

like Katherine don't have to worry about losing critical coverage for their families.

#### KEEP THE PROMISE, MR. PRESIDENT

(Mr. JOHNSON of Ohio asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. JOHNSON of Ohio. Mr. Speaker, since 2010, President Obama has touted his well-known phrase: If you like your health care plan, you will be able to keep your health care plan.

The past few weeks have made it very clear that President Obama has failed to keep that promise.

According to the Associated Press, 3.5 million people have already seen their health plans canceled. Constituents from all over eastern and south-eastern Ohio have been contacting my office, notifying me of skyrocketing premiums and canceled health plans.

Take, for instance, Cathy, from my hometown of Marietta, Ohio. Here is the letter she received. She was notified that her plan is not in compliance under the requirements of the ACA and that it would, instead, be rolled over into a better plan. It turns out that the "better" plan increases her premiums from \$670 a month to \$1,600 a month—more than double.

Skyrocketing premiums, canceled plans and a complete takeover of health care do not make health care affordable. The President should keep his promise to the American people, let Congress work to fix this problem and support the Keep Your Health Plan Act.

#### OBAMACARE

(Mr. SMITH of Nebraska asked and was given permission to address the House for 1 minute.)

Mr. SMITH of Nebraska. Mr. Speaker, I rise today to highlight the impact of the current health care situation of the millions of Americans who are losing their health care coverage, including many in Nebraska's Third District.

Pam Weldin, a self-employed small business woman from Minatare, Nebraska, has a preexisting condition. She has had affordable health insurance coverage which meets her needs, but she just received this letter which explains her current plan will no longer be offered. Pam told me she had great coverage before, which obviously included coverage of her preexisting condition. She has since tried to see what is available through healthcare.gov and the 800 number as well, but has been unsuccessful. As of January 1, she will lose the coverage that she likes.

Like Pam, millions of Americans are learning they are losing their health care plans they were told they could keep. I have heard from many other Nebraskans who are losing their insurance or whose rates have increased so much they cannot afford to keep the plans they currently have.

This is not what the American people want, and both sides need to work together to make this right. I encourage all of my colleagues to support the Keep Your Health Plan Act.

#### OBAMACARE

(Mr. MARINO asked and was given permission to address the House for 1 minute.)

Mr. MARINO. Mr. Speaker, the President continues to unilaterally implement these politically motivated, piece-by-piece, so-called "fixes," but this law is broken, and it is hurting millions and millions of Americans.

Every day, I hear from more of my constituents who have had their coverage canceled and who have seen their premiums increase. I recently heard from a woman from my hometown of Williamsport, Pennsylvania, who is going to have a baby early next year. She will lose her health care coverage on January 1.

I received a copy of a document from a constituent of mine, Paul from Lackawanna County. It is a notice from the insurance company.

It reads:

It's important that you know that Federal health care reform will require many changes to health insurance plans beginning in 2014. As a result, as of December 31, 2013, the Special Care health insurance plan you have will no longer be offered.

We need to repeal the Affordable Care Act and replace it with health care reform that actually lowers costs and increases access to quality health care.

The President has an obligation to keep his promise. Going back on one's word sets a very poor example for our children, and that is the truth.

#### OBAMACARE

(Mr. FITZPATRICK asked and was given permission to address the House for 1 minute.)

Mr. FITZPATRICK. Mr. Speaker, the Affordable Care Act is more than a Web site. That is the comforting assurance President Obama is giving to the American people as the continuing train wreck of his law's implementation grinds on. The law is more than a Web site. Unfortunately, that means its flaws extend past the Web site as well. It is bad technology mixed with bad policy. Each day we hear more and more people losing plans they liked despite the President's promise they could keep them.

Recently, I spoke with Scott Randolph, a self-employed father of two in my district, who is feeling the harmful effects head-on. Scott received this notice in the mail that said his insurance plan, which he liked and which worked for him and his two sons, was going to be terminated and replaced with a similar plan at triple the cost. I think Scott said it best when he said:

The President guaranteed me, "If you like your plan, you can keep it." Well, the fact is, I can keep my plan; I just can't afford my plan now.

Mr. President, this is unacceptable. Period. Let's pass the Keep Your Health Plan Act and offer help to the millions of Americans hurt by this broken promise.

#### OBAMACARE

(Mr. GIBBS asked and was given permission to address the House for 1 minute.)

Mr. GIBBS. This week, Americans, the administration, along with the media, are starting to see the harmful effects of ObamaCare on our country.

Many Ohioans are experiencing sticker shock and are desperately worried if they will have coverage at all and if they will keep their doctor. A constituent recently told me that his hours were cut to part-time in order for his employer to keep the business running. A man from Canton, Ohio, called in and will see his premiums increase by 700 percent due to this harmful law. A single mother of two young boys from Ashland, Ohio, will not be able to afford the increase in price of her premium each month under ObamaCare. When she wrote in, she asked a great question:

If this is the Affordable Care Act, why can I no longer afford my health care insurance?

It seems as though my constituents have more common sense than those who wrote this devastating law.

I, along with my colleagues in the House, remain committed to protecting Americans from this law and ensuring that you are in charge of your health care decisions, not some bureaucrat here in Washington. Whether it is the doctor's office, the gas pump, the dinner table, or in the job market, Washington is standing in the way of hard-working Americans, and it is just not fair.

#### OBAMACARE

(Mr. LAMALFA asked and was given permission to address the House for 1 minute.)

Mr. LAMALFA. Mr. Speaker, over the past few months, I have heard hundreds of stories from my constituents about the President's health care law and the devastating effects it is having on their families and small businesses. One issue I want to address today is the serious threat ObamaCare is to the rural health care situation in our country.

For my constituents in northern California, we already face a shortage of care and choices. Many families have to turn to bordering States to see a doctor or for emergency room visits. Now we know that the law is actually creating a much larger challenge for rural Americans.

Today I want to share with you a story from a constituent I met just a couple months ago at the Tulalake Fair in Siskiyou County. Patricia
