

Mr. WILSON of South Carolina. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. The question is on the Speaker's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. WILSON of South Carolina. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from New York (Mr. HIGGINS) come forward and lead the House in the Pledge of Allegiance.

Mr. HIGGINS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

FAIRNESS FOR ALL

(Mr. LAMBORN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMBORN. Mr. Speaker, I rise today to speak on the issue of fairness for all under ObamaCare.

Democrats, working with the President, sought and obtained a special exemption for Members of Congress and their staffs from ObamaCare's onerous costs and mandates. This is outrageous and insulting to the American people.

Last night, the House passed legislation to ensure that Members of Congress, their staffs, and other well-connected political insiders don't get any special carve-outs from ObamaCare. It's a fundamental issue of fairness. But the Senate, last night, voted to exempt themselves, their staffs, and other political cronies in the White House from living under the mandates imposed on the rest of the country.

Time and time again, this President has given special breaks to unions, campaign donors, and Washington insiders. These are breaks he is not giving to the American people. This is one of the fundamental problems of ObamaCare. It creates another way for the government to pick winners and losers.

INVESTING IN THE NATION'S INFRASTRUCTURE

(Mr. HIGGINS asked and was given permission to address the House for 1 minute.)

Mr. HIGGINS. Mr. Speaker, the Robert S. Pierson is a Canadian freighter full of wheat, trying to reach a Buffalo business. It's been stuck in the Buffalo River for 5 days because of a broken lift bridge, causing economic damage throughout the Great Lakes and its economy.

For years, House Republicans have chosen policies of austerity, sequester, and now, shutdown. They have refused to invest in America, and, as the Pierson shows, this is catching up to us.

In a recent interview, World Fuel Services Chairman Paul Stebbins decried our lack of investment in infrastructure, education, and research, saying:

Europe has 10 years of disaster ahead of them. China's a mess, financially. The U.S. could be blowing the doors off it, but the worst enemy is us. This is self-imposed. So shame on us.

Indeed, shame on us. Shutting down the government and playing games with our credit is exactly the wrong thing to do. Now is the time for bold investment in rebuilding the Nation's infrastructure, not brinkmanship.

LET'S FIND A SOLUTION

(Mr. BOEHNER asked and was given permission to address the House for 1 minute.)

Mr. BOEHNER. Mr. Speaker, my colleagues, I have to say, I'm disappointed in the actions of the United States Senate this morning by rejecting the bill passed by the House last night.

The bill we passed in the House last night would have funded the government through December 15 and would have provided fairness to the American people under ObamaCare. No exemptions, no exceptions. Let's treat everyone the same.

And last night, they not only rejected that, but they also rejected our call to sit down and resolve our differences under the Constitution, which makes it clear that if the two Houses disagree, that we should sit down and discuss and try to resolve those matters. My goodness, they won't even sit down and have a discussion about this.

Our country has big problems. Today, our government has big problems. The only way these problems are going to be resolved is if we sit down amicably and keep the American people in mind and come to an agreement.

HEALTH CARE NOW AVAILABLE FOR ALL AMERICANS

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute.)

Ms. JACKSON LEE. Good news, Mr. Speaker; today is October 1, and health care in America is now available for all

Americans. Last night between 1 and 2:30 in the morning, after leaving this floor with a degree of disappointment, we went to the Web site. We took a picture. We saw how extensive and detailed the Web site was for Americans to enroll for preventative care, to be able to ensure that seniors don't have to pay high costs for prescription drugs, to make sure that young people, strong young people who believe that the world is theirs can be on this Web site. It was exciting, because as we logged on, it said, We are loaded. There are so many people trying to get on to be able to access America's health care.

And you know what, we have the ability to debate the health care issue while Americans are continuing to access it. And we can pass a clean continuing resolution. That's a good plan.

We understand there's disagreement. I respect my good friends. But America is excited today. Not only is it my brother Michael's birthday, but it is also the day for good health care in America. Enroll. The marketplace is open. That's what America is all about.

OPEN UP THE GOVERNMENT

(Mr. WOLF asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WOLF. Mr. Speaker, I'm calling for the government to reopen. I'm calling for leadership on both sides to resolve these issues. The FBI is being impacted. The CIA is being impacted. The National Counterterrorism Center, which is looking at leads that are coming in to keep this Nation safe, is being impacted. The NIH and cancer research and Alzheimer's research is being impacted. People and families are being impacted.

This is bad for America. It's bad for America. Enough is enough. It's time to be leaders. It's time to govern. Open up the government.

SHUTDOWN

(Mr. CARNEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARNEY. Mr. Speaker, I rise today to call on my colleagues to resolve this fight and stop this government shutdown. Today, Federal workers across the country, including at Dover Air Force Base in my home State of Delaware, are being sent home without pay. America is better than this. Many of us on both sides of the aisle are willing to work together to find consensus and to focus on solutions. That's the responsible way to govern.

And I'm convinced that many of my colleagues on the other side of the aisle don't want this government shutdown either. It's only a small minority of those in the Tea Party who have forced this on the American people. But the
