

Whereas it is estimated that there are 1,800,000 paid caregivers in the United States;

Whereas both unpaid family caregivers and paid caregivers work together to serve the daily living needs of seniors who live in their own homes;

Whereas employment of caregivers is projected to grow 49 percent from 2012 to 2022, much faster than the projected average growth of all occupations; and

Whereas as a senior is able to assume responsibility for more of his or her own care, the burden on public payment systems in the Federal government and State governments decreases: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring), That Congress—*

(1) recognizes the valuable contributions of caregivers;

(2) supports paid caregivers, the private home care industry, and the efforts of family caregivers in the United States by encouraging individuals to provide care to family, friends, and neighbors;

(3) encourages accessible and affordable self-directed care for seniors;

(4) should review Federal programs that address the needs of seniors and the family caregivers of seniors; and

(5) encourages the Secretary of Health and Human Services to continue efforts to educate the people of the United States on the impact of aging and the importance of knowing the options available to seniors when seniors need care to meet their personal needs.
