1ST SESSION

H. R. 2253

To amend title XIX of the Social Security Act to extend the application of the Medicare payment rate floor to primary care services furnished under Medicaid and to apply the rate floor to additional providers of primary care services.

IN THE HOUSE OF REPRESENTATIVES

MAY 12, 2015

Ms. CASTOR of Florida (for herself and Ms. SPEIER) introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To amend title XIX of the Social Security Act to extend the application of the Medicare payment rate floor to primary care services furnished under Medicaid and to apply the rate floor to additional providers of primary care services.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Ensuring Access to
5 Primary Care for Women & Children Act”.

6 **SEC. 2. FINDINGS.**

7 Congress finds as follows:

1 (1) Medicaid plays a key role in providing cov-
2 erage for millions of working families.

3 (2) Medicaid enrollees include families, preg-
4 nant women, children, individuals with disabilities,
5 and other low-income individuals. Without Medicaid
6 coverage, many enrollees would be uninsured or lack
7 coverage for services they need.

8 (3) In 2014, the Medicaid program covered
9 69,000,000 individuals, or 1 in every 5 Americans.
10 This number will continue to grow, particularly since
11 the Affordable Care Act significantly expanded eligi-
12 bility to millions of uninsured adults.

13 (4) If all States expand their Medicaid pro-
14 grams, an estimated 7,000,000 women ages 18 to 64
15 would gain coverage under Medicaid.

16 (5) In 47 States and in the District of Colum-
17 bia, Medicaid pays up to 67 percent less than Medi-
18 care for the same primary care services.

19 (6) Congress has recognized that low provider
20 participation in Medicaid decreases access to health
21 care. To address this problem, Congress acted to in-
22 crease Medicaid payments for certain primary care
23 services to be not less than the Medicare payment
24 rates for 2013 and 2014.

1 (7) As more Americans become insured and em-
2 powered participants in their own health care, de-
3 mand for primary care services is expected to in-
4 crease over the next few years.

5 (8) According to a study published earlier this
6 year in the New England Journal of Medicine, high-
7 er Medicaid payment rates have significantly in-
8 creased appointment availability for Medicaid enroll-
9 ees.

10 (9) Six in 10 women ages 18 to 44 (58 percent)
11 report they see an obstetrics and gynecology (OB/
12 GYN) physician on a regular basis. They are more
13 likely to see their OB/GYN physician on a regular
14 basis than any other type of provider. Given that
15 women comprise the majority of Medicaid enrollees,
16 it is critical that primary care providers, including
17 OB/GYN physicians, receive sufficient reimburse-
18 ment to participate in Medicaid.

19 (10) Nurse practitioners and other health pro-
20 fessionals deliver many primary care services. Apply-
21 ing Medicare's rates for nurse practitioners and
22 other health professionals encourages greater partici-
23 pation in Medicaid, thereby increasing access to pri-
24 mary care, particularly in underserved areas.

1 (11) The enhanced Medicaid reimbursement
 2 rate ensures providers have the financial capability
 3 to serve their patients' primary care needs. Further-
 4 more, adding nurse practitioners, physician assist-
 5 ants, certified nurse-midwives, and OB/GYN physi-
 6 cians serving in primary care settings increases ac-
 7 cess to critical health care services for women and
 8 children nationwide.

9 **SEC. 3. RENEWAL OF APPLICATION OF MEDICARE PAY-**
 10 **MENT RATE FLOOR TO PRIMARY CARE SERV-**
 11 **ICES FURNISHED UNDER MEDICAID AND IN-**
 12 **CLUSION OF ADDITIONAL PROVIDERS.**
