

This legislation, along with others we will consider today, will help remove the Federal Government from the backs of small business owners and make it easier for all Americans to succeed.

It will revise regulations to include startup companies, to eliminate redundant and duplicative provisions, and to discourage the disclosure of immaterial information, among other simplifications. Now is the time to remove these roadblocks on the pathway to success.

The American people are looking for us to ease some of these painful economic burdens, and today, we have an opportunity to support legislation that will have a positive impact on our economy, that which limits the challenges on small business owners and job creators.

Let's work together in this Chamber and pass this series of bills in a bipartisan fashion. Let's show our constituents that we are serious about recharging our economic engine by pursuing commonsense regulatory reforms.

I would like to thank Chairman HENSARLING, Representative GARRETT, Representative HURT, and the rest of the members of the Financial Services Committee, who worked hard on this issue. I urge my colleagues in the House to support this legislation.

Mr. GARRETT. I appreciate the gentleman's coming to the floor. More importantly, I appreciate the gentleman's efforts and hard work on this legislation in committee. Thank you very much.

Mr. Speaker, I yield back the balance of my time.
