary may obligate any funds appropriated at any time for obligation in accordance with this title, including existing Federal-aid appropriations, for obligation in accordance with this section for each year after the date of enactment of this Act.

(c) Fundings.—

(1) In general.—Subject to the limitations described in paragraph (2), there are authorized to be obligated from the Highway Trust Fund, in the Mass Transit Account such sums as are necessary to establish the fund authorized by this section and to replenish that fund on an annual basis.

(d) Eligibility.—

(1) In general.—The Secretary may expend funds from the emergency fund authorized by this section only for the repair or reconstruction of highways on Federal-aid highways in accordance with this chapter, except that—

(A) no funds shall be so expended unless an emergency has been declared by the Governor of the State with concurrence by the Secretary, unless the President has declared the emergency to be a major disaster for the purposes of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) for which concurrence of the Secretary is not required; and

(B) the Secretary has received an application from the State transportation department that includes a comprehensive list of all eligible project sites and repair costs by the State and biennially thereafter, a State shall submit to the Secretary a report that describes—

(i) the condition and performance of the National Highway System in the State;

(ii) progress in achieving State targets for each of the performance measures for the National Highway System; and

(iii) use of the investment strategy documented in the State asset management plan for the National Highway System.

(b) Failure to achieve targets.—A State that does not achieve or make significant progress toward achieving the targets described in subparagraph (A)(ii) and (iii) and the asset management plan described in subparagraph (A)(i) shall, by regulation and in consultation with State departments of transportation, establish the process to develop the State asset management plan for the National Highway System.

(c) Finding.—In section 119(f)(4) of that title, the Secretary shall authorize to obligate, from the amounts apportioned to the State under section 104(b)(1), any amount for bridges on the National Highway System in the State for fiscal year 2009 under the highway bridge program for the purposes described in section 119 of title 23, United States Code, that will contribute to achieving the targets.

SEC. 1107. EMERGENCY RELIEF.

(a) In general.—Subject to the limitations described in paragraph (2), there are authorized to be obligated from the Highway Trust Fund, in the Mass Transit Account such sums as are necessary to establish the fund authorized by this section and to replenish that fund on an annual basis.

(b) Limitations.—The limitations referred to in paragraph (1) are that—

(A) not more than $100,000,000 is authorized to be obligated in any 1 fiscal year commencing after September 30, 2010, to carry out this section, except that, if for any fiscal year the total of all obligations under this section is less than the amount authorized to be obligated for the fiscal year, the unobligated balance of that amount shall—

(1) remain available until expended; and

(B) pending such appropriation or replenishment, the Secretary may obligate any funds appropriated at any time for obligation in accordance with this title, including existing Federal-aid appropriations, for obligation in accordance with this section for each year after the date of enactment of this Act.

(c) Fundings.—

(1) In general.—Subject to the limitations described in paragraph (2), there are authorized to be obligated from the Highway Trust Fund, in the Mass Transit Account such sums as are necessary to establish the fund authorized by this section and to replenish that fund on an annual basis.

(d) Eligibility.—

(1) In general.—The Secretary may expend funds from the emergency fund authorized by this section only for the repair or reconstruction of highways on Federal-aid highways in accordance with this chapter, except that—

(A) no funds shall be so expended unless an emergency has been declared by the Governor of the State with concurrence by the Secretary, unless the President has declared the emergency to be a major disaster for the purposes of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) for which concurrence of the Secretary is not required; and

(B) the Secretary has received an application from the State transportation department that includes a comprehensive list of all eligible project sites and repair costs by the State and biennially thereafter, a State shall submit to the Secretary a report that describes—

(i) the condition and performance of the National Highway System in the State;

(ii) progress in achieving State targets for each of the performance measures for the National Highway System; and

(iii) use of the investment strategy documented in the State asset management plan for the National Highway System.
except a bridge facility which may be constructed for the type and volume of traffic that the bridge will carry over its design life."

(2) LIMITATION.—The total cost of a project under this section may not exceed the cost of repair or reconstruction of a comparable facility.

(3) DEBRIS REMOVAL.—The costs of debris removal eligible expenditures for events not eligible for assistance pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.).

(4) TERRITORIES.—The total obligations for projects under this section for any fiscal year in the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands shall not exceed $20,000,000.

(5) SUBSTITUTE TRAFFIC.—Notwithstanding the provision of this emergency fund for actual and necessary costs of maintenance and operation of ferryboats or additional transit service providing temporary substitute government service, the service, or the amount of fares charged for comparable service, may be expended from the emergency fund authorized by this section for Federal-aid highways.

(6) TERRITORIAL CONSTRUCTION.—The term "public travel" means, with respect to a road, that, except during scheduled periods, extreme weather conditions, or emergencies, the road is open to the general public for use with a standard passenger vehicle, without restrictive gates or prohibitive signs or regulations, other than for general traffic control or restrictions based on size, weight, or class of registration.

(7) EXPENDITURE OF FUNDS.—Notwithstanding subsection (d)(i), the Secretary may expend funds from the emergency fund authorized by this section, independently or in cooperation with any other branch of the Federal Government, a State agency, a tribal government, or any other entity, for the repair or reconstruction of tribal transportation facilities, Federal lands transportation facilities, and public roads on Federal lands.

(a) IN GENERAL.—Section 133 of title 23, United States Code, is amended to read as follows:

"§ 133. Transportation mobility program

(a) ESTABLISHMENT.—The Secretary shall establish and implement a transportation mobility program under this section.

(b) PURPOSE.—The purpose of the transportation mobility program shall be to assist States and other political subdivisions in improving the conditions and performance on Federal-aid highways and on bridges on any public road.

(c) ELIGIBLE PROJECTS.—Funds appropriated under this section to carry out the transportation mobility program may be obligated for any of the following purposes:

(1) Construction, reconstruction, rehabilitation, resurfacing, restoration, preservation, or operational improvements for highways, including construction of designated routes of the Appalachian development highway system.

(2) Replacement (including replacement with fill material), rehabilitation, preservation, protection (including painting, scour countermeasures, seismic retrofits, impact protection measures, security countermeasures, and protection against extreme events) and additional costs (such as walls, and drainage structures).

(3) Construction of a new bridge or tunnel on a new location on a highway, including the approach necessary to accommodate other transportation modes.

(4) Inspection and evaluation (within the meaning of section 144) of bridges and tunnels on public roads of all functional classifications, including any such construction or reconstruction necessary to accommodate other transportation modes.

(5) Training of bridge and tunnel inspectors (within the meaning of section 144).

(6) Capital projects eligible for assistance under chapter 33 of title 49, including vehicles and facilities, whether publicly or privately owned, that are used to provide public transportation by bus.

(7) Carpool projects, fringe and corridor parking facilities and programs, including electric vehicle infrastructure in accordance with section 179 of the Internal Revenue Code, and pedestrian sidewalks in accordance with section 217, and the modification of public side-walks to comply with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).

(8) Highway and transit safety infrastructure improvements and programs, installation of calming dividers, hazard eliminations, projects to mitigate hazards caused by wildlife, and highway-highway grade crossings.

(9) Highway and transit research and development and technology transfer programs.

(10) Capital and operating costs for traffic and travel demand management, and control facilities and programs, including truck stop electrification systems.

(11) Projects and strategies designed to support congestion pricing, including electronic toll collection and traffic demand management strategies and programs.

(12) Environmental protection measures, security countermeasures, and protection against extreme events, including regulations, on the conditions that:

(A) contributions to those mitigation efforts may—

(i) take place concurrent with or in advance of project construction; and

(ii) occur in advance of project construction if the efforts comply with all applicable requirements of Federal law (including regulations) and State transportation planning processes; and

(B) implementation of a performance-based management, and for similar activities relating to the development and implementation of a performance-based management system.

(13) Transportation enhancement activities.

(14) Recreational trails projects eligible for funding under section 206.

(15) Construction of ferry boats and ferry terminal facilities eligible for funding under section 206.

(16) Border infrastructure projects eligible for funding under section 1303 of the SAFETEA-LU (Public Law 109–59).

(17) Projects associated with National Scenic Byways, All-American Roads, and America’s Byways eligible for funding under section 162.

(18) Truck parking facilities eligible for funding under section 1401 of the MAP-21.

(19) Safe routes to school projects eligible for funding under section 1404 of the SAFETEA-LU (23 U.S.C. 402 note; Public Law 109–59).

(21) Development and implementation of a State asset management plan for the National Highway System in accordance with section 119, including data collection, maintenance, and integration and the costs associated with obtaining, updating, and licensing software and equipment required for real-time asset management, performance-based management, and for similar activities relating to the development and implementation of a performance-based management system ("LayStem" program for other public roads.

(22) In accordance with all applicable Federal law (including regulations), participation in natural habitat and wetlands mitigation efforts relating to projects funded under this title, which may include participation in natural habitat and wetlands mitigation programs, contributions to state and regional efforts to conserve, restore, enhance, and create natural habitats and wetlands, and development of statewide and regional natural habitat and wetlands conservation and mitigation plans, including any such banks, efforts, and plans developed in accordance with applicable Federal law (including regulations), on the conditions that:

(A) contributions to those mitigation efforts may—

(i) take place concurrent with or in advance of project construction; and

(ii) occur in advance of project construction if the efforts comply with all applicable requirements of Federal law (including regulations) and State transportation planning processes; and

(B) implementation of a performance-based management, and for similar activities relating to the development and implementation of a performance-based management system.

(23) In accordance with all applicable Federal law (including regulations), participation in national habitat or wetland mitigation effort relating to a project funded under this title that has an impact that occurs within the service area of a mitigation bank, preference is given, to the maximum extent practicable, to the use of the mitigation bank if the bank contains sufficient available credits to offset the impact and the bank can be approved in accordance with applicable Federal law (including regulations).

(24) Infrastructure-based intelligent transportation systems capital improvements.

(25) Control of noxious weeds and aquatic noxious weeds and establishment of native species in accordance with section 329.

(26) Improvements to a freight railroad, marine highway, or intermodal facility, but only to the extent that the Secretary concurs with the State that—

(A) the project will make significant improvements to freight movements on the national freight network;
"(A) the public road, and the highway project to be carried out with respect to the public road, are in the same corridor as, and in proximity to—

(i) a fully access-controlled highway designated as a part of the National Highway System; or

(ii) in areas with a population less than 200,000, a federal-aid highway designated as part of the Highway System; and

(B) the construction or improvements will enhance the level of service on the highway described in subparagraph (A) and improve regional traffic flow; or

(C) the construction or improvements are more cost-effective, as determined by benefit-cost analysis, than an improvement to the highway described in subparagraph (A).

"(d) ALLOCATIONS OF APPORTIONED FUNDS TO AREAS BASED ON POPULATION.—

(1) CALCULATION.—Of the funds apportioned under section 104(b)(2) for a fiscal year that are not apportioned under subparagraph (B) of section 104(a)(6), 50 percent for a fiscal year shall be obligated under this section, in proportion to their relative shares of the population of the State:

(i) in urbanized areas of the State with an urbanized area population of over 200,000; and

(ii) in areas of the State other than urban areas with a population greater than 5,000; and

(iii) in other areas of the State; and

(B) 50 percent may be obligated in any area of the State.

"(2) METROPOLITAN AREAS.—Funds attributed to an urbanized area under subparagraph (A) may be obligated in the metropolitan area described under section 134 that encompasses the urbanized area.

"(3) DISTRIBUTION AMONG URBANIZED AREAS OF OVER 200,000 POPULATION.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the amount of funds that a State is required to obligate under paragraph (1)(A)(i) shall be obligated in urbanized areas described in paragraph (1)(A)(i) based on the relative population of the areas.

(B) OTHER FACTORS.—The State may obligate the funds described in subparagraph (A) based on factors other than the population if the State and the relevant metropolitan planning organizations jointly apply to the Secretary for the permission to base the obligation on other factors and the Secretary grants the request.

"(e) LOCATION OF PROJECTS.—Except as provided in subsection (g) and for projects described in paragraphs (2), (4), (7), (8), (13), (14), and (19) of section (c), transportation mobility program projects may not be undertaken on roads functionally classified as local or rural by the Federal Highway Administration.

"(f) APPLICABILITY OF PLANNING REQUIREMENTS.—Programming and expenditure of funds for projects under this section shall be consistent with section 133 and 135.

"(g) BRIDGES NOT ON FEDERAL-AID HIGHWAYS.—

"(1) DEFINITION OF OFF-SYSTEM BRIDGE.—The term "off-system bridge" means a highway bridge located on a public road, other than a bridge on a Federal-aid highway.

"(2) SUBMISSION OF PROJECT AGREEMENT.—(A) PENALTY.—If the total deck area of deficient off-system bridges in a State increases for the 2 most recent consecutive years, the State shall be required, during the following fiscal year, to obligate the improvement of deficient off-system bridges from the amounts apportioned under subparagraph (B) on an amount that is not less than 10 percent of the amount of funds required to be obligated by the State for off-system bridges for fiscal year 2009 under section 144(d)(2), in effect before the date of enactment of the MAP-21, except that the amount reserved under this subparagraph shall be increased by 2 percent over the amount reserved in the previous fiscal year for each year after fiscal year 2013.

"(B) RESTORATION.—The obligation requirement for off-system bridges in a State required by subparagraph (A) for a fiscal year shall remain in effect for each subsequent fiscal year until such time as the total deck area of deficient off-system bridges in the State has decreased to the level it was in the State for the fiscal year prior to the establishment of the obligation requirement for the State under subparagraph (A).

"(C) CREDIT FOR BRIDGES NOT ON FEDERAL-AID HIGHWAYS.—Notwithstanding any other provision of law, with respect to any project on a highway other than on a Federal-aid highway for the replacement of a bridge or rehabilitation of a bridge that is wholly funded from State and local sources, is eligible for Federal funds under this section, is certified by the State to have been carried out in accordance with all standards applicable to such projects under this section, and is determined to be the result of voluntary or mandatory completion to be no longer a deficient bridge—

(A) any amount expended after the date of enactment of this subsection from State and local sources for the replacement of a bridge or rehabilitation of a bridge in the State that is wholly funded from State and local sources, is eligible for Federal funds under this section, is certified by the State to have been carried out in accordance with all standards applicable to such projects under this section, and is determined to be the result of voluntary or mandatory completion to be no longer a deficient bridge—

(B) any amount expended after the date of enactment of this subsection from State and local sources for the replacement of a bridge or rehabilitation of a bridge in the State that is wholly funded from State and local sources, is eligible for Federal funds under this section, is certified by the State to have been carried out in accordance with all standards applicable to such projects under this section, and is determined to be the result of voluntary or mandatory completion to be no longer a deficient bridge—

(C) the project provides a better return on the investment than a highway project on a segment of the Federal-aid System.

(D) the project is located within 10 miles of the international border between the United States and Canada or Mexico; and

"(h) ADMINISTRATION.—

(1) SUBMISSION OF PROJECT AGREEMENT.—For each fiscal year, each State shall submit a project agreement that—

(A) certifies that the State will meet all the requirements of this section; and

(B) notifies the Secretary of the amount of obligations needed to carry out the program under this section.

(2) REQUEST FOR JUSTIFICATIONS OF AMOUNTS.—Each State shall request from the Secretary justifications of the amount of obligations referred to in paragraph (1)(B) as the Secretary shall determine to be necessary.

(3) EFFECT OF APPROVAL OF THE SECRETARY.—Approval by the Secretary of a project agreement under paragraph (1) shall be deemed a contractual obligation of the United States to provide transportation mobility program funds made available under this title.

(b) CONFORMING AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by striking the item relating to section 133 and inserting the following:

"133. Transportation mobility program."
The Secretary shall—

(A) conduct a study on the benefits, cost-effectiveness, and feasibility of requiring element-level data to the Secretary, as each bridge is inspected pursuant to this subsection, for all highway bridges and tunnels on the National Highway System.

(B) submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the results of the study.

"(c) BRIDGES WITHOUT TAXING POWERS.—

(1) IN GENERAL.—Before authorizing any other provision of law, any bridge that is owned and operated by an agency that does not have taxing powers and whose functions include operating a federally assisted public transit system subsidized by toll revenues (over and above those required for bridge and transit capital and operating costs) to fund the necessary bridge replacement or rehabilitation project costs pursuant to this subsection shall not exceed the estimated cost of demolition of the historic bridge.

(2) INSUFFICIENT ASSETS.—Before authorizing any other provision of law, any bridge that is not used and is not susceptible to use in the natural condition of the bridge or by reasonable improvement as a means to transport interstate or foreign commerce; and

(3) CREDITING OF NON-FEDERAL FUNDS.—Any non-Federal funds expended for the seismic retrofit of the bridge may be credited toward the non-Federal share required as a condition of receipt of any Federal funds for seismic retrofit of the bridge made available after the date of the expenditure.

"(d) INVENTORY UPDATES AND REPORTS.—

(1) IN GENERAL.—The Secretary shall—

(A) inventory all highway bridges on public roads that are bridges over waterways, other topographical barriers, other highways, and railroads;

(B) classify the bridges according to serviceability, safety, and essentiality for public use, including the potential impacts to emergency evacuation routes and to regional and national freight and passenger mobility if the serviceability of the bridge is restricted or diminished; and

(C) based on that classification, assign each a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.

(2) DETERMINATION OF ELIGIBILITY.—The Secretary shall—

(A) specify, in detail, the method by which the State, locality, or responsible entity shall—

(i) identify and prioritize any bridge that is over waters that—

(A) are not used and are not susceptible to use in the natural condition of the bridge or by reasonable improvement as a means to transport interstate or foreign commerce; and

(B) are—

(i) not tidal; or

(ii) if used only by recreational boating, fishing, and other small vessels that are less than 21 feet in length.

(B) INVENTORY UPDATES AND REPORTS.—

(1) IN GENERAL.—The Secretary shall—

(A) annually revise the inventories authorized by subsection (b); and

(B) submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the inventories.

(2) INSPECTION REPORT.—Not later than 1 year after the date of enactment of the MAP–21, each State and appropriate Federal agency shall report element level data to the Secretary, as each bridge is inspected pursuant to this section, for all highway bridges on the National Highway System.

(3) GUIDANCE.—The Secretary shall provide guidance to States and Federal agencies for implementation of this subsection, while respecting the existing inspection schedule of each State.

(4) BRIDGES NOT ON NATIONAL HIGHWAY SYSTEM.—The Secretary shall—

(A) inventory all highway bridges on public roads that are bridges over waterways, other topographical barriers, other highways, and railroads;

(B) classify the bridges according to serviceability, safety, and essentiality for public use, including the potential impacts to emergency evacuation routes and to regional and national freight and passenger mobility if the serviceability of the bridge is restricted or diminished; and

(C) based on that classification, assign each a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.

(2) DETERMINATION OF ELIGIBILITY.—The Secretary shall—

(A) specify, in detail, the method by which the State, locality, or responsible entity shall—

(i) identify and prioritize any bridge that is over waters that—

(A) are not used and are not susceptible to use in the natural condition of the bridge or by reasonable improvement as a means to transport interstate or foreign commerce; and

(B) are—

(i) not tidal; or

(ii) if used only by recreational boating, fishing, and other small vessels that are less than 21 feet in length.

(C) to use performance-based bridge management systems to assist States in making timely investments;

(D) to ensure accountability and link performance outcomes to investment decisions; and

(E) to ensure connectivity and access for residents of rural areas of the United States through strategic investments in National Highway System bridges and all public roads;

(b) NATIONAL BRIDGE AND TUNNEL INVENTORIES.—

(1) IN GENERAL.—The Secretary, in consultation with the Secretaries of appropriate Federal agencies, shall—

(A) inventory all highway bridges on public roads that are bridges over waterways, other topographical barriers, other highways, and railroads;

(B) classify the bridges according to serviceability, safety, and essentiality for public use, including the potential impacts to emergency evacuation routes and to regional and national freight and passenger mobility if the serviceability of the bridge is restricted or diminished; and

(C) based on that classification, assign each a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.

(2) DETERMINATION OF ELIGIBILITY.—The Secretary shall—

(A) inventory all highway bridges on public roads that are bridges over waterways, other topographical barriers, other highways, and railroads;

(B) classify the bridges according to serviceability, safety, and essentiality for public use, including the potential impacts to emergency evacuation routes and to regional and national freight and passenger mobility if the serviceability of the bridge is restricted or diminished; and

(C) based on that classification, assign each a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.

(2) DETERMINATION OF ELIGIBILITY.—The Secretary shall—

(A) inventory all highway bridges on public roads that are bridges over waterways, other topographical barriers, other highways, and railroads;

(B) classify the bridges according to serviceability, safety, and essentiality for public use, including the potential impacts to emergency evacuation routes and to regional and national freight and passenger mobility if the serviceability of the bridge is restricted or diminished; and

(C) based on that classification, assign each a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.

(2) DETERMINATION OF ELIGIBILITY.—The Secretary shall—

(A) inventory all highway bridges on public roads that are bridges over waterways, other topographical barriers, other highways, and railroads;

(B) classify the bridges according to serviceability, safety, and essentiality for public use, including the potential impacts to emergency evacuation routes and to regional and national freight and passenger mobility if the serviceability of the bridge is restricted or diminished; and

(C) based on that classification, assign each a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.

(2) DETERMINATION OF ELIGIBILITY.—The Secretary shall—

(A) inventory all highway bridges on public roads that are bridges over waterways, other topographical barriers, other highways, and railroads;

(B) classify the bridges according to serviceability, safety, and essentiality for public use, including the potential impacts to emergency evacuation routes and to regional and national freight and passenger mobility if the serviceability of the bridge is restricted or diminished; and

(C) based on that classification, assign each a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.

(2) DETERMINATION OF ELIGIBILITY.—The Secretary shall—

(A) inventory all highway bridges on public roads that are bridges over waterways, other topographical barriers, other highways, and railroads;

(B) classify the bridges according to serviceability, safety, and essentiality for public use, including the potential impacts to emergency evacuation routes and to regional and national freight and passenger mobility if the serviceability of the bridge is restricted or diminished; and

(C) based on that classification, assign each a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.

(2) DETERMINATION OF ELIGIBILITY.—The Secretary shall—

(A) inventory all highway bridges on public roads that are bridges over waterways, other topographical barriers, other highways, and railroads;

(B) classify the bridges according to serviceability, safety, and essentiality for public use, including the potential impacts to emergency evacuation routes and to regional and national freight and passenger mobility if the serviceability of the bridge is restricted or diminished; and

(C) based on that classification, assign each a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.
"(i) written reports on the results of highway bridge and tunnel inspections and notifications of any action taken pursuant to the findings of the inspections; and

(ii) a public database for all highway bridges and tunnels reflecting the findings of the most recent highway bridge and tunnel inspections conducted; and

(2) a program for national certification of highway bridge inspectors and tunnel inspectors.

(3) STATE COMPLIANCE WITH INSPECTION STANDARDS.—The Secretary shall, at a minimum—

(A) establish, in consultation with the States, and interested and knowledgeable private organizations and individuals, procedures to conduct reviews of State compliance with—

(i) the standards established under this subsection; and

(ii) the calculation or reevaluation of bridge load ratings; and

(B) establish, in consultation with the States, and interested and knowledgeable private organizations and individuals, procedures for States to follow in reporting to the Secretary—

(i) critical findings relating to structural or safety-related deficiencies of highway bridges; and

(ii) monitoring activities and corrective actions taken in response to a critical finding.

(4) REVIEWS OF STATE COMPLIANCE.—

(A) IN GENERAL.—The Secretary shall annually review State compliance with the standards established under this section.

(B) NONCOMPLIANCE.—If an annual review in accordance with subparagraph (A) identifies noncompliance by a State, the Secretary shall—

(i) issue a report detailing the issues of the noncompliance by December 31 of the calendar year in which the review was made; and

(ii) provide the State an opportunity to address the noncompliance by—

(I) developing a corrective action plan to remedy the noncompliance; or

(II) resolving the issues of noncompliance not later than 45 days after the date of notification.

(5) PENALTY FOR NONCOMPLIANCE.—

(A) IN GENERAL.—If a State fails to satisfy the requirements of paragraph (B) by August 1 of the calendar year following the year of a finding of noncompliance, the Secretary shall, on October 1 of that year, and each year thereafter as may be necessary, require the State to deduct funds apportioned to the State under sections 119 and 133 after the date of enactment of the MAP–21 to correct the noncompliance with the minimum inspection standards established under this subsection.

(B) AMOUNT.—The amount of the funds to be deducted is—

(i) determined by the State based on an analysis of the actions needed to address the noncompliance; and

(ii) required by the Secretary.

(6) UPDATE OF STANDARDS.—Not later than 3 years after the date of enactment of the MAP–21, the Secretary shall update inspection standards to cover—

(A) the methodology, training, and qualifications for inspectors; and

(B) the frequency of inspection.

(7) RISK-BASED APPROACH.—In carrying out the revisions required by paragraph (6), the Secretary shall consider a risk-based approach to determining the frequency of bridge inspections.

(8) TRAINING PROGRAM FOR BRIDGE AND TUNNEL INSPECTORS.—

(9) INSTALLATION OF A PRIORITY CONTROL SYSTEM FOR EMERGENCY VEHICLES AT SIGNALIZED INTERSECTIONS.

(10) INSTALLATION OF A SAFETY PROTECTION UNDER ANY OTHER SECTION.—

(A) IN GENERAL.—The term ‘safety project under any other section’ means a project carried out for the purpose of safety under any other section of this title.

(B) INCLUSION.—The term ‘safety project under any other section’ includes, in the case of a railway-highway crossing, the characteristics of highway and train traffic, licensing, and vehicle data.
(ii) a project to enforce highway safety laws; and

(iii) a project to provide infrastructure and infrastructure-related equipment to support emergency services.

(11) STATE HIGHWAY SAFETY IMPROVEMENT PROGRAM.—The term ‘state highway safety improvement program’ means a program of highway safety improvement projects, activities, plans and reports carried out as part of the State transportation improvement program under section 135(g).

(12) STATE STRATEGIC HIGHWAY SAFETY PLAN.—The term ‘State strategic highway safety plan’ means a comprehensive plan, based on safety data, developed by a State transportation department that:

(A) is developed after consultation with—

(i) a highway safety representative of the Governor of the State;

(ii) regional transportation planning organizations and metropolitan planning organizations, if any;

(iii) representatives of major modes of transportation;

(iv) State and local traffic enforcement officials;

(v) a highway-rail grade crossing safety representative of the Governor of the State;

(vi) representatives conducting a motor carrier safety program under section 31106, 31309 of title 49;

(viii) the Governor of the State or a responsible State agency;

(B) includes all public roads, including non-State-owned public roads and roads on tribal land;

(C) considers the results of State, regional, or local transportation and highway safety planning processes;

(D) describes a program of strategies to reduce traffic safety hazards; and

(E) is approved by the Governor of the State or a responsible State agency.

(13) SYSTEMIC SAFETY IMPROVEMENT.—The term ‘systemic safety improvement’ means an improvement that is widely implemented based on high-risk roadway features that are an improvement that is widely implemented in a manner that—

(i) achieves a significant reduction in traffic fatalities, serious injuries, fatalities, and traffic volume levels; and

(ii) is an improvement that is widely implemented in a manner that—

(A) identifies hazardous locations, sections, and elements (including roadside obstacles, railway-highway crossing needs, and unmarked or poorly marked roads) that constitute a danger to motorists (including motorcyclists), bicyclists, pedestrians, and other highway users;

(B) identifies and analyzes highway safety problems and opportunities as provided in subsections (a)(12) and (d);

(C) produces a program of projects or strategies to reduce identified safety problems and opportunities as provided in subsection (d)(1) to ensure the accuracy of the data and priority of proposed strategies.

(14) IDENTIFICATION AND ANALYSIS OF HIGHWAY SAFETY PROBLEMS AND OPPORTUNITIES.—As part of the State highway safety improvement program, a State shall—

(A) have in place a comprehensive safety data system with the ability to perform safety problem identification and countermeasure analysis;

(B) improve the timeliness, accuracy, completeness, uniformity, integration, and accessibility of the safety data on all public roads, including non-State-owned public roads and roads on tribal land in the State;

(C) employ the information obtained under section 31102, 31309 of title 49;

(D) address engineering, management, operation, education, enforcement, and emergency services elements (including integrating emergency communications) of highway safety as key factors in evaluating highway projects;

(E) carry out a highway safety improvement project.

(15) STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM.—The term ‘Statewide transportation improvement program’ means a program of strategies to reduce traffic safety hazards; and

3.2 (g) (i) (A) PURPOSE.—The purpose of the highway safety improvement program shall be to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal land.

(ii) the locations of fatalities and serious injuries; and

(v) a highway-rail grade crossing safety representative of the Governor of the State;

(vi) representatives conducting a motor carrier safety program under section 31106, 31309 of title 49;

(vii) the Governor of the State or a responsible State agency;

(viii) the Governor of the State or a responsible State agency;

(B) includes all public roads, including non-State-owned public roads and roads on tribal land;

(C) considers the results of State, regional, or local transportation and highway safety planning processes;

(D) describes a program of strategies to reduce traffic safety hazards; and

(E) is approved by the Governor of the State or a responsible State agency.

(12) STATE STRATEGIC HIGHWAY SAFETY PLAN.—The term ‘State strategic highway safety plan’ means a comprehensive plan, based on safety data, developed by a State transportation department that:

(A) is developed after consultation with—

(i) a highway safety representative of the Governor of the State;

(ii) regional transportation planning organizations and metropolitan planning organizations, if any;

(iii) representatives of major modes of transportation;

(iv) State and local traffic enforcement officials;

(v) a highway-rail grade crossing safety representative of the Governor of the State;

(vi) representatives conducting a motor carrier safety program under section 31106, 31309 of title 49;

(B) includes all public roads, including non-State-owned public roads and roads on tribal land;

(C) considers the results of State, regional, or local transportation and highway safety planning processes;

(D) describes a program of strategies to reduce traffic safety hazards; and

(E) is approved by the Governor of the State or a responsible State agency.

(13) SYSTEMIC SAFETY IMPROVEMENT.—The term ‘systemic safety improvement’ means an improvement that is widely implemented based on high-risk roadway features that are an improvement that is widely implemented in a manner that—

(i) achieves a significant reduction in traffic fatalities, serious injuries, fatalities, and traffic volume levels; and

(ii) is an improvement that is widely implemented in a manner that—

(A) identifies hazardous locations, sections, and elements (including roadside obstacles, railway-highway crossing needs, and unmarked or poorly marked roads) that constitute a danger to motorists (including motorcyclists), bicyclists, pedestrians, and other highway users;

(B) identifies and analyzes highway safety problems and opportunities as provided in subsections (a)(12) and (d);

(C) produces a program of projects or strategies to reduce identified safety problems and opportunities as provided in subsection (d)(1) to ensure the accuracy of the data and priority of proposed strategies.

(14) IDENTIFICATION AND ANALYSIS OF HIGHWAY SAFETY PROBLEMS AND OPPORTUNITIES.—As part of the State highway safety improvement program, a State shall—

(A) have in place a comprehensive safety data system with the ability to perform safety problem identification and countermeasure analysis;

(B) improve the timeliness, accuracy, completeness, uniformity, integration, and accessibility of the safety data on all public roads, including non-State-owned public roads and roads on tribal land in the State;

(C) employ the information obtained under section 31102, 31309 of title 49;

(D) address engineering, management, operation, education, enforcement, and emergency services elements (including integrating emergency communications) of highway safety as key factors in evaluating highway projects;

(E) carry out a highway safety improvement project.

(15) STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM.—The term ‘Statewide transportation improvement program’ means a program of strategies to reduce traffic safety hazards; and

3.2 (g) (i) (A) PURPOSE.—The purpose of the highway safety improvement program shall be to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal land.
fiscal year beginning after the date of establishment of the requirements under paragraph (1)—

"(A) the State shall not be eligible to receive the limitation pursuant to the redistribution of the limitation on obligations for Federal-aid highway and highway safety construction programs that occurs after October 1, 2013, for the fiscal year for which the plan is approved; and

"(B) the Secretary shall, on October 1 of each fiscal year thereafter, transfer from funds apportioned to the State under section 104(b)(2) an amount equal to 10 percent of the funds apportioned to the State under section 104(b)(3) for the fiscal year for use under the high-vehicle mile traveled;

"(A) the number of serious injuries and fatalities per mile mile traveled;

"(B) serious injuries and fatalities per capita; and

"(C) the number of serious injuries and fatalities.

"(2) ESTABLISHMENT OF STATE PERFORMANCE TARGETS.—If the Secretary has issued guidance to States on the establishment, collection, and reporting of performance measures, each State shall report to the Secretary a report that—

"(A) the number of fatalities at all public roads with, to the maximum extent practicable, a breakdown by functional classification and ownership in the State; and

"(B) the number of serious injuries and fatalities at railroad-highway crossings.

"(3) TRANSPARENCY.—The Secretary shall make strategic highway safety plans submissions of the report under subsection (d) and reports submitted under this subsection available to the public through—

"(A) the website of the Department; and

"(B) such other means as the Secretary determines to be appropriate.

"(4) DISCOVERY AND ADMISSION INTO EVIDENCE OF CERTAIN REPORTS, SURVEYS, AND INFORMATION.—Notwithstanding any other provision of law, reports, surveys, schedules, lists, or data compiled or collected for any purpose relating to this section, shall not be subject to discovery or admitted into evidence in a Federal or State court proceedings or considered for other purposes in any action for damages arising from any occurrence at a location identified in the reports, surveys, schedules, lists, or other data.

"(5) STATE PERFORMANCE TARGETS.—If the Secretary determines that a State has not met or made significant progress toward meeting the performance targets of the State established under subsection (b) by the date that is 2 years after the date of the establishment of the performance targets, the State shall—

"(A) the Secretary a report that—

"(i) describes the extent to which the improvements funded under this section have contributed to reducing—

"(A) not less than 8 percent of the funds apportioned for the fiscal year for use under the highway safety improvement program under this section to the apportionment of the State under section 104(b)(3) until the fiscal year in which the plan is approved;

"(B) as provided in subsection (f), other safety projects.

"(2) OTHER FUNDING FOR SAFETY.—

"(A) EFFECT OF SECTION.—Nothing in this section prohibits the use of funds made available under other provisions of this title for highway safety and transportation improvement activities.

"(B) USE OF OTHER FUNDS.—States are encouraged to address the full scope of the safety needs and opportunities of the States by using funds made available under other provisions of this title (except a provision that specifically prohibits that use).

"(1) FLEXIBLE FUNDING FOR STATES WITH A STRATEGIC SAFETY PLAN.—

"(1) IN GENERAL.—To further the implementation of a State strategic highway safety plan, a State may use up to 10 percent of the amount of funds apportioned to the State under section 104(b)(3) for a fiscal year to carry out safety projects under any other section as provided in the State strategic highway safety plan if the State certifies that—

"(A) the State has met needs in the State relating to railroad-highway crossings for the process or program in effect on the date of enactment of the MAP–21; and

"(B) the funds are being used for the most effective projects to make progress toward achieving the safety performance targets of the State.

"(2) RAIL-HIGHWAY GRADE CROSSINGS.—If the fatality rate on rural roads in a State increases over the most recent 2-year period for which such data are available, the State shall be required to obligate in the next fiscal year for projects on rail-highway grade crossings an amount equal to 120 percent of the amount of funds the State received for fiscal year 2009 for high-risk rural roads under section 130(f) (as in effect on the day before the date of enactment of the MAP–21).

"(2) REPORTS.—

"(1) IN GENERAL.—A State shall submit to the Secretary a report that—

"(A) describes the progress being made to achieve the performance targets established under subsection (b); and

"(B) describes progress being made to implement highway safety improvement projects under this section;

"(C) assesses the effectiveness of those improvements; and

"(D) describes the extent to which the improvements funded under this section have contributed to reducing—

"(i) the number and rate of fatalities on all public roads with, to the maximum extent practicable, a breakdown by functional classification and ownership in the State; and

"(ii) the number and rate of serious injuries on all public roads with, to the maximum extent practicable, a breakdown by functional classification and ownership in the State; and

"(iii) the fatality rate at highway grade crossings in a State over the most recent 2-year period for which data are available increases over the average number of fatalities during the preceding 2-year period, that State shall be required to obligate in the next fiscal year for projects on rail-highway grade crossings an amount equal to 120 percent of the amount of funds the State received for fiscal year 2009 for high-risk crossings issued on the basis of crash experiences, crash potential, or other data-supported means;
"(C) describes how highway safety improvement program funds will be allocated, including projects, activities, and strategies to be implemented; 

"(D) details how the proposed projects, activities, and strategies funded under the State highway safety improvement program will allow the State to make progress toward achieving the safety performance targets of the State; and 

"(E) describes the actions the State will undertake to meet the performance targets of the State highway safety improvement program.

(1) FEDERAL SHARE OF HIGHWAY SAFETY IMPROVEMENT PROJECTS.—Except as provided in subsections (A) and (B), the Federal share of the cost of a safety improvement project carried out with funds apportioned to a State under section 104(b)(3) shall be 90 percent.

SEC. 1132. CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.

Section 149 of title 23, United States Code, is amended to read as follows:

"(a) ESTABLISHMENT.—The Secretary shall establish and implement a congestion mitigation and air quality improvement program in accordance with this section.

"(b) ELIGIBLE PROJECTS.—

"(1) IN GENERAL.—Except as provided in subsection (c), a project or program is eligible for assistance under this section if the project or program is—

"(II) for a nonattainment area under section 707(d) of the Clean Air Act (42 U.S.C. 7407(d)) and classified pursuant to section 181(a), 186(a), 188(a), or 188(b) of the Clean Air Act (42 U.S.C. 7511(a), 7512(a), 7513(a), or 7513(b)) or is or was designated as a nonattainment area under section 107(d) of that Act after December 31, 1997, or is required to prepare, and file with the Administrator of the Environmental Protection Agency, maintenance plans under the Clean Air Act (42 U.S.C. 7401 et seq.); and

"(aa) the purchase of nonattainment or maintenance area vehicles for ozone, PM_{10}, or PM_{2.5} (as defined under the Clean Air Act (42 U.S.C. 7401 et seq.));

"(bb) funded, in whole or in part, under this title; or

"(ii) the conduct of outreach activities that are designed to provide information and technical assistance to the owners and operators of diesel equipment and vehicles regarding the purchase and installation of diesel retrofits.

"(2) LIMITATIONS.—Funds apportioned to a State under section 104(b)(3) and not reserved under subsection (1) may not be obligated for a project that will result in the construction of new capacity available to single-occupant vehicles, or projects that are designed to provide information and technical assistance to the owners and operators of diesel equipment and vehicles regarding the purchase and installation of diesel retrofits.

"(B) any other form of participation approved by the Secretary.

"(C) STATES FLEXIBILITY.—

"(1) STATES WITHOUT A NONATTAINMENT AREA.—If a State does not have, and never has had, a nonattainment area designated under the Clean Air Act (42 U.S.C. 7401 et seq.) for ozone, carbon monoxide, or PM_{10}, the State may use funds apportioned to the State under section 104(b)(4) (excluding the amount of funds reserved under subsection (1) for any project in the State that—

"(A) provides public transportation services under subsection (b) as if the project were carried out in a nonattainment or maintenance area; or

"(B) is eligible under the transportation mobility program under section 133.

"(2) STATES WITH A NONATTAINMENT AREA.—

"(A) IN GENERAL.—If a State has a nonattainment area or maintenance area that received funds in fiscal year 2009 under section 104(b)(2)(D), as in effect on the day before the date of enactment of the MAP-21, the amount of funds reserved under section 133 an amount of funds apportioned to such State under section 104(b)(4) (excluding the amount of funds reserved under subsection (1) that is available after multiplying—

"(i) the apportioned amount under paragraph (B) (the amount apportioned to such State under section 104(b)(4) (excluding the amount of funds reserved under subsection (1))); by

"(ii) the ratio calculated under paragraph (B); by

"(B) RATIO.—For purposes of this paragraph, the ratio shall be calculated as—

"(i) the amount for fiscal year 2009 such State was permitted by section 149(c)(2), as in effect on the day before the date of enactment of the MAP-21, to obligate in any area of the State for projects eligible under section 133 in which the project would cause a change in the attainment status of the State; and

"(ii) the total apportionment to such State for fiscal year 2009 under section 104(b)(2), as in effect on the day before the date of enactment of the MAP-21.

"(3) CHANGES IN DESIGNATION.—If a new nonattainment area is designated or a previously designated nonattainment area is re-designated as an attainment area under the Clean Air Act (42 U.S.C. 7401 et seq.), the Secretary shall modify the amount such State is permitted to obligate in any area of the State for projects eligible under section 133.

"(4) APPLICABILITY OF PLANNING REQUIREMENTS.—Programming and expenditure of funds for projects under this section shall be consistent with the requirements of sections 134 and 135.

"(5) PARTNERSHIPS WITH NONGOVERNMENTAL ENTITIES.—

"(i) IN GENERAL.—Notwithstanding any other provision of this section, in accord- ance with this subsection, a metropolitan planning organization, State transportation department, or other project sponsor may enter into an agreement with a public, private, or nonprofit entity to cooperatively implement any project carried out with funds apportioned under section 104(b)(4).

"(ii) FORMS OF PARTICIPATION BY ENTITIES.—Participation by an entity under paragraph (1) may consist of—

"(A) ownership or operation of any land, facility, or equipment, or any physical asset associated with the project;

"(B) cost sharing of any project expense;

"(C) carrying out of administration, construction management, project operation, or any other management or operational duty associated with the project; and

"(D) any other form of participation approved by the Secretary.

"(iii) ALLOCATION TO ENTITIES.—A State may allocate funds apportioned under section 104(b)(4) to an entity described in paragraph (1).
"(a) may include the costs of vehicle refueling infrastructure, including infrastructure that would support the development, production, and use of emerging technologies that reduce the amount of air pollution from motor vehicles, and other capital investments associated with the project; and

(b) shall include only the incremental cost of a fueled vehicle comparred to a conventionally fueled vehicle, that would otherwise be driven by a private party; and

(c) shall apply other governmental financial purchase contributions in the calculation of net incremental cost.

(i) PROHIBITION ON FEDERAL PARTICIPATION WITH REQUIRED ACTIVITIES.—A Federal participation payment under this subsection may not be made to an entity to fund an obligation imposed under the Clean Air Act (42 U.S.C. 7401 et seq.) or any other Federal law.

(ii) PRIORITY CONSIDERATION.—States and metropolitan planning organizations shall give priority in areas designated as nonattainment or maintenance for PM\textsubscript{2.5} under the Clean Air Act (42 U.S.C. 7401 et seq.) in distributing funds received for congestion mitigation and air quality projects and programs from apportionments under section 104(b)(4) not required to be reserved under subsection (d) (excluding the amount of funds reserved under subsection (d) for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(b) DISTRIBUTION OF FUNDS.—The distribution within any State of funds required to be apportioned under paragraph (1) to each nonattainment or maintenance area shall be in accordance with a formula developed by each State and approved by the Secretary, which shall consider the population of each such nonattainment or maintenance area and shall be weighted by the severity of pollution in the manner described in paragraph (6).

(c) PROJECT SELECTION.—Projects under this subsection shall be selected by a State and shall be consistent with the requirements of sections 134 and 135.

(d) PRIORITY FOR USE OF SUBALLOCATED FUNDS IN PM\textsubscript{2.5} AREAS.—

(A) IN GENERAL.—An amount equal to 50 percent of the obligations of each program under part D of title I of the Clean Air Act (42 U.S.C. 7511 et seq.) for projects that reduce such fine particulate matter emissions in such area, including diesel retrofits.

(B) FACTORS FOR CALCULATION OF SUBALLOCATED FUNDS IN PM\textsubscript{2.5} AREAS.—

(1) IN GENERAL.—An amount equal to 50 percent of the obligations of each program under part D of title I of the Clean Air Act (42 U.S.C. 7511 et seq.) for projects that reduce such fine particulate matter emissions in such area, including diesel retrofits.

(2) COST EFFECTIVENESS.—

(A) IN GENERAL.—At the discretion of a metropolitan planning organization, a technical assessment of a selected program of projects may be conducted through modeling or other means to demonstrate the emissions reduction projection required under this section.

(B) APPLICATION.—If an assessment described in paragraph (1) successfully demonstrates an emissions reduction, all projects included in such assessment shall be eligible for funding under this section, without further demonstration of emissions reduction of individual projects included in such assessment.

(2) SURFACE TRANSPORTATION TO NONATTAINMENT AND MAINTENANCE AREAS.—

(A) IN GENERAL.—An amount equal to 50 percent of the amount of funds apportioned under paragraph (1) to each nonattainment or maintenance area shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(B) CONTENTS.—The table described in subsection (b) shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(C) USE OF TABLE.—States and metropolitan planning organizations shall consider the information in the table when selecting projects for purposes of calculating performance plans under subsection (k).

(D) PROHIBITION.—If an assessment described in paragraph (1) successfully demonstrates an emissions reduction, all projects included in such assessment shall be eligible for funding under this section, without further demonstration of emissions reduction of individual projects included in such assessment.

(i) IN GENERAL.—An amount equal to 50 percent of the amount of funds apportioned under paragraph (1) to each nonattainment or maintenance area shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(ii) DISTRIBUTION OF FUNDS.—The distribution within any State of funds required to be apportioned under paragraph (1) to each nonattainment or maintenance area shall be in accordance with a formula developed by each State and approved by the Secretary, which shall consider the population of each such nonattainment or maintenance area and shall be weighted by the severity of pollution in the manner described in paragraph (6).

(iii) PROJECT SELECTION.—Projects under this subsection shall be selected by a State and shall be consistent with the requirements of sections 134 and 135.

(iv) PRIORITY FOR USE OF SUBALLOCATED FUNDS IN PM\textsubscript{2.5} AREAS.—

(A) IN GENERAL.—An amount equal to 50 percent of the obligations of each program under part D of title I of the Clean Air Act (42 U.S.C. 7511 et seq.) for projects that reduce such fine particulate matter emissions in such area, including diesel retrofits.

(B) FACTORS FOR CALCULATION OF SUBALLOCATED FUNDS IN PM\textsubscript{2.5} AREAS.—

(1) IN GENERAL.—At the discretion of a metropolitan planning organization, a technical assessment of a selected program of projects may be conducted through modeling or other means to demonstrate the emissions reduction projection required under this section.

(2) COST EFFECTIVENESS.—

(A) IN GENERAL.—At the discretion of a metropolitan planning organization, a technical assessment of a selected program of projects may be conducted through modeling or other means to demonstrate the emissions reduction projection required under this section.

(B) APPLICATION.—If an assessment described in paragraph (1) successfully demonstrates an emissions reduction, all projects included in such assessment shall be eligible for funding under this section, without further demonstration of emissions reduction of individual projects included in such assessment.

(2) SURFACE TRANSPORTATION TO NONATTAINMENT AND MAINTENANCE AREAS.—

(A) IN GENERAL.—An amount equal to 50 percent of the amount of funds apportioned under paragraph (1) to each nonattainment or maintenance area shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(B) CONTENTS.—The table described in subsection (b) shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(C) USE OF TABLE.—States and metropolitan planning organizations shall consider the information in the table when selecting projects for purposes of calculating performance plans under subsection (k).

(D) PROHIBITION.—If an assessment described in paragraph (1) successfully demonstrates an emissions reduction, all projects included in such assessment shall be eligible for funding under this section, without further demonstration of emissions reduction of individual projects included in such assessment.

(i) IN GENERAL.—An amount equal to 50 percent of the amount of funds apportioned under paragraph (1) to each nonattainment or maintenance area shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(ii) DISTRIBUTION OF FUNDS.—The distribution within any State of funds required to be apportioned under paragraph (1) to each nonattainment or maintenance area shall be in accordance with a formula developed by each State and approved by the Secretary, which shall consider the population of each such nonattainment or maintenance area and shall be weighted by the severity of pollution in the manner described in paragraph (6).

(iii) PROJECT SELECTION.—Projects under this subsection shall be selected by a State and shall be consistent with the requirements of sections 134 and 135.

(iv) PRIORITY FOR USE OF SUBALLOCATED FUNDS IN PM\textsubscript{2.5} AREAS.—

(A) IN GENERAL.—An amount equal to 50 percent of the obligations of each program under part D of title I of the Clean Air Act (42 U.S.C. 7511 et seq.) for projects that reduce such fine particulate matter emissions in such area, including diesel retrofits.

(B) FACTORS FOR CALCULATION OF SUBALLOCATED FUNDS IN PM\textsubscript{2.5} AREAS.—

(1) IN GENERAL.—At the discretion of a metropolitan planning organization, a technical assessment of a selected program of projects may be conducted through modeling or other means to demonstrate the emissions reduction projection required under this section.

(2) COST EFFECTIVENESS.—

(A) IN GENERAL.—At the discretion of a metropolitan planning organization, a technical assessment of a selected program of projects may be conducted through modeling or other means to demonstrate the emissions reduction projection required under this section.

(B) APPLICATION.—If an assessment described in paragraph (1) successfully demonstrates an emissions reduction, all projects included in such assessment shall be eligible for funding under this section, without further demonstration of emissions reduction of individual projects included in such assessment.

(2) SURFACE TRANSPORTATION TO NONATTAINMENT AND MAINTENANCE AREAS.—

(A) IN GENERAL.—An amount equal to 50 percent of the amount of funds apportioned under paragraph (1) to each nonattainment or maintenance area shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(B) CONTENTS.—The table described in subsection (b) shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(C) USE OF TABLE.—States and metropolitan planning organizations shall consider the information in the table when selecting projects for purposes of calculating performance plans under subsection (k).

(D) PROHIBITION.—If an assessment described in paragraph (1) successfully demonstrates an emissions reduction, all projects included in such assessment shall be eligible for funding under this section, without further demonstration of emissions reduction of individual projects included in such assessment.

(i) IN GENERAL.—An amount equal to 50 percent of the amount of funds apportioned under paragraph (1) to each nonattainment or maintenance area shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(ii) DISTRIBUTION OF FUNDS.—The distribution within any State of funds required to be apportioned under paragraph (1) to each nonattainment or maintenance area shall be in accordance with a formula developed by each State and approved by the Secretary, which shall consider the population of each such nonattainment or maintenance area and shall be weighted by the severity of pollution in the manner described in paragraph (6).

(iii) PROJECT SELECTION.—Projects under this subsection shall be selected by a State and shall be consistent with the requirements of sections 134 and 135.

(iv) PRIORITY FOR USE OF SUBALLOCATED FUNDS IN PM\textsubscript{2.5} AREAS.—

(A) IN GENERAL.—An amount equal to 50 percent of the obligations of each program under part D of title I of the Clean Air Act (42 U.S.C. 7511 et seq.) for projects that reduce such fine particulate matter emissions in such area, including diesel retrofits.

(B) FACTORS FOR CALCULATION OF SUBALLOCATED FUNDS IN PM\textsubscript{2.5} AREAS.—

(1) IN GENERAL.—At the discretion of a metropolitan planning organization, a technical assessment of a selected program of projects may be conducted through modeling or other means to demonstrate the emissions reduction projection required under this section.

(2) COST EFFECTIVENESS.—

(A) IN GENERAL.—At the discretion of a metropolitan planning organization, a technical assessment of a selected program of projects may be conducted through modeling or other means to demonstrate the emissions reduction projection required under this section.

(B) APPLICATION.—If an assessment described in paragraph (1) successfully demonstrates an emissions reduction, all projects included in such assessment shall be eligible for funding under this section, without further demonstration of emissions reduction of individual projects included in such assessment.

(2) SURFACE TRANSPORTATION TO NONATTAINMENT AND MAINTENANCE AREAS.—

(A) IN GENERAL.—An amount equal to 50 percent of the amount of funds apportioned under paragraph (1) to each nonattainment or maintenance area shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(B) CONTENTS.—The table described in subsection (b) shall be suballocated for projects within each area designated as nonattainment or maintenance for the pollutants described in subsection (b).

(C) USE OF TABLE.—States and metropolitan planning organizations shall consider the information in the table when selecting projects for purposes of calculating performance plans under subsection (k).

(D) PROHIBITION.—If an assessment described in paragraph (1) successfully demonstrates an emissions reduction, all projects included in such assessment shall be eligible for funding under this section, without further demonstration of emissions reduction of individual projects included in such assessment.
“C) includes a description of projects identified for funding under this section and a description of how such projects will contribute to achieving emission and traffic congestion reduction benefits.

“(2) UPDATED PLANS.—

“(A) IN GENERAL.—Performance plans shall be updated on the schedule required under paragraph (1).

“(B) CONTENTS.—An updated plan shall include a separate report that assesses the progress of the program of projects under the previous plan, in achieving the air quality and traffic congestion targets of the previous plan.

“(3) RULEMAKING.—Not later than 18 months after the date of enactment of the MAP-21, the Secretary shall promulgate regulations to implement this subsection that identify performance measures for traffic congestion and on-road mobile source emissions, timelines for performance plans, and requirements under this section for assessing the implementation of projects carried out under this section.

“(1) ADDITIONAL ACTIVITIES.—

“(A) RESERVATION OF FUNDS.—Of the funds apportioned to a State under section 104(b)(4), a State shall reserve the amount of funds necessary to the inclusion of the 10 percent of surface transportation program funds apportioned to such State for fiscal year 2010 under section 104(b)(4) for projects under this subsection.

“(2) ELIGIBLE PROJECTS.—A State may obligate the funds reserved under this subsection for any of the following projects or activities:

“(A) Transportation enhancements, as defined in section 101.

“(B) The recreational trails program under section 206.

“(C) The safe routes to school program under section 1604 of the SAFETEA-LU (23 U.S.C. 409 notes).

“(D) Planning, designing, or constructing boulevards, main streets, and other roadways, including—

“(i) new street construction that enhances multimodal connectivity and includes public transportation, pedestrian walkways, or bicycle infrastructure;

“(ii) redesign of an underused highway, particularly a highway that is no longer a principal route after construction of a bypass or Interstate System route, into a boulevard or main street that includes multiple forms of transportation; and

“(iii) redesign of a street to enhance connectivity and increase the efficiency of network performance that includes public transportation, pedestrian walkways, or bicycle infrastructure; or

“(iv) redesign of a highway to support public transportation, including transit-only lanes and priority signalization for transit; or

“(v) construction of high-occupancy vehicle lanes to enhance reduction activities that increase the efficiency of the existing road network.

“(E) Providing transportation choices, including—

“(i) on-road and off-road trail facilities for pedestrians, bicyclists, and other non-motorized forms of transportation, including sidewalks, bicycle infrastructure, pedestrian and bicycle signals, traffic calming techniques, lighting, and other safety-related infrastructure, and transportation projects to achieve compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.); and

“(ii) the planning, design, and construction of improved projects and activities that will provide safe routes for non-drivers, including children, older adults, and individuals with disabilities, to access daily needs;

“(iii) activities for safety and education for pedestrians and bicyclists and to encourage walking and bicycling to schools and community centers;

“(iv) conversion and use of abandoned railroad rights-of-way, bicycle, or other non-motorized transportation users; and

“(v) carpool, vanpool, and car share projects.

“(F) Planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divisions of the Interstate System route, into a boulevard or main street that includes multiple forms of transportation, pedestrian walkways, or bicycle infrastructure; and

“(G) The safe routes to school program under section 1604 of the SAFETEA-LU (23 U.S.C. 409 notes).

“(B) CONTENTS.—An updated plan shall include—

“(A) a description of projects identified for funding under this section and a description of how such projects will contribute to achieving emission and traffic congestion reduction benefits.

“(B) PERFORMANCE PLANS.—Performance plans shall be updated on the schedule required under paragraphs (2) and (3) of section 104(b) for projects under this section.

“(1) UPDATE OF PERFORMANCE PLANS.—

“(A) IN GENERAL.—Performance plans shall be updated on the schedule required under paragraph (1).

“(B) CONTENTS.—An updated plan shall include a separate report that assesses the progress of the program of projects under the previous plan, in achieving the air quality and traffic congestion targets of the previous plan.

“(2) EFFECT ON APPORTIONMENTS.—Except as otherwise specifically provided, Puerto Rico shall not be eligible to receive funds apportioned to States under this title.

“(C) ELIGIBLE USES OF FUNDS.—Of amounts allocated to Puerto Rico for the Puerto Rico Highway Program for a fiscal year—

“(i) at least 50 percent shall be available only for projects eligible under section 110;

“(ii) at least 25 percent shall be available only for purposes eligible under section 148; and

“(iii) any remaining funds may be obligated for activities eligible under chapter 1.

“(3) EFFECT ON APPORTIONMENTS.—Except as otherwise specifically provided, Puerto Rico shall not be eligible to receive funds apportioned to States under this title.

“(C) TERRITORIAL HIGHWAY PROGRAM.—

“(1) TERRITORY DEFINED.—In this subsection, the term ‘territory’ means any of the following territories of the United States:

“(A) American Samoa.

“(B) The Commonwealth of the Northern Mariana Islands.

“(C) Guam.

“(D) The United States Virgin Islands.

“(2) PROGRAM.—

“(A) IN GENERAL.—Recognizing the mutual benefits that will accrue to the territories and the United States from the improvement of highways in the territories, the Secretary may carry out a program to assist each government of a territory in the construction and improvement of a system of arterial and collector highways, and necessary inter-island connectors, that—

“(i) is designated by the Governor or chief executive officer of each territory; and

“(ii) is approved by the Secretary.

“(B) FEDERAL SHARE.—The Federal share of Federal financial assistance provided to territories under this subsection shall be in accordance with section 120(g).

“(C) TECHNICAL ASSISTANCE.—

“(1) IN GENERAL.—The Secretary may provide technical assistance to the governments of the territories to enable the territories, on a continuing basis—

“(i) to engage in highway planning;

“(ii) to conduct environmental evaluations;

“(iii) to administer right-of-way acquisition and relocation assistance programs; and

“(iv) to design, construct, operate, and maintain a system of arterial and collector highways, including necessary inter-island connectors.

“(C) FORM AND TERMS OF ASSISTANCE.—

“(1) TECHNICAL ASSISTANCE.—Technical assistance provided under subparagraph (A) and the terms for the sharing of information among territories receiving the technical assistance shall be in accordance with the agreement required by paragraph (3) and the terms for the sharing of information among territories receiving the technical assistance shall be included in the agreement required by paragraph (B).

“(2) NONAPPLICABILITY OF CERTAIN PROVISIONS.—

“(A) IN GENERAL.—Except to the extent that provisions of this chapter are determined by the Secretary to be inconsistent with the needs of the territories and the intent of this subsection, this chapter (other
than provisions of this chapter relating to the apportionment and allocation of funds shall apply to funds made available under this subsection.

**Note:** This section likely requires a detailed explanation or context not provided in the given text.

**5 AGREEMENT.**—

**(A) IN GENERAL.**—Except as provided in subparagraph (b), none of the funds made available under this subsection shall be available for obligation or expenditure with respect to any territory until the Chief Executive Officer of that territory has entered into an agreement with the Secretary including an agreement entered into under section 215 as in effect on the day before the enactment of this section.

**(B) CONFORMING AMENDMENTS.**—

**(1) CLERICAL AMENDMENT.**—The analyses for chapter 1 of title 23, United States Code, is amended by inserting the following:

```
165. Territorial and Puerto Rico highway program.
```

**(2) ORSÓLETTI AMENDMENT.**—Section 215 of that title, and the item relating to that section in the analysis in chapter 2, are repealed.

**SEC. 1115. NATIONAL FREIGHT PROGRAM.**—

**(A) IN GENERAL.**—Chapter 1 of title 23, United States Code, is amended by adding at the end the following:

```
§ 167. National freight program.

(a) NATIONAL FREIGHT PROGRAM. —It is the policy of the United States to improve the condition and performance of the national freight network to ensure that the national freight network provides the foundation for the efficient movement of freight and people, contributes to the economic efficiency of the United States, and supports the health and well-being of the people. 

(b) GOALS.—The goals of the national freight program are—

(1) to improve the efficiency of freight movement on the national freight network;

(2) to improve the safety, security, and resilience of freight transportation;

(3) to improve the state of good repair of the national freight network;

(4) to improve the efficiency and capacity of the national freight network;

(5) to incorporate concepts of performance, innovation, and accountability into the operation and maintenance of the national freight network; and

(6) to improve the economic efficiency of the national freight network.

(c) ESTABLISHMENT OF PROGRAM. —

(1) IN GENERAL. —The Secretary shall establish and implement a national freight program in accordance with this section to strategically direct Federal resources toward projects that compete with other freight programs, and with policies that are consistent with applicable provisions of this chapter and title 23 and with applicable provisions of other Federal laws.

(2) NETWORK COMPONENTS. —The national freight network shall consist of—

(A) the primary freight network, as described in subsection (f), or the primary freight network as described in this section;

(B) the portions of the Interstate System designated as primary freight networks;

(C) critical rural freight corridors;

(D) freight rail corridors;

(E) intermodal connectors; and

(F) other freight networks.

(d) USE OF APPORTIONED FUNDS. —

(1) IN GENERAL. —The Secretary shall apportion amounts to States for the fiscal year on the basis of the total Interstate system mileage of the State and the freight network mileage of the State and the total apportionment of the State for the fiscal year under section 104(b)(5).

Beginning for each fiscal year after the Secretary designates the primary freight network, a State shall obligate from funds apportioned under section 104(b)(5) to the primary freight network the lesser of—

(A) an amount equal to the product obtained by—

(i) the sum of the total Interstate System mileage of the State, the foreign commerce within this State, and the total apportionment of the State for the fiscal year under section 104(b)(5); and

(ii) the public benefit of the project; or

(B) an amount equal to the product obtained by—

(i) the total designated primary freight network mileage of the State, bears to the sum of the total designated primary freight network mileage of the State and the total Interstate System mileage of the State that is not designated as part of the primary freight network; and

(ii) the proportion that—

(1) the total designated primary freight network mileage bears to the total Interstate System mileage of the State and

(2) the amount equal to the sum of the total apportionments of the States under section 104(b)(5).

(c) ELIGIBILITY. —

(1) ELIGIBLE PROJECTS. —To be eligible for funding under this section, a project shall demonstrate the improvement made by the project to the efficient movement of freight on the freight network.

(2) FREIGHT RAIL AND MARITIME PROJECTS. —

(a) IN GENERAL. —A State may obligate an amount equal to not more than 5 percent of the total apportionment of the State under section 104(b)(5) for each fiscal year for projects that are—

(i) the project for which the State seeks to obligate funds under this paragraph would make freight rail improvements to enhance commerce within 3 miles of the international border between the United States and Canada or Mexico; or

(ii) the public benefit of the project.
```
“(D) provides a better return than a highway project on a segment of the primary freight network.

“(E) ELIGIBLE PROJECT COSTS.—A State may obligate funds apportioned to the State under section 104(b)(5) for the following costs of an eligible project:

“(i) planning phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities;

“(ii) Construction, reconstruction, rehabilitation, acquisition of real property (including land use restrictions), construction contingencies, acquisition of equipment, and operational improvements directly relating to improving system performance, including but not limited to any segment of the primary freight network that falls below the minimum level established pursuant to section 119(f).

“(C) Intelligent transportation systems and other technology to improve the flow of freight.

“(A) efficient freight traffic flow.

“(B) Environmental mitigation.

“(C) Geometric improvements to interchanges and ramps.

“(D) Intelligent transportation systems that improve truck freight movement.

“(E) Intelligent transportation systems that would increase truck freight efficiencies inside the boundaries of intermodal facilities.

“(F) Traffic signal optimization including synchronized and adaptive signals.

“(G) Work zone management and information systems.

“(H) Highway ramp metering.

“(I) Electronic cargo and border security technologies that improve truck freight movement.

“(J) Intelligent transportation systems that increase truck freight efficiencies inside the boundaries of intermodal facilities.

“(K) Any other activities to improve the flow of freight on the national freight network.

“(L) ELIGIBLE COSTS.—In addition to eligible project costs, a State may use funds apportioned under section 104(b)(5) for the necessary costs of conducting analyses and data collection to comply with subsection (i) or diesel retrofits or alternative fuel projects defined under section 149 for class 8 vehicles.

“(M) ELIGIBLE PROJECT COSTS PRIOR TO DESIGNATION OF PRIMARY Freight NETWORK.—Prior to the date of designation of the primary freight network, a State may obligate funds apportioned to the State under section 104(b)(5) to improve freight movement on the Interstate System for—

“(A) construction, reconstruction, resurfacing, restoration, and rehabilitation of segments of the Interstate System;

“(B) operational improvements for segments of the Interstate System;

“(C) construction of, and operational improvements to, Federal-aid highways not on the Interstate System, and construction of a transit project eligible for assistance under chapter 53 of title 49, United States Code, that—

“(i) the highway or transit project is in the same corridor as, and in proximity to a highway designated as a part of the Interstate System;

“(ii) the construction or improvements would improve the level of service on the Interstate System described in subparagraph (A) and improve freight traffic flow; and

“(iii) the construction or improvements are more cost-effective for freight movement than an improvement to the Interstate System described in subparagraph (A).

“(D) highway safety improvements for segments of the Interstate System;

“(E) transportation planning in accordance with sections 134 and 135;

“(F) the costs of conducting analyses and data collection to comply with this section;

“(G) truck parking facilities eligible for funding under section 1401 of the MAP-21;

“(H) infrastructure-based intelligent transport systems capital improvements;

“(I) environmental restoration and pollution abatement in accordance with section 328; and

“(J) in accordance with all applicable Federal law (including regulations), participation in natural habitat and wetlands mitigation efforts relating to projects funded under this title, which may include participation in natural habitat and wetlands mitigation banks, contributions to statewide and regional efforts to conserve, restore, enhance, and create natural habitats and wetlands, and development of statewide and regional natural habitat and wetlands conservation and mitigation plans, including any such banks, efforts, and plans developed in accordance with applicable Federal law (including regulations), on the conditions that—

“(i) contributions to such mitigation efforts may only be made—

“(A) take place concurrent with or in advance of project construction; and

“(B) occur in advance of project construction only if such project is consistent with all applicable requirements of Federal law (including regulations) and State transportation planning processes; and

“(ii) with respect to participation in a natural habitat or wetland mitigation effort relating to a project funded under this title that has an impact that occurs within the service area of a mitigation bank, preference shall be given, to the maximum extent practicable, to the use of the mitigation bank if the bank contains sufficient available credits to offset the impacts and the bank is approved in accordance with applicable Federal law (including regulations).

“(K) DESIGNATION OF PRIMARY FREIGHT NETWORK.—

“(A) INITIAL DESIGNATION OF PRIMARY Freight NETWORK.—

“(i) DESIGNATION.—Not later than 1 year after the date of enactment of this section, the Secretary shall designate a primary freight network—

“(I) based on an inventory of national freight volume conducted by the Administrator of the Federal Highway Administration, in consultation with stakeholders, including system users and transport providers, and that—

“(A) is a rural principal arterial roadway and has a minimum of 25 percent of the annual average daily traffic of the road measured in passenger vehicle equivalent units from trucks; (FHWA vehicle class 8 to 13); or

“(B) connects the primary freight network, a roadway described in paragraph (I), or Interstate System facilities that handle more than 50,000 20-foot equivalent units per year; or

“(C) 500,000 tons per year of bulk commodities.

“(B) NATIONAL Freight STRATEGIC PLAN.—

“(I) INITIAL DEVELOPMENT OF NATIONAL Freight STRATEGIC PLAN.—Not later than 3 years after the date of enactment of this section, the Secretary shall, in consultation with appropriate public and private transport providers and stakeholders and on the Department of Transportation public website a national freight strategic plan that shall include—

“(A) an assessment of the condition and performance of the national freight network; and

“(B) an identification of major bottlenecks and transport providers, and States; and

“(C) best practices to mitigate the impacts of freight movement on communities; and

“(D) a process for addressing multistate projects and encouraging jurisdictions to collaborate; and

“(E) strategies to improve maritime, freight rail, and freight intermodal connectivity.

“(2) UPDATES TO NATIONAL Freight STRATEGIC PLAN.—Not later than 5 years after the date of completion of the first national freight strategic plan under paragraph (1), and every 5 years thereafter, the Secretary shall update and repost on the Department of Transportation public website a revised national freight strategic plan.
‘(1) FREIGHT PERFORMANCE TARGETS.—
   ‘‘(1) RULEMAKING.—Not later than 2 years after the date of enactment of this section, the Secretary, in consultation with State departments of transportation, shall establish freight performance targets for freight movement on the primary freight network.
   ‘‘(2) STATE TARGETS AND REPORTING.—Not later than 1 year after the date on which the Secretary establishes the rulemaking under paragraph (1), each State shall:
   ‘‘(A) develop and periodically update State performance targets for freight movement on the primary freight network;
   ‘‘(B) develop and submit to the Secretary a report that contains a description of—
   ‘‘(i) the progress of the State toward meeting the targets; and
   ‘‘(ii) the ways in which the State is addressing freight bottlenecks within the State.
   ‘‘(3) COMPLIANCE.—
   ‘‘(A) PERFORMANCE TARGETS.—To obligate funds under section 104(b)(5), each State shall develop performance targets in accordance with paragraph (2).
   ‘‘(B) DETERMINATION OF SECRETARY.—If the Secretary determines that a State has not met or made significant progress toward meeting the performance targets of the State by the date that is 2 years after the date of establishment of the performance targets, until the date on which the Secretary determines that the State has met (or has made significant progress toward meeting the performance targets), the Secretary shall submit to the Secretary, on a biennial basis, a freight performance improvement plan that includes—
   ‘‘(i) an identification of freight system trends, needs, and issues within the State;
   ‘‘(ii) a description of the freight policies and strategies that will guide the freight-related transportation investments of the State;
   ‘‘(iii) an inventory of freight bottlenecks within the State and a description of the ways in which the State is allocating funds to improve those bottlenecks; and
   ‘‘(iv) a description of the actions the State will undertake to meet the performance targets of the State.
   ‘‘(1) FREIGHT TRANSPORTATION CONDITIONS AND PERFORMANCE REPORTS.—Not later than 2 years after the date of enactment of this section, and biennially thereafter, the Secretary shall prepare a report that contains a description of the conditions and performance of the national freight network in the United States.
   ‘‘(2) TRANSPORTATION INVESTMENT DATA AND PLANNING TOOLS.—
   ‘‘(1) IN GENERAL.—Not later than 1 year after the date of enactment of this section, the Secretary shall—
   ‘‘(A) develop and periodically update tools to support an outcome-oriented, performance-based approach to evaluate proposed freight-related and other transportation projects, including—
   ‘‘(i) methodologies for systematic analysis of benefits and costs of transportation projects that consider safety, economic competitiveness, environmental sustainability, and system condition in the project selection process; and
   ‘‘(iii) other elements to assist in effective transportation planning;
   ‘‘(B) identify transportation-related model elements to support a broad range of evaluation methods and techniques to assist in making transportation investment decisions; and
   ‘‘(C) at a minimum, in consultation with other stakeholders, consider any improvements to existing freight flow data collection efforts that could reduce identified freight data gaps and deficiencies and help inform forecasts of freight transportation demand.
   ‘‘(2) CONSULTATION.—The Secretary shall consult with Federal, State, and other stakeholders to develop, improve, and implement the tools and data in paragraph (1).
   ‘‘(3) DEFINITION.—‘Aerotropolis’ shall mean a regionally significant transportation system that travels or connects with a major airport.

   ‘‘(i) ENTRY.—Projects on a Federal-aid highway under this chapter shall be entered into contracts under such authorization if—
   ‘‘(ii) using measures determined by the Secretary, includes efficient, cost-effective, sustainable, and intermodal connections and economic activity centered around a major airport.

   ‘‘(4) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law (including regulations), the authorization by the Secretary, or the Secretary of the appropriate Federal land management agency if the agency is the contracting office, of engineering and related work for the development, design, and acquisition associated with a construction project performed by contract or agreement authorized by law, or the approval by the Secretary of plans, specifications, and estimates for construction of a Federal lands transportation facility, constitute a contractual obligation of the Federal Government to pay the total eligible cost of—
   ‘‘(i) any project funded under this title; and
   ‘‘(ii) any project funded pursuant to agreements authorized by this title or any other title.
   ‘‘(5) EFFECT.—Nothing in this paragraph—
   ‘‘(i) affects the application of the Federal share associated with the project being undertaken under this section;
   ‘‘(ii) modifies the point of obligation associated with Federal salaries and expenses;
   ‘‘(6) FEDERAL SHARE.—
   ‘‘(A) TRIBAL AND FEDERAL LANDS TRANSPORTATION PROGRAM.—The Federal share of the cost of a project carried out under the Federal lands transportation program or the tribal transportation program shall be 100 percent.
   ‘‘(B) FEDERAL LANDS ACCESS PROGRAM.—The Federal share of the cost of a project carried out under the Federal lands access program shall be determined in accordance with section 120.
   ‘‘(7) TRANSPORTATION PLANNING.—
   ‘‘(1) TRANSPORTATION PLANNING PROCEDURES.—In consultation with the Secretary of each appropriate Federal land management agency, the Secretary shall implement transportation planning procedures for Federal lands and tribal transportation facilities that are consistent with the planning procedures required under sections 134 and 135.
   ‘‘(2) APPROVAL OF TRANSPORTATION IMPROVEMENT PROGRAM.—The transportation improvement program developed as a part of the transportation planning procedures under this section shall be approved by the Secretary.
   ‘‘(3) INCLUSION IN OTHER PLANS.—Each regionally significant tribal transportation project, Federal lands transportation program, and Federal lands access program shall be—
   ‘‘(A) included in cooperation with State and metropolitan planning organizations; and
   ‘‘(B) included in appropriate tribal transportation program plans, Federal lands transportation program plans, Federal lands access program plans, State and metropolitan plans, and transportation improvement programs.
   ‘‘(4) INCLUSION IN STATE PROGRAMS.—The approved tribal transportation program,
Federal lands transportation program, and Federal lands access program transportation improvement programs shall be included in appropriate State and metropolitan planning organization and other necessary programs without further action on the transportation improvement program.

(5) Asset Management.—The Secretary and the affected Secretaries of Federal land management agencies shall, in the context of all asset management decisions, consider the need to maintain, improve, or replace transportation and public access systems for facilities funded under the Tribal Transportation Program and the Federal lands access programs.

(6) DATA COLLECTION.—

(A) DATA COLLECTION.—The Secretaries of the appropriate Federal land management agencies shall collect and report data necessary to implement the Federal lands transportation program, the Federal lands access program, and the tribal transportation program, including—

(i) inventory and condition information on Federal lands transportation facilities and tribal transportation facilities; and

(ii) bridge inspection and inventory information on any Federal bridge open to the public.

(B) STANDARDS.—The Secretary, in coordination with the appropriate Secretaries, shall define the collection and reporting data standards.

(7) ADMINISTRATIVE EXPENSES.—To implement the activities described in this subsection, including direct support of transportation planning activities among Federal land management agencies, the Secretary may pay not more than 5 percent for each fiscal year of the funds authorized for programs under sections 203 and 204.

(8) REIMBURSABLE AGREEMENTS.—In carrying out the Federal lands transportation program and the Tribal Transportation Program, the Secretaries shall enter into agreements with States, local governments, and tribal governments for the reimbursement of administrative expenses.

(a) IN GENERAL.—To enable the efficient use of funds made available for the Federal lands transportation program and the Federal lands access program, the funds may be transferred by the Secretary within and between each program with the concurrence of, as appropriate—

(A) the Secretary; and

(B) the affected Secretaries of the respective Federal land management agencies;

(C) State departments of transportation; and

(D) local government agencies.

(b) USE OF FUNDS.—

(1) IN GENERAL.—Funds made available under the tribal transportation program shall be used by the Secretary of Transportation and the Secretary of the Interior to pay the costs of—

(A) transportation planning, research, maintenance, engineering, rehabilitation, restoration, construction, and reconstruction of tribal transportation facilities; and

(B) adjacent vehicular parking areas;

(2) COSTS.—Funds made available under the Tribal Transportation Program and the Federal lands access program transportation improvement programs shall be included in appropriate State and metropolitan planning organization and other necessary programs without further action on the transportation improvement program.

(2) Asset Management.—The Secretary and the affected Secretaries of Federal land management agencies shall, to the extent appropriate, implement safety, bridge, pavement, and congestion management systems and programs for facilities funded under the Tribal Transportation Program and the Federal lands transportation program in support of asset management.

(2) DATA COLLECTION.—

(A) DATA COLLECTION.—The Secretaries of the appropriate Federal land management agencies shall collect and report data necessary to implement the Federal lands transportation program, the Federal lands access program, and the Tribal Transportation Program, including—

(i) inventory and condition information on Federal lands transportation facilities and tribal transportation facilities; and

(ii) bridge inspection and inventory information on any Federal bridge open to the public.

(B) STANDARDS.—The Secretary, in cooperation with the appropriate Secretaries, shall define the collection and reporting data standards.

(3) IN GENERAL.—The cooperation of States, counties, or other local subdivisions may be accepted in construction and improvement agreements.

(4) FEDERAL EMPLOYMENT.—No maximum limitation on Federal employment shall be applicable to the construction or improvement of tribal transportation facilities.

(5) FUNDS FOR CONSTRUCTION AND IMPROVEMENT.—All funds made available for the construction and improvement of tribal transportation facilities shall be administered in accordance with agreements jointly approved by the Secretary and the Secretary of the Interior.

(6) ADMINISTRATIVE EXPENSES.—

(A) IN GENERAL.—In addition to the amounts authorized to be appropriated for the tribal transportation program, not more than 6 percent may be used by the Secretary or the Secretary of the Interior for program management and oversight and project-related administrative expenses.

(B) RESERVATION OF FUNDS.—Any funds received under the Tribal Transportation Program to fund tribal technical assistance centers under section 506(b).
Indian communities (including communities in former Indian reservations in the State of Oklahoma) in which the majority of residents are American Indians or Alaska Natives;

"(vii) are public roads within or providing access to an Indian reservation or Indian trust land, and that is not subject to fee title alienation without the approval of the Federal Government, or Indian or Alaska Native villages, groups, or communities in which Indian or Alaska Native populations reside, where the Secretary of the Interior has determined are eligible for services generally available to Indians under Federal laws specifically applicable to Indians; or

"[(vi)(vii)](vii) primary access routes proposed by tribal governments, including roads between villages, roads to drinking water sources, roads to natural resources identified for economic development, and roads that provide access to intermodal terminals, such as airports, harbors, or boat landings.

"(C) LIMITATION ON PRIMARY ACCESS ROUTES.—For purposes of this paragraph, a proposed primary access route is the shortest practicable route connecting 2 points of the proposed route.

"(D) ADDITIONAL FACILITIES.—Nothing in this section precludes the Secretary from including additional transportation facilities that are eligible for funding under the tribal transportation program in the inventory used for determining any funding allocation if such additional facilities are included in the inventory in a uniform and consistent manner.

"(E) INVENTORY.—All bridges in the inventory shall be recorded in the national bridge inventory administered by the Secretary under section 141.

"(2) INVENTORY.—Notwithstanding sections 563(a) and 563(a) of title 5, the Secretary of the Interior shall maintain any regulations governing the tribal transportation program.

"(3) BASIS FOR FUNDING FORMULA.—

"(A) BASIS.—

"(i) In general.—After making the set aside authorized under subsections (a)(6), (c), (d), and (e) on October 1 of each fiscal year, the Secretary shall distribute the remainder authorized to be appropriated for the tribal transportation program in this section among Indian tribes as follows:

"(I) For fiscal year 2012—

"(aa) 50 percent, equal to the ratio that the total eligible lane mileage in each tribe bears to the total eligible lane mileage of all American Indians and Alaska Natives. For the purposes of this calculation—

"(aa) eligible lane mileage shall be computed based on the formula described in paragraph (1), using only facilities included in the inventory described in clause (i), (ii), or (iii) of paragraph (1)(B); and

"(bb) paved roads and gravel surfaced roads are deemed to equal 2 lane miles per mile of inventory, and earth surfaced roads and improved roads shall be deemed to equal 1 lane mile per mile of inventory.

"(II) 40 percent shall be distributed equally among each Bureau of Indian Affairs region for distribution of tribal shares as follows:

"(III) 34 percent shall be distributed equally among Indian tribes with populations of 1,001 to 10,000.

"(IV) 74 percent shall be distributed equally among Indian tribes with populations of 10,001 to 60,000 where 3 or more Indian tribes occupy this category in a single Bureau of Indian Affairs region, Bureau of Indian Affairs regions containing less than 3 Indian tribes in this category shall receive funding in accordance with clause (IV) and clause (v).

"(V) 50 percent, equal to the ratio that the total eligible lane mileage of all American Indians and Alaska Natives bears to the total eligible lane mileage of all American Indians and Alaskan Natives.

"(VI) 1/4 of 1 percent shall be distributed equally among each Bureau of Indian Affairs region for distribution of tribal shares as follows:

"(II) 50 percent, equal to the ratio that the total eligible lane mileage in each tribe bears to the total eligible lane mileage of all American Indians and Alaska Natives. For the purposes of this calculation—

"(i) eligible lane mileage shall be computed based on the formula described in paragraph (1), using only facilities included in the inventory described in clause (i), (ii), or (iii) of paragraph (1)(B); and

"(ii) paved roads and gravel surfaced roads are deemed to equal 2 lane miles per mile of inventory, and earth surfaced roads and improved roads shall be deemed to equal 1 lane mile per mile of inventory.

"(II) 40 percent shall be distributed equally among each Bureau of Indian Affairs region for distribution of tribal shares as follows:

"(III) 34 percent shall be distributed equally among Indian tribes with populations of 1,001 to 10,000.

"(IV) 74 percent shall be distributed equally among Indian tribes with populations of 10,001 to 60,000 where 3 or more Indian tribes occupy this category in a single Bureau of Indian Affairs region, Bureau of Indian Affairs regions containing less than 3 Indian tribes in this category shall receive funding in accordance with clause (IV) and clause (v).

"(V) 50 percent, equal to the ratio that the total eligible lane mileage of all American Indians and Alaska Natives bears to the total eligible lane mileage of all American Indians and Alaskan Natives.

"(VI) 1/4 of 1 percent shall be distributed equally among each Bureau of Indian Affairs region for distribution of tribal shares as follows:

"(AA) TRIBAL SUPPLEMENTAL AMOUNTS.—

"(1) TRIBAL SUPPLEMENTAL FUNDING AMOUNT.—Of funds made available for each fiscal year for the tribal transportation program, the Secretary shall set aside the following amount for a tribal supplemental program:

"(I) If the amount made available for the tribal transportation program is less than or equal to $275,000,000, 10 percent of such amount.

"(II) If the amount made available for the tribal transportation program exceeds $275,000,000:

"(aa) 27.5,000,000 plus

"(bb) 12.5 percent of the amount made available for the tribal transportation program in excess of $275,000,000.

"(2) TRIBAL SUPPLEMENTAL ALLOCATION.—The Secretary shall distribute tribal supplemental funds as follows:

"(I) DISTRIBUTION AMONG REGIONS.—Of the amount described in subparagraph (i), the Secretary shall distribute tribal supplemental funding among Indian tribes within each region in proportion to the combined tribal share of all Indian tribes within such region under subparagraph (B).

"(II) DISTRIBUTION WITHIN A REGION.—Of the amount that a region receives under subclause (I), the Secretary shall distribute tribal supplemental funding among Indian tribes within such region as follows:

"(aa) TRIBAL SUPPLEMENTAL AMOUNTS.—The Secretary shall determine—

"(AA) which such Indian tribes would be entitled under subparagraph (A) to receive in any fiscal year or year less funds made available for the tribal transportation program in any fiscal year in excess of the amount that would be entitled to receive in the fiscal year in which such funds are made available in excess of the amount that would be entitled to receive in the fiscal year in which such funds are made available, to those Indian tribes that the Secretary determines would be entitled to receive in any fiscal year in excess of the amount that would be entitled to receive in the fiscal year on or before which the date of enactment of the MAP–21; and

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.

"(BB) the combined amount that such Indian tribes would be entitled to receive in any fiscal year.
“(C) provides a copy of the certification under subparagraph (A) to the Deputy Assistant Secretary for Tribal Government Affairs, Department of Transportation, or the Assistant Secretary for Indian Affairs Department of the Interior, as appropriate.

“(6) CONTRACTS AND AGREEMENTS WITH INDIAN TRIBES.—

“(A) IN GENERAL.—Notwithstanding any other provision of law or any interagency agreement, program guideline, manual, or policy directive, all funds made available through the Secretary of the Interior under this chapter and section 2125(e) for tribal transportation facilities to pay for the costs of planning, research, design, engineering, and construction in accordance with Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) shall be paid in accordance with subparagraph (A) to the Indian tribal government for a program or project under subparagraph (A) for an Indian tribal government requesting such funds demonstrates to the satisfaction of the Secretary of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) that the tribal government would otherwise receive for the program or project under subparagraph (A) a share of funds that is less than the share to which the tribal government is entitled under this section.

“(B) PLANNING.—In accordance with the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) the Secretary may allocate not less than 2 percent of funds transferred to the Indian tribal government for a program or project under subparagraph (A) for programs, projects, services, or activities involving transportation planning, including the development of a transportation improvement plan or equivalent plan.

“(C) ELIGIBILITY.—Notwithstanding any other provision of law or any interagency agreement, program guideline, manual, or policy directive, all funds made available through the Secretary of the Interior under this chapter and section 2125(e) for Indian tribal transportation projects to pay for the costs of planning, research, design, engineering, and construction in accordance with subparagraph (A) for an Indian tribal government requesting such funds demonstrates to the satisfaction of the Secretary of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) that the tribal government would otherwise receive for the program or project under subparagraph (A) an amount that is less than the amount to which the tribal government is entitled under this section.

“(D) FUNDING.—Before making any distribution under subparagraph (A), the Secretary shall set aside not more than 2 percent of the funds made available under the tribal transportation facility program for improving deficient bridges eligible for the tribal transportation program.

“(1) FUNDING.—Before making any distribution under subparagraph (A), the Secretary shall set aside not more than 2 percent of the funds made available under the tribal transportation facility program for improving deficient bridges eligible for the tribal transportation program.

“(E) SAFETY.—

“(1) IN GENERAL.—Notwithstanding any other provision of law or any interagency agreement, program guideline, manual, or policy directive, the Secretary may make funds available under subparagraph (A) to an Indian tribal government for a program or project under subparagraph (A) for an Indian tribal government requesting such funds demonstrates to the satisfaction of the Secretary that the tribal government would otherwise receive for the program or project under subparagraph (A) a share of funds that is less than the share to which the tribal government is entitled under this section.

“(2) REQUIREMENT.—Notwithstanding any other provision of law or any interagency agreement, program guideline, manual, or policy directive, the Secretary may make funds available under subparagraph (A) to an Indian tribal government for a program or project under subparagraph (A) for an Indian tribal government requesting such funds demonstrates to the satisfaction of the Secretary that the tribal government would otherwise receive for the program or project under subparagraph (A) a share of funds that is less than the share to which the tribal government is entitled under this section.

“(F) ELIGIBILITY.—

“(1) IN GENERAL.—Notwithstanding any other provision of law or any interagency agreement, program guideline, manual, or policy directive, the Secretary may make funds available under subparagraph (A) to an Indian tribal government for a program or project under subparagraph (A) for an Indian tribal government requesting such funds demonstrates to the satisfaction of the Secretary that the tribal government would otherwise receive for the program or project under subparagraph (A) a share of funds that is less than the share to which the tribal government is entitled under this section.

“(2) REQUIREMENT.—An Indian tribal government, in cooperation with the Secretary and the Secretary of the Interior and, as appropriate, with a State, local government, or metropolitan planning organization, shall carry out a transportation planning process in accordance with this section.

“(3) SELECTION AND APPROVAL OF PROJECTS.—A project funded under this subparagraph shall be selected by the Indian tribal governments participating in the transportation project improvement program.

“(4) TRIBAL TRANSPORTATION FACILITY BRIDGES.—

“(1) NATIONAL PRIORITY PROGRAM.—The Secretary shall maintain a nationwide priority program for improving deficient bridges eligible for the tribal transportation program.

“(2) FUNDING.—Before making any distribution under subparagraph (b), the Secretary shall set aside not more than 2 percent of the funds made available under the tribal transportation facility program for each fiscal year to be allocated—

“(A) to carry out any planning, design, engineering, construction, and inspection of a project to replace, rehabilitate, seismically retrofit, paint, apply calcium magnesium acetate, sodium acetate/formate, or other environmentally acceptable, minimally corrosive anti-icing and de-icing composition; or

“(B) to implement any countermeasure for deficient tribal transportation facility bridges, including multiple-pipe culverts.

“(3) ELIGIBLE BRIDGES.—To be eligible to receive this funding under this subsection, a bridge described in paragraph (1) shall—

“(A) have an opening of less than 20 feet; and

“(B) be classified as a tribal transportation facility; and

“(C) be structurally deficient or functionally obsolete.

“(4) APPROVAL REQUIREMENT.—The Secretary may make funds available under this subsection for preliminary engineering, construction, and construction engineering activities after approval of required documentation and verification of eligibility in accordance with this title.

“(E) SAFETY.—

“(1) IN GENERAL.—Notwithstanding any other provision of law or any interagency agreement, program guideline, manual, or policy directive, all funds made available under the tribal transportation facility program for each fiscal year to be allocated based on an identification and analysis of highway safety issues and opportunities on tribal land, as determined by the Secretary, on application of the Indian tribal governments for eligible projects described in paragraph (2).

“(2) PROJECT SELECTION.—An Indian tribal government, in cooperation with the Secretary of the Interior and, as appropriate, with a State, local government, or metropolitan planning organization, shall select projects from the transportation improvement program, subject to the approval of the Secretary and the Secretary of the Interior.

“(3) FEDERAL-aid ELIGIBLE PROJECTS.—Before approving a project on a tribal transportation facility project any project eligible for Federal-aid allocation under section 104 of a State, the Secretary shall, for projects on tribal transportation facilities, determine that the obligation of funds for the project is consistent with the policy and goals to and in lieu of the obligation of a fair and equitable share of funds apportioned to the State under section 104.
§ 203. Federal lands transportation program

(a) USE OF FUNDS.—Funds made available under the Federal lands transportation program shall be used by the Secretary of Transportation and the Secretary of the appropriate Federal land management agency to pay the costs of—

(A) program administration, transportation planning, research, preventive maintenance, engineering, rehabilitation, restoration, construction, and reconstruction of Federal lands transportation facilities, and—

(i) adjacent vehicular parking areas;

(ii) provision for pedestrians and bicycles;

(iii) environmental mitigation in or adjacent to Federal land open to the public;—

(I) to improve public safety and reduce vehicle-caused wildlife mortality while maintaining habitat connectivity; and—

(II) to mitigate the damage to wildlife, aquatic organism passage, habitat, and ecosystem connectivity, including the costs of construction, maintaining, replacing, or removing culverts and bridges, as appropriate;

(v) construction and reconstruction of roadside rest areas, including sanitary and water facilities;

(vi) congestion mitigation; and—

(vii) other appropriate public road facility elements, as determined by the Secretary;

(B) operation and maintenance of transit facilities; and—

(C) any transportation project eligible for assistance under this title that is on a public road within or adjacent to, or that provides access to, Federal lands open to the public.

(2) CONTRACT.—In connection with an activity described in paragraph (1), the Secretary of the Department of the Interior, or the Secretary of the appropriate Federal land management agency may enter into a contract or other appropriate agreement with respect to the activity with—

(A) a State (including a political subdivision of a State); or—

(B) an Indian tribe.

(3) ADMINISTRATION.—All appropriations for the construction and improvement of Federal lands transportation facilities shall be administered in conformity with regulations and agreements jointly approved by the Secretary of Transportation and the Secretary of the appropriate Federal land management agency.

(4) COOPERATION.—

(A) IN GENERAL.—The cooperation of States, counties, or other local subdivisions may be accepted in construction and improvement.

(B) FUNDS RECEIVED.—Any funds received from a State, county, or local subdivision shall be credited to appropriations available for the class of Federal lands transportation facilities to which the funds were contributed.

(5) COMPETITIVE BIDDING.—

(A) IN GENERAL.—Subject to subparagraph (B), construction of each project shall be performed by contract awarded by competitive bidding.

(B) EXCEPTION.—Subparagraph (A) shall not apply if the Secretary or the Secretary of the appropriate Federal land management agency affirmatively finds that, under the circumstances relating to the project, a different method is in the public interest.

(b) AGENCY PROGRAM DISTRIBUTIONS.—

(1) IN GENERAL.—On October 1, 2011, and on October 1 of each fiscal year thereafter, the Secretary shall allocate the sums authorized to be appropriated for the fiscal year for the Federal lands transportation program on the basis of applications of need, as determined by the Secretary—

(A) in consultation with the Secretaries of the applicable Federal land management agencies; and—

(B) in coordination with the transportation plans required under section 205 of the respective transportation systems of—

(i) the National Park Service;

(ii) the Forest Service;

(iii) the United States Fish and Wildlife Service;

(iv) the Corps of Engineers; and—

(v) the Bureau of Land Management.

(2) APPLICATIONS.—

(A) REQUIREMENTS.—Each application submitted by a Federal land management agency shall be accompanied by a description at various potential funding levels, as defined by the Secretary following collaborative discussions with applicable Federal land management agencies.

(B) CONSIDERATION BY SECRETARY.—In evaluating an application submitted under subparagraph (A), the Secretary shall consider the extent to which the programs support—

(i) the transportation goals of—

(I) a state of good repair of transportation facilities;

(II) a reduction of bridge deficiencies, and

(III) an improvement of safety;

(ii) high-use Federal recreation sites or Federal economic generators; and

(iii) the resource and asset management goals of the Secretary of the respective Federal land management agency.

(C) PREFERENCES.—Applications may include proposed programs the duration of which extend over a multiple-year period to support long-term transportation planning and resource management initiatives.

(D) NATIONAL FEDERAL LANDS TRANSPORTATION FACILITY INVENTORY.—

(1) IN GENERAL.—The Secretary of the appropriate Federal land management agencies, in cooperation with the Secretary, shall maintain a comprehensive national inventory of public Federal lands transportation facilities.

(2) TRANSPORTATION FACILITIES INCLUDED IN THE INVENTORIES.—To identify the Federal lands transportation system and determine the relative transportation needs among Federal land management agencies, the inventories shall include, at a minimum, facilities that—

(A) provide access to high-use Federal recreation sites or Federal economic generators, as determined by the Secretary in consultation with the Secretaries of the appropriate Federal land management agencies; and—

(B) are owned by 1 of the following agencies—

(i) The National Park Service.

(ii) The Forest Service.

(iii) The United States Fish and Wildlife Service.

(iv) The Bureau of Land Management.

(v) The Corps of Engineers.

(3) AVAILABILITY.—The inventories shall be made available to the Secretary.

(4) UPDATES.—The Secretaries of the appropriate Federal land management agencies shall update the inventories of the appropriate Federal land management agencies, as determined by the Secretary after collaborative discussions with the Secretaries of the appropriate Federal land management agencies.

(5) REVIEW.—A decision to add or remove a facility from the inventory shall not be considered a Federal action for purposes of review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(d) BICYCLE SAFETY.—The Secretary of the appropriate Federal land management agency shall prohibit the use of bicycles on any federally owned road that has a speed limit of 30 miles per hour or greater and an adjacent paved path for use by bicycles within 100 yards of the road.

§ 204. Federal lands access program

(a) USE OF FUNDS.—Funds made available under the Federal lands access program shall be used by the Secretary of Transportation and the Secretary of the appropriate Federal land management agency to pay the cost of—

(A) transportation planning, research, engineering, preventive maintenance, rehabilitation, restoration, construction, and reconstruction of Federal lands access transportation facilities located on or adjacent to, or that provide access to, Federal land, and—

(i) adjacent vehicular parking areas;

(ii) acquisition of necessary scenic easements and scenic or historic sites;

(iii) provisions for pedestrians and bicycles;

(iv) environmental mitigation in or adjacent to Federal land—

(I) public safety and reduce vehicle-caused wildlife mortality while maintaining habitat connectivity; and—

(II) to mitigate the damage to wildlife, aquatic organism passage, habitat, and ecosystem connectivity, including the costs of constructing, maintaining, replacing, or removing culverts and bridges, as appropriate;

(v) construction and reconstruction of roadside rest areas, including sanitary and water facilities; and—

(vi) other appropriate public road facility elements, as determined by the Secretary;

(B) operation and maintenance of transit and transportation and the Secretary of the appropriate Federal land management agency to pay the cost of—

(i) the transportation goals of—

(I) a state of good repair of transportation facilities;

(II) a reduction of bridge deficiencies, and

(III) an improvement of safety;

(ii) high-use Federal recreation sites or Federal economic generators; and

(iii) the resource and asset management goals of the Secretary of the respective Federal land management agency.

(C) PROGRAM DISTRIBUTIONS.—Applications may include proposed programs the duration of which extend over a multiple-year period to support long-term transportation planning and resource management initiatives.

(D) NATIONAL FEDERAL LANDS ACCESS TRANSPORTATION FACILITY INVENTORY.—

(1) IN GENERAL.—The Secretaries of the appropriate Federal land management agencies, in cooperation with the Secretary, shall maintain a comprehensive national inventory of public Federal lands access transportation facilities.

(2) TRANSPORTATION FACILITIES INCLUDED IN THE INVENTORIES.—To identify the Federal lands access transportation system and determine the relative transportation needs among Federal land management agencies, the inventories shall include, at a minimum, facilities that—

(A) provide access to high-use Federal recreation sites or Federal economic generators, as determined by the Secretary in consultation with the Secretaries of the appropriate Federal land management agencies; and—

(B) are owned by 1 of the following agencies—

(i) the National Park Service;

(ii) the Forest Service;

(iii) the United States Fish and Wildlife Service;

(iv) the Bureau of Land Management;

(v) the Corps of Engineers.

(3) AVAILABILITY.—The inventories shall be made available to the Secretary.

(4) UPDATES.—The Secretaries of the appropriate Federal land management agencies shall update the inventories of the appropriate Federal land management agencies, as determined by the Secretary after collaborative discussions with the Secretaries of the appropriate Federal land management agencies.

(5) REVIEW.—A decision to add or remove a facility from the inventory shall not be considered a Federal action for purposes of review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(d) BICYCLE SAFETY.—The Secretary of the appropriate Federal land management agency shall prohibit the use of bicycles on each federally owned road that has a speed limit of 30 miles per hour or greater and an adjacent paved path for use by bicycles within 100 yards of the road.

§ 205. Federal lands access program

(a) USE OF FUNDS.—Funds made available under the Federal lands access program shall be used by the Secretary of Transportation and the Secretary of the appropriate Federal land management agency to pay the cost of—

(A) transportation planning, research, engineering, preventive maintenance, rehabilitation, restoration, construction, and reconstruction of Federal lands access transportation facilities located on or adjacent to, or that provide access to, Federal land, and—

(i) adjacent vehicular parking areas;

(ii) acquisition of necessary scenic easements and scenic or historic sites;

(iii) provisions for pedestrians and bicycles;

(iv) environmental mitigation in or adjacent to Federal land—

(I) public safety and reduce vehicle-caused wildlife mortality while maintaining habitat connectivity; and—

(II) to mitigate the damage to wildlife, aquatic organism passage, habitat, and ecosystem connectivity, including the costs of constructing, maintaining, replacing, or removing culverts and bridges, as appropriate;

(v) construction and reconstruction of roadside rest areas, including sanitary and water facilities; and—

(vi) other appropriate public road facility elements, as determined by the Secretary;

(B) operation and maintenance of transit facilities; and—

(C) any transportation project eligible for assistance under this title that is within or adjacent to, or that provides access to, Federal land.

(b) CONTRACT.—In connection with an activity described in paragraph (1), the Secretary and the Secretary of the appropriate Federal land management agency may enter into a contract or other appropriate agreement with respect to the activity with—

(A) a State (including a political subdivision of a State); or—

(B) an Indian tribe.

(c) ADMINISTRATION.—All appropriations for the construction and improvement of Federal lands access transportation facilities shall be administered in conformity with regulations and agreements jointly approved by the Secretary of Transportation and the Secretary of the appropriate Federal land management agency.

(d) COOPERATION.—

(A) IN GENERAL.—The cooperation of States, counties, or other local subdivisions may be accepted in construction and improvement.

(B) FUNDS RECEIVED.—Any funds received from a State, county, or local subdivision shall be credited to appropriations available for the class of Federal lands access transportation facilities to which the funds were contributed.

(e) COMPETITIVE BIDDING.—

(A) IN GENERAL.—Subject to subparagraph (B), construction of each project shall be performed by contract awarded by competitive bidding.

(B) EXCEPTION.—Subparagraph (A) shall not apply if the Secretary or the Secretary of the appropriate Federal land management agency affirmatively finds that, under the circumstances relating to the project, a different method is in the public interest.

(f) PROGRAM DISTRIBUTIONS.—

(A) IN GENERAL.—Funds made available to carry out the Federal lands access program shall be allocated among those States that have Federal land, in accordance with the following formula:

\[ \text{Allocation to State} = \frac{\text{State's Federal land area}}{\text{Total Federal land area}} \times \text{Federal funds available} \]

(B) LIMITATIONS.—The Secretary may make grants only to those States that have Federal land area in the State.

(C) LIMITATION.—Funds received under this section shall not be used to carry out any Federal lands access program or other program on Federal lands that is otherwise supported by Federal funds.
percent of the total public land in the United States managed by the agencies described in paragraph (2), to be distributed as follows:

(1) Chapter 2 analysis.—The analysis for chapter 2 of title 23, United States Code, is amended:

(a) By striking the items relating to sections 201 through 204 and inserting the following:

(2) Definitions.—Section 138(a) of title 23, United States Code, is amended in the third sentence by striking "park road or parkway under section 204 of this title" and inserting "Federal lands transportation facility".

(b) Authorization of Secretary.—

(1) In General.—Recognizing the benefits that will accrue to the State of Alaska and to the United States from the reconstruction of the Alaska Highway from the Alaskan border to Haines Junction in Canada and the Haines Cutoff Highway from Haines Junction in Canada to Haines, the Secretary is authorized, upon agreement with the State of Alaska, to expend on such highway or the Alaska Marine Highway System any Federal-aid highway funds apportioned to the State of Alaska under this title to provide for necessary reconstruction of such highway.

(2) Limitation.—No expenditures shall be made for the construction of the portion of the highways that are in located in Canada until the last agreement has been reached by the Government of Canada and the Government of the United States, which shall provide in part, that the Canadian Government:

(A) will provide, without participation of funds authorized under this title, all necessary right-of-way for the construction of the highways;

(B) will not impose any highway toll, or permit any toll to be charged for the use of the highways by vehicles or persons;

(c) Grant Solicitations.—The Secretary shall establish criteria for project evaluation and conduct a transparent and competitive solicitation process to select projects for funding to carry out the purposes of this section.

(2) Applications.—An eligible applicant seeking a grant under this section for an eligible project shall submit an application to

SEC. 1118. PROJECTS OF NATIONAL AND REGIONAL SIGNIFICANCE.

(a) Establishment of Program.—The Secretary shall establish a program in accordance with this section to provide grants for projects of national and regional significance.

(b) Purpose of Program.—The purpose of the projects of national and regional significance program shall be to fund critical high-cost surface transportation infrastructure projects that are difficult to complete with existing Federal, State, local, and private funds and that will:

(1) Generate national and regional economic benefits and increase global economic competitiveness;

(2) Reduce congestion and its impacts;

(3) Improve roadways vital to national energy security;

(4) Improve movement of freight and people; and

(5) Improve transportation safety.

(c) Definitions.—In this section:

(1) Eligible Applicant.—The term 'eligible applicant' means a State department of transportation or a group of State departments of transportation, a local government, a tribal government or consortium of tribal governments, a transit agency, a port authority, a metropolitan planning organization, other political subdivisions of State or local governments, a multi-State, multi-jurisdictional group of the aforementioned entities.

(2) Eligible Project.—The term 'eligible project' means a surface transportation project or a program of integrated surface transportation projects closely related in the function they perform that:

(i) Is a capital project or projects—

(A) eligible for Federal financial assistance under title 23, United States Code, or under chapter 33 of title 49, United States Code, or

(B) for surface transportation infrastructure to facilitate intermodal interchange, transfer, and access into and out of intermodal facilities, including ports; and

(ii) Has eligible projects that are reasonably anticipated to equal or exceed the lesser of—

(A) $500,000,000;

(b) Project Located in a Single State.—

(1) General.—

(A) The National Park Service.

(B) The Forest Service.

(C) The United States Fish and Wildlife Service.

(D) The Bureau of Land Management.

(E) The Corps of Engineers.

(f) Project Selection Committee.—

(1) Development of Program.—The committee shall be made up of each project that is subsequently selected by the

(2) Guidelines.—

(3) Project Preference.—In making a programming decision under paragraph (1), the committee shall give preference to projects that provide access to, are adjacent to, or are located within high-use Federal recreation areas, other Federal recreation areas, or Federal land management agencies.

(b) Public Lands Development Roads and Trails.—Title 23, United States Code, is repealed.

(c) Conforming Amendments.—
the Secretary in such form and in accordance with such requirements as the Secretary shall establish.

(B) CONTENTS.—An application under this subsection shall, at a minimum, include data on current system performance and estimated system improvements that will result from completion of the eligible project, including projections for 2, 7, and 15 years after completion.

(C) RESUBMISSION OF APPLICATIONS.—An eligible applicant whose project is not selected by the Secretary may resubmit an application in any subsequent solicitation.

(4) CRITERIA FOR PROJECT EVALUATION AND SELECTION.—

(1) IN GENERAL.—The Secretary may select a project only if the Secretary determines that the project—

(A) will significantly improve the performance of the national surface transportation network, nationally or regionally;

(B) is based on the results of preliminary engineering;

(C) cannot be readily and efficiently completed without Federal support from this program;

(D) is justified based on the ability of the project—

(i) to generate national economic benefits that reasonably exceed its costs, including increased access to jobs, labor, and other critical economic inputs;

(ii) to reduce long-term congestion, including increases in the State, region, and Nation, and increase speed, reliability, and accessibility of the movement of people or freight; and

(iii) to improve transportation safety, including reducing transportation accidents, [injuries.] and serious injuries; and

(E) is supported by an acceptable degree of non-Federal financial commitments, including evidence of stable and dependable financing sources to construct, maintain, and operate the infrastructure facility.

(2) ADDITIONAL CONSIDERATIONS.—In evaluating a project under this section, in addition to the criteria in paragraph (1), the Secretary shall consider the extent to which the project—

(A) leverages Federal investment by encouraging non-Federal contributions to the project and such costs, including increased access to jobs, labor, and other critical economic inputs;

(B) is able to begin construction within 18 months of the date of resubmission;

(C) incorporates innovative project delivery and financing where practical;

(D) stimulates collaboration between States and among State and local governments;

(E) helps maintain or protect the environment;

(F) improves roadways vital to national energy security;

(G) uses innovative technologies, including intelligent transportation systems, that enhance efficiency of the project; and

(H) contributes to an equitable geographic distribution of funds under this section and an appropriate balance in addressing the needs of urban and rural communities.

(5) GRANT REQUIREMENTS.—

(1) IN GENERAL.—If a project funded under this section is to construct or improve a privately owned facility or would primarily benefit a private entity, the Federal share of the cost of the project shall be the lesser of 50 percent of the total project cost or the quantified public benefit of the project. The Secretary may allow costs incurred prior to project approval to be used as a credit toward the non-Federal share of the cost of the project. Such costs must be adequately documented, necessary, and allocable to the current phase of the project and such costs may not be included as a cost or used to meet cost sharing or matching requirements of any other federally financed project.

(g) FEDERAL SHARE OF PROJECT COST.—

(1) IN GENERAL.—If a project funded under this section is to construct or improve a privately owned facility or would primarily benefit a private entity, the Federal share shall be the lesser of 50 percent of the total project cost or the quantified public benefit of the project. The Secretary may allow costs incurred prior to project approval to be used as a credit toward the non-Federal share of the cost of the project. Such costs must be adequately documented, necessary, and allocable to the current phase of the project and such costs may not be included as a cost or used to meet cost sharing or matching requirements of any other federally financed project.

(2) PRE-APPROVAL COSTS.—The Secretary may allow costs incurred prior to project approval to be used as a credit toward the non-Federal share of the cost of the project. Such costs must be adequately documented, necessary, and allocable to the current phase of the project and such costs may not be included as a cost or used to meet cost sharing or matching requirements of any other federally financed project.

(h) REPORT TO THE SECRETARY.—For each project funded under this section, the project sponsor shall reassess system performance and report to the Secretary 2, 7, and 15 years after completion of the project to assess if the project outcomes have met pre-construction projections.

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, to remain available until expended, $1,000,000,000 for fiscal year 2013.

(j) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, projects funded under this section shall be treated as projects on a Federal-aid system highway under chapter 1 of title 23, United States Code.

Subtitle B—Performance Management

SEC. 1201. METROPOLITAN TRANSPORTATION PLANNING.

Section 134 of title 23, United States Code, is amended to read as follows:

"134. Metropolitan transportation planning

(a) POLICY.—It is in the national interest—

(1) to encourage and promote the safe, cost-effective, and efficient management, operation, and development of surface transportation systems that efficiently meet the mobility needs of individuals and freight, reduce transportation-related fatalities and serious injuries, and foster economic growth and development within and between States and urbanized areas, while fitting the needs and complexity of individual communities, maximizing MPO taxpayer leveraging, cooperative investments, and minimizing transportation-related fuel consumption and air pollution through the metropolitan and statewide transportation planning processes identified in this title;

(2) to encourage the continued improvement, evolution, and coordination of the metropolitan and statewide transportation planning processes by and among metropolitan planning organizations, State departments of transportation, regional planning organizations, interstate partnerships, and public transit and intercity service operators as guided by the planning factors identified in subsection (h) of this section and section 133(f); and

(3) to encourage and promote transportation needs and decisions that are integrated with other planning needs and priorities.

(b) DEFINITIONS.—In this section and section 135, the following definitions apply:

(1) EXISTING MPO.—The term "existing MPO" means a metropolitan planning organization that was designated as a metropolitan planning organization on the day before the date of enactment of this Act, and includes any MPO subsequently designated to carry out this section, to remain available under this title after completion of the project to assess if the project outcomes have met pre-construction projections.

(2) LOCAL OFFICIAL.—The term 'local official' means any elected or appointed official of general purpose local government with responsibility for transportation in a designated area.

(3) MAINTENANCE AREA.—The term 'maintenance area' means an area that was designated as an air quality nonattainment area, but was later redesignated by the Administrator of the Environmental Protection Agency as an air quality attainment area, under section 107(d) of the Clean Air Act (42 U.S.C. 7407(d)).

(4) METROPOLITAN PLANNING AREA.—The term 'metropolitan planning area' means a transportation-related fuel consumption and air pollution through the metropolitan and statewide transportation planning processes identified in this title.

(5) LOCAL OFFICIAL.—The term 'local official' means any elected or appointed official of general purpose local government with responsibility for transportation in a designated area.

(6) METROPOLITAN TRANSPORTATION PLANNING.—The term 'metropolitan transportation planning area' means a metropolitan area designated as an air quality attainment area, but was later redesignated by the Administrator of the Environmental Protection Agency as an air quality attainment area, under section 107(d) of the Clean Air Act (42 U.S.C. 7407(d)).

(7) NONATTAINMENT AREA.—The term 'nonattainment area' means an area that was designated as an air quality nonattainment area, but was later redesignated by the Administrator of the Environmental Protection Agency as an air quality attainment area, under section 107(d) of the Clean Air Act (42 U.S.C. 7407(d)).
“(A) IN GENERAL.—The term ‘nonmetropolitan area’ means a geographical area outside the boundaries of a designated metropolitan planning area.

(B) INCLUSION.—The term ‘nonmetropolitan area’ includes small urbanized and nonurbanized areas.

(9) NONMETROPOLITAN PLANNING ORGANIZATION.—The term ‘nonmetropolitan planning organization’ means an organization designated by a State to enhance the planning process, and implementa-
tion of statewide transportation plans and programs in a nonmetropolitan area, with an emphasis on addressing the needs of non-
metropolitan planning areas.

(B) INCLUSION.—The term ‘nonmetropolitan planning organization’ includes a rural planning organization.

(10) REGIONALLY SIGNIFICANT.—The term ‘regionally significant’, with respect to a transportation project, program, service, or strategy, means a project, program, service, or strategy that—

(A) serves regional transportation needs (such as access to and from the area outside of the activity centers in the region, and major planned developments); and

(B) would normally be included in the modeling of a transportation network of a metropolitan area.

(11) RURAL PLANNING ORGANIZATION.—The term ‘rural planning organization’ means an organization that—

(A) was designated as a metropolitan planning organization as of the day before the date of enactment of the MAP-21; and

(B) is not designated as a tier I or tier II metropolitan planning organization.

(12) STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM.—The term ‘statewide transportation improvement program’ means a statewide transportation improvement pro-
gram developed by a State under section 138(e).

(13) TRANSPORTATION IMPROVEMENT PROGRAM.—The term ‘transportation improvement program’ means a program devel-
oped by a metropolitan planning organization under subsection (j).

(14) URBANIZED AREA.—The term ‘urbanized area’ means a geographical area with a population of 50,000 or more individuals, as determined by the Bureau of the Census.

(c) DESIGNATION OF METROPOLITAN PLANNING ORGANIZATION TIER.—Each metropolitan planning area shall be designated as a tier I or tier II metropolitan planning organization.

(1) IN GENERAL.—To carry out the metropolitan transportation planning process under this section, a metropolitan planning organization shall be designated for each urbanized area with a population of more than 200,000 individuals—

(A) by agreement between the applicable Governor and local officials that, in the aggregate, represent at least 75 percent of the affected population; and

(B) in accordance with procedures established by applicable State or local law.

(2) SMALL URBANIZED AREAS.—To carry out the transportation planning process under this section, a metropolitan planning organization may be designated for an urbanized area with a population of more than 50,000, but less than 200,000, individuals—

(A) by agreement between the applicable Governor and local officials that, in the aggregate, represent at least 75 percent of the affected population (including the largest in-
corporated city (based on population), as de-
termined by the Bureau of the Census); and

(B) with the consent of the Secretary, based on a finding that the resulting metro-
politan planning organization has met the minimum requirements under subsection (e)(4)(B).

(3) STRUCTURE.—Effective beginning on the date of designation or redesignation under this subsection, a metropolitan planning organization shall consist of—

(A) elected local officials in the relevant metropolitan planning area;

(B) officials of public agencies that admin-
ister or operate major modes of transport-
ation in the relevant metropolitan area; and

(C) appropriate State officials.

(4) EFFECT OF SUBSECTION.—Nothing in this subsection interferes with any authority under any State law in effect on December 31, 1991, or public agency with multimodal transportation responsibilities—

(A) to develop the metropolitan transpor-
tation plans and transportation improve-
ment programs for a metropolitan planning organization; or

(B) to develop capital plans, coordinate transit services and projects, or carry out other administrative or other activities.

(5) CONTINUING DESIGNATION.—The designation of a metropolitan planning organization under this subsection or any other provision of law—

(A) for an urbanized area with a popu-
lation of 200,000 or more individuals shall re-
maintained in effect—

(i) for the period during which the struc-
ture of the existing MPO complies with the requirements of paragraph (i); and

(ii) until the date on which the existing MPO is redesignated under paragraph (7); and

(B) for an urbanized area with a popu-
lation of less than 200,000 individuals shall be terminated on the date that is 3 years after the date on which the Secretary pro-
mulgated a regulation pursuant to transpor-
tation section (e)(4)(B) is confirmed by the existing MPO and the applicable Governor and approved by the Secretary, on the basis of meeting the minimum requirements established by the regulation.

(6) EXTENSION.—

(A) IN GENERAL.—If the applicable Gov-
er and local officials in the relevant meta-
politan planning area meet the minimum re-
quirements under subsection (e)(4)(B), requests a probationary con-
tinuation before the termination of the met-
ropolitain planning organization, the Sec-
tary shall—

(1) delay the termination of the metro-
politan planning organization under para-
graph (5)(B) for a period of 1 year; and

(ii) provide additional technical assist-
ance to all metropolitan planning organiza-
tions provided an extension under this para-
graph to assist the metropolitan planning or-
ganization in meeting the minimum require-
ments under subsection (e)(4)(B)(ii).

(B) DESIGNATION AS TIER II MPO.—If the Secretary determines the metropolitan planning organization has met the minimum re-
quirements under subsection (e)(4)(B)(ii) be-
fore the final termination date, the metro-
politan planning organization shall be desig-
nated as a tier II MPO.

(7) REDISTRIBUTION.—In the case of a metropolitan planning organization under this subsection shall remain in effect until the date on which the metropolitan planning organization is redesignated, as appropriate, in accordance with the requirements of this subsection pursuant to an agreement be-

(A) the applicable Governor; and

(B) affected local officials who, in the ag-
gregate, represent at least 75 percent of the affected population (including the largest incor-
porated city (based on population), as de-
termined by the Bureau of the Census), as determined by the Bureau of the Census.

(8) DESIGNATION OF MULTIPLE MPOS.—

(A) IN GENERAL.—More than 1 metropoli-
tan planning organization may be designated for a metropolitan planning area only if the applicable Governor and an existing MPO determine that the size and complexity of the existing metropolitan planning area make the designation of more than 1 metropolitan planning organization for the metropolitan planning area appro-

(C) TIER DESIGNATION.—The tier designa-
tion of each metropolitan planning organiza-
tion subject to a designation under this para-

(D) METROPOLITAN PLANNING AREA BOUNDAR-

(1) IN GENERAL.—For purposes of this sec-
tion, the boundaries of a metropolitan plan-
ning area shall be determined by agreement between the applicable metropolitan planning organization and the Governor of the State in which the metropolitan planning area is located.

(2) INCLUDED AREA.—Each metropolitan planning area—

(A) shall encompass at least the relevant existing urbanized area and any contiguous area expected to become urbanized within a 20-year forecast period under the applicable metropolitan transportation plan;

(B) may encompass the entire relevant metropolitan statistical area, as defined by the Office of Management and Budget.

(3) IDENTIFICATION.—The designation of each metropolitan area described in clause (1), the boundaries of an existing metropolitan planning area described in that clause (1), and the boundaries of each new metropolitan planning area. The designation by the Bureau of the Census of a new urbanized area within the boundaries of an existing metropolitan planning area shall not require the redesignation of the relevant existing MPO.

(4) NONATTAINMENT AND MAINTENANCE AREAS.—

(A) EXISTING METROPOLITAN PLANNING AREAS.—

(1) IN GENERAL.—Except as provided in clause (ii), notwithstanding paragraph (2), in the case of an urbanized area described as a nonattainment area or maintenance area as of the date of enactment of the MAP-21, the boundaries of the existing metropolitan planning area shall not require the redesignation of the existing metropolitan planning area.
"(i) shall be established in accordance with subsection (c)(1); "(ii) shall encompass the areas described in paragraph (2)(A); "(iii) may encompass the areas described in paragraph (2)(B); and "(iv) may address any appropriate nonattainment area or maintenance area. "(e) REQUIREMENTS.—"(1) PREPARATION OF PLANS AND TIPS.—To accomplish the policy objectives described in subsection (a), each metropolitan planning organization, in cooperation with the applicable State, the United States, and the metropolitan planning organization shall be designated as a tier I MPO, including, at a minimum, modeling, data, staffing, and other technical requirements. "(B) TIER II MPOS.—"(i) IN GENERAL.—Not later than 1 year after the date of enactment of the MAP–21, the Secretary shall publish a regulation that establishes the minimum technical requirements necessary for a metropolitan planning organization to be designated as a tier I MPO, including, at a minimum, modeling, data, staffing, and other technical requirements. "(ii) REQUIREMENTS.—The minimum requirements established under clause (i) shall— "(l) ensure that each metropolitan planning organization has the capabilities necessary to develop the metropolitan transportation plan and transportation improvement program under this section; and "(m) include— "(aa) only the staff resources necessary to operate the metropolitan planning organization; and "(bb) a requirement that the metropolitan planning organization has the technical capacity to conduct the modeling necessary to fulfill the requirements of this section, except that a metropolitan planning organization has a formal agreement with a State to conduct the modeling on behalf of the metropolitan planning organization shall be exempt from the technical capacity requirement. "(ii) INCLUSIONS.—A metropolitan planning organization may be located within an urbanized area with a population of more than 200,000 individuals, as calculated according to the most recent decennial census, and that does not qualify as a tier I MPO under subparagraph (A)(i), shall— "(I) be designated as a tier II MPO; and "(II) follow the processes under subsection (k). "(c) SMALL URBANIZED AREAS.—"(i) IN GENERAL.—Not later than 2 years after the date of publication of the regulation under subparagraph (A), existing MPO operating primarily within an urbanized area with a population of fewer than 200,000, but more than 50,000, individuals (as determined before the date of enactment of the MAP–21), with the support of the applicable Governor, may request designation as a tier II MPO on a determination by the Secretary that the metropolitan planning organization has met the minimum requirements under subparagraph (B)(i). "(ii) ABSENCE OF DESIGNATION.—In the absence of designation as a tier I MPO under clause (i), the metropolitan planning organization shall operate as a tier II MPO until the date on which the Secretary determines the metropolitan planning organization can meet the minimum technical requirements under clause (iv). "(iii) NONATTAINMENT AND MAINTENANCE AREAS.—The Secretary shall treat by the State as a nonattainment area, each metropolitan planning organization designated by the State, by not later than 180 days after the date on which a notice of the negative determination is received, a 6-month plan that includes a description of a method— "(I) to transfer the responsibilities of the metropolitan planning organization to the State; and "(II) to dissolve the metropolitan planning organization. "(iii) ACTION ON DISOLUTION.—On submission of a plan under clause (ii), the metropolitan planning organization shall coordinate with the applicable metropolitan planning organization the responsibilities of the metropolitan planning organization with respect to planning processes, including preparation of metropolitan transportation planning funding until the earlier of— "(aa) the date of dissolution of the metropolitan planning organization; and "(bb) the date that is 4 years after the date of enactment of the MAP–21; and "(II) be treated by the State as a nonattainment area for purposes of this title. "(D) CONSOLIDATION.—"(i) IN GENERAL.—Metropolitan planning organizations operating within contiguous or adjacent urbanized areas may elect to consolidate in order to meet the population thresholds required to achieve designation as a tier I or tier II MPO under this paragraph. "(ii) EFFECT OF SUBSECTION.—Nothing in this subsection requires or prevents consolidation among multiple metropolitan planning organizations located within a single urbanized area. "(E) COORDINATION IN MULTISTATE AREAS.—"(i) IN GENERAL.—The Secretary shall encourage each Governor with responsibility for a portion of a multistate metropolitan area and the appropriate metropolitan planning organizations to take into consideration the planning for regional transportation (including planning for freeways, highways, and rail corridor studies, commuter rail corridor studies, and airport access roads) in support of freight, intercity, or multistate area projects and services that have been developed pursuant to interstate compacts or agreements, or by organizations established under title 49. "(ii) ENGAGEMENT IN METROPOLITAN TRANSPORTATION PLAN AND TIP DEVELOPMENT.—"(aa) In rural or nonmetropolitan areas. The Secretary shall coordinate with the States and other appropriate metropolitan planning organizations to take into consideration the planning for regional transportation (including planning for intercity and freight services) in support of freight, intercity, or multistate area projects and services that have been developed pursuant to interstate compacts or agreements, or by organizations established under section 135. "(bb) In metropolitan areas. The Secretary shall coordinate with the States and other appropriate metropolitan planning organizations to take into consideration the planning for regional transportation (including planning for intercity and freight services) in support of freight, intercity, or multistate area projects and services that have been developed pursuant to interstate compacts or agreements, or by organizations established under title 49.
transportation plans and transportation improvement programs, to the maximum extent practicable.

"(B) NONMETROPOLITAN PLANNING ORGANIZATIONS.—Each metropolitan planning organization that is adjacent or located in reasonably close proximity to a nonmetropolitan planning organization shall consult with that nonmetropolitan planning organization with respect to planning processes, to the maximum extent practicable.

"(4) RELATIONSHIP WITH OTHER PLANNING OFFICIALS.—

"(A) IN GENERAL.—The Secretary shall encourage each metropolitan planning organization to cooperate with Federal, tribal, State, and local officers and entities responsible for other types of planning activities that are affected by transportation in the relevant area, including planning growth, economic development, infrastructure services, housing, other public services, environmental protection, airport operations, high-speed and intercity passenger rail, freight rail, port access, and freight movements, to the maximum extent practicable, to ensure that the metropolitan transportation planning process, metropolitan transportation plans, and transportation improvement programs are developed in cooperation with other related planning activities in the area.

"(B) INCLUSION.—Cooperation under subsection (A) shall include the design and delivery of transportation services within the metropolitan area that are provided by—

(i) Federal aid under sections 202, 203, and 204;

(ii) recipients of assistance under chapter 53 of title 49;

(iii) government agencies and nonprofit organizations (including representatives of the agencies and organizations) that receive Federal transportation assistance from a source other than the Department of Transportation to provide nonemergency transportation services; and

(iv) sponsors of regionally significant programs, projects, and services that are related to transportation and receive assistance from any public or private source.

"(5) COORDINATION OF OTHER FEDERALLY REQUIRED PLANNING PROGRAMS.—The Secretary shall encourage each metropolitan planning organization to coordinate, to the maximum extent practicable, the development of metropolitan transportation plans and transportation improvement programs with other relevant federally required planning programs.

"(6) SCOPE OF PLANNING PROCESS.—

"(1) IN GENERAL.—The metropolitan transportation planning process for a metropolitan area, except as otherwise provided in this subsection, includes—

(i) processes to develop the metropolitan area transportation plan, as described in subsection (d), and updates in the metropolitan area transportation plan, where applicable, and

(ii) incorporation of transportation planning process requirements for the relevant metropolitan planning area under this section shall be, to the maximum extent practicable, in compliance with the relevant area, including planning growth and economic development, infrastructure services, housing, other public services, environmental protection, airport operations, high-speed and intercity passenger rail, freight rail, port access, and freight movements, to the maximum extent practicable, to ensure that the metropolitan transportation planning process, metropolitan transportation plans, and transportation improvement programs are developed in cooperation with other related planning activities in the area.

"(B) INCLUSION.—Cooperation under subsection (A) shall include the design and delivery of transportation services within the metropolitan area that are provided by—

(i) Federal aid under sections 202, 203, and 204;

(ii) recipients of assistance under chapter 53 of title 49;

(iii) government agencies and nonprofit organizations (including representatives of the agencies and organizations) that receive Federal transportation assistance from a source other than the Department of Transportation to provide nonemergency transportation services; and

(iv) sponsors of regionally significant programs, projects, and services that are related to transportation and receive assistance from any public or private source.

"(5) COORDINATION OF OTHER FEDERALLY REQUIRED PLANNING PROGRAMS.—The Secretary shall encourage each metropolitan planning organization to coordinate, to the maximum extent practicable, the development of metropolitan transportation plans and transportation improvement programs with other relevant federally required planning programs.

"(6) SCOPE OF PLANNING PROCESS.—

"(1) IN GENERAL.—The metropolitan transportation planning process for a metropolitan area, except as otherwise provided in this subsection, includes—

(i) processes to develop the metropolitan area transportation plan, as described in subsection (d), and updates in the metropolitan area transportation plan, where applicable, and

(ii) incorporation of transportation planning process requirements for the relevant metropolitan planning area under this section shall be, to the maximum extent practicable, in compliance with the relevant area, including planning growth and economic development, infrastructure services, housing, other public services, environmental protection, airport operations, high-speed and intercity passenger rail, freight rail, port access, and freight movements, to the maximum extent practicable, to ensure that the metropolitan transportation planning process, metropolitan transportation plans, and transportation improvement programs are developed in cooperation with other related planning activities in the area.

"(B) INCLUSION.—Cooperation under subsection (A) shall include the design and delivery of transportation services within the metropolitan area that are provided by—

(i) Federal aid under sections 202, 203, and 204;

(ii) recipients of assistance under chapter 53 of title 49;

(iii) government agencies and nonprofit organizations (including representatives of the agencies and organizations) that receive Federal transportation assistance from a source other than the Department of Transportation to provide nonemergency transportation services; and

(iv) sponsors of regionally significant programs, projects, and services that are related to transportation and receive assistance from any public or private source.

"(5) COORDINATION OF OTHER FEDERALLY REQUIRED PLANNING PROGRAMS.—The Secretary shall encourage each metropolitan planning organization to coordinate, to the maximum extent practicable, the development of metropolitan transportation plans and transportation improvement programs with other relevant federally required planning programs.

"(6) SCOPE OF PLANNING PROCESS.—

"(1) IN GENERAL.—The metropolitan transportation planning process for a metropolitan area, except as otherwise provided in this subsection, includes—

(i) processes to develop the metropolitan area transportation plan, as described in subsection (d), and updates in the metropolitan area transportation plan, where applicable, and

(ii) incorporation of transportation planning process requirements for the relevant metropolitan planning area under this section shall be, to the maximum extent practicable, in compliance with the relevant area, including planning growth and economic development, infrastructure services, housing, other public services, environmental protection, airport operations, high-speed and intercity passenger rail, freight rail, port access, and freight movements, to the maximum extent practicable, to ensure that the metropolitan transportation planning process, metropolitan transportation plans, and transportation improvement programs are developed in cooperation with other related planning activities in the area.

"(B) INCLUSION.—Cooperation under subsection (A) shall include the design and delivery of transportation services within the metropolitan area that are provided by—

(i) Federal aid under sections 202, 203, and 204;

(ii) recipients of assistance under chapter 53 of title 49;

(iii) government agencies and nonprofit organizations (including representatives of the agencies and organizations) that receive Federal transportation assistance from a source other than the Department of Transportation to provide nonemergency transportation services; and

(iv) sponsors of regionally significant programs, projects, and services that are related to transportation and receive assistance from any public or private source.

"(5) COORDINATION OF OTHER FEDERALLY REQUIRED PLANNING PROGRAMS.—The Secretary shall encourage each metropolitan planning organization to coordinate, to the maximum extent practicable, the development of metropolitan transportation plans and transportation improvement programs with other relevant federally required planning programs.

"(6) SCOPE OF PLANNING PROCESS.—

"(1) IN GENERAL.—The metropolitan transportation planning process for a metropolitan area, except as otherwise provided in this subsection, includes—

(i) processes to develop the metropolitan area transportation plan, as described in subsection (d), and updates in the metropolitan area transportation plan, where applicable, and

(ii) incorporation of transportation planning process requirements for the relevant metropolitan planning area under this section shall be, to the maximum extent practicable, in compliance with the relevant area, including planning growth and economic development, infrastructure services, housing, other public services, environmental protection, airport operations, high-speed and intercity passenger rail, freight rail, port access, and freight movements, to the maximum extent practicable, to ensure that the metropolitan transportation planning process, metropolitan transportation plans, and transportation improvement programs are developed in cooperation with other related planning activities in the area.

"(B) INCLUSION.—Cooperation under subsection (A) shall include the design and delivery of transportation services within the metropolitan area that are provided by—

(i) Federal aid under sections 202, 203, and 204;

(ii) recipients of assistance under chapter 53 of title 49;

(iii) government agencies and nonprofit organizations (including representatives of the agencies and organizations) that receive Federal transportation assistance from a source other than the Department of Transportation to provide nonemergency transportation services; and

(iv) sponsors of regionally significant programs, projects, and services that are related to transportation and receive assistance from any public or private source.

"(5) COORDINATION OF OTHER FEDERALLY REQUIRED PLANNING PROGRAMS.—The Secretary shall encourage each metropolitan planning organization to coordinate, to the maximum extent practicable, the development of metropolitan transportation plans and transportation improvement programs with other relevant federally required planning programs.

"(6) SCOPE OF PLANNING PROCESS.—

"(1) IN GENERAL.—The metropolitan transportation planning process for a metropolitan area, except as otherwise provided in this subsection, includes—

(i) processes to develop the metropolitan area transportation plan, as described in subsection (d), and updates in the metropolitan area transportation plan, where applicable, and

(ii) incorporation of transportation planning process requirements for the relevant metropolitan planning area under this section shall be, to the maximum extent practicable, in compliance with the relevant area, including planning growth and economic development, infrastructure services, housing, other public services, environmental protection, airport operations, high-speed and intercity passenger rail, freight rail, port access, and freight movements, to the maximum extent practicable, to ensure that the metropolitan transportation planning process, metropolitan transportation plans, and transportation improvement programs are developed in cooperation with other related planning activities in the area.

"(B) INCLUSION.—Cooperation under subsection (A) shall include the design and delivery of transportation services within the metropolitan area that are provided by—

(i) Federal aid under sections 202, 203, and 204;

(ii) recipients of assistance under chapter 53 of title 49;

(iii) government agencies and nonprofit organizations (including representatives of the agencies and organizations) that receive Federal transportation assistance from a source other than the Department of Transportation to provide nonemergency transportation services; and

(iv) sponsors of regionally significant programs, projects, and services that are related to transportation and receive assistance from any public or private source.

"(5) COORDINATION OF OTHER FEDERALLY REQUIRED PLANNING PROGRAMS.—The Secretary shall encourage each metropolitan planning organization to coordinate, to the maximum extent practicable, the development of metropolitan transportation plans and transportation improvement programs with other relevant federally required planning programs.

"(6) SCOPE OF PLANNING PROCESS.—

"(1) IN GENERAL.—The metropolitan transportation planning process for a metropolitan area, except as otherwise provided in this subsection, includes—

(i) processes to develop the metropolitan area transportation plan, as described in subsection (d), and updates in the metropolitan area transportation plan, where applicable, and

(ii) incorporation of transportation planning process requirements for the relevant metropolitan planning area under this section shall be, to the maximum extent practicable, in compliance with the relevant area, including planning growth and economic development, infrastructure services, housing, other public services, environmental protection, airport operations, high-speed and intercity passenger rail, freight rail, port access, and freight movements, to the maximum extent practicable, to ensure that the metropolitan transportation planning process, metropolitan transportation plans, and transportation improvement programs are developed in cooperation with other related planning activities in the area.

"(B) INCLUSION.—Cooperation under subsection (A) shall include the design and delivery of transportation services within the metropolitan area that are provided by—

(i) Federal aid under sections 202, 203, and 204;

(ii) recipients of assistance under chapter 53 of title 49;

(iii) government agencies and nonprofit organizations (including representatives of the agencies and organizations) that receive Federal transportation assistance from a source other than the Department of Transportation to provide nonemergency transportation services; and

(iv) sponsors of regionally significant programs, projects, and services that are related to transportation and receive assistance from any public or private source.
outlay of obligated project funds and delivery of projects that have reached substantial completion in relation to—
(a) the projects included in the transportation improvement program; and
(b) the projects that have been removed from the previous transportation improvement program; and
(B) In appropriate, an analysis of how the preferred scenario has improved the conditions and performance of the transportation system and how changes in local policies, land use, and growth have impacted the costs necessary to achieve the identified performance targets.
(v) recommended strategies and investments for improving system performance over the planning horizon, including transportation systems management and operations strategies, maintenance strategies, demand management strategies, asset management strategies, capacity and enhancement investments, State and local economic development and land use improvements, intelligent transportation systems deployment, and technology adoption strategies, as determined by the projected support of the performance targets described in subsection (h)(2);
(vi) recommended strategies and investments to improve and integrate disability-related transportation infrastructure, including strategies and investments based on a preferred scenario, when appropriate;
(vii) investment priorities for using projected available and proposed revenues over the short- and long-term stages of the planning horizon, in accordance with the financial plan required under paragraph (4);
(viii) a description of interstate compacts entered into in order to promote coordinated transportation planning in multistate areas, if applicable;
(ix) an optional illustrative list of projects containing investments that—
(A) are not included in the metropolitan transportation plan; but
(B) would be so included if resources in addition to the resources identified in the financial plan under paragraph (4) were available;
(x) a discussion (developed in consultation with Federal, State, and tribal wildlife, land management, and regulatory agencies) of types of potential environmental and stormwater mitigation activities and potential activities that those activities, including activities that may have the greatest potential to restore and maintain the environmental functions affected by the metropolitan transportation plan; and
(xi) recommended strategies and investments, including those developed by the State as part of interstate compacts, agreements for organizations, that support intercity transportation.
(3) SCENARIO DEVELOPMENT.—When preparing the metropolitan transportation plan, the metropolitan planning organization may, while fitting the needs and complexity of their community, develop multiple scenarios for consideration as a part of the development of the metropolitan transportation plan, in accordance with subparagraph (B).
(B) COMPONENTS OF SCENARIOS.—The scenarios—
(i) shall include potential regional investment strategies for the planning horizon;
(ii) shall be prepared by each metropolitan planning organization, in cooperation with the State and any affected public transportation operator, the metropolitan planning organization for any metropolitan area that is a nonattainment area or maintenance area shall coordinate the development of a transportation plan with the process for development of the State implementation plan required by the Clean Air Act (42 U.S.C. 7401 et seq.);
(iii) shall include a scenario that, to the maximum extent practicable, maintains baseline conditions for as many of the performance measures identified in subsection (h)(2); and
(iv) may include a scenario that improves the performance measures by mode.
(iv) Freight movement.
(v) Safety.
(vi) Efficiency and costs to taxpayers.
(i) SCENARIO DEVELOPMENT.—
(A) In general.—When preparing the metropolitan transportation plan, the metropolitan planning organization may, while fitting the needs and complexity of its community, develop multiple scenarios for consideration as a part of the development of the metropolitan transportation plan, in accordance with subparagraph (B).
(B) COMPONENTS OF SCENARIOS.—The scenarios—
(i) shall include potential regional investment strategies for the planning horizon;
(ii) shall be prepared by each metropolitan planning organization, in cooperation with the State and any affected public transportation operator, the metropolitan planning organization for any metropolitan area that is a nonattainment area or maintenance area shall coordinate the development of a transportation plan with the process for development of the State implementation plan required by the Clean Air Act (42 U.S.C. 7401 et seq.);
(iii) shall include a scenario that, to the maximum extent practicable, maintains baseline conditions for as many of the performance measures identified in subsection (h)(2); and
(iv) may include a scenario that improves the performance measures by mode.
(iv) Freight movement.
(v) Safety.
(vi) Efficiency and costs to taxpayers.
(2) CONTENTS.—
(i) shall include potential regional investment strategies for the planning horizon;
(ii) efficiency and costs to taxpayers.
(iii) Freight movement.
(iv) Safety.
(v) shall be revenue constrained based on the total revenue, under subsection (h)(2) as possible;
(vi) may include estimated costs and potential revenues available to support each scenario.
(3) SCENARIO DEVELOPMENT.—
(A) In general.—When preparing the metropolitan transportation plan, the metropolitan planning organization may, while fitting the needs and complexity of its community, develop multiple scenarios for consideration as a part of the development of the metropolitan transportation plan, in accordance with subparagraph (B).
(B) COMPONENTS OF SCENARIOS.—The scenarios—
(i) shall include potential regional investment strategies for the planning horizon;
(ii) may include a scenario that, to the maximum extent practicable, maintains baseline conditions for the performance measures identified in subsection (h)(2);
(iii) may include a scenario that improves the performance measures by as many of the performance measures as possible;
(iv) shall be revenue constrained based on the total revenue available to be available over the forecast period of the plan; and
(v) may include estimated costs and potential revenues available to support each scenario.
(4) FINANCIAL PLAN.—A financial plan referred to in paragraph (3) shall—
(A) be prepared by each metropolitan planning organization to support the metropolitan transportation plan; and
(B) contain a description of each of the following:
(i) Projected resource requirements for implementing projects, strategies, and services included in the metropolitan transportation plan, including existing and projected system operating and maintenance needs, proposed enhancements and expansions to the system, and revenues (including additional revenues from Federal, State, local, and private sources, and innovative financing techniques to finance projects and programs);
(ii) the projected difference between costs and revenues, and strategies for securing additional new revenue (such as by capturing some of the economic value created by any new investment);
(iii) Estimates of future funds, to be developed cooperatively by the metropolitan planning organization, any public transportation agency served by the metropolitan planning organization, in cooperation with the State and any affected public transportation operator, shall provide an opportunity for participation by interested parties, in accordance with subsection (h)(4);
(iv) may include a scenario that improves the performance measures by mode.
(iv) Freight movement.
(v) Safety.
(vi) Efficiency and costs to taxpayers.
(5) COORDINATION WITH CLEAN AIR ACT AGENCIES.—The metropolitan planning organization for any metropolitan area that is a nonattainment area or maintenance area shall coordinate the development of a transportation plan with the process for development of the State implementation plan required by the Clean Air Act (42 U.S.C. 7401 et seq.);
(6) PUBLICATION.—On approval by the relevant metropolitan planning organization, a metropolitan transportation plan involving Federal participation shall be, at such times and in such manner as the Secretary shall require—
(A) published or otherwise made readily available by the metropolitan planning organization for public review, including (to the maximum extent practicable) in electronically accessible formats and means, such as the Internet; and
(B) submitted for informational purposes to the applicable Governor.
(7) CONSULTATION.—
(A) In general.—In each metropolitan area, the metropolitan planning organization shall consult, as appropriate, with Federal, tribal, State, and local land use management agencies, for land use management, natural resources, environmental protection, conservation, and historic preservation concerning the development of a metropolitan transportation plan.
(B) ISSUES.—The consultation under subparagraph (A) shall involve, as available, consideration of—
(i) metropolitan transportation plans with Federal, tribal, State, and local conservation plans or maps; and
(ii) inventories of natural or historic resources.
(8) SELECTION OF PROJECTS FROM ILLUSTRATIVE LIST.—Notwithstanding paragraph (4), a State or metropolitan planning organization shall not be required to select any project from the illustrative list of additional projects included in the metropolitan transportation plan under paragraph (2)(C)(ix).
(9) TRANSPORTATION IMPROVEMENT PROGRAM.—
(i) DEVELOPMENT.—
(A) In general.—In cooperation with the appropriate State and any affected public transportation operator, the metropolitan planning organization designated for a metropolitan area shall develop a transportation improvement program for the metropolitan planning area that—
(i) contains projects consistent with the current metropolitan transportation plan;
(ii) reflects the investment priorities established in the current metropolitan transportation plan; and
(iii) once implemented, will make significant progress toward achieving the targets established under subsection (h)(2); and
(B) OPPORTUNITY FOR PARTICIPATION.—In developing the transportation improvement program, the metropolitan planning organization, in cooperation with the State and any affected public transportation operator, shall provide an opportunity for participation by interested parties, in accordance with subsection (h)(4);
(C) UPDATING AND APPROVAL.—The transportation improvement program shall be—
(i) submitted not less than once every 4 years, on a cycle compatible with the development of the relevant statewide transportation improvement program under section 1333 and
(ii) approved by the applicable Governor.
(2) CONTENTS.—
‘(A) PRIORITY LIST.—The transportation improvement program shall include a priority list of proposed federally supported projects and strategies to be carried out during the 4-year period beginning on the date of adoption of the transportation improvement program, and each 4-year period thereafter, using existing and reasonably available project planning information consistent with the financial plan under paragraph (3).

‘(B) DESCRIPTIONS.—Each project described in the transportation improvement program shall, to the greatest extent practicable, be described in sufficient detail to allow the reader, consistent with the categories identified in section 139(b), to determine the effectiveness of the project or project phase that will have in addressing the targets described in subsection (h)(2).

‘(C) PERFORMANCE TARGET ACHIEVEMENT.—The transportation improvement program shall include, to the maximum extent practicable, a description of the anticipated effect of the transportation improvement program on attainment of the performance targets established in the metropolitan transportation plan, linking investment priorities to the performance targets.

‘(D) ILLUSTRATIVE LIST OF PROJECTS.—In developing a transportation improvement program, an optional illustrative list of projects shall be prepared containing additional investment priorities that—

‘(i) are not included in the transportation improvement program from the transportation improvement program; and

‘(ii) would be so included if resources in addition to the resources identified in the financial plan under paragraph (3) were available.

‘(3) FINANCIAL PLAN.—A financial plan referred to in paragraph (2)(D)(ii) shall—

‘(A) be prepared by each metropolitan planning organization and submitted to the metropolitan planning organization for projects funded under this title; and

‘(B) contain a description of each of the following:

‘(i) Projected resource requirements for implementing projects, strategies, and services recommended in the transportation improvement program, including existing and projected system operating and maintenance needs, proposed enhancements and expansions to the system, projected available revenue from Federal, State, local, and private sources, and financing techniques to finance projects and programs.

‘(ii) The projected difference between costs and improvements that would result in an additional new revenue (such as by capture of some of the economic value created by any new investment).

‘(iii) Estimated levels of future funds, to be developed cooperatively by the metropolitan planning organization, any public transportation agency, and the State, that are reasonably expected to be available to support the investment priorities recommended in the transportation improvement program.

‘(iv) Each applicable project, only if full funding has been anticipated to be available for the project within the time period contemplated for completion of the project.

‘(4) INCLUDED PROJECTS.—

‘(A) PROJECTS UNDER THIS TITLE AND CHAPTER 49.—A transportation improvement program developed under this subsection for a metropolitan area shall include a description of the projects within the area that are proposed for funding under chapter 1 of this title and chapter 35 of title 49.

‘(B) PROJECTS UNDER CHAPTER 2.—

‘(i) Regionally significant.—Each regionally significant project proposed for funding under chapter 2 shall be identified individually in the transportation improvement program.

‘(ii) Nonregionally significant.—A description of each project proposed for funding under chapter 2 that is not determined to be regionally significant shall be contained in 1 or more performance-based plans in the transportation improvement program.

‘(5) OPPORTUNITY FOR PARTICIPATION.—Before approving a transportation improvement program prepared cooperatively by the metropolitan planning organization, in cooperation with the State and any affected public transportation operator, shall provide an opportunity for participation by the planning organization in the development of the transportation improvement program, in accordance with subsection (h)(4).

‘(6) SELECTION OF PROJECTS.—

‘(A) IN GENERAL.—Each tier I MPO and tier II MPO shall select projects carried out within the boundaries of the applicable metropolitan planning area from the transportation improvement program, in consultation with the relevant State and on concurrence of the affected facility owner, for funds apportioned to the State under section 108(b)(2) and suballocated to the metropolitan planning area under section 139(d).

‘(B) CMAQ PROJECTS.—Each tier I MPO shall select projects carried out within the boundaries of the applicable metropolitan planning area from the transportation improvement program, in consultation with the relevant State and on concurrence of the affected facility owner, for funds apportioned to the State under section 108(b)(4) and suballocated to the metropolitan planning area under section 139(d).

‘(C) MODIFICATIONS TO PROJECT PRIORITY.—Notwithstanding any other provision of law, approval by the Secretary shall not be required to change the order of transportation improvement program in place of another project in the transportation improvement program.

‘(7) PUBLICATION.—

‘(A) IN GENERAL.—A transportation improvement program shall be published or otherwise made readily available by the applicable metropolitan planning organization for public review in electronically accessible formats and means, such as the Internet.

‘(B) ANNUAL LIST OF PROJECTS.—An annual list of projects receiving investments in pedestrian walkways, bicycle transportation facilities, and intermodal facilities that support intercity transportation, for which Federal funds have been obligated during the preceding fiscal year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization in electronically accessible formats and means, such as the Internet, in a manner that is consistent with the categories identified in the relevant transportation improvement program.

‘(8) PLANNING REQUIREMENTS FOR TIER II MPOS.—

‘(A) IN GENERAL.—The Secretary may provide for the performance-based development of a metropolitan transportation plan and transportation improvement program for the metropolitan planning area of a tier II MPO only if the tier II MPO, as the Secretary determines to be appropriate, taking into account—

‘(i) the complexity of transportation needs in the area; and

‘(ii) the technical capacity of the metropolitan planning organization.

‘(B) EVALUATION OF PERFORMANCE-BASED PLANNING PROCESSES.—If the Secretary determines under subsection (m), the Secretary shall take into consideration the effectiveness of the tier II MPO in implementing and maintaining a performance-based planning organization that—

‘(i) addresses the targets described in subsection (h)(2); and

‘(ii) demonstrates progress on the achievement of those targets.

‘(1) CERTIFICATION.—

‘(i) IN GENERAL.—The Secretary shall ensure that the metropolitan transportation planning process of a metropolitan planning organization is being carried out in accordance with applicable Federal law and

‘(ii) subject to paragraph (2), not less frequently than once every 4 years, that the requirements of subparagraph (A) are met with respect to the metropolitan transportation planning process.

‘(2) REQUIREMENTS FOR CERTIFICATION.—The Secretary may make a certification under paragraph (1)(B) if—

‘(A) the metropolitan transportation planning process complies with the requirements of this section and other applicable Federal law; and

‘(B) a transportation improvement program for the metropolitan planning area has been approved by the relevant metropolitan planning organization and Governor.

‘(3) DELEGATION OF AUTHORITY.—The Secretary may—

‘(A) delegate to the appropriate State fact-finding authority regarding the certification of a tier II MPO under this subsection; and

‘(B) make the certification under paragraph (1) in consultation with the State.

‘(4) EFFECT OF FAILURE TO CERTIFY.—

‘(A) WITHHOLDING OF PROJECT FUNDS.—If a metropolitan planning organization's process of a metropolitan planning organization is not certified under paragraph (1), the Secretary may withhold up to 20 percent of the funds attributable to the metropolitan planning area of the metropolitan planning organization for projects funded under this title and chapter 35 of title 49.

‘(B) WITHHOLDING OF PROJECT FUNDS.—Any funds withheld under subparagraph (A) shall be restored to the metropolitan planning area on the date of certification of the metropolitan transportation planning process by the Secretary.

‘(5) PUBLIC INVOLVEMENT.—In making a determination regarding certification under this subsection, the Secretary shall provide for public involvement appropriate to the metropolitan planning area under review.

‘(6) PERFORMANCE-BASED PLANNING PROCESSES EVALUATION.—

‘(1) IN GENERAL.—The Secretary shall establish criteria to evaluate the effectiveness of performance-based planning processes of metropolitan planning organizations under this section, taking into consideration the following:

‘(i) The extent to which the metropolitan planning organization has achieved, or is currently making substantial progress toward achieving, the targets specified in subsection (h)(2), taking into account whether the metropolitan planning organization developed meaningful performance targets.

‘(ii) The extent to which the metropolitan planning organization has used proven best practices that help ensure transportation investment that is efficient and cost-effective.

‘(C) The extent to which the metropolitan planning organization—

‘(i) has developed an investment process that relies on public input and awareness to ensure that investments are transparent and accountable with respect to the performance of the metropolitan planning organization.

‘(ii) provides regular reports allowing the public to access the information being collected in a format that allows the public to meaningfully assess the performance of the metropolitan planning organization.

‘(D) REPORT.—

‘(A) IN GENERAL.—Not later than 5 years after the date of enactment of the MAP-21, the Secretary shall submit to Congress a report evaluating—
“(1) the overall effectiveness of performance-based planning as a tool for guiding transportation investments; and
“(ii) the effectiveness of the performance-based planning process of each metropolitan planning organization under this section.

“(B) PUBLICATION.—The report under subparagraph (A) shall be published or otherwise made available in a technically accessible format and, where possible, on the Internet.

“ADDITIONAL REQUIREMENTS FOR CERTAIN NONATTAINMENT AREAS.—
“(1) IN GENERAL.—Notwithstanding any other provision of this title or chapter 33 of title 49, Federal funds may not be advanced in any nonattainment area or maintenance area for any highway project that will result in a significant increase in the carrying capacity for single-occupant vehicles, unless the owner or operator of the project demonstrates that the project will achieve or make substantial progress toward achieving the targets described in subsection (b)(2).

“(2) APPLICABILITY.—This subsection applies to any nonattainment area or maintenance area within the boundaries of a metropolitan planning area, as determined under subsection (c).

“(o) EFFECT OF SECTION.—Nothing in this section provides to any metropolitan planning organization any authority to change any legal requirement on any transportation facility, provider, or project not subject to the requirements of this title or chapter 33 of title 49.

“(p) FUNDING.—Funds apportioned under section 104(b)(6) of this title and set aside under section 5306(g) of title 49 shall be available to the States for the purposes of this section.

“(q) CONTINUATION OF CURRENT REVIEW PRACTICE.—
“(1) IN GENERAL.—In consideration of the factors described in paragraph (2), any decision by the Secretary concerning a metropolitan transportation plan or transportation improvement program shall not be considered to be a Federal action subject to review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

“(2) DESCRIPTION OF FACTORS.—The factors referred to in paragraph (1) are that—

“(A) metropolitan transportation plans and transportation improvement programs are subject to a reasonable opportunity for public participation;

“(B) the projects included in metropolitan transportation plans and transportation improvement programs are subject to review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

“(C) decisions by the Secretary concerning metropolitan transportation plans and transportation improvement programs have not been reviewed under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

“(d) SCOPE OF PLANNING PROCESS.—
“(1) IN GENERAL.—The statewide transportation plan and state-wide transportation improvement program shall—

“(A) be an intermodal transportation system for the State; and

“(B) an integral part of an intermodal transportation system for the United States.

“(3) PROCESS.—The process for developing the statewide transportation plan and state-wide transportation improvement program shall—

“(A) provide for consideration of all modes of transportation; and

“(B) be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation needs to be addressed.

“SEC. 1202. STATEWIDE AND NONMETROPOLITAN TRANSPORTATION PLANNING.

“(a) IN GENERAL.—Title 23, United States Code, is amended to read as follows:

“135. Statewide and nonmetropolitan transportation planning

“(a) STATEWIDE TRANSPORTATION PLANS AND STUDIES.—

“(1) DEVELOPMENT.—

“(A) IN GENERAL.—To accomplish the policy objectives described in section 133(a), each State shall develop a statewide transportation plan and statewide transportation improvement program for all areas of the State in accordance with this section.

“(B) INCORPORATION OF METROPOLITAN TRANSPORTATION PLANS.—Each State shall incorporate in the statewide transportation plan and statewide transportation improvement program, without changing its existing exercise of discretion, the metropolitan transportation plans and transportation improvement programs, respectively, for each metropolitan planning area in the State.

“(C) NONMETROPOLITAN AREAS.—Each State shall [coordinate] consult with local officials in small urbanized and nonurbanized areas of the State in preparing the nonmetropolitan portions of statewide transportation plans and statewide transportation improvement programs.

“(2) CONTENTS.—The statewide transportation plan and statewide transportation improvement program developed for each State shall provide for the development and integrated management and operation of transportation systems, including accessible pedestrian walkways, bicycle transportation facilities, and intermodal facilities that support intercity transportation (that will function as)

“(A) an intermodal transportation system for the State; and

“(B) an integral part of an intermodal transportation system for the United States.

“(3) PROCESS.—The process for developing the statewide transportation plan and state-wide transportation improvement program shall—

“(A) provide for consideration of all modes of transportation; and

“(B) be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation needs to be addressed.

“Coordination.

“(1) IN GENERAL.—Each State shall—

“(A) coordinate planning carried out under this section with—

“(i) the transportation planning activities carried out under section 134 for metropolitan areas of the State; and

“(ii) statewide trade and economic development planning activities and related multistate planning efforts;

“(B) coordinate planning carried out under this section with the transportation planning activities carried out by each nonmetropolitan planning organization in the State, as applicable; and

“(C) develop the transportation portion of the State implementation plan as required by the Clean Air Act (42 U.S.C. 7401 et seq.).

“(D) develop the transportation portion of the State implementation plan as required by the Clean Air Act (42 U.S.C. 7401 et seq.).

“(D) SCOPE OF PLANNING PROCESS.—

“(1) IN GENERAL.—The statewide transportation planning process for a State under this section shall include the coordination of projects, strategies, and services that will—

“(D) maintain coordination and cooperation along designated transportation corridors.

“(E) INTERSTATE COMPACTS.—For purposes of this section, any 2 or more States—

“(A) may enter into compacts, agreements, or organizations not in conflict with any Federal law for cooperative efforts and mutual assistance in support of activities authorized under this section, as the activities relate to interstate areas and localities within the States;

“(B) may establish such agencies (joint or otherwise) as the States determine to be appropriate for ensuring the effectiveness of the agreements and compacts; and

“(C) may enter into such compacts, agreements, or organizations as are appropriate to develop planning documents in support of intercity or multistate areas, facilities, or components, or the relevant components of which shall be reflected in statewide transportation improvement programs and statewide transportation plans.

“(E) IN GENERAL.—The Secretary shall encourage each State to cooperate with Federal, tribal, State, and local officers and entities responsible in other types of planning activities that are affected by transportation in the relevant area (including planned growth, economic development, infrastructure services, housing, other public services, environmental protection, airport operations, high-speed and intercity passenger rail, freight rail, port access, and freight movements), to the maximum extent practicable, to ensure that the activities described in this section are consistent with the nonmetropolitan planning process, statewide transportation plans, and statewide transportation improvement programs are developed with due consideration for other related planning activities in the State.

“(F) INCLUSION.—Cooperation under paragraph (1) shall include the design and delivery of transportation services within the State that are provided by—

“(G) government agencies and nonprofit organizations (including representatives of the agencies and organizations) that receive Federal assistance from a source other than the Department of Transportation to provide nonemergency transportation services; and

“(H) electronic accessibility of transportation planning for the entire designated corridor.
“(A) support the economic vitality of the United States, the State, nonmetropolitan areas, and metropolitan areas, especially by enabling global competitiveness, productivity and efficiency enhancements;

“(B) increase the safety of the transportation system for motorized and nonmotorized users;

“(C) increase the security of the transportation system for motorized and nonmotorized users;

“(D) increase the accessibility and mobility of individuals and freight;

“(E) protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistent between transportation improvements and State and local planned growth and economic development patterns;

“(F) ensure integration and connectivity of the transportation system, across and between modes, for individuals and freight;

“(G) increase efficient system management and operation; and

“(H) emphasize the preservation of the existing transportation system.

“(2) STATEWIDE APPROACH.—

“(A) IN GENERAL.—The statewide transportation planning process shall provide for the establishment and use of a performance-based transportation decision-making process, to support the national goals described in section 150(b).

“(B) IN GENERAL.—Each State shall establish performance targets that address the performance measures described in sections 119(e), 128(h), 150(k), and 156(i) to use in tracking attainment of critical outcomes for the region of the State.

“(ii) COORDINATION.—Selection of performance measures shall be consistent with relevant metropolitan planning organizations to ensure consistency, to the maximum extent practicable.

“(C) INTEGRATION OF OTHER PERFORMANCE-BASED PLANS.—A State shall integrate into the statewide transportation planning process, directly or by reference, the goals, objectives, performance measures, and targets described in this paragraph in other plans and programs required as part of a performance-based program, including plans such as—

“(i) the State National Highway System asset management plan;

“(ii) the State strategic highway safety plan; and

“(iii) the congestion mitigation and air quality performance plan; and

“(iv) the national freight strategic plan.

“(D) USE OF PERFORMANCE MEASURES AND TARGETS.—The performance measures and targets established under this paragraph shall be used, at a minimum, by a State as the basis for development of programs, policies, and investment priorities reflected in the transportation plan and statewide transportation improvement program.

“(E) FAILURE TO CONSIDER FACTORS.—The failure to take into consideration 1 or more of the factors specified in paragraphs (1) and (2) shall not be subject to review by any court under this title, chapter 53 of title 49, subchapter II of chapter 5 of title 5, or chapter 7 of title 5 in any matter affecting a State under jurisdiction of Federal land management agencies, including land use management, natural resources, infrastructure permitting, environmental protection, conservation, and historic preservation.

“(F) COMPARISON AND CONSIDERATION.—Consultation under subparagraph (A) shall include the comparison of statewide transportation plans to, as available—

“(i) Federal, tribal, State, and local conservation plans or maps; and

“(ii) Inventories of natural or historic resources.

“(G) STATEWIDE TRANSPORTATION PLAN.—

“(1) DEVELOPMENT.—(A) IN GENERAL.—Each State shall develop a statewide transportation plan, the forecast period of which shall be not less than 20 years, for all areas of the State that provide for the development and implementation of the intermodal transportation system of the State.

“(B) INITIAL PERIOD.—A statewide transportation plan shall include, at a minimum, for the first 10-year period of the statewide transportation plan, the identification of existing and future transportation facilities that will function as an integrated statewide transportation system, giving emphasis to those facilities that serve important national, state, and regional transportation functions.

“(C) SUBSEQUENT PERIOD.—For the second 10-year period of the statewide transportation plan (referred to in this subsection as the "outer years period"), a statewide transportation plan—

“(i) shall describe identification of future transportation facilities; and

“(ii) shall describe the policies and strategies that provide for the development and implementation of the intermodal transportation system of the State.

“(D) OTHER REQUIREMENTS.—A statewide transportation plan shall—

“(i) include, for the 20-year period covered by the statewide transportation plan, a description of—

“(aa) the projected aggregate cost of projects anticipated by a State to be implemented; and

“(bb) the revenues necessary to support the projects; and

“(ii) include, in such form as the Secretary determines to be appropriate, a description of—

“(aa) the existing transportation infrastructure, including an identification of highways, local streets and roads, bicycle and pedestrian facilities, transit facilities and services, commuter rail facilities and services, high-speed and intercity passenger rail facilities and services, freight facilities (including freight railroad and port facilities), multimodal and intermodal facilities, and intermodal connectors that, evaluated in the aggregate, function as an integrated transportation system;

“(bb) the performance measures and performance targets used in assessing the existing and future performance of the transportation system described in subsection (d)(2); and

“(CC) the current and projected future usage of the transportation system, including, to the maximum extent practicable, an identification of existing or planned transportation rights-of-way, corridors, facilities, and related real properties;

“(IV) a system performance report evaluating the existing and future condition and performance of the transportation system with respect to the performance targets described in subsection (d)(2) and updates to subsequent system performance reports, including—

“(aa) progress achieved by the State in meeting performance targets, as compared to system performance recorded in previous reports, including—

“(bb) an accounting of the performance by the State on outlay of obligated project...
funds and delivery of projects that have reached substantial completion, in relation to the projects currently on the statewide transportation improvement program and those that may have been removed from the previous statewide transportation improvement program;

(V) recommended strategies and investment plans for system performance over the planning horizon, including transportation systems management and operations strategies, maintenance strategies, demand management strategies, asset management strategies, capacity and enhancement investments, land use improvements, intelligent transportation systems performance and technology adoption strategies as determined by the projected support of targets described in subsection (d)(2);

(VI) strategies and investments projects to improve and integrate disability-related access to transportation infrastructure;

(VII) investment priorities for using projected and proposed revenues over the short- and long-term stages of the planning horizon, in accordance with the financial plan required under paragraph (2);

(VIII) a description of interstate compacts entered into in order to promote coordinated transportation planning in multiple states, if applicable;

(IX) an optional illustrative list of projects containing investments—

(a) are not included in the statewide transportation plan;

(bb) would be so included if resources in addition to the resources identified in the financial plan under paragraph (2) were available;

(X) a discussion developed in consultation with Federal, State, and tribal wildlife, land use, and regulatory agencies of types of potential environmental and stormwater mitigation activities and potential areas to carry out those activities, including activities that may have the greatest potential to restore and maintain the environmental functions affected by the statewide transportation plan; and

(XI) recommended strategies and investments, including those developed by the State as part of interstate compacts, agreements, or organizations, that support intercity transportation;

(III) be updated by the State not less frequently than once every 5 years;

(2) A financial plan referred to in paragraph (1)(D)(ii)(VII) shall—

(A) be prepared by each State to support the statewide transportation plan; and

(B) contain a description of each of the following:

(i) Projected resource requirements during the 20-year planning horizon for implementing projects, strategies, and services recommended in the statewide transportation plan, including existing and projected system operating and maintenance needs, proposed enhancements and expansions to the system, projected available revenue from Federal, State, local, and private sources, and innovative financing techniques to finance projects and programs.

(ii) The projected difference between costs and revenues, and strategies for securing additional new revenue (such as by capture of some of the economic value created by any new investment).

(iii) Estimates of future funds, to be developed cooperatively by the State, any public transportation agency, and relevant metropolitan planning organizations, that are reasonably expected to be available to support the investment priorities recommended in the statewide transportation plan;

(iv) Each applicable project, only if full funding can reasonably be anticipated to be available for the project within the time period contemplated for completion of the project.

(V) For the outer years period of the statewide transportation plan described in subsection (d)(2), a description of the aggregate cost ranges or bands, subject to the condition that any future funding source shall be reasonably expected to be available to support the projected cost ranges or bands.

(3) COORDINATION WITH CLEAN AIR ACT AGENCIES.—For any nonmetropolitan area that is a nonattainment area or maintenance area, the State shall coordinate the development of the statewide transportation plan with the transportation control measures included in the transportation improvement plan required by the Clean Air Act (42 U.S.C. 7401 et seq.).

(4) PUBLIC TRANSPORTATION—A statewide transportation plan involving Federal and non-Federal participation programs, projects, and strategies shall be published or otherwise made readily available by the State for public review, including (to the maximum extent practicable) in electronically accessible formats and means, such as the Internet, in support of the implementation of the transportation plan. The plan shall include sufficient descriptive material (such as type of work, termini, length, estimated completion date, and other similar factors) to identify—

(i) the project or project phase; and

(ii) the effect that the project or project phase will have in addressing the targets described in subsection (d)(2).

(5) USE OF POLICY PLANS.—Notwithstanding any other provision of this section, a State that has in effect, as of the date of enactment of the MAP-21, a statewide transportation plan that follows a policy plan approach—

(A) may, for 4 years after the date of enactment of the MAP-21, continue to use a policy plan approach to the statewide transportation plan; and

(B) shall be subject to the requirements of subsection (d) only to the extent that such requirements were applicable under this section (as in effect on the date before the date of enactment of the MAP-21).

(6) STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAMS.—

(I) DEVELOPMENT.—

(A) IN GENERAL.—In [cooperation] consultation with Federal, State, and tribal officials with responsibility for transportation and affected public transportation operators, the State shall develop a statewide transportation improvement program for the State that—

(i) includes projects consistent with the statewide transportation plan; and

(ii) reflects the investment priorities established in the statewide transportation plan; and

(iii) once implemented, makes significant progress toward achieving the targets described in subsection (d)(2).

(B) OPPORTUNITY FOR PARTICIPATION.—In developing a statewide transportation improvement program, including existing and projected system operating and maintenance needs, proposed enhancements and expansions to the system, projected available revenue from Federal, State, local, and private sources, and innovative financing techniques to finance projects and programs.

(ii) OPPORTUNITY FOR PARTICIPATION.—In developing a statewide transportation improvement program, the State shall include in the plan opportunity for participation by interested parties in the development of the statewide transportation improvement program, in accordance with subsection (e).

(iii) OTHER REQUIREMENTS.—

(A) In developing a statewide transportation improvement program shall—

(1) cover a period of not less than 4 years; and

(2) be updated not less frequently than once every 4 years, or more frequently, as the Governor determines to be appropriate.

(B) INCORPORATION OF TIPS.—A statewide transportation improvement program shall be prepared containing additional investment priorities that—

(i) are not included in the statewide transportation improvement program; but

(ii) would be so included if resources in addition to the resources identified in the financial plan under paragraph (2) were available.

(II) FINANCIAL PLAN.—A financial plan referred to in paragraph (2) shall—

(A) be prepared by each State to support the state transportation improvement program; and

(B) contain a description of each of the following:

(i) Projected resource requirements for implementing projects, strategies, and services recommended in the statewide transportation plan, including existing and projected system operating and maintenance needs, proposed enhancements and expansions to the system, projected available revenue from Federal, State, local, and private sources, and innovative financing techniques to finance projects and programs.

(ii) The projected difference between costs and revenues, and strategies for securing additional new revenue (such as by capture of some of the economic value created by any new investment).

(iii) Estimates of future funds, to be developed cooperatively by the State and relevant metropolitan planning organizations, that are reasonably expected to be available to support the investment priorities recommended in the transportation plan.

(iv) Each applicable project, only if full funding can reasonably be anticipated to be available for the project within the time period contemplated for completion of the project.
in the statewide transportation improvement program.

"(iv) Each applicable project, only if full funding can reasonably be anticipated to be available in the period contemplated for completion of the project.

"(v) Included Projects.—(A) Projects Under This Title and Chapter 3 of Title 9.—A statewide transportation improvement program developed under this subsection for a State shall include projects that were proposed for funding under chapter 1 of this title and chapter 53 of title 49.

"(B) Annual List of Projects.—An annual list of projects, including investments in pedestrian walkways, bicycle transportation facilities, and intermodal facilities that support intercity transportation, for which Federal law; and

"(B) projects included in statewide transportation plans and statewide transportation improvement programs are subject to review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

"(v) publication.—(A) General.—The Secretary shall submit to Congress a report under this section and section 135 of title 49.

sec. 135. National Goals

"(1) IN GENERAL.—To improve the national freight transportation system.

"(2) EFFECT OF FAILURE TO CERTIFY.—(A) Without Funds.—If a statewide transportation planning process of a State is not certified under paragraph (1), the Secretary shall withhold up to 20 percent of the funds attributable to the State for projects funded under this title and chapter 53 of title 49.

"(3) PUBLICATION.—Any funds withheld under subparagraph (A) shall be restored to the State on the date of certification of the statewide transportation planning process by the Secretary.

"(4) PUBLIC INVOLVEMENT.—In making a determination regarding certification under this subsection, the Secretary shall provide for public involvement appropriate to the State under review.

"(5) PERFORMANCE-BASED PLANNING PROCESSES EVALUATION.—(1) IN GENERAL.—The Secretary shall establish criteria to evaluate the effectiveness of the performance-based planning processes of States, taking into consideration the following:

"(A) the extent to which the State has developed an investment process that relies on public input and awareness to ensure that investments are transparent and accountable; and

"(d) CONFORMING AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by striking section 135 and inserting the following:

"sec. 135. Statewide and nonmetropolitan transportation planning.

"(c) General.—The map—

"(A) The extent to which the State has used planning processes that help ensure efficient and cost-effective transportation investment that is efficient and cost-effective.

"(C) The extent to which the State—

"(1) IN GENERAL.—Not later than 5 years after the date of enactment of the MAP–21, the Secretary shall submit to Congress a report evaluating—

"(3) SYSTEM RELIABILITY.—To maintain the highway infrastructure asset system in a state of good repair.

"(4) FREIGHT MOVEMENT AND ECONOMIC ViTALITY.—To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development.

"(5) ENVIRONMENTAL SUSTAINABILITY.—To enhance the performance of the transportation system while protecting and enhancing the natural environment.
is amended by striking the item relating to section 150 and inserting the following: “150. National goals.”

Subtitle C—Acceleration of Project Delivery

SEC. 1301. PROJECT DELIVERY INITIATIVE.

(a) In General.—It is the policy of the United States that—

(1) it is in the national interest for the Department, State departments of transportation, and all other recipients of Federal transportation funds—

(A) to accelerate project delivery and reduce costs; and

(B) to ensure that the planning, design, engineering, construction, and financing of transportation projects is done in an efficient and effective manner, promoting accountability, prudent investments and encouraging greater private sector involvement in project financing and delivery while enhancing safety and protecting the environment;

(2) delay in the delivery of transportation projects increases project costs, harms the economy of the United States, and impedes the travel of the people of the United States and the shipment of goods for the conduct of commerce; and

(3) the Secretary shall identify and promote best practices to accelerate delivery of Federal-aid highway projects and reducing the time and money required to deliver transportation projects while enhancing safety and protecting the environment.

(b) In General.—(1) In GENERAL.—To advance the policy described in subsection (a), the Secretary shall carry out a project delivery initiative under this section.

(2) PURPOSE.—The purposes of the project delivery initiative shall be—

(A) to develop and advance the use of best practices to accelerate project delivery and reduce costs across all modes of transportation and expedite the deployment of technology and innovation;

(B) to implement provisions of law designed to accelerate project delivery; and

(C) to select eligible projects for applying experimental features to test innovative project delivery techniques.

(3) ADVANCING THE USE OF BEST PRACTICES.—

(i) In GENERAL.—In carrying out the initiative under this section, the Secretary shall identify and advance best practices to reduce delivery time and project costs, from planning through construction, for transportation projects and programs of projects regardless of mode and project size.

(ii) ADMINISTRATION.—To advance the use of best practices, the Secretary shall—

(1) engage interested parties, affected communities, resource agencies, and other stakeholders to gather information regarding opportunities for accelerating project delivery and reducing costs;

(2) establish a clearinghouse for the collection, documentation, and advancement of existing and new innovative approaches and best practices;

(3) disseminate information through a variety of means to transportation stakeholders on new innovative approaches and best practices; and

(4) provide technical assistance to assist transportation stakeholders in the use of flexible agencies to analyze project delays and accelerate project delivery if feasible.

(iii) IMPLEMENTATION OF ACCELERATED PROJECT DELIVERY.—The Secretary shall ensure that the provisions of this subtitle designed to accelerate project delivery are fully implemented, including—

(A) the availability of early acquisition of property prior to completion of environmental review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(B) allowing the use of the construction manager or general contractor method of contracting in the Federal-aid highway system; and

(C) establishing a demonstration program to streamline the relocation process by permitting a lump-sum payment for acquisition and relocation if elected by the displaced occupant.

SEC. 1302. CLARIFIED ELIGIBILITY FOR EARLY ACQUISITION IN ACTIVITIES PRIOR TO COMPLETION OF NEPA REVIEW.

(a) In General.—The acquisition of real property in anticipation of a federally assisted or aided surface transportation project that may use the property shall not be prohibited prior to the completion of reviews of the surface transportation project under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) if the acquisition does not—

(1) have an adverse environmental effect; or

(2)(A) limit the choice of reasonable alternatives for the proposed project; or

(B) prevent the lead agency from making an impartial determination whether to reject an alternative that is being considered during the environmental review process.

(b) EARLY ACQUISITION OF REAL PROPERTY INTERESTS FOR HIGHWAYS.—Section 106 of title 23, United States Code, is amended—

(1) in the section heading by inserting “interests” after “real property”;

(2) in subsection (a) by inserting “interests” after “real property” each place it appears; and

(3) in subsection (c)—

(I) in the subsection heading by striking “RIGHTS-OF-WAY” and inserting “REAL PROPERTY INTERESTS”;

(II) by striking “(2)” and inserting “(3)”

(III) by striking “(1)” and inserting “(2)”;

(iv) by striking paragraph (2) and inserting the following:

“(2) T H E M S A N D C O N D I T I O N S.—

(A) ACQUISITION OF REAL PROPERTY INTERESTS.—

(i) In General.—Subject to the other provisions of this section, prior to completion of the review process for the project required by the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), a public authority may carry out acquisition of real property interests that may be used for a project. 

(ii) REQUIREMENTS.—An acquisition under clause (i) may be authorized by project agreement and is eligible for Federal-aid reimbursement as a project expense if the Secretary finds that the acquisition—

(I) will not cause any significant adverse environmental impact;

(II) will not limit the choice of reasonable alternatives for the project or otherwise influence the decision of the Secretary on any approval required for the project;

(III) does not prevent the lead agency from making an impartial decision as to whether the alternative that is being considered in the environmental review process;

(IV) is consistent with the State transportation long-range program under section 138; and

(V) complies with other applicable Federal laws (including regulations);”

“(VI) will be achieved through negotiation, without the threat of condemnation; and

“(VII) will not result in a reduction or elimination of benefits or assistance to a displaced person required under the Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.) and title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.).

“(B) DEVELOPMENT.—Real property interests acquired under this subsection may not be developed in anticipation of a project until all required environmental reviews for the project have been completed.

“(C) REIMBURSEMENT.—If Federal-aid reimbursement is made for real property interests acquired early under this section, the real property interests are not subsequently incorporated into a project eligible for surface transportation funds within the time allowed by subsection (a)(3), the Secretary shall offset the amount reimbursed against funds apportioned to the State.

“(D) OTHER CONDITIONS.—The Secretary may establish such other conditions or restrictions on acquisitions as the Secretary determines to be appropriate.”.

SEC. 1303. EFFICIENCIES IN CONTRACTING.

(a) AUTHORITY.—Section 112(b) of title 23, United States Code, is amended by adding at the end the following:

“(4) CONSTRUCTION MANAGER; GENERAL CONTRACTOR.—

“(A) PROCEDURE.—

“(i) In GENERAL.—A contracting agency may award a 2-phase contract to a construction manager or general contractor for preconstruction and construction services.

“(ii) PHASE 1—CONSTRUCTION MANAGEMENT.—In the preconstruction phase of a contract under this subparagraph, the owner and the construction manager agree to a price for the construction of the project or a portion of the project.

“(iii) PHASE 2—CONSTRUCTION.—In the construction phase of a contract under this subparagraph, the owner and the construction manager agree to a price for the construction of the project or a portion of the project.

“(b) TIMING.—(C) TIMING.—

“(i) In GENERAL.—Prior to the award of the second phase of a contract under this subparagraph, the owner and the construction manager shall agree to a price for the construction of the project or a portion thereof.

“(ii) PHASE 2—CONSTRUCTION.—In the construction phase of a contract under this subparagraph, the owner and the construction manager agree to a price for the construction of the project or a portion of the project.

“(c) IN GENERAL.—Prior to the award of the second phase of a contract under this subparagraph, the owner and the construction manager agree to a price for the construction of the project or a portion of the project as determined in paragraph (b)(2)(C).

“(d) SELECTION.—(B) SELECTION.—A contract shall be awarded to a construction manager or general contractor under this paragraph using a competitive selection process under which the contract is awarded on the basis of—

(i) qualifications;

(ii) experience;

(iii) best value; or

(iv) any other combination of factors considered appropriate by the contracting agency.

“(e) TIMING.—(C) TIMING.—Prior to the completion of the environmental review process required under section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), the contracting agency may issue requests for proposals, proceed with the award of the first phase of construction manager or general contractor contract, and issue notices to proceed with preliminary design, to the extent that those actions do not limit any reasonable range of alternatives.

“(f) NEPA PROCESS.—(B) NEPA PROCESS.—(I) In GENERAL.—A contracting agency shall not proceed with the award of the second phase of a contract under this subparagraph until all required environmental reviews for the project have been completed.

“(II) CONSTRUCTION.—In the construction phase of a contract under this subparagraph, the owner and the construction manager agree to a price for the construction of the project or a portion of the project.”

(II) REQUIREMENT.—The Secretary shall require that a contract include appropriate provisions to ensure achievement of the objectives of section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332) and other applicable Federal laws and regulations occurs.

(iii) SECRETARIAL APPROVAL.—Prior to authorizing construction activities, the Secretary shall:

(A) estimate the construction time for the project; and

(B) any price agreement with the general contractor for the project or a portion of the project.

(iv) TERMINATION PROVISION.—The Secretary shall require a contract to include an appropriate termination provision, in the event that a no-build alternative is selected.

(b) REGULATIONS.—The Secretary shall promulgate such regulations as are necessary to carry out the amendment made by subsection (a).

(c) EFFECT ON EXPERIMENTAL PROGRAM.—Nothing in this section or the amendment made by this section affects the authority to carry out any experimental program carried out under any experimental program concerning construction manager risk that is being carried out by the Secretary as of the date of enactment of this Act.

SEC. 1304. INNOVATIVE PROJECT DELIVERY METHODS

(a) DECLARATION OF POLICY.

(1) IN GENERAL.—Congress declares that it is in the national interest to promote the use of innovative technologies and practices that increase the efficiency of construction of, improve the safety of, and extend the service life of highways and bridges.

(2) INCLUSIONS.—The innovative technologies and practices described in paragraph (1) include state-of-the-art intelligent technologies and practices described in paragraphs (1), (2), and (5) of section 104(b).

(b) REGULATIONS.—The Secretary shall promulgate appropriate regulations or procedures of a cooperating authority for multimodal projects that fall under the modal expertise of the lead authority.

(c) APPLICATION OF CATEGORICAL EXCLUSIONS FOR MULTIMODAL PROJECTS.

(1) General.—Section 304 of title 49, United States Code, is amended to read as follows:

§ 304. Application of categorical exclusions for multimodal projects.

(a) DEFINITIONS.—In this section:

(B) EXAMPLES.—Projects, programs, and activities described in subparagraph (A) may include the use of—

(i) innovative construction equipment, materials, or techniques, including the use of in-place recycling technology and digital 3-dimensional modeling technologies;

(ii) innovative construction methods, including the design-build and the construction manager-general contractor contracting methods;

(iii) intelligent compaction equipment; or

(iv) contractual provisions that offer a contractor an incentive payment for early completion of the project, program, or activity, subject to the condition that the incentives are accounted for in the financial plan of the project, when applicable.

(c) LIMITATIONS.—

(i) In general.—In each fiscal year, a State may use the authority under subparagraph (A) for up to 10 percent of the combined apportionments of the State under paragraphs (1), (2), and (5) of section 104(b).

(ii) FEDERAL SHARE INCREASE.—The Federal share payable on account of a project or activity described in subparagraph (A) may not exceed 5 percent of the total project cost.

SEC. 1305. ASSISTANCE TO AFFECTED STATE AND LOCAL AGENCIES

Section 1394 of title 23, United States Code, is amended by adding at the end the following:

(6) MEMORANDUM OF UNDERSTANDING.—Prior to providing funds approved by the Secretary for dedicated staffing at an affected Federal agency under paragraphs (1) and (2), the affected Federal agency and the Secretary shall enter into a memorandum of understanding that establishes the projects and priorities to be addressed by the use of the funds.

SEC. 1306. APPLICATION OF CATEGORICAL EXCLUSIONS FOR MULTIMODAL PROJECTS.

(a) General.—Section 304 of title 49, United States Code, is amended to read as follows:

§ 304. Application of categorical exclusions for multimodal projects.

(a) DEFINITIONS.—In this section:

(1) COOPERATING AUTHORITY.—The term 'cooperating authority' means a Department of Transportation operating authority that has expertise.

(2) LEAD AUTHORITY.—The term 'lead authority' means a Department of Transportation operating administration or secretarial office that—

(A) is the lead authority over a proposed multimodal project; and

(B) has determined that the components of the project that fall under the modal expertise of the lead authority—

(i) satisfy the conditions for a categorical exclusion under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(ii) the multimodal project is funded on account of a project or activity carried under subparagraph (A) for up to 10 percent of the combined apportionments of the State under paragraphs (1), (2), and (5) of section 104(b);

(iii) the multimodal project has components that require the expertise of a cooperating authority to assess the environmental impacts of the components;

(iv) the component of the project to be carried out by the categorical exclusion of the cooperating authority has independent utility;

(v) the project in which the cooperating authority has expertise.

(b) USE OF CATEGORICAL EXCLUSION.—In a case described in paragraph (1), the 1 or more categorical exclusions of a cooperating authority may be applied by the lead authority under this section, the cooperating authority reviews the project on behalf of the lead authority and determines the project satisfies the conditions for a categorical exclusion under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); implementing regulations or procedures of the cooperating authority and this section.

(2) MODAL COOPERATION.—

(A) IN GENERAL.—A cooperating authority shall provide modal expertise to a lead authority within administrative authority over a multimodal project, the jurisdiction of the project in which the cooperating authority has expertise.

(B) USE OF CATEGORICAL EXCLUSION.—In a case described in paragraph (1), the 1 or more categorical exclusions of a cooperating authority may be applied by the lead authority under this section, the cooperating authority reviews the project on behalf of the lead authority and determines the project satisfies the conditions for a categorical exclusion under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); implementing regulations or procedures of the cooperating authority and this section.

(3) AND INSTRUCTION OF THE SECRETARY.—In a case described in paragraph (1), the Secretary may terminate any assumption of responsibility of the Secretary that the project cost.

SEC. 1307. STATE ASSUMPTION OF RESPONSIBILITY FOR CATEGORICAL EXCLUSIONS.

Section 326 of title 23, United States Code, is amended by adding at the end the following:

§ 326. State assumption of responsibility for categorical exclusions.

(1) TERMINATION BY THE SECRETARY.—The Secretary may terminate any assumption of responsibility under a memorandum of understanding that establishes the projects and priorities to be addressed by the use of funds.

(2) TERMINATION BY THE SECRETARY.—The Secretary may terminate any assumption of responsibility under a memorandum of understanding that establishes the projects and priorities to be addressed by the use of funds.

(3) TERMINATION BY THE SECRETARY.—The Secretary may terminate any assumption of responsibility under a memorandum of understanding that establishes the projects and priorities to be addressed by the use of funds.

(4) TERMINATION BY THE SECRETARY.—The Secretary may terminate any assumption of responsibility under a memorandum of understanding that establishes the projects and priorities to be addressed by the use of funds.

(5) TERMINATION BY THE SECRETARY.—The Secretary may terminate any assumption of responsibility under a memorandum of understanding that establishes the projects and priorities to be addressed by the use of funds.
than the date that is 90 days before the date of termination, and subject to such terms and conditions as the Secretary may provide.; and

(1) by adding at the end the following:

''(1) LEGAL FEES.—A State assuming the responsibilities of the Secretary under this section or any specific project may use funds apportioned to the State under section 104(b)(2) for attorneys fees directly attributable to eligible activities associated with the project.

SEC. 1308. SURFACE TRANSPORTATION PROJECT DELIVERY PROGRAM.

(a) IN GENERAL.—Section 327 of title 23, United States Code, is amended—

(1) in the section heading by striking "pilot";

(2) in subsection (a)—

(A) in paragraph (1) by striking "pilot"; and

(B) in paragraph (2)—

(i) in subparagraph (B) by striking clause (ii) and inserting the following:

''(ii) the Secretary may not assign—

(1) any responsibility imposed on the Secretary by section 134 or 135; or

(2) responsibility for any conformity determination required under section 176 of the Clean Air Act (42 U.S.C. 7506).''; and

(ii) by adding at the end the following:

''(F) SOVEREIGN IMMUNITY.—By executing an agreement with the Secretary and assuming the responsibilities of the Secretary under this section, a State waives the sovereign immunity of the State under the 11th Amendment of the Constitution from suit in Federal court and expressly consents to accept the jurisdiction of the Federal courts with respect to any action relating to the compliance, discharge, and enforcement of any responsibility assigned to the Secretary by the State assumes.

''(G) LEGAL FEES.—A State assuming the responsibilities of the Secretary under this section for a specific project may use funds apportioned to the State under section 104(b)(2) for attorneys fees directly attributable to eligible activities associated with the project.

(b) IN GENERAL.—When preparing a final environmental impact statement under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), if the lead agency makes changes in response to comments that are minor and are confined to factual corrections or explanations of why the comments do not warrant further agency response, the lead agency may write on errata sheets attached to the statement instead of rewriting the draft statement, on the condition that the following—

(1) cite the sources, authorities, or reasons that support the position of the agency; and

(2) if appropriate, indicate the circumstances that would trigger agency re-appraisal or further response.

INTEGRATION.—To the maximum extent practicable, the lead agency shall expeditiously develop a single document that consists of a final environmental impact statement and a record of decision unless—

(1) the final environmental impact statement makes substantial changes to the proposed action that are relevant to environmental or safety concerns; or

(2) there are significant new circumstances on integration relevant to environmental or safety concerns and that bear on the proposed action or the impacts of the proposed action.
SEC. 1312. MEMORANDA OF AGENCY AGREEMENTS FOR EARLY COORDINATION.

(a) In General.—It is the sense of Congress that—

(1) the Secretary and other Federal agencies with relevant jurisdiction in the environmental review process should cooperate with each other and other agencies in environmental review and project delivery activities at the earliest practicable time to avoid delays and duplication of effort later in the process, head off potential conflicts, and ensure that planning and project development decisions reflect environmental values; and

(2) such cooperation should include the development of policies and the designation of staff that advise planning agencies or project sponsors of studies or other information foreseenally required for later Federal action and early consultation with appropriate State and local agencies and Indian tribes.

(b) Technical Assistance.—If requested at any time by a State or local planning agency, the Secretary and other Federal agencies with relevant jurisdiction in the environmental review process, shall, to the extent practicable, provide assistance, as determined by the agencies, to the State or local planning agency on accomplishing coordination activities described in subsection (d).

(c) Memorandum of Agency Agreement.—If requested at any time by a State or local planning agency, the Secretary and other Federal agencies with relevant jurisdiction in the environmental review process, may establish memoranda of agreement with the project sponsor, State, and local governments and other appropriate entities to accomplish the early coordination activities described in subsection (d).

(d) Early Coordination Activities.—Early coordination activities shall include, to the maximum extent practicable, the following:

(1) assistance on identifying potential impacts and mitigation issues in an integrated fashion.

(2) The potential appropriateness of using planning and project decisions in later environmental reviews.

(3) The identification and elimination from detailed study in the environmental review process, of issues that are not significant or that have been covered by prior environmental reviews.

(4) The identification of other environmental consultation requirements so that the lead and cooperating agencies may prepare, as appropriate, other required analyses and studies concurrently with project activities.

(5) The identification by agencies with jurisdiction over any permits related to the project of any and all relevant information that will reasonably be required for the project.

(6) The reduction of duplication between requirements under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and State and local planning and environmental review requirements, unless the agencies are specifically barred from doing so by applicable law.

(7) Timelines for the completion of agency actions during the planning and environmental review processes.

SEC. 1313. ACCELERATED DECISIONMAKING.

Section 139(h) of title 23, United States Code, is amended by striking paragraph (4) and inserting the following:

""(4) INTERIM DECISION ON ACHIEVING ACCELERATED DECISIONMAKING.—

""(A) In General.—Not later than 30 days after the date of receipt of a referral from the Secretary under clause (l), the Council on Environmental Quality shall hold an issue resolution meeting with the lead agency, the heads of relevant participating agencies, and the project sponsor (including the Governor only if an initial request for an issue resolution meeting came from the Governor).

""(B) REFERRAL TO THE PRESIDENT.—If a resolution is not achieved by not later than 30 days after the date of the meeting convened by the Council on Environmental Quality under clause (i)(D), the President shall refer the matter directly to the President.

""(6) FINANCIAL TRANSFER PROVISIONS.—

""(A) In General.—A Federal agency of jurisdiction over an approval required for a project under applicable laws shall complete any required approval on an expeditious basis using the shortest existing applicable process.

""(B) Failure to Decide.—

""(i) In General.—If an agency described in subparagraph (A) fails to render a decision under any Federal law relating to a project within the time required by an environmental impact statement or environmental assessment, including the issuance or denial of a permit, license, or other approval by the agency, such agency shall transfer from the applicable office of the head of the agency, or equivalent office to which the authority for rendering the decision has been delegated by law, to the agency or division charged with rendering a decision, the amount equal to 5 percent of the total cost of the project, for use in rendering a decision.

""(ii) Failure to Decide.—If a decision has been delegated by law, to the agency or division charged with rendering a decision, the amount equal to 5 percent of the total cost of the project, for use in rendering a decision.

""(C) Failure to Issue.—If an agency described in subparagraph (A) fails to issue a decision under any Federal law relating to a project within the time required by an environmental impact statement or environmental assessment, including the issuance or denial of a permit, license, or other approval by the agency, such agency shall transfer from the applicable office of the head of the agency, or equivalent office to which the authority for rendering the decision has been delegated by law, to the agency or division charged with rendering a decision, the amount equal to 5 percent of the total cost of the project, for use in rendering a decision.

""(D) Treatment.—The transferred funds shall only be available to the agency or division charged with rendering the decision as additional resources, pursuant to subparagraph (F).

""(E) No Fault of Agency.—A transfer of funds under subparagraph (B) relating to an individual project shall be reduced, in any fiscal year, by an amount equal to 1 percent of the funds made available for the applicable agency office.

""(F) Referral to the President.—If a transfer of funds under paragraph (D) relating to an approval required for a project under applicable laws shall complete any required approval on an expeditious basis using the shortest existing applicable process.

""(G) Financial Transfer Provisions.—

""(A) In General.—A Federal agency of jurisdiction over an approval required for a project under applicable laws shall complete any required approval on an expeditious basis using the shortest existing applicable process.

""(B) Failure to Decide.—

""(i) In General.—If an agency described in subparagraph (A) fails to render a decision under any Federal law relating to a project within the time required by an environmental impact statement or environmental assessment, including the issuance or denial of a permit, license, or other approval by the agency, such agency shall transfer from the applicable office of the head of the agency, or equivalent office to which the authority for rendering the decision has been delegated by law, to the agency or division charged with rendering a decision, the amount equal to 5 percent of the total cost of the project, for use in rendering a decision.

""(ii) Failure to Decide.—If a decision has been delegated by law, to the agency or division charged with rendering a decision, the amount equal to 5 percent of the total cost of the project, for use in rendering a decision.

""(C) Failure to Issue.—If an agency described in subparagraph (A) fails to issue a decision under any Federal law relating to a project within the time required by an environmental impact statement or environmental assessment, including the issuance or denial of a permit, license, or other approval by the agency, such agency shall transfer from the applicable office of the head of the agency, or equivalent office to which the authority for rendering the decision has been delegated by law, to the agency or division charged with rendering a decision, the amount equal to 5 percent of the total cost of the project, for use in rendering a decision.

""(D) Treatment.—The transferred funds shall only be available to the agency or division charged with rendering the decision as additional resources, pursuant to subparagraph (F).

""(E) No Fault of Agency.—A transfer of funds under paragraph (D) relating to an individual project shall be reduced, in any fiscal year, by an amount equal to 1 percent of the funds made available for the applicable agency office.

""(F) Referral to the President.—If a transfer of funds under paragraph (D) relating to an approval required for a project under applicable laws shall complete any required approval on an expeditious basis using the shortest existing applicable process.
any requirements under State, local, or Federal law; or

(ii) significant new information or circumstances, including a major modification to an existing project, requiring additional analysis for the agency to make a decision on the project application.

(F) TREATMENT OF FUNDS.—

(i) Funds transferred under this paragraph shall supplement resources available to the agency or division charged with making a decision for the purpose of expediting the demonstration program.

(ii) AVAILABILITY.—Funds transferred under this paragraph shall be available for use or obligation for the same period that the funds were originally authorized or appropriated, plus the remainder of the fiscal year.

(iii) LIMITATION.—The Federal agency with jurisdiction for the decision that has transferred the funds pursuant to this paragraph shall not reprogram funds to the office of the head of the agency, or equivalent office, to reimburse that office for the loss of the funds.

(G) AUDITS.—In any fiscal year in which any Federal agency transfers funds pursuant to this paragraph, the Inspector General of that agency shall—

(i) conduct an audit to assess compliance with the requirements of this paragraph; and

(ii) not later than 120 days after the end of the fiscal year during which the transfer occurred, report to the Committee on Environment and Public Works of the Senate and any other appropriate congressional committees a report describing the reasons why the transfers were levied, including allocations of resources.

(H) EFFECT OF PARAGRAPH.—Nothing in this paragraph or (B) limits the application of, or obligation to comply with, any Federal, State, local, or tribal law.

(I) AUTHORITY FOR INTRA-AGENCY TRANSFER OR REALLOCATIONS.—The requirement provided under this paragraph for a Federal agency to transfer or reallocate funds of the Federal agency in accordance with subparagraph (B)(i) shall—

(i) shall be treated by the Federal agency as a requirement and authority consistent with any applicable original law establishing and administering the authority.

(ii) does not provide to the Federal agency the authority to require or determine the intra-agency transfer or reallocation of funds between Federal agencies and/or are within any other Federal agency.

(7) EXPEDITED DECISIONS AND REVIEWS.—To ensure that Federal environmental decisions are expediently made, the report required under this paragraph for a Federal agency to report on or make a determination on the Federal-aid highway program; and

(8) REPORT.—The Secretary shall publish a report describing the reasons why the transfers were levied, including allocations of resources.

(8) REPORT.—The Secretary shall publish a report describing the reasons why the transfers were levied, including allocations of resources.

(9) AUDITS.—In any fiscal year in which any Federal agency transfers funds pursuant to this paragraph, the Inspector General of that agency shall—

(i) conduct an audit to assess compliance with the requirements of this paragraph; and

(ii) not later than 120 days after the end of the fiscal year during which the transfer occurred, report to the Committee on Environment and Public Works of the Senate and any other appropriate congressional committees a report describing the reasons why the transfers were levied, including allocations of resources.

(10) EFFECT OF PARAGRAPH.—Nothing in this paragraph or (B) limits the application of, or obligation to comply with, any Federal, State, local, or tribal law.

(11) AUTHORITY FOR INTRA-AGENCY TRANSFER OR REALLOCATIONS.—The requirement provided under this paragraph for a Federal agency to transfer or reallocate funds of the Federal agency in accordance with subparagraph (B)(i) shall—

(i) shall be treated by the Federal agency as a requirement and authority consistent with any applicable original law establishing and administering the authority.

(ii) does not provide to the Federal agency the authority to require or determine the intra-agency transfer or reallocation of funds between Federal agencies and/or are within any other Federal agency.

(12) EXPEDITED DECISIONS AND REVIEWS.—To ensure that Federal environmental decisions are expediently made, the report required under this paragraph for a Federal agency to report on or make a determination on the Federal-aid highway program; and

(13) REPORT.—The Secretary shall publish a report describing the reasons why the transfers were levied, including allocations of resources.

(14) AUDITS.—In any fiscal year in which any Federal agency transfers funds pursuant to this paragraph, the Inspector General of that agency shall—

(i) conduct an audit to assess compliance with the requirements of this paragraph; and

(ii) not later than 120 days after the end of the fiscal year during which the transfer occurred, report to the Committee on Environment and Public Works of the Senate and any other appropriate congressional committees a report describing the reasons why the transfers were levied, including allocations of resources.

(15) EFFECT OF PARAGRAPH.—Nothing in this paragraph or (B) limits the application of, or obligation to comply with, any Federal, State, local, or tribal law.

(16) AUTHORITY FOR INTRA-AGENCY TRANSFER OR REALLOCATIONS.—The requirement provided under this paragraph for a Federal agency to transfer or reallocate funds of the Federal agency in accordance with subparagraph (B)(i) shall—

(i) shall be treated by the Federal agency as a requirement and authority consistent with any applicable original law establishing and administering the authority.

(ii) does not provide to the Federal agency the authority to require or determine the intra-agency transfer or reallocation of funds between Federal agencies and/or are within any other Federal agency.

(17) EXPEDITED DECISIONS AND REVIEWS.—To ensure that Federal environmental decisions are expediently made, the report required under this paragraph for a Federal agency to report on or make a determination on the Federal-aid highway program; and

(18) REPORT.—The Secretary shall publish a report describing the reasons why the transfers were levied, including allocations of resources.

(19) AUDITS.—In any fiscal year in which any Federal agency transfers funds pursuant to this paragraph, the Inspector General of that agency shall—

(i) conduct an audit to assess compliance with the requirements of this paragraph; and

(ii) not later than 120 days after the end of the fiscal year during which the transfer occurred, report to the Committee on Environment and Public Works of the Senate and any other appropriate congressional committees a report describing the reasons why the transfers were levied, including allocations of resources.

(20) EFFECT OF PARAGRAPH.—Nothing in this paragraph or (B) limits the application of, or obligation to comply with, any Federal, State, local, or tribal law.

(21) AUTHORITY FOR INTRA-AGENCY TRANSFER OR REALLOCATIONS.—The requirement provided under this paragraph for a Federal agency to transfer or reallocate funds of the Federal agency in accordance with subparagraph (B)(i) shall—

(i) shall be treated by the Federal agency as a requirement and authority consistent with any applicable original law establishing and administering the authority.

(ii) does not provide to the Federal agency the authority to require or determine the intra-agency transfer or reallocation of funds between Federal agencies and/or are within any other Federal agency.

(22) EXPEDITED DECISIONS AND REVIEWS.—To ensure that Federal environmental decisions are expediently made, the report required under this paragraph for a Federal agency to report on or make a determination on the Federal-aid highway program; and

(23) REPORT.—The Secretary shall publish a report describing the reasons why the transfers were levied, including allocations of resources.

(24) AUDITS.—In any fiscal year in which any Federal agency transfers funds pursuant to this paragraph, the Inspector General of that agency shall—

(i) conduct an audit to assess compliance with the requirements of this paragraph; and

(ii) not later than 120 days after the end of the fiscal year during which the transfer occurred, report to the Committee on Environment and Public Works of the Senate and any other appropriate congressional committees a report describing the reasons why the transfers were levied, including allocations of resources.

(25) EFFECT OF PARAGRAPH.—Nothing in this paragraph or (B) limits the application of, or obligation to comply with, any Federal, State, local, or tribal law.

(26) AUTHORITY FOR INTRA-AGENCY TRANSFER OR REALLOCATIONS.—The requirement provided under this paragraph for a Federal agency to transfer or reallocate funds of the Federal agency in accordance with subparagraph (B)(i) shall—

(i) shall be treated by the Federal agency as a requirement and authority consistent with any applicable original law establishing and administering the authority.

(ii) does not provide to the Federal agency the authority to require or determine the intra-agency transfer or reallocation of funds between Federal agencies and/or are within any other Federal agency.

(27) EXPEDITED DECISIONS AND REVIEWS.—To ensure that Federal environmental decisions are expediently made, the report required under this paragraph for a Federal agency to report on or make a determination on the Federal-aid highway program; and

(28) REPORT.—The Secretary shall publish a report describing the reasons why the transfers were levied, including allocations of resources.

(29) AUDITS.—In any fiscal year in which any Federal agency transfers funds pursuant to this paragraph, the Inspector General of that agency shall—

(i) conduct an audit to assess compliance with the requirements of this paragraph; and

(ii) not later than 120 days after the end of the fiscal year during which the transfer occurred, report to the Committee on Environment and Public Works of the Senate and any other appropriate congressional committees a report describing the reasons why the transfers were levied, including allocations of resources.
(ii) the completion times of categorical exclusions, environmental assessments, and environmental impact statements initiated after the date of enactment of this Act.

(2) ADDITIONAL REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate reports that describe the results of the assessment.

(c) INSPECTOR GENERAL REPORT.—The Inspector General of the Department of Transportation shall—

(i) conduct a survey of each State using a methodology established under section 104(b) a report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate that describes the results of the findings.

Subtitle D—Highway Safety

SEC. 1401. JASON'S LAW.

(a) IN GENERAL.—It is the sense of Congress that it is a national priority to address projects under this section for the shortage of services for commercial motor vehicles on the National Highway System to improve the safety of motorized and nonmotorized users and for commercial motor vehicle parking facilities.

(b) ELIGIBLE PROJECTS.—Eligible projects under this section are:

(i) service the National Highway System; and

(ii) may include the following:

(A) Constructing safety rest areas (as defined in section 128(c) of title 23, United States Code) for commercial motor vehicles.

(B) Constructing commercial motor vehicle parking facilities adjacent to commercial truck plazas.

(C) Constructing commercial motor vehicle parking facilities, including inspection and weigh stations and park-and-ride facilities.

(D) Promoting the availability of publicly or privately provided commercial motor vehicle parking facilities on a national highway system using intelligent transportation systems and other means.

(E) Constructing turnouts along the National Highway System for commercial motor vehicles.

(F) Making capital improvements to public commercial motor vehicle parking facilities currently closed on a seasonal basis to allow the facilities to remain open year-round.

(G) Improving the geometric design of interchanges on the National Highway System to improve safety of commercial motor vehicle parking facilities.

(h) SURVEY AND COMPARATIVE ASSESSMENT.

(1) IN GENERAL.—The Secretary, in consultation with relevant State motor carrier safety officials, shall conduct a survey regarding the availability of parking facilities within each State—

(A) to evaluate the capability of the State to provide adequate parking and rest facilities for motor carriers engaged in interstate motor carrier commerce;

(B) to assess the volume of motor carrier traffic through the State; and

(C) to develop a system of metrics to measure the adequacy of parking facilities in the State.

(2) RESULTS.—The results of the survey under paragraph (1) shall be made available to the public on the website of the Department of Transportation.

(3) PERIODIC UPDATES.—The Secretary shall periodically update the survey under this subsection.

(d) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, projects funded through the authority provided under this section shall be treated as projects on a Federal-aid system under chapter 1 of title 23, United States Code.

SEC. 1402. OPEN CONTAINER REQUIREMENTS.

Section 140(c) of title 23, United States Code, is amended—

(1) by striking paragraph (2) and inserting the following:

"(2) FISCAL YEAR 2012 AND THEREAFTER.—

"(A) RESERVATION OF FUNDS.—On October 1, 2011, and each October 1 thereafter, if a State has not enacted or is not enforcing an open container law described in subsection (b), the Secretary shall reserve an amount equal to 2.5 percent of the funds to be apportioned to the State on that date under each of paragraphs (1) and (2) of section 104(b) until the State certifies to the Secretary the means by which the Secretary the Secretary will use those reserved funds in accordance with subparagraphs (A) and (B) of paragraph (1) and paragraph (3).

"(B) TRANSFER OF FUNDS.—As soon as practicable after the date of receipt of a certification from a State under subparagraph (A), the Secretary shall—

(i) transfer the reserved funds identified by the State for use as described in subparagraph (A) and (B) of paragraph (1) to the apportionment of the State under section 402; and

(ii) release the reserved funds identified by the State as described in paragraph (3)."

(2) by striking paragraph (3) and inserting the following:

"(3) USE FOR HIGHWAY SAFETY IMPROVEMENT PROGRAM.—

"(A) IN GENERAL.—A State may elect to use all or a portion of the funds transferred under paragraph (2) for activities eligible under section 148.

"(B) STATE DEPARTMENTS OF TRANSPORTATION.—If the State makes an election under paragraph (A), the funds shall be transferred to the department of transportation of the State, which shall be responsible for the administration of the funds; and

(3) by striking paragraph (5) and inserting the following:

"(5) DERIVATION OF AMOUNT TO BE TRANSFERRED.—The amount derived under paragraph (2) may be derived from the following:

"(A) The apportionment of the State under section 104(b)(1).

"(B) The apportionment of the State under section 104(b)(2).

SEC. 1403. MINIMUM PENALTIES FOR REPEAT OFFENDERS FOR DRIVING WHILE INTOXICATED OR DRIVING UNDER THE INFLUENCE.

(a) DEFINITIONS.—Section 164(a) of title 23, United States Code, is amended—

(1) by striking paragraph (3);

(2) by redesignating paragraphs (4) and (5) as paragraphs (3) and (4), respectively; and

(3) in paragraph (4) (as so redesignated) by striking subparagraph (A) and inserting the following:

"(A) receive—

(i) a suspension of all driving privileges for not less than 1 year; or

(ii) a suspension of unlimited driving privileges for 1 year, allowing for the reinstatement of limited subject to restrictions and limited exemptions as established by State law, if an ignition interlock device is installed for not less than 1 year on each of the motor vehicles owned or operated, or both, by the individual;".

(b) TRANSFER OF FUNDS.—Section 164(b) of title 23, United States Code, is amended—

(1) by striking paragraph (2) and inserting the following:

"(2) FISCAL YEAR 2012 AND THEREAFTER.—

"(A) RESERVATION OF FUNDS.—On October 1, 2011, and each October 1 thereafter, if a State has not enacted or is not enforcing a repeated intoxicated driver law, the Secretary shall reserve an amount equal to 6 percent of the funds to be apportioned to the State on that date under each of paragraphs (1) and (2) of section 104(b) until the State certifies to the Secretary the means by which the Secretary will use those reserved funds among the uses authorized under subparagraphs (A) and (B) of paragraph (1), and paragraph (3).

"(B) TRANSFER OF FUNDS.—As soon as practicable after the date of receipt of a certification from a State under subparagraph (A), the Secretary shall—

(i) transfer the reserved funds identified by the State for use as described in subparagraphs (A) and (B) of paragraph (1) to the apportionment of the State under section 402; and

(ii) release the reserved funds identified by the State as described in paragraph (3)."

"(C) USE FOR HIGHWAY SAFETY IMPROVEMENT PROGRAM.—

"(A) IN GENERAL.—A State may elect to use all or a portion of the funds transferred under paragraph (2) for activities eligible under section 148.

"(B) STATE DEPARTMENTS OF TRANSPORTATION.—If the State makes an election under paragraph (A), the funds shall be transferred to the department of transportation of the State, which shall be responsible for the administration of the funds; and

(3) by striking paragraph (5) and inserting the following:

"(5) DERIVATION OF AMOUNT TO BE TRANSFERRED.—The amount derived under paragraph (2) may be derived from the following:
“(A) The apportionment of the State under section 104(b) (1).”

SEC. 104. AMENDMENTS TO PENALTY PROVISIONS.

(a) VEHICLE WEIGHT LIMITATIONS.—Section 127(a) of title 23, United States Code, is amended by striking “No funds shall be apportioned in any fiscal year under section 104(b)(1) of this title to any State which” and inserting “The Secretary shall withhold 10 percent of the apportionment of a State under section 104(b)(1) in any fiscal year in which the State

(b) CONTROL OF JUNKYARDS.—Section 136 of title 23, United States Code, is amended—

(1) in subsection (b), in the first sentence—

(A) by striking “19 per centum” and inserting “10 percent”;

(B) by striking “section 104 of this title” and inserting “section 104(b)(1)’’; and

(2) by adding at the end the following:

“(n) For purposes of this section, the terms ‘primary system’ and ‘Federal-aid primary system’ mean the National Highway System, which includes the Interstate Highway System.”

(c) VEHICLE SIZE AND WEIGHT LIMITS.—Section 141(b)(2) of title 23, United States Code, is amended—

(1) by striking “section 102(b)” each place it appears and inserting “section 104(b)(1)”;

(2) in the first sentence by striking “25 percent” and inserting “10 percent”;

(d) USE OF SAFETY BELTS.—Section 153(b) of title 23, United States Code, is amended—

(1) by striking paragraph (4) and inserting the following:

“(4) PRIOR TO FISCAL YEAR 2012.—The Secretary shall withhold an amount equal to 8 percent of the amount required to be apportioned to any State under each of paragraphs (1) and (2) of section 104(b) on the first day of each fiscal year beginning after September 30, 2011, if the Secretary fails to meet the requirements of paragraph (3) on the first day of the fiscal year;”;

(2) by striking subsection (b) and inserting the following:

“(b) EFFECT OF NONCOMPLIANCE.—No funds withheld under this section from apportionments to any State shall be available for apportionment to that State.”;

(2) by striking “7 percent” and inserting “8 percent”.

(g) REQUIREMENTS FOR INTERSTATE PROJECTS.—Section 159 of title 23, United States Code, is amended—

(1) by redesignating paragraphs (1) and (2) and inserting the following:

“(1) FISCAL YEARS 2007 THROUGH 2011.—On October 1, 2006, and October 1 of each fiscal year thereafter, if a State has not enacted or implemented the requirements of paragraph (3) of section 104(b) on October 1, 2011, and on October 1 of each fiscal year thereafter, if the State does not meet the requirement of paragraph (3) on that date.”;

(2) by striking paragraph (1) and inserting the following:

“(1) FISCAL YEARS 2007 THROUGH 2011.—On October 1, 2006, and October 1 of each fiscal year thereafter through fiscal year 2011, if a State has not enacted or is not enforcing a law described in subsection (a), the Secretary shall withhold an amount equal to 8 percent of the amounts to be apportioned to the State on that date under each of paragraphs (1), (3), and (4) of section 104(b).

(2) FISCAL YEAR 2012 AND THEREAFTER.—On October 1, 2011, and October 1 of each fiscal year thereafter, if a State has not enacted or is not enforcing a law described in subsection (a), the Secretary shall withhold an amount equal to 6 percent of the amounts to be apportioned to the State on that date under each of paragraphs (1) and (2) of section 104(b).”;

(h) COMMERCIAL DRIVER’S LICENSE.—Section 31314 of title 49, United States Code, is amended—

(1) by redesignating subsection (c) as subsection (d); and

(2) by inserting after subsection (b) the following:

“(d) PENALTIES IMPOSED IN FISCAL YEAR 2012 AND THEREAFTER.—Effective beginning on October 1, 2011—

“(1) the penalty for the first instance of noncompliance by a State under this section shall not be more than an amount equal to 4 percent of funds required to be apportioned to the noncompliant State under paragraphs (1) and (2) of section 104(b) of title 23; and

“(2) the penalty for subsequent instances of noncompliance shall be not more than an amount equal to 8 percent of funds required to be apportioned to the noncompliant State under paragraphs (1) and (2) of section 104(b) of title 23.”;

(j) COMMERCIAL DRIVER’S LICENSE.—Section 31314 of title 49, United States Code, is amended—

(1) in subsection (a)(2) by inserting “recipient” before “formalizing”;

(2) in subsection (c)—

(A) in paragraph (1)—

(i) in the heading, by striking “NON-INTERSTATE”; and

(ii) by striking “but not on the Interstate System”;

(B) by striking paragraph (4) and inserting the following:

“(4) LIMITATION ON INTERSTATE PROJECTS.—

(A) IN GENERAL.—The Secretary shall not assign any responsibilities to a State for projects the Secretary determines to be in a high risk category, as defined under subparagraph (B)

(B) HIGH RISK CATEGORIES.—The Secretary may define the high risk categories under this subparagraph on a national basis, a State-by-State basis, or a national and State-by-State basis, as determined to be appropriate by the Secretary.”;
activities to be carried out under this subparagraph during the applicable year.

(iv) FEDERAL SHARE.—The Federal share of the cost of activities carried out under this subparagraph shall be 100 percent."

(5) in subsection (b)—

(A) in paragraph (1)(B) by inserting "including a phased plan when applicable" after "financial planning"; and

(B) by striking paragraph (3) and inserting the following:

"(3) FINANCIAL PLAN.—A financial plan—

(A) shall be based on detailed estimates of the costs to complete the project;

(B) shall provide for the annual submission of updates to the Secretary that are based on recent cost data as determined by the Secretary, of future increases in the cost to complete the project; and

(C) may include a phased plan that identifies fundable incremental improvements or phases that will address the purpose and the need of the project in the short term in the event there are insufficient financial resources to complete the entire project. If a phased plan is adopted for a project pursuant to this section, the project shall be deemed to satisfy the fiscal constraint requirements based on recent cost data."

 SEC. 1504. CONSTRUCTION.

Section 114 of title 23, United States Code, is amended—

(1) in subsection (b)—

(A) by striking paragraph (1) and inserting the following:

"(1) LIMITATION ON CONVICT LABOR.—Convict labor shall not be used in construction of Federal-aid highways or portions of Federal-aid highways unless the labor is performed by convicted felons who are parole, supervised release, or probation;"; and

(B) in paragraph (3) by inserting "in existence during that period" after "located on a Federal-aid highway or portion of a Federal-aid highway";

 SEC. 1505. MAINTENANCE.

Section 116 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) by striking paragraph (1) and inserting the following:

"(1) AGREEMENT.—In any State in which the State transportation department or any direct recipient shall enter into a formal agreement with the appropriate officials of the county or municipality in which the project is located providing for the maintenance of the project;"; and

(B) in the first sentence of subsection (c) by inserting "or other direct recipient" after "State transportation department";

 SEC. 1506. FEDERAL SHARE PAYABLE.

Section 130 of title 23, United States Code, is amended—

(1) in the first sentence of subsection (c)(1)—

(A) by inserting "maintaining minimum levels of retroreflectivity of highway signs or pavement markings," after "traffic control signalization,";

(B) by inserting "shoulder and centerline rumble strips and stripes," after "pavement marking,"; and

(C) by striking "Federal-aid systems" and inserting "Federal-aid programs";

(2) in subsection (e)—

(A) in the first sentence—
(i) in the matter preceding paragraph (1) by striking “on such highway” and inserting “on the system”; and
(ii) in paragraph (1) by striking “within 180 days of the occurrence of the natural disaster or catastrophic failure may amount to 100 percent of the costs thereof” and inserting “, beginning for fiscal year 2012, in such time period as the Secretary, in consultation with the Governor of the impacted State, determines to be appropriate within 270 days after the occurrence of the natural disaster or catastrophic failure, taking into consideration any delay in the ability of the State to access damaged facilities to evaluate damage and the cost of repair, may be, in the discretion of the Secretary, up to 100 percent of the damages incurred by the State due to the natural disaster or catastrophic failure exceeds the annual apportionment of the State under section 104 for the fiscal year in which the disaster or failure occurred”; and
(2)(i) in paragraph (2) by striking “forest highways, forest development roads and trails, park roads and trails, parkways, public lands highways, public lands development roads and trails, and Indian reservation roads” and inserting “Federal land transportation facilities and tribal transportation facilities”; and
(ii) by striking the second and third sentences;
(3) by striking subsection (j) and redesignating subsections (k) through (l) as subsections (g) through (k), respectively;
(4) in subsection (k)(1)(A) (as redesignated by paragraph (3)) by striking “and the Appalachiandering highway system program under section 14501 of title 49”; and
(5) by striking subsections (j) and (k) (as redesignated by paragraph (3)) and inserting the following:
“(j) USE OF FEDERAL AGENCY FUNDS.—Notwithstanding any other provision of law, any Federal funds other than those made available under title 49 of the United States Code, may be paid to the non-Federal share of the cost any transportation project that is within, adjacent to, or provides access to Federal land, the Federal share of which is funded under this title or chapter 53 of title 49.
“(k) USE OF FEDERAL LAND AND TRIBAL TRANSPORTATION FUNDS.—Notwithstanding any other provision of law, the funds authorized to be appropriated to carry out the tribul transportation program under section 202 and the tribal transportation program under section 203 may be used to pay the non-Federal share of the cost of any project that is funded under this title or chapter 53 of title 49.”
SEC. 1507. TRANSFERABILITY OF FEDERAL-AID HIGHWAY FUNDS.
(a) In General.—Section 126 of title 23, United States Code, is amended to read as follows:
“§ 126. Transferability of Federal-aid highway funds
“(a) In General.—Notwithstanding any other provision of law, subject to subsection (b), a State may transfer from an apportionment under section 104(b) not to exceed 20 percent of the amount apportioned for the fiscal year to a transfer of the Federal-aid highway funds to a State under that section.
“(b) APPLICATION TO CERTAIN SPENDING.— Funds that are subject to sections 166(d) and 133(d) shall not be transferred under this section.”
(b) CONFORMING AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended to add the following:
“126. Transferability of Federal-aid highway funds.”
SEC. 1508. SPECIAL PERMITS DURING PERIODS OF NATIONAL EMERGENCY.
Section 127 of title 23, United States Code, is amended by inserting at the end the following:
“(i) SPECIAL PERMITS DURING PERIODS OF NATIONAL EMERGENCY.—
“(1) In general.—Notwithstanding any other provision of this section, a State may issue special permits during an emergency to overweight vehicles and loads that can easily be dismantled or divided if—
“(A) the President has declared the emergency to be a major disaster under the Robert T. Stafford Disaster Relief and Emergent Assistance Act, 42 U.S.C. 5121 et seq.;
“(B) the permits are issued in accordance with State law; and
“(C) the permits are issued exclusively to vehicles and loads that are delivering relief supplies.
“(2) EXPIRATION.—A permit issued under paragraph (1) shall expire not later than 120 days after the date of the declaration of emergency under subparagraph (A) of that paragraph.
SEC. 1509. ELECTRIC VEHICLE CHARGING STATIONS.
(a) FRINGE AND CORRIDOR PARKING FACILITIES.—Section 137 of title 23, United States Code, is amended—
(1) in subparagraph (a)(1)—
(A) in the matter preceding subparagraph (B) by striking “on such highway” and inserting “on the system’’; and
(B) by inserting “including the addition of electric vehicle charging stations, after ‘new facilities’”;
(2) in subparagraph (b)–
(A) by striking “104(b)(4)” and inserting “104(b)(4)”;
(B) by inserting “including the addition of electric vehicle charging stations, after ‘new facilities’”;
(3) in subsection (d)(1)–
(A) by striking “104(b)(4)” and inserting “104(b)(4)”;
(B) by inserting “including the addition of electric vehicle charging stations, after ‘new facilities’”;
(4) in subsection (d)(3)–
(A) by striking “104(b)(4)” and inserting “104(b)(4)”;
(B) by inserting “including the addition of electric vehicle charging stations, after ‘new facilities’”;
(C) by striking “on such highway” and inserting “on the system’’; and
(D) by inserting “including the addition of electric vehicle charging stations, after ‘new facilities’”;
(b) USE OF FEDERAL LAND AND TRIBAL TRANSPORTATION FUNDS.—Notwithstanding any other provision of law, the funds authorized to be appropriated to carry out the tribul transportation program under section 14501 of title 49 and that provides access to Federal-aid highway systems under section 1.36 of title 23, Code of Federal Regulations (or successor regulations), until the applicable matter emission standards for the applicable engine power group issued by the Environmental Protection Agency on a covered highway construction project within a PM2.5 nonattainment or maintenance area.
“(b) DEFINITIONS.—In this section, the following definitions apply:
“(1) COVERED EQUIPMENT.—The term ‘covered [construction] equipment’ means any [off-road] nonroad diesel equipment or on-road diesel equipment that is operated on a covered highway construction project for not less than 80 hours over the life of the project.
“(2) COVERED HIGHWAY CONSTRUCTION PROJECT.—The term ‘covered highway construction project’ means a highway construction project carried out under this title or any other Federal law which is funded in whole or in part with Federal funds.
“(3) DIESEL EMISSION CONTROL TECHNOLOGY.—The term ‘diesel emission control technology’ means a technology that—
“(A) is—
(i) a diesel engine control technology;
(ii) a diesel engine upgrade;
(iii) a diesel engine repower; or
(iv) an idle reduction control technology; and
“(B) reduces PM2.5 emissions from covered equipment by—
(i) not less than 85 percent control of any emission of particulate matter; and
(ii) the maximum achievable reduction of any emission of particulate matter; and
“(C) is installed on and operated with the covered equipment while the equipment is oper- ated on a covered highway construction project and that remains operational on the covered equipment for the useful life of the control tech- nology or equipment.
“(4) ELIGIBLE ENTITY.—The term ‘eligible entity’ means an entity (including a subcon- tractor of the entity) that has entered into a prime contract or agreement with a State to carry out a covered highway construction project.
“(5) [OFF-ROAD] NONROAD DIESEL EQUIP-MENT.—
“(a) In General.—The term [off-road] nonroad diesel equipment’ means a vehicle, including covered equipment, that is—
(i) powered by a nonroad diesel engine of not less than 50 horsepower; and
(ii) not intended for highway use.
(B) INCLUSIONS.—The term ‘off-road nonroad diesel equipment’ includes a backhoe, bulldozer, compressor, crane, excavator, generator, and similar equipment.

"(C) Exclusions.—The term ‘off-road nonroad diesel equipment’ does not include a locomotive or marine vessel.

"(D) ON-ROAD EQUIPMENT.—The term ‘on-road equipment’ means any self-propelled vehicle that—

"(A) operates on diesel fuel;

"(B) is designed to transport persons or property on or over a highway; and

"(C) has a gross vehicle weight rating of at least 14,000 pounds.

"(7) PM-10 NONATTAINMENT OR MAINTENANCE AREA.—The term ‘PM-10 nonattainment or maintenance area’ means a nonattainment or maintenance area designated under section 169A(c)(1) of the Clean Air Act (42 U.S.C. 7407(d)(6)).

"(c) Criteria Eligible Activities.—

"(1) DIESEL EXHAUST CONTROL TECHNOLOGY.—For a diesel exhaust control technology, the technology shall be—

"(A) installed on a diesel engine or vehicle;

"(B) included in the list of verified or certified technologies for non-road vehicles and non-road engines (as defined in section 216 of the Clean Air Act (42 U.S.C. 7550)) published pursuant to section (f)(2) of section 149, as in effect on the day before the date of enactment of the MAP-21; and

"(C) certified by the installer as having been installed in accordance with the specifications included on the list referred to in clause (II) subparagraph (B) for achieving a reduction in PM-10.

"(2) DIESEL ENGINE UPGRADE.—For a diesel engine upgrade, the upgrade shall be performed on an engine that is—

"(A) rebuilt using new components that collectively constitute the required control system included in the list of verified or certified technologies for non-road vehicles and non-road engines (as defined in section 216 of the Clean Air Act (42 U.S.C. 7550)) published pursuant to subsection (f)(2) of section 149, as in effect on the day before the date of enactment of the MAP-21; and

"(B) certified by the installer to have been installed in accordance with the specifications included on the list referred to in clause (III) subparagraph (A) for achieving a reduction in PM-10.

"(3) DIESEL ENGINE REPOWER.—For a diesel engine repower, the repower shall be conducted on a new or remanufactured diesel engine that is—

"(A) installed as a replacement for an engine used in the existing equipment, subject to the conditions that the replaced engine is—

"(i) used for scrap;

"(ii) permanently disabled; or

"(iii) returned to the original manufacturer to a PM level that is at least equivalent to a Tier 2 emission standard; and

"(B) certified by the engine manufacturer as meeting emission standards for non-road vehicles for the applicable engine power group established by the Environmental Protection Agency as in effect on the date on which the engine is remanufactured.

"(4) IDLE REDUCTION CONTROL TECHNOLOGY.—For an idle reduction control technology, the technology shall be—

"(A) installed on a diesel engine or vehicle; or

"(B) included in the list of verified or certified technologies for non-road vehicles and non-road engines (as defined in section 216 of the Clean Air Act (42 U.S.C. 7550)) published pursuant to subsection (f)(2) of section 149, as in effect on the day before the date of enactment of the MAP-21; and

"(C) certified by the installer as having been installed in accordance with the specifications included on the list referred to in subsection (II) subparagraph (B) for achieving a reduction in PM-10.

"(b) SAVINGS CLAUSE.—Nothing in this section modifies or otherwise affects any authority or obligation established under the Clean Air Act (42 U.S.C. 7401 et seq.).

"(c) REPORT TO CONGRESS.—

"(1) IN GENERAL.—Not later than 21 days after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that describes the measures in which section 330 of title 23, United States Code (as added by subsection (f)(2) of section 149, as in effect on the day before the date of enactment of this Act) is implemented, and the amount of covered equipment services under those sections and the costs associated with servicing the covered equipment.

"(2) INFORMATION FROM STATES.—The Secretary shall require States and recipients, as a condition of receiving amounts under this Act or under the provisions of any amendments made by this Act, to submit to the Secretary any information that the Secretary determines necessary to complete the report under paragraph (1).”

Title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.) is amended by striking “90 days prior to” and inserting “30 days prior to” for achieving a reduction in PM-10.

SEC. 1131. Fuel Efficiency of Heavy Duty Motor Vehicles.

Section 203(h)(1) of the Intermodal Surface Transportation Efficiency Act of 1991 (23 U.S.C. 144 note; Public Law 102-388) is amended by striking “$10,000” and inserting “$15,000”.

Section 202(a)(3) of the Surface Transportation Efficiency Act of 1991 (23 U.S.C. 144 note; Public Law 102-388), as amended by striking “$15,000” and inserting “$20,000”, is amended by striking “90 days prior to” and inserting “30 days prior to”.
(a) AUTHORIZED ACTIVITIES.—

(1) IN GENERAL.—The Secretary may perform, by contract or otherwise, authorized engineering or other services in connection with the construction, maintenance, or improvement of highways for other Federal agencies, cooperating foreign countries, and State cooperating agencies.

(2) Services authorized under paragraph (1) may include activities authorized under section 214 of the Uniform Relocation Assistance and Real Property Acquisitions Policies Act of 1970.

(3) REIMBURSEMENT.—Reimbursement for services carried out under this subsection (including depreciation on engineering and road-building equipment) shall be credited to the applicable appropriation.

(g) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall take effect on the date of enactment of this Act.

(2) EXCEPTION.—The amendments made by subsections (a) through (c) shall take effect 2 years after the date of enactment of this Act.

SEC. 1515. USE OF YOUTH SERVICE AND CON- 
RELOCATION ASSISTANCE AND REAL PRO- 

(a) IN GENERAL.—The Secretary shall encourage the States and regional transportation planning agencies to enter into contracts or cooperative agreements with Healthy Futures Corps under section 122(a)(2) of the National and Community Service Act of 1990 (42 U.S.C. 12572(a)(2)) or qualified urban youth corps (as defined in section 106(c) of the National and Community Service Act of 1993 (42 U.S.C. 12656(c))) to perform—

(1) appropriate projects eligible under sections 162, 206, and 217 of title 23, United States Code;

(2) appropriate transportation enhancement activities (as defined in section 104(a) of such title);

(3) appropriate transportation byway, trail, or bicycle and pedestrian projects under section 304 of such title; and

(4) appropriate safe routes to school projects under section 104 of the SAFETEA-LU (23 U.S.C. 402 note; 119 Stat. 1228).

(b) On October 1, 2012, or before that date to each State under chapter 1 of title 23, United States Code, the Secretary shall—

(1) establish the amount of a living allowance or rate of pay for each participant in such corps.

(A) In making such amount or rate as is required under State law in a State with such a requirement;

(B) in a State not described in subparagraph (A), at such amount or rate as determined by the Secretary, not to exceed $75,000, for each fiscal year $15,000,000 for each of fiscal years 2012 and 2013 shall be made available for the following activities:

(1) To carry out the operation lifesaver program.

(A) To provide public information and education programs to help prevent and reduce motor vehicle accidents, injuries, and fatalities; and

(B) to improve driver performance at railway-highway crossings.

(2) To operate the national work zone safety information clearance house authorized by section 102(b)(1) of the National Highway System Designation Act of 1995 (23 U.S.C. 401 note; 110 Stat. 625).

(3) To operate a public road safety clearing house in accordance with section 1011(a) of the SAFETEA-LU (23 U.S.C. 402 note; 119 Stat. 1234).

(4) To operate a bicycle and pedestrian safety clearinghouse in accordance with section 1011(b) of the SAFETEA-LU (23 U.S.C. 402 note; 119 Stat. 1234).

(5) To operate a national safe routes to school clearinghouse in accordance with section 104(g)(1) of the SAFETEA-LU (23 U.S.C. 402 note; 119 Stat. 1229).

(6) To provide zone safety grants in accordance with subsections (a) and (b) of section 1099 of the SAFETEA-LU (23 U.S.C. 401 note; 119 Stat. 1232).

(7) To provide grants to prohibit racial profiling in accordance with section 113 of the SAFETEA-LU (23 U.S.C. 401 note; 119 Stat. 1465).

(b) REPEALS.—Sections 105, 110, 117, 124, 151, 155, 160, and 303 of title 23, United States Code, are repealed.

(c) CONFORMING AMENDMENTS.—

(1) TITLE ANALYSIS.—The analysis for title 23, United States Code, is amended by striking the item designated "subsection (c)"; and

(2) TITLE 23.—Section 106(c) of the National Transportation Policy Act of 1968 (23 U.S.C. 401 note; 119 Stat. 1234).
(b) DIFFERENT APPROACHES FOR URBAN AND RURAL AREAS.—In the development and implementation of any performance target, a State may, as appropriate, provide for different performance targets for urbanized and rural areas.

SEC. 1520. REQUIREMENTS FOR ELIGIBLE BRIDGE PROJECTS.

(a) DEFINITIONS.—In this section—

(1) ELIGIBLE BRIDGE PROJECT.—The term ‘eligible bridge project’ means a project for construction, alteration, or repair work on a bridge or overpass funded directly by, or provided other assistance through, the Federal Government.

(2) QUALIFIED TRAINING PROGRAM.—The term ‘qualified training program’ means a training program that—

(A)(i) is certified by the Secretary of Labor; and

(ii) with respect to an eligible bridge project located in an area in which the Secretary of Labor determines that a training program does not exist, is registered with—

(I) the American Association of State Highway and Transportation Officials; or

(II) a State agency recognized by the Department of Labor for purposes of a Federal training program; or

(B) is a corrosion control, mitigation and prevention personnel training program that is offered by an organization whose standards are recognized in other Federal or State Departments of Transportation.

(3) SECRETARY.—The term ‘Secretary’ means the Secretary of Transportation.

(b) ELIGIBILITY REQUIREMENTS—

(1) GENERAL.—Each contractor and subcontractor that carries out any aspect of an eligible bridge project described in paragraph (2) shall—

(A) remain certified as described in subparagraph (A); and

(B) remain certified as described in subparagraph (A) while carrying out the applicable aspect of the eligible bridge project.

(2) DESCRIPTION OF ASPECTS OF ELIGIBLE BRIDGE PROJECTS.—An aspect of an eligible bridge project referred to in paragraph (1) is—

(A) surface preprint, demarcation, or coating application on bridge steel of an eligible bridge project; or

(B) a lead-based or other hazardous coating from bridge steel of an existing eligible bridge project; and

(C) shop painting of structural steel fabricated for installation on bridge steel of an eligible bridge project; and

(D) the design, application, installation, and maintenance of a cathodic protection system.

(3) REQUIREMENTS.—The eligibility requirements provided to in paragraph (1) are that a contractor or subcontractor shall—

(A) as determined by the Secretary—

(i) use corrosion mitigation and prevention methods to preserve relevant bridges and overpasses, taking on account—

(I) material selection;

(II) coating considerations;

(III) cathodic protection considerations;

(IV) design considerations for corrosion; and

(V) trained applicators;

(2) prevent environmental degradation; and

(3) to ensure careful handling of all hazardous materials; and

(iii) demonstrate a history of employing industry-respected inspectors to ensure funds are used in the interest of affected taxpayers; and

(iv) provide a history of compliance with applicable requirements of the Occupational Safety and Health Administration, as determined by the Secretary of Labor.

(b) IN GENERAL.—In determining whether to certify a contractor or subcontractor under paragraph (1)(A), a State shall consult with engineers and other experts trained in accordance with paragraph (1)(A) in corrosion control, mitigation, and prevention methods.

(c) OPTIONAL TRAINING PROGRAM.—As a condition of entering into a contract for an eligible bridge project, each contractor and subcontractor that performs construction, alteration, or repair work on a bridge or overpass for the eligible bridge project may provide, or make available, training, through a qualified training program, for each applicable craft or trade classification of workers that the contractor or subcontractor intends to employ to carry out aspects of eligible bridge projects as described in subsection (b)(2).

TITLE II: RESEARCH AND EDUCATION

Subtitle A—Funding

SEC. 2101. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—The following amounts are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):—

(1) HIGHWAY RESEARCH AND DEVELOPMENT PROGRAM.—To carry out sections 503(b), 503(d), and 509 of title 23, United States Code, $90,000,000 for each of fiscal years 2012 and 2013.

(2) TECHNOLOGY AND INNOVATION DEPLOYMENT PROGRAM.—To carry out section 503(c)(2) of title 23, United States Code, $25,000,000 for each of fiscal years 2012 and 2013.

(3) TRAINING AND EDUCATION.—To carry out section 504 of title 23, United States Code, $25,000,000 for each of fiscal years 2012 and 2013.

(4) INTELLIGENT TRANSPORTATION SYSTEMS PROGRAM.—To carry out sections 512 through 518 of title 23, United States Code, $90,000,000 for each of fiscal years 2012 and 2013.

(5) UNIVERSITY TRANSPORTATION CENTERS PROGRAM.—To carry out section 506 of title 23, United States Code, $70,000,000 for each of fiscal years 2012 and 2013.

(b) APPLICABILITY OF TITLE 23, UNITED STATES CODE.—Funds authorized to be appropriated by subsection (a) shall—

(1) be available for obligation in the same manner as if those funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of a project or activity carried out using those funds shall be 80 percent, unless otherwise expressly provided by this Act (including the amendment act or otherwise determined by the Secretary); and

(2) remain available until expended and not be transferable.

Subtitle B—Research, Technology, and Education

SEC. 2201. RESEARCH, TECHNOLOGY, AND EDUCATION.

Section 501 of title 23, United States Code, is amended—

(1) by redesignating paragraphs (2) through (8) as paragraphs (2) through (9), respectively;

(2) by inserting before paragraph (2) a new paragraph (1) as follows:

‘‘(1) INCIDENT.—The term ‘incident’ means a crash, natural disaster, workzone activity, or emergency road user occurrence that adversely affects or impedes the normal flow of traffic;’’;

‘‘(2) INNOVATION LIFECYCLE.—The term ‘innovation lifecycle’ means the process of innovating through—

(A) the identification of a need;

(B) the establishment of the scope of research to address that need;

(C) setting and consistently as rules, guidelines, or definitions of characteristics so as to ensure that materials, products, processes, and services are fit for the intended purposes of the materials, products, processes, and services; and

(D) the communications requirements associated with the information flows.

(3) PROJECT.—The term ‘project’ means an undertaking to research, develop, or operate technically test intelligent transportation systems or any other undertaking eligible for assistance under this chapter.’’; and

(4) by inserting after paragraph (8) (as so redesignated) the following:

‘‘(9) STANDARD.—The term ‘standard’ means a document that—

(A) contains technical specifications or other precise criteria for intelligent transportation systems that are to be used consistently as rules, guidelines, or definitions of characteristics so as to ensure that materials, products, processes, and services are fit for the intended purposes of the materials, products, processes, and services; and

(B) may support the national architecture and promote—

(i) the widespread use and adoption of intelligent transportation system technology as a component of the surface transportation systems of the United States; and

(ii) interoperability among intelligent transportation system technologies implemented throughout the States.’’.

SEC. 2202. SURFACE TRANSPORTATION RESEARCH, DEVELOPMENT, AND TECHNOLOGY.

(a) SURFACE TRANSPORTATION RESEARCH, DEVELOPMENT, AND TECHNOLOGY.—Section 502 of title 23, United States Code, is amended—

(1) in the section heading by inserting ‘‘, DEVELOPMENT, AND TECHNOLOGY’’ after ‘‘SURFACE TRANSPORTATION RESEARCH’’;

(2) in subsection (a)—

(A) by redesignating paragraphs (1) through (8) as paragraphs (2) through (9), respectively;

(B) by inserting before paragraph (2) (as redesignated by subparagraph (A)) the following:

‘‘(1) APPLICABILITY.—The research, development, and technology provisions of this section shall apply throughout this chapter.’’;

(C) in paragraph (2) (as redesignated by subparagraph (A))—

(i) by inserting ‘‘within the innovation lifecycle’’ after ‘‘activities’’; and

(ii) by inserting ‘‘and testing, and communication, impact analysis,’’ after ‘‘training,’’;

(D) in paragraph (3) (as redesignated by subparagraph (A)) by inserting the following:

‘‘(1) in subparagraph (B) by striking ‘‘supports research in which there is a clear public benefit and’’ and inserting ‘‘delivers a clear public benefit and’’;

(ii) in subparagraph (C) by striking ‘‘or’’ after the semicolon;"
(iii) by redesigning subparagraph (D) as subparagraph (H); and
(iv) by inserting after subparagraph (C) the following:

```
(1) PRIZE COMPETITIONS.—
    (A) IN GENERAL.—The Secretary may carry out prize competitions to award competitive prizes for surface transportation innovation and technology that have the potential for application to the research and technology objectives and activities of the Federal Highway Administration to improve system performance.
    (B) REQUIREMENTS.—
        (i) IN GENERAL.—The Secretary shall use a competitive process for the selection of prize recipients and shall widely advertise and solicit participation in prize competitions under this paragraph.
        (ii) REGISTRATION REQUIRED.—No individual or entity shall participate in a prize competition under paragraph (1) unless the individual or entity has registered with the Secretary in accordance with the eligibility requirements established by the Secretary under clause (iii).
        (iii) MINIMUM REQUIREMENTS.—The Secretary shall establish eligibility requirements for participation in each prize competition under this paragraph, which, at a minimum, shall—
            (I) limit participation in the prize competition to—
                (aa) individuals who are citizens of the United States;
                (bb) entities organized or existing under the laws of the United States or of a State; and
            (II) require any individual or entity that registers for a prize competition—
                (aa) to assume all risks arising from participation in the competition; and
                (bb) to waive, release, and exempt the Federal Government for any damages arising out of participation in the competition, including all claims, whether through negligence or otherwise, except in the case of willful misconduct, for—
                    (AA) injury, death, damage, or loss of property; or
                    (BB) loss of revenue or profits, whether direct, indirect, or consequential; and
            (III) require any individual or entity that registers for a prize competition to waive all claims against any non-Federal entity operating or managing the prize competition, such as a private contractor managing competition activities, to the extent that the Secretary believes is necessary to protect the interests of the Federal Government.
(2) PROGRAM PLAN.—To the maximum extent practicable, each program plan under this chapter shall be part of a data-driven, outcome-oriented program plan.
(3) in subsection (b)—
    (A) by inserting “surface transportation research and technology development strategic plan developed under section 508” and inserting “the transportation research and development strategic plan of the Secretary”;
    (B) in paragraph (5) by striking “section” each place it appears and inserting “chapter”;
    (C) in paragraph (6) by adding at the end the following:
```

```
(C) TRANSFER OF AMOUNTS AMONG STATES OR TO FEDERAL HIGHWAY ADMINISTRATION.—The Secretary may, at the request of a State, transfer amounts apportioned or allocated to that State under this chapter to another State or the Federal Highway Administration to fund research, development, and technology transfer activities of mutual interest on a pooled funds basis.
(D) CONFORMING AMENDMENT.—The analysis for chapter 5 of title 23, United States Code, is amended by striking the item relating to section 502 and inserting the following:
    “502. Surface transportation research, development, and technology.”
```

```
SEC. 2205. RESEARCH AND TECHNOLOGY DEVELOPMENT AND DEPLOYMENT.

(a) IN GENERAL.—Section 503 of title 23, United States Code, is amended to read as follows:
```

```
§ 503. Research and technology development and deployment

(a) IN GENERAL.—The Secretary shall—
    (1) carry out research, development, and deployment activities that encompass the entire innovation lifecycle; and
    (2) ensure that all research carried out under this section aligns with the transportation research and development strategic plan of the Secretary.
```

```
(b) HIGHWAY RESEARCH AND DEVELOPMENT PROGRAM.—
    (1) OBJECTIVES.—In carrying out the highway research and development program, the Secretary, to address current and emerging highway transportation needs, shall—
        (A) identify research topics;
        (B) coordinate domestic and international research and development activities;
        (C) carry out research, testing, and evaluation activities; and
        (D) provide technology transfer and technical assistance.
    (2) CONTENTS.—Research and development activities carried out under this subsection may include any of the following activities:
```

```
(A) IMPROVING HIGHWAY SAFETY.—
    (i) by striking “subsection” and inserting “in parenthesis”;
    (ii) by striking “50” and inserting “80”;
    (iii) by striking “subsection” and inserting “in parenthesis”;
    (iv) by adding at the end the following:
```

```
(B) REQUIREMENTS.—
    (i) IN GENERAL.—The Secretary shall carry out and implement systematic measures to improve highway safety.
    (ii) R EGISTRATION REQUIRED.—No individual or entity has registered for a prize competition under this paragraph.
    (iii) MINIMUM REQUIREMENTS.—The Secretary shall establish eligibility requirements for participation in each prize competition under this paragraph, which, at a minimum, shall—
        (I) limit participation in the prize competition to—
            (aa) individuals who are citizens of the United States;
            (bb) entities organized or existing under the laws of the United States or of a State; and
        (II) require any individual or entity that registers for a prize competition—
            (aa) to assume all risks arising from participation in the competition; and
            (bb) to waive, release, and exempt the Federal Government for any damages arising out of participation in the competition, including all claims, whether through negligence or otherwise, except in the case of willful misconduct, for—
                (AA) injury, death, damage, or loss of property; or
                (BB) loss of revenue or profits, whether direct, indirect, or consequential; and
        (III) require any individual or entity that registers for a prize competition to waive all claims against any non-Federal entity operating or managing the prize competition, such as a private contractor managing competition activities, to the extent that the Secretary believes is necessary to protect the interests of the Federal Government.
```
“(I) to maintain infrastructure integrity;
“(II) to meet user needs; and
“(III) to link Federal transportation investments to improvements in system performance and efficiency.

“(II) OBJECTIVES.—In carrying out this subparagraph, the Secretary shall carry out research and development activities—

“(I) to reduce traffic congestion;
“(II) to improve freight movement; and
“(III) to reduce user delay attributable to infrastructure system performance, maintenance, rehabilitation, and construction;

“(V) to reduce user delay attributable to infrastructure system performance, maintenance, rehabilitation, and construction through increased use of design, materials, construction, and maintenance innovations;

“(V) to reduce the lifecycle environmental impacts of highway infrastructure through innovations in design, construction, operation, preservation, and maintenance; and

“(VIII) to study vulnerabilities of the transportation system to seismic activities and methods to reduce those vulnerabilities.

“(iii) CONTENTS.—Research and technology activities carried out under this subparagraph may include—

“(I) long-term infrastructure performance programs addressing pavements, bridges, tunnels, and other structures;
“(II) show our accelerated studies of infrastructure performance;
“(III) research to develop more durable infrastructure materials and systems;
“(IV) advanced infrastructure design methods;
“(V) accelerated highway construction;
“(VI) performance-based specifications;
“(VII) construction and materials quality assurance;
“(VIII) comprehensive and integrated infrastructure asset management;
“(IX) infrastructure safety assurance;
“(X) highway infrastructure security;
“(XI) sustainable infrastructure design and construction;
“(XII) infrastructure rehabilitation and preservation techniques, including techniques to rehabilitate and preserve historic infrastructure;
“(XIII) hydraulic, geotechnical, and aerodynamic aspects of infrastructure;
“(XIV) improved highway construction techniques and methods;
“(XV) improved tools, technologies, and models for infrastructure management, including assessment and monitoring of infrastructure performance and condition;
“(XVI) studies to improve flexibility and resiliency of infrastructure systems to withstand climate variability;
“(XVII) studies of infrastructure resilience and other adaptation measures; and
“(XVIII) maintenance of seismic research activities, including research carried out in conjunction with other Federal agencies to study the vulnerability of the transportation system to seismic activity and methods to reduce that vulnerability.

“(i) I N GENERAL.—In this clause, the term ‘lifecycle costs analysis’ means a process for evaluating the total economic worth of a usable life of an asset by analyzing initial costs and discounted future costs, such as maintenance, user, reconstruction, rehabilitation, restoration, and resurfacing costs, over the life of the project segment.

“(II) STUDY.—The Comptroller General shall conduct a study of the best practices for calculating lifecycle costs for federally funded highway projects. At a minimum, this study shall include a thorough literature review and a survey of current lifecycle cost practices of State departments of transportation.

“(III) CONSULTATION.—In carrying out this study, the Comptroller shall consult with, at a minimum—

“(aa) the American Association of State Highway and Transportation Officials;
“(bb) appropriate experts in the field of lifecycle cost analysis; and
“(cc) appropriate industry experts and research centers.

“(IV) RECENT.—Not later than 1 year after the date of enactment of the MAP-21, the Comptroller General shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the results of the study which shall include, but is not limited to—

“(aa) a summary of the latest research on lifecycle cost analysis; and
“(bb) recommendations on the appropriate—

“(AA) period of analysis;
“(BB) design period;
“(CC) discount rates; and
“(DD) use of actual material life and maintenance cost data.

“(C) STRENGTHENING TRANSPORTATION PLANNING AND ENVIRONMENTAL DECISION-MAKING.—

“(i) IN GENERAL.—The Secretary shall carry out research—

“(I) to improve transportation planning and environmental decision-making processes; and
“(II) to minimize the impact of surface transportation on the environment and quality of life.

“(ii) OBJECTIVES.—In carrying out this subparagraph the Secretary shall carry out research and development activities—

“(I) to reduce the impact of highway infrastructure and operations on the natural and human environment;
“(II) to improve improvements in environmental analyses and processes and context sensitive solutions for transportation decisionmaking;
“(III) to improve construction techniques;
“(IV) to accelerate construction to reduce congestion and related emissions;
“(V) to reduce the impact of highway run-off on the environment;
“(VI) to maintain sustainability of biological communities and ecosystems adjacent to highway corridors;
“(VII) to improve understanding and modeling of the factors that contribute to the demand for transportation;
“(VIII) to improve transportation planning decisionmaking and coordination; and
“(IX) to reduce the environmental impacts of freight movement.

“(iii) CONTENTS.—Research and technology activities carried out under this subparagraph may include—

“(I) creation of models and tools for evaluating transportation measures and transportation system designs;
“(II) congestion reduction efforts;
“(III) transportation and economic development planning in rural areas and small communities;
“(IV) improvement of State, local, and tribal capabilities relating to surface transportation planning and the environment;
“(V) environmental stewardship and sustainability activities;
“(VI) streamlining of project delivery processes;
“(VII) development of effective strategies and techniques to analyze and minimize impacts from transportation on the environment and provide environmentally beneficial mitigation;
“(VIII) comprehensive multinational planning;
“(IX) interstate transportation corridor planning;
“(X) improvement of transportation choices, including walking, bicycling, and linkages to public transportation;
“(XI) ecosystem sustainability;
“(XII) wildlife and plant population connectivity and interaction across and along highway corridors;
“(XIII) analysis, measurement, and reduction of air pollution from transportation sources;
“(XIV) advancement in the understanding of health impact analyses in transportation planning and project development;
“(XV) transportation planning professional development;
“(XVI) research on improving the cooperation and integration of transportation planning with other regional plans, including land use, energy, water infrastructure, economic development, and housing plans; and
“(XVII) reducing the environmental impact of freight movement.

“(D) REDUCING CONGESTION, IMPROVING HIGHWAY OPERATIONS, AND ENHANCING FREIGHT PRODUCTIVITY.—

“(i) IN GENERAL.—The Secretary shall carry out research under this subparagraph with the goals of—

“(I) addressing congestion problems;
“(II) reducing the costs of congestion; and
“(III) improving freight movement.

“(ii) OBJECTIVES.—In carrying out this subparagraph, the Secretary shall carry out research and development activities to identify, develop, and assess innovations that have the potential—

“(I) to reduce traffic congestion;
“(II) to improve freight movement; and
“(III) to reduce freight-related congestion throughout the transportation network.

“(iii) CONTENTS.—Research and technology activities carried out under this subparagraph may include—

“(I) active traffic and demand management;
“(II) acceleration of the implementation of Intelligent Transportation Systems technology; and
“(III) advanced transportation concepts and analysis;
“(IV) arterial management and traffic signal operation;
“(V) congestion pricing;
“(VI) corridor management;
“(VII) emergency operations;
“(VIII) research relating to enabling technologies and applications;
“(IX) freeway management;
“(X) evaluation of enabling technologies;
“(XI) freight industry professional development;
“(XII) impacts of vehicle size and weight on congestion;
“(XIII) freight operations and technology;
“(XIV) operations and freight performance measurement and management;
“(XV) organization and planning for operations; and
“(XVI) planned special events management.

“(D) REAL-TIME TRANSPORTATION INFORMATION SYSTEMS.—

“(I) PROVISION.—There is authorized to be appropriated to carry out the provisions of this subparagraph—

“(aa) the total cost, including administrative expenses, required to demonstrate the effectiveness of the national real-time transportation information system; and
“(bb) the cost, including administrative expenses, of maintaining such system.

“(II) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the provisions of this subparagraph—

“(aa) the total cost, including administrative expenses, required to demonstrate the effectiveness of the national real-time transportation information system; and
“(bb) the cost, including administrative expenses, of maintaining such system.

“(C) ENVIRONMENTAL DECISION-MAKING.—

“(i) I N GENERAL.—The Secretary shall carry out research under this subparagraph—

“(I) to improve transportation planning and environmental decisionmaking; and
“(II) to reduce the environmental impacts of transportation

“(ii) OBJECTIVES.—In carrying out this subparagraph, the Secretary shall carry out research and development activities to improve transportation planning and environmental decisionmaking; and

“(iii) CONTENTS.—Research and technology activities carried out under this subparagraph may include—

“(I) to reduce the environmental impacts of transportation planning and environmental decisionmaking; and
“(II) to reduce the environmental impacts of transportation planning and environmental decisionmaking.

“(D) INTEGRATING HUMAN, SOCIAL, AND ENVIRONMENTAL CONSIDERATIONS.—

“(i) I N GENERAL.—The Secretary shall carry out research under this subparagraph—

“(I) to improve transportation planning and environmental decisionmaking; and
“(II) to reduce the environmental impacts of transportation planning and environmental decisionmaking.

“(ii) OBJECTIVES.—In carrying out this subparagraph, the Secretary shall carry out research and development activities and environmental decisionmaking techniques and applications to—

“(I) improve transportation planning and environmental decisionmaking; and
“(II) reduce the environmental impacts of transportation planning and environmental decisionmaking.
“(XIX) traffic and freight data and analysis tools; “(XX) traffic control devices; “(XXI) traffic incident management; “(XXII) management; “(XXIII) communication of travel, roadway, and emergency information to persons with disabilities; and “(XXIV) research to enhance mode choice and intermodal connectivity. “(E) ASSESSING POLICY AND SYSTEM FINANCING ALTERNATIVES.— (i) IN GENERAL.—The Secretary shall carry out research and technology on emerging issues in the domestic and international transportation community from a policy perspective. “(ii) OBJECTIVES.—Research and technology activities carried out under this subparagraph shall— “(I) assess emerging transportation issues. “(ii) ASSESSING POLICY AND SYSTEM FINANCING ALTERNATIVES.— (i) IN GENERAL.—The Secretary shall carry out research and technology activities carried out under this subparagraph shall be— “(I) improvements to the quality and standardization of data collection on all classifications of Federal-aid highways for accurate system length, lane length, and vehicle-mile of travel; and “(II) changes to the reporting requirements authorized by section 315, to reflect recommendations under this paragraph for collection, storage, analysis, reporting, and display of data for Federal-aid highways, to the maximum extent practical, all public roads. “(I) assessing next generation solutions and capitalizing on the highway research center. “(I) IN GENERAL.—The Secretary shall carry out research and development activities relating to exploratory advanced research. “(I) to leverage the targeted capabilities of the Turner-Fairbank Highway Research Center to develop technologies and innovations of national importance; and “(I) and to develop potentially transformative solutions to improve the durability, efficiency, environmental impact, productivity, and safety aspects of highway and intermodal systems. “(II) CONTENTS.—Research and technology activities carried out under this subparagraph may include— “(I) long-term, high-risk research to improve the materials used in highway infrastructure; “(II) exploratory research to assess the effects of transportation decisions on human health; “(III) advanced development of surrogate measures for highway safety; “(IV) transformational research to affect complex environmental and highway system relationships; “(V) development of economical and environmentally sensitive designs, efficient and quality-controlled construction practices, and durable materials; “(VI) development of advanced data acquisition techniques for system condition and performance monitoring; “(VII) inclusive research for hour-to-hour operational decisionmaking and simulation forecasting; “(VIII) understanding current and emerging phenomena to inform next generation transportation planning; and “(IX) continued improvement and advancement of the Turner-Fairbank Highway Research Center. “(II) ALIGNING NATIONAL CHALLENGES AND DISSEMINATING INFORMATION.— “(I) IN GENERAL.—The Secretary shall conduct research and development activities— “(I) to establish a nationally coordinated highway research agenda that— “(aa) focuses on topics of national significance; “(bb) addresses current gaps in research; “(cc) encourages collaboration; and “(dd) reduces unnecessary duplication of effort; and “(II) to provide relevant information to researchers and highway and transportation practitioners to improve the performance of the transportation system; “(II) CONTENTS.—Research and technology activities carried out under this subparagraph may include— “(I) coordination, development, and implementation of a national highway research agenda; “(II) collaboration on national emphasis areas, including research and information among international, Federal, State, and university research programs; “(III) development and delivery of research reports and innovation delivery messages; “(IV) identification of market-ready technologies and innovations; and “(V) dissemination of accurate data developed under this subparagraph to the public, including researchers, stakeholders, and customers, through a publicly accessible Internet site. “(C) TECHNOLOGY AND INNOVATION DEPLOYMENT PROGRAM.— “(I) IN GENERAL.—The Secretary shall carry out a technology and innovation deployment program relating to all aspects of highway transportation, including planning, development, operation, infrastructure, materials, pavements, environment, construction, and the duration of time between project planning and project delivery, with the goals of— “(aa) accelerating innovation delivery; and “(bb) focusing on topics of national significance; “(cc) developing and deploying new tools, techniques, and practices to accelerate the adoption of innovation in all aspects of highway transportation. “(II) IMPLEMENTATION.— “(I) IN GENERAL.—The Secretary shall promote, facilitate, and carry out the program established under paragraph (I) to distribute the products, technologies, tools, methods, or other findings that result from highway research and development activities, including research and development activities carried out under this chapter. “(II) ACCELERATED INNOVATION DEPLOYMENT.—In carrying out the program established under paragraph (I), the Secretary shall— “(aa) establish and carry out demonstration programs; “(ab) provide incentives, technical assistance, and training to researchers and developers; and “(ac) develop and deploy new tools, techniques, and methods to accelerate the adoption of proven innovative practices and technologies as standard practices. “(C) IMPLEMENTATION OF FUTURE STRATEGIC HIGHWAY RESEARCH PROGRAM FINDINGS AND RESULTS.— “(I) IN GENERAL.—The Secretary, in consultation with the American Association of State Highway and Transportation Officials and the Transportation Research Board of the National Academy of Sciences, shall implement the findings and recommendations developed under the future strategic highway research program established under section 510. “(II) BASIS FOR FINDINGS.—The activities carried out under this subparagraph shall be based on the report submitted to Congress by the Transportation Research Board of the National Academy of Sciences under section 510. “(III) PERSONNEL.—The Secretary may use funds made available for carry out this subsection for administrative costs under this subparagraph. These funds shall be used in addition to any other funds made available for that purpose.
(iv) Fees.—

"(i) In General.—The Secretary may impose and collect fees to recover costs associated with special data or analysis requests relating to safety naturalistic driving databases developed under the future of strategic highway research program.

"(ii) Use of Fee Amounts.—

(a) In General.—Any fees collected under this clause shall be made available to the Secretary to carry out this section and shall remain available for expenditure until expended.

(b) Supplement, Not Supplant.—Any fee amounts collected under this clause shall supplement, but not supplant, amounts made available to the Secretary to carry out this title.

(d) Air Quality and Congestion Mitigation Measure Outcomes Assessment Research.—

"(1) In General.—The Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall carry out a research program to examine the outcomes of actions funded under the congestion mitigation and air quality improvement program since the enactment of the SAFETEA-LU (Public Law 109-59).

"(2) Goals.—The goals of the program shall include—

(A) the assessment and documentation, through outcomes research conducted on a representative sample of cases, of the benefits and outcomes achieved by federally supported surface transportation actions intended to reduce emissions or lessen traffic congestion; and

(B) the factors determining the air quality and human health impacts of those actions, including potential unrecognized or indirect consequences, attributable to those actions.

(C) An expanded base of empirical evidence on the air quality and human health impacts of actions described in paragraph (1); and

(D) An in-depth knowledge of—

(i) the factors determining the air quality and human health changes associated with transportation emission reduction actions; and

(ii) other transportation actions to more accurately understand the validity of current estimation and modeling routines and ways to improve those routines.

(3) Administrative Elements.—To carry out this subsection, the Secretary shall—

(A) make a grant for the coordination, selection, and reporting of component studies to an independent scientific research organization with the necessary experience in successfully conducting accountability and other studies on mobile source air pollutants and associated health effects;

(B) ensure that case studies are identified and conducted by teams selected through a competitive solicitation overseen by an independent committee of unbiased experts; and

(C) ensure that all findings and reports are peer-reviewed and published in a form that presents the findings together with reviewer comments.

(4) Report.—The Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives—

"(A) not later than 1 year after the date of enactment of the MAP–21, and for the following year, a report providing an initial scoping and plan, and status updates, respectively, for the program under this subsection; and

"(B) not later than 2 years after the date of enactment of the MAP–21, a final report that describes the findings of, and recommendations resulting from, the program under this subsection.

(5) Funding.—Of the amounts made available to carry out this section, the Secretary shall make available to carry out this subsection not more than $1,000,000 for each fiscal year."
(a) In general.—Section 5505 of title 49, United States Code, is amended to read as follows:

"§ 5505. University transportation centers program

(a) University Transportation Centers Program.—

"(1) Establishment and operation.—The Secretary shall make grants under this section to eligible nonprofit institutions of higher education to establish and operate university transportation centers under paragraphs (2) and (3).

"(2) Role of centers.—The role of each university transportation center referred to in paragraph (1) shall be—

"(A) to advance transportation expertise and technology in the varied disciplines that comprise the field of transportation through education, research, and technology transfer activities;

"(B) to provide for a critical transportation knowledge base outside of the Department of Transportation; and

"(C) to address critical workforce needs and educate the next generation of transportation leaders.

"(3) Selection process.—

"(a) To receive a grant under this section, a nonprofit institution of higher education shall submit to the Secretary an application in such form and contains such information as the Secretary may require.

"(b) General selection criteria.—

"(i) In general.—Except as otherwise provided in this paragraph, the Secretary shall select grantees that, for each fiscal year of the period beginning after the date of enactment of the MAP-21, the Secretary, in conjunction with the Administrators of the Federal Highway Administration and the Federal Transit Administration, shall select grant recipients under subsection (b) and make grant amounts available to the selected recipients.

"(1) Tier 1 University Transportation Centers.—

"(A) In general.—For each of fiscal years 2012 and 2013 and subject to subparagraph (B), the Secretary shall make grant amounts available to not more than 15 recipients that the Secretary determines best meet the criteria described in subsection (b)(2).

"(B) Restrictions.—

"(i) In general.—For each fiscal year, a grant made available under this paragraph shall not exceed $3,500,000 per recipient.

"(ii) Focused research.—At least 2 of the recipients awarded a grant under this paragraph shall have expertise in, and focus research on, public transportation issues.

"(C) Matching research.—At least 2 of the recipients awarded a grant under this paragraph shall each maintain a percentage of the total cost of the grant raised from nonfederal sources of not less than 20 percent.

"(iii) Sources.—The matching amounts referred to in clause (i) may include amounts made available to the recipient under—

"(I) section 504(b) or 505 of title 23; and

"(II) subject to prior approval by the Secretary, a transportation-related grant from the National Science Foundation.

"(D) Funding research.—The Secretary shall expend not more than 1 1⁄2 times the amounts made available to each recipient.

"(ii) Tier 2 University Transportation Centers.—

"(A) In general.—For each fiscal year, the Secretary shall provide grants of not more than $2,000,000 each to not more than 20 recipients to carry out this section.

"(B) Restriction.—A grant recipient under this paragraph shall not be eligible to receive a grant under this paragraph.

"(C) Matching requirement.—

"(i) In general.—As a condition of receiving a grant under this paragraph, a grant recipient shall match 50 percent of the amounts made available under the grant.

"(ii) Sources.—The matching amounts referred to in clause (i) may include amounts made available to the recipient under—

"(I) section 504(b) or 505 of title 23; and

"(II) subject to prior approval by the Secretary, a transportation-related grant from the National Science Foundation.

"(D) Program coordination.—The Secretary shall—

"(i) coordinate the research, education, and technology transfer activities carried out by grant recipients under this section; and

"(ii) disseminate the results of that research through the establishment and operation of an information clearinghouse.

"(2) Annual review and evaluation.—Not less frequently than annually, and consistent with the plan developed under section 508 of title 23, the Secretary shall review and evaluate the program under this section and shall make a written report to the Congress on the results of such review and evaluation.

"(3) Limitation on availability of amounts.—Amounts made available to the Secretary to carry out this section shall remain available for obligation by the Secretary for a period of 3 years after the last day of the fiscal year for which the amounts are appropriated.

"(4) Information collection.—Any survey, questionnaire, or interview that the Secretary determines to be necessary to carry out reporting requirements relating to any program assessment or evaluation activity under this section, including customer satisfaction assessments, shall not be subject to chapter 35 of title 44.

(b) Conforming amendment.—The analysis for chapter 55 of title 49, United States Code, is amended by striking paragraph (3)(C) and inserting the following:

"Sec. 5505. University transportation centers program.

(c) Definitions.—For purposes of this section—

"(1) the term "grant recipient" means an eligible nonprofit institution of higher education referred to in paragraph (2); and

"(2) the term "university transportation center" means such a center referred to in paragraph (1)."
§ 6301. Definitions.

"In this chapter, the following definitions apply:

(a) The term 'Bureau' means the Bureau of Transportation Statistics established by section 6302(a).

(b) The term 'Department' means the Department of Transportation.

(c) The term 'Director' means the Director of the Bureau.

(d) The term 'library' means the National Transportation Library established by section 6304(a).

(e) The term 'Secretary' means the Secretary of Transportation.

§ 6302. Bureau of Transportation Statistics.

(a) Establishment.—There is established in the Research and Innovative Technology Administration the Bureau of Transportation Statistics.

(b) Director.—

(1) Appointment.—The Director shall be appointed by the Secretary, who shall publicize the opportunity by notice in the Federal Register.

(2) Qualifications.—The Director shall be qualified to serve as the Director by virtue of training and experience in the collection, analysis, and use of transportation statistics.

(c) Duties.—

(A) In General.—The Director shall—

(i) serve as the senior advisor to the Secretary on data and statistics; and
(ii) be responsible for carrying out the duties described in subparagraph (B).

(B) Duties.—The Director shall—

(i) ensure that the statistics compiled under this section are designed to support transportation decisionmaking by—

(I) the Federal Government;

(II) State and local governments;

(III) metropolitan planning organizations;

(IV) transportation-related associations;

(V) the private sector, including the freight community; and

(VI) the public.

(ii) establish on behalf of the Secretary a program—

(I) to effectively integrate safety data across the Department;

(II) to address gaps in existing Department safety data programs;

(iii) work with the operating administrations of the Department—

(I) to establish and implement the data programs of the Bureau; and

(II) to improve the coordination of information collection efforts with other Federal agencies;

(iv) evaluate and update as necessary surveys and data collection methods of the Department on a continual basis to improve the accuracy and utility of transportation statistics;

(v) encourage the standardization of data, data collection methods, and data management and storage technologies for data collected by—

(I) the Bureau;

(II) the operating administrations of the Department;

(III) State and local governments;

(IV) metropolitan planning organizations; and

(V) private sector entities;

(vi) collect, compile, analyze, and publish a comprehensive set of transportation statistics on the performance and impacts of the national transportation system, including statistics on—

(I) transportation safety across all modes and intermodally;

(II) the state of good repair of United States transportation infrastructure;

(III) the extent, connectivity, and condition of the transportation system, building on the national transportation atlas database developed under section 6310;

(IV) economic efficiency across the entire transportation sector;

(V) the effects of the transportation system on global and domestic economic competitiveness;

(VI) demographic, economic, and other variables influencing travel behavior, including choice of transportation mode and goods movement; and

(VII) transportation-related variables that influence the domestic economy and global competitiveness;

(VIII) economic costs and impacts for passenger travel and freight movement;

(IX) intermodal and multimodal passenger movement;

(X) intermodal and multimodal freight movement; and

(XI) consequences of transportation for the human and natural environment.

(b) CONTRACTS, GRANTS, AND AGREEMENTS.—The Director shall be given access to all safety data that the Director determines necessary to develop transportation statistics and carry out modeling, economic assessment, and program assessment activities to ensure that the information is accessible, relevant, uniform, and in a form that permits systematic analysis by the Department;

(iv) review and report to the Secretary on the sources and reliability of—

(I) the statistics proposed by the heads of the operating administrations of the Department to measure outputs and outcomes as required under the Government Performance and Results Act of 1993 (Public Law 103–62; 107 Stat. 285); and

(ii) at the request of the Secretary, any other data collected or statistical information published by the heads of the operating administrations of the Department; and

(v) ensure that the statistics published under this section are readily accessible to the public.

(c) Access to Federal Data.—In carrying out subsection (b)(3)(B)(i), the Director shall be given access to all safety data that the Director determines necessary to carry out that subsection that is held by the Department or any other Federal agency.

(d) Additional Responsibilities.—The Director shall be responsible for—

(i) ensuring that the statistics compiled under this section are designed to support transportation decisionmaking by—

(I) the Federal Government;

(II) State and local governments;

(III) metropolitan planning organizations;

(IV) transportation-related associations;

(V) the private sector, including the freight community; and

(VI) the public.

(ii) establishing on behalf of the Secretary a program—

(I) to effectively integrate safety data across the Department;

(II) to address gaps in existing Department safety data programs;

(iii) working with the operating administrations of the Department—

(I) to establish and implement the data programs of the Bureau; and

(II) to improve the coordination of information collection efforts with other Federal agencies;

(iv) evaluating and updating as necessary surveys and data collection methods of the Department on a continual basis to improve the accuracy and utility of transportation statistics;

(v) encouraging the standardization of data, data collection methods, and data management and storage technologies for data collected by—

(I) the Bureau;

(II) the operating administrations of the Department;

(III) State and local governments;

(IV) metropolitan planning organizations; and

(V) private sector entities;

(vi) collecting, compiling, analyzing, and publishing a comprehensive set of transportation statistics on the performance and impacts of the national transportation system, including statistics on—

(I) transportation safety across all modes and intermodally;

(II) the state of good repair of United States transportation infrastructure;

(III) the extent, connectivity, and condition of the transportation system, building on the national transportation atlas database developed under section 6310;

(IV) economic efficiency across the entire transportation sector;

(V) the effects of the transportation system on global and domestic economic competitiveness;

(VI) demographic, economic, and other variables influencing travel behavior, including choice of transportation mode and goods movement; and

(VII) transportation-related variables that influence the domestic economy and global competitiveness;

(VIII) economic costs and impacts for passenger travel and freight movement;

(IX) intermodal and multimodal passenger movement;

(X) intermodal and multimodal freight movement; and

(XI) consequences of transportation for the human and natural environment.

(b) Contracts, Grants, and Agreements.—The Director shall be given access to all safety data that the Director determines necessary to develop transportation statistics and carry out modeling, economic assessment, and program assessment activities to ensure that the information is accessible, relevant, uniform, and in a form that permits systematic analysis by the Department.

(i) review and report to the Secretary on the sources and reliability of—

(I) the statistics proposed by the heads of the operating administrations of the Department to measure outputs and outcomes as required under the Government Performance and Results Act of 1993 (Public Law 103–62; 107 Stat. 285); and

(ii) at the request of the Secretary, any other data collected or statistical information published by the heads of the operating administrations of the Department; and

(x) ensure that the statistics published under this section are readily accessible to the public.

(c) Access to Federal Data.—In carrying out subsection (b)(3)(B)(i), the Director shall be given access to all safety data that the Director determines necessary to carry out that subsection that is held by the Department or any other Federal agency.

§ 6303. Intermodal transportation database

(a) In General.—In consultation with the Under Secretary Transportation for Policy, the Assistant Secretaries of the Department, and the heads of the operating administrations of the Department, the Director shall establish and maintain a transportation database for all modes of transportation.

(b) Access.—The Director shall be given access to all safety data that the Director determines necessary to carry out that subsection that is held by the Department or any other Federal agency.

(c) Contents.—The database shall include—

(i) information on the volumes and patterns of movement of people, including local, interregional, and international movements, by all modes of transportation (including bi-modal and intermodal combination), and relevant classification;

(ii) information on the location and connectivity of transportation facilities and services; and

(iii) a national accounting of expenditures and capital stocks on each mode of transportation and intermodal combination.

§ 6304. National transportation library

(a) Purpose and Establishment.—To support the information management and decisionmaking needs of transportation officials at the Federal, State, and local levels, there is established in the Bureau of Transportation Statistics a National Transportation Library that shall—

(i) be headed by an individual who is highly qualified in library and information science;

(ii) acquire, preserve, and manage transportation information and information products and services for use by the Department, other Federal agencies, and the general public;

(iii) provide reference and research assistance;

(iv) serve as a central depository for research results and technical publications of the Department;

(v) provide a central clearinghouse for transportation data and information of the Federal Government;

(vi) serve as coordinator and policy lead for transportation information access;

(vii) provide transportation information and information products and services to—

(A) the Department;

(B) other Federal agencies;

(C) public and private organizations; and

(D) individuals, within the United States as well as internationally;

(viii) coordinate efforts among, and cooperate with, transportation libraries, information providers, and technical assistance centers, with the goal of developing a comprehensive transportation information and knowledge network that supports the activities described in section 6302(b)(3)(B); and

(ix) engage in such other activities as the Director determines to be necessary and as the resources of the Library permit.

(b) Access.—The Director shall publicize, facilitate, and promote access to the information products and services described in subsection (a), with the goal of improving the ability of the transportation community to share information and the ability of the Director to make statistics and other information readily accessible as required under section 6302(b)(3)(B)(x).

(c) Agreements.—

(1) In General.—To carry out this section, the Director may enter into agreements with, provide grants to, and receive amounts from, any—

(A) State or local government;

(B) organization;

(C) business; or

(D) individual.

(2) Contracts, Grants, and Agreements.—The Library may initiate and support specific information and data management, access, and exchange relating to the strategic goals of the Department, knowledge networking, and national and international cooperation, by entering into contracts or other agreements or providing grants.

(3) Amounts.—Any amounts received by the Library as payment for library products and services, or other amounts made available to the Director to carry out this section and remain available until expended.
§ 6305. Advisory council on transportation statistics

(a) IN GENERAL.—The Director shall establish and consult with an advisory council on transportation statistics.

(b) FUNCTION.—The function of the advisory council established under this subsection is to advise the Director on—

(1) the quality, reliability, consistency, objectivity, and relevance of transportation statistics and analyses collected, supported, or disseminated by the Bureau and the Department; and

(2) methods to encourage cooperation and interoperability of transportation data collected by the Bureau, the operating administrations of the Department, States, local governments, and private sector entities.

(c) MEMBERSHIP.—The advisory council shall be composed of not fewer than 9 and not more than 11 members appointed by the Director, who shall not be officers or employees of the United States.

(d) TERMS OF APPOINTMENT.—

(1) IN GENERAL.—Except as provided in paragraph (2), members of the advisory council shall be appointed to staggered terms not to exceed 3 years.

(2) ADDITIONAL TERMS.—A member may be renominated for 1 additional 3-year term.

(3) PREVIOUS MEMBERS.—A member serving on the council on transportation statistics on the day before the date of enactment of the MAP-21 shall serve until the end of the appointed term of the member.

(e) APPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.—The Federal Advisory Committee Act (5 U.S.C. App.) shall apply to the advisory council established under this section, except that section 14 of that Act shall not apply.

§ 6306. Transportation statistical collection, analysis, and dissemination

To ensure that all transportation statistical collection, analysis, and dissemination is carried out in a coordinated manner, the Director may—

(1) use the services, equipment, records, personnel, information, and facilities of other Federal agencies, or State, local, and private agencies and instrumentalities, subject to the conditions that the applicable agency or instrumentality consents to that use;

(2) enter into agreements with the agencies and instrumentalities described in paragraph (1) for purposes of data collection and analysis;

(3) confer and cooperate with foreign governments, international organizations, and State, municipal, and other local agencies;

(4) request such information, data, and reports from any Federal agency as the Director determines necessary to carry out this chapter;

(5) encourage replication, coordination, and sharing of information among transportation agencies regarding information systems, information policy, and data; and

(6) confer and cooperate with Federal statistical agencies as the Director determines necessary to carry out this chapter, including by entering into cooperative data sharing agreements in conformity with all laws and regulations applicable to the disclosure and use of data.

§ 6307. Furnishing of information, data, or reports to Federal agencies

(a) IN GENERAL.—Except as provided in subsection (b), a Federal agency requested to furnish information, data, or reports by the Director under section 6302(b)(3)(B) shall provide the information to the Director.

(b) PROHIBITION ON CERTAIN DISCLOSURES.—

(1) IN GENERAL.—An officer, employee, or contractor of the Bureau may not—

(A) make any disclosure in which the data provided by an individual or organization under section 6302(b)(3)(B) can be identified;

(B) use the information provided under section 6302(b)(3)(B) for a nonstatistical purpose; or

(C) permit anyone other than an individual authorized by the Director to examine any individual report provided under section 6302(b)(3)(B).

(2) COPIES OF REPORTS.—

(A) IN GENERAL.—No department, bureau, agency, officer, or employee of the United States (except as provided in this chapter) may require, for any reason, a copy of any report that has been filed under section 6302(b)(3)(B) with the Bureau or retained by an individual respondent.

(B) LIMITATION ON JUDICIAL PROCEEDINGS.—A copy of a report described in subparagraph (A) that has been retained by an individual respondent or filed with the Bureau or any of the employees, contractors, or agents of the Bureau—

(i) shall be immune from legal process and

(ii) shall not, without the consent of the individual concerned, be admitted as evidence or used for any purpose in any action, suit, or proceeding, civil or criminal, or any other judicial or administrative proceeding.

(C) APPLICABILITY.—This paragraph shall apply only to reports that permit information concerning an individual or organization to be reasonably determined by direct or indirect means.

(3) INFORMING RESPONDENT OF USE OF DATA.—If the Bureau is authorized by statute to collect data or information for a nonstatistical purpose, the Director shall clearly distinguish the collection of the data or information by rule and on the collection instrument, in a manner that informs the respondent who is requested or required to supply the data or information of the nonstatistical purpose.

(D) TRANSPORTATION AND TRANSPORTATION-RELATED DATA ACCESS.—Except as expressly prohibited by law, the Director shall have access to any transportation and transportation-related information in the possession of any Federal agency.

§ 6308. Freight data collection

(a) FREIGHT DATA COLLECTION.—

(1) A Federal agency making funds available for freight data collection.

(2) to make available records or statistics in the Federal statistical system.

(b) PROHIBITION ON CERTAIN DISCLOSURES.—

(1) IN GENERAL.—The Director shall develop and maintain a national transportation atlas database that is comprised of geospatial data and information:

(i) transportation networks;

(ii) flows of people, goods, vehicles, and craft over the transportation networks; and

(iii) social, economic, and environmental conditions that affect or are affected by the transportation networks.

(2) INTERMODAL NETWORK ANALYSIS.—The database under section 6308(a) shall be capable of supporting intermodal network analysis.

§ 6311. Limitations on statutory construction

Nothing in this chapter—

(a) authorizes the Bureau to require any other Federal agency to collect data; or

(b) alters or diminishes the authority of any other officer of the Department to collect and disseminate data independently.

§ 6312. Research and development grants

The Secretary may make grants to, or enter into cooperative agreement contracts or agreements with, public and nonprofit private entities (including State transportation departments, metropolitan planning organizations, and institutions of higher education) for—

(a) investigation of the subjects described in section 6303(b)(3)(B),

(b) research and development of new methods of data collection, standardization, management, integration, dissemination, interpretation, and analysis;

(c) demonstration programs by States, local governments, and metropolitan planning organizations to coordinate data collection, reporting, management, storage, and archiving to simplify data comparisons across jurisdictions;

(d) development of electronic clearinghouses of transportation data that are readily accessible to the public; and

(e) any other program that is consistent with title 23 of the Code of Federal Regulations referred to in subsection (a).

§ 6313. Transportation statistics annual report

The Director shall submit to the President and Congress a transportation statistics annual report, which shall include—

(a) information on the progress of the Director in carrying out the duties described in section 6302(b)(3)(B);

(b) documentation of the methods used to obtain and ensure the quality of the statistics presented in the report; and

(c) any recommendations of the Director for improving transportation statistical information.

§ 6314. Mandatory response authority for freight data collection.

(a) IN GENERAL.—An owner, official, agent, or employee of a freight data collection organization.

(b) FREIGHT DATA COLLECTION.—

(1) A Federal agency making funds available for freight data collection.

(2) to make available records or statistics in the Federal statistical system.

(c) INFORMING RESPONDENT OF USE OF DATA.—If the Bureau is authorized by statute to collect data or information for a nonstatistical purpose, the Director shall clearly distinguish the collection of the data or information by rule and on the collection instrument, in a manner that informs the respondent who is requested or required to supply the data or information of the nonstatistical purpose.

(d) TRANSPORTATION AND TRANSPORTATION-RELATED DATA ACCESS.—Except as expressly prohibited by law, the Director shall have access to any transportation and transportation-related information in the possession of any Federal agency.

§ 6309. Information collection

As the head of an independent Federal statistical agency, the Director may consult directly with the Office of Management and Budget concerning any survey, questionnaire, or interview that the Director—

(a) determines necessary to carry out this chapter, including by entering into cooperative data sharing agreements in conformity with all laws and regulations applicable to the disclosure and use of data.

(b) its official custody of the individual.

§ 6310. National transportation atlas database

(a) IN GENERAL.—The Director shall develop and maintain a national transportation atlas database that is comprised of geospatial data and information:

(i) transportation networks;

(ii) flows of people, goods, vehicles, and craft over the transportation networks; and

(iii) social, economic, and environmental conditions that affect or are affected by the transportation networks.

(b) INTERMODAL NETWORK ANALYSIS.—The database under section 6308(a) shall be capable of supporting intermodal network analysis.

(1) to answer completely and correctly to the extent practicable and to the best knowledge of that individual all questions relating to the corporation, company, business, institution, establishment, or other organization; or

(2) to make available records or statistics in

(B) to make available records or statistics in the official custody of the individual.

(1) DESCRIPTION OF THE CORPORATION, COMPANY, BUSINESS, INSTITUTION, ESTABLISHMENT, OR ORGANIZATION TO WHICH THE INFORMATION REFERS.—The Director shall—

(a) receives Federal funds relating to the transportation statistics annual report; or

(b) has consented to be subject to a fine under this subsection on—
February 9, 2012

CONGRESSIONAL RECORD — SENATE

S477

“(i) refusal to supply any data requested; or
“(ii) failure to respond to a written request.

(b) FINES.—

(1) GENERAL.—Subject to paragraph (2), an individual described in subsection (a) shall be fined not more than $500.

(2) WILLFUL ACTIONS.—If an individual willfully fails to answer a question described in subsection (a)(1), the individual shall be fined not more than $10,000.”.

(b) RULES OF CONSTRUCTION.—If the provisions of title 49, United States Code, are transferred to chapter 63 of that title, the following rules of construction apply:

(1) For purposes of determining whether 1 provision of law supersedes another based on enactment later in time, a chapter 63 provision is deemed to have been enacted on the date of enactment of the corresponding section 111 provision.

(2) A reference to a section 111 provision, including a reference in a regulation, order, or other law, is deemed to refer to the corresponding chapter 63 provision.

(3) A regulation, order, or other administrative action in effect under a section 111 provision continues in effect under the corresponding chapter 63 provision.

(4) An action taken or an offense committed under a section 111 provision is deemed to be taken or committed under the corresponding chapter 63 provision.

(c) CONFORMING AMENDMENTS.—

(1) REPEAL.—Section 111 of title 49, United States Code, is repealed, and the item relating to section 111 in the analysis of chapter 1 of that title is deleted.

(2) ANALYSIS OF SUBTITLE III.—The analysis for subtitle III of title 49, United States Code, is amended by inserting after the items for sections 5071 to 5073, inclusive, the following:

“Chapter 63, Bureau of Transportation Statistics ....................................”.

SEC. 2211. ADMINISTRATIVE AUTHORITY.

Section 112 of title 49, United States Code, is amended by adding at the end the following:

“(1) PROMOTIONAL AUTHORITY.—Amounts authorized to be appropriated for the administration and operation of the Research and Innovative Technology Administration may be used to purchase promotional items of nominal value for use by the Administrator of the Research and Innovative Technology Administration in the recruitment of individuals and promotion of the programs of the Administrator.

“(2) PROGRAM EVALUATION AND OVERSIGHT.—For each of fiscal years 2012 and 2013, the Administrator may expend not more than 1½ percent of the amounts authorized to be appropriated for the administration and operation of the Research and Innovative Technology Administration to carry out the coordination, evaluation, and oversight of the programs administered by the Administrator.

“(b) COLLABORATIVE RESEARCH AND DEVELOPMENT.—

“(1) IN GENERAL.—To encourage innovative solutions to multimodal transportation problems and stimulate the deployment of new technology, the Administrator may carry out, on a cost-shared basis, collaborative research and development with:

“(A) eligible entities, including State and local governments, foreign governments, institutions of higher education, corporations, institutions, partnerships, sole proprietors, associations that are incorporated or established under the laws of any State; (B) Federal laboratories; and

“(2) COOPERATION, GRANTS, CONTRACTS, AND AGREEMENTS.—Notwithstanding any other provision of law, the Administrator may directly initiate contracts, grants, cooperative research and development agreements (as defined in section 12 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a)), and other agreements to fund, and accept funds from, the Transportation Research Board of the National Research Council of the National Academy of Sciences, State departments of transportation, cities, counties, institutions of higher education, associations, and the agents of those entities to carry out joint transportation research and technology efforts.

“(3) FEDERAL SHARE.—

“(A) IN GENERAL.—Subject to subparagraph (B), the Federal share of the cost of an activity carried out under paragraph (2) shall not exceed 50 percent.

“(B) EXCEPTION.—If the Secretary determines that the activity is of substantial public interest or benefit, the Secretary may approve a greater Federal share.

“(C) NON-FEDERAL SHARE.—All costs directly incurred by the non-Federal partners, including personnel, travel, facility, and hardware development costs, shall be credited toward the non-Federal share of the cost of the activity carried out under paragraph (A).

“(4) USE OF TECHNOLOGY.—The research, development, or use of a technology under a contract, grant, cooperative research and development, or use of a technology under a contract, grant, or other agreement entered into under this subsection, including the terms under which the technology may be licensed and the resulting royalties may be distributed, shall be subject to the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.).

“(5) WAIVER OF ADVERTISING REQUIREMENTS.—Section 3709 of the Revised Statutes (41 U.S.C. 5) shall not apply to a contract, grant, or other agreement entered into under this section.

SEC. 2212. TRANSPORTATION RESEARCH AND DEVELOPMENT STRATEGIC PLANNING.

Section 508(a)(2) of title 23, United States Code, is amended by striking paragraph (A) and inserting the following:

“(A) describe the primary purposes of the transportation research and development program, which shall include, at a minimum—

“(i) promoting safety;

“(ii) reducing congestion and improving mobility;

“(iii) protecting and enhancing the environment;

“(iv) preserving the existing transportation systems;

“(v) improving the durability and extending the life of transportation infrastructure; and

“(vi) improving goods movement.”.

SEC. 2213. NATIONAL ELECTRONIC VEHICLE CORRIDORS AND RECHARGING INFRASTRUCTURE.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall establish a stakeholder-driven process to develop a plan and map of a potential national network of electric vehicle corridors and recharging infrastructure.

(b) REQUIREMENTS.—The plan under subsection (a) shall—

“(1) project the near- and long-term need for and location of electric vehicle recharging infrastructure across the nation;

“(2) identify corridor locations that are critical to maximizing the accessibility of electric vehicle recharging infrastructure in rural and service-deficient areas; and

“(3) establish an aspirational goal of achieving strategic deployment of electric vehicle infrastructure by 2020.

(c) STAKEHOLDERS.—In developing the plan under subsection (a), the Secretary shall in-
“(A) a plan to deploy and provide for the long-term operation and maintenance of intelligent transportation systems to improve safety, efficiency, system performance, and return on investment; and
“(B) a plan to integrate ITS and ITS-enabled operations strategies that improve performance in the areas of—
“(i) traffic operations;
“(ii) emergency response to surface transportation incidents;
“(iii) incident management;
“(iv) transit and commercial vehicle operations improvements;
“(v) weather event response management by State and local authorities;
“(vi) surface transportation network and facility management;
“(vii) construction and work zone management;
“(viii) traffic flow information;
“(ix) freight management; and
“(x) improving access to transportation agencies, businesses, and the traveling public; and
“(B) carrying out activities that support the creation of networks that link metropolitan and rural surface transportation systems into an integrated data network, capable of collecting, sharing, and archiving transportation system traffic condition and performance information; and
“(C) the implementation of intelligent transportation systems and technologies that improve highway safety through information communications systems linking vehicles, infrastructure, mobile devices, transportation users, and emergency responders;
“(D) the provision of services necessary to ensure the efficient operation and management of ITS infrastructure, including costs associated with communications, utilities, rent, hardware, software, labor, administrative costs, travel, technical services;
“(E) the provision of support for the establishment and maintenance of institutional relationships between transportation agencies, police, emergency medical services, private emergency operators, freight operators, [and public service utilities] public service utilities, and telecommunications providers;
“(F) carrying out multimodal and crossjurisdictional planning and deployment of regional transportation systems operations and management services; and
“(G) performing project evaluations to determine the costs, benefits, lessons learned, and future deployment strategies associated with the deployment of intelligent transportation systems.
“§ 514. Goals and purposes
“(a) GOALS.—The goals of the intelligent transportation system program include—
“(1) enhancement of surface transportation efficiency and modal and intermodal and international trade to enable existing facilities to perform a significant portion of future transportation needs, including public access to employment, goods, and services and to reduce regulatory, financial, and other transaction costs to public agencies and system users;
“(2) achievement of national transportation safety goals, including enhancement of safe operation of motor vehicles and nonmotorized vehicles and improved emergency response to collisions, with particular emphasis on decreasing the number and severity of collisions; and
“(3) protection and enhancement of the natural environment and communities affected by surface transportation, with particular emphasis on assisting State and local governments to achieve national environmental goals;
“(4) accommodation of the needs of all users of surface transportation systems, including operators of commercial vehicles, passenger motor vehicles, motorcycles, bicycles, and pedestrians (including individuals with disabilities); and
“(5) enhancement of national defense mobility and improvement of the ability of the United States to respond to security-related or other manmade emergencies and natural disasters.
“(b) PURPOSE.—The Secretary shall implement activities under the intelligent transportation systems program, at a minimum—
“(1) to expedite, in both metropolitan and rural areas, deployment and integration of intelligent transportation systems for consumers of passenger and freight transportation;
“(2) to ensure that Federal, State, and local transportation officials have adequate knowledge of intelligent transportation systems for consideration in the transportation planning process; and
“(3) to improve regional cooperation and operations planning for effective intelligent transportation system deployment; and
“(4) promote the innovative use of private resources in support of intelligent transportation system development;
“(5) to facilitate, in cooperation with the motor vehicle industry, the introduction of vehicle-based safety enhancing systems; (6) to support the application of intelligent transportation systems technologies that increase the safety and efficiency of commercial motor vehicle operations; (7) to develop a workforce capable of developing and maintaining intelligent transportation systems; (8) to provide continuing support for operations and maintenance of intelligent transportation systems, and is amended by adding after the item relating to section 513 the following: “§ 514. Amendments.”

SEC. 2305. GENERAL AUTHORITIES AND REQUIREMENTS.

(a) IN GENERAL.—Chapter 5 of title 23, United States Code, is amended by adding after the item relating to section 514 (as added by section 2302) the following:

§ 515. General authorities and requirements

‘‘(a) SCOPE.—Subject to the provisions of this chapter, the Secretary shall conduct an ongoing intelligent transportation system program:

‘‘(1) to research, develop, and operationally test intelligent transportation system technologies; ‘‘(2) to provide technical assistance in the nationwide application of those systems as a component of the surface transportation systems of the United States; ‘‘(b) POLICY.—Intelligent transportation system research and operational tests funded pursuant to this chapter shall encourage and replace public-private partnerships or private sector investment in those tests and projects.

(c) COOPERATION WITH GOVERNMENTAL, PRIVATIVE, AND EDUCATIONAL ENTITIES.—The Secretary shall carry out the intelligent transportation system program in cooperation with State and local governments and other public and private firms of the United States, the Federal laboratories, and institutions of higher education, including historically Black colleges and universities and other minority institutions of higher education.

(d) CONSULTATION WITH FEDERAL OFFICIALS.—In carrying out the intelligent transportation system program, the Secretary shall consult with the heads of other Federal agencies, as appropriate.

(e) TECHNICAL ASSISTANCE, TRAINING, AND INFORMATION.—The Secretary may provide technical assistance, training, and information to State and local governments seeking to implement, operate, maintain, or evaluate intelligent transportation system technologies and services.

(1) TRANSPORTATION PLANNING.—The Secretary shall carry out a program to support adequate consideration of intelligent transportation system management and operations, including intelligent transportation systems, within metropolitan and statewide transportation planning processes.

(2) INFORMATION CLEARINGHOUSE.—‘‘(1) IN GENERAL.—The Secretary shall— ‘‘(A) maintain a repository for technical and safety data collected as a result of federally sponsored projects carried out under this chapter; and ‘‘(B) based, on request, that information (except for proprietary information and data) readily available to all users of the repository at an appropriate cost.

(2) IN GENERAL.—The Secretary may enter into an agreement with a third party for the maintenance of the repository for technical and safety data under paragraph (1)(A).

(b) FEDERAL FINANCIAL ASSISTANCE.—If the Secretary enters into an agreement with an entity for the maintenance of the repository, the entity shall be eligible for Federal financial assistance under this section.

(c) AVAILABILITY OF INFORMATION.—Information in the repository shall not be subject to sections 552 and 555 of title 5, United States Code.

(d) ADVISORY COMMITTEE.—‘‘(1) IN GENERAL.—The Secretary shall establish an Advisory Committee to advise the Secretary on carrying out this chapter.

(e) MEMBERSHIP.—The Advisory Committee shall have no more than 20 members, be balanced between metropolitan and rural interests, and include, at a minimum— ‘‘(A) a representative from a State highway department; ‘‘(B) a representative from a local highway department who is not from a metropolitan planning organization; ‘‘(C) a representative from a State, local, or regional transit agency; ‘‘(D) a representative from a metropolitan planning organization; ‘‘(E) a private sector user of intelligent transportation system technologies; ‘‘(F) an academic researcher with expertise in computer science or another information science field related to intelligent transportation systems, and who is not an expert on transportation issues; ‘‘(G) an academic researcher who is a civil engineer; ‘‘(H) an academic researcher who is a social scientist with expertise in transportation issues; ‘‘(I) a representative from a nonprofit group representing the intelligent transportation system industry; ‘‘(J) a representative from a public interest group concerned with safety; ‘‘(K) a representative from a public interest group concerned with the impact of the transportation system on land use and residential patterns; and ‘‘(L) members with expertise in planning, safety, telecommunications, utilities, and operations.

(f) DUTIES.—The Advisory Committee shall, at a minimum, perform the following duties:

‘‘(1) Provide input into the development of the intelligent transportation system aspects of the strategic plan under section 508.

‘‘(2) Review, at least annually, areas of intelligent transportation systems research being considered for funding by the Secretary to determine— ‘‘(i) whether these activities are likely to advance the state-of-the-practice or state-of-the-art in intelligent transportation systems;

‘‘(ii) whether the intelligent transportation system technologies are likely to be deployed by users, and if not, to determine the barriers to deployment; and ‘‘(iii) the appropriate roles for government and the private sector in investing in the research and technologies being considered.

‘‘(1) REPORT.—Not later than February 1 of each year after the date of enactment of the MAP-21, the Secretary shall submit to Congress a report that includes— ‘‘(A) all recommendations made by the Advisory Committee during the preceding calendar year with respect to the exercise of the authorities and recommendations in this section; ‘‘(B) an explanation of the manner in which the Secretary has implemented those recommendations; and ‘‘(C) for recommendations not implemented, the reasons for rejecting the recommendations.

‘‘(5) APPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.—The Advisory Committee shall be subject to the Federal Advisory Committee Act (5 U.S.C. App.).

‘‘(6) REPORTING.— ‘‘(1) GUIDELINES AND REQUIREMENTS.— ‘‘(A) IN GENERAL.—The Secretary shall issue guidelines and regulations for the reporting and evaluation of operational tests and deployment projects carried out under this chapter.

‘‘(B) OBJECTIVITY AND INDEPENDENCE.—The guidelines and requirements issued under subparagraph (A) shall include provisions to ensure the objectivity and independence of the testing entity or any real or apparent conflict of interest or potential influence on the outcome by parties to any such test or deployment project or by any other formal evaluation carried out under this chapter.

‘‘(C) FUNDING.—The guidelines and requirements issued under subparagraph (A) shall establish reporting funding levels based on the size and scope of each test or project that ensure adequate reporting of the results of the test or project.

‘‘(2) SPECIAL RULE.—Any survey, questionnaire, or interview that the Secretary considers necessary to carry out the reporting of any deployment project in accordance with the program assessment activity under this chapter shall be subject to section 35 of title 44, United States Code.

‘‘(2) CONFORMING AMENDMENT.—The analysis for chapter 5 of title 23, United States Code, is amended by adding after the item relating to section 514 (as added by section 2302) the following:

§ 516. Research and development

‘‘(a) IN GENERAL.—The Secretary shall carry out a comprehensive program of intelligent transportation system research and development, and operational tests of intelligent vehicles, intelligent infrastructure systems, and other similar activities that are necessary to carry out this chapter.

‘‘(b) FEDERAL FINANCIAL ASSISTANCE.—If the Secretary enters into an agreement with a third party for the maintenance of the repository for technical information, or highway operations systems and remote sensing products; (2) use interdisciplinary approaches to develop traffic management strategies and tools to address multiple impacts of congestion concurrently; (3) address traffic management, incident management, transit management, toll collection, traveler information, or highway operations systems; (4) incorporate research on the impact of environmental, weather, and natural conditions on intelligent transportation systems, including the effects of cold climates; (5) enhance intermodal use of intelligent transportation systems for diverse groups, including for emergency and health-related services; (6) enhance safety through improved crash avoidance and protection, crash and other notification, commercial motor vehicle operations, and infrastructure-based or cooperative safety systems; or (7) facilitate the integration of intelligent infrastructure, vehicle, and control technologies.

February 9, 2012

CONGRESSIONAL RECORD — SENATE

S479
"(c) Federal Share.—The Federal share payble on account of any project or activity carried out under subsection (a) shall not exceed 40 percent:"

(b) Conforming Amendment.—The analysis for chapter 5 of title 23, United States Code, is amended by adding after the item relating to section 515 (as added by section 2304) the following:

"516. Research and development.

SEC. 2305. NATIONAL ARCHITECTURE AND STANDARDS

(a) In General.—Chapter 5 of title 23, United States Code, is amended by adding after section 516 (as added by section 2304) the following:

"§ 517. National architecture and standards.

"(a) In General.—

"(1) DEVELOPMENT, IMPLEMENTATION, AND MAINTENANCE.—In accordance with section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note; 110 Stat. 783; 115 Stat. 1241), the Secretary shall develop and maintain a national ITS architecture and supporting ITS standards and protocols to promote the use of systems engineering methods in the widespread deployment and maintenance of intelligent transportation systems as a component of the surface transportation systems of the United States.

"(2) INTEGRITY AND EFFICIENCY.—To the maximum extent practicable, the national ITS architecture and supporting ITS standards and protocols shall promote interoperability and efficiency of intelligent transportation systems and technologies implemented throughout the United States.

"(b) USE OF STANDARDS DEVELOPMENT ORGANIZATIONS.—In carrying out this section, the Secretary shall support the development and maintenance of standards and protocols using national ITS architecture and supporting ITS standards development organizations as the Secretary determines to be necessary and whose membership are comprised of, and represent, the surface transportation and intelligent transportation systems industries.

"(c) STANDARDS FOR NATIONAL POLICY IMPLEMENTATION.—The Secretary finds that a standard is necessary for implementation of a nationwide policy requiring the establishment of national ITS architecture and supporting ITS standards and protocols; and

"(d) CONFORMITY WITH NATIONAL ARCHITECTURE.

"(1) In General.—If the Secretary finds that the development or balloting of an intelligent transportation system standard jeopardizes the timely achievement of the objectives described in subsection (a), the Secretary may establish a provisional standard, after consultation with stakeholders, may establish and require the use of that standard.

"(2) DISCRETION OF THE SECRETARY.—The Secretary, at the discretion of the Secretary, may offer an exemption from paragraph (1) for projects designed to achieve specific research objectives outlined in the national intelligent transportation system program plan or transportation development strategic plan developed under section 508.

"(b) Conforming Amendment.—The analysis for chapter 5 of title 23, United States Code, is amended by adding after the item relating to section 516 (as added by section 2304) the following:

"(a) In General.—Chapter 5 of title 23, United States Code, is amended by adding after section 517 (as added by section 2305) the following:

"§ 518. 5.9 GHz vehicle-to-vehicle and vehicle-to-infrastructure communications systems deployment

"(a) In General.—Not later than 3 years after the date of enactment of this section, the Secretary shall submit to the appropriate committees of Congress a report that—

"(1) describes a recommended implementation path for dedicated short-range communications technology and applications; and

"(2) includes guidance on the relationship of the deployment of dedicated short-range communications to the National ITS Architecture and ITS Standards.

"(b) NATIONAL RESEARCH COUNCIL REVIEW.—The Secretary shall enter into an agreement with the National Research Council for the review by the National Research Council of the report described in subsection (a).

"(b) Conforming Amendment.—The analysis for chapter 5 of title 23, United States Code, is amended by adding after section 517 (as added by section 2306) the following:

"§ 518. 5.9 GHz vehicle-to-vehicle and vehicle-to-infrastructure communications systems deployment.

"TITLE III—AMERICA FAST FORWARD FINANCING INNOVATION

SEC. 3001. SHORT TITLE.

This title may be cited as the "America Fast Forward Financing Innovation Act of 2011".

SEC. 3002. TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION ACT AMENDMENTS.

Sections 601 through 609 of title 23, United States Code, are amended by adding after section 601 (as added by section 2302) the following:

"§ 601. Generally applicable provisions.

"(a) Definitions.—In this chapter, the following definitions apply:

"(1) ELIGIBLE PROJECT COSTS.—The term ‘eligible project costs’ means amounts substantially all of which are paid for, or by the account of, an obligor in connection with a project, including the cost of—

"(A) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, permitting, preliminary engineering and design work, and other preconstruction activities;

"(B) construction, reconstruction, rehabilitation, replacement, and acquisition of real property (and relating to the project and improvements to land), environmental mitigation, construction contingencies, and acquisition of equipment; and

"(C) other costs that are necessary to meet market requirements, reasonably required reserve funds, capital issuance expenses, and other carrying costs during construction.

"(2) CONSUMER PROTECTION.—The term ‘Federal credit instrument’ means a secured loan, loan guarantee, or line of credit authorized to be made available under this chapter with respect to a project.

"(3) INVESTMENT-GRADE RATING.—The term ‘investment-grade rating’ means a rating of the obligor by Moody’s, Standard & Poor’s, or another rating agency of a rating of BBB- or higher assigned by a rating agency to project obligations.

"(4) LENDER.—The term ‘lender’ means any non-Federal institutional buyer as defined in section 230.144A(a) of title 17, Code of Federal Regulations (or any successor regulation), known as Rule 144A(a) of the Security Exchange Commission, is issued under the Securities Act of 1933 (15 U.S.C. 77a et seq.), including—

"(A) a qualified retirement plan (as defined in section 497(c) of the Internal Revenue Code of 1986) that is a qualified institutional buyer;

"(B) a governmental plan (as defined in section 414(d) of the Internal Revenue Code of 1986) that is a qualified institutional buyer;

"(5) LETTER OF INTEREST.—The term ‘letter of interest’ means a letter submitted by a potential applicant prior to any application for credit assistance in a format prescribed for the Secretary on the website of the TIFIA program.

"(6) LINE OF CREDIT.—The term ‘line of credit’ means an agreement entered into by the Secretary with an obligor under section 603 to provide a direct draw or a direct draw at a future date upon the occurrence of certain events.

"(7) LIMITED BUYDOWN.—The term ‘limited buydown’ means, subject to the conditions described in section 602(b)(4)(C), a buydown of the interest rate by the Secretary and by the obligor if the interest rate has increased between—

"(A) the date on which a project application acceptable to the Secretary is submitted; or

"(B) the date on which the Secretary enters into a master credit agreement; and

"(8) LOAN GUARANTEE.—The term ‘loan guarantee’ means any guarantee or other pledge by the Secretary to pay all or part of the principal of and interest on a loan or other debt obligation issued by an obligor and funded by a lender.

"(9) MASTER CREDIT AGREEMENT.—The term ‘master credit agreement’ means an agreement to extend credit assistance for a program of projects secured by a common security pledge (which shall receive an investment grade rating from a rating agency), or other obligations issued by an obligor and secured by a master credit agreement, at future dates, subject to the availability of future funds being made available to carry out this chapter;

"(A) establish the maximum amounts and general terms and conditions of the secured loans or other Federal credit instruments;

"(B) identify the 1 or more dedicated non-Federal revenue sources that will secure the master credit agreement, at future dates, subject to the availability of future funds being made available to carry out this chapter;

"(C) provide for the obligations of funds for the secured loans or Federal credit instruments at future dates, subject to the availability of future funds being made available to carry out this chapter;

"(D) provide for the obligations of funds for the secured loans or Federal credit instruments at future dates, subject to the availability of future funds being made available to carry out this chapter.
The term ‘rural infrastructure project’ means a surface transportation infrastructure project located in any area other than an urbanized area that has a population of greater than 200,000 inhabitants.

(c) ESTABLISHMENT.—The term ‘secured loan’ means a direct loan or other debt obligation issued by an obligor and funded by the Secretary in connection with the financing of a project.

(16) STATE.—The term ‘State’ has the meaning given the term in section 101.

(17) SUBSIDY AMOUNT.—The term ‘subsidy amount’ means the amount of budget authority sufficient to cover the estimated long-term cost to the Federal Government of a Federal credit instrument, calculated on a net present value basis, excluding administrative costs and any incidental effects on governmental receipts or outlays in accordance with the Federal Credit Reform Act of 1990 (2 U.S.C. 661 et seq.).

(18) SUBSTANTIAL COMPLETION.—The term ‘substantial completion’ means—

(A) the opening of a project to vehicular or passenger traffic; or

(B) a comparable event, as determined by the Secretary in the credit agreement.

(19) TIFIA PROGRAM.—The term ‘TIFIA program’ means the transportation infrastructure finance and innovation program of the Department.

(20) CONTINGENT COMMITMENT.—The term ‘contingent commitment’ means a commitment to obligate an amount from future available budget authority, if applicable, on a collateralized basis.

(21) OBLIGOR.—The term ‘obligor’ means a party with respect to whom the project (A) is primarily liable for payment of the principal of or interest on a Federal credit instrument; and

(B) is a corporation, partnership, joint venture, trust, or governmental entity, agency, or instrumentality.

(22) PROJECT.—The term ‘project’ means—

(A) any surface transportation project eligible for Federal assistance under this title or chapter 53 of title 49;

(B) a project for an international bridge or tunnel for which an international entity authorized under Federal or State law is responsible;

(C) a project for intercity passenger bus or rail facilities and vehicles, including facilities and vehicles owned by the National Railroad Passenger Corporation and components of magnetic levitation transportation systems; and

(D) a project that—

(i) is a project for a public freight rail facility or a private facility providing public benefit for highway users by way of direct freight interchange between highway and rail carriers;

(ii) for an intermodal freight transfer facility;

(iii) for a means of access to a facility described in subclause (I) or (II);

(iv) for a service improvement for a facility described in subclause (I) or (II) (including a capital investment for an intelligent transportation system); or

(v) that comprises a series of projects described in subclauses (I) through (IV) with the common objective of improving the flow of goods;

(vi) may involve the combining of private and public sector funds, including investment of public funds in private sector facility improvements to facilitate direct intermodal interchange, transfer, and access into and out of the port; and

(vii) is composed of related highway, surface transportation, transit, rail, or intermodal capital improvement projects eligible for assistance under this subsection in order to meet the eligible project cost threshold under subsection (b) or (g) by grouping related projects together for that purpose, on the condition that the credit assistance for the projects is secured by a common pledge.

(23) PRIOR LIABILITIES.—In such other cases, the term ‘project obligation’ means any note, bond, debenture, or other debt obligation issued by an obligor in connection with the financing of a project, other than a Federal credit instrument.

(24) RATING AGENCY.—The term ‘rating agency’ means a credit rating agency registered with the Securities and Exchange Commission as a nationally recognized statistical rating organization (as that term is defined in section 3(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a))).

(25) RURAL INFRASTRUCTURE PROJECT.—The term ‘rural infrastructure project’ means a surface transportation infrastructure project located in any area other than an urbanized area that has a population of greater than 200,000 inhabitants.

(26) STATISTICAL RATING ORGANIZATION.—The term ‘statistical rating organization’ (as that term is defined in section 3(a)(8) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a))).
(C) The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.).

(2) NEPA.—No funding shall be obligated for a project unless the Secretary has not received an environmental Categorical Exclusion, Finding of No Significant Impact, or Record of Decision under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

§ 603. Secured loans

(a) In General.—

(1) AGREEMENTS.—Subject to paragraphs (2) through (4), the Secretary may enter into agreements with 1 or more obligors to make secured loans, the proceeds of which shall be used—

(A) to finance eligible project costs of any project selected under section 602;

(B) to refinance interim construction financing of eligible project costs of any project selected under section 602; or

(C) to refinance existing loan agreements for rural infrastructure projects;

(2) THROUGH (4), THE SECRETARY MAY ENTER INTO AGREEMENTS TO MAKE AVAILABLE LINES OF CREDIT MADE AVAILABLE UNDER THIS SECTION.

(b) Terms and Limitations.—

(1) IN GENERAL.—A secured loan under this section with respect to a project shall be on such terms and conditions and contain such covenants, representations, warranties, and requirements (including requirements for audits) as the Secretary determines appropriate.

(2) Maximum amount.—The amount of the secured loan shall not exceed the lesser of 49 percent of the total project costs or, if the secured loan does not receive an investment grade rating, the secured loan shall not exceed the lesser of 49 percent of the total project costs or, if the secured loan does not receive an investment grade rating, the present value of the secured loan, the Secretary may, subject to subparagraph (d)(4), allow the obligor to add unpaid principal and interest to the outstanding balance of the secured loan.

(c) Interest.—Any payment deferred under subparagraph (a)(5) shall continue to accrue interest in accordance with subsection (b)(4) until fully repaid; and

(d) Sale of Secured Loans.—Any excess revenues that remain after satisfying scheduled debt service requirements on the project obligations and secured loan and all deposit requirements under the terms of any trust agreement, bond resolution, or similar agreement securing project obligations may be applied annually to prepay the secured loan without penalty.

§ 604. Lines of credit

(a) In General.—Subject to paragraph (2), through (4), the Secretary may enter into agreements to make available lines of credit made available under this section.

(b) Terms.—The terms of a guaranteed line of credit made available under this section shall be at a similar maturity to the maturity of the secured loan, the Secretary may, subject to subparagraph (c), allow the obligor to add unpaid principal and interest to the outstanding balance of the secured loan.

(c) Interest.—Any payment deferred under subparagraph (a)(5) shall continue to accrue interest in accordance with subsection (b)(4) until fully repaid; and

(d) Use of Proceeds of Refinancing.—The proceeds of a secured loan may be prepaid at any time without penalty from the proceeds of refinancing from non-Federal sources.

(e) Salaried Employees.—Any excess revenues that remain after satisfying scheduled debt service requirements on the project obligations and secured loan and all deposit requirements under the terms of any trust agreement, bond resolution, or similar agreement securing project obligations may be applied annually to prepay the secured loan without penalty.

§ 605. Limited buydowns

(a) In General.—

(1) AGREEMENTS.—Subject to paragraphs (2) through (4), the Secretary may enter into agreements with 1 or more obligors to make limited buydowns. A limited buydown is subject to the following conditions:

(i) The interest rate under the agreement may not be lowered by more than the lower of—

(A) 1½ percentage points (150 basis points); or

(B) the amount of the increase in the interest rate.

(ii) The Secretary may up to 5 percent of the amount of the limited buydown, and the obligor shall pay the balance of the cost of the limited buydown.

(iii) Not more than 5 percent of the amount of the funding made available annually to carry out this chapter may be used to carry out limited buydowns.

(b) Maturity Date.—The final maturity date of the secured loan shall be the lesser of—

(A) 35 years after the date of substantial completion of the project; or

(B) if the useful life of the capital asset being financed is of a lesser period, the useful life of the asset.

(c) Nonsubordination.—

(A) In General.—Except as provided in subparagraph (B), the secured loan shall not be subordinated to the claims of any holder of project obligations in the event of bankruptcy, insolvency, or liquidation of the obligor.

(B) Pre-Existing Indenture.—If the secured loan is subject to a pre-existing indenture, the Secretary shall waive subparagraph (A) for public agency borrowers that are financing ongoing capital programs and have outstanding senior bonds under a pre-existing indenture.

(c) Risk Assessment.—Before entering into an agreement under this subsection, the Secretary shall consult with the Director of the Office of Management and Budget, shall determine an appropriate capital reserve subsidy amount for each secured loan, taking into account each rating letter provided by an agency under section 602(b)(3)(B).

(d) Use of Proceeds of Refinancing.—The proceeds of a secured loan may be prepaid at any time without penalty from the proceeds of refinancing from non-Federal sources.

(e) Consent of Obligor.—In making a sale or refinancing under paragraph (1), the Secretary may not change the original terms and conditions of the secured loan without the written consent of the obligor.

(f) Loan Guarantees.—

(1) In General.—The Secretary may provide a loan guarantee to a lender in lieu of making a secured loan if the Secretary determines that the budgetary cost of the loan guarantee is substantially the same as that of a secured loan.

(2) Terms.—The terms of a guaranteed loan may be consistent with the terms set forth in this section for a secured loan, except that the rate on the guaranteed loan and any prepayment features shall be negotiated between the obligor and the lender, with the consent of the Secretary.

§ 606. Lines of credit

(a) In General.—

(1) AGREEMENTS.—Subject to paragraphs (2) through (4), the Secretary may enter into agreements to make available lines of credit made available under this section with respect to a project selected under section 602. The Secretary may, subject to subparagraph (c), allow the obligor to add unpaid principal and interest to the outstanding balance of the secured loan.

(b) Interest.—Any payment deferred under subparagraph (a)(5) shall continue to accrue interest in accordance with subsection (b)(4) until fully repaid; and

(c) Use of Proceeds of Refinancing.—The proceeds of a secured loan may be prepaid at any time without penalty from the proceeds of refinancing from non-Federal sources.
(4) Investment-grade rating requirement.—The funding of a line of credit under this section shall be contingent on the senior obligations of the project receiving an investment-grade rating from 2 rating agencies.

(b) Terms and limitations.—

(1) In general.—A line of credit under this section with respect to a project shall be on such terms and conditions and contain such covenants, representations, warranties, and requirements (including requirements for audits) as the Secretary determines appropriate.

(2) Maximum amounts.—The total amount of the line of credit shall not exceed 33 percent of the reasonably anticipated eligible project costs.

(3) Draws.—Any draw on the line of credit shall represent a direct loan and shall be made only if net revenues from the project (including capitalized interest but not including reasonably required financing reserve accounts) are insufficient to pay the costs specified in subsection (a)(2).

(4) Interest rate.—Except as otherwise provided in subparagraphs (B) and (C) of section 603(b)(4), the interest rate on a direct loan under this section shall be the rate that the Secretary determines in subsection (a)(2).

(5) Security.—The line of credit—

(A) shall—

(i) be payable, in whole or in part, from tolls, user fees, or other dedicated revenue sources that also secure the senior project obligations; and

(ii) include a rate covenant, coverage requirement, or similar security feature supporting the project obligations; and

(B) may have a lien on revenues described in subparagraph (A) subject to any lien securing project obligations.

(6) Period of availability.—The full amount of the line of credit, to the extent not drawn, shall be available during the period beginning on the date of substantial completion of the project and ending not later than 10 years after that date.

(7) Prior bankruptcies.—

(A) Against Federal government.—A third-party creditor of the obligor shall not have any right against the Federal Government with respect to any draw on the line of credit.

(B) Assignment.—An obligor may assign the line of credit to 1 or more lenders or to a trustee on behalf of the lenders.

(8) Nonsubordination.—

(A) In general.—Except as provided in subparagraphs (B) and (C), a direct loan under this section shall not be subordinated to the claims of any holder of project obligations.

(B) Prior existing indenture.—

(i) Against Federal government.—A third-party creditor of the obligor shall not have any right against the Federal Government with respect to any draw on the line of credit.

(ii) Assignment.—An obligor may assign the line of credit to 1 or more lenders or to a trustee on behalf of the lenders.

(9) Security.—The line of credit—

(A) shall—

(i) be payable, in whole or in part, from tolls, user fees, or other dedicated revenue sources that also secure the senior project obligations; and

(ii) include a rate covenant, coverage requirement, or similar security feature supporting the project obligations; and

(B) may have a lien on revenues described in subparagraph (A) subject to any lien securing project obligations.

(10) Relationship to other credit instruments.—Any project that receives a line of credit under this section shall not also receive a loan or loan guarantee under section 603 in an amount, combined with the amount of the line of credit, exceeding 49 percent of eligible project costs.

(c) Repayment.—

(1) Terms and conditions.—The Secretary shall establish repayment terms and conditions for each direct loan under this section based on the projected cash flow from project revenues and other repayment sources, and the useful life of the asset being financed.

(2) Timing.—All repayments of principal or interest on a direct loan under this section shall be due not later than 5 years after the period of availability specified in subsection (b)(6) and to conclude, with full repayment of principal and interest, by the date that is 25 years after the end of the period of availability specified in subsection (b)(6).

* 605. Program administration

(a) Requirement.—The Secretary shall establish a uniform system to service the Federal credit instruments made available under this chapter.

(b) Fees.—The Secretary may collect and spend fees, contingent upon authority being provided in appropriations Acts, at a level sufficient to cover—

(1) the costs of services of expert firms retained pursuant to subsection (d); and

(2) all or a portion of the costs of the Federal Government of servicing the Federal credit instruments.

(c) Servicer.—

(1) In general.—The Secretary may appoint a financial entity to assist the Secretary in servicing the Federal credit instruments.

(2) Duties.—The servicer shall act as the agent for the Secretary.

(3) Fee.—The servicer shall receive a servicing fee, subject to approval by the Secretary.

(d) Assistance from expert firms.—The Secretary may retain the services of expert firms, including counsel, in the field of municipal and project finance to assist in the underwriting and servicing of Federal credit instruments.

* 606. State and local permits

The provision of credit assistance under this chapter with respect to a project shall not—

(1) relieve any recipient of the assistance of any obligation to obtain any required State or local permit or approval with respect to the project;

(2) limit the extent of any unit of State or local government to approve or regulate any rate of return on private equity invested in the project; or

(3) otherwise supersede any State or local law (including any regulation) applicable to the construction or operation of the project.

* 607. Regulations

The Secretary may promulgate such regulations as the Secretary determines appropriate to carry out this chapter.

* 608. Funding

(a) Requirement.—

(1) Spending and borrowing authority.—Spending and borrowing authority for a fiscal year to enter into Federal credit instruments shall be promptly apportioned to the Secretary on a fiscal year basis or at the Secretary’s discretion.

(2) Reestimates.—When the estimated cost of a loan or loans is reestimated, the cost of the reestimate shall be borne by or benefit the general funds of the United States, consistent with section 66c(i) of title 2, United States Code.

(b) Rural set-aside.—If the total amount of funds made available to carry out this chapter for each fiscal year, 10 percent shall be set aside for rural infrastructure projects.

(c) Redeployment.—The Secretary may redeploy set aside under subparagraph (A) that remain unobligated by June 1 of the fiscal year for which the amounts were set aside shall be available for obligation by the Secretary on projects other than rural infrastructure projects.

(d) Redistribution of authorized funding.—

(1) In general.—Beginning for in the second fiscal year after the date of enactment of this paragraph, on August 1 of that fiscal year, the Secretary may reallocate the authority distributed to the States for the fiscal year, based on the proportion that—

(i) the relative share of each State of obligation authority for the fiscal year; bears to the total obligation authority distributed to all States for the fiscal year.

(2) Distributions.—The amounts and obligation authority distributed under this paragraph shall be distributed, in the same manner as obligation authority is distributed to the States for the fiscal year, based on the proportion that—

(i) the relative share of each State of obligation authority for the fiscal year; bears to the total obligation authority distributed to the States for the fiscal year.

(e) Purpose.—Funds distributed under subparagraph (B) shall be available for any purpose described in section 133(c).

(5) Availability.—Amounts made available to carry out this chapter shall remain available until expended.

(6) Administrative costs.—Of the amounts made available to carry out this chapter, the Secretary may use not more than 1 percent for each fiscal year for the administration of this chapter.

(b) Contract authority.—

In general.—The authority to enter into any other provision of law, execution of a term sheet by the Secretary of a Federal credit instrument that uses amounts made available under this chapter shall impose on the United States a contractual obligation to fund the Federal credit instrument.

(2) Availability.—Amounts made available to carry out this chapter for a fiscal year shall be available for obligation on October 1 of the fiscal year.

* 609. Reports to Congress

On June 1, 2012, and every 2 years thereafter, the Secretary shall submit to Congress a report summarizing the financial performance of the projects that are receiving, or have received, assistance under this chapter (other than section 610), including a recommendation as to whether the objectives of this chapter (other than section 610) are best served—

(1) by continuing the program under the authority of the Secretary;

(2) by establishing a Federal corporation or federally sponsored enterprise to administer the program; or

(3) by phasing out the program and relying on the capital markets to fund the types
of infrastructure investments assisted by this chapter (other than section 610) without Federal participation.”

SEC. 3003. STATE INFRASTRUCTURE BANKS.

Section 608(d)(1)(A) of title 23, United States Code, is amended by striking “sections 104(b)(1)” and all that follows through the semicolon and inserting “paragraphs (1) and (2) of section 104(b)”.

TITLE IV—HIGHWAY SPENDING CONTROLS

SEC. 4001. HIGHWAY SPENDING CONTROLS.

(a) IN GENERAL.—Title 23, United States Code, is amended by adding at the end the following:

Chapter 7—Highway Spending Controls

Sec. 701. Solvency of Highway Account of the Highway Trust Fund.

SEC. 701. SOLVENCY OF HIGHWAY ACCOUNT OF THE HIGHWAY TRUST FUND.

(1) Solvency Calculation for Fiscal Year 2012.—Not later than 60 days after the date of enactment of the MAP–21, the Secretary, in consultation with the Secretary of the Treasury, shall—

(A) estimate the balance of the Highway Trust Fund (other than the Mass Transit Account) at the end of each fiscal year and the end of the next fiscal year, for purposes of which estimation the Secretary shall assume that the obligation limitation on Federal-aid highways and highway safety construction programs is equal to the obligation limitations enacted for those fiscal years in the MAP–21;

(B) determine if the estimated balance of the Highway Trust Fund (other than the Mass Transit Account) would fall below—

(A) $2,000,000,000 at the end of fiscal year 2012; or

(B) $1,000,000,000 at the end of fiscal year 2013.

(C) if either of the conditions in subparagraph (B) would occur, calculate the amount by which the fiscal year 2012 obligation limitation must be reduced to prevent such occurrence. For purposes of this calculation, the Secretary shall account for obligations on Federal-aid highways and highway safety construction programs for the fiscal year 2013 will be equal to the obligation limitation for fiscal year 2012, as reduced pursuant to this subparagraph.

(D) Adjust the distribution of the fiscal year 2012 obligation limitation to reflect any reduction determined under subparagraph (C).

(2) Lapse and Recission.—

(A) Lapse of Obligation Limitation.—Any obligation limitation that is withdrawn by the Secretary pursuant to paragraph (1)(B) shall lapse immediately following the adjustment of obligation limitation under such paragraph.

(B) Recission Authority.—Upon the lapse of any obligation limitation under subparagraph (A), the Secretary shall—

(I) distribute such obligation limitation, less any amount determined under paragraph (3), to the Programs to which the Secretary shall—

(A) estimate the balance of the Highway Trust Fund (other than the Mass Transit Account) at the end of each fiscal year and the end of the next fiscal year, for purposes of which estimation the Secretary shall assume that the obligation limitation on Federal-aid highways and highway safety construction programs is equal to the obligation limitations enacted for those fiscal years in the MAP–21;

(B) determine if the estimated balance of the Highway Trust Fund (other than the Mass Transit Account) would fall below—

(A) $2,000,000,000 at the end of fiscal year 2012; or

(B) $1,000,000,000 at the end of fiscal year 2013.

(C) if either of the conditions in subparagraph (B) would occur, calculate the amount by which the fiscal year 2012 obligation limitation must be reduced to prevent such occurrence. For purposes of this calculation, the Secretary shall account for obligations on Federal-aid highways and highway safety construction programs for the fiscal year 2013 will be equal to the obligation limitation for fiscal year 2012, as reduced pursuant to this subparagraph.

(D) Adjust the distribution of the fiscal year 2012 obligation limitation to reflect any reduction determined under subparagraph (C).

(3) if either of the conditions in paragraph (1) would occur, calculate the amount by which the obligation limitation under such paragraph (C).

(4) Lapse and Recission.—

(A) Lapse of Obligation Limitation.—Any obligation limitation that is withdrawn by the Secretary pursuant to paragraph (1)(B) shall lapse immediately following the adjustment of obligation limitation under such paragraph.

(B) Recission Authority.—Upon the lapse of any obligation limitation under subparagraph (A), the Secretary shall—

(I) distribute such obligation limitation, less any amount determined under paragraph (3), to the Programs to which the Secretary shall—

(2) Adjust the distribution of the fiscal year 2012 obligation limitation to reflect any reduction determined under subparagraph (C).

(3) Lapse and Recission.—

(A) Lapse of Obligation Limitation.—Any obligation limitation that is withdrawn by the Secretary pursuant to paragraph (1)(B) shall lapse immediately following the adjustment of obligation limitation under such paragraph.

(B) Recission Authority.—Upon the lapse of any obligation limitation under subparagraph (A), the Secretary shall—

(I) distribute such obligation limitation, less any amount determined under paragraph (3), to the Programs to which the Secretary shall—

(IV) ReCALCULATION.—In a fiscal year in which the Secretary withholds obligation limitation based on the calculation under paragraph (1), the Secretary shall—

(A) estimate the balance of the Highway Trust Fund (other than the Mass Transit Account) at the end of each fiscal year and the end of the next fiscal year, for purposes of which estimation the Secretary shall assume that the obligation limitation on Federal-aid highways and highway safety construction programs is equal to the obligation limitations enacted for those fiscal years in the MAP–21;

(B) determine if the estimated balance of the Highway Trust Fund (other than the Mass Transit Account) would fall below—

(A) $2,000,000,000 at the end of fiscal year 2012; or

(B) $1,000,000,000 at the end of fiscal year 2013.

(C) if either of the conditions in subparagraph (B) would occur, calculate the amount by which the fiscal year 2012 obligation limitation must be reduced to prevent such occurrence. For purposes of this calculation, the Secretary shall account for obligations on Federal-aid highways and highway safety construction programs for the fiscal year 2013 will be equal to the obligation limitation for fiscal year 2012, as reduced pursuant to this subparagraph.

(D) Adjust the distribution of the fiscal year 2012 obligation limitation to reflect any reduction determined under subparagraph (C).

(3) if either of the conditions in paragraph (1) would occur, calculate the amount by which the obligation limitation under such paragraph (C).

(4) Lapse and Recission.—

(A) Lapse of Obligation Limitation.—Any obligation limitation that is withdrawn by the Secretary pursuant to paragraph (1)(B) shall lapse immediately following the adjustment of obligation limitation under such paragraph.

(B) Recission Authority.—Upon the lapse of any obligation limitation under subparagraph (A), the Secretary shall—

(I) distribute such obligation limitation, less any amount determined under paragraph (3), to the Programs to which the Secretary shall—

(V) IN GENERAL.—Upon the lapse of any obligation limitation under subparagraph (A)(ii), an equal amount of the unobligated balance of funds apportioned among the States under chapter 1 and sections 1527, 1537, and 1547 of the SAFETEA–LU (119 Stat. 1177, 1207, and 1229) are permanently rescinded, except as provided in clause (iv).

(6) Recission of Funds Appropriated in Fiscal Year 2013 and Fiscal Years Thereafter.—If a State determines that it will meet any of its required rescission amount from funds apportioned to such State on or subsequent to October 1, 2012, the Secretary shall determine the amount to be rescinded from each of the programs subject to the recission for which the State was apportioned funds on or subsequent to October 1, 2012, in proportion to the cumulative amount of apportionments that the State received for each such program on or subsequent to October 1, 2012.

(7) Other Actions to Prevent Insolvency.—The Secretary shall issue a regulation to establish any actions in addition to those described in paragraph (3) that may be taken by the Secretary if it becomes apparent that the Highway Trust Fund (other than the Mass Transit Account) will become insolvent, including the denial of further obligations.

(8) Applicable Only to Full-Year Limitation.—The requirements of paragraph (3) apply only to the distribution of a full-year obligation limitation and do not apply to partial-year limitations under continuing appropriation Acts.

(b) Table of Chapters.—The table of chapters for title 23, United States Code, is amended by inserting after the item relating to chapter 1, section 104, the following:

‘‘7. Highway Spending Controls ........ 701’’.

The PRESIDING OFFICER. Under the previous order, the committee-reported amendments are agreed to, and the bill, as amended, will be considered original, and the text for purposes of further amendment.

Mr. REID. On behalf of Senators JOHNSON and SHELBY, the chairman and ranking member of the Banking Committee, I send an amendment to the desk.

The PRESIDING OFFICER. The clerk will report.
press their support for it, regardless of the ultimate outcome.
I yield the floor.

The PRESIDING OFFICER. The majority leader is recognized.

MAP-21

Mr. REID. Mr. President, I appreciate the comments of my distinguished Republican colleague. The Senate just voted 65 to 11 to invoke cloture on a motion to proceed to the surface transpor-
tation bill, a bipartisan bill the sponsors of which, Senator BOXER and Senator INHOFE—unlikely pair—have joined together to move forward on, a piece of legislation that is ex-
tremely important to this country, a bill that will save or create 2 million jobs.
There are four parts of this bill with-
in the jurisdiction of four Senate com-
mittes. The Environment and Public Works Committee is on-
now. I have sought to amend that with a provision that is coming from the Banking Committee. We have one com-
ing from the Finance Committee—that has been approved on a bipartisan basis, and we will move after we do those two to the Commerce section. We have not dealt with the Finance Com-
mittee provision or the Commerce Committee.
I appreciate that the Republicans never lose an opportunity to mess up a good piece of legislation. We have had that happen now for the last 3 years. We saw it in spades last year. Here is a bipartisan bill to create and save jobs. No one disputes the importance of this legislation. Every State in the Union is desperate for these dollars. We are not borrowing money to do it; it is all paid for. Whether it is the State of West Virginia, the State of Missouri, or the State of Nevada, all the departments of transportation are waiting to find out what is going to happen at the end of March. That is fast approaching. We need to get this done.

Then I hope we can deal with other matters and not get bogged down on this legislation. Let’s do the Banking part of this bill. Let’s do the Finance part of this bill. Let’s do the Commerce part of this bill.

But to show how the Republicans never lose an opportunity to mess up a good piece of legislation, listen to this: They never talked about first amend-

ment rights, the Constitution. I appreciate that. But that is so senseless. This debate that is going on dealing with this issue, dealing with contracep-
tion, is a rule that has not been made final yet. There is no final rule. Let’s wait until there is at least a rule we can talk about. There is not a final rule. That is all you read about in the newspapers, why there are discussions going on as we speak. There is not a rule. Everybody should calm down. Let’s see what transpires.

Until there is a final rule on this, let’s deal with the issue before us. That is saving jobs for our country. People can come and talk about the Constitu-
tion, the first amendment—I have never seen anything like this before, but I have never seen anything like this before, either. There is no final rule. Why don’t we calm down and see what the final rule is.

The PRESIDING OFFICER. The Senator from Missouri.
Mr. BLUNT. Mr. President, I am, of course disappointed not being able to offer this amendment. If it is an amendment we talked about for some time. It was a bipartisan amend-
ment. It was a bipartisan piece of legis-
lation. Senator NELSON from Nebraska and I wish to offer it and wish to offer it as soon as possible.
I have the highest regard for both of our leaders, both the majority leader and minority leader, and understand they have a job to do, but this highway bill is clearly going to take some time. This is a 4-page amendment that I would be glad to see voted on on Mon-
day. It has been widely studied all week, this week. I would have been glad to see it voted on when I filed the bill in August. There was no rule then either, but both Mr. NELSON and I, Senator RUHIO, Senator AYOTTE, and others were anticipating that we were going to begin to see exactly the kinds of things this discussion this week has brought about.
This is about the first amendment. It is about religious beliefs. It is not about any one issue. In fact, this amendment specifically does not men-
tion a specific issue. It refers to the issue of conscience. In the amendment itself the reference is made to the let-
ter that in 1809 Thomas Jefferson sent to the New London Methodist, where he says: of all the principles in the Constitution, the one that we perhaps hold most dear, if I could paraphrase it a little bit, is the right of conscience and that no government should be able to come in and impose itself between the people and their faith-based prin-
ciples.

In health care we have never had this before. Why didn’t we need this amend-
ment or why didn’t we need the bill that was filed in August 5 years ago or 1 year ago or 2 years ago or 3 years ago? Because only with the passage of the Affordable Health Care Act did we have the government in a position, for the first time ever, to begin to give specific mandates to health care pro-
viders.

This bill would simply say those health care providers do not have to follow that mandate if it violates their faith principles, faith principles that are part of a health care delivery sys-
tem that could not be through any num-
ber of different faith groups, and I have talked to a lot of them. Frankly, some of those faith group views of health care do not agree with my views or my faith’s views of health care. But that is not the point here. This is not about whether or not I agree with the faith group wants to do. It is whether they are allowed to do it; whether the rep-
resentative of that view of health care
and how it affects people is able to say to their government: No, this is something that is protected by the Constitution. It is protected by the first amendment. You cannot require me to provide a service—through a faith-based institution or I do not agree with or you cannot require me to be a health care provider to provide a service that I do not agree with because of my faith.

It does not mean you cannot get it somewhere even if it is something that can legally be done. It just means people of faith or institutions of faith do not have to do it. That is why in almost every Catholic church in America, the last two weekends, a letter has been read from the bishop or the archbishop that said this is unacceptable, it should not be complied with.

That is why the Chaplain to the Army, the Chief Archbishop to the Army, Bishop Broglio, sent out a letter to be read at Catholic mass at Army posts all over the country. Initially that letter was not going to be read because it did not agree with the tenets the government was pursuing at the time—which is the violation that people would see most offensive, I think, that a government would actually begin to say to people of faith you cannot even talk about it. You cannot even have that letter read on a military post, from the person who is responsible to the chaplains and the Catholic Bishop in the military.

Maybe it is a faith view of how to deliver health care that somebody in the Christian Science community has or somebody in the Seventh Day Adventist community has or the Southern Baptist community or whatever that might be. The specific thing is not the issue here. The issue here is can government require a faith-based institution to go beyond the tenets of its faith.

I know the Democratic leader, the majority leader, said there is not even a rule yet. The White House said—the administration saying we gave an exemption for the church itself—No. 1, I do not know how that matters in the network. And, No. 2, I think that shows a lack of understanding of the work of the church or the work of the synagogue or the work of the mosque or the work of people of coming together. If the only thing that matters to the government is what happens within the four walls of the church or whoever works in the four walls of the church every day, these institutions are not what I believe they are.

The great schools, the great hospitals, the great community-providing institutions of America have, so many of them for so long, been based on faith principles. This amendment would say for health care, those faith principles would be the overriding principle. For health care, if someone does not agree with the direction of the government, they do not have to perform that service. They do not have to provide that specific kind of insurance to their employees.

Remember, the underlying bill here, the underlying rule that has been announced, even though it may not have been officially issued, is one that talks about people who have chosen to go to work for a paycheck, for work at the direction of a faith-based community. Then to tell that community what your insurance has to look like—that is just one of the many steps. If the government can do that, what can’t the government do? If the government can do that, where does the government stop? If the government can do that—when you say this is something I don’t believe in so I don’t want to be part of this particular health care issue, this health care moment, whatever that is, whatever you want to call it, you say, oh, well, you have to do it because the government says you have to do it and the first amendment does not matter, the protection of conscience doesn’t matter, the Jefferson letter to New London Methodist doesn’t matter.

Until the enactment of the Patient Protection and Affordable Care Act, this was never an issue and nothing would happen if this amendment was passed and became the law of the land. Nothing would be different tomorrow than it was a year ago, because a year ago people were not doing this. Five years ago nobody would have even thought it was possible, that the Federal Government would tell a faith-based hospital what their insurance plan exactly had to look like, the plan that they offered their employees or would tell faith-based health care providers what they could do and what they could not do. Would say if you do everything the government will pay for, we will not pay you to do anything the government pays for.

This is an issue many people in the country feel strongly about, many people in the Senate, both Democrats and Republicans, feel strongly about. We can let this go on and create the anxiety it creates for the faith community that the government can do this. We can debate it and, frankly, I think it is pretty well understood—debate it, vote on it, and let the country know that we still support the Constitution of the United States.

While I am disappointed I did not get to offer this amendment today, I will be back and I am going to do my best to get this amendment offered at the earliest possible time, and I would be glad to see the Senate join me, and the majority join me, in saying let’s get this important issue off the minds of the American people and let them know the Constitution still matters and religious liberty is still the first amendment to the Constitution in the United States.

I yield the floor.

Mr. GRASSLEY. Mr. President, 1 week ago we passed a very important good government bill, the one that would make sure Members of Congress cannot benefit from insider trading information. I added to that an amendment that I think is a good government amendment. It calls for people who are involved in political intelligence gathering—we don’t hear much about that profession, but it is quite a business. I asked that they be registered, just like lobbyists are registered, and I would like to speak to the point of why that is very important and why it is important to bring it to the Senate’s attention, even though it passed by a vote of 60 to 39 just a few days ago.

In the dark of night on Tuesday of this week, the House released its version of the insider trading bill that goes by the acronym STOCK, which is an acronym that stands for transparency for the political intelligence industry. Think about the chutzpah of the people in the House of Representatives—a small group of people—taking out the language I put in that bill when similar language is co-sponsored by 288 Members of the House of Representatives, but it happened. So that bill is coming back without the Grassley amendment on it, and we need to think about what we are going to do if we believe in good government, and if we believe there has to be more transparency in government.

What we are faced with is a powerful industry that works in the shadows—
economic espionage. They don’t want people to know what they do or whom they work for. They are basically afraid of sunlight, I would guess. My amendment was adopted in the Senate on a very bipartisan basis, kind of a rare occurrence today. It simply requires registration for lobbyists who seek information from Congress in order to trade on that information.

So isn’t it very straightforward if trades are taking place based upon “political intelligence” that is their word, “economic espionage” is their word—obtained from Congress or the executive branch, people in this country should know who is gathering such information. Not requiring political intelligence professionals to register and disclose their contacts with government officials is a very gaping loophole that my amendment fixes. In fact, political intelligence firms actually brag about this loophole, and I will give an example about that bragging. This is on the Web site of an organization called the Open Source Intelligence Group, a political intelligence firm:

Our political intelligence operation differs from standard ‘lobbying’ in that the OSINT Group is not looking to influence legislation on behalf of clients, but rather provide unique ‘monitoring’ of information through our personal relationships between lawmakers and lobbyists.

Providing this service for clients who do not want their interest in an issue publicly known is an activity that does not need to be reported by lobbying Disclosure Act, thus providing an additional layer of confidentiality for our clients.

This service is ideal for companies seeking competitive advantage by allowing a client’s interest to remain confidential.

Think about the words “personal relationships,” “confidentiality.” Basically, what they are saying is do all this under the radar. I want to go back if you didn’t hear it the first time, let me repeat some of this for you, a much shorter quote:

Providing this service for clients who do not want their interests in an issue publicly known is an activity that does not need to be reported by the Lobbying Disclosure Act, thus providing an additional layer of confidentiality for our clients.

We have it here on paper, and I just read it to you. That firm—probably one of many firms; I don’t know how many firms are doing this—is telling potential clients: If you don’t want anybody to know what you are asking of Federal officials, hire us. That is wrong, but this is what this doesn’t want to register. If someone on Wall Street is trying to make money off conversations they had with Senators or staff, we should know who they are. It is that plain and simple.

Surely, as part of my amendment, which would require political intelligence lobbyists to register as lobbyists, I have heard a great deal of “concern” from the lobbying community. Political intelligence professionals have claimed they should do their business in secret for several reasons.

Now, this is the explanation of why they need secrecy. First, they have said if they are required to register, they will no longer be able to sell information to their clients because people will not want to hire them. That makes me wonder, what do they have to hide?

Second, they have said many of them have large numbers of clients, and it would take them a lot of time to register these large numbers of secret clients. Again, that makes me think we actually need more transparency to find out who are all of these people buying intelligence information.

Third, they have claimed it would not address the so-called “20-percent loophole” that allows people who spend less than 20 percent of their time lobbying from having to register under existing laws as lobbyists. Not too many people know of that 20-percent loophole, but that is a pretty big loophole. A person can lobby, but they don’t have to register if they don’t spend more than 20 percent of their time on it. We have had some good news for these people. We don’t make the mistake that caused the 20-percent loophole. My amendment requires anyone who makes a political intelligence contact to have to register. No loopholes, no special treatment, just everyone registers.

Finally, I just want to assure people, particularly journalists, that they would not have to register. Now, that information has been floating around, and some constituents looking for information might have to register. Not so. Only political intelligence brokers, people who seek information so others can trade securities, would have to register.

As I said before, if people want to trade stocks from what we do in Congress, we should know who they are. After all, the basic underlying piece of legislation of Congress from having insider trading information and profiting from it. We ought to know with whom we are dealing. The American people deserve a little sunshine from this industry and on this industry.

Last night, the House turned away from transparency. They supported the status quo. What we need is a full and open conference process so we can take up this very important issue once again that the House believes something not very important, even though 288 Members of the House of Representatives—that is two-thirds of the House of Representatives—have signed on to this principle that these people ought to register. We can take up the House’s floor in our conference, both the House and Senate, working together.

Is every word in this bill the way it ought to be? If somebody wants to point out some things that ought to be changed, I am open to that. But don’t forget, 288 people in the House have signed on. It can’t be too bad.

So if we don’t get to conference or if we have to debate this again on the floor of the Senate, we might not get 60 votes again. So I worry we will miss the best opportunity we have had for openness and transparency in years. I yield the floor.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. WYDEN. Thank you, Chair. (The remarks of Mr. WYDEN pertaining to the introduction of S. 2098 are printed in today’s Record under “Statements on Introduced Bills and Joint Resolutions.”)

Mr. WYDEN. Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. FRANKEN). The Senator from Minnesota.

NEW ENERGY AGENDA

Ms. KLOBUCHAR. Mr. President, I am on the floor today to discuss something that has been a top priority for me in the Senate; that is, the critical need to get serious about building a new energy agenda for America, one that keeps our businesses competitive in the global economy, preserves the integrity of our environment, and renews our energy engine to keep our country moving forward—and that is innovation. I am specifically focused on the energy tax extenders, those that are so necessary for us to keep going in the area of homegrown and renewable energy.

We all know there is no single solution for getting us there. What we need is not a silver bullet; we need a silver buckshot, as we like to say in Minnesota. I have talked about the need with many of my colleagues to continue developing alternative resources such as hydro, geothermal, biofuels, solar, wind, and we have also talked about how we need to continue to develop existing technologies such as domestic oil and gas production while enforcing appropriate safeguards. This is the very “all-of-the-above” approach we need to take in order to keep all options on the table.

This means exploring some of the new proposals we have seen with promising technologies such as the smart grid. But it also means extending the critical tax incentives that have been so important in advancing the development of the next generation of biofuels and the next generation of renewable energy. That is why I have pushed to ensure that we have the right policies in place for encouraging clean energy innovation, including the biodiesel tax credit which supports over 31,000 jobs and has allowed domestic production to more than double since 2011. It means the production tax credit, which made it possible for wind power to represent over one-third of all new electricity generation capacity in the United States last year.

Think of that figure. Think of the strides we have made and where we can go in the future. The advanced energy manufacturing tax credit has leveraged
$5.4 billion in private investment, boosting growth and creating new U.S. manufacturing jobs by producing components and equipment for the burgeoning global renewable energy industry.

Extending these critical tax credits will help strengthen our country's clean energy businesses so they can continue to grow and thrive. But they are just one part of the equation.

A large part of the equation is an enhanced strategy for moving forward. We cannot afford to keep our heads buried in sand. We cannot afford to let yet another golden opportunity pass us by. Sadly, too many have already come and gone.

Over the years, I believe there have been—especially in this last decade—several moments when we could have acted but didn't when we had the full support of the American people who wanted a new direction in energy policy. The first was immediately after 9/11 when President Bush—if he had made energy policy one of the challenges to the country in addition to invading Afghanistan and combating terrorism, I believe we could have moved forward. But that didn't happen, and there is no need to dwell on it today.

The second moment was before the arrival of the Presiding Officer in the Congress, and that was in the summer of 2008 when we did take action to raise gas—energy-related standards—something I like to call building a bridge to the next century—but we didn't make the kind of comprehensive progress on a comprehensive energy plan that we should have made.

The third moment was when President Obama first came into office. At that time, I advocated for a clean energy standard that I believe could have passed in the first 6 months. It could have gone forward with some of the other comprehensive things we were talking about. We had a bipartisan group going at the time, a group of 14 of us. But, instead, a decision was made to focus on cap and trade later, instead of starting with that clean energy standard and building from that.

Those were missed opportunities, a chain of missed opportunities. But until we get serious about building a newer energy agenda for America, we are going to continue to struggle with the consequences which have created a vicious cycle of economic and environmental costs, not least of all those caused by climate change.

Climate change, the Presiding Officer knows, is not just about melting glaciers and rising ocean levels. Shifting global trends have the potential to wreak intense havoc on local economies, particularly those anchored in agricultural. The facts stand for themselves.

In January 2010, the U.S. Securities and Exchange Commission said for the first time that public companies should add climate change to the list of possible financial or legal impacts that they actually disclose to investors. The Bureau of Economic Analysis, at the Department of Commerce, estimates that about 15% of the U.S. gross domestic product is weather and climate sensitive, with a potential economic impact of $4 trillion a year. Much of that impact would be wrung out of our farm communities and from States with large rural populations. Those who do not change in any manner will tell you a change in weather can mean the difference between a bumper crop and a complete disaster—regardless of how hard that farmer works. So it goes without saying that any kind of significant swing in climate—paired with increasingly unpredictable rainfall—could pose a problem to Americans who make their living off the land.

In 2008, Minnesota's farms, forests, and ranches produced $18 billion in goods and services, and the top-six climate-sensitive economic sectors in the state—agriculture, forestry, and ranching produced $18 billion in economic output. That is thanks to our energy policy. The unemployment rate in the State of Minnesota is 5.7 percent—well below the national average—and part of that is thanks to our energy policies. In fact, a recent report by the Pew Charitable Trusts that in the last decade Minnesota jobs in this sector grew by 11.9 percent, compared to 1.9 percent for jobs overall.

As I travel around the State, I can see the progress that has been made.

I think of places I have visited, such as Sebeka, MN, where a small telephone company felt their customers who were in extremely rural areas needed backup power supplies. So what did they do? They found a way to combine wind turbines and solar panels so their customers could return to backup power. They did it themselves, and they sold it to their customers.

It was very popular, and at one point an 80-year-old man came to see them, and he said: I would like to purchase more. I want to do my whole house in solar. The telephone company said: Sir, you can do that, but it will take you about 10 years to get your investment back, but it is going to be worth it. Do you mind if we ask how old you are? The man said: I am 80 years old but I want to go green.

That is one of those true stories from the State of Minnesota.

Then there is Pentair, a Minneapolis-based water solutions company that has donated a custom-designed Rain Water Recycling System to the new and great Target baseball field. That technology will capture, conserve, and recycle rainwater, saving the ballpark more than 2 million gallons of water each year.

In one of General Mills' manufacturing plants, they have developed their own innovative way to reuse water—diverting it to municipal golf course to water the grass. These are just a few examples of Minnesota's commitment to energy innovation. There are countless stories out there, but it is not just a Minnesota story, it is an American story.

I would note that the renewable energy standard in Minnesota—25 by 25—is one of the most aggressive in the country—30 percent for Xcel—and yet our unemployment rate is so much better than the rest of the country.

The quest to develop clean, sustainable, homegrown energy is not specific to just one part of the country or, for that matter, one just political party. Our renewable energy policy was actually nearly unanimously adopted by the legislature—Democrats and Republicans—and signed into law by a Republican Governor, Governor Pawlenty.

This is an issue we believe can and should unite us, and it is a way to address these concerns because it builds a coalition across a broad spectrum; that is, energy policy. It saves money. It is better for the environment. It is certainly better for our future, producing our own homegrown energy.

In the past, Democrats and Republicans have managed to come together to confront tough challenges—from the Civil Rights Act in the 1960s, to keeping Social Security solvent in the 1980s, to welfare reform in the 1990s.

But perhaps the most fitting example, in the context of combating climate change, is the Clean Air Act. As the Presiding Officer knows, that landmark bill took the first steps to address acid rain and expanded efforts to control toxic air pollutants.

When the bill passed in the 1990s, it had strong bipartisan support from Democrats and Republicans alike. It is worth mentioning that all 10 Members of the Minnesota delegation at the time, which included 5 Democrats and 5 Republicans—that was our Federal delegation—supported the bill, including Republican Senator Norm Durenberger, who was among its chief authors and staunchest supporters.

Since then, the Clean Air Act has helped prevent more than 18 million child respiratory illnesses and 300,000 premature deaths each year.

Policies to protect our rivers, lakes, and streams have also had a positive impact on people's health.

Coming from the “Land of 10,000 Lakes,” I have an ultimate appreciation for the importance of clean water. It is the resource that sustains our lakes and rivers, that provides critical habitat to countless fish and millions of
migratory birds, that fuels our thriving outdoor economy. 

Hunting and fishing are more than just hobbies in our State, I say to the Presiding Officer. They are a way of life, and they are critically important to our economy.

Every year, nearly 2 million people fish our lakes and our streams, and close to 700,000 people hunt our fields and forests.

Nationwide, the hunting and fishing industry is valued at $14 billion a year, and it brings in $41 billion in revenue. Clean water is a fundamental pillar in supporting this economic sector and protecting people against dangerous toxins such as mercury.

Minnesota has passed some of the most stringent mercury rules in the country. In 2006, our State legislature passed laws requiring our largest powerplants to cut mercury emissions 90 percent by 2015. The Federal Government is finally catching up and will publish a requirement in coming days to make similar reductions by 2016.

Yet despite everything we have done to combat mercury pollution, we are still grappling with its consequences. A recent analysis of 25 years of data has found an unexpected rise in average mercury levels in northern pike and walleye from Minnesota lakes. After declining by 37 percent from 1982 to 1992, average mercury concentrations in these fish began to increase in the mid-1990s.

During the last decade of that period, 1996 to 2006, average mercury concentrations increased 15 percent. These numbers make one of the clearest possible arguments for supporting Federal protection, because we all have a stake in protecting the health of our fish and wildlife, and we cannot do that if we cannot keep dangerous toxins out of our air and water supply.

This is important to our economy, but it is also important to maintaining a certain way of American life, a way of life that many of us grew up with that we ought to be able to pass on to future generations. I grew up in a family that valued the outdoors. I was 18 years old before I took any vacation that did not involve a tent or a camper in one way or another.

This did not just start with my parents. My grandpa was an avid hunter and fisherman. He worked 1,500 feet underground in the mines in Ely, MN. And fisherman. He worked 1,500 feet underground in the mines in Ely, MN.

You can imagine why for him hunting and fishing were an America that is innovative, that is not just about protecting the outdoors, but it is also important to maintaining our public lands, our national parks—resources that give us those opportunities to get away from our daily lives. And it was something he loved doing. My grandpa was an avid hunter and fisherman. He worked 1,500 feet underground in the mines in Ely, MN.

You can imagine why for him hunting and fishing were an important part of his life. I want them to be able to pass on to our future generations. I grew up in a family that valued the outdoors. I was 18 years old before I took any vacation that did not involve a tent or a camper in one way or another.

The PRESIDING OFFICER. The Senator from South Dakota.

RELIGIOUS LIBERTY

Mr. THUNE. Mr. President, there is an old political axiom that is attributed to Thomas Jefferson, more recently to Gerald Ford, that says: A government that is big enough to give you everything you want is also big enough to take it all away.

Those words took on a whole new meaning this last week when we found out the Secretary of the Health and Human Services Department, Kathleen Sebelius, was issuing new regulations with regard to the health care act that passes health insurance companies and health plans, and would apply to religious-affiliated universities, charities, and hospitals.

I think we have to remember exactly why it was that many of our forefathers came to this country in the first place. They came, in many cases, because they were trying to get away from religious persecution in their homelands. So they came to the United States with the desire to start anew and to assert that in this new government they formed that they would protect freedoms, basic freedoms, such as religious liberty.

So in the Declaration of Independen they said:

Nowhere is this more important than our quest to move America forward through smarter energy and environmental policies. I cannot help but think, this is our generation’s version of the space race and energy race. But the finish line will not be Neil Armstrong’s “one giant leap on the Moon. It will be building the next generation of energy-efficient windows, and doing it in northern Minnesota instead of in China, or an electric car battery factory in Memphis, TN, instead of Mumbai, India, or a wind turbine manufacturer in San Jose, CA, instead of Sao Paulo, Brazil.

This is my vision for an energy America that is energy independent, a stronger, more innovative America. I know you all want to same thing. That is why I am here on the floor today, because I know we cannot continue to get by with piecemeal energy policy. We cannot play red light-green light with our tax incentives as we are doing this year, and that is why we have to put them in place again.

What we need now is a comprehensive national blueprint for energy policy, a solution that will serve the integrity of our air, our water and natural resources, that gives businesses the incentives to research and develop new sources of energy that invest in the next generation of American innovation.

That is our challenge. It is not going to happen overnight, but I believe we can get there. We have to get there, we will do it one way or another.

I yield the floor.

The PRESIDING OFFICER. The Senator from South Dakota.
universities and many of the hospitals concerned about is that this is going to become a finalized regulation.

The proponents of the regulation are saying there is a year to comply with it. I would submit to you that asking people in this country to check their principles at the door not now but a year from now is not making any kind of an accommodation.

This needs to be reversed. This is clearly a violation of religious liberty, the protection we have in our first amendment of our Constitution in our Bill of Rights, and I hope the administration will do the right thing and acknowledge that they have made a mistake, that they have gone too far, that they have overreached, that they have treaded in an area they should not tread and make this right. The way to make this right is to reverse this decision.

Some have argued: What is that going to mean? Does that mean people in this country are not going to have access to contraceptive services? The answer to that is absolutely not. Contraception would be widely available. It is just that religious-affiliated employers would not be forced to fund this which clearly violates the tenets of their faith. It does not have anything to do with contraception. It does not have anything to do with that issue at all. What it has to do with is the issue of religious liberty and whether we are going to allow that to be eroded, and who knows where this goes next.

The other point I would make is, this is also, I think, an example of what happens when you get a government that is so big it can give you everything you want but also big enough to take it all away. There are a lot of people who, when this was debated, when the affordable care act was debated, argued—myself included—this would lead to government making many mistakes in our lives, making more decisions, intruding more, having more control, and making decisions with regard to people’s health care.

I would submit this is an example—and perhaps example No. 1—of that very fact. What we are seeing now is, the affordable care act—as it gets implemented, we are giving more and more power to the Federal Government, and when we do that, when big government gets bigger and bigger, it has a tendency when it comes to running over the rights of ordinary Americans. This is a perfect example of that.

I could go down the list of other regulations I have come down to the floor many times to talk about regulatory overreach, excessive regulations that go way beyond common sense, that do not deal with issues of public health and safety but are simply regulations for regulation’s sake.

People have heard me come down and talk about the Department of Labor’s efforts now to regulate the young people who work on family farms and ranches and the overly prescriptive way in which they are trying to keep young people from performing duties they learned growing up that they are trained to do, that contribute to the overall success and prosperity of family farms and ranches.

The Department of Labor’s proposal right now would restrict young people from working at elevations that are more than 6 feet, from working with farm animals that are more than 6 months old, from working around grain elevators or stockyards or operating certain kinds of equipment, many pieces of equipment, types of equipment that are fairly standard on a farming operation. It strikes at the very heart of what makes a family farm and ranch operation tick. It is an assault on the heartland of this country and the culture and values that have helped shape it and make it great.

This issue of regulatory overreach and big government is an issue that I think of as a direct threat to that debate. What we are having is a debate about the reach of government to where they can start coming up with regulations under the new health care law that clearly violate the religious liberty protections that are afforded for people in this country under the first amendment and which I think our Founders, if they were around today, would find incredibly offensive.

This is an affront, an assault on these very liberties. It is an assault on our Bill of Rights, our Constitution. It is something the administration should walk back from and make right. They can do that very simply by reversing this or widening or broadening this exemption to cover religious-affiliated schools, universities and charities. And they could do that right now.

I would hope that would be the case. If it is not, there is legislation that has been proposed here. A number of my colleagues have already filed bills. In fact, Senator BLUNT was down here earlier today and asked to call up an amendment on this issue. It was objected to on the grounds that it is not related to the underlying bill, the highway bill. Well, if it is not related to the highway bill, then let’s provide an opportunity for Congress to weigh in on this. I can tell you one thing, the American people are weighing in on this. This Congress of the United States needs to stand for the American people and, more importantly, needs to defend the Constitution of the United States. If the administration is going to take this step, and if the administration is not going to walk back from this, this Congress of the United States needs to be heard.

There will be numerous attempts until that opportunity is presented by my colleagues and me to make sure this wrong is fixed, is corrected, and that the religious liberties for which our Founders came to this country and for which so many have fought and died over the years to defend are protected, and those rights that are enshrined in our Declaration of Independence and our Constitution and our Bill of Rights are protected for the American people.

I yield the floor.

ADDITIONAL STATEMENTS

OBSERVING NATIONAL INVENTORS’ DAY

Mr. BEGICH. Mr. President, today I would like to focus attention on inventors. Senate Joint Resolution 140, Public Law 97-198, designated February 11, the anniversary of the birth of the inventor Thomas Alva Edison, as National Inventors’ Day.

Each year we recognize the contributions of those who use their imagination and skills to conceive, create, concoct, discover, devise, and formulate new devices, machines, and processes in order to receive patents, trademarks, and copyrights.

Inventors play an enormously important role in promoting progress in every aspect of our lives. Invention and innovation are basic to the technological and manufacturing strength of the United States and our economic, environmental, and social well-being.

The Constitution specifically provides for the granting of exclusive rights to inventors for their discoveries. During the First Congress, President George Washington prevailed upon the House and Senate to enact a patent statute and wisely advised that “there is nothing which can better deserve your patronage than the promotion of science.”

In our State, since our Nation’s bicentennial, over 1,600 patents have been issued to Alaska residents. The ingenuity of our citizens is reflected in the variety of patents issued such as a vehicle escape tool; an ocean spill and contaminated sea ice containment, separation, and removal system; an audible fishing weight; and a fish pin bone removal apparatus—just to name a few.

In recent years, over 500 new applications have been received by the U.S. Patent and Trademark Office from Alaskans involving wells, hydraulic and earth engineering, and electric conductors and insulators.

I applaud the efforts of support groups in Alaska such as the Inventors Institute of Alaska, Alaska Inventors and Entrepreneurs, and the Patent and Trademark Resource Center.

The genius of inventors is key to our future. The next great American invention could be among the patent applications pending at the Patent Office.

On the observance of National Inventors’ Day, I urge all Alaskans to reflect on contributions of inventors and to take part in appropriate programs and activities.
REMEMBERING CHIEF MASTER SERGEANT LUTHER JEFFERSON, SR.

- Mrs. BOXER. Mr. President, I am honored to salute the life and service of retired CMSgt Luther Jefferson, Sr., who served as a Tuskegee Airman in the 332nd Fighter Group. Chief Jefferson was not only a hero to his country but also for his compassion, optimism, and generous spirit. He died at his home in Victorville, California on January 19, 2012.

Luther Jefferson was born March 23, 1923, in Cotton Valley, LA, and was the fifth of 11 children born to Andrew and Sue Willie Curry Jefferson. Reared in poverty on a sharecropper’s farm, Luther was determined to work hard, study diligently, and maintain a positive outlook on life.

In March 1943, Luther Jefferson was drafted into the U.S. military. While completing basic training at the Army Air Base in Greenberg, NC, he learned of an experimental training program for African-American pilots, based at the Tuskegee Institute and Tuskegee Army Air Field in Alabama. After passing the required examination and being accepted into the program, he was assigned to the 332nd Fighter Group’s 99th Fighter Squadron—part of an elite group now known as the Tuskegee Airmen. Loggin more than 5,000 hours in aircraft that included the P-40 Fighter and B-25s, he helped protect Army Air Corps bombers in Italy during WWII and participated in the post-WWII Berlin Airlift. Following the war, Jefferson was assigned to Wright-Patterson Air Force Base at Dayton, OH in the Research and Development Section of New Aircraft and Human Characteristics—as one of a select few chosen to test new aircraft and combat simulations. Luther Jefferson also participated in the Dugway Proving Ground atomic test in Utah. By the time he retired from the U.S. Air Force in 1972, Luther Jefferson had become one of the branch’s first African-American chief master sergeants.

As a civilian, Chief Jefferson remained active in his community and volunteered as a Little League umpire and a Meals-on-Wheels driver for homebound seniors. Luther Jefferson, Sr., passed away at 88 years of age. I extend my heartfelt condolences to his two siblings Avis Jefferson and Alice Shaw; three children, Deborah Jefferson, Yvonne Atkinson, and Andrew Jefferson; and his six grandchildren, extended family, and numerous friends. I ask my colleagues to join me in honoring the life of our Tuskegee Airman CMSgt Luther Jefferson, Sr.

HONORING CAPTAIN CARLTON JACOB HOLLAND, JR., USA

- Mr. BARRASSO. Mr. President, today I honor Captain Jake Holland, United States Army, for his service in defense of Wyoming and our Nation.

Captain Holland of Casper, WY, was an Army Ranger assigned to the 48th Army of the Republic of Vietnam, Advance Team 88, Headquarters, Military Assistance Command—Vietnam Advisors, Military Assistance Command. He was stationed in the Central Highlands of Phuoc Binh as a MACV advisor to the South Vietnamese.

The Central Highlands were a critical supply route for the Viet Cong through the Ho Chi Minh Trail. The MACV mission was infamously known as one of the most dangerous missions for ground troops. They deployed deep into the jungle in small teams of four to train and assist the South Vietnamese Army and the indigenous Montagnard fighters.

Early in the morning on February 9, Captain Holland and his men came under attack. They were outnumbered and outgunned by the Viet Cong but that did not dissuade their determination to resist the attack on Bu Dang Compound.

As the enemy advanced closer to the compound demanding surrender over loud speakers, Captain Holland established a perimeter with his remaining forces. He picked up a .50 caliber machine gun and moved from position to position, exposing himself with each burst of fire. After all of the ammunition ran out, Captain Holland and his men succumbed to their wounds but they never gave up the fight. He was 36 years old.

Forty-seven years ago today, on February 9, 1965, Wyoming suffered its first casualty of the Vietnam War. For his valiant actions on this fateful day, Captain Holland was awarded the Distinguished Service Cross, the second highest honor in the Army. His decorations also included the Purple Heart Medal, National Defense Service Medal, Vietnam Service Medal, and the Vietnam Campaign Medal.

Today, Captain Holland lies at rest with his brothers in arms at Arlington National Cemetery in Section 35, site 3621. His name is engraved on Panel 01E, Line 86 at the Vietnam Veterans Memorial.

In Wyoming we never forget. It is through this tradition that we make every effort to honor and remember those who have selflessly made the ultimate sacrifice. We hold Captain Holland’s service and valor high.

RECOGNIZING WEST NOTTINGHAM ACADEMY

- Mr. CARDIN. Mr. President, I wish to recognize the 200th anniversary of the founding of West Nottingham Academy on the bicentennial of its chartering and relocation, and on over 200 years of providing educational opportunity and leadership to Maryland and our Nation.

West Nottingham Academy has evolved from its humble beginnings as a log cabin addition to Samuel Finley’s home to a modern campus that is home to 120 boarding and day students in grades 9–12 representing eight States and ten countries. Student life is enriched outside the classroom by interscholastic sports teams, service learning opportunities, student-led clubs, and educational excursions to Baltimore, Philadelphia, and Washington.

West Nottingham Academy has an innovative, student-centered academic approach which celebrates students’ many learning styles through a variety of teaching methods. The student-centered approach is exemplified in West Nottingham’s Center for Learning, where students with learning differences receive support services uniquely tailored to help each student reach his or her full potential.

I would ask my colleagues to join me in congratulating West Nottingham Academy on the bicentennial of its chartering and relocation, and on over 200 years of providing educational opportunity and leadership to Maryland and our Nation.

TRIBUTE TO SERGEANT FIRST CLASS JEREMIAH MOCK

- Mr. HELLER. Mr. President, today I wish to honor SFC Jeremiah Mock on the occasion of his oath of reenlistment in the Nevada Army National Guard. His commitment to the citizens of the Silver State is unwavering, and Nevada is honored to count him as one of our own.

I would first like to recognize all of our Nation’s service men and women. Each and every day, our troops are serving the United States to protect our freedom. They dedicate their lives to serve this great Nation and constantly make grave sacrifices to ensure the safety of our country. Our service members and their families deserve our gratitude and thanks.

Before serving in the Nevada National Guard, Sergeant Mock served 9 years in the Army Reserve, where he was deployed repeatedly on combat tours to Iraq and Afghanistan. His continued dedication to service led him to join the Nevada National Guard in 2007, and he continues to serve his State, despite becoming the innocent victim of a brutal shooting in Carson City, NV, on September 6, 2011. I will never forget this tragic event, and I continue to send my thoughts and prayers to the victims and their families.

I commend Sergeant Mock for his bravery and thank him for his faithful
service to his State and country. I also wish to recognize Sergeant Mock’s wife, SSG Stephanie Mock, who enlisted in the Nevada Air National Guard shortly after the tragic events of September 6, 2011. The Mock family is a true inspiration and illustration of a proud commitment to duty and honor. Let us continue to keep in mind the ideals of freedom and democracy.

I congratulate Sergeant Mock on his reenlistment and am humbled by him and all of our courageous service men and women. I also wish to recognize Sergeant Stephanie Mock, the pride of our State and country. I offer my heartfelt congratulations and best wishes to both Sergeant Mock and his family.

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–4926. A communication from the Director of the Research and Management Division, Environmental Protection Agency, transmitting, pursuant to law, a report entitled “Bacillus thuringiensis Cry2Ae Protein in Cotton: Exemption from the Requirement of a Tolerance” (FR No. 9337–7) received in the Office of the President of the Senate on February 2, 2012; to the Committee on Agriculture, Nutrition, and Forestry.

EC–4927. A communication from the Acting Under Secretary of Defense (Personnel and Readiness), transmitting, pursuant to law, a report relative to the amount of funds the Department of Defense intends to obligate to support the Cooperative Threat Reduction Program; to the Committee on Armed Services.

EC–4928. A communication from the Assistant Secretary of Defense (Global Strategic Affairs), transmitting, pursuant to law, a report relative to the amount of funds the Department of Defense intends to obligate to support the Cooperative Threat Reduction Program; to the Committee on Armed Services.

EC–4929. A communication from the Deputy Secretary of the Treasury, transmitting, pursuant to law, a six-month periodic report on the national emergency with respect to persons undermining democratic processes or institutions in Zimbabwe declared in Executive Order 13288; to the Committee on Banking, Housing, and Urban Affairs.

EC–4930. A communication from the Chair- man and President of the Export-Import Bank, transmitting, pursuant to law, the

**MESSAGES FROM THE HOUSE**

**At 10:05 a.m., a message from the House of Representatives delivered by Mr. Novotny, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:**

H.R. 1734. An act to decrease the deficit by realigning, consolidating, selling, disposing, and improving the efficiency of Federal buildings and other civilian real property, and for other purposes; to the Committee on Environment and Public Works.

H.R. 2606. An act to authorize the Secretary of the Interior to allow the construction and operation of natural gas pipeline facilities in the Gateway National Recreation Area, and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 3521. An act to amend the Congressional Budget and Impoundment Control Act of 1974 to provide for a legislative line-item veto to expedite consideration of rescissions, and for other purposes; to the Committee on the Budget.

H.R. 3581. An act to amend the Balanced Budget and Emergency Deficit Control Act of 1985 to increase transparency in Federal budgeting, and for other purposes; to the Committee on the Budget.

**EXECUTIVE AND OTHER COMMUNICATIONS**

**At 12:32 p.m., a message from the House of Representatives, delivered by Mr. Novotny, one of its reading clerks, announced that the House has passed the following bill with an amendment, in which it requests the concurrence of the Senate:**

S. 2038. An act to prohibit Members of Congress and employees of Congress from using nonpublic information derived from their official positions for personal benefit, and for other purposes.

The message also announced that the House has passed the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 99. Concurrent resolution authorizing the use of the sole employees of the Capitol Visitor Center for a ceremony to unveil the marker which acknowledges the role that slave labor played in the construction of the United States Capitol.

**MESSURES REFERRED**

The following bills were read the first and second times by unanimous consent, and referred as indicated:

H.R. 1734. An act to decrease the deficit by realigning, consolidating, selling, disposing, and improving the efficiency of Federal buildings and other civilian real property, and for other purposes; to the Committee on Environment and Public Works.

H.R. 2606. An act to authorize the Secretary of the Interior to allow the construction and operation of natural gas pipeline facilities in the Gateway National Recreation Area, and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 3521. An act to amend the Congressional Budget and Impoundment Control Act of 1974 to provide for a legislative line-item veto to expedite consideration of rescissions, and for other purposes; to the Committee on the Budget.

H.R. 3581. An act to amend the Balanced Budget and Emergency Deficit Control Act of 1985 to increase transparency in Federal budgeting, and for other purposes; to the Committee on the Budget.

**MEASURES PLACED ON THE CALENDAR**

The following bills were read the second time, and placed on the calendar:

S. 2079. A bill to extend the pay limitation for members of Congress and Federal employees.
EC–4932. A communication from the Secretary of Energy, transmitting, pursuant to law, a report entitled “Report on Uncosted Balances for Fiscal Year Ended 2011”; to the Committee on Energy and Natural Resources.

EC–4933. A communication from the Secretary of the Interior, transmitting, pursuant to law, the report of a rule entitled “Appliance Labeling Rule” (FRL No. 9627–8) received in the Office of the President of the Senate on February 7, 2012; to the Committee on Environment and Public Works.

EC–4934. A communication from the Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled “Approval and Promulgation of Implementation Plans; Georgia; 110(a)(1) and (2) Infrastructure Requirements for the 1997 8-Hour Ozone National Ambient Air Quality Standards” (FRL No. 9627–11) received in the Office of the President of the Senate on February 2, 2012; to the Committee on Environment and Public Works.

EC–4935. A communication from the Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled “Approval and Promulgation of Implementation Plans; North Carolina; 110(a)(1) and (2) Infrastructure Requirements for the 1997 8-Hour Ozone National Ambient Air Quality Standards” (FRL No. 9627–9) received in the Office of the President of the Senate on February 2, 2012; to the Committee on Environment and Public Works.

EC–4936. A communication from the Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled “Delegation of Committee Authority, House of Representatives, for Federal Trade Regulation, for Recognition as a 501(c) (29) Organization” (RIN1545–BK64) received in the Office of the President of the Senate on February 2, 2012; to the Committee on Environment and Public Works.

EC–4938. A communication from the Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled “Revisions to the California State Implementation Plan, San Joaquin Valley Unified Air Pollution Control District” (FRL No. 9627–5) received in the Office of the President of the Senate on February 2, 2012; to the Committee on Environment and Public Works.

EC–4939. A communication from the Chief of Recovery and Delisting, Fish and Wildlife Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled “Endangered and Threatened Wildlife and Plants; Bald Eagles Nesting in Sonoran Desert Area of Central Arizona Removed from Threatened List” (RIN1018–AX08) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012; to the Committee on Environment and Public Works.

EC–4940. A communication from the Chief of the Fisheries Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “Application of Q&I Act Asset Sale Contracts” (Rev. Rul. 2012–23) received in the Office of the President of the Senate on February 4, 2012; to the Committee on Environment and Natural Resources.

EC–4941. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “Rollover from Qualified Defined Contribution Plan to Qualified Defined Benefit Plan to Obtain Additional Annuity” (Rev. Rul. 2012–4) received in the Office of the President of the Senate on February 7, 2012; to the Committee on Finance.

EC–4942. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “Approval and Promulgation of Implementing Regulations; Department of Labor” (RIN1205–AX09) received in the Office of the President of the Senate on February 3, 2012; to the Committee on Finance.

EC–4943. A communication from the Assistant Secretary for the Employment and Training Administration, Department of Labor, transmitting, pursuant to law, the report of a rule entitled “Senior Community Service Employment Program: Final Rule, Additional Indicator on Volunteer Work” (RIN2205–AX96) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012; to the Committee on Health, Education, Labor, and Pensions.

EC–4944. A communication from the Assistant Secretary for the Employment and Training Administration, Department of Labor, transmitting, pursuant to law, the report of a rule entitled “Wage Methodology for the Temporary Non-Agricultural Employment H-2B Program; Delay of Effective Date” (RIN1205–AB61) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012; to the Committee on Health, Education, Labor, and Pensions.

EC–4945. A communication from the Director of Regulations and Policy Management, Office of the Secretary, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled “Further Amendments to General Regulations of the Food and Drug Administration to Incorporate Tobacco Products” (RIN0919–AG68) received in the Office of the President of the Senate on February 6, 2012; to the Committee on Health, Education, Labor, and Pensions.

EC–4946. A communication from the Program Director, Office of Management, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled “Guidelines for Determining Probability of Cancer under the Energy Employees Occupational Illness Compensation Program Act of 2000; Revision of Guidelines on Non-Radiogenic Cancers” (RIN0920–A339) received in the Office of the President of the Senate on February 6, 2012; to the Committee on Health, Education, Labor, and Pensions.

EC–4949. A communication from the Secretary, Mississippi River Commission, Department of the Army, transmitting, pursuant to law, the report of the Commission’s Annual Report of the Committee on Homeland Security and Governmental Affairs.

EC–4950. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries of the Exclusive Economic Zone Off Alaska; Inseason Adjustment to the 2012 Gulf of Alaska Pollock and Pacific Cod Total Allowable Catch Amounts” (RIN0648–AX07) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012; to the Committee on Commerce, Science, and Transportation.

EC–4951. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries of the Exclusive Economic Zone Off West Coast: Pacific Coast Groundfish Harvest Specifications and Management Measures for the Remainder of the 2011 Fishery” (RIN0648–BA01) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012; to the Committee on Commerce, Science, and Transportation.

EC–4952. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries of the Exclusive Economic Zone Off Alaska; Revisions to Pacific Cod Fishing Season Dates” (RIN0648–BA05) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012; to the Committee on Commerce, Science, and Transportation.

EC–4953. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries of the Exclusive Economic Zone Off Alaska; Revisions to Pacific Cod Fishing Season Dates” (RIN0648–BA05) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012; to the Committee on Commerce, Science, and Transportation.

EC–4954. A communication from the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries of the Northeastern United States; Atlantic Mackeral, Squid, and Horse Mackerel Fisheries; Amendment 11” (RIN16048–AX11) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012; to the Committee on Commerce, Science, and Transportation.
EC–4955. A communication from the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries Management Plan: Trawl Rationalization Program; Program Improvement and Enhancement 21–11” (RIN 0648–BB13) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012, to the Committee on Commerce, Science, and Transportation.

EC–4956. A communication from the Deputy Assistant Administrator for Operations, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Magnum-Stevens Act Provisions; Fisheries Off West Coast States; Pacific Coast Groundfish Fishery; Biennial Specifications and Management Measures” (RIN 0648–BA01) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012, to the Committee on Commerce, Science, and Transportation.

EC–4957. A communication from the Director, Bureau of Industry and Security, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “International Services Surveys: Amendments to the Reports Survey of Transactions in Selected Services and Intangible Assets with Foreign Persons” (RIN 0099–AA76) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012, to the Committee on Commerce, Science, and Transportation.

EC–4958. A communication from the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Implementation of Security Regulations” (RIN 0510–AF39) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012, to the Committee on Commerce, Science, and Transportation.

EC–4959. A communication from the Assistant Director for Policy, Office of Foreign Aspects, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “D i n i t i o n s Regulations; Darfur Sanctions Regulations; Democratic Republic of the Congo Sanctions Regulations” (31 CFR Parts 544, 546, and 547) received during adjournment of the Senate in the Office of the President of the Senate on February 3, 2012, to the Committee on Banking, Housing, and Urban Affairs.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred, indicated:

By Mr. HELLER:

S. 2080. A bill to authorize depository institutions, depository institution holding companies, Fannie Mae, and Freddie Mac to lease properties that are held by such entities for up to 5 years, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Ms. SURR (for herself, Mr. McCONNELL, Mr. COCHRAN, Mrs. HUTCHISON, Mr. CORNYN, Mr. PAUL, Mr. GRAHAM, Mr. ENZI, Mr. JOHNSON of Wisconsin, Mr. BARRASSO, Mr. WICKER, Mr. RISCH, Ms. AYOTTE, Mr. BOOZMAN, Mr. COBURN, Mr. DE MENT, Mr. THUNE, and Mr. CLEMENS):

S. 2081. A bill to require participation in public service and engagement in an active job search as conditions for receipt of extended unemployment benefits; to the Committee on Finance.

By Mr. UDALL of New Mexico (for himself and Mr. VARGAS):

S. 2082. A bill to establish the Cavernous Angioma CARE Center (Clinical Care, Awareness, Research and Education) of Excellence; to the Committee on Health, Education, Labor, and Pensions.

By Mr. TRUNE (for himself and Ms. GILLIBRAND):

S. 2083. A bill to amend the Internal Revenue Code of 1986 to prohibit the Secretary of the Treasury from requiring that taxpayers reconcile amounts with respect to reportable payment transactions to amounts related to gross receipts and sales; to the Committee on Finance.

By Ms. SNOWE (for herself and Ms. KLOBUCHAR):

S. 2084. A bill to require the Secretary of Transportation to establish accelerated licensing procedures to assist veterans to acquire commercial driver’s licenses, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. PAUL (for himself, Mr. JOHNSON of Wisconsin, and Mr. LEE):

S. 2085. A bill to strengthen employee cost savings suggestions programs within the Federal Government; to the Committee on Homeland Security and Governmental Affairs.

By Mrs. MCCASKILL:

S. 2086. A bill to amend the Congressional Budget and Impoundment Control Act of 1974 to provide for legislative line-item veto to expedite consideration of rescissions, and for other purposes; to the Committee on the Budget.

By Mr. BROWN of Ohio (for himself, Ms. KLOBUCHAR, Mr. FRANKEN, Mrs. GILLIBRAND, Mr. SCHUMER, Mr. CASEY, and Mrs. HAGAN):

S. 2087. A bill to clarify the meaning of “produced” for purposes of limitations on gross receipts and sales; to the Committee on Finance.

By Mr. ROCKETT:

S. 2088. A bill to amend the Internal Revenue Code of 1986 to allow the deduction of up to $2,500 for start-up and advertising expenses; to the Committee on Finance.

By Mr. BARRASSO, Mr. JOHNSON of South Dakota, Ms. MURKOWSKI, Mr. TRUMPER, Mr. BACCUS, Mr. FRANKEN, Ms. CANTWELL, Mr. HAYDEN, Mr. MURRAY, and Mr. UDALL of New Mexico (for himself, Mr. CASEY, Mr. JOHNSON of South Dakota, Mr. BACHUS, Mr. JOHNSON of Iowa, Ms. LEVIN, Mr. SANDERS, Mr. WEBB, Ms. KLOBUCHAR, Ms. STARKNOW, and Ms. SNOWE):

S. 2089. A bill to amend title I of the Full-Year 2012 Continuing Resolution Act; to the Committee on Appropriations.

By Mr. BROWN (for himself and Mr. RUBIO):

S. 2092. A bill to amend title XXVII of the Public Health Service Act to provide for the renewal of grant and contract awards under the Centers for Disease Control and Prevention; to the Committee on Health, Education, Labor, and Pensions.

By Mr. MENENDEZ:

S. 2093. A bill to establish pilot programs to encourage the use of shared appreciation mortgage modifications, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. BROWN of Ohio:

S. 2094. A bill to amend the Federal Water Pollution Control Act to update a program to provide assistance for the planning, design, and construction of treatment works to intercept, transport, control, or treat municipal combined sewer overflows and sanitary sewer overflows, and to require the Administrator of the Environmental Protection Agency to update certain guidance used to develop and determine the financial capability of communities to implement clean water infrastructure programs; to the Committee on Environment and Public Works.

By Mr. FRANKEN:

S. 2095. A bill to require that individuals who are in an authorized job training program or completing work for a degree or certificate remain eligible for regular unemployment compensation; to the Committee on Finance.

By Mr. CORNYN (for himself, Mr. WYDEN, and Mrs. HUTCHISON):

S. 2096. A bill to provide for Federal agencies to develop public access policies relating to research conducted by employees of that agency or from funds administered by that agency; to the Committee on Homeland Security and Governmental Affairs.

By Ms. LANDRIEU:

S. 2097. A bill to amend title XVIII of the Social Security Act to provide for coverage of comprehensive cancer care planning under the Medicare Program and to improve the care furnished to individuals diagnosed with cancer by establishing grants programs for provider education, and related research; to the Committee on Finance.

By Mr. WYDEN:

S. 2098. A bill to support statewide individual-level integrated postsecondary education data systems, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. JOHNSON of South Dakota (for himself and Mr. SHELBY):

S. 2099. A bill to amend the Federal Deposit Insurance Act with respect to information provided to the Bureau of Consumer Financial Protection; to the Committee on Banking, Housing, and Urban Affairs.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. CASEY (for himself, Mr. RUBIO, Mrs. GILLIBRAND, Mrs. BOXER, Mr. ISAKSON, Mr. DURBIN, and Mr. KYL):

S. Res. 37. A resolution calling for democratic change in Syria; to the Committee on Foreign Relations.

By Mrs. MURRAY (for herself, Ms. COLLINS, Mr. LEVIN, Mr. SANDERS, Mr. WEBB, Ms. KLOBUCHAR, Ms. STARKNOW, and Ms. SNOWE):

S. Res. 371. A resolution designating the week of February 6 through 10, 2012, as “National School Counseling Week”; considered and agreed to.
S. 316
At the request of Mr. CORKIN, the name of the Senator from Wyoming (Mr. BARRASSO) was added as a cosponsor of S. 316, a bill to ensure that the victims and victims’ families of the November 5, 2009, attack at Fort Hood, Texas, receive the same treatment, benefits, and honors as those Americans who have been killed or wounded in a combat zone overseas and their families.

S. 376
At the request of Mr. COBB, the name of the Senator from Nebraska (Mr. JOHANNES) was added as a cosponsor of S. 376, a bill to amend title 5, United States Code, to provide that persons having seriously delinquent tax debts shall be ineligible for Federal employment.

S. 402
At the request of Ms. SNOWE, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 402, a bill to amend title 10, United States Code, to provide for the award of a military service medal to members of the Armed Forces who served honorably during the Cold War, and for other purposes.

S. 412
At the request of Mr. LEVIN, the name of the Senator from Wisconsin (Mr. KROLL) was added as a cosponsor of S. 412, a bill to require the Secretary of Education to implement the Senator Paul Simon Water Reclamation Performance Program, and for other purposes.

S. 555
At the request of Mr. FRANKEN, the names of the Senator from Michigan (Mr. LEVIN) and the Senator from Wisconsin (Mr. KROLL) were added as cosponsors of S. 555, a bill to end discrimination based on actual or perceived sexual orientation or gender identity in public schools, and for other purposes.

S. 641
At the request of Mr. DURBIN, the name of the Senator from California (Mrs. FEINSTEIN) was added as a cosponsor of S. 641, a bill to provide 100,000,000 people with first-time access to safe drinking water and sanitation on a sustainable basis within six years by improving the capacity of the United States Government to fully implement the Senator Paul Simon Water for the Poor Act of 2005.

S. 704
At the request of Mr. WYDEN, the name of the Senator from California (Mrs. FEINSTEIN) was added as a cosponsor of S. 704, a bill to provide for duty-free treatment of certain recreational performance outerwear, and for other purposes.

S. 1164
At the request of Mr. DE MINT, the name of the Senator from Utah (Mr. LEE) was added as a cosponsor of S. 1164, a bill to empower States with authority for most taxing and spending for highway programs and mass transit programs, and for other purposes.

S. 1269
At the request of Ms. SNOWE, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 1269, a bill to amend the Elementary and Secondary Education Act of 1965 to require the Secretary of Education to collect information from coeducational secondary schools on such schools’ athletic programs, and for other purposes.

S. 1315
At the request of Mr. BLUMENTHAL, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 1315, a bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to extend public safety officers’ death benefits to fire police officers.

S. 1335
At the request of Mr. INHOFE, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 1335, a bill to amend title 49, United States Code, to provide rights for pilot, and for other purposes.

S. 1369
At the request of Mr. CRAPO, the name of the Senator from Louisiana (Mr. VITTER) was added as a cosponsor of S. 1369, a bill to amend the Federal Water Pollution Control Act to exempt the conduct of silvicultural activities from national pollutant discharge elimination system permitting requirements.

S. 1460
At the request of Mr. BAUCUS, the names of the Senator from Maryland (Mr. CARDIN) and the Senator from Connecticut (Mr. BLUMENTHAL) were added as cosponsors of S. 1460, a bill to grant the congressional gold medal, collectively, to the First Special Service Force, in recognition of its superior service during World War II.

S. 1467
At the request of Mr. BLUNT, the names of the Senator from Arizona (Mr. MCCAIN), the Senator from Alabama (Mr. SESSIONS), the Senator from Alaska (Ms. MURKOWSKI), the Senator from South Carolina (Mr. GRAHAM) and the Senator from Massachusetts (Mr. BROWN) were added as cosponsors of S. 1467, a bill to amend the Patient Protection and Affordable Care Act to protect rights of conscience with regard to requirements for coverage of specific items and services.

S. 1575
At the request of Mr. CARDIN, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 1575, a bill to amend the Internal Revenue Code of 1986 to modify the depreciation recovery period for energy-efficient cool roof systems.

S. 1591
At the request of Mrs. GILLIBRAND, the name of the Senator from New Hampshire (Mrs. SHAHEEN) was added as a cosponsor of S. 1591, a bill to award a Congressional Gold Medal to Raoul Wallenberg, in recognition of his achievements and heroic actions during the Holocaust.

S. 1616
At the request of Mr. ENZI, the name of the Senator from Arkansas (Mr. BOOZMAN) was added as a cosponsor of S. 1616, a bill to amend the Internal Revenue Code of 1986 to exempt certain stock of real estate investment trusts from the tax on foreign investments in United States real property interests, and for other purposes.

S. 1676
At the request of Mr. THUNE, the name of the Senator from Texas (Mrs. HUTCHISON) was added as a cosponsor of S. 1676, a bill to amend the Internal Revenue Code of 1986 to provide for taxpayers making donations with their returns of income tax to the Federal Government to pay down the public debt.

S. 1734
At the request of Mr. BLUMENTHAL, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1734, a bill to provide incentives for the development of qualified infectious disease products.

S. 1796
At the request of Mrs. GILLIBRAND, the name of the Senator from Connecticut (Mr. BLUMENTHAL) was added as a cosponsor of S. 1770, a bill to prohibit discrimination in adoption or foster care placements based on the sexual orientation, gender identity, or marital status of any prospective adoptive or foster parent, or the sexual orientation or gender identity of the child involved.

S. 1821
At the request of Mr. ISAKSON, the name of the Senator from Missouri (Mr. BLUNT) was added as a cosponsor of S. 1821, a bill to prevent the termination of the temporary office of bankruptcy judges in certain judicial districts.

S. 1925
At the request of Mr. LEAHY, the names of the Senator from Hawaii (Mr. AKAKA), the Senator from Colorado (Mr. BENNET), the Senator from Montana (Mr. Tester), the Senator from Montana (Mr. BAUCUS) and the Senator from North Dakota (Mr. CONRAD) were added as cosponsors of S. 1925, a bill to reauthorize the Violence Against Women Act of 1994.

S. 1945
At the request of Mr. DURBIN, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 1945, a bill to permit the televising of Supreme Court proceedings.

S. 1995
At the request of Mr. LIEBERMAN, the name of the Senator from Missouri...
Mr. BLUNT was added as a cosponsor of S. 1990, a bill to require the Transportation Security Administration to comply with the Uniformed Services Employment and Reemployment Rights Act.

At the request of Mr. RUBIO, the names of the Senator from North Carolina (Mr. BURR), the Senator from South Carolina (Mr. GRAHAM) and the Senator from Maine (Ms. SNOWE) were added as co-sponsors of S. 2043, a bill to amend title XXVII of the Public Health Service Act to provide religious conscience protections for individuals and organizations.

At the request of Mr. BENNET, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a co-sponsor of S. 2053, a bill to encourage transit-oriented development, and for other purposes.

At the request of Mr. WHITEHOUSE, the name of the Senator from California (Mrs. BOXER) was added as a co-sponsor of S. 2059, a bill to reduce the deficit by imposing a minimum effective tax rate for high-income taxpayers.

At the request of Mr. PAUL, the name of the Senator from Wyoming (Mr. ENZI) was added as a co-sponsor of S. 2062, a bill to override the Lacey Act Amendments of 1981 to repeal certain provisions relating to criminal penalties and violations of foreign laws, and for other purposes.

At the request of Mr. HATCH, the name of the Senator from North Dakota (Mr. CONRAD) was added as a co-sponsor of S.J. Res. 19, a joint resolution proposing an amendment to the Constitution of the United States authorizing Congress to prohibit the physical desecration of the flag of the United States.

At the request of Ms. MIKULSKI, the name of the Senator from North Dakota (Mr. CONRAD) was added as a co-sponsor of S. Res. 310, a resolution designating 2012 as the “Year of the Girl” and congratulating Girl Scouts of the USA on its 100th anniversary.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. HELLER:

S. 2080. A bill to authorize depository institutions, depository institution holding companies, Fannie Mae, and Freddie Mac to lease foreclosed property held by such entities for up to 5 years, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. HELLER. Mr. President, when our Nation’s economy was thriving, Nevada was at the heart of the construction boom. Buildings and homes were going up across the State. Neighborhoods were growing, schools were being built at record rates, and the construction industry was flourishing. All of this activity drove investments into other areas of the economy, and for many years we flourished in Nevada. But when the crisis hit, the highs that my State experienced were matched by the lows that followed.

Nevada now leads the Nation in unemployment with more than 160,000 Nevadans looking for a job. Many can no longer afford their homes. Nevadans are being forced into bankruptcy and facing foreclosure. While Nevada is home to some of the most resilient, hard-working people in the country, almost one-quarter of Nevadans are so frustrated that they have simply given up hope for better employment.

Much of the difficulty Nevadans are experiencing can be traced back to the crisis in my State. The ill effects of the depressed housing market are widespread. High rates of foreclosures are devastating to families, neighborhoods, and entire communities. Families who have been foreclosed upon are already having a hard time paying their bills. Add to those difficulties the time spent finding a new place and the stress of moving and their problems are compounded. Time spent fighting the bank to avoid foreclosure and relocating would likely be better used to find a job or better paying employment.

As one of the disinterested home owners facing the programs that have been put into place to help keep people in their homes that have not lived up to expectations. My office spends a great deal of time with these home owners, looking for help, and trying to keep families in their homes. It is truly heart wrenching to hear some of these stories. These home owners do not want to lose their homes, but they have no choice. I recently received this e-mail from a constituent in Reno who is fighting to keep their home. I would like to share that with you.

We hoped for a win-win situation but in the end all we got was a nightmare in which everyone loses: my sister and I obviously lose, our neighborhood loses as another house sits vacant with a rusting metal sign in the front, our State loses as the housing plight increases again, the bank loses because they lose a customer who just needed another chance and, most importantly, democracy loses as the plutocrats roll over another family.

When families move, their children often have to change schools. So now not only are children forced to move from their homes, they are also leaving behind their schooners and their neighborhoods. This kind of destabilization is harmful for families who are already struggling.

Consider the effects of foreclosures on neighborhoods and communities. The widespread availability of housing is flooding the real estate inventory in Nevada. This is forcing down home values and making it difficult for other people to sell their homes as well. In February 2006 the average home in Nevada was valued at $309,000. Today the home values have dropped to $210,000.

Homes left vacant and uncared for can quickly become an eyesore, pushing low-income values even lower. This makes others in the neighborhood can have a difficult time selling their homes if they want to move. If they find a better job elsewhere, for example, they may not be able to take it because they cannot sell their homes for a reasonable price, if they are able to sell them at all.

Today I am introducing legislation to help reverse these destabilizing forces. The bill I am introducing today, the Stabilizing Neighborhoods and Keeping Families in their Home Act, will help address large unsold housing inventories and give families a chance to stay in their homes. This bill would allow banks, Fannie Mae and Freddie Mac, to enter into long-term leases, including an option to purchase properties acquired through foreclosure with the prior homeowner or any individual.

By providing an opportunity for the homeowner to stay in their home, the bank is giving families a chance to reverse the decline of the neighborhood. This commonsense solution helps provide some much needed stability is available for all families.

While I believe this bill is a good step in the right direction, let me be clear: anything we can do to help the housing problems facing Nevada. The programs already in place simply have not done enough and have not lived up to expectations.

I was pleased to see reports of growth in our economy, but people in my State continue to suffer. Back home Nevadans still believe there are no jobs. Small businesses are trying to survive while gridlock in Washington is making it harder for employers to know what is expected in the coming year. Crushing regulations are bringing Nevada’s growth industries to a halt. In order for Nevada to experience real long-term recovery, Washington needs to fundamentally change the way it works. Congress needs to stop overspending. Republicans and Democrats should come together to close unfair loopholes and make the Tax Code easier for businesses to understand and to follow. This bill is just one solution to help turn around this housing crisis. It is also an idea that both Republicans and Democrats can support.

I look forward to working with my colleagues to pass this bill and others into law so that we can help families dealing with foreclosures across the country. As I have said before, moving forward I welcome any and all ideas on how to fix the housing crisis in this country. Nevadans cannot afford to wait any longer.

In the meantime, I urge my colleagues to seriously consider supporting this bill. This legislation can go a long way toward helping families, stabilizing neighborhoods, and stem
any further reduction in home prices. I hope Senators will join me in this endeavor so the President can sign this bill into law and help families who badly need it.

By Mr. ROCKEFELLER:
S. 2088. A bill to amend the Internal Revenue Code of 1986 to permanently double the amount of start-up expenses entrepreneurs can deduct from their taxes; to the Committee on Finance.

Mr. ROCKEFELLER. Mr. President, today I am introducing the Small Business Start-up Support Act of 2012, legislation that will promote small business growth in my home state of West Virginia, and around the country.

Since the recession, I have met with countless business owners, as well as those who dream of starting a small business. One of the common themes of these conversations is the difficulty these individuals have raising capital, particularly when a business is in its infancy.

This legislation helps those individuals out, by expanding a successful provision of the tax code that allows business owners to deduct up to $5,000 of start-up costs. These start-up costs are things like legal and marketing costs that are necessary to get a business up and running, but put a strain on an already tight budget. My bill would expand this deduction so that individuals can deduct up to $10,000 of start-up costs.

For a business to survive, and thrive, its owner has to do its homework during its infancy. They have to study things like supply chains and distribution models. They have to develop marketing plans. Each of these things has a cost that is incurred before a business makes dollar one. That is when a business owner is most in need of assistance and that is why this credit was first enacted.

A temporary expansion of the start-up deduction was enacted in 2008, and it was one of many actions this Congress took to help business owners weather the recession and keep their doors open. President Obama included a permanent extension of this provision in his “Start-up America” legislative agenda and I am committed to seeing it become law.

I ask my colleagues to join me in supporting this important legislation and thank the chair for allowing me to speak on this issue.

By Mr. ENZI:
S. 2091. A bill to amend the Internal Revenue Code of 1986 to reform the international tax system of the United States, and for other purposes; to the Committee on Finance.

Mr. ENZI. Mr. President, I rise to speak about a bill I am introducing today, the United States Job Creation and International Tax Reform Act of 2012. That’s how it all fits together this bill that would incentivize American companies to create jobs in the United States while at the same time leveling the playing field for U.S. companies in the global marketplace. This bill would reform and modernize the rules for taxing the global operations of American companies and would help America become a more attractive location to base a business that serves customers all over the world.

Unfortunately, our current tax rules do just the opposite. In fact, many businesses could be better off if they were headquartered outside the United States. That is not right, and Congress should fix that.

I wish to thank Senator HATCH and members of his staff who have been helpful in working through the complexities of this international tax.

I also wish to mention Eric Oman, a member of my staff and a CPA, who worked with me in developing this legislation. He has lived overseas and worked with the U.S. tax laws overseas. That is the kind of expertise we need to reform international tax law.

I would like to thank the Finance Committee, especially Scott Naatjes, who is the vice president and general tax counsel of Cargill. This man has dealt with the complex accounting of foreign earnings and the tax code worldwide. He is a United States, an actual practitioner whom we relied on. He gave us insight into years of records that have to be reviewed for a single item in the complex web of the current international tax system in order to get the money back to the United States.

Finally, I wish to thank Dave Camp, the chairman of the House, Ways, and Means Committee, who kicked-started the discussion on tax reform when he released his discussion draft last October.

Enacted in the 1960s, our current international tax rules have passed their expiration date. Many of the U.S. major trading partners, including Canada, Japan, the United Kingdom, and the countries of the European Union, have moved from the taxation system that is actually a word for a global tax system. These types of tax systems tax the income generated within their borders and exempt foreign earnings from tax.

The United States, on the other hand, taxes the worldwide income of U.S. companies and provides deferral of the U.S. tax until the foreign earnings are brought into the United States. This bill would provide a 95-percent exemption from the U.S. tax on foreign earnings that are necessary to get a business up and running, but put a strain on an already tight budget. My bill would expand this deduction so that individuals can deduct up to $10,000 of start-up costs.

For a business to survive, and thrive, its owner has to do its homework during its infancy. They have to study things like supply chains and distribution models. They have to develop marketing plans. Each of these things has a cost that is incurred before a business makes dollar one. That is when a business owner is most in need of assistance and that is why this credit was first enacted.

A temporary expansion of the start-up deduction was enacted in 2008, and it was one of many actions this Congress took to help business owners weather the recession and keep their doors open. President Obama included a permanent extension of this provision in his “Start-up America” legislative agenda and I am committed to seeing it become law.

I ask my colleagues to join me in supporting this important legislation and thank the chair for allowing me to speak on this issue.
This bill can be a first step in tax reform. We have a lot of work to do in many other areas of tax law in order to make it simpler, fairer, and more transparent. We need to be looking at the individual tax system, the corporate tax system, and particularly how we tax the pass-through entities such as partnerships and S corporations that have to pay the tax on the money when it is still invested in the business. I also recognize, as we move forward in these other areas, it may be appropriate to make changes to this bill. This is exactly how the legislative process should work, and I look forward to getting back to conducting the Senate’s business in regular order, where we work through the issues in the committee first and offer amendments to improve the bills that ultimately come to the Senate floor, where there is a shot for everybody else to make amendments.

Today with the introduction of this bill, we move from discussion to action with respect to a single piece of the tax reform. The Simpson-Bowles deficit commission recommended a move to a territorial system, and I am glad to move the conversation forward on this recommendation with the introduction of this bill. I hope this bill will begin a discussion, a discussion of fairness that needs to begin yesterday. I hope Members and their staff will review the relatively detailed explanation we have prepared. I also ask that all interested stakeholders review the bill and reach out to my staff and the staff of the Finance Committee to discuss what they like, what they don’t like, and their suggestions for improvements. That is the way bills are supposed to work.

The international tax rules are not easy or simple and reforming them will be a heavy lift. But those things are worthy of consideration when they are worth doing, they are rarely easy or simple. I look forward to joining with my colleagues to pass international tax reforms that our American companies and our country desperately need.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

(a) Short title.—This Act may be cited as the “United States Job Creation and International Tax Reform Act of 2012.”

(b) Amendment of 1986 Code.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed to apply to the amendment of section 902 of the 1986 Code, which is effective as of the close of the taxable year of the taxpayer with respect to which such section 902 is applicable, such reference shall be considered to be made to a section of or other provision of the Internal Revenue Code of 1986.

(c) Table of Contents.—The table of contents of this Act is as follows:

TITLE I—PARTICIPATION EXEMPTION SYSTEM FOR TAXATION OF FOREIGN INCOME

Sec. 101. Deduction for dividends received by domestic corporations from certain foreign corporations.

Sec. 102. Application of dividends received deduction to certain sales and exchanges of stock.

Sec. 103. Deduction for foreign intangible income derived from trade or services within the United States.

Sec. 104. Treatment of deferred foreign income upon transition to participation exemption system of taxation.

TITLE II—OTHER INTERNATIONAL TAX REFORMS

Subtitle A—Modifications of Subpart F

Sec. 201. Treatment of low-taxed foreign income as subpart F income.

Sec. 203. Permanent extension of exceptions for active financing income.

Sec. 204. Foreign base company income not to include sales or services income.

Subtitle B—Modifications Related to Foreign Tax Credit

Sec. 211. Modernization of the coordination of sections 902 and 960 with respect to post-2012 earnings.

Sec. 212. Separate foreign tax credit basket for low-taxed foreign income.

Sec. 213. Inventory property sales source rule exceptions to not apply for foreign tax credit limitation.

Sec. 214. Coordination of interest on worldwide basis.

Sec. 221. Acceleration of election to allocate interest on a worldwide basis.

TITLE I—PARTICIPATION EXEMPTION SYSTEM FOR TAXATION OF FOREIGN INCOME

Sec. 101. DEDUCTION FOR DIVIDENDS RECEIVED BY DOMESTIC CORPORATIONS FROM CERTAIN FOREIGN CORPORATIONS.

(a) Allowance of deduction.—Part VIII of subchapter B of chapter 1 is amended by inserting after section 245 the following new section:

“SEC. 245A. DIVIDENDS RECEIVED BY DOMESTIC CORPORATIONS FROM CERTAIN FOREIGN CORPORATIONS.

“(a) In general.—In the case of any dividend received from a controlled foreign corporation by a domestic corporation which is a United States shareholder with respect to such controlled foreign corporation, there shall be allowed as a deduction an amount equal to 95 percent of the qualified foreign-source portion of the dividend.

“(B) Treatment of noncontrolled section 902 corporations as controlled foreign corporations.—

“(i) In general.—If a domestic corporation elects the application of this subsection for any noncontrolled section 902 corporation with respect to the domestic corporation, then, for purposes of this title—

“(A) the noncontrolled section 902 corporation shall be treated as a controlled foreign corporation with respect to the domestic corporation, and

“(B) the domestic corporation shall be treated as a United States shareholder with respect to the noncontrolled section 902 corporation.

“(2) Election.—

“(A) Time of election.—Any election under this subsection with respect to any noncontrolled section 902 corporation shall be made not later than the due date for filing the return of tax for the first taxable year of the taxpayer with respect to which the foreign corporation is a controlled foreign corporation with respect to the taxpayer (or, if later, the first taxable year of the taxpayer for which this section is in effect),

“(B) Invocation of election under this subsection, once made, may be revoked only with the consent of the Secretary.

“(C) Controlled groups.—If a domestic corporation making an election under this subsection with respect to any noncontrolled section 902 corporation is a member of a controlled group of corporations, within the meaning of section 1563(a), except that ‘more than 50 percent’ shall be substituted for ‘at least 80 percent’ each place it appears there (in), then, except as otherwise provided by the Secretary, such election shall apply to all members of such group.

“(d) Qualified foreign-source portion of dividends.—For purposes of this section—

“(1) Qualified foreign-source portion.—

“(A) In general.—The qualified foreign-source portion of any dividend is an amount which bears the same ratio to such dividend as—

“(i) the post-2012 undistributed qualified foreign earnings, bears to

“(ii) the total post-2012 undistributed earnings.

“(B) Post-2012 undistributed earnings.—The term ‘post-2012 undistributed earnings’ means the amount of the earnings and profits of a controlled foreign corporation (computed in accordance with sections 964(a) and 986) accumulated in taxable years beginning after December 31, 2011.

“(2) Qualified foreign-source portion of any dividend.

“(A) In general.—If a controlled foreign corporation has undistributed qualified foreign earnings, the amount of the qualified foreign-source portion of any dividend shall be determined in accordance with the foreign tax credit limitation.

“(B) General rule.—For purposes of this subsection, the term ‘qualified foreign earnings’ means—

“(i) the post-2012 undistributed qualified foreign earnings, which are attributable to income other than—

“(I) income described in section 245(a)(5)(A), or

“(II) dividends described in section 245(a)(5)(B).

“(3) Ordering rule for distributions of earnings and profits.—Distributions shall be treated as first made out of earnings and profits of a controlled foreign corporation which are not post-2012 undistributed earnings and then out of post-2012 undistributed earnings.

“(4) Disallowance of foreign tax credit for credit for income derived in a high-tax country.—

“(I) In general.—No credit shall be allowed under section 901 for any taxes paid or accrued (or treated as paid or accrued) with respect to the qualified foreign-source portion of any dividend.

“(II) Applications of section 901(a).—The amount of the credit to which subsection (a) is applicable under section 901 of the Code (the ‘applicable credit’) shall be reduced by—

“(A) the amount of the applicable credit allowed under section 901 for any taxes paid or accrued (or treated as paid or accrued) with respect to the qualified foreign-source portion of any dividend.

“(3) Coordination with section 78.—Section 78 shall not apply to any tax for which credit is not allowable under section 901 by reason of paragraph (1).

“(4) Treatment of nondeductible portion in applying foreign tax credit limit.—For purpose of applying subsection (c) of section 901(a), the remaining 5 percent of the qualified foreign-source portion of any dividend with respect to which a deduction is allowable to the domestic corporation under subsection (a) shall be treated as income from sources within the United States.
(e) Special Rules for Hybrid Dividends.—
(1) in General.—Subsection (a) shall not apply to any dividend received by a United States shareholder from a controlled foreign corporation if the dividend is a hybrid dividend.

(2) Hybrid Dividends of Treated Controlled Foreign Corporations.—Subsection (a) shall not apply to any dividend received by a United States shareholder from a treated controlled foreign corporation with respect to which a domestic corporation is a United States shareholder if the dividend was treated as income from sources within the United States, and

(B) the dividend received is—
(i) treated as met for purposes of section 951(a)(1)(A) as subpart F income of the receiving controlled foreign corporation for the taxable year of the controlled foreign corporation in which the dividend was received, and
(ii) the qualified foreign-source portion of such dividend shall be treated for purposes of section 951(a)(1)(A) as subpart F income of the receiving controlled foreign corporation for the taxable year of the controlled foreign corporation.

(f) Definitions.—For purposes of this section—

(1) United States Shareholder.—The term 'United States shareholder' has the meaning given such term in section 956(b).

(2) Controlled Foreign Corporation.—The term 'controlled foreign corporation' has the meaning given such term in section 957(a).

(3) Noncontrolled Section 902 Corporation.—The term 'noncontrolled section 902 corporation' has the meaning given such term in subsection (a) of section 245A.

(g) Regulations.—The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the provisions of this section.

(h) Application of Holding Period Requirement.—Subsection (c) of section 246 is amended by inserting—

(1) any dividend received by a domestic corporation for the taxable year.

(i) Special Rules for Qualified Foreign-Source Portion of Dividends Received from Controlled Foreign Corporations.—

(A) 1-Year Holding Period Requirement.—For purposes of section 245A—

(1) paragraph (1)(A) shall be applied—

(i) by substituting '355 days' for ‘45 days’ each place it appears, and

(ii) by substituting '91-day period' for '91-day period', and

(2) paragraph (2) shall not apply.

(B) Status Must Be Maintained During Holding Period.—For purposes of paragraph (1) of section 245A, the holding period requirement of this subsection shall be treated as met only if—

(i) the controlled foreign corporation referred to in section 245A(a) is a controlled foreign corporation at all times during such period, and

(ii) the taxpayer is a United States shareholder (as defined in section 951) with respect to such controlled foreign corporation at all times during such period.

(3) Special Rules for Electing Noncontrolled Section 902 Corporations.—In the case of an election under section 246(b) to treat a noncontrolled section 902 corporation as a controlled foreign corporation, the requirements of subparagraph (B) shall be treated as met for any continuous period ending on the day before the effective date of the election for which the taxpayer met the ownership requirements of section 904(d)(2)(E) with respect to such corporation.

(c) Application of Rules Generally Applicable to Deductions for Dividends Received.—

(1) Treatment of Dividends from Tax-Exempt Corporations.—Paragraph (1) of section 246(a) is amended by striking ‘and 245’ and inserting ‘, 245, and 245A’.

(2) Assets Generating Tax-Exempt Foreign Source Income.—Paragraph (2) of section 864(c) is amended by striking ‘245, and 245A’ and inserting ‘245, 245A, and 245B’.

(3) Coordination with Section 109.—Subparagraph (B) of section 109(b)(2) is amended by striking ‘or 245’ and inserting ‘, 245, and 245A’.

(d) Conforming Amendments.—

(1) Clause (vi) of section 56(g)(4)(C) is amended by inserting ‘245A or’ before ‘963’.n

(2) Subsection (b) of section 951 is amended—

(A) by striking ‘subsection’ and inserting ‘title’, and

(B) by adding at the end the following—

Such term shall include, with respect to any entity treated as a controlled foreign corporation under section 245A(b), any domestic corporation treated as a United States shareholder with respect to such entity under section 956.

(3) Subsection (a) of section 957 is amended—

(A) by striking ‘subsection’ and inserting ‘title’, and

(B) by adding at the end the following—

Such term shall include any entity treated as a controlled foreign corporation under section 245A(b).

(4) The table of sections for part VIII of chapter 1 beginning with the item relating to section 245 the following new item:

Sec. 246. Dividends received by domestic corporations from certain foreign corporations.

(e) Effective Date.—The amendments made by this section apply to taxable years of foreign corporations beginning after December 31, 2012, and to taxable years of United States shareholders with or within which such taxable years of foreign corporations end.

SEC. 102. APPLICATION OF DIVIDENDS RECEIVED DEDUCTION TO CERTAIN SALES AND EXCHANGES OF STOCK.

(a) Sales by United States Persons of Stock in CFC.—Section 1248 is amended by redesignating subsection (j) as subsection (k) and by inserting after subsection (k) the following new subsection:

(j) Coordination With Dividends Receivable Deduction.—

(1) In General.—In the case of the sale or exchange by a domestic corporation of stock in a foreign corporation held for 1 year or more, any amount received by the domestic corporation which is treated as a dividend by reason of this section shall be treated as a dividend for purposes of applying section 246.

(2) Losses Disallowed.—If a domestic corporation—

(A) sells or exchanges stock in a foreign corporation in a taxable year of the domestic corporation with or within which a taxable year of the foreign corporation beginning after December 31, 2012, ends, and

(B) does not meet the ownership requirements of subsection (a)(2) with respect to such stock, no deduction shall be allowed to the domestic corporation with respect to any loss from the sale or exchange of such stock.

(b) Sale by a CFC of a Lower Tier CFC.—Section 960(e) is amended by adding at the end the following new paragraph:

(4) Coordination With Dividends Received Deduction.—

(A) In General.—If, for any taxable year of the foreign corporation beginning after December 31, 2012, any amount is treated as a dividend under paragraph (1) by reason of a sale or exchange by the controlled foreign corporation of stock in another foreign corporation held for 1 year or more, then, notwithstanding any other provision of this title—

(i) the qualified foreign-source portion of such dividend shall be treated for purposes of section 951(a)(1)(A) as subpart F income of the selling controlled foreign corporation for such taxable year,

(ii) a United States shareholder with respect to the selling controlled foreign corporation shall include in gross income for the taxable year of the shareholder with or within which such taxable year of the controlled foreign corporation ends an amount equal to the pro rate share (as determined in the same manner as under section 951(a)(1)(A)) of the amount treated as subpart F income under clause (i), and

(iii) the deduction under section 245A shall be allowable to the United States shareholder with respect to the subpart F income included in gross income under clause (ii) in the same manner as if such subpart F income were a dividend received by the shareholder from the selling controlled foreign corporation.

(B) Effect of Loss on Earnings and Profits.—For purposes of this title, in the case of a sale or exchange by a controlled foreign corporation of stock in another foreign corporation in a taxable year of the selling controlled foreign corporation beginning after December 31, 2012, to which this paragraph would apply if gain were recognized, the earnings and profits of the selling controlled foreign corporation shall not be reduced by reason of any loss from such sale or exchange.

(C) Qualified Foreign-Sourced Portion.—For purposes of this paragraph, the qualified foreign-sourced portion of any amount treated as a dividend under a provision of this title shall be determined in the same manner as under section 264A.

SEC. 103. DEDUCTION FOR FOREIGN INTANGIBLE INCOME DERIVED FROM TRADE OR BUSINESS WITHIN THE UNITED STATES.

(a) In General.—Part VIII of subchapter B of chapter 1 is amended by adding at the end the following new section:

Sec. 250. Foreign Intangible Income Derived from Trade or Business Within the United States.

(a) Sales by United States Persons of Stock in CFC.—Section 1248 is amended by redesignating subsection (j) as subsection (k) and by inserting after subsection (k) the following new subsection:

(j) Coordination With Dividends Receivable Deduction.—

(1) In General.—In the case of the sale or exchange by a domestic corporation of stock in a foreign corporation held for 1 year or more, any amount received by the domestic corporation which is treated as a dividend by reason of this section shall be treated as a dividend for purposes of applying section 246.

(2) Losses Disallowed.—If a domestic corporation—

(A) sells or exchanges stock in a foreign corporation in a taxable year of the domestic corporation with or within which a taxable year of the foreign corporation beginning after December 31, 2012, ends, and

(B) does not meet the ownership requirements of subsection (a)(2) with respect to such stock, no deduction shall be allowed to the domestic corporation with respect to any loss from the sale or exchange of such stock.

(b) Sale by a CFC of a Lower Tier CFC.—Section 960(e) is amended by adding at the end the following new paragraph:

(4) Coordination With Dividends Received Deduction.—

(A) In General.—If, for any taxable year of the foreign corporation beginning after December 31, 2012, any amount is treated as a dividend under paragraph (1) by reason of a sale or exchange by the controlled foreign corporation of stock in another foreign corporation held for 1 year or more, then, notwithstanding any other provision of this title—

(i) the qualified foreign-source portion of such dividend shall be treated for purposes of section 951(a)(1)(A) as subpart F income of the selling controlled foreign corporation for such taxable year,

(ii) a United States shareholder with respect to the selling controlled foreign corporation shall include in gross income for the taxable year of the shareholder with or within which such taxable year of the controlled foreign corporation ends an amount equal to the pro rate share (as determined in the same manner as under section 951(a)(1)(A)) of the amount treated as subpart F income under clause (i), and

(iii) the deduction under section 245A shall be allowable to the United States shareholder with respect to the subpart F income included in gross income under clause (ii) in the same manner as if such subpart F income were a dividend received by the shareholder from the selling controlled foreign corporation.

(B) Effect of Loss on Earnings and Profits.—For purposes of this title, in the case of a sale or exchange by a controlled foreign corporation of stock in another foreign corporation in a taxable year of the selling controlled foreign corporation beginning after December 31, 2012, to which this paragraph would apply if gain were recognized, the earnings and profits of the selling controlled foreign corporation shall not be reduced by reason of any loss from such sale or exchange.

(C) Qualified Foreign-Sourced Portion.—For purposes of this paragraph, the qualified foreign-sourced portion of any amount treated as a dividend under a provision of this title shall be determined in the same manner as under section 264A.
"(1) IN GENERAL.—The term 'qualified foreign intangible income' means, with respect to any domestic corporation, foreign intangible income which is derived by the domestic corporation from the active conduct of a trade or business within the United States with respect to the intangible property giving rise to the income.

"(2) COORDINATION RELATING TO TRADE OR BUSINESS WITHIN THE UNITED STATES.—For purposes of this section, foreign intangible income shall be treated as derived by a domestic corporation from the active conduct of a trade or business within the United States only if—

"(A) the domestic corporation developed, created, held, or disposed of intangible property in which the United States intangible property giving rise to the income, or

"(B) in any case in which the domestic corporation acquired such intangible property, the domestic corporation added substantial value to the property through the active conduct of such trade or business within the United States.

"(c) FOREIGN INTANGIBLE INCOME.—For purposes of this section—

"(1) IN GENERAL.—The term 'foreign intangible income' means gross income from—

"''(A) the sale, lease, license, or other disposition of foreign intangible property which is derived in connection with—

"''''(i) a catastrophe or natural disaster,

"''''(ii) a foreign trade or business,

"''(B) any payment under a cost-sharing arrangement entered into under section 482.

"(2) REQUIREMENTS RELATING TO TRADE OR BUSINESS WITHIN THE UNITED STATES.—For purposes of this section—

"''(A) the sale, lease, license, or other disposition of foreign intangible property which is derived in connection with—

"''''(i) a catastrophe or natural disaster,

"''''(ii) a foreign trade or business,

"''''(iii) a foreign account in computing foreign intangible income, or

"''(B) any payment under a cost-sharing arrangement entered into under section 482.

"(3) INTANGIBLE INCOME.—The term 'intangible income' means—

"''(A) the sale, lease, license, or other disposition of intangible property which is derived in connection with—

"''''(i) a catastrophe or natural disaster,

"''''(ii) a foreign trade or business,

"''(B) any payment under a cost-sharing arrangement entered into under section 482.

"(4) DEDUCTION ALLOWED.—In the case of a domestic corporation which elects the application of this section to any controlled foreign corporation with respect to which it is a United States shareholder, there shall be allowed as a deduction for the taxable year the first taxable year of the United States shareholder with or within which the first taxable year of the controlled foreign corporation beginning after December 31, 2012, is determined under subsection (b) of this section.

"(5) INCORPORATION OF AMENDMENTS TO SUBPART F.—Section 250 is amended to read as follows:

"SEC. 956. TREATMENT OF DEFERRED FOREIGN INCOME UPON TRANSITION TO PARTICIPATION EXEMPTION SYSTEM OF TAXATION.

"(a) DEDUCTION ALLOWED.—In the case of a domestic corporation which elects the application of this section to any controlled foreign corporation with respect to which it is a United States shareholder, there shall be allowed as a deduction for the taxable year the first taxable year of the United States shareholder with or within which the first taxable year of the controlled foreign corporation beginning after December 31, 2012, is determined under subsection (b) of this section.

"(b) ELIGIBLE AMOUNT.—For purposes of subsection (a) —

"'(1) IN GENERAL.—The amount determined under this subsection for a United States shareholder with respect to any controlled foreign corporation for the taxable year of the shareholder described in subsection (a) is the lesser of—

"'''(A) the shareholder's pro rata share of the earnings and profits of the controlled foreign corporation described in section 959(c)(3) as of the close of the taxable year preceding the first taxable year of the controlled foreign corporation beginning after December 31, 2012, or

"'''(B) in an amount equal to the sum of—

"''''''(i) the dividends received by the shareholder during such taxable year from the controlled foreign corporation which are attributable to the earnings and profits described in subparagraph (A), and

"''''''(ii) the increase in subpart F income required to be included in gross income of the shareholder for the taxable year by reason of the election under paragraph (2).

"'(2) ELECTION OF DEEMED SUBPART F INCOME.—A United States shareholder may elect to treat for purposes of paragraph (1)(B)(ii) to treat all (or any portion) of the shareholder's pro rata share of the earnings and profits of a controlled foreign corporation described in paragraph (1)(B)(ii) as income from sources within the United States.

"'(3) ORDERING RULE.—For purposes of paragraph (1)(B)(ii), distributions shall be treated as first made out of earnings and profits of a controlled foreign corporation described in paragraph (1)(B)(ii).

"'(4) DIVIDEND.—The term 'dividend' shall not include amounts includible in gross income as a dividend under section 956.

"(c) FOREIGN INTANGIBLE INCOME.—For purposes of applying the limitation under section 956 to foreign intangible income, the amount of the amount determined under subsection (b) with respect to which a deduction is not allowable under subsection (a) shall be treated as income from sources within the United States.

"(d) ELECTION TO PAY LIABILITY FOR DEEMED SUBPART F INCOME IN INSTALLMENTS.—

"'(1) IN GENERAL.—In the case of a United States shareholder with respect to 1 or more controlled foreign corporations which are treated as a member of a controlled foreign corporation group under section 956(b), the United States shareholder may elect to pay the net tax liability determined under paragraph (a) with respect to its deemed subpart F income in installments.

"'(2) DATE OF PAYMENT.—If an election is made under paragraph (1), the first installment shall be paid on the due date (determined without regard to any extension of time for filing the return) for the return of the taxable year for which the election was made and each succeeding installment shall be paid on the due date (determined without regard to any extension of time for filing the return) for the return of the taxable year for which the election was made and each succeeding installment with respect to which a deduction is not allowable under subsection (b) for the taxable year following the taxable year with respect to which the preceding installment was made.

"'(3) ACCELERATION OF PAYMENT.—If there is an addition to tax for failure to pay timely assessed with respect to any installment required under this subsection, a liquidation or sale of substantially all the assets of the taxpayer (including in a title 11 or similar case), cessation of business by the taxpayer, or any similar circumstance, then the unpaid portion of all remaining installments shall be due on the date of such event (or in the case of a title 11 or similar case, the day before the petition is filed).

"'(4) PREPAYMENT OF DEFICIENCY TO INSTALLMENTS.—If an election is made under paragraph (1) to pay the net tax liability described in paragraph (1) in installments and a deficiency has been assessed which increases such net tax liability, the increase shall not be prorated to an installment payable under paragraph (1). The part of the increase so prorated to any installment the date for payment of which has not arrived shall be paid on the due date (determined without regard to any extension of time for filing the return) for the taxable year of, such installment. The part of the increase so prorated to any installment the date for payment of which has arrived shall be paid upon notice and demand from the Secretary. This subsection shall not apply if the deficiency is due to negligence, to intentional disregard of rules and regulations, or to fraud with intent to evade tax.

"'(5) TIME FOR PAYMENT OF INTEREST.—Interest payable under section 6661 on the unpaid portion of any amount of tax the time for payment of which is extended under this subsection shall be paid annually at the same time as, and as part of, each installment payment of such tax. In the case of a title 11 or similar case to which paragraphs (4) and (5) apply, interest with respect to such deficiency which is assigned under the preceding sentence to
any installment the date for payment of which has arrived on or before the date of the assessment of the deficiency, shall be paid upon notice and demand from the Secretary.

"(6) NET TAX LIABILITY FOR DERIVED SUBPART F INCLUSIONS.—For purposes of this subsection—

"(A) IN GENERAL.—The net tax liability described in paragraph (1) with respect to any United States shareholder for any taxable year is the excess (if any) of—

"(i) such shareholder’s net income tax for the taxable year, over

"(ii) such taxpayer’s net income tax for such taxable year determined as if the elections under subsection (b)(2) with respect to foreign corporations which were noncontrolled foreign corporations in the earlier taxable year for which made and shall be made in the same calendar year as the taxable year of the controlled foreign corporation begins.

"(B) ELECTIONS.—Any election under subsection (a), (b)(2), or (d)(1) shall be made not later than the due date (including extensions of time for making the return) of the return for the taxable year for which made and shall be in such manner as the Secretary may provide.

"(2) TO APPLY TO NONCONTROLLED SUBSECTION 952 CORPORATIONS TREATED AS FCPS.—No election may be made under subsection (a)(3) with respect to a foreign corporation which was a noncontrolled foreign corporation in the earlier taxable year for which made and shall be made in the same manner as under subsection (a).

"(3) PRO RATA SHARE.—A shareholder’s pro rata share of any earnings and profits shall be determined in the same manner as under section 963(a)(2).

(b) LOW-TAXED INCOME.—Section 952 is amended by adding at the end the following new subsection:

"(q) LOW-TAXED INCOME.—(1) IN GENERAL.—For purposes of paragraphs (1) and (2), the term ‘low-taxed income’ means income which would have been imposed on such income without regard to such losses.

"(c) CONFORMING AMENDMENTS.—(1) Subsection (a) of section 952 is amended—

"(A) by striking paragraph (4) in the last sentence and inserting paragraph (6), and

"(B) by striking paragraph (5) in the last sentence and inserting paragraph (6).

"(2) Subsection (d) of section 952 is amended by inserting ‘subsection (a)(6)’ and inserting ‘subsection (a)(6)’.

"(3) Paragraphs (1) and (2) of section 999(c) are each amended by striking ‘section 952(a)(3)’ and inserting ‘section 952(a)(4)’.

"(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years of foreign corporations beginning after December 31, 2012, and to taxable years of United States shareholders with or within which such taxable years of foreign corporations end.

(a) IN GENERAL.—Section 954(c)(6)(C) is amended by striking “and before January 1, 2012,” and

"(b) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years of foreign corporations beginning after December 31, 2011, and to taxable years of United States shareholders with or within which such taxable years of foreign corporations end.

SEC. 203. PERMANENT EXTENSION OF EXCEPTIONS FOR ACTIVE FINANCING INCOME.

(a) EXCEPTION FROM INSURANCE INCOME.—Section 955(e)(10) is amended—

"(1) by striking “and before January 1, 2012,”, and

"(2) by striking the last sentence.

"(b) EXCEPTION FROM FOREIGN PERSONAL HOLDING COMPANY INCOME.—Section 954(b)(9) is amended by striking “and before January 1, 2012,”.

"(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years of foreign corporations beginning after December 31, 2011, and to taxable years of United States shareholders with or within which such taxable years of foreign corporations end.

SEC. 204. FOREIGN BASE COMPANY INCOME NOT TO INCLUDE SALES OR SERVICES INCOME.

(a) REPEAL.—Paragraphs (2) and (3) of section 954(a) are repealed.

(b) CONFORMING AMENDMENTS.—(1) Section 954(d) is amended by adding at the end the following new paragraph:

"(5) TERMINATION.—This subsection shall not apply to taxable years of foreign corporations beginning after December 31, 2012, and to taxable years of United States shareholders with or within which such taxable years of foreign corporations end.

"(2) Section 954(e) is amended by adding at the end the following new paragraph:

"(3) TERMINATION.—This subsection shall not apply to taxable years of foreign corporations beginning after December 31, 2012, and to taxable years of United States shareholders with or within which such taxable years of foreign corporations end.

"(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years of foreign corporations beginning after December 31, 2012, and to taxable years of United States shareholders with or within which such taxable years of foreign corporations end.
SEC. 211. MODIFICATION OF APPLICATION OF SECTIONS 902 AND 960 WITH RESPECT TO POST-2012 EARNINGS.

(a) Section 902 NOT TO APPLY TO DIVIDENDS FROM POST-2012 EARNINGS.—Section 902 is amended by redesignating subsection (d) as subsection (e), redesignating subsection (e) as subsection (f), and redesignating subsection (f) as subsection (g) after subsection (c) the following new subsection:

"(d) NOT TO APPLY TO DIVIDENDS FROM POST-2012 EARNINGS.—(1) IN GENERAL.—This section shall not apply to the portion of any dividend paid by a foreign corporation to the extent such portion is attributable to post-2012 earnings of the foreign corporation. 

(2) EARNINGS AND PROFITS.—For purposes of this subsection—

(A) EARNINGS AND PROFITS.—The term "earnings and profits" means—

(i) The sum of the income, war profits, and excess profits taxes paid or accrued by the controlled foreign corporation to the extent such portion of the income, war profits, and excess profits taxes is attributable to post-2012 earnings of such controlled foreign corporation; and

(ii) The sum of any income, war profits, and excess profits taxes paid or accrued by the controlled foreign corporation to the extent such portion of the income, war profits, and excess profits taxes is attributable to adjustments of a type described in section 983-(1) for purposes of this subsection.

(B) DEEMED PAID CREDIT FOR SUBPART F INCOME.—The credit for the subpart F income of a foreign corporation described in section 904(d)(1) shall be treated as deemed paid as such portion is attributable to post-2012 earnings of such controlled foreign corporation.

(3) APPLICABILITY.—For purposes of this subsection—

(A) IN GENERAL.—The term "foreign intangible income" has the meaning such term has under section 250(c).

(B) COORDINATION.—Passive category income and general category income shall not include foreign intangible income.

(2) GENERAL CATEGORIZATION.—Section 904(d)(2)(A)(ii) is amended by inserting "or foreign intangible income" after "passive category income".

(C) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to taxable years beginning after December 31, 2012.

(2) TRANSITIONAL RULE.—For purposes of section 904(d)(1) of the Internal Revenue Code of 1986 (as amended by this Act)—

(A) taxes carried from any taxable year beginning before January 1, 2013, to any taxable year beginning on or after such date, with respect to any item of income, shall be treated as described in the subparagraph of such section 904(d)(1) in which such income would be described without regard to the amendments made by this section, and

(B) any carryback of taxes with respect to foreign intangible income from a taxable year beginning on or after January 1, 2013, to a taxable year before such date shall be allocated to the general income category.

SEC. 212. ACCELERATION OF ELECTION TO ALLOW FOREIGN TAX CREDIT.

Section 966 is amended by striking "December 31, 2020" and inserting "December 31, 2020".

Subtitle C—Allocation of Interest on Worldwide Basis

SEC. 221. ACCELERATION OF SECTION 221 TO ALLOW INTEREST ON A WORLDWIDE BASIS.

Section 966(f)(6) is amended by striking "December 31, 2020" and inserting "December 31, 2021".

By Mr. WYDEN: S. 908. A bill to support statewide individual-level integrated postsecondary education data systems, and for other purposes; to the Committee on Health, Education, Labor, and Pension.

Mr. WYDEN. Mr. President, when we went to college, usually things were different. Often a student took out a loan, but those loans were manageable, and usually there were jobs waiting. Today, too often that is not the case. In fact, the students today who take out loans school weighed down, on average, with $25,000 worth of debt. They are going to be trying to get into a labor market where there are more than four unemployed Americans for every available job.

It has been noted that for the first time student loan debt exceeds credit card debt, and that now totals over $100 billion. Now, clearly, investment in education is the linchpin to our economic future. In every major economic decision our people make, they try to evaluate the value of that decision. Like prospective borrowers who assess the potential value of their future home, in my view future students should be able to comparison shop and choose a school and a program based on what their return on investment will be.

Our capital markets work best when we can accurately measure the value of the things we choose to invest in. We saw what happens when this is not the case when the housing bubble burst, and our economy is still struggling to recover from that.

In many instances, consumers who didn't have all the facts bought a product based on misleading information and fell victim to predatory lenders looking to make a profit off that growing bubble.

Consumers must know what they can expect from their investments, and students are entitled to know the value of their education before they go out and borrow tens of thousands of dollars from the banks and from the government to finance their choices. Right now, consumers don't have this information, though the information exists. It is unavailable to students and families. Often, families are making perhaps the most important decisions that affect their future—both their financial future and their career.

That is why today I am introducing the Student Right to Know Before You Go Act, which would help college students get the information they need about their education. This proposal would ensure that future students and their families can make well-informed decisions by having access to information about the expected average annual earnings after graduation; rates of remedial enrollment, credit accumulation, and graduation; the average cost, both before and after financial aid, of the program, and average debt upon graduation; and, finally, the effects of remedial education and financial aid on credential attainment and a greater understanding of what student success can mean.

For markets to work, there has to be good information available, and until now it has been extremely hard for students and families to collect this data in a cost-effective way while at the same time ensuring student privacy. However, the States have seen so often—the President of the Senate and I have talked about this from time to time—the States have piloted their own programs and proved that the technology exists to enable our students to get this information in a way that students and consumers can use while at the same time protecting their privacy.
This technology, in my view, makes it possible to ensure a return on their investment for students, for parents, for policymakers, and taxpayers. It is going to help us create a workforce that meets the demands of the business that employ it and ensures that our workforce can successfully compete in the global economy.

One last point, if I might. I think it is clear that access to higher education is an integral part of the step ladder to success and particularly success for the middle class. We have built this country. Chairman HARKIN, of course, the chairman of our committee who deals with these issues, has probably done more than any other Member in the Senate to put a focus on this issue and how important it is to grow the middle class and address the big concerns they have faced.

Middle-class people haven’t had a pay raise in a full decade. It seems to me as part of the agenda—and Chairman HARKIN has had some excellent hearings on these higher education issues—one of the best ways we can come together on a bipartisan basis is to empower students and empower families to be in the best possible position to make the college choices that are going to pay off in the years ahead.

That is what this legislation, the Right to Know Before You Go Act, would do. I hope my colleagues will consider it in the days ahead.

**SUBMITTED RESOLUTIONS**

**SENATE RESOLUTION 370—CALLING FOR DEMOCRATIC CHANGE IN SYRIA**

Mr. CASEY (for himself, Mr. RUHIO, Mrs. GILLIBRAND, Mrs. BOXER, Mr. ISAKSON, Mr. DURBIN, and Mr. KYL) submitted the following resolution; which was referred to the Committee on Foreign Relations:

Whereas, in March 2011, peaceful demonstrations in Syria began against the authoritarian rule of Bashar al-Assad.

Whereas, in response to the demonstrations, the Government of Syria launched a brutal crackdown, which has resulted in gross human rights violations, use of force against civilians, torture, extrajudicial killings, arbitrary executions, sexual violence, and interference with access to medical treatment.

Whereas, the United Nations estimated that, as of January 25, 2012, more than 5,400 people in Syria had been killed since the violence began in March 2011.

Whereas, on August 18, 2011, President Barack Obama called upon President Bashar al-Assad to step down from power.

Whereas the Department of State has repeatedly condemned the Government of Syria’s crackdown on its people, including on January 30, 2012, when Secretary of State Hillary Clinton stated “The status quo is unsustainable. . . . The longer the Assad regime continues its attacks on the Syrian people and stands in the way of a peaceful transition, the greater the concern that instability will spread and spill over throughout the region.”.

Whereas President Obama, on April 29, 2011, designated 3 individuals subject to sanctions for human rights abuses in Syria: Mahir al-Assad, the brother of Syrian President Bashar al-Assad and brigade commander in the Syrian Army’s 4th Armored Division; Atif Najib, the former head of the Political Security Directorate for Daraa Province and a cousin of Bashar al-Assad; and Ali Mamluk, director of Syria’s General Intelligence Directorate.

Whereas, on May 18, 2011, President Obama issued an executive order sanctioning senior officials of the Syrian Arab Republic and visa bans on members of the Government of Syria, designating seven people: President Bashar al-Assad, Vice President Farouk al-Shara, Prime Minister Adel Safar, Minister of the Interior Mohammed Daboul, Minister of Defense Ali Habib Mahmoud, Head of Syrian Military Intelligence Abdul Fatah Qudsiya, and Director of Political Security Directorate Mohammad Dib Zaitoun.

Whereas, on August 17, 2011, issued Executive Order 13582, blocking property of the Government of Syria and prohibiting certain transactions with respect to Syria.

Whereas, on December 1, 2011, the Department of the Treasury designated two individuals, Asif Aslan and Muhammad Makhluf, under Executive Order 13582, and two entities, the Military Housing Establishment and the Real Estate Bank of Syria, under Executive Order 13582.

Whereas, on May 6, 2011, the European Union’s 27 countries imposed sanctions on the Government of Syria for the human rights abuses, including asset freezes and visa bans on members of the Government of Syria and an arms embargo on the country.

Whereas, on November 12, 2011, the League of Arab States voted to suspend Syria’s membership in the organization.

Whereas, on December 2, 2011, the United Nations Human Rights Council passed Resolution S-18/1, which recalls General Assembly Resolution 52/184 December 19, 2011, as well as Human Rights Council resolutions S-16/1, S-17/1 and S-18/1, and further deplores the human rights situation in Syria, condemns the League of Arab States, and supports implementation of its Plan of Action.

Whereas the League of Arab States approved and implemented a plan of action to send a team of international monitors to Syria, which led December 28, 2011.

Whereas, on January 28, 2012, the League of Arab States decided to suspend its international monitoring mission due to escalating violence within Syria.

Whereas the Governments of the Russian Federation and the Islamic Republic of Iran remain major suppliers of military equipment to the Government of Syria notwithstanding that government’s violent repression of demonstrators; and

Whereas, the United Nations General Assembly adopted a resolution on September 27, 2011, calling on member states to transmit reports on abuses inside the country; and

Whereas the Department of State has repeatedly condemned the Governments of the Russian Federation and the Islamic Republic of Iran for providing military and se-
WHEREAS the school-counselor position is emerging as a high-impact, high-pay, high-status profession intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table.

SA 1513. Mr. BARRASSO submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table.

SA 1514. Mr. BINGAMAN submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table.

S. RES. 371

WHEREAS the American School Counselor Association has designated the week of February 6 through 10, 2012, as “National School Counseling Week”;

WHEREAS the importance of school counseling has been recognized through the inclusion of elementary- and secondary-school counseling programs in amendments to the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.);

WHEREAS school counselors have long advocated that the education system of the United States must provide equitable opportunities for all students;

WHEREAS personal and social growth results in increased academic achievement;

WHEREAS school counselors help develop well-rounded students by guiding the students through academic, personal, social, and career development;

WHEREAS school counselors assist with and coordinate efforts to foster a positive school culture resulting in a safer learning environment for all students;

WHEREAS school counselors have been instrumental in helping students, teachers, and parents deal with personal trauma as well as tragedies in the community and the United States;

WHEREAS students face myriad challenges every day, including peer pressure, depression, the deployment of family members to serve in conflicts overseas, and school violence;

WHEREAS school counselors are one of the few professionals in a school building who are trained in both academic, personal, social, and career development;

WHEREAS the school-counselor position is often eliminated to be eliminated to meet budgetary constraints;

WHEREAS the national average ratio of students to school counselors of 459 to 1 is almost twice that of the ratio of 250 to 1 recommended by the American School Counselor Association, the American Counseling Association, the National Association for College Admission Counseling, and other organizations;

WHEREAS the celebration of National School Counseling Week would increase awareness of the important and necessary role school counselors play in the lives of students in the United States: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week of February 6 through 10, 2012, as “National School Counseling Week”;

(2) encourages the people of the United States to observe the week with appropriate ceremonies and activities that promote awareness of the role school counselors play in the school community at large in preparing students for fulfilling lives as contributing members of society.

AMENDMENTS SUBMITTED AND PROPOSED

SA 1513. Mr. BARRASSO submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table.

SA 1514. Mr. BINGAMAN submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

SA 1515. Mr. REID (for Mr. JOHNSON of South Dakota (for himself and Mr. SHELBY)) proposed an amendment to the bill S. 1813, supra.

SA 1516. Mr. McCAIN (for himself, Mr. CARPER, Mr. COATS, and Mr. UDALL of Colorado) submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

SA 1517. Mr. COATS (for himself and Mr. LUGAR) submitted an amendment intended to be proposed by him to the bill S. 1813, supra, which was ordered to lie on the table.

SA 1518. Mr. COATS submitted an amendment intended to be proposed by him to the bill S. 1813, supra, which was ordered to lie on the table.

SA 1519. Mr. COATS submitted an amendment intended to be proposed by him to the bill S. 1813, supra, which was ordered to lie on the table.

SA 1520. Mr. BLUNT (for himself, Mr. McCONNELL, Mr. JOHANNS, Mr. WICKER, Mr. HATCH, Ms. AYOTTE, Mr. RUBIO, Mr. NELSON of Nebraska, Mr. ROBERTS, Mr. McCAIN, Mr. KYL, Mr. COATS, Mr. BARRASSO, Mr. TOOMEY, Mr. LUGAR, Mr. CORNYN, Mr. BOOZMAN, Mr. PAUL, Mr. HOEVEN, and Mr. GRAHAM) submitted an amendment intended to be proposed by him to the bill S. 1813, supra, which was ordered to lie on the table.

SA 1521. Mr. WICKER (for himself and Mr. VITTER) submitted an amendment intended to be proposed by him to the bill S. 1813, supra, which was ordered to lie on the table.

SA 1522. Mr. NELSON of Nebraska (for himself and Ms. KLOBUCHAR) submitted an amendment intended to be proposed by him to the bill S. 1813, supra, which was ordered to lie on the table.

SA 1523. Mr. NELSON of Nebraska (for himself and Mr. JOHANNS) submitted an amendment intended to be proposed by him to the bill S. 1813, supra, which was ordered to lie on the table.

SA 1524. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, supra, which was ordered to lie on the table.

SA 1525. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

SA 1526. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

SA 1527. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

SA 1528. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

SA 1529. Mr. PAUL (for himself and Mr. DE MINT) submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

SA 1530. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

SA 1531. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

SA 1532. Mr. PAUL (for himself, Mr. VITTER, and Mr. ALEXANDER) submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

SA 1533. Mr. MENENDEZ (for himself, Mr. KENNEDY, Mr. DURBIN, and Mr. S. LATTENERBERG) submitted an amendment intended to be proposed by him to the bill S. 1813, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 1513. Mr. BARRASSO submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:

On page 354, line 14, strike the quotation mark and the following:

“(b) REDUCED REGULATORY BURDENS.—To reduce excessive regulatory burdens that hinder job growth, project and program delivery, and cost reductions.”.

SA 1514. Mr. BINGAMAN submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:

On page 45, between lines 16 and 17, insert the following:

“(c) FURTHER ADJUSTMENT FOR PRIVATIZED HIGHWAYS.—

“(i) DEFINITION OF PRIVATIZED HIGHWAY.—In this subparagraph, the term ‘privatized highway’ means a highway subject to an agreement giving a private entity—

“(1) control over the operation of the highway; and

“(2) ownership over the toll revenues collected from the operation of the highway.

“(ii) ADJUSTMENT.—After making the adjustments to the apportionment of a State under subparagraphs (A) and (B), the Secretary shall further adjust the amount to be apportioned to the State by reducing the apportionment by an amount equal to the product obtained by multiplying—

“(I) the amount to be apportioned to the State, as so adjusted under those subparagraphs; and

“(II) the percentage described in clause (iii).

“(iii) PERCENTAGE.—The percentage referred to in clause (ii) is the percentage equal to the sum obtained by adding—

“(I) the product obtained by multiplying—

“(aa) ½; and

“(bb) the proportion that—

“(AA) the total number of privatized lane miles of National Highway System routes in a State; bears to

“(BB) the total number of all lane miles of National Highway System routes in the State; and

“(II) the product obtained by multiplying—

“(aa) ½; and

“(bb) the proportion that—

“(AA) the total number of vehicle miles traveled on privatized lanes on National Highway System routes in the State; bears to

“(BB) the total number of vehicle miles traveled on all lanes on National Highway System routes in the State.”.”
SA 1515. Mr. REID (for Mr. Johnson of South Dakota (for himself and Mr. Shelby)) proposed an amendment to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; as follows:

At the end add the following:

DIVISION D—PUBLIC TRANSPORTATION

SEC. 40001. SHORT TITLE; TABLE OF CONTENTS.

(a) Short Title.—This division may be cited as the “21st Century Transportation Act of 2012”.

(b) Table of Contents.—The table of contents for this division is as follows:

33. Sec. 40033. TECHNICAL AND CONFORMING AMENDMENTS.

SEC. 40002. REPEALS.

(a) Chapter 53.—Chapter 53 of title 49, United States Code, is amended by striking sections 5316, 5317, 5321, 5324, 5329, and 5339.

(b) Transportation Equity Act for the 21st Century.—Section 3038 of the Transportation Equity Act for the 21st Century (49 U.S.C. 5310 note) is repealed.

(c) SAFETEA–LU.—The following provisions of title 49, United States Code, are amended as follows:

§ 5301. Policies, purposes, and goals

(a) Declaration of Policy.—It is in the interest of the United States, including the economic interest of the United States, to foster the development and revitalization of public transportation systems. (b) General Purposes.—The purposes of this chapter are to—

(1) provide funding to support public transportation;
(2) improve the development and delivery of capital projects;
(3) initiate a new framework for improving the safety of public transportation systems;
(4) establish standards for the state of good repair of public transportation infrastructure and vehicles;
(5) promote continuing, cooperative, and comprehensive planning that improves the performance of the transportation network;
(6) establish a technical assistance program to assist recipients under this chapter to more effectively and efficiently provide public transportation service;
(7) continue Federal support for public transportation providers to deliver high quality service to all users, including individuals with disabilities, seniors, and individuals who depend on public transportation;
(8) support research, development, demonstration, and deployment projects dedicated to assisting public transportation agencies to more effectively and efficiently provide public transportation service;
and
(9) promote the development of the public transportation workforce.

(c) National Goals.—The goals of this chapter are to—

(1) increase the availability and accessibility of public transportation across a balanced, multimodal transportation network;
(2) promote the environmental benefits of public transportation, including reduced reliance on fossil fuels, fewer hazardous emissions, and lower public health expenditures;
(3) improve the safety of public transportation systems;
(4) achieve and maintain a state of good repair of public transportation infrastructure and vehicles;
(5) provide an efficient and reliable alternative to congested roadways;
(6) increase the affordability of transportation for all users; and
(7) maximize economic development opportunities by—

(A) connecting workers to jobs;
(B) encouraging mixed-use, transit-oriented development;
(C) leveraging private investment and joint development.

SEC. 40004. DEFINITIONS.

Section 5302 of title 49, United States Code, is amended to read as follows:

§ 5302. Definitions

Except as otherwise specifically provided, in this chapter the following definitions apply:

(A) Associated transit improvement.—The term ‘associated transit improvement’ means, with respect to any project or an area to be served by a project, projects that are designed to enhance public transportation service or use and that are physically or functionally related to transit facilities. Eligible projects include—

(A) historic preservation, rehabilitation, and operation of historic public transportation buildings, structures, and facilities (including historic bus and railroad facilities) included for use in public transportation service;

(B) bus shelters;

(C) landscaping and streetscaping, including benches, trash receptacles, and streetlights;

(D) pedestrian access and walkways;

(E) bicycle access, including bicycle storage facilities and installing equipment for transporting bicycles on public transportation vehicles;

(F) signage;

(G) enhanced access for persons with disabilities to public transportation.

As used in this chapter, the term ‘bus rapid transit system’ means a bus transit system.

(A) In which the majority of each line operates in a dedicated right-of-way designated for public transportation use during peak periods;

(B) That includes features that emulate the services provided by rail fixed guideway public transportation systems, including—

(i) defined stations;

(ii) traffic signal priority for public transportation vehicles;

(iii) short headway bidirectional services for a substantial part of weekdays and weekend days; and

(iv) any other features the secretary may determine are necessary to produce high-quality public transportation services that emulate the services provided by rail fixed guideway public transportation systems;

(C) The term ‘capital project’ means a project for—

(A) acquiring, constructing, supervising, or operating a facility or a facility for use in public transportation, or expenses incidental to the acquisition or construction (including design, engineering, location surveying, mapping, and acquiring rights-of-way), payments for the capital portions of rail track right-of-way agreements, transit-related intelligent transportation systems, relocation assistance, acquiring replacement housing sites, and acquiring, constructing, relocating, and rehabilitating replacement housing;

(B) rehabilitating a bus;

(C) remanufacturing a bus;

(D) overhauling rail rolling stock;

(E) preventive maintenance;

(F) leasing equipment or a facility for use in public transportation, subject to regulations that the Secretary prescribes limiting the leasing arrangements to those that are more cost-effective than purchase or construction;

(G) a joint development improvement that—

(i) enhances economic development or incorporates private investment, such as commercial and residential development;

(ii) enhances the effectiveness of public transportation and is related physically or functionally to public transportation; or

(iii) establishes new or enhanced coordination between public transportation and other transportation services;

(iv) provides a fair share of revenue that will be used for public transportation;

(v) provides that a person making an agreement to occupy space in a facility constructed under this paragraph shall pay a fair share of the costs of the facility through rental payments and other means;

(vi) includes—

(I) property acquisition;

(II) demolition of existing structures;

(III) site preparation;

(IV) utilities;

(V) building foundations;

(VI) walkways;

(VII) pedestrian and bicycle access to a public transportation facility;

(VIII) construction, renovation, and improvement of intercity bus and intercity rail stations and terminals;

(IX) renovation of historic transportation facilities;

(X) open space;
“(X) safety and security equipment and facilities (including lighting, surveillance, and related intelligent transportation system applications);

“(XI) safety and security measures that incorporate community services such as daycare or health care;

“(XII) a capital project for, and improving, equipment or a facility for an intermodal freight facility or transportation mall; and

“(XIV) construction of space for commercial use; and

“(vii) does not include outfitting of commercial space (other than an intercity bus or rail station or terminal) or a part of a public facility not related to public transportation;

“(XV) that introduces the new technology, through innovative and improved products, into public transportation;

“(I) the provision of nonfixed route para

transit transportation services in accordance with section 229 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12134), but only for grant recipients that are in compliance with applicable requirements of that Act, including both fixed route and demand responsive service, and only for amounts not to exceed 10 percent of such recipient’s annual formula apportionment under sections 5307 and 5311;

“(J) establishing a debt service reserve, made up of deposits with a bondholder’s trustee, for the timely payment of principal and interest on bonds issued by a grant recipient to finance an eligible project under this chapter;

“(K) mobility management—

“(I) consisting of short-range planning and management activities and projects for improving coordination among public transportation and other transportation service providers, carried out by a recipient or subrecipient through an agreement entered into with a person, including a governmental entity, under this chapter (other than section 5307); but

“(ii) excluding operating public transportation services; or

“(L) associated capital maintenance, including—

“(i) equipment, tires, tubes, and material, each costing at least .5 percent of the current book value of the rolling stock for which the equipment, tires, tubes, and material are to be used; and

“(ii) construction of equipment and material, each of which after reconstruction will have a fair market value of at least .5 percent of the current fair market value of rolling stock comparable to the rolling stock for which the equipment and material will be used.

“(4) DESIGNATED RECIPIENT.—The term ‘designated recipient’ means—

“(A) an entity designated, in accordance with the planning process under sections 5303 and 5304, by the Governor of a State, responsible agency, or public or private organization designated by the Governor, to receive and apportion amounts under section 5336 to urbanized areas of 200,000 or more in population;

“(B) a State or regional authority, if the authority is responsible under the laws of a State for a capital project and for financing and operating the project; and

“(5) DISABILITY.—The term ‘disability’ has the same meaning as in section 3(1) of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102).

“(6) EMERGENCY REGULATION.—The term ‘emergency regulation’ means a regulation—

“(A) that is effective temporarily before the expiration of the specified period of time for public notice and comment under section 5334(c); and

“(B) prescribed by the Secretary as the result of a finding that a delay in the effective date of the regulation—

“(i) would injure seriously an important public interest; or

“(ii) would frustrate substantially legislatively intent or policy; or

“(iii) would damage seriously a person or class without serving an important public interest.

“(7) FIXED GUIDEWAY.—The term ‘fixed guideway’ means a public transportation facility—

“(A) using and occupying a separate right-of-way for the exclusive use of public transportation;

“(B) using rail;

“(C) using a fixed catenary system;

“(D) for a passenger ferry system; or

“(E) for a bus rapid transit system.

“(8) GOVERNOR.—The term ‘Governor’ means—

“(A) the Governor of a State, the mayor of any city in a State, the chief executive officer of a territory of the United States; and

“(B) the designee of the Governor.

“(9) LOCAL GOVERNMENTAL AUTHORITY.—The term ‘local governmental authority’ includes—

“(A) a political subdivision of a State;

“(B) an authority of at least 1 State or political subdivision of a State;

“(C) an Indian tribe; and

“(D) a public corporation, board, or commission established under the laws of a State.

“(10) LOW-INCOME INDIVIDUAL.—The term ‘low-income individual’ means an individual whose family income is at or below 150 percent of the poverty line, as that term is defined in section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2)), including individuals residing by that section, for a family of the size involved.

“(11) NET PROJECT COST.—The term ‘net project cost’ means the part of a project that reasonably cannot be financed from revenues.

“(12) NEW BUS MODEL.—The term ‘new bus model’ means a bus model (including a model using alternative fuel) that has not been used in public transportation in the United States before the date of production of the model; or

“(B) used by a public transportation provider in the United States, but being produced with a major change in configuration or components identified in subsection (h) of this section.

“(13) PUBLIC TRANSPORTATION.—The term ‘public transportation’—

“(A) means regular, continuing shared-ride surface transportation services that are open to the general public or open to a segment of the general public defined by age, disability, or low income; and

“(B) includes—

“(i) intercity passenger rail transportation provided by the entity described in chapter 243 (or a successor to such entity);

“(ii) intercity bus service;

“(iii) charter bus service;

“(iv) school bus service;

“(v) sightseeing service;

“(vi) courtesy shuttle service for patrons of one or more specific establishments; or

“(vii) intra-terminal or intra-facility shuttle services.

“(14) REGULATION.—The term ‘regulation’ means any part of a statement of general or particular applicability of the Secretary designated to carry out, interpret, or prescribe law or regulations, or portions of this chapter that are required by this Act.

“(15) SECRETARY.—The term ‘Secretary’ means the Secretary of Transportation.

“(16) SENIOR.—The term ‘senior’ means an individual who is 60 years of age or older.

“(17) STATE.—The term ‘State’ means a State of the United States, the District of Columbia, Puerto Rico, the Northern Marianas Islands, Guam, American Samoa, and the Virgin Islands.

“(18) STATE OF GOOD REPAIR.—The term ‘state of good repair’ has the meaning given that term by the Secretary, by rule, under section 5326(b).

“(19) TRANSIT.—The term ‘transit’ means public transportation.

“(20) URBAN AREA.—The term ‘urban area’ means an area that includes a municipality or other public jurisdiction or facility, but is later redesignated as a ‘urbanized area’ by the Secretary of Commerce.”.

SEC. 40005. METROPOLITAN TRANSPORTATION PLANNING.

(a) IN GENERAL.—Section 5303 of title 49, United States Code, is amended as follows:

“(i) Metropolitan transportation planning

SEC. 40004. METROPOLITAN PLANNING ORGANIZATIONS.

SEC. 40006. METROPOLITAN TRANSPORTATION PLANNING.

SEC. 40007. METROPOLITAN-plANNING ORGANIZATIONS.
means a metropolitan planning organization designated as a tier I MPO under subsection (i).

"(17) URBANIZED AREA.—The term ‘urbanized area’ or ‘urban area’ shall include a metropolitan area with a population of 50,000 or more individuals, as calculated according to the most recent decennial census.

"(18) DESIGNATION OF METROPOLITAN PLANNING ORGANIZATIONS.—

"(1) IN GENERAL.—To carry out the metropolitan transportation planning process under this section, a metropolitan planning organization shall be designated for each urbanized area with a population of 200,000 or more individuals, as calculated according to the most recent decennial census.

"(A) by agreement between the applicable Governor and local officials that, in the aggregate, represent at least 75 percent of the affected population (including the largest incorporated city (based on population), as calculated according to the most recent decennial census); or

"(B) in accordance with procedures established by applicable State or local law.

"(2) SMALL URBANIZED AREAS.—To carry out the metropolitan transportation planning process under this section, a metropolitan planning organization shall consist of—

"(A) the applicable Governor and local officials that, in the aggregate, represent at least 75 percent of the affected population (including the largest incorporated city (based on population), as calculated according to the most recent decennial census); and

"(B) with the consent of the Secretary, the following entities:

"(i) a public agency with multimodal transportation responsibilities;

"(ii) any public agency that administers or operates major modes of transportation in the relevant metropolitan area;

"(iii) notable community stakeholders;

"(iv) any public entity or combination of public entities that administers or operates major modes of transportation in the relevant metropolitan area.

"(3) STRUCTURE.—Not later than 1 year after the date of enactment of the Federal Public Transportation Act of 2012, a metropolitan planning organization shall consist of—

"(A) the applicable Governor;

"(B) the applicable State or local government; and

"(C) State or local agencies or authorities.

"(4) EFFECT OF SUBSECTION.—Nothing in this subsection interferes with any authority vested in the Secretary under this Act.

"(5) COMMISSIONER.—The term ‘Commissioner’ means—

"(A) the Secretary of Transportation;

"(B) in the case of a metropolitan planning organization under this Act, an individual designated by the Governor of the State in which the metropolitan planning area is located; and

"(B) the Secretary determines that the existing MPO has met the minimum requirements under the rule issued under subsection (e)(4)(B)(i), the Secretary shall designate the existing MPO as a tier II MPO.

"(6) REDESIGNATION.—

"(A) IN GENERAL.—The designation of a metropolitan planning organization under this subsection shall remain in effect until the date on which the existing MPO is redesignated under paragraph (6) unless—

"(i) the applicable Governor requests that its planning responsibilities be transferred to the applicable metropolitan planning organization designated by the State; or

"(ii) the applicable Governor determines that the existing MPO has failed to meet the minimum requirements under the rule issued under subsection (e)(4)(B)(i), the Secretary shall redesignate the existing MPO as a tier II MPO.

"(7) DESIGNATION OF MULTIPLE MPoS.—

"(A) IN GENERAL.—More than 1 metropolitan planning organization may be designated for any urbanized area.

"(B) EFFECT.—The designation of a metropolitan planning organization for any urbanized area shall be effective only if the applicable Governor and an existing MPO determine that the size and complexity of the existing metropolitan planning area make the designation of a new metropolitan planning organization for the metropolitan planning area appropriate.

"(8) SERVICE JURISDICTIONS.—If more than 1 metropolitan planning organization is designated for an existing metropolitan planning area, the jurisdiction of the resulting metropolitan planning organization shall be determined by agreement between the applicable metropolitan planning organization and the Governor of the State in which the metropolitan planning area is located.

"(9) METROPOLITAN PLANNING AREA BOUNDARIES.—

"(1) IN GENERAL.—For purposes of this section, the boundaries of a metropolitan planning area shall be determined by agreement between the applicable metropolitan planning organization and the Governor of the State in which the metropolitan planning area is located.

"(2) INCLUDED AREA.—Each metropolitan planning area—

"(a) shall encompass at least the relevant existing urbanized area and any contiguous area expected to become urbanized within a 20-year forecast period under the applicable metropolitan planning organization; and

"(b) may encompass the entire relevant metropolitan statistical area, as defined by the Office of Management and Budget.
the boundaries of an existing metropolitan planning area shall not require the redesignation of the relevant existing MPO.

(4) NONATTAINMENT AND MAINTENANCE AREAS.—

"(A) EXISTING METROPOLITAN PLANNING AREAS.—

"(i) IN GENERAL.—Except as provided in clause (ii), notwithstanding paragraph (2), in the case of an urbanized area designated as a nonattainment area or maintenance area as of the date of enactment of the Federal Public Transportation Act of 2012, the boundaries of the existing metropolitan planning area as of that date of enactment shall remain in force and effect.

"(ii) EXCEPTION.—Notwithstanding clause (i), the boundaries of an existing metropolitan planning area described in that clause may be modified by agreement of the applicable Governor and the affected metropolitan planning organizations in accordance with subsection (c)(7).

"(B) NEW METROPOLITAN PLANNING AREAS.—

In the case of an urbanized area designated as a nonattainment area or maintenance area after the date of enactment of the Federal Public Transportation Act of 2012, the boundaries of the applicable metropolitan planning area—

"(i) shall be established in accordance with subsection (d);

"(ii) shall encompass the areas described in paragraph (2)(A);

"(iii) may encompass the areas described in paragraph (2)(B); and

"(iv) may address any appropriate nonattainment area or maintenance area.

(5) REQUIREMENTS.—

"(A) CONTENTS.—The metropolitan transportation plans and transportation improvement programs for metropolitan planning areas that provide for the development and integrated management and operation of transportation systems and facilities (including access) that serve public transportation facilities, and intermodal facilities that support intercity transportation) that will function as—

"(i) transportation facilities, and intermodal transportation systems and facilities (including high-speed and intercity rail corridor studies, commuter rail corridor studies, intermodal terminals, and interstate highways in support of freight, intercity, or multistate area projects and services that have been developed pursuant to interstate compacts or agreements, or by organizations established under section 5304.

"(B) METROPOLITAN AREAS.—

"(1) IN GENERAL.—Not later than 1 year after the date of enactment of the Federal Public Transportation Act of 2012, the Secretary shall issue a rule that establishes the minimum technical requirements necessary for a metropolitan planning organization to be designated as a tier I MPO, including, at a minimum, modeling, data, staffing, and other technical requirements.

"(2) TRANSPORTATION IMPROVEMENTS LOCATED IN MULTIPLE METROPOLITAN PLANNING AREAS.—

If more than 1 metropolitan planning organization has authority within a metropolitan area, nonattainment area, or maintenance area, each metropolitan planning organization shall consult with all other metropolitan planning organizations designated for the metropolitan area, nonattainment area, or maintenance area and the appropriate metropolitan planning organizations to provide coordinated transportation planning for the entire designated transportation corridor.

"(3) COORDINATION WITH INTERSTATE COMPACTS.—

The Secretary shall encourage metropolitan planning organizations to take into consideration and, if appropriate, consolidate in order to meet the population thresholds required to achieve designation as a tier I or tier II MPO under this paragraph.

"(4) RELATIONSHIP WITH OTHER PLANNING ORGANIZATIONS.—

"(A) IN GENERAL.—A metropolitan planning organization that is located in reasonably close proximity to another metropolitan planning organization shall coordinate with that metropolitan planning organization with respect to planning processes, to the maximum extent practicable.

"(B) NONMETROPOLITAN PLANNING ORGANIZATIONS.—A metropolitan planning organization that is adjacent or located in reasonably close proximity to another metropolitan planning organization that is located in a tier I or tier II MPO shall coordinate with that metropolitan planning organization with respect to planning processes, to the maximum extent practicable.
February 9, 2012

CONGRESSIONAL RECORD — SENATE

S509

“(A) IN GENERAL.—The Secretary shall encourage each metropolitan planning organization to cooperate with Federal, State, tribal, and local officers and entities responsible for obtaining and using data about transportation in the region, to the extent practicable, to ensure that the metropolitan transportation planning process and metropolitan transportation plans and transportation improvement programs are developed in cooperation with other related planning activities in the area.

“(B) INCLUSION.—Cooperation under subparagraph (A) shall include the design and delivery of transportation services within the metropolitan area that are provided by—

(i) recipients of assistance under sections 202, 203, and 204 of title 23;

(ii) recipients of assistance under this title;

(iii) government agencies and nonprofit organizations (including representatives of the agencies and organizations) that receive Federal assistance from a source other than the Department of Transportation to provide nonemergency transportation services; and

(iv) sponsors of regionally significant programs, projects, and services that are related to transportation and receive assistance from a public or private source.

“(C) TIMING.—Each metropolitan planning organization shall establish or adopt the performance targets under paragraph (B) not later than 90 days after the date on which the relevant State or provider of public transportation establishes the performance targets.

“(D) INTEGRATION OF OTHER PERFORMANCE-BASED PLANS.—A metropolitan planning organization shall integrate in the metropolitan transportation plans and transportation improvement programs with other relevant federally required planning programs.

“(E) SCOPE OF PLANNING PROCESS.—(i) IN GENERAL.—The metropolitan transportation planning process for a metropolitan planning area under this section shall provide for coordination of projects and strategies that will—

(A) support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;

(B) increase the safety of the transportation system for motorized and nonmotorized users;

(C) increase the security of the transportation system for motorized and nonmotorized users;

(D) enhance the accessibility and mobility of individuals and freight;

(E) protect and enhance the environment, promote energy conservation, improve the quality of life, and promote public safety and health by improving the efficiency of transportation services and making the transportation system more efficient; and

(F) achieve an integrated and connectivity of the transportation system, across and between modes, for individuals and freight;

(G) increase efficient system management and operation; and

(H) emphasize the preservation of the existing transportation system.

“(2) PERFORMANCE-BASED APPROACH.—

(A) IN GENERAL.—The metropolitan transportation planning process shall provide for the establishment and use of a performance-based approach to transportation decision making to support the national goals described in section 5301(c) of this title and in section 150(b) of title 23.

(B) CONTENTS OF PERFORMANCE TARGETS.—Each metropolitan planning organization shall establish a participation plan for—

(i) that the metropolitan transportation plan and transportation improvement program be consistent with the development of the metropolitan transportation plan and transportation improvement program, as established in the aggregate, function as an integrated metropolitan transportation system;

(ii) make public information available in an easily accessible format and means, such as the Internet, to afford reasonable opportunity for consideration of public information under subparagraph (A), and

(iii) ensure that the metropolitan transportation plan and transportation improvement program is operating within any attainment area; and

(iv) have a term of not less than 20 years; and

(C) CONTAIN, at a minimum—

(i) an identification of the existing transportation infrastructure, including highways, local streets and roads, bicycle and pedestrian facilities, public transportation facilities, and commuter rail facilities; and

(ii) a system performance report evaluating the existing and future condition and performance of the transportation system.
with respect to the performance targets described in subsection (h)(2) and updates in subsequent system performance reports, including—

(2) progress achieved by the metropolitan planning organization in meeting the performance targets in comparison with system performance recorded in previous reports;

(3) of the performance of the metropolitan planning organization on outlay of obligated project funds and delivery of projects that have reached substantial completion in relation to—

(aa) the projects included in the transportation improvement program; and

(bb) all projects that have been removed from the previous transportation improvement program; and

(c) when appropriate, an analysis of how the projected scenarios have improved the conditions and performance of the transportation system and how changes in local policies, investments, and growth have impacted the costs necessary to achieve the identified performance targets:

(v) recommended strategies and investments for improving system performance over the planning horizon, including transportation systems management and operations strategies, maintenance strategies, demand management strategies, asset management strategies, travel demand management strategies, and multimodal investments, State and local economic development and land use improvements, intelligent transportation systems deployment, and adoption of new technologies as determined by the project support of the performance targets described in subsection (h)(2);

(vi) recommended strategies and investments to improve and integrate disability-related access to transportation infrastructure, including strategies and investments based on a preferred scenario, when appropriate:

(vii) investment priorities for projects proposed available and proposed revenues over the short- and long-term stages of the planning horizon, in accordance with the financial plan required under paragraph (4);

(bb) a description of projects contained in the illustrative list of projects recommended in subsection (h)(2) and updates in with respect to the performance targets identified in subsection (h)(2), scenarios developed under this paragraph may be evaluated using locally developed metrics for the following categories:

(i) Congestion and mobility, including transportation use by mode.

(ii) Freight movement.

(iii) Safety.

(iv) Efficiency and costs to taxpayers.

(4) FINANCIAL PLAN.—A financial plan referred to in paragraph (2)(C)(vii) shall—

(A) be prepared by each metropolitan planning organization to support the metropolitan transportation plan; and

(B) contain a description of—

(i) the projected resource requirements for implementing projects, strategies, and services recommended in the metropolitan transportation plan, including existing and projected system operating and maintenance expenses, projected available resource, projected cash flow to the system, and projected available revenue from Federal, State, local, and private sources, and innovative financing techniques to finance projects and programs; and

(ii) the projected difference between costs and revenues, and strategies for securing additional new revenue (such as by capture of some of the economic value created by any new investment);

(iii) estimates of future funds, to be developed cooperatively for the metropolitan planning organization, any public transportation agency, and the State, that are reasonably expected to be available to support the investment priorities recommended in the metropolitan transportation plan; and

(iv) may include estimated costs and potential revenues available to support each scenario.

(C) MIRRORS.—In addition to the performance targets identified in subsection (h)(2), scenarios developed under this paragraph may be evaluated using locally developed metrics for the following categories:

(i) Congestion and mobility, including transportation use by mode.

(ii) Freight movement.

(iii) Safety.

(iv) Efficiency and costs to taxpayers.

(5) OPPORTUNITY FOR PARTICIPATION.—In developing the transportation improvement program, the metropolitan planning organization, in cooperation with the State and any affected public transportation operator, shall provide an opportunity for participation by interested parties, in accordance with subsection (h)(4).

(6) COORDINATION WITH CLEAN AIR ACT AGENCIES.—The metropolitan planning organization for any metropolitan area that is a nonattainment area or maintenance area shall coordinate the development of a transportation improvement program with development of the transportation control measures of the State implementation plan required by the Clean Air Act (42 U.S.C. 7401 et seq.).

(7) CONSULTATION.—

(A) IN GENERAL.—In each metropolitan area, the metropolitan planning organization shall consult, as appropriate, with Federal, State, tribal, and local agencies responsible for land use management, natural resources, environmental protection, conservation, and historic preservation concerning the development of a metropolitan transportation plan.

(B) ISSUES.—The consultation under subparagraph (A) shall involve, as available, consideration of—

(i) metropolitan transportation plans with Federal, State, tribal, and local concerns or instruments or organizations, or inventories of natural or historic resources.

(ii) the projects included in the illustrative list of projects recommended in subsection (h)(2) and updates in with respect to the performance targets identified in subsection (h)(2), scenarios developed under this paragraph may be evaluated using locally developed metrics for the following categories:

(i) Congestion and mobility, including transportation use by mode.

(ii) Freight movement.

(iii) Safety.

(iv) Efficiency and costs to taxpayers.
shall include, to the maximum extent practicable, a description of the anticipated effect of the transportation improvement program on attainment of the performance targets established in the metropolitan transportation plan, linking investment priorities to those performance targets.

(D) ILLUSTRATIVE LIST OF PROJECTS. An illustrative list of projects, within the transit improvement program, an optional illustrative list of projects may be prepared containing additional investment priorities that—

(ii) would so included if resources in addition to the resources identified in the financial plan under paragraph (b) were available.

(3) FINANCIAL PLAN.—A financial plan referred to in paragraph (2)(D)(i) shall—

(A) be prepared by each metropolitan planning organization to support the transportation improvement program; and

(B) contain a description of—

(i) the project and/or programs for implementing projects, strategies, and services recommended in the transportation improvement program, including existing and projected system operating and maintenance needs, proposed enhancements and expansions to the system, projected available revenues and funding under this Act, and other sources of revenue from Federal, State, local, and private sources; and

(ii) the projected costs and revenues, and strategies for securing additional new revenue (such as by capture of some of the economic value created by new investments);

(iii) estimates of future funds, to be developed cooperatively with the metropolitan planning organization, any public transportation agency, and any other public or private entity identified by the Secretary as being essential to support the investment priorities recommended in the transportation improvement program; and

(iv) each applicable project, only if full funding can reasonably be anticipated to be available for the project within the time period contemplated for completion of the project.

(4) INCLUDED PROJECTS.—

(A) PROJECTS UNDER THIS CHAPTER AND TITLE 23.—Transportation improvement programs developed under this subsection for a metropolitan area shall include a description of the projects within the area that are proposed for funding under this chapter and chapter 1 of title 23.

(B) PROJECTS UNDER CHAPTER 53.—Each regionally significant project proposed for funding under chapter 2 of title 23 shall be identified individually in the transportation improvement program.

(ii) NONREGIONALLY SIGNIFICANT.—A description of each project proposed for funding under chapter 2 of title 23 that is not determined to be regionally significant shall be contained in 1 line item or identified individually in the transportation improvement program.

(iii) OPPORTUNITY FOR PARTICIPATION.—Before approving a transportation improvement program, a metropolitan planning organization, in cooperation with the State and any affected public transportation operator, shall provide an opportunity for participation by interested parties in the development of the transportation improvement program, in accordance with subsection (h)(4).

(5) SELECTION OF PROJECTS.—

(A) IN GENERAL.—Each tier I MPO and tier II MPO shall select projects carried out within the boundaries of the applicable metropolitan planning area from the transportation improvement program, in consultation with the relevant State and on concurrence of the affected facility owner, for funds apportioned to the State under section 108(b)(4) and suballocated to the metropolitan planning area under section 133(d) of title 23.

(B) PROJECTS UNDER CHAPTER 53.—In the case of projects proposed for funding in a metropolitan area under section 106(b)(4) of title 23, the selected projects shall be carried out, from the approved transportation improvement program, including nonregionally significant projects proposed for funding under this Act, and suballocated to the metropolitan planning area under section 149(j) of title 23.

(6) SELECTION OF PROJECTS.—

(A) nonregionally significant project proposed for—

(i) the projected costs and revenues, including existing and projected system operating and maintenance needs, proposed enhancements and expansions to the system, projected available revenues and other sources of revenue from Federal, State, local, and private sources; and

(ii) the extent to which the metropolitan planning organization determined the project is regionally significant or nonregionally significant.

(B) ANNUAL LIST OF PROJECTS.—An annual list of projects, including investments in pedestrian walkways, bicycle transportation facilities, and intermodal facilities that support intercity and interregional public transportation, shall be prepared by the metropolitan planning organization for projects carried out within the boundaries of the applicable metropolitan planning area from the transportation improvement program.

(C) PLANNING REQUIREMENTS FOR TIER II MPD.—

(A) PROJECTS UNDER THIS CHAPTER AND TITLE 23.—A technical plan for the transportation improvement program shall be prepared by the metropolitan planning organization, including the projected expenditures for the program, the identification of the projects within the area that are proposed for funding under this chapter and chapter 1 of title 23.

(B) PROJECTS UNDER CHAPTER 53.—

(i) A description of—

(A) the technical plan for the transportation improvement program; and

(B) the project and/or programs for implementing projects, strategies, and services recommended in the transportation improvement program, including existing and projected system operating and maintenance needs, proposed enhancements and expansions to the system, projected available revenues and funding under this Act, and other sources of revenue from Federal, State, local, and private sources; and

(ii) the estimated costs and revenues, and strategies for securing additional new revenue (such as by capture of some of the economic value created by new investments);

(iii) estimates of future funds, to be developed cooperatively with the metropolitan planning organization, any public transportation agency, and any other public or private entity identified by the Secretary as being essential to support the investment priorities recommended in the transportation improvement program; and

(iv) each applicable project, only if full funding can reasonably be anticipated to be available for the project within the time period contemplated for completion of the project.

(7) PUBLICATION.—

(A) IN GENERAL.—A transportation improvement program shall be published in accordance with applicable law; and

(B) ANNUAL LIST OF PROJECTS.—An annual list of projects, including investments in pedestrian walkways, bicycle transportation facilities, and intermodal facilities that support intercity and interregional public transportation, shall be prepared by the metropolitan planning organization for projects carried out within the boundaries of the applicable metropolitan planning area from the transportation improvement program.

(8) PUBLICATION.—

(A) IN GENERAL.—The Secretary may provide for the performance-based development of a metropolitan transportation plan and in such a plan, shall make readily available by the applicable metropolitan planning organization for public review in electronically accessible formats and means, such as the Internet.

(B) ANNUAL REPORT.—An annual report of the Secretary shall be prepared by the metropolitan planning organization in electronically accessible formats and means, such as the Internet, in a manner that the report—

(i) is not certified under paragraph (1), the Secretary shall submit to Congress a report

(ii) The extent to which the metropolitan planning organization has met with respect to the metropolitan transportation planning process.

(2) REQUIREMENTS FOR CERTIFICATION.—The Secretary may make a certification under paragraph (1) if—

(A) the metropolitan transportation planning process complies with the requirements of this section and other applicable Federal law; and

(B) representation on the metropolitan planning organization board includes officials of public agencies that administer or operate major modes of transportation in the relevant metropolitan area, including providers of public transportation; and

(C) a transportation improvement program for the metropolitan planning area has been approved by the applicable metropolitan planning organization and applicable Governor.

(3) DELEGATION OF AUTHORITY.—The Secretary shall—

(A) delegate to the appropriate State fact-finding authority regarding the certification of a tier II MPO under this subsection; and

(B) make the certification under paragraph (1) in consultation with the State.

(4) EFFECT OF FAILURE TO CERTIFY.—

(A) CERTIFICATION.—If a metropolitan planning organization—

(i) has developed an investment process that relies on public input and awareness to encourage—

(ii) has developed an investment process that is not certified under paragraph (1), the Secretary shall submit to Congress a report

(5) REPORT.—

(A) IN GENERAL.—Not later than 5 years from the date of enactment of the Federal law; and

(B) CERTIFICATION.—The extent to which the metropolitan planning organization has met with respect to the metropolitan transportation planning process.
“(i) the overall effectiveness of performance-based planning as a tool for guiding transportation investments; and

(ii) the effectiveness of the performance-based planning of each metropolitan planning organization under this section.

(B) PUBLICATION.—The report under subparagraph (A) shall be published or otherwise made available in a manner accessible to the public, in formats and means, including on the Internet.

(D) ADDITIONAL REQUIREMENTS FOR CERTAIN NONATTAINMENT AREAS.—

(1) IN GENERAL.—Notwithstanding any other provision of this chapter or title 23, Federal funds may not be advanced in any metropolitan planning area classified as a nonattainment area or maintenance area for any highway project that will result in a significant increase in the carrying capacity for single-occupant vehicles, unless the owner or operator of the project demonstrates that the project will achieve or make substantial progress toward achieving the performance targets described in subsection (b)(2).

(2) APPLICABILITY.—This subsection applies to any nonattainment area or maintenance area for any highway project that will result in a significant increase in the carrying capacity for single-occupant vehicles, unless the owner or operator of the project demonstrates that the project will achieve or make substantial progress toward achieving the performance targets described in subsection (b)(2).

(2) APPLICABILITY.—This subsection applies to any nonattainment area or maintenance area for any highway project that will result in a significant increase in the carrying capacity for single-occupant vehicles, unless the owner or operator of the project demonstrates that the project will achieve or make substantial progress toward achieving the performance targets described in subsection (b)(2).

(E) EFFECT OF SECTION.—Nothing in this section shall preclude the metropolitan planning organization from designating transportation projects that support traffic reduction efforts or alternative transportation projects that support traffic reduction efforts, or that provide for alternative transportation modes.

(2) G ENERAL AUTHORITY .—The Secretary shall establish reasonable opportunity for public comment on a reasonable opportunity for public comment on a schedule for implementation of the transportation improvement program in the metropolitan planning area.

(2) G ENERAL AUTHORITY .—The Secretary shall establish reasonable opportunity for public comment on a schedule for implementation of the transportation improvement program in the metropolitan planning area.

(3) ELIGIBILITY.—A State or local governmental authority that desires to participate in the program under this subsection shall submit to the Secretary an application that contains, at a minimum—

(A) identification of an eligible project;

(B) a schedule and process for the development of a comprehensive plan;

(C) a description of how the eligible project and the proposed comprehensive plan advance the metropolitan transportation plan of the metropolitan planning organization;

(D) proposed performance criteria for the development and implementation of the comprehensive plan; and

(E) identification of—

(i) the effectiveness of the performance-based planning for the entire metropolitan area.

(ii) state or local governmental authority that desires to participate in the program under this subsection shall submit to the Secretary an application that contains, at a minimum—

(A) identification of an eligible project;

(B) a schedule and process for the development of a comprehensive plan;

(C) a description of how the eligible project and the proposed comprehensive plan advance the metropolitan transportation plan of the metropolitan planning organization;

(D) proposed performance criteria for the development and implementation of the comprehensive plan; and

(E) identification of—

(i) the effectiveness of the performance-based planning for the entire metropolitan area.

(ii) state or local governmental authority that desires to participate in the program under this subsection shall submit to the Secretary an application that contains, at a minimum—

(A) identification of an eligible project;

(B) a schedule and process for the development of a comprehensive plan;

(C) a description of how the eligible project and the proposed comprehensive plan advance the metropolitan transportation plan of the metropolitan planning organization;

(D) proposed performance criteria for the development and implementation of the comprehensive plan; and

(E) identification of—

(i) the effectiveness of the performance-based planning for the entire metropolitan area.

(ii) state or local governmental authority that desires to participate in the program under this subsection shall submit to the Secretary an application that contains, at a minimum—

(A) identification of an eligible project;

(B) a schedule and process for the development of a comprehensive plan;

(C) a description of how the eligible project and the proposed comprehensive plan advance the metropolitan transportation plan of the metropolitan planning organization;

(D) proposed performance criteria for the development and implementation of the comprehensive plan; and

(E) identification of—

(i) the effectiveness of the performance-based planning for the entire metropolitan area.

(ii) state or local governmental authority that desires to participate in the program under this subsection shall submit to the Secretary an application that contains, at a minimum—

(A) identification of an eligible project;

(B) a schedule and process for the development of a comprehensive plan;

(C) a description of how the eligible project and the proposed comprehensive plan advance the metropolitan transportation plan of the metropolitan planning organization;

(D) proposed performance criteria for the development and implementation of the comprehensive plan; and

(E) identification of—

(i) the effectiveness of the performance-based planning for the entire metropolitan area.

(ii) state or local governmental authority that desires to participate in the program under this subsection shall submit to the Secretary an application that contains, at a minimum—

(A) identification of an eligible project;

(B) a schedule and process for the development of a comprehensive plan;

(C) a description of how the eligible project and the proposed comprehensive plan advance the metropolitan transportation plan of the metropolitan planning organization;
in the relevant area (including planned growth, economic development, infrastructure services, housing, other public services, environmental protection, airport operation, intercity and intrastate road, rail, freight rail, port access, and freight movements), to the maximum extent practicable, to ensure that the statewide and nonmetropolitan operating in urbanized areas with a population of fewer than 200,000 individuals, as calculated according to the most recent decennial census, and not represented by a metropolitan planning organization, each State shall describe statewide transportation plans and statewide transportation improvement programs are developed with due consideration for other related plans within the State.

(2) INCLUSION.—Cooperation under paragraph (1) shall include the design and delivery of transportation services within the State that are provided by—

(A) recipients of assistance under sections 202, 203, and 204 of title 23;

(B) recipients of assistance under this chapter;

(C) government agencies and nonprofit organizations (including representatives of the organizations) that receive Federal assistance from a source other than the Department of Transportation to provide nonemergency transportation services; and

(D) State or locally significant programs, projects, and services that are related to transportation and receive assistance from any public or private source.

(3) DELEGATION.—The State shall—

(I) IN GENERAL.—The statewide transportation planning process for a State under this title shall provide for consideration of projects, strategies, and services that will—

(A) support the economic vitality of the United States, the State, nonmetropolitan areas, and metropolitan areas, especially by enabling global competitiveness, productivity, and efficiency;

(B) enhance the safety of the transportation system for motorized and nonmotorized users;

(C) increase the security of the transportation system for motorized and nonmotorized users;

(D) increase the accessibility and mobility of individuals, including freight;

(E) protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between improvements in the existing and future transportation facilities of the State and local planned growth and economic development patterns;

(F) enhance the integration and connectivity of the transportation system, across and between modes, for individuals and freight;

(G) increase efficient system management and operation; and

(H) emphasize the preservation of the existing transportation system.

(2) PERFORMANCE-BASED APPROACH.—

(A) IN GENERAL.—The statewide transportation planning process shall provide for the establishment and use of a performance-based approach to transportation decisionmaking to the national goals described in section 5301(c) of this title and in section 150(b) of title 23.

(B) SURFACE TRANSPORTATION PERFORMANCE TARGETS.—For providers of public transportation operating in urbanized areas with a population of fewer than 200,000 individuals, as calculated according to the most recent decennial census, and not represented by a metropolitan planning organization, each State shall—

(I) develop the statewide transportation plan that describes the statewide transportation improvement program in consultation with interested parties, as appropriate, including by the formation of advisory groups representing those interested parties that participate in the development of the statewide transportation plan and statewide transportation improvement program;

(II) hold any public meetings at times and locations that are, as applicable—

(A) in general; and

(B) in compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.);

(III) employ visualization techniques to describe statewide transportation plans and projects to all the public and interested parties that have a reasonable opportunity to consider the statewide transportation plans to, as available—

(A) Federal, State, tribal, and local conservation plans or maps; and

(B) IN INITIAL PERIOD.—A statewide transportation plan shall include, at a minimum, for the first 18-month period of the statewide transportation plan, the identification of existing and future transportation facilities that will function as an integrated statewide transportation system, giving emphasis to the intermodal transportation system of the State.
(C) **SUBSEQUENT PERIOD.—**For the second 10-year period of the statewide transportation plan (referred to in this subsection as the ‘outer years period’), a statewide transportation improvement program shall—

(i) include, for the 20-year period covered by the statewide transportation plan, a description of—

(I) the existing transportation infrastructure, including an identification of highways, local and state roads, bicycle and pedestrian facilities, public transportation facilities and services, commuter rail facilities and services, high-speed and intercity passenger rail facilities and services, freight facilities (including freight railroad and port facilities), multimodal and intermodal facilities, and intermodal connectors that, evaluated in the aggregate, function as an integrated transportation system;

(II) the performance measures and performance targets used in assessing the existing and future performance of the transportation system described in subsection (d)(2);

(III) the current and projected future usage of the transportation system, including the extent of or need for an improvement or enhancement of transportation rights-of-way, corridors, facilities, and related real properties;

(IV) a system performance report evaluating the existing and future condition and performance of the transportation system with respect to the performance targets described in subsection (d)(2) and updates to subsequent system performance reports, including—

(aa) progress achieved by the State in meeting performance targets, as compared to system performance recorded in previous reports; and

(bb) a listing of projects anticipated by a State to be implemented; and

(ii) describe the investment priorities described in subsection (d)(1) in a manner consistent with the performance targets described in subsection (d)(2), a State shall not be required to select any project from the illustrative list of additional projects included in the statewide transportation plan under paragraph (I)(IV)(X).

(g) **STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAMS.—**

(1) **DEVELOPMENT.—**

(A) **IN GENERAL.—**In cooperation with nonmetropolitan officials with responsibility for transportation and affected public transportation operators, the State shall develop a statewide transportation improvement program for the State that—

(i) includes projects consistent with the statewide transportation plan;

(ii) reflects the investment priorities established in the statewide transportation plan; and

(iii) once implemented, makes significant progress toward achieving the performance targets described in subsection (d)(2).

(B) **OPPORTUNITY FOR PARTICIPATION.—**In developing a statewide transportation improvement program, the State, in cooperation with affected public transportation operators, shall provide an opportunity for participation by interested parties in the development of the statewide transportation improvement program, in accordance with subsection (e).

(C) **OTHER REQUIREMENTS.—**

(i) **IN GENERAL.—**A statewide transportation improvement program shall—

(I) cover a period of not less than 4 years; and

(ii) be updated not less frequently than once every 4 years, or more frequently, as the Governor determines to be appropriate.

(ii) **INCORPORATION OF TIPS.—**A statewide transportation improvement program shall incorporate any relevant transportation improvement program developed by a nonmetropolitan planning organization under section 5303, without change.

(iii) **PROJECTS.—**Each project included in a statewide transportation improvement program shall be—

(I) consistent with the statewide transportation improvement plan developed under this section for the State;

(II) identical to a project or phase of a project described in a relevant transportation improvement program, projects, and strategies, to be carried out during the 4-year period immediately preceding the date of adoption of the statewide transportation improvement program, and during each 4-year period thereafter, using existing and reasonably available revenues in accordance with the financial plan under paragraph (3).

(B) **DESCRIPTIONS.—**Each project or phase of a project included in a statewide transportation improvement program shall include a priority list of proposed federally supported projects and strategies, to be carried out during the 4-year period immediately preceding the date of adoption of the statewide transportation improvement program.

(C) **PERFORMANCE TARGET ACHIEVEMENT.—**

A statewide transportation improvement program shall include a discussion of the anticipated effect of the statewide transportation...
improvement program toward achieving the performance targets established in the state-
wide transportation plan, linking investment priorities to those performance targets.

(2) DETERMINATION OF PROJECTS.—An optional illustrative list of projects may be
prepared containing additional investment priorities that:

(i) are not included in the statewide transportation improvement program; but

(ii) would be so included if resources in addition to the resources identified in the fi-
cancial plan under paragraph (3) were available.

(3) FINANCIAL PLAN.—A financial plan re-
ferred to in paragraph (2)(d)(ii) shall:

(A) be prepared by each State to support the
statewide transportation improvement program; and

(B) contain a description of—

(i) the projected resource requirements for
implementing projects, strategies, and services recommended in the statewide transportation improvement program, in-
cluding existing and projected system oper-
ating and maintenance needs, proposed en-
hancement and expansions to the system, proj-
tected revenue from Federal, State, local, and private sources, and innova-
tive financing techniques to finance projects and programs;

(ii) the projected difference between costs and reve-
ues, and strategies for securing ad-
ditional new revenue (such as by capture of
some of the economic value created by any new investments);

(iii) estimates of future funds, to be de-
veloped cooperatively by the State and rele-
vant metropolitan planning organizations and public transportation agencies, that are reason-
ably expected to be available to support
the investment priorities recommended in the statewide transportation improve-
ment program; and

(iv) each applicable project, only if full
funding can reasonably be anticipated to be
available for the project within the time pe-
riod contemplated for completion of the
project.

(4) INCLUDED PROJECTS.—

(A) PROJECTS UNDER THIS CHAPTER AND
TITLE 23.—A statewide transportation im-
provement program developed under this
subsection for a State shall include the proj-
ected revenue from Federal, State, and local
funds during the period contemplated for completion of the
projects within the State that are proposed
to be funded under this chapter and chapter 1
of title 23.

(B) PROJECTS UNDER THIS CHAPTER AND
CHAPTER 2.—

(i) Regionally significant.—Each re-
gionally significant project proposed for fund-
ing under this chapter and chapter 2 of title 23 shall be identified individually in the statewide transportation improvement pro-
gram.

(ii) Nonregionally significant.—A de-
scription of each project proposed for fund-
ing under this chapter and chapter 2 of title 23 that is not determined to be region-
ally significant shall be contained in 1 list or
identified individually in the statewide transportation improvement program.

(5) PUBLICATION.—

(A) IN GENERAL.—A statewide transpor-
tation improvement program shall be pub-
lished or otherwise made readily available
by the State for public review in electroni-
cally accessible formats and means, such as the Internet.

(B) ANNUAL LIST OF PROJECTS.—An annual
list of projects, including investments in pe-
duct elements, bicycle transportation facili-
ties, and intermodal facilities that sup-
port intercity transportation, for which Fed-
eral funds have been obligated during the
period contemplated for completion of the
projects shall be published or otherwise
made available by the cooperative effort of the State, public transportation op-
erator, and relevant metropolitan planning organizations in electronically accessible
formats and means, such as the Internet, in
a manner that is consistent with the cat-
tegories of the performance targets of the statewide transportation improvement program.

(6) PROJECT SELECTION FOR URBANIZED AREAS WITH POPULATIONS OF FEWER THAN 200,000 PERSONS.—Projects carried out in urbanized areas with populations of fewer than 200,000 individuals, as calculated according to the most recent decennial census, and that are not represented by designated metropolitan planning organizations, shall be selected from the approved statewide transportation improvement program (including projects carried out under this chapter and projects carried out by the State), in cooperation with the affected nonmetropolitan planning organization, if any exists, and in consulta-
tion with the affected nonmetropolitan area
local officials with responsibility for trans-
portation.

(7) APPROVAL BY SECRETARY.—

(A) IN GENERAL.—Not less frequently than
once every 4 years, a statewide transpor-
tation improvement program developed un-
der this chapter and approved by the Secre-
tary, based on the current planning find-
ing of the Secretary under subparagraph (B).

(B) PLANNING FINDING.—The Secretary
shall make a planning finding referred to in
paragraph (A) not less frequently than
once every 5 years regarding whether the
transportation planning process through
which statewide transportation plans and statewide transportation improvement pro-
grams are developed is consistent with this
section and section 5306.

(8) MODIFICATIONS TO PROJECT PRIORITY.—

Approval by the Secretary shall not be re-
quired to carry out a project included in an
approved statewide transportation improve-
ment program in place of another project in the
statewide transportation improvement pro-
gram.

(9) CERTIFICATION.—

(A) IN GENERAL.—The Secretary shall—

(i) ensure that the statewide transpor-
tation planning process of a State is being
carried out in accordance with applicable
Federal law; and

(ii) subject to paragraph (2), certify, not
less frequently than once every 5 years, that
the certification required by subparagraph (i)
are met with respect to the statewide transpor-
tation planning process.

(B) REQUIREMENTS FOR CERTIFICATION.—
The Secretary may require a certification under paragraph (1)(B) if—

(i) the statewide transportation planning
process complies with the requirements of this
section and other applicable Federal law;

(ii) a statewide transportation improve-
ment program for the State has been ap-
proved by the Secretary; and

(iii) the effect of failure to certify.

(A) WITHHOLDING OF PROJECT FUNDS.—If
a statewide transportation improvement pro-
gram for a State is not certified under para-
graph (1), the Secretary shall withhold up to 20 percent of the funds attributable to the State
for projects funded under this chapter and title 23.

(B) RESTORATION OF withheld FUNDS.—

Any funds withheld under subparagraph (A) shall be restored to the State on the date of the certifi-
cation of the statewide transportation planning process by the Secretary.

(10) PUBLIC INVOLVEMENT.—In making a de-
termination regarding certification under
paragraph (9)(B) the Secretary shall—

(i) PUBLIC INVOLVEMENT.—In making a de-
termination regarding certification under
paragraph (9)(B), the Secretary shall provide
for public involvement appropriate to the State under review.

(11) PERFORMANCE-BASED PLANNING PROC-
ESS EVALUATION.—

(A) IN GENERAL.—The Secretary shall es-
blish criteria to evaluate the effectiveness
of performance-based planning processes of States, taking into consideration the fol-
lowing:

(i) The extent to which the State has made
attained, or is currently making substantial
progress toward achieving, the performance
targets described in subsection (d)(2),
and to account whether the State developed
meaningful performance targets.

(ii) The extent to which the State has used
devices best practices that help ensure
transportation investment that is efficient
dand effective.

(iii) The extent to which the State—

(1) has developed an investment process
that relies on public input and awareness
to ensure that investments are transparent
and accountable;

(ii) provides regular reports allowing
the public to access the information being
collected in the format that makes the public to
meaningfully assess the performance of the
State.

(2) REPORT.—

(A) IN GENERAL.—Not later than 5 years
after the date of enactment of the Federal
Public Transportation Act of 2012, the Secre-
tary shall submit to Congress a report eval-
uating

(i) the overall effectiveness of perform-
ance-based planning as a tool for guiding
transportation investments; and

(ii) the effectiveness of the performance-
base planning process of each State.

(B) PUBLICATION.—The report under sub-
paragraph (A) shall be published or otherwise
made available in electronically accessible
formats and means, including on the Inter-
net.

(11) FUNDING.—Funds apportioned under section 104(b)(6) of title 23 and set aside
under section 5305(g) shall be available to carry out this section.

(12) CONTINUATION OF CURRENT REVIEW
PRACTICE.—

(A) IN GENERAL.—In consideration of the factors described in paragraph (2), any deci-
sion by the Secretary concerning a statewide transportation plan or statewide transpor-
tation improvement program shall not be
considered to be a Federal action subject to
review under the National Environmental

(B) DESCRIPTION OF FACTORS.—The factors
to be considered in paragraphs (2), (3), and
(9) are

(A) statewide transportation plans and state-
wide transportation improvement pro-
grams are developed is consistent with this
section and section 5306;

(B) the extent to which the State—

(1) has included in statewide transpor-
tation plans and statewide transportation
improvement programs are subject to
review under the National Environmental
Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(C) the extent that the State—

(1) has included in statewide transpor-
tation plans and statewide transportation
improvement programs are subject to
review under the National Environmental

(13) MODIFICATIONS TO PROJECT PRIORITY.—
The Secretary shall issue guidance on a schedule
for implementation of the changes made by
this section, taking into consideration the current planning update cycle and the
requirements of States. The Secretary shall not require a State to
deve from its established planning update cycle.

(14) SCHEDULE FOR IMPLEMENTATION.—The
Secretary shall issue guidance on a schedule
for implementation of the changes made by
this section, taking into consideration the current planning update cycle and the
requirements of States. The Secretary shall not require a State to
deve from its established planning update cycle.

February 9, 2012 CONGRESSIONAL RECORD — SENATE S515
SEC. 40007. PUBLIC TRANSPORTATION EMERGENCY RELIEF PROGRAM.

Section 5306 of title 49, United States Code, is amended to read as follows:

"§ 5306. Public transportation emergency relief program.

"(a) Definition.—In this section the following definitions shall apply:

"(1) Eligible operating costs.—The term ‘eligible operating costs’ means costs relating to—

"(A) evacuation services;

"(B) rescue operations;

"(C) temporary public transportation service; or

"(D) reestablishing, expanding, or relocating public transportation route service before, during, or after an emergency.

"(2) Emergency.—The term ‘emergency’ means a natural disaster affecting a wide area (such as a flood, hurricane, tornado, earthquake, severe storm, or landslide) or a catastrophic failure from any external cause, as a result of which—

"(A) the Governor of a State has declared an emergency and the Secretary has concurred; or

"(B) the President has declared a major disaster under section 401 of the Robert T. Stafford Emergency Assistance Act (42 U.S.C. 5170).

"(b) General Authority.—

"(1) Capital Assistance.—The Secretary may make grants to enter into contracts and other agreements (including agreements with departments, agencies, and instrumentalities of the Government) for capital projects to protect, repair, reconstruct, or replace equipment and facilities of a public transportation system operating in the United States or on an Indian reservation that the Secretary determines is in danger of suffering serious damage, or has suffered serious damage, as a result of an emergency.

"(2) Operating Assistance.—Of the funds appropriated to carry out this section, the Secretary may make grants and enter into contracts or other agreements for the eligible operating costs of public transportation equipment and facilities in an area directly affected by an emergency during—

"(A) the 1-year period beginning on the date of a declaration described in subsection (a)(2); or

"(B) if the Secretary determines there is a compelling need, the 2-year period beginning on the date of a declaration described in subsection (a)(2).

"(c) Coordination of Emergency Funds.—

"(1) Use of Funds.—Funds appropriated to carry out this section shall be in addition to any other funds available—

"(A) under this chapter; or

"(B) for the same purposes as authorized under this section by any other branch of the Government, including the Federal Emergency Management Agency, or a State agency, local governmental entity, organization, or person.

"(2) Notification.—The Secretary shall notify the Secretary of Homeland Security of the purpose and amount of any grant made under this paragraph to an interagency agreement entered into under this section.

"(d) Interagency Transfers.—Amounts that are made available for emergency purposes by any other agency of the Government, including the Federal Emergency Management Agency, and that are eligible to be expended for purposes authorized under this section shall be transferred to and administered by the Secretary under this section.

"(e) Interagency Agreement.—

"(1) Grant.—The Secretary shall enter into an interagency agreement with the Secretary of Homeland Security which shall provide for the means by which the Department of Transportation, including the Federal Transit Administration, and the Department of Homeland Security, including the Federal Emergency Management Agency, shall cooperate in administering emergency relief for public transportation.

"(f) Contingency Funds.—The Secretary may establish in the appropriation made available to the Federal Emergency Management Agency for emergency relief for public transportation a program of contingency funds to be used to meet unforeseen or unanticipated needs. The contingency funds are available only to the extent necessary to carry out this section, to the maximum extent possible.

"(g) Grant Requirements.—A grant awarded under this section shall be subject to the terms and conditions the Secretary determines are necessary.

"(h) Government Share of Costs.—

"(1) Capital Projects and Operating Assistance.—A grant, contract, or other agreement for a capital project or eligible operating costs under this section shall be, at the option of the recipient, for not more than 80 percent of the net project cost, as determined by the Secretary.

"(2) Non-Federal Share.—The remainder of the net project cost may be provided from an undistributed cash surplus, a replacement or depreciation cash fund or reserve, or new capital.

"(i) Waiver.—The Secretary may waive, in whole or part, any Federal share required under paragraph (2).

"(j) Operating Assistance.—Of the funds appropriated to carry out this section, the Secretary may make grants and enter into contracts or other agreements for the eligible operating costs of public transportation equipment and facilities in an area directly affected by an emergency during—

"(A) the 1-year period beginning on the date of a declaration described in subsection (a)(2); or

"(B) if the Secretary determines there is a compelling need, the 2-year period beginning on the date of a declaration described in subsection (a)(2).

"(2) Special Rule.—The Secretary may make grants under this section for—

"(A) capital projects;

"(B) planning costs;

"(C) operating costs of equipment and facilities for use in public transportation in an urbanized area with a population of fewer than 200,000 individuals, as determined by the Bureau of the Census.

"(3) General Authority.—

"(A) Grants.—The Secretary may make grants under this section for—

"(i) capital projects;

"(ii) planning costs; and

"(iii) operating costs of equipment and facilities for use in public transportation in an urbanized area with a population of fewer than 200,000 individuals, as determined by the Bureau of the Census.

"(B) Period of Availability for Operating Assistance.—Operating assistance awarded under this paragraph shall be available for expenditure to a recipient in an area until the end of the second fiscal year following the date on which the Secretary makes a determination under subparagraph (A) with respect to an area, after which time any unexpended funds shall be awarded to the recipient for other eligible activities under this section.

"(C) Certification.—The Secretary may make a grant for operating assistance under this paragraph for a fiscal year only if the recipient certifies that—

"(i) the recipient will maintain public transportation service levels at or above the current service level, which shall be demonstrated by providing an equal or greater number of vehicle hours of service in the fiscal year than the number of vehicle hours of service provided in the preceding fiscal year;

"(ii) any non-Federal entity that provides funding to the recipient, including a State or local governmental entity, will maintain the tax rate or rate of allocation dedicated to public transportation at or above the rate for the preceding fiscal year;

"(iii) the recipient has the maximum amount of funds described for preventive maintenance costs eligible as a capital expense necessary to maintain the level and quality of service provided in the preceding fiscal year;

"(iv) the recipient will not use funding under this section for new capital assets except as necessary for the existing system to maintain its level and quality of service through the end of the grant period; and

"(b) Access to Jobs Projects.—
(1) IN GENERAL.—A designated recipient shall expend not less than 3 percent of the amount apportioned to the designated recipient under section 5336 or an amount equal to the amount the recipient would have received for an urbanized area with a population of not fewer than 200,000 individuals, as determined by the Bureau of the Census—

(II) the maximum amount of the apportionment under section 5336 of this title; or

(II) has or will have satisfactory continuity of service to the designated recipient under section 5336 of this title if the agency of the Government (other than the Department of Transportation) that is eligible to be granted funds under this section:

(III) individual presenting a Medicare card issued to that individual under title II or XVIII of the Social Security Act (42 U.S.C. 401 et seq. and 1395 et seq.);

(IV) the Secretary determines that the project would provide for the coordination of public transportation services assisted under paragraph (4) of section 5336 of this title with transportation services assisted under other United States Government programs, including safety and security aspects of the program;

(V) the recipient, within the time the Secretary prescribes, submits a final program of projects prepared under subsection (c) of this section and a certification for that fiscal year that the recipient (including a person receiving amounts from a Governor under this section)—

(VI) will comply with sections 5303 and 5329(d); and

(VII) will expend not less than 1 percent of the amount the recipient receives for each fiscal year under section 5336 of this title or (if the recipient is a Governor) the amount the recipient receives for each fiscal year under section 5336 of this title if the recipient (including a person receiving amounts from a Governor under this section) will comply with sections 5303 and 5329(d); and

(2) OPERATING EXPENSES.—A grant for operating expenses under this section may not exceed 50 percent of the net project cost of the project.

(3) REMAINING COSTS.—Subject to paragraph (4), the remainder of the net project costs shall be provided—

(A) in cash from non-Government sources other than revenues from providing public transportation services; or

(B) from revenues from the sale of advertising and concessions;

(C) from an undisputed cash surplus, a replacement or depreciation cash fund or reserve, or new capital;

(D) from amounts appropriated or otherwise made available to a department or agency of the Government (other than the Department of Transportation) that are eligible to be funded for transportation; and

(E) from amounts received under a service agreement with a State or local social service agency or private social service organization.

(4) USE OF CERTAIN FUNDS.—For purposes of subparagraphs (D) and (E) of paragraph (3), the prohibitions on the use of funds for matching requirements under section 406(a)(5)(C)(vii) of the Social Security Act (42 U.S.C. 603(a)(5)(C)(vii)) shall not apply to Federal or State funds to be used for transportation purposes.

(5) UNDERWITING PROJECTS IN ADVANCE.—The Secretary may pay the Government share of the net project cost to a State or local governmental authority that carries out any part of a project eligible under paragraph (4)(A) or (B) of subsection (a)(1) without the aid of amounts of the Government and according to all applicable procedures and requirements if—

(A) the recipient applies for the payment;

(B) the Secretary approves the payment; and

(C) before carrying out any part of the project, the Secretary approves the recipient's proposal for the project.

(6) APPROVAL OF APPLICATION.—The Secretary may approve an application under paragraph (4) of this subsection only if an application for the fiscal year to carry out this section is appropriated; less

(A) the recipient's expected apportionment under section 5336 of this title if the recipient is a Governor;

(B) the maximum amount that may be spent for projects for operating expenses under this section.
(3) FINANCING COSTS.—

(A) IN GENERAL.—The cost of carrying out part of a project includes the amount of interest earned and payable on bonds issued by the recipient to finance transportation that the Administrator of the Environmental Protection Agency has certified sufficiently reduces energy consumption or reduces harmful emissions, including direct carbon emissions, when compared to a comparable standard vehicle.

(B) AUDIT, OR EVALUATION.—The Secretary may make grants to recipients to finance eligible projects on a competitive basis.

(4) COMPETITIVE PROCESS.—The Secretary shall solicit grant applications and make grants for eligible projects on a competitive basis.

(a) DEFINITIONS.—In this section, the following definitions shall apply:

(1) CLEAN FUEL BUS.—The term ‘clean fuel bus’ means a bus that is a clean fuel vehicle.

(2) CLEAN FUEL VEHICLE.—The term ‘clean fuel vehicle’ means a passenger vehicle used to provide public transportation that the Administrator of the Environmental Protection Agency has certified sufficiently reduces energy consumption or reduces harmful emissions, including direct carbon emissions, when compared to a comparable standard vehicle.

(3) DIRECT CARBON EMISSIONS.—The term ‘direct carbon emissions’ means the quantity of direct greenhouse gas emissions from a vehicle, as determined by the Administrator of the Environmental Protection Agency.

(4) ELIGIBLE AREA.—The term ‘eligible area’ means an area that—

(A) designated as a nonattainment area for ozone or carbon monoxide under section 171(d) of the Clean Air Act (42 U.S.C. 7409(d)); or

(B) a maintenance area, as defined in section 5303, for ozone or carbon monoxide.

(c) GRANT REQUIREMENTS.—

(1) IN GENERAL.—The Secretary may make grants to recipients to finance eligible projects on a competitive basis.

(2) AUDITING PROCEDURES.—An audit of the use of amounts made available or appropriated to carry out this section shall be subject to the requirements of section 5338(a)(2)(D) in each fiscal year to carry out projects carried out under this section, unless the grant recipient requests a lower grant percentage.

(3) DIRECT CARBON EMISSIONS.—The term ‘direct carbon emissions’ means the quantity of direct greenhouse gas emissions from a vehicle, as determined by the Administrator of the Environmental Protection Agency.

(4) ELIGIBLE AREA.—The term ‘eligible area’ means an area that—

(A) designated as a nonattainment area for ozone or carbon monoxide under section 171(d) of the Clean Air Act (42 U.S.C. 7409(d)); or

(B) a maintenance area, as defined in section 5303, for ozone or carbon monoxide.

(c) GRANT REQUIREMENTS.—

(1) IN GENERAL.—The Secretary may make grants to recipients to finance eligible projects on a competitive basis.

(2) AUDITING PROCEDURES.—An audit of the use of amounts made available or appropriated to carry out this section shall be subject to the requirements of section 5338(a)(2)(D) in each fiscal year to carry out projects carried out under this section, unless the grant recipient requests a lower grant percentage.

(3) DIRECT CARBON EMISSIONS.—The term ‘direct carbon emissions’ means the quantity of direct greenhouse gas emissions from a vehicle, as determined by the Administrator of the Environmental Protection Agency.

(4) ELIGIBLE AREA.—The term ‘eligible area’ means an area that—

(A) designated as a nonattainment area for ozone or carbon monoxide under section 171(d) of the Clean Air Act (42 U.S.C. 7409(d)); or

(B) a maintenance area, as defined in section 5303, for ozone or carbon monoxide.

(c) GRANT REQUIREMENTS.—

(1) IN GENERAL.—The Secretary may make grants to recipients to finance eligible projects on a competitive basis.

(2) AUDITING PROCEDURES.—An audit of the use of amounts made available or appropriated to carry out this section shall be subject to the requirements of section 5338(a)(2)(D) in each fiscal year to carry out projects carried out under this section, unless the grant recipient requests a lower grant percentage.

(3) DIRECT CARBON EMISSIONS.—The term ‘direct carbon emissions’ means the quantity of direct greenhouse gas emissions from a vehicle, as determined by the Administrator of the Environmental Protection Agency.

(4) ELIGIBLE AREA.—The term ‘eligible area’ means an area that—

(A) designated as a nonattainment area for ozone or carbon monoxide under section 171(d) of the Clean Air Act (42 U.S.C. 7409(d)); or

(B) a maintenance area, as defined in section 5303, for ozone or carbon monoxide.

(c) GRANT REQUIREMENTS.—

(1) IN GENERAL.—The Secretary may make grants to recipients to finance eligible projects on a competitive basis.

(2) AUDITING PROCEDURES.—An audit of the use of amounts made available or appropriated to carry out this section shall be subject to the requirements of section 5338(a)(2)(D) in each fiscal year to carry out projects carried out under this section, unless the grant recipient requests a lower grant percentage.

(3) DIRECT CARBON EMISSIONS.—The term ‘direct carbon emissions’ means the quantity of direct greenhouse gas emissions from a vehicle, as determined by the Administrator of the Environmental Protection Agency.

(4) ELIGIBLE AREA.—The term ‘eligible area’ means an area that—

(A) designated as a nonattainment area for ozone or carbon monoxide under section 171(d) of the Clean Air Act (42 U.S.C. 7409(d)); or

(B) a maintenance area, as defined in section 5303, for ozone or carbon monoxide.

(c) GRANT REQUIREMENTS.—

(1) IN GENERAL.—The Secretary may make grants to recipients to finance eligible projects on a competitive basis.
(A) the project is part of an approved transportation plan required under sections 5303 and 5304; and

(B) the applicant has, or will have—

(i) the financial and technical capacity to carry out the project, including the safety and security aspects of the project;

(ii) satisfactory continuing control over the use of awarded funds and facilities; and

(iii) the technical and financial capacity to maintain new and existing equipment and facilities.

(2) Certification.—An applicant that has submitted the certifications required under subparagraphs (A), (B), and (C) of section 5303(d)(1) shall be deemed to have submitted sufficient information upon which the Secretary may make the determinations required under this subsection.

(3) Recipient requirements.—A recipient of a grant awarded under this section shall—

(A) the applicant achieved budget, cost, and schedule targets for the project that are consistent with or better than projections;

(B) the applicant demonstrates that the applicant continues to have the staff expertise and other resources necessary to implement a new project.

(4) Recipient requirements.—A recipient of a grant awarded under this section shall be subject to all terms, conditions, requirements, and provisions that the Secretary determines to be necessary or appropriate for purposes of this section.

(d) New Fixed Guideway Grants.—

(1) Project development phase.—A new fixed guideway capital project shall enter into the project development phase when—

(i) the applicant submits a letter to the Secretary describing the project and requesting entry into the project development phase; and

(ii) the Secretary responds in writing to the applicant within 45 days whether the information provided is sufficient to enter into the project development phase, including, when necessary, a detailed description of any information deemed insufficient.

(B) Activities during project development phase.—Concurrent with the analysis required to be made under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), each applicant shall develop sufficient information to enable the Secretary to make findings of project justification, policies and land use patterns that promote public transportation, and local financial commitments under this section.

(C) Completion of project development activities required.—

(i) In general.—Not later than 2 years after the date on which a project enters into the project development phase, the applicant shall complete the activities required to obtain a project rating under subsection (g)(2) and submit completed documentation to the Secretary.

(ii) Extension of time.—Upon the request of an applicant, the Secretary may extend the time period under clause (i), if the applicant submits to the Secretary—

(I) a reasonable plan for completing the activities required under this paragraph; and

(II) time periods within which the applicant will complete such activities.
“(D) any debt obligation that exists, or is proposed by the recipient, for the proposed project or other public transportation purpose; and

“(E) the extent to which the project has a local financial commitment that exceeds the required non-Government share of the cost of the project.

“(f) PROJECT ADVANCEMENT AND RATINGS.—

“(1) PROJECT ADVANCEMENT.—A new fixed guideway capital project or core capacity improvement project proposed to be carried out using a grant under this section may not advance from the project development phase to the engineering phase, or from the engineering phase to the construction phase, unless the Secretary determines that—

“(A) the project meets the applicable requirements under this section; and

“(B) there is a reasonable likelihood that the project will continue to meet the requirements under this section.

“(2) RATINGS.—

“(A) OVERALL RATING.—In making a determination under paragraph (1), the Secretary shall evaluate and rate a project as a whole on a 5-point scale (high, medium-high, medium, medium-low, low) based on—

“(i) the case of a new fixed guideway capital project, the project justification criteria under subsection (d)(2)(A)(iii), the policies and land use patterns that support public transportation, and the degree of local financial commitment; and

“(ii) a core capacity improvement project, the capacity needs of the corridor, the project justification criteria under subsection (e)(2)(A)(iv), and the degree of local financial commitment.

“(B) INDIVIDUAL RATINGS FOR EACH CRITERION.—In rating a project under this paragraph, the Secretary shall—

“(i) provide, in addition to the overall project rating under subparagraph (A), individual ratings for each of the criteria established under subsection (d)(2)(A)(iii) or (e)(2)(A)(iv), as applicable; and

“(ii) give comparable, but not necessarily equal, numerical weight to each of the criteria established under subsection (d)(2)(A)(iii) or (e)(2)(A)(iv), as applicable; and

“(iii) in the case of a new fixed guideway capital project, the project justification criteria under subsection (d)(2)(A)(iii), the policies and land use patterns that support public transportation, and the degree of local financial commitment; and

“(A) the project meets the applicable requirements under this section; and

“(B) core capacity improvement projects that is based on the results of the capacity needs of the corridor, project justification, and local financial commitment.

“(B) core capacity improvement projects that is based on the results of the capacity needs of the corridor, project justification, and local financial commitment.

“(7) APPLICABILITY.—This subsection shall not apply to a project for which the Secretary determines will be funded directly into a full funding grant agreement, or entered into a project construction agreement before the date of enactment of the Federal Public Transportation Act of 2012; and

“(B) INDIVIDUAL RATINGS FOR EACH CRITERION.—In rating a program under this paragraph, the Secretary shall—

“(i) provide, in addition to the overall program rating under subparagraph (A), individual ratings for each of the criteria established under subsection (d)(2)(A)(iii) or (e)(2)(A)(iv), as applicable; and

“(ii) give comparable, but not necessarily equal, numerical weight to each of the criteria established under subsection (d)(2)(A)(iii) or (e)(2)(A)(iv), as applicable; and

“(i) evidence of continued adequate funding; and

“(ii) an estimated time frame for completing the program of interrelated projects.

“(B) CREDITING OF FUNDS RECEIVED.—Any funds received by the Government under this section, other than interest and penalty funds received by the Government under this section, may be credited toward the cost of the program of interrelated projects as the Secretary determines will be necessary.

“(B) RATINGS.—

“(A) OVERALL RATING.—In making a determination under subparagraph (A), the Secretary shall evaluate and rate a program of interrelated projects as a whole on a 5-point scale (high, medium-high, medium, medium-low, low) based on the criteria described in paragraph (2) and shall give comparable, but not necessarily equal, numerical weight to each such criterion in calculating the overall program rating.

“(B) INDIVIDUAL RATING FOR EACH CRITERION.—In rating a program of interrelated projects, the Secretary shall provide, in addition to the overall program rating, individual ratings for each of the criteria described in paragraph (2) and shall give comparable, but not necessarily equal, numerical weight to each such criterion in calculating the overall program rating.

“(C) SATISFACTORY PROGRESS REQUIRED.—If the Secretary determines that a program of interrelated projects is adhering to its schedule, the Secretary may, upon the request of the applicant, grant an extension of the time frame as the Secretary determines will be necessary.

“(D) APPLICABILITY.—This subsection shall apply to a program of interrelated projects that is not adhering to its schedule, the Secretary may, upon the request of the applicant, grant an extension of the time frame as the Secretary determines will be necessary.

“(E) the extent to which the project has a 5-point scale (high, medium-high, medium, medium-low, low) based on the criteria described in paragraph (2) and shall give comparable, but not necessarily equal, numerical weight to each such criterion in calculating the overall program rating.

“(A) the project is selected as the locally preferred alternative at the completion of the environmental impact review process required under the National Environmental Policy Act of 1969; and

“(B) the project is adopted into the metropolitan transportation plan pursuant to section 602(a)(5).

“(C) the program of interrelated projects involves projects that have a logical connectivity to one another;

“(D) the program of interrelated projects, when evaluated as a whole, meets the requirements of subsection (d)(2) or (e)(2), as applicable;

“(E) the program of interrelated projects is supported by a program implementation plan demonstrating that construction will begin on each of the projects in the program of interrelated projects within a reasonable time frame; and

“(F) the program of interrelated projects is supported by an acceptable degree of local financial commitment, as described in subsection (f).

“(D) PROJECT ADVANCEMENT AND RATINGS.—

“(1) PROJECT ADVANCEMENT.—A project receiving a rating under this section that is part of a program of interrelated projects may not advance from the project development phase to the engineering phase, or from the engineering phase to the construction phase, unless the Secretary determines that the program of interrelated projects meets the applicable requirements of this section.

“(2) SATISFACTORY PROGRESS REQUIRED.—If the Secretary determines that the program of interrelated projects is adhering to its schedule, the Secretary may, upon the request of the applicant, grant an extension of the time frame as the Secretary determines will be necessary.

“(3) APPLICABILITY.—This subsection shall apply to a program of interrelated projects that is not adhering to its schedule, the Secretary may, upon the request of the applicant, grant an extension of the time frame as the Secretary determines will be necessary.

“(B) SATISFACTORY PROGRESS REQUIRED.—If the Secretary determines that a program of interrelated projects is adhering to its schedule, the Secretary may, upon the request of the applicant, grant an extension of the time frame as the Secretary determines will be necessary.

“(C) SATISFACTORY PROGRESS REQUIRED.—If the Secretary determines that a program of interrelated projects is adhering to its schedule, the Secretary may, upon the request of the applicant, grant an extension of the time frame as the Secretary determines will be necessary.
grant agreement, or entered into a project construction grant agreement before the date of enactment of the Federal Public Transportation Act of 2012.

"(1) IN GENERAL.—A full funding grant agreement under this paragraph shall require the applicant to conduct a study that evaluates the impacts of the new fixed guideway capital project or core capacity improvement project on public transportation services and public transportation ridership.

"(2) EVALUATION.—The applicant shall conduct the evaluation required under paragraph (1) no later than 18 months after the application is approved.

"(3) NOTIFICATION TO CONGRESS.—At least 5 days before entering into a full funding grant agreement under this paragraph, the Secretary shall submit a report to the Committee on Appropriations of the House of Representatives and the Committee on Transportation, Infrastructure, and Related Agencies of the Senate on the study and evaluation required under paragraphs (1) and (2)."
Section 5310. Formula grants for the enhanced mobility of seniors and individuals with disabilities.

Section 5310 of title 49, United States Code, is amended to read as follows:

"(a) DEFINITIONS.—In this section, the following definitions shall apply:

(1) RECIPIENT.—The term ‘recipient’ means a designated recipient or a State that receives a grant under this section directly.

(2) SUBRECIPIENT.—The term ‘subrecipient’ means a State or local governmental authority, nonprofit organization, or operator of public transportation that receives a grant under this section indirectly through a recipient.

(3) GENERAL AUTHORITY.—The Secretary may make grants under this section to recipients for—

(A) public transportation capital projects planned, designed, and carried out to meet the special mobility needs of seniors and individuals with disabilities when public transportation is insufficient, inappropriate, or unavailable; and

(B) public transportation projects that enhance the mobility of seniors and individuals with disabilities.
(C) public transportation projects that improve access to fixed route service and decrease reliance by individuals with disabilities on complementary paratransit; and

(2) a public transportation service that assist seniors and individuals with disabilities with transportation.

(B) ALLOCATION TO SUBRECIPIENTS.—A recipient of a grant under paragraph (1)(A) may allocate the amounts provided under the grant to—

(i) a non-profit organization; or

(ii) a State or local governmental authority that—

(A) is approved by a State to coordinate services for seniors and individuals with disabilities; or

(B) certifies that there are no non-profit organizations readily available in the area to provide the services described in paragraph (1)(A); and

(C) ADMINISTRATIVE EXPENSES.—

(A) IN GENERAL.—A recipient may use not more than 10 percent of the amounts apportioned to the recipient under this section to—

(i) provide technical assistance for a project funded under this section.

(B) GOVERNMENT SHARE OF COSTS.—The Government share of the costs of administering a program carried out using funds under this section shall be 100 percent.

(4) ELIGIBLE CAPITAL EXPENSES.—The acquisition of public transportation services is an eligible capital expense under this section.

(5) COORDINATION.—

(A) DEPARTMENT OF TRANSPORTATION.—To the maximum extent feasible, the Secretary shall coordinate activities under this section with related activities under other Federal departments and agencies.

(B) OTHER FEDERAL AGENCIES AND NONPROFIT ORGANIZATIONS.—A State or local governmental authority or nonprofit organization that receives assistance from Government sources (other than the Department of Transportation) for nonemergency transportation services assisted under this section (A)(iii); or

(ii) a State or local governmental authority (other than the Department of Environmental authority or nonprofit organization) that—

(i) is approved by a State to coordinate services for seniors and individuals with disabilities, with the Governor of the State certifying that all of the funds apportioned to the recipient under this section shall be 100 percent.

(B) ALLOCATION TO SUBRECIPIENTS.—A recipient of a grant under paragraph (1)(A) may allocate the amounts provided under the grant to—

(i) a non-profit organization; or

(ii) a State or local governmental authority that—

(A) is approved by a State to coordinate services for seniors and individuals with disabilities with transportation; or

(B) ALLOCATION TO SUBRECIPIENTS.—A recipient of a grant under paragraph (1)(A) may allocate the amounts provided under the grant to—

(i) a non-profit organization; or

(ii) a State or local governmental authority that—

(A) is approved by a State to coordinate services for seniors and individuals with disabilities, with the Governor of the State certifying that all of the funds apportioned to the recipient under this section shall be 100 percent.

(B) ALLOCATION TO SUBRECIPIENTS.—A recipient of a grant under paragraph (1)(A) may allocate the amounts provided under the grant to—

(i) a non-profit organization; or

(ii) a State or local governmental authority that—

(A) is approved by a State to coordinate services for seniors and individuals with disabilities, with the Governor of the State certifying that all of the funds apportioned to the recipient under this section shall be 100 percent.

B) ALLOCATION TO SUBRECIPIENTS.—If a recipient allocates funds received under this section to subrecipients, the recipient shall certify that the funds are allocated on a fair and equitable basis.

(7) MEAL DELIVERY FOR HOMEBOUND INDIVIDUALS.—A public transportation service provider that receives assistance under this section or section 5311(c) may coordinate and assist in regularly providing meal delivery service to homebound individuals, if the meal delivery service does not conflict with providing public transportation service or reduce service to public transportation passengers.

(9) OPERATING ASSISTANCE.—A grant made under this section for operating assistance may not exceed an amount equal to 50 percent of the net operating costs of the project, as determined by the Secretary.

(10) REMAINDER OF NET COSTS.—The remainder of the net costs of a project carried out under this section—

(A) may be provided from an undistributed cash surplus, a replacement or depreciation reserve fund of the Government (other than the Department of Transportation) that is used for transportation; or

(B) may be derived from amounts appropriated or otherwise made available—

(i) to a department or agency of the Government (other than the Department of Transportation) that is used for transportation; or

(ii) to carry out the Federal lands highway programs under section 204 of title 23, United States Code.

(4) USE OF CERTAIN FUNDS.—For purposes of paragraph (3)(B)(i), the prohibition under section 403(a)(5)(C)(vii) of the Social Security Act (42 U.S.C. 603(a)(5)(C)(vii)) on the use of grant funds for matching requirements shall not apply to Federal or State funds to be used for transportation purposes.

(5) GOVERNMENT SHARE OF COSTS.—

(A) IN GENERAL.—A grant made under this section shall be subject to the same requirements as a grant under section 5307, to the extent the Secretary determines appropriate.

(2) CERTIFICATION REQUIREMENTS.—

(A) PROJECT SELECTION AND PLAN DEVELOPMENT.—Before receiving a grant under this section, each recipient shall certify that—

(i) the projects selected by the recipient are included in a locally developed, coordinated public transit-human services transportation plan;

(ii) the plans described in clause (i) was developed and approved through a process that included participation by seniors, individuals with disabilities, representatives of public, private, and nonprofit transportation and human services providers, and other members of the public; and

(iii) the maximum extent feasible, the services funded under this section will be coordinated with transportation services assisted by other Federal departments and agencies.

(B) ALLOCATIONS TO SUBRECIPIENTS.—If a recipient allocates funds received under this section to subrecipients, the recipient shall certify that the funds are allocated on a fair and equitable basis.

(1) COMPETITIVE PROCESS FOR GRANTS TO SUBRECIPIENTS.—

(i) AREAWIDE SOLICITATIONS.—A recipient of funds apportioned under subsection (c)(1)(A) may conduct, in cooperation with the appropriate metropolitan planning organization, an areawide solicitation for applications for grants under this section.

(ii) STATEWIDE SOLICITATIONS.—A recipient of funds apportioned under subsection (b) (C) of subsection (c)(1) may conduct a statewide solicitation for applications for grants under this section.

(iii) APPLICATION.—If the recipient elects to engage in a competitive process, a recipient or subrecipient seeking to receive a grant from funds apportioned under subsection (c) shall submit to the recipient making the election an application in such form and in accordance with such requirements as the recipient making the election shall establish.

(2) TRANSFERS OF FACILITIES AND EQUIPMENT.—A recipient may transfer a facility or equipment acquired under this section to any other recipient eligible to receive assistance under this chapter, if—
Section 5311 of title 49, United States Code, is amended to read as follows:

3S311. Formula grants for other than urbanized areas

(a) Definitions.—As used in this section, the following definitions shall apply:

(1) Recipient.—The term 'recipient' means a State or local government that receives a Federal transit program grant directly from the Government.

(2) Subrecipient.—The term 'subrecipient' means a State or local governmental unit, a nonprofit organization, or an entity that provides public transportation or intercity bus service that receives Federal transit program grant funds indirectly through a recipient.

(b) General Authority.—

(1) Grants authorized.—Except as provided by paragraph (2), the Secretary may award grants under this section to recipients located in areas other than urbanized areas for—

(A) planning, provided that a grant under this program for planning activities shall be in addition to funding awarded to a State under section 5305 for planning activities that are directed specifically at the needs of other than urbanized areas in the State;

(B) public transportation capital projects;

(C) operating costs of equipment and facilities for use in public transportation; and

(D) the acquisition of public transportation services, including service agreements with private providers of public transportation service.

(2) State program.—

(A) IN GENERAL.—A project eligible for a grant under this section shall be included in a State program for public transportation service projects, including agreements with private providers of public transportation service.

(B) Submission to secretary.—Each State shall submit to the Secretary annually the program described in subparagraph (A).

(C) Approval.—The Secretary may not approve the program unless the Secretary determines that—

(i) the program provides a fair distribution of amounts in the State, including Indian reservations; and

(ii) the State provides the maximum feasible coordination of public transportation service assisted under this section with transportation service assisted by other Federal sources.

(3) Rural transportation assistance program.—

(A) IN GENERAL.—The Secretary shall carry out a rural transportation assistance program in other than urbanized areas.

(B) Grants and contracts.—In carrying out this program, the Secretary may use not more than 2 percent of the amount made available under section 5338(a)(2)(F) to make grants and contracts for transportation research, technical assistance, training, and related support services in other than urbanized areas.

(C) Recipients of a national scope.—Not more than 15 percent of the amounts available under subparagraph (B) may be used by the Secretary to carry out projects of a national scope, with the remaining balance provided to the States.

(4) Data collection.—Each recipient under this section shall submit an annual report to the Secretary containing information on capital investment, operations, and services provided with funds received under this section, including—

(A) total assets and revenue;

(B) sources of revenue;

(C) total annual operating costs;

(D) total annual capital costs;

(E) fleet size and type, and related facilities;

(F) vehicle revenue miles; and

(G) ridership.

(c) Apportionments.—

(1) Public transportation on Indian reservations.—Of the amounts made available or appropriated for each fiscal year pursuant to section 5338(a)(2)(F) to carry out this paragraph, the following amounts shall be apportioned each fiscal year for grants to Indian tribal governments—

(A) $10,000,000 shall be distributed on a competitive basis by the Secretary.

(B) $20,000,000 shall be apportioned as follows—

(i) the term 'public transportation on Indian reservations' has the same meaning as in section 1502 of title 40; and

(ii) a recipient may use funds received under this paragraph to carry out projects of a national scope, with the remaining balance provided to the States.

(2) Appalachian development public transportation assistance program.—

(A) Definitions.—In this paragraph—

(i) the term 'Appalachian region' has the same meaning as in section 14102 of title 40; and

(ii) the term 'eligible recipient' means a State that is a member of the Appalachian Regional Commission.

(B) Apportionments.—Of amounts made available or appropriated for each fiscal year pursuant to section 5338(a)(2)(F) to carry out this program, the Secretary shall—

(i) apportion funds to eligible recipients for any purpose that is equal to 29.68 percent of the amount apportioned under subclause (I), multiplied by the ratio of the land area in areas other than urbanized areas in that State and divided by the land area in all areas other than urbanized areas in the United States, as determined by the most recent decennial census of population;

(ii) apportion funds to eligible recipients for any purpose that is equal to 15.65 percent of the amount apportioned under subclause (I), multiplied by the ratio of the population of areas other than urbanized areas in that State and divided by the population of all areas other than urbanized areas in the United States, as determined by the most recent decennial census of population;

(iii) apportion funds to eligible recipients for any purpose that is equal to 16.85 percent of the amount apportioned under subclause (I), multiplied by the ratio of the number of low-income individuals other than urbanized areas in that State and divided by the number of low-income individuals in all areas other than urbanized areas in the United States, as determined by the most recent decennial census of population.

(C) Appalachian program on Indian reservations.—

(i) IN GENERAL.—The amounts made available or appropriated for each fiscal year pursuant to section 5338(a)(2)(F) to carry out this program shall be apportioned to the States in accordance with this subparagraph.

(D) Land area.—Subject to clause (v), each State shall receive an amount that is equal to 29.68 percent of the amount apportioned under clause (i), multiplied by the ratio of the land area in areas other than urbanized areas in that State and divided by the land area in all areas other than urbanized areas in the United States, as determined by the most recent decennial census of population.

(E) Vehicle revenue miles, and low-income individuals in nonurbanized areas.—

(i) IN GENERAL.—16.85 percent of the amount described in subparagraph (A) shall be apportioned to the States in accordance with this subparagraph.

(ii) LAND AREA.—Subject to clause (v), each State shall receive an amount that is equal to 29.68 percent of the amount apportioned under clause (i), multiplied by the ratio of the land area in areas other than urbanized areas in that State and divided by the land area in all areas other than urbanized areas in the United States, as determined by the most recent decennial census of population.

(F) Low-income individuals.—Subject to clause (v), each State shall receive an amount that is equal to 29.68 percent of the amount apportioned under clause (i), multiplied by the ratio of the number of low-income individuals in areas other than urbanized areas in that State and divided by the number of low-income individuals in all areas other than urbanized areas in the United States, as determined by the most recent decennial census of population.

(G) Vehicle revenue miles, and technical assistance.—

(i) IN GENERAL.—The amounts made available or appropriated for each fiscal year pursuant to section 5338(a)(2)(F) that are not apportioned under paragraph (1) or (2) shall be apportioned in accordance with this paragraph.

(ii) Apportionment based on land area and population in nonurbanized areas.—

(A) IN GENERAL.—The amounts made available or appropriated for each fiscal year pursuant to section 5338(a)(2)(F) to carry out this paragraph, the Secretary shall—

(i) apportion funds to eligible recipients for any purpose that is equal to 20 percent of the amount apportioned under clause (i), multiplied by the ratio of the land area in areas other than urbanized areas in that State and divided by the land area in all areas other than urbanized areas in the United States, as determined by the most recent decennial census of population.

(B) Maximum apportionment.—No State shall receive more than 5 percent of the amount apportioned under subclause (I).

(C) Apportionment based on land area, vehicle revenue miles, and low-income individuals in nonurbanized areas.—

(i) IN GENERAL.—15.65 percent of the amount described in subparagraph (A) shall be apportioned to the States in accordance with this subparagraph.

(ii) Land area.—Subject to clause (v), each State shall receive an amount that is equal to 29.68 percent of the amount apportioned under clause (i), multiplied by the ratio of the land area in areas other than urbanized areas in that State and divided by the land area in all areas other than urbanized areas in the United States, as determined by the most recent decennial census of population.

(iii) Vehicle revenue miles.—Subject to clause (v), each State shall receive an amount that is equal to 29.68 percent of the amount apportioned under clause (i), multiplied by the ratio of vehicle revenue miles in areas other than urbanized areas in that State and divided by the vehicle revenue miles in all areas other than urbanized areas in the United States, as determined by national transit database reporting.

(iv) Low-income individuals.—Each State shall receive an amount that is equal to 96.64 percent of the amount apportioned under clause (i), multiplied by the ratio of low-income individuals in areas other than urbanized areas in that State and divided by the number of low-income individuals in all areas other than urbanized areas in the United States, as determined by the Bureau of the Census.

(v) Maximum apportionment.—No State shall receive—

(A) more than 5 percent of the amount apportioned under clause (i); or

(B) more than 5 percent of the amount apportioned under clause (iii).

(i) Use for local transportation service.—A State may use an amount apportioned under this section for a project included in a program under subclause (b) of title 49, United States Code, for the current fiscal year if the Secretary determines that the project will provide local transportation service, as defined by the Secretary of Transportation, in an area other than an urbanized area.

(ii) Use for administration, planning, and technical assistance.—The Secretary may use amounts apportioned under this paragraph for administrative services, planning, and technical assistance as defined by the Secretary.
provide technical assistance to a sub-
recipient, including project planning, pro-
gram and management development, coordi-
nation of public transportation programs, and
research the State considers necessary to pro-
to promote effective delivery of public trans-
portation to an area other than an urbanized area.

(1) Intercity Bus Transportation.—

(1) In General.—A State shall expend at
least 15 percent of the amount made avail-
able in each fiscal year to carry out a pro-
gram to develop and support intercity bus
transportation. Eligible activities under the program include—

(A) planning and marketing for intercity bus
transportation;

(B) capital grants for intercity bus
shelters;

(C) joint-use stops and depots;

(D) operating grants through purchase-of-
service agreements, user-side subsidies, and demonstration programs;

(E) coordinating rural connections be-
 tween small public transportation operations and
intercity bus carriers.

(2) Certification.—A State does not have to comply with paragraph (1) of this sub-
section in a fiscal year in which the Gover-
nor of the State certifies to the Secretary, after
consultation with affected intercity bus
service providers, that the intercity bus
service needs of the State are being met ade-
quately.

(2) Access to Jobs Projects.—

(1) In General.—Amounts made available
under section 5333(a)(2)(F) may be used to carry out a program to develop and maintain
job access projects. Eligible projects may in-
clude—

(A) projects relating to the development and main-
tenance of public transportation services
designed to transport eligible low-
income individuals to and from jobs and ac-
tivities related to their employment, includ-
ing—

(i) public transportation projects to fi-
nance planning, capital, and operating costs
of providing access to jobs under this chap-
ter;

(ii) promoting public transportation by
low-income workers, including the use of
public transportation by workers with non-
traditional hours or reverse commutes;

(iii) the use of transit vouchers for
welfare recipients and eligible low-in-
come individuals; and

(iv) demonstrating the use of employer-pro-
vided transportation, including the transit
pass benefit program under section 132 of the
Internal Revenue Code of 1986; and

(B) transportation projects designed to
support the use of public transportation in-
cluding—

(i) enhancements to existing public trans-
portation service for workers with non-tradi-
tional hours or reverse commutes;

(ii) guaranteed ride home programs;

(iii) bicycle storage facilities; and

(iv) any other projects that otherwise
facilitate the provision of public transportation services to
employment opportunities.

(2) Project Selection and Plan Devel-
opment.—A State seeking grant under this sub-
section shall certify that—

(A) the projects selected were included in a
locally developed, coordinated public trans-
portation plan, and otherwise facilitate the
 provision of public transportation services for workers with non-traditional
hours or reverse commutes;

(B) the plan was developed and approved
through a process that included participa-
tion by low-income individuals, representa-
tives of public, private, and nonprofit trans-
portation and human services providers, and
the public;

(C) to the maximum extent feasible, serv-
ices from all of the States are coordi-
nated with transportation services funded by
other Federal departments and agencies; and

(D) allocations of the grant to subrecipi-
tents, if any, are distributed on a fair and equ-
itable basis.

(3) Competitive Process for Grants to Subrecipien-
tents.—

(A) Statewide Solicitations.—A State may
conduct a statewide solicitation for ap-
lications for grants to recipients and sub-
recipients under this subsection.

(B) Application.—If the State elects to
engage in a competitive process, recipients and subrecipients seeking to receive a grant from apportioned funds shall submit to the
State an application in the form and in ac-
cordance with such requirements as the State shall establish.

(B) Government Share of Costs.—

(1) Capital Projects.—

(A) In General.—Except as provided by
subparagraph (B), a grant awarded under this section for a capital project or project ad-
mministrative expenses shall be for 80 percent
of the net costs of the project, as determined by the Secretary.

(B) Exception.—A State described in sec-
tion 210(b) of title 23 shall receive a Govern-
ment share of the net costs in accordance with the formula under that section.

(2) Operating Assistance Projects.—

(A) In General.—Except as provided by
subparagraph (B), a grant made under this section for operating assistance may not ex-
ceed 50 percent of the net operating costs of
the project, as determined by the Secretary.

(B) Exception.—A State described in sec-
tion 210(b) of title 23 shall receive a Govern-
ment share of the net operating costs equal
to 62.5 percent of the Government share pro-
vided for under paragraph (1)(B).

(3) Remainder.—The remainder of net project costs may be provided from an undistrib-
cuted cash surplus, a replacement or deprecia-
tion cash fund or reserve, a service agree-
mint with a local social services agency or a private social service organization,
or new capital.

(B) may be derived from amounts appro-
priated or otherwise made available to a de-
partment or agency of the Government
(other than the Department of Transpor-
tation) that are eligible to be expended for
transit and rail projects;

(C) notwithstanding subparagraph (B),
may be derived from amounts made avail-
able to carry out the Federal lands highway
program under section 2002 of title 23.

(4) Use of Certain Funds.—For purposes of
paragraph (3)(B), the prohibitions on the use of funds for matching requirements
under section 210(c)(2) of title 23 and
Community Services Block Grant Act (42 U.S.C. 9902(2)), shall not apply to Federal or State funds to be
used for transportation purposes.

(5) Limitation on Operating Assist-
ance.—A State carrying out a program of op-
erating assistance under this section may
not limit the level or extent of use of the
Government grant for the payment of oper-
ating expenses.

(6) Transfer of Facilities and Equip-
ment.—With the consent of the recipient
currently having a facility or equipment ac-
quired with assistance under this section, a
State may transfer the facility or equipment to
any recipient eligible to receive assist-
ance under this chapter if the facility or equip-
ment will continue to be used as re-
quired under this subsection.

(7) Relationship to Other Laws.—

(1) In General.—The Secretary may make
grants and enter into contracts, cooperative
agreements, and other agreements for re-
search, development, demonstration, and
deployment projects, and evaluation of re-
search and technology of national signifi-
cance to public transportation, that the Sec-
retary determines will improve public trans-
portation.

(2) Agreements.—In order to carry out
paragraph (1), the Secretary may make
grants and enter into cooperative,
collaborative agreements, and other agreements with

SEC. 40013. RESEARCH, DEVELOPMENT, DEMO-
NSTRATION, AND DEPLOYMENT PROJECTS.

(1) In General.—The Secretary may make
grants and enter into contracts, cooperative
agreements, and other agreements for re-
search, development, demonstration, and
deployment projects, and evaluation of re-
search and technology of national signifi-
cance to public transportation, that the Sec-
retary determines will improve public trans-
portation.
“(A) departments, agencies, and instrumentalities of the Government;

“(B) State and local governmental entities;

“(C) providers of public transportation;

“(D) private or non-profit organizations;

“(E) institutions of higher education; and

“(F) technical and community colleges.

SECTION 3.—

“(A) IN GENERAL.—To receive a grant, contract, cooperative agreement, or other agreement under this section, an entity described in subsection (a)(2) shall submit an application to the Secretary.

“(B) FORM AND CONTENTS.—An application under subparagraph (A) shall be in such form and contain such information as the Secretary may require, including—

“(i) a statement of purpose detailing the need being addressed;

“(ii) the short- and long-term goals of the project, including opportunities for future innovation and development, the potential for deployment, and benefits to riders and public transportation; and

“(iii) the short- and long-term funding requirements to complete the project and any future objectives of the project.

“(c) INNOVATION AND DEVELOPMENT.—

“(1) IN GENERAL.—The Secretary may make a grant to or enter into a contract, cooperative agreement, or other agreement under this section, including a provider of public transportation that has broad applicability.

“(2) PARTICIPANTS.—An entity described in this paragraph is—

“(A) an entity described in subsection (a)(2); or

“(B) a consortium of entities described in subsection (a)(2), including a provider of public transportation, that will share the costs, risks, and rewards of early deployment and demonstration of the innovation.

“(d) DEMONSTRATION, DEPLOYMENT, AND EVALUATION.—

“(1) IN GENERAL.—The Secretary may, under terms and conditions that the Secretary prescribes, make a grant to or enter into a contract, cooperative agreement, or other agreement with an entity described in paragraph (2) to promote the early deployment and demonstration of innovation in public transportation that has broad applicability.

“(2) PARTICIPANTS.—An entity described in this paragraph is—

“(A) an entity described in subsection (a)(2); or

“(B) a consortium of entities described in subsection (a)(2), including a provider of public transportation, that will share the costs, risks, and rewards of early deployment and demonstration of the innovation.

“(e) ANNUAL REPORT ON RESEARCH.—Not later than 2 years after the date on which a project receives assistance under paragraph (1), the Secretary shall conduct a comprehensive evaluation of the success or failure of the projects funded under this section and any plan for broad-based implementation of the innovation promoted by successful projects.

“(f) RESEARCH.—

“(1) IN GENERAL.—The Secretary may make a grant to or enter into a contract, cooperative agreement, or other agreement under this section, including a provider of public transportation, that has broad applicability.

“(2) PARTICIPANTS.—An entity described in this paragraph is—

“(A) an entity described in subsection (a)(2); or

“(B) a consortium of entities described in subsection (a)(2), including a provider of public transportation, that will share the costs, risks, and rewards of early deployment and demonstration of the innovation.

“(3) PROJECT ELIGIBILITY.—A project that receives assistance under paragraph (1) shall seek to build on successful research, innovation, and development efforts to facilitate implementation.

“(4) EVALUATION.—Not later than 2 years after the date on which a project receives assistance under paragraph (1), the Secretary shall conduct a comprehensive evaluation of the success or failure of the projects funded under this section and any plan for broad-based implementation of the innovation promoted by successful projects.

“(5) P ARTNERSHIPS.—An eligible entity shall—

“(1) a description of each project that received assistance under this section during the preceding fiscal year;

“(2) an evaluation of each project described in paragraph (1), including any evaluation conducted under subsection (d)(4) for the preceding fiscal year; and

“(3) a proposal for allocations of amounts for assistance under this section for the subsequent fiscal year.

“(6) GOVERNMENT SHARE OF COSTS.—

“(1) IN GENERAL.—The Government share of the cost of a project carried out under this section shall not exceed 80 percent.

“(2) NON-GOVERNMENT SHARE.—The non-Government share of the cost of a project carried out under this section may be derived from in-kind contributions.

“(3) FINANCING.—If the Secretary determines that there would be a clear and direct financial benefit to an entity under a grant, contract, cooperative agreement, or other agreement under this section, the Secretary shall establish a Government share of the costs of the project to be carried out under the grant, contract, cooperative agreement, or other agreement that is consistent with the benefit.

“SEC. 40014. TECHNICAL ASSISTANCE AND STANDARDS DEVELOPMENT.

“(a) TECHNICAL ASSISTANCE AND STANDARDS DEVELOPMENT.—

“(1) IN GENERAL.—The Secretary may make grants and enter into contracts, cooperative agreements, and other agreements (including agreements with departments, agencies, and instrumentalities of the Government) to carry out activities that the Secretary determines will assist recipients of assistance under this chapter to—

“(A) more effectively and efficiently provide public transportation service;

“(B) administer funds received under this chapter in compliance with Federal law; and

“(C) improve public transportation.

“(2) ELIGIBLE ACTIVITIES.—The activities carried out under paragraph (1) may include—

“(A) technical assistance; and

“(B) the development of standards and best practices by the public transportation industry.

“(b) TECHNICAL ASSISTANCE CENTERS.—

“(1) DEFINITION.—In this subsection, the term ‘eligible entity’ means a nonprofit organization, an institution of higher education, or a technical or community college.

“(2) IN GENERAL.—The Secretary may make grants and enter into contracts, cooperative agreements, and other agreements with eligible entities to carry out activities that the Secretary determines will assist recipients of assistance under this chapter to—

“(A) improve public transportation;

“(B) Congressional Record — Senate

February 9, 2012

S526

85314. Technical assistance and standards development

“(a) TECHNICAL ASSISTANCE AND STANDARDS DEVELOPMENT.—

“(1) IN GENERAL.—The Secretary may make grants and enter into contracts, cooperative agreements, and other agreements (including agreements with departments, agencies, and instrumentalities of the Government) to carry out activities that the Secretary determines will assist recipients of assistance under this chapter to—

“(A) more effectively and efficiently provide public transportation service;

“(B) administer funds received under this chapter in compliance with Federal law; and

“(C) improve public transportation.

“(2) ELIGIBLE ACTIVITIES.—The activities carried out under paragraph (1) may include—

“(A) technical assistance; and

“(B) the development of standards and best practices by the public transportation industry.

“(3) ELIGIBLE ENTITIES.—An entity described in paragraph (1) may carry out activities that the Secretary determines important to advance the interests of public transportation.

“(4) PERFORMANCE REPORT.—An eligible entity shall conduct a comprehensive evaluation of the success or failure of the projects funded under this section and any plan for broad-based implementation of the innovation promoted by successful projects.

“(5) PARTNERSHIPS.—An entity described in this paragraph is—

“(A) an entity described in subsection (a)(2); or

“(B) a consortium of entities described in subsection (a)(2), including a provider of public transportation, that will share the costs, risks, and rewards of early deployment and demonstration of the innovation.

“(c) GOVERNMENT SHARE OF COSTS.—

“(1) IN GENERAL.—The Government share of the cost of a project carried out under this section shall not exceed 80 percent.

“(2) NON-GOVERNMENT SHARE.—The non-Government share of the cost of a project carried out under this section may be derived from in-kind contributions.

“(3) FINANCING.—If the Secretary determines that there would be a clear and direct financial benefit to an entity under a grant, contract, cooperative agreement, or other agreement under this section, the Secretary shall establish a Government share of the costs of the project to be carried out under the grant, contract, cooperative agreement, or other agreement that is consistent with the benefit.”.
SEC. 40015. BUS TESTING FACILITIES. Section 5320(b) of the United States Code, is amended to read as follows:

```
§ 5320. Bus testing facilities.

(a) Facilities.—The Secretary shall certify not more than 4 comprehensive facilities for testing new models for maintainability, safety, reliability, performance (including braking performance), structural integrity, fuel economy, emissions, and noise. The Secretary may enter into a cooperative agreement with not more than 4 qualified entities to test public transportation vehicles under subsection (a).

(b) Availability of Funds To Pay For Testing.—

(1) IN GENERAL.—The Secretary shall enter into a cooperative agreement with an entity that operates and maintains a facility certified under subsection (a) to establish and collect reasonable fees for the testing of vehicles at the facility. The Secretary must approve the fees.

(2) AVAILABILITY OF AMOUNTS TO PAY FOR TESTING.—

(A) FACILITIES.—The Secretary shall certify a cooperative agreement with an entity that operates and maintains a facility described in subsection (a), under which 80 percent of the fee for testing a vehicle at the facility may be available from amounts appropriated or made available to a recipient under section 5306 or from amounts appropriated to carry out this section.

(B) NON-GOVERNMENT SHARE.—The non-government share, if the minimum safety performance standards established by the Secretary are met in the outcome of the testing carried out at the facility, shall be 50 percent.

(c) ACQUIRING NEW BUS MODELS.—

Amounts appropriated or made available under this chapter may be obligated or expended to acquire a new bus model only if—

(1) a bus of that model has been tested at a facility described in subsection (a); and

(2) the bus tested under paragraph (1) met—

(A) performance standards for maintainability, reliability, performance (including braking performance), structural integrity, fuel economy, emissions, and noise, as established by the Secretary by rule; and

(B) the minimum safety performance standards established by the Secretary pursuant to section 5320(b).''

SEC. 40016. PUBLIC TRANSPORTATION WORKFORCE DEVELOPMENT AND HUMAN RESOURCE PROGRAMS.

Section 5322 of title 49, United States Code, is amended to read as follows:

```
§ 5322. Public transportation workforce development and human resource programs.

(a) IN GENERAL.—The Secretary may undertake, or make grants or enter into contracts with, public or private entities that address human resource needs as the needs apply to public transportation activities, including activities that—

(1) attract and train employees;

(2) develop the public transportation workforce through career outreach and preparation;

(3) develop a curriculum for workforce development;

(4) conduct outreach programs to increase minority and female employment in public transportation; and

(5) conduct research on public transportation personnel and training needs;

(b) provide training and assistance for minority and female employees in public transportation; and

(c) advance training relating to maintenance of alternative energy, energy efficiency, or zero emission vehicles and facilities used in public transportation; and

(d) address a current or projected workforce shortage in an area that requires technical expertise.

(b) FUNDING.—

(1) URBANIZED AREA FORMULA GRANTS.—A recipient or subrecipient of funding under section 5307 shall expend not less than 0.5 percent of such funding for activities consistent with subsection (a).

(2) WAIVER.—The Secretary may waive the requirement under paragraph (1) with respect to a recipient or subrecipient if the Secretary determines that the recipient or subrecipient—

(A) has an adequate workforce development program; or

(B) has partnered with a local educational institution in efficiently promotes or addresses workforce development and human resource needs.

(c) INNOVATIVE PUBLIC TRANSPORTATION WORKFORCE DEVELOPMENT PROGRAM.—

(1) PROGRAM ESTABLISHED.—The Secretary shall establish a competitive grant program to assist the development of innovative activities eligible for assistance under subsection (a).

(2) SELECTION OF RECIPIENTS.—To the maximum extent feasible, the Secretary shall select recipients that—

(A) are geographically diverse;

(B) address the workforce and human resource needs of large public transportation providers;

(C) address the workforce and human resource needs of small public transportation providers;

(D) address the workforce and human resource needs of urban public transportation providers;

(E) address the workforce and human resource needs of rural public transportation providers;

(F) advance training related to maintenance of alternative energy, energy efficiency, or zero emission vehicles and facilities used in public transportation;

(G) target areas with high rates of unemployment; and

(H) address current or projected workforce shortages in areas that require technical expertise.

(d) GOVERNMENT'S SHARE OF COSTS.—The Secretary shall—

(1) IN GENERAL.—The Secretary shall select recipients that—

(A) are geographically diverse;

(B) maintain a cooperative agreement with an entity that operates and maintains a facility described in subsection (a); and

(C) address the workforce and human resource needs of large public transportation providers;

(D) address the workforce and human resource needs of small public transportation providers;

(E) address the workforce and human resource needs of urban public transportation providers;

(F) address the workforce and human resource needs of rural public transportation providers;

(G) target areas with high rates of unemployment; and

(H) address current or projected workforce shortages in areas that require technical expertise.

(e) REPORT.—Not later than 2 years after the date of enactment of the Federal Public Transportation Act of 2012, the Secretary shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report concerning the measurable outcomes and impacts of the programs funded under this section.

SEC. 40017. GENERAL PROVISIONS.

Section 5323 of title 49, United States Code, is amended to read as follows:

```
§ 5323. General provisions.

(a) INTERESTS IN PROPERTY.—

(1) IN GENERAL.—The Secretary may use the right-of-way acquired under this subsection to the maximum extent feasible; and

(2) WAIVER.—The Secretary may waive the requirement under paragraph (1) with respect to a recipient or subrecipient if the Secretary determines that the right-of-way acquired under this subsection may not have a substantial impact on the environment.

(b) COMPLIANCE WITH NEPA.—The National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall apply to financial assistance for capital projects under this chapter.

(c) CONSIDERATION OF ECONOMIC, SOCIAL, AND ENVIRONMENTAL INTERESTS.—

(1) COOPERATION AND CONSULTATION.—In carrying out the goal described in section 5301(c)(2), the Secretary shall cooperate and consult with the Secretary of the Interior and the Administrator of the Environmental Protection Agency on projects that may have a substantial impact on the environment.

(2) REPORT.—The National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall apply to financial assistance for capital projects under this chapter.

(d) WAIVER.—The Secretary may waive the requirement under paragraph (1) with respect to a recipient or subrecipient if the Secretary determines that the right-of-way acquired under this subsection may have a substantial impact on the environment.

(e) CONDITION ON CHARTER BUS TRANSPORTATION SERVICE.—

(1) AGREEMENTS.—Financial assistance under this chapter may be used to buy or operate a bus only if the applicant, governmental authority, or publicly owned entity receiving the assistance agrees that, except as provided in the agreement, the governmental authority or an operator of public transportation for the governmental authority will not provide charter bus transportation service outside the urban area in which it provides regularly scheduled public transportation service. An agreement shall provide for a fair arrangement the Secretary of Transportation considers appropriate to ensure that the assistance will not enable a governmental authority or an operator for a governmental authority to foreclose a private operator from providing intercity charter bus service if the private operator can provide the service.

(f) VIOLATIONS.—

(1) INVESTIGATIONS.—On receiving a complaint about a violation of the agreement required under paragraph (1), the Secretary shall investigate and decide whether a violation has occurred.

(2) ENFORCEMENT OF AGREEMENTS.—If the Secretary determines that a violation has occurred under paragraph (1), the Secretary shall require the operator to pay any remedy specified in the agreement, the Secretary of Transportation considers appropriate to ensure that the assistance will not enable a governmental authority or an operator for a governmental authority to foreclose a private operator from providing intercity charter bus service if the private operator can provide the service.

(3) ADDITIONAL REMEDIES.—In addition to any remedy specified in the agreement, the Secretary may require the operator from violating the agreement to cease and desist from the violation.
appropriate if the Secretary finds a pattern of violations of the agreement.

"(f) Bond Proceeds Eligible for Local Share.—The Secretary shall bar a recipient or an operator from receiving Federal transit assistance if the Secretary finds that an applicant, governmental authority, or publicly owned operator has violated the agreement required under paragraph (1), the Secretary has waived the requirement of this subsection if such waiver is on the manufacturer or supplier of steel, iron, or manufactured goods used in the project. The Secretary may terminate financial assistance under this chapter and seek reimbursement directly, or by offsetting the amounts, available under this chapter if the Secretary determines that a recipient of such financial assistance has made a false or fraudulent statement or related act in connection with a Federal public transportation program.

"(g) Schoolbus Transportation.—(1) AGREEMENTS.—Financial assistance under this chapter may be used for a capital project for the purchase of school bus transportation equipment or a public transportation facility, only if the applicant agrees not to provide schoolbus transportation that exclusively transports students and school personnel in competition with a private school-bus operator. This subsection does not apply—

"(A) to a private school-bus operator; or

"(B) unless a private school-bus operator can provide adequate transportation that complies with applicable safety standards at reasonable rates.

"(2) Violations.—(A) If the Secretary finds that an applicant, governmental authority, or publicly owned operator has violated the agreement required under paragraph (1), the Secretary may not make any waiver under paragraph (2), the Secretary shall—

"(i) publish in the Federal Register and make publicly available in an easily identifiable location on the Federal Public Transportation System Web site a detailed written explanation of the waiver determination; and

"(ii) provide the public with a reasonable period of time for notice and comment.

"(B) WAIVER DETERMINATION AND ANNUAL REPORT.—

"(A) Written Waiver Determination.—Before issuing a waiver under paragraph (2), the Secretary shall—

"(i) publish in the Federal Register and make publicly available in an easily identifiable location on the Federal Public Transportation System Web site a detailed written explanation of the waiver determination; and

"(ii) provide the public with a reasonable period of time for notice and comment.

"(B) Annual Report.—Not later than 1 year after the date of enactment of the Federal Public Transportation Act of 2012, and annually thereafter, the Secretary shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report listing any waiver issued under paragraph (2) during the preceding year.

"(C) Labor Costs for Final Assembly.—In this subsection, labor costs involved in final assembly are not included in calculating the cost of components.

"(D) Waiverrpmitted.—The Secretary may not make a waiver under paragraph (2) of this subsection for goods produced in a foreign country if the Secretary, in consulta-

"(E) Participation of Governmental Agencies and Nonprofit Organizations.—Governmental agencies and nonprofit organizations that receive assistance under this chapter may use funds under this chapter to purchase buses and rolling stock for the purposes stated in this section.

"(f) Acquisition of Rolling Stock.—The Secretary may require that—

"(1) a grant or loan may not be used to—

"(A) pay ordinary governmental or non-project operating expenses; or

"(B) support a procurement that uses an exclusionary or discriminatory specification.

"(2) Government Share of Costs for Certain Noncapital Projects.—A grant for a project to be assisted under this chapter that involves acquiring vehicle-related equipment or facilities required to be compliant with those Acts. The Secretary shall have discretion to determine, through practicable administrative procedures, the costs of such equipment or facilities attributable to compliance with those Acts.

"(k) Buy America.

"(l) Participation of Governmental Agencies and Nonprofit Organizations.—Governmental agencies and nonprofit organizations that receive assistance under this chapter may use funds under this chapter to purchase buses and rolling stock for the purposes stated in this section.

"(m) Relationship to Other Laws.—(1) Fraud and False Statements.—Sec-

"(n) Preaward and Postdelivery Review of Rolling Stock Purchases.—The Secretary shall prescribe regulations requiring a preaward and postdelivery review of a grant under this chapter to buy rolling stock to ensure compliance with Government motor vehicle safety requirements, subsection (k) of section 103 of title 49, Code of Federal Regulations, or any other agency or entity performing related functions) shall not otherwise apply.

"(o) Submission of Certifications.—A certification required under this chapter and
any additional certification or assurance required by law or regulation to be submitted to the Secretary may be consolidated into a single document to be submitted annually as part of the application or report under this chapter. The Secretary shall publish annually a list of all certifications required under this chapter with the publication required under section 5338(g).

‘‘(p) GRANT REQUIREMENTS.—The grant requirements under sections 5307, 5309, and 5337 apply to any project under this chapter that receives financial assistance or other funding under chapter 6 (other than section 609) of title 23.

‘‘(q) ALTERNATIVE FUELING FACILITIES.—A recipient of assistance under this chapter may allow the incidental use of federally funded alternative fueling facilities and equipment owned or leased by a nontransit public entity or private entity if—

‘‘(1) the incidental use does not interfere with the recipient’s public transportation operations;

‘‘(2) all costs related to the incidental use are fully recaptured by the recipient from the incidental use in excess of costs for planning, capital, and operating expenses that would have been incurred in providing public transportation and private entities if—

‘‘(1) the incidental use does not interfere with the recipient’s public transportation operations;

‘‘(2) all costs related to the incidental use are fully recaptured by the recipient from the incidental use in excess of costs for planning, capital, and operating expenses that would have been incurred in providing public transportation; and

‘‘(3) private entities pay all applicable excise taxes on fuel.

‘‘(r) FIXED GUIDEWAY CATEGORICAL EXCLUSION.—

‘‘(1) STUDY.—Not later than 6 months after the date of enactment of the Federal Public Transportation Act of 2012, the Secretary shall conduct a study to determine the feasibility of providing a categorical exclusion for streetcar, bus rapid transit, and light rail projects that would otherwise be within an existing transportation right-of-way from the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) in accordance with the Council on Environmental Quality implementing regulations under parts 1500 through 1506 of title 40, Code of Federal Regulations, or any successor thereto.

‘‘(2) FINDINGS AND RULES.—Not later than 1 year after the date of enactment of the Federal Public Transportation Act of 2012, the Secretary shall issue and publish findings and, if appropriate, a categorical exclusion for suitable categories of projects.

SEC. 40018. CONTRACT REQUIREMENTS.

Section 5325 of title 49, United States Code, is amended—

(1) in subsection (h), by striking ‘‘Federal Public Transportation Act of 2005’’ and inserting ‘‘Federal Public Transportation Act of 2012’’;

(2) in subsection (j)(2)(C), by striking ‘‘, including the performance reported in the Contractor Performance Assessment Reports required by’’;

(3) by adding at the end the following:

‘‘(k) VETERANS EMPLOYMENT.—Recipients and subrecipients of Federal financial assistance under this chapter shall ensure that contractors working on a capital project funded using such assistance give a hiring preference to veterans, as defined in section 2106 of title 5, who have the requisite skills and abilities to perform the construction work required under the contract.’’;

SEC. 40019. TRANSIT ASSET MANAGEMENT.

Section 5326, United States Code, is amended to read as follows:

‘‘§ 5326. Transit asset management

‘‘(a) DEFINITIONS.—In this section the following definitions shall apply:

‘‘(1) The term ‘capital asset’ includes equipment, rolling stock, infrastructure, and facilities for use in public transportation and owned or leased by a recipient or subrecipient of Federal financial assistance under this chapter.

‘‘(2) TRANSIT ASSET MANAGEMENT PLAN.—The term ‘transit asset management plan’ means a plan developed by a recipient of funding under this chapter that—

‘‘(A) includes, at a minimum, capital asset investment priorities, and condition assessments, decision support tools, and investment prioritization; and

‘‘(B) the recipient certifies complies with the rule issuance.

‘‘(3) TRANSIT ASSET MANAGEMENT SYSTEM.—The term ‘transit asset management system’ means a strategic and systematic process of managing the capital or public transportation capital assets effectively throughout the life cycle of such assets.

‘‘(b) TRANSIT ASSET MANAGEMENT SYSTEM.—The Secretary shall establish and implement a national transit asset management system, which shall include—

‘‘(1) a definition of the term ‘state of good repair’ that includes objective standards for measuring the condition of capital assets of recipients, including equipment, rolling stock, infrastructure, and facilities;

‘‘(2) a requirement that recipients and subrecipients of Federal financial assistance under this chapter develop a transit asset management plan;

‘‘(3) a requirement that each recipient of Federal financial assistance under this chapter report on the condition of the system of the recipient and provide a description of any change in condition since the last report;

‘‘(4) an analytical process or decision support tool for use by public transportation systems that—

‘‘(A) allows for the estimation of capital investment needs of such systems over time; and

‘‘(B) assists with asset investment prioritization by such systems; and

‘‘(5) technical assistance to recipients of Federal financial assistance under this chapter.

‘‘(c) PERFORMANCE MEASURES AND TARGETS.—

‘‘(1) IN GENERAL.—Not later than 1 year after the date of enactment of the Federal Public Transportation Act of 2012, the Secretary shall issue a final rule to establish performance measures based on the state of good repair standards established under subsection (b)(1).

‘‘(2) TARGETS.—Not later than 3 months after the date on which the Secretary issues a final rule under paragraph (1), and each fiscal year thereafter, each recipient of Federal financial assistance under this chapter shall establish performance targets in relation to the performance measures established by the Secretary.

‘‘(3) REPORTS.—Each recipient of Federal financial assistance under this chapter shall submit to the Secretary an annual report that describes—

‘‘(A) the progress of the recipient during the fiscal year that relates to the performance targets established under paragraph (2) for that fiscal year; and

‘‘(B) the performance targets established by the recipient for the subsequent fiscal year.

‘‘(d) RULEMAKING.—Not later than 1 year after the date of enactment of the Federal Public Transportation Act of 2012, the Secretary shall issue a final rule to implement the transit asset management system described in subsection (b).

SEC. 40020. PROJECT MANAGEMENT OVERSIGHT.

Section 5327 of title 49, United States Code, is amended—

(1) in subsection (a)—

(A) in the matter preceding paragraph (1), by striking ‘‘United States’ and all that follows through ‘‘Secretary of Transportation’’ and inserting the following: ‘‘Federal financial assistance for a major capital project for public transportation under this chapter or any other provision of Federal law, a recipient may prepare a project management plan approved by the Secretary and carry out the project in accordance with the project management plan’’;

and

(2) by adding paragraph (12), by striking ‘‘each month’’ and inserting ‘‘quarterly’’;

(3) by striking subsections (c), (d), and (f); and

(4) inserting after subsection (b) the following:

‘‘(c) ACCESS TO SITES AND RECORDS.—Each recipient of Federal financial assistance for public transportation under this chapter or any other provision of Federal law shall provide the Secretary and a contractor the Secretary chooses under section 5338(g) with access to the construction sites and records of the recipient when reasonably necessary.’’;

(4) by redesignating subsection (e) as subsection (d); and

(5) in subsection (d), as so redesignated—

(A) in paragraph (1), by striking ‘‘subsection (c) of this section’’ and inserting section 5338(g); and

(B) in paragraph (2)—

(i) by adding at the end the following:

‘‘(I) the Secretary certifies that the project is a part of a grant application under this chapter with the publication required under section (c) of this section’’ and inserting section 5338(g); and

(ii) by striking ‘‘on the fiscal year’’;

(5) by redesignating subsection (f) as subsection (g);

and

(6) in subsection (g)—

(A) in paragraph (1), by striking ‘‘Federal Public Transportation Act of 2012;’’

(B) the Secretary shall publish annually a single document to be submitted annually as part of the application or report under this chapter.

and

(C) in paragraph (2)—

(i) by striking ‘‘preliminary engineering’’;

(ii) to the extent practicable, take into consideration—

(I) relevant recommendations of the National Transportation Safety Board; and

(II) recommendations of, and best practices standards developed by, the public transportation industry; and

(D) the definition of the term ‘state of good repair’ established under section 5326(b).

(C) minimum safety performance standards for public transportation vehicles used in revenue operations that—

(i) do not apply to rolling stock otherwise regulated by the Secretary or any other Federal agency; and

(ii) to the extent practicable, take into consideration—

(I) relevant recommendations of the National Transportation Safety Board; and

(II) recommendations of, and best practices standards developed by, the public transportation industry; and

(D) a public transportation safety certification training program, as described in subsection (c).

(e) PUBLIC TRANSPORTATION SAFETY CERTIFICATION TRAINING PROGRAM.—

(1) IN GENERAL.—The Secretary shall establish a public transportation safety certification training program for Federal and State employees, or other designated personnel, who conduct safety audits and examinations of public transportation systems and employees of public transportation agencies directly responsible for safety oversight.
(2) INTRIM PROVISIONS.—Not later than 90 days after the date of enactment of the Federal Public Transportation Act of 2012, the Secretary shall establish interim provisions for the final rule issued by the Secretary to carry out this subsection, each recipient shall certify that it has established a comprehensive agency safety plan that includes—

(A) a requirement that the board of directors (or equivalent entity) of the recipient approve the agency safety plan and any updates to the agency safety plan;

(B) methods for identifying and evaluating safety risks throughout all elements of the public transportation system of the recipient;

(C) strategies to minimize the exposure of the public, personnel, and property to hazards and unsafe conditions;

(D) a process and timeline for conducting an annual review and update of the safety plan of the recipient;

(E) performance targets based on the safety performance standards established under paragraphs (A) and (B), respectively, of subsection (b)(2);

(F) the receipt of an adequately trained safety officer who reports directly to the general manager, president, or equivalent officer of the recipient;

(G) a comprehensive staff training program for the operations personnel and personnel directly responsible for safety of the recipient that includes—

(i) the completion of a safety training program; and

(ii) continuing safety education and training.

(2) INTRIM AGENCY SAFETY PLAN.—A system safety plan developed pursuant to part 659 of title 49, Code of Federal Regulations, as in effect on the date of enactment of the Federal Public Transportation Act of 2012 shall remain in effect until such time as this subsection takes effect.

(e) STATE SAFETY OVERSIGHT PROGRAM.—

(1) APPLICABILITY.—This subsection applies only to eligible States.

(2) DEFINITION.—In this subsection, the term ‘eligible State’ means a State that has—

(A) a rail fixed guideway public transportation system within the jurisdiction of the State that is subject to regulation by the Federal Railroad Administration; or

(B) a rail fixed guideway public transportation system in the engineering or construction phase of development within the jurisdiction of the State that will not be subject to regulation by the Federal Railroad Administration.

(3) IN GENERAL.—In order to obligate funds apportioned under section 5308 to carry out this chapter, effective 3 years after the date on which a final rule under this subsection becomes effective, an eligible State shall have in effect a State safety oversight program approved by the Secretary under which the State—

(A) assumes responsibility for overseeing rail fixed guideway public transportation safety;

(B) adopts and enforces Federal law on rail fixed guideway public transportation safety; and

(C) establishes a State safety oversight agency;

(D) determines, in consultation with the Secretary, an appropriate staffing level for the State safety oversight agency that is commensurate with the number, size, and complexity of the rail fixed guideway public transportation systems in the eligible State;

(E) requires that employees and other designated personnel of the eligible State safety oversight agency who are responsible for rail fixed guideway public transportation safety oversight are qualified to perform such functions through appropriate training, and includes in the rail fixed guideway public transportation safety certification training program established under subsection (c); and

(F) prohibits any public transportation agency from providing funds to the State safety oversight agency or an entity designated by the eligible State as the State safety oversight agency under paragraph (d).

(4) STATE SAFETY OVERSIGHT AGENCY.—

(A) IN GENERAL.—Each State safety oversight program shall establish a State safety oversight agency that—

(i) is an independent legal entity responsible for the safety of rail fixed guideway public transportation systems;

(ii) is financially and legally independent from any public transportation entity that the State safety oversight agency oversees;

(iii) does not fund, promote, or provide public transportation services;

(iv) does not employ any individual who is also responsible for the administration of public transportation programs;

(v) has the authority to review, approve, oversee, and enforce the implementation by the rail fixed guideway public transportation agency of the public transportation safety plans required under subsection (d); and

(vi) has investigative and enforcement authority with respect to the safety of rail fixed guideway public transportation systems of the eligible State.

(B) Methods for identifying and evaluating safety risks throughout all elements of the public transportation system of the eligible State.

(C) Audits, at least once triennially, the compliance of the rail fixed guideway public transportation systems in the eligible State with the public transportation agency safety plan required under subsection (d); and

(D) provides, at least once annually, a status report on the rail fixed guideway public transportation systems the State safety oversight agency oversees to—

(i) the Federal Transit Administration;

(ii) the Governor of the eligible State; and

(iii) the board of directors, or equivalent entity, of any rail fixed guideway public transportation system the State safety oversight agency oversees.

(5) WAIVER.—At the request of an eligible State, the Secretary may waive clauses (i) through (iv) of paragraph (3) if the Secretary determines that requiring compliance with such requirements would result in an unreasonable burden on the eligible State.

(6) ENFORCEMENT.—Each State safety oversight agency shall have the authority to request the Secretary take enforcement actions available under subsection (g) against a rail fixed guideway public transportation system that is not in compliance with Federal law.

(7) GRANTS.—

(A) IN GENERAL.—The Secretary shall establish and implement a State safety oversight program approved by the Secretary or

(B) any amendment to the State safety oversight program of the eligible State for the full costs of participation in the State safety oversight program approved by the Secretary.

(i) a proposal for the establishment of a State safety oversight program to the Secretary for review and written approval before implementing a State safety oversight program; and

(ii) any amendment to the State safety oversight program of the eligible State for the full costs of participation in the State safety oversight program approved by the Secretary.

(B) DETERMINATION BY SECRETARY.—

(i) IN GENERAL.—The Secretary shall submit written approval to an eligible State that submits a State safety oversight program, if the Secretary determines the State safety oversight program meets the requirements of this subsection and the State safety oversight program is adequate to promote the purposes of this section.

(ii) AMENDMENT.—The Secretary shall submit to an eligible State that submits an amendment under subparagraph (A)(ii) a written determination with respect to the amendment.

(iii) NO WRITTEN DECISION.—If an eligible State does not receive a written decision from the Secretary with respect to an amendment submitted under subparagraph (A)(ii) by the end of the 60-day period beginning on the date on which the eligible State submits the amendment, the amendment shall be deemed to be approved.

(iv) DISAPPROVAL.—If the Secretary determines that a State safety oversight program does not meet the requirements of this subsection, the Secretary shall not disapprove the State safety oversight program of the eligible State.

(v) ADMINISTRATION.—The Secretary shall submit to the State a written request for the State to submit an amendment to the State safety oversight program approved by the Secretary.

(vi) NON-GOVERNMENT SHARE.—The non-Government share of the cost of a State safety oversight program developed or carried out using a grant under this paragraph shall be 80 percent of the non-Government share.

(vii) IN-KIND CONTRIBUTIONS.—Any calculation of the non-Government share of a State safety oversight program shall include in-kind contributions by the eligible State.

(viii) NON-GOVERNMENT SHARE.—The non-Government share of the cost of a State safety oversight program developed or carried out using a grant under this paragraph may not be met by—

(i) any Federal funds;

(ii) any funds received from a public transportation agency; and

(iii) any revenues earned by a public transportation agency.

(v) SAFETY TRAINING PROGRAM.—The Secretary may reimburse an eligible State or a recipient for the full costs of participation in the public transportation safety certification training program established under paragraph (e) by an eligible State or a recipient for the full costs of participation in the public transportation safety certification training program established under paragraph (e) by a State safety oversight agency or a recipient who is directly responsible for safety oversight.
"(8) CONTINUOUS EVALUATION OF PROGRAM.—The Secretary shall continually evaluate the implementation of a State safety oversight program by a State safety oversight agency, on the basis of—

(A) reports submitted by the State safety oversight agency under paragraph (4)(A)(viii); and

(B) the Secretary carries out by the Secretary.

"(9) INADEQUATE PROGRAM.—

"(A) IN GENERAL.—If the Secretary finds that a State safety oversight program approved by the Secretary is not being carried out in accordance with this section or has become inadequate to ensure the enforcement of Federal safety regulations, the Secretary shall—

(i) transmit to the eligible State a written explanation of the reason the program has been deemed inadequate and inform the State of the intention to withhold funds, including the amount of funds proposed to be withheld under this section, or withdraw approval of the State safety oversight program; and

(ii) allow the eligible State a reasonable period of time to modify the State safety oversight program or implementation of the program and submit an updated proposal for the State safety oversight program to the Secretary for approval.

"(B) FAILURE TO CORRECT.—If the Secretary determines that modification by an eligible State of the State safety oversight program is not sufficient to ensure the enforcement of Federal safety regulations, the Secretary shall—

(i) withhold funds available under this section in an amount determined by the Secretary; or

(ii) provide written notice of withdrawal of State safety oversight program approval.

"(C) TEMPORARY OVERSIGHT.—In the event that the Secretary determines that remediation of the program is not being carried out under paragraph (B)(ii), the Secretary shall provide oversight of the rail fixed guideway systems in an eligible State until the State submits a State safety oversight program approved by the Secretary.

"(D) RESTORATION.—

"(I) CORRECTION.—The eligible State shall address any inadequacy to the satisfaction of the Secretary prior to the Secretary restoring funds withheld under this paragraph.

"(II) AVAILABILITY AND REALLOCATION.—Any funds under this paragraph shall remain available for restoration to the eligible State until the end of the first fiscal year after the fiscal year in which the funds were withheld, except that such funds shall be available to the Secretary for allocation to other eligible recipients.

"(E) USE OR WITHHOLDING OF FUNDS.—

"(I) IN GENERAL.—The Secretary may require the use of funds in accordance with paragraph (1)(E), only if the Secretary determines is acceptable.

"(II) AVAILABILITY AND REALLOCATION.—Any funds withheld under paragraph (1)(E) shall remain available for restoration to the recipient until the end of the first fiscal year after the fiscal year in which the funds were withheld, after which time the funds shall be available to the Secretary for allocation to other eligible recipients.

"(F) NOTIFICATION.—Not later than 3 days before taking any action under subparagraph (C), the Secretary shall—

(i) transmit to the eligible State a written statement of the action the Secretary proposes to take under this section and the reasons therefor; and

(ii) allow the eligible State a reasonable period of time to—

(A) request a determination by the Secretary under this section.

B) the Secretary determines that such a waiver is in the public interest.

"(G) DEPOSIT OF CIVIL PENALTIES.—Any amounts collected by the Secretary under this statute shall be deposited into the Mass Transit Account of the Highway Trust Fund.

"(H) COST-BENEFIT ANALYSIS.—The Secretary of Transportation and the Attorney General may bring a civil action—

(i) before taking any action under subparagraph (C), to determine whether the action is in the public interest;

(ii) if the Secretary determines that such a waiver is in the public interest.

"(I) PREEMPTION OF STATE LAW.—
(1) NATIONAL UNIFORMITY OF REGULATION.—Laws, regulations, and orders related to public transportation safety shall be nationally uniform to the extent practicable.

(2) STATE ADMINISTRATION.—A State may adopt, or continue in force a law, regulation, or order related to the safety of public transportation until the Secretary issues a rule or order covering the subject matter of the State requirement.

(3) MORE STRINGENT LAW.—A State may adopt or continue in force a law, regulation, or order related to the safety of public transportation that is consistent with, in addition to, or more stringent than a regulation or order of the Secretary if the Secretary determines that the law, regulation, or order—

(A) is a safety standard; or

(B) is not incompatible with a law, regulation, or order, or the terms and conditions of a financial assistance agreement of the United States Government; and

(C) does not unreasonably burden interstate commerce.

(4) ACTIONS UNDER STATE LAW.—

(A) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to preempt an action under State law seeking damages for personal injury, death, or property damage alleging that a party has failed to comply with—

(i) a Federal standard of care established by a regulation or order issued by the Secretary under this section;

(ii) its own program, rule, or standard that it created pursuant to a rule or order issued by the Secretary; or

(iii) a State law, regulation, or order that is not incompatible with paragraph (2).

(B) EFFECTIVE DATE.—This paragraph shall apply to any cause of action under State law arising from an event or activity occurring on or after the date of enactment of the Federal Public Transportation Act of 2012.

(5) JURISDICTION.—Nothing in this section shall be construed to create a cause of action under Federal law on behalf of an injured party or confer Federal question jurisdiction for a State law cause of action.

(6) ANNUAL REPORT.—The Secretary shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives an annual report that—

(A) describes the public transportation safety trends among the States and documents the most effective safety programs implemented using grants under this section; and

(B) identifies actions necessary to effectuate the purpose of paragraphs (1) and (2) of this subsection.

(7) RIGHTS OF STATE.—Nothing in this section shall be construed to apply to—

(A) a description of the ability of the Federal Transit Administration to address discrimination and foster equal opportunities in federally funded public transportation projects, programs, and activities;

(B) recommendations improvements if the Comptroller General determines that improvements are necessary; and

(C) information upon which the evaluation under paragraph (1) is based.

SEC. 40024. LABOR STANDARDS.

Section 5333(b) of title 49, United States Code, is amended—

(1) in paragraph (1), by striking ‘‘sections 5307, 5310, 5311, 5312, 5316, 5320(a)(3), 5322(b), 5323(d), 5324(d), 5328, 5337, and 5338(b)’’ and in each place that term appears and inserting ‘‘sections 5307, 5308, 5309, 5310, 5311, and 5312’’;

(2) in paragraph (3), by inserting ‘‘Labor’’ after ‘‘Secretary’’.

SEC. 40025. ADMINISTRATIVE PROVISIONS.

Section 5333 of title 49, United States Code, is amended—

(1) in subsection (a)(1), by striking ‘‘under sections 5307 and 5309-5311 of this title’’ and inserting ‘‘under sections 5307 and 5309-5312 of this title and financial assistance under this chapter’’;

(2) in subsection (b)(1)—

(A) by inserting after ‘‘emergency,’’ the following: ‘‘and (ii) publishing a plan for enforcing a program to improve the safety of public transportation systems in the United States;’’;

(B) by striking ‘‘the case, nor may the Secretary’’ and inserting ‘‘Chapter. The Secretary may not’’;

(3) in subsection (c)(4), by striking ‘‘section (except subsection (i) and section 5333(e), 5323(a)(2), 5323(a), 5325(b), and 5325(c))’’ and inserting ‘‘section.’’

(4) in subsection (i), by striking ‘‘another’’ and inserting ‘‘any other’’;

(5) in subsection (j), by striking ‘‘title 23 shall’’ and inserting ‘‘title 23 may’’;

(6) by striking subsection (k); and

(7) by redesigning subsections (k) and (l) as subsections (j) and (k), respectively.

SEC. 40026. NATIONAL TRANSIT DATABASE.

Section 5333 of title 49, United States Code, is amended by adding at the end the following:

(f) DATA REQUIRED TO BE REPORTED.—The recipient of a grant under this chapter shall report to the Secretary, for inclusion in the National Transit Database, any information relating to—

(A) the causes of a reportable incident, as defined by the Secretary; and

(B) a transit asset inventory or condition assessment conducted by the recipient.

SEC. 40027. APPORTIONMENT OF APPROPRIATIONS FOR FORMULA GRANTS.

Section 5333 of title 49, United States Code, is amended to read as follows:

(1) (A) based on urbanized area population of the amount of formula grant under subsection (h)(4) to carry out section 5307—

(i) 9.32 percent shall be apportioned each fiscal year only in urbanized areas with a population of less than 200,000 as shown in the most recent decennial census, and each of those areas is entitled to receive an amount equal to—

(A) 50 percent of the total amount apportioned multiplied by a ratio equal to the population of the area divided by the total population of all urbanized areas with populations of less than 200,000 as shown in the most recent decennial census;

(B) 50 percent of the total amount apportioned multiplied by a ratio for the area based on population weighted by a factor, established by the Secretary, of the number of inhabitants in each square mile; and

(C) 90.68 percent shall be apportioned each fiscal year only in urbanized areas with populations of at least 200,000 as provided in subsections (b) and (c) of this section.

(2) (b) based on fixed guideway vehicle revenue miles and directional route miles and passenger miles—(1) in this subsection, ‘‘fixed guideway vehicle revenue miles’’ and ‘‘fixed guideway directional route miles’’ include passenger and freight revenue miles directly or under contract by the designated recipient.

(3) in subsection (a)(2) of this section, 33.29 percent shall be apportioned as follows:

(A) 95.61 percent of the total amount apportioned under this subsection shall be apportioned so that each urbanized area with a population of at least 200,000 is entitled to receive an amount equal to—

(1) 50 percent of 95.61 percent apportioned under this subparagraph multiplied by a ratio equal to the number of fixed guideway vehicle revenue miles attributable to the area, as established by the Secretary, divided by the total number of all fixed guideway vehicle revenue miles attributable to all areas; and

(2) 49.39 percent of 95.61 percent apportioned under this subparagraph multiplied by a ratio equal to the number of fixed guideway directional route miles attributable to the area, as established by the Secretary, divided by the total number of all fixed guideway directional route miles attributable to all areas.

(4) any area with a population of at least 750,000 in which commuter rail transportation is provided shall receive at least
.75 percent of the total amount apportioned under this subparagraph.

“(B) 4.39 percent of the total amount apportioned under this subsection shall be apportioned to the urbanized area with a population of at least 200,000 entitled to receive an amount equal to—

(i) the number of fixed guideway vehicle passenger miles traveled multiplied by the number of fixed guideway vehicle passenger miles traveled for each dollar of operating cost in an area, divided by

(ii) the number of fixed guideway vehicle passenger miles traveled by the total number of fixed guideway vehicle passenger miles traveled for each dollar of operating cost in all areas.

An urbanized area with a population of at least 750,000 in which commuter rail transportation is provided shall receive at least .75 percent of the total amount apportioned under this subparagraph.

“(C) Under subparagraph (A) of this paragraph, fixed guideway vehicle revenue or directional route miles, and passengers served on those miles, in an urbanized area with a population of less than 200,000, where the miles served otherwise would be attributable to an urbanized area with a population of at least 1,000,000 in an adjacent State, are attributable to the governmental authority in the urbanized area in which the area mentioned under this subparagraph multiplied by a ratio equal to the number of fixed guideway vehicle passenger miles traveled by the total number of fixed guideway vehicle passenger miles traveled for each dollar of operating cost in all areas.

“(D) A recipient’s apportionment under subparagraph (A)(iii) of this paragraph may not be reduced if the recipient, after satisfying the Secretary that energy or operating efficiencies would be achieved, reduces vehicle revenue hours per capita.

“(E) A recipient’s apportionment under subparagraph (A)(iv) of this paragraph may not exceed the industry average in urbanized areas with a population of at least 200,000 but not more than 999,999, as determined by the Secretary in accordance with subsection (d)(2).

“(F) A recipient’s apportionment under subparagraph (A)(v) and (A)(vi) of this paragraph may be apportioned under this section.

“(G) The amounts apportioned under paragraphs (1) and (2), 1 percent shall be apportioned to urbanized areas with populations of less than 200,000, where the miles served otherwise would be attributable to an urbanized area with a population of at least 200,000 entitled to receive an amount equal to—

(i) the number of bus passenger miles traveled multiplied by the number of bus passenger miles traveled for each dollar of operating cost in an area, divided by

(ii) the number of bus passenger miles traveled by the total number of bus passenger miles traveled for each dollar of operating cost in all areas.

“(H) Of the amount apportioned under subsection (a)(2) of this section, 66.71 percent shall be apportioned as follows:

“(1) 90.8 percent of the total amount apportioned under this subsection shall be apportioned as follows:

(A) Population amount of the 90.8 percent apportioned under this paragraph shall be apportioned so that each urbanized area with a population of at least 1,000,000 is entitled to receive a number of riders.

(B) 50 percent of the 73.39 percent apportioned under this subparagraph multiplied by a ratio equal to the total bus revenue mile per capita or directly serving the urbanized area divided by the total bus vehicle revenue miles attributable to all areas.

(C) 25 percent of the 73.39 percent apportioned under this subparagraph multiplied by a ratio equal to the population of the area divided by the total population of all areas, as shown by the most recent decennial census; and

(D) 25 percent of the 73.39 percent apportioned under this subparagraph multiplied by a ratio for the area based on population weighted by a factor, established by the Secretary, of the number of inhabitants in each square mile.

“(2) 25 percent of the 73.39 percent apportioned under this subparagraph multiplied by a ratio equal to the population of the area divided by the total population of all areas, as determined by the most recent decennial census; and

“(3) 25 percent of the 73.39 percent apportioned under this subparagraph multiplied by a ratio equal to the population of the area divided by the total population of all areas, as defined in section 5302(4).

“(I) TRANSFERS OF APPORTIONMENTS.—(1) The Governor of a State may transfer any part of the State’s apportionment under this paragraph to any other part of the State.

“(2) The Governor of a State may transfer any part of the State’s apportionment under this paragraph to any other part of the State.

“(J) TRANSPORTATION TO-designated recipients for urbanized areas with a population of at least 200,000 but not more than 999,999, as determined by the Secretary in accordance with subsection (d)(2).

“(K) PERFORMANCE CATEGORY.—The term ‘performance category’ means each of the following:

(A) Passenger miles traveled per vehicle revenue mile.

(B) Passenger miles traveled per vehicle revenue hour.

(C) Vehicle revenue miles per capita.

(D) Vehicle revenue hours per capita.

(E) Passenger miles traveled per capita.

(F) Passenger miles per capita.

(G) APPORTIONMENTS.—(A) APPORTIONMENT FORMULA.—The amount to be apportioned under subsection (h)(3) shall be apportioned among eligible areas in the ratio that—

(i) the number of performance categories for which each eligible area meets or exceeds the industry average in urbanized areas with a population of at least 200,000 but not more than 999,999, bears to

(ii) the number of performance categories for which each eligible area meets or exceeds the industry average in urbanized areas with a population of at least 200,000 but not more than 999,999, bears to

(iii) the number of performance categories for which each eligible area meets or exceeds the industry average in urbanized areas with a population of at least 200,000 but not more than 999,999, bears to

(B) DATA USED IN FORMULA.—The Secretary shall calculate apportionments under this subsection for a fiscal year using data from the national transit database used to calculate apportionments for that fiscal year under subsection (d).

(C) APPORTIONMENT FORMULA.—The amount apportioned under subsection (h)(2) shall be apportioned among urbanized areas as follows:

(1) 75 percent of the funds shall be apportioned among designated recipients for urbanized areas with a population of 200,000 or more in the ratio that—

(A) the number of eligible low-income individuals in each such urbanized area; bears to

(B) the number of eligible low-income individuals in all such urbanized areas.

(2) 25 percent of the funds shall be apportioned among designated recipients for urbanized areas with a population of less than 200,000 in the ratio that—

(A) the number of eligible low-income individuals in each such urbanized area; bears to

(B) the number of eligible low-income individuals in all such urbanized areas."
SEC. 40928. STATE OF GOOD REPAIR GRANTS.
Section 5337 of title 49, United States Code, is amended to read as follows:

§ 5337. State of good repair grants

(a) Definitions.—In this section, the following definitions shall apply:

(1) FIXED GUIDEWAY.—The term ‘fixed guideway’ means a public transportation facility.

(2) ROLLING STOCK.—The term ‘rolling stock’ means public transportation that is provided through access for high-occupancy vehicles.

(b) TRANSPORTATION.;

of-way for the exclusive use of public trans-

portation; systems in a state of good re-

bilitation—

may make grants under this section to assist

with the implementation of a fixed guideway

for the exclusive use of public trans-

section 5326(d).

The term ‘transit asset management plan’

include a project carried out under para-

(b), the share of the total amount apportioned under this section that

is apportioned to an area under this sub-

section shall not decrease by more than 0.25

percentage points compared to the share

apportioned to the area under this subsection

in the previous fiscal year.

(b) SPECIAL RULE FOR FISCAL YEAR 2012.—

In fiscal year 2012, the share of the total amount apportioned under this section that

is apportioned to an area under this sub-

section shall not decrease by more than 0.25

percentage points compared to the share

that would have been apportioned to the

area under this section, as in effect for fiscal year 2011, if the share had been calculated using the definition of the term ‘fixed guideway’ under subsection (a) of this section, as in effect on the day after the date of enactment of the Federal Public Transportation Act of 2012.

(c) DIRECTIONAL ROUTE MILES.—A recipient

in an urbanized area shall receive an

amount equal to 40 percent of the amount described in paragraph (1), multiplied by the number of fixed guideway directional route miles attributable to the urbanized area, as established by the Secretary, divided by the total number of all fixed guideway vehicle revenue miles attributable to all urbanized areas.

(4) LIMITATION.—

(A) IN GENERAL.—Except as provided in paragraph (4), an area shall receive an amount equal to 90 percent of the amount described in paragraph (1), multiplied by the number of fixed guideway directional route miles attributable to the area, divided by the total number of all fixed guideway motorbus vehicles revenue miles attributable to all areas.

(b) VEHICLE REVENUE MILES.—Each area

shall receive an amount equal to 40 percent of the amount described in paragraph (1), multiplied by the number of fixed guideway motorbus vehicle revenue miles attributable to the area, as established by the Secretary, divided by the total number of all fixed guideway motorbus vehicle revenue miles attributable to all areas.

(c) DIRECTIONAL ROUTE MILES.—Each area

shall receive an amount equal to 40 percent of the amount described in paragraph (1), multiplied by the number of fixed guideway motorbus directional route miles attributable to the area, as established by the Secretary, divided by the total number of all fixed guideway motorbus directional route miles attributable to all areas.

(d) SPECIAL RULE FOR FIXED GUIDEWAY

motorbus facilities in operation, projects described in subparagraph (B), for an area with a fixed guideway system, the amounts provided

shall be apportioned to the designated recipient for the urbanized area in which the system operates.

(3) PRIORITY CONSIDERATION.—In making

grants under this subsection, the Secretary

shall give priority to grant applications re-

ceived from recipients receiving an amount under this section that is not less than 2 per-

cent less than the amount the recipient

would have received under this section, as in effect for fiscal year 2011, if the amount had been calculated using the definition of the term ‘fixed guideway’ under subsection (a) of this section, as in effect on the day after the date of enactment of the Federal Public Transportation Act of 2012.

(e) USE OF FUNDS.—Amounts made available under this subsection shall be for the exclusive use of fixed guideway projects.

(6) RECEIVING APPOINTMENT.—

(A) IN GENERAL.—Except as provided in paragraph (4), if a recipient fails to use 90 percent of the amount described in paragraph (1) by the beginning of the fiscal year following the date of enactment of this Act, the Secretary shall have the authority to apportion the remaining amount to an area under subsection (a) having an amount equal to 60 percent of the amount described in paragraph (1) that is apportioned to an area with a fixed guideway system.

(B) APPORTIONMENT REQUIREMENTS.—For purposes of determining the number of fixed guideway vehicle revenue miles of fixed guideway directional route miles attributable to an urbanized area for a fiscal year under this subsection, areas shall be apportioned to a recipient for a fiscal year under this subsection, only segments of fixed guideway motorbus vehicle revenue service not later than 7 years before the first day of the fiscal year shall be deemed to be attributable to an urbanized area.

(d) FIXED GUIDEWAY STATE OF GOOD RE-

PAIR GRANT PROGRAM.—

(1) IN GENERAL.—The Secretary may make grants under this section to assist State and local governmental authorities in financing capital asset inventories and condition assessments, decision support tools, and investment prioritization; and

(2) COMPETITIVE PROCESS.—The Secretary may make grants under this section to assist State and local governmental authorities in financing capital asset inventories and condition assessments, decision support tools, and investment prioritization; and

(3) PRIORITY CONSIDERATION.—In making grants under this subsection, the Secretary

shall give priority to grant applications re-

ceived from recipients receiving an amount under this section that is not less than 2 per-

cent less than the amount the recipient

would have received under this section, as in effect for fiscal year 2011, if the amount had been calculated using the definition of the term ‘fixed guideway’ under subsection (a) of this section, as in effect on the day after the date of enactment of the Federal Public Transportation Act of 2012.

(e) USE OF FUNDS.—Amounts made available under this subsection shall be for the exclusive use of fixed guideway projects.

(f) RECEIVING APPOINTMENT.—

(A) IN GENERAL.—Except as provided in paragraph (4), if a recipient fails to use 90 percent of the amount described in paragraph (1) by the beginning of the fiscal year following the date of enactment of this Act, the Secretary shall have the authority to apportion the remaining amount to an area under subsection (a) having an amount equal to 60 percent of the amount described in paragraph (1) that is apportioned to an area with a fixed guideway system.

(B) APPORTIONMENT REQUIREMENTS.—For purposes of determining the number of fixed guideway motorbus vehicle revenue miles of fixed guideway motorbus directional route miles attributable to an urbanized area for a fiscal year under this subsection, areas shall be apportioned to a recipient for a fiscal year under this subsection, only segments of fixed guideway motorbus vehicle revenue service not later than 7 years before the first day of the fiscal year shall be deemed to be attributable to an urbanized area.

(3) PRIORITY CONSIDERATION.—In making grants under this subsection, the Secretary

shall give priority to grant applications re-

ceived from recipients receiving an amount under this section that is not less than 2 per-

cent less than the amount the recipient

would have received under this section, as in effect for fiscal year 2011, if the amount had been calculated using the definition of the term ‘fixed guideway’ under subsection (a) of this section, as in effect on the day after the date of enactment of the Federal Public Transportation Act of 2012.

(e) USE OF FUNDS.—Amounts made available under this subsection shall be for the exclusive use of fixed guideway projects.

(f) RECEIVING APPOINTMENT.—

(A) IN GENERAL.—Except as provided in paragraph (4), if a recipient fails to use 90 percent of the amount described in paragraph (1) by the beginning of the fiscal year following the date of enactment of this Act, the Secretary shall have the authority to apportion the remaining amount to an area under subsection (a) having an amount equal to 60 percent of the amount described in paragraph (1) that is apportioned to an area with a fixed guideway system.

(B) APPORTIONMENT REQUIREMENTS.—For purposes of determining the number of fixed guideway motorbus vehicle revenue miles of fixed guideway motorbus directional route miles attributable to an urbanized area for a fiscal year under this subsection, areas shall be apportioned to a recipient for a fiscal year under this subsection, only segments of fixed guideway motorbus systems placed in revenue service not later than 7 years before the first day of the fiscal year shall be deemed to be attributable to an urbanized area."

S334 CONGRESSIONAL RECORD—SENATE February 9, 2012
SEC. 40029. AUTHORIZATIONS.
Section 5338 of title 49, United States Code, is amended to read as follows:

"(a) FORMULA GRANTS.—
"(1) GRANT SUBMISSION.—There shall be available from the Mass Transit Account of the Highway Trust Fund to carry out sections 5305, 5307, 5308, 5310, 5311, 5312, 5313, 5314, 5315, 5322, 5332, 5335, 5336, 5337, and 40005(b) of the Federal Public Transportation Act of 2012, $8,369,565,000 for each of fiscal years 2012 and 2013.

"(2) ALLOCATION OF FUNDS.—Of the amounts made available under paragraph (1):

"(A) $124,850,000 for each of fiscal years 2012 and 2013 shall be available to carry out section 5305.

"(B) $28,000,000 for each of fiscal years 2012 and 2013 shall be available to carry out section 40005(b) of the Federal Public Transportation Act of 2012.

"(C) $4,756,161,500 for each of fiscal years 2012 and 2013 shall be available in accordance with section 5336 to provide financial assistance for urbanized areas under section 5307;

"(D) $65,150,000 for each of fiscal years 2012 and 2013 shall be available to carry out section 5308, of which not less than $8,500,000 shall be used to carry out activities under section 5312;

"(E) $148,600,000 for each of fiscal years 2012 and 2013 shall be available to provide financial assistance for services for the enhanced mobility of seniors and individuals with disabilities under section 5310;

"(F) $591,190,000 for each of fiscal years 2012 and 2013 shall be available to provide financial assistance for other than urbanized areas under section 5311, of which not less than $30,000,000 shall be available to carry out section 5311(c)(1) and $20,000,000 shall be available to carry out section 5311(c)(2);

"(G) $34,000,000 for each of fiscal years 2012 and 2013 shall be available to carry out research, development, demonstration, and deployment projects under section 5312;

"(H) $6,500,000 for each of fiscal years 2012 and 2013 shall be available to carry out a transit cooperative research program under section 5314;

"(I) $4,500,000 for each of fiscal years 2012 and 2013 shall be available for technical assistance and standards development under section 5314.

"(J) $5,000,000 for each of fiscal years 2012 and 2013 shall be available for the National Transit Institute under section 5315;

"(K) $2,000,000 for each of fiscal years 2012 and 2013 shall be available for workforce development and human resource grants under section 5322.

"(L) $3,850,000 for each of fiscal years 2012 and 2013 shall be available to carry out section 5335.

"(M) $1,987,263,500 for each of fiscal years 2012 and 2013 shall be available to carry out subsection (c) and (e) of section 5337; and

"(N) $511,500,000 for each of fiscal years 2012 and 2013 shall be allocated in accordance with the following amounts for the activities described in paragraph (2):

"(A) 0.5 percent of amounts made available to carry out section 5305.

"(B) 0.75 percent of amounts made available to carry out section 5307.

"(C) 1 percent of amounts made available to carry out section 5309.

"(D) 1 percent of amounts made available to carry out section 601 of the Passenger Rail Investment and Improvement Act of 2008 (Public Law 110–432; 126 Stat. 4868).

"(E) 0.5 percent of amounts made available to carry out section 5310.

"(F) 0.5 percent of amounts made available to carry out section 5311.

"(G) 0.5 percent of amounts made available to carry out section 5320.

"(H) 0.75 percent of amounts made available to carry out section 5337(c).

"(2) ACTIVITIES.—The activities described in this paragraph are as follows:

"(A) Activities to oversee the construction of a major capital project.

"(B) Activities to review and audit the safety and security, procurement, management, and financial compliance of a recipient or subrecipient of funds under this chapter.

"(C) Activities to provide technical assistance for the enhanced mobility of seniors and individuals with disabilities.

"(D) Activities to provide technical assistance to correct deficiencies identified in compliance reviews and audits carried out under this section.

"(E) PAYMENT OF COSTS.—The Government shall pay the entire cost of carrying out a contract under this subsection.

"(F) AVAILABILITY OF CERTAIN FUNDS.—The amounts apportioned to an eligible State under this section shall remain available until expended.

SEC. 40030. APPORTIONMENTS BASED ON GROWING STATES FORMULA FACTORS.
Section 5330 of title 49, United States Code, is amended to read as follows:

"(a) DEFINITION.—In this section, the term ‘State’ shall mean each of the 50 States of the United States.

"(b) ALLOCATION.—Of the amounts made available for each fiscal year under section 5330(b), the Secretary shall:

"(1) 50 percent to States and urbanized areas in accordance with subsection (c); and

"(2) 50 percent to States and urbanized areas in accordance with subsection (d).

"(c) GROWING STATE APPORTIONMENTS.

"(1) APPORTIONMENT AMONG STATES.—The amounts apportioned under subsection (b)(1) shall provide each State with an amount equal to the total amount apportioned multiplied by a ratio equal to the population of that State forecast for the year that is 15 years after the most recent decennial census, divided by the total population of all States for the year that is 15 years after the most recent decennial census. Such fore-

"cast shall be based on the population trend for each State between the most recent de-
cennial census and the most recent estimate available from the Mass Transit Account of the Treasury pursuant to this section.

"(2) APPORTIONMENTS BETWEEN URBANIZED AREAS AND OTHER THAN URBANIZED AREAS IN EACH STATE.—

"(A) IN GENERAL.—The Secretary shall ap-
portion amounts to each State under para-
graph (1) so that urbanized areas in that State multiply an amount equal to the apportionment to that State multiplied by a ratio equal to the sum of the forecast population of all urbanized areas in that State divided by the total forecast popu-
lation of that State. In making the appor-
tionment under this subparagraph, the Sec-
cretary shall utilize any available forecasts made by the State. If no forecasts are avail-
able, the Secretary shall utilize data on ur-
basized areas and total population from the most recent decennial census.

"(B) REMAINING AMOUNTS.—Amounts re-
maining for each State after apportionment under subparagraph (A) shall be apportioned to that State and added to the amount made available for grants under this section.

"(3) APPORTIONMENTS AMONG URBANIZED AREAS IN EACH STATE.—The Secretary shall apportion amounts made available to urbanized areas in each State under paragraph (2)(A) so that each urbanized area receives an amount equal to the amount apportioned under paragraph (2)(A) multiplied by a ratio equal to the population of that urbanized area divided by the sum of populations of all urbanized areas in the State. Amounts ap-
portioned to each urbanized area shall be added to the amount for that urbanized area under this section.

"(4) HIGH DENSITY STATE APPORTION-
MENTS.—Amounts to be apportioned under subsection (b)(2) shall be apportioned as follows:

"(A) ELIGIBLE STATES.—The Secretary shall designate as eligible for an apportionment under this subsection all States with a popula-
density in excess of 370 persons per square mile.

"(B) OTHER STATE APPORTION-
MENTS.—For each State qualifying for an apportionment under paragraph (1), the Secretary shall cal-
culate an amount equal to:

"(A) the total land area of the State (in square miles); multiplied by

"(B) the urbanized area land factor.
“(B) 370; multiplied by
“(C)(i) the population of the State in urbanized areas; divided by
“(ii) the total population of the State.

(3) SUBSECT. FACTOR.—For each State qualifying for an apportionment under paragraph (1), the Secretary shall calculate an amount equal to the difference between the population of the State less the amount calculated in paragraph (2).

(4) STATE APPORTIONMENT.—Each State qualifying for an apportionment under paragraph (1) shall receive an amount equal to the amount to be apportioned under this subsection multiplied by the amount calculated for the State under paragraph (3) divided by the amount calculated under paragraph (3) for all States qualifying for an apportionment under paragraph (1).

(5) APPORTIONMENTS AMONG URBANIZED AREAS IN EACH STATE.—The Secretary shall apportion amounts made available to each State under paragraph (4) so that each urbanized area receives an amount equal to the amount apportioned under paragraph (4) multiplied by a ratio equal to the population of each urbanized area divided by the sum of populations of all urbanized areas in the State. The Secretary shall suballocate funds made available under paragraph (4) to each State’s part of the multistate urbanized area in proportion to each State’s share of population of the multistate urbanized area. Amounts apportioned to each urbanized area shall be made available for grants under section 5307.

SEC. 40031. TECHNICAL AND CONFORMING AMENDMENTS.

(a) SECTION 5305.—Section 5305 of title 49, United States Code, is amended—
(1) in subsection (c), by striking “sections 5303, 5304, and 5306” and inserting “sections 5303 and 5304”;
(2) in subsection (d), by striking “sections 5303 and 5306” each place that term appears and inserting “section 5303”;
(3) in subsection (e)(1)(A), by striking “sections 5304, 5306, 5315, and 5322” and inserting “section 5304”;
(4) in subsection (f)—
(A) in the heading, by striking “GOVERNMENT” and inserting “Government’’;
(B) by striking “Government’s” and inserting “Government’’;
and
(5) in subsection (g), by striking “section 5303(c)” for “section 2005 through 2011” and inserting “section 5303(a)(2)(A) for a fiscal year”.
(b) SECTION 5307.—Section 5307(a) of title 49, United States Code, is amended—
(1) in the first sentence, by striking “sections (a)(5)(C)(i) and (d)(1) of section 5338 and inserting section 5338(a)(2)(H); and
(2) in the second sentence, by striking “of Transportation”.
(c) SECTION 5329.—Section 5329 of title 49, United States Code, is amended in the second sentence—
(1) by striking “sections 5307(e), 5309(h), and 5311(g) of this title” and inserting “sections 5307(e), 5309(k), and 5311(h)”;
and
(2) by striking “of the United States” and inserting “made by the’’;
(d) SECTION 5325.—Section 5325 of title 49, United States Code, is amended—
(1) in subsection (b)(2)(A), by striking “title 48, Code of Federal Regulations (commonly known as the Federal Acquisition Regulation)” and inserting “the Federal Acquisi-
tion Regulation, or any successor thereto”;
and
(2) in subsection (e), by striking “Government financial assistance” and inserting “Federal financial assistance’’.

SA 1516. Mr. McCaIN (for himself, Mr. CARPER, Mr. COATS, and Mr. UDALL of Colorado) submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. REDUCE UNNECESSARY SPENDING ACT OF 2012.

(a) SHORT TITLE AND PURPOSES.—
(1) SHORT TITLE.—This section may be cited as the “Reduce Unnecessary Spending Act of 2012’’.
(2) PURPOSE.—The purpose of this section is to create an optional fast-track procedure the President may use when submitting re-
session requests, which would lead to an up-
or-down vote by Congress on the President’s package of rescissions, without amendment.

(b) RESCISIONS.—The Im-
poundment Control Act of 1974 is amended by striking part C and inserting the following:

“PART C—EXPEDITED CONSIDERATION OF PROPOSED RESCISIONS

SEC. 1021. APPLICABILITY AND DISCLAIMER.

(a) RULES, PROCEDURE, REQUIREMENTS, AND DEFINITIONS.—In this part, the rules, procedure, requirements, and definitions in this part apply only to executive and legislative actions explicitly taken under this part. They do not apply to actions taken under part B or to other executive and legislative actions not taken under this part.

(b) RESCISONS.—In this part:
(1) “Rescission” means an action taken by the President to rescind appropriations made under this Act and reduce the amount of funds available for obligation or expenditure under such appropriations in subsequent fiscal years.

SEC. 1022. DEFINITIONS.

Mrs. McCaIN, for himself, Mr. CARPER, Mr. COATS, and Mr. UDALL of Colorado) submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

“PART C—EXPEDITED CONSIDERATION OF PROPOSED RESCISIONS

SEC. 1021. APPLICABILITY AND DISCLAIMER.

(a) RULES, PROCEDURE, REQUIREMENTS, AND DEFINITIONS.—In this part, the rules, procedure, requirements, and definitions in this part apply only to executive and legislative actions explicitly taken under this part. They do not apply to actions taken under part B or to other executive and legislative actions not taken under this part.

(b) RESCISONS.—In this part:
(1) “Rescission” means an action taken by the President to rescind appropriations made under this Act and reduce the amount of funds available for obligation or expenditure under such appropriations in subsequent fiscal years.

SEC. 1022. DEFINITIONS.

In this part:
(1) “The terms ‘appropriations Act’, ‘budget authority’, and ‘budget authority’ have the same meanings as in section 3 of the Congressional Budget Act of 1974.”
 SEC. 1023. TIMING AND PACKAGING OF RESCIS- SION REQUESTS.

(a) TIMING.—If the President proposes that Congress rescind funding under the pro- cedures in this part, OMB shall transmit a message to Congress containing the information specified in section 1024, and the message shall be transmitted to Congress not later than 45 calendar days after the date of enactment of the funding.

(b) PACKAGING AND TRANSMITTAL OF RE- QUERSTED RESCISIONS.—Except as provided in subsection (c), for each piece of legislation that provides funding, the President shall request at most 1 package of rescissions and the rescissions in that package shall apply only to funding contained in that legislation. OMB shall deliver each message requesting a package of rescissions to the Secretary of the Senate if the Senate is not in session and to the Clerk of the House of Representatives if the House is not in session. OMB shall make a copy of the transmittal message publicly available, and shall publish in the Federal Register a notice of the message and information on how it can be obtained.

(c) SPECIAL PACKAGING RULES.—After enactment of—

(1) a joint resolution making continuing appropriation;

(2) supplemental appropriations bill; or

(3) an omnibus appropriations bill; covering some or all of the activities cus- tomarily available, and shall publish in the Fed- eral Register a notice of the message and in- formation on how it can be obtained.

SEC. 1024. GRANTS OF AND LIMITATIONS ON PRESIDENTIAL AUTHORITY.

(a) PRESIDENTIAL AUTHORITY TO WITH- HOLD FUNDING.—Notwithstanding any other provision of law and if the President pro- poses a rescission of funding under this part, OMB may, subject to the time limits pro- vided in subsection (c), temporarily withhold that funding from obligation.

(b) EXPEDITED PROCEDURES AVAILABLE ONLY ON ONE OCCASION.—The President may not invoke the procedures of this part, or the authority to withhold funding granted by subsection (a), on more than 1 occasion for any Act providing funding.

(c) TIME LIMITS.—OMB shall make avail- able for obligation any funding withheld under subsection (a) on the earliest of—

(1) the day after the rescission request listed in the Presidential message of [insert date] is transmitted to Congress; or

(2) the day after OMB transmits a message to Congress requesting the rescission of funding, 25 calendar days in which the President determines has been in session, whichever occurs second; or

(3) 5 calendar days after the date of enactment of an approval bill as provided under this part, the chairs of the Committees on the Budget of the Senate and the House of Representatives shall revise allocations and aggregates and other appropriate levels under the appro- priate concurrent resolution on the budget to reflect the repeal or cancellation, and the applicable committees shall report revised suballocations pursuant to section 302(b), as appropriate.

SEC. 1025. GRANTS OF AND LIMITATIONS ON PRESIDENTIAL AUTHORITY.

(a) PREPARATION OF LEGISLATION TO CON- SIDER A PACKAGE OF EXPEDITED RESCISIONS.—

(1) IN GENERAL.—If the House of Rep- resentatives receives a package of expedited rescission requests, the Clerk shall prepare a House bill that only rescinds the amounts re- quested which shall read as follows:

There are enacted the rescissions num- bered [insert numbers] as set forth in the Presidential message of [insert date] transmitted under part C of the Impoundment Control Act of 1974 as amended.

(2) The Clerk shall include in the bill each numbered re- scission request listed in the Presidential

package in question, except that the Clerk shall omit a numbered rescission request if the Chairman of the Committee on the Budget of the House, after consulting with the House Appropriations Committee, the Senate, CBO, GAO, and the House and Senate committees that have jurisdiction over the funding, determines that the num- bered rescission request does not refer to funding or includes matter not permitted under a re- quest to rescind funding.

(b) INTRODUCTION AND REFERRAL OF LEGIS- SATION TO ENACT A PACKAGE OF EXPEDITED RESCISIONS.—The majority leader or the mi- nority leader of the House or Representa- tives shall designate the date (not later than the 5 calendar days after the date of enactment of an approval bill as provided under this part, the chairs of the Committees on the Budget of the Senate and the House of Representatives shall revise allocations and aggregates and other appropriate levels under the appro- priate concurrent resolution on the budget to reflect the repeal or cancellation, and the applicable committees shall report revised suballocations pursuant to section 302(b), as appropriate.

SEC. 1026. CONGRESSIONAL CONSIDERATION OF RECISSION REQUESTS.

(a) GENERAL.—If a bill to enact an expedited rescission package has been intro- duced in accordance with the preceding sentence, it shall be referred to the Committee of the House of Representatives having jurisdiction. The Committee of the House of Representatives shall determine the fate of the bill without recommendation. If the committee has not reported the bill by the end of the 5- day period, the bill shall be automatically discharged from further consideration of the bill and shall be placed on the calendar.

(b) INTRODUCTION AND REFERRAL OF LEGIS- SATION TO ENACT A PACKAGE OF EXPEDITED RESCISIONS.—The House committee of jurisdiction shall report without amendment the bill referred to subsection (a) no more than 5 calendar days after the date of enactment of an approval bill as provided under this part, the chairs of the Committees on the Budget of the House and the Senate shall revise allocations and aggregates and other appropriate levels under the appro- priate concurrent resolution on the budget to reflect the repeal or cancellation, and the applicable committees shall report revised suballocations pursuant to section 302(b), as appropriate.

(1) In general.—After a bill to enact an expedited rescission package has been intro- duced, it shall be considered in order for any Member of Congress to move to proceed to consider the bill. The Speaker shall designate the date (not later than the 5 calendar days after the date of enactment of an approval bill as provided under this part, the chairs of the Committees on the Budget of the Senate and the House of Representatives shall revise allocations and aggregates and other appropriate levels under the appro- priate concurrent resolution on the budget to reflect the repeal or cancellation, and the applicable committees shall report revised suballocations pursuant to section 302(b), as appropriate.

(c) SPECIAL PACKAGING RULES.—After en- actment of—

(1) a joint resolution making continuing appropriation;

(2) supplemental appropriations bill; or

(3) an omnibus appropriations bill; covering some or all of the activities cus- tomarily available, and shall publish in the Fed- eral Register a notice of the message and in- formation on how it can be obtained.

SEC. 1027. TIMING AND PACKAGING OF RESCIS- SION REQUESTS.

(a) TIMING.—If the President proposes that Congress rescind funding under the pro- cedures in this part, OMB shall transmit a message to Congress containing the information specified in section 1024, and the message shall be transmitted to Congress not later than 45 calendar days after the date of enactment of the funding.

(b) PACKAGING AND TRANSMITTAL OF RE- QUERSTED RESCISIONS.—Except as provided in subsection (c), for each piece of legislation that provides funding, the President shall request at most 1 package of rescissions and the rescissions in that package shall apply only to funding contained in that legislation. OMB shall deliver each message requesting a package of rescissions to the Secretary of the Senate if the Senate is not in session and to the Clerk of the House of Representatives if the House is not in session. OMB shall make a copy of the transmittal message publicly available, and shall publish in the Federal Register a notice of the message and in- formation on how it can be obtained.

(1) SPECIAL PACKAGING RULES.—After en- actment of—

(1) a joint resolution making continuing appropriation;

(2) supplemental appropriations bill; or

(3) an omnibus appropriations bill; covering some or all of the activities cus- tomarily available, and shall publish in the Fed- eral Register a notice of the message and in- formation on how it can be obtained.

SEC. 1028. CONGRESSIONAL CONSIDERATION OF RECISSION REQUESTS.

(a) GENERAL.—If the House of Rep- presentatives receives a package of expedited rescission requests, the Clerk shall prepare a House bill that only rescinds the amounts re- requested which shall read as follows:

There are enacted the rescissions num- bered [insert numbers] as set forth in the Presidential message of [insert date] transmitted under part C of the Impoundment Control Act of 1974 as amended.

(b) The Clerk shall include in the bill each numbered re- scission request listed in the Presidential
would enact language containing matter not requested by the President or not permitted under this part as part of that package. If the President Opposes such a part of the package, the House shall be entitled to proceed under this subsection, and all debate on the bill may be limited to 10 calendar days, except that the President's approval of the bill may be conditioned on the approval of any rescission or rescissions that would enact such language are deemed to be automatically stripped from the bill and consideration proceeds on the bill as modified.

(3) PREVIOUS QUESTION.—The previous question shall be considered as ordered on the bill to its passage without intervening motion, except that 4 hours of debate equally divided and controlled by a proponent and an opponent are allowed, as well as 1 motion to further limit debate on the bill.

(4) MOTION TO RECONSIDER.—A motion to reconsider the vote on passage of the bill shall not be in order.

(5) SENATE CONSIDERATION.—(1) REFERRAL.—If the House of Representatives approves a House bill enacting a package of rescissions, that bill as passed by the House shall be sent to the Senate and referred to the Senate committee of jurisdiction.

(2) COMMITTEE ACTION.—The committee of jurisdiction shall report without amendment the bill referred to it under this subsection not later than 3 days of session of the Senate after the referral. The committee may order the bill reported favorably, unfavorably, or without recommendation.

(3) DISCHARGE.—If the committee has not reported the bill by the end of the 3-day period, the committee shall be automatically discharged from further consideration of the bill and it shall be placed on the appropriate calendar.

(4) MOTION TO PROCEED.—On the following day and for 3 subsequent calendar days in which the Senate is in session, it shall be in order for any Senator to move to proceed to consider the bill in the Senate. Upon such a motion being made, the bill shall be deemed to have been agreed to and the motion to reconsider shall be deemed to have been laid on the table.

(5) DEBATE.—Debate on the bill in the Senate under this subsection, and all debatable motions and appeals in connection therewith, shall not exceed 10 hours, equally divided and controlled in the usual form. A motion to further limit debate on such a bill is not debatable.

(6) ORDER.—A motion to amend such a bill or to strike a provision from it is not in order. A motion to recommit such a bill is not in order.

(c) TECHNICAL AND CONFORMING AMENDMENTS.

(1) TABLE OF CONTENTS.—Section 1(b) of the Congressional Budget and Impoundment Control Act of 1974 is amended by inserting at the end of the section the following:

"Sec. 1002. SEVERABILITY.

"If the judicial branch of the United States finally determines that 1 or more of the provisions of parts B or C violate the Constitution of the United States, the remaining provisions of those parts shall continue in effect.

(2) TABLE OF CONTENTS.—Section 1(b) of the Congressional Budget and Impoundment Control Act of 1974 is amended by inserting at the end of the matter for part A of title X the following:

"Sec. 1002. Severability."

(3) EXPIRATION.—Part C of the Impoundment Control Act of 1974 is amended by inserting at the end of the Act the following:

"Sec. 1025. defined in section 1026 of this Act shall expire on December 31, 2015.

"Sec. 1026. Congressional consideration of rescission requests.

In 1008, in the amendment to section 133(c) of title 21, United States Code, strike paragraphs (7) through (28) and insert the following:

"(7) Highway and transit safety infrastructure improvements and programs, installation of safety barriers and nets on bridges, improvement of and assistance for highway safety construction programs and for other purposes; which was ordered to lie on the table; as follows:

"(B) the aggregate amount of gas taxes paid by all States for the fiscal year.

"SA 1518. Mr. COATS submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes, which was ordered to lie on the table; as follows:

"In section 1006(c), in the amendment to section 1006(b)(1) of title 21, United States Code, strike ‘‘carry out section 134 shall be determined as follows’’ and all that follows through subparagraph (B) and insert the following:

‘‘carry out section 134 shall be a percentage of the total amount available for apportionment to States that is equal to the proportion that—

‘‘(A) the amount of gas taxes paid by the State for a fiscal year; bears to

‘‘(B) the aggregate amount of gas taxes paid by all States for the fiscal year.

"SA 1519. Mr. COATS submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes, which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. 10. RESERVE FOR RIGHTS OF CONSCIENCE.

(a) FINDINGS AND PURPOSES.—

(1) FINDINGS.—Congress finds the following:

(A) As Thomas Jefferson declared to New London Methodists in 1809, ‘‘[n]o provision in our Constitution ought to be dearer to man than that which protects the rights of conscience against the enterprises of the civil authority’’.

(B) Jefferson’s statement expresses a conviction on respect for conscience that is deeply embedded in the history and traditions of our Nation, as enshrined in numerous State and Federal laws, including laws on health care.
(C) Until enactment of the Patient Protection and Affordable Care Act (Public Law 111–148, in this section referred to as “PPACA”), the Federal Government has not sought to ensure that pre-existing condition exclusions, benefits requirements, or other requirements of individual or institutional health care providers.

(D) PPACA creates a new nationwide requirement for health plans to cover “essential” benefits and “preventive services” (including a distinct set of “preventive services for women”), delegating to the Department of Health and Human Services the authority to provide a list of detailed services under each category, and imposes other new requirements with respect to the provision of health care services.

(E) While PPACA provides an exemption for some religious groups that object to participation in Government health programs generally, it does not allow purUNCHERS, plan sponsors, and other stakeholders with religious or moral objections to specific items or services to decline providing or obtaining coverage for those items or services, or allow health care providers with such objections to decline to provide them.

(F) By creating new barriers to health insurance arrangements, these inflexible mandates in PPACA jeopardize the ability of individuals to exercise their rights to science and their ability to freely participate in the health insurance and health care marketplace.

PURPOSES.—The purposes of this section are—

(A) to ensure that health care stakeholders retain the right to provide, purchase, or enroll in a health benefit package that is consistent with their religious beliefs and moral convictions, without fear of being penalized or discriminated against under PPACA; and

(B) to ensure that no requirement in PPACA creates new pressures to exclude those exercising such conscientious objection from health plans or other programs under PPACA.

RESPECT FOR RIGHTS OF CONSCIENCE.—

(1) IN GENERAL.—Section 1302(b) of the Patient Protection and Affordable Care Act (Public Law 111–148; 42 U.S.C. 18022(b)) is amended by adding at the end the following new paragraph:

“(E) CONSTRUCTING RIGHTS OF CONSCIENCE WITH REGARD TO SPECIFIC ITEMS OR SERVICES.—

“(A) FOR HEALTH PLANS.—A health plan shall not be considered to have failed to provide timely or other access to items or services under this title (or any amendment made by this title) or to provide coverage under this title because it has respected the rights of conscience of such a provider pursuant to this paragraph.

“(B) PRIVATE RIGHTS OF ACTION.—The various protections of conscience in this paragraph constitute the protection of individual rights and create a private cause of action for those persons or entities protected. Any person or entity may assert a violation of this paragraph as a claim or defense in a judicial proceeding.

“(C) REMEDIES.—(1) Federal courts shall have jurisdiction to prevent and redress actual or threatened violations of this paragraph by granting all forms of legal or equitable relief, including, but not limited to, injunctive relief, declaratory relief, damages, costs, and attorney fees.

“(2) PURPOSES.—The purposes of this section are—

“(I) to ensure that health plans excluding specified items or services from issuing regulations or other guidance in this section.

“(II) to assure that health plans meeting the requirements as set forth in paragraph (1) shall be considered to have failed to provide timely or other access to items or services under this title (or any amendment made by this title) or to provide coverage under this title because it has respected the rights of conscience of such a provider pursuant to this paragraph.

“(D) ADMINISTRATION.—The Office for

INTERIM RELIEF.—Pending final determination of any action under this paragraph, the court may grant such restraining order or prohibitions, or take such other actions, as it deems necessary.

(A) ADMINISTRATION.—The Office for Civil Rights of the Department of Health and Human Services is designated to receive complaints of discrimination based on this paragraph and coordinate the investigation of such complaints.

(B) ACTUARIAL EQUIVALENCE.—Nothing in this paragraph shall prohibit the Secretary from issuing regulations or other guidance to ensure that health plans excluding specified items or services under this paragraph shall have an aggregate actuarial value at least equivalent to that of plans at the same level of coverage that do not exclude such items or services.

(EFFECTIVE DATE.—The amendment made by paragraph (1) shall be effective as if included in the enactment of Public Law 111–148.

SEC. 15. DOMESTIC OIL AND NATURAL GAS PRODUCTION GOAL.

Section 18 of the Outer Continental Shelf Lands Act (43 U.S.C. 1344) is amended by striking subsection (b) and inserting the following:

“(b) DOMESTIC OIL AND NATURAL GAS PRODUCTION GOAL.—

“(1) IN GENERAL.—In developing a 5-year oil and gas leasing program, the Secretary shall establish a domestic strategic production goal for the development of oil and natural gas under the program that is—

“(A) the best estimate of the potential increase in domestic production of oil and natural gas from the outer Continental Shelf; and

“(B) focused on—

“(i) meeting the demand for oil and natural gas in the United States; and

“(ii) reducing the dependence of the United States on foreign energy sources; and

“(iii) the production increases to be achieved by the leasing program at the end of the 15-year period beginning on the effective date of the program.

“(2) 2012–2017 PROGRAM GOAL.—For purposes of fiscal years 2012 through fiscal years 2017, the production goal referred to in paragraph (1) shall be an increase by 2027 of—

“(A) not less than 3,000,000 barrels in the quantity of oil produced per day; and

“(B) not less than 10,000,000,000 cubic feet in the quantity of natural gas produced per day.

“(3) REPORTS.—At the end of each 5-year oil and gas leasing program and annually thereafter, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives a report that describes the progress of the applicable 5-year program with respect to achieving the production goal established for the program, including—

“(A) any projections for production under the program; and

“(B) identifying any problems with leasing, permitting, or production that would prevent the production goal from being achieved.”

SA 1522. Mr. NELSON of Nebraska (for himself and Ms. KLOBUCAR) submitted an amendment to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitile E of title I, add the following:

SEC. 15. VEHICLE WEIGHT LIMITATIONS.

Section 127(a)(12) of title 23, United States Code, is amended—

(1) in subparagraph (B), by striking “400” and inserting “500”; and

(2) in subparagraph (C)(ii), by striking “400-pound” and inserting “500-pound”.

SA 1523. Mr. NELSON of Nebraska (for himself and Mr. JOHANNES) submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:

On page 408, between lines 3 and 4, insert the following:

SEC. 15. EXEMPTION.

(A) Federal-aid highway, highway bridge, or bridge that is in operation or under construction in a State and is damaged by an emergency that is declared
by the Governor of the State and concurred in by the Secretary of Homeland Security or declared as an emergency by the President pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.).—
(1) may be reconstructed in the same location with the same capacity, dimensions, and design as previously approved and
(2) shall be exempt from any environmental reviews, approvals, licensing, and permit requirements under—
(A) the National Environmental Policy Act of 1969 (42 U.S.C. 4231 et seq.);
(B) sections 402 and 404 of the Federal Water Pollution Control Act (33 U.S.C. 1342, 1344);
(C) the National Historic Preservation Act (16 U.S.C. 470 et seq.);
(D) the Migratory Bird Treaty Act (16 U.S.C. 703 et seq.);
(E) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), except when the reconstruction occurs in designated critical habitat for threatened and endangered species;
(F) the Fish and Wildlife Coordination Act (16 U.S.C. 661 et seq.);
(G) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), except when the reconstruction occurs in designated critical habitat for threatened and endangered species;
(H) Executive Order 11990 (42 U.S.C. 4231 note; relating to the protection of wetlands); and
(i) any Federal law (including regulations) requiring no net loss of wetlands.

SA 1524. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ... EMERGENCY EXEMPTIONS.
Notwithstanding any other provision of law, with respect to any road, highway, or bridge that is closed or is operating at reduced capacity because of safety reasons—
(1) the road, highway, or bridge may be reconstructed in the same general location as before the disaster; and
(2) such reconstruction shall be exempt from any environmental reviews, approvals, licensing, and permit requirements under—
(A) the National Historic Preservation Act (16 U.S.C. 470 et seq.);
(B) the Fish and Wildlife Coordination Act (16 U.S.C. 661 et seq.);
(C) the Migratory Bird Treaty Act (16 U.S.C. 703 et seq.);
(D) the Wild and Scenic Rivers Act (16 U.S.C. 1271 et seq.);
(E) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), except when the reconstruction occurs in designated critical habitat for threatened and endangered species;
(F) sections 402 and 404 of the Federal Water Pollution Control Act (33 U.S.C. 1342, 1344);
(G) the National Environmental Policy Act of 1969 (42 U.S.C. 4231 et seq.);
(H) Executive Order 11990 (42 U.S.C. 4231 note; relating to the protection of wetlands); and
(i) any Federal law (including regulations) requiring no net loss of wetlands.

SA 1526. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ... EXEMPTION FROM REVIEW REQUIREMENTS.
Notwithstanding any other provision of law, any request for an approval, such as a request for approval of a permit or license, relating to a transportation project under any Federal law (including a regulation) that is not approved or denied by the date that is 180 days after the date on which the request for the approval is submitted to the Secretary or other appropriate Federal official shall be considered to be approved.

SA 1527. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ... JURISDICTION OVER COVERED ENERGY PROJECTS.
(a) DEFINITIONS. — Covered Energy Project.—In this section, the term “covered energy project” means any action or decision by a Federal official regarding—
(1) the leasing of Federal land (including submerged land) for the exploration, development, production, processing, or transmission of oil, natural gas, or any other source or form of energy, including actions and decisions regarding the selection or offering of Federal land for such leasing; or
(2) any action under such a lease, except that this section shall not apply to a dispute between the parties to a lease entered into a provision of law authorizing the lease regarding obligations under the lease or the alleged breach thereof.
(b) EXCLUSIVE JURISDICTION OVER CAUSES AND CLAIMS RELATING TO COVERED ENERGY PROJECTS.—Notwithstanding any other provision of law, the United States District Court for the District of Columbia shall have exclusive jurisdiction to hear all causes and claims relating to covered energy projects that arise from any covered energy project.
(c) TIME FOR FILING COMPLAINT.—
(1) In General.—Each case or claim described in subsection (b) shall be filed not later than the end of the 60-day period beginning on the date of the action or decision by a Federal official that constitutes the covered energy project considered.
(2) PROHIBITION.—Any cause or claim described in subsection (b) that is not filed within the time period described in paragraph (1) shall be barred.
(d) DISTRICT COURT FOR THE DISTRICT OF COLUMBIA DEADLINE.—
(1) In General.—Each proceeding that is subject to subsection (b) shall—
(A) be resolved as expeditiously as practicable and in any event not more than 180 days after the cause or claim is filed; and
(B) take precedence over all other pending matters before the district court.
(2) FAILURE TO COMPLY WITH DEADLINE.—If an interlocutory or final judgment, decree, or order of the district court under this section may be reviewed by no other court except the Supreme Court.
(3) DEADLINE FOR APPEAL TO THE SUPREME COURT.—If a writ of certiorari has been granted by the Supreme Court pursuant to subsection (e), the interlocutory or final judgment, decree, or order of the district court shall be resolved as expeditiously as practicable and in any event not more than 180 days after the interlocutory or final judgment, decree, order of the district court is issued.

SA 1528. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ... ENVIRONMENTAL IMPACT STATEMENTS.
Title I of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) is amended by adding at the end the following:

"SEC. 106. COMPLETION AND REVIEW OF ENVIRONMENTAL IMPACT STATEMENTS."

"(a) COMPLETION.—
(1) In General.—Notwithstanding any other provision of law, each review carried out under section 102(2)(C) with respect to any action taken under any provision of law, or for which funds are made available under any provision of law, shall be completed not later than the date that is 180 days after the commencement of the review.
(2) Failure to Complete Review.—If a review described in paragraph (1) has not been completed for an action subject to section 102(2)(C) by the date specified in paragraph (1), the review may be certified by the Secretary of Energy under section 102(2)(A)(iv) of title 20, United States Code, to be in the public interest.
(3) Unemployment Rate.—If the national unemployment rate is 5 percent or more, the..."
lead agency conducting a review of an action under this section shall use the most expeditious means authorized under this title to conduct the review.

(b)(1) The lead agency for a review of an action under this section shall be the Federal agency to which funds are made available for the action.

(2) Judicial review.—There shall be a single administrative appeal for each review covered by this section.

(c) Civil action.—Any civil action covered by this section shall be brought in the United States District Court for the District of Columbia.

(d) Pendency of judicial review.—After an agency has made a final decision with respect to a review carried out under this section, the decision shall be effective during the period of subsequent appeal to a court described in subparagraph (A).

(2) Civil action.—Any civil action covered by this section shall be brought in the United States District Court for the District of Columbia.
leader of the Senate (or his designee) shall introduce such joint resolution described in subsection (a) (by request), within 3 session days after Congress receives the report referred to in subsection (a).''

(b)(1) A joint resolution described in subsection (a) shall be referred to the committee in each House of Congress with jurisdiction under section 801(a)(1) of the House Representatives or the Senate to report a bill to amend the provision of law under which the rule is in question.

(b)(2) For purposes of this section, the term 'submission date' means the date on which the Congress receives the report submitted under section 801(a)(1).

(c) In the Senate, if the committee to which a joint resolution described in subsection (a) has been referred has waited 15 legislative days after its introduction, such committee or committees shall be automatically discharged from further consideration of the resolution and it shall be placed on the calendar. A vote on final passage of the resolution shall be taken on or before the close of the 15th legislative day after the resolution is reported by the committee or committees to which it was referred, or after such committee or committees have been discharged from further consideration of the resolution.

(d)(1) In the Senate, when the committee to which a joint resolution described in subsection (a) has been referred has waited 15 legislative days after its introduction, such committee or committees shall be automatically discharged from further consideration of the resolution and it shall be placed on the calendar. A vote on final passage of the resolution shall be taken on or before the close of the 15th legislative day after the resolution is reported by the committee or committees to which it was referred, or after such committee or committees have been discharged from further consideration of the resolution.

(2) For purposes of this section, the term 'submission date' means the date on which the Congress receives the report submitted under section 801(a)(1); or

(b) the nonmajor rule is published in the Federal Register, if so published.

(c) In the Senate, if the committee to which is referred a joint resolution described in subsection (a) has not reported such joint resolution (or an identical joint resolution) after the expiration of 15 legislative days after its introduction, such committee may be discharged from further consideration of such joint resolution upon a petition supported in writing by 30 Members of the Senate, and such joint resolution shall be placed on the calendar.

(d) In the Senate, if the committee to which a joint resolution is referred has reported, or when a committee is discharged (under subsection (c)) from further consideration of a joint resolution described in subsection (a), the matter after the resolving clause shall be limited to not more than 2 hours, which shall be divided equally between those favoring and those opposing the joint resolution. A motion to further limit debate shall not be debatable. An amendment to, or a motion to recommit the joint resolution is not in order.

(2) The motion to postpone, or a motion to proceed to the consideration of other business, or a motion to recommit the joint resolution is not in order.

(3) In the Senate, immediately following the conclusion of the debate on a joint resolution described in subsection (a), and a single quorum call at the conclusion of the debate if requested in accordance with the rules of the Senate, the vote on final passage of the joint resolution shall occur.

(4) Appeals from the decisions of the Chair relating to the application of the rules of the Senate to the procedure relating to a joint resolution described in subsection (a) shall be decided without debate.

(a) For purposes of this section, the term 'joint resolution' means only a joint resolution introduced in the period beginning on the date it was referred to in section 801(a)(1)(A) is received by Congress and ending 60 days thereafter (excluding days either House of Congress is adjourned for more than 3 days during a session of Congress), the matter after the resolving clause of which is as follows: 'That Congress disapproves the nonmajor rule submitted by the House of Representatives which is represented in such rule shall have no force or effect.' (The blank spaces being appropriately filled in).
Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:
At the appropriate place, add the following:

SEC. 11. NATIONAL HIGHWAY PERFORMANCE PROGRAM; DEFICIT REDUCTION.

(a) Of the amounts made available under titles II through VI of division I of the Consolidated Appropriations Act, 2012 (Public Law 112–74; 125 Stat. 786), $14,677,000,000 are rescinded and transferred to the general fund of the Treasury and used for deficit reduction.
(b) The authorization of appropriations to carry out the national highway performance program under section 119 of title 23, United States Code (as added by section 110b) is increased by $7,338,000,000.
(c) The total amount specified in subsection (a) shall be derived from an amount rescinded from programs and projects for which funds are made available under titles II through VI of division I of the Consolidated Appropriations Act, 2012 (Public Law 112–74; 125 Stat. 786), as determined, for each such program or project, by the Secretary of Treasury or the head of any other agency having administrative authority over the program or project.

SA 1531. Mr. PAUL submitted an amendment intended to be proposed by him to the bill S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, and for other purposes; which was ordered to lie on the table; as follows:
At the appropriate place, insert the following:

SEC. 12. PAY-TO-PLAY REFORM

Section 112 of title 23, United States Code, is amended by adding at the end the following:

"(b) PAY-TO-PLAY REFORM—A State transportation department shall not be considered to have violated a requirement of this section solely because the State in which that State transportation department is located, or a local government within that State, has in effect a law or an order that limits the amount of money an individual or entity that is doing business with a State or local agency with respect to a Federal-aid highway project may contribute to a political party, campaign, candidate, or elected official."

NOTE OF HEARING

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. RINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a field hearing will be held on Tuesday, March 12, 2012, at 2 p.m., at the U.S. Naval Station, Norfolk, Virginia.

The purpose of the hearing is to receive testimony on specific energy and water policies and programs that the U.S. Department of Energy is implementing as it pertains to its operations and facilities.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510–6150, or by email to Meagan Gins at (202) 224–0883.

For further information, please contact Jonathan Black at (202) 224–6722 or Meagan Gins at (202) 224–0883.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ARMED SERVICES

Mrs. BOXER. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on February 9, 2012, at 9:30 a.m.
The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mrs. BOXER. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on February 9, 2012, at 10 a.m., to conduct a Committee hearing entitled "State of the Housing Market: Removing Barriers to Economic Recovery."
The PRESIDING OFFICER. Without objection, it is so ordered.
Mr. REID. I ask unanimous consent that on February 13, 2012, at 4:30 p.m., the Senate proceed to executive session to consider Calendar No. 437; that there be an hour of debate equally divided in the usual form prior to the vote; further, that the mandatory quorum under rule XXII be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

LEGISLATIVE SESSION

Mr. REID. I now ask unanimous consent we resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

NATIONAL SCHOOL COUNSELING WEEK

Mr. REID. Mr. President, I ask unanimous consent we proceed to S. Res. 371.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read the nomination of Adalberto Jose Jordan, of Florida, to be United States Circuit Judge for the Eleventh Circuit.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. REID. Mr. President, I ask that we proceed to executive session to consider Calendar No. 437.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will proceed to read the motion.

The assistant legislative clerk read the nomination of Adalberto Jose Jordan, of Florida, to be United States Circuit Judge for the Eleventh Circuit.

CLOTURE MOTION

Mr. REID. I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXXI, the Chair directs the clerk to read the motion.

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close the debate on the nomination of Adalberto Jose Jordan, of Florida, to be United States Circuit Judge for the Eleventh Circuit:

Whereas school counselors are one of the few professionals in a school building who are trained in both education and mental-health matters;

Whereas the roles and responsibilities of school counselors are often misunderstood;

Whereas the school-counselor position is often among the first to be eliminated to meet budgetary constraints;

Whereas the national average ratio of students to school counselors of 459 to 1 is almost twice that of the ratio of 250 to 1 recommended by the American School Counselor Association, the American Counseling Association, the National Association for College Admission Counseling, and other organizations; and

Whereas the celebration of National School Counseling Week would increase awareness of the important and necessary role school counselors play in the lives of students in the United States: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week of February 6 through 10, 2012, as “National School Counseling Week”; and

(2) encourages the people of the United States to observe the week with appropriate ceremonies and activities that promote awareness of the role school counselors play in school and the community at large in preparing students for fulfilling lives as contributing members of society.

ORDERS FOR MONDAY, FEBRUARY 13, 2012

Mr. REID. Mr. President, I ask unanimous consent that the Senate adjourn until 2 p.m. on Monday, February 13, 2012; that following the prayer andุม the Senate proceed to executive session under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. REID. Mr. President, the next rollcall vote will be at 5:30 p.m. on Monday on the motion to invoke cloture on the Jordan nomination.

ADJOURNMENT UNTIL MONDAY, FEBRUARY 13, 2012, AT 2 P.M.

There being no objection, the Senate, at 6:33 p.m. adjourned until Monday, February 13, 2012, at 2 p.m.

CONFIRMATION

Executive nomination confirmed by the Senate February 9, 2012:

THE JUDICIARY

CATHY ANN RENCIUVO, OF CALIFORNIA, TO BE UNITED STATES DISTRICT JUDGE FOR THE SOUTHERN DISTRICT OF CALIFORNIA.
EXTENSIONS OF REMARKS

RECOGNIZING MS. BEATRICE IVORY

HON. BENNIE G. THOMPSON
OF MISSISSIPPI
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor a longtime healthcare provider, Ms. Beatrice Ivory. She is the daughter of T.J. and Martha Ivory and is the mother of Kayla Beatrice Ivory, an Industrial and System Engineering major at Mississippi State University.

Ms. Beatrice graduated from Henry Weather High School in Rolling Fork, MS in 1974. After working for 13 years with mentally challenged patients at Mississippi Christian Family Service, she aspired to continue her education. In 1990, she received her LPN license from Hinds Community College along with specialties in Intravenous certification (IV) and Emergency Medical Technical License (EMT). Since receiving her LPN, she has worked with Skarkey-issaquena Community Hospital (SICH), Heritage Manor Nursing Home, Delta Regional Medical Center, and Continue Care Home Health Agency.

Ms. Beatrice is a member of the Pleasant Valley M.B. Church where she is an usher and Sunday school teacher. She is also currently serving as Treasurer of the South Delta School District Parent Teacher Organization.

Mr. Speaker, I ask you and my colleagues to join me in commending Ms. Beatrice Ivory for her services as a healthcare provider and public servant to the State of Mississippi.

HONORING KAREN WASHINGTON,
PRESIDENT OF THE NEW YORK CITY COMMUNITY GARDEN COALITION

HON. JOSÉ E. SERRANO
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. SERRANO. Mr. Speaker, in honor of Black History Month 2012, I rise today to recognize a community leader from the Bronx whom I deeply respect, Ms. Karen Washington.

Karen Washington was born and raised in New York City and has resided in the Bronx for more than a quarter century. She attended Hunter College, CUNY where she graduated Magna Cum Laude, with her Bachelor’s in Health Sciences. She then attended New York University where she earned her Master’s Degree in Occupational Biomechanics and Ergonomics. Since 1985, Ms. Washington has worked to improve the quality of life in the Bronx as a community activist.

Ms. Washington works with residents of the Bronx to turn empty lots into accessible green spaces through her work as a community gardener and as a member of the Board of Directors of the New York Botanical Garden. Not only has her work brought much needed green space to our neighborhoods but, as President of New York City Community Gardens, she has fought for the protection and preservation of existing community gardens. As a Just Food board member and trainer, Ms. Washington also leads workshops on food growing and food justice for community gardeners throughout the city. She has also worked to increase access to fresh fruits and vegetables in the Bronx that are grown in our community gardens.

Ms. Washington is the Co-Founder of Black Urban Growers, an organization of agricultural volunteers committed to building networks and support for growers in both urban and rural settings. Ms. Washington has achieved these impressive accomplishments while working professionally as a physical therapist for over 30 years.

Mr. Speaker, Ms. Washington’s work in creating green space in urban areas and in advocating for food equity has touched thousands of lives throughout New York City. Our communities are stronger and more vibrant due to Ms. Washington’s unwavering dedication. Mr. Speaker, I ask that my colleagues join me in paying tribute to a woman of excellence, who aspires to make her community stronger, Ms. Karen Washington.

SEQUESTRATION WEAKENS OUR NATIONAL SECURITY

HON. JOE WILSON
OF SOUTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. WILSON of South Carolina. Mr. Speaker, this Nation currently faces a clear and present danger to our national security that this body has the ability to defeat: Defense Sequestration. This is an issue that we must address sooner rather than later. Senator JOHN MccAIN recently stated, “I believe the cuts that would be required by sequestration aimed at the Department of Defense are a threat to our Nation’s security. We still live in a very dangerous world and everyone agrees that this kind of sequestration cannot take place.”

House and Senate Republicans are determined to prevent sequestration from occurring. Slashing the Army by 80,000 troops, cutting 20,000 Marines, and reducing 10,000 Air Force personnel is risky. The United States does not have the luxury of choosing our enemies or deciding if we will be attacked. Our military must be properly funded, equipped and prepared to protect our families from extremists who carry signs calling for “Death to America.”

In conclusion, God Bless our troops and we will never forget September 11th in the Global War on Terrorism.

IN RECOGNITION OF THE ACHIEVEMENTS OF CHRISTOPHER CANNING

HON. AARON SCHOCK
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. SCHOCK. Mr. Speaker, I rise today in recognition of an exceptional young person whose character and accomplishments during his short life of 15 years merit commendation.

Chris Canning was an honor student, musician, athlete, humanitarian, and elite martial artist. In addition to achieving the status of First Degree Black Belt in Taekwondo in only 4 years and playing baseball, basketball and football for his high school, Chris found time to volunteer in his community of Maroa, Illinois, delivering food and clothing to those in need and working in an animal shelter.

Chris has been honored for his service to others and excellence in martial arts by the United Nations Youth Assembly, the World Martial Arts Hall of Fame, the United States Olympic Committee, and the USA Taekwondo Martial Arts Commission, among many others. Despite all of these accolades, the qualities that Chris’s family and friends most associate with him were humility and a commitment to service above self. His pursuit in each of life’s endeavors, in and out of the martial arts, was to give more than he received, not to gain praise or honor, but to share achievement with others and to set aside his own desires in order to help those less fortunate. His greatest satisfaction came from being there when needed and making a difference.

He was a sincere friend and loving son, and he is missed by all who knew him. His legacy lives on through the Chris Canning Foundation and Awards Program, which has been given to 77 youths from around the world who exemplify the strength of character and excellence that Chris possessed.

It is my honor to recognize the legacy of this exceptional young man from Central Illinois today.

HONORING JAMES “JIM” SCHRANZ

HON. RALPH M. HALL
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. HALL. Mr. Speaker, I rise today to honor James “Jim” Schranz for his tireless efforts to promote and expand retirement security for all Americans. Jim has played an integral role in the formation of the Employee-owned S Corporations of America (ESCA) and will soon be stepping down from his role as the founding Treasurer to fully enjoy his retirement with his wife Nancy.

After earning his MBA from the Cox School of Business at Southern Methodist University,
Jim began working at Austin Industries, rising to Vice President of Human Resources. In 1998, he took on the role of Treasurer with ESCA where he used his knowledge of this important and unique retirement savings vehicle to help protect and expand it to other businesses across Texas and the United States. Through ESCA’s efforts, Members of Congress have become better educated about retirement savings benefits created by private, employee-owned companies for their employee-owners. Jim has been instrumental in the fight to prevent inadvertent harm to S corporations Employee Share Ownership Plans (ESOPs) particularly in the days of pension reform. His retirement is well-deserved.

Mr. Speaker and colleagues, please join me in honoring Jim Schranz and wishing him all the best as he retires.

RECOGNIZING THE NATIONAL SALUTE TO VETERAN PATIENTS AND HONORING THE JESSE BROWN AND HINES VETERANS AFFAIRS HOSPITALS

HON. MIKE QUIGLEY
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. QUIGLEY. Mr. Speaker, I rise today to recognize the week in which we celebrate the National Salute to Veteran Patients which begins February 12th.

The United States Department of Veterans Affairs annually observes the week of February 14th as our Nation’s National Salute to Veteran Patients. This week is our opportunity to honor the more than 98,000 veterans who are cared for day-in and day-out by our Nation’s Veterans Affairs hospitals, outpatient clinics, and nursing homes.

Our Nation’s veterans have sacrificed much to ensure the safety of our homeland. Their service oftentimes comes at a price to their own personal well-being. When our service men and women are injured, our Veterans Affairs hospitals provide vital services that help them heal and return to life in our communities. This week serves as a reminder to thank our veterans for their service to our country while also commending those who treat them with medical care.

I would also like to recognize the Veterans Affairs hospitals that serve the servicemen and women of Illinois’s 5th District and the surrounding areas. The Jesse Brown Veteran Affairs Medical Center and the Edward Hines, Jr. Veteran Affairs Hospital admirably serve our veterans throughout the City of Chicago as well as into other parts of Illinois and Indiana. With more than one million outpatient visits between the two hospitals in a single year, the doctors, nurses and staff of both Jesse Brown and Edward Hines, Jr. are to be commended for the care that they provide to our veterans.

Mr. Speaker, I ask my colleagues to join me in honoring our Nation’s veterans during this National Salute to Veteran Patients week.

CELEBRATING THE SESQUICENTENNIAL OF SAN RAFAEL CITY SCHOOLS

HON. LYNN C. WOOLSEY
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Ms. WOOLSEY. Mr. Speaker, I rise today to honor the 150th anniversary of San Rafael City Schools, an institution with a long and proud legacy of service to the young people of Marin County. San Rafael City Schools dates almost to the foundation of our county itself, and its history reminds us of the powerful role our system of public education has played in shaping the character and direction of our communities.

The first of the San Rafael City Schools—the fourth public school in the county—was opened in San Rafael in 1861, just over a decade after Marin County was founded and California was admitted into the Union. In a city numbering only several hundred residents, this first school counted 25 students in its first year, and it remained the city’s only public school for 26 years.

As San Rafael began to assume its role as Marin County’s population center, the school system expanded rapidly to meet new demands. A second elementary school was added in 1887, and in 1888 the county’s first high school, which expanded further in 1899. New elementary schools were added again in 1904 and 1909, followed by an even more intense series of construction projects mid-century, eventually numbering over a dozen new, expanded, or retrofitted facilities. Today, 12 schools serve San Rafael’s nearly 6,000 students, including separate districts for K–8 and high school education.

Since its founding, San Rafael City Schools has been an anchor for local families. It has played an integral role in the strength and success of San Rafael and Marin County, sending generations of Marin young people into the world with the preparation necessary to tackle our country’s challenges. More recently, the special role of San Rafael City Schools has been recognized by bond measures that ensure cities voters have supported to support extensive infrastructure modernization projects.

Mr. Speaker, I ask you to join me in celebrating the sesquicentennial of San Rafael City Schools. This is an institution that represents the democratic promise of public education to empower every individual, and in so doing foster and uplift an entire community.

PERSONAL EXPLANATION

HON. MIKE MCINTYRE
OF NORTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. MCINTYRE. Mr. Speaker, an unavoidable conflict required that I miss roll call #45, the Alexander Amendment No. 2 to H.R. 3521, the Expedited Legislation Line-Item Veto and Recissions Act of 2011. Had I been present, I would have voted in support of this amendment.

HON. RALPH M. HALL
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. HALL. Mr. Speaker, I rise today in recognition of Cary M. Maguire, a fellow Texan who exemplifies fortitude, American entrepreneurship, and community service.

Over the past twenty years, Cary’s strength of character was tested and proven as he fought for justice in a property rights dispute against the Houston, Texas city government. Despite being dealt a bad hand, court after court, Cary never surrendered. He showed courage and faith that justice would prevail, and his perseverance was ultimately rewarded.

Cary is the founder, Chair, and President of the Dallas-based Maguire Oil Company and Maguire Energy Company. In 1991, Cary’s company was given a permit by the city of Houston to drill near the banks of Lake Houston. However, when his crew began the project a city officer patrolling the area stopped the team, citing a city ordinance that prohibited drilling within 1,000 feet of the shore. The city revoked Maguire Oil’s permit, and a lengthy court battle began.

The case was shuffled around for fourteen years as courts argued over jurisdiction and how to proceed. In 2009, a Harris County court-at-law awarded Maguire $2 million in damages, plus $2.2 million in interest. The City appealed this ruling before agreeing on a settlement, setting a legal precedent for two trials, four appeals and the administrations of four mayors.

While acknowledging that the amount spent in legal fees exceeded the amount of the settlement, Cary stated that he continued the case because he thought it was important to defend the principle that while government has the right to take property for the public good, it does not have the right to do so without compensating the property owner.

Cary proceeded to donate the settlement money to found the Cary Maguire Ethics and Public Responsibility that bears his name at Southern Methodist University (SMU) in Dallas, Texas, where he serves as Trustee Emeritus in recognition for his outstanding service to the University as a member of the Board of Trustees from 1976 to 2000.

In addition to his founding grant to create the Maguire Center for Ethics and Public Responsibility, Cary also endowed a university-wide professorship in ethics at SMU. He has provided additional funds for programs and facilities at SMU’s Edwin L. Cox School of Business, including the Maguire Energy Institute, the Maguire Chair in oil and gas management, and the Maguire Building housing undergraduate programs in the Cox School.

In 1995 he and his wife, Ann, were among the first recipients of SMU’s Mustang Award honoring individuals whose long-term service and philanthropy have had a lasting impact on the University.

His national leadership positions include service on The National Petroleum Council, theExecutve Committee of Mid-Continental Oil and Gas Association, and membership of the Madison Council of the Library of Congress, where he funded the Maguire Chair in Ethics and American History.
Mr. Speaker, Cary Maguire's professional and philanthropic contributions will have a lasting value not only in the great State of Texas, but our nation. He embodies many outstanding qualities that define the American spirit. As we adjourn the House of Representatives today, let us do so in appreciation of this American leader, Mr. Cary Maguire.

HONORING CARL E. HEASTIE, MEMBER OF THE NEW YORK STATE ASSEMBLY AND CHAIRMAN OF THE BRONX DEMOCRATIC COUNTY COMMITTEE

HON. BILLY LONG OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. LONG. Madam Speaker, Cary Maguire, on rollover call No. 46, I did vote “yes” and checked the monitor—apparently the card or system malfunctioned.

RECOGNIZING DR. WILLIAM LLOYD BOOKER FOR HIS CONTRIBUTIONS AND SERVICES IN MISSISSIPPI HEALTH CARE

HON. BENNIE G. THOMPSON OF MISSISSIPPI
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. THOMPSON of Mississippi, Mr. Speaker, I rise today to recognize Dr. William Lloyd Booker of Clarksdale, Mississippi, for his noteworthy health care contributions to the Clarksdale, Mississippi, community.

Dr. Booker’s education began in Tallahatchie County, Mississippi, where he graduated from West Tallahatchie as High School Class Valedictorian in 1973. He completed his undergraduate studies at Tougaloo College majoring in Chemistry where he graduated “Cum Laude” with a Bachelor of Science degree. He received his Doctor of Medicine degree from the University of Iowa in 1982 and residency training at Broadlawns Medical Center in Des Moines, Iowa, where he served as a resident physician.

Dr. Booker has served as Medical Director and Staff Physician for Aaron E. Henry Health Service Center in Clarksdale, Mississippi, since 1985. He practices Family Medicine and is a dedicated lifetime member of the Air Force Association.

Dr. Booker is a member of the National Association of Community Health Centers, Mississippi Primary Health Care Association, Phi Beta Sigma Fraternity and Swarokski Crystal Society.

Mr. Speaker, I ask that my colleagues join me in recognizing Dr. William Lloyd Booker for his contributions and services in health care to the Clarksdale, Mississippi, community.

HONORING THE LIFE OF LT. COLONEL JOHN JOSEPH MURRAY

HON. RALPH M. HALL OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. HALL. Mr. Speaker, I rise today to honor the life of Lieutenant Colonel John Joseph Murray, an American patriot, community leader, devoted father and grandfather, and a dear friend of mine for many years, who passed away on January 30, 2012 at the age of 90.

John was born in Brooklyn, New York on January 6, 1922 to Joseph Murray and Madeline Cassidy. After graduating from high school in 1939, he began his military career in 1942—a career that would span nearly a quarter of a century. John served as an officer in the United States Air Force before retiring in 1968 as a Lieutenant Colonel. John was a Combat Rated Pilot with more than 5,000 flying hours. His military career earned him the Air Medal with two oak leaf clusters and numerous other military service medals. He was a gifted pilot, qualifying in 20 different aircraft, and was a dedicated lifetime member of the Air Force Association.

John also recognized the value of higher education, and in 1957 he received a Bachelor of Science in Political Science from St. Joseph’s College in Philadelphia, PA, where he served as an ROTC teacher. That same year, he graduated from the United States Air Force Command and Staff College at Maxwell Air Force Base in Alabama. John continued his education by earning his Master’s of Business Administration at the University of Dallas in 1977 at the age of 55.

Service was part of John’s character, so it came as no surprise that he took the initiative to mentor many young adults in their educational pursuits. John created a scholarship fund through his local Air Force Association chapter for college students struggling financially. He took an active role in encouraging these students and shared in their joy as they reached their goal of graduation.

Upon his retirement from the Air Force, John and his family moved to Greenville, Texas where he began a second distinguished career in the aerospace industry, serving thirty-one years and retiring in 1998 at the age of 76. For nineteen of those years, he was appointed to serve as Chairman of the Employeess’ Political Action Committee. As Chairman, John hosted informative political forums in Greenville, inviting many special guests over the years including then Governor Bill Clements; then Governor and former President George W. Bush; former U.S. Senators Lloyd Bentsen, Phil Gramm, John Tower, as well as our current U.S. Senator Kay Bailey Hutchison. I was also honored as his Congressman to attend several of John’s forums.

John was a highly respected man known for his intelligence, honesty, and integrity, both in his own community and in Washington. Everyone who knew John was struck by his innate optimism, his positive attitude, and his genuine kindness. John was a natural leader, and I am fortunate to have counted him as my friend. He will be dearly missed by all those whose lives he touched.

Mr. Speaker, as we adjourn today I ask that my colleagues join me in honoring this American patriot, Colonel John Joseph Murray.
Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud the Colorado School of Mines Women’s Softball Team, who last spring won a berth in the NCAA Women’s Softball Tournament for the second time in school history. The Orediggers finished the year with a conference record of 28-11, and an overall record of 36-24, sharing the Rocky Mountain Athletic Conference Championship with Metropolitan State College of Denver. The School of Mines also hosted the Rocky Mountain Athletic Conference softball championship last spring. The three day event was a success for the School of Mines and all the schools that participated. Two of the School of Mines players were named to the All Tournament Team, Kelly Ulrich, and Macy Jones. The women of the Orediggers softball team should be extremely proud of their 2011 season, and their efforts on the diamond and in the classroom. These women exemplify the idea of the collegiate student-athlete. The Colorado School of Mines specializes in hard sciences, and it is heartening these young women in their dedication to fields that have traditionally been male dominated. They are an inspiration to girls everywhere who want to study science and engineering.

I also want to congratulate pitcher Kelly Ulrich who was named the Rocky Mountain Athletic Conference Women’s Athlete of the Month for April 2011.

I extend my deepest congratulations to the women of the Colorado School of Mines Women’s Softball Team. The lessons they are learning as student-athletes will make these women the science and technology leaders of tomorrow. I am proud to have this world class school in my district. I wish the team best of luck in the 2012 season I hope it is even more successful than 2011, again congratulations, and Go Orediggers!

HON. ED PERLMUTTER
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Wendy Goins of Golden Bodyworker for receiving the Ambassador of the Year Award from the Greater Golden Chamber of Commerce. This award is given each year to an individual who is a member of the Chamber Ambassadors. Wendy has been very active in promoting the Chamber in several ways, such as attending ribbon cuttings, grand openings, ground breakings, mentoring new Chamber members, attending Chamber functions, staffing the membership luncheon prize table, and many more.

With a full work schedule, Wendy finds time to promote the Chamber, attend functions and accepts challenges with a no defeat attitude. She is a real asset to the Golden community.

I extend my deepest congratulations to Wendy Goins for this well deserved recognition by the Greater Golden Chamber of Commerce. I have no doubt she will exhibit the same dedication and character in all her future accomplishments.

HON. JUDY CHU
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Ms. CHU. Mr. Speaker, I rise today to recognize a great loss to our community. Dr. Jacinto “Jay” Valencia, who passed away on January 31, 2012, at the age of 63. My heart goes out to his loving wife, Rosalie; his son, John; his daughter, Aileen V. Michel; his grandchildren Cello, Mycah and Naiya; and the rest of his family, friends and loved ones.

I was proud to have known Dr. Jay, as he was fondly called by his friends, for many years. He was a tireless advocate for his community and for working families, and rose to one of the highest positions in the Filipino American union movement.

Dr. Jay was vice president for administrative and legislative affairs of the National Union of Health Workers, based in California, where he worked hard to secure fair benefits and compensation for the organization’s membership. His most lasting legacy, however, was his selection as the first Mayor of Filipinotown, a historic district by the City of Los Angeles in a historic district by the City of Los Angeles in 2002.

His passion for bettering the lives of his fellow community members was evident in his work for elected officials he believed in, such as the passing of Dr. Stephen Levin.

HON. CAROLYN B. MALONEY
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Ms. MALONEY. Mr. Speaker, it was with tremendous sadness that I learned today of the passing of Dr. Stephen Levin. Dr. Levin was one of our nation’s foremost experts in occupational and environmental medicine and in his career cared for thousands of Americans with work-related injuries and illnesses. But New Yorkers also knew Dr. Levin. He was best at the Director of the World Trade Center Worker and Volunteer Medical Screening Program, where he helped identify the emergence of 9/11-related illnesses and led the medical community’s response to this unprecedented health crisis.

The Medical Screening Program was a precursor to the current World Trade Center Health Program, which was enshrined in law by the James Zadroga 9/11 Health and Compensation Act, a bill I authored with Congressmen NAZLER and KING, which worked with Dr. Levin to pass. Without Dr. Levin’s pioneering research, service, and dedication to 9/11 responders, volunteers, and survivors, we may never have passed the Zadroga Act.
as his stint as field representative for then California Assembly Speaker Antonio Villaraigosa in Sacramento in the 1990s, and his long-time work in organized labor. He joined SEIU 99 in Los Angeles in 2000 and remained with the organization until his selection as vice president of NUHW, which represents many Filipino and Filipino hospital workers.

Born in the Philippines on Sept. 11, 1949, Dr. Jay was very active in politics in his native country. A dedicated fighter for liberty and democratic rights, Dr. Jay was detained under martial law for being a staff member of the late Senator Benigno Aquino, Jr. in 1972. He also actively campaigned for Eddie Villanueva during the Philippines presidential elections in 2009 and was president of Bagong Pilipino.

He brought his passion for serving his community back to the United States, where he was a leader, advisor or member of many Filipino American organizations including Justice for Filipino American Veterans, through which he lobbyed for full compensation of Filipino World War II veterans in Washington and Sacramento.

I urge my House colleagues to join me in honoring Dr. Jacinto “Jay” Valencia for his record of civic leadership, indomitable spirit and remarkable service and contributions to his community and to our nation.

RECOGNIZING LIEUTENANT BENNIE F. BOWERS, JR.

HON. FRED UPTON
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. UPTON. Mr. Speaker, I rise today to recognize Lieutenant Bennie F. Bowers, Jr., a native of Benton Harbor, Michigan, who is retiring from the Michigan State Police after 25 years of impeccable service.

It is with great pleasure that I congratulate Lieutenant Bowers on his impressive and inspiring service record to the state of Michigan. His 25 years of steadfast community involvement have helped keep Michigan safe, and have made all of us from Southwest Michigan extremely proud. Lieutenant Bowers’ renowned career includes protecting Michigan’s citizens while posted at Michigan State Police’s Battle Creek Post, Paw Paw District Headquarters and Regional Dispatch, Detroit Post, and most recently, the Metro Post. His selfless actions have made a real difference to folks within and outside of my district for decades. Lt. Bowers used innovative methods to enforce law. He was never satisfied with the status quo, and always worked to improve the communities in which he worked. He was respected by his peers and known as one to “lead by example.”

Lt. Bowers’ leadership is exemplified in his founding of the Michigan Youth Leadership Academy. Lt. Bowers recognized the importance of fostering discipline, respect, leadership, and teamwork in our youth. His efforts assisted in the reduction of youth crime and ingrained skills which those youth will carry with them for their whole lives. Lt. Bowers was also instrumental in the Michigan State Police Explorer Program, a program that works with youth and inculcating a career in law enforcement. Part of Lt. Bowers’ legacy will be the youth he influenced to serve as Michigan’s next generation of law enforcement officers.

Mr. Speaker, I am proud to recognize Lt. Bowers’ inspiring commitment to our great state and my constituents. I applaud Bennie on a fine career and wish him the best of luck in his retirement and future endeavors.

RECOGNIZING MRS. BRIDGETT CARPENTER FOR HER NOTABLE SERVICES IN THE MISSISSIPPI HEALTH CARE COMMUNITY

HON. BENNIE G. THOMPSON
OF MISSISSIPPI
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor Mrs. Bridgett Carpenter.

Mrs. Carpenter is a Registered Nurse and Clinical Nurse Specialist at Saint Dominic Hospital in Jackson, Mississippi. She obtained her Bachelor of Science degree in nursing from the University of Mississippi and a Master of Science degree in nursing from the University of Mississippi’s Medical Center.

Mrs. Carpenter is a member of the Association of Pediatric Nurses Nation, Society of Pediatric Nurses. She is a certified Pediatric Advanced Life Support regional faculty member as well as a certified Advanced Burn Life Support Provider. Mrs. Carpenter has worked at Saint Dominic Hospital for the past 23 years.

Mr. Speaker, I ask my colleagues to join me in recognizing Mrs. Bridgett Carpenter for her notable services as a Registered Nurse in the Mississippi health care community.

BEN CORDOVA

HON. ED PERLMUTTER
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Ben Cordova for his service to our community and the veterans of Colorado.

Mr. Cordova is a U.S. Army Vietnam Veteran, Commerce City business leader, and a tireless advocate for veterans’ rights. He created the Ben Cordova Foundation dedicated to help service members. The foundation helps families navigate the state and federal veterans’ services bureaucracy including education, VA health care and employment.

Mr. Cordova recently completed a 344-mile walk across Colorado in 44 days to bring awareness and support for his foundation. Despite his diabetes and neuropathy ailments he is set to begin a 2,745 mile journey across the country next February to raise money for veterans’ services organizations. It is his goal to ensure every veteran, young or old, is aware of the help available to them nationwide.

I congratulate Mr. Cordova on his efforts to bring awareness to veterans’ issues and extend my deepest thanks to him for his courage and service to our country.
serves the residents of the Bronx with such distinction, The Honorable Robert T. Johnson.

HONORING CLYDE W. BOWLING

HON. H. MORGAN GRIFFITH
OF VIRGINIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. GRIFFITH of Virginia. Mr. Speaker, I, along with Mr. GOODLATTE, would like to honor Clyde W. Bowling, a devoted public servant to the people of Bluefield and Tazewell County, on the occasion of his 100th birthday.

Mr. Bowling was born on February 26, 1912. His family moved to Graham, now known as Bluefield, where he graduated from Graham High School in 1931. From 1933 to 1934, Mr. Bowling served as a member of the Civilian Conservation Corps, working at the Beltsville, Maryland, research center and in various forestry projects.

Mr. Bowling is a proud veteran of World War II. During the War, he served with the Combat Engineers, 99th Division, and the 743rd Railroad Battalion building railroads in Germany and Belgium.

His willingness to serve extended to the Tazewell County and Bluefield communities as well. Mr. Bowling served as the leader of Boy Scout Troop 144 for over 30 years. During this time he received several awards, including the Silver Beaver Award for distinguished service to young people. He was the Treasurer of the Town of Bluefield in 1962, a member of the Tazewell County Soil and Water Conservation Board in the 1960s, and held a position as a member of the Cumberland Plateau Planning District for 13 years. He worked closely with the Tazewell County Transportation Safety Commission for 40 years to increase highway safety and support improvements. He was actively involved with American Legion Post #122, the Masonic Lodge #122, the Graham High School Athletic Booster Club, the Bluefield Business and Professional Association, and was a charter member of Veterans of Foreign Wars Post 9996. Mr. Bowling is also a longtime member of Virginia Avenue United Methodist Church.

Through hard work and dedication, Mr. Bowling established the Mountain Dominion Resource Conservation and Development Area, RC & D. He served as chairman of this organization as well as the New River-Highlands RC & D. In addition, he served in all offices of the State Association of RC & D Councils, as second vice president of the Southeast Association of RC & D Councils, and was named to the Virginia State Association of RC & D Hall of Fame. He was also a member of Earth Team.

Currently, Mr. Bowling resides in the Virginia Veterans Care Center next to the V.A. Hospital in Salem, VA. He is the oldest veteran in the Center.

Mr. Bowling's contributions to the community are to be commended. He has impacted many lives throughout his 100 years. As a member of America's greatest generation, the young people of today have much to learn from his service and dedication. We are honored to attend this great man's and this very special birthday. Happy Birthday, Mr. Bowling. Thank you for all that you have done for Southwest Virginia.

HONORING THE LIFE OF LONG ISLAND VETERAN THOMAS H. WATKINS

HON. STEVE ISRAEL
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. ISRAEL. Mr. Speaker, I rise today to commemorate the life of Thomas H. Watkins, an American veteran from Long Island. He passed away on January 31, 2012. Now, the entire community is mourning this tremendous loss.

Before becoming a figure in the Long Island community, Thomas played a key role in World War II honorably serving the U.S. Army. In late 1942, he was drafted and assigned to the 92nd Infantry Division part of the legendary Buffalo Soldiers. Of the 909,000 African Americans selected for duty in the Army during World War II, the men of the 92nd division were among the only African Americans to see combat in Europe, putting their lives on the line in battle against the German troops in Italy. Despite the harsh reality of racial segregation, Thomas and the Buffalo Soldiers fought valiantly to defend the country they loved. It was their courage and bravery that earned the respect of their fellow servicemen and country. For the next 4 years Thomas went on to serve in Italy and Germany before being honorably discharged.

After serving on the battlefields, Thomas continued his commitment to his country at the Northport Veteran Affairs Medical Center. He went on to work on behalf of Long Island veterans for over 20 years before finishing his career with the Town of Huntington. Not only was Thomas a great resource for Long Island veterans, he was a deeply engaged civic leader and public servant in his community.

A member of the Bethel A.M.E. Church in Huntington, Thomas worked tirelessly for the congregation he loved as Trustee Emeritus. Also, aware of the vital need for racial equality in America, Thomas held a lifetime membership to the NAACP. His devotion to his community, faith and family should be commended.

There is no question that his fellow veterans, his family and Long Islanders will miss Thomas. In the wake of his passing, we should all remember the sacrifice our veterans make to keep us safe here at home. I am forever grateful for Thomas’s contributions as a serviceman and leader on Long Island. I offer my sincerest thoughts and prayers to his family.

CITY OF GOLDEN PARKS AND RECREATION DEPARTMENT

HON. ED PERLMUTTER
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud the City of Golden Parks and Recreation Department for receiving the Greater Golden Chamber of Commerce’s Gold Medal Award.

The Parks and Recreation Department is responsible for maintaining open spaces, for providing a quality system of parks and recreational facilities and for providing positive leisure opportunities for the community. Golden is home to many unique recreational amenities.

The American Academy for Parks and Recreation Administration, in partnership with the National Recreation and Park Association (NRPA), awarded the City of Golden the National Gold Medal Award at NRPA’s Annual Congress and Exposition. The Gold Medal Award honors communities throughout the United States that demonstrate excellence in long-range planning, resource management, volunteerism, environmental stewardship, program development, professional development and agency recognition.

Each agency is judged on its ability to address the needs of those it serves.

The Golden Parks and Recreation vision is “Golden will be recognized as a national leader in the provision of high quality parks, trails and recreation facilities.”

Their mission is to promote and provide safe and comprehensive community facilities, programs and services that will enrich the quality of life for all residents and visitors.”

I extend my deepest congratulations to all the employees of the City of Golden Parks and Recreation Department for this well deserved recognition by the Greater Golden Chamber of Commerce.

MEMORIAM FOR FRANK CUSHING, APPROPRIATIONS COMMITTEE STAFF DIRECTOR

HON. JERRY LEWIS
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. LEWIS of California. Mr. Speaker, I rise today to pay tribute to Frank Martin Cushing, who gave more than 30 years of service to the Nation as a congressional staffer, culminating as the staff director for the House Appropriations Committee. Frank passed away on Monday, Feb. 6, 2012 at the age of 59.

Frank was a fabulous person, a true leader and someone who you could always count on to get an extremely difficult job done right—while leaving everyone feeling good about it when it was finished. He was a mentor and friend to so many of the wonderful staff who work for the Appropriations Committee, and one of the best people I ever worked with in my career in public service.

I first came to know Frank well when he came to work for me as staff director of the House Appropriations Committee on Veterans Affairs, HUD and Independent Agencies in 1994. He immediately helped craft a bill that reduced spending by several billion dollars, while leaving everyone feeling good about it when it was finished. He was a mentor and friend to so many of the wonderful staff who work for the Appropriations Committee, and one of the best people I ever worked with in my career in public service.

I first came to know Frank well when he came to work for me as staff director of the House Appropriations Committee on Veterans Affairs, HUD and Independent Agencies in 1994. He was a mentor and friend to so many of the wonderful staff who work for the Appropriations Committee, and one of the best people I ever worked with in my career in public service.

Frank was a giant of a man. Members on both sides of the aisle—in both the House and Senate—respected him for his integrity, commitment and policymaking genius.

Frank was a giant of a man. Members on both sides of the aisle—in both the House and Senate—respected him for his integrity, commitment and policymaking genius.

Frank was a giant of a man. Members on both sides of the aisle—in both the House and Senate—respected him for his integrity, commitment and policymaking genius.
of the full committee. I was extremely gratified when Frank agreed—and became just the 12th staff director of the House Appropriations Committee in U.S. history.

His legacy remains on the committee in the many excellent staff members he hired and trained. He was adored by the hundreds of members and staff throughout the House and Senate who came to know and admire him. I have no doubt that many will join me in reaching out to his wife, Amy and their four children, and express their sympathy at her loss and their gratitude for having known Frank Cushing.

Mr. Speaker, I would like to provide the obituary for Frank in order for my colleagues to understand what a truly remarkable person and public servant he was:

FRANK MARTIN CUSHING
APRIL 9, 1932—FEBRUARY 6, 2012
Frank Cushing, loving husband, son, father, grandfather, brother, and mentor died at his home in Falls Church on Monday, February 6, 2012. He was 80 years old.

Widely respected for his deep faith, integrity, and love of family and country, Cushing left an indelible mark in public policy through more than 30 years of public service in the House of Representatives, U.S. Senate, and Washington, DC business community. Cushing was widely regarded as one of the most knowledgeable and experienced individuals in Washington concerning the congressional appropriations and Federal budget processes.

Cushing graduated from the University of Idaho in 1954 with a Bachelor of Arts degree in political science and completed graduate level work in public policy administration at the University of Idaho and Boise State University in 1981. He came to Washington, DC in 1977 to work as a legislative assistant for Senator James McClure of Idaho. Cushing served as clerk of the Senate Interior and Related Agencies Appropriations Subcommittee for Chairman McClure from 1981–84 under full committee Chairman Mark Hatfield of Oregon, and as staff director for the Senate Energy and Natural Resources Committee under Chairman McClure from 1984–91.

Following a three-year stint as Corporate Vice President of a Fortune 500 energy firm, Cushing returned to Capitol Hill in 1995 to serve as Clerk and Staff Director of the House Veterans Affairs, Housing and Urban Development (HUD) and Independent Agencies Appropriations Subcommittee for then Subcommittee Chairman Jerry Lewis of California under full Committee Chairman Bob Livingston of Louisiana. He left the Hill in 2003 to become a partner at a firm specializing in appropriations consulting but returned to the House in 2005 as the Clerk and Staff Director of the House Appropriations Committee under newly elected Chairman Lewis. Cushing was the twelfth Clerk and Staff Director of the House Appropriations Committee in U.S. history and today his portrait hangs in the U.S. Capitol with his predecessors dating back to 1865.

Cushing viewed the Hill in 2008 to become a partner in a D.C. law and consulting firm where he devoted his time and energy to public policy, particularly relating to funding for education. His integrity, compassion, pragmatism, and masterful political skills were admired by House Members, Senators, and staff on both sides of the aisle. He served as an At-Large Trustee of the Consortium for Ocean Leadership. He also served on the Advisory Board of the Lionel Hampton Jazz Festival at the University of Idaho.

Cushing is survived by his wife, Amy Hammer of Falls Church, VA; his mother, Elizaabeth Cushing of Arlington, VA; his brother, William P. Cushing, Jr. of Norristown, PA.; 4 children, Christina Abel of Caldwell, ID, Jennifer Dewing of Crandon, WI, Amy Catherine Cushing of Falls Church, VA, and Nathaniel Allen Cushing, of Falls Church, VA; and 12 grandchildren. Friends and family were blessed to join him at home over the last weeks of his life. I offer a time of reflection, confirmation, and joy.

A memorial service celebrating the life and memory of Frank Martin Cushing will be held Monday, February 13 at 3 p.m., at Columbia Baptist Church, 103 West Columbia Street, Falls Church, VA, where Cushing served as a deacon.

In lieu of flowers, donations are requested to be designated to the Frank Martin Cushing Public Policy Scholarship through the University of Idaho Foundation, Inc., P.O. Box 483137, Moscow, ID 83844-3137, as a part of the James A. and Louise McClure Center for Public Policy Research for which Cushing served on the Advisory Board. Contributions may also be directed to CrossLink International, 427 North Maple Avenue, Falls Church, VA 22046.

CONGRATULATING CHARLOTTE HAWKINS ON HER 112TH BIRTHDAY

HON. ALCEI L. HASTINGS
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012
Mr. HASTINGS of Florida. Mr. Speaker, I rise today to join my colleagues in wishing a happy 112th birthday to Ms. Charlotte Hawkins.

Ms. Flowers, or Gram as she is lovingly called by her family, was born on March 20, 1900 in Madison, Florida. Throughout her life, Gram has always taken care of others. Whether friends, families, neighbors or strangers, Gram was always ready to help others in any way she could.

Her granddaughter, whom she has lived with in Riviera Beach since 2005, reflected that Gram lived her life in adherence to Ecclesiastes 9:10 which states that: "Whatever your hand finds to do, do it with all your might."

With a special place in her heart for helping children, Gram had a in-home day care center in the 60’s and 70’s and has been a foster grandparent. As the oldest of three daughters and four sons born to Date Hawkins, she left school in the third grade to help care for her siblings. However, she still learned how to read and write and provided her grandchildren with help with their homework.

Gram also has a knack for cooking, working as a cook at Florida State University and also as a private home cook. Although she personally has a sweet tooth and loves Coca-Cola, sweet tea, and sweet potato pie, as a cook, one of her specialties was homemade biscuits. In addition to filling others up with delicious food, she also cared for the sick and shut-in. One of her trademark sayings is "Be careful how you treat people. Because you’re up today doesn’t mean you won’t be down tomorrow." This sentiment was something my grandmother used to also share with me and are words we should all live by every day in caring for others.

To that end, Gram always was active in her church, the Philadelphia Primitive Baptist Church in Tallahassee. She believes that it is her walk with Jesus that keeps her going strong. This strength allowed her until a few years ago to visit the sick and shut-in members of her church. Although she learned to drive, Gram never got her drivers’ license or owned a car so she would often walk to make these visits. Even at 111, Gram still tries to help out any way she can.

Mr. Speaker, on February 20, 2012, Ms. Charlotte Hawkins Flowers will be celebrating her 112th birthday with her son’s family in Florida. Although she has survived her six siblings and nine children, she will be surrounded by a multitude of family, 12 grandchildren, 12 great-grandchildren, 11 great-great grandchildren, 16 great-great-great grandchildren, and 4 great-great-great-great grandchildren. It is my distinguished honor to wish her a very happy birthday and congratulate her on reaching this milestone and dedicating her life to caring for others.

HONORING PRINCIPAL YVETTE AGUIRRE

HON. NYDIA M. VELÁZQUEZ
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012
Ms. VELÁZQUEZ. Mr. Speaker, I rise to honor a pillar of the Sunset Park community, an educator and an advocate for Brooklyn’s children.

Today, a wing of PS 169 is being dedicated to honor Mrs. Aguirre’s years of service to the children of Sunset Park. As a teacher, Mrs. Aguirre saw firsthand the needs and potential of our children. She recognized that, when given the resources and opportunity to learn in the right environment, every child can become a successful member of the community.

In that regard, she has been a steadfast champion for relieving overcrowding in our schools and neighborhoods. She successfully led a campaign that united the parents of Sunset Park and helped them coalesce behind a vision of better schools, smaller class sizes and a stronger community.

In 1997, Sunset Park opened Public School 24, an institution that has now served thousands of our community’s children. Mrs. Aguirre became the school’s principal. In that role she was always committed to ensuring students and classrooms were held to high expectations. That guiding philosophy, coupled with strong faculty development and mentoring, served as a recipe for success for all those who passed through PS 24’s doors over the years.

While Mrs. Aguirre is now retired, Sunset Park’s residents remember her many contributions. Naming a school wing after this prominent leader, woman, educator, principal and mentor is a fitting tribute to her legacy. The name of Principal Yvette Aguirre will remind students and the community of the work of a proud Latina, a positive role model and a champion for education.

Mr. Speaker, talented and passionate educators are a gift. They give of themselves tirelessly in an effort to improve our communities and our children’s lives. One such opportunity. Mrs. Aguirre is one of those educators and, today, I would ask all my colleagues to join me in honoring her many achievements.
Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud the City of Golden USA Pro Cycling Challenge Stage Six Team for receiving the Chairman’s Award from the Greater Golden Chamber of Commerce.

The Greater Golden Chamber of Commerce Chairman’s Award is a very special award and is not awarded every year. This award is at the discretion of the Chair. Nominees must contribute a great deal to the overall economic vitality of the Greater Golden Area.

For seven consecutive days, 135 of the world’s top athletes raced across 518 miles through the majestic Rockies, reaching higher altitudes than they have ever had to endure, more than two miles in elevation. It featured the best of the best in professional cycling, competing on a challenging course through some of America’s most beautiful scenery, including cities such as Aspen, Vail, Breckenridge, Steamboat Springs and Golden.

The USA Pro Cycling Challenge commissioned IFM, a global sports research firm with 20 plus years of cycling experience around the world, to conduct a quantitative research study to measure the overall economic impact of the inaugural cycling event. Their findings showed the economic impact to the State of Colorado was in excess of $83.5 million. Golden received at least a share of this impact as the crowds in Golden and surrounding areas were enormous. Due to the Golden Team’s excellent job in 2011, the City of Golden has been awarded the beginning of the fifth stage for 2012.

I extend my deepest congratulations to the City of Golden USA Pro Cycling Challenge Six Team for this well deserved recognition by the Greater Golden Chamber of Commerce. I have no doubt they will excel in 2012.

FEDERAL RESEARCH PUBLIC ACCESS ACT

HON. MICHAEL F. DOYLE
OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. DOYLE. Mr. Speaker, I appreciate the opportunity this morning to talk to you about bipartisan legislation I’ve just introduced: the Federal Research Public Access Act.

When a federally-funded researcher writes a paper, too often that paper gets locked away behind a “pay-wall” and anyone who wants to learn from that federally-funded research has to pay exorbitant subscription or one-time fees.

Our nation benefits when scientists are able to share their research and collaborate—sometimes across different fields of study.

The public benefits when it’s able to learn about a rare Golden Chamber who’s discussion is in a scientific paper. Or when science students are able to access and draw from a broad array of work by other scientists to enhance their research.

Other major funders of scientific research—especially in health—such as the U.K. government or private foundations are increasingly requiring the papers they fund to be available to the public.

Some universities such as Harvard, MIT, Stanford, Carnegie Mellon, and the University of Kansas require papers written by their professors to be made available to the public.

In 2008, the Appropriations Committee expanded the public access policy requirements of the National Institutes of Health. The NIH has since implemented an online public access system called PubMed, which has tremendous support from the scientific community.

I believe we’d all benefit from greater access to cutting edge research, but several specific groups would probably benefit most:

• Scientists, whose research will be more broadly read;
• Scholars, who will have fewer barriers to obtaining the research they need and whose research will also be more broadly read;
• Funders, who will gain from accelerated discovery, facilitation of interdisciplinary research, preservation of vital research findings, and an improved capacity to manage their research portfolios; and
• Taxpayers, who will obtain economic and social benefits from the leveraging of their investment in scientific research through effects such as enhanced technology transfer, broader application of research to health care, and more informed policy development.

It’s not hard to think of the high school student who wants to major in medicine or science digging around the database looking for ideas.

Nor is it hard to foresee investigators looking at research in other disciplines to get ideas they can apply to their own field.

Or a college student at an undergraduate institution getting access to a journal their college has never been able to purchase.

Or a researcher’s publication getting cited more often in other studies because it’s easier to find and its reach extended past its original journal’s readers.

That’s why I’ve introduced the Federal Research Public Access Act, which would require federal agencies with annual extramural research budgets of $100 million or more to provide the public with online access to research manuscripts stemming from federally funded research no later than six months after publication in a peer-reviewed journal.

My legislation is a bipartisan effort, and I thank my colleagues, Congressman KEVIN YOGER of Kansas and Congressman WM. LACY CLAY of Missouri for joining me to express their strong support for public access to federal research.

I’m also pleased to note that my colleagues in the United States Senate have also introduced identical, bipartisan legislation.

I’ve been working on this issue since the 2006 debate on the reauthorization of the National Institutes of Health. I’m pleased to note that since 2006, the NIH has implemented a public access policy. But it still only applies to the NIH, while research funded by other federal agencies remains difficult or expensive to access.

In 2009, the White House’s Office of Science and Technology Policy, OSTP, expressed interest in public access policies and issued a request for public comment on mechanisms that would leverage federal investments in scientific research and increase access to information that promises to stimulate scientific and technological innovation and competitiveness.

In recent months, the OSTP continued this process by collecting a second round of public comments to inform its development of public access policies for federal agencies.

My bill would give the OSTP Congressional direction to assist it in crafting public access policies. I want OSTP to write the strongest, best rule possible. But even they need help and this legislation will provide them with guidance.

I believe that this bipartisan bill strikes a good balance among the needs of scientists, the rights of taxpayers, and the financial interests of companies that have historically published this research in peer-reviewed, usually expensive subscription publications. The bill gives publishers an exclusive six-month period in which the information will be available to subscribers, and it allows them to continue to market the additional value they add to these manuscripts when they publish them.

Mr. Speaker, I hope that we can move this bill through Congress before the end of the year.

RECOGNIZING DR. GENE M. BAINES FOR HIS SERVICES IN THE MISSISSIPPI HEALTH CARE COMMUNITY

HON. BENNIE G. THOMPSON
OF MISSISSIPPI
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. THOMPSON. Mr. Speaker, I rise today to recognize Dr. Gene M. Baines of Greenwood, Mississippi. Dr. Baines is the eldest of two children. He was educated in the parochial and public schools of Leflore County and graduated from Amanda Elzy High School in 1972. He received a bachelor of science degree in chemistry from Tougaloo College in 1976. He later attended dental school at the University of Mississippi School of Dentistry where he graduated with his doctor of dental medicine degree in 1980.

Dr. Baines has been a practicing dentist in Greenwood for over 23 years. Prior to establishing his Greenwood practice he was a well respected practicing dentist in Jackson, Mississippi for 8 years. He has extensive postgraduate training in all aspects of general dentistry including cosmetic procedures, endodontic therapy and postodontics. Dr. Baines keeps up with the new advancements in dentistry and chooses to offer enhanced state of comfort and improved oral health.

Dr. Baines serves on the Mississippi Action for Progress Health Advisory Committee and is a member of Alpha Phi Alpha Fraternity, Inc., Sigma Pi Phi Fraternity, Inc., Academy of General Dentistry, National Dental Association, Mississippi Dental Society, American Dental Association—Give Kids A Smile, and Greenwood Leflore Chamber of Commerce.

Dr. Baines and his wife reside in rural Greenwood where he enjoys traveling, wood-working, photography and is a self-proclaimed connoisseur of jazz music.

Mr. Speaker, I rise today to recognize Dr. Gene M. Baines of Greenwood, Mississippi. Dr. Baines is an outstanding practitioner of the highest order. He is dedicated to patient care and to the development of his profession. He is well respected and highly regarded by his patients, his peers and the community in which he serves.

Mr. Speaker, I rise today to recognize Dr. Gene M. Baines of Greenwood, Mississippi.
Mr. SERRANO. Mr. Speaker, in honor of Black History Month 2012, I rise today to recognize a dedicated arts and cultural leader in the Bronx who has done wonderful work for the people of our borough. Ms. Deidre Scott.

Ms. Scott is a lifelong resident of New York and has been a resident and leader in the Bronx for more than 20 years. She attended Temple University School of Architecture and Engineering Technology, before enrolling in Hunter College, CUNY where she earned her Bachelor's Degree in Art History/Fine Arts. She also earned a Business Development Certificate from Columbia University School of Business in 1994. She has been the Executive Director of the Bronx Council on the Arts, BCA, since 1999, and served on the board prior to that. Ms. Scott has extensive experience at arts institutions throughout New York City, and prior to her time at BCA, she was the Director of Technology at the Studio Museum in Harlem for seven years. She has also worked at the Metropolitan Museum of Art, Bronx Museum of the Arts and Cooper-Hewitt—the Smithsonian's National Design Museum. She also co-founded the Aquamarine Sculpture Park in Manhattan, which was the first waterfront sculpture park in the borough. Among other roles, she has worked as a curator, educator, exhibition and multimedia designer, and instructor.

Ms. Scott has also been involved in an amazing number of civic efforts. She is a member of the Board of Directors at the Bronx Overall Economic Development Corporation, is a member of the New York City Workforce Investment Board, the Juxtopia Informatics' Virtual Instructors Pilot Research Group, and the Bronx Initiative for Energy and the Environment.

The BCA is one of the Bronx's premier organizations, and this year will celebrate its 50th Anniversary. In her role as Executive Director, Ms. Scott has helped numerous artists, art organizations, and community groups through the BCA's programming and grants. In addition, she has an important role in securing BCA's future by leading an effort that resulted in the donation of a new building to serve as the headquarters for the BCA.

Mr. Speaker, the Bronx has a long and rich history in the arts. I am proud to say that Ms. Scott is not just a part of that past, but is also developing the future of arts and culture in our borough. She is very well respected by leaders in the arts community and her talents have not gone unnoticed by her peers. I am proud to join them in recognizing and thanking her for her contributions to the Bronx and to New York City. Mr. Speaker, I ask that my colleagues join me in recognizing a gifted and talented woman, Ms. Deidre Scott.

Ms. Scott is not just a part of that past, but is also history in the arts. I am proud to say that Ms. Scott has been an important part of the arts community. She is a member of the Board of Directors at the Bronx Overall Economic Development Corporation, is a member of the New York City Workforce Investment Board, the Juxtopia Informatics' Virtual Instructors Pilot Research Group, and the Bronx Initiative for Energy and the Environment. Mr. Speaker, I ask that my colleagues join me in recognizing a gifted and talented woman, Ms. Deidre Scott.

Mr. Speaker, I rise today to recognize and applaud EDS Waste Solutions for receiving the Greater Golden Chamber of Commerce Business of the Year Award. This award is given to an outstanding Chamber of Commerce business member that has contributed substantially to the Chamber of Commerce and the community.

The original trash company began in 1896 with a horse and wagon. Today, EDS Waste Solutions proudly operates a fleet of over 30 trucks. EDS Waste Solutions is a full service company that offers residential, commercial, industrial, and recycle hauling services. They are committed to offering the most innovative waste solutions of the 21st century.

In the 26 years that EDS has been located in Golden they have supported the City of Golden, Golden Chamber of Commerce, Buffalo Bill Days, Golden Fine Arts Festival, Golden Christmas Parades, Golden Car Shows, Golden Clean Up Days and the list goes on. EDS saves the city, citizens and organizations nearly $20,000,00 each year.

Their Mission Statement is truly who they are. EDS is an environmentally responsible company committed to exceeding the expectations of their customers, employees, and community with integrity, teamwork, innovation, and their desire to serve. Because, "It's not just trash, it's our future".

I extend my deepest congratulations to all the employees of EDS Waste Solutions for this well deserved recognition by the Greater Golden Chamber of Commerce. Thank you for making our community a better place to live.

GAUGING AMERICAN PORT SECURITY

Ms. HAHN. Mr. Speaker, the lessons of 9/11 have taught us that we must continuously be vigilant in proactively seeking out and preventing our country's most pressing threats. That is why after 9/11, Congress began to focus on previously ignored issues such as border security, airport security and strengthening identification procedures. However, an area that continues to be ignored is port security.

Ms. ROYBAL-ALLARD. Mr. Speaker, I was out of town due to a death in my family and was not present for rollcall votes numbered 13–20 on Wednesday, February 1, 2012. Had I been present, I would have voted in this manner

H.R. 3582—PRO-GROWTH BUDGETING ACT AND H.R. 3578—BASELINE REFORM ACT

HON. BETTY MCCOLLUM
OF MINNESOTA

H.R. 3582—PRO-GROWTH BUDGETING ACT AND H.R. 3578—BASELINE REFORM ACT

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 9, 2012

Ms. MCCOLLUM. Mr. Speaker, I rise in opposition to both H.R. 3582 and H.R. 3578. These misguided bills make it easier for Congress to pass budgets that give wealthy individuals unaffordable tax breaks while devastating America's communities with cuts to schools, hospitals and road and bridge repairs.

H.R. 3582, the Pro Growth Budgeting Act, requires the Congressional Budget Office, CBO, to use “dynamic scoring” as part of a macroeconomic impact analysis of tax proposals. This new method is based on the false premise that tax cuts pay for themselves, which would hide the true costs of passing even more tax cuts for America's wealthiest individuals.

H.R. 3578, the Baseline Reform Act, mandates a fundamental change in how CBO forecasts future discretionary spending in its baseline, requiring CBO to unrealistically assume that spending in the future will stay the same and not keep pace with inflation. Over the long-term, this could result in a substantial decrease in vital government services that millions of Americans rely on.

Both of these bills present a distorted picture of the federal budget outlook. H.R. 3582 and H.R. 3578 will fail to create jobs, reduce the national deficit, or put our country on a fiscally sustainable path. By bringing these bills to the floor, the House Republican Majority is once again failing to focus on the most pressing need of our constituents: growing the economy and creating jobs.

It is time to leave behind the failed Republican economic policies of the last decade. The Great Recession proved that deregulation and tax cuts for the wealthy at a time when America is fighting two wars destroys jobs and produces enormous deficits. Republicans and Democrats need to come together around a new agenda that makes strategic investments in our country. We can start with President Obama's American Jobs Act, which would put more than 1 million Americans back to work, according to independent economists. By working together, we can build a stronger, more competitive economy for the 21st century.

I urge my colleagues to oppose them.

HON. JANICE HAHN
OF CALIFORNIA

H.R. 3582—PRO-GROWTH BUDGETING ACT AND H.R. 3578—BASELINE REFORM ACT

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 9, 2012

Ms. MCCOLLUM. Mr. Speaker, I rise in opposition to both H.R. 3582 and H.R. 3578. These misguided bills make it easier for Congress to pass budgets that give wealthy individuals unaffordable tax breaks while devastating America's communities with cuts to schools, hospitals and road and bridge repairs.

H.R. 3582, the Pro Growth Budgeting Act, requires the Congressional Budget Office, CBO, to use “dynamic scoring” as part of a macroeconomic impact analysis of tax proposals. This new method is based on the false premise that tax cuts pay for themselves, which would hide the true costs of passing even more tax cuts for America's wealthiest individuals.

H.R. 3578, the Baseline Reform Act, mandates a fundamental change in how CBO forecasts future discretionary spending in its baseline, requiring CBO to unrealistically assume that spending in the future will stay the same and not keep pace with inflation. Over the long-term, this could result in a substantial decrease in vital government services that millions of Americans rely on.

Both of these bills present a distorted picture of the federal budget outlook. H.R. 3582 and H.R. 3578 will fail to create jobs, reduce the national deficit, or put our country on a fiscally sustainable path. By bringing these bills to the floor, the House Republican Majority is once again failing to focus on the most pressing need of our constituents: growing the economy and creating jobs.

It is time to leave behind the failed Republican economic policies of the last decade. The Great Recession proved that deregulation and tax cuts for the wealthy at a time when America is fighting two wars destroys jobs and produces enormous deficits. Republicans and Democrats need to come together around a new agenda that makes strategic investments in our country. We can start with President Obama's American Jobs Act, which would put more than 1 million Americans back to work, according to independent economists. By working together, we can build a stronger, more competitive economy for the 21st century.

I urge my colleagues to oppose them.
In the U.S., tens of thousands of ships each year make over 50,000 calls on U.S. ports. These ships carry the bulk of the approximately two billion tons of freight, three billion tons of oil transports, and 134 million passengers by ferry each year.

The volume of traffic gives terrorists opportunities to smuggle themselves or their weapons into the United States with little risk of detection. According to a report by the Council on Foreign Relations, in May 2002 there were reports that twenty-five Islamist extremists entered the United States by hiding in shipping containers.

This highlights the need for an immediate legislative solution to counter this problem. However, it is difficult to come up with an effective solution without first knowing all of the potential dangers.

That is why I am introducing the Gauging American Port Security (GAPS) Act. The GAPS Act would create a comprehensive plan for addressing them. Only by focusing on the specific dangers that threaten port security, can we develop effective solutions to secure our nation is prepared for any and all types of attacks.

KEN KRANZ
HON. ED PERLMUTTER
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Ken Kranz for receiving the Greater Golden Chamber of Commerce Charlie O’Brien Award.

This award goes to a member who is well respected within his or her organization and is motivated by an unselfish desire to contribute to the community for the betterment of greater Golden.

Ken Kranz fell in love with Golden while conducting a bank transaction with Wells Fargo. After moving to Golden, Ken met with the Greater Golden Chamber to find out where his talents were needed. His talents were put to use that very day and has continued to today.

Ken has been President of Leadership Golden Alumni Association, Chairman and current member of Citizens Budget Advisory Committee for the City of Golden, President of the Golden Visitors Center Board of Trustees, member of the Golden Fine Arts Festival Committee and responsible for logistics coordination. Ken is also a member of the Board of Directors, current member of the Rotary Club of Golden and volunteer at the National Western Stock Show.

Ken retired from banking after 30 years of service to the Wells Fargo Corporation and Wells Fargo Bank.

I extend my deepest congratulations to Ken Kranz for this well deserved recognition by the Greater Golden Chamber of Commerce. Thank you for your dedication to our community.

HONORING THE LIFE AND SERVICE OF MAYOR GREGORIO ACOSTA CALVO

HON. MADELEINE Z. BORDALLO
OF GUAM
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Ms. BORDALLO. Mr. Speaker, I rise today to honor the life and service of Gregorio Acosta Calvo, the former Mayor of Tamuning-Tumon, Guam. Mayor Calvo passed away on February 2, 2012 at the age of 87.

Gregorio Acosta Calvo was born on November 9, 1924 in Hagåtña, Guam and is the son of Gregorio Leon Guerrero Calvo and Maria Acosta Calvo. In 1960, he was elected Assistant Commissioner of Tamuning-Tumon and served in that role until 1965. In 1965, the Government of Guam changed the title of the position from Commissioner to Mayor. In 1965, Mr. Calvo was elected Mayor of Tamuning-Tumon and served in this capacity until his retirement on January 14, 1985.

Mayor Calvo began working for the Government of Guam in 1952, where he served as Chairman for Parks and Recreation within the Department of Public Works. During his time at Public Works, Mr. Calvo was instrumental in organizing summer programs for teens. He continued this passion for helping the island’s youth during his term as Mayor, where he organized sporting events for baseball and basketball.

Mayor Calvo was strongly involved in the introduction of Little League baseball on Guam. From the early 1950s to the official national chartering of the Little League in 1967, Mayor Calvo was a leading supporter for the development of the sport for our island’s youth. In 1983, he proposed to split the Little League Far East region into the Asia region and the Pacific region, in order to give the smaller Pacific nations an opportunity to compete in the Little League World Series. In 2000, the proposal was passed and since then Guam has sent teams to compete in the Little League World Series.

Mayor Calvo was also a strong advocate for the preservation of the Chamorro culture. In 1992, he became a member of the board of the Chamorro Heritage Foundation, a non-profit organization with the mission of preserving, developing, and enhancing the Chamorro culture and heritage of the people of Guam. As a survivor of the Japanese occupation of Guam during World War II. As a teen, he endured forced labor at the hands of Japanese forces and was tasked with digging caves in the northern village of Yigo.

Mayor Calvo married Felisidad Salas Calvo in 1946 and together they raised 13 children, and have been blessed with numerous grandchildren and great-grandchildren.

I join our community in mourning the loss of Mayor Gregorio Acosta Calvo. His contributions to our community, especially our island’s youth, will be remembered by the many citizens who knew him throughout his life. On behalf of the people of Guam, I extend my heartfelt condolences to his family, friends, and loved ones. God bless Mayor Calvo. He will be missed.

HONORING THE ACCOMPLISHMENTS OF UNITED WAY OF MCLEAN COUNTY ILLINOIS

HON. TIMOTHY V. JOHNSON
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. JOHNSON of Illinois. Mr. Speaker I rise today to recognize the outstanding achievement of the United Way of McLean County. The United Way provides funding for 27 agencies that operate a total of 45 local programs to help assist the homeless, people with developmental disabilities, and families in crisis. The United Way, with the help of citizens and businesses throughout McLean County, raised over $4.3 million during its latest fundraising period.

This money was raised in part by a community that has always valued self reliance and over the years has come together in times of hardship to meet common goals and to assist its own citizens. The great people of McLean County are proof that we do not need to rely on the government to take care of every problem.

I would like to also thank State Farm and all of their employees. Together, they donated a total of $1.9 million to the cause of the United Way. This includes $99,000 that State Farm donated before the close of fundraising to make sure the United Way exceeded its goal of $4.3 million. State Farm’s continued relationship with the McLean County community is another illustration of the benefits that accompany accepting and promoting private businesses in your local area.

The United Way is an asset to McLean county, and I pray for their continued success and assistance in the years to come.

TRIBUTE TO JAN SANDERS
HON. EDDIE BERNICE JOHNSON
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today to pay tribute to my constituent, Jan Sanders, a long time activist, community leader, and cherished friend who is being honored by the League of Women Voters of Dallas Education Fund as the 2012 recipient of the Susan B. Anthony Award on February 10, 2012. I can think of no one more appropriate to receive this award. Throughout her life, Jan has exhibited tireless activism and a relentless pursuit of justice, equality and peace.

Jan has served numerous organizations that provide community development and services for local congregations, schools, and community organizations. Jan Sanders is a longtime member of the League of Women Voters, and is dedicated to outreach initiatives on voter registrations, especially those that involve high school students and new citizens. Jan taught 5th grade in the DISD, and also spent a year teaching government at SMU. She has taught many workshops to improve the public’s understanding of the role of government and the responsibilities of citizenship. She has served many years as an Election Judge and created a training curriculum for poll workers, poll
watchers, and others. Jan is especially proud of her work with the ‘Dismantling Racism Team’ of the Greater Dallas Community of Churches.

Not only do her social justice interests know no bounds, but her combination of skills and approaches to the pursuit of justice make her a relentless champion. She has built local, national, and international coalitions against injustice.

Finally, Jan demonstrates seemingly limitless personal commitment. She brings care and compassion to every struggle. Through her courage and in action, she has crafted the peace movement that focuses on the humanity of everyone, including policymakers and the peace leaders.

I am indebted to Jan for her expertise, her friendship, and the example of her leadership, and I am honored to have this opportunity to thank her for her lifelong commitment to equality and peace.

Mr. Speaker, I rise today to commend and congratulate Jan Sanders on her recognition. I ask that you and all of my distinguished colleagues join me in commending her for service and dedication.

LECH WALESA DAY IN ILLINOIS

HON. MIKE QUIGLEY
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. QUIGLEY. Mr. Speaker, today I am honored to announce that the Illinois General Assembly passed a resolution which declares February 9th to be Lech Walesa Day in Illinois. I have been honored to meet this great patriot during both of my trips to Poland, and fully support this tribute to a man who spent his life fighting for liberty and democracy.

Lech Walesa is a freedom fighter. He fought for the rights of the worker as a trade union activist in the Gdansk shipyards. He is a man who fought to lift the yoke of communism and oppression off of the Polish people and as President of Poland led them into a new age of democracy. President Walesa helped fight for the rights and freedoms of Poles past, present, and future.

President Walesa has always followed his moral compass, which led him towards freedom and democracy. Representing a district which has more than 110,000 people of Polish and Polish-American descent, it is my honor to salute a truly great world leader of the 20th century, President Lech Walesa.

PERSONAL EXPLANATION

HON. CHRIS VAN HOLLEN
OF MARYLAND
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. VAN HOLLEN. Mr. Speaker, on rollcall No. 34, I was unavoidably detained. Had I been present, I would have voted “no.” On rollcall No. 35, I was unavoidably detained. Had I been present, I would have voted “yes.”

TRIBUTE TO DR. HENRY LEWIS III

HON. FREDERICA S. WILSON
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Ms. WILSON of Florida. Mr. Speaker, I rise today to pay tribute to Dr. Henry Lewis III. After conducting a year-long, nation-wide search, The Florida Memorial University Board of Trustees chose Dr. Lewis to serve as the university’s 12th president in 2011. I congratulate him on thirty-five years of leadership and service to the Florida community.

Dr. Lewis is recognized for his passion through his motto of transforming educational outlets from Good to Great. This educational passion pushed him to increase FAMU College of Pharmacy’s endowment from $1 million to more than $22 million. Dr. Lewis is responsible for educating and training 25 percent of the nation’s African-American pharmacists. In addition to his legacy as an educator, he raised over $95 million in biomedical research training grants.

Dr. Lewis has also transitioned his exceptional leadership skills in the community serving as the first African-American elected to the Leon County Board of County Commissioners in Tallahassee, Florida. While a Commissioner, he established the county’s Minority Business Enterprise program, developed the branch health clinic network, successfully advocated legislative funding for a $2.5 million clinic building and strategically placed a $20 million public library downtown adjacent to the C.K. Steele bus terminal, making it reachable to all Tallahasseeans.

Dr. Lewis is frequently lauded as a leader amongst leaders. He has been the recipient of the Outstanding Educator Award, Dr. Martin Luther King Leadership Award, Outstanding Tallahasseean Award and Pharmacist of the Year. Colleagues, please join me in saluting Dr. Henry Lewis III, whose future educational investments will continue to create the nation’s future global leaders.

HONORING THE LIFE OF MAYOR MARCUS CLARK, PIPER CITY, ILLINOIS

HON. TIMOTHY V. JOHNSON
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. JOHNSON of Illinois. Mr. Speaker, I rise today in recognition of the life of Mr. Marcus Clark, former Mayor of Piper City, Illinois, and a veteran of the U.S. Army. Mr. Clark passed away on Thursday, February 2nd at the age of 82 at his home in Piper City.

Mr. Clark was born September 23, 1929, in Latona, Illinois and spent his childhood in Piper City, graduated from Piper City High School. He married Phyllis June Read in 1952 and together they had six children. Following his service to our country in the Army, Mr. Clark was an active member of the Gibb Post 588 of the American Legion, as well as Rotary and Eastern Star. He was the Plant Manager for Louis Melind in Onarga and announced football games in Piper City for 22 years.

Mr. Clark served as the Mayor of Piper City for twelve years and was also a Board mem-

PERSONAL EXPLANATION

HON. ADAM SMITH
OF WASHINGTON
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. SMITH of Washington. Mr. Speaker, on Monday, February 6, 2012, I was unable to be present for recorded votes. Had I been present, I would have voted “no” on rolcall vote No. 34 (on agreeing to the resolution H. Res. 537) and “yes” on rolcall vote No. 35 (on the motion to suspend the rules and pass H.R. 1162, as amended).

TRIBUTE TO HAROLD PHILLIPS

HON. JON RUNYAN
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. RUNYAN. Mr. Speaker, I rise this evening to pay tribute to a true American hero. Harold Phillips of Moorestown, New Jersey, will soon be awarded the Congressional Gold Medal for his service in the United States Marine Corps during World War II. Harold was a member of our Nation’s first African American combat unit, the 51st Defense Battalion, at a time when discrimination was our society. Harold has lived a life of patriotism and service to his community, his State and his country. He is a pioneer who forged a path for future generations of African-American men and women to serve their country in the Armed Services. I am pleased to call Harold Phillips my constituent and I urge my colleagues to join me in thanking him for his service.

OUR UNCONSCIONABLE NATIONAL DEBT

HON. MIKE COFFMAN
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Mr. COFFMAN of Colorado. Mr. Speaker, on January 26, 1995, when the last attempt at a balanced budget amendment passed the House by a bipartisan vote of 300–132, the national debt was $4,801,405,175,294.28. Today, it is $15,355,666,215,381.09. We’ve added $10,534,261,040,086.81 dollars to our debt in 16 years. This is $10 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

CONDEMNING THE ONGOING VIOLENCE IN SYRIA

HON. BETTY MCCOLLUM
OF MINNESOTA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Ms. McCOLLUM. Mr. Speaker, I rise today to condemn the unspeakable violence that the Government of Syria has committed—and continues to commit—against its own citizens. For the past eleven months, the Syrian people have engaged in peaceful demonstrations to demand their basic, universal human rights. These demonstrations have been met with unrelenting bloodshed and torture. Thousands of Syrian men, women, and children have been slaughtered. There can be no question: President Bashar al-Assad must step down, or be removed from power.

Last week, the United States, the Arab League, and a growing international coalition together called for a United Nations Security Council resolution that would end the crisis and begin a transition to democracy in Syria. I am appalled that Russia and China have chosen to veto this measure, and stand with a brutal dictator rather than the Syrian people. This veto is an outrage, and serves only to endorse President Assad’s ongoing massacre. On February 4th, the day of the U.N. Security Council vote, the Syrian military launched a devastating attack on the city of Homs that continues today. Hundreds of unarmed civilians have been killed.

I strongly support President Obama’s efforts to work with America’s western and Arab allies to stop the bloodshed. Though China and Russia have chosen to stand with Assad, the world will not. Already, nations across the Middle East and throughout the world are expelling Syrian diplomats, tightening sanctions, and ratcheting up pressure on the Syrian government. The time has come for President Assad to step down, and for the Syrian people to determine their own future.

Mr. Speaker, I ask my colleagues to join me in recognizing Mrs. Linda Williams for her commitment to the healthcare services of women and children as well as advocacy against impaired teenage driving.

HONORING LONG-TIME COMMUNITY ACTIVIST AND UNION ADVOCATE: MRS. LEORA HILL

HON. JUDY CHU
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, February 9, 2012

Ms. CHU. Mr. Speaker, I rise today to recognize a great loss to our community, Mrs. Leora Hill, who passed away on New Year’s Day, 2012, at the young age of 60. My heart goes out to her husband, Wayne Hill; her daughter, Tonii Nicole Brady; her six grandchildren and great-grandchild; and the rest of her family, friends and loved ones.

Leora was an extraordinary citizen, an activist for working families, a dedicated public servant and a tireless advocate for her community in the Crenshaw District of Los Angeles. A fighter for her fellow California residents, Leora spent hundreds of hours attending community meetings, lobbying elected officials and volunteering in political and public service campaigns.

Leora’s dedication to her fellow Californians led her to a 23-year career as a tax technician
for the State Board of Equalization, where she helped thousands of entrepreneurs and small business owners navigate the state tax process, file the necessary paperwork to start their businesses and helping entrepreneurs to create jobs and become viable and productive members of the business community.

Her passion for ensuring fair rights and decent wages for California’s working families kicked off a longtime tenure as an activist in her union, SEIU Local 1000, where she became chair of the Committee on Political Education, COPE, for Southern California. She also served as President of Local 1000’s District Labor Council 723, where she was the labor leader for state employees in south Los Angeles County.

Leora was a true fighter for the underdog. When state employees were threatened with major reductions in wages and furloughed by the governor, she made numerous media appearances, speaking out forcefully in favor of working families. Leora’s tireless efforts on behalf of working families were recognized by then-SEIU International President Andy Stern with a special recognition in 2008.

Leora was also dedicated to increasing political awareness and civic involvement among her fellow residents. Her recruitment of friends, neighbors, and co-workers for political campaigns and other efforts to improve her community truly made a difference in the lives of countless Californians.

I urge my House colleagues to join me in honoring Mrs. Leora Hill for her record of civic leadership, her indomitable spirit and her remarkable service and contributions to her community and to our Nation.
Daily Digest

Senate

Chamber Action

Routine Proceedings, pages S395–S544

Measures Introduced: Twenty bills and two resolutions were introduced, as follows: S. 2080–2099, and S. Res. 370–371.

Measures Passed:

National School Counseling Week: Senate agreed to S. Res. 371, designating the week of February 6 through 10, 2012, as “National School Counseling Week”.

Measures Considered:

Moving Ahead for Progress in the 21st Century: Senate began consideration of S. 1813, to reauthorize Federal-aid highway and highway safety construction programs, after agreeing to the motion to proceed, and agreeing to the committee-reported amendments, and that the bill, as amended, be considered original text for the purpose of further amendment, and taking action on the following amendment proposed thereto: Pages S400–13, S423–85

Pending:

Reid (for Johnson (SD)/Shelby) Amendment No. 1515, of a perfecting nature. Pages S484–85

During consideration of this measure today, Senate also took the following action:

By 85 yeas to 11 nays (Vote No. 17), three-fifths of those Senators duly chosen and sworn, having voted in the affirmative, Senate agreed to the motion to close further debate on the motion to proceed to consideration of the bill. Pages S420–23

A motion was entered to close further debate on the nomination, and, in accordance with the provisions of Rule XXII of the Standing Rules of the Senate, a vote on cloture will occur on Monday, February 13, 2012. A unanimous-consent-time agreement was reached providing that Senate resume consideration of the nomination at 4:30 p.m. on Monday, February 13, 2012; that there be one hour for debate equally divided in the usual form prior to the cloture vote.

Nomination Confirmed: Senate confirmed the following nomination:

By 90 yeas to 6 nays (Vote No. EX. 16), Cathy Ann Bencivengo, of California, to be United States District Judge for the Southern District of California. Pages S417–20, S544
