5 **SEC. 152. SENSE OF SENATE ON THE UNITED STATES HELI-**
6 **COPTER INDUSTRIAL BASE.**

7 (a) FINDINGS.—The Senate makes the following
8 findings:

9 (1) Armed, cargo, and utility helicopters pro-
10 vide the Department of Defense with critical capa-
11 bilities to support operations in the air, on land, and
12 at sea.

13 (2) According to the Aerospace Industries Asso-
14 ciation of America’s 2012 Year-End Review and
15 Forecast, the United States military aircraft manu-
16 facturing sales declined by 2.4 percent between 2011
17 and 2012.

18 (3) According to the Aerospace Industries Asso-
19 ciation of America’s July 2012 report on the aero-
20 space industrial base, aviation industry employment
21 of aerospace research and development scientists and
22 engineers numbering 140,000 in 1996 has declined
23 to 40,000 in 2008.

24 (4) Today, five corporations manufacture all
25 United States military helicopters.

1 (5) Helicopter program unpredictability and re-
2 duced defense procurement have a negative impact
3 on the ability to recruit and retain a qualified and
4 capable aerospace workforce thereby increasing risk
5 for the helicopter industrial base’s ability to design,
6 build, and support the next generation of manned
7 and unmanned military helicopters.

8 (b) SENSE OF SENATE.—It is the sense of the Senate
9 that—

10 (1) armed, cargo, and utility helicopters are in-
11 strumental to the Department of Defense’s ability to
12 execute the President’s National Security Strategy;

13 (2) the Department of Defense should take into
14 consideration the health and viability of the military
15 helicopter industrial base in its analysis and decision
16 making when building its annual research, develop-
17 ment, and acquisition budget request; and

18 (3) the Department of Defense and Congress
19 should endeavor to maintain budget and program
20 predictability in order to attract and retain a skilled
21 workforce to ensure the technological capabilities re-
22 quired to sustain the preeminence of the United
23 States military helicopter fleets.

2 poration, as practical and appropriate, into the re-
3 placement program for the Blue Devil 1 aircraft sys-
4 tem; and

5 (3) make available, to all companies that the
6 Secretary determines are credible potential competi-
7 tors for the future provision of near-vertical direc-
8 tion finding capabilities to the Air Force, the Blue
9 Moon near-vertical direction finding technology, in-
10 cluding hardware, software, algorithms, and draw-
11 ings developed by a federally funded research and
12 development center.

13 (d) APPROPRIATE COMMITTEES OF CONGRESS DE-
14 FINED.—In this section, the term “appropriate commit-
15 tees of Congress” means—

16 (1) the Committee on Armed Services, the
17 Committee on Appropriations, and the Select Com-
18 mittee on Intelligence of the Senate; and

19 (2) the Committee on Armed Services, the
20 Committee on Appropriations, and the Permanent
21 Select Committee on Intelligence of the House of
22 Representatives.

3 **SEC. 231. HOMELAND BALLISTIC MISSILE DEFENSE.**

4 (a) FINDINGS.—Congress makes the following find-
5 ings:

6 (1) The Ballistic Missile Defense Review of
7 February 2010 stated as its first policy priority that
8 “the United States will continue to defend the home-
9 land against the threat of limited ballistic missile at-
10 tack” and that “an essential element of the United
11 States’ homeland ballistic missile defense strategy is
12 to hedge against future uncertainties, including both
13 the uncertainty of future threat capabilities and the
14 technical risks inherent to our own development
15 plans”.

16 (2) The United States currently has an oper-
17 ational Ground-based Midcourse Defense (GMD)
18 system with 30 Ground-Based Interceptors (GBIs)
19 deployed in Alaska and California, protecting all of
20 the United States, including the East Coast, against
21 the threat of limited ballistic missile attack from
22 both North Korea and Iran. During 2013, senior
23 military and civilian defense leaders have stated re-
24 peatedly that they have confidence in the ability of
25 the current Ground-based Midcourse Defense system

1 to protect the United States from limited ballistic
2 missile attack from North Korea and Iran.

3 (3) On March 15, 2013, Secretary of Defense
4 Chuck Hagel announced a series of planned steps to
5 enhance United States homeland ballistic missile de-
6 fense, to stay ahead of the future missile threat from
7 North Korea and Iran. These steps include the de-
8 ployment of 14 additional Ground-Based Intercep-
9 tors at Fort Greely, Alaska, by 2017, a nearly 50
10 percent increase in the number of such interceptors
11 deployed by the United States.

12 (4) In response to provocative behavior and
13 public threats by North Korea to launch missiles at
14 the United States, the Department of Defense took
15 a number of actions to enhance United States home-
16 land missile defense capabilities, including deploy-
17 ment of the Sea-Based X-band radar into the Pacific
18 Ocean.

19 (5) Before the March 15, 2013, announcement
20 by Secretary of Defense Hagel, General Robert
21 Kehler, Commander of the United States Strategic
22 Command, testified that “I am confident that we
23 can defend against a limited attack from Iran, al-
24 though we are not in the most optimum posture to
25 do that today. . . it doesn’t provide total defense

1 today”. Shortly after the announcement by Sec-
2 retary Hagel, General Charles Jacoby, Commander
3 of the United States Northern Command, testified
4 that “we have the capability of limited defense right
5 now. And I think it’s not optimum and I think that
6 we’ve made some important steps forward in what
7 was rolled out. And I think we need to continue to
8 assess the threat and make sure we stay ahead of
9 it”.

10 (6) As its highest near-term priority, the Mis-
11 sile Defense Agency is designing a correction to the
12 problem that caused a December 2010 flight test
13 failure of the Ground-based Midcourse Defense sys-
14 tem using the Capability Enhancement-II (CE-II)
15 model of exo-atmospheric kill vehicle, and plans to
16 demonstrate the correction through flight testing, in-
17 cluding an intercept test, before resuming produc-
18 tion, assembly, or refurbishment of additional Capa-
19 bility Enhancement-II kill vehicles.

20 (7) The Department of Defense has a program
21 to improve the performance and reliability of the
22 Ground-based Midcourse Defense system. According
23 to Department officials, the goal of the Ground-
24 Based Interceptor reliability program is to double
25 the number of threat Intercontinental Ballistic Mis-

1 siles (ICBMs) that the current United States inven-
2 tory of Ground-Based Interceptors could defeat,
3 thereby effectively doubling the capability of the cur-
4 rent Ground-based Midcourse Defense system.

5 (8) The Missile Defense Agency, working with
6 the Director of Operational Test and Evaluation and
7 with United States Strategic Command, has devel-
8 oped a comprehensive Integrated Master Test Plan
9 (IMTP) for missile defense, with flight tests for the
10 Ground-based Midcourse Defense system planned
11 through fiscal year 2023, including salvo testing,
12 multiple simultaneous engagement testing, and oper-
13 ational testing. The current test plan includes an ad-
14 ditional intercept flight test using the Capability En-
15 hancement-I kill vehicle, scheduled for mid-2013, to
16 demonstrate the reliability enhancements to Ground-
17 Based Interceptors quipped with that kill vehicle.
18 The Director of Operational Test and Evaluation re-
19 viewed and approved the Ground-based Midcourse
20 Defense system test plan and pace, including the
21 plan to demonstrate the correction of the Capability
22 Enhancement-II kill vehicle.

23 (9) In May, 2013, Vice Admiral James Syring,
24 the Director of the Missile Defense Agency, testified
25 to Congress that he is seeking to improve the per-

1 performance and reliability of the Ground-Based Inter-
2 ceptors, and to make the Ground-based Midcourse
3 Defense system “more operationally effective and
4 cost-effective”, including by improving its sensors,
5 discrimination, kill assessment, and battle manage-
6 ment. He testified that these improvements are “ab-
7 solutely needed” and are “equally important to
8 interceptors” in terms of staying ahead of the
9 threat.

10 (10) As part of its United States homeland de-
11 fense hedging strategy, the Department of Defense
12 has already decided upon or implemented a number
13 of actions to improve the missile defense posture of
14 the United States to stay ahead of the evolving
15 threat of Intercontinental Ballistic Missiles from
16 North Korea and Iran. These include the following
17 actions:

18 (A) As announced by Secretary of Defense
19 Hagel, the Department plans to deploy 14 addi-
20 tional Ground-Based Interceptors at Fort
21 Greely, Alaska, by 2017, to deploy a second
22 AN/TPY-2 radar in Japan, and to pursue an
23 advanced kill vehicle technology development
24 program.

1 (B) The Missile Defense Agency has com-
2 pleted construction of Missile Field-2 at Fort
3 Greely, Alaska, with eight extra silos available
4 to deploy the additional operational Ground-
5 Based Interceptors announced by Secretary of
6 Defense Hagel.

7 (C) The Department plans to refurbish the
8 6 prototype silos in Missile Field-1 at Fort
9 Greely, Alaska, to deploy the additional
10 Ground-Based Interceptors announced by Sec-
11 retary of Defense Hagel.

12 (D) The Missile Defense Agency plans to
13 deploy an in-flight interceptor communication
14 system data terminal at Fort Drum, New York,
15 to enhance the performance of Ground-Based
16 Interceptors defending the eastern United
17 States against possible future missile threats
18 from Iran.

19 (E) The Missile Defense Agency is con-
20 tinuing the development and testing of the two-
21 stage Ground-Based Interceptor for possible de-
22 ployment in the future, if needed.

23 (F) The Missile Defense Agency plans to
24 upgrade the early warning radars in Clear,
25 Alaska, and Cape Cod, Massachusetts, to en-

1 hance the ability to defend the United States
2 homeland against potential future Interconti-
3 nental Ballistic Missile threats from North
4 Korea and Iran.

5 (G) The Missile Defense Agency is evalu-
6 ating sites for a possible future United States
7 homeland ballistic missile defense interceptor
8 site in the United States, in compliance with
9 section 227 of the National Defense Authoriza-
10 tion Act for Fiscal Year 2013 (Public Law
11 112–239), and will complete an Environmental
12 Impact Statement for the best suited sites by
13 early 2016, in case the President decides to
14 proceed with the deployment of such a site.

15 (11) As part of its United States homeland mis-
16 sile defense hedging strategy, the Department of De-
17 fense is considering additional options to enhance
18 the future United States posture and capability to
19 defend the homeland, including the feasibility, advis-
20 ability, and affordability of deploying additional
21 Ground-Based Interceptors beyond the 14 Ground-
22 Based Interceptors announced by Secretary of De-
23 fense Hagel, including possibly at a missile defense
24 site on the East Coast of the United States.

1 (12) In discussing the possible benefits of a po-
2 tential additional missile defense interceptor site in
3 the United States, General Jacoby testified that “ex-
4 ploring a third site is an important next step. What
5 a third site gives me, whether it’s on the East Coast
6 or an alternate location, would be increased battle
7 space. That means increased opportunity for me to
8 engage threats from either Iran or North Korea”.

9 (b) SENSE OF CONGRESS.—It is the sense of Con-
10 gress that—

11 (1) it is a national priority to defend the United
12 States homeland against the threat of limited bal-
13 listic missile attack from North Korea and Iran;

14 (2) the currently deployed Ground-based Mid-
15 course Defense system, with 30 Ground-Based Inter-
16 ceptors deployed in Alaska and California, provides
17 protection of the entire United States homeland, in-
18 cluding the East Coast, against the threat of limited
19 ballistic missile attack from North Korea and Iran,
20 although this capability can and should be im-
21 proved;;

22 (3) it is essential for the Ground-based Mid-
23 course Defense system to achieve the levels of reli-
24 ability, availability, sustainability, and operational
25 performance that will allow it to continue providing

1 protection of the United States homeland against
2 limited ballistic missile attack and to stay ahead of
3 the threat as it develops;

4 (4) the Missile Defense Agency should, as its
5 highest priority, correct the problem that caused the
6 December 2010 Ground-based Midcourse Defense
7 system flight test failure and demonstrate the cor-
8 rection through flight testing, including a successful
9 intercept test, before resuming production of the Ca-
10 pability Enhancement-II kill vehicle, in order to pro-
11 vide confidence that the system will work as in-
12 tended;

13 (5) the Department of Defense should continue
14 to enhance the performance and reliability of the
15 Ground-based Midcourse Defense system, and en-
16 hance the capability of the Ballistic Missile Defense
17 System (including through improved sensors, dis-
18 crimination, kill assessment, exo-atmospheric kill ve-
19 hicles, and battle management) to provide improved
20 capability to defend the United States homeland
21 against the evolving missile threats from North
22 Korea and Iran;

23 (6) the Missile Defense Agency should continue
24 its robust, rigorous, and realistic testing of the
25 Ground-based Midcourse Defense system, as de-

1 scribed in the Integrated Master Test Plan, includ-
2 ing salvo testing, multiple simultaneous engagement
3 testing, and operational testing;

4 (7) the Department of Defense has taken a
5 number of prudent, affordable, cost-effective, and
6 operationally significant steps to hedge against the
7 possibility of future growth in the ballistic missile
8 threat to the United States homeland from North
9 Korea and Iran, including the planned deployment
10 of 14 additional Ground-Based Interceptors; and

11 (8) the Department of Defense should continue
12 to evaluate the evolving long-range missile threat
13 from North Korea and Iran and consider further
14 possibilities for prudent, affordable, cost-effective,
15 and operationally significant steps to improve the
16 posture of the United States to defend the United
17 States homeland against possible future growth in
18 the threat from North Korea and Iran.

19 (c) REPORT ON POTENTIAL FUTURE HOMELAND
20 BALLISTIC MISSILE DEFENSE OPTIONS.—

12 future United States homeland ballistic missile
13 defense options, in addition to those described
14 in subparagraph (C), if future ballistic missile

17 sile defense capabilities, including—

18 (i) deployment of a missile defense in-
19 terceptor site on the East Coast;

20 (ii) deployment of a missile defense
21 interceptor site in another location in the
22 United States, other than on the East

8 south, should such a threat arise in the fu-
9 ture; and

10 (ix) any other options the Secretary
11 considers appropriate.

12 (3) EVALUATION OF POTENTIAL OPTIONS.—For
13 each option described under paragraph (2)(D), the
14 Secretary shall provide an evaluation of the advan-
15 tages and disadvantages of such option. The evalua-

9 (1) shall be submitted in unclassified form, but may
10 include a classified annex.

11 **SEC. 232. REGIONAL BALLISTIC MISSILE DEFENSE.**

12 (a) FINDINGS.—Congress makes the following find-
13 ings:

14 (1) In the introduction to the Ballistic Missile
15 Defense Review of February 2010, Secretary of De-
16 fense Robert Gates wrote that “I have made defend-
17 ing against near-term regional threats a top priority
18 of our missile defense plans, programs and capabili-
19 ties”.

20 (2) In describing the threat of regional ballistic
21 missiles, the report of the Ballistic Missile Defense
22 Review stated that “there is no uncertainty about
23 the existence of regional threats. They are clear and
24 present. The threat from short-range, medium-
25 range, and intermediate-range ballistic missiles

1 (SRBMs, MRBMs, and IRBMs) in regions where
2 the United States deploys forces and maintains secu-
3 rity relationships is growing at a particularly rapid
4 pace”.

5 (3) North Korea has hundreds of regional bal-
6 listic missiles, including short-range Scud missiles
7 and medium-range Nodong missiles. North Korea
8 also has publicly displayed, but not flight-tested, in-
9 termediate-range Musudan missiles. These regional
10 missiles can reach United States forces and allies in
11 South Korea and Japan, and perhaps Guam. In the
12 spring of 2013, North Korea made public threats to
13 use nuclear weapons and ballistic missiles against
14 South Korea, Japan, and Guam.

15 (4) In response to these threats from North
16 Korea, the United States deployed Aegis Ballistic
17 Missile Defense ships, armed with Standard Missile-
18 3 interceptors, to the waters near the Korean Penin-
19 sula, and a Terminal High Altitude Area Defense
20 (THAAD) battery to Guam. It also deployed the
21 Sea-Based X-band missile defense radar into the Pa-
22 cific Ocean to enhance United States missile defense
23 capabilities. On March 15, 2013, Secretary of De-
24 fense Hagel announced a series of planned steps to
25 enhance missile defense, including the deployment of

1 a second AN/TPY-2 missile defense radar in Japan
2 to improve regional and homeland defense against
3 North Korean missiles. As part of their response to
4 the provocations of North Korea, South Korea de-
5 ployed vessels equipped with Aegis missile defense
6 radars, and Japan deployed its Aegis Ballistic Mis-
7 sile Defense ships, equipped with Standard Missile-
8 3 interceptors.

9 (5) Iran has the largest inventory of regional
10 ballistic missiles in the Middle East, with hundreds
11 of missiles that can reach as far as southeastern Eu-
12 rope and all of the Middle East, including Israel.
13 Iran is improving its existing missiles and developing
14 new and longer-range regional missiles.

15 (6) In September 2009, President Barack
16 Obama announced that he had accepted the unani-
17 mous recommendation of the Secretary of Defense
18 and the Joint Chiefs of Staff to establish a Euro-
19 pean Phased Adaptive Approach (EPAA) to missile
20 defense, designed to protect deployed United States
21 forces, allies, and partners in Europe against the
22 large and growing threat of ballistic missiles from
23 Iran.

24 (7) In November 2010, at the Lisbon Summit,
25 the North Atlantic Treaty Organization (NATO) de-

1 cided to adopt the core mission of missile defense of
2 its population, territory, and forces. The North At-
3 lantic Treaty Organization agreed to enhance its
4 missile defense command and control system, the
5 Active Layered Theater Ballistic Missile Defense, to
6 provide a North Atlantic Treaty Organization com-
7 mand and control capability. This is in addition to
8 voluntary contributions of missile defense capabili-
9 ties from individual nations.

10 (8) During 2011, the United States successfully
11 implemented Phase 1 of the European Phased
12 Adaptive Approach, including deployment of an AN/
13 TPY-2 radar in Turkey, deployment of an Aegis
14 Ballistic Missile Defense ship in the eastern Medi-
15 terranean Sea with Standard Missile-3 Block IA
16 interceptors, and the establishment of a missile de-
17 fense command and control system in Germany.

18 (9) Phase 2 of the European Phased Adaptive
19 Approach is planned for deployment around 2015,
20 and is planned to include the deployment of Stand-
21 ard Missile-3 Block IB interceptors on Aegis Bal-
22 listic Missile Defense ships and at an Aegis Ashore
23 site in Romania.

24 (10) Phase 3 of the European Phased Adaptive
25 Approach is planned for deployment around 2018,

1 and is planned to include the deployment of Stand-
2 ard Missile–3 Block IIA interceptors on Aegis Bal-
3 listic Missile Defense ships and at an Aegis Ashore
4 site in Poland.

5 (11) At the North Atlantic Treaty Organization
6 Summit in Chicago in May 2012, the North Atlantic
7 Treaty Organization announced it had achieved an
8 “interim capability” for the North Atlantic Treaty
9 Organization missile defense system, including initial
10 capability of its Active Layered Theater Ballistic
11 Missile Defense system at a command and control
12 facility in Germany.

13 (12) The United States has a robust program
14 of missile defense cooperation with Israel, including
15 joint development of the Arrow Weapon System and
16 the new Arrow–3 interceptor, designed to defend
17 Israel against ballistic missiles from Iran. These
18 jointly developed missile defense systems are de-
19 signed to be interoperable with United States bal-
20 listic missile defenses, and these interoperable sys-
21 tems are tested in large joint military exercises, such
22 as “Austere Challenge” in 2012. The United States
23 has also deployed an AN/TPY–2 radar in Israel to
24 enhance missile defense against missiles from Iran.

1 (13) The United States is working with the na-
2 tions of the Gulf Cooperation Council on enhanced
3 national and regional missile defense capabilities
4 against the growing missile threat from Iran. As
5 part of this effort, the United Arab Emirates plans
6 to purchase two Terminal High Altitude Area De-
7 fense batteries, as well as other equipment. During
8 2012, the United States deployed an AN/TPY-2
9 radar in the United States Central Command area
10 of responsibility to enhance missile defense capa-
11 bility of forward-deployed United States forces, al-
12 lies, and partners against missiles from Iran.

13 (14) The United States has a strong program
14 of missile defense cooperation with Japan, including
15 the co-development of the Standard Missile-3 Block
16 IIA interceptor for the Aegis Ballistic Missile De-
17 fense system, intended to be deployed in Phase 3 of
18 the European Phased Adaptive Approach, the Japa-
19 nese fleet of Aegis Ballistic Missile Defense ships
20 using Standard Missile-3 Block IA interceptors, and
21 the United States deployment of two AN/TPY-2 ra-
22 dars in Japan.

23 (b) SENSE OF CONGRESS.—It is the sense of Con-
24 gress that—

1 (1) the threat from regional ballistic missiles,
2 particularly from North Korea and Iran, is serious
3 and growing, and puts at risk forward-deployed
4 United States forces, allies, and partners in the
5 Asia-Pacific region, Europe, and the Middle East;

6 (2) the Department of Defense has an obliga-
7 tion to provide force protection of forward-deployed
8 United States forces and facilities from regional bal-
9 listic missile attack;

10 (3) the United States has an obligation to meet
11 its security commitments to its allies, including bal-
12 listic missile defense commitments;

13 (4) the Department of Defense has a balanced
14 program of investment and capabilities to provide
15 for both homeland defense and regional defense
16 against ballistic missiles, consistent with the Bal-
17 listic Missile Defense Review and with the prioritized
18 and integrated needs of the commanders of the com-
19 batant commands;

20 (5) elements of United States regional missile
21 defenses enhance and enable the homeland defense
22 capabilities of the United States, including forward-
23 deployed radars and defense of critical forward-de-
24 ployed missile defense systems;

1 (6) the European Phased Adaptive Approach to
2 missile defense is an appropriate and prudent re-
3 sponse to the existing and growing ballistic missile
4 threat from Iran to forward-deployed United States
5 forces, allies, and partners in Europe;

6 (7) the Department of Defense should, as a
7 high priority, continue to develop, test, and plan to
8 deploy Phases 2 and 3 of the European Phased
9 Adaptive Approach, including the planned Aegis
10 Ashore sites in Romania and Poland;

11 (8) the Department of Defense should also con-
12 tinue with its other phased and adaptive regional
13 missile defense efforts tailored to the Middle East
14 and the Asia-Pacific region;

15 (9) European members of the North Atlantic
16 Treaty Organization are making valuable contribu-
17 tions to missile defense in Europe, by hosting ele-
18 ments of United States missile defense systems on
19 their territories, through individual national con-
20 tributions to missile defense capability, and by col-
21 lective funding and development of the Active Lay-
22 ered Theater Ballistic Missile Defense system;

23 (10) the actions taken by the Department of
24 Defense to improve its regional missile defense pos-
25 ture in response to the provocative actions and

1 threats of North Korea were prudent and appro-
2 priate and demonstrated the flexible and adaptive
3 nature of its regional missile defense capabilities,
4 which allows for surge deployments to meet regional
5 contingencies in a timely manner; and

6 (11) Japan and South Korea are making nota-
7 ble progress in enhancing their missile defense capa-
8 bilities, in partnership with the United States, to
9 protect against regional missiles from North Korea.

10 (c) REPORT.—

11 (1) REPORT REQUIRED.—Not later than 180
12 days after the date of the enactment of this Act, the
13 Secretary of Defense shall submit to the congress-
14 sional defense committees a report on the status and
15 progress of regional missile defense programs and
16 efforts.

17 (2) ELEMENTS.—The report required by para-
18 graph (1) shall include the following:

19 (A) A description of the overall risk assess-
20 ment from the most recent Global Ballistic De-
21 fense Assessment of regional missile defense ca-
22 pabilities relative to meeting the operational
23 needs of the commanders of the geographic
24 combatant commands, including the need for
25 force protection of United States forward-de-

1 ployed forces and capabilities and for defense of
2 allies and partners.

3 (B) An assessment whether the currently
4 planned European Phased Adaptive Approach
5 and other planned regional missile defense ap-
6 proaches and capabilities of the United States

8 manders of the geographic combatant com-
9 mands in an affordable and balanced manner.

10 (C) A description of the progress made in
11 the development and testing of elements of sys-
12 tems intended for deployment in Phases 2 and
13 3 of the European Phased Adaptive Approach,
14 including the Standard Missile-3 Block IB and
15 IIA interceptors and the Aegis Ashore system.

16 (D) A description of the manner in which
17 elements of regional missile defense architec-
18 tures, such as forward-based X-band radars in
19 Japan, Israel, Turkey, and the area of responsi-
20 bility of the United States Central Command,
21 contribute to the enhancement of the homeland
22 defense of the United States.

23 (E) A description of the manner in which
24 enhanced integration of offensive military capa-
25 bilities and defensive missile defense capabilities

1 will fit into regional missile defense planning
2 and force structure assessments.

3 (3) FORM.—The report required by paragraph
4 (1) shall be submitted in unclassified form, but may
5 include a classified annex.

6 **SEC. 233. MISSILE DEFENSE COOPERATION WITH RUSSIA.**

7 (a) FINDINGS.—Congress makes the following find-
8 ings:

9 (1) For more than a decade, the United States
10 and Russia have discussed a variety of options for
11 cooperation on shared early warning and ballistic
12 missile defense. For example, on May 1, 2001,
13 President George W. Bush spoke of a “new coopera-
14 tive relationship” with Russia and said “it should be
15 premised on openness, mutual confidence and real
16 opportunities for cooperation, including the area of
17 missile defense. It should allow us to share informa-
18 tion so that each nation can improve its early warn-
19 ing capability, and its capability to defend its people
20 and territory. And perhaps one day, we can even co-
21 operate in a joint defense”.

22 (2) Section 1231 of the Floyd D. Spence Na-
23 tional Defense Authorization Act for Fiscal Year
24 2001 (as enacted into law by Public Law 106–398;
25 1654A–329) authorized the Department of Defense

1 to establish in Russia a “joint center for the ex-
2 change of data from systems to provide early warn-
3 ing of launches of ballistic missiles and for notifica-
4 tion of launches of such missiles”, also known as the
5 Joint Data Exchange Center (JDEC).

6 (3) On March 31, 2008, Deputy Secretary of
7 Defense Gordon England stated that “we have of-
8 fered Russia a wide-ranging proposal to cooperate
9 on missile defense—everything from modeling and
10 simulation, to data sharing, to joint development of
11 a regional missile defense architecture—all designed
12 to defend the United States, Europe, and Russia
13 from the growing threat of Iranian ballistic missiles.
14 An extraordinary series of transparency measures
15 have also been offered to reassure Russia. Despite
16 some Russian reluctance to sign up to these coopera-
17 tive missile defense activities, we continue to work
18 toward this goal”.

19 (4) The February 2010 report of the Ballistic
20 Missile Defense Review established as one of its cen-
21 tral policy pillars that increased international missile
22 defense cooperation is in the national security inter-
23 est of the United States and, with regard to coopera-
24 tion with Russia, the United States “is pursuing a
25 broad agenda focused on shared early warning of

1 missile launches, possible technical cooperation, and
2 even operational cooperation”.

3 (5) At the November 2010 Lisbon Summit, the
4 North Atlantic Treaty Organization (NATO) decided
5 to develop a missile defense system to “protect
6 NATO European populations, territory and forces”
7 and also to seek cooperation with Russia on missile
8 defense. In its Lisbon Summit Declaration, the
9 North Atlantic Treaty Organization reaffirmed its
10 readiness to “invite Russia to explore jointly the po-
11 tential for linking current and planned missile de-
12 fense systems at an appropriate time in mutually
13 beneficial ways”. The new NATO Strategic Concept
14 adopted at the Lisbon Summit stated that “we will
15 actively seek cooperation on missile defense with
16 Russia”, that “NATO-Russia cooperation is of stra-
17 tegic importance”, and that “the security of the
18 North Atlantic Treaty Organization and Russia is
19 intertwined”.

20 (6) In a December 18, 2010, letter to the lead-
21 ership of the Senate, President Obama wrote that
22 the North Atlantic Treaty Organization “invited
23 Russia to cooperate on missile defense, which could
24 lead to adding Russian capabilities to those deployed
25 by NATO to enhance our common security against

1 common threats. The Lisbon Summit thus dem-
2 onstrated that the Alliance’s missile defenses can be
3 strengthened by improving NATO-Russian relations.
4 This comes even as we have made clear that the sys-
5 tem we intend to pursue with Russia will not be a
6 joint system, and it will not in any way limit United
7 States’ or NATO’s missile defense capabilities. Ef-
8 fective cooperation with Russia could enhance the
9 overall efficiency of our combined territorial missile
10 defenses, and at the same time provide Russia with
11 greater security”.

12 (7) Section 221(a)(3) of the Ike Skelton Na-
13 tional Defense Authorization Act for Fiscal Year
14 2011 (Public Law 111–383; 124 Stat. 4167) states
15 that it is the sense of Congress “to support the ef-
16 forts of the United States Government and the
17 North Atlantic Treaty Organization to pursue co-
18 operation with the Russian Federation on ballistic
19 missile defense relative to Iranian missile threats”.

20 (8) In a speech in Russia on March 21, 2011,
21 Secretary of Defense Robert Gates cited “the
22 NATO-Russian decision to cooperate on defense
23 against ballistic missiles. We’ve disagreed before,
24 and Russia still has uncertainties about the Euro-
25 pean Phased Adaptive Approach, a limited system

1 that poses no challenges to the large Russian nu-
2 clear arsenal. However, we've mutually committed to
3 resolving these difficulties in order to develop a
4 roadmap toward truly effective anti-ballistic missile
5 collaboration. This collaboration may include ex-
6 changing launch information, setting up a joint data
7 fusion center, allowing greater transparency with re-
8 spect to our missile defense plans and exercises, and
9 conducting a joint analysis to determine areas of fu-
10 ture cooperation”.

11 (9) In testimony to the Committee on Armed
12 Services of the Senate on April 13, 2011, Deputy
13 Assistant Secretary of Defense for Nuclear and Mis-
14 sile Defense Policy Bradley H. Roberts stated that
15 the United States has been pursuing a Defense
16 Technology Cooperation Agreement with Russia
17 since 2004, and that such an agreement is necessary
18 “for the safeguarding of sensitive information in
19 support of cooperation” on missile defense, and to
20 “provide the legal framework for undertaking coop-
21 erative efforts”.

22 (10) In a March 2012 answer to a question
23 from the Committee on Armed Services of the Sen-
24 ate on missile defense cooperation with Russia, Act-
25 ing Under Secretary of Defense for Policy Jim Mil-

1 ler wrote that “I support U.S.-Russian cooperation
2 on missile defenses first and foremost because it
3 could improve the effectiveness of U.S. and NATO
4 missile defenses, thereby improving the protection of
5 the United States, our forces overseas, and our Al-
6 lies. Missile defense cooperation with Russia is in
7 the security interests of the United States, NATO,
8 and Russia, first and foremost because it could
9 strengthen capabilities across Europe to intercept
10 Iranian missiles”. He also wrote that “[t]he United
11 States has pursued missile defense cooperation with
12 Russia with the clear understanding that we would
13 not accept constraints on missile defense, and that
14 we would undertake necessary qualitative and quan-
15 titative improvements to meet U.S. Security needs”.

16 (11) In February 2012, an international group
17 of independent experts known as the Euro-Atlantic
18 Security Initiative issued a report proposing missile
19 defense cooperation between the United States (with
20 its North Atlantic Treaty Organization allies) and
21 Russia. The group, whose leaders included Stephen
22 Hadley, the National Security Advisor to President
23 George W. Bush, proposed that the nations share
24 satellite and radar early warning data at joint co-
25 operation centers in order to improve their ability to

1 detect, track, and defeat medium-range and inter-
2 mediate-range ballistic missiles from the Middle
3 East.

4 (12) In a letter dated April 13, 2012, Robert
5 Nabors, Assistant to the President and Director of
6 the Office of Legislative Affairs, wrote that “it is
7 Administration policy that we will only provide infor-
8 mation to Russia that will enhance the effectiveness
9 of our missile defenses. The Administration will not
10 provide Russia with sensitive information that would
11 in any way compromise our national security, includ-
12 ing hit-to-kill technology and interceptor telemetry”.

13 (13) The May 20, 2012, NATO Chicago Sum-
14 mit Declaration included the following statement:
15 “Given our shared security interests with Russia, we
16 remain committed to cooperation on missile defense
17 in the spirit of mutual trust and reciprocity, such as
18 the recent [NATO-Russia Council] Theatre Missile
19 Defense Exercise. Through ongoing efforts in the
20 NATO-Russia Council, we seek to determine how
21 independent NATO and Russian missile defense sys-
22 tems can work together to enhance European secu-
23 rity. We look forward to establishing the proposed
24 joint NATO-Russia Missile Data Fusion Centre and
25 the joint Planning Operations Centre to cooperate

1 on missile defense. We propose to develop a trans-
2 parency regime based upon a regular exchange of in-
3 formation about the current respective missile de-
4 fense capabilities of NATO and Russia”.

5 (14) The United States currently has agree-
6 ments and programs of cooperation on shared early
7 warning with eight nations in addition to the North
8 Atlantic Treaty Organization. The United States has
9 developed procedures and mechanisms for sharing
10 early warning information with partner nations while
11 ensuring the protection of sensitive United States in-
12 formation.

13 (15) Russia and the United States each have
14 ballistic missile launch early warning and detection
15 and tracking sensors that could contribute to and
16 enhance each others’ ability to detect, track, and de-
17 fend against ballistic missile threats from Iran.

18 (16) The Obama Administration has provided
19 regular briefings to Congress on its discussions with
20 Russia on possible missile defense cooperation.

21 (b) SENSE OF CONGRESS.—It is the sense of Con-
22 gress that—

23 (1) it is in the national security interest of the
24 United States to pursue efforts at missile defense
25 cooperation with Russia that would enhance the se-

1 security of the United States, its North Atlantic Trea-
2 ty Organization allies, and Russia, particularly
3 against missile threats from Iran;

4 (2) the United States should pursue ballistic
5 missile defense cooperation with Russia on both a bi-
6 lateral basis and a multilateral basis with its North
7 Atlantic Treaty Organization allies, particularly
8 through the NATO-Russia Council, when it is in the
9 national security interests of the United States to do
10 so;

11 (3) missile defense cooperation with Russia
12 should not “in any way limit United States’ or
13 NATO’s missile defense capabilities”, as acknowl-
14 edged in the December 18, 2010, letter from Presi-
15 dent Obama to the leadership of the Senate, and
16 should be mutually beneficial and reciprocal in na-
17 ture;

18 (4) the United States should not provide Russia
19 with sensitive missile defense information that would
20 in any way compromise United States national secu-
21 rity, including “hit-to-kill” technology and inter-
22 ceptor telemetry;

23 (5) the United States should pursue missile de-
24 fense cooperation with Russia in a manner that en-
25 sures that—

1 (A) United States classified information is
2 appropriately safeguarded and protected from
3 unauthorized disclosure;

4 (B) prior to entering into missile defense
5 technology cooperation projects, the United
6 States enters into a Defense Technology Co-
7 operation Agreement with Russia that estab-
8 lishes the legal framework for a broad spectrum
9 of potential cooperative defense projects; and

10 (C) such cooperation does not limit the
11 missile defense capabilities of the United States
12 or its North Atlantic Treaty Organization allies;
13 and

14 (6) the sovereignty of the United States and its
15 ability to unilaterally pursue its own missile defense
16 program shall be protected.

17 (c) LIMITATION ON USE OF FUNDS TO PROVIDE
18 RUSSIAN FEDERATION ACCESS TO CERTAIN MISSILE DE-
19 FENSE INFORMATION.—No funds authorized to be appro-
20 priated or otherwise made available for fiscal year 2014
21 for the Department of Defense may be used to provide
22 the Russian Federation with sensitive missile defense in-
23 formation that would in any way compromise United
24 States national security, including “hit-to-kill” technology

1 and telemetry data for missile defense interceptors or tar-
2 get vehicles.

12 propriated by section 201 for fiscal year 2014 for the De-
13 partment of Defense for research, development, test, and

17 **SEC. 711. PILOT PROGRAM ON INCREASED COLLECTION OF** 18 **THIRD-PARTY REIMBURSEMENTS FOR** 19 **HEALTH CARE SERVICES PROVIDED IN MILI-** 20 **TARY MEDICAL TREATMENT FACILITIES.**

21 (a) PILOT PROGRAM.—The Secretary of Defense
22 shall, in coordination with the Secretaries of the military
23 departments, carry out a pilot program to assess the feasi-
24 bility and advisability of using processes described in sub-
25 section (b) to increase the amounts collected under section

1 1095 of title 10, United States Code, from third-party
2 payers for charges for health care services incurred by the
3 United States at military medical treatment facilities.

4 (b) COVERED PROCESSES.—The processes described
5 in this subsection are commercially available enhanced re-
6 covery practices for medical payment collection, including
7 rates and percentages of collection in accordance with in-
8 dustry standards for such practices.

9 (c) ELEMENTS.—The Secretary shall carry out the
10 pilot program so as—

11 (1) to facilitate the identification and analysis
12 of best practices in connection with the processes de-
13 scribed in subsection (b) that are used in non-
14 military health care facilities; and

15 (2) to permit a cost-benefit analysis of the proc-
16 esses used under the pilot program, including an
17 analysis of—

18 (A) the amount of third-party collections
19 that resulted from such processes;

20 (B) the cost to implement and sustain such
21 processes; and

22 (C) such other matters as the Secretary
23 considers appropriate for the pilot program.

24 (d) LOCATION.—The Secretary shall carry out the
25 pilot program at not less than two military installations

1 of different military departments each of which meets the
2 following criteria:

3 (1) Such installation has a military medical
4 treatment facility with both inpatient and outpatient
5 capabilities.

6 (2) The catchment area of such installation
7 contains a significant-sized military beneficiary pop-
8 ulation who are potentially covered by third-party
9 payers (as defined in section 1095(h)(1) of title 10,
10 United States Code).

11 (e) DURATION.—The Secretary shall commence the
12 pilot program by not later than 270 days after the date
13 of the enactment of this Act, and shall carry out the pilot
14 program for two years.

15 (f) REPORT.—Not later than 180 days after the com-
16 pletion of the pilot program, the Secretary shall submit
17 to the congressional defense committees a report on the
18 pilot program. The report shall include the following:

19 (1) A description of the pilot program.

20 (2) A comparative description of—

12 treatment facilities.

13 (4) Such recommendations for legislative or ad-
14 ministrative action to improve third-party collections

18 **SEC. 712. SENSE OF SENATE ON IMPLEMENTATION OF IN-**
19 **TEGRATED ELECTRONIC HEALTH RECORDS**
20 **FOR THE DEPARTMENT OF DEFENSE AND**
21 **THE DEPARTMENT OF VETERANS AFFAIRS.**

22 (a) FINDINGS.—The Senate makes the following
23 findings:

24 (1) The electronic health records systems used
25 by the Department of Defense and the Department

1 of Veterans Affairs have been independently devel-
2 oped and implemented by each Department. As a re-
3 sult, and despite more than 15 years of efforts in-
4 cluding numerous initiatives and programs, full
5 interoperability between the systems has yet to be
6 achieved.

7 (2) The lack of full interoperability between the
8 health records systems negatively impacts members
9 of the Armed Forces who separate from military
10 service and transition to veteran status. Medical
11 records may be lost, requiring patients to repeat
12 tests, increase overall costs, and further exacerbate
13 the backlog of disability claims at the Department of
14 Veterans Affairs.

15 (3) The Government Accountability Office has
16 identified several problems that the Department of
17 Defense and the Department of Veterans Affairs
18 face in their efforts to achieve full interoperability of
19 their health records systems. The Government Ac-
20 countability Office points to the failure of the De-
21 partments to define performance goals and measures
22 that would allow for program management and as-
23 sessment of progress. The Government Account-
24 ability Office also highlights inadequate management
25 in the Departments and the Interagency Program

1 Office, which oversees the integration of Department
2 of Defense and Department of Veterans Affairs
3 medical records.

4 (4) The National Defense Authorization Act for
5 Fiscal Year 2008 directed the Department of De-
6 fense and the Department of Veterans Affairs to
7 jointly develop and implement fully interoperable
8 health record capabilities by September 30, 2009.

9 (b) SENSE OF SENATE.—It is the sense of the Senate
10 that—

11 (1) despite clear congressional direction, years
12 of effort, and the expenditure of significant re-
13 sources, full electronic interoperability between the
14 health records systems of the Department of De-
15 fense and the Department of Veterans Affairs has
16 not been achieved;

17 (2) the Secretary of Defense, in collaboration
18 with the Secretary of Veterans Affairs, should fully
19 staff the Interagency Program Office and provide it
20 with a robust charter meeting the original intent of
21 Congress;

22 (3) the Secretary of Defense, in collaboration
23 with the Secretary of Veterans Affairs, should estab-
24 lish challenging, but achievable, deadlines for the de-
25 velopment and implementation of measures and

1 goals for electronic health records for the Depart-
2 ment of Defense and the Department of Veterans
3 Affairs, including measures and goals relating to—

4 (A) the creation of a health data authori-
5 tative source;

6 (B) the ability of patients of both the De-
7 partment of Defense and the Department of
8 Veterans Affairs to download their medical
9 records (commonly referred to as the “Blue
10 Button Initiative”);

11 (C) the full interoperability of personal
12 health care information between the Depart-
13 ments;

14 (D) the standardization of health care data
15 between the Departments;

16 (E) the acceleration of the exchange of
17 real-time health care data between the Depart-
18 ments;

19 (F) the upgrade of the graphical user
20 interface to display the new standardized health
21 care data of the Departments; and

22 (G) the provision to members of the Armed
23 Forces of access to an electronic copy of their
24 health care records throughout the course of
25 their military career; and

1 (4) the Interagency Program Office should es-
2 tablish a secure, remote, network-accessible com-
3 puter storage system (commonly referred to as
4 “cloud storage”) to—

5 (A) provide members of the Armed Forces
6 and veterans the ability to upload their health
7 care records; and

8 (B) allow medical providers of the Depart-
9 ment of Defense and the Department of Vet-
10 erans Affairs to access such records in the
11 course of providing care to members of the
12 Armed Forces and veterans.

13 **Subtitle C—Reports and Other** 14 **Matters**

15 **SEC. 721. REPORT ON PROVISION OF ADVANCED PROS-** 16 **THETICS AND ORTHOTICS TO MEMBERS OF** 17 **THE ARMED FORCES AND VETERANS.**

18 (a) REPORT REQUIRED.—Not later than 180 days
19 after the date of the enactment of this Act, the Secretary
20 of Defense and the Secretary of Veterans Affairs shall
21 jointly submit to the appropriate committees of Congress
22 a report on the plans of the Department of Defense and
23 the Department of Veterans Affairs, respectively, to en-
24 sure that the most clinically appropriate prosthetics and
25 orthotics are made available to injured members of the

1 Armed Forces and veterans using technological advances
2 as appropriate.

3 (b) COVERED PROSTHETICS AND ORTHOTICS.—The
4 prosthetics and orthotics to be covered by the report under
5 subsection (a) shall include, but not be limited to, powered
6 prosthetics and orthotics that will enable members of the
7 Armed Forces and veterans who have suffered amputation
8 and, in the case of orthotics wearers, other injuries with
9 limb salvage, to restore functionality to the maximum ex-
10 tent practicable.

11 (c) APPROPRIATE COMMITTEES OF CONGRESS DE-
12 FINED.—In this section, the term “appropriate commit-
13 tees of Congress” means—

14 (1) the Committee on Armed Services and the
15 Committee on Veterans’ Affairs of the Senate; and

16 (2) the Committee on Armed Services and the
17 Committee on Veterans’ Affairs of the House of
18 Representatives.

10 **AUTHORIZED BY LAW.**

11 (a) IN GENERAL.—Subsection (i) of section 2306b of
12 title 10, United States Code, is amended to read as fol-
13 lows:

14 “(i) DEFENSE ACQUISITIONS SPECIFICALLY AU-
15 THORIZED BY LAW.—(1) In the case of the Department
16 of Defense, a multiyear contract in amount equal to or
17 greater than \$500,000,000 may not be entered into under
18 this section unless the contract is specifically authorized
19 by law in an Act other than an appropriations Act.

20 “(2) In submitting a request for a specific authoriza-
21 tion by law to carry out a defense acquisition program
22 using multiyear contract authority under this section, the
23 Secretary shall include in the request a report containing
24 preliminary findings of the agency head required in para-

1 graphs (1) through (6) of subsection (a) together with the
2 basis for such findings.

3 “(3) A multiyear contract may not be entered into
4 under this section for a defense acquisition program that
5 has been specifically authorized by law to be carried out
6 using multiyear contract authority unless the Secretary of
7 Defense certifies in writing, not later than 30 days before
8 entry into the contract, that each of the following condi-
9 tions is satisfied:

10 “(A) The Secretary has determined that each of
11 the requirements in paragraphs (1) through (6) of
12 subsection (a) will be met by such contract and has
13 provided the basis for such determination to the con-
14 gressional defense committees.

15 “(B) The Secretary’s determination under sub-
16 paragraph (A) was made after the completion of a
17 cost analysis performed by the Director of Cost As-
18 sessment and Program Analysis and such analysis
19 supports the findings.

20 “(C) The system being acquired pursuant to
21 such contract has not been determined to have expe-
22 rienced cost growth in excess of the critical cost
23 growth threshold pursuant to section 2433(d) of this
24 title within 5 years prior to the date the Secretary
25 anticipates such contract (or a contract for advance

1 procurement entered into consistent with the author-
2 ization for such contract) will be awarded.

3 “(D) A sufficient number of end items of the
4 system being acquired under such contract have
5 been delivered at or within the most current esti-
6 mates of the program acquisition unit cost or pro-
7 curement unit cost for such system to determine
8 that current estimates of such unit costs are real-
9 istic.

10 “(E) During the fiscal year in which such con-
11 tract is to be awarded, sufficient funds will be avail-
12 able to perform the contract in such fiscal year, and
13 the future-years defense program for such fiscal year
14 will include the funding required to execute the pro-
15 gram without cancellation.

16 “(F) The contract is a fixed price type contract.

17 “(G) The proposed multiyear contract provides
18 for production at not less than minimum economic
19 rates given the existing tooling and facilities.

20 “(4) If for any fiscal year a multiyear contract to be
21 entered into under this section is authorized by law for
22 a particular procurement program and that authorization
23 is subject to certain conditions established by law (includ-
24 ing a condition as to cost savings to be achieved under
25 the multiyear contract in comparison to specified other

1 contracts) and if it appears (after negotiations with con-
2 tractors) that such savings cannot be achieved, but that
3 substantial savings could nevertheless be achieved through
4 the use of a multiyear contract rather than specified other
5 contracts, the President may submit to Congress a request
6 for relief from the specified cost savings that must be
7 achieved through multiyear contracting for that program.
8 Any such request by the President shall include details
9 about the request for a multiyear contract, including de-
10 tails about the negotiated contract terms and conditions.

11 “(5)(A) The Secretary may obligate funds for pro-
12 curement of an end item under a multiyear contract for
13 the purchase of property only for procurement of a com-
14 plete and usable end item.

15 “(B) The Secretary may obligate funds appropriated
16 for any fiscal year for advance procurement under a con-
17 tract for the purchase of property only for the procure-
18 ment of those long-lead items necessary in order to meet
19 a planned delivery schedule for complete major end items
20 that are programmed under the contract to be acquired
21 with funds appropriated for a subsequent fiscal year (in-
22 cluding an economic order quantity of such long-lead items
23 when authorized by law).

24 “(6) The Secretary may make the certification under
25 paragraph (3) notwithstanding the fact that one or more

1 of the conditions of such certification are not met, if the
2 Secretary determines that, due to exceptional cir-
3 cumstances, proceeding with a multiyear contract under
4 this section is in the best interest of the Department of
5 Defense and the Secretary provides the basis for such de-
6 termination with the certification.

7 “(7) The Secretary may not delegate the authority
8 to make the certification under paragraph (3) or the deter-
9 mination under paragraph (6) to an official below the level
10 of Under Secretary of Defense for Acquisition, Tech-
11 nology, and Logistics.”

12 (b) CONFORMING AMENDMENT.—Subsection (a)(7)
13 of such section is amended by striking “subparagraphs (C)
14 through (F) of paragraph (1) of subsection (i)” and in-
15 serting “subparagraphs (C) through (F) of subsection
16 (i)(3)”.

17 (c) EFFECTIVE DATE.—The amendments made by
18 this section shall take effect on the date of the enactment
19 of this Act, and shall apply with respect to requests for
20 specific authorization by law to carry out defense acquisi-
21 tion programs using multiyear contract authority that are

15 **SEC. 3501. MARITIME ADMINISTRATION.**

16 Section 109 of title 49, United States Code, is

18 **“§ 109. Maritime administration**

19 “(a) ORGANIZATION AND MISSION.—The Maritime

6 the duties prescribed by the Secretary.

7 “(c) DEPUTY MARITIME ADMINISTRATOR.—The
8 Maritime Administration shall have a Deputy Maritime
9 Administrator, who is appointed in the competitive service
10 by the Secretary, after consultation with the Adminis-
11 trator. The Deputy Administrator shall carry out the du-
12 ties prescribed by the Administrator. The Deputy Admin-
13 istrator shall be Acting Administrator during the absence
14 or disability of the Administrator and, unless the Sec-
15 retary designates another individual, during a vacancy in
16 the office of Administrator.

17 “(d) DUTIES AND POWERS VESTED IN SEC-

10 for the transportation of those commodities.

11 “(g) DETAILING OFFICERS FROM ARMED FORCES.—

12 To assist the Secretary in carrying out duties and powers
13 relating to the Maritime Administration, not more than
14 five officers of the armed forces may be detailed to the
15 Secretary at any one time, in addition to details author-
16 ized by any other law. During the period of a detail, the
17 Secretary shall pay the officer an amount that, when
18 added to the officer’s pay and allowances as an officer in

21 vidual performing work the Secretary considers to be of
22 similar importance, difficulty, and responsibility as that
23 performed by the officer during the detail.

16 by the Comptroller General. The Comptroller Gen-
17 eral shall allow credit for an expenditure shown to
18 be necessary because of the nature of the business
19 activities authorized by this section or subtitle V of
20 title 46. At least once a year, the Comptroller Gen-
21 eral shall report to Congress any departure by the
22 Secretary from this section or subtitle V of title 46.

24 otherwise provided by law, the administrative and related

1 expenses for the administration of any grant programs by
2 the Maritime Administrator may not exceed 3 percent.

3 “(j) AUTHORIZATION OF APPROPRIATIONS.—

4 “(1) IN GENERAL.—Except as otherwise pro-
5 vided in this subsection, there are authorized to be

16 conditioning of vessels;

17 “(C) costs of national defense features;

18 “(D) payments of obligations incurred for
19 operating-differential subsidies;

20 “(E) expenses necessary for research and

17 such funding tables shall not count against a ceiling on
18 such transfers or reprogrammings under section 1001 or
19 section 1522 of this Act or any other provision of law,
20 unless such transfer or reprogramming would move funds
21 between appropriation accounts.

22 (d) APPLICABILITY TO CLASSIFIED ANNEX.—This
23 section applies to any classified annex that accompanies
24 this Act.

1 (e) ORAL AND WRITTEN COMMUNICATIONS.—No
 2 oral or written communication concerning any amount
 3 specified in the funding tables in this division shall super-
 4 sede the requirements of this section.
