In the event any tribe returns appropriations made available by this Act to the Bureau of Indian Affairs, this action shall not diminish the Federal Government’s trust responsibility to that tribe, or the government-to-government relationship between the United States and that tribe, or that tribe’s ability to access future appropriations.

Notwithstanding any other provision of law, no funds available to the Bureau of Indian Education, other than the amounts provided herein for assistance to public schools under 25 U.S.C. 452 et seq., shall be available to support the operation of any elementary or secondary school in the State of Alaska.

Bureau for the use of the real and personal property (in-

are kept separate and apart from Bureau funds, and the
Bureau does not assume any obligation for charter school
programs of the State in which the school is located if

Funds made available under this Act may not be used to establish a satellite school of an existing school in the Bureau of Indian Education school system, except that the Director of the Bureau may waive this prohibition upon request by a tribe if establishment of such satellite school would provide comparable levels of education as are being offered at such existing Bureau school, and would avoid incurring extraordinary costs to the Federal Government, such as for transportation over extended distances: Provided, That no funds made available under this Act may be used to fund any facilities-related costs for satellite school assets that are not owned by the Bureau: Provided further, That the term “satellite school” means a school location physically separated from the existing Bureau school by more than 50 miles but that forms part of the existing school in all other respects.
