RESOLUTION

Expressing the sense of the House of Representatives that adding art and design into Federal programs that target the Science, Technology, Engineering, and Mathematics (STEM) fields encourages innovation and economic growth in the United States.

Whereas the innovative practices of art and design play an essential role in improving Science, Technology, Engineering, and Mathematics (STEM) education and advancing STEM research;

Whereas art and design provide real solutions for our everyday lives, distinguish United States products in a global marketplace, and create opportunity for economic growth;

Whereas artists and designers can effectively communicate complex data and scientific information to multiple stakeholders and broad audiences;

Whereas the tools and methods of design offer new models for creative problem solving and interdisciplinary partnerships in a changing world;

Whereas artists and designers are playing an integral role in the development of modern technology;

Whereas artists and designers are playing a key role in manufacturing;

Whereas adding art and design to Federal STEM programs has the potential for recruiting underrepresented populations into STEM fields; and

Whereas May would be an appropriate month to designate as “STEM-to-STEAM Month”: Now, therefore, be it
