15             considered to have the largest undiscovered, tech-  
16             nically recoverable oil and gas resources (on a total  
17             btu basis) based upon the most recent national geo-  
18             logic assessment of the outer Continental Shelf, with  
19             an emphasis on offering the most geologically pro-  
20             spective parts of the planning area.

21             “(B) The Secretary shall include in each pro-

24 violation. In addition, courts shall limit the duration of  
25 preliminary injunctions to halt covered energy projects to

2 produced on Federal lands administered by the  
3 Bureau of Land Management and the Forest  
4 Service;

5 “(E) the best estimate, based upon com-  
6 mercial and scientific data, of the expected in-  
7 crease in unconventional energy production,  
8 such as oil shale;

9 “(F) the best estimate, based upon com-  
10 mercial and scientific data, of the expected in-  
11 crease in domestic production of oil, natural
