

access to the resources needed in order to prevent this disease from progressing. Prevention is crucial.

For those who do have kidney diseases that progress, dialysis and transplant become the only options. The world's first outpatient dialysis facility opened 50 years ago in my district in Seattle, and although technologies continue to improve, the basic idea remains the same: Patients with end-stage renal disease are dependent on access to dialysis centers to survive. We must continue to fully fund the Medicare ESRD program, as well as advance kidney disease research at the NIDDK (National Institute of Diabetes and Digestive and Kidney Diseases).

Today, I join other members from both sides of the aisle to attend Kidney Action Day events on Capitol Hill. I encourage my fellow members to join me in helping to spread awareness about a cause that affects us all. I hope we will all stand together to fight Kidney Disease and support those living with the disease every day, as well as their families.

CONDEMNING IRAN FOR ITS PERSECUTION OF YUCEF NADARKHANI

SPEECH OF

HON. E. SCOTT RIGELL

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 29, 2012

Mr. RIGELL. Mr. Speaker, Youcef Nadarkhani is a Christian pastor in Iran who at this very moment is under sentence of death for refusing to convert to Islam. As a matter of conscience, Pastor Youcef's story must be boldly told in this chamber and in every place where human rights are valued. His story reminds us of the blessings of liberty which we enjoy and sometimes take for granted. It reminds us that millions of people around the world live under brutal regimes that deny those same basic freedoms to their own people.

In 2009, Pastor Youcef protested a law that would forcibly impose Islam on his children. In September 2010 an Iranian court accused Pastor Youcef of the "crime" of abandoning the Islamic faith and condemned him to death by hanging unless he converts to Islam.

Mr. Speaker, this case represents just one in a long line of abuses the government of Iran has perpetrated against religious minorities. The intolerant, indeed barbaric, actions of the Iranian regime trample on the most basic of human rights—the right to freedom of thought, conscience, and religion. I condemn it in the strongest possible terms.

Iranian leaders must understand that if Iran is to be a legitimate member of the community of nations, if it seeks trade, if it seeks the benefit of economic engagement with the free world, if it wants to provide a firm and secure future for its citizens, it must protect and defend the rights of religious minorities. It must respect the religious liberties which its own constitution guarantees, and which it is obligated to respect as a signatory to the United Nations Universal Declaration of Human Rights and the International Covenant on Civil and Political Rights.

So I rise today in strong support of H. Res. 556 condemning the government of Iran for its continued persecution, imprisonment, and sentencing of Pastor Youcef on the charge of apostasy. I am a cosponsor of this resolution, and I urge my colleagues to support it.

COST-EFFECTIVENESS OF SKILLED HOME HEALTH IN MEDICARE

HON. TOM LATHAM

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 1, 2012

Mr. LATHAM. Mr. Speaker, as we search for solutions to ensure that the Medicare system remains solvent for seniors and future beneficiaries, I believe it is vitally important to support cost-effective benefits that allow seniors to remain healthy and independent. Many of the treatments that were once offered exclusively in a hospital or physician setting can now be safely, effectively, affordably and efficiently provided in patients' homes by skilled clinicians. Home health care offers an intermediate level of care for patients who have difficulty accessing outpatient care or who need intensive assistance with an acute or chronic health problem.

Home health services are cost effective because they prevent costly hospitalizations, and serve as an alternative to expensive skilled nursing facilities. According to an October 2010 report in the Des Moines Register, seniors utilizing skilled home care cost taxpayers an average of \$607 per month, compared to an average of \$3,687 for seniors in nursing homes. Not only is home care less expensive, but studies also show that the vast majority of seniors prefer to live independently and remain in their home if possible.
