Congressional Record

PROCEEDINGS AND DEBATES OF THE 113th CONGRESS, FIRST SESSION

Vol. 159

WASHINGTON, THURSDAY, DECEMBER 5, 2013

No. 172

Senate

The Senate was not in session today. Its next meeting will be held on Monday, December 9, 2013, at 2 p.m.

House of Representatives

THURSDAY, DECEMBER 5, 2013

The House met at 9 a.m. and was called to order by the Speaker pro tempore (Ms. FOXX).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
December 5, 2013.

I hereby appoint the Honorable VIRGINIA FOXX to act as Speaker pro tempore on this day.

JOHN A. BOEHNER,
Speaker of the House of Representatives.

PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer: Eternal God, we give You thanks for giving us another day. We pause in Your presence and ask guidance for the men and women of the people's House.

Enable them, O God, to act on what they believe to be right and true and just, and to do so in ways that show respect for those with whom they disagree.

Send Your spirit of peace upon our Nation. Endow the Members of this House and all our governmental leaders with the wisdom to respond with whatever policies and laws might be needed to ensure greater peace and security in our land.

Bless us this day and every day, and may all that is done be for Your greater honor and glory.

Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. DAINES. Madam Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER pro tempore. The question is on the Speaker's approval of the Journal.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. DAINES. Madam Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentlewoman from Ohio (Ms. FUDGE) come forward and lead the House in the Pledge of Allegiance.

Ms. FUDGE led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to five requests for 1-minute speeches on each side of the aisle.

HONORING BENNY AND NELDA SPEAKS' 50TH ANNIVERSARY

(Mr. CRAWFORD asked and was given permission to address the House for 1 minute.)

Mr. CRAWFORD. Madam Speaker, today I rise to honor the 50th anniversary of my good friends and fellow Arkansans, Benny and Nelda Speaks.

Benny and Nelda first met in Mountain Home, Arkansas, Benny fresh out of the Navy, Nelda having returned home from business college in Springfield, Missouri.

They were married on December 6, 1963. They have one daughter, Ladonna Speaks Moranz; two grandchildren, Natosha and Brandon; and were blessed with one great-grandson, Logan.

Madam Speaker, it is no easy task making it to the 50-year anniversary. It takes great commitment, a willingness to compromise and to listen, and a loving spirit. These qualities embody the relationship of the Speakses' marriage, serving as a testament and example to the rest of us.

The Speakses are involved community leaders who truly care about Arkansas and have devoted much of their time and effort giving back to their community.

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Printed on recycled paper.

H7509

I thank the Speakses for their friendship over the years, and I am so glad to be able to wish them a happy 50th wedding anniversary this December 6.

AFFORDABLE CARE ACT SUCCESS STORIES

(Ms. LEE of California asked and was given permission to address the House for 1 minute.)

Ms. LEE of California. Madam Speaker, the Affordable Care Act is already improving access to quality affordable health care for millions, including my constituents.

In my home State, for example, Covered California is a shining example of how the Affordable Care Act, when implemented fully, will be a success. California's exchange is now enrolling thousands of Californians into health care coverage every day.

Residents in my district, ranging from young adults, to seniors, to children with preexisting conditions and those who cannot afford health insurance, have been receiving critical protections and savings because of the Affordable Care Act.

In fact, one constituent wrote me recently after receiving a letter from his insurance company. After looking at the plans offered through Covered California, he was able to find coverage that was both more affordable and better for him. He told me that he does not want to put insurance companies back in charge and pay higher premiums for less coverage.

Every time Republicans vote to repeal or dismantle the Affordable Care Act, they make it perfectly clear that charging women more for being a woman is okay, that denying victims of domestic violence coverage is okay, and allowing insurance companies to increase premiums to increase profits is okay.

CONGRATULATING THE BOZEMAN, MONTANA, GIRLS CROSS-COUNTRY TEAM

(Mr. DAINES asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DAINES. Madam Speaker, this weekend, the Bozeman High School girls cross-country team will be in Portland, Oregon, to run in the Nike Cross National Championship. These dedicated and talented young women have won seven consecutive Montana Class AA State championships and have competed for five consecutive years at the Nike Cross Northwest Regionals.

This year, after securing their seventh State championship, they came in first at the Nike Cross Northwest Regionals in Boise, Idaho. They will now advance and compete this Saturday against high school runners from across the country at the Nike Cross Nationals.

As a graduate of Bozeman High School and a Bozeman Hawk, I couldn't

be more proud to see the Bozeman girls cross-country team representing Montana at the Nike Cross Nationals. I join all Montanans in wishing them the very best on Saturday. Go Hawks.

MEDICAID EXPANSION

(Ms. FUDGE asked and was given permission to address the House for 1 minute.)

Ms. FUDGE. Madam Speaker, prior to the passage of the Affordable Care Act, 23 percent of Ohioans with incomes below 133 percent of the Federal poverty level were uninsured. But thanks to the expansion of Medicaid in my home State of Ohio, all of the almost 600,000 residents who are uninsured with incomes below 138 percent of the Federal poverty level will now have access to Medicaid coverage.

In my district alone, an additional 72,000 people became eligible for Medicaid. And next Monday, December 9, all of these individuals will be able to begin signing up for health care coverage that begins January 1. No longer will I receive calls from constituents like Brandon Proctor, who was told that he was "too rich for Medicaid but too poor for subsidies."

This is the way the Affordable Care Act was supposed to work. Finally, all Ohioans will have access to quality and affordable health care.

A TRIBUTE TO BISHOP WELLINGTON BOONE

(Mr. BROUN of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BROUN of Georgia. Madam Speaker, I rise today to pay tribute to an incredible man of faith, with a true calling and a heart for serving the Lord, Bishop Wellington Boone.

Bishop Wellington Boone was ordained into ministry in 1973; and in that same year, he married his childhood sweetheart, Katheryn. Today, Bishop Boone not only celebrates 40 years of ministry, but 40 years of a loving marriage with his wife. In today's world, it is unique and certainly admirable to see a couple celebrate 40 years of marriage. Their long-lasting marriage is a testament to not only their commitment to each other, but their dedication to serving the Lord.

Bishop Boone's 40 years of leadership and service in ministry is also a tremendous accomplishment and one that deserves recognition. Through his work, Bishop Boone has faithfully led others in their quest to glorify and serve the Lord.

Madam Speaker, I ask you to join me in congratulating Bishop Boone as he celebrates 40 years of ministry and 40 years of marriage with his lovely wife, Katheryn.

SAFE CLIMATE CAUCUS

(Mr. WAXMAN asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. WAXMAN. Madam Speaker, I rise as a member of the Safe Climate Caucus to call attention to a new report from the Nation's premier scientific body, the National Academy of Sciences. We typically associate climate change with gradual, longer-term problems, but according to the academy, climate change could also pose a risk of rapid hard-to-predict environmental changes that have the potential to cause widespread damage in the near term.

The report warns that the collapse of the polar sea ice could send sea levels soaring. The destruction of the coral reefs could cause a mass extinction of sea life. The elimination of summer sea ice in the Arctic could alter the world's weather patterns.

These "tipping points" could happen suddenly. It is reckless to do nothing when faced with these threats. If there is a 10 percent chance that these threats would happen, it is irresponsible for us to ignore it.

Dr. Richard Alley, one of the co-authors, compared the threat of abrupt climate change to the dangers posed by drunk drivers. He said, "You can't see it coming, so you can't prepare for it."

Congress is acting irresponsibly if we don't take this issue seriously. We want to pass on a planet that is worthy of our children's and our grandchildren's future.

LIMITING ACTIVITY ON THE OZARK NATIONAL SCENIC RIVERWAY

(Mr. SMITH of Missouri asked and was given permission to address the House for 1 minute.)

Mr. SMITH of Missouri. Madam Speaker, next week, the National Park Service will begin holding public meetings on its ridiculous plan to limit recreational activity on the Ozark National Scenic Riverways in Missouri's Eighth District. I urge families and individuals across Missouri to attend these hearings and oppose the Obama administration's changes to the riverways.

Let me reiterate what I have said to the Secretary of the Interior, Sally Jewell, and the Director of the National Park Service, Jonathan Jarvis, that we adamantly oppose the proposal to appease environmentalists by limiting the public use and enjoyment of our riverways. This proposal would hurt small businesses that rely on the riverways and keep my constituents from enjoying the riverways that belong to them.

Mr. Speaker, I urge my constituents to attend public meetings in Van Buren, Salem, and Kirkwood to show opposition to the Obama administration's Park Service's attempts to restrict our access to our rivers.

THE PHILIPPINES

(Mr. AL GREEN of Texas asked and was given permission to address the

House for 1 minute and to revise and extend his remarks.)

Mr. AL GREEN of Texas. Madam Speaker, I want to thank Congressman CHRISTOPHER SMITH of New Jersey for leading a codel to the Philippines. I, along with Congressman TRENT FRANKS, were members of the codel. And I want people to know that there is still great work to be done for our friends in the Philippines.

This picture depicts some of the damage that we were able to see while we were there in Tacloban, which is a province in the Philippines. This is another picture that shows actual homes. This is a USAID sign. And these are places where people are actually dwelling at this time. The number one problem that they have right now is shelter.

I will also add that our military has done an outstanding job. I had an opportunity to meet with many of our military people who were there with heavy equipment, and I commend them for what they have done.

Finally, I would like to say this. We have a bill, H.R. 3602, which would accord people from the Philippines in the United States a temporary protective status. This would allow them to stay here, as opposed to going home where the income is less than \$2 a day for more than 40 percent of the people.

My hope is that we can pass H.R. 3602. It does not give any pathway to citizenship. It will only allow them to send money back home while they are here working in the United States.

CONGRATULATING THE BATAVIA, ILLINOIS, HIGH SCHOOL FOOTBALL TEAM

(Mr. HULTGREN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HULTGREN. Madam Speaker, I rise to congratulate the Batavia High School Bulldogs for winning their first ever Illinois State football championship.

On Saturday, November 30, Batavia faced off against Richards High School, which shares the same nickname, in an epic battle of the Bulldogs. At NIU's Huskie Stadium in DeKalb, an estimated 12,000 Batavia fans roared as Micah Coffey, the quarterback, threw for two touchdowns and running back Anthony Scaccia ran for three more. Both teams fought hard, but Batavia prevailed, capping their virtually undefeated season with a 34-14 victory.

I commend Coach Dennis Piron and the entire Bulldogs team for the hard work that went into a strong 13-1 season and the IHSA Class 6A State championship. Go Bulldogs.

INNOVATION ACT

GENERAL LEAVE

Mr. GOODLATTE. Mr. Speaker, I ask unanimous consent that all Members

may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 3309 under consideration.

The SPEAKER pro tempore (Mr. HULTGREN). Is there objection to the request of the gentleman from Virginia?

There was no objection.

The SPEAKER pro tempore. Pursuant to House Resolution 429 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 3309.

The Chair appoints the gentlewoman from North Carolina (Ms. FOXX) to preside over the Committee of the Whole.

□ 0915

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 3309) to amend title 35, United States Code, and the Leahy-Smith America Invents Act to make improvements and technical corrections, and for other purposes, with Ms. FOXX in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Virginia (Mr. GOODLATTE) and the gentleman from Michigan (Mr. CONYERS) each will control 30 minutes.

The Chair recognizes the gentleman from Virginia.

Mr. GOODLATTE. Madam Chairman, I yield myself such time as I may consume.

Today, we are here to consider H.R. 3309, the Innovation Act. The enactment of this bill is something I consider central to U.S. competitiveness, job creation, and our Nation's future economic security. The bill takes meaningful steps to address the abusive practices that have damaged our patent system and resulted in significant economic harm to our Nation.

During the last Congress, we passed the America Invents Act. Many view the AIA as the most comprehensive overhaul to our patent system since the 1836 Patent Act. However, the AIA was, in many respects, a prospective bill. The problems that the Innovation Act will solve are more immediate and go to the heart of current abusive patent litigation practices.

This bill builds on our efforts over the past decade. It can be said that this bill is the product of years of work. We have worked with Members of both parties in both the Senate and the House, with stakeholders from all areas of our economy, and with the administration and the courts.

To ensure an open, deliberative, and thoughtful process, we held several hearings and issued two public discussion drafts in May and September of this year, which led to the formal introduction of the Innovation Act in October. I strongly believe that the Innovation Act takes the necessary steps to address abusive patent litigation.

Abusive patent litigation is a drag on our economy. Everyone from independent inventors to start-ups to mid- and large-sized businesses face this constant threat. The tens of billions of dollars spent on settlements and litigation expenses associated with abusive patent suits represent truly wasted capital—wasted capital that could have been used to create new jobs, fund R&D, and create new innovations and technologies that “promote the progress of science and useful arts.”

And that is what innovation is really about, isn't it? If you are able to create something, invent something new and unique, then you should be allowed to sell your product, grow your business, hire more workers, and live the American Dream.

The Innovation Act puts forward reasonable policies that allow for more transparency and brings fundamental fairness to the patent system and the courts.

The Innovation Act is designed to deal with systemic issues surrounding abusive patent litigation as a whole, and includes a number of provisions designed to ameliorate this significant problem.

Within the past couple of years, we have seen an exponential increase in the use of weak or poorly granted patents against American businesses with the hopes of securing a quick payday. Many of these abusive practices are focused not just on larger companies but against small and medium-sized businesses as well. These suits target a settlement just under what it would cost for litigation, knowing that these businesses will want to avoid costly litigation and probably pay up. The patent system was never intended to be a playground for litigation extortion and frivolous claims.

The Innovation Act contains needed reforms to address the issues that businesses of all sizes and industries face from patent troll-type behavior, while keeping in mind several key principles, including targeting abusive behavior rather than specific entities, preserving valid patent enforcement tools, preserving patent rights, promoting invention by independents and small businesses, and strengthening the overall patent system.

Congress, the Federal courts, and the PTO must take the necessary steps to ensure that the patent system lives up to its constitutional underpinnings, and let me be clear about Congress' constitutional authority in this area. The Constitution grants Congress the power to create the Federal courts, and the Supreme Court has long recognized that the prescription of court procedure falls within the legislative function.

To that end, the Innovation Act includes heightened pleading standards and transparency provisions. Requiring parties to do a bit of due diligence up front before filing an infringement suit is just plain common sense. It not only reduces litigation expenses, but saves

the courts' time and resources. Greater transparency and information make our patent system stronger.

The Innovation Act also provides for more clarity surrounding initial discovery, case management, fee shifting, joinder, the common law doctrine of customer stays, and protecting IP licenses in bankruptcy. Further, the bill's provisions are designed to work hand-in-hand with the procedures and practices of the Judicial Conference, including the Rules Enabling Act and the courts, providing them with clear policy guidance while ensuring we are not predetermining outcomes and that the final rules and the implementation in the courts will be both deliberative and effective.

Today, we are taking a pivotal step toward eliminating the abuses of our patent system, discouraging frivolous patent litigation, and keeping laws up to date. The Innovation Act will help fuel the engine of American innovation and creativity, help create new jobs, and grow our economy.

I reserve the balance of my time.

Mr. CONYERS. Madam Chair, I yield myself such time as I may consume.

Of course, we are here to correct the problem of patent trolls. We are, unfortunately, faced with a measure, H.R. 3309, which goes well beyond the issue of trolls and would, unfortunately, weaken every single patent in America.

I say this for several reasons.

First, H.R. 3309 fails to respond to the single most important problem facing our patent system today—the continuing diversion of patent fees.

Nearly \$150 million in badly needed user fees have been diverted in fiscal 2013. It is estimated that \$1 billion in fees have been diverted in the last two decades. This cannot go on.

Next, the bill's heightened pleading requirements will deny legitimate inventors access to the court in several critical respects:

They will have an unfair impact against patent holders across the board;

They are drafted in a one-sided manner;

They will prolong litigation;

They are unnecessary because the courts are already addressing pleading standards.

The next thing I would bring to your attention is the bill's fee-shifting requirements will favor wealthy parties and chill meritorious claims.

I am not surprised that the other side would be advancing something like this, but it is shocking because the provision is drafted in an overly broad manner and will apply well beyond patent infringement actions.

The next thing that I would point out is that the bill's discovery limitations are counterproductive. Limiting discovery prior to holding hearings to construe patent claims and determine their scope will delay litigation and lead to even greater expenses for the parties.

Finally, H.R. 3309 mandates that the Federal judiciary adopt a series of new

rules and judicial changes that will make it more difficult for inventors to protect their patent rights.

These changes are strongly opposed by the Judicial Conference of the United States, the principal policy-making body that Congress established to administer our Federal court system.

I have spent my entire career on Judiciary to help foster an independent judiciary that can resolve disputes between parties on a fair and dispassionate basis based on an evenhanded set of rules. There is little doubt that the Federal judiciary, as evidenced by its exceedingly deliberative rulemaking process, is in a far better position than the entire Congress to set the proper rules for their own courtrooms on these matters.

By unbalancing the patent system, we send a signal to inventors—the very people doing the research and developing the cures that benefit us all every day—that their inventions are not worthy of full legal protection. This means that the next cure for cancer or technological breakthrough may be stymied and perhaps never come, or they will be developed abroad rather than in the United States.

We can and should respond to the problem of patent trolls in a direct, but fair and targeted, manner; but we must not do so in a way that punishes our innovators and inhibits innovation.

Madam Chair, I reserve the balance of my time.

Mr. GOODLATTE. Madam Chairman, it is now my pleasure to yield 1 minute to the gentleman from North Carolina (Mr. HOLDING), a distinguished member of the Judiciary Committee.

Mr. HOLDING. Madam Chairman, I rise in support of H.R. 3309, the Innovation Act, because it is crucial to preserving the integrity of our Nation's innovators and creators.

One of the constitutional responsibilities of Congress is to "promote the progress of science and useful arts." This legislation does just that by deterring abuse of our patent litigation system.

As a United States Attorney, I saw how patent trolls abuse our patent litigation system by acquiring patents that they have no intention of using for anything other than their own monetary gain. Patent trolls sue companies for allegedly infringing on patents they had no business acquiring in the first place.

The Innovation Act, which I am proud to cosponsor, makes it more difficult for patent trolls to form a case. It also aligns fee shifting in patent cases, which discourages frivolous cases.

Madam Chairman, there is a lot of opportunity for job creation in the technology sector. The Innovation Acts is essential to protecting these technology companies from fraud and abuse.

I want to thank Chairman GOODLATTE for his leadership on this issue.

Mr. CONYERS. Madam Chair, I yield 3 minutes to the gentleman from Kentucky (Mr. MASSIE).

Mr. MASSIE. Madam Chair, I want to briefly tell you about a young boy who grew up in modest surroundings in rural Kentucky.

Although he had no money, he was inspired to invent. So he collected junk to build his inventions—broken clocks, radios, vacuum cleaners. Who knows, maybe one day he could assemble this junk into an invention that would allow him to pull himself out of his humdrum environment.

He was inspired to invent by stories of Edison, Ford, and Tesla. In the seventh grade, he invented this robot arm that you see here, which won him a prize at the science fair. He even invented a flower pot that would water itself for his grandmother.

He went on to college, where he met other inventors, inspired, again, not just by creativity but by the fact that they can make an honest living by improving the lives of others.

One of his inventor friends invented a robot that vacuums floors for millions of people now. This boy went on to invent a touch interface for computers, obtain 29 patents, raise venture capital, and create dozen of jobs.

His story is only possible in America, where our robust intellectual property system and judicial system work together to protect the property rights of inventors.

□ 0930

Knowing this and relying on this, many inventors dedicate their entire lives to inventing things that will improve and extend the lives of others.

Today's patent reform bill is a serious threat to American inventors. That is why inventors are urging us not to pass this bill today. It will extinguish creativity and invention in America.

Recklessly weakening the patent system, as this bill does, will deprive inventors of income and a livelihood. They will pursue other careers. As the role models for young inventors quietly fade into history, fewer young students will pursue invention. A decade from now, Congress will further lament the lack of interest among the next generation in science, engineering, technology, and math, arrogantly unaware that it was Congress that killed that interest today with this bill, should it pass.

How do I know this boy's story so well? How can I anticipate the unintended consequences of this bill? I am the boy in this picture, and that was my story.

It would be shameful and wrong to kick out the ladder from our next generation of inventors, as this bill would do; but if my story doesn't compel you, please listen to the words of Dean Kamen. Pick your favorite inventor in history—Tesla, Edison—and Dean Kamen is that inventor of our time. Perhaps you know him as the inventor of the Segway, but he has invented a

dialysis machine, an insulin pump, and a self-balancing wheelchair. These inventions have improved the lives of millions of people all over the world.

Here is what Mr. Kamen has to say about this very legislation:

Adding uncertainty and cost to getting and maintaining patents will be the largest single cause of the decline of innovation and, therefore, of the economy in this country that I've seen in my lifetime.

Mr. Kamen doesn't just invent. He inspires the next generation to invent with his America FIRST Robotics Competition that millions of students have participated in. He inspires the next generation to invent with his robotics contest.

The CHAIR. The time of the gentleman has expired.

Mr. CONYERS. Madam Chair, I yield the gentleman an additional half minute.

Mr. MASSIE. I am scheduled to speak at two of these robotic contests in Kentucky this weekend, not to inspire these kids to be politicians, but to inspire them to be inventors. Should this bill pass, should we kick the ladder out from our young inventors, it is going to be hard for me to face them Saturday.

I urge my colleagues to listen to the inventors of America, who are pleading to them to oppose this bill.

Mr. GOODLATTE. Madam Chairman, I am pleased to yield 1 minute to the gentleman from Texas (Mr. FARENTHOLD), who is a distinguished member of the Judiciary Committee.

Mr. FARENTHOLD. Thank you very much.

Madam Chairman, the patent system is a vital part of our national identity. It stimulates American ingenuity, and it enhances our global competitiveness stance.

Traditionally, patent holders have asserted their patents against those who produce infringing technologies, but in recent years, abusive patent litigation—patent trolling—has ballooned as companies have emerged solely to buy questionable and vaguely defined patents and to assert them against thousands of end users in the hope of extracting licensing fees. Right now, the patent trolls are going after hotels and restaurants. It is the reason you don't have Wi-Fi in more restaurants.

Guess what? This is legalized extortion, and H.R. 3309 will significantly curb this problem. Though I have some problems with section 9(c) in the PTO's ability to apply the broadest reasonable interpretation claim construction standard in post grant reviews, this bill is a delicate compromise between competing interests.

I hope we can deal with the 9(c) problem in the future, but overall, this is a great bill. I am not going to let the perfect get in the way of the doable. I hope my colleagues who have minor objections to the bill don't do the same. We have got to stop this abusive patent trolling litigation, and this bill will do it. I urge my colleagues to support it.

Mr. CONYERS. Madam Chair, I am pleased now to yield 2 minutes to the gentleman from New York, JERRY NADLER, a senior member of the Judiciary Committee.

Mr. NADLER. I thank the gentleman for yielding.

Madam Chairperson, I rise in reluctant support of this bill, the Innovation Act.

The bill addresses the issue of patent trolls suing large companies, small businesses, and retailers over vague patents and using the cost of litigation as a weapon of extortion to secure settlement fees. The bill is real; the problem is real; and addressing it is important.

The bill proposes to address the problem by providing end user defendants the ability to switch the suit to the manufacturer when confronted with patent trolls; it increases the transparency of patents and of the companies that own them; and it asks the judicial conference to review and amend certain discovery rules. These are reasonable changes to the current law which will help reduce the burden of patent trolls on our economy.

Unfortunately, the bill does not deal with the problem of the diversion of user fees from the Patent Office. Unfortunately also, the authors of the bill have grafted the Republican agenda of so-called "tort reform" onto the bill. These provisions may severely limit the ability of real inventors and of those with meritorious patent claims to obtain justice in our courts. They are deeply troubling and ought to be addressed by amendments to the bill now and improvements to the bill when it is taken up by the Senate.

The most troubling provision is the "loser pays" provision. I oppose "loser pays" provisions in general and in this context as well. The reason is one of fairness. I don't believe that only large corporations or the wealthiest members of society should have access to justice. Already, the threat of the enormous cost of litigation may act to prevent individuals from pursuing even the most meritorious civil liability claims. For most individuals and small businesses, the financial risk of having to pay the other side's costs and legal fees as well is one too great to bear no matter how valid the claim.

It is simply not fair to unnecessarily punish individuals with serious and meritorious claims for seeking justice. Keep in mind, a person or a business can have a legally legitimate dispute regarding fact and law and, yet, can still ultimately lose the case. They shouldn't be unduly punished for trying to protect their interests in court. Furthermore, we don't want to create a situation in which experienced corporate defendants with enormous resources and expert legal talent can bully injured plaintiffs into unfair settlements due to the risks associated with losing a potentially successful case.

The CHAIR. The time of the gentleman has expired.

Mr. CONYERS. I yield the gentleman an additional half minute.

Mr. NADLER. Thank you.

I have other concerns as well when it comes to some of the bill's modifications to the pleadings standards, but we must deal with the real problem of patent trolls exploiting the current legal system for illegitimate purposes. We must disrupt the business model of the patent troll. We must prevent the extortion of small businesses across America.

I will support the bill today, but I want to encourage our friends in the Senate to do a better job in balancing the competing interests. I urge them, in particular, to insist on their version of the bill and to not allow the House's "loser pays" provision into the final bill that we vote on in the conference report.

Mr. GOODLATTE. Madam Chairman, at this time, it is my pleasure to yield 2 minutes to the gentlewoman from Washington State (Ms. DELBENE), a distinguished member of the Judiciary Committee.

Ms. DELBENE. Thank you, Mr. Chair.

Madam Chairman, from the Judiciary Committee's examination of abusive patent litigation this year, it is clear that there is a need for legislative action. This issue has harmed companies large and small, from big tech companies to small retailers, restaurants and credit unions, and in recent years, even our public transit agencies have been targeted by these so-called "patent trolls."

In my home State of Washington, King County Metro was hit with a lawsuit in 2011 from ArrivalStar, a company that claimed infringement of a patent that was so broad that it could potentially cover any system that tracks a vehicle. With this lawsuit, King County's innovative bus tracking technology and a popular mobile application called "OneBusAway," which relies on Metro's data, was threatened. Even if there were a strong case to be made for challenging the patent's validity, fighting a suit like this can run into the millions of dollars, all at taxpayer expense. So King County had to settle with ArrivalStar, costing taxpayers \$80,000.

King County was not alone. At least 11 transit systems settled with ArrivalStar in response to lawsuits over bus tracking systems rather than undertake expensive and time-consuming litigation.

This kind of litigation abuse does a disservice to the U.S. patent system and to our innovation economy. In the case of ArrivalStar, it harmed taxpayers in King County and many other agencies across the country.

Because of the widespread impact of abusive litigation like this, there is broad support across industry and among public interest groups for measures that reduce the financial incentive for bad actors to bring predatory patent suits, measures such as: curbing the excessive costs of litigation and

discovery abuse, making patent cases more efficient, and requiring plaintiffs to be precise in their claims of infringement. The Innovation Act would do all of these things, and it does so by targeting abusive behaviors rather than singling out any particular type of patent holder or business model.

I am pleased to support this bill today, but I also believe we must continue to make improvements to the bill as it moves forward in the legislative process. I will also be supporting several amendments on the floor today, and I will continue to work with my colleagues in both Chambers to get legislation passed that strikes the right balance in protecting and strengthening our patent system.

Mr. CONYERS. Madam Chair, I am pleased to yield 1½ minutes to the gentleman from Vermont (Mr. WELCH).

Mr. WELCH. Madam Chair, patent trolls are not about protecting patents. They are about trolling for easy money at the expense of hardworking people. Patent trolling is a total and complete abuse of the patent system and is a total rip-off of hardworking people. Worst of all, it is a complete abuse of good people who are trying to do good things in their communities. Let me give you a couple of examples.

In Vermont, MyWebGrocer is a Web-based company—innovative—located in Winooski, Vermont, with over 180 employees. They have experienced six patent troll attacks. One of the trolls claimed to have a patent—and get this—on surfing the Web with a mobile device. This was a stickup.

Another completely outrageous example is of a Vermont nonprofit. It assists individuals with developmental disabilities. This nonprofit was targeted by a patent troll that was demanding payment for a supposed infringement on scanning technology. Can you imagine what it is like for a small nonprofit, doing good work, to get a letter that is essentially a stickup? That is what it is.

What these businesses and nonprofits then have to decide is: Do they pay the bounty or do they fight?

This legislation is definitely needed so that our nonprofits and our small businesses can get on with the good work they are doing without the threat of abusive patent trolling.

Mr. GOODLATTE. Madam Chairman, at this time, it is my pleasure to yield 1 minute to the gentleman from Pennsylvania (Mr. MARINO), the vice chairman of the Courts, Intellectual Property, and the Internet Subcommittee.

Mr. MARINO. Thank you, Mr. Chairman.

Madam Chairman, I rise in support of H.R. 3309, the Innovation Act.

Each day, all across the United States, small businesses and entrepreneurs are receiving abusive letters that insist the recipient has somehow violated a patent. He or she is left with the option of complying with the letter's demands, such as by sending a check for \$50,000—and all will be for-

gotten—or taking it to court, which could cost millions of dollars and put these businesses out of business. In 2011, patent trolls cost the American economy \$29 billion.

I want to skip the notes and go right to commonsense legislation. This is what it is:

A veteran from Afghanistan came in to see me. He saved his money that he had earned while protecting this country. He has got a little laptop that has communications with his printer, and a troll is suing him, saying he violated the patent. My computer at home talks to my printer, and my kids' computer at home talks to my printer, so we must be violating some patent of some sort.

This is abusive legislation. It is putting our small business entrepreneurs out of business. I urge my colleagues to support this.

Mr. CONYERS. Madam Chair, I reserve the balance of my time.

Mr. GOODLATTE. Madam Chairman, may I ask how much time is remaining on both sides?

The CHAIR. The gentleman from Virginia has 20 minutes remaining, and the gentleman from Michigan has 18 minutes remaining.

Mr. GOODLATTE. At this time, Madam Chairman, it is my pleasure to yield 2 minutes to the gentleman from California (Mr. CÁRDENAS).

Mr. CÁRDENAS. Madam Chair, I rise today in support of the bipartisan Innovation Act, which makes important reforms to the U.S. patent system in order to curb abusive litigation.

I have heard from businesses of all sizes and from all industries in my district about the added burden faced by too many companies at the hands of patent assertion entities, or patent trolls. Resources should be better spent on business expansion, on job creation, on the development of new tools or services, or on improved infrastructure instead of being used to pay settlements or even unnecessary licenses. The enactment of the Innovation Act would go a long way towards solving this problem.

We must support American innovation, job creation and economic growth. I urge my colleagues to vote "yes" on H.R. 3309, the Innovation Act. As a former small business owner myself, one of the things that can hinder job growth in any small business or in any community is unnecessary and frivolous lawsuits.

□ 0945

Mr. CONYERS. Madam Chairman, I reserve the balance of my time.

Mr. GOODLATTE. Madam Chairman, at this time, it is my pleasure to yield 1 minute to the gentleman from New York (Mr. JEFFRIES), a distinguished member of the Judiciary Committee.

Mr. JEFFRIES. I thank the chairman for his stewardship and the ranking member for his legitimate expressions of concern.

Madam Chairman, this bill is a work in progress, but it is a meaningful step

in the right direction as it relates to dealing with a patent troll problem that is adversely impacting small businesses, start-up companies, tech entrepreneurs, innovators, and inventors in New York City and all across the country.

In our judicial system, we must ensure that outcome is determined on the basis of the merits of a claim and not the high cost of litigation in the patent context. When the latter occurs, innovation is hurt.

We must also jealously guard the ability of legitimate patent-holders to vindicate their rights in court. With respect to that concern, there is still significant work to be done in the Senate, particularly as it relates to section 285. But notwithstanding that concern, this bill, the Innovation Act, represents a solid foundation upon which to address the patent troll dynamic, which almost everyone in this Chamber agrees is a significant problem.

For that reason, I urge my colleagues to vote "yes."

Mr. CONYERS. Madam Chairman, I am pleased to yield 3 minutes to the distinguished gentleman from California (Mr. ROHRBACHER).

Mr. ROHRBACHER. Madam Chairman, we have certainly heard a lot about trolls, haven't we? Maybe we should understand exactly how that word came to be used in this debate.

Top executives from one of the huge electronics mega-companies, these international corporations, were sitting around one day. One of them happened to tell me about the conversation they had, which is, How do we demonize the small inventor who is coming at us because we are infringing on his patents? How do we do that? We can't attack the small inventor because people know that is where the progress of the United States comes from, is our independent inventors. We can villainize the lawyers who represent those small inventors.

They went around the room, and this executive tells me about this conversation: Well, what should we call them? What is a sinister, evil sound that we can get away from the fact that we don't have our own arguments and our arguments against this don't stand up; that we are really attacking the little guy's ability to prevent us from stealing his patent? What word can we use that can get people so they won't see that? Let's call them "trolls."

Well, the guy who was talking to me, who was in the conversation, he was an executive from one of these multi-national corporations, he said, Well, I suggested patent pirates, but trolls sounded so much more sinister.

That is what we hear today. Every time you hear the word "troll," what you are hearing is a manipulation of this debate by some very special interest, powerful interest, who wants to steal from the independent inventor. Everything in this bill that we are talking about trolls actually impacts on America's independent inventors in a dramatic way.

This is the greatest attack, the biggest attack, on the independent inventor in the 25 years that I have been a Member of Congress. The fact is, these big multi-national corporations are infringers. Every one of the big corporations behind this bill that is trying to have us ram this through the Congress has been found guilty of multiple infringements against small inventors. So they are going to get us—oh, no. We are going to pass rules in the name of stopping the trolls, which are really going to undercut the small inventor in this country. This is a disaster. This is the anti-innovation bill. This is the let's kowtow to these multi-national electronic corporations like Google, that have poured lots of campaign donations into this issue on Capitol Hill in the last few years. No, let's watch out for the little guy.

What we have are the Philo Farnsworths or the Edisons, the people who actually came up with the changes that have made America secure, made us prosperous, made our people competitive with cheap labor overseas because we have got the technology. Let's make sure that we don't smash this generation's Edisons and Philo Farnsworths.

I oppose this bill.

Mr. GOODLATTE. Madam Chairman, I yield myself 30 seconds to affirm what we have said from the outset: this bill is designed for the little guy, both the innovator, the inventor, and the end-user small business that are getting subjected to these trolling attacks.

No innovator, no inventor, no one who brings a lawsuit to perfect their claim should fear this legislation unless their claim has no reasonable basis in law or fact. It is only then that they would be disadvantaged. In fact, most of the provisions in this bill are designed to lower the cost of litigation.

The big guys can pay all they need to for litigation. The little guys can't afford to. By lowering the cost of litigation, we are going to create greater opportunity, both for the innovators to pursue their good claims and for the little guys on the receiving end who get these outrageous demand letters on the other side who are having to pay outrageous costs or simply pay money.

At this time, Madam Chairman, I am pleased to yield 2 minutes to the gentleman from California (Mr. ISSA), a distinguished member of the Judiciary Committee.

Mr. ISSA. Madam Chairman, my colleague from California a few moments ago spoke eloquently on behalf of the small inventor, but he didn't speak for me, and I am a small inventor.

When I patented my first product, all I had were a couple of employees and an idea. I presented a product that I really wanted to make to a company that I thought would buy it, and then I raced down to protect my rights and succeeded. Ultimately, I was paid.

I know very well what you do if you assert patent infringement if you want to prevail. You look at the competi-

tor's product; you take some due diligence. All this legislation is trying to do, and do well, is to put some teeth into what my colleague from California disparaged: the trolls who will simply surf the Internet and send out litigation alleging patent infringement with products they have never looked at, understood, nor do they know if they fall under their patent.

I have received damages under the rule 11 sanction. I know what it takes to share a completely frivolous case. I have prosecuted my own patents against infringers. I know what you should do before you assert to somebody "patent infringement."

This bill does one thing very well. It puts a little bit of teeth finally back into what the trolls use as a tool: file a lawsuit and collect an amount of money because people don't want to spend it on litigation.

Just for once I would like us to understand this is not sponsored by the big guys. In fact, the little guy starting a company, who gets a letter or a suit from a troll, is the person that this will protect. I know this firsthand from more than three decades of being an inventor.

Mr. Chairman, I thank you for your leadership on this issue.

Mr. CONYERS. Madam Chairman, I am pleased to yield 3 minutes to the distinguished gentleman from Georgia (Mr. JOHNSON).

Mr. JOHNSON of Georgia. Madam Chairman, I think it is time this morning to reveal a little bit of truth.

We have had reports of trolls just running through the marketplace of America. Trolls—you know those, the ones that hang out under bridges and scare you when you were a child. A troll is just something that is, oh boy, it is to be avoided. So all patent plaintiffs bringing actions to protect their patents, we are now calling them trolls. That is not true; that is not accurate. In fact, it is very inaccurate.

Only 5 percent of the patent cases that are filed in the courts of this country could be considered done in bad faith. So you could call those plaintiffs, I suppose, patent trolls. But 5 percent of the litigation does not equate to "we are being overrun by patent trolls." That is just not correct.

There is a problem with abusive litigation. So how do you get at that? How do you—without closing the courthouse door on plaintiffs seeking to assert their rights to their patents, and those plaintiffs tend to be small entities, mom-and-pop inventors back in the garage or down in the basement, some 28-year-old ex-Harvard junior who dropped out and comes up with the next thing that explodes in the technology field—how do we protect those folks who are trying to honestly protect their patents?

I submit that H.R. 3309 goes way beyond what is necessary. It also has some constitutional implications. The Rules Enabling Act was passed by Congress back in 1934. That Rules Enabling

Act was a very wise and considered piece of legislation. It recognized the fact that Federal Courts would be better off, and the Federal body of law would be better off, if we leave it to the Federal Courts to determine their rules of procedure.

The CHAIR. The time of the gentleman has expired.

Mr. CONYERS. I yield an additional minute to the gentleman from Georgia.

Mr. JOHNSON of Georgia. So prior to 1934, there was something called the "conformity principle," which held that Federal Court procedures should be in accordance with the States wherein those Federal Courts sat; but that proved to be unworkable, so the rules enabling clause went into effect. Since then, we have left it to the Federal judiciary, through the Judicial Conference, to promulgate rules of procedure in both civil and criminal cases, and it has worked well.

Now we have section 6 of this "patent troll act" that imposes upon our judicial rules of procedure. These rules have not been recommended by the Judicial Conference. In fact, the Judicial Conference, led by Chief Justice Roberts, is opposed to this change. Therefore, I think on constitutional grounds this should be defeated.

Mr. GOODLATTE. Madam Chairman, at this time, it is my pleasure to yield 3 minutes to the gentleman from Nebraska (Mr. TERRY) for the purpose of engaging in a colloquy with the gentleman from Utah (Mr. CHAFFETZ) and myself.

Mr. TERRY. Madam Chairman, I rise for the purpose of entering into a colloquy with my friend from Utah joining with me.

Chairman GOODLATTE, I want to thank you for your attention to the very serious problem of patent assertion entities, otherwise known as "patent trolls" here today.

On November 14, the House Energy and Commerce Committee held a hearing entitled: "The Impact of Patent Assertion Entities on Innovation and the Economy." We heard from a variety of witnesses from industries including the food, hospitality, and tech, all of whom had been targeted by vague, unfair, and deceptive patent troll demand letters.

That hearing revealed significant economic harm to Main Street businesses in the economy caused by such patent troll demand letters. These entities engage in abusive practices that often target small businesses because they don't have the resources to fight back.

At the markup for the Innovation Act, Mr. CHAFFETZ offered an amendment that resulted in a sense of Congress in the bill before us today. That sentence says:

It is an abuse of the patent system and against public policy for a party to send out a purposely evasive demand letter to end-users alleging patent infringement.

□ 1000

As chairman of the House Energy and Commerce Committee, Subcommittee

on Commerce, Manufacturing, and Trade with jurisdiction over these type of consumer abuses, I join with your sentiments. We understand that time is of the essence.

I yield to the gentleman from Utah (Mr. CHAFFETZ) at this point.

Mr. CHAFFETZ. I thank Chairman TERRY for his good leadership and work on this, and certainly Chairman GOODLATTE for bringing this bill; and knowing that you, Mr. TERRY, are working on a bill that I am going to wholeheartedly support.

Madam Chairman, we have received support for this approach from many business groups, including the National Retail Federation, the National Restaurant Association, the App Developers Alliance, the Direct Marketing Association, the American Association of Advertising Agencies, the Association of National Advertisers, the Food Marketing Institute, the Mobile Marketing Association, the National Association of Convenience Stores, the National Grocers Association, the American Hotel and Lodging Association, just to name a few. These represent hundreds of thousands of businesses and millions of employees across the country.

It would be my hope that the House would expeditiously take up any demand letter legislation reported out of the House Energy and Commerce Committee under your leadership. I support it.

Mr. TERRY. To that end, the Energy and Commerce subcommittee intends to proceed through regular order, as soon as it is practicable, to examine both the problem of vague patent demand letters and potential solutions the Federal Trade Commission could implement. We took another step just recently in a hearing with our FTC commissioners this week on the patent trolls demand letter issues.

Mr. GOODLATTE. Madam Chairman, I thank the gentleman from Nebraska and the Energy and Commerce Committee for their good work on this issue. He has my commitment to work on this important issue, and we must continue to work to rein in the abuses of these demand letters.

I also look forward to working with Mr. CHAFFETZ and Chairman UPTON of the Energy and Commerce Committee, and I know that we can produce a good product to further address this issue within that committee's jurisdiction.

Mr. CONYERS. Madam Chair, I yield 30 seconds to the gentleman from California (Mr. ROHRABACHER).

Mr. ROHRABACHER. So we keep hearing that this is about trolls. And we just heard about a problem that is being described, and it is a big problem, where you have got people coming into a retailer and suggesting that they were going to sue them for using a piece of technology that the retailer is not really fully aware of. Okay, how is taking away the rights of every American inventor through judicial review of what the Patent Office has done to

accept or reject his patent, how does that affect the trolls? It affects the so-called trolls not at all. But I tell you what it does, it means that we have taken away a right of every inventor.

The CHAIR. The time of the gentleman has expired.

Mr. CONYERS. I yield an additional 30 seconds to the gentleman.

Mr. ROHRABACHER. What we are doing is taking away the right of every independent inventor, a right that he has had since 1836, to say that if a government official in the Patent Office is doing something illegal to deny him his patent, this small inventor has a right, has a right to go to the judges and get a court action on it. What does that have to do with trolls? That is in this bill.

We are taking away the rights of little guys, small inventors, in the name of getting the trolls, and we are making it impossible for small inventors to go after the big infringers, these multinational corporations which tell these guys, Screw off; you can't challenge us in the courts anyway.

Mr. CONYERS. Madam Chair, I reserve the balance of my time.

Mr. GOODLATTE. Madam Chair, I yield myself 30 seconds to respond.

The very provision the gentleman from California references, section 145, is used by these very patent trolls to bypass the process. That is why, working in conjunction with the America Invents Act that has already been passed and this legislation, we will have an effective tool for those legitimate inventors, and we will stop the trolls from getting out from under the bridge.

I yield 1 minute to the gentleman from Texas (Mr. POE), a distinguished member of the Judiciary Committee.

Mr. POE of Texas. I thank the chairman for yielding.

Not all lawsuits in the patent business are done by trolls, but some are, and these are obvious frivolous lawsuits on their face. The first time it appears in the system is when that small business owner gets that demand letter in the mail, and it is nothing more than legalized extortion where the letter basically says, You will settle for \$10,000 or we will sue you and it will cost you more money to defend yourself; settle. What small business owners do, they are faced with that, many of them settle or they go out of business.

That is what this legislation tries to prevent, the extortion racket in the patent infringement business, and it is done by some people that we call trolls. This legislation protects the small business owner. It gets the troll, the frivolous lawsuit folks out of the extortion racket early on in the system. That is why this piece of legislation is good for small business, and that is why it is good for the patent industry.

And that's just the way it is.

Mr. CONYERS. Madam Chair, I am pleased to yield 2½ minutes to the gentlelady from California (Ms. LOFGREN).

Ms. LOFGREN. Madam Chair, I thank Mr. CONYERS and Chairman

GOODLATTE. I am glad we are here today addressing these issues of abusive lawsuits in the patent system.

As has been mentioned by others, we do have a problem, it is widely agreed to, among patent assertion entities, sometimes called patent trolls. These lawsuits, these abusive lawsuits that are brought, can easily cost \$2 million to \$10 million apiece, and that is why, when a meritless lawsuit is threatened, it is easy to extort a smaller payment to make it go away, and that is what we are trying to deal with here.

This is a big issue for small businesses. Professor Colleen Chien of Santa Clara University, now with the White House, did a study and found that more than half of these suits were against companies with less than \$10 million in annual revenue.

And that is why this bill, it is not a perfect bill, but why this bill has such broad support. It is genuinely a bipartisan bill. I am a cosponsor of this bill, along with the Congresswoman ANNA ESHOO, MIKE HONDA, PETER DEFAZIO, JARED HUFFMAN, and many others. At a time when the country is saying, "Can't you just work together?" we have. Reasonable people can differ, which is why we have this debate here today. We have 40 members in the House Judiciary Committee. Only five members voted against reporting this bill out. That is remarkable.

The White House has just issued a very strong statement of administrative policy. They support this bill. So at a time when too often we are seen as the battling Bickersons, we have support across the aisle with the White House to do this.

What does the bill do? It deals with pleading requirements. Oftentimes, these patent assertion entities will allege infringing, but they don't, with any particularity, say what is being infringed.

It does a change in attorneys' fees that matches the existing rule in copyright. I oppose fee shifting in civil litigation generally, but the Congress has, on many occasions, narrowly cast fee shifting to deal with specific problems. This would join that. I would note that the shifts would not occur unless the party's position is unreasonably justified. The court is not to allow this shift if the party has a reasonable case in fact or law or, as my colleague, Mr. JEFFRIES, had added, a severe economic harm.

I would note that this is supported from start-ups to big companies.

STARTUP INVESTORS NATIONWIDE SUPPORT BROAD PATENT REFORM

DEAR CONGRESS: Each year, we invest hundreds of millions of dollars in software and information technology businesses and emerging mobile technologies. Together with other investors, we commit more than \$1 billion annually in angel and venture capital that ensures continuing growth of young, high-tech companies employing 1.4 million people. Collectively, we have invested in companies such as Netflix, Twitter, Facebook, Dropbox, Palantir, Kickstarter, and countless other technologies that power

American businesses everywhere. We are the fuel in America's startup economy engine.

We write to urge comprehensive legislation to address the troubling growth and success of the patent troll business model. Young, innovative companies are increasingly threatened and targeted by patent troll lawsuits. In fact, the majority of companies targeted by patent trolls have less than \$10 million in revenue. And while big companies paid the lion's share of the \$29 billion of direct costs resulting from patent troll activities in 2011, the costs borne by small companies are a proportionately larger share of their revenues.

As a result, Congress and the Administration are considering multiple reform proposals. None alone will fix the problem, but together they will make a substantial dent in what one famous troll recently called "a new industry."

Successful legislation should make it harder to be a patent troll, and easier for targeted businesses to protect and defend themselves. Legislation should:

Make it easier to efficiently review patents at the Patent Office, as an alternative to litigation. Increase transparency by requiring patent trolls to specify, in complaints and demand letters, which patent and what claims are infringed, and specifically how the offending product or technology infringes.

Limit the scope of expensive litigation discovery.

Require patent trolls to pay legal fees and other costs incurred by prevailing defendants.

Protect end users of technology [e.g., wi-fi, printers and scanners, and APIs] from being liable for infringements by technology providers.

Our Founders did not intend to incentivize patent trolling in the Constitution—nor did Congress intend the Patent Act to promote this industry. Comprehensive legislation to reduce abusive patent litigation will make the patent troll business model less attractive, and will protect software, mobile and information technology entrepreneurs. In turn, our digital economy will continue to grow and so will our national economy.

—
PROFESSORS' LETTER IN SUPPORT OF PATENT REFORM LEGISLATION

TO MEMBERS OF THE UNITED STATES CONGRESS: We, the undersigned, are 61 professors from 26 states and the District of Columbia who teach and write about intellectual property law and policy. We write to you today to express our support for ongoing efforts to pass patent reform legislation that, we believe, will improve our nation's patent system and accelerate the pace of innovation in our country.

As a group we hold a diversity of views on the ideal structure and scope of our nation's intellectual property laws. Despite our differences, we all share concern that an increasing number of patent owners are taking advantage of weaknesses in the system to exploit their rights in ways that on net deter, rather than encourage, the development of new technology.

Several trends, each unmistakable and well supported by empirical evidence, fuel our concern. First, the cost of defending against patent infringement allegations is high and rising. The American Intellectual Property Law Association estimates that the median cost of litigating a moderately-sized patent suit is now \$2.6 million, an amount that has increased over 70% since 2001. These and other surveys suggest that the expense of defending even a low-stakes patent suit will generally exceed \$600,000. Moreover, the bulk of these expenses are incurred during the discovery phase of litigation, before the party accused of infringement has an opportunity to test the merits of the claims made against it in front of a judge or jury.

The magnitude and front-loaded nature of patent litigation expenses creates an opportunity for abuse. Patentholders can file suit and quickly impose large discovery costs on their opponents regardless of the validity of their patent rights and the merits of their infringement allegations. Companies accused of infringement, thus, have a strong incentive to fold and settle patent suits early, even when they believe the claims against them are meritless.

Historically, this problem has largely been a self-correcting one. In suits between product-producing technology companies, the party accused of infringement can file a counterclaim and impose a roughly equal amount of discovery costs on the plaintiff. The costs, though high, are symmetrical and, as a result, tend to encourage technology companies to compete in the marketplace with their products and prices, rather than in the courtroom with their patents.

In recent years, however, a second trend—the rise of "patent assertion entities" (PAEs)—has disrupted this delicate balance, making the high cost of patent litigation even more problematic. PAEs are businesses that do not make or sell products, but rather specialize in enforcing patent rights. Because PAEs do not make or sell any products of their own, they cannot be countersued for infringement. As a result, PAEs can use the high cost of patent litigation to their advan-

tage. They can sue, threaten to impose large discovery costs that overwhelmingly fall on the accused infringer, and thereby extract settlements from their targets that primarily reflect a desire to avoid the cost of fighting, rather than the chance and consequences of actually losing the suit.

To be sure, PAEs can in theory play a beneficial role in the market for innovation and some undoubtedly do. However, empirical evidence strongly suggests that many PAEs have a net negative impact on innovation. Technology companies—which, themselves, are innovators—spend tens of billions of dollars every year litigating and settling lawsuits filed by PAEs, funds that these tech companies might otherwise spend on additional research and design. Surveys also reveal that a large percentage of these suits settle for less than the cost of fighting, and multiple empirical studies conclude that PAEs lose about nine out of every ten times when their claims are actually adjudicated on their merits before a judge or jury.

The impact of these suits is made more troubling by the fact that PAE activity appears to be on the rise. Empirical studies suggest that at least 40%, and perhaps as high as 59% or more, of all companies sued for patent infringement in recent years were sued by PAEs. PAE suits were relatively rare more than a decade ago, and they remain relatively rare today elsewhere in the world.

More worrisome than these bare statistics is the fact that PAEs are increasingly targeting not large tech firms, but rather small business well outside the tech sector. Studies suggest that the majority of companies targeted by PAEs in recent years earn less than \$10 million in annual revenue.

When PAEs target the numerous small companies downstream in the supply chain, rather than large technology manufacturers upstream, they benefit in two ways. First, for every product manufacturer, there may be dozens or hundreds of retailers who sell the product, and hundreds or thousands of customers who purchase and use the technology. Patent law allows patent owners to sue makers, sellers, or users. Suing sellers or users means more individual targets; some PAEs have sued hundreds of individual companies. And, more targets means more lawyers, more case filings, more discovery, and thus more litigation costs overall to induce a larger total settlement amount.

Second, compared to large manufacturers, small companies like retailers are less familiar with patent law, are less familiar with the accused technology, have smaller litigation budgets, and thus are more likely to settle instead of fight. In fact, many small businesses fear patent litigation to such an extent that they are willing to pay to settle vague infringement allegations made in lawyers' letters sent from unknown companies. Like spammers, some patent owners have indiscriminately sent thousands of demand letters to small businesses, with little or no intent of actually filing suit but instead with hopes that at least a few will pay to avoid the risk.

This egregious practice in particular, but also all abusive patent enforcement to some extent, thrives due to a lack of reliable information about patent rights. Brazen patent owners have been known to assert patents they actually do not own or, conversely, to go to great lengths to hide the fact that they actually do own patents being used in abusive ways. Some patent owners have also sought double recovery by accusing companies selling or using products made by manufacturers that already paid to license the asserted patent. Still others have threatened or initiated litigation without first disclosing any specific information about how, if at all, their targets arguably infringe the asserted patents.

In short, high litigation costs and a widespread lack of transparency in the patent system together make abusive patent enforcement a common occurrence both in and outside the technology sector. As a result, billions of dollars that might otherwise be used to hire and retain employees, to improve existing products, and to launch new products are, instead, diverted to socially wasteful litigation.

Accordingly, we believe that the U.S. patent system would benefit from at least the following six reforms, which together will help reduce the cost of patent litigation and expose abusive practices without degrading inventors' ability to protect genuine, valuable innovations:

1. To discourage weak claims of patent infringement brought at least in part for nuisance value, we recommend an increase in the frequency of attorneys' fee awards to accused patent infringers who choose to fight, rather than settle, and ultimately defeat the infringement allegations levelled against them.

2. To reduce the size and front-loaded nature of patent litigation costs, we recommend limitations on the scope of discovery in patent cases prior to the issuance of a claim construction order, particularly with respect to the discovery of electronic materials like software source code, emails, and other electronic communications.

3. To further protect innocent retailers and end-users that are particularly vulnerable to litigation cost hold-up, we recommend that courts begin to stay suits filed against parties that simply sell or use allegedly infringing technology until after the conclusion of parallel litigation between the patentee and the technology's manufacturer.

4. To facilitate the early adjudication of patent infringement suits, we recommend that patentees be required to plead their infringement allegations with greater specificity.

And finally, to increase transparency and confidence in the market for patent licensing, we recommend:

5. that patentees be required to disclose and keep up-to-date the identity of parties with an ownership stake or other direct financial interest in their patent rights, and

6. that Congress consider additional legislation designed to deter fraudulent, misleading, or otherwise abusive patent licensing demands made outside of court.

In closing, we also wish to stress that as scholars and researchers we have no direct financial stake in the outcome of legislative efforts to reform our patent laws. We do not write on behalf of any specific industry or trade association. Rather, we are motivated solely by our own convictions informed by years of study and research that the above proposals will on net advance the best interests of our country as a whole. We urge you to enact them.

Sincerely,

Professor John R. Allison, The University of Texas at Austin, McCombs School of Business; Professor Clark D. Urban, University of California Berkeley School of Law; Professor Samson Vermont, Charlotte School of Law (visiting).

Mr. GOODLATTE, Madam Chair, it is my pleasure to yield 2 minutes to the

gentleman from Ohio (Mr. CHABOT), a distinguished member of the Judiciary Committee.

Mr. CHABOT. Madam Chair, I want to recognize and appreciate the leadership of the gentleman from Virginia (Mr. GOODLATTE) for pushing this bill forward. It is very important for our country.

Our patent system is complex, and in our litigious society, it is unfortunate that some bad actors are using that complexity to take advantage of our small businesses. Young, innovative companies are increasingly threatened and targeted by patent troll lawsuits, and the majority of companies targeted by patent trolls have less than \$10 million in revenue. They target these small companies because the companies typically don't have the resources to fight back. So small businesses have a choice: Do they settle with a patent troll or do they go out of business and people lose jobs? That is the choice that small businesses and start-ups are forced to make—pay off a patent troll or shut their doors.

The Innovation Act levels the playing field for small businesses and start-ups. It brings transparency to the patent process and helps protect one of our founding constitutional principles: protect property and promote innovation.

These trolls do not create products. They do not create jobs. They create headaches, and at a significant cost to our economy. It was \$80 billion in 2011 alone—\$80 billion.

It is said that sunlight is the best disinfectant. This bill provides sunlight that effectively sanitizes the shadowy abuse of patent litigation. Madam Chair, the Innovation Act is a good first step in protecting our small businesses and entrepreneurs from this type of abuse. I urge my colleagues to support the bill.

Mr. CONYERS. Madam Chair, I am pleased now to yield 3 minutes the gentlelady from Texas (Ms. SHEILA JACKSON LEE), an effective member of the Judiciary Committee.

Ms. JACKSON LEE. Madam Chair, I thank the gentleman from Michigan for his leadership, and I likewise thank the chairman for his leadership.

The discourse in debate on the floor of the House is not evidencing the unity, the unanimity that members of the House Judiciary Committee and, I venture to say, of this body have with respect to innovation and competition and the idea of protecting our small inventors. And so I would offer myself and many others as a champion for this concept that we are greatest when we are protecting and coddling and growing the inventive mind of America and our small inventors.

The Innovation Act has a wonderful name, and I congratulate Chairman GOODLATTE for his interest and commitment to this process. We have always worked in a collaborative and bipartisan manner on the Judiciary Committee as it relates to intellectual property and competition.

Today, however, our disagreement, if you will, is not on the underlying concept but on a very crucial process that is not in keeping with the mind-set of the Founding Fathers. I imagine that patent law got intimately engaged in the constitutional process because of a young man by the name of Benjamin Franklin, an inventor. He foresaw a great America and the need to be able to encourage those in garages and maybe by candlelight looking to change the landscape of the lives of those who live in that country and now have lived and do live in the greatest Nation in the world.

And so the question is, on H.R. 3309, for all of our friends that are making their decisions, whether or not this is a bill before its time and whether or not this question that we have before us, this bill, truly stops the trolls, as this advertisement that was not placed by me but put in the newspaper to suggest that the trolls may not be the ugly beast, but it may be the way this bill, H.R. 3309, is written.

Because, in fact, the small guy does pay. In fact, the small inventor is not protected. In fact, the pleadings are difficult. In fact, the early days of Madame C.J. Walker, who invented hair lotion for black women; or Frederick McKinley Jones, who invented the automatic refrigeration system for long-haul trucks; or Lewis Latimer, who invented less expensive and more efficient, long-lasting light bulbs; or maybe even the early days of giant companies that are now known to live in places like Silicon Valley, from Yahoo to Google, that started in the earliest moments of their beginning, small, maybe in a Harvard dorm room, or someone else's dorm room, I think the question becomes: Are these individuals protected?

□ 1015

According to the research that we have done, small investors are not protected.

I would just say, Madam Chair, that I would ask for more time; and if we want to do some work, let's pass H.R. 15, comprehensive immigration reform, because that is ready to pass.

Mr. GOODLATTE. Madam Chairman, it is now my very sincere pleasure to yield 3 minutes to the gentleman from Oregon (Mr. DEFAZIO), the lead Democratic cosponsor of this legislation who came to me with his ideas at the beginning of this Congress and has worked with me throughout this Congress on this legislation.

Mr. DEFAZIO. Madam Chairwoman, I thank the chairman for his tremendous efforts on this. I believe this is an improvement over the SHIELD Act, which JASON CHAFFETZ and I authored a couple of years ago.

Here is the thing: we have got a nationwide protection racket going on here. It is a little more sophisticated than the gang that says, Hey, we are going to smash the windows of your store unless you pay us 50 bucks a week.

What you have here are hugely sophisticated, well-funded patent assertion entities across America; and they did file 62 percent of the patent litigation, not 5 percent, as we heard earlier asserted by one of my colleagues. The payoff here is that if you pay us \$50,000, we won't drag you through endless court proceedings that will cost you \$1 million or more. All they have to do is assert something very vague, such as we own this patent and you are infringing on it. That is it. That is all they have to assert.

It is up to the small business to figure out what that infringement is, which means they have to hire attorneys, they have to go through discovery, which is an incredibly lengthy and expensive process. I found out about this in my district while visiting a small software firm with less than 100 people that was about to launch a new product, and the owner told me it is going to be delayed because I had to hire new employees to launch this product, but I have got a shadow over the business right now. I said, What is that? The owner said he had been sued over a patent troll. They are claiming that this very simple, common thing that is part of their software is their patent and they must pay them \$200,000 to make them go away. He said, I can't do an expansion and \$200,000.

His company can't be named because these patent trolls are so aggressive. When NPR ran a story about this—and one company was featured with an egregious story of one of these patent trolls, one of these blackmailers. They went public, and then they immediately got a pile of new assertions on them by patent trolls. The patent trolls have lots of attorneys, lots of money. It is a very lucrative extortion racket to go out and do this.

Some companies will fight. EMC out of Massachusetts fought. The claims were totally specious, but they fought. This is what it takes. They had to go to this one district in Texas where all these cases are heard. They had to go to one hotel and rent it for their team. The electricity wasn't adequate. They didn't have broadband. They had to install all that so they could be there and defend themselves because no one goes there to defend themselves against these patent trolls. It is too expensive. They just pay the bribes.

They went there, and it cost them over \$2 million. The jury was out less than 10 minutes because it was a totally specious claim. Most things don't go that far because most people have to pay because they can't afford the disruption or the litigation; or other times after they are halfway through paying for the litigation, the patent assertion entities drop their false claims.

Some people are saying we are closing the courthouse door, we are barring litigation here. In fact, the standard is no reasonable basis in law and fact. Universities and innovators don't bring those kinds of suits. Patent trolls do.

Stop the patent trolls.

Mr. CONYERS. Madam Chair, I reserve the balance of my time.

Mr. GOODLATTE. Madam Chair, may I inquire as to how much time is remaining on each side.

The CHAIR. The gentleman from Virginia has 5½ minutes remaining, and the gentleman from Michigan has 4½ minutes remaining.

Mr. GOODLATTE. Madam Chair, it is now my pleasure to yield 1½ minutes to the gentleman from Colorado (Mr. POLIS).

Mr. POLIS. Madam Chairwoman, I thank the gentleman from Virginia.

When we look at the cost, not just of litigation, but of companies having to consult with lawyers at times because of completely frivolous letters that they get that are vague with regard to what the abuses are, the damage is not only to the company that receives the message; the damage is to all consumers. The extra price is simply passed along to all of us who use goods and services in a digital economy. This bill makes an important step forward for bringing our patent process into the 21st century, taking into account digital innovation.

There is a long way to go. When our patent system was first put together for mechanical innovation, for which it still works, people didn't even know what software or biological innovation was. We have come a long way. I think we have learned a lot over that time. One thing we have learned is that we need to fine-tune how software and digital innovation interact with our intellectual property protections.

This bill takes an important step in this direction. While it doesn't wholly fix our patent system, it will undeniably deter abusive patent suits that are brought by patent entities and trolls that raise prices for consumers, destroy jobs, are particularly onerous on start-up businesses and entrepreneurs, and have essentially a tax across our entire economy on innovation and job growth.

I strongly encourage my colleagues to support this bill, and I appreciate the good work of Representative GOODLATTE and Representative LOFGREN in bringing this bill to us on the floor today.

Mr. CONYERS. Madam Chairwoman, we are ready to close on this side, and I reserve the balance of my time.

Mr. GOODLATTE. Madam Chairwoman, it is my pleasure to yield 1 additional minute to the gentleman from Utah (Mr. CHAFFETZ).

Mr. CHAFFETZ. Madam Chairwoman, I thank Chairman GOODLATTE, and I thank Members on both sides of the aisle for working on this. In the 112th Congress, I worked closely with Congressman DEFAZIO on the SHIELD Act, but a much better bill is before us today.

I want people to understand the gravity of the problem and who is also being attacked. I find this fascinating. Fifty-five percent of troll suits involve companies with annual revenues of \$10

million or less. Yes, the Microsofts and the Oracles and the really big companies out there are going to be in constant flux and in points of litigation, but it is really these small companies that are getting bombarded.

In fact, if you look since 2005, there are literally four times as many troll suits going through the patent system right now than there were in 2005. They are being extorted. This helps solve it. This is why I am so enthusiastic in supporting this bill.

I appreciate the bipartisan support on this. It does solve a very real problem. The majority of the problem is for companies with annual revenues of less than \$10 million.

Mr. CONYERS. Madam Chairwoman, I continue to reserve the balance of my time.

Mr. GOODLATTE. Madam Chairwoman, I am pleased to yield an additional 30 seconds to the gentleman from Pennsylvania (Mr. MARINO), the vice chair of the Intellectual Property Subcommittee.

Mr. MARINO. Madam Chairwoman, I have been involved in working on patent reform since I was elected and took office here in 2011. This is not new. We have been working on this legislation if not for several months, at least several weeks where it has been up on the Internet for people to see and for our colleagues to read. I am tired of hearing here in Congress we need more time and more time to do something. If businesses operated the way Congress did, they would be out of business.

Finally, this is a quintessential example of us getting off our duff and doing something in a reasonable amount of time that is going to help small business owners. As we stand here and speak, more and more are being put out of business because of trolls.

Mr. CONYERS. Madam Chairwoman, how much time remains?

The CHAIR. The gentleman from Michigan has 4½ minutes remaining.

Mr. CONYERS. Madam Chairwoman, I am pleased now to yield such time as he may consume to the gentleman from North Carolina (Mr. WATT), a senior member of the committee who has worked on this assiduously for a number of years.

Mr. WATT. Madam Chairwoman, I thank the gentleman for yielding.

I am pained to be here today in opposition to this bill. I stood shoulder to shoulder with the chair of our full committee 2 years ago in patent reform after working almost 6 years to find consensus on a patent bill that moved our Nation forward.

We are here this time a maximum of 6 months into the process, and we haven't done our due diligence because we have heard all morning people coming to the floor and saying this is a work in progress. I thought the place we did works in progress was in our committee system.

Here we are on the floor with a bill that everybody is bragging about it

being a work in progress. The result of that is that the work will be done on this bill by the United States Senate. They will write this bill. We won't write it because we didn't take the time to do what we should have done in the Judiciary Committee to refine this bill.

I stood shoulder to shoulder with the former director of the Patent and Trademark Office 2 years ago, David Kappos, and this is what he says in an op-ed piece today:

Our news is peppered these days with reports of "patent trolls," dark, ugly creatures shaking down innocent companies based on absurd claims of patent infringement. Congress should quickly pass legislation to curtail this abusive behavior. However, some are using the need to address the patent troll issue as cover to unnecessarily weaken our Nation's patent laws. If passed in this current form, the focus of legislative discussions would undermine U.S. innovation and job creation.

That is what the former director of the Patent and Trademark Office says because we haven't done what we should have done.

We set out to solve a problem dealing with patent trolls, and there is an argument about whether that is 5 percent, 20 percent. The GAO says it is a maximum of 20 percent, regardless of where these statistics are coming from. We are imposing a burden on 100 percent of the people in the patent litigation system to deal with a problem that at most is 20 percent of the litigation in our system. Everybody is going to pay the price of this bill if it goes forward in its current form. That is the problem I have with this. We have a problem.

Patent trolls are a problem, but you can't define what a patent troll is; and in order to deal with patent trolls, we are imposing a burden on the other people in the litigation system who are not patent trolls. That is unfair. We are imposing a burden on small innovators because they will fear that they will lose a lawsuit and end up paying exorbitant costs of the people who they litigated against, even though their claim was a legitimate claim; and they will spend extra money to litigate about whether they should have to pay the cost. Millions of dollars will be spent litigating about whether the fees should be shifted or not, and that is not the way we have done this in our American system.

The problem is we haven't done anything in this bill—and you have heard it discussed in the debate up to this point—about the real problem here, which is people who are writing demands on little people out in the stream of commerce. That is before they ever get to litigation. This bill says nothing about demand letters.

□ 1030

We are going to concede that, we say, to the Commerce Committee.

Well, what is this bill going to do? It is going to encourage a burden on everybody in the litigation system as we

try to deal with a 20 percent problem or a 5 percent problem, at most.

Mr. GOODLATTE. Madam Chairman, I yield myself the balance of my time.

In closing, Madam Chairman, I want to thank my fellow Judiciary colleagues and their staffs who have devoted much time, energy, and intellect to this project. We have worked together for the common goal of comprehensive patent litigation reform for the past decade.

While some of us still have differences over individual items, I want these Members to know that I appreciate their contributions to the project and I value their friendship.

I also want to particularly thank Representatives HOWARD COBLE, ZOE LOFGREN, and PETER DEFAZIO for serving as lead sponsors of this legislation and, most particularly, Congresswoman LOFGREN, who worked so hard with us in the markup process in the Judiciary Committee.

In the Senate, we have worked closely with Senators LEAHY, GRASSLEY, CORNYN, HATCH, LEE, and others. I want to thank them and their staffs for their contributions to this effort.

Furthermore, I would like to thank the White House and the U.S. Patent and Trademark Office for working collaboratively with us and providing important technical assistance.

I also want to thank both my full committee and IP subcommittee staff for all of their hard work on this important legislation, and most particularly, Vishal Amin, counsel to the subcommittee.

This bill is something I consider central to U.S. competitiveness, job creation, and our Nation's future economic security. The Innovation Act is the product of much negotiation and compromise. This bill builds on our efforts over the past decade. It can be said that this bill is the product of years of work. We have worked with Members of both parties in both the Senate and the House, with stakeholders from all areas of our economy, and with the administration and the courts.

To ensure an open, deliberative, and thoughtful process, we held several hearings and issued two public discussion drafts in May and September of this year, which led to the formal introduction of the Innovation Act in October.

The Innovation Act takes meaningful steps to address the abusive practices that have damaged our patent system and resulted in significant economic harm to our Nation. This bill will help grow America's innovation economy.

Madam Chairman, I urge my colleagues to support H.R. 3309, and I yield back the balance of my time.

[Inventors listed on nearly 200 patents call on Congress to pass legislation to fix the patent troll problem, Nov. 19, 2013]

PATENT HOLDERS URGE COMPREHENSIVE
PATENT REFORM

SAN FRANCISCO.—Fifty inventors, technologists and entrepreneurs joined Engine

Advocacy and the Electronic Frontier Foundation (EFF) today in requesting that Congress immediately pass meaningful patent reform legislation to curb the growing patent troll problem.

The signatories are collectively listed as inventors on nearly 200 patents, many of which cover software inventions. They expressed support for patent reform. Congress is currently pursuing several approaches that have the potential to curb the chilling effect on innovation posed by trolls and improve patent quality.

"Broad, vague patents covering software-type inventions—some of which we ourselves are listed as inventors on—are a malfunctioning component of America's inventive machinery," the inventors write.

"This is particularly the case when those patents end up in the hands of non-practicing patent trolls." The inventors believe that "software patents are doing more harm than good," and they urge Congress to pass legislation that would curb patent troll abuses, which pose an immediate threat to innovation and the promise of technology.

"It's time to force these trolls to take responsibility for the damage they cause with their dangerous claims," said inventor Derek Parham, who helped organize the letter. "We need legislation that will put a stop to the patent troll business model once and for all."

In addition to Derek, many prominent engineers and entrepreneurs signed the letter, including Twitter cofounder Evan Williams; Facebook co-founder Dustin Moskovitz; former Principal Engineer at Qualcomm Ranganathan Krishnan; and Quantcast's cofounder Paul Sutter.

"The time for meaningful reform is now," said Julie Samuels, EFF Senior Staff Attorney and the Mark Cuban Chair to Eliminate Stupid Patents. "We hope Congress will hear these engineers and inventors and so many others and pass legislation that ends the patent troll problem once and for all."

For the full open letter: <https://www.eff.org/document/inventors/letters/support/patentreform>

Eva Arevuo; Engine.

[Nov. 18, 2013]

We, the undersigned, are a group of inventors, technologists and entrepreneurs. Many of us have founded technology businesses; we have invented many of the protocols, systems and devices that make the Internet work, and we are collectively listed as the inventors on over 150 patents.

We write to you today about the U.S. patent system. That system is broken. Based on our experiences building and deploying new digital technologies, we believe that software patents are doing more harm than good. Perhaps it is time to reexamine the idea, dating from the 1980s, that government-issued monopolies on algorithms, protocols and data structures are the best way to promote the advancement of computer science.

But that will be a complex task, and one we don't expect to happen quickly. Unfortunately, aspects of the problem have become so acute they must be addressed immediately.

Broad, vague patents covering software-type inventions—some of which we ourselves are listed as inventors on—are a malfunctioning component of America's inventive machinery. This is particularly the case when those patents end up in the hands of non-practicing patent trolls.

These non-practicing entities do not make or sell anything. Their exploitation of pat-

ents as a tool for extortion is undermining America's technological progress; patent trolls are collecting taxes on innovation by extracting billions of dollars in dubious licensing fees, and wasting the time and management resources of creative businesses. Many of us would have achieved much less in our careers if the trolling problem had been as dire in past decades as it is now.

Some legislative proposals under current consideration would fix the trolling problem. These include: requiring that patent lawsuits actually explain which patents are infringed by which aspects of a defendant's technology, and how; making clear who really owns the patent at issue; allowing courts to shift fees to winning parties, making it rational for those threatened with an egregious patent suit to actually fight against the threat rather than paying what amounts to protection money; ensuring that those who purchase common, off-the-shelf technologies are shielded if they are sued for using them; and increasing opportunities for streamlined patent review at the patent office.

While subduing the trolling threat, these proposed changes will not fix the software patent problem completely. Congress should consider ways to stop these patents from interfering with open standards and open source software; from being claimed on problems, rather than solutions; and from being drafted so obscurely that they teach us nothing and cannot be searched. Congress needs to examine the very question of whether their net impact is positive.

But for now, we urge you to implement simple and urgently necessary reforms. We believe in the promise of technology and the power of creation to increase access to information, to create jobs, and to make the world a better place. Please do not let patent trolls continue to frustrate that purpose.

The undersigned:

Ranganathan Krishnan—30 patents; Former Principal Engineer at Qualcomm; led the software team building the aircraft modems that now power GoGo in-flight Wi-Fi; Data center architect for Zoho Corporation; Startup founder.

Paul Sutter—26 patents, 22 applications; Co-founder of Quantcast.

Dr. Neil Hunt—14 patents; Chief Product Officer at Netflix.

Justin Rosenstein—13 patents, 23 applications; Founder of Asana; Former Engineering Lead at Facebook.

Dustin Moskovitz—2 patents; Co-Founder of Facebook and Asana.

Ev Williams—Entrepreneur, CEO of the Obvious Corporation, co-founder of Odeo, Blogger, Twitter, and Medium.

David S.H. Rosenthal—24 patents; Founder of the LOCKSS program, aimed at long-term preservation of web published materials.

Frederick Baker—15 patents, 52 RFCs; Former chair of IETF [the standards body of Internet tech]; member to FCC TAC, BITAG and other bodies that advise the U.S. government on technology.

John H. Howard—10 patents; Researcher at MIT, University of Texas, IBM, Carnegie Mellon, MERL, and Distinguished Engineer at Sun Microsystems.

Jon Callas—7 patents, 4 RFCs; Cryptographer, technologist, entrepreneur; Co-founder of PGP Corporation, Silent Circle and others.

Igor Kofman—6 patents, 7 applications; Co-founder of Hackpad Inc., a company that develops next generation online collaboration tools; Former Engineer at YouTube/Google and Microsoft.

Barbara Simons—5 patents; Fellow and Former President at Association for Computing Machinery.

Joshua Bloch—4 patents, 4 applications; Former Chief Java Architect at Google and

Distinguished Engineer at Sun Microsystems; Led the design and implementation of numerous Java platform features.

Rick Adams—3 patents; Founder of UUNET Technologies, the first commercial Internet provider.

Brandon Ballinger—2 patents, 10 applications; Co-founder of Sift Science, a company that helps fight fraud through machine-learning; Former software engineer at Google.

Andrew Conway—1 patent, 2 applications; Founder & CEO of Silicon Genetics, a bioinformatics company (now part of Agilent); First to control a helicopter entirely by GPS (and thus win 1995 AUVS contest).

Derek Parham—1 patent, 2 applications; Creator of Google Apps for Businesses; Entrepreneur, investor, and advisor.

James Gettys—1 patent, 1 application, 2 RFCs; Editor of the HTTP/1.1 specification that underlies the World Wide Web; Co-author of the X Window System.

Harry Hochheiser—1 patent, 1 application; Professor of Biomedical Informatics at UPitt.

Ian Lance Taylor—1 patent, 1 application; Senior Staff Software Engineer at Google, Co-founder of Zembu Labs, and long time open source contributor.

Vincent C. Jones, PhD, PE—1 patent; 40 years of designing and building computer networks; published author in the field of computer networking.

Jim Fruchterman—1 patent; CEO of Benetech, a nonprofit tech company; former rocket scientist and co-founder of Calera Recognition Systems and RAF Technology, Inc.

Todd Huffman—company holds 1 Patent; CEO of 3Scan, utilizes a novel serial sectioning technique, KESM (Knife Edge Scanning Microscope) to create 3D models of large volume tissue samples.

Anselm Levskaya—1 application; Founder of Cambrian Genomics, a company developing a new technology pipeline to produce fully synthetic DNA at a fraction of the cost of current approaches.

Lorrie Cranor—1 application; Professor of Computer Science, Engineering, and Public Policy at Carnegie Mellon; Director of CyLab Usable Privacy and Security Laboratory.

Mark Kohler—3 RFCs; Implemented the IPv6 tunneling protocols RFC 2893, RFC 2473, and RFC 3056 for HP-UX and other Unix operating systems.

John Vittal—3 RFCs; Creator of the first integrated email program (MSG) and the initial "killer application" on the ARPAnet/Internet; Developed email standards still in use today.

Dan McDonald—3 RFCs; IPsec and IPv6 pioneer, former project lead for Solaris/OpenSolaris IPsec, Current Illumos RTI advocate, and Principal Software Engineer for Nexenta Systems; Co-author of RFCs 1751, 2367, 5879.

Russell Nelson—3 RFCs; Ran the Clarkson (later Crynwr) Packet Driver Collection.

John Gilmore—1 RFC; Programmer, entrepreneur (Sun Microsystems, Cygnus Solutions); Free software author, maintainer, and co-creator (GOB, GNU Tar, Binutils, GNU Radio, Gnash, OpenBTS); protocol designer (RFC 951, BOOTP, which you use whenever you connect to Ethernet or WiFi); Angel investor, philanthropist.

Stephen Wolff—Builder of NSFNET as a successor to ARPANET and for its transition to carrying commercial traffic, enabling the Internet as we know it today; Internet Hall of Fame Inductee—2013.

Prode Hernes—VP of TV Product Management and former VP of Product Development at Opera Software; Contributor to ISO/

CCITT and IETF standards within email directories and security; Board member of the HbbTV Association; Currently active in the specifications for the TV industry.

Dan Lang—VP, Intellectual Property at Cisco Systems.

Jaun Tallin—Founding Engineer of Skype; Refused to sign patents while at Skype.

Megan Klimen—Co-founder of 3Scan.

Matthew Goodman—Co-founder of 3Scan.

Kodi Daniel—Co-founder of 3Scan.

Mikki Barry—Co-founder of InterCon Systems Corporation, the first commercial Internet applications company on the Mac platform; Intellectual Property and IT Attorney.

Jim DeLeskie—Founder and CM, Heimdall Networks, previously Chief Architect Tata Communications/Teleglobe; Sr. Engineer internetMCI and contributor to IEEE and IETF working groups.

Brandon Ross—Designer and builder of operating service provider networks such as MindSpring, NetRail, Internap and Comast; Member of the North American Network Operators Group (NANOG), the Internet Engineering Task Force (IETF); Founder of Network Utility Force.

Benjamin C. Pierce—Professor of Computer and Information Science at University of Pennsylvania; Fellow of the ACM; Lead developer of Unison, a widely used open-source file synchronization tool; Author.

David Snigler—Led several successful projects as part of the Emerging Technologies group at the University of Massachusetts; Responsible for the design of systems used for research and administration throughout the UMass system.

Dylan Morris—Co-founder and VP of Strategy of Integrated Plasmonics, a technology startup in San Francisco operating at the intersection of semiconductors, biotechnology, and digital health.

Robb Walters—Founder, CEO, President, Board Director, Integrated Plasmonics.

Andrew Binstock—Editor in Chief of Dr. Dobbs; founded iText Software Corp.; previously in charge of Global Technology Forecasts at PricewaterhouseCoopers; programmer.

Mary Shaw—Educator and researcher in software engineering; ACM SIGSOFT Outstanding Research Award for work in software architecture; Fellow of the Institute for Electrical and Electronic Engineers, the Association for Computing Machinery, and the American Association for the Advancement of Science.

Ernest E. [Lee] Keet—President of Vanguard Atlantic Ltd., Former Chair, Intellectual Property Section, Software Industry Association, ADAPSO; Board member and lead investor in high tech startups.

The above have collectively contributed to the invention of the following technologies:

Patents:

4460974 Electronic computer with access to keyboard status information (Jones).

4531185 Centralized synchronization of clocks (Simons).

4584643 Decentralized synchronization of clocks (Simons).

4603380 DASD cache block staging (Howard).

4706081 Method and apparatus for bridging local area networks (Baker).

4809265 Method and apparatus for interfacing to a local area network (Baker).

4916605 Fast write operations (Howard).

5073933 X window security system (Rosenthal).

5127098 Method and apparatus for the context switching of devices (Rosenthal).

5187786 Method for apparatus for implementing a class hierarchy of objects in a hierarchical file system (Rosenthal).

5432824 Credit/rate-based system for controlling traffic in a digital communication network (Howard).

5442708 Computer network encryption/decryption device (Adams).

5444782 Computer network encryption/decryption device (Adams).

5470223 Microprocessor controlled fuel and ignition control for a fuel burning device (Fruchterman).

5600834 Method and apparatus for reconciling different versions of a file (Howard).

5619658 Method and apparatus for trapping unimplemented operations in input/output devices (Rosenthal).

Mr. HONDA. Mr. Chairman, I rise today in support of H.R. 3309, The Innovation Act, which will help to curtail the damage done by patent trolls to the American economy and consumers.

In recent years, patent trolls have had a significant negative impact on America's economy, with organizations from all walks of life being attacked and facing costly licensing fees, settlements, and even court battles. The direct impact of this has been estimated at roughly \$29 billion per year.

It is important to realize that the impact of patent trolls is falling not just on big, wealthy companies, but on America's consumers. In one notable case, a patent troll has threatened nonprofit charities in Vermont and a community choir in Nebraska, asking for \$1,000 per employee simply because the organizations use scanners. And another has demanded licensing fees from more than 8,000 businesses, including coffee houses and hotels, and ultimately sued hundreds of them—all because they provide wifi to their customers.

The impact of this on the consumer is significant. The expense associated with facing a patent troll leaves small businesses with a low profit margin already with the choice of either halting use of this service to its customers, or offsetting the cost by charging for use. When these small businesses are able to go to court, the trolls lose the cases over 85 percent of the time. But in our current system, most of them can't afford to do so.

What's more, the long-term impact is even more damaging for consumers. The cost of

this type of litigation has risen to more than \$29 billion per year, with each suit costing an estimated average of \$5–10 million. These are funds that companies can't use to create jobs or innovate. By diverting resources to fighting trolls, Silicon Valley companies have less to spend on investment in new products, expansion to new areas, and improvement of services.

The Federal Trade Commission, which is charged with protecting consumers and policing unfair and deceptive acts, recently began an investigation of patent trolls. An investigation is a good step in the right direction, but legislation like H.R. 3309 is needed to truly combat patent trolls.

As a cosponsor of the bipartisan Innovation Act, I know this bill will take important steps to curb the abusive patent litigation we see today, in which trolls send vague demand letters about overbroad patents, don't clearly identify themselves, and deliberately run up discovery costs to pressure defendants to settle.

The bill will change the rules for patent lawsuits by requiring plaintiffs to identify who is really behind the suit, what patent is being asserted, and what the infringement claim is. This will allow the targets of patent suits to know who is accusing them of infringement and what exactly they are being accused of doing.

H.R. 3309 will also require judges to shift litigation costs and fees to a non-prevailing party in cases where the party's position was not reasonably justified, unless it would cause severe economic harm to the named inventor. This will make it easier for defendants to fight unjustified patent suits and deter illegitimate claims, while protecting legitimate inventors and preserving courts' discretion to not shift costs.

The bill will also require the Judicial Conference of the United States to make rules that would shift discovery costs, while leaving the details of the rulemaking are up the Judicial Conference. The rule should require parties to pay for their own discovery requests beyond the core documents needed to advance the suit, which aims to rein in broad discovery requests in patent suits that are unnecessary, unfair, and costly, and are often designed simply to intimidate the other party into a settlement. The bill would allow the courts to maintain discretion to modify the rules for good cause.

Another aspect of the bill will allow manufacturers and suppliers to intervene and stay lawsuits against customers and end users of a product that allegedly infringe patents, if both the manufacturer and customer agree. This will protect the coffee shop or hotel, which is accused of infringing a wifi patent because it uses a particular wireless router, by allowing the maker of the allegedly infringing product to step in and take responsibility for the case.

It is important to note that this bill does not diminish or devalue patent rights in the United States. It does not attempt to eliminate valid patent litigation; rather, it is aimed at abusive behaviors in the patent litigation system and seeks to put them to a stop. Its provisions for higher pleading standards and greater transparency will save the court's time and resources by making parties do their due diligence and provide information up front, before an infringement suit is filed. Greater transparency and information are a good thing, and will make the system stronger.

H.R. 3309 had broad bipartisan support in the Judiciary Committee, where it passed by a vote of 33–5, and it deserves our support. I look forward to working with my colleagues on both sides of the aisle in the House and the Senate to send a bill to the President that will bring an end to these abusive practices that are stifling American businesses and innovation.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today in support of H.R. 3309, the Innovation Act. I would like to applaud my colleagues for bringing this important issue to the floor today.

Throughout my tenure in Congress, I have long supported the principles for reforming patent litigation to prevent troll litigation. As Ranking Member of the House Committee on Science, Space and Technology I have long supported policy in order to prioritize investments that will advance our knowledge, create new industries and jobs, and give our children the grounding in science and technology they will need to succeed in a competitive world economy. During this time of economic need, I support H.R. 3309 which is integral to curbing frivolous and costly patent litigation that currently hinders our ability to innovate, create jobs and economic growth.

Many companies, from both the technology and non-technology sectors, have been the target of numerous, merit-less lawsuits from patent trolls. Since 2005, the number of defendants sued by patent trolls has quadrupled, activity that is estimated to have cost the U.S. economy \$80 billion in 2011. And, what's even more startling is that in 2012 patent trolls sued more non-tech companies than tech companies. I am supportive of the Innovation Act of 2013 which takes a multi-faceted approach to end this abuse.

While I recognize there may be no single solution that addresses all complexities surrounding our nation's patent process, H.R. 3309 is a good faith bi-partisan first step towards addressing patent trolling. I am pleased that the Administration is also supportive of H.R. 3309. Moving forward, I would like to work with all sides on this issue to curb patent trolling. I would like to think that all of us in Congress agree that we must work to address the problem of patent trolls.

Ms. JACKSON LEE. Mr. Chairman, I rise to talk about innovation in America—the great job creator that I feel is being put in jeopardy by H.R. 3309, the Innovation Act.

H.R. 3309 is a bill before its time as the America Invents Act was signed into law barely two years ago. Many of the major provisions of this landmark legislation which many on the Judiciary Committee and in this body voted for have not even been put into practice.

It is well documented that our innovation ecosystem—founded on patents—drives economic growth and job creation in the United States. From the hustle and bustle of downtown Houston, Silicon Valley, Chicago, New York, and even here in Washington, D.C., Americans want to keep our cherished system as strong as possible. For the future of our economy, we cannot risk jeopardizing it.

And while the AIA was unquestionably pro-innovator legislation, its post-grant challenge provisions also unquestionably shifted the balance of rights toward implementers and away from patent holders. The only remaining question, brought on by the adolescence of the AIA, is—just how much has that balance shifted?

“Loser pays”, also commonly referred to as the British Rule, mandates that the losing side in a civil dispute pay the legal costs of the other side. Loser pays laws ensure that only the wealthiest members of society or large corporations can afford to undertake a civil action and also unnecessarily punishes individuals with serious and meritorious claims for seeking access to justice.

Loser pays policies fail to recognize that a person or a business can have a legally legitimate dispute regarding fact and law, and yet still ultimately lose the case. Loser pays policy sets a dangerous precedent and may prevent individuals from pursuing even the most meritorious civil liability claims.

For most individuals and small businesses, the financial risk of having to pay the other side's costs and legal fees is one too great to bear, no matter how valid the claim. It creates a situation where experienced corporate defendants with enormous resources and expert legal talent can bully injured plaintiffs into unfair settlements due to the risks associated with losing a potentially successful case.

If “loser pays” is implemented it could be a roadblock for people pursuing whistleblower, consumer mortgage, employment discrimination and other civil rights cases. The only losers under a “loser pays” system is the small business or individual plaintiff, or the innovator who is discouraged from pursuing her rights due to the chilling effect brought on by the onerous language in H.R. 3309.

This bill tries to discourage patent litigation abuse by patent assertion entities, better known as “patent trolls”. Trolls use patents of questionable quality to pressure their targets into settlement for an amount that is lower than the legal fees to defend against a lawsuit. Trolls typically have no interest in moving the patented technology into the marketplace. Generally, the troll's target has had a product on the market for some time and the troll's patent covers the targeted product through exceedingly broad claims, often through a broad interpretation of vague claim terms.

In one common tactic, a troll will approach a target with a proposal to license patents with a one-time fee of \$50k to \$200k, where it might cost the target \$15k to \$50k for an initial legal opinion on validity and infringement, and it might cost the target \$20k to \$50k per month in legal fees in litigation proceedings (mainly driven by discovery and motions practice). So the one-time fee may sound appealing as a simple payoff to avoid legal fees that are comparable and inevitable.

In theory, one can discourage the patent troll business model by increasing patent quality, promoting stricter requirements on claim construction, and lowering the cost of litigation (by limiting discovery). Each of these purported remedies has a cost that may be worse than the alleged benefit. That is why it is critical that we carefully consider any and all legislation and policy which looks to improve.

At the outset of considering further changes to our patent system, we must recognize that the time constant of the patent system—the period between new patent application and court decision on a patent infringement claim—is very long. Therefore, the impact of Congress' very recent major change to our patent system has barely begun to be felt.

Moreover, in long time constant systems such as our patent system, over-correction, especially that which leaves scant time for due deliberation, is a major danger.

By the time we realize that an over-correction is apparent, it will be years after the system is badly damaged. If there were ever a case where caution is called for, this is it, and I say that because my constituents in Texas, and particularly in Houston, wanted change in the patent system, and surely every one of them was not satisfied with the Leahy-Smith Act but some changes we can live with.

I would hope that due caution would yield to a deliberative process that takes the time to reach out and listen to all stakeholders, including those who will not be the fastest ones off the mark, and I am sure that some of them exist in Texas. Many small innovators—today's Priceline.coms, Yahoo's, Google's, Facebook's, Eli Lilly's, Twitter's, akin to yesteryears Edisons—have not had time to make their views heard.

Others having various levels of dependence on strong IP rights are just now beginning to consider the prospect of further changes to our patent system. We need to allow these important stakeholders their time to participate.

I look forward to hearing from these witnesses but would hope that this Committee proceeds on any changes with due caution—because the ink on the America Invents Act is barely dry—and another patent bill is before us with changes that are fraught with difficulty for many in our innovation economy.

My amendment modifies the Manager's Amendment to ensure that small businesses that motivated this provision are protected and by expanding the amendment so that businesses with under \$25 million are included—my hope is that it will garner the support.

Under my amendment, the customer stay provision a covered customer is one who is accused of infringing a patent or patents on a covered product or process, and is a small business that has revenue of \$25 million or less.

I have modified this amendment from that offered in the Judiciary Committee markup in order to accommodate more businesses who feel they might benefit from the narrowed language while still maintaining the intended consequence of allowing for stays in proceedings. The expanded language might allow some businesses who are past the “mom and pop” growth phase but if this will provide medium-sized businesses from going bankrupt, or losing valuable revenues because of litigation, it is a useful expansion.

A number of the provisions in this bill may be well-intentioned, but they have undesirable consequences for the patent system as a whole.

They have the potential to undermine the enforceability of all patent rights, no matter how valuable the patent, and thus potentially incentivize infringement.

That is why I offered three amendments in the Judiciary Committee and three in the Rules Committee yesterday. My first amendment struck section 9(a) of H.R. 3309 which strikes Section 9(a) of the bill which repeals Section 145 of 35 U.S.C. Under this repeal, applicants would be gratuitously denied the fundamental right of de-novo judicial review of adverse patentability determinations by the Patent and Trademark Office when it refuses to consider certain evidence. This is a limiting provision and unfairly prevents a full adjudication of the rights of litigants. The importance of this 170-year-old protective provision is in its restraining effect on PTO's potential abuse of

discretion for all patent applicants—not just for those who would seek judicial review. I attempted to modify my amendment based on a meeting I had with Chief Judge Rader of the Federal Circuit, which hears all patent claims, and is the lodestar for patent litigation.

My second amendment which was made in order by the Rules Committee yesterday evening, modifies the Manager's Amendment to ensure that small businesses that motivated this provision are protected and by expanding the amendment so that businesses with under \$25 million are included—my hope is that it will garner the support. Under my amendment, a covered customer is one who is accused of infringing a patent or patents on a covered product or process, and is a small business that has revenue of \$25 million or less. I have modified this amendment from that offered in the Judiciary Committee markup in order to accommodate more businesses who feel they might benefit from the narrowed language while still maintaining the intended consequence of allowing for stays in proceedings. The expanded language might allow some businesses who are past the “mom and pop” growth phase but if this will provide medium-sized businesses from going bankrupt, or losing valuable revenues because of litigation, it is a useful expansion.

Also made-in-order by the Rules Committee is my third amendment which simply requires the PTO Director, in consultation with other relevant agencies, and interested parties, to conduct a study to examine the economic impact of the litigation reforms contained in the bill (sections 3, 4, and 5 of this Act) on the ability of individuals and small businesses owned by women, veterans, and minorities to assert, secure, and vindicate the constitutionally guaranteed exclusive right to inventions and discoveries by such individuals and small business. This amendment supplements and improves the bill, which requires PTO to conduct 4 studies and submit reports to Congress. The required studies are:

1. Study On Secondary Market Oversight For Patent Transactions To Promote Transparency And Ethical Business Practices.
2. Study On Patents Owned By The United States Government
3. Study On Patent Quality And Access To The Best Information During Examination
4. Study On Patent Small Claims Court

My last amendment was done with Ranking Member CONYERS of the Judiciary Committee, strikes Section 3(b) which requires that courts reward attorney's fees and expenses to the prevailing party. I remain convinced that this provision is onerous and prepares us for a slippery slope that leads to more and more restraints against plaintiffs in litigation.

This will have a chilling effect and deter litigation in areas which might lead to more harm being exacted on the public—particularly in areas such as civil rights, environmental protection, and business regulations.

Mr. Chairman, in the name of fairness to the little person—the Davids in the land of the Goliaths, commercially-speaking—and I ask my colleagues to slow the train down and exercise prudence and due caution before we vote on H.R. 3309.

We must act thoughtfully and with great caution as we pursue reforms to a system which took sixty years to change—and then in batting of a Congressional eyelash—look to significantly modify once again. I was here

during the long road that led to the path that became Smith-Leahy, or the American Invents Act. That it took so long is somewhat perplexing; but even more interesting is that the bill had a Republican House and a Democratic Senate. Yet we came together in a collaborative fashion and made lemonade out of sixty years of lemons while in the midst of some of the most jarring partisanship we have seen in this great body. Yet H.R. 3309 has been cobbled together in a couple of months—this is no small, technical correction bill Mr. Chairman—it is comprehensive yet potentially pernicious legislation which should be slowed, if not stopped.

Ms. KAPTUR. Mr. Chairman, today I rise in opposition to H.R. 3309. This bill hurts innovation by small business and many American inventors with less than 5 patents. My amendment to exempt them from the strictures and inherent costs of this bill was not made in order. Issues with this bill:

Proponents of the bill claim that H.R. 3309 attempts to fix the issue with patent trolls. However, there is no evidence that patent trolls make up more than a very small percent of the civil suits brought in court—probably less than 5 percent.

The bill does however make it more difficult and for the vast majority of inventors and much more expensive for the “little guy” to sue for patent infringement. Small inventors simply cannot afford to defend themselves. Truly, this is un-American.

Fee shifting and “loser pay” rules ensure that only wealthy inventors and large business are able to protect their patents. Many small inventors and entrepreneurs simply cannot afford the cost of civil litigation and the potential cost of paying the legal fees for losing a lawsuit. Why throttle the most important source of innovation in our Nation?

Six national higher education associations including the Association of American Universities, Association of American Medical Universities, Association of Public and Land Grant Universities, and the American Bar Association and the Association of University Technology Managers oppose this bill. More than half of the U.S. economic growth since World War II is the result of technological innovation resulting from federally funded research. Universities are worried that this bill will hurt their ability to turn their federally funded research into the commercial sector because of how difficult it will be to defend their patents in court with the new fee shifting rules.

The American Association of Justice is “deeply concerned with the continued inclusion of burdensome mandatory fee shifting, unfair limitations on discovery and impediments on the discretion of the courts.”

The bill should be sent back to committee. It should review in particular the development and improvement of rules of procedure and case management to address the concerns over abusive litigation practices so we can address the real issues with patent law without making unnecessary changes that hurt small business and individual inventors.

Mr. BLUMENAUER. Mr. Chairman, I support H.R. 3309, the Innovation Act, as a step in the right direction to address the growing and serious issue of abusive patent lawsuits or “patent trolling.”

We need to be careful that certain provisions of this legislation do not have unintended consequences for legitimate patent

holders, especially institutions of higher education. It is encouraging that the administration's support includes a commitment to help refine this legislation. I look forward to participating in that effort.

The Acting CHAIR (Mr. MASSIE). All time for general debate has expired.

Pursuant to the rule, the bill shall be considered for amendment under the 5-minute rule.

In lieu of the amendment in the nature of a substitute recommended by the Committee on the Judiciary, printed in the bill, it shall be in order to consider as an original bill for the purpose of amendment under the 5-minute rule an amendment in the nature of a substitute consisting of the text of Rules Committee Print 113-28. That amendment in the nature of a substitute shall be considered as read.

The text of the amendment in the nature of a substitute is as follows:

H.R. 3309

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) *SHORT TITLE.*—This Act may be cited as the “Innovation Act”.

(b) *TABLE OF CONTENTS.*—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

Sec. 2. Definitions.

Sec. 3. Patent infringement actions.

Sec. 4. Transparency of patent ownership.

Sec. 5. Customer-suit exception.

Sec. 6. Procedures and practices to implement and recommendations to the Judicial Conference.

Sec. 7. Small business education, outreach, and information access.

Sec. 8. Studies on patent transactions, quality, and examination.

Sec. 9. Improvements and technical corrections to the Leahy-Smith America Invents Act.

Sec. 10. Effective date.

SEC. 2. DEFINITIONS.

In this Act:

(1) *DIRECTOR.*—The term “Director” means the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

(2) *OFFICE.*—The term “Office” means the United States Patent and Trademark Office.

SEC. 3. PATENT INFRINGEMENT ACTIONS.

(a) *PLEADING REQUIREMENTS.*—

(1) *AMENDMENT.*—Chapter 29 of title 35, United States Code, is amended by inserting after section 281 the following:

“§281A. Pleading requirements for patent infringement actions

“(a) *PLEADING REQUIREMENTS.*—Except as provided in subsection (b), in a civil action in which a party asserts a claim for relief arising under any Act of Congress relating to patents, a party alleging infringement shall include in the initial complaint, counterclaim, or cross-claim for patent infringement, unless the information is not reasonably accessible to such party, the following:

“(1) An identification of each patent allegedly infringed.

“(2) An identification of each claim of each patent identified under paragraph (1) that is allegedly infringed.

“(3) For each claim identified under paragraph (2), an identification of each accused process, machine, manufacture, or composition of matter (referred to in this section as an ‘accused instrumentality’) alleged to infringe the claim.

“(4) For each accused instrumentality identified under paragraph (3), an identification with particularity, if known, of—

“(A) the name or model number of each accused instrumentality; or

“(B) if there is no name or model number, a description of each accused instrumentality.

“(5) For each accused instrumentality identified under paragraph (3), a clear and concise statement of—

“(A) where each element of each claim identified under paragraph (2) is found within the accused instrumentality; and

“(B) with detailed specificity, how each limitation of each claim identified under paragraph (2) is met by the accused instrumentality.

“(6) For each claim of indirect infringement, a description of the acts of the alleged indirect infringer that contribute to or are inducing the direct infringement.

“(7) A description of the authority of the party alleging infringement to assert each patent identified under paragraph (1) and of the grounds for the court’s jurisdiction.

“(8) A clear and concise description of the principal business, if any, of the party alleging infringement.

“(9) A list of each complaint filed, of which the party alleging infringement has knowledge, that asserts or asserted any of the patents identified under paragraph (1).

“(10) For each patent identified under paragraph (1), whether a standard-setting body has specifically declared such patent to be essential, potentially essential, or having potential to become essential to that standard-setting body, and whether the United States Government or a foreign government has imposed specific licensing requirements with respect to such patent.

“(b) INFORMATION NOT READILY ACCESSIBLE.—If information required to be disclosed under subsection (a) is not readily accessible to a party, that information may instead be generally described, along with an explanation of why such undisclosed information was not readily accessible, and of any efforts made by such party to access such information.

“(c) CONFIDENTIAL INFORMATION.—A party required to disclose information described under subsection (a) may file, under seal, information believed to be confidential, with a motion setting forth good cause for such sealing. If such motion is denied by the court, the party may seek to file an amended complaint.

“(d) EXEMPTION.—A civil action that includes a claim for relief arising under section 271(e)(2) shall not be subject to the requirements of subsection (a).”

(2) CONFORMING AMENDMENT.—The table of sections for chapter 29 of title 35, United States Code, is amended by inserting after the item relating to section 281 the following new item:

“281A. Pleading requirements for patent infringement actions.”

(b) FEES AND OTHER EXPENSES.—

(1) AMENDMENT.—Section 285 of title 35, United States Code, is amended to read as follows:

“§285. Fees and other expenses

“(a) AWARD.—The court shall award, to a prevailing party, reasonable fees and other expenses incurred by that party in connection with a civil action in which any party asserts a claim for relief arising under any Act of Congress relating to patents, unless the court finds that the position and conduct of the nonprevailing party or parties were reasonably justified in law and fact or that special circumstances (such as severe economic hardship to a named inventor) make an award unjust.

“(b) CERTIFICATION AND RECOVERY.—Upon motion of any party to the action, the court shall require another party to the action to certify whether or not the other party will be able to pay an award of fees and other expenses if such an award is made under subsection (a). If a nonprevailing party is unable to pay an

award that is made against it under subsection (a), the court may make a party that has been joined under section 299(d) with respect to such party liable for the unsatisfied portion of the award.

“(c) COVENANT NOT TO SUE.—A party to a civil action that asserts a claim for relief arising under any Act of Congress relating to patents against another party, and that subsequently unilaterally extends to such other party a covenant not to sue for infringement with respect to the patent or patents at issue, shall be deemed to be a nonprevailing party (and the other party the prevailing party) for purposes of this section, unless the party asserting such claim would have been entitled, at the time that such covenant was extended, to voluntarily dismiss the action or claim without a court order under Rule 41 of the Federal Rules of Civil Procedure.”

(2) CONFORMING AMENDMENT AND AMENDMENT.—

(A) CONFORMING AMENDMENT.—The item relating to section 285 of the table of sections for chapter 29 of title 35, United States Code, is amended to read as follows:

“285. Fees and other expenses.”

(B) AMENDMENT.—Section 273 of title 35, United States Code, is amended by striking subsections (f) and (g).

(3) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on the date of the enactment of this Act and shall apply to any action for which a complaint is filed on or after the first day of the 6-month period ending on that effective date.

(c) JOINDER OF INTERESTED PARTIES.—Section 299 of title 35, United States Code, is amended by adding at the end the following new subsection:

“(d) JOINDER OF INTERESTED PARTIES.—

“(1) JOINDER.—In a civil action arising under any Act of Congress relating to patents in which fees and other expenses have been awarded under section 285 to a prevailing party defending against an allegation of infringement of a patent claim, and in which the nonprevailing party alleging infringement is unable to pay the award of fees and other expenses, the court shall grant a motion by the prevailing party to join an interested party if such prevailing party shows that the nonprevailing party has no substantial interest in the subject matter at issue other than asserting such patent claim in litigation.

“(2) LIMITATION ON JOINDER.—

“(A) DISCRETIONARY DENIAL OF MOTION.—The court may deny a motion to join an interested party under paragraph (1) if—

“(i) the interested party is not subject to service of process; or

“(ii) joinder under paragraph (1) would deprive the court of subject matter jurisdiction or make venue improper.

“(B) REQUIRED DENIAL OF MOTION.—The court shall deny a motion to join an interested party under paragraph (1) if—

“(i) the interested party did not timely receive the notice required by paragraph (3); or

“(ii) within 30 days after receiving the notice required by paragraph (3), the interested party renounces, in writing and with notice to the court and the parties to the action, any ownership, right, or direct financial interest (as described in paragraph (4)) that the interested party has in the patent or patents at issue.

“(3) NOTICE REQUIREMENT.—An interested party may not be joined under paragraph (1) unless it has been provided actual notice, within 30 days after the date on which it has been identified in the initial disclosure provided under section 290(b), that it has been so identified and that such party may therefore be an interested party subject to joinder under this subsection. Such notice shall be provided by the party who subsequently moves to join the interested party under paragraph (1), and shall include language that—

“(A) identifies the action, the parties thereto, the patent or patents at issue, and the pleading or other paper that identified the party under section 290(b); and

“(B) informs the party that it may be joined in the action and made subject to paying an award of fees and other expenses under section 285(b) if—

“(i) fees and other expenses are awarded in the action against the party alleging infringement of the patent or patents at issue under section 285(a);

“(ii) the party alleging infringement is unable to pay the award of fees and other expenses;

“(iii) the party receiving notice under this paragraph is determined by the court to be an interested party; and

“(iv) the party receiving notice under this paragraph has not, within 30 days after receiving such notice, renounced in writing, and with notice to the court and the parties to the action, any ownership, right, or direct financial interest (as described in paragraph (4)) that the interested party has in the patent or patents at issue.

“(4) INTERESTED PARTY DEFINED.—In this subsection, the term ‘interested party’ means a person, other than the party alleging infringement, that—

“(A) is an assignee of the patent or patents at issue;

“(B) has a right, including a contingent right, to enforce or sublicense the patent or patents at issue; or

“(C) has a direct financial interest in the patent or patents at issue, including the right to any part of an award of damages or any part of licensing revenue, except that a person with a direct financial interest does not include—

“(i) an attorney or law firm providing legal representation in the civil action described in paragraph (1) if the sole basis for the financial interest of the attorney or law firm in the patent or patents at issue arises from the attorney or law firm’s receipt of compensation reasonably related to the provision of the legal representation; or

“(ii) a person whose sole financial interest in the patent or patents at issue is ownership of an equity interest in the party alleging infringement, unless such person also has the right or ability to influence, direct, or control the civil action.”

(d) DISCOVERY LIMITS.—

(1) AMENDMENT.—Chapter 29 of title 35, United States Code, is amended by adding at the end the following new section:

“§299A. Discovery in patent infringement action

“(a) DISCOVERY IN PATENT INFRINGEMENT ACTION.—Except as provided in subsection (b), in a civil action arising under any Act of Congress relating to patents, if the court determines that a ruling relating to the construction of terms used in a patent claim asserted in the complaint is required, discovery shall be limited, until such ruling is issued, to information necessary for the court to determine the meaning of the terms used in the patent claim, including any interpretation of those terms used to support the claim of infringement.

“(b) DISCRETION TO EXPAND SCOPE OF DISCOVERY.—

“(1) TIMELY RESOLUTION OF ACTIONS.—If, under any provision of Federal law (including the amendments made by the Drug Price Competition and Patent Term Restoration Act of 1984 (Public Law 98–417)), resolution within a specified period of time of a civil action arising under any Act of Congress relating to patents will necessarily affect the rights of a party with respect to the patent, the court shall permit discovery, in addition to the discovery authorized under subsection (a), before the ruling described in subsection (a) is issued as necessary to ensure timely resolution of the action.

“(2) RESOLUTION OF MOTIONS.—When necessary to resolve a motion properly raised by a

party before a ruling relating to the construction of terms described in subsection (a) is issued, the court may allow limited discovery in addition to the discovery authorized under subsection (a) as necessary to resolve the motion.

“(3) SPECIAL CIRCUMSTANCES.—In special circumstances that would make denial of discovery a manifest injustice, the court may permit discovery, in addition to the discovery authorized under subsection (a), as necessary to prevent the manifest injustice.”.

(2) CONFORMING AMENDMENT.—The table of sections for chapter 29 of title 35, United States Code, is amended by adding at the end the following new item:

“299A. Discovery in patent infringement action.”.

(e) SENSE OF CONGRESS.—It is the sense of Congress that it is an abuse of the patent system and against public policy for a party to send out purposely evasive demand letters to end users alleging patent infringement. Demand letters sent should, at the least, include basic information about the patent in question, what is being infringed, and how it is being infringed. Any actions or litigation that stem from these types of purposely evasive demand letters to end users should be considered a fraudulent or deceptive practice and an exceptional circumstance when considering whether the litigation is abusive.

(f) DEMAND LETTERS.—Section 284 of title 35, United States Code, is amended—

(1) in the first undesignated paragraph, by striking “Upon finding” and inserting “(a) IN GENERAL.—Upon finding”;

(2) in the second undesignated paragraph, by striking “When the damages” and inserting “(b) ASSESSMENT BY COURT; TREBLE DAMAGES.—When the damages”;

(3) by inserting after subsection (b), as designated by paragraph (2) of this subsection, the following:

“(c) WILLFUL INFRINGEMENT.—A claimant seeking to establish willful infringement may not rely on evidence of pre-suit notification of infringement unless that notification identifies with particularity the asserted patent, identifies the product or process accused, and explains with particularity, to the extent possible following a reasonable investigation or inquiry, how the product or process infringes one or more claims of the patent.”; and

(4) in the last undesignated paragraph, by striking “The court” and inserting “(d) EXPERT TESTIMONY.—The court”.

(g) EFFECTIVE DATE.—Except as otherwise provided in this section, the amendments made by this section shall take effect on the date of the enactment of this Act and shall apply to any action for which a complaint is filed on or after that date.

SEC. 4. TRANSPARENCY OF PATENT OWNERSHIP.

(a) AMENDMENTS.—Section 290 of title 35, United States Code, is amended—

(1) in the heading, by striking “suits” and inserting “suits; disclosure of interests”;

(2) by striking “The clerks” and inserting “(a) NOTICE OF PATENT SUITS.—The clerks”; and

(3) by adding at the end the following new subsections:

“(b) INITIAL DISCLOSURE.—

“(1) IN GENERAL.—Except as provided in paragraph (2), upon the filing of an initial complaint for patent infringement, the plaintiff shall disclose to the Patent and Trademark Office, the court, and each adverse party the identity of each of the following:

“(A) The assignee of the patent or patents at issue.

“(B) Any entity with a right to sublicense or enforce the patent or patents at issue.

“(C) Any entity, other than the plaintiff, that the plaintiff knows to have a financial interest in the patent or patents at issue or the plaintiff.

“(D) The ultimate parent entity of any assignee identified under subparagraph (A) and any entity identified under subparagraph (B) or (C).

“(2) EXEMPTION.—The requirements of paragraph (1) shall not apply with respect to a civil action filed under subsection (a) that includes a cause of action described under section 271(e)(2).

“(c) DISCLOSURE COMPLIANCE.—

“(1) PUBLICLY TRADED.—For purposes of subsection (b)(1)(C), if the financial interest is held by a corporation traded on a public stock exchange, an identification of the name of the corporation and the public exchange listing shall satisfy the disclosure requirement.

“(2) NOT PUBLICLY TRADED.—For purposes of subsection (b)(1)(C), if the financial interest is not held by a publicly traded corporation, the disclosure shall satisfy the disclosure requirement if the information identifies—

“(A) in the case of a partnership, the name of the partnership and the name and correspondence address of each partner or other entity that holds more than a 5-percent share of that partnership;

“(B) in the case of a corporation, the name of the corporation, the location of incorporation, the address of the principal place of business, and the name of each officer of the corporation; and

“(C) for each individual, the name and correspondence address of that individual.

“(d) ONGOING DUTY OF DISCLOSURE TO THE PATENT AND TRADEMARK OFFICE.—

“(1) IN GENERAL.—A plaintiff required to submit information under subsection (b) or a subsequent owner of the patent or patents at issue shall, not later than 90 days after any change in the assignee of the patent or patents at issue or an entity described under subparagraph (B) or (D) of subsection (b)(1), submit to the Patent and Trademark Office the updated identification of such assignee or entity.

“(2) FAILURE TO COMPLY.—With respect to a patent for which the requirement of paragraph (1) has not been met—

“(A) the plaintiff or subsequent owner shall not be entitled to recover reasonable fees and other expenses under section 285 or increased damages under section 284 with respect to infringing activities taking place during any period of noncompliance with paragraph (1), unless the denial of such damages or fees would be manifestly unjust; and

“(B) the court shall award to a prevailing party accused of infringement reasonable fees and other expenses under section 285 that are incurred to discover the updated assignee or entity described under paragraph (1), unless such sanctions would be unjust.

“(e) DEFINITIONS.—In this section:

“(1) FINANCIAL INTEREST.—The term ‘financial interest’—

“(A) means—

“(i) with regard to a patent or patents, the right of a person to receive proceeds related to the assertion of the patent or patents, including a fixed or variable portion of such proceeds; and

“(ii) with regard to the plaintiff, direct or indirect ownership or control by a person of more than 5 percent of such plaintiff; and

“(B) does not mean—

“(i) ownership of shares or other interests in a mutual or common investment fund, unless the owner of such interest participates in the management of such fund; or

“(ii) the proprietary interest of a policyholder in a mutual insurance company or of a depositor in a mutual savings association, or a similar proprietary interest, unless the outcome of the proceeding could substantially affect the value of such interest.

“(2) PROCEEDING.—The term ‘proceeding’ means all stages of a civil action, including pre-trial and trial proceedings and appellate review.

“(3) ULTIMATE PARENT ENTITY.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), the term ‘ultimate parent entity’ has the meaning given such term in section 801.1(a)(3) of title 16, Code of Federal Regulations, or any successor regulation.

“(B) MODIFICATION OF DEFINITION.—The Director may modify the definition of ‘ultimate parent entity’ by regulation.”.

(b) TECHNICAL AND CONFORMING AMENDMENT.—The item relating to section 290 in the table of sections for chapter 29 of title 35, United States Code, is amended to read as follows:

“290. Notice of patent suits; disclosure of interests.”.

(c) REGULATIONS.—The Director may promulgate such regulations as are necessary to establish a registration fee in an amount sufficient to recover the estimated costs of administering subsections (b) through (e) of section 290 of title 35, United States Code, as added by subsection (a), to facilitate the collection and maintenance of the information required by such subsections, and to ensure the timely disclosure of such information to the public.

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect upon the expiration of the 6-month period beginning on the date of the enactment of this Act and shall apply to any action for which a complaint is filed on or after such effective date.

SEC. 5. CUSTOMER-SUIT EXCEPTION.

(a) AMENDMENT.—Section 296 of title 35, United States Code, is amended to read as follows:

“§296. Stay of action against customer

“(a) STAY OF ACTION AGAINST CUSTOMER.—Except as provided in subsection (d), in any civil action arising under any Act of Congress relating to patents, the court shall grant a motion to stay at least the portion of the action against a covered customer related to infringement of a patent involving a covered product or process if the following requirements are met:

“(1) The covered manufacturer and the covered customer consent in writing to the stay.

“(2) The covered manufacturer is a party to the action or to a separate action involving the same patent or patents related to the same covered product or process.

“(3) The covered customer agrees to be bound by any issues that the covered customer has in common with the covered manufacturer and are finally decided as to the covered manufacturer in an action described in paragraph (2).

“(4) The motion is filed after the first pleading in the action but not later than the later of—

“(A) the 120th day after the date on which the first pleading in the action is served that specifically identifies the covered product or process as a basis for the covered customer’s alleged infringement of the patent and that specifically identifies how the covered product or process is alleged to infringe the patent; or

“(B) the date on which the first scheduling order in the case is entered.

“(b) APPLICABILITY OF STAY.—A stay issued under subsection (a) shall apply only to the patents, products, systems, or components accused of infringement in the action.

“(c) LIFT OF STAY.—

“(1) IN GENERAL.—A stay entered under this section may be lifted upon grant of a motion based on a showing that—

“(A) the action involving the covered manufacturer will not resolve a major issue in suit against the covered customer; or

“(B) the stay unreasonably prejudices and would be manifestly unjust to the party seeking to lift the stay.

“(2) SEPARATE MANUFACTURER ACTION INVOLVED.—In the case of a stay entered based on the participation of the covered manufacturer in a separate action involving the same patent or patents related to the same covered product or process, a motion under this subsection may only be made if the court in such separate action determines the showing required under paragraph (1) has been met.

“(d) EXEMPTION.—This section shall not apply to an action that includes a cause of action described under section 271(e)(2).

“(e) CONSENT JUDGMENT.—If, following the grant of a motion to stay under this section, the covered manufacturer seeks or consents to entry

of a consent judgment relating to one or more of the common issues that gave rise to the stay, or declines to prosecute through appeal a final decision as to one or more of the common issues that gave rise to the stay, the court may, upon grant of a motion, determine that such consent judgment or unappealed final decision shall not be binding on the covered customer with respect to one or more of such common issues based on a showing that such an outcome would unreasonably prejudice and be manifestly unjust to the covered customer in light of the circumstances of the case.

“(f) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to limit the ability of a court to grant any stay, expand any stay granted under this section, or grant any motion to intervene, if otherwise permitted by law.

“(g) **DEFINITIONS.**—In this section:

“(1) **COVERED CUSTOMER.**—The term ‘covered customer’ means a party accused of infringing a patent or patents in dispute based on a covered product or process.

“(2) **COVERED MANUFACTURER.**—The term ‘covered manufacturer’ means a person that manufactures or supplies, or causes the manufacture or supply of, a covered product or process or a relevant part thereof.

“(3) **COVERED PRODUCT OR PROCESS.**—The term ‘covered product or process’ means a product, process, system, service, component, material, or apparatus, or relevant part thereof, that—

“(A) is alleged to infringe the patent or patents in dispute; or

“(B) implements a process alleged to infringe the patent or patents in dispute.”.

(b) **CONFORMING AMENDMENT.**—The table of sections for chapter 29 of title 35, United States Code, is amended by striking the item relating to section 296 and inserting the following:

“296. Stay of action against customer.”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall take effect on the date of the enactment of this Act and shall apply to any action for which a complaint is filed on or after the first day of the 30-day period that ends on that date.

SEC. 6. PROCEDURES AND PRACTICES TO IMPLEMENT RECOMMENDATIONS OF THE JUDICIAL CONFERENCE.

(a) **JUDICIAL CONFERENCE RULES AND PROCEDURES ON DISCOVERY BURDENS AND COSTS.**—

(1) **RULES AND PROCEDURES.**—The Judicial Conference of the United States, using existing resources, shall develop rules and procedures to implement the issues and proposals described in paragraph (2) to address the asymmetries in discovery burdens and costs in any civil action arising under any Act of Congress relating to patents. Such rules and procedures shall include how and when payment for document discovery in addition to the discovery of core documentary evidence is to occur, and what information must be presented to demonstrate financial capacity before permitting document discovery in addition to the discovery of core documentary evidence.

(2) **RULES AND PROCEDURES TO BE CONSIDERED.**—The rules and procedures required under paragraph (1) should address each of the following issues and proposals:

(A) **DISCOVERY OF CORE DOCUMENTARY EVIDENCE.**—Whether and to what extent each party to the action is entitled to receive core documentary evidence and shall be responsible for the costs of producing core documentary evidence within the possession or control of each such party, and whether and to what extent each party to the action may seek nondocumentary discovery as otherwise provided in the Federal Rules of Civil Procedure.

(B) **ELECTRONIC COMMUNICATION.**—If the parties determine that the discovery of electronic communication is appropriate, whether such discovery shall occur after the parties have exchanged initial disclosures and core documen-

tary evidence and whether such discovery shall be in accordance with the following:

(i) Any request for the production of electronic communication shall be specific and may not be a general request for the production of information relating to a product or business.

(ii) Each request shall identify the custodian of the information requested, the search terms, and a time frame. The parties shall cooperate to identify the proper custodians, the proper search terms, and the proper time frame.

(iii) A party may not submit production requests to more than 5 custodians, unless the parties jointly agree to modify the number of production requests without leave of the court.

(iv) The court may consider contested requests for up to 5 additional custodians per producing party, upon a showing of a distinct need based on the size, complexity, and issues of the case.

(v) If a party requests the discovery of electronic communication for additional custodians beyond the limits agreed to by the parties or granted by the court, the requesting party shall bear all reasonable costs caused by such additional discovery.

(C) **ADDITIONAL DOCUMENT DISCOVERY.**—Whether the following should apply:

(i) **IN GENERAL.**—Each party to the action may seek any additional document discovery otherwise permitted under the Federal Rules of Civil Procedure, if such party bears the reasonable costs, including reasonable attorney’s fees, of the additional document discovery.

(ii) **REQUIREMENTS FOR ADDITIONAL DOCUMENT DISCOVERY.**—Unless the parties mutually agree otherwise, no party may be permitted additional document discovery unless such a party posts a bond, or provides other security, in an amount sufficient to cover the expected costs of such additional document discovery, or makes a showing to the court that such party has the financial capacity to pay the costs of such additional document discovery.

(iii) **LIMITS ON ADDITIONAL DOCUMENT DISCOVERY.**—A court, upon motion, may determine that a request for additional document discovery is excessive, irrelevant, or otherwise abusive and may set limits on such additional document discovery.

(iv) **GOOD CAUSE MODIFICATION.**—A court, upon motion and for good cause shown, may modify the requirements of subparagraphs (A) and (B) and any definition under paragraph (3). Not later than 30 days after the pretrial conference under Rule 16 of the Federal Rules of Civil Procedure, the parties shall jointly submit any proposed modifications of the requirements of subparagraphs (A) and (B) and any definition under paragraph (3), unless the parties do not agree, in which case each party shall submit any proposed modification of such party and a summary of the disagreement over the modification.

(v) **COMPUTER CODE.**—A court, upon motion and for good cause shown, may determine that computer code should be included in the discovery of core documentary evidence. The discovery of computer code shall occur after the parties have exchanged initial disclosures and other core documentary evidence.

(D) **DISCOVERY SEQUENCE AND SCOPE.**—Whether the parties shall discuss and address in the written report filed pursuant to Rule 26(f) of the Federal Rules of Civil Procedure the views and proposals of each party on the following:

(i) When the discovery of core documentary evidence should be completed.

(ii) Whether additional document discovery will be sought under subparagraph (C).

(iii) Any issues about infringement, invalidity, or damages that, if resolved before the additional discovery described in subparagraph (C) commences, might simplify or streamline the case, including the identification of any terms or phrases relating to any patent claim at issue to be construed by the court and whether the early construction of any of those terms or phrases would be helpful.

(3) **DEFINITIONS.**—In this subsection:

(A) **CORE DOCUMENTARY EVIDENCE.**—The term “core documentary evidence”—

(i) includes—

(I) documents relating to the conception of, reduction to practice of, and application for, the patent or patents at issue;

(II) documents sufficient to show the technical operation of the product or process identified in the complaint as infringing the patent or patents at issue;

(III) documents relating to potentially invalidating prior art;

(IV) documents relating to any licensing of, or other transfer of rights to, the patent or patents at issue before the date on which the complaint is filed;

(V) documents sufficient to show profit attributable to the claimed invention of the patent or patents at issue;

(VI) documents relating to any knowledge by the accused infringer of the patent or patents at issue before the date on which the complaint is filed;

(VII) documents relating to any knowledge by the patentee of infringement of the patent or patents at issue before the date on which the complaint is filed;

(VIII) documents relating to any licensing term or pricing commitment to which the patent or patents may be subject through any agency or standard-setting body; and

(IX) documents sufficient to show any marking or other notice provided of the patent or patents at issue; and

(ii) does not include computer code, except as specified in paragraph (2)(C)(v).

(B) **ELECTRONIC COMMUNICATION.**—The term “electronic communication” means any form of electronic communication, including email, text message, or instant message.

(4) **IMPLEMENTATION BY THE DISTRICT COURTS.**—Not later than 6 months after the date on which the Judicial Conference has developed the rules and procedures required by this subsection, each United States district court and the United States Court of Federal Claims shall revise the applicable local rules for such court to implement such rules and procedures.

(5) **AUTHORITY FOR JUDICIAL CONFERENCE TO REVIEW AND MODIFY.**—

(A) **STUDY OF EFFICACY OF RULES AND PROCEDURES.**—The Judicial Conference shall study the efficacy of the rules and procedures required by this subsection during the 4-year period beginning on the date on which such rules and procedures by the district courts and the United States Court of Federal Claims are first implemented. The Judicial Conference may modify such rules and procedures following such 4-year period.

(B) **INITIAL MODIFICATIONS.**—Before the expiration of the 4-year period described in subparagraph (A), the Judicial Conference may modify the requirements under this subsection—

(i) by designating categories of “core documentary evidence”, in addition to those designated under paragraph (3)(A), as the Judicial Conference determines to be appropriate and necessary; and

(ii) as otherwise necessary to prevent a manifest injustice, the imposition of a requirement the costs of which clearly outweigh its benefits, or a result that could not reasonably have been intended by the Congress.

(b) **JUDICIAL CONFERENCE PATENT CASE MANAGEMENT.**—The Judicial Conference of the United States, using existing resources, shall develop case management procedures to be implemented by the United States district courts and the United States Court of Federal Claims for any civil action arising under any Act of Congress relating to patents, including initial disclosure and early case management conference practices that—

(1) will identify any potential dispositive issues of the case; and

(2) focus on early summary judgment motions when resolution of issues may lead to expedited disposition of the case.

(c) REVISION OF FORM FOR PATENT INFRINGEMENT.—

(1) ELIMINATION OF FORM.—The Supreme Court, using existing resources, shall eliminate Form 18 in the Appendix to the Federal Rules of Civil Procedure (relating to Complaint for Patent Infringement), effective on the date of the enactment of this Act.

(2) REVISED FORM.—The Supreme Court may prescribe a new form or forms setting out model allegations of patent infringement that, at a minimum, notify accused infringers of the asserted claim or claims, the products or services accused of infringement, and the plaintiff's theory for how each accused product or service meets each limitation of each asserted claim. The Judicial Conference should exercise the authority under section 2073 of title 28, United States Code, to make recommendations with respect to such new form or forms.

(d) PROTECTION OF INTELLECTUAL-PROPERTY LICENSES IN BANKRUPTCY.—

(1) IN GENERAL.—Section 1520(a) of title 11, United States Code, is amended—

(A) in paragraph (3), by striking “; and” and inserting a semicolon;

(B) in paragraph (4), by striking the period at the end and inserting “; and”; and

(C) by inserting at the end the following new paragraph:

“(5) section 365(n) applies to intellectual property of which the debtor is a licensor or which the debtor has transferred.”.

(2) TRADEMARKS.—

(A) IN GENERAL.—Section 101(35A) of title 11, United States Code, is amended—

(i) in subparagraph (E), by striking “or”;

(ii) in subparagraph (F), by striking “title 17;” and inserting “title 17; or”; and

(iii) by adding after subparagraph (F) the following new subparagraph:

“(G) a trademark, service mark, or trade name, as those terms are defined in section 45 of the Act of July 5, 1946 (commonly referred to as the ‘Trademark Act of 1946’) (15 U.S.C. 1127);”.

(B) CONFORMING AMENDMENT.—Section 365(n)(2) of title 11, United States Code, is amended—

(i) in subparagraph (B)—

(I) by striking “royalty payments” and inserting “royalty or other payments”; and

(II) by striking “and” after the semicolon;

(ii) in subparagraph (C), by striking the period at the end of clause (ii) and inserting “; and”; and

(iii) by adding at the end the following new subparagraph:

“(D) in the case of a trademark, service mark, or trade name, the trustee shall not be relieved of a contractual obligation to monitor and control the quality of a licensed product or service.”.

(3) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on the date of the enactment of this Act and shall apply to any case that is pending on, or for which a petition or complaint is filed on or after, such date of enactment.

SEC. 7. SMALL BUSINESS EDUCATION, OUTREACH, AND INFORMATION ACCESS.

(a) SMALL BUSINESS EDUCATION AND OUTREACH.—

(1) RESOURCES FOR SMALL BUSINESS.—Using existing resources, the Director shall develop educational resources for small businesses to address concerns arising from patent infringement.

(2) SMALL BUSINESS PATENT OMBUDSMAN.—The Patent Ombudsman Program established under section 28 of the Leahy-Smith America Invents Act (Public Law 112–29; 125 Stat. 339; 35 U.S.C. 2 note) shall coordinate with the existing small business outreach programs of the Office, and the relevant offices at the Small Business Administration and the Minority Business Development Agency, to provide education and awareness on abusive patent litigation practices. The Director may give special consideration to the unique needs of small firms owned

by disabled veterans, service-disabled veterans, women, and minority entrepreneurs in planning and executing the outreach efforts by the Office.

(b) IMPROVING INFORMATION TRANSPARENCY FOR SMALL BUSINESS AND THE UNITED STATES PATENT AND TRADEMARK OFFICE USERS.—

(1) WEB SITE.—Using existing resources, the Director shall create a user-friendly section on the official Web site of the Office to notify the public when a patent case is brought in Federal court and, with respect to each patent at issue in such case, the Director shall include—

(A) information disclosed under subsections (b) and (d) of section 290 of title 35, United States Code, as added by section 4(a) of this Act; and

(B) any other information the Director determines to be relevant.

(2) FORMAT.—In order to promote accessibility for the public, the information described in paragraph (1) shall be searchable by patent number, patent art area, and entity.

SEC. 8. STUDIES ON PATENT TRANSACTIONS, QUALITY, AND EXAMINATION.

(a) STUDY ON SECONDARY MARKET OVERSIGHT FOR PATENT TRANSACTIONS TO PROMOTE TRANSPARENCY AND ETHICAL BUSINESS PRACTICES.—

(1) STUDY REQUIRED.—The Director, in consultation with the Secretary of Commerce, the Secretary of the Treasury, the Chairman of the Securities and Exchange Commission, the heads of other relevant agencies, and interested parties, shall, using existing resources of the Office, conduct a study—

(A) to develop legislative recommendations to ensure greater transparency and accountability in patent transactions occurring on the secondary market;

(B) to examine the economic impact that the patent secondary market has on the United States;

(C) to examine licensing and other oversight requirements that may be placed on the patent secondary market, including on the participants in such markets, to ensure that the market is a level playing field and that brokers in the market have the requisite expertise and adhere to ethical business practices; and

(D) to examine the requirements placed on other markets.

(2) REPORT ON STUDY.—Not later than 1 year after the date of the enactment of this Act, the Director shall submit a report to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate on the findings and recommendations of the Director from the study required under paragraph (1).

(b) STUDY ON PATENTS OWNED BY THE UNITED STATES GOVERNMENT.—

(1) STUDY REQUIRED.—The Director, in consultation with the heads of relevant agencies and interested parties, shall, using existing resources of the Office, conduct a study on patents owned by the United States Government that—

(A) examines how such patents are licensed and sold, and any litigation relating to the licensing or sale of such patents;

(B) provides legislative and administrative recommendations on whether there should be restrictions placed on patents acquired from the United States Government;

(C) examines whether or not each relevant agency maintains adequate records on the patents owned by such agency, specifically whether such agency addresses licensing, assignment, and Government grants for technology related to such patents; and

(D) provides recommendations to ensure that each relevant agency has an adequate point of contact that is responsible for managing the patent portfolio of the agency.

(2) REPORT ON STUDY.—Not later than 6 months after the date of the enactment of this Act, the Director shall submit to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Sen-

ate a report on the findings and recommendations of the Director from the study required under paragraph (1).

(c) STUDY ON PATENT QUALITY AND ACCESS TO THE BEST INFORMATION DURING EXAMINATION.—

(1) GAO STUDY.—The Comptroller General of the United States shall conduct a study on patent examination at the Office and the technologies available to improve examination and improve patent quality.

(2) CONTENTS OF THE STUDY.—The study required under paragraph (1) shall include the following:

(A) An examination of patent quality at the Office.

(B) An examination of ways to improve patent quality, specifically through technology, that shall include examining best practices at foreign patent offices and the use of existing off-the-shelf technologies to improve patent examination.

(C) A description of how patents are classified.

(D) An examination of procedures in place to prevent double patenting through filing by applicants in multiple art areas.

(E) An examination of the types of off-the-shelf prior art databases and search software used by foreign patent offices and governments, particularly in Europe and Asia, and whether those databases and search tools could be used by the Office to improve patent examination.

(F) An examination of any other areas the Comptroller General determines to be relevant.

(3) REPORT ON STUDY.—Not later than 6 months after the date of the enactment of this Act, the Comptroller General shall submit to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate a report on the findings and recommendations from the study required by this subsection, including recommendations for any changes to laws and regulations that will improve the examination of patent applications and patent quality.

(d) STUDY ON PATENT SMALL CLAIMS COURT.—

(1) STUDY REQUIRED.—

(A) IN GENERAL.—The Director of the Administrative Office of the United States Courts, in consultation with the Director of the Federal Judicial Center and the United States Patent and Trademark Office, shall, using existing resources, conduct a study to examine the idea of developing a pilot program for patent small claims courts in certain judicial districts within the existing patent pilot program mandated by Public Law 111–349.

(B) CONTENTS OF STUDY.—The study under subparagraph (A) shall examine—

(i) the number of and qualifications for judges that could serve on such small claims courts;

(ii) how such small claims courts would be designated and the necessary criteria for such designation;

(iii) the costs that would be incurred for establishing, maintaining, and operating such a pilot program; and

(iv) the steps that would be taken to ensure that the courts in the pilot program are not misused for abusive patent litigation.

(2) REPORT ON STUDY.—Not later than 1 year after the date of the enactment of this Act, the Director of the Administrative Office of the United States Courts shall submit a report to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate on the findings and recommendations of the Director of the Administrative Office from the study required under paragraph (1).

(e) STUDY ON DEMAND LETTERS.—

(1) STUDY.—The Director, in consultation with the heads of other appropriate agencies, shall conduct a study of the prevalence of the practice of sending patent demand letters in bad faith and the extent to which that practice may, through fraudulent or deceptive practices, impose a negative impact on the marketplace.

(2) REPORT TO CONGRESS.—Not later than 1 year after the date of the enactment of this Act,

the Director shall submit a report to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate on the findings and recommendations of the Director from the study required under paragraph (1).

(3) PATENT DEMAND LETTER DEFINED.—In this subsection, the term “patent demand letter” means a written communication relating to a patent that states or indicates, directly or indirectly, that the recipient or anyone affiliated with the recipient is or may be infringing the patent.

(f) STUDY ON BUSINESS METHOD PATENT QUALITY.—

(1) GAO STUDY.—The Comptroller General of the United States shall conduct a study on the volume and nature of litigation involving business method patents.

(2) CONTENTS OF STUDY.—The study required under paragraph (1) shall focus on examining the quality of business method patents asserted in suits alleging patent infringement, and may include an examination of any other areas that the Comptroller General determines to be relevant.

(3) REPORT TO CONGRESS.—Not later than 6 months after the date of the enactment of this Act, the Comptroller General shall submit to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate a report on the findings and recommendations from the study required by this subsection, including recommendations for any changes to laws or regulations that the Comptroller General considers appropriate on the basis of the study.

SEC. 9. IMPROVEMENTS AND TECHNICAL CORRECTIONS TO THE LEAHY-SMITH AMERICA INVENTS ACT.

(a) REPEAL OF CIVIL ACTION TO OBTAIN A PATENT.—

(1) REPEAL.—Section 145 of title 35, United States Code, is repealed.

(2) CONFORMING AMENDMENTS.—

(A) FEDERAL CIRCUIT JURISDICTION.—Section 1295(a)(4) of title 28, United States Code, is amended—

(i) in subparagraph (A), by striking “except that an applicant or a party” and all that follows through the end of the subparagraph and inserting the following: “except that a party to a derivation proceeding may also have remedy by civil action under section 146 of title 35; an appeal under this subparagraph of a decision of the Board with respect to a derivation proceeding shall waive the right of such party to proceed under section 146 of title 35;” and

(ii) in subparagraph (C), by striking “section 145, 146, or” and inserting “section 146 or”.

(B) FEDERAL CIRCUIT APPEAL.—Section 141(a) of title 35, United States Code, is amended—

(i) by striking “may appeal the Board’s decision to” and inserting “may appeal the Board’s decision only to”; and

(ii) by striking the second sentence.

(C) ADJUSTMENT OF PATENT TERM.—Section 154(b)(1)(A)(iii) of title 35, United States Code, is amended by striking “section 141, 145, or 146” and inserting “section 141 or 146”.

(D) CLERICAL AMENDMENT.—The table of sections for chapter 13 of title 35, United States Code, is amended by repealing the item relating to section 145.

(3) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on the date of the enactment of this Act and apply to any proceeding in which a decision is made by the Patent Trial and Appeal Board on or after such date of enactment.

(b) POST-GRANT REVIEW AMENDMENT.—Section 325(e)(2) of title 35, United States Code is amended by striking “or reasonably could have raised”.

(c) USE OF DISTRICT-COURT CLAIM CONSTRUCTION IN POST-GRANT AND INTER PARTES REVIEWS.—

(1) INTER PARTES REVIEW.—Section 316(a) of title 35, United States Code, is amended—

(A) in paragraph (12), by striking “; and” and inserting a semicolon;

(B) in paragraph (13), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following new paragraph:

“(14) providing that for all purposes under this chapter—

“(A) each claim of a patent shall be construed as such claim would be in a civil action to invalidate a patent under section 282(b), including construing each claim of the patent in accordance with the ordinary and customary meaning of such claim as understood by one of ordinary skill in the art and the prosecution history pertaining to the patent; and

“(B) if a court has previously construed the claim or a claim term in a civil action in which the patent owner was a party, the Office shall consider such claim construction.”.

(2) POST-GRANT REVIEW.—Section 326(a) of title 35, United States Code, is amended—

(A) in paragraph (11), by striking “; and” and inserting a semicolon;

(B) in paragraph (12), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following new paragraph:

“(13) providing that for all purposes under this chapter—

“(A) each claim of a patent shall be construed as such claim would be in a civil action to invalidate a patent under section 282(b), including construing each claim of the patent in accordance with the ordinary and customary meaning of such claim as understood by one of ordinary skill in the art and the prosecution history pertaining to the patent; and

“(B) if a court has previously construed the claim or a claim term in a civil action in which the patent owner was a party, the Office shall consider such claim construction.”.

(3) TECHNICAL AND CONFORMING AMENDMENT.—Section 18(a)(1)(A) of the Leahy-Smith America Invents Act (Public Law 112–29; 126 Stat. 329; 35 U.S.C. 321 note) is amended by striking “Section 321(c)” and inserting “Sections 321(c) and 326(a)(13)”.

(4) EFFECTIVE DATE.—The amendments made by this subsection shall take effect upon the expiration of the 90-day period beginning on the date of the enactment of this Act, and shall apply to any proceeding under chapter 31 or 32 of title 35, United States Code, as the case may be, for which the petition for review is filed on or after such effective date.

(d) CODIFICATION OF THE DOUBLE-PATENTING DOCTRINE FOR FIRST-INVENTOR-TO-FILE PATENTS.—

(1) AMENDMENT.—Chapter 10 of title 35, United States Code, is amended by adding at the end the following new section:

“§ 106. Prior art in cases of double patenting

“A claimed invention of a patent issued under section 151 (referred to as the ‘first patent’) that is not prior art to a claimed invention of another patent (referred to as the ‘second patent’) shall be considered prior art to the claimed invention of the second patent for the purpose of determining the nonobviousness of the claimed invention of the second patent under section 103 if—

“(1) the claimed invention of the first patent was effectively filed under section 102(d) on or before the effective filing date of the claimed invention of the second patent;

“(2) either—

“(A) the first patent and second patent name the same inventor; or

“(B) the claimed invention of the first patent would constitute prior art to the claimed invention of the second patent under section 102(a)(2) if an exception under section 102(b)(2) were deemed to be inapplicable and the claimed invention of the first patent was, or were deemed to be, effectively filed under section 102(d) before the effective filing date of the claimed invention of the second patent; and

“(3) the patentee of the second patent has not disclaimed the rights to enforce the second patent independently from, and beyond the statutory term of, the first patent.”.

(2) REGULATIONS.—The Director shall promulgate regulations setting forth the form and content of any disclaimer required for a patent to be issued in compliance with section 106 of title 35, United States Code, as added by paragraph (1). Such regulations shall apply to any disclaimer filed after a patent has issued. A disclaimer, when filed, shall be considered for the purpose of determining the validity of the patent under section 106 of title 35, United States Code.

(3) CONFORMING AMENDMENT.—The table of sections for chapter 10 of title 35, United States Code, is amended by adding at the end the following new item:

“106. Prior art in cases of double patenting.”.

(4) EXCLUSIVE RULE.—A patent subject to section 106 of title 35, United States Code, as added by paragraph (1), shall not be held invalid on any nonstatutory, double-patenting ground.

(5) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on the date of the enactment of this Act and shall apply to a patent or patent application only if both the first and second patents described in section 106 of title 35, United States Code, as added by paragraph (1), are patents or patent applications that are described in section 3(n)(1) of the Leahy-Smith America Invents Act (35 U.S.C. 100 note).

(e) PTO PATENT REVIEWS.—

(1) CLARIFICATION.—

(A) SCOPE OF PRIOR ART.—Section 18(a)(1)(C)(i) of the Leahy-Smith America Invents Act (35 U.S.C. 321 note) is amended by striking “section 102(a)” and inserting “subsection (a) or (e) of section 102”.

(B) EFFECTIVE DATE.—The amendment made by subparagraph (A) shall take effect on the date of the enactment of this Act and shall apply to any proceeding pending on, or filed on or after, such date of enactment.

(2) AUTHORITY TO WAIVE FEE.—Subject to available resources, the Director may waive payment of a filing fee for a transitional proceeding described under section 18(a) of the Leahy-Smith America Invents Act (35 U.S.C. 321 note).

(f) CLARIFICATION OF LIMITS ON PATENT TERM ADJUSTMENT.—

(1) AMENDMENTS.—Section 154(b)(1)(B) of title 35, United States Code, is amended—

(A) in the matter preceding clause (i), by striking “not including—” and inserting “the term of the patent shall be extended 1 day for each day after the end of that 3-year period until the patent is issued, not including—”;

(B) in clause (i), by striking “consumed by continued examination of the application requested by the applicant” and inserting “consumed after continued examination of the application is requested by the applicant”;

(C) in clause (iii), by striking the comma at the end and inserting a period; and

(D) by striking the matter following clause (iii).

(2) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on the date of the enactment of this Act and apply to any patent application or patent that is pending on, or filed on or after, such date of enactment.

(g) CLARIFICATION OF JURISDICTION.—

(1) IN GENERAL.—The Federal interest in preventing inconsistent final judicial determinations as to the legal force or effect of the claims in a patent presents a substantial Federal issue that is important to the Federal system as a whole.

(2) APPLICABILITY.—Paragraph (1)—

(A) shall apply to all cases filed on or after, or pending on, the date of the enactment of this Act; and

(B) shall not apply to a case in which a Federal court has issued a ruling on whether the case or a claim arises under any Act of Congress relating to patents or plant variety protection before the date of the enactment of this Act.

(h) PATENT PILOT PROGRAM IN CERTAIN DISTRICT COURTS DURATION.—

(1) DURATION.—Section 1(c) of Public Law 111-349 (124 Stat. 3674; 28 U.S.C. 137 note) is amended to read as follows:

“(c) DURATION.—The program established under subsection (a) shall be maintained using existing resources, and shall terminate 20 years after the end of the 6-month period described in subsection (b).”.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect on the date of the enactment of this Act.

(i) TECHNICAL CORRECTIONS.—

(1) NOVELTY.—

(A) AMENDMENT.—Section 102(b)(1)(A) of title 35, United States Code, is amended by striking “the inventor or joint inventor or by another” and inserting “the inventor or a joint inventor or another”.

(B) EFFECTIVE DATE.—The amendment made by subparagraph (A) shall be effective as if included in the amendment made by section 3(b)(1) of the Leahy-Smith America Invents Act (Public Law 112-29).

(2) INVENTOR'S OATH OR DECLARATION.—

(A) AMENDMENT.—The second sentence of section 115(a) of title 35, United States Code, is amended—

(i) by striking “Except as otherwise provided” and inserting “Except for an application filed under section 118 or as otherwise provided”; and

(ii) by striking “shall execute” and inserting “may be required by the Director to execute”.

(B) EFFECTIVE DATE.—The amendments made by subparagraph (A) shall be effective as if included in the amendment made by section 4(a)(1) of the Leahy-Smith America Invents Act (Public Law 112-29).

(3) ASSIGNEE FILERS.—

(A) BENEFIT OF EARLIER FILING DATE; RIGHT OF PRIORITY.—Section 119(e)(1) of title 35, United States Code, is amended, in the first sentence, by striking “by an inventor or inventors named” and inserting “that names the inventor or a joint inventor”.

(B) BENEFIT OF EARLIER FILING DATE IN THE UNITED STATES.—Section 120 of title 35, United States Code, is amended, in the first sentence, by striking “names an inventor or joint inventor” and inserting “names the inventor or a joint inventor”.

(C) EFFECTIVE DATE.—The amendments made by this paragraph shall take effect on the date of the enactment of this Act and shall apply to any patent application, and any patent issuing from such application, that is filed on or after September 16, 2012.

(4) DERIVED PATENTS.—

(A) AMENDMENT.—Section 291(b) of title 35, United States Code, is amended by striking “or joint inventor” and inserting “or a joint inventor”.

(B) EFFECTIVE DATE.—The amendment made by subparagraph (A) shall be effective as if included in the amendment made by section 3(h)(1) of the Leahy-Smith America Invents Act (Public Law No. 112-29).

(5) SPECIFICATION.—Notwithstanding section 4(e) of the Leahy-Smith America Invents Act (Public Law 112-29; 125 Stat. 297), the amendments made by subsections (c) and (d) of section 4 of such Act shall apply to any proceeding or matter that is pending on, or filed on or after, the date of the enactment of this Act.

(6) TIME LIMIT FOR COMMENCING MISCONDUCT PROCEEDINGS.—

(A) AMENDMENT.—The fourth sentence of section 32 of title 35, United States Code, is amended by striking “1 year” and inserting “2 years”.

(B) EFFECTIVE DATE.—The amendment made by this paragraph shall take effect on the date of the enactment of this Act and shall apply to

any action in which the Office files a complaint on or after such date of enactment.

(7) PATENT OWNER RESPONSE.—

(A) CONDUCT OF INTER PARTES REVIEW.—Paragraph (8) of section 316(a) of title 35, United States Code, is amended by striking “the petition under section 313” and inserting “the petition under section 311”.

(B) CONDUCT OF POST-GRANT REVIEW.—Paragraph (8) of section 326(a) of title 35, United States Code, is amended by striking “the petition under section 323” and inserting “the petition under section 321”.

(C) EFFECTIVE DATE.—The amendments made by this paragraph shall take effect on the date of the enactment of this Act.

(8) INTERNATIONAL APPLICATIONS.—

(A) AMENDMENTS.—Section 202(b) of the Patent Law Treaties Implementation Act of 2012 (Public Law 112-211; 126 Stat. 1536) is amended—

(i) by striking paragraph (7); and

(ii) by redesignating paragraphs (8) and (9) as paragraphs (7) and (8), respectively.

(B) EFFECTIVE DATE.—The amendments made by subparagraph (A) shall be effective as if included in title II of the Patent Law Treaties Implementation Act of 2012 (Public Law 112-21).

SEC. 10. EFFECTIVE DATE.

Except as otherwise provided in this Act, the provisions of this Act shall take effect on the date of the enactment of this Act, and shall apply to any patent issued, or any action filed, on or after that date.

The Acting CHAIR. No amendment to that amendment in the nature of a substitute shall be in order except those printed in part A of House Report 113-283. Each such amendment may be offered only in the order printed in the report, by a Member designated in the report, shall be considered read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to demand for a division of the question.

AMENDMENT NO. 1 OFFERED BY MR. GOODLATTE

The Acting CHAIR. It is now in order to consider amendment No. 1 printed in part A of House Report 113-283.

Mr. GOODLATTE. Mr. Chairman, I have an amendment at the desk made in order under the rule.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 12, line 3, strike “subsection (b)” and insert “subsections (b) and (c)”.

Page 12, strike lines 14 through 25 and insert the following:

“(1) TIMELY RESOLUTION OF ACTIONS.—In the case of an action under any provision of Federal law (including an action that includes a claim for relief arising under section 271(e)), for which resolution within a specified period of time of a civil action arising under any Act of Congress relating to patents will necessarily affect the rights of a party with respect to the patent, the court shall permit discovery, in addition to the discovery authorized under subsection (a), before the ruling described in subsection (a) is issued as necessary to ensure timely resolution of the action.”.

Page 13, insert after line 13 the following:

“(4) ACTIONS SEEKING RELIEF BASED ON COMPETITIVE HARM.—The limitation on discovery provided under subsection (a) shall not apply to an action seeking a preliminary injunction to redress harm arising from the use, sale, or offer for sale of any allegedly in-

fringing instrumentality that competes with a product sold or offered for sale, or a process used in manufacture, by a party alleging infringement.

“(c) EXCLUSION FROM DISCOVERY LIMITATION.—The parties may voluntarily consent to be excluded, in whole or in part, from the limitation on discovery provided under subsection (a) if at least one plaintiff and one defendant enter into a signed stipulation, to be filed with and signed by the court. With regard to any discovery excluded from the requirements of subsection (a) under the signed stipulation, with respect to such parties, such discovery shall proceed according to the Federal Rules of Civil Procedure.”.

Page 35, strike line 16 and all that follows through page 36, line 3, and insert the following:

(1) IN GENERAL.—Section 1522 of title 11, United States Code, is amended by adding at the end the following:

“(e) Section 365(n) shall apply to cases under this chapter. If the foreign representative rejects or repudiates a contract under which the debtor is a licensor of intellectual property, the licensee under such contract shall be entitled to make the election and exercise the rights described in section 365(n).”.

Page 38, line 1, strike “OMBUDSMAN” and insert “OUTREACH”.

Page 38, strike line 2 and all that follows through “programs” on line 6 and insert “The existing small business patent outreach programs”.

Page 38, lines 8 and 9, strike “to provide” and insert “shall provide”.

Page 40, line 13, strike “1 year” and insert “18 months”.

Page 41, lines 20 and 21, strike “6 months” and insert “1 year”.

Page 42, line 6, strike “shall conduct a study” and insert “shall, using existing resources, conduct a study”.

Page 43, lines 9 and 10, strike “6 months” and insert “1 year”.

Page 44, line 3, strike “courts” and insert “procedures”.

Page 44, strike lines 8 through 13 and insert the following:

(i) the necessary criteria for using small claims procedures;

Page 44, line 14, strike “(iii)” and insert “(ii)”.

Page 44, line 17, strike “(iv)” and insert “(iii)”.

Page 44, line 18, strike “courts” and insert “procedures used”.

Page 45, lines 7 and 8, strike “shall conduct a study” and insert “shall, using existing resources, conduct a study”.

Page 46, line 4, strike “shall conduct a study” and insert “shall, using existing resources, conduct a study”.

Page 46, lines 13 and 14, strike “6 months” and insert “1 year”.

Page 52, line 5, strike “name the same inventor” and insert “name the same individual or individuals as the inventor”.

Page 53, line 11, after “double-patenting ground” insert “based on a patent described in section 3(n)(1) of the Leahy-Smith America Invents Act (35 U.S.C. 100 note)”.

Page 53, lines 13-14, after “shall take effect” insert “upon the expiration of the 1-year period beginning”.

Page 55, line 10, strike “or patent”.

Page 57, strike lines 4 through 13 and insert the following:

(A) AMENDMENT.—The second sentence of section 115(a) of title 35, United States Code, is amended by striking “shall execute” and inserting “may be required to execute”.

Page 57, line 14, strike “amendments” and insert “amendment”.

Page 59, lines 9 and 10, strike “2 years” and insert “18 months”.

The Acting CHAIR. Pursuant to House Resolution 429, the gentleman from Virginia (Mr. GOODLATTE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Virginia.

Mr. GOODLATTE. Mr. Chairman, I yield myself such time as I may consume.

The manager's amendment was developed based on discussions with a cross-range of industry stakeholders, the input of Members from the House and Senate, the courts, and the administration, including the U.S. Patent and Trademark Office.

My amendment consists of technical edits and a few modifications that improve the bill. The manager's amendment includes clarifications and edits to the limitations on discovery prior to a Markman or a claim construction hearing. They ensure that the provision works effectively and can be complied with, providing additional discretion for the courts to ensure the provision does not result in reverse gamesmanship.

The amendment also makes clarifications to the bankruptcy provisions so that they work properly, ensuring that U.S. law is followed and not foreign law. Further, it includes modifications to the deadlines for various studies to provide the agencies enough time to prepare and develop their reports. The manager's amendment makes additional clarifications and modifications that, on the whole, make necessary and positive improvements to our patent system.

The Innovation Act targets abusive patent litigation, protects the patent system, increases transparency, prevents extortion, and provides greater clarity.

Mr. Chairman, I urge my colleagues to support the amendment, and I reserve the balance of my time.

Mr. CONYERS. Mr. Chairman, I rise in opposition to the manager's amendment.

The Acting CHAIR. The gentleman from Michigan is recognized for 5 minutes.

Mr. CONYERS. Just simply put, I must oppose the manager's amendment because it does not significantly alter the underlying bill, which will be making sweeping and unnecessary changes to patent litigation and encroach upon the independence of the Federal Judiciary.

Section 6(d) does not address the substantive deficiencies in the bill. 6(d), by mandating U.S. law, applies in determining the rights of intellectual property licensees, directly contravenes the important principles that pertain to Chapter 15 of the Bankruptcy Code, which deals with transnational bankruptcies.

Congress intended that Chapter 15 not mandate any one country's substantive law should control, but Section 6(d) does exactly this and may encourage other countries to opt out of

the cooperative insolvency system that is integral to Chapter 15.

So this, in short, is failing to address another flawed revision to the Bankruptcy Code, and Section 6(d) imposes an impossible affirmative duty on a bankrupt licensor to monitor and control the quality of the license, product, or service, even if there is no money to pay for this.

Please vote against this manager's amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. GOODLATTE. Mr. Chairman, I yield myself such time as I may consume.

It is unusual for a party in opposition to oppose a manager's amendment because they don't disagree with the provisions in the amendment but, rather, say that they don't make enough changes. So, even though it is acknowledged that this improves the bill, that still causes opposition.

But I want to address what the gentleman says he wants in the manager's amendment. Section 365(n) of title XI prevents a bankruptcy trustee from terminating licenses to patents and other intellectual property of the debtor. When Congress enacted Section 365(n) in 1989, it recognized that allowing patent and other IP licenses to be revoked in bankruptcy would be extremely disruptive to the economy and damaging both to patent owners and to licensing manufacturers.

Manufacturers often invest billions of dollars in reliance on their right to practice a technology pursuant to a license. Allowing the license to be eliminated in bankruptcy would create commercial uncertainty and would undermine manufacturing investment.

In recent years, some bankruptcy trustees have tried to subvert the protections of section 365(n) for U.S. intellectual property by filing bankruptcy in a foreign country and demanding that U.S. courts extend comity to termination of licenses to U.S. intellectual property in the foreign proceeding.

The provision that the gentleman wants would eliminate important provisions that would eliminate—the underlying bill provisions eliminate this uncertainty and would guarantee that licenses to U.S. patents and other IP will always be protected in U.S. courts. The gentleman wants something that would undermine that.

Failing to include this provision, a manufacturer deciding where to build a new fabrication plant would face a powerful incentive to invest his resources in a foreign country that protects IP licenses instead of in the United States. The gentleman's provision that he would like to see in the manager's amendment would encourage offshoring of U.S. manufacturing.

So I strongly support the language in the manager's amendment and object to the suggestion that his provision that is not in this amendment, which we will also address later in the amendment debate, would enhance the man-

ager's amendment. It would not. It would have the opposite effect. I strongly urge my colleagues to support the manager's amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. CONYERS. Mr. Chairman, I yield myself 15 seconds, before I yield to Mr. WATT, merely to let you know that the National Bankruptcy Conference is opposed to this amendment and has set forth in a very detailed draft their reasons for that.

NATIONAL BANKRUPTCY CONFERENCE,
Washington, DC, November 15, 2013.
Re H.R. 3309 (Innovation Act).

Hon. JOHN CONYERS, Jr.,
Ranking Member, House Judiciary Committee,
House of Representatives, Washington, DC.

DEAR CHAIRMAN, RANKING MEMBER, AND MEMBERS OF THE HOUSE JUDICIARY COMMITTEE: I am writing to you in my capacity as Chair of the Committee on Legislation of the National Bankruptcy Conference (NBC or Conference). The NBC is a voluntary, non-partisan, not-for-profit organization composed of about 60 of the nation's leading bankruptcy judges, professors and practitioners; it has provided advice to Congress on bankruptcy-related legislation for over 75 years. The Conference takes substantive policy positions on issues. It also provides technical advice on bankruptcy legislation without regard to its policy positions so that, to the extent possible, such legislation will achieve the objectives intended by its supporters.

The Innovation Act, which is primarily focused on patent litigation reform, contains an amendment to section 1520 of chapter 15 of the Bankruptcy Code that the Conference opposes in its present form. The proposed amendment appears in SEC. 6. PROCEDURES AND PRACTICES TO IMPLEMENT AND RECOMMENDATIONS TO THE JUDICIAL CONFERENCE and provides as follows:

(d) PROTECTION OF INTELLECTUAL-PROPERTY LICENSES IN BANKRUPTCY.—

(1) IN GENERAL.—Section 1520(a) of title 11, United States Code, is amended—

(A) in paragraph (3), by striking “; and” and inserting a semicolon;

(B) in paragraph (4), by striking the period at the end and inserting “; and”; and

(C) by inserting at the end the following new paragraph:

“(5) section 365(n) applies to intellectual property of which the debtor is a licensor or which the debtor has transferred.”

(2) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on the date of the enactment of this Act and shall apply to any action for which a complaint is pending on, or filed on or after, such date of enactment.

Chapter 15 of the Bankruptcy Code, included in the 2005 amendments to the Code with large bipartisan majorities, is designed to achieve worldwide cooperation in the liquidation or reorganization of a multinational company in order to preserve value for creditors and other stakeholders, especially employees. Its fundamental structure is “universalist” in that it requires that each country recognize a foreign main proceeding in the debtor's home country as the leader in the worldwide effort and that it cooperate with that jurisdiction to achieve the best results for all concerned. Among other advantages, this approach permits the sale of whole divisions with assets and operations in several nations as a single piece, which almost always will yield a higher price. It is also essential to reorganization of a global business.

Chapter 15 incorporated the UNCITRAL Model Law on Cross-Border Insolvency “to

encourage cooperation between the United States and foreign countries with respect to transnational insolvency cases.” While the Model Law required modifications to fit into the existing judicial and legislative scheme, chapter 15 followed the exhortation of UNCITRAL: “Therefore, in order to achieve a satisfactory degree of harmonization and certainty, it is recommended that States [countries] make as few changes as possible in incorporating the model law into their legal systems.” The proposed amendment to section 1520 violates the purpose of chapter 15 to further international cooperation and, to that end, the guidance of UNCITRAL to minimize modifications to the Model Law.

Adding a provision to chapter 15 that deals with a special situation violates the principle of uniformity that makes the Model Law a valuable mechanism for greater legal certainty for trade and investment. This is true even if one believes that, as a matter of public policy, the special situation should always be decided applying U.S. law. By such a unilateral, non-uniform amendment, the United States invites other countries to modify their versions of the Model Law in ways that may be detrimental to United States parties in foreign proceedings. The situation addressed by the proposed amendment is already before the courts and the tools to address the situation are already within chapter 15. The courts can deal with the issue appropriately and predictably without opening the door to other countries to reciprocate with their own deviations from the Model Law.

Section 1520, Effects of recognition of a foreign main proceeding, provides automatic relief on recognition of a foreign main proceeding. It implements Article 20 of the Model Law by incorporating sections of the Bankruptcy Code that are consistent with the purpose of Article 20. Both Article 20 and section 1520 operate automatically upon recognition of a foreign main proceeding and impose “effects” that “are necessary to allow steps to be taken to organize an orderly and fair cross-border insolvency proceeding. . . .” The fundamental effects necessary for an orderly and fair cross-border insolvency are (a) a stay of actions against or concerning the debtor or its assets, rights, obligations or liabilities, including a stay of execution against the debtor’s assets and (b) a stay of the debtor’s transfer, encumbrance or disposition of assets. Section 1520 imposes the stay by incorporating the automatic stay of section 362 (but limited to the debtor and its assets within the territorial jurisdiction of the United States) and the transfer restrictions of sections 549, 363 and 552.

The Innovation Act would introduce into section 1520 a section of the Bankruptcy Code, section 365(n), that has nothing to do with allowing “steps to be taken to organize an orderly and fair cross-border insolvency proceeding.” This would be a blow to the goals of uniformity and harmonization embodied in the Model Law and chapter 15. Instead of a provision that affects all parties with an interest in a foreign proceeding, that effectively preserves the status quo and (potentially) going concern value and that does not intrude on the foreign proceeding, section 365(n) is not concerned with preservation of the status quo and affects the rights of a subset of licensees of intellectual property in the event that their license agreement is rejected or otherwise subjected to nonperformance in a foreign main bankruptcy case of a debtor who is their licensor. It may impose U.S. law on the foreign proceeding whether or not U.S. law should apply to a particular license. If the legislation is adopted, it should, at the very least, be limited to licenses that are within the territorial jurisdiction of the United States.

Automatically applying section 365(n) upon recognition of a foreign main proceeding would ignore the territorial limits of chapter 15 to property within the territorial jurisdiction of the United States, since license grants by the foreign debtor may not be governed by U.S. law or may not even involve U.S. intellectual property. There should be a choice of law analysis performed before section 365(n) is applied in a chapter 15 case. Section 365(n) would then be applied in appropriate situations on an appropriate showing under section 1522(a) and (b). Applying it automatically, without considering whether U.S. law should apply to the license in question and without the safeguards of sections 1521 and 1522 would be detrimental to the goals of the Model Law and chapter 15. Rather than enhancing a cross-border insolvency proceeding, automatic application of section 365(n) would likely deter foreign representatives from seeking recognition to obtain necessary assistance for the foreign proceeding if a condition to recognition were entanglement in the possible briar patch of licensee rights under U.S. bankruptcy law.

The genesis of section 6(d) of the Innovation Act is likely the case of *In re Qimonda AG*, 462 B.R. 165 (Bankr. E.D. Va. 2011). There, on the petition of the administrator appointed in Qimonda’s German main proceeding, the bankruptcy court entered an order recognizing the foreign main proceeding and, on the same date, entered a Supplemental Order under section 1521 that applied several sections of the Bankruptcy Code, including section 365, to the chapter 15 case. Upon realizing that section 365(n) interfered with his rights under the German insolvency code to “elect non-performance” of contracts, the administrator sought modification of the Supplemental Order. Licensees of U.S. patents, who would lose the protection of section 365(n) if section 365 no longer applied, objected. The Bankruptcy Court, on remand from the district court, found, under the facts and circumstances of that case, that there was a fundamental U.S. policy favoring innovation and that eliminating section 365(n) protection would be manifestly contrary to that policy. The court also ruled that the requested relief should be denied on the alternative section 1522 ground that the interests of the licensees would not be “sufficiently protected” if the requested relief were granted. The Qimonda decision was certified for direct appeal to the Fourth Circuit. The Fourth Circuit heard argument on September 17, 2013 but has not ruled.

Rather than passing legislation that would pre-empt the ruling of the Fourth Circuit and conflict with the purpose of the Model Law and chapter 15, Congress should reject this amendment. As noted, relief is already available to licensees in appropriate circumstances under section 1522 if a foreign representative seeks to deprive them of their rights under U.S. law. Applying section 365(n) to all foreign main proceedings would implicate licenses that are not within the territorial jurisdiction of the United States and would be inconsistent with the ancillary nature of a chapter 15 case, to provide assistance to the main case in another country where the debtor has the center of its main interests.

If the debtor’s property is sliced into national bits, the cooperative approach of chapter 15 and the Model Law is seriously handicapped. The proposed amendment does just that as to intellectual property. Intellectual property is itself subject to a worldwide system of recognition and enforcement, which will be shattered for companies emerging from reorganization, creating a host of difficult questions and serious uncertainty about these crucial property rights.

We believe the United States would make a mistake by going it alone and by failing to let the courts develop the key issues under the existing statute.

Sincerely,

SALLY S. NEELY,
Chair, Legislation
Committee of the National
Bankruptcy
Conference.

Mr. Chairman, I yield the balance of our time to the distinguished gentleman from North Carolina (Mr. WATT).

Mr. WATT. I thank the gentleman for yielding time.

Mr. Chairman, I want to rise not so much in opposition to the manager’s amendment, but in opposition to the bill and so that we can try to make sure that people understand what it is that they are voting on.

We set out to solve a problem of patent trolls, and that term has become a convenient shorthand to refer to a class of plaintiffs who engage in abusive litigation tactics against deep-pocketed alleged infringers as well as individual inventors and small companies.

I certainly recognize, as I have in my previous statement, that there are entities that exploit the litigation system to gain leverage against businesses, large and small, that represent a vital part of our economy, and I would like for Congress actually to deal with that issue in a meaningful way.

Unfortunately, this bill adopts an extreme, unbalanced approach to address those abuses. The term “patent troll” simply has no concrete contours in application, making it nearly impossible to craft legislation specifically targeted to a category of entities or particular business models.

And because not only patent trolls initiate litigation to enforce patent rights, legislation aimed at patent litigation system must not erect unfair barriers that deter legitimate, meritorious claims of infringement, nor should this bill be treated as if it will apply only in the troublesome jurisdictions in which these abuses are taking place.

This bill has broad application across our entire patent ecosystem. The bill suffers from a rushed process and responds to only a part of the constituency in the patent ecosystem. What is most regretful and regrettable to me is that, I believe that with thoughtful, inclusive deliberation, the goals of the bill could be achieved if we would simply take the time to do it.

The Acting CHAIR. The time of the gentleman has expired.

Madam Chair, I rise in opposition to H.R. 3309. The term “patent troll” has become convenient shorthand to refer to a class of plaintiffs who engage in abusive litigation tactics against deep-pocketed alleged infringers as well as individual inventors and small companies. I recognize that there are entities that exploit the litigation system to gain leverage against businesses large and small that represent a vital part of our economy. And I’d like

this Congress to find meaningful ways to arrest this behavior. Unfortunately, H.R. 3309, the "Innovation Act," adopts an extreme, unbalanced approach to address these abuses.

The term "patent troll" simply has no concrete contours in application making it nearly impossible to craft legislation specifically targeting a category of entities or particular business model. And, because not only "patent trolls" initiate litigation to enforce patent rights, legislation aimed at the patent litigation system must not erect unfair barriers that deter legitimate, meritorious claims of infringement. Nor should it be treated as if it will apply only to the most troublesome jurisdictions in which such abuses are purportedly tolerated.

This bill suffers from a rushed and insular process that responds to only one constituency of the patent litigation system and has resulted in a skewed product with inadequate public debate.

What is most regretful and regrettable to me is that I believe that with thoughtful, inclusive deliberation, the goals of this bill are achievable. The product before us, however, is destined to produce unintended, but foreseeable, adverse consequences. I will identify three:

First, with its illogical presumption that this legislation will apply only to "patent trolls" who sue pristine, non-infringing defendants, this bill creates perverse incentives that will invite further litigation abuse. I have now been a member of IP 21 years and a practicing lawyer 22 years, and I can tell you with absolute certainty that legal gamesmanship is not the exclusive domain of plaintiffs or even "patent trolls." By imposing lop-sided, disproportionate obligations on one side of the litigation equation, this bill creates nefarious incentives on the other. I can guarantee you that if this bill passes in its present form, there will be a subsequent lobbying effort to curtail abuses by bad faith defendants who may engage in dilatory tactics, swamp plaintiffs with data dumps in response to reasonable discovery requests, and otherwise drive up the costs of litigation.

Second, another predictable, and I hope, unintended consequence of this bill is that it may saddle legitimate patent owners with exorbitant and duplicative fee awards due to sloppy drafting. Section 3(b) of the bill mandates that a judge award fees to the prevailing party under certain circumstances. Presumably the award will consist of reasonable costs and attorneys' fees incurred to litigate the entire case. However, section 4 likewise mandates an award of fees to a prevailing party when the non-prevailing plaintiff failed to comply with the transparency obligations under the bill. This additional award is punitive and duplicative, and I hope a mistake. And the escape hatches do not provide comfort. Courts and legal commentators are loath to permit an exception to become the rule. Instead, "special circumstances" or awards unless "unjust" are strictly applied to circumstances that are unique to the case and unusual in occurrence.

Finally, and perhaps most invidious is the foreseeable possibility that this bill may become the victim of its own success. In the effort to discourage the litigation by increasing the risks and obligations of "patent trolls", the bill may very well succeed in driving the trolls out of the courtrooms. But it may also result in the most nefarious and persistent of the trolls retreating to an even more aggressive use of demand letters which this bill does nothing to prevent. The end result will be that

only legitimate patent owner will be subject to the onerous litigation reforms, while the unsophisticated individual or small inventor will face the very extortion this bill claims to address.

This is a bad bill and I hope that my colleagues will vote to protect innovation by voting against this bill.

Mr. GOODLATTE. Mr. Chairman, I yield myself the balance of my time.

Mr. Chairman, the provision that the gentleman from Michigan complains of is supported by the Intellectual Property Owners Association, the 21st Century Coalition, which is a group of manufacturers, the Semiconductor Industry Association. They very strongly support the provision in the bill that is enhanced in the manager's amendment because, otherwise, we would be allowing a foreign trustee, a foreign bankruptcy trustee to liquidate licenses and create great uncertainty in the free market. That is definitely not what is intended by this legislation, and it would create a giant loophole that would create incentives to locate businesses, manufacturing businesses outside the United States rather than inside the United States. The language is very definitely needed, and I urge my colleagues to support the manager's amendment.

Mr. Chairman, I yield back the balance of my time.

□ 1045

The Acting CHAIR. The question is on the amendment offered by the gentleman from Virginia (Mr. GOODLATTE).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. GOODLATTE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Virginia will be postponed.

AMENDMENT NO. 2 OFFERED BY MR. WATT

The Acting CHAIR. It is now in order to consider amendment No. 2 printed in part A of House Report 113-283.

Mr. WATT. Mr. Chairman, I have an amendment at the desk which was made in order under the rule.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 5, insert the following after line 23 and redesignate succeeding subsections, and references thereto, accordingly:

"(b) REDUCTION OR DENIAL OF AWARDS.—The court, in its discretion, may reduce the amount to be awarded under subsection (a), or deny an award, to the extent that the prevailing party during the course of the proceedings engaged in conduct that unduly and unreasonably protracted the final resolution of the matter in controversy.

The Acting CHAIR. Pursuant to House Resolution 429, the gentleman from North Carolina (Mr. WATT) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from North Carolina.

Mr. WATT. Mr. Chairman, I yield myself as much time as I may consume.

Mr. Chairman, upon introduction of this bill, the chairman released a statement that section 3(b) of the bill, "aligns fee shifting in patent cases with the standard that is used for awarding fees against the United States under the Equal Access to Justice Act."

Unfortunately, the fee-shifting provision in this bill, even as amended, cherry-picks the most burdensome requirements from the Equal Access to Justice Act that mandate that judges award fees against the loser unless they prove that their position was reasonably justified.

The bill was amended at the last minute of the markup presumably to relax the burden on the nonprevailing party to escape the requirement to pay the fees of the adverse party. I actually supported the amendment during markup relying on that presumption. Since then, however, it has become apparent both based on the committee report and independent research that the amendment to change the "substantially justified" standard to a "reasonably justified" standard is practically meaningless.

As summarized in the CRS report that I will submit for the record, the Senate Judiciary Committee in the 96th Congress "considered and rejected an amendment to the Equal Access to Justice Act that would have changed the pertinent language from 'substantially justified' to 'reasonably justified.'" Subsequently, the Supreme Court in *Pierce v. Underwood* held that "substantially justified" actually means reasonable.

This troubling development highlights the pitfalls to considering legislative language in haste. It also makes my amendment all the more important to a balanced and unbiased fee-shifting mechanism.

The American rule, that each party to litigation bears their own cost and attorney's fees, is the bedrock of the civil justice system. I generally oppose litigation that erodes this rule because I believe it provides open access to our courts to anyone who has a grievance.

The departure from the American rule as enacted in the Equal Access to Justice Act was far more complex than the provision extracted and incorporated in this bill. For example, the Equal Access to Justice Act prescribes a fee cap of \$125 per hour that is not in this bill. It also prohibits, with a couple of exceptions, fee awards to attorneys whose net worth exceeds \$2 million, to businesses with a net worth in excess of \$7 million or more than 500 employees. This limitation also did not find its way into this provision in the bill.

My amendment seeks to amend H.R. 3309 with yet another feature of the Equal Access to Justice Act that is not in the Innovation Act, which is the provision that gives a judge the flexibility to deny or reduce an award that would be required if the nonprevailing

party could not establish that their position, as we now know, was reasonable.

This amendment injects balance into this regime that represents a departure from the American rule. A judge should be able to assess the behavior of all the parties; otherwise, a wealthy party that is not concerned if they are imposed with the costs and fees of their adversary may engage in behavior intended to deplete the resources of the poorer opposing party. The threshold for authorizing fee-shifting, I think, should be sufficiently stringent so that the exception doesn't become the rule, but it should not be so stringent that it becomes meaningless.

Whether that is the case in *Octane Fitness v. Icon Health Fitness* is the question before the Supreme Court. In *Octane Fitness*, the Court will consider whether the two-part test of the Federal Circuit that provides that a case be "objectively baseless" and brought in "subjective bad faith" to qualify a prevailing party for fees is too high.

Although I think the Court will adjust the formula downward for identifying cases in which fee-shifting may be appropriate, we are clearly not deferring to the Court's docket. I think my amendment is the preferred and necessary approach.

And with that, I reserve the balance of my time.

III. THE EQUAL ACCESS TO JUSTICE ACT

Awards of attorneys' fees against the United States were barred at common law not only because of the American rule, but also because of the doctrine of sovereign immunity, under which the United States may not be sued, nor its funds expended, without its consent. "Congress alone has the power to waive or qualify that immunity," and it did so, with respect to awards of attorneys' fees, with the Equal Access to Justice Act (EAJA) in 1980. Prior to enactment of EAJA, the common law exceptions to the American rule were inapplicable against the United States. Even statutory exceptions to the American rule were inapplicable against the United States unless they specifically authorized fee awards against the United States.

EAJA allows awards of attorneys' fees against the United States in two broad situations. The first, codified at 28 U.S.C. §2412(b), makes the United States liable for the prevailing party's attorneys' fees to the same extent that any other party would be under the common law and statutory exceptions to the American rule, including the statutory exceptions that do not specifically authorize fee awards against the United States. This provision, unlike the rest of EAJA, contains no limitations on the assets or number of employees of parties eligible to recover fees, and no maximum hourly rate for fee awards.

The second broad situation in which EAJA authorizes fee awards against the United States is codified at 5 U.S.C. §504 and 28 U.S.C. §2412(d). These sections provide that, in specified agency adjudications and in all civil actions (except tort actions and tax cases) brought by or against the United States, the United States shall be liable for the attorneys' fees of prevailing parties, unless it proves that its position was substantially justified or that special circumstances make an award unjust.

This second portion of EAJA contains two limitations on fee awards that are not found

in §2412(b). First, it prescribes a fee cap unless the court or agency determines that a special factor justifies a higher fee. (Most fee statutes authorize awards of "reasonable" fees, with the court determining the amount.) The cap was originally \$75 per hour, but P.L. 104-121, 231-233, increased it to \$125 per hour for cases commenced on or after the date of its enactment, which was March 29, 1996. Second, this portion of EAJA does not allow (with two exceptions) fees to be awarded to individuals whose net worth exceeds \$2 million, or to businesses or organizations, including units of local government, with a net worth exceeding \$7 million or more than 500 employees. This portion of EAJA sunset, by the terms of the original Act, on October 1, 1984. In 1985, EAJA was re-enacted, retroactive to October 1, 1984, and made permanent.

P.L. 104-121, in addition to raising the cap under EAJA to \$125 per hour, added the following provision to 28 U.S.C. §2412(d), and a corresponding one to 5 U.S.C. §504 applicable to adversary adjudications:

"If, in a civil action brought by the United States or a proceeding for judicial review of an adversary adjudication described in section 504(a)(4) of title 5, the demand by the United States [other than a recitation of the maximum statutory penalty] is substantially in excess of the judgment finally obtained by the United States and is unreasonable when compared with such judgment, under the facts and circumstances of the case, the court shall award to the party the fees and other expenses related to defending against the excessive demand, unless the party has committed a willful violation of law or otherwise acted in bad faith, or special circumstances make an award unjust. Fees and expenses awarded under this paragraph shall be paid only as a consequence of appropriations provided in advance."

This provision thus authorizes fee awards in favor of losing parties and in that respect is unique in the law of attorneys' fees.

In *Pierce v. Underwood*, 487 U.S. 552 (1988), the Supreme Court decided three issues concerning EAJA: (1) the applicable standard of appellate review, (2) the meaning of "substantially justified," and (3) the "special factors" that allow a court to award more than \$75 per hour.

(1) Standard of Review. *Pierce v. Underwood* addressed the standard that a federal court of appeals applies in reviewing a decision of a federal district court under EAJA. Either party may appeal a district court's decision under EAJA, and, as the Supreme Court explained:

"For purposes of standard of review, decisions by judges are traditionally divided into three categories, denominated questions of law (reviewable de novo), questions of fact (reviewable for clear error), and matters of discretion (reviewable for "abuse of discretion")."

487 U.S. at 558.

The Supreme Court found that EAJA did not provide a clear prescription as to the appropriate standard of review (unlike, for example, 42 U.S.C. §1988(b), which provides that "the court, in its discretion, may allow the prevailing party . . . a reasonable attorney's fee"). The Court, therefore, for a variety of reasons, held that the "abuse of discretion" standard was most appropriate for appeals of EAJA court decisions.

Awards of attorneys' fees under EAJA at the agency level may be appealed to a court only by the prevailing party, not by the United States. The statute, at 5 U.S.C. §504(c)(2), provides:

"The court's determination on any appeal heard under this paragraph shall be based solely on the factual record made before the agency. The court may modify the deter-

mination of fees and other expenses only if the court finds that the failure to make an award of fees and other expenses, or the calculation of the amount of the award, was unsupported by substantial evidence."

Prior to the 1985 amendments to EAJA, this provision stated that the court could modify an agency decision only if it found "an abuse of discretion." It was intended that the new standard—"unsupported by substantial evidence"—permit "a broader scope of review . . . consistent with the normal scope of judicial review of agency actions.

(2) "substantially justified." The United States may avoid liability for attorneys' fees under EAJA by proving that its position "was substantially justified or that special circumstances make an award unjust." 5 U.S.C. §504(a)(1), 28 U.S.C. §2412(d). The legislative history of the original EAJA stated that "Nile test of whether the Government position is substantially justified is essentially one of reasonableness in law and fact." Twelve of the thirteen federal circuits subsequently interpreted "substantially justified" to mean reasonable. See, *Pierce v. Underwood*, 487 U.S. at 565-566. The U.S. Court of Appeals for the District of Columbia was the exception. It reasoned:

"The Senate Judiciary Committee considered and rejected an amendment to the bill that would have changed the pertinent language from "substantially justified" to "reasonably justified." S. Rept. 96-253 [96th Cong., 1st sess.] at 8. That refusal suggests that the test should, in fact, be slightly more stringent than "one of reasonableness."

According to this view, the government's position may be reasonable, yet fail to be substantially justified, making it easier to recover fees under the substantially justified standard than under a reasonableness standard. The 1985 amendments to EAJA did not alter the text of the substantially justified language, but an accompanying committee report expressed support for the D.C. Circuit's interpretation:

"Several courts have held correctly that "substantial justification" means more than merely reasonable. Because in 1980 Congress rejected a standard of "reasonably justified" in favor of "substantially justified," the test must be more than just reasonableness."

The Supreme Court in *Pierce v. Underwood* held that substantially justified means reasonable. The Court found that a "more than mere reasonableness" test would be "out of accord with prior usage" and "unadministerable." "Between the test of reasonableness," the Court wrote, "and a test such as 'clearly and convincingly justified' . . . there is simply no accepted stopping-place, no ledge that can hold the anchor for steady and consistent judicial behavior." 487 U.S. at 568. The Court found that the 1985 committee report was not controlling because it was neither "(1) an authoritative interpretation of what the 1980 statute meant, or (2) an authoritative expression of what the 1985 Congress intended." Id. at 566.

(3) Exceeding \$75 (now \$125) per hour. EAJA provides that fees "shall be based upon prevailing market rates for the kind and quality of the services furnished," but "shall not be awarded in excess of \$75 [\$125 for cases commenced on or after March 29, 1996] per hour unless the court determines that an increase in the cost of living or a special factor, such as the limited availability of qualified attorneys for the proceedings involved, justifies a higher fee." 28 U.S.C. §2412(d)(2)(A)(ii). (The same cap applies in agency proceedings; see, 5 U.S.C. §504(b)(1)(A)). The Court in *Pierce v. Underwood* held:

"If "the limited availability of qualified attorneys for the proceedings involved" meant merely that lawyers skilled and experienced enough to try the case are in short

supply, it would effectively eliminate the \$75 cap—since the “prevailing market rates for the kind and quality of the services furnished” are obviously determined by the relative supply and quality of services We think it refers to attorneys having some distinctive knowledge or specialized skill needful for the litigation in question—as opposed to an extraordinary level of the general lawyerly knowledge and ability useful in all litigation. Examples of the former would be an identifiable practice specialty such as patent law, or knowledge of foreign law or language.

487 U.S. at 571–572.

As for other “special factors,” the Court wrote:

“For the same reason of the need to preserve the intended effectiveness of the \$75 cap, we think the other ‘special factors’ envisioned by the exception must be such as are not of broad and general application. We need not specify what they might be. . . .”

Id. at 573.

The Court, however, specified some items which are not special factors for purposes of exceeding the \$75 per hour cap: “the novelty and difficulty of issues,” “the undesirability of the case,” “the work and ability of counsel,” “the results obtained,” “customary fees and awards in other cases,” and “the contingent nature of the fee.” All these “are factors applicable to a broad spectrum of litigation; they are little more than routine reasons why market rates are what they are.” Id.

In *Commissioner, Immigration and Naturalization Service v. Jean*, 496 U.S. 154 (1990), the Supreme Court held that, under EAJA, a prevailing party may recover attorneys’ fees for services rendered in seeking a fee award without regard to whether the position of the United States was substantially justified. If the prevailing party is entitled to fees in the main action, then he is automatically entitled to fees for the time spent seeking fees. To hold otherwise could “spawn a ‘Kafkaesque judicial nightmare’ of infinite litigation for the last round of litigation over fees.” Id. at 163.

In *Scarborough v. Principi*, 541 U.S. 401 (2004), the Supreme Court addressed EAJA’s requirement that fee applications be filed “within thirty days of final judgment in the action,” and “allege that the position of the United States was not substantially justified.” 28 U.S.C. §2412(d)(1)(B). The Court held that, when a fee application is filed within 30 days, but fails to allege that the position of the United States was not substantially justified, the application may be amended to remedy the oversight, even after the 30 days have elapsed.

In *Richlin Security Service Co. v. Chertoff*, 128 S. Ct. 2007, 2019 (2008), the Supreme Court held that, under EAJA, “a prevailing party . . . may recover its paralegal fees from the Government at prevailing market rates.” The lower court, which the Supreme Court reversed, had held that the prevailing party could recover fees for paralegal services only at their cost to the party’s attorney.

SOURCE OF FEES PAID BY THE GOVERNMENT

Both agency-awarded and court-awarded fees are “paid by the agency over which the party prevails from any funds made available to the agency by appropriation or otherwise.” 5 U.S.C. §504(d), 28 U.S.C. §2412(d)(4). Fee awards under 28 U.S.C. 2412(b) are presumably paid from the source that pays damages awarded under the statute that authorizes fee awards.

FORMERLY REQUIRED ANNUAL REPORTS TO CONGRESS

With respect to agency-awarded fees, the EAJA provides, “The Chairman of the Administrative Conference of the United

States, after consultation with the Chief Counsel for Advocacy of the Small Business Administration, shall report annually to the Congress on the amount of fees and other expenses awarded during the preceding fiscal year pursuant to this section.” 5 U.S.C. §504(e). This provision remains on the books, but it has no effect because the Administrative Conference of the United States has not been functioning since 1996.

With respect to court-awarded fees, the EAJA formerly provided, “The Attorney General shall report annually to the Congress on the amount of fees and other expenses awarded during the preceding fiscal year pursuant to this subsection.” 28 U.S.C. §2412(d)(5). This provision was repealed by P.L. 104–66, 1091(b)(1995).

Mr. GOODLATTE. Madam Chair, I rise in opposition to the amendment.

The CHAIR. The gentleman from Virginia is recognized for 5 minutes.

Mr. GOODLATTE. Madam Chairman, this amendment includes language that we believe is already implicit in the Innovation Act’s fee-shifting provision section 3.

The gentleman’s amendment adds language that allows a judge to reduce an award in certain circumstances. This amendment is redundant with the provisions in the bill and does not appear to add anything new but, rather, adds extraneous language that simply adds clutter to the section.

The Judiciary Committee considered and rejected this amendment during its markup of the bill. The fee-shifting language in the bill is a carefully crafted compromise that we negotiated on a bipartisan basis in the committee. Mr. JEFFRIES offered an amendment at the committee that was adopted and included in the bill that modified the fee-shifting language. With that amendment, all but five committee Democrats joined with all voting Republicans of the committee and reported the bill by a vote of 33–5. This amendment upsets that balance and should be rejected.

Mr. WATT. Will the gentleman yield?

Mr. GOODLATTE. I yield to the gentleman from North Carolina.

Mr. WATT. I am wondering, if you think this is redundant and extraneous rather than contrary to the intent, why wouldn’t we just accept the amendment and keep going?

Mr. GOODLATTE. I believe it is both, and it causes confusion in the legislation, and, therefore, I oppose the amendment.

I reserve the balance of my time.

Mr. WATT. Madam Chair, I yield such time as she may consume to the gentlelady from Washington State (Ms. DELBENE).

Ms. DELBENE. I rise in support of this amendment.

Madam Chair, as an entrepreneur and businesswoman, I know how hard it is to get a business off the ground. We know that small businesses are on the receiving end of frivolous litigation, and it is critical that we work to pass legislation to disincentivize such abusive behavior while also ensuring that we do not adversely affect the small inventors and start-ups who need to pro-

tect their IP and have access to the courts for their legitimate claims.

Many folks have had concerns. I think it is important that we continue to work together to address these issues.

During Judiciary Committee consideration we heard concerns about this issue from diverse stakeholders who rely on a strong patent system, from the National Venture Capital Association to the American Association for Justice.

I support the underlying bill, but I also believe that we can continue to work towards a more balanced change to the current fee shifting standard as the bill advances in the legislative process.

For this reason, I support the Ranking Member’s amendment and look forward to continuing to work with my colleagues to improve the bill.

Mr. GOODLATTE. Madam Chairman, I yield such time as she may consume to the gentlewoman from California (Ms. LOFGREN).

Ms. LOFGREN. I thank the gentleman for yielding.

Madam Chair, I am afraid I must oppose my colleague’s amendment. I believe that the amendment would basically gut core elements of the Innovation Act protections for small business and leave small businesses exposed.

We have discussed the fee-shifting issue, so I want to focus on two other issues: the discovery cost-shifting and the heightened pleading provisions that I think are very important in the bill.

First, on pleading requirements, patent assertion entities often sue and do not reveal what patent the defendant is allegedly infringing or how, and that is why the Innovation Act requires greater particularity in pleading. The bill’s requirement includes information that the plaintiffs should already have on hand, but the bill specifically provides an exception for information that is not reasonably accessible to the plaintiff. The amendment would eliminate that provision.

Relative to discovery, one of the ways that patent entities bully defendants is by driving up the cost of litigation through broad discovery requests. Section 3 of the bill directs the court to limit discovery until claim construction occurs in the routine Markman hearing. That gives defendants a break from costly discovery requests until it is more clear what the claims against them are.

Now the bill also says the court shall—that is mandatory—shall require discovery beyond that related to claim construction if it is necessary to ensure a timely resolution of the action. The bill provides the court with discretion to permit discovery to prevent manifest injustice.

I believe that the bill before us is a very important element of protecting against abusive litigation, and the amendment would do damage to it.

And finally, I would just associate myself with the chairman’s comments on fee-shifting.

Mr. GOODLATTE. Madam Chairman, I reiterate my opposition to the amendment and yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from North Carolina (Mr. WATT).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. WATT. Madam Chair, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from North Carolina will be postponed.

AMENDMENT NO. 3 OFFERED BY MR. POLIS

The CHAIR. It is now in order to consider amendment No. 3 printed in part A of House Report 113-283.

Mr. POLIS. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 14, line 20, insert after "accused," the following: "identifies the ultimate parent entity of the claimant,".

The CHAIR. Pursuant to House Resolution 429, the gentleman from Colorado (Mr. POLIS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Colorado.

Mr. POLIS. Madam Chair, I am thankful for Chairman GOODLATTE and his staff and the committee for their work on this bill and increasing demand letter transparency in both the committee mark and working with us on the floor to incorporate a bipartisan amendment that we were able to work on with Representatives CONNOLLY, CHAFFETZ, and MARINO that builds upon the language in the bill.

Very simply, our amendment would ensure that trolls can no longer hide behind shell companies to conceal their true identity from demand letter recipients. Our amendment is a step in the right direction in providing businesses and entrepreneurs the tools to better assess the validity of demand letters.

I do have a comprehensive bill, along with Representatives MARINO and DEUTCH, that moves further in that direction that we introduced 2 weeks ago, and our bill would clarify that the FTC has the authority to go after patent trolls.

As we move to enhance the value of demand letter transparency, I am pleased that Energy and Commerce Subcommittee Chairman TERRY, a few minutes ago, expressed the intent of the committee to further examine this issue. And this amendment is an important step in the right direction.

I urge my colleagues to support the Polis-Connolly-Chaffetz-Marino amendment and reserve the balance of my time.

Mr. ROHRABACHER. Madam Chair, I rise in opposition to the amendment.

The CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. ROHRABACHER. Madam Chair, let us remember, as we go through this debate, that it is the contention of those who oppose this legislation that this legislation has a more dramatic negative impact on the independent inventor who is seeking justice from the multinational corporations who infringe a great deal upon these little guys, and we are cutting off the little guys' ability to protect their patent by making it much more difficult, number one, to have a patent.

□ 1100

How does that stop the trolls, by making it more difficult to have a patent? And it makes it more difficult to defend a patent, as we are seeing in this amendment. And how does that necessarily deal with the trolls?

So we now have put a huge burden that small, independent inventors don't have now when they are fighting Goliath. They are fighting these big corporations that routinely infringe and steal from the little guy; and as I have said openly in the beginning, this is the strategy set down by these big corporate interests to make trolls the issue and not patent rights the issue.

In this particular amendment, what we have added is a further burden on the part of the small inventor to protect his patent in the name of getting the trolls. We have notification required and confirmation of exactly who owns it.

What we have got here now in the current law, yes, small inventors can seek investors, can seek people to join them to help them take on the big guys. Now, all of those people who are trying to help the little guy are going to have to be public knowledge. That would have destroyed so many of the small inventors who have done so many great things for America because they know these corporate people who are infringing on the little guy, they seek vengeance on people who oppose their power grab on these little guys.

We don't need that. We need to know whether or not it is a valid patent claim. That is what we need to know—does someone have a valid patent claim. And if they do, let's not demonize these people who are helping the small inventor. Let's find out if this is a legitimate claim or not.

Unfortunately, this legislation and this amendment have nothing to do with whether or not we are determining a legitimate claim has been made or not made in a particular case, especially what we are talking about here. We do need to make sure these suits are not being filed. But what does that have to do with making sure that every small inventor in this country has to disclose all of the people who have invested in this company, et cetera?

Again, we have an example where the little guy is going to be emasculated by this law and what is being proposed. And the big guys: of course, this doesn't hurt them at all.

And, again, if the public is having trouble understanding that, let's figure out how does taking away the constitutional right of the small inventor to having a judicial review—a constitutional right that he has had since 1830—how does taking that away help in some way get controls under control? How does that do that?

This is a front. It is just like those businessmen that had that meeting that I described knew exactly what they were doing. They were creating a demon over here, the troll, in order to what? In order to gain changes in the system that will help these mega-corporations defeat the small inventor who is trying to sue them on infringement. That is what is behind this.

For 25 years, I have been sitting here in Congress fighting the battle with these same multinational corporations. This is just the most recent step towards this power grab in destroying the strong patent system that America has had—the patent system that protects the little guy—as compared to the patent systems in Europe and Japan, where the little guys are smothered and routinely have their patents stolen from them.

Let's be real here. Okay, we can talk patent troll, patent troll, patent troll; and then they put in place changes like this that dramatically damage small inventors and their rights to protect themselves against infringement.

I oppose the amendment, and I yield back the balance of my time.

Mr. POLIS. Madam Chair, I yield 30 seconds to the gentleman from Virginia (Mr. GOODLATTE), the chair of the committee.

Mr. GOODLATTE. I thank the gentleman for his amendment, and I support it.

Contrary to what the previous speaker said, this amendment does exactly that—it helps to determine more fairly and more quickly whether or not there is a valid patent claim. It requires parties sending demand letters who wish to pursue treble damages to disclose their ultimate parent entity.

This amendment improves the provision offered by Mr. CHAFFETZ and Mr. DEUTCH in committee, and I support its inclusion in the bill.

Mr. POLIS. Madam Chair, I would point out that very little of the arguments made by the gentleman from California were related to this particular amendment. Much of that was stuff that may have been loosely related to the overall bill.

I yield 1 minute to the gentleman from Virginia (Mr. CONNOLLY), the co-sponsor of the amendment.

Mr. CONNOLLY. I thank my colleague, Mr. POLIS, for his leadership.

Madam Chair, I join with the distinguished chairman in support of this amendment. I am proud to be one of the coauthors.

I must say, contrary to what our dear friend from California just said, a lot of small investors have in fact endorsed this bill because it protects innovators

in the garage from being killed off by large litigation they cannot afford. And it is precisely the opposite of what was being asserted by our friend from California. That is why Application Developers Alliance, Engine, EFF, and others have in fact endorsed the bill.

I want to commend my friend, Mr. POLIS, for his leadership on this amendment, and I am glad to join my colleagues, Messrs. CHAFFETZ and MARINO, in offering it.

Businesses large and small are being inundated with demand letters that essentially amount to an extortion for money based on vague or even illegitimate claims that a patent has been infringed upon. Because the cost of litigation often runs into the millions of dollars, many businesses are forced to settle, which is sapping them of money that could otherwise be spent on innovation and hiring.

We know last year, for the first time ever, Apple and Google spent more on litigation than they did on R&D.

I urge the adoption of the amendment.

For example, Apple and Google recently reached a dubious milestone as both spent more on patent lawsuits and purchases than on R&D. The cost of payouts from frivolous suits brought by patent trolls drained \$29 billion from the economy last year.

Our amendment would require claimants alleging patent infringements to disclose their parent entities, which will prevent patent trolls from hiding behind shell corporations. This will help weed out nuisance claims and preserve the rights of legitimate patent holders.

I urge my colleagues to support this common-sense, bipartisan amendment.

There is a list of industry supporters below. PhRMA will not oppose and AAJ is neutral. GOODLATTE has agreed to go on voice.

Supporting organizations: App Developers Alliance, American Hotel and Lodging Association, American Association of Advertising Agencies, American Bankers Association, Association of National Advertisers, Credit Union National Association, Direct Marketers Association, DISH Network, Electronic Frontier Foundation, Food Marketing Institute, Independent Community Bankers of America, International Franchise Association, Mobile Marketing Association, National Association of Convenience Stores, National Council of Chain Restaurants, National Grocers Association, National Restaurant Association, and National Retail Federation.

Mr. POLIS. I am happy to yield 1 minute to the gentleman from Utah (Mr. CHAFFETZ), a cosponsor of the amendment.

Mr. CHAFFETZ. Madam Chair, we do this in a very bipartisan way. I appreciate Mr. POLIS; Mr. CONNOLLY; my colleague, Mr. MARINO; and Chairman GOODLATTE.

This is simple. If you want to help the little guy, if you want to help protect the integrity of the system, you should be for transparency in the legal system.

This amendment simply builds upon something that is already in the bill by mandating that claimants seeking to bring willful infringement claims iden-

tify the ultimate parent entity in the demand letters they send to their targets.

It is about openness. It is about transparency. You should be able to face your accuser in the courts; and that is all that this does is make sure that we strengthen the openness and transparency of the system. We think that will improve the system. We do it in a very bipartisan way. That is going to help everybody in this process, especially the little guy.

Mr. POLIS. I am happy to yield 1 minute to the gentleman from Pennsylvania (Mr. MARINO), an original sponsor of the underlying bill that I introduced with him 2 weeks ago and a cosponsor of this amendment.

Mr. MARINO. Thank you, Mr. POLIS. Madam Chair, I rise in support of the Polis-Chaffetz-Marino-Connolly amendment.

Trolls assert a claim in a letter with little or no specificity, and often it isn't clear who owns the patent being asserted or how the patent was even infringed. It is time the entity sending out these mass mailers does their due diligence, just as we expect in just about every other area of the law.

This amendment requires the entity sending the letter to include the person who holds the rights to the patent in order to later raise a claim that the opposing party received an adequate letter putting them on notice of their infringement.

Patent trolls have been playing a shell game and hiding who is actually holding the rights to the patent and often who is supplying the money to the litigation.

I fully support this amendment. This amendment will shine some much-needed light on this dark practice.

Mr. POLIS. Madam Chair, this amendment is important.

First, I like the way my colleague Mr. CHAFFETZ put it: the right to face your accuser in court is an important part of our justice system. There is a long way to go with regard to demand letter transparency, but this amendment is the first step.

I encourage my colleagues to support it, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Colorado (Mr. POLIS).

The amendment was agreed to.

AMENDMENT NO. 4 OFFERED BY MR. MASSIE

The CHAIR. It is now in order to consider amendment No. 4 printed in part A of House Report 113-283.

Mr. MASSIE. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Strike section 5, redesignate subsequent sections, and amend the table of contents accordingly.

The CHAIR. Pursuant to House Resolution 429, the gentleman from Kentucky (Mr. MASSIE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Kentucky.

Mr. MASSIE. Madam Chair, section 5 of this bill shares a common defect with the rest of this bill. Although well-intentioned, it will have bad effects on our patent law. In fact, it will affect legitimate patent-holders as much or worse than it would patent trolls.

Section 5 of H.R. 3309, the Innovation Act, is entitled, "Customer-Suit Exemption." This section inserts a new provision into the patent code: section 296, Stay of Action Against the Customer.

The new section 296 would require a court to grant a motion to stay a patent infringement suit against certain "covered customers." While well-intentioned, this section of the bill was not drafted in a careful and narrowly tailored way so as to achieve its purpose, which is to protect innocent customers, i.e., small retail customers involved in patent lawsuits.

Instead, the broad language of section 296 would likely insert more confusion into an already complicated patent infringement suit process and cause harmful unintended consequences.

For example, section 5's weakening of the right to sue downstream from the original manufacturer opens a new loophole for corporations to exploit—a huge loophole. It could allow a large computer corporation, for instance, to hide behind third-party chip manufacturers or third-party developers and thus continue to ship infringing products. The large computer corporation could thus construct a shadow shield against injunctions. The injunction tool is one of the most effective weapons in an individual, independent inventor's arsenal. We should not protect those in the supply chain who stand to benefit the most from stealing patents.

Patent experts oppose section 5 of H.R. 3309. My amendment would strike section 5 of H.R. 3309.

Let me tell you what David Kappos, former Under Secretary of Commerce and Director of the United States Patent and Trademark Office, said about this bill, particularly section 5, which my amendment seeks to strike:

I am most concerned about the covered customer stay provision which, as written, is significantly overbroad. While we all want to help relieve innocent retailers and coffee shops from being taken hostage in patent infringement suits, we should not open up the patent system to abuse by others who will take advantage of this provision to shift liability up or down the product creation and distribution chain to thwart legitimate innovators from enforcing their patent rights.

We should listen to the experts. This was the former Under Secretary of Commerce and Director of the United States Patent Office. He is telling us that this part of the bill is drafted overly broad and has unintended consequences.

I reserve the balance of my time.

Mr. GOODLATTE. Madam Chair, I rise in opposition to this amendment.

The CHAIR. The gentleman from Virginia is recognized for 5 minutes.

Mr. GOODLATTE. Madam Chairman, I yield myself such time as I may consume.

This amendment strikes a key provision of the bill for retailers, restaurants, and grocery stores, among others. This provision is the product of years of discussion with stakeholders and the Patent Office.

This section codifies and provides for the enforcement of the common law doctrine that infringement suits against a customer, retailer, or user of an infringing product should be stayed in favor of an action against the manufacturer of the allegedly infringing product.

Customers and retailers typically are ill-suited to defend against an infringement suit. They often are not familiar with the inner workings of the product and usually have no reason to know whether or not the product infringes a valid patent. Suits against such parties are inherently coercive and have become a tactic employed by patent trolls.

□ 1115

As an infamous recent example, one troll has begun suing cafes, restaurants, and shops that provide wireless Internet access to their customers via routers that they bought off the shelf. These small shops have no idea how the routers work or why they infringe, and they have often paid as little as \$40 for them. Now they are being sued for using allegedly infringing products and are being asked to pay thousands of dollars.

The troll could have sued the manufacturer but chose not to because the manufacturer would have vigorously defended against the suit. Coffee shops and other small businesses, however, are more likely to settle for a few thousand dollars rather than the hundreds of thousands it would cost to fight an infringement suit over technology that the coffee shop did not design or develop, and we see the same situation repeated over and over again.

Another troll has sued small businesses, charities, and others just because they use scanners and photocopiers. Again, the troll chose not to sue the manufacturer because the manufacturer understands the technology and would be able to defend against the suit. These types of lawsuits are a little more than a shakedown of small, medium, and large businesses that simply bought technology and are not the true sources of any infringement.

This provision is designed to stay actions against customers when the manufacturer, who is the true source of any infringement, is a party to a co-pending action. The provision effectively pushes infringement claims up the supply chain to the true source of infringement. The provision thereby prevents harassment and the abuse of customers when it is unnecessary for the plaintiff to sue customers.

Despite the Federal circuit precedent of recognizing the customer suit exception, district courts continue to deny stays of customer suits in a wide array of circumstances in which a stay would be appropriate. The stay under section 5 is voluntary. No stay would be entered unless the customer and manufacturer agreed that the manufacturer most appropriately bore the burden of defending against the infringement litigation.

This is a good provision. It is a key provision. It is an essential part of the bill to protect customers and retailers against abusive suits over technology that they did not design or develop. It is for these and many other reasons that I strongly oppose the amendment offered by the gentleman from Kentucky to strike section 5.

I would also point out that former Director Kappos, speaking pre-manager's amendment version of the bill, indicated a concern that has been addressed in the manager's amendment, and we made important improvements to this section in coordination with Senators LEAHY and LEE. I think that this provision in the bill is very good and that this amendment is not well-founded, and I oppose it.

I reserve the balance of my time.

Mr. MASSIE. Mr. Chairman, I yield 1 minute to the gentleman from Michigan (Mr. CONYERS).

Mr. CONYERS. I thank you.

I want to applaud the gentleman from Kentucky (Mr. MASSIE). This is exactly what will improve this measure considerably.

Mr. Chair, the language currently in section 5 will not likely curb abusive patent litigation. It needs substantial revisions to be effective and to remove loopholes which allow manufacturers and others to avoid litigation. Striking section 5 of the bill will give patent stakeholders, retailers, and customers more time to improve the customer stay provision.

I support the gentleman's amendment.

Mr. GOODLATTE. Mr. Chairman, may I ask how much time is remaining on both sides.

The Acting CHAIR (Mr. YODER). The gentleman from Virginia has 1½ minutes remaining, and the gentleman from Kentucky has 1¼ minutes remaining.

The gentleman from Virginia has the right to close.

Mr. GOODLATTE. Mr. Chairman, at this time, it is my pleasure to yield 1 minute to the gentleman from North Carolina (Mr. COBLE), the chairman of the Courts, Intellectual Property, and the Internet Subcommittee.

Mr. COBLE. I thank the chairman for yielding.

Mr. Chairman, I support the Goodlatte bill, and I oppose the gentleman from Kentucky's amendment.

This is a commonsense provision that cures one of the patent troll abuses. These suits against customers target the wrong people. Patent owners

should be suing the people who actually made the product, not the retailer who sold it or the customer who uses it.

How on Earth is the owner of a coffee shop supposed to know how a router works? I don't know how a router works. Why would we expect someone who didn't build it to defend a claim that it infringes?

For this reason, Max Bibo's deli in Wethersfield, Connecticut, supports this legislation. I am not sure any patent bill before the Congress has ever won the support of a delicatessen, but this one does. Chairman GOODLATTE's bill addresses it, so I support the bill, and I oppose the amendment.

Mr. MASSIE. Mr. Chairman, section 5 remains overly broad.

The former Director of the United States Patent and Trademark Office told me as early as yesterday that we are playing with fire with section 5. That is why I urge my colleagues to oppose section 5 and to support my amendment.

Only in Washington, D.C., would you see the kind of hubris that is displayed here. We portend that we are going to protect the innovators—the people who invent in this country—yet we are ignoring their pleas to protect their rights. In this very bill, we will take away their rights while maintaining that we are helping them.

If you must vote for this bill, please vote for this amendment. This amendment will improve the bill considerably.

I yield back the balance of my time.

Mr. GOODLATTE. Mr. Chairman, this amendment will considerably harm this bill and the hundreds of organizations and businesses that have supported this bill because they know how important it is that the common law customer stay be applied fairly in jurisdictions across the country.

Concerns have been voiced that an injunction could not be obtained because of this provision against a party that is the supplier of the infringing product. However, the bill expressly requires that all parties, both customers and manufacturers, agree to be bound by any issues decided in the suit against the manufacturer. In other words, if the patent is found valid and infringed, an injunction could also be obtained against any supplier of the product because of this requirement.

I believe that this amendment should be strongly opposed.

I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Kentucky (Mr. MASSIE).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. MASSIE. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Kentucky will be postponed.

AMENDMENT NO. 5 OFFERED BY MS. JACKSON LEE

The Acting CHAIR. It is now in order to consider amendment No. 5 printed in part A of House Report 113–283.

Ms. JACKSON LEE. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 24, strike lines 7 through 10 and insert the following:

“(1) COVERED CUSTOMER.—The term ‘covered customer’ means a party that—

“(A) is accused of infringing a patent or patents in dispute based on a covered product or process; and

“(B) is a small business concern as defined under section 3 of the Small Business Act (15 U.S.C. 632) that has an annual revenue of \$25,000,000 or less.”.

The Acting CHAIR. Pursuant to House Resolution 429, the gentlewoman from Texas (Ms. JACKSON LEE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Texas.

Ms. JACKSON LEE. Mr. Chairman, I rise again to express my appreciation to Chairman GOODLATTE and to Ranking Member CONYERS.

This is an unusual posture for us to be in. Again, all of us are for innovation and love the name of the legislation, but are raising concerns that would be worked out or could be worked out with a slower process. Again, I refer to the Constitution and to the aging that went on with the constitutional leaders in Philadelphia who meticulously designed how this great government would work. I noted earlier that they focused on innovation, competition, and inventiveness.

My amendment builds on that of the gentleman from Kentucky (Mr. MASSIE), an inventor whom, I believe, we should listen to. He has chosen to strike the section dealing with small businesses or the covered customer issue, and mine narrowly focuses to hone in on helping small businesses. My point here on the floor of the House is that we cannot ignore that this bill skews the scales of justice against small investors.

When my good friend from Virginia was explaining it, it was already too complicated. My bill is simple. It expands or provides the covered customer to small businesses making \$25 million or less. So we are looking for the balance and the compromise that pointedly goes toward small businesses. It modifies that they are protected and that their litigation costs are down.

Under my amendment, the definition of a “covered customer” is modified to be one who is accused of infringing a patent or patents on a covered product or process, and is a small business concern under section 3 that has revenue of \$25 million or less.

It is well-documented that our innovation ecosystem, founded on patents, started with small businesses. This bill skews the justice system away from them. Why would we want to do so?

As the bill is currently drafted, the provision applies to all entities. Mom-and-pop shops at the end of the chain are, in essence, undermined. The legs have gone from underneath them. I know that all of us are committed to innovation, and I ask that the Jackson Lee amendment be accepted.

I reserve the balance of my time.

Mr. Chairman, I wish to thank the Rules Committee, particularly Chairman SESSIONS and Ranking Member SLAUGHTER, for making my amendment in order.

Let me also express my appreciation to Chairman GOODLATTE and Ranking Member CONYERS for their hard work on this legislation and for their shared commitment to ensuring that the American patent system remains the best in the world.

My amendment modifies the bill to ensure that small businesses are protected and by expanding the amendment from what was offered in the Judiciary Committee markup so that businesses with revenue under \$25 million are included—my hope is that it will garner more support.

Under my amendment, the definition of a covered customer is modified to be one who is accused of infringing a patent or patents on a covered product or process, and is a small business concern under Section 3 of the Small Business Act that has revenue of \$25 million or less.

I have modified this amendment from that offered in the Judiciary Committee markup in order to accommodate more businesses who feel they might benefit from the narrowed language while still maintaining the intended consequence of allowing for stays in proceedings. The expanded language might allow some businesses who are past the “mom and pop” growth phase but if this will provide medium-sized businesses from going bankrupt, or losing valuable revenues because of expensive patent litigation, it is a useful expansion.

It is well documented that our innovation ecosystem—founded on patents—drives economic growth and job creation in the United States. From the hustle and bustle of downtown Houston, Silicon Valley, Chicago, New York, and even here in Washington, D.C., Americans want to keep our cherished system as strong as possible. For the future of our economy, we cannot risk jeopardizing it.

Section 5 is no doubt the most overbroad proposal in this legislation. In the only Judiciary hearing none other than former Undersecretary of Commerce and USPTO Director David Kappos testified that the litigation stay provisions of H.R. 3309 would immunize from liability ALL parties and not just end users and retailers, provided they are located somewhere in a product channel downstream of the first component part maker. This grant of infringement immunity would include large commercial actors, such as manufacturers combining procured components into value-added completed devices, as well as those who assemble.

My amendment seeks to narrowly tailor the language in the bill so that it harms fewer inventors and legitimate patent licensing activity.

We must act thoughtfully and with great caution as we pursue reforms to a system which took sixty years to change—and then in the batting of a Congressional eyelash—look to significantly modify once again. I was here during the long road that led to the path that

became Smith-Leahy, or the American Invents Act. That it took so long is somewhat perplexing but even more interesting is that the bill had a Republican House and a Democratic Senate. Yet we came together in a collaborative fashion and made lemonade out of sixty years of lemons while in the midst of some of the most jarring partisanship we have seen in this great body.

A number of the provisions in this bill may be well-intentioned, but they have undesirable consequences for the patent system as a whole.

They have the potential to undermine the enforceability of all patent rights, no matter how valuable the patent, and thus potentially incentivize infringement.

When patent rights are weakened, the incentive for investing in innovation is diminished. We must guard against that at all costs.

One such provision is the customer-suit exception. Though well-intentioned, this provision is overbroad. Former USPTO Director David Kappos said this himself when he testified before us recently.

As currently drafted, the provision applies to all entities in the chain of commerce of a good, not just the innocent ‘mom and pop’ shops at the end of the chain.

In fact, this provision is drafted so that it would protect the very companies that benefit the most from the sale of an infringing good.

And the provision would require a patent holder to prove indirect infringement—which requires a higher level of proof—as well as direct infringement. Taken together, these changes would result in significantly more litigation, not less.

My amendment modifies the Manager’s Amendment to ensure that all of those small businesses that motivated this provision are protected.

Please support this amendment to protect innocent end users without jeopardizing the patent system as a whole and all of the benefits that it provides us.

And Mr. Chairman, I quote from the Federalist Papers No. 18: It happened but too often, according to Plutarch, that the deputies of the strongest cities awed and corrupted those of the weaker; and that judgment went in favor of the most powerful party. And that is what is the underlying theme of this amendment: protecting the small business which might grow into the bigger business. Jeff Bezos of Amazon.com drove a Ford truck to make some of his earlier deliveries—but now he could probably buy Ford.

In the name of fairness to the little person—the Davids in the land of the Goliaths, commercially-speaking—and I ask my colleagues to support the Jackson Lee Amendment.

Mr. GOODLATTE. Mr. Chairman, I rise in opposition to this amendment.

The Acting CHAIR. The gentleman from Virginia is recognized for 5 minutes.

Mr. GOODLATTE. I yield myself such time as I may consume.

Mr. Chairman, this amendment offers a reformulation of section 5 of the bill. The provision, however, is the product of years of discussions with stakeholders and the Patent Office. This amendment unduly restricts the protections offered by section 5 to customers.

The amendment has been presented as protecting small business, but the

underlying provision already applies to small businesses. What this amendment does is deny protection to larger grocery stores, charities, hospitals, universities, and restaurant chains that are sued on account of technology that they have purchased from others and did not design or develop.

This provision would prevent many customers from benefiting from the important protections of section 5. Customer suits against a party that neither manufactures nor develops the product, accused of infringement, are frequent tactics used by trolls because they know that most customers are not sophisticated in patent laws and, thus, are more vulnerable to extortion. This amendment would eliminate a tool the bill provides to customers to protect themselves from truly abusive patent litigation.

It is for these and many other reasons that I strongly oppose the amendment.

I reserve the balance of my time.

Ms. JACKSON LEE. Mr. Chair, what is the remaining time?

The Acting CHAIR. The gentlewoman from Texas has 2½ minutes remaining, and the gentleman from Virginia has 3¾ minutes remaining.

Ms. JACKSON LEE. Mr. Chair, I yield 1 minute to the distinguished gentleman from Michigan (Mr. CONYERS).

Mr. CONYERS. I thank the gentlewoman from Texas for her amendment. It is an important one because it limits the use of customer stay provisions to smaller businesses. This is very, very important.

Mr. Chair, this amendment would improve the customer stay provision by limiting the use of the provision to smaller businesses, those who most likely did not know they were infringing when they bought and used a modern scanner or a fax machine. They are most likely local mom-and-pop shops. So, in preventing larger businesses from using the customer stay provision to avoid litigation, this amendment will also help protect the ability of individual inventors and entrepreneurs to enforce their patent rights.

Please support the Jackson Lee amendment.

Mr. GOODLATTE. Mr. Chairman, at this time, I yield 1½ minutes to the gentleman from Pennsylvania (Mr. MARINO).

Mr. MARINO. I thank the chairman.

Mr. Chairman, I have had a rash of people in my office over the last couple of months from all sides of this issue, and there is no one who supports the intent of my colleague's across the aisle concerning small business, and there is an unintended consequence here that, I think, may be overlooked.

It is the fact that, certainly, those doing business with gross revenues coming in of \$25 million or less are protected, as they should be and as it stands in our legislation at this point. However, this amendment could cause a problem in which anyone making

over \$25 million in gross revenues would not be protected. So why complicate the matter?

This amendment that my distinguished colleague wants to put in is not required because it is already addressed in the legislation that we have been going over for months and months and months. Therefore, I do not support her amendment, and I support the chairman's bill.

Ms. JACKSON LEE. Mr. Chairman, I think quite the contrary to my good friend from Pennsylvania, my legislation responds to the very individuals whom we are proclaiming we are interested in—the small inventors and businesses.

□ 1130

I would offer to say that the opposition to this whole scheme of this bill comes from the Association of American Universities, the Institute of Electrical and Electronics Engineers, and the Innovation Alliance. These are groups that understand there is a problem. These are typically smaller groups.

I would suggest that in the Federalist Papers No. 18 it says that we shall not tip the scales of justice to the big and the wealthy, but protect the weak. This particular amendment provides for protecting those making \$25 million, not having them in the crosshairs of the pleading scheme that is in this bill, in the crosshairs of loser pays that is in this bill.

I would ask my colleagues to recognize that David Kappas has not retrenched from his position that this liability posture is too dangerous. As my good friend Mr. MASSIE indicated, he is striking the whole section. I am finding a balance.

With that, I reserve the balance of my time.

Mr. GOODLATTE. Mr. Chairman, let's use a little common sense here. We have a provision in the common law called "customer stay," which says that a customer can ask to join the manufacturer of the product that it is alleged is infringing because that manufacturer knows a lot more about how the product was manufactured, what licenses and patents were used to do that, and is best able to defend a claim by a patent troll or by a legitimate inventor that a claim is valid or not valid.

What the gentlewoman from Texas does is she says that any small business above \$25 million—say the local hospital, the local university, the restaurant chain of, say, 15 or 20 restaurants, the same thing for a retail store, a grocery store chain—they can't avail themselves. So what happens? The patent troll knows that there are certain jurisdictions in this country where the court will not issue the customer stay, notwithstanding the long historic common law doctrine of customer stay.

What we simply say in this bill is that if the customer, regardless of the

size, and the manufacturer, regardless of the size, both agree, then the customer stay provision will apply; the manufacturer can come in and defend the case. It is eminently fair to every party involved to get at the core of whether or not the patent is a good patent and a valid patent. And who knows best? The manufacturer.

So this provision in the bill is very important and this amendment is harmful to the interest of small businesses, and I urge my colleagues to oppose it.

I reserve the balance of my time.

Ms. JACKSON LEE. Mr. Chairman, the Club for Growth is opposed to this legislation. What this legislation does my amendment corrects. That is why I want to ensure that we slow this down and make sure that the people who are impacted positively are small inventors and small businesses.

This gives a gift to big guys, conglomerates, that can already hammer you down if you challenge their use of your invention. What this says is the small guys get protected. That means innovation and inventiveness is protected. My amendment is a right way to go. It is a good solid balance.

I ask my colleagues to support the Jackson Lee amendment, and I yield back the balance of my time.

I have modified this amendment from that offered in the Judiciary Committee markup in order to accommodate more businesses who feel they might benefit from the narrowed language while still maintaining the intended consequence of allowing for stays in proceedings. The expanded language might allow some businesses who are past the "mom and pop" growth phase but if this will provide medium-sized businesses from going bankrupt, or losing valuable revenues because of expensive patent litigation, it is a useful expansion.

It is well documented that our innovation ecosystem—founded on patents—drives economic growth and job creation in the United States. From the hustle and bustle of downtown Houston, Silicon Valley, Chicago, New York, and even here in Washington, DC, Americans want to keep our cherished system as strong as possible. For the future of our economy, we cannot risk jeopardizing it.

Section 5 is no doubt the most overbroad proposal in this legislation. In the only Judiciary hearing none other than former Undersecretary of Commerce and USPTO Director David Cappos testified that the litigation stay provisions of H.R. 3309 would immunize from liability ALL parties—and not just end users and retailers, provided they are located somewhere in a product channel downstream of the first component part maker. This grant of infringement immunity would include large commercial actors such as manufacturers combining procured components into value-added completed devices, as well as those who assemble.

It is well documented that our innovation ecosystem—founded on patents—drives economic growth and job creation in the United States. From the hustle and bustle of downtown Houston, Silicon Valley, Chicago, New York, and even here in Washington, DC, Americans want to keep our cherished system as strong as possible. For the future of our economy, we cannot risk jeopardizing it.

A number of the provisions in this bill may be well-intentioned, but they have undesirable consequences for the patent system as a whole.

They have the potential to undermine the enforceability of all patent rights, no matter how valuable the patent, and thus potentially incentivize infringement.

My amendment seeks to narrowly tailor the language in the bill so that it harms fewer inventors and legitimate patent licensing activity.

I would note the opposition of my colleague from Kentucky, Congressman THOMAS MASSIE, himself an inventor, and unlike most of us in this body—a holder of patents—whose amendment seeks to strike the entire Section 5 of the bill. My amendment seeks to find a happy medium while not allowing large business concerns who have unlimited resources and use the might of big law firms to take out smaller businesses.

Also my colleague Mr. ROHRBACHER, a long-time champion of small inventors and innovators has helped to spearhead a push urging leadership to delay this vote.

We must act thoughtfully and with great caution as we pursue reforms to a system which took sixty years to change—and then in the batting of a Congressional eyelash—look to significantly modify once again. I was here during the long road that led to the path that became Smith-Leahy, or the American Invents Act.

That it took so long is somewhat perplexing but even more interesting is that the bill had a Republican House and a Democratic Senate. Yet we came together in a collaborative fashion and made lemonade out of sixty years of lemons while in the midst of some of the most jarring partisanship we have seen in this great body.

Yet here we are this morning looking to pass a bill which has been essentially done in under two months.

Mr. GOODLATTE. Mr. Chairman, I would just say to the gentlewoman there is a wide array of organizations. We have 4 pages with hundreds of organizations, including Americans for Prosperity, Americans for Tax Reform, Public Knowledge. It crosses the spectrum.

Small business innovators like Engine Advocacy that the gentlewoman from California put in their statement, a lengthy statement, listing a whole host of companies that support this legislation. One of the key reasons they support it is because it protects small businesses, both the innovators and the people who are the recipients of these demand letters.

I oppose the amendment and urge my colleagues to join me in doing so.

I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from Texas (Ms. JACKSON LEE).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. GOODLATTE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentlewoman from Texas will be postponed.

AMENDMENT NO. 6 OFFERED BY MS. JACKSON LEE

The Acting CHAIR. It is now in order to consider amendment No. 6 printed in part A of House Report 113-283.

Ms. JACKSON LEE. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 46, after line 22, insert the following:
(g) STUDY ON IMPACT OF LEGISLATION ON ABILITY OF INDIVIDUALS AND SMALL BUSINESSES TO PROTECT EXCLUSIVE RIGHTS TO INVENTIONS AND DISCOVERIES.—

(1) STUDY REQUIRED.—The Director, in consultation with the Secretary of Commerce, the Director of the Administrative Office of the United States Courts, the Director of the Federal Judicial Center, the heads of other relevant agencies, and interested parties, shall, using existing resources of the Office, conduct a study to examine the economic impact of sections 3, 4, and 5 of this Act, and any amendments made by such sections, on the ability of individuals and small businesses owned by women, veterans, and minorities to assert, secure, and vindicate the constitutionally guaranteed exclusive right to inventions and discoveries by such individuals and small business.

(2) REPORT ON STUDY.—Not later than 2 years after the date of the enactment of this Act, the Director shall submit to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate a report on the findings and recommendations of the Director from the study required under paragraph (1).

The Acting CHAIR. Pursuant to House Resolution 429, the gentlewoman from Texas (Ms. JACKSON LEE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Texas.

Ms. JACKSON LEE. Mr. Chairman, again, my hope is that we have the opportunity to continue to work to get where all of us would like to be.

My amendment is very simple. It requires the PTO director in consultation with other relevant agencies and interested parties to conduct a study to examine the economic impact of the litigation reform contained in the bill, sections 3, 4, and 5 of this act, on the ability of individuals and small businesses owned by women, veterans, and minorities to assert, secure, and vindicate the constitutionally guaranteed exclusive right to inventions and discoveries. In essence, I think it brings all of us together to be able to ensure that we promote this body politic of inventors, the people who built America.

This is, in essence, to follow in the constitutional mandate to promote the progress of science and useful arts by securing for limited times to authors and inventors an exclusive right to their respective writings and discoveries. In my earlier discussions I said the wise persons of the constitutional construct recognize the importance of inventiveness.

I have with me a chart that recognizes some of our great African American inventors: Madame C.J. Walker from Granville Woods invented a de-

vice that allowed for messages to be sent from moving trains and railway stations; Patricia Bath invented a method for removing eye cataracts. Great women inventors: Mary Anderson invented the windshield wipers. And our famous Hispanic inventors and others from other backgrounds: Pedro Flores, the first woman to manufacture the yo-yo. Our veterans are included in that. Many, many others throughout the Nation are included in this body of inventors.

With that, I ask my colleagues to support this amendment, and I reserve the balance of my time.

Mr. GOODLATTE. Mr. Chairman, although I am not opposed to the amendment, I ask unanimous consent to control the time in opposition to the amendment.

The Acting CHAIR. Without objection, the gentleman from Virginia is recognized for 5 minutes.

There was no objection.

Mr. GOODLATTE. Mr. Chairman, this amendment provides for a study that the USPTO would conduct to examine the impact of the changes in sections 3, 4, and 5 of the bill on individuals and small businesses owned by women, veterans, and minorities.

The Innovation Act will benefit all businesses, both large and small, regardless of who owns them, including women, veterans, and minorities. This bill has received strong support from independent inventors, small businesses, start-ups, manufacturers, retailers, Realtors, travel agents, hotels, and even a delicatessen.

By bringing transparency and curbing litigation abuses, the Innovation Act will reduce litigation costs for innovators and innovative companies from all across this great land. This will reduce the leverage patent litigation opportunists possess to extort money from legitimate businesses and individuals.

This bill not only lines up with our constitutional authority, but our constitutional duty and will help grow our economy, create jobs, and promote the engine of American ingenuity for decades to come.

Mr. CONYERS. Will the gentleman yield?

Mr. GOODLATTE. I yield to the gentleman from Michigan.

Mr. CONYERS. I just want to associate myself with the gentleman's remarks and join in the support for the Jackson Lee amendment No. 6. It is a very important one.

Mr. GOODLATTE. I reserve the balance of my time.

Ms. JACKSON LEE. Mr. Chairman, let me thank both the chairman of the committee and the ranking member for their kind support of this amendment.

May I ask the Chair the amount of time remaining, please.

The Acting CHAIR. The gentlewoman from Texas has 3 minutes remaining. The gentleman from Virginia has 3¾ minutes remaining.

Ms. JACKSON LEE. Thank you very much.

Mr. Chairman, I insert in the RECORD the list of inventors that are just a small measure of those coming from a wide array of diversity.

Let me say that we are on the floor today because we do believe in innovation. We are on the floor today because we all believe in innovation. My amendment attests to that fact. Both the chairman and ranking member agree that we should look into those small inventors that have been the backbone of American society.

I would ask again that as we look at the full measure of this legislation, that we also will take that into consideration.

I am hoping that my amendment No. 6 will be supported. But in conclusion, I want to take note of the fact that the Jackson Lee amendment No. 5 will be voted on and Mr. MASSIE's amendment will be voted on. We hope that we will get a strong vote of support. But I would hope that whatever reflection those votes characterize, it in no way reflects on the issue which we are trying to bring forward. Members will vote and Members will not vote. We hope they will vote for our amendments.

But, really, what this is all about is to make sure that we do cover and protect that genius that lies across the landscape of America. Maybe a 5-year-old that is tinkering with Legos is an inventor who needs to be protected. That is the gist of what our discussion and debate is. That is why my amendment No. 6 was offered and No. 5.

I ask that this amendment be accepted by my colleagues, and I yield back the balance of my time.

Mr. Chairman, I wish to thank the Rules Committee, particularly Chairman Sessions and Ranking Member Slaughter, for making my amendment in order. Let me also express my appreciation to Chairman Goodlatte and Ranking Member Conyers for their hard work on this legislation and for their shared commitment to ensuring that the American patent system remains the best in the world.

The Jackson Lee Amendment simply requires the PTO Director, in consultation with other relevant agencies, and interested parties, to conduct a study to examine the economic impact of the litigation reforms contained in the bill (sections 3, 4, and 5 of this Act) on the ability of individuals and small businesses owned by women, veterans, and minorities to assert, secure, and vindicate the constitutionally guaranteed exclusive right to inventions and discoveries.

Mr. Chairman, while there may be conflicting views on both sides of the aisle regarding the wisdom or necessity of some of the legislative proposals contained in H.R. 3309, there is no disagreement in this House on the central importance of honoring the mandate of the Constitution to "Promote the Progress of Science and useful Arts, by securing for limited times to Authors and Inventors the exclusive Right to their respective Writings and Discoveries" (U.S. Const. Art. I, Sec. 8, clause 8.)

Mr. Chairman, the Founding Fathers understood that America's future and its security lay in its ability to transform itself from a rural and agrarian economy into a commercial and man-

ufacturing powerhouse that produced the products and ideas and created the jobs that would give Americans the highest standard of living in the world. The patent system created by the Constitution's framers played an indispensable part in this transformation.

Mr. Chairman, it is critically important that whenever we consider legislation intended to improve or modernize our patent system that we do no harm to the individual inventors whose innovations fuel our economy.

We also must take that we not change the patent system in such a way that we discourage inventors from unleashing the creative energies that turn impossible dreams into practical and commercially viable products and American jobs.

Mr. Chairman, my amendment supplements and improves the bill, which already requires PTO to conduct 4 studies and submit reports to Congress. The required studies are:

1. Study On Secondary Market Oversight For Patent Transactions To Promote Transparency And Ethical Business Practices.
2. Study On Patents Owned By The United States Government
3. Study On Patent Quality And Access To The Best Information During Examination
4. Study On Patent Small Claims Court

What is missing from this list is a study on the impact of the changes wrought by the legislation on the very persons the American patent system was created to encourage and protect: individual innovators who take the risk to create, innovate, and invent the discoveries that change our world for the better. Inventors like Steve Jobs (Apple), Bill Gates (Microsoft), Henry Ford (Ford Motors), Thomas Edison (GE); Alexander Graham Bell (AT&T).

Mr. Chairman, H.R. 3309 contains many new and complex changes to the patent litigation system such as "loser pays," delayed and restricted discovery, and heightened pleading requirements imposed on inventors seeking to protect their constitutional right to their discoveries.

If these changes were found to impede their ability to protect their rights and thus discourage future innovators from inventing, would we not want to revisit the law and make the needed revisions?

The Jackson Lee Amendment simply directs that the impact of these new changes be studied and reported to Congress so that identified problems, if any, may be later corrected to ensure our patent system remains the best in the world.

I ask unanimous consent to append at the end of my remarks a list of some of the great advances created by American inventors of all backgrounds, races, and gender.

I urge my colleagues to support the Jackson Lee Amendment #8.

FAMOUS WOMEN INVENTORS OF THE MODERN ERA

Mary Anderson, Inventor of Windshield Wipers; Barbara Askins, Inventor of a New Film Developing Method Used by NASA; Patricia Billings, Inventor of Geobond®, first non-toxic workable replacement for asbestos; Marion Donovan, Inventor of Disposable Diapers; Bette Nesmith Graham, Inventor of Liquid Paper; Ruth Handler, Inventor of the Barbie Doll; Dr. Grace Murray Hopper, Inventor of COBOL Computer Language.

Mary Phelps Jacob, Inventor of the Modern Brassiere; Margaret Knight, Inventor of the Paper Bag Machine; Stephanie Kwolek, Inventor of Kevlar, the main ingredient in bul-

let-proof vests; Ann Moore, Inventor of Snuggly® Baby Carrier; Lyda Newman, Inventor of a Synthetic Bristle Hair Brush; Patsy Sherman, Inventor of Scotchgard™ Stain Repellent; Ruth Wakefield, Inventor of the Chocolate Chip Cookie.

FAMOUS HISPANIC INVENTORS

Pedro Flores, First person to manufacture the yo-yo in the United States; Ellen Ochoa, Inventor of an optical analysis system. Also was first Hispanic astronaut; Luis Federico, Awarded Nobel Prize for discovery of sugar nucleotides and their role in the biosynthesis of carbohydrates; Carlos Finlay, Identified the mosquito as a carrier of the deadly yellow fever germ; Santiago Ramon y Cajal, Inventor who was awarded the Nobel Prize for his work on the structure of the nervous system; Luis Miramontes, Co-inventor of the contraceptive pill. Discovered procedure for synthesizing progesterin norethindrone, the active ingredient in the birth control pill; Guillermo Gonzalez Camarena, Invented an early color television system; Felipe Vadillo, Invented method of predicting premature fetal membrane rupture in pregnant women; Juan Lozano, Invented the Rocket Belt, inspired by his fascination with jet packs.

TEN GREAT AFRICAN AMERICAN INVENTORS

Despite the hardships suffered through slavery, many African Americans have managed to become great inventors, scientists, and thinkers. This is a list of the ten greatest African American inventors.

Madame CJ Walker 1867-1919: Invented: Hair Lotion for black women—Madam Walker was an entrepreneur who built her empire developing hair products for black women. She was the first African-American woman millionaire.

Frederick McKinley Jones 1893-1961: Invented automatic refrigeration systems for long-haul trucks—Frederick McKinley is best known for inventing an automatic refrigeration system for long-haul trucks in 1935 (a roof-mounted cooling device).

Jan Ernst Matzeliger 1852-1889: Invented: Shoe lasting machinery—Jan Matzeliger was born in Paramaribo, Dutch Guiana in 1852. He immigrated to the United States at the age of 18. Jan Matzeliger helped revolutionize the shoe industry by developing a shoe lasting machine that would attach the sole to the shoe in one minute.

Norbert Rillieux 1806-1894: Invented: Sugar refining machinery—Norbert Rillieux was born on March 17, 1806 in New Orleans, Louisiana. Norbert was born a free man, although his mother was a slave. His father was a wealthy White engineer involved in the cotton industry. Rillieux invented the multiple-effect vacuum pan evaporator. This innovation, adopted in sugar refining, escalated production, reduced the price, and was responsible for transforming sugar into a household item.

George Edward Alcorn 1940: Invented: Imaging X-Ray Spectrometer—Physicist George Edward Alcorn, Jr. is best known for his development of the imaging x-ray spectrometer. An x-ray spectrometer assists scientists in identifying a material by producing an x-ray spectrum of it, allowing it to be examined visually. For this achievement he was recognized with the NASA/GSFC (Goddard Space Flight Center) Inventor of the Year Award.

Lewis Latimer 1848-1928: Invented: Long life lightbulb—Lewis Latimer was born in Chelsea, Massachusetts in 1848. He was the son of George and Rebecca Latimer, escaped slaves from Virginia. Latimer devised a way of encasing the filament within a cardboard envelope which prevented the carbon from breaking and thereby provided a much longer life to the bulb and hence made the

bulbs less expensive and more efficient. This enabled electric lighting to be installed within homes and throughout streets.

Granville Woods 1856-1910: Invented: A variation on the induction telegraph—Granville Woods was often referred to as the “Black Thomas Edison.” In 1887, Woods developed his most important invention—a device that allowed for messages to be sent from moving trains and railway stations. By allowing dispatchers to know the location of each train, it provided for greater safety and a decrease in railway accidents.

Patricia Bath 1942: Invented: A form of eye surgery using lasers—Dr. Patricia Bath, an ophthalmologist became the first African American woman doctor to receive a patent for a medical invention. The method she invented for removing cataract lenses, transformed eye surgery, using a laser device making the procedure more accurate. Another device invented by Dr. Bath was able to restore sight to people who had been blind for over 30 years.

Garrett Morgan 1877-1963: Invented: Gas mask, and a type of traffic light—Garrett Morgan invented the gas mask in 1914. On July 25, 1916, Garrett Morgan made national news for using his gas mask to rescue 32 men trapped during an explosion in an underground tunnel 250 feet beneath Lake Erie. The Morgan gas mask was later refined for use by U.S. Army during WWI. After witnessing a collision between an automobile and a horse-drawn carriage, Garrett Morgan invented the traffic signal.

Otis Boykin 1920-1982: Invented: Improved electrical resistor, and a control unit for pacemakers—Boykin's most famous invention was a control unit for the heart pacemaker. The device uses electrical impulses to maintain a regular heartbeat. Also invented more than 25 electronic devices, including an improved electrical resistor for computers, radios, televisions, and guided missiles.

Mr. GOODLATTE. Mr. Chairman, I thank the gentlewoman for her amendment and urge my colleagues to support the underlying bill.

I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from Texas (Ms. JACKSON LEE).

The amendment was agreed to.

AMENDMENT NO. 7 OFFERED BY MR. ROHRBACHER

The Acting CHAIR. It is now in order to consider amendment No. 7 printed in part A of House Report 113-283.

Mr. ROHRBACHER. Mr. Chairman, I rise in support of my amendment.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 47, strike line 3 and all that follows through page 48, line 20, and redesignate succeeding subsections, and references thereto, accordingly.

The Acting CHAIR. Pursuant to House Resolution 429, the gentleman from California (Mr. ROHRBACHER) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. ROHRBACHER. Mr. Chairman, I rise in support of my own amendment, which would remove section 9(a) from the Innovation Act.

My amendment would protect the American inventors from an incredible

attack on their constitutional rights by eliminating from this bill the bill's elimination of the right for judicial review of the American inventors who feel that perhaps they were not treated legally by their applications to the patent system.

They have had a right since 1836 to a judicial review. This is a constitutional right that has been for a long time recognized. This bill eliminates that. Of course, we are out to get the troll. Everything is going to be aimed at getting the troll. How does eliminating the constitutional right of an independent inventor who doesn't have a lot of money but now he feels maybe he has been mistreated or maybe not legally treated by the patent office, up until now he has had the right, as every other American citizen, to their day in court; and instead, we are taking the little guy and eliminating his day in court if he feels that he has a legitimate legal claim that he was not treated legally through the patent system?

Why are we attacking the little guy? Well, we have to get to the trolls. We have got to make it much more difficult for a little guy to get a patent. We have got to make it much more difficult for a little guy to defend a patent against these mega-multinational corporations that routinely infringe on the small guy.

Now, we know we have heard about the wrongdoing of a certain percentage of inventors or people who own patents in this country. Let's get a patent. But this bill totally undermines and attacks the rights of people who are handling themselves correctly. It makes it more difficult for the independent inventor. Here we are taking away his constitutional rights.

By the way, let me just note I have heard Mr. GOODLATTE say that this in some way eliminates the regular process of the Patent Office. That is not the case, Mr. GOODLATTE. The Patent Office procedures are kept the same in this bill as they have been. The only thing that this bill changes, or that your bill seeks to change, that my amendment would eliminate, is eliminating the right of these independent inventors to go to court and say they made an unconstitutionally legal decision on my patent.

I yield 1 minute to the gentlewoman from California (Ms. LOFGREN).

Ms. LOFGREN. I thank the gentleman for yielding.

Mr. Chairman, while Mr. ROHRBACHER and I do not agree on the underlying bill, I do support his amendment.

The Innovation Act would repeal section 145, the right of a patent applicant to appeal an initial PTO determination in Federal court.

□ 1145

This is a long-standing provision of law, and while it is rarely used, and even less often successful, I do believe that it poses at least theoretically a

hedge against misconduct in the Patent Office and, at a minimum, will help ensure that the PTO's initial determinations are as meticulous as inventors deserve.

I spoke in favor of this amendment and voted for it when it was offered in the Judiciary Committee, and I continue to support it. I urge my colleagues to vote in favor.

Mr. GOODLATTE. Mr. Chairman, I rise in opposition to the amendment and claim the time in opposition to the amendment.

The Acting CHAIR. The gentleman from Virginia is recognized for 5 minutes.

Mr. GOODLATTE. Mr. Chairman, I strongly oppose the gentleman's amendment to strike the bill's provisions regarding section 145. The bill's provisions are strongly supported by the Patent Office.

The amendment would strike one of the bill's most important reforms for preventing patent trolls from obtaining low-quality patents and bringing extortionate lawsuits. The bill's provisions are necessary because of the Supreme Court's recent decision in *Kappos v. Hyatt* which construed section 145 to allow an applicant to evade substantive patent examination in the Patent Office and to instead present his evidence of patentability for the first time in Federal district court. A district judge would then be required to make de novo findings of patentability.

Section 145 is outdated and unnecessary. Today, applicants have administrative routes for offering new evidence. Even after a board decision affirming the examiner's rejection, an applicant can file a continuation application and can introduce new evidence of patentability in that continuation.

Ever since 1836, the United States has required that all patent applications be reviewed by patent examiners with a scientific education, people who understand the technology that the patent covers. This helps to ensure that patents are not issued for inventions that are already in the public domain or that would be obvious to a person skilled in the technology.

Under the gentleman from California's amendment, however, an applicant could short-circuit the entire application process and present his evidence of patentability for the first time in district court. Now, I have known many district judges who are expert lawyers, but very few of them have degrees in biotechnology. Very few of them have degrees in electrical engineering; yet under this amendment, these judges would be making the initial determination whether, for example, a purported computer invention is novel and nonobvious and whether it has been properly enabled.

I would ask my colleagues, is there anyone here who believes the United States will issue higher-quality patents if the applications are never, never, never reviewed by an examiner with a

scientific background? Does anyone believe that we will have better semiconductor patents if they are never examined by an electrical engineer? Will we really have better drug patents if they are never reviewed by someone with a degree in chemistry?

I would submit that the gentleman's amendment is nothing more than a recipe book for patent trolls to obtain low-quality patents claiming technology that is already in widespread use.

Finally, we cannot ignore the evidence of who is actually using these section 145 actions. These lawsuits, which seek to obtain a patent without review by technically trained examiners, are heavily used by infamous patent trolls who are trying to obtain patents on computer technology from the 1980s and 1990s. These trolls are still pursuing patent applications that were filed before 1995 when patent terms ran 17 years from when the patent was issued. The most infamous user of section 145 still has hundreds of these applications pending and is trying to obtain patents on computer technology that literally predate Windows and Apple Macintosh. A vote for this amendment is nothing more than a vote to advance that patent troll agenda and allow abuse of the U.S. patent system. I strongly urge my colleagues to vote "no" on this amendment.

I reserve the balance of my time.

Mr. ROHRABACHER. Mr. Chairman, I yield 30 seconds to the gentleman from Michigan (Mr. CONYERS).

Mr. CONYERS. I want to commend Mr. ROHRABACHER for what he is doing here. This is another little guy provision that deserves support because the Supreme Court has even recently affirmed the expansive breadth of evidence that a patent applicant may introduce in a section 145 proceeding. And so I am for keeping this provision in, and I am proud to add my support to the Rohrabacher amendment.

Mr. GOODLATTE. I reserve the balance of my time.

Mr. ROHRABACHER. I yield myself 30 seconds.

Well, the Supreme Court disagrees with what the chairman of our Judiciary Committee says. The Supreme Court has decided against the very argument that he gave. And the fact is, if someone in this country, an inventor, an independent inventor or anybody else thinks they have a claim that a government agency has not treated them in a constitutional and lawful manner, they have a right to take that before a court. This bill eliminates that constitutional right that our inventors have had since the 1830s. I am sorry, this again discloses the power grab behind this bill. I ask support for my amendment.

I yield back the balance of my time.

Mr. GOODLATTE. Mr. Chairman, I yield myself the balance of my time.

I would just say to the gentleman, the Supreme Court doesn't disagree

with my position. The Supreme Court is interpreting the current law on the books, a law which has been on the books for a long time, and is superseded by new provisions that have been added into the patent law that give inventors additional ways to have their patents reviewed if they are denied by the Patent Office. So the Supreme Court is interpreting the current law.

What this bill does is it changes the current law because it recognizes that, based on that decision, it enables patent trolls to do some of the most outrageous things and cripples the ability of the Patent Office to actually look at the patent in the form that the law intends, and that is by engineers and scientists, chemists, biologists, people who have training in the field and can identify whether something is indeed a novel idea or not. That is what the amendment would lop off.

The amendment would continue a pathway around the Patent Office that would allow patent trolls to get low-quality patents because they would not be properly examined and continue the problem that we face with patent trolls. So I strongly oppose the amendment.

I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. ROHRABACHER).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. ROHRABACHER. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from California will be postponed.

AMENDMENT NO. 8 OFFERED BY MR. CONYERS

The Acting CHAIR. It is now in order to consider amendment No. 8 printed in part A of House Report 113-283.

Mr. CONYERS. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Deceptive Patent Practices Reduction Act".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Definitions.
- Sec. 3. Transparency of patent ownership.
- Sec. 4. Customer stay.
- Sec. 5. Small business education, outreach, and information access.
- Sec. 6. Codification of the double-patenting doctrine for first-inventor-to-file patents.
- Sec. 7. Technical corrections to the Leahy-Smith America Invents Act.
- Sec. 8. Reports.
- Sec. 9. Effective date.

SEC. 2. DEFINITIONS.

In this Act:

(1) DIRECTOR.—The term "Director" means the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

(2) OFFICE.—The term "Office" means the United States Patent and Trademark Office.

SEC. 3. TRANSPARENCY OF PATENT OWNERSHIP.

(a) JUDICIAL PROCEEDINGS.—

(1) IN GENERAL.—Section 281 of title 35, United States Code, is amended—

(A) by striking "A patentee" and inserting "(a) IN GENERAL.—A patentee"; and

(B) by adding at the end the following:

"(b) INITIAL DISCLOSURE.—A patentee who has filed a civil action under subsection (a) is required to disclose to the court and to all adverse parties, any persons, associations of persons, firms, partnerships, corporations (including parent corporations), or other entities other than the patentee itself known by the patentee to have—

"(1) a financial interest (of any kind) in the subject matter in controversy or in a party to the proceeding; or

"(2) any other kind of interest that could be substantially affected by the outcome of the proceeding.

"(c) ENFORCEMENT.—The court may enforce the requirement under subsection (b) upon a motion by an opposing party or sua sponte.

"(d) DEFINITIONS.—For purposes of this section, the terms 'proceeding' and 'financial interest' have the meaning given those terms in section 455(d) of title 28."

(2) TECHNICAL AND CONFORMING AMENDMENT.—Section 290 of title 35, United States Code, is amended in the first sentence by inserting after "inventor," the following: "any information that a patentee has publicly disclosed under section 281(b)."

(b) PATENT AND TRADEMARK OFFICE PROCEEDINGS.—

(1) IN GENERAL.—Chapter 26 of title 35, United States Code, is amended by adding at the end the following:

"§ 263. Disclosure of information relating to patent ownership

"(a) DEFINITIONS.—In this section—

"(1) the term 'period of noncompliance' refers to a period of time during which the ultimate parent entity of an assignee of a patent has not been disclosed to the United States Patent and Trademark Office in accordance with this section; and

"(2) the term 'ultimate parent entity' has the meaning given the term in section 801.1(a)(3) of title 16, Code of Federal Regulations, or any successor regulation.

"(b) REQUIREMENT TO DISCLOSE ASSIGNMENT.—An assignment of all substantial rights in an issued patent that results in a change to the ultimate parent entity shall be recorded in the Patent and Trademark Office within 3 months of the assignment.

"(c) DISCLOSURE REQUIREMENTS.—A disclosure under subsection (b) shall include the name of the assignee and the ultimate parent entity of the assignee.

"(d) FAILURE TO COMPLY.—If a party required to make a disclosure under subsection (b) fails to comply with such requirement, in a civil action in which that party asserts a claim for infringement of the patent, that party may not recover increased damages under section 284 or attorney fees under section 285 with respect to infringing activities taking place during any period of noncompliance."

(2) APPLICABILITY.—The amendment made by paragraph (1) shall apply to any patent issued on or after the date of enactment of this Act.

(3) CONFORMING AMENDMENT.—The table of sections for chapter 26 of title 35, United States Code, is amended by adding at the end the following new item:

"263. Disclosure of information relating to patent ownership."

SEC. 4. CUSTOMER STAY.

(a) IN GENERAL.—Chapter 29 of title 35, United States Code, is amended by adding at the end the following new section:

“§ 299A. Customer stay

“(a) DEFINITIONS.—In this section—

“(1) the term ‘covered customer’ means a party accused of infringing a patent or patents in dispute based on a covered product or process;

“(2) the term ‘covered manufacturer’ means a person who manufactures or supplies, or causes the manufacture or supply of, a covered product or process, or a relevant part thereof; and

“(3) the term ‘covered product or process’ means a component, product, process, system, service, method, or a relevant part thereof, that—

“(A) is alleged to infringe the patent or patents in dispute, or

“(B) implements a process alleged to infringe the patent or patents in dispute.

“(b) MOTION FOR STAY.—In a civil action in which a party asserts a claim for relief arising under any Act of Congress relating to patents (other than an action that includes a cause of action described in section 271(e) of this title), the court shall grant a motion to stay at least the portion of the action against a covered customer that relates to infringement of a patent involving a covered product or process if—

“(1) the covered manufacturer and the covered customer consent in writing to the stay;

“(2) the covered manufacturer is a party to the action or a separate action involving the same patent or patents relating to the same covered product or process;

“(3) the covered customer agrees to be bound under the principles of collateral estoppel by any issues finally decided as to the covered manufacturer in an action described in paragraph (2) that the covered customer has in common with the covered manufacturer; and

“(4) the motion is filed after the first pleading in the action but not later than the later of—

“(A) 120 days after service of the first pleading in the action that specifically identifies the covered product or process as a basis for the alleged infringement of the patent by the covered customer, and specifically identifies how the covered product or process is alleged to infringe the patent; or

“(B) the date on which the first scheduling order in the case is entered.

“(c) APPLICABILITY.—A stay issued under subsection (b) shall apply only to those asserted patents and products, systems, methods, or components accused of infringement in the action.

“(d) VACATING STAY.—

“(1) IN GENERAL.—A stay entered under this section may be vacated upon grant of a motion based on a showing that—

“(A) the action involving the covered manufacturer will not resolve a major issue in suit against the covered customer; or

“(B) the stay unreasonably prejudices or would be manifestly unjust to the party seeking to vacate the stay.

“(2) SEPARATE ACTIONS.—In the case of a stay entered under this section based on the participation of the covered manufacturer in a separate action described in subsection (b)(2), a motion under paragraph (1) may only be granted if the court in such separate action determines that the showing required under paragraph (1) has been made.

“(e) WAIVER OF ESTOPPEL EFFECT.—If, following the grant of a motion to stay under this section, the covered manufacturer in an action described in subsection (b)(2)—

“(1) seeks or consents to entry of a consent judgment involving one or more of the common issues that gave rise to the stay; or

“(2) fails to prosecute, to a final, non-appealable judgment, a final decision as to one

or more of the common issues that gave rise to the stay,

the court may, upon motion, determine that such consent judgment or unappealed final decision shall not be binding on the covered customer with respect to one or more of such common issues based on a showing that such an outcome would unreasonably prejudice or be manifestly unjust to the covered customer in light of the circumstances of the case.

“(f) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to limit the ability of a court to grant, expand, or modify any stay granted pursuant to this section, or grant any motion to intervene, if otherwise permitted by law.”

(b) CONFORMING AMENDMENT.—The table of sections for chapter 29 of title 35, United States Code, is amended by adding at the end the following new item:

“299A. Customer stay.”

SEC. 5. SMALL BUSINESS EDUCATION, OUTREACH, AND INFORMATION ACCESS.

(a) SMALL BUSINESS EDUCATION AND OUTREACH.—

(1) RESOURCES FOR SMALL BUSINESS.—Using existing resources, the Director shall develop educational resources for small businesses to address concerns arising from patent infringement.

(2) SMALL BUSINESS PATENT OMBUDSMAN.—The Patent Ombudsman Program established under section 28 of the Leahy-Smith America Invents Act (35 U.S.C. 2 note) shall coordinate with the existing small business outreach programs of the Office to provide education and awareness on abusive patent litigation practices.

(b) IMPROVING INFORMATION TRANSPARENCY FOR SMALL BUSINESS AND THE UNITED STATES PATENT AND TRADEMARK OFFICE USERS.—

(1) WEB SITE.—Using existing resources, the Director shall create a user-friendly section on the official Web site of the Office to notify the public when a patent case is brought in Federal court and with respect to each patent at issue in such case, the Director shall include—

(A) information disclosed pursuant to section 290 of title 35, United States Code, as amended by section 4(a)(2) of this Act; and

(B) any information the Director determines to be relevant.

(2) FORMAT.—In order to promote accessibility for the public, the information described in paragraph (1) shall be searchable by patent number, patent art area, and entity.

SEC. 6. CODIFICATION OF THE DOUBLE-PATENTING DOCTRINE FOR FIRST-INVENTOR-TO-FILE PATENTS.

(a) AMENDMENT.—Chapter 10 of title 35, United States Code, is amended by adding at the end the following new section:

“§ 106. Prior art in cases of double patenting

“A claimed invention of a patent issued under section 151 (referred to in this section as the ‘first patent’) that is not prior art to a claimed invention of another patent (referred to in this section as the ‘second patent’) shall be considered prior art to the claimed invention of the second patent for the purpose of determining the nonobviousness of the claimed invention of the second patent under section 103 if—

“(1) the claimed invention of the first patent was effectively filed under section 102(d) on or before the effective filing date of the claimed invention of the second patent;

“(2) either—

“(A) the first patent and the second patent name the same inventor; or

“(B) the claimed invention of the first patent would constitute prior art to the claimed invention of the second patent under section 102(a)(2) if an exception under section 102(b)(2) were deemed to be inapplicable and the claimed invention of the first patent

was, or were deemed to be, effectively filed under section 102(d) before the effective filing date of the claimed invention of the second patent; and

“(3) the patentee of the second patent has not disclaimed the rights to enforce the second patent independently from, and beyond the statutory term of, the first patent.”

(b) REGULATIONS.—The Director shall promulgate regulations setting forth the form and content of any disclaimer required for a patent to be issued in compliance with section 106 of title 35, United States Code, as added by subsection (a). Such regulations shall apply to any disclaimer filed after a patent has issued. A disclaimer, when filed, shall be considered for the purpose of determining the validity of the patent under section 106 of title 35, United States Code.

(c) CONFORMING AMENDMENT.—The table of sections for chapter 10 of title 35, United States Code, is amended by adding at the end the following new item:

“106. Prior art in cases of double patenting.”

(d) EXCLUSIVE RULE.—A patent subject to section 106 of title 35, United States Code, as added by subsection (a), shall not be held invalid on any nonstatutory, double-patenting ground.

(e) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act and shall apply to a patent or patent application only if both the first and second patents described in section 106 of title 35, United States Code, as added by subsection (a), are patents or patent applications that are described in section 3(n)(1) of the Leahy-Smith America Invents Act (35 U.S.C. 100 note).

SEC. 7. TECHNICAL CORRECTIONS TO THE LEAHY-SMITH AMERICA INVENTS ACT.

(a) TECHNICAL CORRECTIONS.—

(1) INVENTOR’S OATH OR DECLARATION.—

(A) AMENDMENT.—Section 115(g)(1) of title 35, United States Code, is amended—

(i) in the matter preceding subparagraph (A), by striking “claims the benefit” and inserting “is entitled, as to each invention claimed in the application, to the benefit”; and

(ii) in subparagraph (A), by striking “meeting the requirements of subsection (a) was executed by the individual and was filed in connection with the earlier-filed application” and inserting the following: “executed by or on behalf of the individual was filed in connection with the earlier-filed application and meets the requirements of this section as effective on the date such oath or declaration was filed”.

(B) EFFECTIVE DATE.—The amendment made by subparagraph (A) shall be effective as if included in the amendment made by section 4(a)(1) of the Leahy-Smith America Invents Act (Public Law 112–29; 125 Stat. 293).

(2) NOVELTY.—

(A) AMENDMENT.—Section 102(b)(1)(A) of title 35, United States Code, is amended by striking “the inventor or joint inventor or by another” and inserting “the inventor or a joint inventor or another”.

(B) EFFECTIVE DATE.—The amendment made by subparagraph (A) shall be effective as if included in the amendment made by section 3(b)(1) of the Leahy-Smith America Invents Act (Public Law 112–29; 125 Stat. 285).

(3) ASSIGNEE FILERS.—

(A) BENEFIT OF EARLIER FILING DATE; RIGHT OF PRIORITY.—Section 119(e)(1) of title 35, United States Code, is amended, in the first sentence, by striking “by an inventor or inventors named” and inserting “that names the inventor or a joint inventor”.

(B) **BENEFIT OF EARLIER FILING DATE IN THE UNITED STATES.**—Section 120 of title 35, United States Code, is amended, in the first sentence, by striking “names an inventor or joint inventor” and inserting “names the inventor or a joint inventor”.

(C) **EFFECTIVE DATE.**—The amendments made by this paragraph shall take effect on the date of the enactment of this Act and shall apply to any patent application, and any patent issuing from such application, that is filed on or after September 16, 2012.

(4) **DERIVED PATENTS.**—

(A) **AMENDMENT.**—Section 291(b) of title 35, United States Code, is amended by striking “or joint inventor” and inserting “or a joint inventor”.

(B) **EFFECTIVE DATE.**—The amendment made by subparagraph (A) shall be effective as if included in the amendment made by section 3(h)(1) of the Leahy-Smith America Invents Act (Public Law 112–29; 125 Stat. 288).

(5) **SPECIFICATION.**—Notwithstanding section 4(e) of the Leahy-Smith America Invents Act (Public Law 112–29; 125 Stat. 297), the amendments made by subsections (c) and (d) of section 4 of such Act shall apply to any proceeding or matter, that is pending on, or filed on or after, the date of the enactment of this Act.

(6) **PATENT OWNER RESPONSE.**—

(A) **CONDUCT OF INTER PARTES REVIEW.**—Section 316(a)(8) of title 35, United States Code, is amended by striking “the petition under section 313” and inserting “the petition under section 311”.

(B) **CONDUCT OF POST-GRANT REVIEW.**—Section 326(a)(8) of title 35, United States Code, is amended by striking “the petition under section 323” and inserting “the petition under section 321”.

(C) **EFFECTIVE DATE.**—The amendments made by this paragraph shall take effect on the date of the enactment of this Act.

(7) **TIME LIMIT FOR COMMENCING MISCONDUCT PROCEEDINGS.**—

(A) **AMENDMENT.**—The fourth sentence of section 32 of title 35, United States Code, is amended by striking “1 year” and inserting “2 years”.

(B) **EFFECTIVE DATE.**—The amendment made by this paragraph shall apply to any action in which the Office files a complaint on or after the date of enactment of this Act.

(b) **POST-GRANT REVIEW AMENDMENT.**—Section 325(e)(2) of title 35, United States Code, is amended by striking “or reasonably could have raised”.

(c) **CLARIFICATION OF JURISDICTION.**—Section 1338 of title 28, United States Code, is amended by adding at the end the following:

“(d) For purposes of this section, section 1454, and section 1295(a), a claim of legal malpractice that necessarily raises a disputed question of patent law shall be deemed to arise under an Act of Congress relating to patents.”.

SEC. 8. REPORTS.

(a) **STUDY ON SECONDARY MARKET OVERSIGHT FOR PATENT TRANSACTIONS TO PROMOTE TRANSPARENCY AND ETHICAL BUSINESS PRACTICES.**—

(1) **STUDY REQUIRED.**—The Director, in consultation with the Secretary of Commerce, the Secretary of the Treasury, the Chairman of the Securities and Exchange Commission, the heads of other relevant agencies, and interested parties, shall, using existing resources of the Office, conduct a study—

(A) to develop legislative recommendations to ensure greater transparency and accountability in patent transactions occurring on the secondary market;

(B) to examine the economic impact that the patent secondary market has on the United States;

(C) to examine licensing and other oversight requirements that may be placed on

the patent secondary market, including on the participants in such markets, to ensure that the market is a level playing field and that brokers in the market have the requisite expertise and adhere to ethical business practices; and

(D) to examine the requirements placed on other markets.

(2) **SUBMISSION OF STUDY.**—Not later than 18 months after the date of the enactment of this Act, the Director shall submit a report to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate on the findings and recommendations of the Director from the study required under paragraph (1).

(b) **STUDY ON PATENTS OWNED BY THE UNITED STATES GOVERNMENT.**—

(1) **STUDY REQUIRED.**—The Director, in consultation with the heads of relevant agencies and interested parties, shall, using existing resources of the Office, conduct a study on patents owned by the United States Government that—

(A) examines how such patents are licensed and sold, with reference to any litigation relating to the licensing or sale of such patents;

(B) provides legislative and administrative recommendations on whether there should be restrictions placed on patents acquired from the United States Government;

(C) examines whether or not each relevant agency maintains adequate records on the patents owned by such agency, specifically whether such agency addresses licensing, assignment, and Government grants for technology related to such patents; and

(D) provides recommendations to ensure that each relevant agency has an adequate point of contact that is responsible for managing the patent portfolio of the agency.

(2) **REPORT ON STUDY.**—Not later than 9 months after the date of completion of the study required by subsection (a)(1), the Director shall submit to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate a report on the findings and recommendations of the Director from the study required under paragraph (1).

(c) **STUDY ON PATENT QUALITY AND ACCESS TO THE BEST INFORMATION DURING EXAMINATION.**—

(1) **GAO STUDY.**—The Comptroller General of the United States shall conduct a study on patent examination at the Office and the technologies available to improve examination and improve patent quality.

(2) **CONTENTS OF THE STUDY.**—The study required under paragraph (1) shall include the following:

(A) An examination of patent quality at the Office.

(B) An examination of ways to improve quality, specifically through technology, that shall include examining best practices at foreign patent offices and the use of existing off-the-shelf technologies to improve patent examination.

(C) A description of how patents are classified.

(D) An examination of procedures in place to prevent double patenting through filing by applicants in multiple art areas.

(E) An examination of the types of off-the-shelf prior art databases and search software used by foreign patent offices and governments, particularly in Europe and Asia, and whether those databases and search tools could be used by the Office to improve patent examination.

(F) An examination of any other areas the Comptroller General determines to be relevant.

(3) **REPORT TO CONGRESS.**—Not later than 6 months after the date of the completion of the study required by subsection (b)(1), the

Comptroller General shall submit to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate a report on the findings and recommendations from the study required by this subsection, including recommendations for any changes to laws and regulations that will improve the examination of patent applications and patent quality.

(d) **STUDY ON PATENT SMALL CLAIMS COURT.**—

(1) **STUDY REQUIRED.**—

(A) **IN GENERAL.**—The Director of the Administrative Office of the United States Courts, in consultation with the Director of the Federal Judicial Center, shall, using existing resources, conduct a study to examine the idea of developing a pilot program for patent small claims courts in certain judicial districts within the existing patent pilot program mandated by Public Law 111–349 (28 U.S.C. 137 note).

(B) **CONTENTS OF STUDY.**—The study conducted under subparagraph (A) shall examine—

(i) the number and qualifications for judges that could serve on the courts described in subparagraph (A);

(ii) how the courts described in subparagraph (A) would be designated and the necessary criteria;

(iii) the costs that would be incurred for establishing, maintaining and operating the pilot program described in subparagraph (A); and

(iv) the steps that would be taken to ensure that the pilot small claims courts are not misused for abusive patent litigation.

(2) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Director of the Administrative Office of the United States Courts shall submit a report to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate on the findings and recommendations from the study required under paragraph (1).

(e) **STUDY ON BAD-FAITH DEMAND LETTERS.**—

(1) **STUDY.**—The Intellectual Property Enforcement Coordinator, in consultation with the Director, shall conduct a study of the practice by a person, in connection with the assertion of a United States patent, of sending written communications that state that the intended recipients or any affiliated persons of such recipients are infringing or have infringed the patent and bear liability or owe compensation to another, whereby—

(A) the communications falsely threaten that administrative or judicial relief will be sought if compensation is not paid or the infringement issue is not otherwise resolved;

(B) the assertions contained in the communications lack a reasonable basis in fact or law, including, for example, because—

(i) the person asserting the patent is not a person, or does not represent a person, with the current right to license the patent to, or to enforce the patent against, the intended recipients or any such affiliated persons; or

(ii) the communications seek compensation on account of activities undertaken after the patent has expired; or

(C) the content of the written communications is likely to materially mislead a reasonable recipient, including, for example, because the content fails to include such facts reasonably necessary to inform the recipient of—

(i) the identity of the person asserting a right to license the patent to, or enforce the patent against, the intended recipient or any affiliated person of the recipient;

(ii) the patent issued by the United States Patent and Trademark Office alleged to have been infringed; and

(iii) the reasons for the assertion that the patent may be or may have been infringed.

(2) REPORT TO CONGRESS.—Not later than 18 months after the date of the enactment of this Act, the Intellectual Property Enforcement Coordinator shall submit to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate a report on the study conducted under paragraph (1), including recommendations for any changes to laws and regulations that will deter any abuses found in the practice described in paragraph (1).

SEC. 9. EFFECTIVE DATE.

Except as otherwise provided in this Act, the provisions of this Act shall take effect on the date of the enactment of this Act, and shall apply to any patent issued, or any action filed, on or after that date.

The Acting CHAIR. Pursuant to House Resolution 429, the gentleman from Michigan (Mr. CONYERS) and a Member opposed each will control 10 minutes.

The Chair recognizes the gentleman from Michigan.

Mr. CONYERS. Mr. Chairman, this substitute amendment is entitled the Conyers-Watt amendment, and I am very pleased to bring it to the attention of our colleagues at this time.

I am offering this substitute amendment because it will give the Members an opportunity to vote for language that will actually address the identifiable abuses in the patent system. These abuses include the inability to identify the real party in interest and filing abusive lawsuits against end users instead of manufacturers of product. These issues are addressed in a measured and balanced way in this substitute.

Unlike the reported bill, which makes one-sided changes in fee-shifting, discovery, and pleading requirements in all patent cases, not just cases involving trolls, my, our amendment, directly responds to the real problems without undermining the patent or legal system as a whole. That is what the thrust of our arguments have been throughout this debate.

Our amendment builds in large part on a patent reform bill introduced on the Senate side by Chairman LEAHY and which even the present administration and other stakeholders strongly support. The amendment does the following:

It promotes transparency of patent ownership by using a well-established standard utilized by many Federal courts to require plaintiffs to disclose entities with an interest in the patent;

It protects customers who are targeted in infringement suits by providing an option to stay the case against them while the manufacturer litigates the alleged infringement;

It directs the USPTO to develop educational resources for small businesses that are targeted in patent suits;

It helps innovators by ensuring that applicants do not abuse the patent system by simply filing variations on their patents to extend the length of the patent term.

Our amendment addresses the major concerns expressed by key stakeholders

about abusive patent litigation. And Members on both sides of the aisle, and a broad range of patent stakeholders, are strongly opposed to H.R. 3309 because of its many deficiencies and unintended consequences.

So rather than promoting innovation and job growth, we fear that the underlying bill will have just the opposite effect. Our amendment corrects many of the bill's deficiencies in a responsive and measured approach without unbalancing the entire patent system.

I implore my colleagues very strongly to support this amendment.

I reserve the balance of my time.

Mr. GOODLATTE. Mr. Chairman, I rise in opposition to the amendment and seek the time in opposition.

The Acting CHAIR. The gentleman from Virginia is recognized for 10 minutes.

Mr. GOODLATTE. Mr. Chairman, I must strongly oppose this substitute amendment. It is quite simply a poison bill that is designed to kill the Innovation Act. Although the substitute cuts and pastes a few provisions from the current bill, it includes additional provisions that create serious problems and excludes whole sections of the Innovation Act that are vital for America's job creators and innovators.

This substitute does not even include all of the provisions of the Leahy-Lee bill. It omits provisions that are important to our Senate colleagues.

The amendment's transparency provision would require a patent owner to "disclose to the court and all adverse parties any person known by the patentee to have a financial interest of any kind in a party to the proceeding."

The bill then defines financial interest in the context of the judicial recusal provision in the law. Under this definition, "financial interest" means "ownership of a legal or equitable interest however small." This would clearly appear to include ownership of a single share of stock in a company.

Moreover, this disclosure is required not just to be made with respect to the patentee but, by the terms of the bill, with respect to "a party to the proceeding." This would mean that a patentee would have to disclose all known shareholders of even the defendant or any other party in the lawsuit. This is obviously an absurd requirement. I assume that the sponsors did not intend to require this, but this is what their language requires. Clearly, the substitute needs more work.

Indeed, the substitute's cosponsors have, themselves, admitted that the substitute needs more work and could have serious, unintended consequences.

This substitute's changes to the bill's pleading requirements would also allow patent trolls to hide their identity, denying defendants the right to know who is suing them.

This substitute denies the defendant the right to know what they are being sued on in the first place.

This substitute also denies the defendant the right to know why they are being dragged into Federal court.

This substitute enables patent trolls to create an elaborate web of shell companies that can engage in frivolous litigation, allowing the patent trolls to hide behind them.

This substitute would allow a patent troll to engage in abusive and extortionate patent litigation without any accountability for the costs imposed on defendants.

□ 1200

This substitute would allow trolls to engage in submarine patenting by delaying prosecution and unreasonably extending patent terms far beyond the 20-year term. This substitute would force U.S. courts to follow foreign law and terminate IP licenses for U.S. manufacturers. This substitute would also encourage courts to delay case dispositive motions and prolong litigation. This substitute also allows the issuance of low-quality patents by permitting them to issue without review by technically trained patent examiners. This substitute amendment is a poison pill that will kill any chance at meaningful patent reform in this Congress.

By contrast, the Innovation Act helps to address the issues that businesses of all sizes and industries face from patent troll-type behavior and aims to correct the current asymmetries surrounding abusive patent litigation. Our bill keeps in mind several key principles.

First, we are targeting abusive patent litigation behavior and not specific entities or attempting to eliminate valid patent litigation. When we use the term "patent troll," it is as an adjective describing behavior rather than as a noun. Our goal is to prevent individuals from taking advantage of gaps in the system to engage in litigation extortion.

Second, our bill does not diminish or devalue patent rights. The patent system is integral to U.S. competitiveness, and we have ensured that our legislation strengthens the overall patent system, aligns with our international treaty obligations, and comports with the Constitution.

Third, this bill strikes the right balance of pushing for robust legal reform measures while protecting property rights, promoting invention by independent inventors and small businesses, and strengthening the overall patent system.

Supporters of this bill understand that if America's inventors are forced to waste time with frivolous litigation, they won't have time for innovation. We can no longer allow our economy and job creators to be held hostage to legal maneuvers and the judicial lottery.

American inventors have led the world for centuries in new innovations, from Benjamin Franklin and Thomas Edison to the Wright brothers and Henry Ford. But if we want to continue as leaders in the global economy, we must encourage the innovators of

today to develop the technologies of tomorrow.

This bill holds true to the Constitution, our Founders, and our promise to future generations that America will continue to lead the world as a fountain for discovery, innovation, and economic growth.

I stand in strong opposition to this substitute, and I urge my colleagues to support the underlying bill. Oppose the substitute.

I reserve the balance of my time.

Mr. CONYERS. Mr. Chair, I am pleased to yield 2 minutes to the gentleman from North Carolina (Mr. WATT), the cosponsor of this substitute amendment.

Mr. WATT. Mr. Chairman, I rise in support of the Conyers-Watt substitute because the substitute is a superior alternative.

The short title of our substitute is appropriately titled "The Deceptive Patent Practices Reduction Act" because it narrowly and specifically focuses on areas within our patent system where abuses can be curtailed without imposing onerous and disproportionate burdens on good-faith participants in the system; and in a number of cases, I believe the substitute will create efficiencies that will benefit all patent stakeholders.

Our substitute has three core provisions. First, we require patent holders who sue on a patent to provide transparency of ownership and other financial interests in the patent. This will expose those who seek to shield the true identity of the real party with the primary interests in asserting an infringement claim.

Second, our substitute reduces the burden on retailers, hotels, restaurants, and mom-and-pop shops that find themselves entangled in legal battles simply for using a product to make their businesses more attractive to their customers. I believe our customer stay provides a better baseline than the provision in the underlying bill, but I also recognize that it too requires further work.

Finally, I believe the study required under our substitute sets forth a clearer, more precise definition of demand letters that will avoid intrusions into legitimate business negotiations.

Perhaps more important is what the substitute does not do, namely, it does not disregard judicial independence in the courtroom or judicial prerogatives outside the courtroom to study, develop, and promulgate rules of procedure to govern trials and appeals in the courtroom. Our substitute also does not act with utter indifference to the collateral damage levied upon legitimate inventors and businesses that this bill will do.

Mr. GOODLATTE. Mr. Chairman, I reserve the balance of my time.

Mr. CONYERS. Mr. Chairman, I am now pleased to yield 2 minutes to the gentleman from New York (Mr. NADLER), a senior member of the committee.

Mr. NADLER. Mr. Chairman, I thank the gentleman for yielding.

I rise to support the Conyers-Watt substitute. Unlike the underlying bill, the substitute takes effective steps to address the patent troll problem without including the unnecessary endangered so-called "tort reform" provisions.

The substitute, like the bill, includes provisions providing customer stay exceptions, raising awareness in the small business community as to their rights when confronted with patent trolls, and increasing transparency of patents in the companies that own them.

The substitute takes additional steps to address the problem. It includes a study of how to address bad-faith demand letters, which are scaring retailers and others into settling claims based on convenience as opposed to merit.

And very importantly, the substitute does not include the loser-pays provisions of the underlying bill. Loser-pays laws have a chilling effect on justice. They would deter legitimate patent owners with meritorious claims from pursuing justice.

In this country, the general rule is that each side in a legal proceeding pays its own attorney fees and costs. Most of the statutory exceptions that Congress has enacted have been geared towards encouraging private litigation to implement good public policy.

Awards of attorneys' fees are often designed to help to equalize disputes between private individual plaintiffs and corporate or government defendants. Thus, attorneys' fees provisions are most often found in civil rights, environmental protection, and consumer protection statutes.

The provision in this bill differs from other congressional exceptions in that it would require anyone who loses a patent claim to pay the attorneys' fees of even large corporate defendants. This is a giant deterrent to genuine inventors from filing good-faith suits to defend their valid patent claims.

Therefore, I urge the adoption of the Conyers-Watt substitute which would drop the loser-pays provisions from the underlying bill while still including the key reforms that are present in the underlying bill and in the Senate bill drafted by Senator LEAHY.

I urge adoption of the substitute.

Mr. GOODLATTE. Mr. Chairman, I am pleased to yield 2 minutes to the gentlewoman from California (Ms. LOFGREN), who has been a great person to work with on the Judiciary Committee and here on the floor of the House on this legislation.

Ms. LOFGREN. Mr. Chairman, I appreciate the time.

Earlier in the debate, I jumped ahead of myself and addressed the issue of pleadings and discovery costs during the Watt amendment about fee shifting. So I will focus on fee shifting now.

The provision in the bill is absolutely right on. I oppose the English rule gen-

erally, but we have created dozens of times instances where the losing party can pay—let me just read the language:

The courts will shift the costs and fees to a non-prevailing party unless the party's position is reasonably justified in fact or law or the fee award would cause economic harm.

The discretion is still with the judicial officer to avoid harm.

In terms of what should be in the bill, I mentioned at the outset that I don't believe this bill is perfect. If it were up to me, the bill would also exempt PTO user-fees from sequestration; it would clarify the scope of prior art and the grace period; it would allow the PTO to continue using its BRI standard in post-grant and inter partes review. I hope that the Senate will address those issues. Certainly, the amendment by Mr. WATT and Mr. CONYERS does not.

It pains me when I have to disagree with my ranking member, who I admire so very much, but I do disagree with this amendment. I think it will absolutely gut the bill. I intend to vote against it, and I hope that others join me.

Mr. CONYERS. Mr. Chairman, I yield 1½ minutes to the gentleman from Georgia (Mr. JOHNSON).

Mr. JOHNSON of Georgia. Mr. Chairman, I rise in support of the Conyers-Watt substitute amendment.

I must say that this has been a very spirited debate here today, but I would be remiss not to come back to speak on the issue of an inventor such as Danny Ross, a venture capitalist and an example of the type of person that this bill should protect.

Danny cofounded a tech company down in Atlanta that employed more than 100 people and reached more than half the Internet audience at its peak. He owns several patents based on great inventions and has got a start-up. He had the Patent Office review and affirm these patents. But not only were these strong patents, they were also sought after by several companies. Rather than pay Danny for his innovation and hard work, these companies refused to license his patent. This practice is common for large companies that would rather bully someone in court than license their patents.

We are an innovation economy. The drive to create and tinker is what motivates Americans to innovate. Those innovations should be rewarded, and those innovators should be rewarded for their labor and contribution to society. That is the whole point of the patent system; but if this bill becomes law, patent owners and inventors will be unable to enforce their patents without risking personal bankruptcy.

I have long supported reform and am a friend of the innovation economy, but today I call on my colleagues to support this amendment.

Mr. GOODLATTE. Mr. Chairman, I yield 1 minute to the gentleman from Pennsylvania (Mr. MARINO), the vice chairman of the Courts, Intellectual Property and the Internet Subcommittee.

Mr. MARINO. Mr. Chairman, I oppose this substitute, and I will explain why I support the Goodlatte bill, H.R. 3309. This bill has been methodically drafted with abundant openness and clarity. Among other parts of this bill, and there are many, two are extremely important that I see. One is that it protects small business owners, entrepreneurs, young men and women who could lose their business or could lose their idea, young men and women that may even be visiting the Capitol today.

I want to explain what a troll does. A troll doesn't primarily go after larger companies. They go after upstarts, they go after young people who are starting to make a profit after years of work. They send them a letter and say, Pay me X amount of dollars, \$10,000, \$20,000, \$50,000, and I won't sue you. If I do sue you, we will go to court and you will probably go bankrupt because it is going to cost you that much. They are suing people based on using a phone, a scanner, and a copier which they purchased. They have no interest in the software; yet they are being sued for that.

This is good law. We have to get over the fact that the trolls are really taking advantage here. It is really going to cut the cost of litigation and get owners to the court on time.

Mr. CONYERS. Mr. Chairman, I am pleased to yield the balance of my time to the distinguished gentleman from California (Mr. ROHRABACHER).

Mr. ROHRABACHER. Mr. Chairman, we keep hearing about the trolls; and, yes, there is some problem with the trolls, and sometimes it hurts middle class people. But we can solve that problem without destroying the rights of our American independent inventors, and they are pleading with us, interest groups around the country are pleading with us not to go so fast.

I support the Conyers substitute, but I rise in opposition to this bill. Among those opposing or having expressed serious concern about this Innovation Act are the Association of American Universities, American Council on Education, Association of American Medical Colleges, Eagle Forum, Club for Growth, the American Bar Association, the Patent Office Professional Association, the American Intellectual Property Association, the National Association for Patent Practitioners, the Judicial Conference committee on rules and practices and procedures. Our judges are absolutely opposed to this, and yet we have this idea that we will just take away the rights of the little guy to have his day in court, that it doesn't make any difference. That is not what our judges say.

Mr. Chairman, I submit this list to be placed in the RECORD.

Please, let's not rush into a move that will destroy our independent inventors and our innovators in America.

DON'T BLOW UP THE BRIDGE TO INNOVATION
TO KILL THE "PATENT TROLL"

Oppose HR 3309, the Innovation Act, which will have numerous unintended consequences.

Some of the groups opposing, or concerned with, the Innovation Act: Association of American Universities; American Council on Education; Association of American Medical Colleges; Association of Public and Land-grant Universities; Association of University Technology Managers; California Healthcare Institute; Council on Government Relations; Eagle Forum; Club for Growth; American Bar Association (ABA); Patent Office Professional Association; Judicial Conference, Committee on Rules of Practice and Procedure; American Intellectual Property Association (AIPLA); Intellectual Property Owners Association IPO; National Association of Patent Practitioners (NAPP); University of California; National Venture Capital Association; Innovation Alliance; Coalition for 21st Century Patent Reform; Institute of Electrical and Electronics Engineers (IEEE).

Some concerns with the Innovation Act: creates more paperwork when an inventor files an infringement claim, increasing the costs to defend their rights; forces a patent holder who files a claim of infringement to maintain a new bureaucratic reporting requirement; and to pay new recordkeeping fees; eliminates the independent judicial review of patent applicants by striking Section 145 of Title 35. This is very important in order to keep the patent office honest. Striking this provision will leave the inventor with no independent recourse outside of the patent office. Dramatically increases the potential financial risks for filing an infringement lawsuit.

□ 1215

Mr. GOODLATTE. Mr. Chairman, I yield myself the balance of my time.

Yes, there is some problem with patent trolls, tens of billions of dollars a year in problems with patent trolls. Fifty-five percent of all the demand letters that are sent by these patent trolls go to small businesses.

There are serious problems that require real patent litigation reform, and I am proud that this bipartisan bill, supported by many Members on both sides of the aisle, supported by the administration, and supported by hundreds of organizations that are listed right here—come by the desk and you can see the huge list of organizations, conservatives, all across the political spectrum support this legislation.

American inventors have led the world for centuries. This bill holds true to the Constitution, our Founders, and our promise to future generations that America will continue to lead the world as a fountain for discovery, innovation, economic growth, and job creation.

I stand in strong opposition to this substitute amendment, and I urge my colleagues to vote for the underlying bill.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Michigan (Mr. CONYERS).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. CONYERS. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by

the gentleman from Michigan will be postponed.

ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments printed in part A of House Report 113-283 on which further proceedings were postponed, in the following order:

Amendment No. 1 by Mr. GOODLATTE of Virginia.

Amendment No. 2 by Mr. WATT of North Carolina.

Amendment No. 4 by Mr. MASSIE of Kentucky.

Amendment No. 5 by Ms. JACKSON LEE of Texas.

Amendment No. 7 by Mr. ROHR-ABACHER of California.

Amendment No. 8 by Mr. CONYERS of Michigan.

The Chair will reduce to 2 minutes the minimum time for any electronic vote after the first vote in this series.

AMENDMENT NO. 1 OFFERED BY MR. GOODLATTE

The Acting CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Virginia (Mr. GOODLATTE) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The Acting CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 341, noes 73, not voting 17, as follows:

ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR (during the vote).
There is 1 minute remaining.

□ 1257

Mr. POE of Texas changed his vote from “aye” to “no.”

Ms. BROWN of Florida changed her vote from “no” to “aye.”

So the amendment was agreed to.

The result of the vote was announced as above recorded.

Stated for:

Mr. MEEHAN. Mr. Chairman, on amendments to the Innovation Act (H.R. 3309), I intended to vote “yes” on the Rohrabacher amendment (rollcall No. 627), but inadvertently voted “no.”

AMENDMENT NO. 8 OFFERED BY MR. CONYERS

The Acting CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Michigan (Mr. CONYERS) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR (during the vote).
There is 1 minute remaining.

□ 1301

So the amendment was rejected.

The result of the vote was announced as above recorded.

The Acting CHAIR (Mr. WOMACK). The question is on the amendment in the nature of a substitute, as amended.

The amendment was agreed to.

The Acting CHAIR. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. YODER) having assumed the chair, Mr. WOMACK, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 3309) to amend title 35, United States Code, and the Leahy-Smith America Invents Act to make improvements and technical corrections, and for other purposes, and, pursuant to House Resolution 429, he reported the bill back to the House with an amendment adopted in the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment to the amendment reported from the Committee of the Whole?

If not, the question is on the amendment in the nature of a substitute, as amended.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. CONYERS. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 5-minute vote on passage of the bill will be followed by a 5-minute vote on the question on agreeing to the Speaker's approval of the Journal, if ordered.

The vote was taken by electronic device, and there were—ayes 325, noes 91, not voting 15, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There is 1 minute remaining.

□ 1312

Mr. FINCHER changed his vote from "no" to "aye."

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mrs. MCMORRIS RODGERS. Mr. Speaker, on rollcall No. 623, on H.R. 3309, on Agreeing to the Amendment offered by Mr. GOODLATTE of Virginia, I am not recorded because I was absent due to the birth of my daughter. Had I been present, I would have voted "yea."

Mr. Speaker, on rollcall No. 624, on H.R. 3309, on Agreeing to the Amendment offered by Mr. WATT of North Carolina, I am not recorded because I was absent due to the birth of my daughter. Had I been present, I would have voted "nay."

Mr. Speaker, on rollcall No. 625, on H.R. 3309, on Agreeing to the Amendment offered by Mr. MASSIE of Kentucky, I am not recorded because I was absent due to the birth of my daughter. Had I been present, I would have voted "nay."

Mr. Speaker, on rollcall No. 626, on H.R. 3309, on Agreeing to the Amendment offered by Ms. JACKSON LEE of Texas, I am not re-

corded because I was absent due to the birth of my daughter. Had I been present, I would have voted "nay."

Mr. Speaker, on rollcall No. 627, on H.R. 3309, on Agreeing to the Amendment offered by Mr. ROHRBACHER of California, I am not recorded because I was absent due to the birth of my daughter. Had I been present, I would have voted "nay."

Mr. Speaker, on rollcall No. 628, on H.R. 3309, on Agreeing to the Amendment offered by Mr. CONYERS of Michigan, I am not recorded because I was absent due to the birth of my daughter. Had I been present, I would have voted "nay."

Mr. Speaker, on rollcall No. 629, on H.R. 3309, on Passage, the Innovation Act, I am not recorded because I was absent due to the birth of my daughter. Had I been present, I would have voted "yea."

THE JOURNAL

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the unfinished business is the question on agreeing to the Speaker's approval of the Journal, which the Chair will put de novo.

The question is on the Speaker's approval of the Journal.

Pursuant to clause 1, rule I, the Journal stands approved.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H. RES. 417

Mr. CHABOT. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H. Res. 417.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

LEGISLATIVE PROGRAM

(Mr. HOYER asked and was given permission to address the House for 1 minute.)

Mr. HOYER. Mr. Speaker, I yield to my friend, the gentleman from Virginia, the majority leader, for the purpose of inquiring of the schedule for the week to come.

Mr. CANTOR. I thank the gentleman from Maryland, the Democratic whip, for yielding.

Mr. Speaker, on Monday, the House will meet at noon for morning-hour and at 2 p.m. for legislative debate. As announced previously, no votes are scheduled on Monday. On Tuesday, Wednesday, and Thursday, the House will meet at 10 a.m. for morning-hour and at noon for legislative business. First votes of the week will occur no earlier than 2 p.m. on Tuesday. On Friday, the House will meet at 9 a.m. for legislative business. Last votes for the week are expected no later than 3 p.m.

□ 1315

Mr. Speaker, the House will consider a few suspensions next week, a complete list of which will be announced by the close of business Friday.

On those suspensions, I am pleased to announce that the House will consider H.R. 2019, the Gabriella Miller Kids First Research Act sponsored by Representatives GREGG HARPER and PETER WELCH, which has over 2,000 citizen co-sponsors, and puts into practice what I hope we will all agree on, which is to place a priority on pediatric medical research over political party conventions.

In addition, Mr. Speaker, there are a number of legislative items which may become available for consideration next week, including legislation pertaining to the sustainable growth rate in Medicare, a budget agreement, and legislation pertaining to farm programs, including potentially a full farm bill conference report.

Mr. HOYER. I thank the gentleman for his information, and I appreciate the fact that he has put on there the sustainable growth rate in Medicare budget agreement, which hopefully we can get to, which will be bipartisan in nature and will be balanced and fair as well.

In addition, legislation pertaining to the farm program's farm bill is necessary. It has been in conference for some period of time. Hopefully, we can pass that as well.

I do note, however, with some degree of—actually, I said “some degree”—with very great disappointment that unemployment insurance extension is not listed by the leader. As the leader knows, 1.3 million people are going to have their unemployment benefits expire, I believe, on December 28. Those people will have no support structure. Very frankly, my own view is they will then go on some other support structure, some sort of welfare payment—SNAP payment, Medicaid—which they may be on already. But, in any event, it will not be at no cost. CBO estimates that it will cost as much as 300,000 jobs if we do not extend unemployment insurance.

We just had a hearing, Mr. Leader, where we had very, very compelling testimony from three people, with respect to—one of whom just found a job on Monday; she was very pleased at that—not only the economic damage that going off unemployment will cost them—and they have been looking for jobs—but also the psychological devastation to them and their families that that would cause.

Does the gentleman have any belief—I understand, and I read somewhere, the gentleman may want to comment on it. Some commented that there was no appetite for extending unemployment insurance on your side of the aisle—but can the gentleman give me any idea of the possibilities for having unemployment insurance extension on the floor so that we cannot see those 1.3 million people dropped off the rolls as of December 28?

I yield to my friend.

Mr. CANTOR. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I remind the gentleman that the expiration of the benefits that

he just referred to were benefits that were passed by this Congress 5 years ago as emergency spending, as emergency need, at a time in which we were facing near bottom in terms of our economy, the fallouts of the financial collapse; and those benefits, again, were brought about in those contexts.

I would say to the gentleman further, Mr. Speaker, that if he were to look at the jobs legislation that this House has passed, all of which is awaiting action in the Senate—the SKILLS Act, the Working Families Flexibility Act, the Keystone pipeline, the REINS Act, the Offshore Energy and Jobs Act, Federal Lands Jobs and Energy Security Act, Veteran Emergency Medical Technician Act, and the Veterans Economic Opportunity Act—all of these are measures which the House passed because, I think the gentleman would agree with me, the best way to address the chronically unemployed is to help them get back to work. These bills, especially the SKILLS Act, was one specifically designed to do that, to help those chronically unemployed to access the necessary skills that they need to enter the job market of today.

I would also further point out, Mr. Speaker, that this week, December 3, the Congressional Budget Office issued a report in response to a request for the extension of unemployment benefits in which it said that some unemployed workers who would be eligible for those benefits would reduce the intensity of their job search and remain unemployed longer, which would tend to decrease output and employment. This is the Congressional Budget Office speaking on the question that the gentleman raised.

Mr. Speaker, I would say that such policies, if we were to continue, would lead to greater Federal deficit, which would eventually reduce the Nation's output and income slightly below what would occur under current law. So I think that we should be focused on how we get folks back to work. That is where the House has been focused. Unfortunately, after 140-some bills we passed over to the Senate, they still await even consideration at all by that body.

Mr. HOYER. I thank the gentleman for his comment.

We neither have the time nor do I have the inclination to go through each one of those bills to which the gentleman refers as “jobs bills.” Of course, we have an alternative; and Mr. VAN HOLLEN will be talking about that in terms of jobs, investment, infrastructure, investment, education, and growing jobs for our people.

But the fact of the matter is, Mr. Speaker, there are 1.3 million people who can't find a job. To say that they will be disincentivized because we continue to give them some support so that they can survive and their families can survive during the period of time that they are looking for a job, there are three people looking for every one job that is available, and

most of those jobs that are available have skill sets that, unfortunately, the unemployed have not had.

We are for, on this side, skills training; we are for investing in education. We share the majority leader's view on that; but it is not going to be much solace for them, Mr. Speaker, and their families to say, well, we dropped you off the rolls, you won't be able to pay your mortgage, you won't be able to put food on your table because the Senate hasn't acted.

Whether the Senate should act on the bills in question I think is debatable. I opposed many of those pieces of legislation myself, as did others; but we have a crisis, and that crisis is we have 1.3 million. And that same CBO to which the majority leader referred said that not to pass this extended benefit will, in fact, undermine the economy and could cost as many as 300,000 jobs of people who are working now, but who will not be working because of the lack of resources of those 1.3 million consumers. Whether they are consuming food, housing, clothing, necessities of life, we are going to be undermining jobs in America and our economy. Almost every economist that I have talked to shares that view.

In any event, I want to make it clear to the majority leader that our side will be vigorously opposed and will oppose adjourning of the House as is scheduled on Friday the 13th of this month if, in fact, we have not passed unemployment insurance. We believe that is a critical thing to pass.

We also agree with the majority leader, however, that passing the sustainable growth rate is something that we ought to do before the end of the year. That will expire on December 31. The reimbursement of doctors to serve Medicare patients will be substantially reduced as a result of that. That is bad policy, not only for those on Medicare who are seeking medical services, but it is bad policy for the doctors and medical providers that will serve those people.

So I am pleased that he mentions SGR, the sustainable growth rate, the doc reimbursement, but not pleased that we do not have listed the unemployment insurance. We will be very adamant next week that that needs to be done. I understand that we may have a difference on that, but I want to let the majority leader know that that will be our position.

In addition, I do not see on there the defense authorization bill. I know that that is not the majority leader. We passed the defense authorization bill through here. I am hopeful that the Senate will move on that intelligence authorization.

The Senate has passed, Mr. Speaker, a comprehensive immigration reform bill. They passed it with 68 votes. We are very disappointed on this side of the aisle that the Senate bill has not been put on the floor. Our bill, H.R. 15, which is a bipartisan bill on which there are Republican sponsors of that

bill, or one of the four bills that has been reported out of the committee which was supported by the Republican Party in the Judiciary Committee and reported out four bills, they have not been brought to the floor.

We believe that comprehensive immigration reform is a critically important action for this Congress to take this year now. We have options available. We would hope that any one of those three options would be brought to the table, or, if you count four bills, seven options be brought to the floor.

In addition, the Senate has passed in a bipartisan way the ending of discrimination in employment. We talked about jobs; we talked about giving economic opportunity. We ought to do that in a nondiscriminatory way. The Senate has passed such a bill. That is not on the agenda for next week either.

I have an agenda which has a lot of bills on it: Make It In America. I notice we do have a suspension bill that has been specifically referenced. We will get into a debate on that next week, so I won't debate that bill today; but we have a suspension bill that we have been urging that is reported out of committee on voice vote, passed this Congress with, I think, over 350 votes—I know over 300 votes last Congress—that has not been brought to the floor, which simply says that we ought to have a plan and that plan ought to be a plan to expand manufacturing, grow jobs, grow profits, and grow salaries for individuals. And it is Mr. LIPINSKI's bill. I have been urging that that be put on the suspension calendar. I notice that that has not been put on either.

Trade adjustment assistance and tax extenders have been referenced. Hopefully, we can do all of those. Of course, we have a very short period of time left to do that.

□ 1330

Let me ask the majority leader, given that short time, does the majority leader have a high degree of confidence that, in fact, he will be seeking to follow the calendar that has been set out by the majority leader to end this first session of this Congress, indeed, on the scheduled date of December 13?

And I yield to my friend.

Mr. CANTOR. I thank the gentleman for the recitation of his desired wish list for what he would like to see on the floor. I would also like to remind the gentleman, Mr. Speaker, this House has passed well over 149, 150 bills, very much focused on job creation, very much focused on trying to make sure that we address the needs of those who are most vulnerable right now, trying to make sure that we can sustain the safety net while equipping those that are without the tools necessary to get up on that ladder of success.

Unfortunately, Mr. Speaker, the Senate has just refused to take up most of those bills. In fact, the House has passed and sent 189 bills to the U.S.

Senate so far this Congress, and that is excluding what we've done this week. And of those 189 House bills, 41 have been signed into law by the President; 148 bills have stalled in the Senate.

The Senate has, so far this year, passed only 43 bills this Congress; and out of those 43, only 14 have been signed into law by the President.

So, Mr. Speaker, we have done our work. We have got a lot more work to do on behalf of the American people.

One of the things I did not hear the gentleman, the Democrat whip, mention was the issue of health care. And obviously health care has been very, very much on the minds of America right now as they have witnessed the utter disaster of a rollout of ObamaCare.

As the gentleman knows, his constituents, as well as mine, are faced with higher premiums, faced with the realization now that the President has broken a major promise when he had said to the American people that they could keep their health care plans if they liked it. We know now that wasn't true, and so people are having to go and figure out what kind of plans are actually there for them.

The administration has claimed this week the Web site is working just fine. Well, we know good and well that the back end of that Web site is not working just fine. I am glad that people are able maybe to get on and see what is there. We don't really know because of the lack of transparency as to how successful the signups and enrollments are.

We do know now, though, that most Americans in the individual plan arena are facing higher premiums. Those that have had to give up their plans are facing higher premiums and plans that they don't necessarily choose, that they are now forced to have because of the operation of this law. I would say to the gentleman we need to focus on that very issue. What are we going to do? What are the alternatives?

We Republicans have an alternative. We voted on that alternative back in 2009. It was a plan that was centered on patients first. It was a plan that the Congressional Budget Office said would reduce premium costs for taxpayers, for patients out there. We have not resolved this question of health care. There is a better way; and I would say to the gentlemen, we ought to be spending some time focused on how we are going to resolve that for the millions of Americans who are very, very unhappy right now, given their options for healthcare under ObamaCare.

Mr. HOYER. Mr. Speaker, I am not surprised that the majority leader wants to talk about health care, because much of that legislation he has talked about then, 42, 43, 44, 45, 46 times that the Republican Party has tried to repeal health care.

My view, I want to make it very clear, is that this bill is substantively a very positive bill for the American people. A bill to which the gentleman

referred that Republicans offered in 2009 covered less than 3 million people of the 30 to 40 million people that had no insurance in America. So less than 10 percent were covered by the Republican bill.

Tens of millions of people, I predict, by the middle of next year, are going to be having coverage and having health care assurance because we passed this health care insurance bill.

He is right, the rollout was terrible. We are all disappointed with that, the President is disappointed with that, and it is being worked on. Now he doesn't recall, of course, perhaps, or he hasn't mentioned the rollout of the prescription drug bill, which wasn't too smooth, either. And, of course, the health care bill is broader even than that. He may not recall that Medicare had a tough rollout for a couple of years. But there is nobody on this floor who is saying, I am not saying that they don't believe it because I think there are people who believe we ought not to have Medicare. As a matter of fact, a former majority leader, not this majority leader, said we shouldn't have Medicare in a free society. That was a Republican majority leader, Mr. Speaker.

The fact of the matter is the health care bill is going to work, but it is interesting that when you ask a specific question about some critical issues that have passed the Senate in a bipartisan fashion overwhelmingly, they are not mentioned. Just go to the health care bill. Why? Because that is the politics. That is the politics of the issue right now.

Mr. CANTOR. Mr. Speaker, will the gentleman yield?

Mr. HOYER. I am glad to yield to my friend.

Mr. CANTOR. I say, Mr. Speaker, no, it is not politics. Mr. Speaker, it is about what people right now are concerned about. They send us here to reflect their problems and to try to reach solutions for the problems that they are facing. Right now more people in America, I would venture to say, are concerned about the choice they have for health care right now and how they will seek coverage for their family. And it is not about the politics. There are some things that actually do transcend Washington partisan politics, and right now, that is about health care.

We care about health care. Republicans care about health care. Democrats care about health care. Right now there is a serious problem given this ObamaCare law. We need to address that for the people. We need to help people, and that is what I am talking about, Mr. Speaker. I am not talking about the politics of it. I am talking about what is on the minds of millions of Americans right now as they are losing the coverage that they know and they have chosen and they can afford, facing the opposite. It is a disaster right now concerning ObamaCare. We have got to help the people of this

country when it comes to their health care. That is what it is about.

Mr. HOYER. I thank the gentleman.

Governor Steve Beshear of Kentucky spoke to us this morning. Now, Kentucky is not the center of Democratic politics in America, as MITCH MCCONNELL would quickly observe. Thousands of people are signing up in Kentucky—thousands of people—successfully. Thousands of people are coming forward. About 70,000 people have already signed up in Kentucky. Thousands of people are coming forward in New York and California, all over this country, who are saying I want the assurance and coverage of health care.

What have they spent their time on? Trying to repeal health care. They have talked about repeal and replace. We haven't had much replace, but we have had a lot of repeal. And what does the majority leader refer to, Mr. Speaker? A 2009 bill. It is a bill from three Congresses ago that he is talking about, and all we have had on this is repeal. If they are concerned about health care, then there ought to be an alternative that the other side offers; but, frankly, Mr. Speaker, they have not done that.

I would be glad to move to another subject. I am sure we can go back to health care because the majority leader, notwithstanding his assertion that this is not about politics, I will tell him that the majority of the American people in poll after poll after poll says they don't want health care repeal. They want it fixed, and they want it to work right and the assurance that it is available to them, but they do not want it repealed.

Right now, even though they are upset, as we all are, as I am and as the President is, about the rollout and about the Web site not working as effectively as we would like, Americans right now, I will tell the majority leader, the majority in polls say they don't want it repealed. They want it fixed and they want to have it work. Very frankly, I think that is where they are. Not everybody. Not everybody, I understand that, and certainly not some factions of the Republican majority's party. They have made that very clear in statements on this floor. But my view is that we ought not to simply distract from some of the important things that need to be done.

I was interested in Senator CORNYN's response when he talked about the Iran deal, which 65 percent of the American public says was a worthwhile effort to make. We need to carefully review it, and we need to oversee it and make sure it works, and the majority leader and I have to work on that. But when Senator CORNYN said this was just a ruse—and I don't think he used the word "ruse," but just an effort to distract from health care, I think that sort of indicates the extraordinary focus that this issue has energized the Republican Party, Mr. Speaker, over the last 3 or 4 years.

Can I ask the majority leader about the budget conference, whether he has

any idea—he has talked about, on the schedule, the budget conference coming forward. Does he have any idea whether a budget conference agreement has been reached, number one; and number two, if an agreement is reached, will it manifest itself in the form of a budget conference report?

I am informed, maybe correctly or incorrectly, that there will never be a budget conference report. Does the gentleman know whether that is the case or not, and whether or not some agreement might be manifested by a bill and not by a conference report?

I yield to the gentleman.

Mr. CANTOR. Mr. Speaker, I would say to the gentleman that the discussions that I have had with Chairman RYAN would lead me to some optimism that the two sides actually can come to an agreement. The agreement has not been made, so I don't want to say that there is a deal; but I am optimistic that, in fact, this time of year when the differences between the two sides have certainly been on display all year long, that perhaps we could agree that we need to reduce the deficit. We need to do something about the wasteful spending. And once again, I don't think the gentleman, nor I, thinks that the sequester is the best method to cut spending. It is indiscriminate. It cuts bad programs the same way as good programs, to put it simply. There are better ways.

Our side has always said, Mr. Speaker, that we have got to do something about the mandatory programs, the autopilot spending of the Federal Government that is disproportionately causing our deficit. I am hopeful that next week we can show the people of this country that we can produce something that is smarter than the way we are going about things now.

Obviously, a big concern to me is the national security and the defense of this country, as I know it is for the gentleman. And so again, I am hopeful that will be the case.

Now, the form that that agreement may or may not take I think right now is undetermined. I think it would be premature to even guess at that, and I would say to the gentleman that I know that he joins me in hoping that there is an agreement where we can maintain the trajectory in reducing spending and do it in a smarter way so we can get about the business of prioritizing the expenditure of taxpayer dollars here in this House.

Mr. HOYER. I thank the gentleman for his comments. I will say that he and I, as he has articulated, do agree that the sequester is not good policy. As a matter of fact, Chairman HAL ROGERS, the chairman of the Appropriations Committee, said it best when he said that the sequester cuts are ill-conceived and unrealistic and that he believes that the House action has indicated that that is the case. We have not done appropriation bills consistent with the sequester levels that as I understand were agreed at Williamsburg to be offered, but they haven't worked.

My own view, Mr. Speaker, of what is being discussed in the budget conference, some of the things that I have heard, strike me as being unbalanced, unfair, irresponsible, and unacceptable. Unless we have a balanced agreement, which in my view should replace the sequester because, as the majority leader indicates, it is not the rational way to go, as Mr. ROGERS indicates, it is not the rational way to go, and as every chairman of the appropriations subcommittees on the Republican side have said, it is not the way to go and ought to be replaced.

□ 1345

I am hopeful that any agreement will, in fact, replace the sequester. I am hopeful, Mr. Majority Leader, as you well know, that we will get a big deal—not a little deal, not nibbling around the edges so that what occurs is we do this every 6 months and we never get to a stability that I know the majority leader and I believe would give confidence to our economy, to the business community, and to our people if we got a big deal. Unfortunately, that does not seem to be, at least at this point in time, in the discussion. I think that is unfortunate.

As I said, what I have heard so far seems to me to be unbalanced, unfair, irresponsible, and, from my perspective, unacceptable. So I am hopeful that the Budget Committee conference will revisit or at least come up with a product that is not yet being discussed, which will accomplish the objective of putting this country on a fiscally sustainable path for the long term, not just the short term.

Mr. Speaker, I yield back the balance of my time.

ADJOURNMENT TO MONDAY, DECEMBER 9, 2013

Mr. CANTOR. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet on Monday next, when it shall convene at noon for morning-hour debate and 2 p.m. for legislative business.

The SPEAKER pro tempore (Mr. SALMON). Is there objection to the request of the gentleman from Virginia? There was no objection.

WATER FOR THE WORLD: TURN ON THE FAUCET

(Mr. POE of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. POE of Texas. Mr. Speaker, when you and I are thirsty, we walk 3 feet to the nearest faucet or grab a bottle of water out of the fridge; but that isn't so for thousands of people living around the world.

Each morning in Africa, women and young girls, like this girl in Tanzania, wake up and walk for miles just to collect water for their family. The walk can be dangerous because some wells

are controlled by violent thugs. These thugs often assault women and children in exchange for water. Often this water is dirty and leads to sickness and disease.

This is unimaginable for many Americans, but a reality for 780 million people on Earth who do not have access to clean water. We can fix this. That is why Congressman EARL BLUMENAUER and I have introduced the Water for the World Act. This bill uses existing taxpayer money to more effectively make clean water available to those who need it, such as digging wells in villages in Africa. According to the World Bank, for every dollar spent, at least \$4 is returned in saved health care costs and increased economic productivity.

We have it in our power to help people have clean water. It is something America can and should do. No one should be assaulted when they try to get water. It is 2013. It is time to turn on the faucet and make water universal for little girls like this.

And that's just the way it is.

OBAMACARE

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, the President's claim that Americans can keep the plans they know and like, to me, always appeared somewhat misinformed, if not insincere.

First of all, the law was designed to completely restructure America's health care system. Some, if not millions, of Americans were bound to lose their plans.

Plain and simple, the law was designed to have a large majority of Americans give up their health care coverage, pay higher premiums, or face a tax increase. In fact, if millions of Americans did not lose their coverage, the health insurance exchanges would be full of high-risk consumers, without healthier populations subsidizing those plans.

The President's broken promises are concerning, especially for our States dealing with this growing mess.

"This bandage may provide temporary relief," stated the insurance commissioner in my home State of Pennsylvania in response to the President's cancellation fix. However, "Pennsylvania will continue to see additional cancellations, rate increases, and significant problems due to Affordable Care Act-driven changes in the insurance marketplace."

Mr. Speaker, the American people deserve better.

AFGHANISTAN

(Ms. LEE of California asked and was given permission to address the House for 1 minute.)

Ms. LEE of California. Mr. Speaker, as most of us joined family and friends

over Thanksgiving week last week, 2,500 Afghan elders voted on a security agreement that could potentially leave thousands of United States troops in Afghanistan for at least another decade.

If the Afghan people are having a say in continued American troops in that country, at the very least this Congress should also debate and vote on any such agreement.

The war in Afghanistan has just entered its 13th year, and the need to bring our troops home remains urgent. President Karzai has recently suggested that he sees no potential security benefit from an ongoing United States security mission. I couldn't agree more, and the American people have long understood that there is no military solution in Afghanistan.

Mr. Speaker, especially at a time now when rising income inequality and harmful sequester cuts are hurting families and communities here at home, we need to get our priorities in order and stop spending good money after bad in Afghanistan.

We have known for years of the rampant waste, fraud, and abuse in Afghanistan, including bags of cash from the CIA being handed over in suit cases and plastic bags to corrupt Afghan government officials.

Enough is enough.

We need to end the corruption and end this war.

A BAD DEAL

(Mr. PERRY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PERRY. Mr. Speaker, the President has offered Iran what he describes as a "very limited, temporary, reversible sanctions relief." In this case, limited means \$20 billion in sanctions relief.

What was the world promised for the \$20 billion gift to the Iranian regime? A promise that Iran would pause, not dismantle, its nuclear weapons program for 6 months while we betray our allies and compromise Israel's ability to defend itself.

Let me tell you what this deal is like. It is like going to an auto mechanic you can't trust to fix an oil leak on your car. The mechanic says it will take 6 months to fix the leak and charges you \$1,000 up front. When you come back 6 months later, you will find that not only is the leak not fixed, but your car was stripped down and sold for parts.

As we speak, Iranian centrifuges are continuing to spin, continuing to enrich uranium, and continuing to threaten the safety of the United States and our allies.

Whether it is at your local auto shop or at the nuclear negotiating table, the American people know when they are getting a bad deal.

US-31 RIBBON CUTTING

(Mr. ROKITA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROKITA. Mr. Speaker, I rise today to celebrate the opening of the Kokomo section of the new US-31 corridor.

Indiana is called the "crossroads of America," and for great reason. With numerous interstates and highways crisscrossing our State and intersecting in Indianapolis, our geographic position and transportation network have made logistics and manufacturing critical components of our economy in America.

With that in mind, last week I had the privilege of attending the ribbon cutting of the new US-31 Kokomo corridor.

When the final Hamilton County section opens to traffic in 2015, a total of 32 stoplights will have been removed from US-31 between Indianapolis and South Bend, saving drivers a half hour of travel time.

The Indiana Department of Transportation also deserves great credit for completing this project nearly 2 years ahead of schedule and, so far, 40 percent below the projected budget. Washington bureaucrats could learn a lot from that efficiency.

I commend and congratulate all of the individuals, elected officials, and business and community groups involved in bringing the Kokomo corridor US-31 from the drawing board to reality.

MONUMENTS MEN

(Ms. GRANGER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. GRANGER. Mr. Speaker, one of the greatest untold stories from World War II is a story of the brave men and women known as the Monuments Men.

This special military unit was tasked with helping to locate works of art confiscated by the Nazis and return them to their rightful owners. The Monuments Men, and women, were able to locate, preserve, and return almost 5 million cultural items, including many of the world's great works of art.

Today, there are only five surviving members, four men and one woman, of the Monuments Men. I believe the veterans who participated in these daring missions are certainly worthy and deserving of the recognition of Congress' highest expression of appreciation. That is why I am honored today to introduce legislation recognizing these heroes with a Congressional Gold Medal.

While we can never say thank you enough, I believe the Congressional Gold Medal is a worthy token of appreciation from a grateful Nation to Members of the Greatest Generation.

WHEN ALL OPPRESSION SHALL
CEASE

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2013, the gentleman from Virginia (Mr. WOLF) is recognized for 60 minutes as the designee of the majority leader.

Mr. WOLF. Mr. Speaker, earlier this week, a profound 3-hour debate took place in the House of Commons on the persecution of Christians globally. Multiple British parliamentarians argued with great passion and persuasion that this is the human rights issue of our day and one which demands great attention on the part of the British Government, and the West more broadly.

In some respect, it is a sad commentary that such a conversation was remarkable, and yet it was. When was the last time this body, this Congress, let alone this administration or the State Department, spent even a fraction of that time talking about the thousands of people of faith who daily face discrimination, persecution, violence, and even death simply because of their most deeply held beliefs?

It is worth noting that several weeks earlier the House of Commons had a debate on the persecution of Christians, specifically in the Middle East. There was an overwhelming number of speakers, too many more than the allotted time. This week's debate starts to satisfy that interest.

In comparison, we have before us relatively modest legislation that has languished in the Senate for two consecutive Congresses now which would create a special envoy within the U.S. Department of State charged with advocating for vulnerable religious minorities in the Middle East and east Central Asia. How do we explain the utter lack of urgency on the part of our own government to address an epic exodus, that of Christianity from its very birthplace?

The House of Commons debate is timely, not simply because of the magnitude and pervasiveness of the problem, but also because millions of professing Christians around the world have just embarked on the Advent season in anticipation of celebrating the birth of Jesus, a birth marked by its humble beginnings in a small Middle Eastern town called Bethlehem.

Yet, as British member of Parliament, Sir Tony Baldry, noted with a sad irony:

There is now practically no country—from Morocco to Pakistan—in which Christians can freely practice their religion.

He continued:

There is a severe danger, as we start to celebrate the feast of Christmas in this country, that all Christianity will be almost completely erased from the traditional Middle East Holy Land of the Bible. Joseph would not now be advised to take Mary to Egypt to avoid the dangers of Herod, because Jesus would just not be safe there today.

To follow on Sir Baldry's line of thinking, the patriarch Abraham would

also have a difficult time surviving in Iraq having come from Ur, which is now Nasiriyah. Jonah would be hard pressed to make it to Nineveh, and Paul could scarcely travel the road to Damascus in Syria.

The debate in the House of Commons began with a staggering statistic, namely, that one Christian is killed every 11 minutes somewhere on Earth for their faith.

While the focus of the House of Commons' debate was on persecuted Christians, several MPs noted that whether or not you are a person of faith, all should be concerned by this troubling trend. Ultimately, freedom of religion and belief is a bellwether for other cherished freedoms. Where this "first freedom" is compromised, the whole of human rights is under assault.

□ 1400

In country after country, freedom of religion is indeed compromised, and Christians, to borrow a phrase from history, are in the eye of the "gathering storm."

This is perhaps no more true than in the Middle East. Here we see governmental, societal, and communal violence and repression against religious communities which specifically targets religious minorities, including Christians.

These realities have been exasperated by the so-called Arab Spring, a spring which has devolved into winter for many of the most vulnerable in these societies, foremost among them, ancient Christian communities.

With the fall of Hosni Mubarak, Coptic Christians, numbering roughly 8 to 10 million, are leaving in droves in the face of increased repression, persecution, and violence. They were increasingly marginalized with the ascendancy of the Muslim Brotherhood.

Of course, recent events in Egypt indicate a rejection, in part, of the Brotherhood's approach, but the situation is fluid, and news reports indicate that Islamists are taking advantage of the unrest to target Coptic Christians.

Similarly, Iraq's Christian population has plummeted. Churches have now been targeted, believers kidnapped for ransom, and families threatened with violence if they stay.

During the debate in the House of Commons, Canon Andrew White, famously dubbed the "Vicar of Baghdad" as he oversees the only Anglican Church in Iraq, was quoted as saying that Christians "are frightened even to walk to church because they might come under attack. All the churches are targets."

He went on to say, "We used to have 1.5 million Christians. Now we have probably only 200,000 left. There are more Iraqi Christians," he said, "in Chicago than there are here."

That is amazing. And this body, this Congress, this administration, silent.

The issues I have just outlined must be viewed not simply as today's news but, rather, through the lens of his-

tory. A phrase not often heard outside of the majority Muslim world is "First the Saturday people, then the Sunday people."

The "Saturday people" are, of course, the Jewish people. Except for Israel, the once vibrant communities and countries throughout the region are now decimated. In 1948, the Jewish population of Iraq was roughly 150,000. Today, no more than four individuals remain. In Egypt, the Jewish population was once as many as 80,000. Now roughly 20 remain. It appears a similar fate may await the ancient Christian community in these same lands.

If the Middle East is effectively emptied of the Christian faith, this will have great geopolitical and, I would argue, spiritual implications. But rather than being met with urgency, vision, or creativity, our government's response has been anemic and, at times, outright baffling, especially to the communities most impacted by the changing Middle East landscape.

Multiple other countries were mentioned during the House of Commons debate, including, but not limited to, China, Nigeria, Afghanistan, and Pakistan.

And keep in mind, the Obama administration has not pushed Iran for the release of Pastor Saeed Abedini. He sits in prison, his life is endangered, and this administration is silent.

It was rightly noted, with some degree of irony, that, despite the blood spilt in Afghanistan by British and American forces alike, not a single church—not a single church—remains in that nation.

One member of Parliament, Rehman Chishti, focused on the nation of Pakistan, where he was born. He said:

I come from a Muslim background. My father was an imam. When I saw the topic was persecution of Christians in the 21st century, I knew that it was absolutely right and proper to have a debate on that subject. It is important for the world to realize that persecution goes on.

He continued, and I quote:

The Blasphemy law is at the root of much suffering and persecution of Christians in Pakistan.

And then he specifically mentioned the case of Asia Bibi, a Christian mother of six, who, for years, has languished in prison and faces the death penalty for her alleged crimes.

Do you ever hear her name mentioned on the floor of the House? Do you ever hear her name mentioned at the State Department briefings? Do you ever hear her name mentioned at the White House? Does anyone even know who she is? Does anyone even care?

She faces death, the death penalty, for her alleged crimes.

Too often, when confronted with these types of cases, the State Department offers unsatisfactory assurances that they "raised the issue" during private bilateral discussions, that is, if they raised it at all. Or perhaps the Department issues a bland statement

“condemning the violence,” and then acts as if this is somehow a courageous or principled response to a bloody assault on innocent human life.

This State Department and this President ought to learn from President Reagan and his State Department. President Reagan always advocated for those who were persecuted. And Secretary Baker and the Bush administration always advocated.

This administration is silent. And, quite frankly, this Congress, House, and Senate are silent.

The suffering church takes little solace in this approach, nor should we. In fact, I profoundly reject this approach. The Congress should profoundly reject this approach. And I humbly submit, the church in the West should demand more, for, if not them, who?

With a few notable exceptions, among them the Catholic Church, specifically, Cardinal Dolan, who, in his farewell address as head of the U.S. Conference of Catholic Bishops, beckoned the bishops to extend their efforts to the “dramatic front lines of this battle, where Christians are paying for their fidelity with their lives.”

Too few in the American church are burdened with this point of action for their suffering brethren.

Reverend Martin Luther King’s “Letter from a Birmingham Jail” is addressed to his fellow—and everyone ought to read Martin Luther King’s “Letter from a Birmingham Jail.” It was addressed to his fellow clergymen. Earlier in the letter, he speaks of his love for the church, a love that I share, but then he goes on to admonish his fellow clergymen. This is what Martin Luther King said:

I must honestly reiterate that I have been disappointed with the church. When I was suddenly catapulted into the leadership of the bus protest in Montgomery, Alabama, a few years ago, I felt I would be supported by the White church. I felt that the White ministers, priests, rabbis of the South would be among our strongest allies. Instead, some have been outright opponents. All too many others have been more cautious than courageous and have remained silent behind the anesthetizing security of stained glass windows.

Could we not substitute a few words and be left with a similar critique today? Might the imprisoned Pakistani Christian lament, “I thought I would be supported by the church in the West”? Might the fearful Coptic Christians cry, “I thought the ministers in America would be among our strongest allies”?

If the church slumbers, Washington will scarcely lead the way. Do not expect the Congress or the administration to lead the way if the church does not lead the way.

Advent is the season of expectant waiting rich and spiritual meaning for believers the world over. My prayer this Advent is that the suffering church would no longer suffer alone, and that we would stand with them and seek a day when, in the words of the beloved Christian carol, “all oppression shall cease.”

Mr. Speaker, I yield back the balance of my time.

PERSECUTION OF CHRISTIANS WORLDWIDE

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 3, 2013, the Chair recognizes the gentleman from Texas (Mr. GOHMERT) for the remainder of the hour as the designee of the majority leader.

Mr. GOHMERT. Mr. Speaker, as a follow-up to my dear friend, FRANK WOLF from Virginia and the discussions he was having, this needs further emphasis.

Here is an article from the Dallas Morning News dated 10 November 2013, “The Triple Tragedy of Christian Persecution in the Middle East.” It explains that Christians in the broader Middle East, it seems, are in the cross-hairs.

In September, two Taliban suicide bombers rushed All Saints Church in Peshawar, Pakistan, as worshippers exited. One exploded his bomb outside, one inside. Eighty-two people were slaughtered. Eighty-two people trying to peacefully attend a Christian church in Pakistan, where we are sending so much money, were slaughtered, with no consequences coming from the Pakistani Government that we keep engorging with our money.

Back to the article.

In March, it says, two churches and about 100 Christian homes were ransacked in Lahore. Today, millions of Christians and other religious minorities are facing vile persecution. Many Christians are struggling to escape from the countries where their ancestors have lived for two millennia. The human tragedy unfolding in these countries is profoundly disturbing, but the tragedy extends beyond the suffering of individuals and families.

Next month, in Rome, Georgetown University, in partnership with Baylor University, where I went to law school, will showcase the findings of a 2-year study on Christianity and freedom. Three dozen scholars will assemble to discuss what Christians have contributed to freedom and prosperity in their own country and, implicitly, what will be lost if those countries are emptied of their Christian populations.

Might be worthy of parenthetically inserting that, in Afghanistan, where thousands of Americans have shed their blood for Afghan freedom, where billions and billions of dollars have been spent, we help them with a constitution that makes shari’a law the law of the land, that makes the President, basically, almost a dictator.

As some of the regional leaders have told me, DANA ROHRBACHER, STEVE KING, and others, look, if you would just help us with an amendment to the Afghanistan constitution, we would have a shot at staying alive after you pull out.

The Northern Alliance that actually defeated the Taliban completely within

a few months after we started providing them aerial support, embedded special ops, and intelligence, less than 500, they defeated the Taliban, provided some weapons. They defeated the Taliban.

□ 1415

People have forgotten, but for years, in Iraq, people referred to Afghanistan—even Senator Obama. That is where the real fight is. That was where it was done well. And it was done well.

The Taliban was defeated. It was routed by some of the most incredible and fearless fighting, led by General Dostum. We have got people in this administration now calling him and others war criminals because they fought for themselves, their own freedom, to rid themselves of tyrannical radical Islamists. They are Muslims. They are my Muslim friends. They defeated our enemy. They are the enemy of our enemy. And yet this administration is releasing Taliban.

One of the Taliban leaders that has been on national Afghan television was released from Guantanamo by this administration for humanitarian purposes. And the humanitarian purposes are, now he is back leading the Taliban and making it clear that the Taliban will control all of Afghanistan once the United States pulls out. He likes to talk in terms of how the U.S. has been greatly defeated, and that is why we are begging the Taliban, offering to buy them things, give them things if they will just let us exit gracefully.

We are embarrassed around the world. We do no longer have the world’s respect. There are a lot of countries that have never admired us. Tyrannical leaders have not admired the United States because we are the only nation, that I am aware of, in the history of the world that shed our blood and our treasure for other people to have freedom. That is why they still speak Japanese in Japan. That is why they still speak German in Germany. We have never been about building some great empire. We have been about freedom, liberty. No other country has done that. No other country has died for the cause of liberty for people they didn’t know.

And now it seems that this administration keeps committing us to support countries that are persecuting Christians, persecuting secularists, persecuting those who do not have the strict radical Islamist beliefs that the radical Islamic believers have, the leaders, as radical Islamist believers have.

This article in the Dallas News goes on and says:

The countries include Egypt, where the holy family fled when Jesus was a baby. Many Christians now are exiting Egypt in the wake of the badly misnamed “Arab Spring.” In August alone, scores of churches were torched, some of them dating to the fifth century.

They include Syria, Paul’s destination when he was called by Jesus. Today, many Syrian Christians have fled, fearing the prospects of an Islamist regime. One village,

Maaloula, is one of the last places on Earth where Aramaic, the language of Jesus, is still spoken. In September, it was overrun by Islamist terrorists.

Those, by the way, are the Islamist rebels that this administration is supporting.

It has been publicly reported, this administration—without Congress making a move to stop them—has sent tons and tons of weapons to the radical Islamist rebels in Syria who are killing, raping, and torturing Christians in Syria.

If there is a God, as I know with all my heart there is, if the God that had his protective hand on Israel—until Israel stopped honoring the God of Abraham, Isaac, and Jacob—if that God exists, as I know in my heart he does, then how long will he continue to have a hand of protection on a nation that has, in the last 2 years, repeatedly betrayed and stabbed Israel in the back, taken whatever actions it could to prevent Israel from defending itself, and in this last act of ignorance, in trying to negotiate with Iranian terrorist leaders who want the little Satan, Israel, wiped off the map—they made that very clear—who want the great Satan, the United States, wiped off the map.

Of course they will talk to the United States. Of course. They are working as allies with North Korea. And North Korea can explain to them, as we have talked about here on the floor, how in 1994 they convinced Bill Clinton, Madeline Albright, and Wendy Sherman, who was the policy director for North Korea for the Clinton administration, to do a deal where the United States would give them nuclear reactors, help them, get them running, fuel, whatever they needed, and in return, we were basically asking them to renounce nuclear weapons and promise they wouldn't develop nuclear weapons. And we additionally agreed to not be inspecting their nuclear facilities, which actually allowed them to develop the nuclear bombs and the ballistic missiles by which they are assisting Iran.

Wendy Sherman actually briefed this Congress this week. She is the lead negotiator for the Obama administration. I mean, that makes as much sense as an administration hiring a company to do an absolutely essential critical Web site for people's health and well-being as someone who has no track record of being terribly successful. I mean, surely an administration wouldn't do that. Oh, yes, they did do that with ObamaCare. Oh, yes, they are doing it in negotiating with terrorist thugs who want us wiped off the map.

I mean, this is the same kind of inane thinking that would have an American President in the 1970s proclaiming the Ayatollah Khomeini as a man of peace when he was a terrorist and took over a nation and its military, for the first time in generations that a terrorist Islamic leader had been the leader of a country with a powerful military.

Here is another article, from Townhall.com, December 5, 2013, by Conn Carroll:

Violence against Christians is rising across the Middle East. Open Doors USA's CEO David Curry investigates for the December issue of Townhall magazine.

Christians in the Middle East and around the world are being persecuted, imprisoned, and martyred for their faith. There is widespread, systematic violence, and no one in the mainstream media and government seems to have noticed. We may see the elimination and extinction of Christianity in its very birthplace, without a whimper of protest from the West.

I have got to say, if the God who protected Israel in its inception through many generations until they stopped honoring the God of Abraham, Isaac, and Jacob—which, by the way, no country has ever fallen while it was truly honoring the God of Abraham, Isaac, and Jacob. So if you were completely a-religious, completely atheistic, but you wanted to have a free country and you wanted to have it safe and protected, then it would sound like, from historical purposes, that it might be a good thing to encourage those who believe in God to keep doing so, because when a nation's leaders honor that God, that nation is protected. It is only when it turns away that it falls.

The article goes on:

Middle Eastern Christians are not persecuted because they are criminals, anarchists, or for participating in uncivil behavior. They are persecuted because of what they believe. They are not promoting any particular political party or agenda. They simply want the freedom of faith and religion that Americans experience every day.

It is puzzling why most of our media and political leaders remain silent, despite overwhelming evidence of a major humanitarian crisis. When the scope of the persecution is seen, it's hard to understand how this could have slipped under the radar of nearly all our leaders in Washington. One is left wondering if the oversight is intentional or merely a giant blind spot the size of the entire Middle Eastern region.

Consider what occurred during a 4-week period during August and September: Syrian rebels attacked the historic Christian enclave of Maaloula, damaging some iconic churches while driving out most of the Christians as well as other residents.

Jihadi terrorists blew up a church in Peshawar, Pakistan, taking more than 85 lives and injuring many more. After the attack, Pakistani Christians protested in the streets, to no avail, demanding protection of their churches and schools, which are under daily threat of harassment and destruction.

Muslim Brotherhood forces in Egypt attacked and burned 73 churches, hundreds of Christian-owned businesses, properties, and schools.

These are but a handful of attacks that make news. Each day, Christians in the Middle East are suffering all manner of indignities for their faith. Those include destruction of property, harassment, targeted rape of Christian women, and a legal system that ignores the rights due to their faith. Many governments fail to pursue, capture, and prosecute jihadist radicals who perpetrate these crimes against Christ's followers.

Then it goes on to talk about a broader pattern. Leadership in a vacuum.

An article from Crossmap.com says:

One Christian Killed Every 11 Minutes: U.K. Parliament is Told Christianity is "Most Persecuted Religion."

The plight of Christians around the world was discussed in a 3-hour debate at the Houses of Parliament in London yesterday. Members of the House of Commons were told that the persecution of Christians is increasing, that one Christian is killed around every 11 minutes around the world, and that Christianity is the "most persecuted religion globally."

A long list of countries in which life as a Christian is most difficult was discussed, including Syria, North Korea, Eritrea, Nigeria, Iraq, and Egypt.

M.P. Jim Shannon said the persecution of Christians is, "the biggest story in the world that has never been told." He said that although the right to freedom of thought, conscience, and religion is enshrined in the Universal Declaration of Human Rights, there are many countries in which these rights are not given.

Shannon alleged that 200 million Christians will be persecuted for their faith this year, while he said that 500 million live in "dangerous neighborhoods."

He added that in Syria Christians are "caught between opposing sides in the conflict," and mentioned the "specific targeting" of Christian-dominated locations, such as Sadad and Maaloula.

M.P. Sammy Wilson said that in Syria, "50,000 Christians have been cleared from the city of Homs," while in Sudan, 2 million Christians were killed by the regime over a 30-year period.

□ 1430

He added:

Within the last month, hundreds of people, from Nigeria to Eritrea to Kazakhstan to China, have been arrested and put in prison simply because of their faith, and when they go into prison, they are denied due process. They are denied access to lawyers. They are sometimes even denied knowledge of the charges facing them. They can languish in prison for a long time and in horrible conditions.

This is not only happening in Muslim countries. From Morocco to Pakistan, Christians in Muslim countries are under threat, but it happens elsewhere, too.

There is an article from Religious Freedom Coalition from October 18 of this year. It says:

On Wednesday evening, Senator John McCain was on NBC Nightly News and was asked what he thought about Congressman Louie Gohmert suggesting that he was supporting al Qaeda-linked groups in Syria.

To this, McCain responded that he considered Representative Gohmert to be a "person of no intelligence"—clearly suggesting that Gohmert was dimwitted and not worthy of dealing with.

In responding to McCain's attack on his intelligence, Gohmert issued the following statement to the media.

"Obviously, Senator McCain would be better off with 'no intelligence' since he doesn't know the Syrian opposition he met with is infested with al Qaeda and terrorist kidnapers. His 'intelligence' even caused him to support the Muslim Brotherhood in Egypt that burned churches and killed Christians, as the Senator stood against the will of the massive majority of Egyptians, including moderate Muslims, Christians, and secularists who demanded the Muslim Brotherhood extremist persecutions must end."

I want to add here that this administration has supported the Muslim Brotherhood leadership of President Morsi in Egypt while Christians were being persecuted and as the largest

arising, gathering of people in protest of the history of the world rose up in Egypt and demanded an end to the radical Islamic rule of President Morsi after he had vastly exceeded, repeatedly, the constitutional powers.

And as they told me in my last trip to Egypt, unfortunately, the constitution that we should have helped them do a better job with did not include any provision for impeachment. I can't understand why the Obama administration would not have encouraged a country developing a new constitution to put in a provision for impeachment. I don't know why this administration would not have encouraged that, but it wasn't there.

So when President Morsi vastly exceeded the authority of the constitution and began moving toward being a monarch, millions of people—reportedly 20, 30, 33 million Egyptians rose up—90 million people in the whole country—they rose up and demanded that the President be removed.

The Christian Pope in Egypt told me personally that this was the will of the people. Please tell the administration and people in America this was not a coup. This was the people of Egypt rising up, as he talked about arm-in-arm the moderate Muslims, secularists, Christians joined hands, joined arms, and protested and demanded that the military remove President Morsi. And they did.

As these articles have talked about, the violence in August, the violence in the summer against Christian churches—73 or so burned down, Christians killed and tortured—that was by the Muslim Brotherhood. And because the people of Egypt and the military could see the persecution of Christians, and they wanted to stop it, they basically disbanded the Muslim Brotherhood as a party, as an organization in Egypt; and the burning of churches stopped and the persecution of Christians stopped.

And to such a great and noble thing that the Egyptians have done in bringing an end to this radical Islamist Muslim Brotherhood control of Egypt, bringing an end to the burning of churches, bringing an end to the killing and torturing of Christians in Egypt, how has this administration reacted to reward Egypt for doing such a noble thing?

The aid that this administration was providing to Egypt when it was controlled by the Muslim Brotherhood has now been cut off because the Egyptian people had the temerity to demand an end to radical Islamic reign and the killing and persecution of Christians.

It is unbelievable that I live in a country that rewards groups that persecute Christians and withdraws assistance to those who stop the persecution of Christians.

This article says:

Of course, McCain is doing exactly what someone who has been busted usually does: he smears his accuser. Why else would McCain defend the likes of Reid, Schumer, and Durbin while accusing Gohmert of hav-

ing "no intelligence"? The answer is that Gohmert is doing what no one at his level or higher is doing; he's calling McCain out for siding with America's enemies.

Those were comments of former PLO terrorist Walid Shoebat. He has seen the light, ended his time as a terrorist, and is trying to educate people on the dangers of radical Islam.

The article points out that our friend, Senator McCAIN, had hired a Syrian Islamist propagandist, Elizabeth O'Bagy, to become one of his legislative assistants after she was exposed for lying about her Ph.D. and being paid shill for Islamists seeking to overthrow President Assad of Syria.

As former terrorist, Walid Shoebat explains:

Congressman Louie Gohmert should be getting reinforcements from the more conservative elements in the Republican Party. But will he? Frankly, we doubt it.

Congressman Gohmert deserves our praise, our vocal support, and our prayers for having the courage to hold another Republican responsible for promoting national security policies that endanger the lives and freedoms of millions of Syrians and Egyptians who do not wish to live under an Islamic dictator.

I appreciate their commendation. I know that there is not a Senator in the U.S. Senate that wants to do harm to this country or to Christians around the world. But that is why it is so important to take a look at what this country's, this administration's policies are doing to the cause of persecution of Christians around the world.

An article from Christian Today, dated Wednesday, December 4:

Seventy Christians killed at the hands of Boko Haram in Nigeria.

Further attacks against Christians in Nigeria have been reported, bringing the total number killed in the past year to an estimated 900. According to Release International, 34 Christians were murdered in Borno State in the northeast last month, and raiders killed an additional 37 in the central Plateau State on 26 November.

Church leaders believe the attacks in the north were carried out directly by Islamist terrorist group Boko Haram, while those in central Nigeria were carried out under their direction.

What is going on around the world right now with the persecution of Christianity is tragic. Or as the UK Parliament was told, Christians are the most persecuted people in the whole world. In fact, even in the United States right now, Christians are about the only group in America against whom it is okay to discriminate. It is okay to hate them and ascribe hatred to the believers and the man of love and peace, Jesus Christ. It is rather tragic.

And as the world sees, this administration continues. As leaders in the Middle East told a handful of us back in September, What do you not understand? It was the Muslim Brotherhood behind the attack on 9/11 of 2001. It was the Taliban, but basically the Muslim Brotherhood in Afghanistan you went to war against. It was the Muslim Brotherhood that was killing Christians in Egypt. It was the Muslim Brotherhood—al Qaeda—that attacked

you in Libya, that helped in Libya, and now you are helping them in Syria.

We don't understand what you don't understand. The people you declared war on that hate you and want to destroy you, you are supporting in Syria and you supported in Egypt. We don't understand.

And for moderate Muslims around the world, our friends in Afghanistan, our friends in the Middle East, they don't understand how we keep rewarding those who hate Christians and hate the United States, and we persecute leadership like in Egypt right now that stopped the persecution of Christians. We ought to be sending people rushing over to Egypt saying thank you for stopping persecution of especially Christians, but also moderate Muslims and secularists in Egypt. You have done a good thing. We ought to be helping them set up their next elections, which they want to do.

As I am sure people are aware, CNN has got a story here about, "China claim of air rights over disputed islands creates risk of incident."

China has wanted to claim this part of the ocean for decades, but they were always afraid of making a move to physically exert claim over this area of the blue water. And yet they have obviously come to believe that the United States is so weakly led right now that they could make claim to this part of the sea that they were scared to claim in the past and overtly take control over it. It hurts our friend Japan; it hurts other allies for us not to take a stand.

And yet we get reports that this administration was telling our allies, Well, just do what China requests for now. Just do what they request—instead of showing strong leadership to stand up against a move of aggression.

We see Russia moving more radically than we have seen in decades. People just thought Russia had gone away. The Soviet Union did go away, but Russia now has perceived a vacuum in world leadership since the United States seems to be taking a leave of absence; and now we have Putin being considered more powerful than our U.S. President.

Well, I can see how some would see the aggressive leadership he has taken and believe that he is more powerful. It is not right. Our President has all the power he needs if he would use it.

But it is time to take a stand, even for those who like to belittle Christianity, even those who have far different beliefs. This Nation has had an invisible protective hand that has guided it, led us away from slavery, led us to proper civil rights.

□ 1445

Then it seemed we were at about the peak of enforcing our Constitution so that it didn't discriminate, so that the words of the Declaration of Independence were fully embraced:

We hold these truths to be self-evident, that all men are created equal, that they are

endowed by their Creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness.

Yet, as churches have been behind the movement to establish the Constitution, the movement to eliminate slavery, the movement to recognize civil rights so people are not judged by the color of their skin but by the content of their character—as was the dream of Dr. Martin Luther King, Junior, an ordained Christian minister—now we have turned full circle, and now we are starting to persecute and reward those who abroad persecute the very churches that made America the freest country—the only country from which people have fought and died for the liberty of others—the most generous and giving Nation in the history of the world, where more freedoms, liberties, and assets have been attained by individuals than in any country in the history of the world.

It is exceptional, but we are losing our exceptionalism because we are refusing to stand up for the beliefs of Christians here and around the world.

If we want to extend this little experiment in democracy, as one of the Founders said—if we want to acknowledge Ben Franklin's comment “it is a Republic if you can keep it,” and we want to keep it—it is time to rise up, not through violence. Just stop rewarding those who persecute Christianity. Those who burn churches, those who kill Christians, quit rewarding them—quit providing them arms—because, if we don't, we will slip down the slide of history into the dustbin of history, and people will only be able to look back and say, “What an amazing country that once was.”

I am here in Congress because I believe we have the chance to salvage this great country and get back our international leadership we once had and stand for freedom of religion in the world and in America, but God help us if we don't.

Mr. Speaker, I yield back the balance of my time.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. DOYLE (at the request of Ms. PELOSI) for today on account of a family illness.

ADJOURNMENT

Mr. GOHMERT. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 2 o'clock and 49 minutes p.m.), under its previous order, the House adjourned until Monday, December 9, 2013, at noon for morning-hour debate.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker's table and referred as follows:

3994. A letter from the Ambassador, Embassy of the Republic of Indonesia, transmitting a letter regarding the Farm Bill of 2013; to the Committee on Agriculture.

3995. A letter from the Acting Senior Procurement Executive, General Services Administration, transmitting the Administration's final rule — Federal Acquisition Regulation; Federal Acquisition Circular 2005-71; Introduction [Docket No.: FAR 2013-0076. Sequence No. 7] received November 26, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Armed Services.

3996. A letter from the Counsel, Legal Division, Bureau of Consumer Financial Protection, transmitting the System's final rule — Truth in Lending (Regulation Z) [Docket No.: CFPB-2013-0035] received December 2, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

3997. A letter from the Counsel, Legal Division, Bureau of Consumer Financial Protection, transmitting the Bureau's final rule — Consumer Leasing (Regulation M) [Docket No.: CFPB-2013-0034] received December 2, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

3998. A letter from the Chief Counsel, FEMA, Department of Homeland Security, transmitting the Department's final rule — Suspension of Community Eligibility (Mason County, WV, et al.) [Docket ID: FEMA-2013-0002] received November 26, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

3999. A letter from the Chief Counsel, FEMA, Department of Homeland Security, transmitting the Department's final rule — Suspension of Community Eligibility (Webster County, KY, et al.) [Docket ID: FEMA-2013-0002] received November 26, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

4000. A letter from the Director, Regulations Policy and Management Staff, Department of Health and Human Services, transmitting the Department's final rule — Listing of Color Additives Exempt From Certification; Spirulina Extract; Confirmation of Effective Date [Docket No.: FDA-2011-C-0878] received December 26, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4001. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Air Quality Implementation Plans; Maryland; State Boards Requirements [EPA-R03-OAR-2013-0650; FRL-9903-78-Region-3] received December 3, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4002. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Implementation Plans; State of Oregon; Revised Format of 40 CFR Part 52 for Materials Incorporated by Reference [EPA-R10-OAR-2013-0419; FRL-9900-70-Region 10] received December 3, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4003. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Direct Final Approval of Hospital/Medical/Infectious Waste Incinerator Negative Declaration for Designated Facilities and Pollutants: Michigan and Wisconsin [EPA-R05-OAR-2013-0678; FRL-9903-33-Region-5] received December 3, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4004. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agen-

cy's final rule — Disapproval, Approval and Promulgation of Air Quality Implementation Plan Revisions; Infrastructure Requirements for the 1997 and 2006 PM2.5 National Ambient Air Quality Standards; Prevention of Significant Deterioration; Wyoming [EPA-R08-OAR-2011-0728; FRL-9903-58-Region 8] received December 3, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4005. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Prevention of Significant Deterioration for Particulate Matter Less Than 2.5 Micrometers — Significant Impact Levels and Significant Monitoring Concentration: Removal of Vacated Elements [EPA-HQ-OAR-2006-0605; FRL-9903-84-OAR] (RIN: 2060-AR99) received December 3, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4006. A letter from the Secretary, Federal Trade Commission, transmitting the Commission's ninth annual report on Ethanol Market Concentration, pursuant to Section 1501(a)(2) of the Energy Policy Act of 2005; to the Committee on Energy and Commerce.

4007. A letter from the Secretary, Department of the Treasury, transmitting as required by section 401(c) of the National Emergencies Act, 50 U.S.C. 1641(c), and section 204(c) of the International Emergency Economic Powers Act, 50 U.S.C. 1703(c), and pursuant to Executive Order 13313 of July 31, 2003, a six-month periodic report on the national emergency with respect to the stabilization of Iraq that was declared in Executive Order 13303 of May 22, 2003; to the Committee on Foreign Affairs.

4008. A letter from the Special Assistant to the President and Director, Office of Administration, transmitting the personnel report for personnel employed in the White House Office, the Executive Residence at the White House, the Office of the Vice President, the Office of Policy Development, and the Office of Administration for FY 2013, pursuant to 3 U.S.C. 113; to the Committee on Oversight and Government Reform.

4009. A letter from the Chairman, Council of the District of Columbia, transmitting Transmittal of D.C. ACT 20-219, “Cottage Food Amendment Act of 2013”; to the Committee on Oversight and Government Reform.

4010. A letter from the Chairman, Council of the District of Columbia, transmitting Transmittal of D.C. ACT 20-220, “Trauma Technologies Licensure Amendment Act of 2013”; to the Committee on Oversight and Government Reform.

4011. A letter from the Chairman, Council of the District of Columbia, transmitting Transmittal of D.C. ACT 20-221, “Extension of Time to Dispose of the Strand Theater Temporary Amendment Act of 2013”; to the Committee on Oversight and Government Reform.

4012. A letter from the Acting Senior Procurement Executive, General Services Administration, transmitting the Administration's final rule — Federal Acquisition Regulation; New Designated Country — Croatia [FAC 2005-71; FAR Case 2013-019; Item II; Docket No.: 2013-0019, Sequence No. 1] (RIN: 9000-AM66) received November 26, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Oversight and Government Reform.

4013. A letter from the Acting Senior Procurement Executive, General Services Administration, transmitting the Administration's final rule — Federal Acquisition Regulation; Technical Amendments [FAC 2005-71; Item III; Docket No.: 2013-0080; Sequence No. 5] received November 26, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Oversight and Government Reform.

4014. A letter from the Acting Deputy Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; 2013 Commercial Accountability Measure and Closure for South Atlantic Blue Runner [Docket No.: 100812345-2142-03] (RIN: 0648-XC871) received December 2, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

4015. A letter from the Secretary, Federal Trade Commission, transmitting the Commission's final rule — Premerger Notification; Reporting and Waiting Period Requirements (RIN: 3084-AA91) received November 26, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on the Judiciary.

4016. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Ocean Dumping; Sabine-Neches Waterway (SNWW) Ocean Dredged Material Disposal Site Designation [EPA-R06-OW-2011-0712; FRL-9903-26-Region-6] received November 26, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4017. A letter from the Secretary, Department of Energy, transmitting an authorization of a noncompetitive extension of up to five years; to the Committee on Science, Space, and Technology.

4018. A letter from the Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting the Service's final rule — 2014 Section 1274A CPI Adjustments (Rev. Rul. 2013-23) received December 3, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

4019. A letter from the Chief, Publications and Regulations, Internal Revenue Service, transmitting the Service's final rule — Proposed Revision of Procedures for Advance Pricing Agreements [Notice 3013-79] received December 3, 2013, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. ELLISON (for himself, Mr. STIVERS, Mrs. CAROLYN B. MALONEY of New York, and Mr. DELANEY):

H.R. 3656. A bill to amend the Federal Home Loan Bank Act to expand the purposes of advances and collateral available to community development financial institutions; to the Committee on Financial Services.

By Mrs. HARTZLER (for herself, Mr. BARBER, Mr. KINGSTON, and Mrs. MILLER of Michigan):

H.R. 3657. A bill to limit the retirement of A-10 aircraft; to the Committee on Armed Services.

By Ms. GRANGER (for herself and Mr. CAPUANO):

H.R. 3658. A bill to grant the Congressional Gold Medal, collectively, to the Monuments Men, in recognition of their heroic role in the preservation, protection, and restitution of monuments, works of art, and artifacts of cultural importance during and following World War II; to the Committee on Financial Services, and in addition to the Committee on House Administration, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BURGESS:

H.R. 3659. A bill to amend title XIX of the Social Security Act to clarify policy with re-

spect to collecting reimbursement from third-party payers for medical assistance paid under the Medicaid program, and for other purposes; to the Committee on Energy and Commerce.

By Mr. CARTWRIGHT (for himself, Mrs. NAPOLITANO, Mr. RUIZ, Ms. KAPTUR, and Mr. ANDREWS):

H.R. 3660. A bill to amend the Elementary and Secondary Education Act of 1965 to require local educational agencies to implement a policy on allergy bullying in schools; to the Committee on Education and the Workforce.

By Mr. GOSAR (for himself, Mrs. KIRKPATRICK, Mr. JONES, Mr. MCCLINTOCK, and Mr. FRANKS of Arizona):

H.R. 3661. A bill to authorize the Secretary of the Interior or the Secretary of Agriculture to enter into agreements with States and political subdivisions of States providing for the continued operation, in whole or in part, of public land, units of the National Park System, units of the National Wildlife Refuge System, and units of the National Forest System in the State during any period in which the Secretary of the Interior or the Secretary of Agriculture is unable to maintain normal level of operations at the units due to a lapse in appropriations, and for other purposes; to the Committee on Natural Resources, and in addition to the Committee on Agriculture, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. GIBSON (for himself and Mr. THOMPSON of California):

H.R. 3662. A bill to amend title XVIII of the Social Security Act to provide for the coverage of marriage and family therapist services and mental health counselor services under part B of the Medicare program, and for other purposes; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mrs. NOEM (for herself, Mr. CONAWAY, Mr. FITZPATRICK, Mr. ROE of Tennessee, Mr. RODNEY DAVIS of Illinois, and Mr. ADERHOLT):

H.R. 3663. A bill to prohibit regulations establishing certain limits for the school lunch program, and for other purposes; to the Committee on Education and the Workforce.

By Mr. BRADY of Pennsylvania:

H.R. 3664. A bill to prohibit the Federal Government from preventing a private business from operating during a Government shutdown on Federal property leased by the business from the Federal Government; to the Committee on Oversight and Government Reform.

By Mr. DELANEY (for himself, Mr. GOODLATTE, Mr. POLIS, Mr. JOHNSON of Georgia, and Ms. MOORE):

H.R. 3665. A bill to provide for the coverage of medically necessary food under Federal health programs, and for other purposes; to the Committee on Energy and Commerce, and in addition to the Committees on Ways and Means, Armed Services, and Oversight and Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. DELAURO (for herself and Mr. DOGGETT):

H.R. 3666. A bill to alleviate the sequestration and to end offshore tax abuses, to preserve our national defense and protect American families and businesses from devastating cuts, and for other purposes; to the

Committee on Ways and Means, and in addition to the Committees on Financial Services, and the Budget, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. HARRIS (for himself, Mr. PRICE of Georgia, Mr. DUNCAN of South Carolina, Mr. RIGELL, Mr. MULVANEY, Mr. WILSON of South Carolina, Mr. CASSIDY, Mr. FLEMING, and Mr. BURGESS):

H.R. 3667. A bill to amend title XIX of the Social Security Act to increase by 10 percentage points the required State match for certain newly eligible individuals under the Medicaid program and to apply savings against sequestration reductions otherwise required, and for other purposes; to the Committee on Energy and Commerce, and in addition to the Committee on the Budget, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. KILDEE:

H.R. 3668. A bill to amend the Medicare, Medicaid, and SCHIP Extension Act of 2007 to make permanent the exemption of grandfathered long-term care hospitals from the Medicare 25 percent threshold payment adjustment; to the Committee on Ways and Means.

By Mr. MAFFEI:

H.R. 3669. A bill to amend title 18, United States Code, to provide for increased supervision of persons required to wear an electronic monitoring device as a condition of release from prison, to criminalize disabling such an electronic monitoring device, to establish the Office of the Inspector General for Probation and Pretrial Services, and for other purposes; to the Committee on the Judiciary.

By Ms. MENG (for herself, Mr. BARTON, and Mr. LANCE):

H.R. 3670. A bill to amend the Communications Act of 1934 to expand and clarify the prohibition on provision of inaccurate caller identification information, and for other purposes; to the Committee on Energy and Commerce.

By Mr. MILLER of Florida:

H.R. 3671. A bill to amend title 38, United States Code, to expand the eligibility for a medallion furnished by the Secretary of Veterans Affairs to signify the veteran status of a deceased individual; to the Committee on Veterans' Affairs.

By Mr. RUIZ (for himself and Mr. NUGENT):

H.R. 3672. A bill to amend title 38, United States Code, to clarify that caregivers for veterans with serious illnesses are eligible for assistance and support services provided by the Secretary of Veterans Affairs, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. SCHOCK (for himself and Mr. KIND):

H.R. 3673. A bill to amend the Internal Revenue Code of 1986 to treat amounts paid for umbilical cord blood banking services as medical care expenses; to the Committee on Ways and Means.

By Mr. SCALISE (for himself, Mr. GENE GREEN of Texas, Mr. JORDAN, Mr. ADERHOLT, Mr. LANKFORD, Mrs. BACHMANN, Mr. FRANKS of Arizona, Mr. WALBERG, Mr. PITTS, Mrs. HARTZLER, Mr. STUTZMAN, Mr. COTTON, Mr. MULVANEY, Mr. GOHMERT, Mr. ROE of Tennessee, Mr. KING of Iowa, Mr. PRICE of Georgia, Mr. POSEY, Mr. WILSON of South Carolina, Mr. LAMALFA, Mr. PITTEMBERG, Mr. WEBER of Texas, Mr. PALAZZO,

Mr. MARINO, Mr. WOODALL, Mr. FARENTHOLD, Mr. JOYCE, Mr. STEWART, Mr. BARR, Mr. HULTGREN, Mrs. BLACKBURN, Mr. MCALLISTER, Mr. HARRIS, and Mr. DUNCAN of South Carolina):

H. Res. 431. A resolution calling on the United States Senate to increase sanctions against Iran; to the Committee on Foreign Affairs, and in addition to the Committees on the Judiciary, Financial Services, Oversight and Government Reform, and Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. SARBANES (for himself, Mr. GRIMM, Ms. TITUS, Mrs. CAROLYN B. MALONEY of New York, Mr. CICILLINE, Ms. TSONGAS, and Mr. BILIRAKIS):

H. Res. 432. A resolution recognizing the 100th anniversary of the unification of the Island of Crete with the Hellenic Republic and expressing support for designation of December 1, 2013, as "Cretan Enosis Day"; to the Committee on Foreign Affairs.

By Mr. BARLETTA:

H. Res. 433. A resolution expressing the sense of the House of Representatives regarding the practice of using gas chambers to euthanize stray cats and dogs; to the Committee on Agriculture.

CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule XII of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

By Mr. ELLISON:

H.R. 3656.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1, Clause 3 and Clause 18.

By Mrs. HARTZLER:

H.R. 3657.

Congress has the power to enact this legislation pursuant to the following:

The constitutional authority on which this bill rests is the power of Congress "to provide for the common Defence", "to raise and support Armies", "to provide and maintain a Navy" and "to make Rules for the Government and Regulation of the land and naval Forces" as enumerated in Article I, Section 8 of the United States Constitution.

By Ms. GRANGER:

H.R. 3658.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8 of the Constitution

By Mr. BURGESS:

H.R. 3659.

Congress has the power to enact this legislation pursuant to the following:

The attached bill is constitutional under Article I, Section 8, Clause 3: "To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes" as well as Article I, Section 8, Clause 1: "The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defence and general Welfare of the United States; but all Duties, Imposts and Excises shall be uniform throughout the United States."

By Mr. CARTWRIGHT:

H.R. 3660.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8 (relating to the power of Congress to lay and collect taxes, duties, impost and excises, to pay the debts and provide for the common defense and general welfare of the United States.)

By Mr. GOSAR:

H.R. 3661.

Congress has the power to enact this legislation pursuant to the following:

Article IV, Section 3, Clause 2.

The Congress shall have Power to dispose of and make all needful Rules and Regulations respecting the Territory or other Property belonging to the United States; and nothing in this Constitution shall be so construed as to Prejudice any Claims of the United States, or of any particular State.

Currently, the federal government owns approximately 29 percent of all land in the United States. The U.S. Constitution specifically addresses the relationship of the federal government to these lands. Article IV, §3, Clause 2—the Property Clause—gives Congress full authority over federal property including the National Park System. The U.S. Supreme Court has described Congress's power to legislate under this Clause as "without limitation." This bill falls squarely within the express Constitutional power set forth in the Property Clause.

By Mr. GIBSON:

H.R. 3662.

Congress has the power to enact this legislation pursuant to the following:

Clause 1 of section 8 of article 1.

By Mrs. NOEM:

H.R. 3663.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8, Clause 18. To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the government of the United States, or in any department or officer thereof.

By Mr. BRADY of Pennsylvania:

H.R. 3664.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the United States Constitution.

By Mr. DELANEY:

H.R. 3665.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clauses 1 and 18 of the Constitution of the United States.

By Ms. DELAURO:

H.R. 3666.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1 & 18; and Article 1, Section 9, Clause 7 of the U.S. Constitution

By Mr. HARRIS:

H.R. 3667.

Congress has the power to enact this legislation pursuant to the following:

Section 8 of Article 1, Section 9 of Article 1 of the Constitution.

By Mr. KILDEE:

H.R. 3668.

Congress has the power to enact this legislation pursuant to the following:

U.S. Const. art. I, §8.

By Mr. MAFFEI:

H.R. 3669.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 18 of the U.S. Constitution.

By Ms. MENG:

H.R. 3670.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8, Clause 3

By Mr. MILLER of Florida:

H.R. 3671.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8.

By Mr. RUIZ:

H.R. 3672.

Congress has the power to enact this legislation pursuant to the following:

clause 18 of section 8 of article I of the Constitution

By Mr. SCHOCK:

H.R. 3673.

Congress has the power to enact this legislation pursuant to the following:

The constitutional authority on which this bill rests is the power of Congress as stated in Article I, Section 8, Clause 1 of the United States Constitution.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were deleted from public bills and resolutions as follows:

H. Res. 417: Mr. CHABOT.

PETITIONS, ETC.

Under clause 3 of rule XII,

59. The SPEAKER presented a petition of the Morgan Hill Chamber of Commerce, California, relative to a letter urging the Congress to move forward on H.R. 3080; which was referred to the Committee on Transportation and Infrastructure.

EXTENSIONS OF REMARKS

HONORING DR. FRANK MELOY

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. SHUSTER. Mr. Speaker, I rise today to recognize the work of Dr. Frank Meloy and the positive impact he's had in Altoona and Logan Township in Blair County, Pennsylvania as both a professional educator and a dedicated public servant.

Dr. Meloy is a retired administrator with the Altoona Area School District. During his 42 year tenure with the district, he rose from the ranks of Special Education Teacher to Assistant Superintendent—a position he held for twenty years.

Dr. Meloy received his Bachelor of Science degree from Indiana University of Pennsylvania, a Master of Education degree from Pennsylvania State University and a Doctor of Education from Temple University.

In addition to his esteemed career in education, Dr. Meloy has been an elected Supervisor in Logan Township since 1996. At the end of his current term in 2013, he will have served eighteen continuous years on the Township Board of Supervisors—the majority of those years as Chairman.

Under Dr. Meloy's fiscal leadership, tax rates in Logan Township have remained among the lowest in the county, and he has saved his municipality thousands of dollars by refinancing several bond issues. He has been extremely instrumental in transforming the Township's system of fire protection into a modern, well-equipped and cost-effective unit. Dr. Meloy also has been the Township's representative on numerous committees and boards during his term, and has been recognized for his active volunteerism by several community organizations including the PA Homeless Children's Initiative, the Blair Bedford Central Labor Council AFL-CIO, and the Kiwanis Club of Altoona.

Dr. Meloy will be honored on December 12, 2013 at his last official meeting as a Township Supervisor. I congratulate him on this recognition, and thank him for his distinguished careers in education and public service.

PROVIDING FOR CONSIDERATION OF H.R. 3309, INNOVATION ACT; AND PROVIDING FOR CONSIDERATION OF H.R. 1105, SMALL BUSINESS CAPITAL ACCESS AND JOB PRESERVATION ACT

SPEECH OF

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 4, 2013

Ms. JACKSON LEE. Mr. Speaker, as a senior member of the Judiciary Committee, I rise to speak on the rule governing debate for H.R.

3309, and about innovation in America—the great job creator. H.R. 3309 is a bill before its time as the America Invents Act was signed into law barely two years ago. Many of the major provisions of this landmark legislation which many on the Judiciary Committee and in this body voted for have not even been put into practice.

It is well documented that our innovation ecosystem—founded on patents—drives economic growth and job creation in the United States. From the hustle and bustle of downtown Houston, Silicon Valley, Chicago, New York, and even here in Washington, DC, Americans want to keep our cherished system as strong as possible. For the future of our economy, we cannot risk jeopardizing it. And while the AIA was unquestionably pro-innovator legislation, its post-grant challenge provisions also unquestionably shifted the balance of rights toward implementers and away from patent holders. The question is—just how much has that balance shifted?

Mr. Speaker, H.R. 3309 contains a provision that concerns me greatly. Section 3 of the bill directs a court to award attorney fees and costs to prevailing party in patent infringement cases.

This provision, commonly called “Loser Pays,” is prevalent in England but has heretofore been unknown to the American legal system. And for good reason. Loser pays laws ensure that only the wealthiest members of society or large corporations can afford to undertake a civil action and also unnecessarily punishes individuals with serious and meritorious claims for seeking access to justice. Loser pays policies fail to recognize that a person or a business can have a legally legitimate dispute regarding fact and law, and yet still ultimately lose the case. Loser pays policy sets a dangerous precedent and may prevent individuals from pursuing even the most meritorious civil liability claims.

If “loser pays” is implemented it could be a roadblock for people pursuing whistleblower, consumer mortgage, employment discrimination and other civil rights cases. The real losers under a “loser pays” system in patent cases is the individual inventor and small businesses seeking to vindicate their constitutional right to the exclusive use of the discoveries and inventions.

Mr. Speaker, we should proceed with caution and engage in a deliberative process that takes the time to rehash and listen to all stakeholders.

Many small innovators—today's Priceline.coms, Yahoo's, Google's, Facebook's, Eli Lilly's, Twitter's, akin to yesteryears Edisons—have not had time to make their views heard.

I thank the Rules Committee for making in my amendment that modifies the Manager's Amendment to ensure that more small businesses are protected by providing that the customer stay exception applies to all small businesses with annual revenues under \$25 million.

A number of the provisions in this bill may be well-intentioned, but they have undesirable

consequences for the patent system as a whole. They have the potential to undermine the enforceability of all patent rights, no matter how valuable the patent, and thus potentially incentivize infringement.

That is why I offered three amendments in the Judiciary Committee and three in the Rules Committee yesterday.

My first amendment would have modified section 9(a) of the bill to preserve the right of an applicant to file a civil action to obtain a patent in district court “upon a showing of good cause or where justice so requires.” I offered this amendment in response to information I received during my discussion with stakeholders, including the Chief Judge of the Federal Circuit, which hears all patent claims.

I thank the Committee also for making in my amendment which requires the PTO Director, in consultation with other relevant agencies, and interested parties, to conduct a study to examine the economic impact of the litigation reforms contained in the bill (sections 3, 4, and 5 of this Act) on the ability of individuals and small businesses owned by women, veterans, and minorities to assert, secure, and vindicate the constitutionally guaranteed exclusive right to inventions and discoveries by such individuals and small business. This amendment supplements and improves the bill, which requires PTO to conduct 4 studies and submit reports to Congress. The required studies are:

I also joined with Ranking Member Conyers of the Judiciary Committee on an amendment that strikes Section 3(b) which requires that courts reward attorney's fees and expenses to the prevailing party. I urge Members to support this amendment as well.

Mr. Speaker, innovation is the engine that drives our economy. Let us not act rashly in passing legislation that will harm the ability or lessen the incentive of innovators to make the discoveries and create the products that will power our economy in the 21st century.

HONORING GREEN GROVE M.B.
CHURCH

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor a remarkable and historical church, Green Grove M.B. Church.

Green Grove M.B. Church is one of the oldest churches in Belzoni, Mississippi. The 11th Mississippi Freedom Trail marker was unveiled at the church because of Rev. George Lee. Rev. Lee was an early participant in the Civil Rights Movement. Also, Rev. Lee was a vice president of the Regional Council of Negro Leadership, a co-founder of the Belzoni branch of the NAACP, and a powerful public speaker.

In 1955, Rev. Lee addressed a crowd of 10,000 people that gathered for a voter registration rally in Mound Bayou, Mississippi.

• This “bullet” symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Two weeks later, Lee was assassinated and no one was ever charged for his murder. Rev. Lee's funeral was held at Green Grove M.B. Church where the marker is erected. This was the 11th Mississippi Freedom Trail marker to be unveiled.

Mr. Speaker, I ask my colleagues to join me in recognizing Green Grove M.B. Church their determination and dedication to serving others and giving back to its community.

RECOGNIZING DOVER HIGH
SCHOOL

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. LANCE. Mr. Speaker, I rise today to recognize Dover High School of Dover, New Jersey for being named a Blue Ribbon School by the United States Department of Education.

The Department of Education acknowledges schools where students attain and maintain high academic goals. Dover High School is a proud example of academic excellence where students have high levels of performance, stellar student achievement and where educators facilitate a strong learning environment.

I congratulate the students, faculty and community on this high honor. This is a prestigious award to receive and Dover High School is a proud example of academic excellence and worthy of this national distinction.

TRIBUTE TO BISHOP WELLINGTON
BOONE

HON. PAUL C. BROUN

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. BROUN of Georgia. Mr. Speaker, I rise today to pay tribute to an incredible man of faith, with a true calling and heart for serving the Lord, Bishop Wellington Boone.

Bishop Wellington Boone was ordained into ministry in 1973, and in this same year, he married his childhood sweetheart, Katheryn. Today, Bishop Boone not only celebrates 40 years of ministry, but 40 years of loving marriage with his wife.

In today's world, it is unique and certainly admirable to see a couple celebrate 40 years of marriage. Their long-lasting marriage is a testament not only to their commitment to each other, but to their dedication in serving the Lord.

Bishop Boone's 40 years of leadership and service in ministry is also a tremendous accomplishment, and one that deserves recognition. Through his work, Bishop Boone has faithfully led others in their quest to glorify and serve the Lord.

Mister Speaker, I ask that you join me in congratulating Bishop Boone as he celebrates 40 years of ministry, and 40 years of marriage with his lovely wife, Katheryn. I extend my personal congratulations to them both, and wish them many more joyful years ahead in both their ministry and marriage.

HONORING DR. ANN C. NOBLE

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of California. Mr. Speaker, I rise today to recognize Dr. Ann C. Noble, an Emerita Professor, Sensory Scientist and Flavor Chemist from the Department of Viticulture and Enology at the University of California, Davis. I honor her today in conjunction with the American Society for Enology and Viticulture, which will be hosting an all day symposium in her honor on January 31, 2014.

Over the course of her career, Dr. Noble's research has contributed greatly to the advancement of viticulture and enology. Some of her most notable research conducted while at U.C. Davis was the application of multivariate statistics to sensory data and the creation of a standardized language to describe wine, known as the Wine Aroma Wheel. In addition to this important research, Dr. Noble has also published over 150 papers and book chapters and has taught many students at U.C. Davis through her course, titled "Wine Types and Sensory Evaluation".

For her work, Dr. Noble has been honored by the American Society for Enology and Viticulture, Decanter magazine, Women for Wine Sense and IntoWine.com. Significantly, Dr. Noble was the first female faculty hired into the Department of Viticulture and Enology at the University of California, Davis.

As founder and co-chairman of the Congressional Wine Caucus, I am incredibly proud of, and grateful for, the contributions Dr. Noble has made to viticulture and enology in California. Mr. Speaker, it is therefore appropriate at this time that we acknowledge Dr. Noble for her significant and lasting contributions to the American Wine Industry.

IN SUPPORT OF FARM BILL
CONFERENCE

HON. RICHARD HUDSON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. HUDSON. Mr. Speaker, I rise today to call upon my colleagues currently negotiating the Farm Bill through the Conference process to get the job done on behalf of our nation's farmers and agribusiness community.

I understand and respect the challenges facing the House and Senate in these final steps to getting a bill across the finish line. I also understand the significant differences between the two bills before us. But, it's time to get a deal done. We have waited long enough.

I have the privilege to serve on the Agriculture Committee and I join my colleagues in supporting the House-passed bill that equips our farmers with the tools and certainty they need to produce an affordable and stable food supply while making significant reforms and cutting wasteful spending. I am proud of the bill the House passed and support many of the provisions contained therein.

I join with my farmers back in the Eighth District of North Carolina in encouraging our negotiators to finish this work so we can get

a Five Year Authorization complete. It's time to get this bill to the President's desk. Our farmers and agribusiness community have waited long enough and our local economies depend on it.

HONORING BILL ERICKSON

HON. CORY GARDNER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. GARDNER. Mr. Speaker, I rise today to honor Bill Erickson from Eaton, Colorado. A longtime dairyman, Mr. Erickson was recently honored with the Colorado State University Alumni Association 50 Year Club's Public Service Award for his work with 4-H, a United States Department of Agriculture (USDA) youth organization which promotes science, citizenship, and healthy-living through hands-on learning activities. Mr. Erickson has been involved with 4-H for 60 years.

Mr. Erickson became involved with 4-H as a child and has since served the Colorado agricultural community in a variety of leadership roles. He is a long-standing member of the Weld County Farm Bureau and has also served as president of both the Weld County 4-H Leadership Council and the Colorado 4-H Leadership Council. Now 84, Mr. Erickson continues to be involved with 4-H and serves on the Agriculture Committee for the Greeley Chamber of Commerce.

I am extremely grateful for Mr. Erickson's dedication to agricultural development and the youth of Weld County. Please join me in congratulating him on receiving this award.

HONORING BRINSON FUNERAL
HOME

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor a remarkable funeral home, Brinson Funeral Home.

Brinson Funeral Home was established in 1939 by Booker T. Brinson, Sr. and Ruby Brinson at 723 Aloe Avenue in Cleveland, Mississippi. They worked diligently in the farming industry in Sunflower County to be able to purchase their funeral home. In the early 80's their son, John Brinson, took over the business. John wanted to maintain the legacy and vision of his parents, who believed that every family they serviced was special and deserved the best during and after their bereavement.

The Brinson Funeral Home staff of funeral directors and morticians understands that it is "A Home That Service Built".

Mr. Brinson throughout the years has maintained the authenticity of the facility, while using the latest technology and educational tools, the funeral home continues to be a thriving establishment in the community. Brinson Funeral Home sponsors, contributes and participates in numerous youth and charitable organizations.

Mr. Speaker, I ask my colleagues to join me in recognizing Brinson Funeral Home for their dedication in being a corner stone in the City of Cleveland and Bolivar County Mississippi.

IN RECOGNITION OF GREATER ST. MARK A.M.E. CHURCH'S 127TH ANNIVERSARY

HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. BISHOP of Georgia. Mr. Speaker, it is my honor and pleasure to extend my sincere congratulations to the congregation of Greater Saint Mark A.M.E. Church in Columbus, Georgia as they celebrate a remarkable 127 years. The anniversary celebration will be held on Sunday, December 8, 2013 at 3:00 pm at Greater St. Mark Church in Columbus. The event will also be an opportunity to welcome Reverend Kevin Moore as the church's new pastor.

Greater Saint Mark traces its roots back to 1886 when the seven original members began holding prayer meetings in a small house located on the land where the church stands today. From the prayer meetings, soon grew a Sunday school and eventually, a full church service with a devoted congregation. St. Mark assigned its first pastor, Reverend M.R. Wilson, in 1889, and from his pastorate came the church's original structure.

Since then, the Church has seen many changes. After Reverend W.L. Brown installed a new piano and organ, Reverend A.M. Threath purchased a new parsonage, transforming the old one into classrooms, a Pastor's study, and meeting space. Reverend W.J. Daniels helped the Church acquire new pews, carpeting, and a bell honoring Mrs. Susie Herte and Miss Clara Charleston. The Bussey-Hixon-Alexander Annex was built to accommodate a modern kitchen and restroom, a pastor's study, a secretary and finance office, a choir room, and a stewardess room. In honor of Mrs. Johnnie Mae Johnson, a scholarship fund was established, along with the donation of a church van.

In addition to the physical renovations to Greater St. Mark, many of the church's leaders have focused on advancing the spiritual impact the church can make on the surrounding area. Under the pastorate of Reverend B.A. Hart, Greater St. Mark held a planning meeting which eventually brought Citizens Trust Bank, a minority enterprise, to Columbus. He also established the Young Adult Ensemble and the Male Chorus to enhance the Church's music ministry, and introduced bi-weekly Bible study and Christian Education seminars. Reverend Dr. Roosevelt Morris oversaw the donation of a house to the Columbus Historic Foundation, on behalf of the church. In the three years of Reverend Henry E. Green's leadership, a new roof was installed and a church website was built. Now Greater St. Mark will be welcoming Reverend Kevin Moore into the family as the church's new pastor and more improvements are sure to come under his leadership.

What began as a small house for families to meet in prayer has grown into a family of its own, housing generations of church members and guiding them through their journey with the Lord. All of these additions and renovations exhibit the giving nature of the entire St. Mark congregation, as well as their dedication to serving Christ, each other, and the community. Not only do contributions and improvements to the church improve Greater St.

Mark's ability to spread the word of the Lord, but they also strengthen the bond the members have with each other.

Mr. Speaker, today I ask my colleagues to join me in paying tribute to the Greater St. Mark A.M.E. Church in Columbus, GA for serving as a pillar of faith and fellowship to its members for the past 127 years. May God continue to bless the church and its congregation.

CAIRN UNIVERSITY

HON. MICHAEL G. FITZPATRICK

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. FITZPATRICK. Mr. Speaker, Langhorne Manor, Pennsylvania is home to Cairn University as it celebrates its 100th anniversary this year. We acknowledge and congratulate the dedicated administrators and academic staff who have contributed greatly to its success. The school that began on July 8, 1913, as the Bible Institute of Philadelphia, and later the Philadelphia Biblical University, has grown to be an outstanding academic institution with a professed Christian mission to educate students who will graduate as professionally competent men and women of character to carry that mission forward into their church and society.

Cairn University students have the option of five schools: Divinity, Liberal Arts and Sciences, Business and Leadership, Education and Music; two departments, Social Work and Christian Counseling, and graduate programs. On this occasion, we heartily congratulate Cairn University Chancellor W. Sherrill Babb and President Todd J. Williams and look forward to future achievement and the contributions Cairn graduates will make toward the betterment of their communities.

THANKING STEVE KAESER FOR HIS SERVICE TO THE HOUSE

HON. CANDICE S. MILLER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mrs. MILLER of Michigan. Mr. Speaker, on the occasion of his retirement on October 31, 2013, we would like to thank Mr. Steve Kaeser for his over twenty-five years of distinguished service to the United States House of Representatives. Steve has served this great institution as a valued employee of House Information Resources (HIR), within the Office of the Chief Administrative Officer (CAO).

Steve has held a multitude of senior engineering positions over the years and his technical expertise and skills have been invaluable to servicing customers in the House community as well as staff within Technology Support and Enterprise Operations. Before moving to Enterprise Operations, Steve served as an engineer on the Software Support Team, in the newly created Technology Call Center, and on the Escalations Team. Among his many accomplishments, Steve helped create and run the House's new anti-virus software program with the establishment of Trend. His other defining achievement was the establishment of

an Apps-server, which created a central access point for the download of all supportable software.

Moving forward, Steve has remained committed to supporting the ever-changing technology environment. After a few years in Technology Support, Steve joined Enterprise Operations where he became involved in critical aspects of client server architecture. He played an integral role in Windows server delivery and support and he performed system builds, security analysis and troubleshooting. In addition to server support, on occasion, Steve would lend his "radio" voice to the Recording Studio as a narrator for House training or you might see him at a co-workers desk helping them solve a problem. Throughout his career, Steve has provided House customers with the world class service they expect from the CAO.

On behalf of the entire House community, we extend congratulations to Steve for his years of dedication, outstanding contributions and service to the United States House of Representatives.

We wish Steve much happiness in fulfilling his retirement dreams.

HONORING JOSE R. ESCOBEDO III

HON. BETO O'ROURKE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. O'ROURKE. Mr. Speaker, I rise to honor the memory of Sgt. Jose R. Escobedo, Jr. III. Born in Ciudad Juarez, Mexico, Mr. Escobedo became a United States Citizen with the intention of enlisting in the United States Marine Corps. During over 10 years of service in the armed forces, Sargent Escobedo served in both the Marines and the Army and he served courageously during two tours of duty in Iraq.

Jose Escobedo graduated from Bowie High School in El Paso in 1995. After high school, he decided to join the Marines and served for nearly 9 years. After his honorable discharge, he worked for the city of Albuquerque in the Department of Transportation, but he missed the military. Eager to continue his service, "SGT Esco," as friends called him, decided to join the Army and after training he was assigned to 1st Battalion, 77th Field Artillery Regiment in Schweinfurt, Germany.

On November 19, 2008, Sargent Escobedo deployed to Iraq for the third time. Despite being in a combat zone, Jose was known by his fellow soldiers as a kind individual with a positive outlook on life that was infectious. He passed away on March 19, 2009 in Baghdad and at the age of 32.

Mr. Escobedo is survived by his wife, Angelica, and their three children, Elvida, Jose, and Mikey. He is interred in Fort Bliss National Cemetery in El Paso. The dedication with which he served our nation for so many years is an inspiration. El Paso misses Jose Escobedo and we are proud to honor him as a hero who made the ultimate sacrifice in service to the United States.

TRIBUTE TO ARLEIGH BIRK

HON. RICHARD M. NOLAN

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. NOLAN. Mr. Speaker, as we approach the 72nd anniversary of the Japanese attack on Pearl Harbor on December 7, 1941, I rise to pay tribute to one of the true American heroes of that day, and of the long World War that followed—former Boatswain's Mate First Class Arleigh Birk, United States Navy.

Today, as Arleigh approaches his 94th birthday, he and Marion, his lovely wife of 67 years, still live in their family home in the northern Minnesota community of Hoyt Lakes, where they retired after Arleigh's 25 years of employment at Erie Mining Company from 1957 to 1982.

Seventy-two years ago, on Sunday, December 7, 1942, Arleigh was 4,028 miles west of Hoyt Lakes, stationed on the USS *Honolulu*, watching as Japanese warplanes filled the skies and the USS *Arizona* exploded in fire. The *Honolulu* itself sustained damage in the attack, and Arleigh was transferred to the USS *Denver* where he remained in the Pacific Theater until the war's end.

During those years in the Pacific, Arleigh and his mates on the USS *Denver* were part of the force that engaged and sank the Japanese destroyers Minegumo and Murasame in the 1943 Battle of Blakett Strait.

In October 1943, they earned the Navy Unit Commendation for outstanding performance in the battle of Empress Augusta Bay for helping sink one enemy light cruiser and a destroyer, and heavily damaging two heavy cruisers and two destroyers.

On July 4, 1944, Arleigh and the crew of the USS *Denver* bombarded Iwo Jima, fought numerous battles throughout the Pacific, and fought off a Kamikaze attack on November 27th during action in the Leyte Gulf.

In September 1945, Arleigh and the *Denver* sailed from Okinawa to cover the evacuation of Allied forces imprisoned in the Wakayama area before heading home to Norfolk, Virginia, where they arrived on November 21st.

Arleigh was honorably discharged from the Navy on January 12, 1946—and honorably married to Marion a little over a year later.

On behalf of a grateful Congress and a grateful nation, we honor and thank Arleigh Birk for his service in the preservation of American freedom.

RECOGNIZING CAROLYN CLOSS-WALFORD ON THE OCCASION OF HER PROMOTION TO COLONEL

HON. G.K. BUTTERFIELD

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. BUTTERFIELD. Mr. Speaker, I rise today to recognize Army Lieutenant Colonel Carolyn Closs-Walford who will today be promoted to the rank of Colonel. Like many of my colleagues, I have had the pleasure of working with and knowing LTC Closs-Walford both personally and professionally when she served in the Army's House Liaison Division.

LTC Closs-Walford's distinguished military career began at Winston-Salem State Univer-

sity when she joined the Reserve Officer Training Corps. She graduated in 1987 and was commissioned as a second lieutenant in the Signal Corps and accepted a position in the Army Reserve. The Signal Corps develops and manages communications systems for the U.S. military and is integral to its strength and resilience.

LTC Closs-Walford completed Signal Officers Basic Course at Fort Gordon in Georgia and settled in Washington, DC. She studied at National Louis University where she received a graduate degree. After, LTC Closs-Walford transferred to the Quartermaster Corps which provides logistic support for the Army.

Later, LTC Closs-Walford served in the Army's busy House Liaison Division where she was the first point of contact for Members and staff who called on the Army for assistance. While there, she developed, coordinated, and executed Congressional Delegations to Iraq, China, Israel, and Sudan, among others. Her professionalism, attention to detail, and hard work did not go unnoticed by Members who were lucky enough to travel with her.

LTC Closs-Walford's extraordinary career afforded her the opportunity to serve in the administrations of President George W. Bush and President Barack Obama. She supported the Deputy Assistant to the President and Deputy National Security Advisor by serving as a liaison to Members of Congress, the Department of Defense, State Department, and the intelligence community by coordinating strategic communications and global outreach.

From the White House, LTC Closs-Walford moved to the Pentagon and worked in the office of the Under Secretary of Defense for Policy and focused on women and gender issues, human rights, and international humanitarian policy.

Currently, LTC Closs-Walford serves in the National Guard Bureau's Strategic Plans and Policy Directorate. She is responsible for helping to develop the National Guard's outreach, communications, and messaging.

LTC Closs-Walford was born in Louisburg, North Carolina, located in Franklin County and in my congressional district. She is the youngest of 10 children born to William and Fannie Closs. Her father bravely served the United States in the military during World War II and was awarded a Purple Heart for his unflinching and valiant service in the face of danger. She is married to Raymond L. Walford.

Mr. Speaker, I am so proud of LTC Closs-Walford's distinguished career. As representative of the congressional district that LTC Closs-Walford is a native daughter, we salute her on this special day. I ask my colleagues to join me in thanking her for honorable service to the United States of America and congratulating her on her much deserved and earned promotion.

HONORING BETHLEHEM MISSIONARY BAPTIST CHURCH

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor Bethlehem Missionary Baptist Church, which is located at 2975 Cannonsburg Road in Cannonsburg, MS.

December 17–19, 2010 Bethlehem Missionary Baptist Church celebrated its 150th year anniversary with three days of festivities. Dr. Samuel White penned the church's history.

The Bethlehem Baptist Church was organized in 1860 by Rev. George White and other like-minded brothers and their wives. The Church was organized to serve the religious and spiritual needs of freed blacks and ex-slaves of the Cannonsburg community. Three prominent families populated the area and became active in the early church. They were the Whites, the Frisbys, and the Tylers. Even today, most of the church's membership is related to one or all three of these family lines. Later the Church's population grew to include the Comptons, Coles, Clarks, Herringtons, Perrymans, Hawkins, Kahos, Prees, Washingtons, Dorseys, Gambles, among others.

The original church was located on property lying between the Natchez Trace and the Cannonsburg Road. In 1907, the Church Fathers, Alfred White and James Compton, purchased a two acre tract of land from Gabe Tyler to build a "Church House." A white wood structure was erected with a potbelly stove in the center for heat. In 1965, this building was removed and the first brick sanctuary was built. The church membership outgrew the facility; and, in 1984, a major renovation and expansion project was undertaken and completed to include a Fellowship Hall and a Pastor's Study.

The current multi-purpose facility which was dedicated in April, 2005, represents the fifth building erected for the Church Family. In 1999, the Church Family initiated a five-year Building Plan to design, finance, and build a worship facility that would accommodate and serve the needs of a growing membership. Under the leadership of a dynamic Pastor, the Rev. Percy Turner, and an activist Board of Deacons, this goal was achieved in 2005. Additional property was purchased from the Golden Mutual Aide Society and Mrs. Carrie Jackson Johnson on which to build the new facility. Rev. John Hawkins, Deacon Charlie Hawkins, Sr. and Bro. Dwayne Hawkins—acting as Hawkins Construction, were all members of the congregation that constructed the new sanctuary and fellowship hall.

The Church has held a prominent position in the religious, social, and civic life of Jefferson County. Many of the early religious pioneers of the Black Baptist Movement in the county were either members or pastors of Bethlehem, i.e. Rev. P. C. Rucker, Rev. P. E. Frisby, and Rev. W. N. Tyler.

Bethlehem is also the site of the first Civil Rights mass meeting to be held in Jefferson County. While others feared retaliation from those who would burn crosses and churches, the leadership at Bethlehem took the bold steps to host the NAACP and challenge the racial inequities that existed in the 1960s. As a result, even today our community takes very seriously the right to vote and participates fully in the electoral process. Several members of this Church have attained the status of being the first of their race to be elected and/or appointed to political positions at the City, County, and State levels.

Since the church has been at its present location, the following individuals have served as Pastors: Rev. George White, 1902–1905; Rev. P. C. Rucker, 1906–1909; Rev. P. E. Frisby, 1909–1918; Rev. John Alexander, 1918–1928; Rev. W. N. Tyler, 1928–1931;

Rev. D. W. M. Johnson, 1931–1940; Rev. Wilson Ford, 1940–1948; Rev. Jimmy Jones, 1948–1982; Rev. Percy Turner, 1983–Present.

Over the years, the following persons have served as Associate Ministers: Rev. Alf White, Rev. Marcus Frisby, Rev. Louis Frisby, Rev. Louis White, Rev. Edgar White, Rev. Leon Dorsey, Rev. David White, Rev. George A. Tyler, Rev. Aubry Watson, Rev. Juanita Tyler, Rev. Ernest Gaines, Rev. Andrew Dorsey, Rev. Mandy Green, Rev. John H. Hawkins, Rev. Charles Kaho, and Rev. John Tyler.

Some dynamic men have served as Deacons; they include: Bro. Phillip White, Bro. Jackson Tyler, Bro. Richard Tyler, Bro. Wilson Tyler, Bro. James Compton, Bro. Sanford "Sam" White, Bro. Bivens Cole, Sr., Bro. Daniel White, Bro. Juanita Tyler, Bro. Aubry Watson, Bro. General Jenkins, Bro. Leon Dorsey, Bro. Frank White, Bro. John Tyler, Bro. Monroe Griffin, Bro. Leon Dorsey, Jr., Bro. Frank Gamble, Bro. Charles Kaho, Bro. John H. Hawkins, Bro. Jerome Herrington, Jr., Bro. Willie J. Pree, Bro. Robert L. White, Bro. Samuel L. White, Sr., Bro. Larry D. Tyler, Bro. Charlie Hawkins, Sr., Bro. Roosevelt "Bill" White, Bro. Keith King, Bro. Joseph Cole, Sr., and Bro. Jerry Sims.

Over the years, the Mother's Board (Deaconess Board) has included: Sis. Arnetta C. Tyler, Sis. Lou Virginia White, Sis. Kizzie Tyler, Sis. Ella Tyler, Sis. Juanita Tyler, Sis. Celeste Frisby, Sis. Irene Tyler, Sis. Jinice Sanders, Sis. Ora Clark, Sis. Mindy White, Sis. Effie Turner, Sis. Henretta Compton, Sis. Lillie Perryman Jackson, Sis. Virginia S. White, Sis. Martha White, Sis. Mary E. Dorsey, Sis. Floridia Jones, Sis. Louella White, Sis. Doris Kaho, Sis. Mae Rose Herrington, Sis. Sarah Griffin, Sis. Carrie Jenkins, Sis. Augusta Ballard, Sis. Lettie Irving, Sis. Gertrude White, Sis. Cora White, Sis. Almeta Dorsey, Sis. Mamie Herrington, Sis. Edna Holmes, Sis. Laura Reed, Sis. Laura Tyler, Sis. Effie Woods, Sis. Jean Hawkins, Sis. Levater White, Sis. Lollie J. Doss, Sis. Johnnie R. Tolliver, and Sis. Sophronia Evans.

The membership is proud of its rich history and Christian traditions. We will continue to celebrate the accomplishments of our forefathers, but more importantly, we are dedicated to embracing God's call to spread the gospel of Jesus Christ. Our mission is to win souls to Christ through love, dedication, loyalty, and service to mankind. We humbly thank God for more than 150 years of service and we pray for His continued blessings and divine guidance as we demonstrate to the world that Bethlehem is the place where "Our Feet are on the Rock and Our Names are on Heaven's Roll."

Since the writing of this history in 2010, the name of the Bethlehem Baptist Association has changed to Jefferson County Baptist Association.

Mr. Speaker, I ask my colleagues to join me in recognizing Bethlehem Missionary Baptist Church for its outstanding service to the community.

IN RECOGNITION OF CATHERINE "KATE" ERTZ-BERGER UPON HER RETIREMENT

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. GEORGE MILLER of California. Mr. Speaker, I rise to recognize the outstanding career of Ms. Catherine "Kate" Ertz-Berger, Executive Director of the Contra Costa Child Care Council, and congratulate her as she retires after twenty-eight years of dedicated service to the children and families of Contra Costa County.

Kate's deep passion for helping others was evident early in her career, during her tenure with the Massachusetts Department of Social Work and the United Way of the Bay Area. She brought that same passion to the Contra Costa Child Care Council in 1985 and has been the heartbeat of that agency for nearly three decades. Under Kate's dynamic leadership the Council has grown to be one of the largest and most effective nonprofit organizations in the San Francisco East Bay serving families throughout our community.

Kate has shown remarkable command of the issues most critical to early education and the needs of families with small children. Under her guidance, the Council has greatly increased public awareness of the need for quality child care and early childhood education through the development of a wide variety of innovative initiatives, programs and services. Most importantly, she has forged lasting partnerships with the community, parents and child care providers.

I invite my colleagues to join me in commending Executive Director Kate Ertz-Berger, for her committed and diligent service to the children and families of Contra Costa County. I am pleased to call her my friend and wish her the very best as she begins a well-deserved retirement.

CONGRATULATING TWIN GROVES MIDDLE SCHOOL ON BEING NAMED A BLUE RIBBON SCHOOL

HON. BRADLEY S. SCHNEIDER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. SCHNEIDER. Mr. Speaker, I rise today to honor Twin Groves Middle School in Buffalo Grove, Illinois, in the district I represent. This outstanding educational institution has been recognized as one of only 286 Blue Ribbon schools in the entire country.

This is the second National Blue Ribbon distinction that Twin Groves has earned, one of 21 awarded in the state, one of only three awarded to Illinois middle schools and one of four awarded to schools in Illinois's Tenth District.

Good education is the foundation of any community, and it is essential to our success in the 21st Century. In Buffalo Grove, you will find some of the nation's finest schools, filled with eager and curious students and passionate and engaging teachers.

In Illinois's Tenth District, our communities are strong, in part, because of excellent educational institutions like Twin Groves.

With schools like Twin Groves, Tenth District students are building foundations for success in this ever-changing, competitive 21st Century.

The education Twin Groves Middle School students receive not only helps position them for future success, but also prepares them for the rigors of one of the area's top high schools, Stevenson High.

Mr. Speaker, I am so pleased to honor Twin Groves Middle School here today, and I am so proud to have such excellent schools in the Tenth District. I congratulate Twin Groves once again on receiving this distinguished award.

RECOGNIZING MORRIS COUNTY SCHOOL OF TECHNOLOGY

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. LANCE. Mr. Speaker, I rise today to recognize Morris County School of Technology of Denville, New Jersey for being named a Blue Ribbon School by the United States Department of Education.

The Department of Education acknowledges schools where students attain and maintain high academic goals. Union Morris County School of Technology is a proud example of academic excellence where students have high levels of performance, stellar student achievement and where educators facilitate a strong learning environment.

I congratulate the students, faculty and community on this high honor. This is a prestigious award to receive and Morris County School of Technology is a proud example of academic excellence and worthy of this national distinction.

CELEBRATING THE ACHIEVEMENTS OF MR. DARREN MILLER OF MURRYSVILLE, PENNSYLVANIA

HON. KEITH J. ROTHFUS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. ROTHFUS. Mr. Speaker, I rise today to celebrate the accomplishments of Darren Miller of Murrysville, Pennsylvania.

On August 29, 2013, Darren became the first American man and only the fourth person in history to complete the seven grueling open-water swims known as the Ocean's Seven challenge. He spent over seventy-five hours braving frigid waters, treacherous weather conditions, and dangerous wildlife while swimming across bodies of water including the English Channel, the North Channel between Scotland and Northern Ireland, and the Strait of Gibraltar. Darren is the only person to ever complete all of the swims on the first attempt.

A graduate of Franklin Regional High School in Murrysville and Pennsylvania State University, Darren is a product of the first-class educational institutions in our Commonwealth. Darren used our beautiful lakes and rivers in Western Pennsylvania to train for his

historic feat, a reminder that the tools for success are within reach.

Darren also swims to benefit and raise awareness for the Forever Fund, an organization he cofounded, to help families pay for the costs of treatment in the infant cardiothoracic unit at UPMC Children's Hospital of Pittsburgh. He has raised more than \$65,000 to date.

Darren named the Forever Fund in remembrance of his grandmother. "She taught me that success has nothing to do with your pocketbook, but by how you treat someone who can do you absolutely no good," he recently said. Darren's personal motto is "Every breath a gift," meant to inspire today's youth to overcome personal challenges and persevere in accomplishing one's personal goals.

Mr. Speaker, I am pleased to honor Darren Miller's outstanding athletic achievements and service to our community and his fellow man.

RECOGNIZING RAFAEL PINEDA

HON. JOSÉ E. SERRANO

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. SERRANO. Mr. Speaker, it is with great pleasure and admiration that I stand before you today to honor Mr. Rafael Pineda, who will retire as the lead news anchor for Univision 41 on December 20th. For 42 years Mr. Pineda has been a key voice in providing the Latino community in the New York area with unparalleled news coverage.

Since his 1972 undertaking as the lead news anchor at WXTV Univision 41, Mr. Pineda has consistently demonstrated a zest for journalism that is balanced, and offers fair, universal access to all audiences. In 1988 he became host of, "Punto y Aparte," the first Spanish language first local interview program in the tri-state area. Over the last several years he has consistently guided Noticias 41 to first place in New York's Spanish language newscasts.

Rafael Pineda has served as an ongoing inspiration for all Latinos by building one of the most distinguished careers in television. Mr. Pineda was the first local news anchor to interview major political figures like President Clinton, and influential celebrities like the late Desi Arnaz. In the year 2000, he was the first Latino to be honored in the National Academy of Television Arts & Sciences Silver Circle, and over the years he has won several awards, including an Emmy. Most recently, Mr. Pineda was inducted into The New York Broadcasters Association Hall of Fame.

Mr. Pineda has developed a career that has paralleled my own in regard to public service, and as a colleague, I have been consistently inspired by both his integrity and his unwavering sense of dedication to his audience and to the news. Over the years, I have appeared on his program many times, both in interviews with Mr. Pineda and in news stories concerning legislative issues. I always found that Mr. Pineda was tough but fair in the questions he asked and the issues considered. Regardless of the subject, or his own personal views, he always had the best interests of his audience in mind. After 42 years of service Mr. Pineda has grown to embody all of the best characteristics of the New York area, and I am

proud to call him a colleague and a friend. He is an invaluable member of the community whose dedication to the people can be seen in all his work throughout the years, and whose on-air presence will certainly be missed.

Mr. Speaker, I respectfully ask that you and my other distinguished colleagues join me in honoring Rafael Pineda as an Emmy award winner, as New York's longest-serving news anchor in history, and most importantly, as an outstanding example of how one person's lifelong work can leave such a permanent mark in the hearts and minds of many.

HONORING THE NAPA VALLEY EDUCATION FOUNDATION

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of California. Mr. Speaker, I rise today to honor the Napa Valley Education Foundation as they celebrate their 30th anniversary on December 7th, 2013, at their Annual Taste for Knowledge and Gala Fundraising Event. The Napa Valley Education Foundation (NVEF) deserves recognition for their tireless efforts over the past thirty years to improve the quality of education for all children within the Napa Valley Unified School District (NVUSD).

Since its creation in 1983, the NVEF has demonstrated an admirable commitment to achieving its self-proclaimed vision to create "great public schools that inspire all children to achieve their potential and become vital members of our community." In pursuit of realizing this vision, the NVEF has made significant improvements in the quality of education possible for all students in the NVUSD.

Such improvements include the Teacher Grants Program, now known as the Spencer and Colton Grants, which was founded by the NVEF in 1983 and has raised a total of more than \$1.5 million to fund the implementation of improved teaching strategies. Additionally, the NVEF has created The Music Connection, which brings music education and exposure to over 3,000 students, as well as the Campaign to Sustain Music, which has raised \$85,000 annually over the past three years to sustain the NVUSD's music education programs. The NVEF has also created Tech Connection, a program to assist families in purchasing laptops for their children. Finally, the NVEF coordinates the Teacher of the Year Awards, which recognize and honor exceptional teachers within the NVUSD each year.

Mr. Speaker, it is appropriate at this time that we honor and thank the Napa Valley Education Foundation for their thirty years of unwavering commitment to improving the quality of education for every student within the Napa Valley Unified School District.

HONORING COOLEY MORTUARY, INC

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor as extraordinary Fu-

neral Home Business in the Mississippi Delta, Cooley's Mortuary of Batesville, MS.

Cooley's Mortuary, Inc. opened its doors in April 1990, beginning a tradition of professionalism, dedication and compassionate care to families in Batesville, Panola County, Mississippi and the surrounding communities. After serving in the United States Army for two years, and in pursuit of a need to do something "useful" with his life, Jerry Cooley enrolled into the Commonwealth College of Mortuary Science, Houston, Texas where he soon graduated and received his National Board Certified license in 1978. He began a career as funeral director and mortician at Brown Mortuary, Inc. in Laurel, Mississippi. With encouragement from his dear mother and a great ambition calling him higher, Jerry Cooley moved to Batesville, Mississippi in August 1984 where he worked as funeral manager and embalmer at Century Funeral Home.

In April of 1990, a longtime dream of Jerry Cooley's became a reality when he and his wife, Norma Jean, held an open house for a "first-generation" funeral home located at 327 Panola Avenue, Batesville, Mississippi. Cooley's Mortuary, Inc. made history in that year by accomplishing what not many other first-generation funeral homes had ever done; they received an astounding 50 calls by year's end and their first few months in business. Building on the strong foundation of compassion and service, and providing quality care to the families of Panola county, and surrounding communities, the business grew over the next several years.

Throughout the years, Cooley's Mortuary, Inc. has employed a number of additional staff, all of whom have been committed to excellence and stellar service for their customers. They have worked closely for many years as a cohesive unit serving the needs of the community with dignity, care and compassion. The business thrived and continued to set a standard for funeral service in the Panola County area.

They say "beside every successful man stands a woman" and without question this is certainly the case with Cooley's Mortuary. The business would not have existed without Norma Jean Cooley. Her strong support and countless hours of work should not go unmentioned. She has served as Vice President and serves the business faithfully enabling it to respond to and serve families in their time of need.

November 29, 2007 marked a new era and a lifelong dream fulfilled for Jerry and Norma Cooley with the groundbreaking of a new modern facility. The "second generation" Cooley's Mortuary, Inc. was built and dedicated in August 2009, making it a premier funeral home in Batesville, Mississippi. The 11,700 square foot facility is constructed on a two acre lot and includes four offices, a library, prayer room, two family viewing rooms, and a chapel with a seating capacity for 250 people. In Cooley's own words, "I wanted to have the very best for the people we serve."

Cooley's Mortuary is a family owned community-located funeral home which has earned a reputation for service, affordability and reliability over the years. Word-of-mouth, without question, is its finest endorsement. Regardless of whether or not a family comes to Cooley's Mortuary for the first time, or considers it to be their "family" funeral home, Cooley's Mortuary

takes personal interest in helping families during the most difficult times, and families continue to overwhelmingly trust them as their premier funeral home.

Mr. Speaker, I ask my colleagues to join me in recognizing Cooley Mortuary, Inc. for its dedication to serving this great state and country.

TRIBUTE TO CHARLES "CHICO"
DANIELS

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. DANNY K. DAVIS of Illinois. Mr. Speaker, I rise to pay tribute to Charles "Chico" Daniels. Chico Daniels was known to those who knew him as a Chicagoan well-versed in politics with a voice made to sing soul music. Chico Daniels was known to those who knew him for his humor that brought laughter and joy to those around him. Given my longtime relationship with his family, I know first-hand that Chico Daniels was a loving father who supported his children through good times and bad. He was adored by his family and his community, and we all will deeply miss his caring spirit.

Chico was born in Chicago, IL on May 20, 1957 to Quinion and Mildred Daniels. He grew up on the West Side of Chicago, attending Nash Elementary School and Austin High School and worshiping at the Helping Hand Church. Chico acquired an ear for music at a very young age. His signature deep baritone earned him the title of "Little Al Green." In his early 20s, he performed at many of the clubs in Chicago, opening for well-known musicians. Music was most definitely his soul. In addition to being a talented singer, he also was a gifted composer, guitarist, pianist, drummer and organist.

Chico died on November 26, 2013. His parents (Quinion and Mildred) and his siblings (Eddie and Beverly) preceded him in death. He is survived by his wife Rozena Daniels, his children Lavell, Octavia, Jenell, Shavone and Francie; his two remaining siblings Valerie and David; six grandchildren and a host of friends and family.

COACH JOHN WILLIE ('JOHNNY')
PEOPLES

HON. STEVE STOCKMAN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. STOCKMAN. Mr. Speaker, whereas, The late Coach John Willie ('Johnny') Peoples of Baytown's Carver High School won three PVIL state football championships; and

Whereas, Coach Peoples, as a student himself, earned a scholarship to attend Wiley College in Marshall, Texas, where he enjoyed a stellar career in three sports: football, basketball and track & field; and

Whereas, Johnny Peoples, in 1945, was a member of the Wiley College football team that defeated Florida A & M (32-6) to win the Negro National Championship; and

Whereas, Coach Peoples was perhaps one of the greatest athletes ever to attend Wiley College; and

Whereas, Coach People received his Bachelor of Science degree from Wiley College in 1948 and earned a Master's Degree from Texas Southern University; and

Whereas, Coach Peoples joined the faculty of George Washington Carver High School of Baytown, Texas in 1948 and remained there until 1967, playing a huge part in the Goose Creek CISD High School and Baytown's sport history,

Whereas, No other Baytown high school coach has ever won a single football state championship for Baytown, while Coach Peoples has won three; and be it therefore

Resolved: That I, Congressman STEVE STOCKMAN of the 36th District of Texas, do hereby proudly agree and resolve that the late Coach John Willie ('Johnny') Peoples be publicly and officially honored as one of the finest athletes ever to come out of Baytown, Texas, and one of the best coaches in the United States; and to recommend his induction into the Prairie View Interscholastic League Coaches Association (PVILCA) Hall of Honor.

HONORING HORACE ELLIOTT

HON. CORY GARDNER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. GARDNER. Mr. Speaker, I rise today to honor Horace Elliott from Greeley, Colorado. Mr. Elliott currently serves as Executive Vice President of the National Board of Chiropractic Examiners (NBCE) and has recently received several awards for his dedication to the chiropractic profession. Earlier this year, Mr. Elliott was the recipient of the 2013 NBCE Leadership Award and was also recognized as Dynamic Chiropractic's Person of the Year.

Mr. Elliott's 27-year career has been characterized by a dedication to his patients and his community. For his work, Mr. Elliott has received honorary doctorates from Texas Chiropractic College and the American College of Chiropractors, and has also been named an honorary fellow of the International College of Chiropractors. He was elected to the board of the Academic Consortium for Complementary and Alternative Health Care in 2010.

In spite of these professional commitments, Mr. Elliott has also made time to be an active member of his community. He currently serves on the Board of Directors of the Greeley Chamber of Commerce and holds a seat on the board of the Greeley Rotary Club. He is also a Chamber Representative to the City of Greeley Planning Commission.

I feel very fortunate to represent someone as talented and involved as Mr. Elliott. Please join me in thanking him for his many contributions to Greeley.

IN SUPPORT OF THE AFFORDABLE
CARE ACT

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Ms. JACKSON LEE. Mr. Speaker, it is no secret that many of our colleagues across the

aisle are hoping and betting that the Affordable Care Act will fail.

But every day it becomes clearer that they are losing that bet and their hope for failure is not shared by the American people, 105 million of whom already have received coverage for one or more free preventive health care services like screenings for breast cancer and diabetes.

In my state of Texas, thanks to the Affordable Care Act, more than 5,198,00 individuals with private insurance who have received coverage for one or more free preventive services due to the Affordable Care Act.

Children have received free vision and hearing screenings and recommended immunizations.

Adults have received free immunizations and cancer screenings such as colonoscopies for cancer, cholesterol and high blood pressure screening; and HIV.

Women have received preventive services such as recommended mammograms and Pap smears; screenings for gestational diabetes; and domestic violence counseling.

Our Republican friends like to tell themselves that Obamacare is an unmitigated disaster. But to millions of Americans living in the real world, Obamacare is an unqualified success.

TEXAS—ACA SUCCESS STORIES

Take Mark and Lucy for example,

After comparing plans, Mark Sullivan, a new business owner, settled on a bronze option and added dental insurance. He will receive an \$82 per month subsidy, which will halve the monthly premium he will pay down to \$78.

Lucy is another Texan who is thankful for the Affordable Care Act, which is enabling her to save \$2,300 a year on her premium and \$4,000 on her deductible.

Lucy writes: "I signed up at Healthcare.gov and I'm going to save \$2,300 a year on my premium alone—and more, because my deductible will drop from \$7,500 a year to \$3,000 a year. It's still Blue Cross insurance, and I don't have to change doctors, either. I had a choice of over 30 plans and several different companies."

Mr. Speaker, my constituents in the 18th Congressional District of Texas favor the Affordable Care Act because they understand the insecurity and feeling of helplessness of being uninsured or underinsured. My home state of Texas has the highest percentage of uninsured, 27.6 percent in the nation, 4 percent more than Louisiana, the next state on the list.

Mr. Speaker, health care coverage not only must be available and affordable but also adequate for consumers to have the health security and financial protection they need and deserve. The Affordable Care Act satisfies these criteria.

Of course we should not be surprised by the House Republicans. After all, it is was the House Republicans who shut down the federal government for 16 days and cost the economy \$24 billion while refusing to consider any legislation that would create jobs or address the real needs of the American people.

IN RECOGNITION OF THE SERVICE
OF BETTY BENNETT

HON. SPENCER BACHUS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. BACHUS. Mr. Speaker, on the occasion of her retirement from my office, it is my pleasure to recognize the lifetime of public service that Betty Jean Robinson Bennett has provided to Chilton County, the State of Alabama, and our country.

For a Member of Congress, a staple of good representation is listening to the concerns of constituents and addressing community needs identified by local officials and business, education, agricultural, and civic leaders. The role of the congressional field representative is essential to connecting what is happening on a daily basis in our communities to the work being done in the U.S. Congress. In Betty Bennett, I have had an effective, dedicated, and loyal staff member who has helped me to represent the Sixth District in Washington.

Betty, or "Miss Betty" as she is affectionately known, has deep roots in Chilton County. She attended Clanton Elementary School and Clanton Junior High School and graduated from Chilton County High School with honors and responsibilities including her position as editor of the school magazine in her senior year and membership in the National Beta Club.

In 1968, Betty began an association with government service and political activity that became a lifetime vocation. Her career and experiences provide a fascinating reflection on Alabama's recent political history. One of many originally-enrolled Democrats to later join the Republican Party on principle, Betty is the only person to have been the President of both the Democrat and Republican Women's Clubs in Chilton County. She continues to serve on the Chilton County Republican Executive Committee and on the Alabama Republican Executive Committee representing Chilton County.

Betty's leadership skills were recognized when she was chosen as the Selective Service Director for the State of Alabama, a presidentially-appointed position, in May 1990. She was recommended by Governor Guy Hunt and appointed by President George H.W. Bush through the National Director of the Selective Service System, Samuel K. Lessey, Jr. Betty was the first woman to serve as a state director and is the only woman to ever serve in that capacity in Alabama.

As director, Betty coordinated the appointment of all local Selective Service Boards and directed personnel in three National Guard and Reserve Unit detachments in Montgomery and Birmingham. She was awarded the Distinguished Service Medal of Alabama by Governor Hunt for her achievements after being nominated by officers of the National Guard and Reserve and the Alabama Adjutant General.

Betty began her congressional duties in January 1997 as a field representative for then-Congressman Bob Riley in the Third District. She joined my staff in January 2003 after Bob was elected Governor of Alabama and has provided more than a decade of diligent service to the people of the Sixth District.

During that time, Betty has ably represented my office during the development of a number of important projects, including the establishment of the Jefferson State Chilton-Clanton Center. With her deep knowledge, she has always been my liaison to the agricultural community and has worked closely with the Alabama Farmers Federation, whose President Jimmy Parnell is also from Chilton County. Betty is an advocate for the local peach industry and can always be counted on for her support of the Chilton County Peach Festival. Above all, Betty has always cared about helping people and finding solutions to problems.

Betty's service and love of her home county has been commemorated, appropriately enough, at Chilton County High School. In 2006, then-Principal Larry McHaffey started the Betty Robinson Bennett Leadership Scholarship for a senior exhibiting academic achievement as well as leadership in school, community, and church activities. What was more meaningful to Betty than a scholarship being named in her honor, I am sure, is the help it offered to a student and future leader.

On Friday, December 6, Betty's legacy of service will be celebrated during a reception at Jemison City Hall. Her many friends know very well that "retirement" is just a word to Betty and that she will remain visible and active in her community for many years to come.

Let me close by again expressing my appreciation to Betty for her service to my office, the people of the Sixth District, and the State of Alabama during a most remarkable career.

HONORING DELTA BURIAL
CORPORATION

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor a remarkable Funeral Home Business in the Delta, Delta Burial Corporation of Marks, Mississippi.

Delta Burial Corporation in Marks, Mississippi was first organized in 1927. It took on new life in 1928, when a couple of men got together and had it incorporated.

The founders of Delta Burial were Silas Kelly, I.W. LouAndrew and Rueben Price. The Officers at that time were: John Melchor—President; Dan Nickels—Vice President; Mamie Ruth Smith—Secretary; Hernando Butts—Treasurer and A.L. Saddler—General Manager and Agent.

Delta Burial Corporation is the only corporation that was owned by all black stockholders and still is today. The company started out with one building in Marks, MS, and then got stronger and added four more locations to serve the areas. The branches are: Belzoni Branch, Belzoni, MS; Clarksdale Branch, Clarksdale, MS; Lexington Branch, Lexington, MS and Mound Bayou Branch, Mound Bayou, MS.

Delta Burial is a business that provides burial, life insurance and pre-arrangements services for the deceased and their families. We strive to provide the highest quality of service to accomplish our goals. Our motto is "Seldom Equal, Never Excelled."

Delta Burial officers today are as follows: Manuel Killebrew—President, Fannie Smith—

Executive Secretary; Irma Jean Bell—General Manager; Aaron Gunn III, Dexter Howard and Cedric Burnett—Morticians; and Shelton Leonard—Funeral Director.

Each year Delta Burial gives back to the community and surrounding areas by donating funds for different causes and to the less fortunate. Also, they distribute Black History calendars, fans and yearly planners.

Mr. Speaker, I ask my colleagues to join me in recognizing Delta Burial Corporation for its dedication to serving our great country.

LIEUTENANT COLONEL ROBERT D.
WHITE

HON. MICHAEL G. FITZPATRICK

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. FITZPATRICK. Mr. Speaker, on the occasion of the retirement of Lieutenant Colonel Robert D. White, we hereby acknowledge his exemplary military career of service and honor in the United States Air Force. Colonel White began his Air Force career as an officer and instructor pilot with the 37th Flying Training Squadron, Columbus AFB, Mississippi in September 1992 and proceeded into various other positions of leadership, including Chief of Disclosure and Release Division Headquarters, National Geospatial Intelligence Agency in Virginia, which provides geospatial intelligence in support of national security. Colonel White also served as Chief of Flight Safety for the Air National Guard, Andrews Air Force Base. And as a command pilot, he logged more than 4,500 hours in the air and served overseas. For his outstanding service and leadership in flight safety, Colonel White was awarded the Meritorious Service Medal, Second Oak Leaf Cluster. His singularly distinctive accomplishments reflect great credit upon himself and the United States Air Force. We thank Colonel White for his service to our country and congratulate him on the successful completion of his duty as a United States Air Force officer.

CONGRATULATING MUNILLA CONSTRUCTION MANAGEMENT ON
THEIR 30TH ANNIVERSARY

HON. MARIO DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. DIAZ-BALART. Mr. Speaker, I rise today to congratulate Munilla Construction Management (MCM) on their 30th anniversary, and to commend its exemplary service to the Miami community.

MCM is a construction company founded in Miami, FL in 1983, which specializes in Heavy Civil and Building Construction. However, their history dates back to 1941 where for nearly two decades Fernando Munilla, Sr. was one of Cuba's premier builders and a pioneer in construction methodology. His endeavors included an engineering firm, three of the largest concrete plants, and a construction management company. His work in Cuba included major projects such as the Jose Marti Monument in Havana, and the Cuyaguatete River Bridge. However in 1960 Fidel Castro confiscated his firm and the Munilla family was separated.

Four of his sons were brought to the United States through the Pedro Pan airlift operation, only days before the Bay of Pigs invasion. Two more brothers remained in Cuba with their mother, Maria. Fernando also remained in Cuba where he led covert operations along with the CIA. He later managed to escape where he eventually reunited his family, and settled in Miami. It was there that MCM was founded and thrived, earning a reputation for managing the construction of some of the most complex and challenging projects in South Florida.

The commitment and hard work of MCM's personnel has resulted in it being named one of the fastest growing Hispanic Construction Firms in Florida. Not only that, they are the 7th largest Hispanic contractor in the United States as ranked by Hispanic Business Magazine (2012), as well as being ranked among the top 400 contractors in the United States by ENR magazine. They have also been awarded numerous accolades including the Florida Transportation Builders Association (FTBA) Design-Build Project of the Year for 2010, the Hispanic Company of the Year 2008 by the South Florida Hispanic Chamber of Commerce, and the Regional Contractor of the Year 2008 by the U.S. Department of Commerce.

Having known the Munilla family for years, I can attest to their high degree of integrity, character and professionalism. They have also become very close friends of mine and are truly one of the most exceptional, loyal, trustworthy, and caring friends I have. It is a privilege to know all six of the Munilla brothers and their families. In addition, they have been devoted to their company, their employees, and the Miami community since its inception in 1983. Today, the Munilla family's dedication has made MCM an irreplaceable company for South Florida, and their family has become a treasure for the community.

Mr. Speaker, I am honored to congratulate Munilla Construction Management, and the entire Munilla family, as they celebrate this milestone. I am certain that we can all look forward to many more years of outstanding service, and I ask my colleagues to join me in recognizing their outstanding achievement.

VELTON LOCKLEAR III

HON. BETO O'ROURKE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. O'ROURKE. Mr. Speaker, I rise today to honor the memory of Army Sgt. Velton Locklear III, who died while serving his nation in Iraq.

Sergeant Locklear, known as "Lock" by his friends, was an El Pasoan, and graduate of Eastwood High School. During high school, he excelled at football and was an All-Star wide receiver.

Sergeant Locklear, like so many of his family members, wanted to serve in the Armed Forces. His two sisters, Julie and Lori, served in the Army and his father is retired Sgt. Maj. Velton Locklear Jr., who served in the Army for over 24 years.

After going to college at North Texas University, Velton decided to serve his country by joining the Army. During his career, he served

two tours of duty in Iraq. He volunteered for his first tour of duty and began his deployment in February of 2004. Soldiers who served with him, described Locklear as a gentle giant, who made the day better with words of encouragement during hard times and witty humor in good times. Another soldier said Sergeant Locklear was like a breath of fresh air; always positive, always had a smile on his face. His first tour ended in March 2005.

The second time Locklear deployed to Iraq was with the 25th Infantry, 3rd Brigade 2-27th Infantry Battalion in August of 2005. On Sept. 23 Mr. Locklear died in Riyadh, Iraq due to injuries suffered when an improvised explosive device detonated near his Humvee during combat.

Mr. Locklear was a committed and loving husband to his wife Denise and their two sons, Velton IV and Nathan, who reside in El Paso. He served our country courageously and with honor. Sergeant Locklear's service and dedication is an example to others and I am proud to honor him as a hero who made the ultimate sacrifice in service to the United States.

RAISING THE MINIMUM WAGE AND
THE TPP

HON. MAXINE WATERS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Ms. WATERS. Mr. Speaker, I congratulate the gentleman from Wisconsin (Rep. MARK POCAN) for organizing last night's Special Order Hour on raising the minimum wage and the negotiations over the Trans-Pacific Partnership (TPP).

I very much welcome this opportunity to talk about trade issues, the minimum wage, and the growing wage gap in our country because they are closely related, in different ways, to one of the most urgent social, economic and political challenges of our time. I'm talking about the problem of growing inequality in the United States.

Over the past three decades, income inequality in the United States has been steadily on the rise. In fact, just before the 2008 financial crisis, the U.S. reached levels of inequality not seen since the late 1920s.

Today, the United States has the highest level of inequality of any advanced industrial nation. According to an analysis by the AFL-CIO, the average CEO at 327 available companies in the S&P 500 index is paid 354 times the average worker.

Moreover, a recent study showed that in 2010, the top 1 percent of U.S. families captured as much as 93 percent of the Nation's income growth gained during the economic recovery. So, this means that the most unequal advanced industrial economy in the world is becoming more so.

It is time to have an open debate and discussion on the wage gap in our country. This is important from a moral standpoint, as a matter of equity and fairness. But it is also important from an economic and political standpoint. That is, excessive inequality not only undermines social and political cohesion, it has also been shown to have negative effects on growth.

Recent research at the IMF has shown that excessive inequality slows growth because de-

pressed earnings lead to weaker demand and lower consumption.

Now, I understand that in a capitalist system, some degree of inequality is necessary for the function of a market economy, since it creates incentives to work hard and take risks. Left entirely to its own, however, the market system will produce more inequality than is economically necessary. And here in America, we have much more inequality than is necessary for efficiency.

This is also a political problem. We now have an increasing degree of resistance on the part of a lot of Americans to efforts to enter into new trade agreements because they are viewed as elevating the interests of capital over all other considerations.

Last month, I joined with 150 of my congressional colleagues in a letter to the President to express our serious concerns about the ongoing negotiations over the Trans-Pacific Partnership (TPP). We urged the President to engage in broader and deeper consultations with Members of Congress about what will be included in this broad-ranging international trade agreement. In addition to tariff issues, this agreement could include provisions related to labor, food, natural resources, the environment, patent and copyright law, health care, energy, telecommunications and financial services. As the Ranking Member of the House Financial Services Committee, it is particularly important to me that my committee is consulted about any provisions affecting financial services.

Past trade negotiations have resulted in NAFTA, the creation of the World Trade Organization, and Free Trade Agreements with Central American countries, Peru, Panama, Colombia, and South Korea. All of these agreements were promoted by large corporations, which claimed they would create jobs. But these were empty promises, and many of these same large corporations have continued to ship jobs overseas.

What American workers need is good jobs with good pay. That is why we need to make this discussion of the wage gap and the minimum wage a top priority.

The Federal minimum wage has been stuck at \$7.25 per hour for the past four years. The value of the minimum wage has not kept up with the cost of living, and record-breaking corporate profits have not trickled down to working people.

The real value of the minimum wage is at a historic low. Today, 40 percent of American workers actually make less than the minimum wage was worth back in 1968. That is almost one quarter of American workers. Too many American families who depend upon the minimum wage are seeking Food Stamps and Section 8 housing assistance and are constant visitors to our food banks.

The American people understand the importance of fair wages, and many States and local communities have taken matters into their own hands. According to the National Conference of State Legislatures, 19 States and the District of Columbia already have a minimum wage that is higher than the Federal minimum wage.

The National Conference of State Legislatures also reports that in 2013, the legislatures in California, Connecticut, New York, and Rhode Island all passed bills to increase the minimum wage beginning in 2014. The legislature in California increased the minimum wage

to \$10 an hour by 2016. In New Jersey, voters approved a constitutional amendment to increase the minimum wage. In Maryland, the county councils in Montgomery and Prince George's counties both voted to increase the minimum wage to \$11.50, higher than any rate currently in effect in the United States.

The Fair Minimum Wage Act—H.R. 1010—would increase the Federal minimum wage from \$7.25 per hour to \$10.10 per hour over three years and then index it to inflation. I am one of 150 cosponsors of this bill.

It is time for Congress to debate the issue of raising the minimum wage, as well as other policies to address the growing wage gap in our country. This debate must take place in full view of the American public.

Increasing the minimum wage will send a clear signal to Americans that we understand that the benefits of growth and free trade need to be more broadly shared in society. It's the right thing to do morally, economically, and politically.

RECOGNIZING THE ACADEMY FOR
INFORMATION TECHNOLOGY

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. LANCE. Mr. Speaker, I rise today to recognize the Academy for Information Technology of Scotch Plains, New Jersey, for being named a Blue Ribbon School by the United States Department of Education.

The Department of Education acknowledges schools where students attain and maintain high academic goals. The Academy for Information Technology is a proud example of academic excellence where students have high levels of performance, stellar student achievement and where educators facilitate a strong learning environment.

I congratulate the students, faculty and community on this high honor. This is a prestigious award to receive and the Academy for Information Technology is a proud example of academic excellence and worthy of this national distinction.

HONORING MOUNT OLIVE CHURCH
CEMETERY

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor a historically significant polyandrium within the Bolton community, the Mount Olive Church Cemetery.

With its beginnings dating well into the early 1800s, the Mount Olive Church Cemetery originated as the Fork Hill Cemetery, located at the intersection of Joe Hall Road and Mount Olive Road in Bolton, Mississippi. The cemetery was later moved and renamed the Mount Olive Cemetery in the late 1800s. For over 200 years, this cemetery has served as the final sepulture for so many in the Bolton community, especially for African Americans.

Generations of families, many of whom were not members of the Mount Olive Mis-

sionary Baptist Church (who maintains the cemetery) have been laid to rest in this cemetery. Because of the enforcement of segregation laws, the prospect of African Americans to seek burial of loved ones in appropriate, designated burial grounds was sometimes a far-fetched and difficult task. Unlike their White counterparts, African Americans would at times have to resort to burying their loved ones in non-traditional sites located outside of a designated cemetery.

Mr. Speaker, I ask my colleagues to join me in recognizing the Mount Olive Church Cemetery for providing and remaining a historically significant sacred final resting grounds for so many African Americans during a period of legal segregation. Its historical significance serves as an important tool for reflection for those who experienced such segregation as well as for future generations to honor and cherish within the Bolton community.

BATAVIA CLAIMS FIRST STATE
FOOTBALL TITLE IN "BATTLE
OF THE BULLDOGS"

HON. RANDY HULTGREN

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. HULTGREN. Mr. Speaker, I rise to congratulate the Batavia High School Bulldogs for winning their first-ever Illinois state football championship.

On Saturday, November 30 Batavia faced off against Richards High School—which shares the same nickname—in an epic "Battle of the Bulldogs."

At NIU's Huskie Stadium in DeKalb, an estimated 12,000 Batavia fans roared as quarterback Micah Coffey threw for two touchdowns, and running back Anthony Scaccia ran for three more.

Both teams fought hard but Batavia prevailed, capping their virtually undefeated season with a 34–14 victory.

I commend Coach Dennis Piron and the entire Bulldogs team for the hard work that went into a strong 13–1 season and the IHSA Class 6A State Championship.

Go Bulldogs!

IN HONOR OF THE 130TH ANNIVERSARY
OF FAMILY AND CHILDREN'S PLACE
AND ITS MISSION TO CREATE A
BRIGHTER FUTURE FOR CHILDREN
AND FAMILIES IN LOUISVILLE, KY

HON. JOHN A. YARMUTH

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. YARMUTH. Mr. Speaker, for the past 130 years, Family & Children's Place has been a leader in providing support to Louisville-area families living in crisis and developing national models for service to improve children's academic performances and home lives.

Family & Children's Place was established in 1883 to help feed, clothe, and shelter families in need. Since then, it has evolved to meet new needs and challenges facing chil-

dren and families affected by abuse, neglect, and violence.

The organization was among the first in the Commonwealth of Kentucky to recognize the growing problem of child abuse and neglect, and responded by doubling its efforts to ensure at-risk families and those affected have the opportunity to heal, grow, and thrive in a safe environment. It has continued to play an instrumental role by establishing the only comprehensive child-friendly treatment and evaluation center for sexually-abused children in the Louisville region.

Nationally, Family & Children's Place has created model programs to help teach parenting skills to first-time parents, improve academic success rates for children, reduce the incidence of drug abuse, and ensure stable housing and self-sufficiency for families at risk of homelessness.

Today, Family & Children's Place serves a 17-county region encompassing Louisville, Southern Indiana, and the surrounding area. Last year alone, the organization provided assistance to more than 6,500 children and family members, and was able to end the cycle of child abuse for another 1,200 children.

Mr. Speaker, as Family & Children's Place embarks on its 131st year of remarkable service, I am confident it will continue to strengthen our community by inspiring and empowering others through its exceptional work.

Congratulations to Dan Fox, CEO of Family & Children's Place; Pam Darnell, President; Bill Meyer, Chairman of the Board; and to all the employees and volunteers on 130 years of dedicated service to our community.

HONORING WILLIAM FRANCIS

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of California. Mr. Speaker, I rise today to honor William Francis upon his retirement as a District Attorney Investigator for the County of Napa. I thank Mr. Francis for his more than twenty-eight years of dedicated service to the people of Napa County, during which time his commitment to improving the safety and well-being of the Napa community is both admirable and deserving of recognition.

Mr. Francis began his career in public service in 1981 as a reserve police officer with the City of St. Helena. He then went on to work as a Napa County Sheriff's Deputy in 1985 before beginning his career as an Assistant District Attorney Investigator for the County of Napa in 1997.

Mr. Francis has also been involved with a wide variety of organizations dedicated to improving the wellbeing of the Napa community. He has been a member of the California Sexual Assault Investigator's Association, California Homicide Investigator's Association, Napa County Homicide Task Force, Tri County Investigator's Association, Western State's Livestock Investigator's Association, California Safe and Burglary Association, Governor's Rural Crime Prevention Task Force and the California Crime Prevention Officer's Association. He is currently a member of the California District Attorney Investigator's Association as well as the National Senior Pro-Rodeo

Association. Notably, Mr. Francis won the 2010 Investigator of the Year award given by the California District Attorney Investigator's Association.

Mr. Speaker, it is appropriate at this time that we honor and thank Mr. Francis for his invaluable service to the County of Napa. William Francis' unyielding dedication to making Napa County a safer place to live, work and raise a family is greatly appreciated by the entire Napa community and we wish him a most enjoyable retirement.

IN SUPPORT OF PRIORITY-TWO
(P-2) REFUGEE IMMIGRATION
STATUS FOR AHISKA TURKS

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. HASTINGS of Florida. Mr. Speaker, I rise today in support of the Ahiska (Meskhetian) Turkish community, a distinct minority group that has faced statelessness, discrimination, and violent attacks in the former Soviet Union for nearly 70 years. Given recent reports of active and severe persecution against Ahiska Turks in southern Russia at every socio-economic and political level because of their ethnicity and religion, I urge the U.S. Department of State to re-establish Ahiska Turks as a group of "special humanitarian concern" for Priority-Two (P-2) processing for refugee status.

The Ahiska Turks, who were uprooted and resettled from their ancestral lands in the Soviet Republic of Georgia by Stalin in 1944, have been perennial refugees since then, and unable to return to their homes. Much of the refugee community is now centered in the Krasnodar region of southern Russia, led by Governor Alexander Tkachev. The Ahiska Turk community numbers less than 19,000 in the Krasnodar region, with thousands more in the nearby Rostov region and Kabardino-Balkaria, for a total of 80,000 in all of Russia.

Between 2004 and 2007, roughly 12,000 Ahiska Turks came to the United States under a special refugee status known as P-2, settling all over the United States, including in Ohio, Illinois, Florida, Georgia, Idaho, Pennsylvania, New York, Oregon, Missouri, Kentucky, Texas, Connecticut, Massachusetts, Virginia, and many other states. This resilient community has been able to fully integrate into American society, and has proven itself to be a great asset in their new home states by becoming entrepreneurs and creating opportunities for others.

Unfortunately, Ahiska Turks lost their P-2 status when it expired in 2007. For those who remain stateless in southern Russia, their struggles continue. The discrimination and ethnic persecution of the Ahiska Turks by the Russian authorities, as well as vigilante and Cossack paramilitary forces, has been documented by the U.S. State Department, the Russian human rights organization "Memorial," and the media, most recently The New York Times.

Furthermore, an October 2013 report by the European Commission Against Racism and Intolerance, which dedicates a section to Ahiska Turks, indicated that the situation in southern Russia remains "very bad" for ethnic minori-

ties. The report also goes on to explain that human rights organizations' efforts to monitor and report on the situation have been met with "hostility by the authorities, including criminal investigations and prosecutions."

Mr. Speaker, issues of human rights and the ethnic persecution of Ahiska Turks in southern Russia remain serious concerns. Although the Ahiska Turkish diaspora, particularly in the United States, and various organizations have long advocated for renewed resettlement assistance, the international community remains largely unresponsive. Therefore, I believe that it is long past time that the State Department re-institute P-2 status for Ahiska Turks and resume the implementation of a successful program that has not only improved the lives of refugees, but also enriched the communities they joined.

CONGRATULATING DANIEL R.
MOON ON ACHIEVING THE RANK
OF EAGLE SCOUT

HON. JOHN L. MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. MICA. Mr. Speaker, I rise today to recognize, honor and congratulate an outstanding constituent of my district, Daniel R. Moon of Scout Troop 931 in Oviedo, Florida, for achieving the rank of Eagle Scout.

The rank of Eagle Scout is the highest achievement in scouting. To attain this rank, he has demonstrated the qualities of leadership, self-discipline and perseverance while serving his family, friends and community. Only about five percent of Boy Scouts earn the rank of Eagle Scout. The awarding of the Rank of Eagle Scout is a performance-based achievement with high standards that have been well maintained over the past century.

Daniel Moon has met every test and challenge to pass through the ranks of the Boy Scouts. Those aspiring to be Eagle Scouts must fulfill requirements in the areas of leadership, service and outdoor skills. To demonstrate proficiency as a scout, each Boy Scout must achieve merit badges in the areas of First Aid, Citizenship, Environment, Fitness, Family Life and much more.

The work ethic Daniel has shown in his Eagle Scout projects, and every other project leading up to his Eagle Scout rank, speaks volumes about his commitment to assisting his community and serving a cause greater than himself. It is my honor to commend Daniel Moon for his achievement of the rank of Eagle Scout. Daniel will join the ranks of fellow Eagle Scouts like President Gerald R. Ford, Neil Armstrong and Florida Governor Rick Scott.

Mr. Speaker, the example set by this young man and his supportive family demonstrates the rewards of hard work, dedication and perseverance. Daniel's devotion to the Boy Scouts over the past decade is laudable, and I congratulate him on his achievement. I thank him for his dedication to service and know we can expect great things from him in the future. I invite my colleagues in the House to join me in congratulating Daniel Moon on obtaining the rank of Eagle Scout, and I wish him continued success in his future endeavors.

HONORING LARRY CIESLA

HON. CORY GARDNER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. GARDNER. Mr. Speaker, Colorado's 4th Congressional District is home to countless special people and businesses. Today I rise to honor Larry Ciesla, one of those special people who has made a major impact at Intrado, Inc., a company in my district that has played a significant role in providing our country's 9-1-1 emergency system. This month, Larry will retire after more than 40 years in this mission-critical industry.

Larry began his telecommunications career as an engineer with Western Electric, which later morphed into Bell Labs, AT&T Technologies and eventually Lucent Technologies. Before and after Intrado acquired Lucent's Public Safety Division, Lucent's switch engineers recognized Larry's special capabilities and came to respect his expertise in 9-1-1 switching functionality—presenting Larry with the Bell System's prestigious "Distinguished Member of Technical Staff" award. It was in those early years when Larry's visionary participation in standards development and his pioneering contributions led to the technical foundation for what we all know today as Enhanced 9-1-1 service.

Larry can count among his accomplishments his role as the chief architect of the AT&T E9-1-1 database management system, his leadership in developing a geo-spatial 9-1-1 database which was a precursor for locating mobile 9-1-1 callers used today, and his co-authorship of the technical paper that defined the method used today for routing wireless 9-1-1 calls—ensuring that those calls for help at a time of need are delivered to the appropriate public safety agency.

Larry is credited as an inventor or co-inventor of multiple U.S. Patents, including a method for expanded communications in a telecom network and an E9-1-1 architecture for Internet telephony.

Always content to work behind the scenes, Larry has been an unsung hero—responsible for saving countless lives in his four decades on the job. On behalf of all Americans, I commend Larry Ciesla for his dedication, his outstanding contributions, and his impactful service to his country and its citizens.

HONORING MS. MANISHA HEARD

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor a remarkable, well-rounded, and highly driven young woman, Ms. Manisha Heard. Born to Mr. Steve Campbell and Ms. Jean Heard, Manisha was raised in the small, close-knit town of Bolton, Mississippi. As a child, Manisha was an outstanding young woman who was deeply involved in her community and church home. She regularly attends Church of God In Christ and is active in Sunday school and various other auxiliaries.

Manisha is not only a well-mannered young woman, but also exceptionally bright. Her academic ambitions were accomplished and exceeded during her matriculation at Raymond High School, where she graduated in May 2010. She currently is matriculating at Jackson State University in Jackson, Mississippi, where she is striving to receive a Bachelor's of Science Degree in Multimedia Journalism. Her ambitious spirit will ultimately lead her into a promising career of on-air news reporting. Alongside her academic studies, Manisha has been involved in a number of extracurricular activities as well, including an avid member of the Jackson State University cheerleading squad, MADDRAMA Performance Troupe, and served as Miss Junior of Jackson State University.

Deeply rooted in her faith, Manisha also continues to remain involved with her church home. She has been crowned Miss Church of God In Christ and served as Assistant Secretary for COGIC club. Manisha truly has a heart to serve others and continues to advocate for her fellow peers. Currently, Manisha serves as Resident Hall Senator for the Student Government Association and has been selected to serve on the president society at Jackson State University. In addition to her other appointments, Manisha will also serve as Women's Philanthropy Ambassador. Clearly, Manisha's peers and university administrators have entrusted her with the responsibility to represent the student body in a variety of capacities.

Mr. Speaker, I ask my colleagues to join me in recognizing Ms. Manisha Heard for her remarkable, ambitious spirit to succeed academically as well as her continued drive to serve and address the concerns of her fellow peers through her appointed service within her church and college community.

IN RECOGNITION OF MR. THOMAS
SHARPE WILMETH

HON. PETE SESSIONS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. SESSIONS. Mr. Speaker, I rise today to recognize Mr. Thomas Sharpe Wilmeth who will be awarded the Distinguished Eagle Scout Award on Saturday, December 7, 2013.

Mr. Wilmeth was introduced to math and the concepts of math at a young age in Indianapolis, Indiana. He graduated high school at the age of 15 and went on to graduate magna cum laude with a degree in electrical engineering from Purdue University in 1935. Mr. Wilmeth then worked for various businesses where he focused on increasing efficiency and productivity while reducing costs. In 1949, he and his brother started Scot Industries. Mr. Wilmeth used his engineering background and education to establish a metal honing business that produced better, more efficient and less expensive products, such as hydraulic cylinders, metal tubing, and metallurgy. He now lives in Daingerfield, Texas and after 45 years of success, Scot Industries has 13 different locations and has built an international reputation for quality and technological leadership in the areas of specialty metal bars and high pressure efficient metal tubing.

Since obtaining the rank of Eagle Scout at the age of 15, Mr. Wilmeth has remained true

to his scouting promises of kindness, generosity, and sharing. As a lifelong entrepreneur and philanthropist, he continually contributes to his alma mater, Purdue University, and to the Boy Scouts of America, where both BSA councils in Indianapolis, Indiana and NeTse0 Trails have greatly benefited. With his background, it is evident Mr. Wilmeth deserves the Distinguished Eagle Scout Award, acknowledging his achievements and success within his field and his outstanding record of voluntary service to his community.

Mr. Speaker, I ask my esteemed colleagues to join me in expressing our heartfelt congratulations to Mr. Thomas Sharpe Wilmeth as he receives this prestigious award.

HONORING STEPHEN KLEIN

HON. PETER WELCH

OF VERMONT

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. WELCH. Mr. Speaker, today, Stephen Klein, a long serving and widely respected Vermont public servant, is receiving the prestigious Stephen D. Gold Award from the National Council of State Legislatures (NCSL) here in our Nation's capitol.

The Gold Award is presented by NCSL, in conjunction with the National Tax Association and the Association for Public Policy Analysis and Management, to an individual who has made a significant contribution to public financial management in State and local finance. Those who know the serious fiscal challenges our small State has faced in recent years know Stephen deserves this award, and much more.

Vermont has an unusual, perhaps unique, way of grappling with fiscal issues. The Joint Fiscal Office, directed by Stephen since 1993, is a non-partisan office providing financial analyses to the Vermont General Assembly. It serves the so-called "money committees"—Appropriations, Ways and Means, and Finance. It serves Republicans and Democrats. It serves the majority and minority parties. And during Stephen's tenure both parties have been in both positions.

Vermont, like most States, has faced contentious fiscal issues—school finance, health care funding, recessions, and conflicting and fiercely debated taxing and spending priorities. Yet through it all, with Republican and Democratic majorities and Republican and Democratic governors, Vermont experienced in Stephen an assured, creative, and honest leader who helped us—through good times and bad—balance our budgets, meet our priorities, and plan for our future.

Stephen Klein's accomplishments are significant: balancing budgets in a State without a balanced budget amendment, creating a process for all stakeholders to agree on revenue estimates, and establishing a matching endowment fund for the Vermont State Colleges, to name just a few.

But if his competence earned him universal respect, it is his personal qualities that have endeared him to all who know him—professional and emotional generosity, a twinkling smile and sense of humor, a hectic but focused energy, respect for his long serving and able staff; his humility, and his genuine respect for every legislator.

As hard as Stephen has worked for the State of Vermont, he has served in many other ways including as a Peace Corps volunteer in Honduras and the Dominican Republic, a member of the Randolph School Board, and a director of the Hunger Mountain Food Coop. Blessed with a loving family—his wife, Pricilla, and his children, Elana and Jonathan—Stephen is a Vermonter who makes his fellow Vermonters proud.

REMEMBERING PRIVATE PAUL M.
JOHNSON

HON. ELIZABETH H. ESTY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Ms. ESTY. Mr. Speaker, tomorrow marks the 72nd anniversary of the attack on Pearl Harbor. As we remember the day that lives in infamy, we must stir our memory of those lost and whose sacrifice anchors Pearl Harbor's significance.

Private Paul M. Johnson was born in 1922 in Waterbury, Connecticut. The son of a popular Waterbury Police Detective, he lived on Greenwood Avenue, attended Mary Abbott Grammar School, graduated from Leavenworth High School and was a member of Beth-El Synagogue. His uncle, Private David L. Fannick, was killed on the battlefields of France in June of 1918, inspiring the formation of the local David L. Fannick Jewish War Veterans Post No. 91. Always wanting to be a soldier like his uncle, Paul enlisted on April 23, 1941. Sent to Fort Shafter, Territory of Hawaii, he was assigned to the 40mm Bofors AA, Battery "E" of the 646th Coast Artillery.

During the attack on Pearl Harbor on December 7, 1941, Pvt. Paul M. Johnson did what he was trained to do. Pvt. Johnson ran to his station, Battery E, 64th Coast Artillery Anti-Aircraft, and returned fire with his anti-aircraft guns. Pvt. Paul M. Johnson was wounded defending our Nation, and died the next day, December 8, 1941 at age 19 as a result of his wounds. Private Paul M. Johnson was the first soldier from Waterbury to give his life in World War II. His was a sacrifice we cannot repay, so it is our solemn obligation to give it honor. We do that today as we remember the cost of war, the price that is paid, and the promise that we must keep in defending and protecting this great Nation.

PEARL HARBOR

HON. MICHAEL G. FITZPATRICK

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. FITZPATRICK. Mr. Speaker, on December 7, 1941, Japan attacked Pearl Harbor, an event that changed America and catapulted this nation onto a world stage and into global conflict—World War II. At least 2,400 Americans lost their lives in Pearl Harbor and more than 1,000 were wounded. Each year, we remember the day that changed the nation, ignited the flame of freedom and inspired a generation to greatness. And while we seek peace in a tumultuous world, America remains ever vigilant and determined to be free. Pearl

Harbor was not unlike September 11, 2001, when the unexpected attack within our shores also claimed thousands of innocent lives and stunned the nation. Today, we honor those who passed the torch of freedom to a new generation. Because of their sacrifice, America remains a shining light, a beacon to the world, and a timeless reminder of the sacrifices this great nation is willing to make in the face of freedom and liberty challenged.

RECOGNIZING UNION COUNTY
MAGNET HIGH SCHOOL

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. LANCE. Mr. Speaker, I rise today to recognize Union County Magnet High School of Scotch Plains, New Jersey, for being named a Blue Ribbon School by the United States Department of Education.

The Department of Education acknowledges schools where students attain and maintain high academic goals. Union County Magnet High School is a proud example of academic excellence where students have high levels of performance, stellar student achievement and where educators facilitate a strong learning environment.

I congratulate the students, faculty and community on this high honor. This is a prestigious award to receive and Union County Magnet High School is a proud example of academic excellence and worthy of this national distinction.

HONORING MR. PETER BENJAMIN
LEWIS

HON. SEAN PATRICK MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. SEAN PATRICK MALONEY of New York. Mr. Speaker, I rise today to honor a great American and dear friend; a pioneering businessman, and dedicated philanthropist; a devoted father and loving husband, Peter Benjamin Lewis.

Peter Lewis was born during the Great Depression in Cleveland, Ohio, on November 11, 1933. The son of Joseph Lewis and the former Helen Rosenfeld, Peter was the oldest of four children. He graduated in 1955 from Princeton University where he met his future wife, Toby Devan. They married soon after he graduated and raised three extraordinary children: Jonathan, Ivy and Adam.

By age 12, Peter Lewis was working at his father's small insurance business. It would become his life's passion. Through decades of hard work—risking, learning, growing—Peter turned his father's 100-employee firm into one of the nation's largest auto insurance companies, the Progressive Corporation. Under Peter's visionary leadership, Progressive became one of the greatest companies in American history, today employing more than 28,000 people.

As a legendary philanthropist to numerous organizations, and as a generous benefactor of great architecture and the arts, Mr. Lewis

leaves behind a notable mark in so many different communities across the country. He has generously donated more than \$220 million to Princeton University, where he served as a trustee. He also held honorary degrees from Case Western Reserve University and the Cleveland Institute of Art.

Mr. Lewis is survived by his wife, Janet Rosel Lewis, of Cleveland, Ohio; his brother and sister-in-law, Daniel and Jan Lewis and son Jonathan D. Lewis, of Coconut Grove, Florida; his daughter, Ivy Lewis, of Princeton, New Jersey; his son and daughter-in-law, Adam and Melony Lewis, of Aspen, Colorado; his friend and former wife, Toby Devan Lewis, of Cleveland, Ohio; and five grandchildren.

Mr. Speaker, please join me and Mr. Lewis' family in remembering and celebrating the remarkable life, lasting achievements, and indelible spirit of Peter B. Lewis.

HONORING PORTER & SONS'
FUNERAL HOME, INC.

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor Porter and Sons' Funeral Home, Inc. in Lexington, Mississippi.

This funeral service business was established for African-Americans in 1979.

The business was first started by Mr. Lindbergh Porter, Sr., and his wife, Bernice Redmond Porter. They were instrumental in purchasing and renovating the building located at 237 Yazoo Street in Lexington, Mississippi.

Mr. Porter, Sr., and his wife ran the day-to-day operations of the funeral home until later years, when his sons, Byron, Pat and his daughter, Bonita, came on board.

Following the death of Mr. Lindbergh Porter, Sr., and his wife, Bernice Porter, the funeral home became incorporated in 1999.

Today, the Porter and Sons' Funeral Home is in the same location and is still being successfully run by all of Mr. and Mrs. Porter, Sr.'s, children: Lindbergh, Jr., Pat, Byron and Bonita.

Mr. Speaker, I ask my colleagues to join me in recognizing Porter and Sons' Funeral Home for its outstanding service to the community.

HAPPY BIRTHDAY TO PROFESSOR
MENAHEM PRESSLER OF THE INDIANA
UNIVERSITY JACOBS
SCHOOL OF MUSIC

HON. TODD C. YOUNG

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. YOUNG of Indiana. Mr. Speaker, I rise today to celebrate the 90th birthday of Professor Menahem Pressler of the Indiana University Jacobs School of Music in Bloomington, Indiana. I would like to join Indiana University in recognizing his lifelong dedication to music, teaching, and the artistic inspiration of others.

During Professor Pressler's 60 years with the piano faculty of the Jacobs School of Music, he has earned the reputation as a pas-

sionate and gifted instructor, helping young, talented musicians expand upon their skills and abilities. For his commitment to music and teaching, he has received the rank of Distinguished Professor of Music at Indiana University, and also holds honorary doctorates from several other American universities. Moreover, his reputation among his peers, colleagues, and students serves as a testament to his outstanding character.

Professor Pressler's talents have taken him all over the world, performing in well-renowned competitions and musical events in the United States and abroad. He has performed solo as well as collaborated with groups like the Beaux Arts Trio, which is considered the gold standard for trios throughout the world. He has received numerous honors for his musical performances during his lifetime, beginning with first prize at the Debussy International Piano Competition in San Francisco in 1946. Since then, his career has been world renowned, performing with the orchestras of New York, Chicago, London, Paris, and many others.

I know that Hoosiers throughout Indiana's 9th District are proud to have such a brilliant, talented gentleman reside in the vibrant town of Bloomington. He has left an incredible impact not only in South Central Indiana, but also across our nation and the world, and his life and career are deserving of much recognition. For his continued work at Indiana University and outstanding contributions to music, please join me in wishing Professor Pressler a very happy birthday.

IN TRIBUTE TO GUIDO WEIGEND

HON. DAVID SCHWEIKERT

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. SCHWEIKERT. Mr. Speaker, I rise today to recognize Mr. Guido Weigend for his long-term dedication at the Office of Strategic Services. His many years of service have impacted us all. I would also like to thank him for dedicating the majority of his life to the advancement of our nation's youth through his role at Arizona State University. We are in sincere gratitude for the vision, guidance, and leadership he has provided our country.

THANKING THE PARTICIPANTS TO
OUR FIRST ANNUAL 17TH CONGRESSIONAL
DISTRICT ECONOMIC SUMMIT

HON. CHERI BUSTOS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mrs. BUSTOS. Mr. Speaker, I rise today to thank everyone who participated in our First Annual 17th Congressional District Economic Summit on November 22, 2013 at Augustana College in Rock Island, Illinois.

The Economic Summit, held in partnership with the University of Illinois, brought together community leaders from across our district to share economic development strategies and best practices to reduce unemployment, create jobs, and strengthen local economies.

The Economic Summit was a huge success because of the participation of our excellent

speakers and attendees. I would like to give my sincere thanks to Dr. Lawrence Schook, Adam Pollet, Steven Bahls, Tara Barney, Dr. Thomas Baynum, Shannon Duncan, and Jeffrey Kaney, Sr. for their astute analysis of the challenges and opportunities facing our district and their willingness to work together to ensure that the 17th District is one of the best places to live, work, start a business, and raise a family.

Our speakers included three exceptional educational leaders. Dr. Lawrence Schook is the Vice President for Research at the University of Illinois and is well known for his work as an educator, biomedical scientist, and entrepreneur. He also serves on the Illinois Innovation Council as well as the Board of Managers for the Argonne and Fermi National Laboratories. Steven Bahls is the President of Augustana College in Rock Island, Illinois and a recognized scholar in business law, agricultural law, and education. Dr. Thomas Baynum is President of Black Hawk College with campuses in Moline and Galva, Illinois. Under his leadership, Black Hawk College serves roughly 20,000 students in degree programs, continuing education, and vocational programs.

Our panels also included prominent economic and community development leaders. We were fortunate to have Adam Pollet, the Director of the Illinois Department of Commerce & Economic Opportunity. Mr. Pollet guides and oversees the agency tasked with growing our state economy. Tara Barney is the President and CEO of the Quad Cities Chamber of Commerce, representing 2,000 businesses and 90,000 employees in the region. Shannon Duncan is a Planning Coordinator with the Western Illinois Regional Council and oversees community development work for many of the rural counties in Western Illinois. Lastly, Jeffrey Kaney, Sr. is the founder and CEO of the Kaney Group, an aerospace company in Rockford, Illinois. He is a veteran of the U.S. Air Force and serves on the board of the Rockford Area Economic Development Council and is Chairman of the Rockford Area Aerospace Network (RAAN).

Mr. Speaker, I want to sincerely thank everyone who participated and helped make our Economic Summit such a success. While there's much work to be done, I have high hopes for our region and look forward to building on the partnerships forged at the event.

MASUD MEHRAN

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Ms. PELOSI. Mr. Speaker, last week, our community lost a great civic leader, a true American success story and a pillar of the San Francisco Bay Area: Masud Mehran. He passed away on November 26th, at the age of 93, surrounded, as he always was throughout his long life, by his family, by those he loved, by those he cherished most.

Masud Mehran lived the American Dream. He was an immigrant who came with his wife, Maryam, to the United States from Iran in search of opportunity. He got an education from some of our finest universities and traveled across our country. He made his way to the Bay Area, to the region that would be his

home for more than 60 years, and started a business. And over the ensuing decades, he built Sunset Development Company into one of the largest, most successful real estate developers in California.

For Masud, extraordinary success in business was not enough; his values, his heritage, and his conscience drove him to do more—for our community, for our young people, for our state and nation.

Beyond his extensive leadership roles among associations of home builders and developers in San Francisco and statewide, Masud's generosity could be seen in his support for the health of our youth at Children's Hospital; the development of our children in the Boy Scouts of America; the education of our students at Golden Gate University, Dominican College, UC Berkeley, and elsewhere.

His efforts were recognized with the Good Scout award for outstanding leadership in helping to build a better American community; the Democratic Heritage award from the Anti-Defamation League; and the Award of Excellence from the Urban Land Institute for Large-Scale Office Park Development.

All who knew him will long be inspired by his leadership, his values, his strength, and his willingness to give back to those around him. His legacy can be found in the impact of his philanthropy and the example he set for so many others in the Bay Area and nationwide. Yet no legacy—in business or in community activism—could ever compare to the extraordinary pride he always took in his family.

Devotion to his family was Masud's first priority. Dedication to his loved ones was his defining characteristic. Spending time with his wife, Farideh, his son, Alex, and his grandchildren was his greatest joy. He will certainly be missed by all who knew and loved him.

May it be a comfort to the entire Mehran family that so many share in their grief and mourn along their side at this sad time. May Masud Mehran's life and memory forever be a blessing to us all.

HONORING THE COLUMBUS EAST
HIGH SCHOOL FOOTBALL TEAM

HON. LUKE MESSER

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. MESSER. Mr. Speaker, I rise today to honor the accomplishments of the Columbus East High School football team.

The Columbus East football team recently captured the team's second state championship. The Olympians won the Indiana High School Athletic Association Class 4A State Final 28–27 over Fort Wayne Bishop Dwenger. With 3:42 left in the game, Columbus East scored a touchdown, giving them the one point lead that won the championship.

The team embodied the best of Hoosier sportsmanship with their dedication, grit, and execution shown not only in the championship game but throughout the season. For the leadership and support of this championship team, congratulations and accolades go to the Athletic Director and Coach, Bob Gattis, Superintendent John Quick, Principal Mark Newell and the assistant coaches.

I ask the entire 6th Congressional District to join me in congratulating the Columbus East

Olympians for their impressive victory. I look forward to seeing what each of these talented young athletes will achieve in the future.

RECOGNIZING ST. ROSE OF LIMA
ACADEMY

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. LANCE. Mr. Speaker, I rise today to recognize St. Rose of Lima Academy of Short Hills, New Jersey for being named a Blue Ribbon School by the United States Department of Education.

The Department of Education acknowledges schools where students attain and maintain high academic goals. St. Rose of Lima Academy is a proud example of academic excellence where students have high levels of performance, stellar student achievement and where educators facilitate a strong learning environment.

I congratulate the students, faculty and community on this high honor. This is a prestigious award to receive and St. Rose of Lima Academy is a proud example of academic excellence and worthy of this national distinction.

HONORING THE LIFE AND SERVICE
OF SHEILA LEIGH STEWART

HON. DONNA F. EDWARDS

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Ms. EDWARDS. Mr. Speaker, I rise today to recognize the life and service of Sheila Leigh Stewart, a former resident of Laurel in the Fourth Congressional District of Maryland. She died unexpectedly and tragically on October 24, 2013. A memorial service for Sheila will be held on Friday, December 6, 2013, at First Baptist Church of Glenarden in Landover, Maryland. I want to remember the legacy Ms. Stewart leaves behind.

Ms. Sheila Stewart had a long and distinguished career of more than 25 years in the broadcasting industry. She epitomized the traits of a good citizen, serving our communities as an organizer of engagement and charitable giving. I join all of the metropolitan Washington area in mourning the loss of a great woman and unparalleled public citizen.

Ms. Stewart was born in Fairfield County, South Carolina, on February 28, 1969. She graduated from Benedict College in Columbia, South Carolina, with a Bachelor of Arts degree in Broadcast Journalism, and also worked as an adjunct Professor of Journalism at several colleges.

Known by radio listeners as "Ms. Community," Ms. Stewart worked for years in Charlotte at Power98, WPEG-FM, where she served as on-air-personality and news and public affairs director. When she relocated to the Washington, DC, area, Sheila worked as the news and community affairs director for Radio One. She was at the helm of news programming at WKYS, Radio One's DC station, and the company's other affiliates, including Praise 104.1, WPRS-FM.

At Radio One, Ms. Stewart was instrumental in advocating on behalf of community issues,

nonprofit organizations, and events that helped improve neighborhoods throughout our region. She was guided in every way by her faith. Her energy and passion to make change will be missed.

With her passing, it is my hope that Sheila Leigh Stewart has found the peace earned from such a wonderful life. Ms. Stewart made a difference in our community with everything she did, and I am grateful for her life and service to Prince George's County, Maryland, and our country.

On behalf of this House, I extend our condolences to her entire family, especially her precious young son, Jonathan Henry Russell; her mother, Dorothy Stewart; her four sisters; her three brothers; and Radio One, and the thanks of a grateful nation. I will miss her tremendously.

HONORING TELLIS B. ELLIS III

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor a remarkable public servant, Dr. Tellis B. Ellis III, who was born in Jackson, Mississippi one of four children born to Tellis B. Ellis, Jr. and his wife Lucinda. Dr. Ellis.

Dr. Ellis attended Jim Hill High School where he excelled at both football and basketball. He completed his undergraduate studies in 1965 at Jackson State University in Jackson, Mississippi with a B.S. Degree in Science. While attending Jackson State Dr. Ellis was honored as a member of Who's Who in American Colleges and Universities. He was an outstanding football player for Jackson State and was recruited by the NFL to play professional football for the Green Bay Packers in Green Bay Wisconsin. After sustaining a knee injury, which ended his hopes for a career as a professional athlete, he made the decision to pursue a career in Medicine.

Dr. Ellis was accepted into medical school at Meharry Medical College in Nashville, Tennessee and received his Medical Doctorate in 1970. He completed both his Internship and Residency in Internal Medicine at Meharry Medical College in 1974. Dr. Ellis then returned to Jackson, Mississippi where he completed his Cardiology Fellowship at the University of Mississippi Medical Center in 1977. Dr. Ellis is Board Certified in Internal Medicine and Cardiology.

Dr. Ellis is active at the local and national levels in the following professional societies and organizations: American Medical Association, Mississippi Medical Association, Jackson Medical Society, National Monitoring Board Member Jackson Heart Study, American College of Cardiology, National Medical Association, Association of Black Cardiologists, Jackson Medical Association, and Mississippi Medical and Surgical Association where he served as President. Dr. Ellis is an active member of the Jackson State University Alumni Association and was honored in 1975 with the First and Only Black Board Certified Internist in Mississippi Award.

Dr. Ellis is a founding partner of Jackson Cardiology Associates in Jackson, Mississippi where he practices with four other Cardiol-

ogists. He is Assistant Clinical Professor at the University of Mississippi Medical Center and an active staff physician at St. Dominic-Jackson Memorial Hospital, River Oaks Hospital and Central Mississippi Medical Center in Jackson, Mississippi.

Dr. Ellis is widowed and has one son; Tellis B. Ellis IV. He is the proud grandfather of Brian Ellis.

Dr. Ellis is a member of Pearl Street AME Church in Jackson, Mississippi. His medical special interest is Congestive Heart Failure and in his leisure time he enjoys fly fishing.

Mr. Speaker, I ask my colleagues to join me in recognizing Dr. Tellis B. Ellis III for his dedication to serving others.

IN HONOR OF MARGARET "PEGGY" McMAHON

HON. ROBERT E. ANDREWS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. ANDREWS. Mr. Speaker, I rise today to honor Margaret "Peggy" McMahon for her years as a nurse and as an advocate for those with whom she worked.

For over forty-six years, Ms. McMahon has dedicated her life to nursing. In 1965, she joined the Army Student Nurse program while attending the Philadelphia General Hospital School of Nursing. Three years later, Ms. McMahon was dispatched to Vietnam as an emergency and trauma nurse in the 85th Evacuation Unit in Qui Nhon and the 95th Evacuation Hospital in DeNang. While in Vietnam, Ms. McMahon was a fearless first-responder, providing emergency care to injured soldiers before they could see a doctor.

After her tour in Vietnam, Ms. McMahon returned to Williamstown, NJ to further her education. She received a bachelor's degree and master's degree, a Family Nurse Practitioner's certificate, and she also served as president of the Emergency Nurses Association. Since then, she has worked adamantly to make sure her fellow emergency nurses are recognized for their service and sacrifice. Ms. McMahon became an influential voice in the efforts to create the Vietnam Women's Memorial in Washington, DC. This past Veterans Day, Ms. McMahon and other wartime nurses were honored at the Memorial.

Mr. Speaker, Ms. McMahon's selflessness should be an example to all. I join all of South Jersey in thanking Ms. McMahon for her years of service to her country and community.

OUR UNCONSCIONABLE NATIONAL DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. COFFMAN. Mr. Speaker, on January 20, 2009, the day President Obama took office, the national debt was \$10,626,877,048,913.08.

Today, it is \$17,223,254,862,815.39. We've added \$6,596,377,813,902.31 to our debt in 4 years. This is \$6.5 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

RECOGNIZING CONTRIBUTIONS OF THE COALITION TO SALUTE AMERICA'S HEROES

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. WOLF. Mr. Speaker, I rise today in honor of The Coalition to Salute America's Heroes, a Virginia-based 501(c)(3), non-profit, non-partisan organization, established in 2004 to provide severely wounded veterans of the wars in Iraq and Afghanistan, and their families, with emergency financial assistance and other support services to help them recover from their injuries and rebuild their lives. CSAH is headquartered in Leesburg, which in my Congressional district in Loudoun County, and serves military veterans and their families living in the Commonwealth as well as nationally. All funds needed to develop and manage programs that advance its mission come from contributions to CSAH by individual citizens, corporate donors and foundations.

The mission of the Coalition is to ensure that our war-weary nation should not lose sight of its obligations to those who are protecting our freedoms. These true American heroes often receive little or no support from the nation for which they sacrificed so much. Because of a shortage of funding and an interminable bureaucratic backlog at the Veterans Administration, they wait for roughly a year, on average, to receive disability pay and benefits. Thousands do not get proper care for PTSD because it is largely misunderstood.

Under the leadership of David Walker, who serves as President and CEO, the Coalition to Salute America's Heroes helps severely wounded veterans and families of Operation Enduring Freedom and Operation Iraqi Freedom living in the Commonwealth of Virginia and across the country recover from their injuries and illnesses by providing emergency financial aid and other support services, in hopes that the veterans are able to transition successfully into civilian life. Additionally, the Coalition's emergency aid services responds to trends associated with suicide among veterans (24 per day), a sky-rocking divorce rate (60 percent among actives), and growing domestic abuse.

Last year as one of his first acts, Walker restructured The Coalition's budget so that it could give more directly to veterans and organizations that support them, with programs that include: emergency financial aid to help through crisis situations (evictions, car repossessions, etc.); training seminars; a call center program to provide veterans and spouses the opportunity to work on a part-time basis (some of the program's participants have moved on to part-time or full-time employment in the private sector); equine-therapy programs and more.

In 2013 alone, the Coalition will have donated nearly \$1 million in direct aid to veterans, in addition to managing the many other CSAH programs that are available to wounded veterans (conferences, holiday gift checks, education and training, etc.).

The Coalition has made eight grants totaling over \$80,000 to organizations based in Virginia and Washington, D.C., including: Horses Helping Heroes Project, which provides no-cost, equine-assisted activities and therapies

for wounded veterans in the Hampton Roads area of Virginia; Institute for Veterans Education and Training (IVET), which offers week-long training programs for veterans and their spouses; over \$50,000 to complete the construction of transitional housing for formerly homeless veterans living in Washington, D.C.; Final Salute, Inc., to provide safe and suitable transitional housing for homeless female veterans; Boulder Crest Retreat in Bluemont, VA, a new retreat for veterans seeking physical, mental and spiritual recovery from the wounds of war; Dog Tag Bakery, a not-for-profit venture dedicated to helping wounded veterans re-assimilate to civilian life by providing on-the-job bakery training and a tailor-made curriculum at the School of Continuing Studies at Georgetown University; etc.

In addition, this year, The Coalition was nominated for the Virginia First Lady's Opportunity Hall of Fame Awards, which recognizes leading Virginia nonprofits.

In April 2013, WTOP radio (CBS affiliate in Washington, D.C.) commended The Coalition by calling it a key resource responding to the problem of the growing back-log of U.S. Veterans Administration disability claims (which can take on average up to one year before veterans receive their disability payments).

Virginia has a proud tradition of military service to our nation, and is the grateful home of millions of veterans and their families. I am especially proud of the work of the Coalition to Salute America's Heroes and the work it is doing to fill a terrible void in our society. I commend The Coalition to Salute America's Heroes, which honors and remembers our heroes by helping them transition into civilian life so they may prosper.

HONORING THE ACHIEVEMENTS OF
PHILLIP G. COOP, FOUNDER OF
ENSAFE INCORPORATED

HON. STEVE COHEN

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. COHEN. Mr. Speaker, I rise today to honor the achievements of long-time Memphian Phillip Coop, founder of EnSafe Inc. and a pioneer in the field of environmental remediation. Phillip Coop founded EnSafe Inc. in 1980, and began with only two people on board. Since then, EnSafe has expanded to employ over three hundred people, earned Memphis Business Journal's Small Business of the Year distinction and received many other distinguished awards. The success of EnSafe is a testament to Mr. Coop's entrepreneurial spirit and incredible ingenuity.

More than thirty years later, Mr. Coop is still leading efforts in environmental sustainability by combining business, science and policy to ensure continued improvement in how we conserve energy, establish meaningful and practical regulations, and accurately evaluate our environmental performance. Mr. Coop also serves on the Board of Advisors for both the Herff College of Engineering at the University

of Memphis and the Engineering Department at Christian Brothers University. In addition, he received the inaugural Distinguished Leadership Award from the Environmental Financial Consulting Group in New York, and was honored with induction into the Society of Entrepreneurs in 2010.

Phillip Coop's achievements in environmental preservation and dedication to enriching programs in education have done great things for the city of Memphis and for people across the United States. His work serves as an example of how we all can contribute to making our community a better place to live. I ask my colleagues to join me in congratulating Phillip Coop on his achievements.

RECOGNIZING IMMACULATE
CONCEPTION SCHOOL

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. LANCE. Mr. Speaker, I rise today to recognize Immaculate Conception School of Annandale, New Jersey for being named a Blue Ribbon School by the United States Department of Education.

The Department of Education acknowledges schools where students attain and maintain high academic goals. Immaculate Conception School is a proud example of academic excellence where students have high levels of performance, stellar student achievement and where educators facilitate a strong learning environment.

I congratulate the students, faculty and community on this high honor. This is a prestigious award to receive and Immaculate Conception School is a proud example of academic excellence and worthy of this national distinction.

HONORING WATERLOO
MISSIONARY BAPTIST CHURCH

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 5, 2013

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor Waterloo Missionary Baptist Church.

According to deeds found in the Jefferson County Office of the Chancery Clerk, Waterloo Missionary Baptist Church (1870) is one of the oldest recorded established Black churches in the county. According to oral records, Waterloo Missionary Baptist Church was established prior to the Civil War (Histories written by members of church).

The Waterloo Colored Baptist Church, as it was filed in the Jefferson County Courthouse, was organized in 1870 and recorded in January 1871. On November 25, 1871, an agreement was made between Mr. B. J. Watkins and his wife, Mrs. Anna Jane Watkins, the pastor and several deacons of the church to

purchase two acres of land at a cost of one hundred dollars. The pastor and deacons who secured the land were: Rev. J. D. Weston, Deacons, Mason Boones, Joshua Weston, and Thomas Chambers. Waterloo Colored Baptist Church was said to have been founded as a place of worship for the slaves of the Waterloo Plantation, which was located in Jefferson County.

On April 18, 1924, Deacons A. H. Tooley, H.C. Jones, and A.B. Murphy paid the sum of twenty dollars to purchase an additional one half acre of land from Mr. and Mrs. Henry Watson. To date, there have been four church structures erected on this land. The church also doubled as a school to teach the children in the surrounding communities.

The first church was destroyed by fire on December 20, 1929 because of the carelessness of the school children. In 1930, the deacons and men of the church erected a small building that served as a school, and was also used for church services. When revival was held in August of that same year, the deacons and members built a 'brush shed' in front of the school and used the school's porch for the pulpit.

By the end of 1930, a new church structure was built by Brother Dangerfield from Harriston, Mississippi which was also destroyed by fire on February 3, 1931. The third structure was built in 1937 under the supervision of Brother Joshua A. Weston, Sr. and Waterloo held their monthly services at Morning Star Baptist Church.

The first church cornerstone was laid on April 30, 1961 under the leadership of Pastor James N. Dorsey, who was installed as the pastor on January 16, 1956 and served the congregation until January 21, 1979. From 1956 to 1959, Rev. Joe Thomas served as interim pastor while Rev. Dorsey served in the military. In 1980, renovations were made on this structure under the leadership and guidance of Pastor Floyd Rice, who was installed as pastor on May 12, 1979 and served until September 12, 1984.

The third structure stood until 1996 when the present structure was built under the leadership of Pastor Leon Howard who was installed on November 15, 1985 and he is currently pastor. Dedicatory services were held for the new church on October 14-18, 1996 and Sunday, October 20, 1996. Major renovations were completed on this building in 2008 with Re-dedicatory Services being held on September 16-17, and Sunday, September 21, 2008.

Pastor Howard's leadership has increased membership, financial conditions and in organizing First Sunday Worship Service and the Youth Department was organized with Rev. Curtis Smith, the youth minister. In January 2000, first Sunday Worship Service was changed to Fourth Sunday Worship Service starting at 8:30 a.m. In September 2008, Reverend Arthur Williams was installed as assistant pastor.

Mr. Speaker, I ask my colleagues to join me in recognizing Waterloo Missionary Baptist Church for its outstanding service to the community.

Daily Digest

Senate

Chamber Action

The Senate was not in session and stands adjourned until 2 p.m. on Monday, December 9, 2013.

Committee Meetings

(Committees not listed did not meet)

No committee meetings were held.

House of Representatives

Chamber Action

Public Bills and Resolutions Introduced: 18 public bills, H.R. 3656–3673; and 3 resolutions, H. Res. 431–433, were introduced. **Pages H7566–67**

Additional Cosponsors: **Pages H7567–68**

Reports Filed: There were no reports filed today.

Speaker: Read a letter from the Speaker wherein he appointed Representative Foxx to act as Speaker pro tempore for today. **Page H7509**

Journal: The House agreed to the Speaker's approval of the Journal by voice vote. **Pages H7509, H7556**

Innovation Act: The House passed H.R. 3309, to amend title 35, United States Code, and the Leahy-Smith America Invents Act to make improvements and technical corrections, by a recorded vote of 325 ayes to 91 noes, Roll No. 629. **Pages H7511–56**

Pursuant to the rule, an amendment in the nature of a substitute consisting of the text of Rules Committee Print 113–28 shall be considered as an original bill for the purpose of amendment under the five-minute rule, in lieu of the amendment in the nature of a substitute recommended by the Committee on the Judiciary now printed in the bill.

Page H7526

Agreed to:

Polis amendment (No. 3 printed in part A of H. Rept. 113–283) that requires claimants to provide additional disclosure information in any pre-suit notification to establish a willful infringement claim;

Pages H7538–39

Jackson Lee amendment (No. 6 printed in part A of H. Rept. 113–283) that requires the Director to conduct a study regarding the economic impact of the changes in current law resulting from Sections 3, 4, and 5 of the bill on the ability of individuals and small businesses owned by women, veterans, and minorities to assert, secure, and vindicate their constitutionally guaranteed exclusive right to their inventions and discoveries; **Pages H7543–45**

Goodlatte manager's amendment (No. 1 printed in part A of H. Rept. 113–283) that makes a few technical and clarifying changes. Specifically, under Section 3(d), it clarifies that the exception in paragraph one applies to biosimilars, it also adds an exception for actions seeking relief based on competitive harm, and ensures that the provision is not subject to reverse gamesmanship. Under Section 6(d) it makes clarifying changes that ensure that foreign courts cannot terminate licenses to US IP. Extends time required by the agencies to complete the various studies and reports required in the bill (by a recorded vote of 341 ayes to 73 noes, Roll No. 623); and **Pages H7532–35, H7551–52**

Rohrabacher amendment (No. 7 printed in part A of H. Rept. 113–283) that strikes 9(a) from the bill and reorders the remaining subsections of Section 9 (by a recorded vote of 260 ayes to 156 noes, Roll No. 627). **Pages H7545–46, H7754–55**

Rejected:

Watt amendment (No. 2 printed in part A of H. Rept. 113–283) that sought to bring the fee shifting provision in the underlying bill more closely aligned with the Equal Access to Justice Act. Would allow a judge to consider dilatory or other abusive tactics

by the prevailing party in determining whether to reduce or deny a fee award (by a recorded vote of 199 ayes to 213 noes, Roll No. 624);

Pages H7535–38, H7552–53

Massie amendment (No. 4 printed in part A of H. Rept. 113–283) that sought to strike section 5, the “Customer-suit exception” provision (by a recorded vote of 119 ayes to 296 noes, Roll No. 625);

Pages H7539–40, H7553

Jackson Lee amendment (No. 5 printed in part A of H. Rept. 113–283) that sought to expand covered customer definition to all small businesses as long as their annual revenue does not exceed \$25 million (by a recorded vote of 144 ayes to 266 noes, Roll No. 626); and

Pages H7541–43, H7553–54

Conyers amendment in the nature of a substitute (No. 8 printed in part A of H. Rept. 113–283) that sought to promote transparency in patent ownership; protect customers who are targeted in infringement suits; direct the PTO to develop educational resources for small businesses; instruct the PTO and others to prepare reports on several issues including the use of deceptive demand letters (by a recorded vote of 157 ayes to 258 noes, Roll No. 628).

Pages H7546–51, H7755

H. Res. 429, the rule providing for consideration of the bills (H.R. 3309) and (H.R. 1105), was agreed to yesterday, December 4th.

Meeting Hour: Agreed that when the House adjourns today, it adjourn to meet on Monday, December 9th at 12 noon for morning hour debate and 2 p.m. for legislative business.

Page H7759

Quorum Calls—Votes: Seven recorded votes developed during the proceedings of today and appear on pages H7751–52, H7752–53, H7753, H7753–54, H7754–55, H7755, and H7755–56. There were no quorum calls.

Adjournment: The House met at 9 a.m. and adjourned at 2:49 p.m.

Committee Meetings

EVALUATING THE ROLE OF FERC IN A CHANGING ENERGY LANDSCAPE

Committee on Energy and Commerce: Subcommittee on Energy and Power held a hearing entitled “Evaluating the Role of FERC in a Changing Energy Landscape”. Testimony was heard from the following Federal Energy Regulatory Commission officials: Cheryle A. LaFleur, Acting Chairman; Philip D. Moeller, Commissioner; John R. Norris, Commissioner; and Tony Clark, Commissioner.
