

Bud has shown dedication and commitment to his profession by leading the Sheriff's Office in their endeavor to automate the operations of the Sheriff's Office by obtaining, installing and maintaining computer programs, software and equipment to keep the Sheriff's Office automated for over 25 years. Over the years, Bud has received numerous awards such as the Timothy J. Ruopp Award for Outstanding Law Enforcement Officer in 1987 and again in 2012.

It is with the utmost respect and deepest gratitude that I recognize and thank Bud Proffer for his many years of service to the Cape Girardeau County Sheriff's Office. I wish him health and happiness in his future endeavors and in his retirement. I am grateful that we have such caring members of the Cape Girardeau community; it is my pleasure to recognize his achievements before the House of Representatives.

CELEBRATING THE GIRL SCOUTS  
OF AMERICA

**HON. LEONARD LANCE**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 13, 2014*

Mr. LANCE. Mr. Speaker, I rise today to recognize the Girl Scouts of America as the organization celebrates its 102nd anniversary. More than 60 million Americans, and thousands of young women in my district, have been part of the premier leadership organization for girls.

The mission of the Girl Scouts has been to introduce girls to positive role models and experiences. Activities in science and technology, business and economic literacy, outdoor awareness and team building make them women of courage, confidence and character.

I applaud the Girl Scouts for more than a century of distinguished public service and the girls in my community for their achievements.

MAKENZIE MATTHEWS

**HON. ED PERLMUTTER**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 13, 2014*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Makenzie Matthews for receiving the Arvada Wheat Ridge Service Ambassadors for Youth award. Makenzie Matthews is a 10th grader at Pomona High School and received this award because her determination and hard work have allowed her to overcome adversities.

The dedication demonstrated by Makenzie Matthews is exemplary of the type of achievement that can be attained with hard work and perseverance. It is essential students at all levels strive to make the most of their education and develop a work ethic which will guide them for the rest of their lives.

I extend my deepest congratulations to Makenzie Matthews for winning the Arvada Wheat Ridge Service Ambassadors for Youth award. I have no doubt she will exhibit the same dedication and character in all of her future accomplishments.

USS BATTLESHIP "TEXAS" CELEBRATES 100 YEAR ANNIVERSARY

**HON. TED POE**

OF TEXAS

*Thursday, March 13, 2014*

Mr. POE of Texas. Mr. Speaker, fittingly titled after the Lone Star State, the USS *Texas* was the most powerful warship the world had seen. Commissioned on March 12, 1914, she participated in the most important battles of the first half of the Twentieth Century, spanning both World Wars and including the invasion of North Africa, Normandy, Iwo Jima and Okinawa. This year marks the 100th anniversary of the commissioning of this important Battleship named after our great state.

To commemorate her 100th anniversary, the Battleship *Texas* Foundation along with the Texas Parks and Wildlife Department are throwing a Texas-sized celebration for the Battleship on March 15, 2014 in La Porte at the San Jacinto Battleground Park. The all day festival will feature live music, food, fireworks, and activities for children as well as tours of the battleship. This month, don't pass up a great opportunity to go aboard and get a firsthand look of the last of the great Dreadnought battleships.

As a kid growing up in Spring Branch, I always looked forward to the long days of the hot Houston summers. Long days meant more time to play outside. I didn't know that summers in the other parts of the world were not steamy like here in Houston. (I now those from up north that Houston has two seasons: Summer and August.) Like most kids in the neighborhood, my sister and I played outdoors a good portion of the day and didn't come in til dark. We knew when the porch light came on, we had to be home within five minutes of seeing the "beacon" or there would be consequences. Occasionally, we got to take summer excursions with the family to the battlegrounds, the Monument and of course the Battleship *Texas*. That is where my love for the USS *Texas* began.

As kids, we thought it was "cool" that Texas had its own Battleship. We would pretend to shoot the guns on the ship, run through the countless corridors, nooks and crannies, climb the ladders as far as was allowed and reenact battles on the great battlegwagon. My best friend Pete Cliburn and I would climb from top to bottom of the "Mighty T," firing every gun and squeezing down every port hole along the way. We explored and climbed the ladders to the upper decks as high as we could go. When you reached the top of the ladder of the highest point, you better remember that the metal deck you were about to lay your forearms on was as hot as a cast iron skillet! But, as kids we couldn't care less; we were fighting on the greatest battleship to have ever sailed.

As I grew older, my fondness for the USS *Texas* remained, and I learned more about the amazing legacy of BB 35. Her most notable contributions came in WWII, firing at Nazi defenses during the D-Day invasion at Normandy. Called the "smartest man o'war afloat," the *Texas* was an integral part of many US victories.

As the flagship of the US fleet, the *Texas* was the first of her kind to mount anti-aircraft guns, to use the first commercial radar, to launch an aircraft and to lay claim to the First Marine Division in 1941. At the end of the

War, she made three trips bringing American servicemen home.

On April 21, 1948, the *Texas* was decommissioned and her place in history took root right here in our backyard. School children across Texas saved their nickels to help pay to dry dock the Battleship at the site of the Battlegrounds on the San Jacinto River. As a kid, it was obvious to me why General Sam routed Santa Anna—we had a battleship! It took me awhile to figure out that the Texas Revolution was in the 1800s, and the Battleship *Texas* was used in the 1900s. After all they retired her on San Jacinto Day. While that all made perfectly good sense back then, my love for Texas history in the years to come taught me that they were not one in the same, and General Sam's accomplishments became far more impressive.

Texas still has an "Honorary" Texas Navy. In the 1980s, the Governor of Texas appointed me as an Admiral in the Texas Navy. (Everyone in the Navy is an Admiral.) During my tenure as a judge, the "Mighty T" found its way back into my life, and the lives of offenders I ordered to be "enlisted" into the "Texas Navy." I ordered probationers who were skilled welders, painters, plumbers and electricians to help in the restoration efforts of the Battleship. As one of many creative sentences, this became another effective tool that both served the public and the probationer—a few even went on to be hired by the Parks and Wildlife Department.

During the '80s, the ship needed repairs so it could be taken to Galveston for refurbishing. Several groups helped with the entire operation spearheaded by the Texas Parks Service. The First Texas Volunteers provide major restoration projects and have kept this old ship alive for thousands of visitors each year. The volunteers are working extra hard to prepare the ship for her 100th birthday bash.

Today, the Battleship *Texas* serves as a museum and a reminder of wars long past. In 1948, she was designated a National Historic Landmark. The *Texas* has an onboard museum that details her efforts in our fight for freedom and a history of the sailors that called her their own. The San Jacinto State Historical Park is just a short drive—tour the ship, enjoy the festivities, and relive some history aboard the magnificent USS *Texas*. And that's just the way it is.

IN RECOGNITION OF INTEL  
SCIENCE TALENT SEARCH FI-  
NALISTS KATHY CAMENZIND,  
ESHA MAITI, AND EMILY PANG

**HON. ERIC SWALWELL**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 13, 2014*

Mr. SWALWELL of California. Mr. Speaker, I rise to recognize three finalists for the Intel Science Talent Search: Kathy Camenzind and Esha Maiti from California High School, and Emily Pang from Dougherty Valley High School, all from San Ramon, California in my congressional district.

These bright high school students are among the forty finalists selected from over 1,800 entrants in the Intel Science Talent Search, which is a competition that challenges students to tackle difficult scientific questions.
