

Pharmacists and pharmacy organizations are active participants in efforts to prevent accidental poisonings thanks to the difference one pharmacist made. There is no better time to remind the citizens of our country about the selfless service of Homer George, and I am honored to represent him and all of Missouri's Eighth Congressional District in Congress.

IN HONOR OF MRS. JO AVIS NEAL
FREEMAN

HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 8, 2012

Mr. BISHOP of Georgia. Mr. Speaker, I rise today to pay tribute to a woman of extraordinary class and remarkable grace, Mrs. Jo Avis Neal Freeman. Sadly, Mrs. Freeman passed away on March 2, 2012. Her passing leaves a tremendous void in the hearts of her family, friends and the Albany, Georgia community.

On Monday, March 12, 2012, a gathering of family members, friends, and colleagues will pay their respects to Mrs. Freeman at a memorial service that will be held on the campus of Albany State University.

Mrs. Freeman was born on July 21, 1953 in Washington, D.C. She earned a Bachelor's degree in Sociology from Hampton University and a Master's degree in Social Work from the University of Michigan. Following her graduation, she worked as an administrator, manager and psychotherapist in the Detroit, Michigan metropolitan area for more than 25 years.

The community of Albany, Georgia and the Albany State University Family gained a gem when she married Albany State University President, Dr. Everette J. Freeman in 2006 and moved to Albany. While in Albany, she continued her life's work by serving as a Clinical Supervisor for the Albany Community Service Board and more recently at Phoebe Putney Memorial Hospital.

During her stint in Albany, Mrs. Freeman became actively involved in many local service and civic organizations. Former Congresswoman Shirley Chisholm once said that, "Service is the rent that we pay for the space that we occupy here on this earth." Throughout her life, Jo paid her rent and she paid it well.

In her role as Albany State University's First Lady, she was very supportive of the student body and always represented the university with the highest level of class and grace. The student body truly believed that "she was one of them" because she connected with them in a very personal way.

Mr. Speaker, one of the things that I will always remember about Jo is her welcoming demeanor and charisma. She loved people and she never met a stranger. Her favorite song was: "I Hope You Dance." This is truly a fitting song that represents the joyful spirit and dedicated resilience with which Jo lived her life and how we should all live ours.

George Washington Carver once said, "How far you go in life depends on your being tender with the young, compassionate with the aged, sympathetic with the striving and tolerant of the weak and strong because someday in your life you will have been all of these." Jo went far in life because she treated people the

right way—with dignity, honor and respect. We are all blessed to have had her touch our lives and the world is better because she passed this way.

Mr. Speaker, my wife Vivian and I, along with the almost 700,000 people in the 2nd Congressional District of Georgia, would like to extend our deepest sympathies to Dr. Freeman, Jo's daughters, grandsons and other family members during this difficult time. May they be consoled and comforted by their abiding faith and the Holy Spirit in the days, weeks and months ahead.

MAJOR RICHARD RUSNOK

HON. LOU BARLETTA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 8, 2012

Mr. BARLETTA. Mr. Speaker, I rise to honor United States Marine Corps Major Richard Rusnok, who has been named the Marine Corps Test Pilot of the Year by the Marine Corps Aviation Association (MCAA) John Glenn Squadron. Major Rusnok, a native of Jenkins Township, Pennsylvania, dreamed of becoming a pilot when he was younger. A graduate of Pittston Area High School, he was the second test pilot to perform a vertical landing on the flight deck of the USS *Wasp*. Currently, Major Rusnok is with the F-35 Integrated Test Force at Naval Air Station Patuxent River in Maryland.

Major Rusnok was selected test pilot of the year for his role in the successful embarkation and deployment of more than 250 people and 140,000 pounds of supplies and equipment with two F-35B test aircraft on USS *Wasp's* flight deck. Major Rusnok was the focal point for an extremely complex event, and the amount of thought and planning he demonstrated was commended by Navy Captain Erik Etz, military director of test and evaluation for F-35 naval variants.

Major Rusnok has shown his dedication to the U.S. Marine Corps in countless ways. He played a major role in making naval aviation history in the Joint Strike Fighter program, and he flew a number of combat missions in the Iraq War. In 2003, he participated in the initial invasion of Iraq and flew numerous missions over a seven-month period.

This year, he will transition to Edwards Air Force Base, California, where operational testing on the F-35B will begin. As Test Pilot of the Year, he will be considered for the National Commandant of the Marine Corps' Award for Acquisition Excellence, which will be announced in May.

Mr. Speaker, today, Major Richard Rusnok stands as a pillar in the U.S. Marine Corps. I commend him for his years of dedicated service to the Marines, the community, and the country.

IN RECOGNITION OF THE 60TH AN-
NIVERSARY OF THE UNIVERSITY
OF GUAM

HON. MADELEINE Z. BORDALLO

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 8, 2012

Ms. BORDALLO. Mr. Speaker, I rise today to recognize the University of Guam for their

60 years of providing post-secondary education to the island of Guam. UOG was established in June 1952 and has evolved into a highly recognized institution of higher education in the Western Pacific region, and is the only fully accredited, four-year university on Guam.

UOG is one of the premiere institutions for higher learning in the Western Pacific. Under the leadership of UOG President and former Guam Delegate to Congress, Dr. Robert A. Underwood, UOG has continued to prepare students for their professional careers and carry on their mission "to enlighten, to discover, and to serve."

UOG's humble beginnings started in the village of Mongmong as the Territorial College of Guam, a two-year teacher training school under the authority of the Guam Department of Education, with an enrollment of about 200 students. In 1960, the then-Territorial College moved to UOG's present location in Mangilao and continued to expand the academic programs for its students. In 1963, the Territorial College was granted its first accreditation as a four-year degree institution and by 1967, it had implemented three new undergraduate schools. On August 12, 1968, the Territorial College was renamed the "University of Guam" by the Guam Legislature.

In October of 1979, UOG established its Army Reserve Officers' Training Corps program to prepare future leaders in our nation's armed forces. Since then, UOG's ROTC program has become one of the most respected ROTC programs in the United States and was recognized by the Department of the Army as the Top U.S. Army ROTC program in 2002.

Over the years, UOG has continued to expand its academic programs and now includes a College of Liberal Arts and Social Sciences, College of Natural and Applied Sciences, School of Business and Public Administration, School of Education, and a School of Nursing & Health Sciences. UOG is home to the Water and Environmental Research Institute of the Western Pacific (WERI), which has a long-standing history of providing high quality research that addresses the unique challenges facing Guam's water resources. WERI's expertise and research have proved invaluable in studying aquifer sustainability and the military build-up.

UOG has also recently begun efforts to expand its educational services by establishing a School of Engineering. This expansion will bring greater opportunities for students in Guam, and throughout the Micronesia region, to study the engineering field. Further, UOG has endeavored on a \$60 million capital improvement campaign, which includes three new buildings on campus, including a Student Services Center, Triton Engagement Center, and a new Fine Arts Building. Further, under Dr. Underwood's leadership, UOG has also established the Center for Island Sustainability. The Center will create an Islands-based model of renewable, sustainable and appropriate technologies focusing on indigenous energy alternatives and replicable research to meet the needs of island communities. The Center is playing a critical role in developing studies that will help inform decision-makers about the impacts of the military build-up on Guam and reasonable mitigations.

I congratulate the University of Guam on their 60th anniversary, and I commend them for their years of providing higher education
