14 (1) The Greater Grand Canyon ecosystem and
15 watershed contains various tribal sacred sites and
16 resources, including religious places and burial sites,
17 with significant ancestral and contemporary values
18 to the Grand Canyon-associated tribes.

19 (2) The Grand Canyon-associated tribes have a
20 longstanding historical, cultural and religious con-
21 nection the Greater Grand Canyon ecosystem and
22 watershed and should play an integral role, through
23 collaboration and consultation, in the planning and
24 ongoing management of the monument.

1 (3) The Grand Canyon-associated tribes have
2 historically been stewards of the region, with obliga-
3 tions to care for the land that has provided for them
4 since time immemorial, including natural and cul-
5 tural resources such as ancestral sites, sacred places,
6 plants, wildlife, water sources, and minerals, result-
7 ing in an accumulated body of traditional ecological
8 knowledge that holds great potential for contributing
9 to the sustainable and holistic management of the
10 unique and fragile landscape.

11 (4) The surface tributaries and interconnected
12 ground water of the Greater Grand Canyon eco-
13 system and watershed are the source for Native

18 significant biological, cultural, recreational, geologi-
19 cal, educational, and scientific values.

2 millions of American citizens.

3 (7) The Greater Grand Canyon ecosystem and
4 watershed contains a diverse array of canyons, cliffs,
5 grasslands, springs, and escarpments that create a
6 landscape unlike any other within America.

7 (8) Wildlife corridors within the Greater Grand
8 Canyon ecosystem and watershed facilitate the mi-
9 gration and survival of many native game species
10 while the rivers, forests, and grasslands provide
11 habitat for many rare, threatened, and endangered
12 species.

13 (9) The Greater Grand Canyon ecosystem and
14 watershed provides a wild and rugged landscape en-
15 joyed by hunters, campers, hikers, mountain bikers,
16 equestrians, and other recreationists.

17 (10) Recreational activity within the watershed
18 is the primary driver of sustainable economic devel-
19 opment in local communities.

20 (b) ESTABLISHMENT.—Subject to valid existing
21 rights, there is hereby established the Greater Grand Can-
22 yon Heritage National Monument in the State of Arizona,

9 geological, hydrological, education, scenic and sci-
10 entific values found in the Greater Grand Canyon
11 ecosystem and watershed, including above-ground
12 tributaries, springs and interconnected groundwater
13 that contribute significantly to the Colorado River;
14 and
