

the benefits provided under the program via policy holder surcharges to the extent the aggregate insured losses are less than twenty-seven billion five hundred million dollars and enables the government to recoup expenditures beyond that mandatory recoupment amount; and

Whereas, without question, TRIPRA and its successors are the principal reason for the continued stability in the insurance and reinsurance market for terrorism insurance to the benefit of our overall economy; and

Whereas, the presence of a robust private and public partnership has provided stability and predictability and has allowed insurers to actively participate in the market in a meaningful way; and

Whereas, without a program such as TRIPRA, many of our citizens who want and need terrorism coverage to operate their businesses all across the nation would be either unable to get insurance or unable to afford the limited coverage that would be available; and

Whereas, without federally provided reinsurance, property and casualty insurers will face less availability of terrorism reinsurance and will therefore be severely restricted in their ability to provide sufficient coverage for acts of terrorism to support our economy; and

Whereas, despite the hard work and dedication of this nation's counterterrorism agencies and the bravery of the men and women in uniform who fought and continue to fight battles abroad to keep us safe here at home, the threat from terrorist attacks in the United States is both real and substantial and will remain as such for the foreseeable future; Now, therefore, be it

Resolved, That the Senate of the Legislature of Louisiana hereby memorializes the Congress of the United States to reauthorize the Terrorism Risk Insurance Program and be it further

Resolved, That a copy of this Resolution shall be transmitted to the secretary of the United States Senate and the clerk of the United States House of Representatives and to each member of the Louisiana delegation to the United States Congress.

POM-234. A concurrent resolution adopted by the Legislature of the State of Louisiana recognizing May 2014 as Amyotrophic Lateral Sclerosis Awareness Month and memorializing the Congress of the United States to enact legislation to provide additional research funding relative to finding a treatment and cure for Amyotrophic Lateral Sclerosis; to the Committee on Health, Education, Labor, and Pensions.

SENATE CONCURRENT RESOLUTION NO. 52

Whereas, amyotrophic lateral sclerosis, or ALS, is more commonly known as Lou Gehrig's disease; and

Whereas, ALS is a fatal neurodegenerative disease characterized by degeneration of cell bodies of the lower motor neurons in the gray matter of the anterior horns of the spinal cord; and

Whereas, the initial symptom of ALS is usually weakness of the skeletal muscles, especially those of the extremities; and

Whereas, as ALS progresses, the patient typically experiences difficulty in swallowing, talking, and breathing; and

Whereas, ALS eventually causes muscles to atrophy and the patient becomes a functional quadriplegic; and

Whereas, ALS does not affect mental capacity of the patient, such that the patient remains alert and aware of surroundings and aware of the loss of motor functions and the inevitable outcome of continued deterioration and death; and

Whereas, on average, patients diagnosed with ALS survive only two to five years from the time of diagnosis; and

Whereas, despite the catastrophic consequences of a diagnosis of ALS, the disease currently has no known cause, means of protection, or cure; and

Whereas, research indicates that military veterans are at a sixty percent greater risk of developing ALS than those who have not served in the military; and

Whereas, the United States Department of Veterans Affairs has promulgated regulations to establish a presumption of service connection for ALS thereby presuming that the development of ALS was incurred or aggravated by a veteran's service in the military; and

Whereas, a national ALS registry, administered by the Centers for Disease Control and Prevention, is currently identifying cases of ALS in the United States and may become the largest ALS research project ever undertaken; and

Whereas, Amyotrophic Lateral Sclerosis Awareness Month increases the awareness of the circumstances of living with ALS and acknowledges the terrible impact this disease has not only on the patient, but also on the family and community of anyone receiving such a diagnosis; and

Whereas, Amyotrophic Lateral Sclerosis Awareness Month also increases awareness of research being done to eradicate this dire disease. Now, therefore, be it

Resolved, That the Legislature of Louisiana does hereby recognize May 2014 as Amyotrophic Lateral Sclerosis Awareness Month; and be it further

Resolved, That the Legislature of Louisiana does hereby memorialize the Congress of the United States to enact legislation to provide additional funding for research in order to find a treatment and cure for Amyotrophic Lateral Sclerosis; and be it further

Resolved, That a copy of this Resolution be transmitted to the secretary of the United States Senate and the clerk of the United States House of Representatives and to each member of the Louisiana delegation to the United States Congress.
