

Cooperative Forestry Act, which is a capacity building program for forestry research that requires matching funds.

Under in the 2008 Farm bill, 1890 institutions were made eligible to receive funding for the first time under the McIntire-Stennis Cooperative Forestry Act, which is a capacity building program for forestry which requires matching funds.

The McIntire-Stennis Cooperative Forestry assists all states in carrying out a program of state forestry research at state forestry schools and colleges and in developing a trained pool of forest scientists capable of conducting forestry research, including ecological restoration; catastrophe management; valuing and trading ecological services; energy conservation, biomass energy and bio-based materials development; forest fragmentation; carbon sequestration and climate change; and ways of fostering healthy forests and a globally competitive forest resources sector.

Unfortunately, many of our 1890 institutions find themselves financially strapped and in need of relief. One area in particular where they are having difficulty is with respect to providing the matching funds for the McIntire-Stennis program—particularly those institutions eligible for \$200,000 or less.

Indeed, many campuses are having difficulty match other capacity funds and for competitive grants. 1890 Institutions are working diligently to increase their non federal sources of funds, however, having the burden of the current match is keeping the program in stress as they go forward to develop forestry related research programs and teaching and outreach programs, hire faculty for the programs and enroll students in the McIntire-Stennis dependent education curricula.

The same language which is included in the amendment I had planned on offering today is currently included in the Senate version of the Farm bill S. 954, The Agriculture Reform, Food and Jobs Act of 2013, as section 8301.

At the request of the Chairman and Ranking Member of the House Agriculture Committee, however, I am not going to offer my amendment today in order to allow the House Committee staff to work with USDA, our 1890 schools and Senate staff to develop alternative perfecting language which addresses concerns raised about the potential unintended impact of the amendment on 1890's institutions.

I am withdrawing my amendment with the understanding and assurance, from my distinguished friends, Chairman Lucas and Ranking Member Peterson that should we not be able to come to agreement on perfecting language during conference on the two farm bills, the final Conference bill and report will contain an exemption for eligible 1890 institutions from the matching requirement if their allocation is below \$200,000.

DEAR CHAIRMAN LUCAS: I am writing to you concerning the bill H.R. 1947, the "Federal Agriculture Reform and Risk Management Act," which is expected to be on the floor the week of June 17, 2013. The Committee recognizes the importance of H.R. 1947 and the need to move expeditiously. Therefore, the Committee is willing to forego action on the bill with the understanding that by doing so, the Committee is not in any way prejudiced with respect to its jurisdictional prerogatives or the appointment of conferees on this or similar legislation.

I would appreciate your response to this letter, confirming this understanding with respect to H.R. 1947, and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record.

Sincerely,

HONORING BROOKE WARD

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 20, 2013

Mr. GRAVES of Missouri. Mr. Speaker, I proudly pause to recognize Brooke Ward of Saint Joseph, Missouri. Brooke is active in the community and in her school and has been chosen to receive the YWCA Women of Excellence Future Leader Award.

Brooke Ward is a perfect example of leading through example. She graduated second in her class at Lafayette High School, while excelling in both AP and Honors level classes. She received letters in both volleyball and basketball, mentored other students, volunteered throughout the community and has advocated for Drug and Alcohol Free living. Brooke's writing skills allowed her to be one of two nationally selected students to participate in a study of Mao's Long March through Eastern China.

Brooke has also been active through roles in student government and she served as the Senate Minority Floor Leader at Girls State. I had the privilege of having Brooke work in my Saint Joseph office as an intern. As a high school student, she set an incredibly high standard for the interns that followed her to try and live up to. To say that Brooke is an impressive young woman with a bright and successful future in front of her is a complete understatement.

Mr. Speaker, I proudly ask you to join me in recognizing Brooke Ward. She is an amazing individual and a tremendous asset to the Saint Joseph community. I am honored to represent her in the United States Congress.

PERSONAL EXPLANATION

HON. RUSH HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 20, 2013

Mr. HOLT. Mr. Speaker, yesterday, during debate of the rule (H. Res. 271) and during consideration of amendments to H.R. 1947, Federal Agriculture Reform and Risk Management Act and of 2013, I was not able to be present for Recorded Votes. Had I been present during the vote series, I would have voted as follows:

"no" on rollcall vote 254, On Ordering the Previous Question;

"no" on rollcall vote 254, On Agreeing to the Resolution to provide for consideration of H.R. 1947;

"no" on rollcall vote 255, On Approving the Journal;

"yes" on rollcall vote 256, On Amendment No. 1 offered by Mr. McGovern of Massachusetts to restore the \$20.5 billion in SNAP by offsetting the Farm Risk Management Election Program and the Supplemental Coverage Option;

"yes" on rollcall vote 257, On Amendment No. 3 offered by Ms. Foxx of North Carolina to cap spending on the Farm Risk Management Election program at 110% of CBO-predicted levels for the first five years in which payments are distributed;

"no" on rollcall vote 258, On Amendment No. 5 offered by Mr. Broun of Georgia to repeal permanent law from the Agriculture Act of 1949 that pertains to dairy support and to prevent the currently suspended law from becoming reactivated should Congress not reauthorize programs under the Department of Agriculture;

"yes" on rollcall vote 259, On Amendment No. 8 offered by Mr. Blumenauer of Oregon to require that twenty percent of the acreage enrolled in the Conservation Reserve Program be set aside for the Conservation Reserve Enhancement Program and the Continuous Conservation Reserve Program, which allows states to target high priority and environmentally sensitive land and to continually re-enroll that land in CRP;

"yes" on rollcall vote 260, On Amendment No. 9 by Mr. Blumenauer of Oregon to reform the Environmental Quality Incentives Program (EQIP) to increase access for farmers and to eliminate payments to projects that do not show strong conservation benefits;

"yes" on rollcall vote 261, On Amendment No. 14 by Ms. Kaptur of Ohio to improve federal coordination in addressing the documented decline of managed and native pollinators and to promote the long-term viability of honey bees, wild bees, and other beneficial insects in agriculture;

"yes" on rollcall vote 262, On Amendment No. 15 offered by Mr. Royce of California to reform U.S. international food aid to allow for not more than 45 percent of authorized funds to be used for assistance other than U.S. agricultural commodities, yielding \$215 million in annual efficiency savings, enabling the U.S. to reach an additional 4 million disaster victims. Curtails the practice of "monetization" which, according to the GAO, is inefficient and led to a loss of \$219 million over three years. Reductions in mandatory spending result in \$150 million in deficit reduction over the life of the bill;

"no" on rollcall vote 263, On Amendment No. 16 offered by Mr. Chabot of Ohio to repeal section 3102, which reauthorizes the Market Access Program (MAP) until 2018.

**FEDERAL AGRICULTURE REFORM
AND RISK MANAGEMENT ACT OF
2013**

SPEECH OF

HON. PAUL RYAN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 18, 2013

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 1947) to provide for the reform and continuation of agricultural and other programs of the Department of Agriculture through fiscal year 2018, and for other purposes:

Mr. RYAN of Wisconsin. Madam Chair, I want to thank Chairman LUCAS and Ranking Member PETERSON for their work on this bill. There are some good ideas in here, and we should act on them. But I have some serious concerns with the bill. On balance, I'm afraid the bad parts outweigh the good. And so I must vote against it.

Here's what this bill gets right: In some areas, it cuts wasteful spending. It eliminates direct payments. It adjusts the food-stamp program. And it consolidates duplicative programs. I want to commend the chairmen and the members of the Agriculture Committee for proposing these reforms. My concern is they don't go far enough.

And in other areas, this bill increases spending. For instance, it creates new farm-support programs, such as the Price Loss Coverage and the Revenue Loss Coverage programs. Overall, the bill's changes to farm-support programs are supposed to save money for taxpayers, but under certain economic conditions, they could actually cost more. And there's another problem: This bill expands crop insurance at a time of record debt for our nation—and record profits for the agriculture sector.

Now, we should have a safety net for our farmers. We should help the little guy—the family farm that's in need. We shouldn't bankroll the big guys. But that's what this bill does. It loosens eligibility standards for crop subsidies—and increases the number of people who can apply. In fact, they may not even be farmers. Under this bill, someone could make up to \$950,000 a year in a nonrelated industry—and still receive subsidies. Over 6,000 people who are losing money on the farm—but who are making plenty of money elsewhere—would become eligible.

Finally, I have concerns with the food-stamp program. The Supplemental Nutrition Assistance Program has grown at an annualized rate of 12.5 percent over the past ten years. It will cost about \$80 billion just this year. And though the program's costs will fall over the next ten years, they will remain at elevated
