## A BILL

To promote permanent families for children, privacy and safety for unwed mothers, responsible fatherhood, and security for adoptive parents by establishing a National Responsible Father Registry and encouraging States to enter into agreements to contribute the information contained in the State's Responsible Father Registry to the National Responsible Father Registry, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Protecting Adoption  
3 Act”.

4 **SEC. 2. FINDINGS AND PURPOSES.**

5 (a) FINDINGS.—Congress makes the following find-  
6 ings:

7 (1) Responsible father registries, also known as  
8 possible father registries or putative father reg-  
9 istries, exist in as many as 34 States.

10 (2) The Supreme Court of the United States in  
11 *Lehr v. Robertson* (463 U.S. 248) (1983), found re-  
12 sponsible father registries to be constitutional.

13 (3) Responsible father registries help to speed  
14 up the stable placement of children by providing a  
15 mechanism to determine whether there are any pos-  
16 sible fathers who may have an interest in partici-  
17 pating in the placement decisions of the child so that  
18 the possible father can timely assert his rights or so  
19 that the father’s rights can be waived, surrendered,  
20 or terminated and the child made available for adop-  
21 tion or placement.

22 (4) Responsible father registries protect the pri-  
23 vacy and safety of unwed mothers by removing the  
24 burden from the mother to provide information  
25 about any possible fathers, disclosure of which would  
26 be an invasion of her privacy and may cause harm

1 to the mother, particularly in the case of rape or do-  
2 mestic violence.

3 (5) Responsible father registries serve to pro-  
4 tect the rights of men who wish to be involved in the  
5 placement decisions of a child they believe they may  
6 have fathered by creating a mechanism for such men  
7 to undertake responsibility and to protect their  
8 rights without having to rely upon others to protect  
9 their rights, and to indicate their desire to be noti-  
10 fied in a timely manner of certain legal proceedings  
11 related to the child, including proceedings related to  
12 termination of rights, adoption, and the placement  
13 of the child into State custody.

14 (6) Responsible father registries protect the pri-  
15 vacy of possible fathers by providing a mechanism  
16 for men to submit identifying information to a data-  
17 base with restricted access.

18 (7) Responsible father registries protect the in-  
19 terests of adoptive parents and increase the security  
20 of adoptions by reducing the risk that possible fa-  
21 thers cannot be located in a timely manner. One of  
22 the biggest risks to the finalization of an adoption  
23 is the inability of the parties to an adoption pro-  
24 ceeding to timely locate the possible fathers. When  
25 possible fathers are not provided with timely notice

1 of an adoption proceeding related to a child they  
2 may have fathered and discover such proceeding  
3 later, the adoption proceeding often is delayed or  
4 disrupted. In addition to causing emotional stress  
5 and significant costs associated with this problem,  
6 such cases, particularly when they attract media at-  
7 tention, create a chilling effect on adoption in that  
8 prospective adoptive parents may decide not to pur-  
9 sue the option of adoption for fear that they will be  
10 involved in such a case.

11 (8) Interstate travel of mothers and the filing  
12 of legal actions relating to a child in a State other  
13 than the State in which a possible father may have  
14 registered may circumvent and eliminate the protec-  
15 tions such unwed mothers and possible fathers are  
16 provided by the individual State Responsible Father  
17 Registries, because there are no agreements or  
18 mechanisms between the States to identify or to pro-  
19 vide notice to possible fathers who have registered in  
20 another State.

21 (9) The inability of States to coordinate and  
22 cross-check their responsible father registries may  
23 jeopardize or delay the placement of the child in a  
24 permanent home and undermines the benefits to  
25 unwed mothers, protections intended for registered

1 possible fathers, and security for adoptive parents  
2 that State registries are intended to afford.

3 (b) PURPOSES.—The purposes of this Act are—

4 (1) to provide for a national database that  
5 would accept possible father registrations from par-  
6 ticipating State Responsible Father Registries and  
7 directly from possible fathers, and would transmit  
8 the results of specific searches of such registrations  
9 to authorized parties involved in any State’s pro-  
10 ceedings, whether the State participates in the na-  
11 tional registry or not, for adoption, the placement of  
12 a child in State custody, or the termination of a fa-  
13 ther’s rights;

14 (2) to enable children to find a permanent home  
15 more quickly by providing identifying information on  
16 possible fathers thereby enabling the fathers’ rights  
17 to be addressed in a more timely manner;

18 (3) to remove the burden from the mother of  
19 having to identify potential fathers, to protect her  
20 privacy and safety, especially in cases of rape or do-  
21 mestic violence;

22 (4) to empower men to take responsibility for  
23 the protection of their rights by enabling them to  
24 register in a participating State or directly with the  
25 national registry, increasing the likelihood of men re-

1 ceiving notice of a proceeding in another State and  
 2 reducing the opportunity for the mother to deprive  
 3 a possible father of the ability to assert his rights  
 4 by withholding accurate information concerning the  
 5 possible father, by moving, or by traveling to an-  
 6 other State; and

7 (5) to reduce the risk to prospective adoptive  
 8 parents of delayed or disrupted placements resulting  
 9 from challenges to adoptions due to a possible fa-  
 10 ther’s untimely receipt of notice of such proceedings.
