HONORING MRS. MARY LEE
TAYLOR

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 31, 2014

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor a former educator and longtime community activist from Tallahatchie County, MS, Mrs. Mary Lee Taylor.

Mrs. Taylor is 101 years old. She was born January 17, 1913 in Paynes, MS. Her years have been long and her mind is full of many stories her eyes have seen. I am talking about trying times, historical eras, blue skies, and personal achievements.

Mrs. Taylor is a 1936 graduate of the Tallahatchie County Training School. She went on to continue her education at Rust College in Holly Springs, MS and at the Mississippi Vocational College (now referred to as Mississippi Valley State University) in Itta Bena, MS. There she received her Bachelor of Science Degree.

Her age has not had an effect on her memory which brings smiles to her face. One of her personal achievements is that Mrs. Taylor

is the only person in her family who received an education, according to her son, Mervyn Leon Taylor.

Mrs. Taylor taught 1st grade and adult education classes. Another achievement of Mrs. Taylor is that she was one of the original pioneers who led the effort to bring the Head Start program to Charleston and across Tallahatchie County. Her list of fighting for the citizens of Tallahatchie County and surrounding communities goes on to include road improvements in the Black community, and bringing electricity and telephone service to the Black communities.

Her son, Mervyn, said his mother wasn't just active locally but also overseas. She traveled to poverty stricken areas on mission trips. Mrs. Taylor was also an active member in her church, St. Paul Christian Methodist Episcopal (C.M.E.) Church. She served as president of the local missionary, president of the Northern District Episcopal faith domination, and missionary president of the northern and southern Mississippi C.M.E. conferences.

Mrs. Taylor is the widow of the late Mr. Jimmy M. Taylor. She now lives in the Blue Cane Community, right outside of Charleston.

Mr. Speaker, I ask my colleagues to join me in recognizing Mrs. Mary Lee Taylor a pioneer in her community who has helped to pave the way for others, like you and me, to come along.

“ALL-OF-THE-ABOVE” ENERGY
APPROACH

HON. TOM REED

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 31, 2014

Mr. REED. Mr. Speaker, I rise today to discuss the importance of an “all-of-the-above” energy approach for our nation's future. By taking this fair and reasonable approach to domestic energy exploration and production, we can properly care for the energy needs of families and businesses in New York, and across the country, while promoting American jobs, boosting national security and taking care of the environment.

Last year, 13 percent of electricity in the United States was produced from renewable sources, ranking us second in the world. This development has improved environmental quality while providing power to our nation's homes and businesses. Since I care about our fellow Americans health, this is the right thing to do. Additionally, the growing use of alternative and renewable fuels lower imports of foreign energy, improves our national security by reducing foreign energy consumption, and creates jobs for families across the country. In addition, clean natural gas development is bringing with it job growth and revitalizing manufacturing in towns and cities across America.

We can create jobs, provide quality energy to American businesses and families, care for the environment and support national security if we, as a nation, focus on an “all-of-the-above” energy approach.
