## IN THE SENATE OF THE UNITED STATES

JULY 14, 2016

Mr. WYDEN (for himself and Mr. MERKLEY) introduced the following bill; which was read twice and referred to the Committee on Rules and Administration

---

## A BILL

To amend the Help America Vote Act of 2002 to allow all eligible voters to vote by mail in Federal elections, to amend the National Voter Registration Act of 1993 to provide for automatic voter registration.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Vote By Mail Act of  
5 2016”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

1           (1) An inequity of voting rights exists in the  
2 United States because voters in some States have  
3 the universal right to vote by mail while voters in  
4 other States do not.

5           (2) Many voters often have work, family, or  
6 other commitments that make getting to polls and  
7 waiting in line on the date of an election difficult or  
8 impossible. Many citizens with disabilities are phys-  
9 ically unable to vote due to long lines, inadequate  
10 parking, no curb cuts, steep ramps, and large  
11 crowds. In 2012, 30 percent of voters with disabil-  
12 ities had difficulty voting, and more than 5,000,000  
13 voters waited more than an hour to vote. Under cur-  
14 rent State laws, many of these voters are not per-  
15 mitted to vote by mail.

16           (3) Twenty-eight States currently allow uni-  
17 versal absentee voting (also known as “no-excuse”  
18 absentee voting), which permits any voter to request  
19 a mail-in ballot without providing a reason for the  
20 request. No State which has implemented no-excuse  
21 absentee voting has repealed it.

22           (4) Three States currently hold elections en-  
23 tirely by mail. Twenty-two States currently allow  
24 some elections to be conducted by mail, especially in  
25 large and rural jurisdictions where voting by mail is

1 especially convenient. Polling stations in rural juris-  
2 dictions tend to have higher costs per voter, smaller  
3 staffs, and limited resources. Transportation is often  
4 a crucial barrier for rural voters.

5 (5) Voting by mail gives voters more time to  
6 consider their choices, which is especially important  
7 as many ballots contain greater numbers of ques-  
8 tions about complex issues than in the past due to  
9 the expanded use of the initiative and referendum  
10 process in many States.

11 (6) Voting by mail is cost effective. After the  
12 State of Oregon adopted vote by mail for all voters  
13 in 1996, the cost to administer an election in the  
14 State dropped by nearly 30 percent over the next  
15 few elections, from \$3.07 per voter to \$2.21 per  
16 voter. After Colorado implemented all-mail balloting  
17 in 2013, voting administration costs decreased by an  
18 average of 40 percent. The cost of conducting vote-  
19 by-mail elections is generally one-third to one-half  
20 less than conducting polling place elections. Voting  
21 by mail also saves a substantial amount by getting  
22 rid of the temporary labor costs of hiring poll work-  
23 ers. In addition to that cost, many jurisdictions have  
24 been facing difficulty in obtaining sufficient numbers  
25 of poll workers.

1           (7) Allowing all voters the option to vote by  
2 mail can reduce waiting times for those voters who  
3 choose to vote at the polls. In 2016, voters in Ari-  
4 zona reported waiting in line from 1 to 5 hours to  
5 vote; in New York, voters reported that stations ran  
6 out of ballots and did not have staff during all of  
7 the hours scheduled for voting.

8           (8) Voting by mail is preferable to many voters  
9 as an alternative to going to the polls. In 2012, 19  
10 percent of ballots in the United States were cast by  
11 mail, up from 10 percent in 2000. Voting by mail  
12 has become increasingly popular with voters who  
13 want to be certain that they are able to vote no mat-  
14 ter what comes up on election day, as it reduces the  
15 physical obstacles and eases the time constraints  
16 connected with the act of voting.

17           (9) The signature verification process, the  
18 tracking system for each ballot, and postal service  
19 cooperation in preventing ballots from being deliv-  
20 ered to names not recognized as receiving mail at an  
21 address nearly eliminate the potential for fraud in  
22 vote-by-mail elections. Evidence of undue influence  
23 or voter coercion after vote-by-mail implementation  
24 in Oregon has been nonexistent to minimal.

1           (10) Many of the reasons which voters in many  
2 States are required to provide in order to vote by  
3 mail require the revelation of personal information  
4 about health, travel plans, or religious activities,  
5 which violate voters' privacy while doing nothing to  
6 prevent voter fraud.

7           (11) State laws which require voters to obtain  
8 a notary signature to vote by mail only add cost and  
9 inconvenience to voters without increasing security.

10           (12) Many voters choose to cast ballots early  
11 when they have the option (over 40 percent in Ne-  
12 vada, New Mexico, Texas, and Tennessee). Nearly  
13 one-third of voters in the 2012 election cast their  
14 ballot before election day, which is about double the  
15 rate of voters in 2000. In Oregon, 7 years after  
16 vote-by-mail election implementation, over 80 per-  
17 cent of voters favored the vote-by-mail system.

18           (13) Voting by mail typically increases turnout  
19 in all elections, but can be particularly effective in  
20 increasing voter participation in special elections and  
21 primary elections. Oregon and Washington, the 2  
22 States with the longest standing vote-by-mail sys-  
23 tems, continue to have consistently high voter turn-  
24 out rates. In the 2012 primary elections, while the

1 national average turnout was 18 percent, Oregon’s  
2 was 45 percent and Washington’s was 38 percent.

3 (14) A crucial component of a modern voting  
4 system is making it easy, affordable, and accessible  
5 to register to vote. Eighteen States and the District  
6 of Columbia introduced automatic voter registration  
7 legislation in 2015, and Oregon and California now  
8 automatically register their citizens to vote when  
9 they apply for a driver’s license. Automatic, perma-  
10 nent voter registration has the potential to increase  
11 participation, protect election integrity, and reduce  
12 registration costs.
