RESOLUTION

Recognizing January 2015 as “National Mentoring Month”.

Whereas in 2002, the Harvard School of Public Health and MENTOR: the National Mentoring Partnership created National Mentoring Month;

Whereas the goals of National Mentoring Month are to raise awareness of mentoring, recruit individuals to mentor, and encourage organizations to engage and integrate quality in mentoring into their efforts;

Whereas a mentor is a caring, consistent presence who devotes time to a young person to help that young person

discover personal strength and achieve their potential through a structured and trusting relationship;

Whereas quality mentoring encourages positive choices, promotes self-esteem, supports academic achievement and introduces young people to new ideas;

Whereas mentoring programs have shown to be effective in combating school violence and discipline problems, substance abuse, incarceration and truancy;

Whereas research shows that young people who were at risk for not completing high school but who had a mentor were 55 percent more likely to be enrolled in college, 81 percent more likely to report participating regularly in sports or extracurricular activities, more than twice as likely to say they held a leadership position in a club or sports team, and 78 percent more likely to volunteer regularly in their communities;

Whereas youth development experts agree that mentoring is critical to the social, emotional, and cognitive development of youth, helping them navigate the path to adulthood more successfully;

Whereas mentors help young people set career goals and use their personal contacts to help young people meet industry professionals and find jobs;

Whereas mentoring is a proven cost-effective investment: for every \$1 invested in mentoring, there is a \$3 return to society;

Whereas all of the above listed benefits serve to link youth to economic opportunity while also strengthening the fiber of our communities; and

Whereas despite these benefits, 1 in 3 youth will reach age 19 without a mentor, constituting a “mentoring gap”

that demonstrates a need for collaboration and resources:

Now, therefore, be it
