PATIENT SAFETY AWARENESS WEEK AND THE NATIONAL PATIENT SAFETY FOUNDATION

HON. ANN KIRKPATRICK

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 13, 2014

Mrs. KIRKPATRICK. Mr. Speaker, this week is Patient Safety Awareness Week, and today I'd like to recognize the National Patient Safety Foundation and the Organizations in my district that work to promote and improve patient safety.

In Arizona's District One, we have several facilities that are committed to patient safety, including Oro Valley Hospital, Flagstaff Medical Center, and Ventana Medical Systems.

Oro Valley Hospital has been nationally recognized for its efforts, which include daily safety huddles and employee empowerment. At Flagstaff Medical Center, their patient safety program also encourages employee collaboration.

My district is home to Ventana Medical Systems, a world leader in developing solutions for tissue-based diagnoses. Ventana has a new advisory board that brings together experts to review patient safety.

I applaud the National Patient Safety Foundation and the hospitals and companies in my district and nationwide who are leading the way to keep patient safety as a top priority.

RECOGNIZING THE IMPORTANCE OF NUCLEAR ENERGY

HON. MIKE KELLY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 13, 2014

Mr. KELLY of Pennsylvania. Mr. Speaker, I rise today to describe the unique opportunity for the United States to meet a number of national goals through the utilization of nuclear energy.

The nuclear industry has played an instrumental role in promoting economic growth and energy security in America. I have witnessed firsthand the benefits of nuclear energy back home in Western Pennsylvania, where the Westinghouse Electric Company employs thousands of hardworking Americans. Founded in 1886 by American entrepreneur and engineer Thomas Westinghouse, the company was initially known for helping to bring electricity to homes throughout our country. Today, nearly 50 percent of the nuclear power plants in operation worldwide, including nearly 60 percent in the United States, are based on Westinghouse technology.

These positive impacts on our domestic economy are only a part of nuclear energy's

overall benefits. The U.S. commercial nuclear energy sector yields enormous influence over global nonproliferation policy. The sector is also responsible for assuring international nuclear safety through the exportation of U.S. advanced reactor designs and America's operational expertise. Thus, by exporting U.S. nuclear technology, we ensure the highest levels of plant safety and influence over nonproliferation policies throughout the globe.

Mr. Speaker, a successful nuclear trade and export policy is paramount to international nuclear nonproliferation and power plant safety. I urge my colleagues to recognize the benefits of our nation's participation in the expanding global market for nuclear energy technologies.

NORTHERN IRELAND: INSUFFICIENT ATTEMPTS TO DEAL WITH THE PAST

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 13, 2014

Mr. SMITH of New Jersey. Mr. Speaker, earlier this week, I convened a hearing that inquired into the Northern Ireland peace process, particularly that aspect of it which is called "dealing with the past."

Sadly, much of what we heard about amounts to failures to deal with the past, as in the rejection of the recent proposal made by Dr. Richard Haass. Dr. Haass served as Chair of the Panel of Parties in the Northern Ireland Executive—that is, he was asked to assist in brokering an agreement to move the peace process forward. In that capacity Dr. Haass spent months consulting and formulating a proposal. In the end, the proposal was not accepted by all of the parties, though it clarified where progress can be made and where sticking points remain.

One of the most important questions that Dr. Haass and the parties dealt with is what will be done with the Historical Enquiries Team (HET) and the Police Ombudsman of Northern Ireland (PONI)—two key bodies established by the Good Friday agreement to investigate unsolved murders.

We discussed Dr. Haass' proposal to replace the HET and PONI with a Historical Investigations Unit and Baroness O'Loan's suggestion to replace them with a rather different Investigative Commission during the hearing. For now I want to underline this: both agree that the status quo way of dealing with Troubles crimes should be replaced. Likewise the parties in the Northern Ireland executive reportedly agreed with this aspect of Dr. Haass' proposal. So the agreement is broad on this point. It's time to move to a better system.

As Dr. Haass' proposal stated: "The multiplicity of institutions and vehicles for justice in respect of conflict-related incidents, however, creates confusion and places enormous burdens on the police. The HET, PONI, and inquests also suffer from the perception that they have proceeded too slowly."

The facts alone tell this story: of the more than 3,000 Troubles-related deaths that occurred between 1968 and 1998, the HET has yet to review some 600 cases, involving 800 deaths.

Dr. Haass' proposed Historical Investigations Unit has much to say for it—by establishing a single unit with full investigative
